

## Zhanxian 446

### Chapter 446.1

Seeing this scene of Gongsun Ling, everyone was overjoyed. But at this time, Yang Chen did something that everyone could not imagine. He directly summoned dozens of flying swords from his cosmos bag and attacked Gongsun Ling.

The grinning expression on Gongsun Ling's face did not change at all, she did not even move her footsteps, but a mist suddenly appeared around her body.

The mist seemed very thin, as if it could be seen through at a glance, but Yang Chen's dozens of flying swords cut past and fell within the mist, but they all fell into the air. Not one of the dozens flying swords were actually able to cut her, as if Gongsun Ling in the mist had no body.

A group of flying swords flew out from the mist, circled around and once again headed towards Gongsun Ling. This time, Gongsun Ling seemed to have changed her strategy and removed the mist and the flying sword controlled by Yang Chen was smashed firmly on Gongsun Ling's body.

Ding, a series of dull sounds rang, Gongsun Ling's delicate body did not change at all, but the flying swords that had been slashed on her body seemed to have slammed on a tough ball that had been full of air and they were bounced back.

This time, Yang Chen did not continue the experiment, but recalled all the flying swords. However, this scene just now made everyone aware of Gongsun Ling's defense.

As for the means of attack, the mountain river geographical map could be used. If it was a Jiedan stage expert on the same level as Gongsun Ling and his spiritual awareness was not as powerful as Gongsun Ling. Basically, that person could be collected by Gongsun Ling. Even some of the early or even middle Yuanying stage masters, under the mighty power of the mountain river geographical map, could only be defeated with hatred.

The treasures of the dragon clan, the things that they were willing to store in their treasure house, were not simple. Yang Chen believed in this. Now he was just afraid that the mountain river geographic map was too shocking and he didn't tell everything to Gao Shiyan and Liu Qinghe. Otherwise, Yang Chen could demonstrate the attack of the mountain river geographic map on the spot.

Aside from other things, just the illusion. It was estimated that except for Yang Chen and Wang Yong, no one else could escape.

“Let me see what this picture has become.” Yang Chen excitedly asked Gongsun Ling to come over so he could take a closer look.

Of course, Gongsun Ling would not refuse. The mountain river geographical map that had just been transformed into a suit returned to its original scroll shape and was handed over to Yang Chen.

Compared with before, the current mountain river geographical map was a bit more spiritual, perhaps because of it having an owner. Opening the scroll, Yang Chen immediately saw a lot more in the center of the scroll.

It was originally just a small spot, encompassing the entire East China Sea, but now it was a palm-sized black spot, encompassing a large part of the central plains of the dao sects, the south china sea and a large part of the monster race domain. In addition, there were many areas of the demon sect. Plus some places that Gongsun ling have deliberately visited before were several times larger than the original ones.

After he nodded, Yang Chen returned the mountain river geographic map to Gongsun Ling. Gao Shiyan and Liu Qing both took a look at it like Yang Chen, but they didn't see any clues, they just knew that this magic weapon was extremely powerful.

Of course, Wang Yong would not miss this opportunity. Once he inspected the mountain river geography map, Wang Yong understood what the material was. He couldn't help but give Yang Chen a slightly surprised look, but Gao Yue's water and fire dragon horns had already been seen by him, so this dragon skin map did not make Wang Yong too surprised.

The refining method of the dragon clan was undoubtedly evident in this mountain river geographical map and it also gave Wang Yong some inspiration for refining the materials of the dragon horns. It would also be a great help for Gao Yue to refine the dragon horn flying swords in the future.

After everyone had seen the mountain river geographical map. After everyone congratulated Gongsun Ling, everyone's eyes focused on the big basin of four seas mysterious coral liquid.

“Master, Master Uncle, Uncle Liu, although some of the four seas mysterious coral liquid was consumed, it can still come in handy.” Of course, Yang Chen knew what to do. In fact, he had already thought about it before he took it out. He knew how to deal with it “If you don’t dislike it, this disciple wants to hand over these to Uncle Master and Uncle Liu to deal with and I ask the two elders not to refuse.”

Gao Shiyan and Liu Qing would not think of declining, they almost fainted from this big pie falling from the sky. So many four seas mysterious coral liquid, it was handed over to them unexpectedly? Although Gongsun Ling has used it, who cares?

With these four seas mysterious coral liquid, whether it was Elder Gao or Liu Qing, it could definitely be used to expel impurities from their bodies. Elder Gao might be able to reach the peak middle Yuanying stage. As for Liu Qing, he was at the peak Jiedan stage. If he took this opportunity to expel the impurities from his body and then used the second grade inner sensing pill, he might be able to immediately cross his tribulation and form his nascent soul. With the help of the thunder pomegranate, the success rate of forming his nascent soul was almost over 90%.

But after all, the two of them didn’t dare to accept them all, but after each took a large cup, they handed the four seas mysterious coral liquid to the sect. Anyway, that big cup was enough for them to use. The sect could also increase a lot of the master’s strength with these four seas mysterious coral liquid. As the sect’s strength increases, resources would increase accordingly, which would be more beneficial to their future cultivation. It was a benign promotion process.

The palace master and the other elders did not expect to receive such a big gift suddenly. In addition to the surprises, they praised Yang Chen’s good fortune for being able to gather the four seas mysterious coral liquid. As a result, the number of people in the Pure Yang Palace who would cross their tribulation would become more and more jaw-dropping in the days to come.

Increasing the number of Yuanying stage masters requires care and resources, but the number of Jiedan stage disciples who have been able to form their nascent souls was not so much. Anyway, with Yang Chen, a master of alchemy, what if there were more people in the Pure Yang Palace who formed their nascent souls? The more disciples who became Yuanying stage masters, the better the second grade inner sensing pills of the Pure Yang Palace would sell and the more popular the thunder pomegranate would be in the future.

At least until other sect's alchemy masters worked out the refining method of the second grade inner sensing pill, this benefit was settled in the Pure Yang Palace. And the more disciples who cross their tribulation, the stronger the strength of the Pure Yang Palace would become.

Here, the senior officials of the Pure Yang Palace were racking their brains happily thinking about how to distribute this large basin of four seas mysterious coral liquid, while the Greatest Heaven Sect was discussing the possibility of buying the pill recipes from Yang Chen.

"Last time Yang Chen did say that the pill recipe could be exchanged with a fire seed." An elder of the Greatest Heaven Sect who had experienced the previous situation and was on the scene confirmed Yang Chen's statement back then.

"In that case, Yang Chen can sell even the pill recipe of the heaven seizing pill and the pill recipe of the questioning inner heart pill could also be bought!" Mao Qi's judgment and the elder's affirmation made a core elder treat Yang Chen in a new light.

#### Chapter 446.2

"Back then, this kid dared to offer the price of the seventh grade fire seed. It seems to have been premeditated", the elder next to him responded: "If the sect can win the pill recipes for the heaven seizing pill and the questioning inner heart pill, it is not impossible to consider"

It's no longer necessary to ask what the questioning inner heart pill could do. In the past few years, there have been three dacheng stage masters who have been born, all of them from the Blue Cloud Sect and the Green Jade Immortal Island. This has caused a lot of pressure on the Greatest Heaven Sect.

At this time, the Greatest Heaven Sect focused on obtaining the spirit congealing pills from Yang Chen and naturally lags behind a lot in the quest for the questioning inner heart pills. Although from a long-term perspective, this was beneficial to the Greatest Heaven Sect. With the guidance of the seniors in the spirit world, the Greatest Heaven Sect would surely dominate the mortal world in the future, but for now, it has to face the reality of the precarious status of being the dao sects leader.

But if there was a pill recipe for the questioning inner heart pill, it was another matter. Instead of spending a huge price for Yang Chen to refine the pill, it was better to master the core technique of this refining method by themselves than to buy it from someone else. It's better to be able to solve the problem fundamentally than to keep buying it and being pinched by others

“The material of the heaven seizing pill is scarce, so you don’t need to think about it for the time being.” The sect master and several elders exchanged a little and they also felt that the plan to purchase the pill recipe was feasible. However, the sect currently has two seventh grade fire seeds, but if they have to weigh it, Yang Chen could even take a seventh grade fire seed for the spirit congealing pill, then the price of the questioning inner heart pill recipe will not be too low.

“Hall Master Mao, please go to Pure Yang Palace again.” Sect master Li directly ordered at the meeting of the elders “Together with Elder Hu, directly bring two seventh-grade fire seeds to Yang Chen to discuss whether they can buy it. If you can only buy one kind of pill recipe from the pill recipes of the heaven seizing pill or the questioning inner heart pill, buy the questioning inner heart pill. If you can buy it back, Hall Master Mao, you will be rewarded.”

This time Mao Qi could be regarded as being elated and proud. The last time the transaction was messed up, he was uncommonly scolded by the senior officials of the sect. Now he finally has the opportunity to stand up. Not to mention that the sect master still let him do the matter this time, even if he does not need to do it, this proposal would be from none other than him

Feeling comfortable, hall master Mao’s face was naturally different. On the contrary, Elder Hu may have to face Yang Chen again so he had an ugly face.

Although Yang Chen alchemy healed his injury, Elder Hu was not grateful to Yang Chen and the sect paid a high price for this, and Elder Hu had to obey the words of the sect master.

In the eyes of Elder Hu, Yang Chen should take the initiative to gain favor from him who was a dacheng stage master and a senior elder of the Greatest Heaven Sect, Yang Chen should take the initiative to do favors and send the pill recipe to his sect to gain his own favor, but they paid a lot of price for it, how could this not make Elder Hu look down on Yang Chen

This time, Elder Hu made up his mind to never showed up in front of Yang Chen again. He would escort the things to the ground and let Mao Qi negotiate with him. Elder Hu didn’t plan to join in anymore.

It took a high price for Elder Hu to get Yang Chen’s fifth grade lingzhi mushroom jade pill. This also weakened his strength in the sect. But Elder Hu was not left without a way to deal with it. No one knew but once he was examining weather the spirit congealing pill recipe was real or fake, he took advantage to firmly keep the pill recipe in his mind

Outside the sect, Elder Hu also secretly ran a small force. One of them was an alchemist with good methods. When he had the opportunity to get the pill recipe of the questioning inner heart pill this time, Elder Hu decided to let the alchemist master try and refine it. As long as he had a questioning inner heart pill, everything would be fine

As for waiting for the refining of the sect to be dispatched, the feeling of being controlled by others, wouldn't it be better for him to own the questioning inner heart pills himself?

Of course, it's impossible for Elder Hu's thoughts to be known to Mao Qi. Mao Qi rushed to the Pure Yang Palace along the way, but was met with Yang Chen acting as a protector for Gongsun Ling, so he waited patiently until Yang Chen would come out to discuss with Yang Chen again

"Senior Mao is a frequent visitor." Yang Chen poured Mao Qi a cup of fragrant tea, which was regarded as a treat from the host to the Greatest Heaven Sect's hall master who had brought him countless benefits: "I don't know what you have to say this time?"

"It is not for idle talk, I want to ask something." Mao Qi and Yang Chen had a few encounters and he also knew Yang Chen's character, so he went straight to the subject "Will you sell the pill recipes of the heaven seizing pill and the questioning inner heart pill?"

"Sell" Yang Chen was shocked when he heard Mao Qi's question, but immediately returned to normal and directly gave Mao Qi an exciting answer "As long as the price is right, it's easy to discuss."

Mao Qi's face suddenly smiled like a flower blooming. He already liked the young man in front of him so much. Although the sect seems to be at odds with him, they have not been able to get Yang Chen to join them on several occasions and even started to attack him, but this does not prevent Mao Qi from liking Yang Chen

Where could he find people who would trade anything as long as the price was right? There are so many duplicity guys whose minds were turbulent but verbally claiming that riches and nobles cannot be fornicating, poor and humble and can't be moved. Compared with Yang Chen, Yang Chen was 10,000 times more lovely than them.

What about the high price? It's normal for people's exclusive business to have a high price tag. Anyway, Mao Qi asked himself. If he replaced him and it was Yang Chen who came to his sect to ask if he wanted to sell his pill recipes, he might be more ruthless than Yang Chen.

If the mortal world had more people like Yang Chen, then there wouldn't be any disputes, enough price could be exchanged for anything. In terms of resources, they would never be inferior to any sect.

It should be me, Mao Qi, this was the real idea in Mao Qi's mind. After returning, he must suggest to the sect that Yang Chen's life should be left to him. What kind of pill the sect wanted in the future, a fifth-grade alchemist was definitely the first choice.

"You name your price" Mao Qi directly handed the bamboo sticks to Yang Chen's hands again "As long as it is not too demanding, everything would be easy to decide"

"Senior Mao is really a refreshing person." Yang Chen's eyes almost smiled into a gap. He almost saw that the treasure house of the Greatest Heaven Sect had opened their door to him.

"This younger generation junior in business will not deceive anyone, the pill recipe for the heaven seizing pill, I have said before, a seventh-grade fire seed and it will never change" Yang Chen even said with a smile in his tone, which made people so happy. "As for the questioning inner heart pill, two kinds of seventh grade fire seeds, it's not too much right?"

"Not too much, not too much" Mao Qi head shook his head like a rattle. The price was almost the lowest he could think of. Yang Chen was very kind and didn't increase the price for the heaven seizing pill. As soon as he thought that he could get the pill recipe of the questioning inner heart pill, Mao Qi could not help but have his heartbeat increase even as a master of the Yuanying stage.

Chapter 447.1

Yang Chen's heart was full of doubts. What happened to the Greatest Heaven Sect these few days? It's okay to give Yang Chen the seventh grade fire, was it a sense of accomplishment? Or was there too many seventh-grade fire seeds in the Greatest Heaven Sect to be taken advantage of like this?

"It stands to reason that the price you are asking, grandmaster, is not outrageous." At the command of sect master Li before leaving, Mao Qi certainly knew that he could only buy the pill recipe of the questioning inner heart pill with his two seventh grade fire seeds. However, Mao Qi still wanted to fight

for it and get the heaven seizing pill “It’s just that my sect doesn’t have so many seventh-grade fire seeds. I wonder if I can change with something else?”

“Senior Mao, even if you speak, it’s not that you can’t discuss it.” Yang Chen didn’t mean to talk directly without saying anything and asked calmly “You and I have traded many times, so we have a small friendship and everything is easy to discuss.”

“I won’t hide the truth from the grandmaster, my sect currently has only two seventh grade fire seeds on hand.” Mao Qi was not afraid that Yang Chen would make waves when he knew it. Instead, he directly said his own difficulties “According to this truth, we can only buy grandmaster’s questioning inner heart pill recipe. However, this old man is a bit greedy and he wants this heaven seizing pill recipe also.”

“It’s easy to discuss, if there is no seventh grade fire seed, you can replace it with others, it doesn’t matter to this younger generation junior.” Yang Chen said with a smile, the two seemed to be business partners for many years, so it was very natural.

“You said back then that one method of reconciliation is to exchange for a low-grade fire seed. I don’t know if all these methods of reconciliation can be exchanged with low grade fire seeds?” Mao Qi was determined to hold the treasure of the Greatest Heaven Sect in exchange for his own credit, he didn’t mind revealing how much news to Yang Chen “How about one kind of seventh-grade fire and ten kinds of sixth grade fire seeds?”

“If it’s someone else, naturally it won’t work.” Yang Chen gave Mao Qi a lot of face “But since it was senior Mao who spoke, it must be done anyway, it’s a deal!” Without waiting for Mao Qi’s ecstatic interference, Yang Chen rushed and said “However, this younger generation junior would like to say something first, I hope you don’t mind.”

“It’s okay to talk.” Mao Qi thought that something was wrong, his face changed slightly and he reached out to ask.

“Since the predecessor wants to buy the questioning inner heart pill recipe, it doesn’t really matter if you buy or not buy this heaven seizing pill recipe?” Yang Chen was in a posture like it was for Mao Qi’s sake at this moment and said “Moreover, the materials for this heaven seizing pill are very rare so why are you wasting resources on it?”

“It’s okay!” When Mao Qi heard that Yang Chen was saying this, he took a moment to relax and was no longer nervous. What he was most afraid of was that Yang Chen would not agree, not that Yang Chen would reject the price “the questioning inner heart pill is good so is the heaven seizing pill and someone can always use them.”

What Yang Chen said was indeed the truth, anyway, as long as a person’s cultivation base reaches the dacheng stage, if their aptitude was good enough, they would naturally be able to cultivate to the peak dacheng stage and cross their tribulation to ascend. With the help of the questioning inner heart pill, the possibility of ascending was much greater, but it really doesn’t need the heaven seizing pill.

But Mao Qi had other ideas. The young sect master Li Liheng’s spirit power cultivation was not very good, but if he was able to cultivate his cultivation method, he would definitely be the best choice for the sect master in the future. When the time comes, this heaven seizing pill would be prepared for Li Liheng in advance. Even when sect master Li and a few core elders decided to buy heaven seizing pill, it was probably for this purpose.

To please the current sect master and core elders and at the same time to please the future sect master, the resources of the sect are used, but Mao Qi’s own favor was used. Of course, this business was done and it was greatly feasible.

To be honest at this moment, Yang Chen’s happiness definitely surpassed Mao Qi’s. It could even be said that he was ecstasy and overjoyed. After such a short time, the transaction of two kinds of seventh grade fire seeds and ten kinds of sixth grade fire seeds was settled, but the other party only got one pill recipe that they were incapable of refining and one pill recipe with scarce materials. This transaction definitely brought him a big profit.

Sometimes, Yang Chen even has an unreal feeling that if people sit at home, this good thing could fall from the sky like this. He originally gave them a small set and caused them heavy losses, but he didn’t expect the Greatest Heaven Sect to take the initiative to increase it.

Regardless of whether it was a collective brainstorming at the top of the Greatest Heaven Sect, or Mao Qi went crazy alone, in short, the other party cooperated like this, if Yang Chen still shied away, it would be too unreasonable.

The transaction that would make countless people who hear about it go crazy was settled in the understatement of these few sentences. The process was simple and outrageous, but the content of the transaction could make everyone jump in shock.

Hall master Mao Qi must have done a great job this time, getting the pill recipes for the questioning inner heart pill and the heaven seizing pill at the same time. For the Greatest Heaven Sect, this was just like increasing their strength by several fold. What about the Blue Cloud Sect and the Green Jade Immortal Island having the questioning inner heart pill? They had the pill recipe for the questioning inner heart pill.

However, Yang Chen's decision was unanimously opposed by the master of the palace and the elders. The questioning inner heart pill was now the biggest support for the rise of Pure Yang Palace. If it was handed over to the Greatest Heaven Sect, wouldn't it be self-destructive, they absolutely couldn't agree.

The transaction between Yang Chen and the Greatest Heaven Sect definitely couldn't get approved by the Pure Yang Palace. The high level of the Pure Yang Palace objected with this argument and Mao Qi was a little impatient. The real trouble of dealing with Yang Chen has been solved here, but he was stuck at the high level of the Pure Yang Palace, who was at the forefront. Why would it not make Mao Qi annoyed?

In Mao Qi's eyes, these guys were more insatiable than the other. Before being a small sect, they had never seen such a precious thing. Now they had a chance, seeing the great harvest of this disciple Yang Chen, they couldn't help but jump out and wanted to take a bite.

To deal with this kind of country bumkins who have never seen the world, the Greatest Heaven Sect has a way to deal with it. The high level of the Pure Yang Palace was nothing more than wanting benefits. The seventh grade fire seeds have been taken out, do they still care about some other goods?

The performance of the palace master and the elders also confirmed Mao Qi's judgment. It's not easy for everyone to agree to it together, it's always okay to break them one by one, right?

Therefore, after hall master Mao visited several elders and gave valuable gifts, there was almost no objection at the sect deliberative meeting in the Pure Yang Palace. However, the Greatest Heaven Sect still gave Pure Yang Palace a benefit for this. This was a transaction between the sects and cannot be helped.

With all kinds of contempt, hall master Mao and Yang Chen first traded the pill recipe for the questioning inner heart pill for the two kinds of seventh-grade fire seeds. After Yang Chen made a heart devil oath, hall master Mao and Elder Hu both tested the authenticity of the pill recipe too. The people

of the Greatest Heaven Sect returned to the sect with a contented mood and went to collect ten sixth grade fire seeds to complete the exchange of the heaven seizing pill.

After Mao Qi and Hu Qianyi left, the head of the palace and the elders gathered together. Together with Yang Chen, everyone began to communicate what kind of gifts Mao Qi had given them in order to buy them. The laughter was endless.

#### Chapter 447.2

Yang Chen said that even if it was given to the Greatest Heaven Sect, the alchemists of the Greatest Heaven Sect would not be able to refine it. For this, the senior officials of the Pure Yang Palace were convinced.

The pill that could be refined by a fifth-grade alchemy master could never be refined by any alchemist below this level. Now everyone in the Pure Yang Palace, as long as they wait for the passage of time quietly, then the Greatest Heaven Sect would come to beg again. The original benefit has now become two and a half shares, which makes people happy when they thought about it.

As for the things that were not easy to explain when taking things from the Greatest Heaven Sect, no one at the top has this idea. Ever since the Greatest Heaven Sect designed against the Pure Yang Palace, it has been an enemy of life and death, so there not were so many things to care about.

Mao Qi was excited and rushed back all the way with the pill recipe of the questioning inner heart pill, Elder Hu Qianyi also escorted him all the way back to the Greatest Heaven Sect. After Mao Qi reported the transaction, a group of elders from the medicine hall took the pill recipe of the questioning inner heart pill and carefully studied it, while Mao Qi took ten sixth grade fire seeds and set off on the road to the Pure Yang Palace again.

There was no doubt that this time Mao Qi definitely made a great achievement. The pill recipe of the questioning inner heart pill has allowed him to erase all the previous mistakes. Then, Mao Qi's status in the sect would definitely rise.

That's not even counting that Mao Qi also got Yang Chen's promise to exchange ten sixth grade fire seeds for the pill recipe of the heaven seizing pill. The spirit congealing pill and the questioning inner heart pill were still not easy to say, but the heaven seizing pill was definitely the pill that could be refined by the medicine hall of the Greatest Heaven Sect. In the past, Elder Wu Xiong only relied on the

third tier alchemist in the Yuanying stage to complete the preliminary refining. In the end, it was just that Yang Chen neutralized the medicinal properties with those blended powders.

Even without the questioning inner heart pill, this heaven seizing pill could ironically allow a dacheng stage master to fend off their tribulation and ascend like Elder Wu Xiong.

The upper level of the Greatest Heaven Sect rejoiced for a while. With these pill recipes, the Greatest Heaven Sect would no longer have to look at the Pure Yang Palace's face and there was no need to ask for Yang Chen's help in a submissive manner, maybe they could even trample Yang Chen under their feet. This feeling of exultation was the aura that the Greatest Heaven Sect disciples should have.

Several of the best alchemists in the Medicine Hall have already begun refining the spirit congealing pills. After getting the pill recipe, many talented people suddenly realized that it was so, no wonder they hadn't studied it thoroughly before.

Everyone unanimously determined that this spirit congealing pill was absolutely having no problems, it conforms to various pharmacology and the formula was extremely clever.

However, two points were very troublesome. One was that the spirit congealing pill could never be refined with one kind of fire seed and it needs at least four to be able to form initially. And the higher the level of the fire seed, the better the effect. This was one of the reasons why Yang Chen would ask for a variety of fire seeds in exchange for the pill recipes.

Another trouble was the process of collecting the pills at the end. The technique was mysterious and complicated and it needs to be distracted and used to achieve the goal. From an unilateral point of view, at least eight aspects must be taken care of at the same time. But now most alchemists seem to have two or three uses at most, it was not easy to take into account more thoughts.

These two conditions, for the time being, none of the masters of the Greatest Heaven Sect could satisfy them. When you cultivate, you choose the kind of fire that suits you best and control multiple fires at the same time. Once they affect each other, you might be in danger of being burned by the fire. Similarly, collecting alchemy has to deal with eight aspects at the same time, which was not something a master of the Greatest Heaven Sect could do.

Originally, the senior officials thought that after reaching this conclusion, everyone had to ask for Yang Chen's help, but the hall master of the Medicine Hall gave a solution, that was, multi-person joint refining.

The spirit congealing pill requires four types of fire seeds to be refined at the same time, so they would use four alchemists, one type of fire for each. As long as the four people cooperate with each other, there was a chance of success.

Of course, the same was true when harvesting alchemy. Eight aspects need to be taken care of and eight spirit tactics were played at the same time to collect the alchemy. Then each of the four people only needs to perform two, which could be solved perfectly.

The only thing to worry about now was the coordination of the four alchemy, but they believed that as long as they practiced for a period of time, they could solve this problem.

The senior officials of the Greatest Heaven Sect readily agreed to the suggestions of the master of the medicinal hall. Their own alchemist mastering the refining techniques was definitely better than relying on Yang Chen again and again.

It was precisely because of the breakthrough in the refinement of the spirit congealing pill that the Greatest Heaven Sect completely made up their minds to get the pill recipes of the questioning inner heart pill and the heaven seizing pill. Now that the pill recipe for the questioning inner heart pill has been obtained, sect master Li seems to have seen the scene of the Greatest Heaven Sect dominating the mortal world. With the questioning inner heart pills and Li Liheng's spiritual awareness insurance, it would not be impossible for the Greatest Heaven Sect to seek hegemony.

While the top leaders of the Greatest Heaven Sect were excited, Elder Hu had other plans. As a disciple of the Greatest Heaven Sect, he was of course happy that the Greatest Heaven Sect would dominate the mortal world, but if he was inside the Greatest Heaven Sect, he definitely wanted his status to be higher.

He was already a dacheng stage master. According to reason, as long as he devoted himself to cultivation, he could naturally achieve the path of ascension. But Elder Hu obviously still has selfish intentions. A lot of his disciples and grandchildren were suppressed and bullied because of his injuries, he couldn't swallow this situation. Moreover, in order to win that fifth grade pill, his family paid a great price. As the beneficiary of the pill, he had to give more consideration to these disciples and grandchildren.

Randomly looking for a reason, Elder Hu did not follow Mao Qi again, but went to another place. As a dacheng stage elder, the sect would never stop the elder from going out to do some private affairs.

In a remote place, Elder Hu's figure and appearance had undergone some changes and then he turned in another direction and entered a small, famous sect.

Of course, this sect was only having two masters in the Yuanying stage who could hold the ground, but one of them was an alchemist. This sect was secretly fostered by Elder Hu and did not use any resources from the sect. It was purely the result of paying out of his own pockets. The people inside were also loyal to him, the super elder who saw the end of the dragon.

"This is the pill recipe of the questioning inner heart pill." Elder Hu handed the pill recipe that he had forcibly memorized to this alchemist named Zhu Xuyuan in the secret room "You need to study it and see if you can refine it."

"The questioning inner heart pill?" Zhu Xuyuan was shocked immediately and then he took over the jade slip that recorded the pill with surprise and asked unbelievably: "Yang Chen's questioning inner heart pill?"

The questioning inner heart pill has now been named Yang Chen and everyone knows it. Speaking of the questioning inner heart pill, everyone was talking about Yang Chen's questioning inner heart pill.

Nodding silently, Hu Qianyi said nothing. The questioning inner heart pill was the only one with no branch, it must be Yang Chen's.

"The disciple has made a friend recently, and he knows some of Yang Chen's secrets." Zhu Xuyuan suddenly reported to Hu Qianyi "I don't know too much, do you want to know?"

Chapter 448.1: Dealing With Yang Chen's Fiancees

"Yang Chen's secret?" Hu Qianyi turned his gaze and asked Zhu Xuyuan, "What's the secret?"

“The secret about his alchemy.” Zhu Xuyuan immediately replied “That friend said that he knows why Yang Chen can become a fifth grade alchemist master and why he knows so many pill recipes that ordinary people don’t know.”

“Oh?” Hu Qianyi immediately took it seriously. Someone knew the secret of Yang Chen’s alchemy, how could this be possible?

Everyone knows that Yang Chen must have some secrets on alchemy, but no one knows which kind or which inheritance it came from. Since its ancestors, the Pure Yang Palace has no senior alchemists, it was by no means the inheritance of the Pure Yang Palace. Yang Chen likes to collect some miscellaneous books and it has become a well-known thing, it must be the alchemy secret book obtained from a miscellaneous book.

Someone actually knew Yang Chen’s secret, this was a big deal. Hu Qianyi also cheered up and asked, “What’s the secret?”

“He refused to say it.” Zhu Xuyuan reluctantly reported “He will only say it unless we promise to agree to his terms and swear by a heart oath.”

“What are the conditions?” Hu Qianyi asked with a frown. He was most annoyed by such people who have to make conditions at every turn. If you offer things obediently, was it possible to lose your benefits? People who have stayed in the Greatest Heaven Sect for a long time naturally have these kind of domineering thoughts.

“Unless we swear to deal with Yang Chen together and he wants a copy of the alchemy secrets on Yang Chen, or he will not hand over the secret.” Zhu Xuyuan said quickly “But he also promised that as long as he can kill Yang Chen, with that thing from Yang Chen, he can also make his disciple become a fifth grade alchemist.”

“That thing?” Hu Qianyi’s eyes suddenly lit up. When Yang Chen became a fifth-rank alchemist, at first it was amazing. How could there be a fifth-rank alchemist in this mortal world, if he relied on a certain magic weapon, it would be explained. Once this thing falls into his own hands, it means he could also create a fifth-grade alchemist master.

Zhu Xuyuan was loyal to Hu Qianyi. At that time, he could just lift Zhu Xuyuan up and let Zhu Xuyuan become a fifth-rank alchemist and then drag him to the Greatest Heaven Sect. In the entire Greatest Heaven Sect, who else could compete with him?

Already made up his mind, Hu Qianyi nodded slightly and instructed Zhu Xuyuan “Where is your friend, find him.”

Zhu Xuyuan agreed and left quickly, within a day, he brought a person to Hu Qianyi’s front.

If Yang Chen was there, he would definitely recognize the person Zhu Xuyuan was carrying, the Gao Jing who made alchemy there when he was collecting the medicine gourd. After being startled by Yang Chen after killing a few people in a row, the guy never appeared again.

“Greetings senior!” After Gao Jing followed, he respectfully pointed to Hu Qian. He has been told by Zhu Xuyuan and he was naturally very respectful, especially after knowing that Hu Qianyi was a master of the dacheng stage, he felt that he had great confidence in dealing with Yang Chen this time.

“The old man swears by the demon of his heart to help you deal with Yang Chen.” Hu Qianyi stared at Gao Jing for a long time and when Gao Jing was a little restless, Hu Qianyi spoke. The opening was straight to the subject, making Gao Jing surprised and delighted.

A dacheng stage master was willing to help, which Gao Jing had never imagined before. He had already talked about this with a few familiar friends, but when those friends heard that they were dealing with Yang Chen, they all shook their heads like a rattle and sent him away for fear of contaminating his bad luck.

Gao Jing also knew that the various sects had scared these people regardless of the personality that dared to attack Yang Chen. However, Gao Jing was really unwilling. He finally found the perfect place for alchemy, but was shocked by Yang Chen. When he went back later, he discovered that the mountain had disappeared.

From the outline of the disappeared mountain, Gao Jing could see that it should be a gourd. Soon thereafter, news came out that Yang Chen had become a fifth grade alchemist.

At first, Gao Jing didn't know that it was Yang Chen. Later, with the help of a close friend, he got a portrait of Yang Chen. Only then did he realize that Yang Chen who had taken the gourd was the fifth-grade alchemist master Yang Chen.

A fifth grade alchemist master, a magic weapon gourd that could improve the success rate of alchemy by making alchemy on it. If there was no connection, Gao Jing would not believe it.

The thought that he had discovered that place first, but was driven away by Yang Chen and then snatched the gourd, Gao Jing was full of anger. The one who had become a fifth grade alchemy master should be his own right, but now he could only easily make it cheap for a younger generation junior and even make him escape in embarrassment.

The questioning inner heart pill was made by Yang Chen long ago and it was certain that Yang Chen must have some pill recipes. But the technique of alchemy wasn't something that a younger generation junior in the Jiedan could upgrade to the fifth grade by himself, it must be related to the magical gourd.

Gao Jing himself knew that if he teamed up with masters and finally succeeded in dealing with Yang Chen, he would not get that gourd. But Yang Chen's pill recipe could be used to make pills. He only needed to copy it and those masters who have obtained the magic gourd would not mind such a small request.

Hu Qianyi made a swear directly to Gao Jing with his heart devil and he was also a master of the dacheng stage, which shows that Hu Qianyi has the intention to deal with Yang Chen. This was exactly what Gao Jing wanted. He hoped that someone could be the same enemy and hate him, so that they could deal with this guy who must be vigorously defended by several major sects.

Seeing Hu Qianyi swear, Gao Jing couldn't wait to tell what he had personally experienced. Hu Qianyi and Zhu Xuyuan, who were listening carefully, became more focused as they listened and there was no sound during the whole process.

"Is this true?" After Gao Jing finished speaking, Hu Qianyi raised his head and asked.

"This younger generation junior swears with a heart oath, it is absolutely true!" In order to show his honesty, Gao Jing immediately raised his right hand and swore a heart oath.

Gao Jing dared to swear with his heart devil, this matter could definitely be inseparable. And while Gao Jing was telling it, Hu Qianyi had been staring at Gao Jing's performance with his spiritual awareness. Any lie would always show signs of guilty conscience, but from beginning to end, Gao Jing showed no sign of lying. Combining the two, this matter was definitely not Gao Jing's fiction.

A gourd magic weapon that could improve the success rate of alchemy outside, if it was obtained, what effect would it have on the alchemist? This almost didn't require much speculation. The reason why Yang Chen was able to become a fifth-grade alchemist was simply obvious.

How does Yang Chen deserve to own such a good thing, a small Jiedan stage master?

Chapter 448.2: Dealing With Yang Chen's Fiancees

In dealing with Yang Chen, the risk to take now was not small, including the Greatest Heaven Sect, a lot of sects had made a statement to the outside world that if anyone dared to deal with Yang Chen, they would meet a dead end.

But Hu Qianyi doesn't care. He was the great elder of the Greatest Heaven Sect. Could it be that the Greatest Heaven Sect would dare to impose punishment on him because of someone? As for the other sects, even the Five Elements Sect, Blue Cloud Sect, Green Jade Immortal Island and Qiankun Sect, would they dare to blatantly deal with him, the elder of the Greatest Heaven Sect?

The innate advantage of his identity allows Hu Qianyi to ignore the threats of the several major sects to a large extent. Besides, as long as he successfully killed Yang Chen and got the item, he could immediately create another fifth grade alchemist master and join the Greatest Heaven Sect with Zhu Xuyuan. Wouldn't those people want to come to the Greatest Heaven Sect to seek for their help?

This was something that both promoted himself and was good for the sect. Hu Qianyi has no reason to stand on the sidelines in a rational manner, public and private.

However, all of this was based on the successful killing of Yang Chen and the successful acquisition of the refining gourd, otherwise even his sect would have to give an explanation. Only if the sect has the key to pinch the lifeline of other big sects, would they support Hu Qianyi.

It was not so easy to deal with Yang Chen, at least during this period of time. The Pure Yang Palace wants to organize Yang Chen's wedding so Yang Chen has been hiding in the Pure Yang Palace without going out and basically they had no chance to attack him.

Unless he was to lose all face with the Pure Yang Palace immediately and kill them directly, otherwise, no matter who moved against Yang Chen, at this moment, they would be the target of several big sects. Before getting the medicine gourd from Yang Chen, even Hu Qianyi did not have the confidence to bear the consequences.

Fortunately, this guy Yang Chen was so bothered and wanted to marry four women at a time, which gave Hu Qianyi a chance. If he dealt with the people around Yang Chen, especially his beloved women, it seemed to be able to force Yang Chen to submit.

Gao Yue and Gongsun Ling were both in the sect with Yang Chen and dealing with them was like dealing with Yang Chen, which was not realistic. However, Yang Chen also has two fiancées, one in the Green Jade Immortal Island, one in the Blue Cloud Sect and these two women, they seem to like to go out alone to gain experience.

Both Shi Shanshan and Sun Qingxue came from famous clans, with outstanding talents and they also made great achievements in their cultivation. With the blessing of the sect, if the two women went out, few people would dare to have any ideas on them. Anyone must think of the consequences of offending the Green Jade Immortal Island and the Blue Cloud Sect and at the same time bear the huge risk of offending Yang Chen.

But because of this, Hu Qianyi was given a chance. Others would never think of someone daring to attack the two women, even the Green Jade Immortal Island and the Blue Cloud Sect would not have expected it. Two little females in the Jiedan stage in front of Hu Qianyi, a master in the dacheng stage, there would really be no resistance.

As long as Shi Shanshan and Sun Qingxue were restrained, even if it was any of them, Yang Chen had to obey Hu Qianyi's command. Yang Chen was said to be very fond of these two fiancées. In particular, there was another relationship. The two girls were related to the cooperation between the Pure Yang Palace, Blue Cloud Sect and the Green Jade Immortal Island. Yang Chen also had to pay attention to it.

Once the two women had an accident, Yang Chen had to endure the anger of the two sects. Such a talented disciple was a treasure in any sect. If Yang Chen didn't want to make any mistakes between the two women, he had to be obedient.

Even Hu Qianyi had planned that as long as Yang Chen was obedient, he wouldn't mind letting him keep his life. His goal was Yang Chen's alchemy secrets and the medicine gourd. Without these, Yang Chen, a small junior in the Jiedan stage, would be of no importance. At that time, maybe the Pure Yang Palace would give up on Yang Chen by themselves and let him taste the fate of being betrayed.

Of course, Hu Qianyi had the resources of Hu Qianyi. Shi Shanshan and Sun Qingxue's whereabouts were immediately sent to investigate and Hu Qianyi himself, together with Zhu Xuyuan and Gao Jing, began to plan how to deal with the two women and finally capture them alive. It was absolutely necessary not to kill them.

Yang Chen was happy at this moment. Hall master Mao Qi was really refreshed. In just a few months, he ran back and forth on the road from the Pure Yang Palace to the Greatest Heaven Sect. This time, hall master Mao personally brought ten sixth grade fire seeds to exchange with Yang Chen for the pill recipe.

Until now, Yang Chen hadn't admitted that what he sold was the pill recipe of the heaven seizing pill. It was a matter of his reputation, Yang Chen didn't want to bear the reputation of having the pill recipe of the Xiang Family.

But Mao Qi obviously didn't think so. In his opinion, this combination of monster core should be part of the questioning inner heart pill. Otherwise, what kind of pill needs the monster core of a dacheng stage monster to be able to refine it?

However, since Yang Chen insisted, Mao Qi would not stubbornly describe this as a pill recipe for the heaven seizing pill, everyone was a cultivator, tacitly, anyway, the result of the transaction would not change, why bother on such small things.

For several months in a row, Yang Chen made three vows with his heart demon, each time he proved that his pill recipe was true. Regarding this, Yang Chen has always had no regrets and he could say with confidence wherever he goes that he has given the real pill recipe. Therefore, from beginning to end, Yang Chen never worried that this heart demon's oath would be fulfilled.

Having sent away hall master Mao Qi, Yang Chen couldn't help but feel a little frightened by what he had gained in the past few months. Three kinds of seventh grade fire seeds and ten sixth grade fire seeds were so easy to get, that Yang Chen couldn't believe it. If these fire seeds were not stored in Yang Chen's

merit ring and could be seen and touched at any time, Yang Chen would have suspected that he was dreaming.

In his previous life, Yang Chen almost lost his life when he wanted a fifth grade fire seed. Now in Yang Chen's eyes, the fifth grade fire seed was no longer a rare thing, at best it was a precious item worth some amount of spirit stones.

In his previous life, Yang Chen relied on the fifth grade fire seed true sun fire to achieve the realm of Great Principle Golden Immortal, but in this life he already possessed four seventh grade fire seeds and more than ten kinds of sixth grade fire seeds. One day when all these fire seeds were integrated into the Yin-Yang Heaven Burning Fire, Yang Chen's development potential would be so great that even Yang Chen himself cannot imagine.

He would get married in a few years. After marriage, he would cultivate the yin-yang five elements secret art with his splendid wives and after perfecting the yin-yang five elements flying sword, was there any place Yang Chen couldn't go in this mortal world?

Even Yang Chen, who already had the memory of his previous life, couldn't help but get excited. When the great yin-yang five elements flying swords gather and the great yin-yang five elements secret art was completed, it would be the time to find the Greatest Heaven Sect to settle their grievances. Those tragic experiences in his previous lives must be resolved with the ending of destroying the Greatest Heaven Sect.

Just when the Pure Yang Palace and Yang Chen were busy preparing for Yang Chen's marriage, bad news suddenly came. Two of Yang Chen's fiancés, Green Jade Immortal Island cold plum fairy maiden Shi Shanshan, Blue Cloud Sect dance snow fairy maiden Sun Qingxue, had an accident.

#### Chapter 449.1: Messenger Delivering A Letter

The news was not from the people from the Blue Cloud Sect and the Green Jade Immortal Island whom Yang Chen knew, but an ancestor of the Yuanying stage who he had never seen before. He called himself Zhu Xuyuan, he was a rogue cultivator and he sent someone with some news. The jade slip disappeared without a trace after he looked at it.

The Pure Yang Palace receiving disciples who received the jade slip did not dare to neglect it, nor did they dare to say that the matter was true or false and hurriedly sent it to the palace master. The palace master was also shocked and quickly called Yang Chen and gave him the jade slip.

The message on the jade slip was very simple. It told Yang Chen that his two fiancées, Shi Shanshan and Sun Qingxue, have fallen into their hands. Yang Chen was required to take his alchemy secret manuals and rush to some place indicated before some time.

There was no inscription and there was no evidence, just a simple jade slip. However, no one dared to take this matter casually. Not to mention the identity of being Yang Chen's fiancée, the two women were the leaders of the Blue Cloud Sect and the Green Jade Immortal Island younger generation and they would be the core masters of the sects in the future. If they have been kidnapped, this was a big deal.

The only doubt was that the other party sent such a jade slip without any evidence, making it difficult to distinguish if it was true or false.

If they really follow the other side's statement, once the two women were fine, they would be fooled. But if they don't go, they have to worry about the safety of the two women.

"How long has the messenger been away?" Yang Chen received the jade slip and immediately started to get worried. He hurriedly asked the disciple in charge of receiving visitors.

"It has been an hour." The reception disciple dared not neglect and quickly replied. As soon as he received the jade slip, he quickly reported to the palace master but from the mountain gate to here, plus the time to call people back and forth, it took an hour.

After such a long time, it was obviously not that easy to find a guy who left after sending the message. However, this does not seem to be a big problem for Yang Chen.

The spiritual awareness thread cultivated by the three purities secret art quietly stretched towards the surroundings frantically and even the palace master, who was close at hand, didn't seem to notice the change in Yang Chen's spiritual awareness thread.

The main target of the spiritual awareness thread exploration was the ancestor in the Yuanying stage within the scope. If Yang Chen's spiritual awareness was fully deployed, it would be thousands of miles in radius. No matter how fast the guy named Zhu Xuyuan ran, he couldn't leave this area in just an hour.

However, there was a drawback in using the spiritual awareness full exploration. It was very laborious and once the spiritual awareness was exhausted, it was very difficult to recover. Therefore, even if it was someone as strong as Yang Chen, they would not always use the full strength of their spiritual awareness. It was just open to a hundred meters, so that the surrounding wind and grass could directly warn him. So Yang Chen didn't know about Zhu Xuyuan's arrival.

But at the moment. Under Yang Chen's deliberate control, the spiritual awareness only took a few moments before reaching a thousand miles away, still spreading farther.

Within the scope of Yang Chen's spiritual awareness, he couldn't detect anything abnormal. However, everyone's cultivation was immediately made clear by Yang Chen's investigation.

The other party was an ancestor in the Yuanying stage, of course Yang Chen also gave priority to those in the Yuanying stage. In just a few breaths, he found several Yuanying stage masters.

In fact, Yang Chen knew that when the old tree demon crossed his tribulation into the dacheng stage, there were many tree species in the meiqing mountain he could control, if he just look for the old tree monster, he could definitely know the right direction he went. But for the time being, Yang Chen didn't want the old tree monster's ability to be presented to everyone. This was the life-saving means of the Pure Yang Palace that could be comparable to the protection of the mountain, if it was suddenly exposed, the gain would not be more than the loss.

At this time, he couldn't say that he could only use his spiritual awareness to find this guy who gave the jade slip. If it doesn't work, he could ask the old tree demon for help.

Pulling the reception disciple onto the flying shuttle, Yang Chen left the master of the palace, driving the flying shuttle to leave quickly, he flew towards the several goals he had already delineated. And while flying, he didn't forget to look for the Yuanying stage ancestors farther away.

There was the sea jasper cup shrouded outside of the shuttle and no one would be aware of it. When he was about to get close to the target, Yang Chen would control the shuttle to flee from the ground and then let the disciple who received him identify whether it was the one who gave the jade slip.

After finding several Yuanying stage ancestors who appeared around, the disciples said no. But soon, Yang Chen didn't need the disciples to recognize people again. The person he was looking for had already been locked by Yang Chen's spiritual awareness.

The reason why Yang Chen was sure that this guy was the ancestor in the Yuanying stage who gave the jade slip was because the imprints of the spiritual awareness on the jade slips were exactly the same as this guy, he had carved them himself.

Some things were not good for the reception disciple to know. Yang Chen found a suitable place and sent the reception disciple off the shuttle and then flew towards the guy who claimed to be Zhu Xuyuan by himself.

Zhu Xuyuan left very quickly. From the time he sent the jade slip to the present, he has left the gate of the Pure Yang Palace Mountain by more than two thousand miles. Just when he thought that no one could find him again, Yang Chen's figure suddenly appeared in front of him.

As an alchemist who always paid attention to the trends in the alchemy world, how could Zhu Xuyuan not recognize the face of Yang Chen? When Yang Chen appeared, Zhu Xuyuan became apprehension, knowing that he was not in a good situation, but he didn't know what went wrong and how Yang Chen was able to catch up to him.

He knew it was bad, but Zhu Xuyuan didn't panic. He was an ancestor in the Yuanying stage, while Yang Chen was only a late Jiedan stage master. This gap in the realm made Zhu Xuyuan not afraid of what Yang Chen could do to him. He was just wondering how Yang Chen could find him so accurately.

"Senior stay!" Yang Chen smiled and blocked Zhu Xuyuan's path forward, but the smile on his face could not conceal the coldness in his eyes.

"What advice does Grandmaster Yang have for me?" Zhu Xuyuan bowed his head at Yang Chen. Yang Chen was now a fifth grade alchemist. As long as he was an alchemist, facing Yang Chen, no matter his seniority and qualifications, he would call him a grandmaster. Although Zhu Xuyuan was reluctant, he still did it.

Yang Chen threw the jade slip at Zhu Xuyuan: "Senior, please explain, what does this jade slip mean?"

When Yang Chen spoke, Zhu Xuyuan had already explored the surroundings with his spiritual awareness and it seemed that Yang Chen was the only one in front of him not the Pure Yang Palace making a big move. After confirming this point, Zhu Xuyuan also quietly breathed a sigh of relief, Yang Chen was alone, maybe he could capture Yang Chen without any hardship.

This place was far from meiqing mountain, it was not within the territory of the Pure Yang Palace and was not afraid of the people of the Pure Yang Palace.

Chapter 449.2: Messenger Delivering A Letter

“It means...” Zhu Xuyuan slowly said, but immediately afterwards, his body slammed towards Yang Chen like a compressed spring.

Although he was an alchemist, Zhu Xuyuan did not lay down his spiritual power cultivation and even at the request of Hu Qianyi, he dedicated a period of time to gain experience in the domain of the monster race and his skills were not unambiguous at all. The only thing lacking was that there was no suitable magic weapon for him. Although he has reached the realm of a Yuanying stage master, there was still no magic weapon for him to use.

But in the face of Yang Chen, a younger generation junior in the Jiedan stage, what if he didn't have a life source magic weapon? The gap between a great realm cannot be eliminated by one or two magic weapons.

In the Pure Yang Palace, Zhu Xuyuan certainly had no chance to do it, even if he wanted. The question now was, were they not in the wilderness, was there no one else present?

The reason for the arrangement of such a big game was that they have tried their best to find out the whereabouts of the cold plum fairy maiden and the dancing snow fairy maiden. What was the reason to capture the two fairies personally with a dacheng master? Wasn't it just to lure Yang Chen out of the hiding place so that they could catch him?

Now Yang Chen was right in front of him and there was no other helper, appearing in front of him stupidly, such a great opportunity, if Zhu Xuyuan wasted this kind of god-given opportunity, he would be a pig.

Doing it without saying a word was also the only way to fight. In life and death, who cares about the tedious and trivial matters, do they have to talk about etiquette with the enemy and what the truth was? Could it be that he had to learn from the fellows in the world and come to general names.

For the time being, Zhu Xuyuan was just a hidden spy placed by Hu Qianyi outside the Greatest Heaven Sect. He was not yet a member of the Greatest Heaven Sect. Although Hu Qianyi also deliberately cultivated Zhu Xuyuan with some resources from the Greatest Heaven Sect, he did not tell Zhu Xuyuan everything. After all, there were differences between closeness and sparseness. This could be seen from the fact that Zhu Xuyuan was already a Yuanying stage master but has no life source magic weapon.

For this reason, Zhu Xuyuan was unfortunately not told something. For example, Yang Chen once killed six Yuanying stage masters of the Greatest Heaven Sect in an instant. This incident was simply a shame for the Greatest Heaven Sect, even in the Greatest Heaven Sect, except for the high level members. Few people know, let alone Zhu Xuyuan.

If Zhu Xuyuan knew this, he would never have thought of attacking Yang Chen when he and Yang Chen were alone. Unfortunately, there were many such accidents and misfortunes in this world. Zhu Xuyuan was just caught up in one.

While his body was in mid-air, before Zhu Xuyuan noticed what was happening, he was directly blocked in the air by a brutal force. Immediately he had a sore throat, the spiritual power of his whole body seemed to be suddenly out of control. It quickly dissipated and there was no longer a trace of spiritual power in his body.

Only then did Zhu Xuyuan, who had a soft body and no struggling strength, realized it. At the moment of this attack, Yang Chen had already held his throat with one hand, one arm held him high in the air.

The power of that hand was so great, Zhu Xuyuan who was a Yuanying stage ancestor. After his body had been scoured, neither arms could break the hand that was holding him.

In the next moment, Zhu Xuyuan completely gave up any resistance. He had noticed that the hand holding his throat was tightening bit by bit. If he were to struggle again, his throat might be crushed immediately.

“I really want to know what happened. Senior, can you solve my doubts?” Yang Chen’s tone was very respectful, but his actions at this moment were not at all reliable.

At this moment, Zhu Xuyuan’s mind has been completely filled with shock, despair and regrets. How could he have other thoughts, he wanted to nod, but found that it was difficult for him not to nod, even moving his fingers was difficult, he could only make a few difficult hum noises as a reply to Yang Chen.

A Yuanying stage ancestor was captured with one hand by a Jiedan stage junior, if it weren’t for the hapless Yuanying stage ancestor who was captured was Zhu Xuyuan, he would never believe it when he heard such things from others.

Even Zhu Xuyuan has no idea what happened so far. During the whole process, he did not feel Yang Chen using any magic weapons, nor did he notice that Yang Chen used spiritual power, it was as if Yang Chen used physical power to crush his body protection spiritual power with one hand and then pinched his throat.

The whole process was so short that even Zhu Xuyuan, the person involved, couldn’t believe the result. Wasn’t Yang Chen a junior in the middle Jiedan stage? How could this be?

Bang, Zhu Xuyuan’s mobility was directly blocked with spiritual power and thrown softly to the ground. Yang Chen was about to use means to interrogate, after thinking about it, he would take Zhu Xuyuan back to the Pure Yang Palace.

The palace master has gathered several elders together, this matter was really tricky. Not to mention whether it was true or false, the right was to be true, but the other party actually asked Yang Chen to go alone and the time frame was so deadly that it would be too late to notify the Blue Cloud Sect and the Green Jade Immortal Island.

The kidnapping of the two women was a major event and Yang Chen had to face this situation both in public and private. They could only send Wang Yong and the old tree monster to go with Yang Chen. Anyway, Yang Chen has a medicine garden on him and it was more than enough to bring the two masters with him.

The only thing to worry about was the fear that the other party would hurt the two women. Shi Shanshan and Sun Qingxue, in addition to being Yang Chen’s fiancée, their main identities were the

genius disciples of the Green Jade Immortal Island and the Blue Cloud Sect. If they were harmed because of Yang Chen, the two major sects would not give up so easily.

They didn't know who ate the guts of a bear and the heart of a leopard and even dared to make an attack on the two major sects. Now they could only look at what was true and false, and then study how to deal with it.

From the perspective of the sect, Yang Chen couldn't get into trouble no matter what. As for the secrets for his alchemy, it was a trivial matter. For the safety of the two women, when necessary, he could give it up. After all, there were a lot of cultivation techniques in this world, but only a few truly become masters. Not everyone with the secrets could become a fifth grade alchemist.

During the discussion, Yang Chen had already returned to the sect main hall with a gust of wind. As soon as Wang Yong saw Yang Chen's expression, he raised his hand without saying a word and struck a restriction, sealing the hall. Immediately, Yang Chen threw Zhu Xuyuan in front of the group of elders.

"It's the jade slip that this guy sent, and he also engraved the jade slip with his divine sense." Yang Chen didn't say much, but said everything he knew. As for the next step, it still depends on the decision of the palace master.

#### Chapter 450.1: Rescue

The matter was no longer concerning Yang Chen alone, even though the other party specified that Yang Chen should go alone. Involving the Green Jade Immortal Island and the Blue Cloud Sect, there would be a series of reactions, so it was normal for the master of the palace to be in charge.

Regarding the guy who dared to attack his fiancée, Yang Chen was not very polite. The methods used on Liang Shaoming back then without demur, were used on Zhu Xuyuan.

Obviously, Zhu Xuyuan's cultivation level was high, so he could endure it for a long time, at least it took much later than Liang Shaoming for him to start begging for mercy, but the ending was no different. In the end, he begged Yang Chen to stop.

"What's the matter with this jade slip?" Yang Chen asked the same question again.

But this time, Zhu Xuyuan didn't dare to conceal anymore, wishing to clarify the whole story immediately. In a hurry, he stammered a few times and Yang Chen steadily taught him another lesson. Only then did he clarify the complete situation.

As expected, Shi Shanshan and Sun Qingxue were tricked and it was Zhu Xuyuan's master who did it. However, even Zhu Xuyuan himself did not know the true identity of this dacheng stage master who appeared suddenly. On this, Hu Qianyi was very secretive and it was even concealed from Zhu Xuyuan.

Strictly speaking, it cannot be regarded as a secret plot. Hu Qianyi was a dacheng stage master who secretly made a move only to capture the two women alive, but saved the lives of the two women. Otherwise, with Shi Shanshan's staunch character, if she was not defeated, she may commit suicide on the spot.

However, the toughness of Shi Shanshan and Sun Qingxue was beyond Hu Qianyi's expectation. They had mental arithmetic and unintentional, so he still got the two girls seriously injured.

They were taken by Hu Qianyi, but where he was hiding was still unknown. Hu Qianyi had also waited at the place indicated on the jade slip. Once Yang Chen didn't go, he would leave with the two girls.

Of course, Zhu Xuyuan did not hide the reason for everything, nor did he dare to hide it. Zhu Xuyuan spoke out about Gao Jing. The several methods Yang Chen used on him made him tremble involuntarily when he saw Yang Chen's face, as if it had become his instinct.

Yang Chen didn't expect at all that the alchemist who he didn't care about letting go when he was collecting the nourishing gourd would have become such a torn. And what made him most dumbfounded was that the other party actually thought that he could become a fifth grade alchemist because of that medicine gourd.

The nourishing medicine gourd certainly gave Yang Chen some inspiration, but Yang Chen was already a sixth grade alchemist in his previous life. In this life, it's just a lack of skill, but the experience and knowledge of alchemy were all there and the techniques were all familiar to him. With the addition of the elderly lord pill scripture, it could almost be said that it had nothing to do with the medicine gourd.

But the other party obviously doesn't think so, it was an indisputable fact that the success rate of alchemy in the nourishing gourd was high so it was logical to have such suspicions. Yang Chen doesn't care how the others guessed it, what he cared about was the safety of the two women.

The two girls were seriously injured, which surprised both Yang Chen and the palace master, especially Yang Chen, Shi Shanshan and Sun Qingxue didn't encounter this disaster in their previous lives. This life was completely changed because of him, the design even motivated the dacheng stage master.

Zhu Xuyuan also explained thoroughly that the injuries of the two women were very serious and the healing medicine he refined could only relieve the pain for a while, but it could not cure the injuries. If the time was too long, the lives of the two women could not be guaranteed.

Now he finally got the definite news from Zhu Xuyuan, the palace master did not dare to neglect and immediately sent people to send letters to the Green Jade Immortal Island and the Blue Cloud Sect. They couldn't get there in time for them to do anything about the situation, but at least it was obvious that the two sects have to know about this.

As for Yang Chen, he was already preparing to set out to save the women. The two women were seriously injured and there was no good healing medicine, he was afraid that he would be sorry for being late. Fortunately, when Yang Chen made a pill for the Greatest Heaven Sect the last time, he had already refined a few more fifth grade lingzhi mushroom jade pills. As long as they didn't die, he could always pull people back from the gate of hell.

Zhu Xuyuan's qiankun bag was held by Yang Chen and he checked the contents in it. He had to say that Zhu Xuyuan has a rich background. Many of the medicinal materials were millennium years old and there were many materials for refining.

Ordinarily, as a third grade alchemist, this guy was not poor, but unfortunately, he was born with dual attributes of metal and fire and for a while, he could not find a suitable dual attribute magic weapon, so he didn't have a life source magic weapon.

The best thing in the qiankun bag was an alchemy furnace. At first glance, after being refined by a master and after years of use, the medicinal qi has been saturated inside and out.

However, this alchemy furnace gave Yang Chen a familiar feeling. Although the refining technique seemed ordinary, the traces left by the refiner still remained on it.

“Who made this alchemy furnace?” Yang Chen asked Zhu Xuyuan directly while holding the alchemy furnace.

“Master helped me refine this.” Zhu Xuyuan replied quickly without fear of him. Anyway, he didn’t even know the real origin of his master, so it didn’t hurt to tell Yang Chen.

Zhu Xuyuan didn’t expect it at all that just this sentence made Yang Chen guess Hu Qianyi’s identity.

The traces of the refiner’s spiritual awareness left on the alchemy furnace have not completely dissipated. It’s no wonder that the alchemy furnace was not Zhu Xuyuan’s life source magic weapon and there was no plan to treat this alchemy furnace as much of an important magic weapon. Therefore, even the most basic skill of tempering the alchemy furnace for a long time was not done, it was only used for alchemy, so the spiritual awareness imprint of the refiner remained on it.

Replaced by the remaining spiritual awareness imprints left by others, Yang Chen would not necessarily be able to know the identity of the other person. But the person who made it was Hu Qianyi from the Greatest Heaven Sect.

The last time when Yang Chen was refining the fifth grade lingzhi mushroom jade pill for the Greatest Heaven Sect, he had face-to-face treatment with the three dacheng stage masters. Not only did he get their pulse, but with their permission, he explored their whole body with his spiritual awareness. It was precisely because of this that Yang Chen would still be able to recognize the spiritual awareness of the three.

The remaining spiritual awareness imprints on this alchemy furnace were clearly left by Hu Qianyi. The dacheng stage master, with a secret identity, dared to attack the disciples of the Green Jade Immortal Island and the Blue Cloud Sect, coupled with this remaining spiritual awareness imprint, Yang Chen could already be sure that the mysterious master, the master of the dacheng stage, was Hu Qianyi.

“It shouldn’t be too late, i should set off right away!” Yang Chen was worried in his heart and asked the master of the palace to leave.

“Be careful in everything.” The palace master couldn’t say anything more, he just urged him “Let your master ancestor and hall master Gui go together with you, take care on the way.”

#### Chapter 450.2: Rescue

Master Wang Yong and Gui Shanyou went together with him and Yang Chen certainly didn’t object. It would be better to have two more dacheng stage masters than to deal with them alone.

However, Hu Qianyi could think of this as well and he would not fail to guard himself. Yang Chen still remained skeptical about whether the two could help at a critical moment.

The flying shuttle flew towards the place designated by Hu Qianyi. The other party didn’t leave much time left for Yang Chen, it was only ten days. Even with the speed of the shuttle, these ten days would take day and night of continued travel. Hu Qianyi understood this, so he assured Yang Chen and the Pure Yang Palace boldly.

Ten days were not enough for the Pure Yang Palace to notify the Green Jade Immortal Island and the Blue Cloud Sect, and there was not enough time for the masters over there to make a big move. As for the Pure Yang Palace, they were having a total of two dacheng stage masters, even if they come together, Hu Qianyi has a way to deal with them.

Fortunately, after Yang Chen’s cultivation base rose sharply, the speed of the shuttle rose by a level. Otherwise, there would have been no time to catch Zhu Xuyuan and interrogate him. Now, with day and night travel, the time was almost just right.

Of course, Yang Chen would not be idle on the road. He had to prepare something, something that would take care of Hu Qian.

Above the flying shuttle, Yang Chen started his old profession, alchemy. But what was refined this time was not a pill to save people, nor a pill for breakthrough, but a poison pill.

Generally speaking, alchemists would not touch poison easily, but it does not mean that alchemists cannot refine poison pills. On the contrary, the more advanced the alchemists were, the more powerful poison pills they could refine.

This kind of thing was rare in the mortal world, but when it comes to the spiritual world and the immortal world, the way many alchemists protect themselves was using extremely poisonous pills. What Yang Chen was refining now was a poison pill that could make a master in the human immortal stage become submissive.

It was said to be a poison but it was more appropriate to describe it as a practical medicine or medicine for calming down. Although beheading Hu Qianyi would relieve his anger, it would inevitably hurt Shi Shanshan and Sun Qingxue. For the safety of the two women, this relatively safe method could only be used.

This kind of medicinal pill called pulse calming powdered medicinal pill was actually used to save people. Those masters who went into cultivation deviation and became crazy during cultivation, after taking the pulse calming powdered medicinal pill, it was quietly and painlessly a good medicine to cure this dangerous situation. But when used in other places, it was a deadly poison.

The reason why this pulse calming powdered medicinal pill was used was because they would have no feeling during the process of taking it. Moreover, this kind of medicinal pill, which was suitable for the human immortal, was very effective. It only takes dozens of breaths to complete the calming process silently, the other party would still have no feeling about it. Of course, the key was that Yang Chen's collection of medicinal ingredients in his medicinal garden was just enough to refine three or four parts of the pulse calming powdered medicinal pill, no more.

It has such an effect on human immortals, so what more for mere dacheng stage masters, the effect of the medicine would only spread faster. Dealing with Hu Qianyi shouldn't be a big problem, the only thing to pay attention to was that he couldn't let him discover the process of the pill administration.

It's just that, in ten days, there was no problem in refining the pulse calming powdered medicinal pill, it would take four or five days, but there was not enough time to refine it together with the antidote. This was troublesome, if Yang Chen couldn't produce an antidote, he would have to disperse the pill. If Yang Chen couldn't refine the antidote, other people had no ability to refine the antidote. It seemed that this result had become an endless loop.

Although the blue jade vine has detoxification effects, Yang Chen has never heard that the blue jade vine could relieve the medicinal properties of this pulse calming powdered medicinal pill. But at the moment there was no better way, he couldn't abandon hope so he had to try first.

Fortunately, the body of the blue jade vine in the medicinal garden was the tool spirit A'Bi and Yang Chen could communicate with A'Bi at any time.

When refining the pulse calming powdered medicinal pill, Yang Chen was very careful, he let his master ancestor and the old tree monster avoid it from far away and the profound spirit furnace was kept tightly closed. Until the furnace was about to be opened, he used the climactic fire control technique with the flame, after the pulse calming powdered medicinal pill was wrapped in several layers of wax pills, he didn't even dare to use the medicine gourd, it was stored directly in a sealed jade bottle.

When testing the medicine, he was more cautious, he let A'Zhu and A'Bi transplant all the medicinal materials in the medicine garden into the second layer and closed the portal tightly. The first layer was only left with A'Bi body and Yang Chen, after leaving the medicine garden, he controlled A'Bi and asked her to explode the wax pill in the first layer of the medicine garden.

In an instant, an invisible medicinal qi filled the first space of the medicine garden. The blue jade vine was exposed to the medicinal energy of the pulse calming powdered medicinal pill and after a while, it seemed a little wilted.

When a person in the spiritual world uses the pulse calming powdered medicinal pill, he closes himself up and uses it like this. And there must be a helper, or an antidote must be prepared in advance.

After the pill dissipates, at least one day and one night, or after burning with a high-grade flame, could the helper mouth the antidote, approach the patient, and help the patient recover the meridian body as quickly as possible. Because there was no spirit power interference, it would be relatively simple. They would wait until everything was straightened out before letting the patient take the antidote.

Even if there was an antidote, it takes at least half a month for the patients who use the pulse calming powdered medicinal pill to return to normal. Yang Chen now has Wang Yong and the old tree monster following him so he was not afraid of the time to recover, but worried that there would be no cure.

The malaise of the blue jade vine was almost visible to the naked eye. Although outside the medicine garden, Yang Chen still clearly noticed that the vines of the blue jade vine were getting more and more wilted and all the thick vines became limp, no longer as strong as before.

Yang Chen's heart sank, it seems that this method was still not working. However, he was still a little unwilling to give up and he entered the medicine garden with his spiritual awareness and asked A'Bi how she felt now.

"The medicine's essence is so strong." A'Bi's thoughts passed directly to Yang Chen's mind, it seemed that even her consciousness was a little sluggish "However, it can barely be resolved, but it will take a long time."

At this time, the medicinal properties of the pulse calming powdered medicinal pill have been in balance with the ability of the blue jade vine to detoxify. The blue jade vine no longer changed, but there was no way to immediately restore the blue jade vine. The elixir that comes out of Yang Chen's profound spirit furnace was also second grade at worst. A second grade pulse calming powdered medicinal pill was scattered throughout the entire space of the first layer of the medicine garden.

The blue jade vine could not disperse it and Yang Chen could only use the bloody river to confront the enemy. It's just a pity that the Immortal Beheading Blade tempering process would be destroyed when the tempering had almost reached the end.

As if sensing the anxiety in Yang Chen's heart, A'Bi suddenly passed on an idea "Master, if you want to quickly remove this medicinal effect, there is another way. It depends on if you are willing."

"What's the solution?" Yang Chen's spirits lifted, A'Bi actually has a solution, what did he have to be willing to do?

"Blood phantom vine, are you willing to give it up?" A'Bi's thoughts reached Yang Chen's mind accurately.
