Chapter 451.1: Opportunity

“Blood phantom vine?” Yang Chen was startled, wondering what A’Bi meant when talking about the blood phantom vine. What does it mean to be willing to give up the blood phantom vine?

The current blood phantom vine was taken from Elder Hua Wanting by Yang Chen and carefully cultivated. It was irrigated with the blood of the masters of the dacheng stage and the corpses of the masters of the dacheng stage were used as its fertilizer. A little bit from the weak seedling after the taproot was cut to the present.

Compared to the time when it was taken from Elder Hua, the blood phantom vine was only strong now. If it weren’t because the speed of the blood phantom vines was relatively slow, and couldn’t keep up with the body skills of most opponents, otherwise, this unrefined blood phantom vine alone would be an extremely powerful weapon.

At this time, A’Bi asked Yang Chen whether he was willing to give up the blood phantom vine, but it was not a problem for Yang Chen. Not to mention that Yang Chen already has the blood phantom vine flying sword. Even if he doesn’t, compared with the lives of the two women, let’s not mention giving up a blood phantom vine, he could give up the elixirs in the whole medicine garden.

“I am naturally willing.” Yang Chen directly gave A’Bi an exact answer “Can the blood phantom vine solve the poison of the pulse calming powdered medicinal pill?”

“Please forgive this little servant’s presumption!” With Yang Chen’s approval, the thoughts passed by A’Bi seemed to bring a hint of surprise. It was busy making a guilty complaint, after that, it didn’t know what to do. After a while, A’Bi demanded “Master, move the blood phantom vine to this servant’s side.”

Yang Chen’s spiritual awareness firmly monitored the changes in the medicine garden. Like A’Bi asked, Yang Chen immediately ordered A’Zhu, who was in the second layer of the medicine garden, to transplant the blood phantom vine. Fortunately, the two women were both intelligent and familiar with doing this kind of thing, almost at the request of Yang Chen, the blood phantom vine has appeared next to the blue jade vine.

As soon as the blood phantom vine appeared, under the medicinal energy of the pulse calming powdered medicinal pill, suddenly it began to look wilted. In a short while, it became wilted and the vines crawled softly on the ground, looking listless, completely different from the flesh and blood planted on countless dacheng stage masters bodies.

Next, Yang Chen's spiritual awareness saw the vines of the blood phantom vine start to move slowly. Although it was moving, it moved very slowly, almost bit by bit and finally the two kinds of vines came into contact.

After it hit the vine of the blood phantom vine. The blue jade vine seemed to have a bit of spirit and it moved towards it like a poisonous snake preying on it, entwining the blood phantom vine that it came into contact with.

Under the investigation of Yang Chen's spiritual awareness, the blue jade vine seemed to have suddenly grown spikes, which pierced into the blood phantom vine, consuming the essence of the blood phantom vine crazily.

After only consuming a little, the spirit of the blue jade vine became more vigorous and the vines that came into contact with the blood phantom vine increased. Immediately, the whole process became faster and faster.

Strange to say, the blood phantom vine that originally sucked human blood. When it's own blood essence was absorbed by the blue jade vine, there was no sign of resistance and it collapsed on the ground, allowing the blue jade vine to absorb it.

It was only after a short period of time that the originally huge piece of blood phantom vine was completely wrapped by the vines of the blue jade vine, and there was no trace of the blood phantom vine appearance.

Yang Chen's spiritual awareness keenly discovered that after absorbing the essence of the blood phantom vine, the blue jade vine became more and more energetic, it seemed that the pulse calming powdered medicinal pill qi scattered in the air had no effect on her. All the branches seemed to come alive, A'Bi also raised her head, no longer looking wilted.

Regarding this, Yang Chen couldn't understand it. He really couldn't understand how many poisonous blue jade vines could absorb completely different kinds of blood phantom vines that were still poisonous.

Among monster races, many times rely on swallowing other monster races to enhance their own strength. At this point, the blue jade vine situation does not seem strange at all. A'Bi was basically a vine monster of a blue jade vine.

When A'Bi absorbed the essence of the blood phantom vine, the vine had completely restored to its original state and was no longer affected by the pulse calming powdered medicinal pill. But the absorption process wasn't over yet, all the rattans grew crazily entwined, wrapping the whole blood phantom vine, looking at this posture, it meant to swallow all the blood phantom vine.

"Master, this servant wants to swallow this blood phantom vine, please forgive me master." A'Bi's thoughts passed over again, clearly expressing her wishes to Yang Chen.

Since Yang Chen had already made the plan to give up the blood phantom vine, naturally he wouldn't care about this, not to mention that A'Bi really seemed to have the ability to deal with the pulse calming powdered medicinal pill.

After allowing A'Bi to continue, Yang Chen has been monitoring the process of A'Bi devouring the blood phantom vine. This process didn't take too long, it only took two days and A'Bi completely swallowed the entire blood phantom vine.

After swallowing the complete blood phantom vine, the body of the blue jade vine has undergone earth-shaking changes. The original emerald green jade-like vine has now become a slightly brownish-black color mixed with red and green, which looks like a black jade.

As soon as the swallowing was completed, A'Bi couldn't wait to move all the flower fertilizer originally buried in the roots of the blood phantom vine to her roots and then the black and red branches flew all over the sky, like a huge monster with teeth and claws.

After a while, all the rattans were quietly retracted into place and turned into a quiet vine. A'Bi's figure also appeared.

“Master, those medicinal qi have been completely absorbed.” After showing up, A’Bi immediately reported to Yang Chen.

Yang Chen was overjoyed, his figure appeared in the medicine garden in an instant and he felt it for himself, there was indeed no trace of the pulse calming powdered medicinal pill qi and he nodded.

“A’Bi, thank you for solving my problem for me!” A’Bi saw Yang Chen appear and bowed to Yang Chen like he had given her some gift.

In the past, the blood phantom vine was raised in the medicinal garden, even if A’Bi had the courage, she did not dare to take the initiative to go and swallow it. Moreover, the thriving blood phantom vine was not so easy to swallow. This time, she still borrowed the medicinal power of the pulse calming powdered medicinal pill to move the blood phantom vine away from the nourishing place and disperse its vitality.

With Yang Chen’s permission, A’Bi swallowed the blood phantom vine, which could be said to be an increase in strength for her. On the other hand, the medicine garden seems to be more stable, at least Yang Chen has noticed that the second dimension has expanded a lot.

“Get up!” Yang Chen waved his hand to make A’Bi stand up. No matter how great A’Bi was, he couldn’t leave the medicine garden now. Yang Chen was interested in what kind of power A’Bi, who had swallowed the blood phantom vine, could ignore the medicinal power of the pulse calming powdered medicinal pill.

Chapter 451.2: Opportunity

Even Yang Chen doesn’t have much raw materials needed for the pulse calming powdered medicinal pill. Only three pills were refined, one pill was used in the medicine garden and two pills remained.

In the recent experiment, the blue jade vine that swallowed the blood phantom vine had completely ignored the efficacy of the pulse calming powdered medicinal pill. At least in a short period of two days, all the pulse calming powdered medicinal pill was eliminated in the medicine garden, it was already more powerful than the authentic antidote.

With this alone, Yang Chen was already 90% sure about being able to handle Hu Qianyi this time. Now, Yang Chen still wanted to know what the blue jade vine has become.

“This servant also has the blood-sucking ability and toxicity of the blood phantom vine.” Faced with Yang Chen’s question, A’Bi replied with a light smile and the joy could not be concealed on her face “This servant did not have the strength to protect herself before, now I finally don’t have to be afraid.”

It was an understatement, but Yang Chen knew that A’Bi’s strength had been greatly improved. This could be seen from the expansion of the medicine garden space alone.

According to A’Bi, Yang Chen abandoned the blood phantom vine. But in fact, he has gained a stronger subordinate that combines the blue jade vine and the blood phantom vine and still has a subordinate with intelligence, which was much stronger than the original blood phantom vine.

Among other things, even if the medicine garden bottle was thrown outside, people who were able to get it would never be able to control it. Except for Yang Chen, no one could resist A’Bi’s personal attack at this moment.

Seeing that there were four or five hours ahead of Hu Qianyi’s designated place, Yang Chen didn’t care to learn more about A’Bi’s changes. Instead, he asked A’Bi to be ready to remove the pulse calming powdered medicinal pill power from his body at any time.

After flying forward for a few hours, Yang Chen was very close to the destination. Not surprising, within a few kilometers around the destination, a formation circle was set up.

Hu Qianyi was now standing in the center of the formation, but his appearance at this moment was nothing like Hu Qianyi of the Greatest Heaven Sect. Beside him, there were two women lying down in the clothes of Shi Shanshan and Sun Qingxue. The two women lay quietly, there was no sound coming from them, only the slowly rising and falling of their chests could show that they were still alive.

“Courageous!” Seeing Yang Chen’s flying shuttle from a distance, Hu Qianyi’s voice was directly transmitted to Yang Chen’s ears through the flying shuttle “ You have a heavy love and righteousness, it really is a good match for the two fairies! Enter the formation!”

At this moment, Hu Qianyi’s formation was carefully arranged by him. Even if a master of the dacheng stage enters the formation, he would be at his mercy. Even if the dacheng stage master cannot be killed for a while, it was easy to trap several dacheng stage masters of the same level for two hours.

There were dacheng stage masters in the Pure Yang Palace, but so what? With Sun Qingxue and Shi Shanshan in his hands, even if there were 10,000 dacheng stage masters, it was impossible to prevent him from killing two severely wounded women who had no resistance in the formation. If they wanted the life of the two women, they have to obediently follow his instructions.

As long as he entered the formation, the two hours supported by the formation were enough for Hu Qianyi to get what Yang Chen was holding and then escaped. At that time, he would meet with his apprentice and turn him into a fifth grade alchemist. From then on, there would be no better alchemist than Zhu Xuyuan in the mortal world.

As for Yang Chen, as long as he surrendered the gourd and alchemy secrets, it didn't matter whether he would save his life or not. Having lost the backing to become a fifth grade alchemist, Yang Chen was just a younger generation junior in the Jiedan stage and couldn't make much trouble.

The purpose this time was mainly to get Yang Chen's gourd and alchemy secrets, everything else was trivial and there was nothing to worry about. Sun Qingxue and Shi Shanshan, if Yang Chen was obedient, he would leave them to him. Anyway, the two girls who were seriously injured didn't have the pill to bring them back to life and sooner or later they would just die.

It was a good calculation, so the first request of the meeting was to ask Yang Chen to enter the formation. As long as he entered the formation, even if Yang Chen carried all the dacheng stage masters of the Pure Yang Palace with him, it would not help. After entering the formation, Yang Chen was a meat on a chopping board and could be slaughtered at any time.

Yang Chen didn't hesitate at all, he put the shuttle directly away and strode into the formation. Neither his master ancestor Wang Yong nor the old tree monster showed up, it was not the time to show up at this moment.

The formation that Hu Qianyi arranged, Yang Chen knew, as long as the eyes of the formation were controlled, the people in the formation would have almost no room for resistance. People with strong cultivation bases could rely on their own cultivation bases to resist, or they could rely on magic weapons to survive the attack of the formation, but it was absolutely impossible to catch up with the person who controls the formation and leaves with one heart.

Seeing that Yang Chen entered the formation, Hu Qianyi's heart stopped for more than half of the time and he no longer worried about Yang Chen's tricks.

"Come here!" Hu Qianyi could now command Yang Chen anyway he wanted and even decide Yang Chen's life or death.

Yang Chen walked toward the eye of the formation where Hu Qianyi was. However, when the distance was almost twenty feet away, Hu Qianyi ordered Yang Chen to stop.

"Did you bring the things?" Hu Qianyi stared at Yang Chen, with a wide open mind, watching the surroundings vigilantly and asked calmly.

Yang Chen didn't answer, but his hands flashed, a gourd appeared in his left hand and several jade slips appeared in his right hand. As Yang Chen took out these things from his qiankun's bag, a silent medicinal qi also centered on Yang Chen, quickly spreading to the surroundings.

"Go and get the things and see if they are real." Hu Qianyi suddenly ordered. Following Hu Qianyi's words, a figure appeared abruptly between Yang Chen and Hu Qianyi, it was Gao Jing.

In the formations arranged by Hu Qianyi, Gao Jing did not dare to have any other thoughts. He walked up to Yang Chen obediently and smiled at Yang Chen "Master Yang, we meet again!"

"It's you?" Yang Chen said bitterly, staring into Gao Jing's eyes as if fire was about to burst out "I should have killed you back then!"

"Who said you shouldn't have?" Gao Jing grinned again and then stretched out his hand to snatch the medicine gourd from Yang Chen's hand. After he got it into his hand, he took a look and his face suddenly showed joy.

Immediately afterwards, Gao Jing grabbed the jade slips in Yang Chen's other hand. After a few spiritual awareness investigations, he made sure to record a lot of alchemy techniques and prescriptions. After carefully checking the two things, Gao Jing turned his head and nodded at Hu Qianyi "Everything is real."

“Very good! Take it!” Hu Qianyi’s face also showed ecstasy, a fifth grade alchemist will be born from his hands, why would it not make people ecstatic?

Gao Jing didn’t dare to neglect, holding the two things, turned around and walked towards Hu Qianyi. However, just after taking a step, there was a loud noise in the back of his head.

Bang, Gao Jing’s head exploded directly, like a watermelon being hit.

Chapter 452.1: The Fate Of A Dacheng Stage Master

Gao Jing’s body fell to the ground neatly, revealing Yang Chen’s figure. Yang Chen’s blood-stained fist hadn’t been completely retracted, he just stared coldly at Hu Qianyi not far away.

The distance of twenty feet might be long when faced with the full protection of a dacheng stage master, but for the pulse calming powdered medicinal pill, it was just a short spreading distance.

The first layer of the medicine garden has a radius of hundreds of acres, but the pulse calming powdered medicinal pill was able to spread through it in less than the time it took for a stick of incense to burn, let alone a mere twenty feet.

When the pulse calming powdered medicinal pill was released, the brand-new blue jade vine stretched out a thin branch and stuck it on Yang Chen’s body. Of course, the role was not to suck blood, but to help Yang Chen resist the pulse calming powdered medicinal pill’s medicinal energy.

Only when Gao Jing checked the authenticity of the things, the pulse calming powdered medicinal pill had spread to the surrounding area. Before they knew it, Gao Jing and Hu Qianyi both inhaled a lot of medicinal qi.

Yang Chen was not merciful to Gao Jing. The last time he was collecting the medicine gourd, he was with the group of people. At that time, Yang Chen was just anxious to get the medicine gourd. He didn’t have the same knowledge as he did now and he did not expect to cause such harm to Shi Shanshan and Sun Qingxue.

A punch blasted Gao Jing’s head and Yang Chen’s gaze was also fixed on Hu Qianyi’s body. The coldness in his eyes made Hu Qianyi feel chills all over his body.

Without even thinking about it, Hu Qianyi immediately launched the formation. He was in the center of the formation, this formation was originally made to launch according to his will. Although the pulse calming powdered medicinal pill was powerful, it was only aimed at spirit power. But it was not aimed at spiritual awareness so when Hu Qianyi launched the formation, there were no obstacles.

Overwhelming attacks gathered towards Yang Chen from all directions. Outside Yang Chen, a phantom of a big bell suddenly appeared, covering Yang Chen's entire body. On the periphery of the bell, there seemed to be two dragon shadows flying up and down. All the attacks encountered the two dragon shadows, immediately as if ice and snow hit the scorching sun, disappearing without a trace.

Hu Qianyi could understand this kind of strange scenery, it was Yang Chen's magic weapon for body protection. He could only watch Yang Chen raise his hand and recall the gourd and jade slips in Gao Jing's hand and then started calmly, step by step he walked towards the center of the formation.

Hu Qianyi hadn't expected that his formation circle that could trap dacheng masters had no effect on Yang Chen. In shock, he was about to summon his life source magic weapon to strike a fatal blow to Yang Chen, but suddenly found out in shock that the spiritual power of his body had disappeared completely without knowing.

Not to mention calling out the magic weapon, even opening his storage bag was already as difficult as ascending to the sky. Seeing Yang Chen approaching step by step and the pre-arranged formation did not have any effect, Hu Qianyi couldn't help panicking.

It was not known how many hardships he has experienced in his life, but Hu Qianyi has never felt such a panic once. Even if he was facing a major enemy before, he has never lost his mind, this was one of the reasons why he could live to the present while the enemy has long since turned into bones.

But he didn't know why, when facing a younger generation junior in the Jiedan stage who came at him step by step, Hu Qianyi seemed afraid to face him. Perhaps Hu Qianyi used to be brave enough to face big enemies before, but this time, he used conspiracy and tricks to deal with a younger generation junior, because of his guilty conscience.

Yang Chen would never let him go. Hu Qianyi had this clear understanding, if it was replaced with himself, he also would not easily let go of any enemy who dares to treat him like this. The formation was

useless right now and he has no spirit power in his body. The only hope for survival was to control the two girls Shi Shanshan and Sun Qingxue before Yang Chen walked over.

Now Hu Qianyi regretted it to the extreme. If he knew this would happen, how could he throw the two women so far? Before he had the strength of the a dacheng stage. Not to mention placing the unconscious women a few meters away, even ten times as far away, he could also behead the two women while moving. But now, there was only the thought, not the power.

The panic was just sudden, Hu Qianyi had countless times faced life and death tribulations, so he had rich experience and immediately recovered his composure. Without thinking about it, he rushed towards Shi Shanshan and Sun Qingxue over there. As long as he could control any one, with his body tempered by the thunder tribulation and the yin fire tribulation, he could kill the hostage in his hand at any time and then it would be Yang Chen who had to be obedient.

The moment Hu Qianyi rushed out, Hu Qianyi suddenly felt a guilty conscience and a crazy thought flashed through his mind. What if Yang Chen insisted on killing him regardless of the life and death of the two women? Wouldn't it be ugly to die if you have the spiritual awareness of the dacheng stage but without the spirit power of the dacheng stage?

Up to now, Hu Qianyi didn't even think about it. How did he unknowingly get the move, resulting in no spirit power? But Hu Qianyi soon thought of the reason.

There was only a certain unique medicine that could make him become like this. And Yang Chen, who happened to be the best alchemist in the mortal world, he was not surprised at all for him to be able to do this.

Before that, Hu Qianyi thought of dealing with the two dacheng stage masters in Pure Yang Palace that might appear. He thought of the limited time that would prevent Yang Chen from notifying the Green Jade Immortal Island and the Blue Cloud Sect, but he never thought that Yang Chen could still use alchemy to deal with him. In his eyes, a junior in the late Jiedan stage without the help of a dacheng stage master, was he not the one to be judged by others?

If he knew this a long time ago, he would have used another method, or more directly let Gao Jing go to pick up the goods in Yang Chen's hands and even kill him as soon as he saw Yang Chen, then talk about it after killing him, instead of being so lose by letting Yang Chen walk so close to him.

In any case, it was too late to regret now, the only thing he could do was to hope to be able to control either of the two women before Yang Chen slowly walked over. Moreover, this hope was not the safest. If Yang Chen doesn't care about the life and death of the two women, he would still be facing a dead end. At least Hu Qianyi asked himself if he encountered this situation, maybe he would make that choice.

There was only such a slim hope, but Hu Qianyi still had to grasp it. If he could control one, he might be able to take a gamble. If he couldn't even do this, then he was really going to die here.

For a moment, Hu Qianyi even regretted it a little. No matter what, Yang Chen was his lifesaver and he shouldn't have dealt with him like this. It was just a flash of this thought and he couldn't allow himself to have more of such thoughts.

His body was already thrown out and pounced on Shi Shanshan, who was closest to him. When he saw that his hand was less than two inches away from Shi Shanshan, Hu Qianyi's body suddenly stopped in the air and then flew back quickly.

Chapter 452.2: The Fate Of A Dacheng Stage Master

It's not that Hu Qianyi didn't want to advance the final few inches and he couldn't fly with his current ability. The reason why his body stopped and retreated was because there were five hooks on his shoulders, waist and abdomen. The hooks were very cruelly hooked into Hu Qianyi's body and forced him back.

Poor Hu Qianyi, as the elder of the Greatest Heaven Sect and a dacheng stage master was carried in the air like a fish caught by a hook at this moment. No matter how hard he struggled, he could not break free from the five hooks of different colors.

He didn't know what material the hook was made from, but it hooked his two lower ribs and one kneecap of Hu Qianyi. The red blood flowed down these five openings and it was instantly caught by a black and red vine on the ground, the vines absorbed it.

Afterwards, the black and red vines were like a snake, wrapped around Hu Qianyi's body, the top vine even got directly into his body from the wound on Hu Qianyi's body and the blood sucking sound was heard, making it creepy.

The blood of a living dacheng stage master was the best tonic for the blood phantom vine, and the same was true for the blue jade vine that has fused and devoured the blood phantom vine. Not every supplement of this type could stay alive and there are not many opportunities for this.

Hu Qianyi's eyes widened directly, with a painful expression on his face, he tried to inhale, but he seemed to be unable to breathe, his complexion flushed and it took a while to return to normal. But his whole person seemed to have become thinner at this moment and his face became extremely pale.

A lot of his blood was lost and his spiritual energy dissipated. Hu Qianyi seemed to have become a mollusk. Spreading softly on the ground, it was difficult to even move a finger.

The aloof elder of the Greatest Heaven Sect, the dacheng stage master of all sentient beings, suddenly became such a bereaved dog, which made Hu Qianyi unable to accept. Where did it go wrong and how did it end up like this?

The black-red vine was naturally A'Bi, but A'Bi was not so kind enough to detoxify Hu Qianyi. She just madly absorbed Hu Qianyi's blood, just like occupying all the blood vessels of Hua Wanting. Now the blue jade blood phantom vine has done the same thing.

A body tempered by the thunder tribulation and yin fire tribulation was indeed stronger than the body of an ordinary cultivator, at least in terms of vitality, it was several times and dozens of times stronger, it manifested in the ability to regenerate. As soon as the blood was sucked clean, the body naturally began to make new blood crazily and then the blue jade blood phantom vine got it very cheaply again.

Of course, it was the five-element hook that Yang Chen got from the dragon palace treasury. Yang Chen resented that Hu Qianyi dared to hurt the two women. He was merciless and was hooked by the five-element hook to the bone. Break free, let alone that it pierced all the ribs and knees, Hu Qianyi now has great abilities and he still couldn't escape Yang Chen's control.

If coupled with the entanglement of the blue jade blood phantom vine, even if an earth Immortal or a heaven Immortal comes, they would not be able to rescue Hu Qianyi from Yang Chen.

However, Yang Chen couldn't pay attention to Hu Qianyi at the moment, he was more concerned about the injuries of the two women. Especially in the state of serious injury at this moment, the pulse calming

powdered medicinal pill also affected the two women, which was likely to further aggravate their injuries.

Under the attack of the formation, Yang Chen couldn't go faster, relying on the golden bell's strong defense. He just resisted the attack of the formation and walked into the center of the formation step by step.

Fortunately, the two women were in the center of the formation and the attacks of the formation would not affect them. So far, the injuries they have suffered were still the injuries originally given by Hu Qianyi. Also added the effect of the pulse calming powdered medicinal pill.

Both women were in a coma because of the serious injuries, he was furious like a gossamer. Without saying anything, Yang Chen flashed a flame in his hand and a thousand-year-old ginseng turned into juice. Yang Chen didn't care about wasting it. He held a mouthful and through mouth-to-mouth it entered the mouths of the two women. No matter what, he would save their life first.

The surrounding pulse calming powdered medicinal pill qi was still raging, Yang Chen frowned slightly and with a thought, two fire dragons sprang out from his body and turned into a huge fire dragon hundreds of meters long in the wind, which went around for dozens of miles. There was a frantic burning around the area, completely burning the medicine qi of the pulse calming powdered medicinal pill.

Not all flames could easily resist the medicinal effects of the pulse calming powdered medicinal pill, but it was clear that the Yin-Yang burning heaven fire was not within this limitation. Soon, the surrounding medicine qi disappeared completely.

Yang Chen took the fire dragon back and then released his master ancestor Wang Yong and the old tree monster from another space. Hu Qianyi was already in a coma and there was no one to control the formation so it had completely stopped the attack.

The two had just seen what happened outside in Yang Chen's space. As soon as he came out, without saying anything, the old tree demon immediately began to take root in the formation. The powerful tree roots quickly wrapped up all the area of the formation, Hu Qianyi's meticulously arranged formation was directly cracked by the old tree demon from the center of the formation violently and it became fragmented. The materials of the formations scattered all over the floor.

Shi Shanshan and Sun Qingxue were moisturized with the thousand-year ginseng liquid and their complexions became a little ruddy. Only then did Yang Chen carefully inspect the physical condition of the two women.

Yang Chen and the two girls had a marriage contract, so there was no pressure to do these things and there was no taboo. Upon checking, even Yang Chen couldn't help but breathe in a cold air.

He didn't know what resistance Shi Shanshan and Sun Qingxue had put up at the time, Hu Qianyi actually injured the two women so badly. At least half of the meridians in Sun Qingxue's body were broken, while Shi Shanshan was more severely injured, 90% of her meridians were destroyed. According to popular saying, the cultivation of the two women has been ruined by Hu Qianyi.

Losing the nourishment of their powerful spirit power, the two women's original youthful and beautiful appearance began to gradually change. In less than a month, it would look like they were already two middle-aged women and this change would intensify with the passage of time. Within a year, the two women would become ordinary people at their original age and looks.

Hu Qianyi took the two women as hostages and calculated that they were injured like this and he still directly targeted the talented disciples of the two major sects. Whether in terms of protecting his own face or the prevention of retaliation by the two major sects, he has never planned to keep Yang Chen and the two women alive, so they have not been treated.

The two women have been dragged to the present and their injuries were getting worse. If Yang Chen came a few days later, maybe he would not need to wait for Hu Qianyi to do it, and the two women would have their souls curled up and return to the underworld.

Fortunately, after swallowing the ginseng liquid, the condition of the two women has also eased and the pulse calming powdered medicinal pill was also flattened, dissipating the messy spiritual energy in the two women, it seems that they were no longer dying.

Chapter 453.1: Appearance Is More Important Than Cultivation Base

With a fifth grade lingzhi mushroom jade pill in hand, as long as the two women still have a breath, Yang Chen could be sure to save their lives. However, now that the two women's cultivation base was completely destroyed, it was a thorny issue and it would be more troublesome.

The top priority was to save the lives of the two women first. The effect of the fifth grade lingzhi mushroom jade pill was too strong and the two women whose cultivation bases have been ruined would not be able to bear it. Deficiency was not a tonic, if the spirit power contained in the pill was too strong, it was not for saving people, but for killing.

So he took a little bit from the previously refined first grade lingzhi mushroom jade pill, ten portions were cut and one portion was given to each of the two women. There was nothing that could be done about it, the lingzhi mushroom jade pill of the first grade could be used to heal injuries below the Yuanying stage and at this moment, the two could only absorb this much at most.

The medicine was fed by Yang Chen's mouth, first dissolving the pill and then transferring it into the mouths of the two women, just like putting the ginseng solution before. It was a pity that the two women were unconscious now, otherwise it would become another charming scene.

The pulse calming powdered medicinal pill was used first, which was very good for the stability of the injury. Without the destructive power of the violent spirit power that rushes from the left to the right in the body, the efficacy of the pill could be completely concentrated on the treatment.

The lingzhi mushroom jade pill has a very good effect. After a while, Shi Shanshan's mouth began to moan slightly and there was also an expression of pain on her face. Although it would make her feel more painful than the initial coma, the recovery of her feeling was undoubtedly a precursor to the recovery of the injury.

Sun Qingxue next to her was still in a coma. However, the injuries of the two people were different. Shi Shanshan's injuries were much heavier, with more than 90% of her meridians were damaged, so she still had severe pain during the treatment with the pill. Sun Qingxue was much better and was slowly healed in the coma.

For the time being, the injuries of the two women were stable and would not get worse in the short term. Yang Chen quickly found two boulders, sculpted them with a flying sword and carved them into two not-so-beautiful bathtubs. Then carefully put the two women into them separately and then used some four seas mysterious coral liquid to soak the two women in it, leaving only the head and face.

After all this was done, Yang Chen took the bathtub with the two women into the medicine garden and around the two women, all the ten thousand years old ginseng and ten thousand years jade mushroom were transplanted, the spirit medicines spirit power was absorbed by them. That little spirit power was enough to nourish the two women for now.

After setting up the two girls, Yang Chen finally came to Hu Qianyi. At this moment, Hu Qianyi had already been dying in the hands of the blue jade blood phantom vine. Without strong spirit power support, he was weak as if he had been ill for a hundred years. He could not move a bit, even worse than elder Hua back then.

As soon as Yang Chen waved his hand, A'Bi knowingly took all the vines of the blue jade blood phantom vine back. After getting a chance to breathe, Hu Qianyi's body immediately began to slowly recover and after a while, there was blood on his face.

It was indeed a body tempered by the thunder tribulation and yin fire tribulation, even without spirit power support, it still has such a strong ability to survive. However, Hu Qianyi was still only alive at this moment. As for running away, in front of Yang Chen, Wang Yong and the old tree demon, he couldn't even think about it. Not to mention that he was so weak now, even in his peak and heyday, it was impossible.

Seeing the old guy's weakness, Yang Chen wiped Hu Qianyi's mouth with the remaining thousand-year ginseng liquid that was still on his hands. After he recovered a little bit of vitality, one hand picked up Hu Qianyi and the other hand began to slap him wildly left and right.

With this series of slaps, Yang Chen almost reduced the strength of his whole body, using only the slightest wave of his hand. Even so, Hu Qianyi almost fainted by a dozen slaps from the front and back, his head blew softly, his mouth was open and a dozen bloodshot teeth flew out directly.

Hu Qianyi's status was special and so Yang Chen still doesn't want him to die. He wanted to keep Hu Qianyi and send him to the two great sects to let the two great sects know who attacked their disciples. This would definitely be a slap in the face of the Greatest Heaven Sect.

This kind of thing among the major sects was no secret. There was no need to force Yang Chen to use whatever means. What big people like most was the saying that people who make big things don't stick to small things. Just being a big bully, Hu Qianyi bullied two Jiedan stage juniors with the respect of a master of the dacheng stage and wounded two women in this way, it was enough to make the Greatest Heaven Sect's reputation discredited and he could no longer lift his head.

As for the apparent murder of another disciple after being arrested, it could be further investigated. Even the Greatest Heaven Sect must account for it. It's one thing not to be caught, but it's something you couldn't afford to get caught for.

After he slapped Hu Qianyi wildly, Yang Chen still remained angry. Wang Yong and the old tree demon didn't mean to stop him at all. They didn't know Hu Qianyi's true identity, but they didn't mind bloody revenge for anyone who dared to fight against Yang Chen.

Yang Chen easily controlled a dacheng stage master, but Wang Yong and the old tree demon were not surprised at all. Along the way, Yang Chen was carefully refining a medicinal pill. They all saw that he wanted to use this pill to deal with this guy. Later, Yang Chen burned a radius of tens of miles, making their guess closer to the truth.

Regarding Yang Chen's seemingly unconscionable means, whether it was Yang Chen or the old tree demon, they all felt it was right. The opponent was a dacheng stage master and he used such despicable means to coerce Yang Chen, even if Yang Chen used despicable means to deal with him, no one sympathized with Hu Qianyi.

"This guy is Hu Qianyi, the elder of the Greatest Heaven Sect." Yang Chen didn't reveal the identity of Hu Qianyi until this moment.

The old tree monster had no awe for the Greatest Heaven Sect at all, so he didn't react to this name. But when Wang Yong heard it, he was taken aback.

The elder of the Greatest Heaven Sect and the guy who Yang Chen had saved his life, was this revengeful. To do this kind of thing, he attacked the two younger generation juniors of the Blue Cloud Sect and the Green Jade Immortal Island to threaten a Jiedan stage junior, it was an unprecedented scandal.

Retaliation for grace, bullying the small by the big and disregarding morality, taking out any of them was a terrible sin and Hu Qianyi has done it all at once.

"Just take this guy back, let Sect Master Lu and Island Master also see, what kind of face the people of the Greatest Heaven Sect have." Yang Chen's face was still full of anger "I want to see, this time too. How does the Greatest Heaven Sect plan to explain this matter!"

Chapter 453.2: Appearance Is More Important Than Cultivation Base

The two women were seriously injured, so Yang Chen rushed back to the Pure Yang Palace carefully along the way. When he came back, it was at least twice slower than when he went.

Along the way, Yang Chen was careful to treat the injuries of the two women, putting a tenth of the medicinal pill into the two women's mouths every day. When they returned to the Pure Yang Palace, the injuries of the two women had been completely stabilized. There was no danger of deterioration.

Sun Qingxue had also woken up, but her body could not move yet. Shi Shanshan was still in a coma, but she was no longer in the kind of pain and dissatisfaction, but eased down, as if in a dream.

Seeing the appearance of the two women, even the palace master was shocked, he was not surprised what the purple liquid that Yang Chen used to soak the two women was, he eagerly put his hand on the wrists of the two women. After a while, his face became gloomy almost with frost.

The cold plum fairy and dancing snow fairy, one of them had half of her meridians destroyed and the other had 90% destroyed, which almost concluded that the two women had become useless. The two women were implicated because of Yang Chen. How could the Blue Cloud Sect and the Green Jade Immortal Island give it up so easily?

Regarding Hu Qianyi who was captured and brought back, the palace master even had the heart to kill his whole family and punish him. He was the elder of Greatest Heaven Sect and he had to shame himself, and bring a lot of trouble to the sect, he also implicated the Pure Yang Palace, he really deserved to die.

Two promising cultivation geniuses, stunningly beautiful fairies, were ruined by him. Not to mention the Blue Cloud Sect and the Green Jade Immortal Island, even the palace master of the Pure Yang Palace felt it was a pity.

Although the girls were saved and the culprit was also caught, the latter matter was the bigger trouble. The two major sects didn't know the news yet, but they would definitely send high-level sect members to come over. Seeing this picture of the two women, they don't know how they would react.

Hu Qianyi's capture also meant another big trouble. Was the Pure Yang Palace going to show its teeth to the Greatest Heaven Sect and fight to the death? The time was not yet right, but something like this happened. How would the Greatest Heaven Sect react? All this gave the palace master a headache.

"Is there any hope for the two fairies?" At this time, the palace master could only put the hope of solving the problem on Yang Chen. If the two women could recover, then at least it would be relatively easy to explain to the two major sects. If the two sects were united with them, they may be a battle with the Greatest Heaven Sect.

Yang Chen was wondering how to repair the damaged meridians of the two women along the way. In fact, it was not difficult to restore their meridians. It was rare to restore their cultivation base without damaging the dao foundation. Yang Chen was not willing to let the two future peerless experts quietly die because of him.

"I will try my best!" Yang Chen could only answer like this.

Both Shi Shanshan and Sun Qingxue were originally in the Jiedan stage and haven't experienced the thunder tribulation and yin fire tribulation to temper their body, without the strong resilience of masters in the dacheng stage, the two women simply couldn't withstand the fifth grade lingzhi mushroom jade pill.

Although there were many ten thousand spirit medicines in Yang Chen's medicine garden, none of them could restore the two women to their original condition. The best way Yang Chen could think of now was to heal their injuries and then have them cultivate from scratch.

Although with the qualifications of the two women, as long as it does not damage the dao foundation. Even if they started from scratch, because of this ordeal, their thinking would be more mature, it may be a blessing in disguise and their future achievements may be higher. Two or three hundred years of hard work was not worthwhile for a great principle golden immortal.

However, Yang Chen still hoped that they could cultivate with Gao Yue and Gongsun Ling to improve their cultivation base in a balanced way. Perhaps it could be done with some drastic methods, but it requires certain risks. For the time being, Yang Chen does not plan to consider it.

However, Hu Qianyi had to be dealt with, not to make him discredited, not to be infamous, and not to pull the Greatest Heaven Sect from morality. Yang Chen was never willing to rest.

Under the meticulous care of Yang Chen, Gao Yue and Gongsun Ling, Sun Qingxue and Shi Shanshan finally woke up one after another, only one day apart.

The injury has been completely stabilized, and under the nourishment of Yang Chen's pill, the appearance of the two women has not changed to become older, but they still look like middle-aged women.

When Sun Qingxue woke up, she immediately noticed the condition of her body. Seeing Yang Chen, she knew she was safe and she felt relieved. But the first thing that followed was to ask for a mirror.

After Sun Qingxue saw what she looked like in the mirror, she seemed to have collapsed. She shut herself in a room and never wanted to come out again.

The more beautiful a woman was, the more she values her appearance, especially in front of her sweetheart. When the cultivation base was still there in the past, the beautiful face and the moon looked unparalleled, but now she was no longer the beauty of the past, how could Sun Qingxue not be heartbroken?

Shi Shanshan's reaction was slightly better. After this woman who has always been cold-hearted, noticed the condition of her body, only a trace of unspeakable complex emotions flashed in her pupils and then everything went as usual, still as cold as that.

However, everyone could tell that Shi Shanshan still cared about her face, at least when facing Yang Chen, she always intentionally or unintentionally turns her face aside to prevent Yang Chen from seeing it.

Shi Shanshan was like this and Sun Qingxue refused to let Yang Chen enter even the door and blocked him outside, leaning against the door, as if she would never see Yang Chen again.

“I don’t want to see you!” In the room, Sun Qingxue cried out to Yang Chen outside the door “I don’t want you to see me now! I don’t deserve you!” At the end, Sun Qingxue shouted as she was already crying.

Sun Qingxue, who was about to get married, encountered this kind of catastrophe, Sun Qingxue, who consciously couldn’t recover her appearance, no longer had the courage to face Yang Chen.

“Don’t worry, I will let you recover.” Yang Chen certainly knew why Sun Qingxue was crying so much. He himself was not a person who judged people by appearance and he would never change his heart because of the changes in Sun Qingxue and Shi Shanshan’s appearance. But Yang Chen still underestimated how much a beautiful woman values her appearance, it seemed that even the loss of her cultivation base cannot measure up with the shock of her face getting old.

“Really?” Sun Qingxue stopped crying in the room when Yang Chen said so and asked suspiciously.

“Since we met, I really think I haven’t lied to you yet right?” Yang Chen could only give a wry smile and asked Sun Qingxue from the door.

This sentence worked enough. In Sun Qingxue’s mind, the sentence “I didn’t lie to you” that Yang Chen said when she was with him flashed several times and finally she chose to believe Yang Chen.

“Can you really restore our appearance?” Sun Qingxue opened the door as quickly as possible and asked Yang Chen in surprise.

Chapter 454.1: The Anger Of The Two Sects

Yang Chen was absolutely sure of restoring their appearance. After killing Chang’e and the nine days of killing heaven profound females on the Immortal executioner stage, they all left their unique face-retaining pills and countenance halting heart methods, which were most suitable for Sun Qingxue and Shi Shanshan at this moment.

When she heard that Yang Chen had a way to restore their appearance, even Shi Shanshan, who seemed to have accepted the status quo, was a little happy. The expression of surprise on her face cannot be concealed anyway.

Seeing this situation, Yang Chen finally understood that no matter how high a woman was, no matter how indifferent she was to her appearance, she still puts her appearance in a very important position in her heart.

Fortunately, Yang Chen has the materials to refine the face retaining pills and they were all good materials that had matured for thousands of years. At this time, it was simply the most suitable place to use it.

As Yang Chen was planning to refine the face retaining pills, the people from the Blue Cloud Sect and the Green Jade Immortal Island have already arrived. Both sides were very surprised and worried when they received the news. The two sects didn't go to where Hu Qianyi asked Yang Chen to meet him and simply meet at the Pure Yang Palace.

The person who came from the Blue Cloud Sect was Sun Qingxue's master, dacheng stage elder Hua Wanting, along with the Blue Cloud Sect's law enforcement hall master, who was also the dacheng stage elder Shi Yanhe. The people from the Green Jade Immortal Island were even more surprising. In addition to Shi Shanshan's master, the Island master also rushed to the Pure Yang Palace.

Upon coming to the Pure Yang Palace, the experts of the two major sects were told that Yang Chen had rescued the women back. The news made people on both sides breathe out a sigh of relief, as long as the girls were fine everything would be ok.

However, when they saw Shi Shanshan and Sun Qingxue with their own eyes and thoroughly understood their current situation, the masters of the two major sects all jumped up in shock. The two promising disciples were crippled, they wouldn't let it go in any sect.

The unlucky Hu Qianyi was brought out again. Although he changed his appearance and figure with his powerful cultivation base before he traveled, in front of these masters, he could not hide his true identity and was immediately recognized.

"Hu Qianyi?" After the island master of the Green Jade Immortal Island recognized Hu Qianyi's identity, her expression changed suddenly, as if she couldn't believe it. She suppressed her anger and calmly said to Hu Qianyi, "Okay! What a great elder, What a dacheng stage master!"

The tone of speech was very slow, but anyone could hear the hatred of the Island master through the gritted teeth. The elder of the dignified Greatest Heaven Sect actually did this kind of unscrupulous thing, he made a move against a junior, it was impossible to justify in any case.

Shi Yanhe and Hua Wanting were not as good as the Island master in controlling their anger. Although they were both masters in the dacheng stage, they were both very hot headed characters.

Elder Hua didn't care if Hu Qianyi had a dozen teeth lost in his mouth. She slapped Hu Qianyi's mouth and nose when she went up to him and the remaining dozen teeth all fell out.

If it were not for having Hu Qianyi as evidence, Elder Hua would love that she could just kill this guy and avenge her apprentice.

Whether it's the Green Jade Immortal Island or the Blue Cloud Sect, they both hated Hu Qianyi and the Greatest Heaven Sect. They have seen shameless people, but they have never seen anyone more shameless than the Greatest Heaven Sect. In order to deal with an alchemist who was a junior in the Jiedan stage, he turned his anger on other sects, and he didn't dare to be fair and honest, and only sneakily made his move after he changed his appearance. How was this something that the leaders of the dao sects do?

At this time, even if Hu Qianyi wanted to argue that this matter has nothing to do with the Greatest Heaven Sect, it was useless. Who would believe it? He was afraid that the sect master of the Greatest Heaven Sect could only pinch his nose to recognize this situation.

Now it's not just Yang Chen and the Pure Yang Palace, Zhu Xuyuan was arrested, Hu Qianyi was arrested, there were the two direct parties Shi Shanshan and Sun Qingxue, even if Hu Qianyi could deceive the dead, he couldn't deny the things he had done.

In front of Shi Shanshan and Sun Qingxue, the island master still maintained some restraint, but when they were discussing in the Pure Yang Palace hall, before everyone could speak, the Island master already slapped the table heavily and shouted "This matter is not over!"

The poor table turned directly into powder and disappeared in the wind. It couldn't be helped that the Island master was angry. Shi Shanshan was the best disciple received by the Green Jade Immortal Island

in the past thousand years. In the future, she would be the future hope of the Green Jade Immortal Island and she was crippled, how could people not be angry?

“The Greatest Heaven Sect must give an explanation for this!” The Blue Cloud Sect’s elder Shi Yanhe was even more angry and immediately threatened “If they can’t restrain their disciples, I will discipline them!”

Although Sect Master Lu of the Blue Cloud Sect was not present, Elder Shi Yanhe, as the head of the law enforcement hall, also represented the opinions of sect master Lu to a certain extent. This matter would never be let go.

The two great sects have never had such resentment towards the Greatest Heaven Sect as they do today. Their two genius disciples were destroyed like this. The painstaking effort used to cultivate them by the sect for hundreds of years was destroyed like this. If the two great sects swallowed this issue, who would join them in the future?

With the presence of the island master, the Green Jade Immortal Island immediately sent out a sternly worded note and sent a special person to the Greatest Heaven Sect, it was a note personally sent by the island master.

Sect Master Lu of the Blue Cloud Sect was not there, but Shi Yanhe also decided to return immediately and report the matter to Sect Master Lu. As for elder Hua, she had to stay to look after her disciple.

“Yang Chen, Shanshan and Little Xue’s injuries, is there any hope?” After venting her anger, the Island master began to ask Yang Chen about the healing.

Although there were several dacheng stage masters present, they were not Yang Chen’s opponents alone in terms of healing methods. Even the injuries of senior black tiger and so many dacheng stage masters could be cured then this small injury shouldn’t be too hard to solve, right?

“There is no problem with the recovery of their meridians and I can guarantee that their dao foundation will not be damaged.” Yang Chen’s answer made everyone very happy, but Yang Chen still expressed his concerns “However, if i want to do it in the short term. It’s not so easy to recover their cultivation base.”

“Why is it like this? Could it be that the fifth grade lingzhi mushroom jade pill will not work either?” The island master was still full of confidence. Now that Yang Chen said that, there seemed to be something unexpected and she asked immediately.

“Shanshan and little Xue’s bodies can’t bear the fifth grade lingzhi mushroom jade pill.” Yang Chen also told the truth without concealing it.

Sun Qingxue and Shi Shanshan were both present. Hearing what Yang Chen said, the two girls seemed to be happy. Especially Shi Shanshan, she seemed to have understood a lot of things.

Chapter 454.2: The Anger Of The Two Sects

Yang Chen’s explanation made the Island master and the others understand a lot. There were some pills that most people couldn’t withstand. If the fifth grade lingzhi mushroom jade pill was placed in the mortal world, it could already be regarded as an Immortal pill. Ordinary people would have only one result if they eat it, that was, they would burst into pieces and die. For them, an Immortal pill was not a life-saving medicine, but a life ending poison.

Without being baptized by the thunder tribulation and yin fire tribulation, the power of the fifth grade pill could not be withstood at all. Perhaps they could barely withstand the power of the fourth grade, but the efficacy of the fourth grade pill was not enough to restore their cultivation base.

“Never mind, save their dao foundation first, they could start to cultivate again from the beginning!” The Island Master nodded. Everyone was an expert and they could afford to take a set back, if they could preserve their dao foundation, what would be wasted was only a mere two hundred years, no one would care too much.

“Also, the last time you asked Shanshan to ask something, I will give you an answer.” The Island Master directly represented Shi Shanshan’s master and said to Yang Chen “About Shanshan’s cultivation direction, we didn’t force her, everything depends on Shanshan’s own understanding. If you have any cultivation method here, she can get started and cultivate it, Shanshan will be your wife from now on, so naturally she will listen to you.”

Yang Chen was afraid that giving Shi Shanshan some cultivation techniques would cause a backlash with the Green Jade Immortal Island, so he asked Shi Shanshan to ask. Now the Island master finally gave Yang Chen a definite answer.

“Also, Shanshan doesn’t need to consider the influence of the sect, nor does it need to be handed over to the sect.” Now that the decision has been made, the Island master simply seemed more generous. “People of the Yang family can cultivate their cultivation method, there is no need to mention anything to the Green Jade Immortal Island.” Shi Shanshan has already been directly tied to the Yang family now.

“The Blue Cloud Sect also wants the same thing.” Elder Hua also said. The island master has the highest status, after the island owner has finished speaking, it was her turn to talk as Sun Qingxue’s master, “Although I am Little Xue’s master, I will not be so stingy. Little Xue is also part of your Yang family, so there is no problem in cultivating your Yang family’s cultivation methods and there is no need to ask the sect for instructions.”

Both parties directly regarded Shi Shanshan and Sun Qingxue as Yang’s family members, as if they were afraid that if something happened this time, the appearance of the two women would change and Yang Chen would change his mind. After all, Yang Chen was a fifth grade alchemist. Without the peerless looks of Shi Shanshan and Sun Qingxue, there might be other sects that would bring other peerless women. By then, the two major sect’s losses would not be worth the gain.

On the contrary, both Sun Qingxue and Shi Shanshan heard some hidden hope from Yang Chen’s words. It was not so easy to restore the cultivation base, there was still a way but not impossible. It seemed that Yang Chen still had something to say, but these could be said when they were alone with Yang Chen and they didn’t have to be in front of everyone.

Right now, Yang Chen’s task was to immediately refine the face retaining pills for the two women. This was not just the request of Shi Shanshan and Sun Qingxue, but the collective request of the several dacheng stage elders from the Blue Cloud Sect and the Green Jade Immortal Island, including the Island master.

From Shi Shanshan and Sun Qingxue’s mouth, the women learned that Yang Chen was quite sure that there was no problem in restoring their appearance, which made them overjoyed.

Although a cultivator could live longer and look younger than ordinary people, this does not mean that a cultivator could live forever.

Generally speaking, within a thousand years, as long as the cultivation level of the Yuanying stage could be reached, their youth could basically be maintained forever. But after this thousand years, even the

dacheng stage masters would undergo some slow changes. Although they would not become old, but would also change from a youthful appearance to a middle-aged appearance.

The Pure Yang Palace was okay as there were no female cultivators of this level yet, but the masters of these two sects who came to Pure Yang Palace were at this stage and everyone looked like a middle-aged woman.

Since Yang Chen could restore Shi Shanshan and Sun Qingxue, two women who were currently lacking spirit power, from their middle-aged appearance to their youthful beauty, naturally he could also restore their appearances.

As long as any woman knows this news, she would be very interested in it. They would even be willing to pay a high price.

Of course, there was a more important point. If Yang Chen could really restore the appearance of the two women, then naturally there would be no problems of empathy in them. The Green Jade Immortal Island and the Blue Cloud Sect could still maintain a good relationship with Yang Chen.

Not only these experts, but even his master Gao Yue and senior apprentice sister Gongsun Ling complained to Yang Chen after they knew that Yang Chen could refine the face retaining pill. Yang Chen failed to bring such a good thing out early and they spent more than two hundred years in vain. Even though with their current situation, they don't need any face retaining pills at all.

Even if Yang Chen had a hundred mouths he couldn't explain it to the women and wanted to cry without tears. He could only silently accept the criticism of the women and then obediently retreat and began to refine the pills.

Fairy Chang'e was the most beautiful maiden in the heavenly court and naturally she has her outstanding beauty-preserving techniques. This face retaining pill was one of them. In addition, there was another method of preserving her face, which was also firmly remembered in Yang Chen's mind, next time, Yang Chen would have to take out this method of preserving the face in order to please the women.

While Yang Chen was in retreat to refine the pills, elder Shi Yanhe of the Blue Cloud Sect quickly rushed back to the sect and then Sect Master Lu issued a sternly worded note to the Greatest Heaven Sect. The

Pure Yang Palace was naturally no exception. In the final analysis, this happened because of Yang Chen, so they were very unceremonious in asking the Greatest Heaven Sect to give an explanation.

The two sects and the Pure Yang Palace simultaneously asked the Greatest Heaven Sect for an explanation, but the upper level of the Greatest Heaven Sect was at a loss. What Hu Qianyi did outside has not been told to anyone in the sect, so the Greatest Heaven Sect who received the note didn't even know what happened.

The matter was related to the dacheng stage elder Hu Qianyi. Looking in the sect, they could not find the shadow of Elder Hu. After learning from the representative of the Pure Yang Palace that elder Hu Qianyi kidnapped the cold plum fairy and the dancing snow fairy to threaten Yang Chen to take out his alchemy secrets then he also severely injured the two fairies and destroyed their cultivation base. Even with the time he had spent cultivating and his cultivation base, Sect Master Li of the Greatest Heaven Sect almost fell to the ground in shock.

Of course, Yang Chen's alchemy secrets were also wanted by the sect, but Elder Hu's idea was not good, did he have to kidnap the two fairies from the Blue Cloud Sect and the Green Jade Immortal Island? Even if the other two fiancées who were in the Pure Yang Palace were the ones kidnapped, the Blue Cloud Sect and the Green Jade Immortal Island, could they be easily provoked?

It was a good thing that he was caught and his true colors was revealed to the sect. How would the sect deal with his aftermath? Thinking of this, sect master Li couldn't help but get a headache.

Chapter 455.1: The Greatest Heaven Sect's Plan

It must be said that the notes issued by the Green Jade Immortal Island, Blue Cloud Sect and the Pure Yang Palace this time were discussed with each other and were carried out in stages. In the first note, it just mentioned that the three sects were dissatisfied with the attack on their disciples by Elder Hu of the Greatest Heaven Sect.

At first, sect master Li thought it was only Elder Hu who was seen in figure and couldn't help it, so he hid. Naturally, this kind of thing must be tricky. It was absolutely impossible to balance the two sects without much bleeding.

Bleeding would not be enough, at least a few scapegoats were needed. As a dacheng stage elder, Hu Qianyi must not have an accident, nor could it be him, so this thing must be done by someone else.

Therefore, the story of a certain villain disguised as Elder Hu and doing such things that were indignant between people and gods then it on blaming Elder Hu, and blaming the Greatest Heaven Sect was formed in sect master Li's mind.

The Greatest Heaven Sect was the largest sect of the dao sects and Hu Qianyi was also a dacheng stage elder of the Greatest Heaven Sect, he was model disciple and a model cultivator. How could he do such a defiant thing? It must have been done by people with ulterior motives.

The purpose of these people must be to destroy the harmonious relationship between the Greatest Heaven Sect, Green Jade Immortal Island, Blue Cloud Sect and the Pure Yang Palace and to instigate discord in order to achieve their ulterior motives. Such people must be completely uprooted and eradicated.

The Greatest Heaven Sect, who took the mortal world's dao sects protection as its mission, worked tirelessly and if they immediately discovered something wrong with some clues. They dispatched masters and quickly attacked and killed all these traitors, destroying their further conspiracy and maintaining the stability of the dao sects unity.

After all, the other party was posing as Elder Hu of the Greatest Heaven Sect. The Greatest Heaven Sect do not care for themselves. They would bring out enough resources to compensate the two injured fairies and put on a low profile to apologize and they would even be admired by the common people.

In this way, all the face of the Greatest Heaven Sect would be saved and by this matter, the reputation of the sect could be improved. It was a perfect solution.

What if others have doubts? As long as the scapegoat was enough to resemble Elder Hu, the dead couldn't speak anyway. Who could prove that it was Elder Hu and not the dead guy? Below the several major sects, including the Pure Yang Palace, who would dare to disagree?

As for the Green Jade Immortal Island and the Blue Cloud Sect, it was easier to dismiss, Elder Hu was a master of the dacheng stage, dealing with two juniors in the Jiedan stage could it be that he couldn't control the situation

and would hurt people to the point of destroying the opponent's cultivation base? Could Yang Chen rescue the hostages safely under the hand of Elder Hu? This was simply a joke.

No, this was a god-given opportunity, an excellent excuse for the Greatest Heaven Sect to deal with the Pure Yang Palace. What was the intention of slandering the Greatest Heaven Sect like this? They could blame it on the Pure Yang Sect? So they could mobilize their strength to eradicate the Pure Yang Palace in one fell swoop.

Sect master Li has even begun to discuss the feasibility of this plan with several other core elders. Everyone has to decide whether to leave Yang Chen's life for his own use after destroying the Pure Yang Palace, or imprisoned and tortured him to extract a confession. In short, they must figure out the secret of Yang Chen's alchemy. What Elder Hu could not do, the sect would do it.

As for how to deal with Elder Hu's behavior that was not conducive to the sect, naturally there were rules to punish him. But the Greatest Heaven Sect could handle it, but outsiders couldn't. This was the logic of the Greatest Heaven Sect.

On one hand, sect master Li immediately sent people to find the missing Elder Hu, on the other hand, he responded to the note from the Green Jade Immortal Island, Blue Cloud Sect and the Pure Yang Palace. As for the next thing, it would be launched one after another, accumulating the general trend bit by bit, until the Greatest Heaven Sect was completely cleared and then the Pure Yang Palace was destroyed.

The first thing that the Greatest Heaven Sect did was to pass it on to the foreign affairs hall. They would respond to the note and publicly declare that this was definitely a person with ulterior motives planting the blame on them. Elder Hu would never do such a thing, and the Greatest Heaven Sect has never acted like this against the three sects.

In the dao sects, suddenly there was an uproar. The incident in the Green Jade Immortal Island, Blue Cloud Sect and Pure Yang Palace was not publicized. It was only known to the three sects senior members. Now that the Greatest Heaven Sect made such a move, it immediately caused a chain reaction.

This kind of openly bullying the weak and attacking the other's genius disciple was absolutely despised by most people. But at the moment the three sects did not disclose the matter, but the Greatest Heaven Sect made the matter public, as if the Greatest Heaven Sect had a clear conscience.

Immediately several small sects jumped out and supported the Greatest Heaven Sect. How could the leader of the dao sects do such a thing? This must be a mistake. The two big sects should not be provoked by villains with ulterior motives, which would destroy the good situation of stability and unity of the dao sects.

Some sects condemned this kind of behavior against other sect juniors. Whether it was made by the Greatest Heaven Sect or not, it was a fact that the cold plum fairy and dancing snow fairy were attacked and seriously injured. The Blue Cloud Sect and the Green Jade Immortal Island would not sacrifice their genius disciples to play this kind of game.

Other sects and rogue cultivators had a different mentality. If their skills were not as good as others, then there was nothing to say. As for using the strong to bully the weak, it's even more absurd. Could it be that the experts couldn't fight back when they are provoked by the juniors?

Suddenly, the entire dao sect turned noisy, igniting a frenzy of controversy.

This was exactly the effect that the Greatest Heaven Sect wanted. The more intense the quarrel became, the more it paves the way for subsequent actions against Pure Yang Palace. At that time, as long as there was evidence that it was the people of the Pure Yang Palace, then taking the opportunity to destroy the Pure Yang Palace would be easy, even the Green Jade Immortal Island and the Blue Cloud Sect would not be able to stop it.

The calculation was good, but the only problem now was that they didn't know where Elder Hu Qianyi was. You must know that Elder Hu was the key figure in the whole incident. Of course, the Greatest Heaven Sect must have an iron proof that Elder Hu was not present at the time of the incident.

But no matter how to make a proof, they had to discuss it with Elder Hu. Everyone had to get their stories straight to avoid making mistakes. But Elder Hu hasn't been seen by anyone, could it be that something has changed?

Dacheng stage masters would never die so easily. Moreover, his life jade tablet was not broken, indicating that Elder Hu must be alive.

Since Elder Hu was alive and the Blue Cloud Sect, Green Jade Immortal Island and the Pure Yang Palace also said that their three juniors, Shi Shanshan, Sun Qingxue and Yang Chen, have returned to the sect, what does that mean?

Elder Hu was captured? Elder Hu was driven away when he lost? Elder Hu was injured? impossible, he believed that if Hu Qianyi really did this kind of thing, he would never leave a loophole that allows the three sects to take advantage of it.

The only possibility was that when Elder Hu got what he wanted, he let them go. And what Elder Hu got should be Yang Chen's alchemy secrets.

Chapter 455.2: The Greatest Heaven Sect's Plan

If a dacheng stage master seeks to seize the possessions of a younger generation junior in the Jiedan stage, if he was injured and escapes, it was simply a big joke. This was absolutely impossible, at least to the senior members of the Greatest Heaven Sect, it was impossible.

From another perspective, Hu Qianyi's behavior was very questionable. Several senior members in the Greatest Heaven Sect also had some different thoughts.

Elder Hu had never mentioned to the sect that he had to do these things, he just disappeared, he must have wanted to return quietly after he had done it secretly, as if it had never happened.

But it didn't work, Elder Hu's actions were not a secret and he was recognized by others, this was a great trouble. In fact, in the minds of the senior members of the Greatest Heaven Sect, it was already affirmed that Hu Qianyi did this, but they just refused to admit it verbally.

This kind of thing, just do it, as long as it doesn't make people hurt your feet. As for what to say about the savior, it was even more nonsense. When Yang Chen made a pill for them, he got a lot of things from the Greatest Heaven Sect. If everyone on the scene was not afraid that the spirit congealing pills could not be refined by themselves, they would have concentrated on killing Yang Chen.

Elder Hu did this thing in advance, which was very good, especially when he got Yang Chen's alchemy secrets, which was even more wonderful for the Greatest Heaven Sect. The only problem was that Elder Hu had done this, but he didn't notify the sect, what did he want to do?

Yang Chen's alchemy secrets could give a person the supreme secrets of a fifth grade alchemist. They didn't know where Yang Chen found it, but now, it seems that it has become Elder Hu's possession. But Elder Hu was not an alchemist himself but he holds this alchemy secret, what does he want to do?

For Elder Hu, to do something so high-level that he already had something in mind. However, the most urgent task now was to find the whereabouts of Elder Hu immediately, check the situation and then take out the secret obtained from Yang Chen to the sect.

It must be said that the Greatest Heaven Sect still has a lot of background as the dao sect leader for so many years. Even if it had suffered a major disaster before and suffered a great loss of strength, there were still countless small sects who were willing to follow them to the end.

Under the superb control of the Greatest Heaven Sect, the argument that Elder Hu was spoofed by others has become more and more dominant. And the wind began to move in a direction that was not conducive to the Pure Yang Palace. No one would dare to provoke the Green Jade Immortal Island and the Blue Cloud Sect, but the Pure Yang Palace was another matter. This matter was related to Yang Chen and soon people began to say that it was self-directed and acted.

After all, the cold plum fairy and dancing snow fairy were both Yang Chen's fiancées. It was normal for them to lie for Yang Chen. When this statement came out, it won a lot of people and it became a growing trend.

Under such circumstances, the second series of more severely worded notes from the three sects were sent to the Greatest Heaven Sect again, asking the Greatest Heaven Sect to give an account for Hu Qianyi's behavior.

The general situation outside has already taken place. How could the Greatest Heaven Sect bow their heads and surrender at this moment. Naturally, they put on a face of righteousness and expressed condolences to the cold plum fairy and dancing snow fairy for their injuries, but they firmly refused to admit that Elder Hu would make a move and do this kind of thing.

It must be known that Elder Hu has been in retreat at the sect since he recovered from his injury last time. He comprehended his mood after being injured in the last battle. He has not left the sect until now. How could he do such a thing.

It must be the mistake of the three sects. Maybe the two sects were misled by some treacherous villains, and they felt that the Greatest Heaven Sect would do this kind of thing in order to suppress the younger generation.

The reasons for the Greatest Heaven Sect were very good. One was that Elder Hu was in retreat and has not gone out at all. Two, if Elder Hu really made the move against the three juniors in the Jiedan stage. How could they go back alive and prove anything?

This statement was indeed very convincing. A dacheng stage master, not to mention the three juniors in the late Jiedan stage, if it was three ancestors in the late Yuanying stages, they would not necessarily be his opponent. If he really wanted to do it, could they still go back alive?

As a result, the Greatest Heaven Sect's argument was supported by most people. Under their guidance intentionally or unintentionally, the spearhead has been directed at the Pure Yang Palace. Some vanguards have even started to clamor openly that the Pure Yang Palace was now expanding in power and wanted to do harm to the world.

On the surface, the Greatest Heaven Sect was trying to get rid of the suspicion, but secretly the high-level officials began to concentrate their efforts and explore the reality of blaming the Pure Yang Palace. When the time comes, they would use the momentum to completely uproot the Pure Yang Palace, leaving no future troubles.

Destroying the Pure Yang Palace would also be an important blow to the Green Jade Immortal Island and the Blue Cloud Sect, and it would also eliminate the desire of the Five Elements Sect and Qiankun Sect to expand in strength. Without Yang Chen's questioning inner heart pills, the Five Elements Sect and the Qiankun Sect could only maintain the status quo.

The reason why they wanted to destroy the Pure Yang Palace so strongly was that the Greatest Heaven Sect had already obtained the pill recipes for the spirit congealing pill, questioning inner heart pill and the heaven seizing pill. Even if no one could refine it now, if they study it for some years, if ten and twenty years were not enough, then one hundred years and two hundred years would eventually be enough for them to be able to refine it.

After all, Yang Chen came from a small sect and he didn't have the structure and height to think from the standpoint of the big sect. He thought that he had already earned resources by trading some

precious things with the pill recipes, but he did not expect that while he was selling the pill recipes, at the same time, he also laid the bane for his own destruction.

Good things were better enjoyed by one person than shared by several people. Yang Chen doesn't even understand this truth. Speaking of it, Yang Chen was just a younger generation junior. It's natural to not understand this, but the palace master and elders of the Pure Yang Palace don't understand it. This only shows that they were stupid and they deserve to be destroyed.

Especially now that Yang Chen's alchemy secrets may have also fallen into the hands of Elder Hu Qianyi, so there were no worries. How could a fifth grade alchemist of another sect be comparable to their own fifth grade alchemist? How could the sect allow a competitor of this level to appear?

Of course, if they wanted to destroy the Pure Yang Palace, the Greatest Heaven Sect cannot do it themselves. Otherwise, it would be easy to leave pretext for the two major sects the Green Jade Immortal Island and the Blue Cloud Sect and it would also make the Five Elements Sect and Qiankun Sect dissatisfied.

In this regard, the Greatest Heaven Sect has a way. The concentrated power of the dark hands of the Greatest Heaven Sect distributed outside was enough to destroy the Pure Yang Palace from top to bottom. When the time comes, useful people would be kept and all the useless would be killed. Although Meiqing Mountain was mediocre, it was a place of cultivation anyway, wasn't it?

There were also several female disciples with outstanding aptitude and great appearance in the Pure Yang Palace, who could secretly be taken to make furnaces for the elders of the sect. Everything was already under control, and everything could be activated only when Elder Hu was found.

Just when the Greatest Heaven Sect seniors were already proud to destroy the Pure Yang Palace, the third wave of notes from the three sects arrived again.
