

## Zhanxian 431

### Chapter 431.1

Mao Qi asked very straightforwardly, straight into the topic, as if he wanted to follow the remaining potential of the previous transaction and ask the matter clearly and reach a transaction.

“Your young sect master is unconscious from time to time, so you must be very troubled!” Yang Chen asked with a smile, “He has some flaws in his spiritual awareness and this kind of coma will become more frequent in the future.”

“I don’t know if the grandmaster can help my young sect master buy treat him?” When Mao Qi heard this, he knew that there was a door and asked while the iron was hot.

Yang Chen glanced at Mao Qi obliquely and asked straightforwardly, “What’s the benefit?”

“Grandmaster, feel free to mention it.” Mao Qi took the initiative to hand over the initiative in the cooperation to him, waiting for Yang Chen to knock at will.

A fifth grade lingzhi mushroom jade pill has been exchanged for the sixth earth true secret art plus one bottle of sixth earth true essence. Now what would the Greatest Heaven Sect need to trade for the cure of their young sect master?

Li Liheng’s spiritual awareness was very interesting. The spiritual awareness imprint could always be in Yang Chen’s sea of consciousness, providing directions for his positioning with a compass at any time.

After several consecutive times, Yang Chen also seemed to feel that Li Liheng’s spiritual awareness could do some magical things, including a long-distance connection across the two realms that he had only heard of in the Immortal world.

In the memory of his previous lives, the Greatest Heaven Sect’s pursuit of Yang Chen was a bit puzzling. Even if he killed the young sect master, it should not cause the Greatest Heaven Sect’s huge hatred. But if it involves such an extraordinary cultivation method, it was very likely.

For Li Liheng, in fact, there was no problem with his spiritual awareness and cultivation. There was nothing wrong like what Yang Chen said. To cure Li Liheng, it really depends on Yang Chen.

He was given the initiative, Yang Chen certainly won't let it go so he asked directly, "What do you have?"

The things that he wanted to take the initiative to get, that was the sixth earth true secret art and sixth earth true essence, were not yet in Yang Chen's hands. Importantly, Yang Chen didn't know the opponent's hole cards, so there was no way to make specific requests.

"I heard your master Gao Yue modified her cultivation to the water attribute cultivation method. There does not seem to be any good water attribute flying swords on her. My sect is willing to offer two good water attribute flying swords. How about it?" Mao Qi tried to probe the price.

Two flying swords. It was a bit shabby comparing it to the previous remuneration. However, Mao Qi did not dare to bid too high, lest Yang Chen discover anything. And the best way to make Yang Chen tempted was to give Gao Yue benefits directly. This impressed Yang Chen.

The cultivation of the young sect master was also top secret in the sect and Mao Qi could only say that he knows a little bit. He just knew that it's important, how exactly, Mao Qi was not clear.

How could Yang Chen be made aware of such a secret because the payment was too high? The best way was to make Yang Chen think that it was only healing the spiritual awareness of the young sect master and the only place that was valuable may just be the identity of the young sect master, the others were not worth it. Two good flying swords, it was already the limit price that the Greatest Heaven Sect could offer to pay.

Yang Chen also had the same consideration here. He could not let the other party know that he already knew these and he should heal the spiritual awareness flaw of a Jiedan stage cultivator.

Two flying swords were almost enough if they were top grade flying swords. At this point, both sides have their own considerations.

"Are they top grade water attribute flying swords?" Yang Chen was really moved by Mao Qi. After hesitating, he asked.

“Yes they are.” When Yang Chen asked, Mao Qi had confidence and immediately nodded to give the exact answer. While talking, he was thinking in his heart that it really was better to please Gao Yue than to please Yang Chen.

“Ok!” Yang Chen directly relaxed his mouth and reached an agreement, but he was still afraid of the remorse of the Greatest Heaven Sect. He added “When these things are brought, that will be when the alchemy will be started?”

He would start refining after he received the things from them, it meant he was obviously uneasy about the Greatest Heaven Sect. This was the pattern of small sects and small families, which cannot be bigger. Mao Qi achieved all his goals and he was smiling like a flower. He couldn't help but be sorry for the six Yuanying stage masters who have died. It's a pity that they didn't move directly with the benefits at first.

There was Gao Yue in the Pure Yang Palace. Presumably, Yang Chen would never join the Greatest Heaven Sect easily. From the moment when Yang Chen took the things for Gao Yue, Mao Qi judged it. However, this seemed to be a weakness of Yang Chen in the future. If it was controlled, it may have unexpected effects.

Yang Chen got the cultivation method and the flying swords for his women and the Greatest Heaven Sect got the long-awaited third fifth grade lingzhi mushroom jade pill. He also had the opportunity to heal the young sect master's spiritual awareness in a win-win cooperation, everyone was happy.

After the transaction was completed, Mao Qi could not wait to report back to the Greatest Heaven Sect and prepare the things. And Yang Chen also got up and rushed to the Thousand Autumn Pavilion, where the Ten Thousand Treasure Tower was waiting for the arrival of Li Liheng, the young sect master of the Greatest Heaven Sect.

For the diagnosis and treatment of Li Liheng, Yang Chen was no longer willing to go to the Greatest Heaven Sect, he simply asked Li Liheng to come by himself. The choice of the Thousand Autumn Pavilion was for the convenience of both parties. This small request, Mao Qi agreed, the patient going to the doctor to see the doctor was for good reason.

The Greatest Heaven Sect needed it very urgently, so everything was ready in the shortest time. Of course, this could also be interpreted as they were placing emphasis on the dacheng stage master. But both Yang Chen and the Greatest Heaven Sect knew that what really mattered was Li Liheng.

Two months later, Yang Chen met with Mao Qi and Li Liheng, the young sect master accompanied him. The sixth earth true secret art and one bottle of sixth earth true essence were sent to Yang Chen's hands first, waiting for Yang Chen to confirm that there were also two excellent flying swords in front of Yang Chen, one each was the ninth water and tenth water.

It was very easy for Yang Chen to determine the authenticity of the sixth earth true secret art and the sixth earth true essence, he could see it at a glance. Mao Qi had a smile on his face. He looked at Yang Chen with a pretend look and closed it with a smile, his heart full of contempt. This person's alchemy level was okay, but his other skills could be far worse, but he pretended to understand.

However, the disdainful Mao Qi would never say anything, but they were deeply buried in his heart and the smile on his face has not diminished. After Yang Chen put away the sixth earth true secret art and the sixth earth true essence, then he held the two flying swords to appreciate it for a long time, Mao Qi coughed softly, signalling that Yang Chen should treat his young sect master.

Yang Chen also heard the cough and knew his intentions, immediately he put away the flying swords, greeted the young sect master and began to treat Li Liheng.

#### Chapter 431.2

Standing in front of Yang Chen, Li Liheng was very nervous. These days, he was fed up with the faces of some people in the sect. Although he was the young sect master, sometimes he couldn't stand those guys.

Hearing that Yang Chen had a cure for him, Li Liheng almost urged Mao Qi along the way, just to see Yang Chen as soon as possible and to solve his current problem as soon as possible.

Yang Chen simply put his hand on Li Liheng's wrists and then in front of Mao Qi, changed to a way that was incomprehensible to check Li Liheng's situation.

A very ordinary iron rod, small, smooth and sharp, almost a foot long, was held in Yang Chen's hands.

"After I let go, control this iron rod with your spiritual awareness, however I tell you to control it is how you control it, okay?" Yang Chen urged Li Liheng again and finally asked back.

It was so simple, how could Li Liheng not understand and ignore Yang Chen's tone of order, so he nodded hurriedly and signaled that he was ready, so Yang Chen should let go.

"Control the iron rod and fly it around my shoulder for ten laps." Yang Chen began to command slowly.

Li Liheng didn't dare to neglect, immediately he controlled the iron rod and began to circle it around Yang Chen's body. Ten laps were completed quickly and then the iron rod hung over Yang Chen's chest.

"Take another ten turns in the opposite direction." Yang Chen's second order followed closely.

Controlling this iron rod with spiritual awareness was of course to check the problems in his spiritual awareness. Li Liheng didn't worry about it, but just acted honestly according to Yang Chen's words.

Next, there was a series of simple to complex control processes, which Li Liheng has also done carefully. In order for Yang Chen to fully understand his problems, he was meticulous.

The later movements became more and more complicated. Even if Li Liheng only controlled a small iron rod, he began to work a little harder and sweat was also visible on his forehead. But Li Liheng didn't dare to be a little snub. Every effort was made to cooperate with Yang Chen's command.

No one would know that in the increasingly difficult control of the spiritual awareness, in the sea of consciousness of Yang Chen, the spiritual awareness imprint left by Li Liheng began to react slowly.

Close at hand, of course, Li Liheng was able to perceive that Yang Chen had his imprint in his

body. This was originally made by him, so he didn't care, just thought that Yang Chen had not noticed it yet. He did not dare to start it himself, for fear of annoying Yang Chen, or there would be no hope.

And when he did his best to urge his spiritual awareness, Yang Chen's spiritual awareness wrapped his spiritual awareness imprints, then he began to feel some changes in Li Liheng's mood.

With Yang Chen cultivating the beast controlling secret art and the three purities secret art. After Li Liheng's imprint was wrapped in Yang Chen's spiritual awareness, some thoughts of Li Liheng also clearly appeared in Yang Chen's mind.

Determined to be able to capture a trace of Li Liheng's thinking, Yang Chen finally determined that he could communicate with Li Liheng's thinking in this way, through his spiritual awareness imprint he could communicate with Li Liheng.

However, now Yang Chen didn't want to show this, but just took a chance at will and took Li Liheng's spiritual awareness imprint a little closer to the river of blood. He let the killing intent slightly erode the spiritual awareness imprint and Li Liheng reacted for a moment.

The killing intent was fleeting. But Li Liheng was also affected, which made him barely control the iron rod, it suddenly broke away from Li Liheng's control and fell to the ground. Li Liheng already urged his spiritual awareness to reach the limit and he didn't notice the strangeness at all.

In the eyes of Mao Qi next to him, Li Liheng was controlling it well at first, but eventually it became more and more difficult and finally he made a mistake. However, looking at Yang Chen's satisfied expression, Mao Qining would rather believe that Yang Chen would find it because he found the cause of Li Liheng's problem.

"The problem is not very big. In the next refining, u will refine a pill for you. As long as the young sect master takes one of the elixir every half month, as long as it is thirty years in a row, it is natural to cure the disease." Yang Chen patted his chest and gave Li Liheng a very positive answer.

Mao Qi and Li Liheng were overjoyed. If Yang Chen could solve the problem of Li Liheng's spiritual awareness, it would be a great fortune for the Greatest Heaven Sect. In addition to being happy, Mao Qi made a bit of a malicious guess. If Yang Chen knew the truth of the matter, he wouldn't know if he would be able to pay a lot less.

Li Liheng was happy that he finally found a solution. As long as the trouble was solved and he continues to deepen his cultivation, his status and right to speak would certainly rise.

It was another satisfactory meeting between the two parties, but at the time of the last separation, Yang Chen gave Mao Qi an uncertain answer "The young sect master's medicine is easy to refine, but i can

not guarantee the success of the fifth grade lingzhi mushroom jade pill, so it may take a few years, please forgive me. “

Of course, alchemy has the risk of failure and Mao Qi was well prepared. It's just that he was very upset about Yang Chen's previous promise, it seemed that he only wanted to get the rewards first and he intentionally said that it would only take three years to reassure him. A small person was a small person, it was impossible to imagine such a giant organization like the Greatest Heaven Sect. Even if it was that they only promised the sixth earth true secret art and sixth earth true essence. Even if it was ten times or a hundred times more precious, the Greatest Heaven Sect would never go back on their word under this situation.

In the mind of Mao Qi, Yang Chen had lost points continuously and he became only a simple minded person who only knew how to study alchemy. In alchemy he may be the best master, but his insight was still small and in view of this, his achievements in the future would also be limited, at most he would only make achievements on the Dao of Alchemy.

After the two sides were satisfied with each other, Yang Chen returned to the Pure Yang Palace, he reported to the head of the palace and then entered the Immortal's cave again to start the refining.

This time, it was true alchemy. He needed two kinds of pills, one was the fifth grade lingzhi mushroom jade pill and the other was a spirit congealing pill prepared for Li Liheng.

Li Liheng had no problems, of course, Yang Chen knew it. This spirit congealing pill was made for Li Liheng to condense his spiritual awareness a little so that he would feel that his spiritual awareness had changed, making him think that the elixir made by Yang Chen had played a role, which was the only effect of the spirit congealing pill.

As for the fainting from time to time, as long as Yang Chen doesn't torment Li Liheng's spiritual awareness imprint, he was absolutely safe and sound, isn't that still giving people a feeling of being cured by medicine?

This was just one of the intentions, the other purpose was to completely eliminate the possibility of Li Liheng being successful in his cultivation. Yang Chen has a small trap in the elixir. As long as he takes it continuously, his spiritual awareness would move towards the other direction, it would no longer be possible to communicate with the predecessors in the spiritual world and the Immortal world.

As for the most important role, it was to make Li Liheng develop a dependence on the spirit congealing pill. Without it, it would not work. One of the key points of this plan was that after taking the spirit congealing pill, it could give Li Liheng and the senior officials of the Greatest Heaven Sect a feeling of connecting with the seniors in the spiritual world.

#### Chapter 432.1: Support

It was important to make Li Liheng feel that nothing was wrong. It must be known that Li Liheng specializes in spiritual awareness and his spiritual power was relatively poor, but his sensitivity to spiritual awareness was amazing.

For him to be fooled, he must have a mastery that transcends the realm of the dacheng stage. This has been done by Yang Chen, his current spiritual awareness was in the human immortal realm. Although this was the lowest spiritual awareness level in the spirit world, it was enough to fool Li Liheng.

The bond of connection between the two was no more appropriate than the spiritual awareness imprint left in Yang Chen's sea of consciousness. Yang Chen even sensed Li Liheng's thoughts through it. Of course, he could also convey his thoughts to Li Liheng through the spiritual awareness imprint.

This was a seamless situation. Once Li Liheng notices that he has contacted his predecessors in the spiritual realm, the Greatest Heaven Sect would be ecstatic. Maybe they would make some right or wrong decisions according to the instructions of their predecessors. It was 10,000 times easier to collapse the Greatest Heaven Sect from the top to the bottom from the inside out than to turn it from the bottom to the top from the outside.

After Yang Chen's spiritual awareness reached the first grade human Immortal realm, Yang Chen was planning for this day. Now, the first obstacles have been removed, he was waiting for the day when Li Liheng would be surprised.

Who would have thought that Li Liheng, who they had worked so hard to find that in the Greatest Heaven Sect to be suitable for cultivating that kind of method, would be the enemy of the sect? As long as he won the trust of the Greatest Heaven Sect, many things would become easier.

Not looking at the Greatest Heaven Sect's trouble now, but the next thing was the disaster that could make the Greatest Heaven Sect cry. Especially when these disasters were caused by the orders of the sect master and core elders, it was even more exciting.

The two flying swords sent by the Greatest Heaven Sect were both excellent flying swords. To please Yang Chen, the Greatest Heaven Sect definitely paid a lot for it. The first two swords with fire attributes were in his hands, now the two swords with water attributes were remaining.

These two flying swords, their quality were enough to become a part of Yang Chen's yin and yang five elements flying sword. However, for his tenth water flying sword Yang Chen has another affiliation. But this did not prevent Yang Chen from refining it in his sea of consciousness a little, so he sent it into the sea of consciousness and began the tempering of the life source flying sword. Of course, like other swords, it could be taken out at any time.

The two fire attribute flying swords did not have such good luck. Yang Chen decided to use the bright ray sword as his third fire flying sword and at the same time, he had already refined a sword embryo of the fourth fire flying sword. The best ending of these two fire attributes flying swords was to integrate them into the bright ray sword and fourth fire flying sword to improve their quality. It would also be part of the Great Yin Yang five elements flying swords.

The sixth earth true secret art was in his hand, but in order to realize the plan as soon as possible, Yang Chen did not cultivate it for the time being, but first refined the spirit congealing pill for Li Liheng.

The spirit congealing pill was the elixir of the spiritual world. It was impossible for those in the mortal world to know about it. Yang Chen was assured that using this elixir would never be suspicious.

This kind of spirit congealing pill has little effect below the third grade. The only benefit was that it could condense the spiritual awareness a little. Only third grade or above could course some change.

To perfuse Li Liheng, a second grade pill was enough. This also means that in the profound spirit furnace, as long as it was a first grade pill, it would be enough. For Yang Chen, the refining of the spirit congealing pill had almost no difficulty. Yang Chen's medicinal herbs were enough. Less than three months later, there was a blast of fire. There were hundreds of them.

The fifth grade Lingzhi Mushroom jade pill was also not very difficult, but Yang Chen has deliberately refined it in order to provide more insurance for people in the Pure Yang Palace. Two years later, there were six Lingzhi Mushroom jade pills and in the furnace, one more than in his first refining.

Since it has been said that alchemy has a problem of success rate, of course Yang Chen would not jump out to explain to the Greatest Heaven Sect immediately, couldn't they not be made to wait anxiously. At the same time, this was also in line with Yang Chen's obscure approach at this stage.

In the following period of time, Yang Chen first controlled the profound spirit furnace and absorbed all the fire seeds below the sixth grade. When only the sixth grade was left, then he stopped. Just this effort took another two years.

The sixth earth true secret art was a good thing. When the cultivation was successful, it could definitely promote his boundary.

Xiao Tian obtained huge benefits in the Dragon Palace, the most obvious was getting to the base of the Dragon Tower, which meant that it could completely control the Dragon Palace. Now, Xiao Tian has been hiding in the dragon tower to cultivate madly, trying to use the power of the dragon tower to quickly digest the huge dragon qi left by the dozens of dragon corpses.

He believed that after Xiao Tian completely absorbed those dragon qi, it could easily enter the second floor of the Dragon Tower to cultivate. He didn't know to what extent Xiao Tian could mature, but Yang Chen looks forward to this.

The fifth grade Lingzhi Mushroom jade pill should not be handed over to the Greatest Heaven Sect now, lest they quickly calm down the contradictions in the sect. Yang Chen had never planned to come out for a short time from the Immortal's cave.

The bright ray sword and the third fire flying sword sent by the Greatest Heaven Sect were wrapped in Yang Chen's Yin-Yang Heaven Burning Fire, trying to smelt them together to quickly raise the level of the bright ray sword. At the same time, the sword embryo of the fourth fire flying sword was also refined together with the swords sent by the Greatest Heaven Sect.

This time to make the flying sword, it took a full six years, plus the time of the previous alchemy, eight years passed in an instant. After the two flying swords were perfectly integrated, Yang Chen stopped and settled everything before announcing his exit.

The Greatest Heaven Sect sent a representative to stay in the Pure Yang Palace for a long time to hear news. After hearing about Yang Chen's exit, he almost couldn't wait to appear in front of Yang Chen.

“The refining of the fifth grade lingzhi mushroom jade pill failed several times in a row, I’m sorry you waited a long time!” Yang Chen said apologetic words, but there was no apologetic expression on her face and there was no apologetic meaning in his tone. The pills were handed over to the other party and a fifth grade lingzhi mushroom jade pill was also delivered.

The other side received the elixir, thanked him again and again, his attitude was very good, there was no similarity with the Greatest Heaven Sect’s usual posthumous. Later, the representative of the Greatest Heaven Sect quickly left, presumably to rescue the only injured dacheng stage master. As for Li Liheng’s spirit congealing pill, maybe he was not qualified to know much inside information and naturally would not pay much attention to it.

The master of the palace also appeared and sent away the representative of the Greatest Heaven Sect and pulled Yang Chen into the hall. In this plan, Yang Chen didn’t disclose anything with the master of the palace. The master of the palace just knew that Yang Chen was definitely not good for the Greatest Heaven Sect, but he didn’t know what he was going to do.

#### Chapter 432.2: Support

The fact was too unbelievable and it was of great importance. Even to the master of the palace, Yang Chen did not say much. He just handed out a batch of flying swords he had obtained from the Immortal’s cave in the extremely northern ice field to the palace master.

This batch of flying swords were all good flying swords. Although the four flying swords that the Greatest Heaven Sect used to pay Yang Chen were better than them, it was enough for many disciples to refine as their life source flying swords.

This trip to refining the medicinal pills involved many people. Both the Green Jade Immortal Island and the Blue Cloud Sect sent Shi Shanshan and Sun Qingxue and they had waited for Yang Chen for some time. Because Yang Chen didn’t finish the alchemy, they didn’t bother him.

The two women came over and naturally wanted to know the inside story of this alchemy. Yang Chen promised to make one refining in 25 years, which naturally depends on the arrangement of the sect. However, no one could stop the alchemy in private and no one would stop it.

In fact, everyone also knew that the Greatest Heaven Sect must have paid a very high price to impress Yang Chen. This was actually a good thing for the two major sects.

As long as Yang Chen was willing to refine pills for them in private, couldn't the Blue Cloud Sect and the Green Jade Immortal Island give enough benefits to Yang Chen? Moreover, with the relationship between Shi Shanshan and Sun Qingxue, this would only become easier.

Because of the visit of Shi Shanshan and Sun Qingxue, Gongsun Ling, who returned to sect did not go out anymore and received the two girls with Gao Yue. The four beautiful women were striving for battle and it was also a scene in Gao Yue's small courtyard that was enviable to death.

Yang Chen came to his master's small courtyard. As soon as he entered the door, he felt that the girls were distinct on both sides. Four pairs of beautiful eyes stared at Yang Chen's face, cultivators who lacked sufficient qi would definitely run away.

Fortunately, Yang Chen was thick-skinned and after meeting his master. He started talking with the three girls. Then he talked about the original reason for this closed alchemy.

Hearing that Yang Chen traded for the sixth earth true secret art and the sixth earth true essence with a fifth grade lingzhi mushroom jade pill for Gongsun Ling, she was excited. Never mind the eyes of the other three women she ran into Yang Chen's arms, she embraced Yang Chen tightly and seemed to be unable to express all her joy.

After appeasing his senior apprentice sister, Yang Chen couldn't be bothered. His master had the tenth water true secret art to cultivate, but Shi Shanshan and Sun Qingxue were only having relatively advanced cultivation methods, they didn't have true essence cultivation methods.

It's not to say that the two great sects couldn't come up with the true essence cultivation methods and others dare not say so. At least the Blue Cloud Sect definitely had the eighth metal true secret art. It's just that the Yin and Yang five element true essence were really rare. Even if you have the cultivation methods, you couldn't cultivate without the Yin and Yang five element true essence.

In order to collect a little bit of fifth earth true essence, the Greatest Heaven Sect almost got into a fight with the Five Elements Sect. In the end, stealing the chickens and not losing the rice, not only lost all the

money, but also lost some manpower, as well as with several other sects. One could imagine the preciousness of these element true essence.

After looking at the four girls in the two small groups, Yang Chen couldn't help but smile bitterly. Shi Shanshan and Sun Qingxue have already had a spiritual double cultivation with him. They were already his nominal fiancée and the bowl of water should be leveled. Therefore, Yang Chen decided to let Shi Shanshan and Sun Qingxue cultivate their original cultivation methods.

"You will accompany me to retreat and cultivate, I will make a breakthrough in my realm." Yang Chen showed his style, he was very domineering to give orders to the four women.

Listening to Yang Chen's words, the four girls look at each other. After a while, they all nodded silently. This was the first time Yang Chen has issued a command in the tone of a husband and no one wanted to be that disobedient person.

The seclusion place, because there were Sun Qingxue and Shi Shanshan, naturally they cannot go to the Immortal's cave. However, Yang Chen also had a way so they returned to his courtyard, he let Gongsun ling arrange a protecting array and then he took the Dragon Palace out of the merit ring and released it in his small courtyard.

The four women followed Yang Chen into the Dragon Palace with a surprised face and then the Dragon Palace disappeared in the courtyard. To put it bluntly, the Dragon Palace was a more advanced Immortal's cave. It was even more powerful than the blue vault mountain Immortal's cave. It was definitely more effective with less effort.

In this magnificent and exquisite Dragon Palace, the four girls were dazzled directly. Even in the big sects such as the Blue Cloud Sect and the Green Jade Immortal Island, they had never seen such an exquisite Immortal's cave. The four girls entered the Dragon Palace, just like the earthen buns that had never seen the world.

"If you like, choose one for your own rooms." Yang Chen was also happy to see his wives liking it "In the future, this is our home."

Even the most steady Gao Yue, with cheers, disappeared directly in the hall and began to choose her favorite room. The arrogant Shi Shanshan, did not endure this temptation, this was the Immortal's cave which was carefully refined by her own husband.

Just tossing and choosing, the four girls spent a whole day. After the selection, the four girls seemed to forget that they belonged to two small groups and gathered together to discuss how to decorate the place. Seeing how happy and hearty they were, they really regard this as their future home.

After choosing his own room, after a lot of tossing, all them gathered in the hall again. Looking at Yang Chen, the four girls were all talking.

"This is the Dragon Palace I found in the South China Sea, left by the ancient dragon clan." Yang Chen did not conceal this from his fiancée, he also did not wait for them to ask and directly answered.

"Ah!" The four girls exclaimed in a low voice. This news was by no means weaker than Yang Chen's becoming a fifth grade alchemist, which was really shocking.

The ancient dragon race, a race that has been extinct in the mortal world, has even left the dragon palace in the mortal world and also let Yang Chen get it. It sounds like a book of fiction. If it were not for everyone now seeing it, the women would not believe Yang Chen's words. To what extent must Yang Chen's blessing be so profound as to have such luck?

After all the women accepted this fact, Yang Chen said to the women "This kind of thing is no big deal. Don't make such fuss in the future."

The women were about to protest, but they suddenly thought of what happened to Yang Chen and they were silent again. Yeah, everything that happened to him seems to be terrifying. The Dragon Palace seems to be really unnecessary to make them surprised.

"Shanshan, Little Xue." Yang Chen said specifically to Shi Shanshan and Sun Qingxue this time "I don't know what your respective sect expects from you. I just want to know, what resources can the sect give you? cultivation method, magic weapon, medicinal pill, everything counts. I want to know. "

Chapter 433.1: Family Seclusion

Shi Shanshan and Sun Qingxue were caught off guard by Yang Chen's question. To be honest, the two women had no idea what kind of support their sect could give them.

Although Sun Qingxue had a master who was a dacheng stage elder, the sect could not give her unlimited support. Similarly, Shi Shanshan was a genius of spirit power cultivation, but the sect would only give certain care in certain aspects. As for the extent to which it could be achieved, it was not known.

"Dear husband, why do you ask so?" Shi Shanshan asked Yang Chen's thoughts unsure of Yang Chen's motive.

There were only Yang Chen and the four girls here. Shi Shanshan was in this "family" and it was impossible to put on a frosty look, so she talked naturally.

Sun Qingxue had the same confusion, but Shi Shanshan took the lead. She didn't say much, just opened her eyes wide, her eyelashes flickered and looked at Yang Chen, waiting for Yang Chen to answer.

"You are my wife, and I will give you spiritual resources beyond your imagination, so I have to ask about your sect's attitude, so as not to accidentally offend your sect." Yang Chen replied with a smile "The other reason is that there are some choices in the direction of spiritual cultivation, I am afraid I will have a different opinion from your master, so I need to ask clearly. "

The two women were also his fiancée. Apart from pointing out some minor matters, Yang Chen has not supported them at any cost like Gao Yue and Gongsun Ling. Now Yang Chen wanted the bowl of water to level, of course they couldn't drop the two of them. It's just that they aren't considered to be people in the Pure Yang Palace, so they should be a little scrupulous.

Although Yang Chen said it with a smile, the resource beyond imagination still made Shi Shanshan and Sun Qingxue slightly stunned. What was beyond imagination?

Shi Shanshan and Sun Qingxue all came from a big sect. Whether it was vision or insight, they were much stronger than ordinary disciples. Those resources that they have seen in the sect. At least half of them would make cultivators from small sects and rogue cultivators dumbfounded when they saw it. This was the confidence of the big sect cultivators.

To put it bluntly, when the Pure Yang Palace wanted fire seeds for Yang Chen, they mobilized all the disciples to collect it with the contribution of the sect. In the end, they only collected more than two hundred kinds of first-grade and second-grade fire seeds and very few were third-grade. However, no matter whether it was the Green Jade Immortal Island or Blue Cloud Sect, Greatest Heaven Sect, Five Elements Sect and Qiankun Sect, the remuneration they paid to Yang Chen was all high-grade fire seeds and they were easily taken out.

This was the difference between a big sect and a small sect, even Yang Chen cannot deny it. But now Yang Chen told the two women that he would give them resources beyond their imagination. Why won't the two girls be surprised?

Although being surprised, none of the women present were in doubt. Not to mention anything else, the dragon palace in front of them was completely beyond their imagination. Since there was this bottom, then if Yang Chen had to come up with something unimaginable, it seemed that it was not so unacceptable.

Yang Chen's worries were very natural, if the two women were both rogue cultivators, there was no such trouble. But they were all people who have masters. If their masters had already planned the roads for them to cultivate in the future, if Yang Chen intervenes, he may annoy the elders and do bad things with good intentions, which was not worth the loss.

So everything must be considered and properly arranged first. Yang Chen also has to act with caution when it comes to his two fiancées and the relationship between the two sects and the Pure Yang Palace.

These things, Shi Shanshan and Sun Qingxue also thought about it for the first time. They never thought about what kind of spiritual path their sects and masters would arrange for themselves.

Yang Chen's cultivation, it was said that it was entirely up to him, although Gao Yue was his master. But she almost never directed him on anything and now everything was by Yang Chen's own efforts.

And Yang Chen also defeated Shi Shanshan, with his cultivation base there was no problem in pointing the two women. At this point, Sun Qingxue was convinced that even Shi Shanshan, after Yang Chen's instructions, broke through her heart's devil.

But after all, Yang Chen was only their husband, not their master. Once Yang Chen's advice to them was different from that of their teacher, how should the two women choose.

According to Yang Chen's memory, even if the two women didn't get any instructions from him, they would move mountains in the future. However, no matter whether it was Shi Shanshan or Sun Qingxue, it was inevitable to take some detours. When Sun Qingxue first joined the sect, wasn't she delayed by her master? Although Shi Shanshan has not yet reached the time of her problem, it was not far away.

Now that these memories were in place, Yang Chen would naturally not allow them to delay that long cultivation time. Sun Qingxue has been on the right track, but Shi Shanshan still has a catastrophe and he needs to plan ahead.

"This matter, maybe we have to go back to the sect and ask carefully." Sun Qingxue nodded again and said, even if she was deeply loved by Elder Hua, she did not dare to make a decision for Elder Hua easily.

"Don't forget to ask about it after going back." Yang Chen nodded. This was the normal attitude. If the two women agreed and don't consider anything else, then it's dangerous. However, he still asked the two women to fight a little "It is better to let the sect agree and allow you to cultivate with me."

With the current relationship between the Pure Yang Palace, Blue Cloud Sect and the Green Jade Immortal Island, he believed this would not be difficult. And everyone knows that following Yang Chen would never lead them to make the wrong choice, there was no reason not to agree. It's just that, no matter what, they had to be informed and so that they preserve their face, otherwise good could also cause big trouble.

This was to give the two women a little bit of knowledge and let them do the work of the sect, but also had to make psychological preparation. As for the moment, it was Yang Chen who pulled them to retreat, to cultivate everyone's understanding, but also to straighten their state of mind. Of course, the most important thing was to make the four women's state of mind steadfast.

In the past, in order to solve the problem of his own spiritual awareness, Yang Chen and the four goddesses had double cultivation. Everyone spent a month. Yang Chen's problem was solved, but the four girls had not cultivated the three purities secret art and they couldn't have such a strong foundation as Yang Chen. So, double cultivation could make their state more stable.

The reason for such a long interval was also a process for them to adapt. Of course, the four girls agreed to retreat here with Yang Chen without hesitation.

#### Chapter 433.2: Family Seclusion

It was a very luxurious thing to retreat and cultivate together with Yang Chen. If they were to let outsiders know, they would beat their chests and make their eyes red with envy and jealousy.

Second grade questioning inner heart pills, it was not known how many big sects and peak Yuanying and dacheng stage masters dreamed of it, but it was not easy to get here.

The following days, Yang Chen spent every day in the process of spiritual awareness double cultivation with one of the four women. This kind of thing lasted for more than a year before it stopped.

After more than a year of cultivation, the four women's state of mind was completely consolidated and even vaguely showed signs of impacting to a higher state. Even if there was any major change in the future, the four women's state of mind would not be easily affected.

It was not until this point that Yang Chen stopped and asked the four girls to cultivate by themselves. Yang Chen himself started his unfinished work, absorbing fire seeds with the profound spirit furnace.

There were still several kinds of fifth-grade fire seeds that have not been absorbed and there were also several sixth-grade fire seeds. The other was the treasure of the Pure Yang Palace that Yang Chen has been hiding on his body.

For the time being, there was no problem with the absorbing of fifth-grade fire seeds and the profound spirit furnace has absorbed more than one kind. There was also no big problem with absorbing the sixth grade fire seeds, but for the seventh grade Pure Yang True Fire, the profound spirit furnace may not be able to bear it. It was necessary to absorb several kinds of sixth grade fire seeds in order to upgrade the profound spirit furnace to the point that it could withstand the power of the pure yang true fire.

The profound spirit furnace's absorption of fire seeds was only the first step. Yang Chen would absorb the fire seeds from the profound spirit furnace and integrate it into the Yin-Yang Heaven Burning Fire. However, compared with the absorption progress of the profound spirit furnace, Yang Chen knew that the Yin-Yang Heaven Burning Fire could only absorb the third grade fire seeds. It's still far away.

The process of absorption was also the process of Yang Chen's fire attribute spirit power growth. It was also the process of inspiring other spiritual advancements. If you don't count the cultivation of the yin and yang five elements secret art, then if Yang Chen wants to cross his tribulation, all would fall on the opportunity to absorb the fire seeds. This was a process that needed to be carried out for a long time, even if the profound spirit furnace was used to absorb the fire seeds.

It takes at least half a year for the absorption of the fifth-grade fire seed, even if it was the profound spirit furnace. After the profound spirit furnace absorbs a fifth-grade fire seed, Yang Chen would merge a third-grade fire seed to keep the relative revision average. Several kinds of fifth-grade Fire seeds were absorbed and a few years passed in a flash.

The profound spirit furnace in the memory of his previous life seemed to be acquired by its real master at this time and it was gradually becoming famous. That was in the spiritual world.

The changes in the profound spirit furnace, Yang Chen didn't know how to describe it. Several kinds of fifth grade fire seeds were added so there was almost another qualitative change. The overall furnace body was more crystal clear and it began to change towards a transparent direction. He believed that if the effort was deeper in the future, the changes of the medicinal ingredients in the furnace could be seen from outside the furnace.

It has become easier to increase the level of medicinal ingredients. Before when Yang Chen was refining the fifth grade lingzhi mushroom jade pill, he had to refine it until the fourth grade and continued for a period of time, but now it was estimated that as long as it was refined to the fourth grade, the profound spirit furnace would automatically upgrade it by a grade.

The biggest change was that if Yang Chen used the profound spirit furnace to refine the mortal realm medicinal pills. No matter how Yang Chen controls it, the medicinal pills that came out of the profound spirit furnace would be at least in the second grade, even if Yang Chen deliberately lowers the grade.

In the future, if Yang Chen wanted to refine the first grade questioning inner heart pills for other sects, it seemed he had to give up the profound spirit furnace and use an ordinary pill furnace instead. The pill furnace sent by the Greatest Heaven could be used for this purpose.

It was also a luxury for all the women to cultivate themselves. Almost every other year, they would drink the four seas mysterious coral liquid to completely eliminate the impurities in the body. The second

grade questioning inner heart pill and the second grade inner sensing pill, they would take one for each deep cultivation. The abundant spiritual power in the Dragon Palace was even stronger than all the spiritual veins in the Green Jade Immortal Island and Blue Cloud Sect.

In this kind of environment. Even if everyone breathes casually, it would be several times stronger than the serious cultivation outside. Not to mention this kind of in-depth cultivation after taking the second grade questioning inner heart pills, the cultivation of the four women was progressing by leaps and bounds.

Shi Shanshan first entered the bottleneck period. In the year when Yang Chen was reborn as an executioner, Shi Shanshan had begun to condense her dan and it has been 170 years until now. Shi Shanshan was already in the peak late Jiedan stage, now she has completely entered the peak Jiedan stage. Only the last step was needed for her to cross her tribulation and form her nascent soul.

But this step was the most difficult and the most critical. At this moment, Shi Shanshan taking the questioning inner heart pill and the inner sensing pill has little effect, although her spiritual strength has exceeded most of the early Yuanying stage masters and in the middle Yuanying stage, but because she did not survive the thunder tribulation, after the thunder baptism, the realm still remained at the peak Jiedan stage.

However, the opportunity for Shi Shanshan to cross her tribulation, Yang Chen has already been prepared. The seventh metal true secret art and enough seventh metal true essence would definitely allow Shi Shanshan to successfully complete the tribulation. However, before that, Shi Shanshan had to check with her sect about the concerns that Yang Chen had mentioned before.

Although Gao Yue was about the same age as Shi Shanshan, she later began to cultivate the spiritual power of water attributes under Yang Chen's suggestion. Before the seclusion, the spiritual power of water and fire were maintained in the middle of Jiedan stage in a balanced manner. The realms of Gongsun Ling and Sun Qingxue were also in this realm.

After ten years of retreat, the cultivation of the three women went straight to the late Jiedan stage. He believed that in a few decades, they would also reach the state of Shi Shanshan.

In the same way, everyone has an opportunity to attack the Yuanying stage realm. Yang Chen was prepared. Just when the time comes, it would be the time to form their nascent soul.

As for Yang Chen himself, he has already entered the late Jiedan stage with the help of the dragon yuan. During this period, in addition to the fusion of fire seeds into the profound spirit furnace, he was to consolidate and balance the spiritual power of other attributes, and when appropriate, let the young master of the Greatest Heaven Sect, Li Liheng feel that his strange disease was slowly recovering.

Yang Chen gave the Greatest Heaven Sect hundreds of spirit congealing pills and Li Liheng would take one every half a month. And this spirit congealing pills really made Li Liheng have a significant change.

The first thing Li Liheng felt was the refinement of his spiritual awareness. Soon after taking the elixir, he could feel this clearly.

Of course, the most critical change was that Li Liheng's inexplicable fainting interval began to grow longer and longer.

After the first one was taken, the fainting did not start until about twenty days and usually, the interval was only ten days.

With more and more spirit congealing pills being taken, the interval between fainting changed from twenty days to thirty days, forty days, two months, four months, half a year and one year. So far, the last fainting was twenty months ago.

This phenomenon fully explained the effect of Yang Chen's pills.

Chapter 434.1: Protecting A Foe

As Li Liheng's spiritual awareness became more and more condensed, the interval of the fainting became longer and longer. The core senior officials of the Greatest Heaven Sect saw the hope of complete recovery for Li Liheng's.

The normality of Li Liheng means the hope of that kind of magical cultivation method being successful and these core elders paid more and more attention to Li Liheng.

Yang Chen gave the Greatest Heaven Sect hundreds of spirit congealing pills at one time. If the Greatest Heaven Sect did not take a few to analyze, it would not be the Greatest Heaven Sect. How could such an

important medicine be controlled by outsiders anytime, anywhere? The Greatest Heaven Sect must master the refining method.

The fifth grade lingzhi mushroom jade pill has already made the Greatest Heaven Sect suffer. The two pills delivered in the beginning almost caused the sect an internal strife. Later, the senior executives came forward and promised a lot of conditions, so that the dacheng stage elder and his family were quiet, waiting for their opportunity later.

But it took eight years for this and it was only after the Greatest Heaven Sect paid with the essence cultivation method and the sixth earth true essence before they got the pills promised by Yang Chen. In the eight years of waiting, there have been dozens of fights between the factions in the Greatest Heaven Sect, which almost killed people.

Even so, the Greatest Heaven Sect found out that there were several disciples in the Jiedan stage who they had no news off for seven or eight years and it was estimated that they were missing. Disciples under the Yuanying stage cannot leave a life source mark behind, so they didn't know whether they were dead or alive. But many people have speculated that the missing disciples have already lost their lives.

It was not easy to wait for Yang Chen's life-saving pill. The dacheng stage elder's injury healed within a few months, but there were already many discords between the three factions. When the disciples met, there were always all kinds of clashes in secret.

But for the time being the sect also didn't have a very good way to eliminate this kind of opposition, they could only let it go and see if time could calm these internal conflicts.

There was only one fifth grade lingzhi mushroom jade pill, so there was no opportunity to study it in depth. But the spirit congealing pill was different, Yang Chen gave hundreds of them at a time, enough for people in the Greatest Heaven Sect to study it clearly.

Unsurprisingly, the raw materials of the spirit congealing pill were easily analyzed by the Greatest Heaven Sect's alchemy masters, but the changes in the spirit congealing pill's refining process made these masters unable to fully understand. So it always fails when they try to refine it.

As a last resort, the masters of the medicinal hall asked for a few more pills for more dismantling analysis and research. Within a decade, thousands of trials were made. But so far, there was still no clue found.

The raw materials were clear, if Yang Chen was there, no problems would be found. The real problem was that the unique method in the refining process and the key method when collecting the pill, without knowing these, it was never possible to refine the spirit congealing pill.

They thought hundreds of them would be many, but unconsciously, people in the Greatest Heaven Sect medicine hall found to their surprise that it seemed that there were only dozens of the spirit congealing pills delivered by Yang Chen remaining. Everything else was consumed in the process of dismantling research.

Dozens of spirit congealing pills were remaining. At best, it could only keep Li Liheng safe within a few years. Who knows whether Li Liheng has been completely healed, except Yang Chen, no one dares to be sure. It seems that everyone unknowingly made a large bamboo bar personally and then waited to be sent to Yang Chen again.

The lifeline was pinched by Yang Chen and the Greatest Heaven Sect felt an unprecedented sense of frustration. However, these feelings were not worth mentioning at all compared to what Li Liheng gained in his recent cultivation.

In the past few days, Li Liheng, as always, cultivated his own unique spiritual awareness cultivation method, without knowing the reason, he felt a sense of awesomeness several times in a row. It seemed that his own spiritual awareness suddenly entered a vast sea, which made people feel a sense of admiration.

Li Liheng didn't know why and immediately asked the sect master for advice. When sect master Li heard Li Liheng's description, he almost jumped up in joy. He directly summoned several core elders and even awakened an old ancestor who had been in deep sleep and had been in seclusion to ask questions about Li Liheng's cultivation method.

This sleeping ancestor was one of the Greatest Heaven Sect's greatest strengths. He has already reached the state where he could cross his tribulation and ascend, but he has repressed his cultivation and fell into a deep sleep, while avoiding the tribulation and ascending, so as to be able to protect the Greatest Heaven Sect in the mortal world. There were at least several people in the Greatest Heaven Sect who

knew this ancestor. He usually sleeps deeply and does not ask about the mortal world. He would be awakened only when the Greatest Heaven Sect was in crisis.

Li Liheng's cultivation method, of course, the ancestor knew, after listening carefully to the feeling of the spiritual awareness conveyed by sect master Li, he pondered for a while and said to Li Liheng suddenly "Please try to contact this old man with your spiritual awareness so that I can understand that feeling. "

The ancestor's command, Li Liheng, of course, must abide by it. Immediately after conviction, he started to cultivate the cultivation method and began to contact the ancestor's spiritual awareness, so that he could carefully experience the feeling.

"How do you perceive the majestic majesty like the old man?" The old ancestor stared at Li Liheng carefully and asked.

"It seems to be stronger than the ancestor's. This disciple wanted to kneel even when i sensed it." Li Liheng carefully described his feelings and compared them with the ancestors' spiritual awareness before him.

The power of the ancestor has surpassed some of the guys who have crossed their tribulation and ascended and it was stronger than his. What was the concept? It seems that there was no other possibility except the people in the spiritual world.

"Did the other party notice you?" The ancestor continued to ask.

"This disciple doesn't know." Li Liheng honestly replied "However, one time this disciple had a strong feeling of being probed and was very uncomfortable."

"Oh?" Li Liheng's answer instantly brightened the eyes of the ancestor. All these descriptions seem to be in line with the taste of communicating with the elders of the spiritual world in the cultivation method of Li Liheng.

"If you feel this way again next time, try to send your consciousness over to see if the other party has responded." The ancestor has not cultivated this kind of cultivation method and could only give this advice "You are here so try to cultivate, can you enter the state again. "

“Yes! Ancestor!” Li Liheng promised and began to cultivate in front of the several core elders.

After such a long period of cultivation, Li Liheng has already gotten used to this feeling several times . Soon, he felt the majesty again during his cultivation. This time, according to the instructions of his ancestor, he conveyed the meaning of his visit and then quietly waited for the result.

Chapter 434.2: Protecting A Foe

In Yang Chen’s sea of consciousness, Li Liheng’s spiritual awareness imprint was being drawn into the side of the dragon by a large group of spiritual awareness threads. Suddenly, Yang Chen realized the meaning of Li Liheng’s visit.

“Who?” Yang Chen directly sent a powerful thought into the spiritual awareness imprint and at the same time, Li Liheng’s spiritual awareness imprint was shaken fiercely and then quickly poured into the mouth of the dragon.

Li Liheng only felt that there was a thunderstorm in his mind and the words of questioning were like bomb explosions, which directly shocked him and he almost fainted. The taste in the dragon mouth was worse than that of the bloody river, but it lasted for a few seconds. Li Liheng could no longer persist and fainted directly.

After a lot of confusion, Li Liheng was finally awakened. Immediately afterwards, he shockedly told them that he had been questioned and suddenly the core senior elders and ancestor cried out like crazy.

Seeing their excited expressions, it seemed that the Greatest Heaven Sect had leveled all the sects of the mortal world overnight and the heritage of their sect would last forever. Li Liheng can’t really understand their thoughts. What he was worried about now was how he caused an extremely powerful master. Whether the opponent was strong or weak, or whether he was thirsty, was unclear.

Relative to Li Liheng’s confusion and fear, the ancestor and several core senior elders were more like lottery jackpot winners and almost laughed.

There was actually an extremely powerful master who asked who Li Liheng was? And the strength of the spiritual awareness was stronger than that of the ancestor. Was there any other possibility besides being from the spiritual world?

Li Liheng was the cultivator of this cultivation method, by this time, the specific role of this cultivation method must also be known to Li Liheng. Soon, under the explanation of sect master Li, Li Liheng understood the significance of his cultivation to the sect.

It turned out that he was so one-of-a-kind. He was even one of the most important links for the Greatest Heaven Sect to dominate the Dao sects in the future, he was directly comparable to the sect master who issued the order. This feeling really brought him indescribable pride.

The inquisition without knowing where it came from has already proved Li Liheng's cultivation was correct, but it was clear that with his current ability, he could even be shocked into a coma even when he couldn't say the last sentence with the other party. This was a problem of insufficient cultivation base. Of course, it may also be that the hidden dangers of his spiritual awareness were not completely eliminated.

Therefore, the Greatest Heaven Sect had to face an embarrassing problem. That was, after a few years later, if the spirit congealing pills on hand were used up, Yang Chen must be asked to refine pills for them again.

What kind of unbelievable situation was this? How many people were waiting for Yang Chen to die, but the Greatest Heaven Sect, who hated Yang Chen the most, had to do their best and make every effort to ensure the safety of Yang Chen, the damn guy.

Such a contradictory mood. It simply gave the Greatest Heaven Sect's high-level members an urge to vomit blood. They have to protect the guy they wanted to die, was there anything more ironic than this?

People under the low eaves had to bow their heads. Their hatred of Yang Chen for killing six Yuanying stage masters became immediately insignificant compared to the event that made Li Liheng recover and communicate with the predecessor of the spiritual world. The six Yuanying stage masters have also become necessary sacrifices.

The Greatest Heaven Sect now needs to go and communicate with Yang Chen again, so that Yang Chen could once again refine pills for Li Liheng. Only this time, if they wanted to simply use two top grade flying swords to get the spirit congealing pills. That would be impossible.

Yang Chen was by no means a fool, on the contrary, he was a wise man. Hundreds of spirit congealing pills were used up within a few years and more would be needed. If it was Yang Chen, he should know the truth and take advantage of the situation. They just don't know how much it would cost this time in order to get the pills they wanted.

Mao Qi once again embarked on the road to the Pure Yang Palace. This time, he was directly instructed by the high-level sect members. In the face of the Pure Yang Palace and Yang Chen, he could never put on airs of them being the leader of the Dao sects. And no matter how much the demand was, Mao Qi could agree.

Even for the request that Yang Chen might make, sect master Li and his ancestors personally made a decision. No matter what Yang Chen wanted, as long as the Greatest Heaven Sect could do it, he could agree without asking him.

In addition, the Greatest Heaven Sect issued the harshest verbal note to everyone. If anyone dared to fight Yang Chen, the Greatest Heaven Sect would destroy them. This was not a negotiable condition, but an ultimatum. As long as someone dared to treat Yang Chen impolitely, they would become the enemy of the Greatest Heaven Sect.

It was not known how the miserable Yang Xi would regret his previous behavior if he learned of the sect's decision. But he has no chance, let alone whether he could kill Yang Chen, even if he has this ability, the sect would not give him a chance to start, even if they felt that he was threatening Yang Chen, maybe the Greatest Heaven Sect themselves would first pick his head to please Yang Chen.

The Greatest Heaven Sect could even ignore the lives of the six Yuanying stage masters. Not to mention Yang Xi, a small disciple who was in the foundation stage. Personal interests should serve the sect's interests and sacrifice for the sect if necessary, this was the reality.

Yang Chen does not yet know that he has become the object the Greatest Heaven Sect had to protect at all cost from the person they had to kill at all cost. He was only considering that he should establish a spiritual connection with Li Liheng after several contacts with him, so as not to cause too much suspicion from the Greatest Heaven Sect.

This was such a wonderful thing that he could become the predecessor of the Greatest Heaven Sect, to direct the development of the Greatest Heaven Sect. And when the Greatest Heaven Sect would hand over the entire sect to their enemies to guide them, what kind of revenge would that be?

As long as this step was completed and the Greatest Heaven Sect senior elders believed that he was a predecessor who had ascended, then the annihilation of the Greatest Heaven Sect could begin to count down. His former sect was destroyed and the hatred that he had been oppressed all his life was at the time to settle the accounts.

The family of Yang Chen finally got out of the seclusion. Shi Shanshan and Sun Qingxue hurried back to their sects at the fastest speed. On the contrary, they had to feed back Yang Chen's attitude. Gao Yue still needed to continue refining her dragon horn flying sword and Gongsun Ling was going to perfect the last site of the Dao sects in the mountain river geographical map.

As for Yang Chen himself, he went to visit the palace master and a group of elders. Now all the major sects have begun to recruit a large number of the monster race to join their eccentric hall and the time for the collection of the banyan tree Immortal's cave into the Pure Yang Palace was ripe, it was time to start planning.

At the same time, there was another thing that the master of the palace wanted him to complete. Now all the women were just Yang Chen's fiancée. It was time to get married and turn all the women into his wives.

#### Chapter 435.1: The Banyan Tree Immortal's Cave Scheme

In the banyan tree immortal's cave, there was only one cultivator in the dacheng stage. With Hou Yun, it was not very difficult to handle it. The only thing they had to worry about was that they would still have to struggle with the monster cultivators and finally the both sides could perish and the banyan tree immortal's cave would be destroyed.

It was not an easy task to control a dacheng stage master if he wanted to run. Even if the other party was killed in the end, the banyan tree immortal's cave would be completely destroyed and the monsters inside would be completely killed and wounded. What the Pure Yang Palace wanted was the monster race of the banyan tree immortal's cave, not a simple cave.

Fortunately, Yang Chen had already considered this situation, plus Hou Yun, if the old tree demon was also there at the same time, according to Yang Chen's plan, he could get the banyan tree immortal's cave without much issues.

Yang Chen's biggest reliance was the old tree demon. Of course, it must be the main body of the old tree demon.

The banyan tree Immortal's cave was definitely a first wood attribute, even if it was refined into the Immortal's cave, it was not impossible to change this. This gives the old tree demon unlimited possibilities to control the banyan tree Immortal's cave.

What they had to do now was to let the old tree demon go to the banyan tree Immortal's cave quietly and control the banyan tree Immortal's cave for a period of time, then Yang Chen would come forward to lure out the lord of the city and they could fight him outside.

With the hatred of Yang Chen killing the second city lord, if the first city lord mainly found out that Yang Chen was around, he would definitely pursue and try to kill him in desperation. This gave Yang Chen the opportunity to take out the first city lord outside without affecting the monster race of the banyan tree Immortal's cave.

After taking control of the banyan tree Immortal's cave, the rest was simple. The avatar of Hou Yun and the old tree demon were enough to control the the banyan tree Immortal's cave and then take care of them one by one from top to bottom, as long as those masters who were in the Yuanying stage join the Pure Yang Palace, the rest was not a matter of concern. With powerful forces and the temptation of various resources, those monster tribes would join the Pure Yang Palace sooner or later.

Compared with other sects who carefully searched for monster races from the outside and recruited hundreds of thousands of monster races directly from the banyan tree Immortal's cave, it was too easy for the Pure Yang Palace to recruit disciples.

The top level of the Pure Yang Palace has been waiting for Yang Chen to launch the offensive of the banyan tree Immortal's cave for too long. Yang Chen now finally said that the time has come and everyone was excited.

Hou Yun, Gui Shanyou and even his master ancestor Wang Yong wanted to join in the fun. The experience of dealing with a dacheng masters was not so casual to get, if they missed this chance it was not known how many years it would take to have the next chance.

In fact, even the master of the palace and several elders wanted to follow. The last time She Kui and Xie Sha went out with Yang Chen, the harvest was great.

Not to mention the large amount of materials in the Hidden Dragon Cave, just the chance to experience the yin fire tribulation was enough to make the Yuanying stage masters drool with envy.

Following Yang Chen out, it seemed that there were good things that happened every time, which has become the consensus of everyone. It was a pity that neither the master of the palace nor the elders could go, they all had to deal with a lot of things. The affairs of the Pure Yang Palace cannot be easily handled by one or two people.

No matter what, everyone could only envy watching the three dacheng stage masters of the Pure Yang Palace leisurely and comfortably follow Yang Chen, but they could only stay back.

At this time, the master of the palace began to make up his mind to make a good rotation system so that they could take turns to rest or cultivate, so as not to delay the sect affairs, but also take care of themselves.

Gongsun Ling also followed, this was a good opportunity to expand the mountain river geographical map. And maybe it would also allow her to get one more dacheng stage master in the mountain river geographical map.

Generally speaking, it was simply impossible to control a dacheng stage master by a Jaidan stage master. However, with the magic weapon refined by the dragon race, that was quite another matter. In the mortal world, it could almost be said that no one could escape the control of the mountain river geographical map.

Of course, with the exception of Yang Chen, his powerful spiritual awareness was enough to see through any illusion. Even if Gongsun Ling had the mountain river geographical map in hand, it was impossible to control Yang Chen.

However for Gongsun Ling, it was not easy for anyone to control the collection. At least so far, she has no such powerful force. It could only be applied to some guys who have no resistance at all and even during the tempering of this life source magic weapon, even people who were having lower cultivation base than her cannot be gathered.

The three dacheng stage masters of the Pure Yang Palace leaned out of their nests and went straight to the ten-thousand trees forest in monster race domain, where the banyan tree Immortal's cave was located. This time, it was the Pure Yang Palace making a move and it was also a rare big move in the history of Pure Yang Palace.

Yang Chen's flying shuttle once again acted as a means of transportation, carrying everyone on it. Except for Wang Yong, basically, Gui Shanyou and Hou Yun have no magic weapon for fast flight.

During the flight, everyone basically cultivated on their own. Whether it was Yang Chen or Gongsun Ling, the three dacheng stage masters seem to be able to give pointers on experience, but there was absolutely no point in the cultivation. Yang Chen was also not stingy, each of the three masters were given a questioning inner heart pill one by one, it was better to add a little bit of experience on the way.

After a year, Yang Chen's flying shuttle has appeared in the ten-thousand trees forest. In the beginning, they did not directly enter the banyan tree Immortal's cave, but were under the cover of Yang Chen's sea pouring jade cup and went close to the inside of the banyan tree Immortal's cave.

Their spiritual awareness was completely obscured by the jade cup, even if it was the first city lord, it would be impossible to find the traces of everyone. And whichever one was present, the worst was the peak Yuanying stage, so there was no need to worry about the danger of being discovered by other monster races.

The next thing to do was by the old tree demon, the goal was to directly target the banyan tree Immortal's cave. Gui Shanyou, who came with his real body, directly dug his roots deeply into the ground and began to contact the original roots of the banyan tree Immortal's cave little by little.

Although it has been refined into a magic weapon, the banyan tree Immortal's cave was clearly a living magic weapon, with roots and body still functioning and the branches and leaves were also thriving.

The root system of the old tree demon began to slowly stir up with the root system of the banyan tree Immortal's cave. The next step was to slowly penetrate through the root system and slowly refine the banyan tree Immortal's cave.

It was the first time that the old tree demon in the dacheng stage did something like this and he was not very skilled. But this does not prevent him from becoming more and more familiar with it. From the beginning, he was only able to wind and refine a hair-like fibrous root to the side root of his finger thickness and he spent less and less time.

This series of actions, Gui Shanyou was very careful, for fear of accidentally disturbing the first city lord. After all, the cave was now in the hands of the first city lord. Once he found something wrong and destroyed the immortal's cave, that would not be worth the loss.

Chapter 435.2: The Banyan Tree Immortal's Cave Scheme

Obviously, Yang Chen and his party were too cautious. During this time, the first city lord was retreating and cultivating. Without the second city lord, the first city lord was somewhat alone, but it brings another benefit.

The resources of the banyan tree immortal's cave were shared by two people and now that the second city master's whereabouts was not known, everything has become the property of the first city master. Relying on this alone, during these decades, the cultivation of the first city lord raised by a small realm and reached the peak mid dacheng stage. Therefore, the disappearance of the second city lord was not a bad thing for the first city lord.

The taste of power domination was far from being comparable to sharing with others. The kind of feeling that he controlled everything was also a medium that made the first city master more confident. And self-confidence often has a catalytic effect on spirit power cultivation.

But if anything was too much, once that level was exceeded, what was originally beneficial would become harmful. The monstrous power and exclusive resources have given the first city lord the incomparable confidence, but also inflated him incomparably.

Sitting on hundreds of thousands of monster races, it was almost possible to dominate the monster race. In the self-revelation of the first city lord, who was almost sitting in the sky and looking down on everything, the first city lord also naturally raised a self-respecting hegemony and there was also an arrogance in him.

In this world, who else could touch me? This thought was in his mind, so the first city lord has become increasingly unaware of who he was. In addition to this feeling of enjoyment, he has only to cultivate.

Since his realm has risen again. The first city lord no longer cared much about immortal cave's affairs. It was all handed over to a junior who he loved. And he himself started to strike the next level with all his strength.

During his retreat and cultivation, naturally he would not feel the movement outside. It was this that gave Yang Chen and Gui Shanyou the opportunity. When Gui Shanyou spent three years refining all the underground root systems of the banyan tree immortal's cave, no one in immortal's cave noticed.

During these three years, plus the one on the road before, Yang Chen did nothing else, except to cultivate, he just absorbed the fire seeds and merged it with the Yin-Yang Heaven Burning Fire. He also successively absorbed more than ten kinds of third-grade fire seeds. The power of the Yin-Yang Heaven Burning Fire was slightly improved.

While the iron was hot, the old tree demon certainly knew what to do. After taking control of all the underground root systems, the old tree demon began to attack the branches of the banyan tree immortal's cave.

The banyan tree has a benefit, in addition to the main root. There were countless aerial roots. These aerial roots were like thick branches, but they were not branches. The old tree demon started from these aerial roots.

Because it was not the main branch, the actions of the old tree demon did not attract too many people's attention. Everything was as normal within the banyan tree immortal's cave, there was no change at all, how could those who were having low cultivation base perceive the movement of the old tree demon. Only the first city master who might be aware was still retreating and cultivating. This was a great opportunity for the old tree demon.

Silently, countless aerial roots also began to be controlled by the old tree demon one by one, which also meant that the surroundings of the banyan tree immortal's cave started to fall into the hands of the old tree demon.

This process took another five years. After all the aerial roots were controlled by the old tree demon, there was only one trunk and leaves left in the banyan tree immortal's cave. At this time, the first city lord finally got out.

As soon as he left the gate, the first city lord habitually probed his territory with his spiritual awareness, just like a monarch patrolling his land and inspecting his people. But as soon as the spiritual awareness came out, it sensed something was wrong.

During his retreat, the banyan tree immortal's cave was inadvertently taken away, almost half of its control was gone and he was not alarmed at all. This time, the first city lord was surprised.

It was not uncommon for the monster races to be robbed of their immortal's cave, which was commonplace. However, they had to experience some earth-shattering battle, where was there such a silent posture?

"Where's the rat, why have you not showed up yet!" He angrily shouted and immediately it passed into the ears of all the monsters in the immortal's cave. Everyone stopped the movements in their hands and even many of the monster races in cultivation were tumbled by this shocking demon power and countless people spurted blood.

"I haven't seen you in a long time, first city lord have you been well all this time!" Yang Chen's voice suddenly sounded in the ears of the first city lord, just like an old friend joking, it was calm and gentle.

"It's you?" The first city lord suddenly became enraged. This sound, so familiar, was the damn guy he had collected all of the first wood spiritual solution. Even the life and death of the second city lord must be attributed to this guy. Now he was trying to snatch his immortal's cave unconsciously.

Hearing Yang Chen's words, it was not surprising that he could control half of the ownership of the immortal's cave in a silent manner. Even he and the second city lord couldn't cope with the first wood spiritual solution, Yang Chen could absorb all of them alone. This immortal's cave was very familiar to him, maybe it was originally from his ancestors.

But at this time, the first city lord would never have the initiative to return the immortal's cave to Yang Chen. The only thought in his mind was to kill Yang Chen. Revenge for the second city lord was of secondary importance, the key was to snatch all the massive amounts of first wood spiritual solution.

The first city lord was a person who knows the preciousness of the solution, even if the wealth of the entire immortal's cave adds up, it was not as precious as those of the first wood spiritual solution.

"Get out here!" The lord of the city almost roared and his aura was released madly. All the monster races in the immortal's cave were under his majesty's momentum. Some of them were having low cultivation base and they were already oppressed and on the ground, curled up in a ball and their whole body shook like sieves.

"The Lord of the city has such a big temper." Yang Chen's voice was still in the ear of the lord of the city, it was as clear as a face-to-face conversation

"I am waiting for you outside the city."

"Return my brother's life!" With the angry words of the first city lord, the figure of the first city lord has already appeared outside the cave and then immediately saw the figure of Yang Chen in the distance.

His spiritual awareness instantly locked on Yang Chen and the first city lord was very happy. He didn't consider why Yang Chen's trace was not noticed at the beginning and he rushed directly. This time, he didn't want Yang Chen to escape.

However, before waiting for the first city lord to attack Yang Chen's, an unusually sturdy body was blocked in front of Yang Chen. Hou Yun had already waited impatiently, he was about to use the first city lord to relieve his itch.
