Chapter 421.1: Entrapmen

It was a lot easier to get out of the Dragon Palace, at least the current Xiao Tian could control almost everything here. After returning to the original road, the five-element cable hook stretched out several times in Yang Chen's hand and hooked to the top five buckles.

The huge suction force couldn't compete with the power of the five elements hook, Yang Chen easily returned to the entrance. At this moment, the powerful suction and endless vortex that was in the sea of no return seems to have no effect on Xiao Tian. For Yang Chen, a guy who has just had his body refining technique promoted to river turning strength, although there were still some obstacles, it was no longer involuntary.

Soon after, Yang Chen stood up for the shuttle to break away from the core area of the sea of no return and began to fly towards the periphery. With his spiritual awareness that has reached the realm of the human immortal first grade, unscrupulously sweeping in this area, even without the magical power crystal of Lan Ying, no sea beast dared to come a little closer.

While enjoying this powerful feeling of transcending the limits of this mundane world, Yang Chen suddenly found that in a certain direction in the sea of no return, there were actually dozens of masters gathered.

Sun Chun was a peak Yuanying stage master in the Greatest Heaven Sect. He was also the link between the Greatest Heaven Sect and the Hidden Dragon Cave Yu Wenyi. From the beginning of their cultivation, he and Yu Wenyi were friends, and even the two had battled several times in private. They were both opponents of chess, and had a close relationship.

More than a year ago, Sun Chun suddenly received news from the South China Sea that the Hidden Dragon Cave was uprooted by people and almost completely annihilated. What remained were just a few lucky fishes and shrimps that were not in Hidden Dragon Cave at the time who did not even know Yu Wenyi's true identity.

This news surprised Sun Chun. Although sects were not very many in the South China Sea, they were added together. There were also dozens of Yuanying stage masters. Especially the Yuanying stage masters of the seven births, by relying on a set of seven-star sword array, they could almost compete with the masters in the early dacheng stage. Such a combat power has been uprooted?

The news came from Sun Chun, the secret spy of the Hidden Dragon Cave, who had been kept secretly watching the Hidden Dragon Cave. He could not lie, this was not a betrayal of the Hidden Dragon Cave, but an eradication. There was no need to lie.

Among the murderers who removed the Hidden Dragon Cave, Sun Chun heard Yang Chen's name. He originally thought it was a coincidence of the same name, but after adding the Ten Thousand Treasure Tower, it was confirmed that it was Yang Chen of the Pure Yang Palace.

How did Yang Chen appear in the South China Sea, and also wiped out the masters of the Hidden Dragon Cave? How did this happen? No one knew why Yang Chen made the move.

Although the South China Sea was far away, the Greatest Heaven Sect did not intend to control it in the palm of their hand in a short time, but it also planned for hundreds of years. Originally thinking that the slow grinding of the meat by using a blunt knife like Yu Wenyi could also control the South China Sea Alliance invisibly, but unexpectedly, the hard work of hundreds of years was turned into nothing.

It's related to Yang Chen again. This guy has a haunting spirit. It seemed to be known all day that he was causing trouble to the Greatest Heaven Sect and ninety-nine percent of the senior executives hoped that Yang Chen would die.

However, now Yang Chen could not die yet. According to news from the Green Jade Immortal Island and Blue Cloud Sect, three dacheng stage elders who were injured in their two sects already under the fifth grade medicinal pill that Yang Chen refined. The injuries healed as much as possible. Even more than that, after experiencing this torture, the three masters had a greatly tempered their minds.

In contrast, their three dacheng stage elders' injuries were getting more serious and there were even signs that they cannot be suppressed. Several elixirs that have been refined by skilled alchemy masters could only limit the injuries of the three elders. As for healing, it was simply impossible.

In this case, how could the Greatest Heaven Sect let Yang Chen die. Yang Chen was now a little guy, although he was a master of alchemy in the fifth grade, but he has only had a disagreement with Li Qingchen and even helped the Greatest Heaven Sect very generously in the interpretation of the secret plane's key.

The reason why the Greatest Heaven Sect wanted Yang Chen to die was simply because they couldn't control Yang Chen and his achievements were a little more outstanding, but he wasn't a life-and-death enemy. From the perspective of the Greatest Heaven Sect, they were far from knowing how Yang Chen has hurt them and they don't have that kind of bitter hatred.

On one side were three dacheng stage masters of their own and on the other side, a second-rate small martial art sect master who they couldn't control. The two sides were weighed together and they naturally decided to maintain the combat power of the dacheng stage masters. Now the Greatest Heaven Sect has already suffered huge losses. If these three masters were lost again, their strength would be reduced by a whole level.

The intention of the sect was to let Sun Chun come to investigate what happened, if possible, it was best to repair their relationship with Yang Chen. Of course, the best result was to control Yang Chen. To this end, Sun Chun was even allowed to bring 20 Yuanying stage masters. They strived to be stronger than the destroyed Hidden Dragon Cave.

Sun Chun was also careful not to reveal his strength along the way, he brought a space magic weapon and put everyone else into the magic weapon and quickly rushed to the South China Sea.

When he arrived in the South China Sea, he knew immediately what had happened. The people in the Hidden Dragon Cave were greedy for property and they attacked without knowing the real background of the Ten Thousand Treasure Tower, annoying Yang Chen. Yang Chen brought eleven Yuanying stage masters and a person who they could not see his depth but should be in the dacheng stage and the Hidden Dragon Cave was uprooted.

This matter was very big in the South China Sea and Yang Chen has never concealed it. Even at the last moment, Yu Wenyi did not conceal his promotion. Sun Chun didn't waste much effort to know what happened.

Upon hearing the appearance of a master whose depth could not be seen, Sun Chun knew that it was Gui Shanyou from the Pure Yang Palace. No matter how powerful, not to mention a newly promoted dacheng stage, even a master who has been promoted for 100 years may not be an opponent of the old guy. Yang Chen brought Gui Shanyou, so the Hidden Dragon Cave didn't have a chance at all.

The other ten could basically be the hall of eccentrics masters that has joined the Pure Yang Palace in recent years, only Hou Yun was a stranger. What made Sun Chun happy was that when he left the Greatest Heaven Sect, the old tree demon Gui Shanyou had returned to the Pure Yang Palace with the

ten Yuanying stage masters. Only Yang Chen and Gongsun Ling and the mysterious Hou Yun didn't come back.

Their whereabouts were unknown to others, but Sun Chun has a compass, so he could easily find the location of Yang Chen. According to the location he was looking for, Yang Chen was still in the South China Sea, and he went to a famous fierce land in the South China Sea called the sea of no return. Although he didn't know what Yang Chen did, one thing was certain, Yang Chen was still alive.

Chapter 421.2: Entrapmen

The most important point was that Yang Chen does not have Gui Shanyou beside him, only Gongsun Ling and Hou Yun. Hou Yun was said to be a master in the peak Yuanying stage, but that was not important. The important thing was that there were no top masters of the Pure Yang Palace beside Yang Chen and the sky was high in the South China Sea. Even if they do it, the Pure Yang Palace would not know who did it.

There have been six Yuanying masters killed instantly for blocking Yang Chen, but everyone suspected that it was Gui Shanyou who has always followed Yang Chen, otherwise it was impossible to do this with Yang Chen's ability.

Now Gui Shanyou was determined to be in the Pure Yangyang Palace, which was at least one year away from the sea of no return. Even if he has wings, he cannot fly here so fast. Sun Chun, however, brought 20 Yuanying stage masters. There were four peak Yuanying stage masters that were comparable to him. It was more than enough to kill the unknown Hou Yun. As for Gongsun Ling, a middle Jiedan stage junior, as long as any of the Yuanying stage masters made a move, they could catch her easily.

Coincidentally, Gongsun Ling was one of Yang Chen's wives. As a hostage, Yang Chen would be more obedient. Sun Chun this time, he felt like he was in luck, he was able to encounter such a good opportunity. Not to mention how much benefit he could gain from Yang Chen, a fifth grade alchemy master, in the Greatest Heaven Sect, he could be exchanged for a coveted reward.

Such God given opportunities, if Sun Chun didn't seize it, wouldn't it be against the heavens. So after getting Yang Chen's whereabouts, Sun Chun immediately started to make arrangements.

Of course, Sun Chun was not a reckless person. First of all, he needs to understand the situation. He quickly learned from a rogue cultivator. After he got everything, Sun Chun took the 20 Yuanying stage masters, went around in a circle and went straight to the sea of no return.

Up to the periphery of the sea of no return, Yang Chen's position has not changed, which made Sun Chun very happy. At least he didn't have to worry about Yang Chen leaving.

To catch Yang Chen, the most troublesome thing to be afraid of was Yang Chen's flying magic weapon. Once Yang Chen was able to launch it, in all likelihood Sun Chun could not catch up. Fortunately, in the past, the Greatest Heaven Sect specifically dealt with this magic weapon of Yang Chen, so Sun Chun knew that it was simple and could be realized here.

The boat that was used by the Greatest Heaven Sect the last time failed. Now that there was no magic weapon that could compete with the shuttle, it was natural to look in another direction.

The simplest course was to make Yang Chen unable to use the shuttle. At this moment, Sun Chun had such a method. A sealing formation, once he entered the formation, no matter who it was, his body's spiritual power would be firmly sealed, unless it was a master of the dacheng stage, there would be no way to get rid of it. Obviously, Yang Chen didn't have such a cultivation base yet.

This formation was very powerful, but the shortcomings were equally obvious. Once the formation was launched, the enemy's spiritual power was blocked, but the same would happen to the master of the array's spiritual power.

But Sun Chun doesn't care about this. As long as he enters the battlefield, plus his twenty-one Yuanying stage masters, couldn't he catch a middle Jiedan stage master who also has no spiritual power? The body of the master of the Yuanying stage who has been baptized by the thunder tribulation was by no means in the imagination of those in the Jiedan stage.

The only shortcoming was that this array required a lot of masters to start and the layout time was not short. The enemy would not stumble into the battlefield, once it was seen, he would inevitably return. However, as long as the layout was completed, the masters under the dacheng stage cannot escape the constraints under the conditions that the masters couldn't give full play to their spiritual power.

But with the compass that holds Yang Chen's whereabouts, things were much simpler. This method could also be used in the past, but at that time, everyone did not think that the six masters of the Yuanying stage could not catch Yang Chen. Now for Sun Chun, this opportunity was available.

When setting up the formation, Sun Chun was even surprised to find that Yang Chen seemed to be in the core of the sea of no return. How Yang Chen went in and how he was safe after he entered, these were all things that Sun Chun wanted to know desperately. With this reason, Sun Chun wanted to catch Yang Chen alive more firmly.

There were countless precious materials at the edge of the sea of no return and countless powerful sea beasts. What was in the core would be really exciting. All of this, as long as he grabbed Yang Chen, he could know it thoroughly.

While Sun Chun was constantly exploring the position of Yang Chen, Yang Chen was cultivating in the Dragon Yuan and he couldn't care about anything else. After Yang Chen emerged from the Dragon Palace, he immediately noticed the tremor of the spiritual awareness imprint in his body.

The spiritual awareness mark was planted by the Greatest Heaven Sect young sect master Li Liheng and Yang Chen has confirmed it. Li Liheng has been unconscious for almost every period of time in recent years, exactly the same as the time when Yang Chen threw a part of the spiritual awareness imprint into the bloody river. He did not expect that by accidentally hitting another enemy, he could avenge another enemy. Yang Chen was certainly happy, he kept throwing the mark of consciousness into the river of blood once in a while.

With Yang Chen's human immortal first grade spiritual awareness, he immediately found out what Sun Chun was doing. Even with the formation of Sun Chun, Yang Chen could see clearly and understand it's role clearly.

The other party actually planned to use this method to limit Yang Chen's escape. For a moment, Yang Chen didn't know whether to laugh or mourn for Sun Chun and his party. It was a very strange decision to seal the spiritual power in an attempt to defeat himself with the physical body of a Yuanying stage master who was baptized by the thunder tribulation.

Not to mention for Yang Chen, with the help of the Dragon Yuan, the three purities secret art set the record of allowing him to reach the fourth layer in the mortal world and his spiritual awareness reached the human immortal first grade. It was difficult to say whether Yang Chen could be trapped in this formation. Yang Chen's cultivation of the body refining technique has reached the point where he could overturn a river, but these people wanted to use physical strength to fight against him.

In the face of such a good opportunity, of course, Yang Chen did not hesitate to follow the bridge designed by Sun Chun, plunging into the array that has been arranged for a long time for Yang Chen to throw himself into.

In order to judge Yang Chen's line of movement in the formation, five of the twenty Yuanying stage masters have temporarily lost their combat effectiveness. The remaining fifteen were all trying to maintain the operation of the formation. And Sun Chun himself was standing in the middle of the formation, quietly waiting for Yang Chen's arrival.

He believed that Yang Chen had found the anomaly, but now that he has entered the formation, everything was already too late. At this moment, Yang Chen was like a beast trapped by the formation, which could be slaughtered by anyone.

Regardless of which direction Chen Chen walked as he lost his spiritual power, he would eventually be led to the position of Sun Chun by the formation. Sun Chun, who was at work, has even seen Yang Chen captured by himself, learned the secrets of the sea of no return and learned the secrets of Yang Chen's alchemy.

Chapter 422.1

"Yang Chen, Grandmaster Yang, your current alchemy realm is of no benefit in the Pure Yang Palace." Sun Chun still planned to persuade Yang Chen when he was faced with Yang Chen, after all, an alchemist willing to join was far more precious than being forced to join "Join my Greatest Heaven Sect and you can get everything you want."

When he saw Yang Chen for the first time, Sun Chun was also shocked. If he didn't know that the spiritual awareness imprint would never be wrong, he might think it was someone else. In his impression, Yang Chen's image was a tall and mighty brave man, how did he suddenly become a person with a normal appearance at this moment?

However, this was not the focus of Sun Chun. It was not surprising that many body refining techniques have similar changes. As long as Sun Chun could be sure that the fifth grade alchemist master Yang Chen was in front of him.

Presumably, Yang Chen has discovered the abnormality, but Sun Chun doesn't care. What about the discovery? In this formation, unless it was a person who has a much higher realm than Sun Chun's

realm, he cannot escape the shackles of formation at all. Yang Chen, a small Jiedan stage master could not handle it.

“Just because of this?” Yang Chen looked around. A hundred dozen feet away, there were at least a dozen masters. With such a big battle force, did he want them to fight to the death? Yang Chen needs to figure out this problem. After all, hiding in the dark while attacking and facing the Greatest Heaven Sect directly were two completely different concepts and they also needed different methods.

“Of course, we the Greatest Heaven Sect are very sincere.” Sun Chun saw Yang Chen’s expression was not unexpectedly terrible. Then his heart moved, perhaps Yang Chen’s mind had begun to shake. This was definitely a good phenomenon. As long as Yang Chen was willing to consider, there would be opportunities.

“What kind of sincerity?” At this moment, Yang Chen was in no hurry to start. There was such a master who understood the internal affairs of the Greatest Heaven Sect so it was not impossible to get information out of him.

“As long as we can do it. You can ask.” Sun Chun’s tone was unprecedented. This was not his arrogance, nor was he making decisions on behalf of the masters, but a fifth grade alchemist master, the only fifth grade alchemist master in the mortal world, was worth the price.

“If I don’t agree, will you kill me?” Yang Chen pointed to the surrounding formation and asked again calmly.

“This battle formation can only trap people. It won’t kill people.” Sun Chun shook his head slightly, seemingly sincerely said, “I’m just going to talk to Master Yang and have no other intention.”

Of course, even if he said so, if Yang Chen doesn’t agree, then the formation would become a battle formation to capture Yang Chen. However, Yang Chen now believed that these people did not intend to kill him, they just wanted to win him over or capture him.

“Not planning to kill me?” Yang Chen smiled suddenly: “Let me join the Greatest Heaven Sect. Could the past issues be forgotten? The death of Li Qingchen in your sect, don’t you plan to pursue it?”

“Li Qingchen was originally responsible for his own fault, we can’t blame you.” Sun Chun’s heart became more and more happy, as long as Yang Chen was willing to ask these things, he wouldn’t worry that he would not be tempted. After all, Sun Chun also knew that the first ancestral sect that Yang Chen came to join was the Greatest Heaven Sect, but he was thrown out with no inspection, he had a heart toward the Greatest Heaven Sect, not to mention a Li Qingchen, the master of Li Qingchen, at this moment in order to win Yang Chen would be sold without hesitation.

“What about the six masters of the Yuanying stage?” The smile on Yang Chen’s face was very strange, looking at Sun Chun with a smile. Last time, the Greatest Heaven Sect used six Yuanying stage masters to try to intercept and kill Yang Chen and Yang Chen counter-slaughtered them. Could such a thing be forgiven by the Greatest Heaven Sect?

Sun Chun really knew about the six Yuanying stage masters, but at this moment he didn’t hesitate and nodded directly: “At that time, everyone had a different position. It was inevitable that there were deaths and injuries. Even other people in the sect could figure it out. You don’t have to worry about it. “

After a pause, Sun Chun seemed to want Yang Chen to be completely assured, adding: “Besides, everyone knows that with your own strength, you can’t kill six Yuanying stage brothers. The fault was not with you, although you carry the name of killing on the back, but the sect is too high and the issue will never be pursued again. You can rest assured.”

In order to attract Yang Chen, even the six Yuanying masters who have died in Yang Chen’s hands were no longer held accountable by him. It must be said that the Greatest Heaven Sect this time put a lot of capital aside. Replaced by a small sect, losing six Yuanying stage masters, was almost a tragic disaster, the great assets of the Greatest Heaven Sect was extraordinary.

“Did mister just make this trip for me, Yang Chen?” Yang Chen nodded while listening, but as soon as the topic changed, he immediately switched to the purpose of Sun Chun’s trip.

“Originally, it was just about the cause of the collapse of the Hidden Dragon Cave. I happened to learn that you are here, because of fate.” Sun Chun was also a hoodlum. In order to make Yang Chen completely assured, even the purpose of this trip was also stated “the Hidden Dragon Cave was destroyed this time, and greed caused the trouble. You don’t have to blame yourself Master Yang, you can destroy it as you like.”

“The Hidden Dragon Cave is part of the Greatest Heaven Sect?” Yang Chen asked, staring closely at Sun Chun. The other party even told him about this kind of thing, presumably he was already prepared for

the worst, either to solicit or to capture. There was really no way to put it, such secrets could never be leaked to outsiders.

“Exactly, this time I came down to the South China Sea in order to rebuild a rogue cultivators union.” Since Sun Chun had already made up his mind, he was not afraid to tell Yang Chen “The Greatest Heaven Sect is bound to control the South China Sea. I think Master Yang can see the Greatest Heaven Sect’s strength, not only in the South China Sea, but also in several other places, I have the power of my Greatest Heaven Sect. “

Looking at Yang Chen’s slightly surprised eyes, Sun Chun said more and became excited: “Others thought that the Greatest Heaven Sect was damaged when the mountain gate was destroyed and lost a lot, but only some of the outer sect juniors were lost. As long as it takes time and not a hundred years, my Greatest Heaven Sect would certainly be stronger than now by a few times. The mortal world is so big, but it’s in my hub of the Greatest Heaven Sect. “

“Master Yang, I have told you all the secrets, you join my Greatest Heaven Sect and the things in this world could be demanded by you.” Sun Chun felt that there was enough said, if Yang Chen was smart enough, he should have made a decision by now, right now there should be no more nonsense, he directly asked Yang Chen to respond: “I don’t know what Master Yang intends to do?”

“Mister, you are here to rebuild a rogue cultivators alliance to replace the Hidden Dragon Cave, is it so?” Yang Chen did not directly reply, but asked a seemingly unrelated word.

“Exactly!” Sun Chun did not hide it. If Yang Chen didn’t want to die now, he could only accept Sun Chun’s mercy.

“That’s good!” Yang Chen’s face suddenly smiled “For at least a few decades, the Greatest Heaven Sect probably won’t look for you and these people.”

Chapter 422.2

While Sun Chun was still wondering what Yang Chen meant by this, Yang Chen’s figure had already begun to move. His goal was not directly facing Sun Chun, but the fifteen masters who were close to him within twenty feet.

At a pace that stunned the people, Yang Chen faced the one farthest from him, without a word, he just punched out.

In the formation, these masters knew what would happen, so they had already called out their flying swords and held it in their hands. As soon as the formation was activated, the spiritual power was sealed and the Qiankun bag could not be used, let alone remove their life source flying swords, which could not be taken out from their body. As for using the flying swords to attack people, it was even more unavailable. There was no other way besides holding it in their hands.

Seeing that Yang Chen blasted a punch towards him, the other party was a Yuanying stage master, with rich combat experience, so he was not afraid of it. Fortunately, he still didn't want to hurt Yang Chen, so he only used the spine of the sword, he wanted to stop Yang Chen's punch easily.

No one, including Sun Chun, felt that something unexpected would happen. Originally, the formation was meant to deal with three people, but now there was only Yang Chen, needless to say that it was twenty-one against one, even if it was one against one, they could handle the situation.

With a loud noise, the Yuanying stage master holding the sword felt shock in his hand and he could no longer hold the sword handle. The flying sword flew out his hand, he did not know where it fell. However, Yang Chen's fist momentum didn't stop at all and he still banged with one punch in the opponent's chest.

The Yuanying stage master couldn't avoid it at all. When he was punched, he didn't say anything, he passed out and became unconscious. Yang Chen didn't stay still in the slightest, but turned around and flung towards the other person.

This time, no one would dare to underestimate the enemy, all of them were protecting themselves from the enemy. Several close ones even gathered together to form a team or two, not intending to fight Yang Chen separately.

Who would have thought that Yang Chen, who had his spiritual power sealed, would be so fierce. There was no need to ask, it must be related to his body refining technique. A certain type of refining technique has reached a certain level, and this situation has occurred. However, it was so unfortunate that he broke through at this time.

But no matter what, if they were still unable to win against Yang Chen in a 15 against 1, all the Yuanying stage masters in the field should be killed. Sun Chun's face was dark and he waved at several of the surrounding brothers and sisters for them to attack.

This Yang Chen, who was ignorant of the current situation, still wanted to be lucky under such circumstances.

The furious Greatest Heaven Sect experts almost rushed forward instantly. The little Jiedan stage junior dared to be so arrogant, would he dare to be so arrogant by relying on a body refining technique?

Suddenly, at least eight people rushed to Yang Chen's side, and at least five swords were chopped on Yang Chen's body. Fortunately, these people did not forget to keep Yang Chen alive, all the limbs were targeted, but there was nothing fatal.

However, the next scene that appeared in front of them was simply unimaginable. Five flying swords struck on Yang Chen's body, but they just cut through Yang Chen's clothes, when the blade touched his body, they felt a shock. The five flying swords that had struck suddenly bounced off and not even a white mark was left on the part cut by the blade.

What was this? Without spirit power, magic weapons could never be used, but what kind of cultivation method could counteract the flying swords?

This was not an ordinary sword, but everyone's life source flying sword. It was definitely not done by something a secular world's blacksmith could create such as a golden bell and iron cloth shirt.

In a short period of time, Yang Chen took a few sword strikes without fail, but his fists burst out relentlessly. With several punches, all of them fell on the opponent's chest, using just the right amount of strength. The seven Yuanying stage masters couldn't even withstand a punch and they all fell unconscious.

Within this array that seals spiritual power, Yang Chen's body refining technique was almost like a fish in water. When this immortal skill reached the fifth level, it could compete with those Great Principle Golden Immortals. Although Yang Chen was now only in the third level, it was definitely more than enough to handle a few masters in the Yuanying stage.

What's more, these enemies also sealed their own spiritual power. Yang Chen has seen fools, but he has never seen such fools. He didn't need to ask them to know that this was because they were afraid that his shuttle would be too fast for them to catch up to, but this method of self harming was still too strange that Yang Chen could not help but want to smile.

Actively sending 21 masters in the Yuanying stage to capture him, this was really a masterpiece of the Greatest Heaven Sect. This Sun Chun did not think that he was looking for trouble for himself, but he happened to think that he was bullying him.

At this moment, everyone has gathered. Within the scope of this formation, no one was Yang Chen's opponent. It's a far cry from strength. Within a moment, the remaining Yuanying stage masters, except Sun Chun, were all brought down by Yang Chen with his fists and none escaped.

"You? You?" Sun Chun originally wanted to help the brothers and sisters fight against him, but he didn't expect things to happen so fast. When he rushed to Yang Chen, there was no standing brother around him.

At this moment, Sun Chun's eyes seemed to spit out flames. This guy, Yang Chen, even talked so much with him. Now he still despicably knocked down all his brothers. This was simply drawing himself away to give him a slap, how could Sun Chun endure it?

With the flying sword in his hand, he suddenly cut towards Yang Chen's throat. At this moment, how could Sun Chun still plan to capture Yang Chen? If Yang Chen was not killed, once the matter of the Hidden Dragon Cave was spread, the Greatest Heaven Sect would definitely be the target of public criticism. In any case, Sun Chun would like to kill Yang Chen on the spot.

Prior to the attack, Sun Chun had crushed the jade symbols that controlled the magic array. As long as it was within ten breaths, this magic seal array would fail. Those brothers and sisters were knocked down by Yang Chen before they even recovered their spiritual power. However, this also gave Sun Chun a lot of time, with his peak Yuanying stage strength, to deal with a middle Jiedan stage Yang Chen was absolutely nothing.

Suddenly, Sun Chun felt light, and the feeling of his spiritual power being sealed disappeared without a trace. Sun Chun's face showed a happy smile. The flying sword in his hand was like a dragon entering the sea. He soared and chopped it between Yang Chen's neck.

He hadn't waited for Sun Chun to see the result, and suddenly his ankle was tightened, as if being lifted by something. Then, a few beeps, Sun Chun's figure flipped up and down, and was repeatedly beaten on the platform of the original formation. His whole body was beaten and his whole body was aching, he didn't know how many bones were broken.

Chapter 423.1: Gongsun Ling's Benefits

In the eyes of outsiders, at this moment, Sun Chun, who was at the peak Yuanying stage, was caught by Yang Chen by his ankle and then struck down from the air, beating him constantly around the ground.

He had peak Yuanying stage strength, but Sun Chun couldn't escape Yang Chen's big hand holding his ankle. The strength of Yang Chen almost shattered his ankle. With severe pain, and suddenly being smashed involuntarily, how could he care of others.

An aloof peak Yuanying stage master tasted such a depressing taste. Just a few back and forth smashing made Sun Chun's physical protection no longer work. His bones were almost broken in half. His whole body's spiritual power was also scattered by Yang Chen's high-speed smashing method.

For a moment, Sun Chun, who was supposed to have a winning ticket, changed from a spirited peak Yuanying stage ancestor and he became a dying seriously injured cultivator.

Lying helplessly on the ground, Sun Chun could not even move one finger at will. In his life, there have been countless battles, but he had never been so miserable before, which made him feel no better than being dead.

However, Yang Chen left his life for him, not only his life, but even the lives of the other twenty Yuanying stage masters, Yang Chen did not kill them, all of them were still alive.

This wasn't Yang Chen's sudden tenderness, but after he knew Sun Chun's purpose of coming to the South China Sea, he deliberately showed mercy.

If he killed Sun Chun now, the Greatest Heaven Sect would certainly know and not only would they re-plan for the South China Sea, but would also firmly decide to kill Yang Chen.

However, keeping them alive was different. They originally came here to establish a rogue cultivators alliance and it was estimated that they could not return to the Greatest Heaven Sect for decades or hundreds of years. Then during this period, the Greatest Heaven Sect in the South China Sea was equivalent to having no power at all. As long as the South China Sea Alliance develops faster, the Greatest Heaven Sect would not have the opportunity to intervene in the future.

Second, without killing these people, the Greatest Heaven Sect would not launch a last resort against himself and the Pure Yang Palace in the short term. Although the Pure Yang Palace has developed a lot, it still cannot compete with the Greatest Heaven Sect. It also takes Yang Chen to find ways to weaken the power of the Greatest Heaven Sect for a long time.

In addition, these twenty-one Yuanying stage masters were definitely the best tonic for Gongsun Ling's geographical map. The addition of more than twenty masters would definitely shorten the time for Gongsun Ling to sacrificially refine the mountain river geographical map.

On one hand, weakening the enemy's strength and on the other hand, strengthening his own strength was exactly what Yang Chen liked to do. In addition, Gongsun Ling was his wife and a husband helping his wife was normal.

After putting away the twenty-one Yuanying stage masters, Yang Chen did not let go of the materials of the array, he kept it into his Qiankun bag and then began to search for the whereabouts of Hou Yun and Gongsun Ling.

In the sea of no return area, Yang Chen drove the shuttle for half a month and found Hou Yun and Gongsun Ling outside.

As far as the periphery was concerned, the two have actually gone inside a lot. When Yang Chen entered the sea of no return, Hou Yun and Gongsun Ling were looking for those powerful sea beasts.

When meeting Hou Yun, the sea beasts in this area were pitiful and had been beaten helplessly. This guy who has been sullen for tens of thousands of years in the Blue Vault Mountain Immortal's Cave was simply a fighting beast. When encountering the sea beast, regardless of whether it attacked them, he rushed up and beat it up.

Ordinary sea beasts couldn't be seen by Hou Yun. He only selected those guys with strong combat effectiveness. However, even those beasts who had great inborn strength couldn't handle Hou Yun who has cultivated the transformation secret art and Yang Chen's body refining technique, he was also a water attribute cultivator.

Apart from that, there was his dacheng stage cultivation base to add to his natural divine power and yellow turban body refining technique, let alone the sea beasts of the mortal world, even if they were the ascended Lan Ying, it was estimated that they had a fight.

Countless powerful sea beasts became the targets of Hou Yun's practice one by one. When they were almost beaten to death by Hou Yun, they were thrown into the mountain river geographical map of Gongsun Ling, and became slaves of the mountain river geographical map, helping Gongsun Ling to refine it.

After this lap, all the sea beasts that could be called powerful outside were all made slaves. Except for some guys who were strong and uncontrollable were killed by Hou Yun, all the others were collected by Gongsun Ling. There were no sea animals above the Yuanying stage in the entire periphery of the sea of no return.

Hou Yun was certainly not satisfied, so under the careful support of Hou Yun, the two began to move towards the interior of the sea of no return for a short period. The sea beasts here were more powerful and even dacheng stage masters appeared.

Here, Hou Yun was able to satisfy his addiction. Fighting the sea beasts in the dacheng stage in the sea, even if they were as powerful as Hou Yun, they can't guarantee that they could be defeated every time. Often fighting very hard, but also allowed Hou Yun to really go all out, from the body to the heart, he felt comfortable.

During the fight between dacheng stage, Gongsun Ling became redundant. However, this does not mean that Gongsun Ling was not safe. After collecting a large number of masters of the sea tribe, the geographical map has inspired new uses. It may not be possible to attack the enemy with it, but if it was only used to protect Gongsun Ling, it was more than enough.

With less worries, Hou Yun was even more wanton, provoking strong enemies everywhere. For more than a year, he has been fighting almost every day. His fighting spirit was unprecedented.

And Hou Yun's cultivation was a state of mind. In the constant battles of this year, he has been further improved, and gradually reached the edge of the later stage, only one step to the peak dacheng stage.

Yang Chen's shuttle appeared behind Gongsun Ling, who noticed Yang Chen's arrival almost instantly. By the time Yang Chen closed the shuttle, Gongsun Ling had already caught Yang Chen's arms. It seemed that the two already had a wordless tacit understanding. They didn't need to say anything at all and they would know each other's mood.

Hou Yun was still fighting. His opponent was a huge tuna. In the sea water, its speed was like electricity. Even the turbulent suction force in the sea of no return seems to have no effect on it. The long pointed beak was like a sharp spear, which was comparable to Hou Yun.

It was not known how long they fought. Hou Yun even has sweat beads on his face, his opponent's terrifying strength could be seen. However, Hou Yun was not easy to match, the golden stick was powerful in his hands, the other party was also in the dacheng stage, but he only dared to avoid by speed and dare not fight with Hou Yun face to face.

Of course, Yang Chen's appearance could not be hidden from Hou Yun. During the fighting, Hou Yun had already seen Yang Chen and he had also seen the changes in Yang Chen's body.

However, Hou Yun suddenly found out that he had only seen Yang Chen with his eyes, his spiritual awareness couldn't detect Yang Chen's whereabouts at all.

This was a shocking thing.

Chapter 423.2: Gongsun Ling's Benefits

Hou Yun himself was a strong man in the dacheng stage and after this period of fighting, his level of ascension has reached the peak of the late dacheng stage. Compared with Luo Yuan, he was not inferior.

Under these circumstances, Yang Chen was able to escape the investigation of his spiritual awareness, which was almost impossible. Unless he was relying on a powerful magic weapon to conceal himself from his spiritual awareness, Yang Chen had used one before, but apparently Yang Chen was not using it now.

Under normal circumstances, Hou Yun's spiritual awareness couldn't be shielded. It seems that there was only one possibility left, that was, Yang Chen's spiritual awareness was far stronger than Hou Yun's, at least it had a higher level than Hou Yun's.

The foundation stage cannot be used to detect the Jiedan stage, the Jiedan stage cannot be used to detect the Yuanying stage, and the Yuanying stage cannot be used to detect the dacheng stage. These were all due to differences in realms.

However, Hou Yun was already a dacheng stage master, the realm that even he cannot detect with his spiritual awareness, what was that realm? Hou Yun could not help but be shocked, this incident was already too incredible.

Hou Yun immediately broke out of the fight with a trick. No matter how it was the refining technique or the realm of his spiritual awareness, Yang Chen was more interesting to Hou Yun than the dacheng stage beast. The sea beast also knew that Hou Yun was very powerful. When it saw that Hou Yun took the initiative to leave the fighting circle, it did not pursue, but it quietly dived into the sea and disappeared.

"Is this the river turning strength?" Hou Yun came to Yang Chen, looked up and down Yang Chen's body, his face was incredible.

Hou Yun himself was also taught the body refining technique by Yang Chen. Of course, he understood that the changes in Yang Chen's body could only be achieved after reaching the third layer, the river turning strength. However, the more he knew about the body refining technique, the more he understood the difficulty of refining it. According to Hou Yun's own estimation, if he wanted to cultivate to the third level, it would only be possible at least after hundreds of years of his ascension to the spiritual realm.

Yang Chen now was more than a hundred years old. Even if he had not faced the thunder tribulation, his body was easily able to cultivate the body refining technique successfully. However, such a speed of cultivation was really a bit terrifying. Even Hou Yun, the real monstrously talented, was a little moved.

"Fight me!" Looking at Yang Chen's body, Hou Yun almost glowed from both eyes and couldn't help shooting a burst of sparks in his eyes.

Seeing Yang Chen's river turning strength, it even made Hou Yun forget that he was a dacheng stage and Yang Chen was just in the Jiedan stage, he just wanted to have a good time.

"You are not allowed to use spiritual power." Gongsun Ling, however, has absolute confidence in her husband, before Yang Chen had beaten Hou Yun once on the shuttle and now that Yang Chen's body shape changed, naturally she also knows that her husband's cultivation was successful, how could she let her husband lose his prestige. Limiting spiritual power and using only physical power would naturally make Hou Yun more convinced.

Gongsun Ling knew the origin of Hou Yun and also knew from the heart that Hou Yun was not willing to join the Pure Yang Palace. But now Yang Chen has the opportunity to subdue Hou Yun, suppress his strength and he also gave him his cultivation method. This mighty Hou Yun might be a big help for Yang Chen.

With Yang Chen's guidance, Gongsun Ling's mind was also changed with dexterity and she immediately thought of these. Yang Chen also knew everything in his heart, smiled at Gongsun Ling, then looked at Hou Yun with a smile.

"That's natural!" Although Hou Yun was belligerent, he hadn't reached the point where he could overpower people, especially when facing Yang Chen. After he agreed he immediately put on a posture to fight.

"Here?" Yang Chen shook his head directly: "Uncle ancestor, let's leave this sea to find an island!" After all, there was no place to set foot in the sea, in the sea of no return, it was impossible to fight without spiritual power.

Hou Yun also realized this and immediately followed the suggestion, the golden stick was carried across his shoulders and he was about to leave.

How could Yang Chen let Hou Yun get exhausted, he immediately summoned out the shuttle, packed the three of them, and quickly left this area. The fierce sea of no return, once again restored its apparent calm, except for the lack of a lot of fierce sea beasts on the periphery, it looked like no other changes were made.

Maybe in a few years, there will be similarly fierce sea beasts from other places, maybe there would be some powerful monsters from other parts of the sea of no return to occupy the territory. Anyway, there were no large beasts around here anymore.

In the shuttle, Yang Chen didn't say anything, first he threw out Sun Chun and the other twenty-one Yuanying stage masters and briefly introduced them, so Gongsun Ling received these dao sects masters in the mountain river geographical map.

In these days, Gongsun Ling collected no less than a hundred Yuanying stage sea beasts and even two dacheng stage sea beasts were captured by Hou Yun. Coupled with these dao sects Yuanying stage masters, the mountain river geographical map that originally needed to be tempered for hundreds of years could be tempered in ten years at most.

By that time, the combat effectiveness of Gongsun Ling would rise sharply and even Shi Shanshan, who has cultivated for more than a hundred years, would not necessarily be Gongsun Ling's opponent.

In the past few days, Hou Yun has been running around the sea with Gongsun Ling, without a foothold, relying on their cultivation base to circle around the sea of no return, both of them have a feeling of being exhausted.

Of course, Yang Chen understood that the two were exhausted, especially Hou Yun, who not only had to fight, but also take care of Gongsun Ling in case Gongsun Ling was injured, it was hard work.

Yang Chen had to express his concern.

At the moment, Yang Chen didn't say a word, he made a cup of jade dragon wine with two cups of four seas mysterious coral liquid for Hou Yun and Gongsun Ling. They have been fighting at sea for more than a year and they were exhausted physically and mentally.

Gongsun Ling took in the four seas mysterious coral liquid and of course understood the painstaking efforts of her husband, Hou Yun believed that what Yang Chen gave him was ordinary. He drank it in one go and then fell directly to the ground as if he couldn't wake up in general.

He simply took Hou Yun to the side and he fell asleep, but Yang Chen carefully held Gongsun Ling sitting next to him, holding Gongsun Ling in one hand, holding out the gourd in one hand, pouring himself a glass of jade dragon wine slowly to drink. Holding Gongsun Ling like this, he let her sleep peacefully in his arms.

The shuttle was on the bottom of the sea and hurried through, but it was directly on the way back to the dao sect domain.

The arrangement of the Greatest Heaven Sect in the South China Sea was completely destroyed and the newly arrived Sun Chun and others were also captured. For at least several decades, there would be no black hands from the Greatest Heaven Sect in the South China Sea.

Now the most important thing for Yang Chen was to hurry back to the dao sects domain and cultivate the Highest Mystery Yin-Yang Heart Sutra together with Sun Qingxue and Shi Shanshan to stabilize the spiritual awareness that suddenly increased because of the dragon yuan

Chapter 424.1

Gongsun Ling has taken the four seas mysterious coral liquid many times. After waking up, the physical changes were not so obvious for her. But Hou Yun was different. For the first time, he took the four seas mysterious coral liquid, which made him feel embarrassed.

Although Hou Yun was already a master of the dacheng stage, at least he has experienced the baptism of thunder and yin fire tribulation, but the impurities in his body were still astounding.

After a deep sleep, Hou Yun woke up and knew what was happening to him. On one hand, Hou Yun was very grateful to Yang Chen, but on the other hand, he was slightly annoyed.

Hou Yun's embarrassment fell in the eyes of Gongsun Ling, which seems to be the reason that made Hou Yun very unhappy. Hou Yun has a special kind of care for Gongsun Ling. Taking care of Gongsun Ling for such a long time, Hou Yun was very reluctant to let Gongsun Ling see his awkward look.

However, the benefits were also huge. Experiencing the thunder and yin fire tribulation in the Immortal's Cave did not make his body completely free of impurities. In this regard, the monster race has an inherent disadvantage over humans.

This large cup of four seas mysterious coral liquid directly purified Hou Yun's body a lot, which has inestimable benefits for future cultivation. Apart from that, it was estimated that he could save at least decades of hard work on the body refining technique.

"Hurry up, find a place to compete!" Hou Yun was very curious about Yang Chen's current state and couldn't wait to compete with Yang Chen who has achieved the river turning strength.

In fact, Yang Chen also wanted to know the difference in strength between Hou Yun and himself. Hou Yun was so anxious that Yang Chen was not polite. He found an island along the way, took off the shuttle, and the three flew over the island and started preparing for battle.

The island was not large, it was a few square feet and the surface of the sea was not high but it was more than enough for Yang Chen and Hou Yun to stand on. Not far away, Gongsun Ling flew in the air, being the only audience on the scene.

The two stood face to face. Although he didn't use his spiritual power, Hou Yun still held his huge stick. On the side of Yang Chen, he doesn't have any heavy weapons that he could use so he was simply empty-handed.

Hou Yun was not embarrassed at all because Yang Chen was bare-handed. Seeing that Yang Chen was ready, he yelled, the stick in his hand was raised high and smashed towards Yang Chen severely.

That posture was clearly like Yang Chen was an enemy who he couldn't share the world with and has no concept of restraining anything at all. Gongsun Ling, who was watching next to him almost screamed, but fortunately, she still believed in her husband's ability, so she held back.

The sound of the wind from the stick was as shivering as the pursuit of the soul. Standing in place, Yang Chen didn't have the slightest sense of fear. He just watched the shadow of the stick and then probed out with one hand and grabbed the high-speed stick in his hand.

Hou Yun was not surprised at all and even some of them were deliberate. The two have to compete for strength, naturally they must have a medium and this stick was the medium between the two.

However, Yang Chen picked it up so easily, carrying a huge and powerful stick, Yang Chen grasped it in his hands and his body didn't shake much, which made Hou Yun a little surprised and even looked forward to it.

No one knows the power of that stick better than Hou Yun himself and if Yang Chen was replaced by a normal cultivator, even if he uses spiritual power, he may not be able to take it so easily. For more than a year, Hou Yun has battled with many powerful sea beasts and none had been able to take his stick with their physical strength.

Even so, Yang Chen still felt a pain in his palms. Hou Yun's stick was definitely not just a force of at least 300,000 jin. But for Yang Chen at this moment, it was not too difficult. After all, if it was beyond two realms. It was by no means simply a description of strength.

Grabbing Hou Yun's stick, Yang Chen immediately pulled, Hou Yun's figure standing in place at this moment had been involuntarily driven by Yang Chen.

Yang Chen's arm was raised in the same way, Hou Yun was slammed together with the stick. He made two large circles in the air and then hit the ground fiercely.

Boom, Hou Yun's body had no resistance at all. He was driven by the big stick, followed by two turns in the air and slammed into the ground of the island.

The gray-faced Hou Yun jumped out of the human-shaped pit and left the stick alone, jumping directly into the air. Yang Chen did not go all out, Hou Yun knew this very well.

Yang Chen could easily grab the stick and then pull Hou Yun with force, but Hou Yun couldn't, but it's not just a matter of skill, absolute strength was also the decisive factor.

However, just by this, it was completely impossible to see at what level Yang Chen's current strength has reached. Hou Yun anxiously scratched his ears and scratched his cheeks, apparently Yang Chen was right in front of him, but he couldn't explore it. This was simply a torture.

Yang Chen also wanted to know what level of strength he had. Although the refining technique had reached the level of river turning strength, that was just the feeling during cultivation. Yang Chen was

not clear about his true strength. The dragon yuan was precious at the time and Yang Chen had no time to verify his strength.

Now was also the opportunity for Yang Chen to understand himself, waving Hou Yun's stick, he started smashing around, the target was no longer directed at Hou Yun, but this small island of a few square meters.

Boom boom, a huge sound kept ringing and just after several consecutive sticks fell, the island had begun to shake violently and then began to crack from the center.

The sudden change surprised Yang Chen, he jumped up in the air and looked down at this ordinary island. A sudden movement in his heart, followed by a flash of body shape, he plunged directly into the sea.

Hou Yun and Gongsun Ling didn't know what Yang Chen was going to do and they couldn't find Yang Chen's trace in the search of their spiritual awareness. They all waited quietly in the air.

After a few breaths, there was a sudden tumbling under the sea and then Hou Yun's golden glittering stick suddenly flew out of the water like an arrow and shot directly at Hou Yun.

Seeing this, Hou Yun subconsciously grabbed the stick figure, but his body was still slightly carried by the power carried by the stick.

The rolling under the sea became more and more fierce, Hou Yun and Gongsun Ling were extremely surprised that even the island below them began to shake violently, as if an earthquake had occurred under the sea.

Suddenly, Hou Yun thought of a possibility, his eyes widened instantly and he looked incredibly below, looking forward to the moment when the answer was revealed.

Chapter 424.2

Yang Chen did not let the two wait too long and soon appeared in front of the two. However, he appeared with more than half of the island.

The island in the sea suddenly stopped shaking, and then rose sharply. The rate of its ascent was very fast, almost in one or two breaths and it became level with the two in the air.

An island suddenly rose from the sea level. Although the island was not very large, it was also very spectacular. In particular, the water carried on the island kept falling into the sea and the island still had some unsteady shaking. The sound and the picture as a whole gave an unusually shocking feeling, as if witnessing the world with their own eyes.

The rise of the island was still continuing and the part of the sea level was already a hundred feet high. Later Hou Yun and Gongsun Ling saw Yang Chen's figure.

Yang Chen himself was just below the island that had been flying up to a hundred feet high, the island had no roots, but was lifted up by Yang Chen to the point where it was so high.

In simple terms, Yang Chen jumped up in the air holding a huge stone that was hundreds of feet high and several feet square. Because he has not used spiritual power, but pure physical power, Yang Chen was still in the process of jumping, but after a while, he began to fall.

Gongsun Ling's open mouth has never been closed. This giant rock was more than 300,000 jin, but it was lifted directly by Yang Chen into the air. How strong was Yang Chen now?

Hou Yun didn't want to be amazed, but looked dignified. Yang Chen was in the air, but did not stop moving and threw the huge rock like a hill directly at Hou Yun.

The current situation made Hou Yun extremely excited. He had never encountered such a powerful opponent. He stood in the air and put on a serious posture, he planned to take over this huge rock thrown by Yang Chen.

As soon as his hands touched the giant rock, Hou Yun knew that it was not good. Just by this weight, Hou Yun couldn't take it by relying only on the strength of his flesh alone.

But Hou Yun didn't want to give up. He still wanted to know how much strength he had. Standing under the giant rock, his teeth were braced for the impact.

Inevitably, Hou Yun used spiritual power, of course, just to allow him to levitate in the air and support the weight of this huge rock. However, relying on the strength of the flesh alone, Hou Yun couldn't support this huge rock anyway. Although his feet stood very stable because of the spiritual power, his body's already pressed bones started to ring.

Hou Yun's huge and sturdy body seemed to have reached its limit. The swollen muscles almost completely cracked the outer robe, and the thick blood vessels under the skin became sharp under the strong pressure, as if Hou Yun was surrounded by little snakes.

The sound of heavy breathing seemed to be pulling huge bellows and the whistling wind sounded worrying. The loud heartbeat sounded like a big drum banging and Gongsun Ling who was not far away, could even hear the sound of Hou Yun's blood flowing in his blood vessels.

In less than ten breaths, Hou Yun couldn't hold on anymore and his body seemed to be directly bent by the giant rock. Hou Yun just withdrew his spiritual power and his whole person was directly pressed from the air to the seafloor by the giant rock.

The moment the giant rock smashed into the sea, it smashed a huge water splash, and soon the giant rock disappeared in the sea water. The island that they could still see just now disappears without a trace, as if there has never been an island here.

Yang Chen's figure quickly appeared in front of Gongsun Ling, the shuttle was called out and he brought Gongsun Ling in. The shuttle turned into a sailing boat and drifted quietly on the sea. The two just sat on the boat, waiting quietly for Hou Yun.

Hou Yun finally got out of the seawater. Depending on the weight alone, even if the giant rock was ten times heavier, it would not hurt Hou Yun who was in the dacheng stage. However, when Hou Yun came out, he was a little embarrassed. Hou Yun liked a challenge, he would rather be pushed down by a giant rock than run away from below it. He would be hit by the giant rock to the bottom of the sea, no matter how unpleasant it was.

"Mountain Picking Strength, it really deserves its name." Hou Yun knew that Yang Chen had not exerted all his powers far away, but he had already shown the realm of mountain picking strength. The island that was just on the land, wasn't it just one? After sighing, Hou Yun also looked forward to it even more: "the river turning strength, I don't know how powerful it will be!"

In fact, even Yang Chen didn't know how much power the river turning strength could have. But just by relying on the flesh, he pulled up an island and threw it into the air, already shocking himself. To be honest, even an ordinary Jiedan stage master may not be able to do this, but Yang Chen has already surpassed it by relying on physical strength alone.

Hou Yun was completely convinced by Yang Chen, and directly said " I will do what you want me to do in the future, I will follow you, happy!" No wonder She Kui and Xie Sha liked to follow Yang Chen and now Hou Yun finally realized that refreshing feeling.

On the way back, the three were not lonely at all. In addition to drinking tea and enjoying Gongsun Ling's delicacies, it was also about exchanging ideas.

Naturally, Yang Chen needn't say more. Although Hou Yun has been bored in the Blue Vault Mountain Immortal's Cave, after all, it was in the dacheng stage and some aspects of his understanding were even more thorough than Yang Chen's. The biggest beneficiary was Gongsun Ling. The two men took turns to instruct, so Gongsun Ling avoided almost all the problems that may be encountered during the Jiedan stage.

There was her beloved with her, there was a transcendent magic weapon on her, plus the help of hundreds of Yuanying masters in the mountain river geographical map to help refine it, there was no mental suffering on Gongsun Ling.

In the case of Yang Chen's absence, Gongsun Ling would become the most powerful Jiedan stage cultivator in the Pure Yang Palace in just ten years.

Of course, there was another premise, that was, Gao Yue's Dragon Horn flying sword was not refined. Once the refining of Gao Yue's Dragon Horn flying sword was completed, it would also be a magic weapon of the Dragon clan. Gao Yue was a water and fire spirit power double cultivator, who would be the most powerful

However, who would care about this unwarranted reputation? Moreover, even if they wanted to rank, they must add their own husband.

Although he didn't know how Yang Chen's fighting strength now was, how could Hou Yun bow his head to a Jiedan stage cultivator?

It was almost four years before and after this trip to the South China Sea and they didn't know what had changed in the Pure Yang Palace. The only thing they knew was that no matter whether it was Yang Chen or the people who came out with Yang Chen this time, they have achieved great results. For the Pure Yang Palace, no matter what, it was also a good thing.

Chapter 425.1

When Hou Yun was here, of course Yang Chen and Gongsun Ling could not cultivate the highest mystery yin-yang heart sutra on the shuttle. And because Yang Chen's spiritual awareness has skyrocketed, he didn't dare to cultivate the three purities secret art on the road, for fear that he would soon face the problem of his spiritual awareness splitting.

Hou Yun had questioned Yang Chen about his spiritual awareness and Yang Chen did not fully tell the truth. He just said that he had found a magic weapon to hide his spiritual awareness in the sea of no return. After he forcibly suppressed his spiritual awareness manifestation to the Jiedan stage, Hou Yun was able to detect the presence of Yang Chen again with his spiritual awareness.

Of course, Yang Chen's explanation for this was that the magic weapons could be controlled at will. Hou Yun didn't worry about him and believed it. After all, it was really incredible that Hou Yun should believe that a junior in the Jiedan stage could have a spiritual awareness that couldn't be discovered by masters in the late dacheng stage.

Only Gongsun Ling knew that perhaps Yang Chen had truly broken through the dacheng stage with his spiritual awareness. A long time ago, when she and Yang Chen were having spiritual awareness double cultivation with each other, Gongsun Ling knew exactly how powerful Yang Chen's spiritual awareness was.

Gongsun Ling was also looking forward to it, she wanted to know what kind of realm the spiritual awareness would reach which was above the dacheng stage. Beyond the dacheng stage, it was a world that Gongsun Ling had only heard of but had never seen before and she might soon experience it from Yang Chen.

The central plains road seemed to be normal and nothing major happened. In the case of the South China Sea, apart from having the Greatest Heaven Sect dispatch a group of experts led by Sun Chun, there was no further disturbance. The other sects were not sure what happened there.

Back to the Pure Yang Palace, of course, Yang Chen first met his master and reported to the master of the palace.

When they heard that Yang Chen was back, the elders who were in the sect immediately gathered in the hall of the Immortal's cave. This time, Yang Chen brought ten masters of the Yuanying stage with him. Hou Yun and Gui Shanyou were even taken out and it really made the sect's high level members secretly sweat.

The master of the palace even regretted that Yang Chen was not blocked at the time. Fortunately, the results of the trip made the high level members of the sect stunned, as it went in the most beneficial direction for the Pure Yang Palace.

When the ten Yuanying stage masters came back with Gui Shanyou, the kind of satisfaction on their faces after releasing their killing intent, plus some unknown perception, could not be hidden from the top members of the sect.

After these guys returned, they continued to retreat, leaving only Gui Shanyou alone. It was said that they were in retreat when they rushed back on the ship. This situation shocked and delighted everyone, not knowing what happened.

Fortunately, the old tree demon Gui Shanyou did not need to retreat. He was also the guy who participated in the killing throughout the process and was able to explain to everyone. After listening to everything that Gui Shanyou said, they heard that these ten guys, under the control of the old tree demon, had faced some yin fire tribulation in advance, almost all of the senior executives, including the master of the palace, almost jumped up.

This kind of once-in-a-lifetime event that could interfere with the other party at any time and let their own masters feel the good experience of the yin fire tribulation in advance, how could such a group of guys who only went out to kill and set fire encounter it?.

How important this experience was, which of the elders present was unclear about it? Who doesn't know the benefits? Why were they all doing good things?

It seems that following Yang Chen's departure, he really answered the statement of killing and setting fire to the golden belt. For a moment, all the elders were a little jealous. Why did these guys have such good luck?

The benefits of Yang Chen's trip were not only that, not to mention the benefits of pondering the Hidden Dragon Cave. The agreement for exchanging specialty products with the South China Sea Alliance alone filled the Ten Thousand Treasure Tower with profits. They believed that this item could be worth the hard work of the others.

After all, no matter how strong the others were, it was just a small-scale team, which was still incomparable with a large alliance of tens of thousands of people such as the South China Sea Alliance. This time, the Ten Thousand Treasure Tower would definitely be able to improve one step.

This was not counting the cohesion brought by Yang Chen's direct revenge for the several treasurers of the Ten Thousand Treasure tower. The cultivators who originally joined the treasure tower, most of them were hopeless disciples in the Pure Yang Palace. Although the sect took care of them, they didn't pay much attention to them.

This large-scale revenge of Yang Chen made these disciples of the Ten Thousand Treasure tower feel the protection of their master. Only by the intention of the master, everyone would strive to make the Ten Thousand Treasure tower bigger and stronger. Not to mention that the Ten Thousand Treasure tower has always been very generous. The bigger the business, the greater their income.

There were already dozens of disciples who were consciously hopeless. After joining the Ten Thousand Treasure tower for decades, they have earned a lot of net worth and obtained some suitable treasures from the Ten Thousand Treasure tower. They broke through the bottleneck of their cultivation and saw the hope of their cultivation again. Dozens of masters in the Jiedan stage have joined the Ten Thousand Treasure tower at the moment. Counting on them and the masters they later hired, their strength was already comparable to a small martial art sect.

The benefits of the Ten Thousand Treasure tower were considered by Yang Chen, but the benefits of aligning with the South China Sea Alliance were in the Pure Yang Palace. One more ally would mean that they have one more road. Even if the disciples of the Pure Yang Palace go to the South China Sea, they would also have an asylum.

About the detailed situation, the old tree demon Gui Shanyou was not very clear, but Yang Chen gave a detailed explanation. When Yang Chen explained the causes and consequences of the South China Sea Alliance's conspiracy, they came to understand that this time they unknowingly cut off a hidden wing of the Greatest Heaven Sect.

Yang Chen did not conceal the things about Sun Chun and the others. When they heard that the Greatest Heaven Sect had damaged 21 masters of the Yuanying stage, the happy faces of the master and the elders almost laughed out.

It hit the enemy and strengthened itself. The material benefits were countless. Their ten Yuanying stage masters have gained valuable experience. They were hopeful of the future. Their secret dacheng stage master could also release his killing intent, practice and improve, everything was with such completeness, there was nothing unsatisfactory in the sect for them.

Even if there were, it was the high-level executive who did not enjoy the baptism of the yin fire tribulation, but this opportunity was not available to everyone and it was not always a good thing to encounter the enemy's tribulation.

Regarding the matter in the sea of no return, Yang Chen didn't say much and the master of the palace and the others did not delve into it. Where Yang Chen went to cultivate, that was his choice. As long as everyone knew that Yang Chen had finished training and he would return safely. They don't worry too much.

Everyone got together and there was one thing to discuss with Yang Chen. This time, the Greatest Heaven Sect sought the help of the Pure Yang Palace again.

Chapter 425.2

To be exact, it was the Greatest Heaven Sect who came to beg for Yang Chen's help again. Including the previous interpretation of the secret key, this was the second time that the Greatest Heaven Sect has sought Yang Chen's help.

What they came to ask for could be guessed by Yang Chen with his eyes closed. It was nothing more than asking Yang Chen to make medicinal pills to treat the injuries of the three dacheng stage masters in the Greatest Heaven Sect.

The masters of the Green Jade Immortal Island and Blue Cloud Sect have recovered. If the Greatest Heaven Sect was not jealous, it would be impossible. However, the Greatest Heaven Sect was still reluctant to seek Yang Chen's help again.

The Greatest Heaven Sect, the leaders of the dao sects, always asks others to come to their help. The sect still had different opinions on this. The last time they went to Yang Chen, it was known all over the mortal world and the losses were heavy. Could they repeat the same mistake this time?

But the three dacheng stage masters, was not something that a few proud guys in the Greatest Heaven Sect could give up, especially when the wounded in Green Jade Immortal Island and Blue Cloud Sect have been cured, it made sense, no matter what, the Greatest Heaven Sect should also treat the three elders and let them recover.

However, in the face of a small Pure Yang Palace, many people couldn't let go of this opportunity. In the past, it could be destroyed at any time and place, but they were unlucky. The century-old arrangement was destroyed once, allowing the Pure Yang Palace to develop. When it comes to this, many people hated Liang Shaoming and Li Qingchen.

Had it not been for Li Qingchen's own proposition to suppress Yang Chen at that time, maybe Liang Shaoming would have already entered the high-level of the Pure Yang Palace and controlling the Pure Yang Palace would be nothing more than lifting a hand. By that time, wouldn't the Pure Yang Palace bring Yang Chen into the bag together? Where else would it be so troublesome now?

Because of the damn guy, the arrangement of the sect was ruined and Yang Chen, the talented master of alchemy, could not be offended any more.

Right now they had to bow their heads again and ask Yang Chen for help. After making this reluctant decision, the Greatest Heaven Sect also started to operate.

It's not easy to ask Yang Chen to refine the medicinal pill. The reward to Yang Chen was not a trivial matter. The Greatest Heaven Sect has a great resource and doesn't care much about it, but some things have to be settled.

The Green Jade Immortal Island and Blue Cloud Sect had already agreed to the first and second refining from the Pure Yang Palace when Yang Chen promised to refine once every twenty-five years. Even if the Greatest Heaven Sect could be ranked third, it would be seventy-five years later. What's more, the Greatest Heaven Sect was not ranked third.

The Five Elements Sect and Qiankun Sect were also very sensitive to the issue, because the two major sects were close to the Green Jade Immortal Island and Blue Cloud Sect, they were also early to get the news. For first and second, they could not compete with the allies of the Pure Yang Palace, the Green Jade Immortal Island and Blue Cloud Sect, but for the third and fourth, they could still compete for it.

These two cases were made and the Green Jade Immortal Island and Blue Cloud Sect did not object, even if it was the Greatest Heaven Sect, they could not obstruct it and it was too much trouble for the Greatest Heaven Sect.

If the Greatest Heaven Sect was willing to rank fifth, it would take 125 years to be able to treat the three dacheng stage elders. After more than 120 years, the three dacheng stage elders estimated that they could barely breathe a sigh of life.

It used to be thought that the three elders would be cured within a few years, but thirty years have passed now. The Greatest Heaven Sect discovered that the injuries to the three elders were far from simple. Their best result was the same as the Black Tiger predecessors, their injuries could only be suppressed, but they were slowly losing the battle and they would finally die.

It has been dragging on for thirty years, the Greatest Heaven Sect had to bow their heads. This time, it was not just bowing to the Pure Yang Palace and Yang Chen. There was no shame in bowing to a doctor to treat their wounded. The problem was that the Greatest Heaven Sect also had to get the Five Elements Sect, Qiankun Sect, Green Jade Immortal Island and Blue Cloud Sect's understanding first.

These four ancestral sects were not ones that the Greatest Heaven Sect could handle with too much pressure. To make them nod, the Greatest Heaven Sect must also show enough sincerity.

Without sufficient benefits, the four major sects obviously would not easily agree.

They didn't know what price the Greatest Heaven Sect paid that they were able to get the understanding of the four major sects and they agreed to let the Greatest Heaven Sect be the first one

and the others delayed. However, elder Mao Qi of the Greatest Heaven Sect who came to the Pure Yang Palace to discuss matters was very unsightly. With the wealth of the Greatest Heaven Sect, if the price was not steep, Mao Qi would never have this expression.

The attitude of the Pure Yang Palace was very natural. It doesn't matter who comes first, whoever comes first they would serve them.

However, for Yang Chen to help refine the fifth grade medicinal pill that could cure the injuries of the three elders, the remuneration was not comparable to the refining of the questioning inner heart pill. One was life-saving, the other was for a breakthrough. In this regard, without the Pure Yang Palace saying anything, the Greatest Heaven Sect would also actively raise the standard.

Naturally, there was no need to mention the materials of the alchemy. A hundred badges were prepared directly, which was definitely enough for Yang Chen to spoil at will. Among the rewards, it was needless to say that there were all kinds of fire seeds from low to high. There were five kinds of fifth grade fire seeds alone and two kinds of sixth grade fire seeds were added.

In addition, there were 100,000 volumes of books in the collection of the Greatest Heaven Sect, as well as two fire-type flying swords carefully crafted by the Greatest Heaven Sect's grandmaster refiner, one for third and fourth fire each. Whether it was the fire seeds, flying swords or books, it was arranged according to Yang Chen's preferences.

In addition, there were ten jin of top grade spirit stones, ten spirit springs with different flavors, hundreds of jars of ten kinds of wines plus their own brewing methods and five hundred tea trees of different hundreds of years of maturity. These were things Yang Chen used to buy at various auctions.

Finally, there was a good medicine garden space and a pill furnace, which have been refined by the masters of the Greatest Heaven Sect for more than hundreds of years. It was originally intended for some outstanding disciples of the sect. In order to please Yang Chen, they had to painfully give it up.

After saying all this, the master of the palace had Yang Chen to look at it and asked casually, "How about? Would you agree with the Greatest Heaven Sect? If you don't want to, then I'll push the matter ."
