Chapter 426.1: Dragon Clan's Magic Weapon

"I will do it! Why not?" Yang Chen immediately said. The other party sent so many good things. If Yang Chen didn't smile while getting it, it would be silly of him.

As for saying that the masters of the dacheng stage being rescued belong to the enemy, Yang Chen would not mind. After hearing that the young sect master of the Greatest Heaven Sect often fainted, Yang Chen had a bigger plan in his mind. He saw the opportunity being delivered to his door, why should he reject it?

This plan was not even mentioned by Yang Chen to the master of the palace, but he only had a draft in his mind. For Yang Chen, was there anything better than having the knife ready for the enemy to send their body to his door by themselves?

The head of the palace looked at Yang Chen unexpectedly and he seemed to want to see something from Yang Chen's face. After looking at it for a while, it seemed that Yang Chen was very serious and then he nodded "Okay, if you say yes, then refine it for them."

At the end, another sentence was added: " the reward has to be sent first. "

In addition to Yang Chen's personal remuneration, the Pure Yang Palace was naturally indispensable. In this regard, the master of the palace has never been blinded by the false promises of others. If they wanted to give something, they must send it in. If they don't send it, they would leave it alone.

This time the Greatest Heaven Sect sent out everything, there was also real benefit to the Pure Yang Palace. There were three fine gold veins, plus two top quality spiritual veins, it was comparable to all the spirit veins originally in the meiqing mountain, it was not a small gift.

Negotiations were naturally led by the palace master and soon Yang Chen returned to Gao Yue again. It took another year to return from the sea of no return, although he has never dared to cultivate the three purities secret art on the road, his spiritual awareness was slowly increasing and it has reached the point where it cannot be suppressed.

Gongsun Ling didn't leave Gao Yue, the three of them quickly entered the immortal cave without being able to say too much. In their well-prepared house, Yang Chen began to cultivate the highest mystery yin-yang heart sutra with the two women.

It started with Gao Yue and Yang Chen and Gongsun Ling was their protector. As soon as Gao Yue entered the state of cultivation, she immediately realized that her beloved's spiritual awareness had become so powerful that she could not understand it.

That was a realm that was even more powerful than the dacheng stage. At the level of Gao Yue, she didn't even know what that realm was called. Those were the things that they would pay attention to after the dacheng stage. She never thought that when her own beloved was in the Jiedan stage, he had such a powerful spiritual awareness.

The more powerful the spiritual awareness was, for magic weapon control, for spiritual power control, it became more handy, in addition, there were also countless benefits to refining alchemists.

Yang Chen's ability to reach the level of the fifth grade alchemy master with his cultivation base has nothing to do with his powerful spiritual awareness.

However, for Yang Chen, the rapid growth of his spiritual awareness would bring about serious consequences of the split of his spiritual awareness. Although the ultimate goal of the three purities secret art was to split the spiritual awareness, it does not mean that the sooner the split, the better. At this point, Yang Chen knew it, Gao Yue and Gongsun Ling knew it equally.

Gao Yue frantically wanted to take control in the double cultivation and lead the two's cultivation. She just wanted to do her best to make Yang Chen's realm of spiritual awareness slightly lower and there was no longer the danger of his spiritual awareness splitting.

This time, the cultivation was completely different from the past, when Yang Chen's spiritual awareness realm was still in the dacheng stage, Gao Yue could dominate their cultivation. But now, even after Gao Yue has done her best. But still could not shake Yang Chen's spiritual awareness in the slightest.

Easily, Yang Chen gained the initiative of the cultivation. Yang Chen didn't even move this idea, everything was done spontaneously.

The realm of human immortal first grade has surpassed the limits of this world. Even if Gao Yue already has the middle Yuanying stage spiritual awareness, she still couldn't resist. Soon, the two entered the process of double cultivation under Yang Chen's spiritual awarenesses spontaneous dominance.

Yang Chen's spiritual awareness was like a vast mountain and a magnificent sea, but Gao Yue herself was like a leaf-shaped boat. She couldn't help but oscillate with Yang Chen's spiritual awareness.

Gao Yue only felt that her beloved, her original apprentice, now seemed to have become the master of this world, holding her body and mind firmly. She doesn't need to do anything at all, it seems that as long as she follows in his footsteps, she could break through the mortal world.

Gao Yue was so intoxicated by this speechless feeling of being conquered. In Yang Chen's arms, it was so warm and so captivating. Gao Yue was immersed in this feeling and has been completely unable to extricate herself.

Her own heart, her own god, she hated that everything couldn't be put into him, so she could become one with Yang Chen.

In this tacit understanding on both sides, the spiritual awareness of Yang Chen and Gao Yue changed again. Gao Yue's spiritual awareness continued to rise, directly breaking through the middle period of Yuanying stage and went straight into the late Yuanying stage. There was no rest, it was still soaring.

Yang Chen, however, started making another change. Now the highest mystery yin-yang heart sutra double cultivation could no longer increase his spiritual awareness, but it condensed Yang Chen's current spiritual awareness as much as possible.

The increasingly pure and concise spiritual awareness effectively organized the possibility of divisiveness and temporarily prevented Yang Chen from worrying again in a short period of time.

After the spiritual awareness double cultivation, Gao Yue's spiritual awareness soared to the peak Yuanying stage until she could not improve anymore in a short period of time. However, Yang Chen's spiritual awareness was still above the human immortal first grade and could no longer reduce back. It was only after this spiritual awareness double cultivation that the spiritual awareness became more stable and more condensed.

The next was Gongsun Ling and Yang Chen cultivating and Gao Yue protecting them. Like Gao Yue's result, with a middle Yuanying stage spiritual awareness, Gongsun Ling's spiritual awareness soared to the peak Yuanying stage, and similarly, Yang Chen's spiritual awareness did not fall in the slightest. The only gain was that the spiritual awareness became more stable, more condensed and more refined.

The two double cultivations with the two women allowed Yang Chen to temporarily alleviate the threat of the split of his spiritual awareness. At least now he could continue to cultivate the three purities secret art instead of waiting. Within a year or two, Yang Chen could ignore the threat.

However, in order to completely solve this problem, more effective methods were needed. Maybe, with the dancing snow fairy Sun Qingxue and the cold plum fairy Shi Shanshan, these two fiances of his who have never cultivated the highest mystery yin-yang heart sutra could give Yang Chen more time!

Chapter 426.2: Dragon Clan's Magic Weapon

The two women failed to make Yang Chen completely resolve the threat, so they were a little disappointed in their hearts. Even the fact that their spiritual awareness reached the peak Yuanying stage failed to dilute this regret.

Although it was known from the beginning that the effect of the two of them would not be very good, but they thought that they would still be a bit lucky. Moreover, in the hearts of the two women, it was not impossible to form an alliance to temporarily resist Shi Shanshan and Sun Qingxue. If the two women could solve it, wouldn't it be possible for Shi Shanshan and Sun Qingxue to have less contact with Yang Chen.

Yang Chen did not expect the two women to have such a mind. In one or two years, he could find Sun Qingxue and Shi Shanshan and stabilize the realm of his spiritual awareness.

For the three purities secret art to split his spiritual awareness, it was best to go to the spiritual realm, which was good for future development. But if there was really no way, the division would happen in the mortal world, it would only take more hard work in the future to ascend the realm. Anyway, Yang Chen already has the three purities secret art this heaven defying ultimate weapon. Even if it was hard, it was much better than ordinary cultivators.

Now there was only Gao Yue and Gongsun Ling, so Yang Chen didn't hide from them either, he briefly talked about his gains in the sea of no return this time. Of course, those adventures have not been elaborated, just that he has received some help from the dragon yuan and all his realms have improved.

To enhance Yang Chen's strength, the two women were naturally happy. As for talking about the dragon palace, the two women only listened to him, especially when they heard some wonderful things. Instead, about where Yang Chen got the keys, they didn't care.

In fact, the two women knew that Yang Chen had found the legendary Dragon Palace. Otherwise, where would the mountain river geographical map and the two water and fire dragon horns come from. There were more dragon clan magic weapons and it was very normal.

Apart from being happy, Yang Chen carefully took out the fragmented south china sea chart and placed it on the ground.

"A'Ling, try it out, can the mountain river geographical map collect this chart?" Yang Chen said to Gongsun Ling who was admiring the dragon magic weapon.

As early as in the Dragon Palace, Yang Chen had such an idea. Now that the south china sea chart has been fragmented, it was better to let the mountain river geographical map absorb it. They were all dragon palace treasures.

After Yang Chen's words, Gongsun Ling was almost sanctified for the purpose of listening, but that was the order of her husband. Gongsun Ling did not hesitate and immediately began to try to manipulate the mountain river geographical map.

With more than a hundred Yuanying masters, Gongsun Ling now controls the mountain river geographical map easily. In the face of such unmanned control, the former magic weapon of the Dragon clan, which was motionless and damaged, absorbed it easily.

But soon, Gongsun Ling quickly sat on the ground. As she began to control the fusion of the two magic weapons, the process came so suddenly that even Gongsun Ling was not prepared for it.

Seeing this, Yang Chen hurried up to help. It was also the highest mystery yin-yang heart sutra cultivation method that was used, but it was only a conscious effort to strengthen the power of Gongsun Ling's spiritual awareness to control the mountain river geographical map.

With the peak Yuanying stage spiritual awareness, it was indeed difficult to control the fusion of the two magic weapons. But immediately after Yang Chen joined, qualitative changes took place.

Not to mention that Yang Chen's spiritual awareness cultivation base has reached the human immortal first grade. However, Yang Chen and Xiao Tian have a master-slave relationship and Yang Chen's spiritual awareness has a little of it's aura.

This aura of the Dragon clan was the key to controlling the mountain river geographical map of and the south china sea chart. As soon as Yang Chen exerted his power, Gongsun Ling no longer had the pressure and became relaxed and comfortable.

The fusion of the two magic weapons also began to proceed in an orderly way. Gongsun Ling was pleasantly surprised that the two magic weapons were not just a simple fusion of dragon magic weapons, but the chart inspired further changes in the mountain river geographical map.

The mountain river geographical map has a characteristic. The places that it passed by would be formed by the mountain river geographical map in the map to form a virtual reality geography. The more places it passed by, the larger the geographical area of such virtual mountains and rivers and the stronger the power would be.

Now, the absorption of the chart from the south china sea has directly added a whole terrain of the South china sea to the mountain river geographical map. Although it was a fragmented chart and no longer has the ability to absorb spiritual power, the chart was still perfect. In the process of fusion, the entire south china sea was mapped on the mountain river geographical map.

By the time the integration was complete, a complete map of the south china sea has been added to the mountain river geographic map. The part that borders the east china sea was also integrated into one part and then it became part of each other. The area in the entire mountain river geographic map has more than doubled.

Not only that, the original map of the south china sea, but also the distribution map of all rivers and water networks that flow from the central plains to the south china sea near the seashore. During the process of integration, all the maps were drawn in the mountain river geographical map.

In just a few days, the power of Gongsun Ling's mountain river geographical map has doubled. The increase in the area above the mountain river geographic map also promoted the cultivation base of the masters of the Yuanying stage in the picture. Their cultivation has also made Gongsun Ling more relaxed when sacrificially refining the mountain river geographic map.

Just in the past few days, the mountain river geographical map has been reborn. As long as it was not exhausted in a death match, this mountain river geographical map already had the power to fight against ordinary masters for several hours. Of course, the higher the opponent's cultivation base was, the shorter the time that the mountain river geographic map could fight.

Gongsun Ling simply has a big ultimate weapon and also has a sharp weapon for self-defense. Everyone knew the famous Pure Yang Palace array cultivator, but at this moment she already has the ability to fight against some extreme masters in the Yuanying stage.

Yang Chen and her two fiancées were cultivating here, but the Greatest Heaven Sect has been unable to wait and sent the rewards and alchemy ingredients to the Pure Yang Palace. They just hoped that Yang Chen could do it right away, so that their injured elders could be spared the pain and to become masters of the dacheng stage again.

However, this plan was doomed to fail. After this trip to the Dragon Palace, with the help of the dragon yuan, Yang Chen got a great promotion. If he didn't take advantage of the time to digest and absorb this power and didn't take advantage of this time to strengthen himself, he would be a fool.

No matter how unwilling Gongsun Ling and Gao Yue were, Yang Chen set out on the way to meet Sun Qingxue and Shi Shanshan. Before refining the alchemy for the Greatest Heaven Sect, Yang Chen must also resolve his hidden dangers. Otherwise, if half of the refining of the elixir was disturbed, even if Yang Chen was a fifth grade alchemy master, it would be a pity..

He just didn't know what kind of surprise Shi Shanshan and Sun Qingxue would bring to him this time.

Chapter 427.1: Double Cultivation With Shi Shanshan

Even the Greatest Heaven Sect were asking for Yang Chen's help, coupled with the influence of the Green Jade Immortal Island and Blue Cloud Sect as well as the Five Elements Sect and Qiankun Sect. Now would there be any guys with short eyesight who dared to fight Yang Chen, that would simply be throwing their life away.

In this regard, the Greatest Heaven Sect regarded it as a remedy and another way of killing people to silence them. After Yang Chen and the Pure Yang Palace agreed to refine the elixir for the Greatest Heaven Sect, at least fourteen of the killers who have accepted the assassination of Yang Chen and the secret killer organization was uprooted. The heads were sent to the Pure Yang Palace and they were placed behind the series of heads to shock the mortal world.

Yang Chen could even guess that these killer organizations were definitely hired by the Greatest Heaven Sect at that time and now they turned their face in disregard. Their heads became a way for the Greatest Heaven Sect to please Yang Chen and at the same time they cut off the possibility of people knowing that the Greatest Heaven Sect had done this.

Of course, Yang Chen must know that the Greatest Heaven Sect has been used, and the lives of the six masters of the Yuanying stage have been solved by one stroke, which was absolutely beyond concealment. These heads were the sincerity of the Greatest Heaven Sect now and also an attitude of the Greatest Heaven Sect.

Those who ask for someone's help must have the proper attitude. As to how the Greatest Heaven Sect would react after this incident was another matter. In this world, there are no eternal enemies, only eternal interests. When there were benefits, even friends could become enemies.

Yang Chen smiled and accepted this sincerity. He took the "sincerity" sent by the Greatest Heaven Sect in his merit ring and embarked on his journey to the Green Jade Immortal Island.

It takes time for the small and large fire seeds to absorb and integrate, but Yang Chen does not have this time now. He must first find the two women to solve his spiritual awareness problem.

Fortunately, Shi Shanshan was training her apprentice in the sect, so Yang Chen easily met his fiancée.

In the Green Jade Immortal Island, Yang Chen was not having an ordinary popularity now, those disciples helping to receive Yang Chen, basically everyone could get some small gifts from Yang Chen. Although it was only a small first grade inner sensing pill, it was sent by a fifth grade alchemy master and it was still useful to everyone. The disciples in charge of the sect reception were full of expectations for Yang Chen.

“You’re here?” When she saw Yang Chen, Shi Shanshan’s eyes clearly flashed a little surprise, but she returned to normal immediately and asked with her usual indifferent voice. In front of her apprentice, Shi Shanshan has to maintain that frosty look.

“Greetings!” Shi Shanshan’s female disciple has almost the same character as Shi Shanshan. Seeing Yang Chen appear, she just bowed and saluted, but showed no other reaction.

Like Gao Yue and Gongsun Ling, when Shi Shanshan chose her disciple, she was also a female disciple. This disciple’s qualifications were also very good, the same glamorous flower appearance but frosty look, under the guidance of Shi Shanshan, her cultivation base was not low. She was already at the peak foundation stage and would reach the Jaidan stage soon.

“Here is a gift for our first meeting ceremony!” Yang Chen wasn’t embarrassed, either, but took a first grade inner sensing pill and handed it to her. This was the apprentice to his fiancée so he must be partial. In addition, there were second grade inner sensing pills. He believed that if she had enough understanding, relying on these elixir would be enough for her to condense her dan quickly.

“Thank you sir!” This female disciple of Shi Shanshan was indeed not low-minded, she was very intelligent. Of course, she has heard of Yang Chen’s name. Dan Yao started to see that there was one that was different from the others. At the moment, she pressed the joy in her heart and seemed to calmly thank Yang Chen.

This master who doesn’t look amazing was not an ordinary person now. A fifth grade alchemy master that defeated her master in the same realm. She couldn’t help but be shocked. What Shi Shanshan’s fighting ability was, her disciple was the most clear about it.

Soon, only Yang Chen and Shi Shanshan were left here. Others had great eyesight and even Shi Shanshan’s disciple was no exception. She was smarter than anyone, and was the first to leave when she got something.

Shi Shanshan made a restriction at will and the space here became a private space for the two, no one could bother them. Later, Shi Shanshan looked at Yang Chen’s eyes and she felt a little more tender.

Yang Chen gently lifted Shi Shanshan's slim hand and sat down at the table together. With a little effort, Shi Shanshan leaned into Yang Chen's arms. Neither of them said much, but it seemed that there was a different kind of joy in their hearts, the feeling of reuniting after a long absence was so wonderful.

If anyone saw Shi Shanshan's current appearance, they would be so shocked that they would drop their chin on the ground. It was a frosty cold plum fairy to anyone, but there was such a gentle side to her. Any apprentice who dares to make a move at Shi Shanshan couldn't escape, but Yang Chen's salty hand could be so presumptuous, it was really enviable.

Although the action was intimate, Shi Shanshan's words were not much, almost nothing was said. Except for the first sentence "you came", there was nothing else. Nestled in Yang Chen's arms, Shi Shanshan's body also softened, as if all her previous persistence had been put down. Here, Yang Chen could completely relax without having to brace the face and responsibilities of her talented disciples.

"I promised to refine an elixir to the Greatest Heaven Sect a few days ago, so they sent me five hundred years old tea trees, you and I will taste them in the future." Yang Chen said with a pleasant tone "There are several more spirit springs, you will help me taste it when the time comes."

The news really made Shi Shanshan happy. Although she still didn't speak, the smile on her face was richer and she nodded heavily. The Greatest Heaven Sect sent this kind of thing, apparently it was to please Shi Shanshan, Yang Chen's fiancée.

"Before refining the alchemy, I need some help from you." Yang Chen didn't talk much nonsense and straightforwardly stated his purpose.

Shi Shanshan didn't know what it was, as if she didn't want to talk any more, she just looked up at Yang Chen and nodded heavily. She doesn't seem to want to ask Yang Chen what he wants help with, as long as it was Yang Chen who needs it, she could be satisfied.

"My spiritual awareness faced a little problem when I was cultivating." Yang Chen still told the truth, but just kept it a little bit vague "I need you and I to have a spiritual awareness double cultivation."

"Spiritual awareness double cultivation?" Shi Shanshan frowned.

“What’s wrong?” Yang Chen asked subconsciously. If Shi Shanshan couldn’t do it, then he could only find Sun Qingxue alone.

“I am already your fiancée, of course there is no problem with having a double cultivation.” Shi Shanshan shook her head: “But, do you have the proper cultivation method? The Green Jade Immortal Island cultivation method, if you want to cultivate it, you need the approval of the island master.”

Chapter 427.2: Double Cultivation With Shi Shanshan

It turned out to be a problem because of the cultivation method, so Yang Chen was relieved. The Green Jade Immortal Island’s cultivation method was definitely not bad, but compared with the highest mystery yin-yang heart sutra, it was definitely not in the same grade. Yang Chen could use his life to guarantee this.

In fact, even if Yang Chen needs it, the Green Jade Immortal Island would definitely give it to Yang Chen. It was just a double cultivation cultivation method, could it be compared with a favor from a fifth grade alchemist master?

“I have the cultivation method here.” Yang Chen gave a positive reply to Shi Shanshan: “On your side, would you like to explain to your sect elders?”

“Shanshan is already part of the Yang family in this life, you don’t have to think about it a lot.” Shi Shanshan shook her head slightly and explained “I just don’t want you to always owe favor to others, even if it is Shanshan’s own family sect. “

For people in the cultivation world, the debt of favor was an extraordinary thing. Once there was the dilemma of a favor, when it was impossible to pay off, it was a great obstacle for spirit power cultivation. In the center of the spirit power cultivation, the clusters of heart devils could even endanger life. Shi Shanshan’s move was also for Yang Chen’s sake.

This kind of favor was different from the kind that Sun Qingxue owed to Yang Chen and the kind of favor owed to Yang Chen by the Green Jade Immortal Island and Blue Cloud Sect. The former was a family member, while the latter was a sect, which has nothing to do with the individuals. Moreover, even if the sect asked Yang Chen to do something, they had to pay the corresponding price. It was considered as repaying this kind of favor, which would not affect his personal cultivation.

Shi Shanshan was afraid that Yang Chen would be fettered. Although with Yang Chen's level in alchemy now, this kind of favor could easily be paid off. However, the fewer such things, the better. Otherwise, if a lot of time was spent on favors, it was also an obstacle to cultivation.

With this kind of intention, Yang Chen wanted to appreciate it. For Yang Chen, Shi Shanshan did not even consider the Green Jade Immortal Island, her mind was completely on Yang Chen's side. This was greatly appreciated by Yang Chen and he couldn't help but hold Shi Shanshan tighter, his lips were not hesitant to cover Shi Shanshan's lips.

With her eyes closed, enjoying this caress by Yang Chen, Shi Shanshan was very indulged. It was only in Yang Chen's arms that Shi Shanshan was not the arrogant lady of the heavens, but an ordinary woman who made Yang Chen wantonly love her. This complete relaxation of her mind could only be done by Yang Chen, even in front of her master.

Because Yang Chen defeated her in ten completely different ways, no matter which one, it made Shi Shanshan inaccessible. This kind of master who made Shi Shanshan completely unable to rise up to the idea of rivaling was the love in Shi Shanshan's mind. The cold plum fairy's lover should be such a magnificent hero, when replaced by anyone else, Shi Shanshan cannot be convinced.

With some loving care, Shi Shanshan didn't even want to leave Yang Chen's lips, but just enjoyed this feeling without any burden. Since Yang Chen last enlightened her. She let go of those unnecessary burdens. But it was only in front of Yang Chen that she could completely lay everything down. In front of others, she was still the cold and glorious plum fairy.

A thought that Yang Chen considered. Yang Chen didn't even have to tell Shi Shanshan to keep his spiritual awareness state secret, he believed that Shi Shanshan would naturally keep her mouth shut for him. The character of the cold plum fairy, Yang Chen knew it in his previous life very well.

Although the Highest Mystery Yin-Yang Heart Sutra was mysterious, for Shi Shanshan this genius, there was not much problem in cultivating it. Quickly, Shi Shanshan understood the cultivation method. After trying to cultivate once, she began to cultivate with Yang Chen.

Once in the state of cultivation, even if she never put anything in her eyes and was calm as a stone, she was taken aback by Yang Chen's spiritual awareness cultivation base. Adding together the masters of the Green Jade Immortal Island, it was estimated that none of their spiritual awareness was as strong as Yang Chen's.

Shi Shanshan almost suppressed her horror, which didn't make her scream. This cultivation could no longer continue, but could only be stopped.

"How could this be?" Shi Shanshan was oppressed by Yang Chen's spiritual awareness when she fought with Yang Chen last time, but at that time it was obviously not as it was now. In just a few years, Yang Chen had already improved up to such a point, Shi Shanshan could not help but be terrified.

"I just had a little chance encounter." Yang Chen's understatement omitted the process to the extreme, but also explained the reason "The spiritual awareness is too strong. If I cultivate it will lead to the splitting of the spiritual awareness, so we must use double cultivation to suppress it a bit."

Shi Shanshan finally accepted that Yang Chen's spiritual awareness realm had surpassed this world and she immediately felt sweet in her heart. Yang Chen certainly asked Shi Shanshan to help, but didn't he mean to help Shi Shanshan in turn?

After stabilizing her emotions, Shi Shanshan finally succeeded in entering the state of double cultivation with Yang Chen. The effect of Shi Shanshan's first cultivation with him was as outstanding as Yang Chen expected.

Originally, Shi Shanshan's spiritual awareness was infinitely close to the early Yuanying stage. In this cultivation, she was guided by Yang Chen's spiritual awareness and began to rise steadily and quickly. At the early Yuanying stage, in the middle Yuanying stage and in the late Yuanying stage, it reached the peak Yuanying stage, then it stopped and then began to condense and purify.

Yang Chen has also obtained huge benefits. The realm of his spiritual awareness has not declined madly because of this, but still stayed in the realm of the human immortal first grade. Exceeding the level of this mortal world, even if Shi Shanshan was promoted from the peak Jiedan stage to the peak Yuanying stage, it would have no influence on Yang Chen's realm.

The biggest benefit of the two people's double cultivation was that Yang Chen's spiritual awareness realm has begun to be completely stabilized. Yang Chen was so worried about the split of his spiritual awareness that he was afraid of it forcibly splitting in a state where the spiritual awareness was not stable which would bring many follow-up questions, now this worry was completely gone.

The spiritual awareness was now so solid, even when facing the thunder tribulation, yin fire tribulation and wind tribulation, if Yang Chen started to split his spiritual awareness then, there was no need to be afraid of subsequent troubles. This time, it has eliminated Yang Chen's worries.

Then there was also Sun Qingxue, Yang Chen believed that after the same spiritual awareness double cultivation with Little Xue, at least after two hundred years, even if he was promoted to the Yuanying stage, there was no need to consider the trouble of the split of his spiritual awareness. As for speaking about the split, the split would happen, anyway the ultimate goal of the three purities secret art was to split the spiritual awareness.

This time, Shi Shanshan was completely aware of her horror. With such a spiritual awareness realm, where else in the mortal world could Yang Chen not go?

Because it was her own husband, at this moment, Shi Shanshan had never felt such pride.

Chapter 428.1: Surprise

Yang Chen left the Green Jade Immortal Island after he and Shi Shanshan cultivated for a month to completely stabilize Shi Shanshan's realm.

Of course, it was necessary to also visit the Island master. At present, the Island master was indescribably kind to Yang Chen. Looking at Yang Chen with eyes that was kind staring at her son-in-law, kind and happy.

The Green Jade Immortal Island was the second in line for the refining and now they are third. However, the Greatest Heaven Sect had to bleed big this time, so the Green Jade Immortal Island has a lot of benefits. These were all related to Yang Chen, everyone looked at Yang Chen with a smile on their faces.

With this layer of relationship between Shi Shanshan and Yang Chen and the constant cooperation between the Pure Yang Palace and the Green Jade Immortal Island, they had no worries about being unable to get the required elixir from Yang Chen. Even if Yang Chen can't keep up with the external refining of elixir, can't he get one or two additional refining opportunities from Yang Chen for Shi Shanshan's side?

From the Island master to the elders below, none of them objected to the marriage between Yang Chen and Shi Shanshan. Although Yang Chen and Shi Shanshan both had spiritual awareness double

cultivation before informing them, they also received unanimous approval. With at least this level of relationship, Yang Chen couldn't leave the Green Jade Immortal Island behind again.

When leaving the Green Jade Immortal Island, Shi Shanshan was as cold as ever on the surface. Only when she was in front of Yang Chen, she would show a little bit of reluctance from some obsessive movements. Once the proud genius was conquered, her whole heart seemed to have been given to her husband.

"As soon as I pass this level, I will marry you into the sect and never separate again." Yang Chen also knew Shi Shanshan's thoughts and gave her a small promise.

"I won't talk to anyone about your spiritual awareness." Shi Shanshan knew the importance and concentrated on the avenue, they only took a while to indulge. She calmly bids farewell to Yang Chen. "You do your business with peace of mind. The cultivation is important. "

After he reluctantly said goodbye to Shi Shanshan, Yang Chen rushed directly to the Blue Cloud Sect.

The Blue Cloud Sect's high-level reaction was exactly the same as that of the Green Jade Immortal Island. Elder Hua Wanting seems to be anxious to marry her apprentice off. She was very enthusiastic to greet Yang Chen and she left Yang Chen and Sun Qingxue alone for some intimate time.

Elder Hua knew her apprentice's thoughts on Yang Chen. Sun Qingxue had a strong attachment to Yang Chen from the beginning before becoming her disciple. Now Yang Chen first went to the Green Jade Immortal Island and spent a month, so the elder had a sense of crisis, for fear that Yang Chen would not pay much attention to Sun Qingxue because of this.

Sun Qingxue and Shi Shanshan formed an alliance to deal with Gao Yue and Gongsun Ling. It's one thing, but there was competition between Sun Qingxue and Shi Shanshan. Sun Qingxue doesn't worry about it, but Elder Hua wanted her disciple to win. For her beloved disciple, Elder Hua spent a lot of effort.

Obviously, Sun Qingxue was very happy to see Yang Chen. When there was no one else, almost her whole body was hanging down on Yang Chen, her small mouth talked non-stop, which was in stark contrast to Shi Shanshan who cherished words like gold.

Yang Chen also comforted Sun Qingxue, holding her all the time, making the little girl look like a cheerful koala, the smile on her face did not subside from the beginning until Yang Chen told her that there was a problem with his spiritual awareness, then her look changed greatly.

“How can this be?” Sun Qingxue’s face was worried and she came down from Yang Chen, looking at Yang Chen with concern, her expression of worry was overflowing.

“It’s not a big problem, it’s just that I don’t want a certain step to happen in advance.” Yang Chen reached out and stroked Sun Qingxue’s small face, smoothing out the wrinkles that appeared on her face because of the worry “So, I need your help . “

“How can I help?” Sun Qingxue immediately woke up thinking about something and hurriedly asked, “Is double cultivation able to help you?”

“Spiritual awareness double cultivation!” Yang Chen slightly corrected Sun Qingxue’s claims “You don’t have to use double cultivation.”

“I will go to the Hidden Scripture Pavilion to see if there are any good spiritual awareness double cultivation methods!” Unlike Shi Shanshan, Sun Qingxue did not consider whether the Blue Cloud Sect’s cultivation method would have any obstacles to Yang Chen so she went to find it. She was different from Shi Shanshan, Sun Qingxue has a dacheng stage master and she has a totally different spirit in the sect.

“I have a cultivation method here.” Yang Chen stopped Sun Qingxue from getting the cultivation method and passed the highest mystery yin-yang heart sutra to Sun Qingxue.

After getting the cultivation method, Sun Qingxue immediately reported to her master and then pulled Yang Chen to start the seclusion. After just cultivating the cultivation method twice, she pulled Yang Chen to start the cultivation.

The status of Yang Chen’s spiritual awareness was as shocking to Sun Qingxue, but she was not as shocked as Sun Qingxue, but thought that this was the trouble of Yang Chen’s spiritual awareness now. After all, whoever has such a spiritual awareness, there was always the possibility of it being out of control.

For the first time, during the spiritual awareness double cultivation, Sun Qingxue performed a hundred times better than Shi Shanshan, at least she did not stop because of shock. But with a heart in mind for Yang Chen to solve the problem, she forcibly suppressed the shock and entered the state of cultivation.

Sun Qingxue's spiritual awareness began to soar steadily and it soared towards the peak Yuanying stage. But these ecstatic changes did not seem to matter at all in Sun Qingxue's eyes. She was always worried about whether Yang Chen's problem was solved. Immediately after the cultivation, Sun Qingxue began to question Yang Chen.

"Is it better?" Sun Qingxue stared at Yang Chen's face tightly, for fear that Yang Chen would speak bad words.

"I'm fine now." Yang Chen happily gave a reply to Sun Qingxue "It's never been better!"

After the spiritual awareness double cultivation with Sun Qingxue, Yang Chen's spiritual awareness has reached a level of it being astounding. Even in the memory of the previous Great Principle Golden Immortal owned by Yang Chen, until he reached the heavenly court, his spiritual awareness had not been so solid or condensed.

As for the trouble of his spiritual awareness splitting, Yang Chen has no need to worry at all now. He could completely control his spiritual awareness and control the sea of consciousness. Before reaching the peak human immortal realm, Yang Chen could decide at any time whether he would split it, or would not split it, before crossing the human immortal realm into the earth immortal realm.

The three purities secret art was indeed incredibly powerful. Without the three purities secret art, Yang Chen would not have achieved such success. At this time, Yang Chen thought of the Grand Supreme Elderly Lord. The three purities secret art was so powerful, which master could capture the Grand Supreme Elderly Lord? What kind of story was there?

These things were far from Yang Chen, a mere mortal who cannot control the affairs of a Great Principle Golden Immortal. However, the immediate trouble was solved. Yang Chen could safely carry out the following plans without worrying about other troubles.

Chapter 428.2: Surprise

Hearing Yang Chen's words, Sun Qingxue finally let go of her worries, her white and tender little hand patted her chest gently and she took a breath and looked relaxed.

Later, it seemed that Sun Qingxue had just discovered a change in her spiritual awareness and an incredible expression appeared on her face. Sun Qingxue was a genius in spirit power cultivation, but also a down-to-earth cultivator. Her cultivation skills have also allowed her to have a very balanced spirit power and spiritual awareness cultivation base, there was not much difference between them.

But now her spiritual awareness suddenly skyrocketed to the peak Yuanying stage, let alone Sun Qingxue, any cultivator would know what it meant. Originally, she was a genius in spirit power cultivation. At this moment, Sun Qingxue's path of spirit power cultivation would be unhindered.

The ecstatic Sun Qingxue could no longer suppress her joy and hugged Yang Chen. The tears of joy couldn't help but fall down, just like a string of crystal pearls.

It seems that Sun Qingxue, who wanted to rub herself into Yang Chen's body, has completely released her emotions after Yang Chen resolved his troubles when they cultivated together.

After crying happily for a while, Sun Qingxue grabbed Yang Chen's neck and aligned her delicate face with Yang Chen's face. Then actively printed her red lips to Yang Chen's lips.

It was a long time before the lips of the two separated and Sun Qingxue's eyes flashed with fascination. Then, she closed her eyes happily, her red lips came to Yang Chen's ears, and she said gently, "Brother Yang, wants me!"

After saying this, Sun Qingxue's face was already flushed and her little body became a little hot and her face was buried in Yang Chen's neck, she never dared to look up. Although she was already known as Yang Chen's fiancée. But when she said that, she still needed tremendous courage.

In the mind of Sun Qingxue, she has already regarded herself as Yang Chen's person. From the beginning of her meeting with Yang Chen, until Yang Chen helped her to change her master and later several meetings, Sun Qingxue couldn't forget each time. Her heart has long been firmly tied to Yang Chen's body. This time, finally, she clearly expressed her emotions to Yang Chen.

The young girl's coyness made Yang Chen so excited that he couldn't help it. In the future, the world-famous dancing snow fairy said in his arms that he wanted her, how proud and longing it was. Now it happened in front of his eyes.

Almost exhausted, Yang Chen resisted such an irresistible temptation. After embracing Sun Qingxue for a while, Yang Chen just smiled bitterly.

"I have the proper dual cultivation method, but we need to cultivate after we all reach the Yuanying stage, otherwise it will affect the future cultivation." Yang Chen seemed to be bleeding when he spoke. What a good opportunity, but he was even pushing her away stiffly "You can rest assured that we will get married in a few days and after a few decades, you and I will cross the thunder tribulation and form our nascent soul. We will always be together and never be separated again."

Just as he promised Shi Shanshan, Yang Chen also gave Sun Qingxue a promise. Sun Qingxue was slightly disappointed, but also knew that Yang Chen was thinking about herself and Yang Chen. So she shyly accepted Yang Chen's opinion.

For the next month, Yang Chen would practice with Sun Qingxue once a day, until Sun Qingxue's spiritual awareness state was completely settled and stabilized.

The days they spent together were always short and in a blink of an eye it was time for Yang Chen to leave. Like Shi Shanshan, Sun Qingxue also knew what Yang Chen's spiritual awareness meant. It was a wife's duty to keep his husband secret and Sun Qingxue did not talk to anyone about Yang Chen's secrets.

Yang Chen no longer had any worries, and began to design his plans for the Greatest Heaven Sect this time. Everything would start with Yang Chen refining the elixir for the Greatest Heaven Sect.

Back at the Pure Yang Palace, Yang Chen directly met with a representative from the Greatest Heaven Sect. Since Yang Chen promised to refine for them, the Greatest Heaven Sect has been stationed in the Pure Yang Palace and could contact Yang Chen at any time.

Yang Chen left the Pure Yang Palace to solve his own troubles, the people in the Greatest Heaven Sect were disappointed to be honest. Fortunately, it took only half a year for Yang Chen to return back to the

sect. Moreover, Yang Chen's attitude was very good, he met with the representatives as soon as he returned to the sect.

"I need to see the injuries of the several elders with my own eyes to decide what kind of elixir to make." He knew that the Greatest Heaven Sect were anxious, Yang Chen didn't talk nonsense and directly asked.

How could the Greatest Heaven Sect not agree to such a request? To be honest, this was the responsible attitude. After all, the injuries of the three elders in the Greatest Heaven Sect were much heavier than those of the three elders in the Green Jade Immortal Island and the Blue Cloud Sect. It was difficult to say whether the fifth grade spirit mushroom jade dew pill could be used to cure them. Yang Chen's visit could also make people in the Greatest Heaven Sect feel more at ease.

The Greatest Heaven Sect's representative immediately began to arrange, without even asking anyone. This time, Yang Chen took the clone of the old tree demon and went straight to the Greatest Heaven Sect.

This was the first time since Yang Chen was reborn that he set foot on the Greatest Heaven Sect's grounds, the high level of the Greatest Heaven Sect still wanted to kill Yang Chen as before. Even now, there were still a large number of senior people who wanted him to die. But when he arrived at the Greatest Heaven Sect, he was very comically given the high-level courtesy of the Greatest Heaven Sect. There was no real mockery.

To welcome Master Yang's team, a young figure which Yang Chen was very familiar with appeared. The young sect master of the Greatest Heaven Sect, Li Liheng, as the young sect master, he appeared on this occasion without any surprise.

The senior members of the Greatest Heaven Sect with Yang Chen were sharp. When they reached Li Liheng, they unexpectedly stayed for a while. It was quite polite of them to look at Li Liheng up and down for a long time and Yang Chen suddenly said something that surprised everyone "Young sect master, your spiritual awareness is very interesting, but it has a little flaw."

After saying this, Yang Chen said nothing more and turned to the next elder. Everyone heard something inexplicable and could not understand what Yang Chen meant. But everyone heard from Yang Chen's words. It seemed that Li Liheng was syncope from time to time. Yang Chen should know some reasons, otherwise he wouldn't say something like flaws.

Li Liheng's fists were shaken on the spot, and he almost lost his temper due to his turbulent mood. The fainting from time to time made Li Liheng very suspicious in the sect and now someone finally knows what the reason was.

But those that were shocked the most was not Li Liheng, but the sect master and several core elders who understood what Li Liheng cultivated. The several people looked at each other calmly and they all saw the surprise in the eyes of each other.

If Li Liheng's problem could be solved, does it not mean that he could connect with his predecessors in the spiritual world?

Chapter 429.1: Bai

Yang Chen just swayed in front of Li Liheng and never mentioned it again. In the Greatest Heaven Sect, Yang Chen easily saw the three injured dacheng stage elders.

The three elders were very tightly protected and it was impossible to see idlers around them, but Yang Chen was an exception. This time, Yang Chen not only saw the three elders, but also diagnosed the pulses of the three elders and even consulted the three elders on some physical feelings. After obtaining the consent of the three, he probed their bodies with his spiritual awareness.

Faced with the only alchemy master who could recover their injuries, the three injured elders expressed their full cooperation, which was the first time in the history of the Greatest Heaven Sect.

Soon Yang Chen came to the conclusion that the three elders had no problems with taking the fifth grade spirit mushroom jade dew pill. However, because their injuries were too severe, the whole process of healing would take longer than the three masters of the Green Jade Immortal Island and the Blue Cloud Sect. Even if they take the fifth grade spirit mushroom jade dew pill, it would take half a year.

And Yang Chen also said that he no longer had the fifth grade spirit mushroom jade dew pill and the entire refining process would take almost two years. Counting the six months of recovery, if the three elders wanted to recover, it would take at least two and a half years.

From sitting and waiting for death to healing in two and a half years, the difference in results were quite different. Not to mention that as long as two and a half years, they could afford to wait even 20 years. Twenty years to heal three dacheng stage masters, who would be unwilling?

Yang Chen only said this and nothing else was mentioned. Several senior officials of the Greatest Heaven Sect hoped that Yang Chen could bring up the subject of the young sect master Li Liheng, but Yang Chen did not say a word, as if he had completely forgotten it.

From entering the domain of the Greatest Heaven Sect to leaving, the clone of the old tree demon Gui Shanyou has been following him inseparable. Although Yang Chen was now well-known, the Greatest Heaven Sect should not have other ideas. But the human heart was indispensable, the old tree demon follows, just in case.

Once the other party wanted to capture Yang Chen and use various methods to learn the secret of Yang Chen's alchemy ascension, Yang Chen was bound to expose his state of spiritual awareness, which was very detrimental to his future plans.

Although the other four major sects would never allow this to happen, no one was sure what the Greatest Heaven Sect would do. The old tree demon was responsibly calmed down and it was thoughtful for both parties to leave. No major friction occurred.

Until Yang Chen's figure disappeared into the sky, the Greatest Heaven Sect Sect Master Li and several core elders in the Greatest Heaven Sect were still watching Yang Chen's disappearing direction for a long time, unwilling to move.

"Master, they are gone." There was still an elder who couldn't stand it and he gently reminded them. The thoughts of several senior executives turned back to the issue. Looking at each other, they all felt like they had something to say.

Soon, everyone gathered in the most important hall of the Greatest Heaven Sect. There were only a few elders and sect master Li who knew the inside of Li Liheng's cultivation. They did not add up to ten people.

"He said that the matter of the young sect master was really seen by him, or did he hear it and tell it to us intentionally?" Someone eagerly asked this question.

The significance of Li Liheng's cultivation was too great for the Greatest Heaven Sect. So much so that Li Liheng even became the young sect master of the Greatest Heaven Sect just because he sent out thousands of spiritual awareness marks. For this reason, the sect master gave him the same surname as Li Liheng also bears some bad reputations. So far, there were rumors inside and outside the sect that Li Liheng was his illegitimate son.

These people now know that the relationship between the sect master and Li Liheng was by no means a father-son relationship speculated by the outside world. However, no one would explain it, they would only secretly value Li Liheng's cultivation.

Over the years, Li Liheng has been fainting from time to time, never more than ten days between two consecutive times. They thought that Li Liheng's cultivation has failed, but today Yang Chen's words gave everyone hope.

Who was Yang Chen, although he was not a man in the Greatest Heaven Sect and even all of them present were eager for Yang Chen to die after he has refined the elixir, but no one would doubt his genius in refining, nor would they doubt his authority in treating some of the expert injuries.

The three dacheng stage masters of the Green Jade Immortal Island and the Blue Cloud Sect, the black tiger predecessor of the Beast Taming Sect, the four dacheng masters have all proved this with iron facts.

Yang Chen said that he could treat the injuries of the three elders. The Greatest Heaven Sect would never doubt it. Although they regard Yang Chen as their enemy, they did not hesitate to believe Yang Chen on this issue.

However, what confuses everyone was Li Liheng's problem. The young sect master of the Greatest Heaven Sect got a strange disease and the cultivators have been rumoring about this and Yang Chen certainly knew that. He said that, in the end, did he really see that Li Liheng had a problem with his spiritual awareness, or did he deliberately make use of Li Liheng's strange reason?

"I see, maybe this guy said it on purpose." Many people thought so and someone said it immediately: "we sent someone to kill him several times and he certainly knows our previous attitude, otherwise he would not take Gui Shanyou with him."

This was also a very normal guess. One sentence could make the Greatest Heaven Sect's high-level leaders upset, and they were happy to say such a sentence. Several elders immediately reconciled and most of them nodded frequently. Only the sect master and the two elders were serious and did not express their stand.

Keke, two soft coughs stopped everyone's words and all eyes focused on the elder who coughed.

"Recently we learned a message from the Green Jade Immortal Island and the Blue Cloud Sect." The elder said slowly after everyone had calmed down. However, the expression of speech was dignified beyond words.

"The cold plum fairy Shi Shanshan and the dancing snow fairy Sun Qingxue, after Yang Chen recently visited them, their spiritual awareness cultivation base was suddenly advanced and it is said that they had already reached the level of late Yuanying stage, far exceeding their previous state. "The elder continued," and according to our people's careful inquiry, Yang Chen's master Gao Yue and apprentice sister Gonsun Ling, their spiritual awareness cultivation base is not under the middle Yuanying stage. "

Boom, this news suddenly detonated in the hall. The four Jiedan stage juniors, what it means for them to have a spiritual awareness in the middle and late Yuanying stage was clearer to them.

These four people were closely related to Yang Chen and all of them have undergone such changes. What kind of means does Yang Chen have in the aspect of spiritual awareness?

Chapter 429.2: Bai

In the major sects, the spies of the Greatest Heaven Sect were indispensable, even in major sects such as the Green Jade Immortal Island and the Blue Cloud Sect. After going through Liang Shaoming's affairs, the Pure Yang Palace has cleansed its disciples on a large scale, but they may not be able to find out these two-minded people thoroughly.

The changes in the spiritual awareness of Shi Shanshan and Sun Qingxue could not be concealed from their masters and soon the two main sects discovered the changes in the two women. When asked carefully, they all just said that it was related to Yang Chen, no more words were said afterwards.

The two sect's senior officials immediately speculated that this was Yang Chen's doing. Whether it was medicinal herbs or cultivation methods, he always had a benefit to his fiancée.

This kind of thing was quickly known to all the high-level officials and then only a few words were spread out, after someone inquired, they soon got the news. Although it was not clear to what extent the two women's realm was, it was certain, at least in the late Yuanying stage.

The news that the elders in the Greatest Heaven Sect could get must have been verified. The elder said so, so it means that they are inseparable.

It would not be possible for anyone to have the Yuanying stage spiritual awareness in the Jiedan period. Although it was normal for the spiritual awareness and spirit power to be inconsistent, there would be no such thing as such a big difference between it like in the case of the four women. This could only prove one point. In this respect, Yang Chen has a unique technique.

This also shows from the side that in terms of the study of spiritual awareness, Yang Chen also has the same level as in his alchemy.

In this case, Yang Chen may have truly seen what was happening to Li Liheng, which may be true. He really saw the problem on Li Liheng and knew what happened.

Thinking of this, the people in the hall were excited. If Yang Chen could really solve Li Liheng's problem, it means that Li Liheng could normally cultivate that unique technique. Once Li Liheng was able to connect with the seniors in the spirit world. The time that the Greatest Heaven Sect would rule the mortal world, it was just around the corner.

However, these were still in the imagination of everyone. There was also a real problem before everyone. One was how to verify whether Yang Chen really knows Li Liheng's problem and the other was how much it would cost to get Yang Chen to help.

This time, for Yang Chen to make the elixir for healing the wounds of the three elders, the Greatest Heaven paid with their blood. But for Li Liheng who was able to successfully communicate with the seniors in the spiritual world, they were not on the same important level at all. Even if for Li Liheng, they paid several times more than this time, the Greatest Heaven would be willing.

The focus of everyone's discussion turned to these two issues and they began to offer suggestions. In order to achieve the purpose of making Yang Chen help them again.

After Yang Chen dropped a bait, he never cared about the Greatest Heaven Sect again. If he was in a hurry to give the Greatest Heaven Sect the benefit and his performance was too positive, it may make people doubt. What Yang Chen had to do now was to pretend to refine their pills.

That's right, it's just a pretence. Yang Chen didn't have any plan to open the furnace for refining the fifth grade spirit mushroom jade dew pill. The last time he gave proof to Sun Qingxue. Five spirit mushroom jade dew pills were refined, three were used by the three elders of the two sects and two were left in Yang Chen's hands.

These two fifth grade spirit mushroom jade dew pills were enough for the Greatest Heaven Sect. They hired the fifth grade alchemist to make a move and bring their own herbs and the success rate was not guaranteed. Even if Yang Chen consumed all the medicinal materials this time and none of the elixir would be given to the Greatest Heaven Sect. The Greatest Heaven Sect has nothing to say.

A fifth grade medicinal pill could never be successfully refined once or twice. For a master in the Jiedan stage, if one of ten refinings could be successfully refined, it was already an achievement against the sky. Not to mention that Yang Chen also took out two fifth grade spirit mushroom jade dew pills, which was enough to satisfy the Greatest Heaven Sect.

As for how to assign the two elixirs to the three people, it's not Yang Chen's problem, but the problem of the Greatest Heaven Sect. In the case of two peaches killing three men, Yang Chen could not have happened in the Greatest Heaven Sect. Two elixir were given to them and he was expecting chaos in the Greatest Heaven Sect.

Each of the three dacheng stage masters has a lot of disciples, and there are many factions inside the sect and the three dacheng master masters were the leaders of the three factions. No matter how the two elixirs were distributed, there would always be a master who cannot get them.

Which faction would be willing to sacrifice their own patrons and leaders, while the wounded in another faction recovered quickly? As long as this mindset was inevitable, the three factions would inevitably suffer. On one hand, they attack each other verbally and on the other hand, they may strike out. In either case, the Greatest Heaven Sect's executives would have headaches.

Having figured out this situation, the Greatest Heaven Sect not only could not blame Yang Chen, but also thanked him vigorously. Not to mention two fifth grade spirit mushroom jade dew pills, even if there was only one, or not even one, the Greatest Heaven Sect couldn't say anything. Before the alchemy, they must be prepared to withstand this result. This was all the rule for seeking help in alchemy.

If the Greatest Heaven Sect was unwilling, there were people waiting in line to ask Yang Chen to make a move. It took a huge price to let Yang Chen take a shot. How could the Greatest Heaven Sect let these costs go for nothing?

In fact, since the Greatest Heaven Sect made up their mind to ask Yang Chen for help, they had fallen into a passive state, this was an unavoidable thing. Begging people must have a begging attitude. After all, Yang Chen was needed to help them.

The civil strife in the Greatest Heaven Sect was unavoidable, but it was only a matter of strength. For Yang Chen, as long as he could bring trouble to the Greatest Heaven Sect, he was willing to do so. The trouble was that the more things that happen inside the Greatest Heaven Sect, the better, even without Yang Chen's hands, the internal consumption could slowly eat into the Greatest Heaven Sect's strength.

This was just the appetizer prepared by Yang Chen for the Greatest Heaven Sect. The real meal was still behind. Li Liheng's bait was thrown out and Yang Chen didn't believe that the Greatest Heaven Sect would not swallow the bait. As long as the Greatest Heaven Sect arrives at that, that's the time for the next step.

As for the present, Yang Chen was to use the excuse of alchemy to first absorb the fire seeds sent from the Greatest Heaven Sect and further improve the quality of the profound spirit furnace.

The higher the quality of the profound spirit furnace, the higher the success rate of Yang Chen's refining of higher-grade elixir and the more kinds of fire seeds stored, the greater the power of Yang Chen's Yin-Yang Heaven Burning Fire.

After two years, Yang Chen's "refining of elixir" was completed and two elixir were delivered to the Greatest Heaven Sect. Yang Chen and the head of the palace was waiting to watch the drama of an internal war in the Greatest Heaven Sect.

Chapter 430.1

When Yang Chen started to “refine the pills”, the people in the Greatest Heaven Sect finally breathed a sigh of relief. As long as they waited for two years, they would have the life-saving elixir.

No one would know that Yang Chen’s retreat was just him being together with his master. When he was free, he talked about cultivation or they drank tea, or did both.

Gongsun Ling went out again to perfect her mountain river geographical map. Under the constant exploration of Gongsun Ling, the power of the mountain river geographical map has burst out and even in the tempering process of the life source magic weapon, it could attack. This was a subversion of the whole concept of life source magic weapon.

However, this kind of thing could only be done by Gongsun Ling’s mountain river geographical map. No one else has the powerful magic weapon of the Dragon clan and there were hundreds of Yuanying stage and two dacheng stage masters trapped in the magical fantasy world. It was not impossible to do this by providing Gongsun Ling with a lot of spiritual powers.

After returning, Gao Yue inspected several times and found that Yang Chen didn’t have to worry about the problem of his spiritual awareness splitting for decades and hundreds of years, so she was relieved.

The days with Yang Chen were joyful and Gao Yue spent almost all days carefree, Yang Chen did almost everything. At this moment, the two were just like normal husbands and wives. Except for fear of affecting their realm in the future, so there was no final integration, everything that the husband and wife could do has been done.

Yang Chen’s refining books and classics left by the master from the Greatest Heaven Sect in the Icefield were very precious and were good for Gao Yue and Wang Yong. The process of refining the dragon horn flying sword may even be advanced for some time because of these things.

There were already a hundred kinds of fire seeds in Yang Chen’s hands. The two major sects before and after the remuneration of the Greatest Heaven Sect, there were more than forty fire seeds of fifth grades and above alone. These high-level fire seeds were still scattered and temporarily not absorbed into the profound spirit furnace. This was exactly the time to complete these.

While leisurely controlling the furnace to absorb the fire seeds and while staying lovingly with Gao Yue, this was a very pleasant thing. Quickly two years passed by.

The two fifth grade pills were delivered into the hands of the master of the palace and he would make the final contact with the Greatest Heaven Sect. Of course, the master of the palace knew the inside story that the two pills were left over from the last Yang Chen refining.

The use of the two pills as cure would bring the price of the Greatest Heaven Sect so much and the two pills could also cause civil disturbances in the Greatest Heaven Sect. Of course, the master of the palace was happy.

The palace master brought the elixir to the representative of the Greatest Heaven Sect in a very kind manner. On the surface, he gave a very humble apology and said his disciple was not good at refining and only two were made, which was extremely regrettable.

The disciple of the Greatest Heaven Sect who received the elixir were bitter in heart, but he could not speak a single word of complaint. The alchemy division has a low success rate in refining alchemy, which was still for ordinary alchemy, not to mention the fifth grade alchemy. Yang Chen could come up with two pills within two years, which was already something only a great master of refining could do, how could they blame Yang Chen?

The problem was that three of them were injured and all of them were masters of the dacheng stage. Everyone was evenly matched in power and it was a big trouble to whom to give first. No matter which one was left out in the end, it would bring a big storm.

Fortunately, the representative of the Greatest Heaven Sect just accepted the elixir on the sect's behalf. It was not his turn to decide which elder to take and which elder to leave out, otherwise, he would be exhausted and anxious to make this decision.

The representative does not need to make a decision, but the senior management must make a decision. Three elders, that was, one must be sacrificed first. In other words, if they wanted Yang Chen to make another refining, they needed to pay a high price again.

It was one thing to balance the forces of the three dacheng elders and there was another thing, because of Li Liheng's spiritual awareness problem, they needed to ask Yang Chen for help anyway. It was more than ten thousand times more important to be able to contact the seniors in the spiritual world than to kill Yang Chen. At this time, who cares about the so-called hatred with Yang Chen from before?

The two fifth grade pills really caused disputes up and down in the Greatest Heaven Sect. Three dacheng stage elders, who was willing to fulfill others wish at this time? Their disciples and their families almost fought. If there were not a few dacheng stage masters in the sect, maybe the Greatest Heaven Sect would have directly caused an internal disturbance.

Their own people were arguing endlessly and were unwilling to be the object of that sacrifice. Everyone knew that without the fifth grade pills, it was impossible to recover from the injuries. Without recovery, there would be no dacheng stage elder backing them and many people would have a hard time in the future. For this reason, countless people were in contention.

This movement couldn't be concealed from others. At least the Qiankun Sect, Five Elements Sect, Blue Cloud Sect and the Green Jade Immortal Island knew that Yang Chen was refining for the Greatest Heaven Sect, so all were staring at the results.

The civil strife in the Greatest Heaven Sect just made the four major sects look on lively from a distance. Everyone knows exactly what happened, they were just waiting to see how the Greatest Heaven Sect intends to distribute the two elixir to three people.

At this time, the senior officials of the Greatest Heaven Sect had to appease both internally and externally. Several senior managers took turns to communicate with the three injured masters and communicate with their apprentices in an effort to reach an agreement.

After all, they were disciples of their own sect. They could never be suppressed by force. They could only allow various conditions to come into play. In the end, everyone pushed and discussed with each other. After more than three months of tossing, they made a decision.

The two most injured elders received the two pills and the relatively less injured one, after receiving the senior's unknown guarantee, gave up the fight and waited for the sect to give him a second chance.

However, it was almost impossible for the Greatest Heaven Sect to invite Yang Chen in the near future. The four major sects would never allow this kind of interruption to happen again. If they wanted Yang Chen's help again, they could only contact Yang Chen in private to see what conditions could move Yang Chen.

The second refining of the fifth grade pills was successful and no one had any doubts about Yang Chen. The Blue Cloud Sect and the Green Jade Immortal Island were okay, they already had a batch of questioning inner heart pills, but Qiankun Sect and the Five Elements Sect began to have headaches. For the first time, they were going to ask Yang Chen to refine pills for them, so they didn't know which pills to request at first.

Although the time was not long, the internal disputes in the Greatest Heaven Sect have fallen into the eyes of many people and everyone's views on the Greatest Heaven Sect have also changed slightly.

In this case, the Greatest Heaven Sect had to bite the bullet and send someone to visit Yang Chen again.

Chapter 430.2

This time, it was not a random elder from the Greatest Heaven Sect, but Mao Qi, the head of the foreign affairs hall.

His character was completely different from the arrogance that he accompanied elder Ming Guangruo with the last time, Mao Qi behaved abnormally easy-going. Not only to Yang Chen alone, but to everyone in the Pure Yang Palace, he had a smile that made people feel like seeing a spring breeze.

He didn't know what kind of benefits Mao Qi promised to the master of the palace but the master of the palace came to Yang Chen with a satisfied smile. Yang Chen had discussed this with the palace master early. When the Greatest Heaven Sect asked for a visit, he could get any benefit he wanted from them. Now it was clear that he got what he wanted.

How could the palace master be unhappy, in the past his sect still needed to look up to the Greatest Heaven Sect, now they whispered and begged to come to their sect, they also put on a submissive posture and it naturally gave people a sense of satisfaction.

Especially when this guy who came to the sect was their own enemy, it made people feel the greatest satisfaction. Was there anything more spiritually pleasing than their enemy who was sent to them to come to them with a smiley face and shake their hands?

"Hall Master Mao came from a long distance, with enough sincerity, Yang Chen, you have to listen to his request." Hall Master Mao Qi was handed over to Yang Chen to receive and the master of the palace with a contented smile on his face, shaking in three steps expressing his inner joy, he left here.

“This disciple will have that in mind, I will see you off palace master!” Yang Chen replied, not caring about the face of Hall Master Mao Qi, his face full of the expression of squinting his prey into a trap.

Mao Qi watched Yang Chen’s expression like he was about to make a fortune with open eyes, without any unpleasantness on his face. With a smile on his face, Hall Master Mao Qi’s heart alternated between sadness and joy.

The performance of the Pure Yang Palace sect master, coupled with the performance of Yang Chen, was facing the appetite of the Greatest Heaven Sect. After all, it was still a small sect and a small family with little knowledge. Even if they have become allies with a big sect, they were still a second-rate sect. Even if they have a fifth grade alchemist master, they have never seen anything that good.

All kinds of property could be used to draw them together. If they knew this already, why did their people have to die? The Greatest Heaven Sect moved a lot of experts, six Yuanying stage masters have died and they paid countless prices, but it was better to use this method.

Sadly, the true injustice of those people’s deaths, fortunately, the Pure Yang Palace has already accepted those huge benefits, this time asking Yang Chen to help, maybe it could be solved easily.

“Hall Master Mao, to what do I owe this honorable visit?” Yang Chen sent the master of the palace away and he politely faced him, asking with a smile.

“Grandmaster Yang, it is no secret that I have offended you a lot in the past, please forgive me Grandmaster Yang!” Mao Qi deserves to be the master of the Greatest Heaven Sect’s foreign affairs, he had good communication with others, knowing that Yang Chen may not be happy about him in his heart, he was able to open his mouth and apologize.

Yang Chen raised his eyebrows, watching Mao Qi silently, waiting for him to continue. Mao Qi said this, apparently intending to change his strategy.

“In the future, if the master has any requirements, please advise me at any time. As long as I can do it, I will never disagree.” Mao Qi stated again “I am willing to be a friend with the master and hope that the master will give me this face.”

“Grandmaster this time refined two fifth grade lingzhi mushroom jade pills and the Greatest Heaven Sect is grateful.” Mao Qi rushed to Yang Chen and said, “But grandmaster also knows that three elders in my sect were injured so the two elixir was not enough. Could grandmaster Yang work hard and make another one? The Greatest Heaven Sect will not disappoint the grandmaster. “

“Good way of putting it!” Yang Chen asked politely “What’s the benefit?”

“What does the grandmaster want?” Mao Qi also seemed to understand that Yang Chen didn’t intend to beat around the bush, which was also a good thing for him. Everyone talked about the deal nakedly, so there was no need to mix any other emotional investment. Otherwise, it’s really hard to say what Yang Chen did before to the Greatest Heaven Sect.

“I have enough fire seeds for the time being.” Yang Chen stared at Mao Qi and said slowly.

“The Greatest Heaven Sect has something else besides the fire seeds.” Mao Qi quickly said “Grandmaster, please speak what you want.”

“I have no good cultivation method for my senior apprentice sister who has the earth attribute spiritual root. I don’t know what the ultimate earth cultivation method of the Greatest Heaven Sect is,

and if it will be to my senior apprentice sister’s liking?” Everyone talked nakedly, so would he care about anything and he directly asked.

After opening his mouth to ask about a top-level cultivation method, Mao Qi was silent for time. There were some cultivation methods in the Greatest Heaven Sect, but if they wanted to satisfy Yang Chen, it was impossible to believe in ordinary cultivation methods, even high-level cultivation methods. It seemed that there was only one kind of cultivation method that could satisfy Yang Chen’s extreme cultivation method, but also of the earth attribute.

As an elder, he was still the master of foreign affairs. The only cultivation method that could satisfy Yang Chen’s conditions was the «Sixth Earth True Secret Art».

However, it was prepared for the high level of the Greatest Heaven Sect. Even the Sixth Earth True Essence of the «Sixth Earth True Secret Art» was collected by the Greatest Heaven Sect. The quantity was small and only two people could cultivate it. Was it really going to be given to Yang Chen?

Looking at Mao Qi being hesitant, Yang Chen began to smile. The last kind of cultivation method for the Great Yin and Yang Five Elements Secret Art was stored in the Greatest Heaven Sect in the memory of Yang Chen's previous life. Originally, he couldn't think of how to get the cultivation method before destroying the Greatest Heaven Sect. Now the Greatest Heaven Sect would have to bring it to him.

Mao Qi's hesitation did not last for a long time. A dacheng stage master and the copy of a Sixth Earth True Secret Art plus the Sixth Earth True Essence could hardly be compared. Even if Yang Chen got this cultivation method and it means that the Pure Yang Palace would know about it, but there wasn't a way to collect the sixth earth true essence and the cultivation method would become just a roll of waste paper.

Immediately, Mao Qi decided and nodded "No problem. In order to show our sincerity, we will also send grandmaster some sixth earth true essence."

"Okay, have the medicinal materials ready. Within three years, I will make another refining." Yang Chen also felt refreshed and agreed immediately. With the words on his mouth, the flowers bloomed in his heart, the Yin and Yang Five Elements Secret Art, except for the Third Fire True Secret Art, finally came together and Yang Chen could finally breathe a sigh of relief.

"Grandmaster, the alchemy is not needed in a hurry, there is another thing I will like to ask for next." After listening to Yang Chen's promise, Mao Qi also took a breath as finally one thing was resolved. But this was only one of the requirements, there was something about Li Liheng that needed Yang Chen's help.

"Last time, grandmaster found that my sect's young sect master's Spiritual Awareness was in trouble. I wonder if there is a way to solve it?" Mao Qi asked carefully, this was the most important purpose of this trip.
