Chapter 441.1: The Flood Dragon Skeleton Flying Sword

The complete dragon skeleton, which was very long, made it easy to see what kind of species it was.

Such a long body was obviously a genus of the snake pythons and has no long horns like the snake pythons. But there was an aura similar to the mountain river geographical map and the dragon horns.

Reminiscent of the two dragon horns Yang Chen found for Gao Yue, Gongsun Ling's dragon skin scroll and the Dragon Palace they were in when they were in seclusion, Gao Yue and Gongsun Ling both felt a sense of the familiarity, was this the skeleton of the dragon clan?

"It's not a real dragon, just a flood dragon." Yang Chen knew what they were thinking from the expressions of the two women and explained with a smile.

It's just that Yang Chen's bland tone really made the two women want to punch him hard with their fists. What was just a flood dragon? In this mortal world, not to mention the flood dragon, even the ordinary animals with the blood of the dragon clan have been extinct.

It stands to reason that since the two women have already seen the dragon horn, the mountain river geographical map and the dragon palace, they should not be fussed about the skeleton of this flood dragon. But the fact was that the two women could not treat it indifferently, they were still surprised.

Yang Chen's explanation also made the two women finally understand what it was. Gao Yue felt a little strange at the beginning. Although the skeleton was complete, the dragon horn was not as strong as the two in her hand. She heard that it was a flood dragon, which became reasonable and natural.

"Is this going to be refined into a flying sword?" Gao Yue asked carefully. Such a complete dragon skeleton, wasn't it used for medicine?. As a master refiner, naturally she wanted to show her skills.

"Of course!" Yang Chen replied with a smile: "I would like to ask master for some advice."

Yang Chen calling her master made Gao Yue blush. Especially in front of Gongsun Ling, Yang Chen has not changed this title, giving Gao Yue a feeling of confusion in their status.

However, in the face of this almost peak refining material, Gao Yue also quickly calmed down, she carefully observed and groped the dragon bone, understanding the properties and characteristics of this bone and began to think if she could refine it. If so, what method would be used.

Thinking about this problem at first, Gao Yue couldn't help but think of something else. Yang Chen was going to use this dragon skeleton to refine his flying sword, but he originally had a better dragon horn, but gave it to her, Yang Chen himself had to use the second class flood dragon skeleton. How could such affection not move Gao Yue's heart?

Also, why did Yang Chen want to refine the flood dragon skeleton into a flying sword at this time? This was also a problem that made Gao Yue very tangled, but she immediately understood.

Yang Chen was giving her an excellent opportunity. Although a flood dragon was not a real dragon, it was also having the blood of the dragon clan. When refined, it has the same effect as the dragon horn. If she could use this opportunity to refine the flood dragon flying sword, it might give her a lot of experience in refining the dragon horn flying sword.

So far, Gao Yue has not begun the refining of the dragon horn flying sword. For so many years, she has been carrying out spirit power and spiritual awareness penetration of the two dragon horns. It has been quite effective for many years.

This process has accelerated a lot, especially with Yang Chen's spiritual awareness dual cultivation some time ago and the promotion of her spiritual awareness to the peak Yuanying stage. She believed that it would not take too long before she could start refining it.

At this time, Yang Chen took out the flood dragon skeleton to refine the flying sword, his thoughts were obvious. It could be said that Yang Chen has been paying attention to her and has been thinking about her wholeheartedly.

After Gao Yue understood this point, there was another burst of warmth in her heart. She just felt that her whole body seemed to be floating in the clouds and she couldn't say what she wanted.

That kind of happy feeling even made Gao Yue's whole body spiritual power rise that led to the urge to enter a higher realm. Feeling comfortable, happy, warm, confident, all of these were reasons for a rise in cultivation base.

It seemed that the moment she understood Yang Chen's intentions, Gao Yue's realm increased again. It seemed to have approached the peak middle Jiedan stage.

Of course, Gongsun Ling and Yang Chen noticed the change in Gao Yue. Without saying anything, Yang Chen flew close to Gao Yue and put a questioning inner heart pill into her mouth and then held Gao Yue to cultivate the highest mystery yin-yang heart sutra and then let go of Gao Yue, to let her feel the realization.

Soon Gao Yue entered into a deep level of spirit power cultivation and the spiritual force, along with her retreat, realized more and more agitation, it directly began to impact the bottleneck of the middle Jiedan stage.

Gongsun Ling was envious, but she also knew that she would never get worse than Gao Yue. There were already three dacheng stage masters in the mountain river geographical map. Two were sea beasts, one was the first city master and there were hundreds of Yuanying stage masters. So many powerful characters were indirectly refining the mountain river geographical map for her.

If it were not for the fact that these people could only be controlled in the mountain river geographical map and she couldn't do it with her strength, otherwise Gongsun Ling would already be able to compete with the Pure Yang Palace's current strength by relying on these people. Of course, it was the pure Yang Palace without Yang Chen.

With such a powerful invisible power, Gongsun Ling would almost never worry about the sacrificial refining of the mountain river geographical map, as long as she concentrates on the path of formation and spirit power cultivation.

In fact, Gongsun Ling's spirit power cultivation base has already reached the high middle Jiedan stage, but has not yet reached the peak, but this only happened a few years ago. With the qualifications of Gongsun Ling, she would definitely catch up with Gao Yue soon.

Yang Chen took out the flood dragon skeleton, to be refined for himself and at the same time give Gao Yue some reference. Of course, he would not refine while Gao Yue was retreating, so that Gao Yue would miss it.

However, this does not mean that Yang Chen couldn't do anything, he still has to do some preparatory work. After all, it was also a flood dragon skeleton and it was still having a jaw-dropping intensity. There was no strong thing in the Dragon Palace. Even if it is refined, it is not so easy.

It was exactly the same as what Gao Yue had to do in the early stage of refining the dragon horn flying sword. Yang Chen would use his spirit power and spiritual awareness to refine it frantically, so as to imprint Yang Chen's own imprint on this flood dragon skeleton.

From Yang Chen's planning to refine the great yin yang five elements flying sword to now, this flood dragon skeleton was the most powerful material that Yang Chen encountered. The first wood penglai divine wood flying sword, second wood blood phantom vine flying sword, third fire bright ray sword, fourth fire sword embryo, the fifth earth sword from Ming Guangruo living soil flying sword and the seventh metal immortal beheading blade, among these materials it may only be the penglai divine wood and living soil that could be comparable to the flood dragon skeleton, but they did not have the strength of the flood dragon skeleton.

It could still be kept intact under the environment of the Dragon Palace, which has fully explained many issues. What Yang Chen needed to do now was to first refine the dragon skeleton with his spirit power and spiritual awareness.

Chapter 441.2: The Flood Dragon Skeleton Flying Sword

For Yang Chen's present spiritual awareness, this was not a very difficult process. The human immortal first grade spiritual awareness has surpassed all the objects in the mortal world and it would only take a few days of effort to be able to place his spiritual awareness imprint inside.

But this has already explained the strength of the flood dragon skeleton. If it was replaced with the spiritual awareness of Gao Yue which was in the peak yuanying stage, it would take at least a few years.

Spirit power erosion was relatively difficult, but under Yang Chen's great yin and yang five elements spirit power strength and the promotion and training of mutualism and mutual restraint, this process also did not cost Yang Chen too much time.

Compared with Gao Yue's efforts, which took decades, Yang Chen completed the process in less than a year. Of course, there was a reason, the flood dragon skeleton was inherently not as high-quality as the dragon horn. Yang Chen's cultivation was more powerful, it was also an important factor.

Gao Yue completed her cultivation after only about ten months of retreat. This retreat allowed Gao Yue to completely break the bottleneck of the middle Jiedan stage and reach the late Jiedan stage.

Gao Yue, who had completed her seclusion, kept watching Yang Chen's technique. Although Yang Chen almost never showed his superb refining skills in front of Gao Yue, the only time was when he was refining the first wood flying sword, which was not so superb, but Gao Yue seemed to not have one bad feeling, Yang Chen would be able to refine this flying sword.

Yang Chen was always a master of alchemy and no one would doubt this, but Gao Yue believed that Yang Chen also has a superb refining technique. Even Gao Yue didn't know why she felt this way and why she trusted Yang Chen so much.

From this point of view, Gao Yue was ashamed. As a master, she couldn't say that Yang Chen has been instructed in spirit power cultivation by her and she even let Yang Chen instruct her. As the Pure Yang Palace famous master of refining, Gao Yue did not give Yang Chen any instructions in refining.

Fortunately, neither Gao Yue nor Gongsun Ling, regarded their future husband as an ordinary person. It was already a jaw-dropping miracle to be able to achieve the fifth-grade alchemy master in the mortal world. They believed that even if Yang Chen suddenly became a grandmaster of refining at this time, no one would be even more surprised.

Yang Chen did not disappoint the two women. After completing the preparatory work, Yang Chen began the refining process. It was the same as refining the first wood flying sword in the beginning. First, he must use the secret technique and slowly refine the body that was hundreds of feet long to a few feet. Then he could start further refining.

The method of condensing the secret technique, Yang Chen made it very clear, and even explained how to condense the secret technique one by one, each time he condensed out carefully and hit the flood dragon skeleton.

Gao Yue gazed intently and listened to Yang Chen's explanation. Although she didn't need much in the future, because the length of the dragon's horn was not very long, it also required a little refining, which was also useful.

Each time the secret technique breaks into the flood dragon skeleton, the length of the dragon skeleton decreases by a few points. It took almost half a day for Yang Chen to complete each method. As the length of the flood dragon's skeleton became shorter, the process became more and more difficult.

By the time the shrinking flood dragon skeleton of hundreds of feet was reduced to less than one foot, three years had passed. Including the year when Gao Yue's retreat started, it was already four years.

This was the critical moment. At this joint, the tenth water flying sword sent by the Greatest Heaven Sect and some flying swords that Yang Chen had obtained from other places with the same attributes came in handy.

If they were taken out, countless people would fight over them desperately. It was directly burned into liquid by Yang Chen and burned with the Yin-Yang Heaven Burning Fire and then added to the flood dragon skeleton. There was no hesitation in this process, as if the smelted flying swords were just ordinary merchandise.

If the master who made those flying swords saw it, Yang Chen would be scolded for a dog blood sprinkler. Such a violent disaster should be condemned by the heavens.

However, the two girls Gao Yue and Gong Sun Ling who were present did not feel this way at all. Everything was so reasonable, in front of this flood dragon skeleton, the so-called top flying sword should be the foil, it should be just the ingredients. They believed those smelted flying swords would not feel wronged if they had tool spirits.

The last step was the most important. Yang Chen was also the slowest and the most detailed in this moment. Many of the contents and techniques were understood and known by Gao Yue, they were all described in detail in the secret manuals of the Pure Yang Palace and those Yang Chen got from the Greatest Heaven Sect.

However, under Yang Chen's amazingly accurate technique, these seem to be ordinary refiners techniques, but they shined with the brightest light.

Just like a top expert in martial arts, it seems that all the moves have reached the level of returning to the original state. There was no need to use high-end fancy techniques to attract attention. One move after one move were the most common but most exemplified. The action of his fist art was also the trick to exert the most power.

Yang Chen's refining technique was the same, every technique, but this combination, such precision, but also to balance the various aspects of the material, there was nothing missing in every aspect, every corner took care of it.

Gao Yue was a person who knew how to judge and naturally could see the meaning contained in it. For her, this was simply a perfect demonstration operation, which provides the best reference for her to refine the dragon horn flying sword in the future. With this experience, the success rate of refining the dragon horn flying sword could exceed 90%.

The final process took another year. Seeing that the flood dragon flying sword had begun to take shape, Gao Yue and Gongsun Ling's emotions were also surprised from the beginning, to admiration, to calm and finally to the joy of success.

The slender flood dragon flying sword almost kept the original complete shape of the flood dragon skeleton. Even though the flying sword was not straight, but slightly curved along both sides of the central axis, just like a snake. The flood dragon's skull became the tip of the sword and the tail part was slightly circled into a natural hilt.

The flying sword was placed over there, just like a flood dragon that could come out at any time, but it was only countless times smaller, only six feet long and it was not a complete dragon, but a bone without flesh and blood.

This was by far the most complete preparation of Yang Chen's hands-on refining of the flying sword, various ingredients were added at once. Unlike the previous flying swords, the sword embryo was first built and then slowly improved.

This dragon-shaped flying sword with water attribute was a finished flying sword once molded.

Chapter 442.1: Now The Price Has Changed

After the first refining, Yang Chen took the flood dragon flying sword in his hand and moved his mind. The flood dragon flying sword, which had been magnified many times, appeared in his sea of consciousness.

Every part of the flood dragon flying sword has been magnified tens of thousands of times, making Yang Chen's observation clear. There was no deviation in the appearance of the flying sword and whether there were any internal defects, in Yang Chen's sea of consciousness, he clearly knew it.

It must be said that after his spiritual awareness entered into the human immortal first grade, refining the magic weapon of the mortal world has not been too difficult for Yang Chen. If it has to be said that there were shortcomings, Yang Chen's spiritual power was not strong enough and it was not enough to deal with some of the deepest details.

However, even so, the flood dragon flying sword was much more perfect than many of the world's most famous magic weapons. There was no way to avoid flaws. Even in the spiritual world and immortal world, there was no perfect magic weapon. The things refined in the grand supreme elderly lord eight diagrams furnace also have these and other subtle defects.

At least in terms of Yang Chen's current cultivation base, this flying sword has reached the extreme he could achieve, even if there were flaws, it cannot be solved now.

After seeing this result, Yang Chen took a long breath and took the flood dragon flying sword out of his sea of consciousness and gave it to Gao Yue, who had been waiting for it with some anxiety.

Gao Yue even cared more about the quality of this flying sword than Yang Chen. In her eyes, Yang Chen would give up the superior material such as the dragon horn to herself, but he himself chose the second-class material, if it was refined and something went wrong, Gao Yue would never forgive herself.

After taking the flying sword. Gao Yue went up and down to explore inside and out. After a long time, she was like Yang Chen, relaxed and took a breath.

The quality of the flood dragon flying sword was no less than that of Wang Yong's qilin horn flying sword. It's just that the qilin horn flying sword was a dual attribute of water and fire, while the flood dragon flying sword was just having the water attribute.

At least in Gao Yue's eyes, this flood dragon flying sword has absolutely no shortcomings and was almost the most perfect flying sword she has ever seen. Only with this quality of flying sword could Gao Yue relieve some of the guilt in her heart.

Yang Chen really was a master of refining, which has been fully revealed from the above flood dragon flying sword. Gao Yue didn't see any special or difficult places in Yang Chen's technique. It was completely the most basic refiner technique Gao Yue was familiar with.

But it was by these most basic refining techniques that Yang Chen actually refined this flood dragon flying sword so perfectly, it was simply amazing.

Gao Yue was also a master refiner. From this series of processes of Yang Chen, she once again gained a lot of valuable experience. Yang Chen's technique was the foundation, but there were two differences from that of ordinary people.

One was precision. Whether it was the control of spiritual power or the location of refining, it was almost precise to the smallest or even more subtle. This precision was just right enough to shame countless masters of refining.

The second was the connection of basic techniques and any subtle moves. All were based on a combination of basic moves. Yang Chen used these most basic techniques to refine the most perfect flying sword in the most suitable order.

These two points seemed simple to say, but everyone who has tried it would know the difficulty. Without precise control of one's own spiritual power and techniques, no clear understanding of the materials, no knowledge of the overall process, they absolutely couldn't have such success.

This also made Gao Yue start to re-examine the importance of the basic skills. Yang Chen never taught her anything, but used the process of his personal refining to give Gao Yue a perfect demonstration. At the same time, it was also indirect to tell her that when Gao Yue was going to refine the dragon horn flying sword, what method should be used.

Even Gongsun Ling, who was not cultivating in the direction of refining, has gained a lot. Needless to say, Gao Yue, who was originally a master of refining. Basically, after watching Yang Chen refine the flood dragon flying sword, Gao Yue once again turned around and went into seclusion to comprehend what

she had seen. Of course, it was after Yang Chen and her cultivated the highest mystery yin-yang heart sutra once and took the questioning inner heart pill.

Gao Yue was retreating here so Yang Chen was not going to go out alone. After all, the three of them were in the dragon palace and the dragon palace was not yet suitable for being seen by others, so Yang Chen and Gongsun Ling were beside her while guarding and waiting.

Taking this opportunity, Yang Chen refined another batch of questioning inner heart pills. The profound spirit furnace has reached a certain level of profoundness and with the spiritual awareness of Yang Chen in the human immortal first grade, basically refining the elixir of the mortal world, there was no possibility of failure.

All the questioning inner heart pills that directly came out were second grade pills. This was still the result after Yang Chen was afraid that the time was too long and so he didn't carry out the second grade refinement.

In a blink of an eye, it was another half a year and Gao Yue was finally finished with her seclusion, she has gained some more insights. In just a few years, with two consecutive retreats, Gao Yue's harvest was simply unbeatable. And all this was given by Yang Chen.

As soon as Yang Chen left his seclusion, the happiest people were the people of the Green Jade Immortal Island. This retreat was nominally for the purpose of refining the questioning inner heart pills for the Green Jade Immortal Island. Therefore, after meeting with Yang Chen, the master of the palace brought the group of already prepared questioning inner heart pills to the people of the Green Jade Immortal Island.

After getting the questioning inner heart pills, the people of the Green Jade Immortal Island were very happy. This batch of questioning inner heart pills, although the number was only more than thirty, but half of them were indeed second grade pills.

As soon as they got the first grade questioning inner heart pills, they already had a few dacheng stage masters. When they got the second grade questioning inner heart pills, they didn't know what effect would it have? The Green Jade Immortal Island and the Blue Cloud Sect already have a few second grade questioning inner heart pills on their hands, but neither of the two major sects were willing to use it. Now that they have gotten so much, they believed there would be more dacheng masters in their sect.

The Green Jade Immortal Island and the Blue Cloud Sect could rank among several major sects and in the immortal world both fight against the Profound Heaven Sect, of course, there were many masters in their sect. Over the years, the number of people trapped in the realm of peak yuanying stage was innumerable.

This group of questioning inner heart pills was enough to qualitatively change the strength of the Green Jade Immortal Island. Even the Greatest Heaven Sect was estimated to have to reconsider their relationship with the Green Jade Immortal Island.

The Blue Cloud Sect was also happy. After giving so many second grade questioning inner heart pills to the Green Jade Immortal Island, it also meant that Yang Chen's current refining techniques were becoming more and more sophisticated and he had more and more experience in refining questioning inner heart pills.

The next in line was the Blue Cloud Sect. Although they had to wait for more than 20 years, it would definitely be worthwhile if they could get more than 20 second grade questioning inner heart pills in 25 years. Especially with Sun Qingxue's relationship, Yang Chen would definitely not short hand them and he would refine with all his strength.

Chapter 442.2: Now The Price Has Changed

Of course, the Five Elements Sect and Qiankun Sect, which were behind, were also happy. Today was the turn of the Green Jade Immortal Island, tomorrow would be their turn. They would just exchange some precious materials in exchange for dozens of dacheng stage masters, this was definitely the most commendable part of this transaction.

The rest of the rogue cultivators who had been waiting in line were equally happy. What everyone asked for was nothing more than a questioning inner heart pill. Now that it was possible to get a second grade questioning inner heart pill, why would it not make these people ecstatic?

At this time, if someone moved against Yang Chen, they would definitely be provocatively provoking several major sects and these countless masters. Even if their power was huge, such as the Greatest Heaven Sect, it was estimated that they dare not risk this situation.

Speaking of the Greatest Heaven Sect, Mao Qi was now a little bit disturbed. Last time that he couldn't convince Yang Chen, he was scolded by the high-level officials of the Greatest Heaven Sect. Although it

was Yang Chen's demands which was too much, Mao Qi didn't have a long-term view on it, which made the sect master and several core seniors very dissatisfied.

Of course, strictly speaking, it was no wonder that Mao Qi didn't agree. Mao Qi did not know the importance of Li Liheng for the Greatest Heaven Sect. Because the sect master did not tell Mao Qi the real secret, in Mao Qi's mind, there was also a trace of speculation that Li Liheng was the illegitimate son of the sect master. So in his heart, Li Liheng's status has not been elevated to any high level.

Naturally, this led to the situation when Yang Chen asked for an exuberant price and Mao Qi felt that it was not worth it, so the two sides were unhappy.

In the view of the senior officials of the Greatest Heaven Sect, if Li Liheng's problem could be completely solved, it was worth all the costs. Not to mention that it was only two kinds of sixth grade fire seeds, even if they were to use seventh grade fire seeds, it was worth it.

If Li Liheng communicates with the predecessors of the spiritual world and the immortal world, what would they care about questioning inner heart pills, what about inner sensing pills, couldn't the predecessors of the spiritual world still give advice on it? The Greatest Heaven Sect would be able to refine it by then. Why would they bother to look at the faces of Yang Chen and the Pure Yang Palace?

This kind of prospect, compared to the two sixth grade fire seeds, it was known which was strong. In the end, Mao Qi refused, how could he not irritate a few senior members?

It wouldn't be too much trouble if he could go back and discuss it on the spot. But after Mao Qi left, Yang Chen began to retreat to refine medicinal pills and it would take five and a half years for the alchemy. The Greatest Heaven Sect couldn't find anyone even if they wanted to agree.

It was easy for Yang Chen to get out of the border, but he immediately brought big news. The questioning inner heart pills that he refined, half of them were second grade pills. It was already the batch for the Green Jade Immortal Island. Now, with this batch, their strength would definitely advance by leaps and bounds. At that time, the status of the Greatest Heaven Sect as the dao sects leader may be threatened.

Now the Greatest Heaven Sect was a little hesitant, should they ask Yang Chen for the questioning inner heart pills or the spirit congealing pills. After all, the effect of the questioning inner heart pills were very

significant. In the short term, a large number of dacheng stage masters could be added, which was also a guarantee for their sect's status.

But in the long run, it was better to get the spirit congealing pills. The benefits of being able to communicate with the predecessors of the spiritual realm and immortal realm need not be said, but the problem was that Yang Chen has made it clear that it would take longer this time and it may take 50 years for Li Liheng to recover. Fifty years later, even if Li Liheng was cured, it would be unclear how long it would take to communicate with their predecessors.

This paradoxical mood made the Greatest Heaven Sect's seniors uncomfortable. Of course, the most uncomfortable thing was that their fate was pinched in the hands of Yang Chen. Was it not uncomfortable to beg a younger generation junior who killed the six yuanying stage masters of their sect.

But now they had to fight for a chance anyway, no matter what the price was. Because there was already news, since Yang Chen was able to make two consecutive refining for the Greatest Heaven Sect, it was not counted as a promise to outsiders and other sects naturally had thoughts.

To put it simply, isn't it just paying extra benefits? The good thing was not only for the Greatest Heaven Sect, Green Jade Immortal Island, Blue Cloud Sect Five Elements Sect and Qiankun Sect which was not bad in the mortal world, could get enough price and now several big sects have sent special envoys to contact the Pure Yang Palace, hoping to get Yang Chen to make some extra medicinal pills for them.

Not only the big sects, but also some small sects were starting to move. There were even a small sect who intended to use an unparalleled female disciple as the price.

The news that Yang Chen married four beautiful wives at the same time could not be concealed from others. Someone immediately speculated that Yang Chen was a lewd man? The small sects couldn't bring enough benefits, but if they were to bring one or two beautiful disciples, perhaps Yang Chen would accept them.

So many people were planning to make a move, if the Greatest Heaven Sect still hesitates and waited for their turn, it was not known what year later it would be. The Greatest Heaven Sect couldn't tolerate this happening.

Hall master Mao Qi hurriedly came back to the Greatest Heaven Sect again. This time, the sect master specially told him to swear a heart oath and told him the truth about Li Liheng's cultivation method. At the same time, he also explained that when Li Liheng took Yang Chen's spirit congealing pills, he came into contact with the spiritual awareness of a predecessor of the spiritual world briefly.

After understanding all this, hall master Mao Qi finally understood what kind of mistakes he had made and what kind of losses he brought to the sect. Before his departure, hall master Mao Qi had already made up his mind, with the authorization of the sect master and several core elders, at all costs, the goal must also be achieved.

The other sects who came to the Pure Yang Palace to ask for medicinal pills, Yang Chen gave it to the master of the palace to decide. Anyway, as long as Yang Chen's normal cultivation was not delayed, Yang Chen doesn't mind refining more medicinal pills to increase his experience. At the same time, these refined medicinal pills were all the favors owned to the Pure Yang Palace and it would bring some help for the Pure Yang Palace in the future.

But only the issues regarding the Greatest Heaven Sect, the sect would not decide it for Yang Chen. Last time Yang Chen told the master of the palace that he would make some arrangements for the Greatest Heaven Sect and the sect unconditionally supported this.

So, after Mao Qi arrived at the Pure Yang Palace, he soon appeared in front of Yang Chen again.

"Grandmaster, the conditions you mentioned the last time, two kinds of sixth grade fire seeds, in exchange for the spirit congealing pills, we agree!" Mao Qi also liked to negotiate with Yang Chen, although sometimes the conditions were harsh, but everyone went straight to the point, it saves a lot of things than those negotiations that need to go around the bush.

"Senior Mao Qi, that was the price tag five years ago." Yang Chen faced Mao Qi suddenly and generously, suddenly he laughed out loud "Now, it is not the market at that time."

Chapter 443.1: Spirit Congealing Pill Formula

Mao Qi almost spurted blood directly on Yang Chen's face. Why was the market price not the same now? To put it bluntly, it's just one visit or two and the price was different?

At this moment, Mao Qi almost wanted to stand up and walk away. He hasn't seen such a ruthless person, Mao Qi would like to ask Yang Chen, if he knew who he was trying to pressure? Does he know what the Greatest Heaven Sect's anger means?

But Mao Qi didn't ask and he knew it was useless. When the Greatest Heaven Sect was angry and sent six Yuanying stage masters to kill Yang Chen. As a result, the six Yuanying stage masters died instantly and Yang Chen now sat in front of him trying to take advantage of them.

Should he attack Yang Chen? Mao Qi did not have this idea, the Pure Yang Palace would never allow Yang Chen to fall into any accidents in his ancestral sect. There were definitely the old tree demon or Wang Yong peeping here, once Mao Qi dared to have bad intentions, even if he was the hall master of the foreign affairs of the Greatest Heaven Sect, it was estimated that he would still not survive.

"Senior Mao, it is not that I am being greedy." Yang Chen's abominable voice sounded at this time "Presumably, Senior Mao also knows the price tag for the alchemy of the Green Jade Immortal Island. Now someone has something higher than this price tag and has begged this younger generation junior to make alchemy.

"It takes the same amount of time, on one side is a higher price tag than the Green Jade Immortal Island and on the other side is the price tag of Senior Mao. If it was to be senior, which one would you choose?" The same question was asked again, Mao Qi even didn't know how to answer.

From the perspective of the Greatest Heaven Sect, Mao Qi would of course insist on getting the alchemy if the Greatest Heaven Sect first. But from the perspective of Yang Chen, of course, it was alchemy for others. And being the Blue Cloud Sect or the Five Elements Sect, which of these Sects does not fall under the Greatest Heaven Sect, why should Yang Chen lower his price to cater to the Greatest Heaven Sect? Moreover they once sent their experts to kill Yang Chen.

Mao Qi was speechless and was only able to ask sorrowfully "What price is it now?"

"The young sect master's pills this time needs more than the last time, and it couldn't be refined in a single session." Yang Chen smiled on the face and began to give Mao Qi instructions "The last time when the spirit congealing pills were refined it took six years, this time, it would take at least ten years. What kind of price does Senior Mao think should be charged?"

It would take twice as much time, the implication was that the price should be at least twice as much as the price of the Green Jade Immortal Island questioning inner heart pills, which couldn't be paid for with just two kinds of sixth grade fire seeds. Mao Qi hated that he couldn't slap himself at the moment. When Yang Chen gave his price at that time, if he directly agreed, there wouldn't be such a thing happening now.

But it was useless to regret now. Yang Chen's worth was indeed on this side. The price was clearly marked and there has been no deception. Mao Qi couldn't disagree with it.

Thinking of the significance of Li Liheng's cultivation to the Greatest Heaven Sect, Mao Qi also had to pinch his nose to recognize the account and gritted his teeth and said "Okay, twice the price tag of the Green Jade Immortal Island's pills. Ten years later, this old man will come to pick up the spirit congealing pills!"

"Hold on! Hold on!" Just when Mao Qiqi hummed and got up to leave, Yang Chen stopped Mao Qi "Senior Mao, you can't get the spirit congealing pills in ten years."

"Are you playing with this old man?" Mao Qi's eyebrows all stood up on the spot. The first sentence just said that it would take ten years, but the latter sentence said that it would not be ready in ten years, anyone else would get angry.

Fortunately, Mao Qi has been in charge of the foreign affairs hall for many years, knowing when he could be angry and when he must suppress his anger. Resisting his anger, Mao Qi stared at Yang Chen fiercely, waiting for his explanation.

"Senior you are late, junior has agreed to refine for the Blue Cloud Sect, so I will refine for the Blue Cloud Sect after my marriage." Yang Chen said with a smile "This junior will get married after four years and I will refine for the Blue Cloud Sect five years after my marriage, plus the ten years of refining the spirit congealing pills, senior will have to wait for nineteen years before you come again!"

First come first serve, even if it was the Greatest Heaven Sect, it was impossible to squeeze in front of the Blue Cloud Sect. Not to mention that the Blue Cloud Sect's strength was not too much below the Greatest Heaven Sect's strength. The Blue Cloud Sect's Sun Qingxue and Yang Chen would soon get married. Yang Chen would never give up on his relatives to please the Greatest Heaven Sect.

Yang Chen's marriage was also a major event. Even if Mao Qi was in more hurry, he couldn't tell Yang Chen that his marriage was a trivial matter. If Mao Qi said so, it was not only Yang Chen and the Pure Yang Palace that would be offended. It was known that, both the Green Jade Immortal Island and the Blue Cloud Sect were getting their female disciples married to Yang Chen.

The last time he disagreed with the price of two kinds of sixth grade fire seeds, there was such a retribution immediately. Not only did the price increase several times, but the time was also directly delayed for more than two decades.

While Mao Qi was angry in his heart, he was increasingly dissatisfied with the fact that the sect master and the core elders had not previously informed him of the issue regarding the young sect master. Even if the price was too high, he would have agreed to Yang Chen's conditions.

More and more angry, Mao Qi suddenly did not know what he should use to describe his mood at the moment. Regret? Anger?

"Senior Mao seemed to be in a hurry." Yang Chen's words reached Mao Qi's ear again "If so, junior has a solution, I don't know if Senior Mao is interested or not?"

"Oh? What's the way?" Mao Qi said, suddenly he felt like the mountain on his shoulder turned into water as he saw light at the end of the tunnel.

"This junior doesn't have time to refine, but this junior can find other people!" Yang Chen said with a smile "This junior has the intention of selling this pill formula and I don't know if this senior is willing to buy it?"

"What are you trying to say?" Mao Qi could hardly believe his ears and couldn't help but ask again.

"This junior is planning to sell the pill formula of the spirit congealing pill, and I wonder if senior might be interested?" Yang Chen asked again without hesitation.

"What is your asking price!" Hearing that Yang Chen was really willing to sell the pill formula, Mao Qi was completely uplifted this time and his face also overflowed with a radiant look, which was no longer helpless. His voice also grew louder and full of confidence.

When Yang Chen saw Mao Qi feeling refreshed, he was secretly happy in his heart, but his face had a look of reluctance and he said with a little bit of pain “Senior Mao, based on the sincerity of senior, that this junior is willing to give senior face. But junior can not give it to you for free, so this price will be a bit high, senior must already know.”

Chapter 443.2: Spirit Congealing Pill Formula

The spirit congealing pill and the spirit congealing pill recipe, how to choose between the two, even a fool knows. Yang Chen’s move, one was to fish for people, the other was to teach people to fish, one was to cure the symptoms and the other was to cure the root cause.

“As long as you come up with a specific price tag!” Mao Qi at the moment didn’t know what to say.

If he could get the pill formula of the spirit congealing pill, even if he let Yang Chen get an exuberant price, Mao Qi felt it would be worth it. Isn’t it just some precious materials? The Greatest Heaven Sect was rich, that was something he could say with an unprecedented confidence.

With the pill formula of the spirit congealing pill, Li Liheng’s problem could be solved completely. The spirit congealing pill would also not only be available to Li Liheng, but even other cultivators could use it, it could condense spiritual awareness. It was particularly important that with the pill formula, the Greatest Heaven Sect would no longer be subject to others.

Yang Chen’s taste has been uncomfortable several times, Mao Qi tasted that kind of discomfort. Mao Qi couldn’t help want to solve it once and for all.

“Seventh grade fire seed!” Yang Chen was also impolite and directly offered his price.

“Hiii!” Even if Mao Qi had already known that he would have to overpay, after hearing Yang Chen’s price tag, he could not help but take a cold breath. Looking at Yang Chen, he felt incredible.

“The pill formula for the heaven seizing pill, grandmaster you said it was mediocre in the past, wasn’t that the case?” A bit wry smile appeared on Mao Qi’s face, knowing that Yang Chen would open his lion’s mouth, but he didn’t expect this bite to be so big, wasn’t Yang Chen afraid he wouldn’t be able to swallow if it was too big?

“Junior can never sell the pill formula of the heaven seizing pill, but only the pill formulas that I prepared.” Yang Chen shut him up with this point. When Yang Chen was falsely accused by the Xiang Family, they said that he had taken the Xiang Family pill recipe, so at this point, Yang Chen would never admit it.

“This spirit congealing pills, could it be comparable to the heaven seizing pill?” Mao Qi didn’t care about it. In his mind, the pill formula that Yang Chen should sell was the pill formula of the heaven seizing pill. Although there were a lot of people with the heaven seizing pill formula, but the one that could be beneficial to the inner core of the dacheng stage masters, only Yang Chen had it. It was not only Mao Qi, many people felt that the pill formula in Yang Chen’s hands was the real heaven seizing pill formula.

“It doesn’t matter how useful it is.” Yang Chen smiled and said, “If you don’t use it, it won’t be worth any money. If you use it, it will be worth a lot of money. If you use it urgently, it won’t hurt. Senior Mao doesn’t have to worry about it for the time being, it’s the same price tag as before, so take your time.”

These remarks were precisely in Mao Qi’s mind. The spirit congealing, to put it bluntly, was to condense the spiritual awareness. This was the pill formula of the spiritual world. For people in the mortal world, the effect was not necessarily good. For the people who do not have a spiritual awareness in the human immortal realm. After taking the spirit congealing pills, the medicine’s efficacy would stop after a hundred pills.

However, under the arrangement of Yang Chen, Li Liheng now inevitably needs this kind of spirit congealing pill. Especially the spirit congealing pill also has a relationship with the cultivation method of Li Liheng, Mao Qi couldn’t carelessly consider it.

Judging from Li Liheng’s performance in contact with his predecessor’s spiritual awareness twice, it was after taking the spirit congealing pills. Everyone knew that with Li Liheng’s current cultivation base, it was impossible to achieve this. Even the predecessor who created this cultivation method in the past didn’t do it until the peak Yuanying stage.

From this perspective, even if Li Liheng was cured in the future, if he wanted to make the cross-border spiritual cultivation method function in advance, he must have the help of the spirit congealing pills. Otherwise, with Li Liheng’s spiritual awareness, if he wanted to reach the peak Yuanying stage, they don’t know whether it would take hundreds of years or thousands of years.

Yang Chen's words were clear, you don't need it, although you don't need to buy it. But when you want to use it, you have to come to Yang Chen to ask for the pill again and again. He believed that the third trip would come at a price that was enough to exchange for a seventh grade fire seed.

Now Yang Chen has a seventh grade fire seed, which was the pure yang true fire of the Pure Yang Palace, the treasure of the Pure Yang Palace. However, Yang Chen firmly believed that there must be a seventh grade fire seed in the Greatest Heaven Sect. If enough high-quality fire seeds could be collected in the mortal world, then Yang Chen's yin-yang heaven burning fire would become more and more complete after going through the heavenly tribulation.

Whether to buy the pill formula or not, Mao Qi was lost in contemplation about it. Yang Chen didn't urge him, so he sat slowly opposite him. Of course, this time it was not to serve tea, but to wait for Mao Qi to make a decision.

This decision was quite difficult to make. To use a seventh grade fire seed to purchase a pill formula that was not worth so much on an ordinary day. It was definitely Yang Chen who was wielding a double-edged blade to strike. But when he thought of coming to Yang Chen again and again, that feeling would never be better than now.

The first was to cut a large piece of meat with a sharp knife and the second was to cut the meat with a blunt knife, it was slow and painful. In addition, it may cut more meat than the first. The two were balanced so it was difficult to conclude.

However, the last time a swear was made in the sect to his face, Mao Qi made a quick decision. There was no good fruit for indecision and the price could be higher next time.

"A seventh grade fire seed, deal!" He said these words after almost biting the back of his molars. Mao Qi's face was quite ugly like there was a kind of cold wind blowing at him. After breaking the cauldron and sinking the boat, this time, the bamboo sticks that could be knocked on in the future would be knocked off at once.

"Hall master Mao is really decisive, this younger generation junior admire you!" Yang Chen gave a thumbs up directly in front of Mao Qi "the pill formula is already prepared, this younger generation junior will be in the sect, waiting for hall master Mao to exchange with the seventh grade fire seed."

This time Mao Qi left vigorously and soon after he left, the figures of Wang Yong and the master of the palace appeared silently on Yang Chen's side. Just now, the master of the palace and the ancestor Wang Yong understood everything clearly.

"Is it ok to give them the pill formula? If they are able to refine the pills, you would be in danger." The palace master was worried that the Greatest Heaven Sect taking the pill formula would be harmful to Yang Chen, so he asked worriedly.

"Master, be rest assured!" Yang Chen replied with a smile "they can get the pill formula, but it is not always possible to produce the medicinal pill."

"You are giving them a fake pill formula?" Master Zhang Jiao shook his head immediately and said "This can also be an excuse for the Greatest Heaven Sect."

"It is the real pill formula!" Yang Chen directly dispelled the worries of the master of the palace "However, the basic standard for refining the pill is being a fifth grade alchemist master. I will give him the pill formula, but they can only watch it and finally they have to ask me to refine it for them again."

Chapter 444.1: Obtaining A Seventh Grade Fire Seed

Yang Chen's answer made the master of the palace and his master ancestor stare blankly for a while and after glancing at each other, they couldn't help bursting out with laughter.

This time, the Greatest Heaven Sect was going to lose a lot. After paying for the pill formula with the seventh grade fire seed, they could only watch it and could not refine it. They believed they would feel so distressed that they would want to kill people after they knew this result.

However, even if they wanted to kill people, they needed Yang Chen's help to refine the medicinal pill. Was there such a thing that they would have to suffer a big loss and have to come with a smiling face and ask for help, wouldn't it make the Greatest Heaven Sect feel bitter and hateful? Was there anything that would please the top members of the Pure Yang Palace more than this?

It was beyond the control of the master of the palace and his master ancestor Wang Yong not to laugh, but Yang Chen's move was too detrimental. This was more enjoyable than killing a few of them and it also made people feel happy.

“How do you plan to deal with the Greatest Heaven Sect next?” After the palace master curiously asked this question, he added another sentence “Forget it, you don’t need to tell me, even if it’s the Greatest Heaven Sect, if they were to come for a pill from you, it should be painful for them!”

After dealing with Mao Qi of the Greatest Heaven Sect, the master of the palace and Yang Chen talked about the changes that occurred during the time Yang Chen went into seclusion these past days.

For more than five years, almost every year, the Pure Yang Palace would announce that it had recruited two or three Yuanying stage monster cultivators to join their eccentric hall and there were also dozens of monster cultivators at the peak Jiedan stage.

Relative to the situation in which the various sects have tried to recruit the monster race in recent years, this movement of the Pure Yang Palace was neither large nor small. Such a large sect as strong as the Greatest Heaven Sect was not always able to find a bunch of monster race Yuanying stage masters to put into effect. After all, what was formerly known as eliminate the demons and protect the dao, the disciples of many sects also beheaded many monster race cultivators. Not every monster cultivator would be willing to join the Greatest Heaven Sect.

Generally speaking, in the first few years, several major sects have recruited more than a dozen or so yuanying stage monster cultivators to join them. In the following years, it would be a good result to have one yuanying stage monster cultivator every three to five years. There was no sect like the Pure Yang Palace. Every year, two or three Yuanying stage monster cultivators would join them.

Although it seemed a bit outrageous, it could be explained. In the first place, the Pure Yang Palace was a small sect. At that time, their disciples didn’t make a lot of killings in the monster race domain, which had an advantage over other sects. In addition, the Pure Yang Palace was the first to introduce the eccentric hall, giving those monster cultivators a sense of identity from a congenial perspective.

In this way, although the Pure Yang Palace did not have much expansion in the beginning, in the eyes of outsiders, the high-end strength of the Pure Yang Palace has almost doubled in the eyes of outsiders. The addition of the Yuanying stage monster cultivators made the Pure Yang Palace more powerful.

Of course, for many years, the Pure Yang Palace has been following Yang Chen’s method to train agents in the secular world and scavenging for excellent disciples everywhere. Over the years, the results have been fruitful.

Thousands of disciples with excellent qualifications joined the Pure Yang Palace with the annual sect enrollment ceremony. Externally, this was a very normal phenomenon. Now the Pure Yang Palace has a fifth-grade alchemy master, which was naturally also part of the choice in many people's minds. It's just that no other sect would find that the average qualifications of these new disciples in the Pure Yang Palace were much higher than those of other sects.

These disciples have been properly arranged to cultivate in the Yi Xiu Mountain Villa. Over the past few decades, more than half of the new disciples have shown excellent spirit power cultivation skills, they successfully built their foundation and entered the foundation stage. In a short time of ten years they rushed to the middle and late foundation stage, it was not known how many times faster they were than the previous disciples.

Following this momentum, as long as there was a maximum of one hundred years, the number of Jiedan stage disciples in the Pure Yang Palace would be able to increase by the thousands and as time goes by, there would be more and more promising disciples.

At least the master of the palace has seen the hope of the rise of the sect from the current momentum of the development of the Pure Yang Palace. The elders now also have to vigorously train some disciples in the peak Jiedan stage to expand the ranks of the elders, they were just waiting for some promising disciples to cross their tribulation to the Yuanying stage, so they could join the ranks of the elders.

Now there were more Yuanying stage monster cultivators in the sect, far more than human cultivators. For the sect, this was also an unbalanced situation. Fortunately, there were more and more disciples at the peak Jiedan stage. He believed that with the accumulation and the continuous supply of second grade inner sensing pills and thunder pomegranate from Yang Chen's turn, there would be more and more human cultivators who would cross their tribulation into the Yuanying stage. The power of the Pure Yang Palace would become more and more balanced.

In general, the sect was very good and everyone was happy. The master of the palace was now in a good mood, with a peaceful mind his cultivation base has already reached the peak Yuanying stage, it has only been a few decades. Although there was his double cultivation with Wan Qian, the confidence of the master of the palace was also a very important reason for this growth.

Other elders have different levels of diligence. The law enforcement hall master Meng Xian has reached the peak Yuanying stage. It was estimated that there would be another dacheng stage master in the Pure Yang Palace in a few decades.

The information obtained by the Wine Immortal House was continuously sent to the Pure Yang Palace. At the same time, Senior Jiu Xian reached the peak Yuanying stage. The sect has handed a questioning inner heart pill to Jiu Xian, they were just waiting for him to arrange everything and find a place to retreat and cultivate. At that time, the sect would also send the old tree demon to act as his dao protector.

Everything was developing in a good direction and Yang Chen's hard work has finally started to bear fruit. At this point, Yang Chen could first prepare for the marriage with ease and marry his four charming brides.

However, before that, there was one more thing that must be done. That was the delivery of the pill formula to the Greatest Heaven Sect.

The seventh grade fire seed was only Yang Chen's reward, but the Greatest Heaven Sect had to compensate one or two sects, but it was not as outrageous as Yang Chen's reward. The Greatest Heaven Sect was a big sect with a lot of assets and since they have already paid this price, they certainly don't care about the small gift to the Pure Yang Palace.

Mao Qi does not need two or three months to come and go, he believed he would visit again soon. He didn't know what kind of expression the Greatest Heaven Sect's senior members would have when they heard this price tag, but what was certain was that for Li Liheng and his cultivation method, the Greatest Heaven Sect would surely pinch their noses and accept this big loss.

The Greatest Heaven Sect did not only send Mao Qi. This time, there was also a dacheng stage elder with him, one of the three dacheng stage elders who was injured in the incident that year.

The reason why there was a dacheng stage master was to ensure the safety of the seventh grade fire seed. Perhaps with Mao Qi and several accompanying Yuanying stage masters, it could be guaranteed foolproof, but the seventh grade fire seed would definitely be coveted by countless masters.

Chapter 444.2: Obtaining A Seventh Grade Fire Seed

The seventh grade fire seed was already the ultimate fire seed in the mortal world. Moreover, even if it was a dacheng stage master, it was not always possible to subdue a seventh grade fire seed me.

The pure yang true fire of the Pure Yang Palace has been kept in their secret plane since the establishment of the sect, but since the founder, no one has been able to subdue and absorb the pure yang true fire of the Pure Yang Palace. The difficulty of subduing a seventh grade fire seed was evident.

It was for this reason that the Greatest Heaven Sect's senior members later promised to deliver the seventh grade fire seed. At best, it was to take the fire seed to the Pure Yang Palace and let the Pure Yang Palace keep it first. Does Yang Chen still have a chance to absorb it?

Not to mention that he was only a fifth-grade alchemy master, without a strong cultivation base, it was not enough, it was impossible to move the seventh-grade fire seed to get the pill formula. After Li Liheng recovered and cultivates the cross-border spiritual awareness cultivation method, when they come to clean up the Pure Yang Palace. At that time, whether it was the seventh grade fire seed or something sent before, it may be possible to get it back.

Although neither the Greatest Heaven Sect nor the Pure Yang Palace had any news about this transaction before, the seventh grade fire seed was of great importance after all and no one dared to neglect it. The Greatest Heaven Sect having a dacheng stage master accompany it was for safety. There were no waves along the way and they calmly reached the Pure Yang Palace.

"Grandmaster Yang, it's not that I don't trust you, but how can you ensure that it is the real pill formula?" Mao Qi and the Greatest Heaven Sect really had such concerns and mentioned them before the transaction. Everyone was a villain before a gentleman and no one would deceive anyone.

"Junior can swear with a heart oath." Yang Chen smiled casually and said these words. In this way, Mao Qi and others have no reason to doubt.

At this point, Mao Qi and the others no longer doubted it and they took out the seventh grade fire seed black heaven true fire and put it in front of Yang Chen.

This black heaven true fire was really extraordinary, as it came close Yang Chen felt that the yin yang heaven burning fire in his body seems to be attracted by something, it was like it needed to fly out of his body and merge into this kind of fire seed. If it weren't for Yang Chen's spiritual awareness that had already exceeded the limit of this mortal world, he couldn't have forcibly suppressed the flame in his body and things would have gotten ugly.

The black heaven true fire, a seventh grade fire seed that they have only heard of before but never had the opportunity to see, was a high grade fire seed that was comparable to the pure yang true fire and now it was in front of Yang Chen, it seemed that Yang Chen could take it with just one wave of his hand.

Staring at the fire seed for a long time, even Yang Chen, who has the memory of a great principle golden immortal, couldn't help but become greedy with drool, imagining the situation after he absorbed the fire seed.

Cough, Mao Qi's cough awakened Yang Chen from his illusions. With an awkward smile, he took a jade slip from his Qiankun bag and put it on the table.

Mao Qi couldn't wait to pick up the jade slip, dived his spiritual awareness into it and began to explore the content. After a while, he nodded slightly and gave the jade slip to the accompanying dacheng stage elder.

"Old man Hu Changyi, have not thanked the grandmaster for saving my life last time!" Until this time, the dacheng stage elder did not speak. When he opened his mouth it was to thank Yang Chen.

"Senior don't have to, the sect paid enough. Juniors also took advantage of people's dangers and charged some benefits." Yang Chen waved his hand directly "If the senior want to thank some, then you should thank your noble sect master Li and hall master Mao!"

"This old man is very curious. Grandmaster, you are collecting these many kinds of fire seeds, but what is the use?" Hu Changyi, a dacheng stage master, would not be entangled in this kind of thing. Anyway, as long as he expresses his heart, he does not care about whether Yang Chen liked it or not, but he immediately asked Yang Chen this question.

In fact, not only Hu Changyi had this doubt, many people in the Blue Cloud Sect and the Green Jade Immortal Island were very puzzled about it, even the elders in the Pure Yang Palace, everyone was also puzzled about what he was doing with the fire seeds?

"It's for alchemy!" Yang Chen irresponsibly gave an answer like this "Different medicinal herbs require different flames to exert their maximum medicinal effects, junior uses these fire seeds for alchemy."

“Grandmaster’s alchemy technique, there is no match in the mortal world.” Hu Changyi’s face smiled and there was a strong admiration in his speech, but when the words changed, he talked about another aspect “I don’t know what grandmaster took the seventh grade fire seed for, but are you sure you will be able to subdue it for the alchemy? Don’t blame this old man for taking advantage of my seniority. I believe with the grandmaster’s cultivation base, not to mention the seventh grade fire seed, even if it is a sixth grade fire seed. In the eyes of this old man, grandmaster can’t handle it!”

It seemed that Yang Chen had retained a touch of face in his speech. In fact, what he wanted to express was not that he couldn’t handle it, but impossible for him to handle it. How many amazing cultivators were burned to ashes when they absorbed the fifth grade fire seeds and Yang Chen, a little master in the Jiedan stage, dared to covet the seventh grade fire seed?

Hu Changyi said this, but actually he wanted to plant the seed of a heart devil in Yang Chen’s heart. In the future, as long as Yang Chen thought that although he has gotten the seventh grade fire seed, he could only look at it. This mood would definitely affect Yang Chen’s practice.

Yang Chen was already a fifth-grade alchemy master. In the view of the Greatest Heaven Sect, it was best to stop him here and never let Yang Chen have the opportunity to grow more.

“Senior don’t need to worry about it!” Yang Chen of course heard Hu Changyi’s meaning, without any slight anger on his face, he smiled and replied “As long as you hold it in your hands, you don’t have to use it to be happy, it’s better than having nothing at hand!”

“Grandmaster should take care of yourself very well.” Hu Changyi said with a kind smile on his face and with a sincere urging “You must know, talent can arouse jealousy, this seventh grade fire seed, grandmaster your alchemy inheritance, I believe that there will be many people interested in you.”

“You are too kind!” Yang Chen didn’t care, but nodded “This junior will pay attention, if senior needs this junior to make alchemy next time, despite the time, as long as the price is right, this junior will never refrain.”

When it came to the word price, Yang Chen deliberately emphasized the pronunciation and anyone could hear the teasing meaning in Yang Chen’s voice. The Greatest Heaven Sect just got the pill formula and although Yang Chen made a heart oath, they still needed a master of alchemy to verify it. At the moment, Hu Changyi didn’t dare to offend Yang Chen too hard, but he didn’t smile.

Mao Qi quickly mediated, the two parties had completed the transaction. Mao Qi needed to return to the sect and hurriedly bid farewell to the master of the palace, the group quickly left the Pure Yang Palace.

“As long as you wait for the refinement of this spirit congealing pills, then Elder Hu can do whatever he wants when the time comes.” Mao Qi was also reluctant and said with outrage “Even if the Pure Yang Palace is destroyed, it will be all right.”

Chapter 445.1: Purification Of The Mountain River Geographical Map

If Mao Qi said that, of course, it was valid. As long as the spirit congealing pills worked, Li Liheng could get in touch with the predecessors in the spiritual world. Naturally, when the time comes and they wanted a pill recipe, they would get a pill recipe and if they wanted a cultivation method they would have a cultivation method, who would care about a small Pure Yang Palace?

They couldn't move against the Pure Yang Palace now mainly because of Yang Chen, they would not have this scruples at that time, they could destroy the Pure Yang Palace. Even if it was the Blue Cloud Sect and the Green Jade Immortal Island, would they go all out to fight against the Greatest Heaven Sect? He couldn't say that at that time, the two major sects had already got enough questioning inner heart pills, where would they care about Yang Chen.

Thinking of this, Mao Qi suddenly thought of a question. Since Yang Chen was willing to sell the pill recipe for the spirit congealing pill, then the pill recipe for the questioning inner heart pill, was Yang Chen willing to sell that also?

Reminiscent of Yang Chen, who had previously claimed to have won the heaven seizing pill, he was willing to sell the pill recipe, but at that time people felt that the price was too high and no one was willing to purchase it. Now that he had used a seventh grade fire seed to purchase the pill recipe for the spirit congealing pill, could the pill recipe of the questioning inner heart pill also be traded?

As soon as this issue appeared in his mind, he couldn't stop it and he began to think about this possibility. At this time, Mao Qi regretted it a little bit. If he knew this, he wouldn't have let Elder Hu stimulate Yang Yang in the back as he wanted to plant him with a heart devil.

If Yang Chen was willing to sell the pill recipe, now there should be no other sect who knew about this matter. This time, he must quickly send the pill recipe for the spirit congealing pill back and then report

this to sect master Li. If they could get all the pill recipes for the questioning inner heart pill and the heaven seizing pill, wouldn't they never have to look at Yang Chen's face again?

The price was nothing more than a seventh grade fire seed. In the secret plane of the Greatest Heaven Sect, there were at least three other seventh-grade fire seeds, enough to buy all of the pill recipes that Yang Chen was proud of. A seventh grade fire seed was not an ordinary fire seed, even if they wanted to destroy it, even dacheng stage masters do not have this ability, so even if they gave it to him it was no problem. When the time came they could take it back naturally.

The more Mao Qi thought about it, the more proud he was because of his indecision last time, so he missed the opportunity and was scolded by the sect master and several core elders. This time he finally found a way to atone for sins and still made a great contribution to the sect. He must go back quickly and settle this matter with the sect master and elders. Otherwise, once the issue spreads, it would definitely make the other sects move into action.

Yang Chen sent away all the people from the Greatest Heaven Sect. The issue was no longer on his mind, anyway, that game would take decades, he was not in a hurry. His marriage would take place in four years but Yang Chen was not in a hurry. But there was one thing that was already imminent and has to be taken seriously.

The mountain river geographical map of Gongsun Ling. After gathering three dacheng stage masters and hundreds of Yuanying stage masters, it was finally time to complete the refining.

The refining of this life source magic weapon depends on the level of the cultivation of each individual. Generally speaking, it takes more time for a Yuanying stage master to refine it, it was possible that it could take a hundred or even hundreds of years. Of course, the longer the quenching time, the higher the understanding between the magic weapon and the master, this was beyond doubt.

Even Yang Chen himself has been smelting and refining the immortal beheading blade for more than 150 years, but he hasn't realized it yet. In Yang Chen's plan, the Jiedan stage was to be used to refine all his life source magic weapons.

Of course, there were some exceptions to Yang Chen's situation. In addition to the immortal beheading blade, the five yin yang flying swords all needed to be tempered. The other flying swords were supplemented and consumed less time. They could also be used at any time, no one else could do it.

Different people have different situations. Yang Chen was in such a situation, Gao Yue was another situation. Although the dragon horn flying sword has not been formed yet, it was also equivalent to the tempering of the life source magic weapon in the process of the scouring and penetration of the spirit power and the spiritual awareness through the years. After all, the process of refining the magic weapon by the refining master was also a hardening process that cannot be ignored.

Not everyone was a refining master, so most people's magic weapons were made by others. A large part of the cost of refining mortal world magic weapons was to erase the original spiritual awareness imprint of the refining master on the magic weapon.

The situation of Gongsun Ling was the most special. The mountain river geographical map has long lost its master's aura. Especially after the cleaning of Xiao Tian, it was a pure and new magic weapon.

Moreover, the characteristics of the mountain river geographic map determined that Gongsun Ling was destined to spend less time to refine it than everyone else, but could achieve better results. One couldn't do anything about it, even for Yang Chen, if there were three dacheng stage masters and hundreds of yuanying stage masters to help him refine the magic weapon, it couldn't be very fast.

But this does not mean that Gongsun Ling couldn't complete the smelting work very easily. Although the process of smelting could save a lot of time, for the final step of smelting, Gongsun Ling still needed to concentrate on it to complete it.

There was no perfect thing in the world, so was the situation of Gongsun Ling. Although the many experts helped save the time for smelting, it also resulted in the spiritual power that was smelting the mountain river geographical map not being pure. Although the dominant power was still from Gongsun Ling, there were still some impurities after all.

The last step was to thoroughly filter the spiritual power of those who helped in the refining, so that the mountain river geographical map would become the magic weapon of Gongsun Ling.

Switching to Gongsun Ling of the previous life, this process would definitely be extremely difficult and it would even take no less than the time to quench it. But now with the help of Yang Chen, everything was much simpler.

For every master of refining, if there was a chance, would not miss the feast of the refining of the mountain river geographical map. In front of Gongsun Ling, Yang Chen, Gao Yue and Wang Yong were now staring attentively. At the same time, the master of Gongsun Ling and her ancestor Gao Shiyan were also on the side. They were also concerned about their disciple.

Her spiritual awareness was already in the peak Yuanying stage. Gongsun Ling's control of her own spiritual power was definitely among the top ranks in the mortal world. Except for dacheng stage masters, this was the peak realm.

Yang Chen was very attentive to his own wife's affairs. Not only did he have the fifth earth spirit power essence to help her cultivation, but also the best material for purifying impurities, the four seas mysterious coral liquid.

Gao Yue and Gongsun Ling have taken in the four seas mysterious coral liquid many times and Wang Yong has also had a cup because of Yang Chen's filial piety. However, when Yang Chen's four seas mysterious coral liquid was put out in front of everyone, even Gao Yue, Gongsun Ling and both strangers were also shocked.

No matter which cultivator it was, no matter how high their cultivation base was, how broad their knowledge was, seeing a large bathtub filled with the four seas mysterious coral liquid suddenly appear in front of them, they would be scared like this.

Chapter 445.2: Purification Of The Mountain River Geographical Map

"How come there are so many?" Gao Yue and Gongsun Ling's first thought was this. Immediately, they were extremely shocked. They remembered Yang Chen said that they could take a bath with the four seas mysterious coral liquid, it turned out to be true.

Fortunately, the two women knew that Yang Chen was extremely rich, so they were surprised but they didn't act too shockingly. On the contrary, Wang Yong, the ancestor next to them, acted excessively.

"Ah!" Wang Yong exclaimed with a whisper, together with the movement of standing up, also shocked Liu Qing, the master of Gongsun Ling and elder Gao Shiyan.

Elder Gao and Liu Qing had never seen the four seas mysterious coral liquid and they didn't think of what it was for a while, so they seemed calm. But Wang Yong's gaffe made the two of them a little uneasy.

Wang Yong had seen the four seas mysterious coral liquid from all over the world and had a drink of what Yang Chen had given him, but he didn't expect that Yang Chen would directly take out so much stock. He was already a master in the dacheng stage with an extremely firm mind, but when faced with the four seas mysterious coral liquid in a large bathtub, he still couldn't maintain his composure.

"How could it be?" The situation was unbelievable, but the facts in front of him made Wang Yong have to believe. This kind of precious material that basically belongs to the legend, just one drop could make countless people go insane, but now it was just being used like an ordinary bath water. Even if Wang Yong already had the qilin horn flying sword and qilin heavenly fire, he could not calmly accept this kind of thing that almost surpassed a sect's wealth.

Gao Shiyan and Liu Qing really couldn't understand how the liquid would make Wang Yong, who was already a master of the dacheng stage, gaffe, even jumped up in shock.

"What is this?" Although Gao Shiyan looked at the color of the four seas mysterious coral liquid and felt a bit weird. It should be a very characteristic thing, but he still hasn't connected the four seas mysterious coral liquid with such a large bathtub liquid and asked with a little surprise.

"Four seas mysterious coral liquid!" Wang Yong said these five words almost word by word. Afterwards, Gao Shiyan and Liu Qing fell directly into a daze, standing still, dumbfounded, unable to say anything or make any movements.

One drop could increase the level of a pill and one drop could increase the level of a magic weapon, the legendary four seas mysterious coral liquid, why was there so many here? Were they dreaming.

Gao Shiyan and Liu Qing didn't want to believe Wang Yong's words at all, but what reason does Wang Yong have to lie to them? Moreover, the characteristics of the liquid in front of the master and the apprentice were exactly the same as the legendary four seas mysterious coral liquid. There was no difference, was this really the four seas mysterious coral liquid?

After the time for a stick of incense to burn, the two men recovered from their sluggish state. But there were still doubts in their hearts, was this really the four seas mysterious coral liquid?

The mountain river geographical map of Gongsun Ling was not too clear to Gao Shiyan and Liu Qing, nor was it directly said to be a magic weapon of the dragon clan. But it was also simply said that this was a high-level magic weapon, the spiritual power contained in it was not pure enough, it needed to be purified at the last minute. Although the two of them were concerned, they had no choice but to do it with Gongsun Ling.

But with these four seas mysterious coral liquid, it was completely different, as long as it was soaked in the four seas mysterious coral liquid for a long enough time. During the immersion, Gongsun Ling would use her own spiritual power for a final tempering, which could completely drive out the impure spiritual power and make the mountain river geographical map become pure.

It seems that Yang Chen has arranged everything for his beloved wife. After Gao Shiyan and Liu Qing finally accepted the facts in front of them, they were completely relieved. For Gongsun Ling, both of them loved her and they were naturally happy that Gongsun Ling's magic weapon could be completed.

The only thing that they couldn't get rid of was that, just for Gongsun Ling's Jiedan stage life source magic weapon, he used so much four seas mysterious coral liquid, wasn't it a bit excessive? You should know that so many four seas mysterious coral liquid was enough to make countless medicinal pills and more magic weapons for the Pure Yang Palace.

Gao Shiyan and Liu Qing naturally had another idea in their hearts. Yang Chen's fifth grade alchemy master realm may have been built on the foundation of the four seas mysterious coral liquid. You should know that the four seas mysterious coral liquid could balance various medicinal properties and it was a highly respected precious material among the auxiliary materials that are allowed to be added during alchemy. Yang Chen was young and had such a level of alchemy, so it should not be possible without the four seas mysterious coral liquid help.

Yang Chen doesn't care what Elder Gao and Uncle Liu thought, the most important thing now was the completion of the refinement of the mountain river geographical map. Under Yang Chen's signal, Gongsun Ling unfolded the mountain river geographical map and immersed it in the four seas mysterious coral liquid.

Not to mention, Gongsun Ling's whole body was picked up by Yang Chen and he put them in the four seas mysterious coral liquid together and then let her begin to temper it with her spiritual power.

If they let an outsider see it, they would definitely think that this was Gongsun Ling's bathing with the four seas mysterious coral liquid. In fact, this was almost the case. It's just that while bathing, there was more tempering work being done.

Gongsun Ling was completing the final tempering, but the others present were already thinking differently. For Yang Chen's luxury, apart from Gao Yue and Gongsun Ling, Wang Yong and Elder Liu Shibo finally had a concept. In the same way, they were more sure about the future of the Pure Yang Palace.

Among other things, these four seas mysterious coral liquid alone was enough to increase the strength of the sect by at least twice. Everyone was able to upgrade a grade of their magic weapon, their strength would increase by more than doubled.

What made them happy was that their beloved disciple had such a good husband, which even made them more happy than their own breakthrough.

The four seas mysterious coral liquid also lived up to expectations. After Gongsun Ling took the mountain river geographical map and soaked it into the four seas mysterious cora liquid, the large pot of liquid did not stop tumbling.

The lingering spiritual power escaped from the mountain river geographical map, pushing the four sea mysterious coral liquid out with small bubbles. From the outside, it looked like the four sea mysterious coral liquid was boiling.

This process has continued for almost half a year and the boiling four seas mysterious coral liquid slowly subsided. With the escape of the impurities and spiritual power, the mountain river geographical map has become extremely pure.

At the moment when Gongsun Ling received it, a dragon shadow almost like an entity directly flew out of the four seas mysterious coral Liquid and flew straight into the sky and dissipated around.

Afterwards, Gongsun Ling was wrapped in the mountain river geographical map, slowly rising from the four seas mysterious coral liquid and slowly falling to the ground. The original scroll form of the

mountain river geographical map turned into a piece of clothe in front of everyone and wrapped around Gongsun Ling.
