Chapter 456.1: Trouble Brewing

The content of the third series of notes was very simple. It said that elder Hu Qianyi kidnapped their juniors for extortion and he was captured on the spot, human and physical evidence were available. There was hard evidence and so the Greatest Heaven Sect must give an explanation.

This time the note was not held in private, but was announced directly to the public. When the news came out, there was an uproar in the cultivation world.

Being arrested at the scene was something that couldn't be disputed. What's more, the Greatest Heaven Sect had always vowed solemnly that Elder Hu was in seclusion in the sect. At this moment, the situation created by the great efforts of the Greatest Heaven Sect collapsed.

Boom, after receiving the note, there was a bang in the mind of sect master Li of the Greatest Heaven Sect and his eyes went dark and he almost fainted. Even so, his chest and abdomen were filled with breath, and a mouthful of sweetness came up from his throat.

Sect master Li abruptly suppressed the surge of blood and tried to swallow the blood that had reached his throat. The shock this time was so severe that he, a master in the late Yuanying stage, couldn't stand it.

This was simply a thunderbolt from the blue sky, enough to blow up the Greatest Heaven Sect. All the efforts made by the Greatest Heaven Sect before became a kind of ridiculous clown performance in front of this news, and they were staged in turn in front of the Green Jade Immortal Island, Blue Cloud Sect and the Pure Yang Palace.

The core elders of the Greatest Heaven Sect were all having shocked faces like their fathers and mothers were dead, and no one could believe the news was true.

How was this possible? Hu Qianyi crippled the cultivation base of the cold plum fairy and dancing snow fairy, everyone believes that and it was estimated that Elder Hu didn't plan for them to survive when he did it.

How could a master in the dacheng stage be captured alive by a junior in the late Jiedan stage? This was simply the biggest joke in the world.

The problem was that this joke happened to Elder Hu of the Greatest Heaven Sect, this was a great disaster. For the reputation of the Greatest Heaven Sect, it was definitely a disaster.

Sect master Li and several core elders could swear to heaven that they absolutely don't know what Hu Qianyi did, and what Elder Hu did was definitely not instigated by them. But the problem was that someone has to believe it.

The Greatest Heaven Sect has always been domineering and has done one or two things unreasonably. It's just that there was generally no definite evidence, and no one dared to easily take on the Greatest Heaven Sect.

This time was different, they were caught on the scene and both the fairies could also testify. Two dacheng stage masters from the Pure Yang Palace were present, and a disciple of Hu Qianyi who they did not know where he was found from had already confessed everything. There was hard evidence that the Green Jade Immortal Island and Blue Cloud Sect were involved and they were also no less than the Greatest Heaven Sect in strength, it was impossible to threaten them with force.

The most embarrassing thing was that the Greatest Heaven Sect had always insisted before that Elder Hu had been in closed seclusion in the sect for decades and had never taken a step outside. So, where did the elder Hu who was captured come out from?

For a master in the dacheng stage, it was by no means that easy to pretend to be him, and there were more than tens of thousands of people who knew Elder Hu in this world, and they couldn't deny it if they wanted to deny it.

With a difference in thought, the Greatest Heaven Sect became a shameful liar, and they made a fool of themselves in front of all the dao sects. It may not stop there, because of the opening of the hall of eccentrics, many monster races also know about this kind of thing, and perhaps it would spread to the monster domain. For the Greatest Heaven Sect, this incident was simply a disaster in reputation.

The dacheng stage elders of the Greatest Heaven Sect turned out to be the masters in kidnapping the younger generation juniors of other sects and extorting the secrets of others, and the Greatest Heaven Sect still defended such people in every possible way and even protected them. What does this mean?

The Greatest Heaven Sect, who has always claimed to be the leader of the dao sects, was a den of thieves? Otherwise, how could such a thing happen? It was Elder Hu who kidnapped the younger generation today. Maybe tomorrow it would be Elder Wang, Elder Liu, or even sect master Li.

But the sect actually defended such people in every possible way, saying that he has been retreating for decades, saying that he has never taken a step outside the sect. Speaking of this, the Greatest Heaven Sect always claimed when there were major events outside that their elders or masters were in seclusion, maybe there was a shadow of the Greatest Heaven Sect in it.

Today, the Greatest Heaven Sect claimed that Elder Hu was in seclusion, but Elder Hu was out to do this. Did those masters also use seclusion as a reason to go out for their business?

In the Greatest Heaven Sect, there were people in seclusion almost constantly, and there were also accidents outside. Many killing cases have yet to find the murderer, but now everyone has one more suspected target.

For what was going on outside, how were they going to explain? But they had to explain clearly what happened this time first. Even the big sects such as the Green Jade Immortal Island and Blue Cloud Sect couldn't get a truthful confession from the Greatest Heaven Sect, so where do other small sects go to find an explanation?

This was the strategy of the three sects this time. On that day, the island master was furious and was about to approach the Greatest Heaven Sect, but Yang Chen stopped her for a bit, and immediately proposed such a secretly shady method.

The Greatest Heaven Sect really had to be open and honest, so they had to immediately abandon a dacheng stage elder to protect their reputation, then naturally everything would be easy. Everyone would not need to fight, and they could kill a dacheng stage elder of the Greatest Heaven Sect, but at the cost of two Jiedan stage disciples injured and crippled, anyone could do it instead.

The relationship between the Green Jade Immortal Island, Blue Cloud Sect and the Greatest Heaven Sect was a cooperative and competitive relationship, which showed that there was peace between them, but secretly it was not known how many secret manipulations there were. This time, they would be able to kill a dacheng stage elder from the Greatest Heaven Sect. Moreover, even if the Greatest Heaven Sect was really willing to give up Hu Qianyi, there would inevitably be some loss of reputation.

This was the perfect situation to deal with the Greatest Heaven Sect. In fact, everyone knew from the beginning that the Greatest Heaven Sect would never give up a dacheng stage elder so easily.

Dacheng stage masters, whichever sects they were placed in, were top-level martial artists, and no sect was willing to give up a dacheng stage master easily. Even the Greatest Heaven Sect was no exception, otherwise the Greatest Heaven Sect would not be willing to pay a high price to seek alchemy from Yang Chen, and for this reason, he got generous compensation to several big sects.

But the more this was the case, the more it was true that Hu Qianyi's despicableness of repaying grievances for virtue would further affect the reputation of the Greatest Heaven Sect. The more they defend Hu Qianyi, the more unbearable the reputation of the Greatest Heaven Sect would be the moment the truth was announced.

The development of the situation was as expected by Yang Chen. The Greatest Heaven Sect resolutely denied the incident and also used some external personnel to launch a round of campaigns and gain support, all were calculated by Yang Chen.

Chapter 456.2: Trouble Brewing

It could not be said that the Green Jade Immortal Island and Blue Cloud Sect dug a pit for the Greatest Heaven Sect to fall inside. It was the Greatest Heaven Sect's arrogant mentality, which determined that they would inevitably fall into such a situation.

Whether it's the Green Jade Immortal Island, Blue Cloud Sect or Pure Yang Palace, the first note was issued in secret. Except for the four sects involved, the three sects did not announce a word to the public.

It was the Greatest Heaven Sect's act of creating an atmosphere and creating a general trend that led the spearhead to the Pure Yang Palace, and planted the moral seeds for the future destruction of the Pure Yang Palace, which brought themselves into this huge dirty puddle.

The Greatest Heaven Sect took the initiative to publicize all things to maintain their grand and magnificent image. Even when the three sects sent out a second internal note, they still chose to make it public and made it clear that this matter had ulterior motives and that it had absolutely nothing to do with the Greatest Heaven Sect.

Therefore, in the third note, the Green Jade Immortal Island, Blue Cloud Sect and the Pure Yang Palace collectively chose to question them publicly, they mentioned the evidence, and asked the Greatest Heaven Sect to explain.

Those outsiders who now knew the whole story stood on a fair stand and have to say that the three sects of the Green Jade Immortal Island, Blue Cloud Sect and the Pure Yang Palace have done their best.

Originally, the Greatest Heaven Sect only had to secretly confess to the three sects, and it would not be a big deal to compensate for some losses, expel Hu Qianyi from the Greatest Heaven Sect or deal with him according to the sect rules, this matter would not be exposed.

But the Greatest Heaven Sect didn't pay attention to other people's kindness. Not only did they proactively announce it, but they also chose to defend the elder who made the mistake.

One wrong step, eventually led to the situation where the Greatest Heaven Sect could not come back from. No matter how they explain it, even if the sect rules were used to deal with Hu Qianyi at this time, or the life and death of Elder Hu was handed over to the three sects to deal with, it would not be able to restore the results caused before.

There was no objection within the Greatest Heaven Sect regarding the way the sect master and several core elders dealt with the matter at the beginning. But as the truth of the matter was further revealed, even the inside of the Greatest Heaven Sect began to have different voices.

The bigger the sect, the more power and resources there would be. The factions in the sect have become more complex. Sect master Li and several core elders have been controlling the affairs of the Greatest Heaven Sect, because they have basically made no mistakes before, and under their guidance, the Greatest Heaven Sect was flourishing. Naturally, no one dared to say anything. Even if they did, it was suppressed by those disciples who benefited from it.

However, the decision made by the sect master and core elders has brought very serious consequences to the Greatest Heaven Sect, causing a devastating blow to the reputation of the Greatest Heaven Sect, and the impact would last the next few decades, hundreds or even longer. This was why some people who were unwilling to be suppressed started to move.

Although in the current situation, the loss of a dacheng stage master does not cause much loss to the Greatest Heaven Sect's strength, but the loss in reputation was definitely something that the Greatest Heaven Sect cannot make up for with ten or twenty dacheng stage masters.

When the Greatest Heaven Sect, who prides itself as the leader of the dao sects, loses its morality and righteousness, it would no longer be qualified to criticize others.

The sect began to have different voices. Questions were raised about the response measures of the sect master and several core elders this time.

Sect master Li was originally angry with the previous news, and now he was having a headache on how to deal with the aftermath, but at this point, the backyard of the sect caught fire again, and the few who spoke were all dacheng stage elders. There was such a large wave of forces and they were all competing with the existing core elders for positions.

If it was before, if sect master Li and several elders joined forces, they would definitely be able to depress these thorns, but now they couldn't. Their decision-making has brought irreparable losses to the Greatest Heaven Sect, so they naturally have less confidence.

The entire Greatest Heaven Sect's elders meeting became a mess. Someone must first discuss and resolve the current dilemma. Some people wanted to hold certain people accountable, and some quietly drew other elders to strengthen their own momentum. The dignified Greatest Heaven Sect council of elders has never been so absurd.

After the news spread, some Greatest Heaven Sect disciples who had been practicing outside immediately felt that the eyes of the people around them changed a little. Although there was still some awe, but it didn't have the previous flattering, and instead has a sense of unclear defense.

They couldn't help but think that this was the consequence of Elder Hu's plot to seize Yang Chen's alchemy secrets. If the upper level members was not virtuous then the lower level members was

crooked, and the uppermost elders of the Greatest Heaven Sect were all having this virtue, and the ordinary Greatest Heaven Sect disciples were definitely not much better. If it weren't for the Greatest Heaven Sect's huge strength that people couldn't ignore, it was estimated that these outside Greatest Heaven Sect disciples would definitely be attacked.

Compared with the chaos in the Greatest Heaven Sect, the Pure Yang Palace, Green Jade Immortal Island and Blue Cloud Sect were in a good mood waiting for the show to unfold.

From the very beginning, the Greatest Heaven Sect spread the news, accusing and spilling dirty water on the Pure Yang Palace and Yang Chen, the three sects were very tacit, and all responded with silence until the Greatest Heaven Sect swore to prove that Elder Hu had been cultivating in seclusion. After that, the truth was announced.

Years of experience in secret struggles made the Island master and Elder Shi look at Yang Chen like a monster after hearing Yang Chen talk about this small plan. Such retaliation was simply the downfall of the Greatest Heaven Sect. As long as the Greatest Heaven Sect accidentally jumped in, it would be a big stain that could no longer be washed away.

Based on the understanding of the Greatest Heaven Sect by the two sects, the Greatest Heaven Sect would definitely jump into this dirty puddle. Unexpectedly, Yang Chen who has been devoting himself to alchemy has such a keen mind. No wonder the Pure Yang Palace wanted to appoint Yang Chen as their young palace master. It turns out that Yang Chen really has this ability.

No one could describe the happiness of the three sects. Not to mention the Pure Yang Palace, Green Jade Immortal Island and Blue Cloud Sect alone, after so many years of fierce battles, even if the two major sects did not suffer much, they did not take much advantage. Now it's just a matter of two Jiedan stage younger generation juniors being injured made the Greatest Heaven Sect pay the price of a dacheng stage elder, not to mention, they also suffered an immeasurable dark loss, why would it not make people happy enough to want to celebrate?

It seemed that everything was made possible by the little guy Yang Chen. In the previous secret incident, the two major sects took advantage and got enough resources. Not to mention the benefits, they cleaned the interior and consumed several dacheng stage masters in the Greatest Heaven Sect. The relationship between the three sects has further improved.

It could be said that Yang Chen was the lucky star of the two sects

Chapter 457.1: Face Retaining Pills

No one could refute this and they could draw this conclusion by counting the benefits Yang Chen has brought to the two sects.

The blood demon vine that trapped elder Hua of the Blue Cloud Sect was helped by Yang Chen. The eighth metal true secret art was discovered by Yang Chen. The talented disciple Sun Qingxue also was helped by Yang Chen. The income of the hundred thousand mountains was brought by Yang Chen. It was also hinted by Yang Chen that even the dozen or so Yuanying stage praying mantis corpses brought back by Sun Qingxue were found with Yang Chen.

The same was true for the Green Jade Immortal Island. Shi Shanshan's troubles were solved by Yang Chen, her heart devil was helped by Yang Chen, and the seabed spirit medicine was slowly developed by Yang Chen. The hundred thousand mountain and secret plane incidents also had Yang Chen's indispensable shadow.

Of course, the most important thing was that, whether it was the fifth grade lingzhi mushroom jade pills or questioning inner heart pills, all were from Yang Chen. In recent decades, the strength of the two sects has soared, and they were completely inseparable from Yang Chen.

Even if such an excellent junior couldn't be brought back to their sect, it was always a good thing to form a relationship with him. What's more, Shi Shanshan and Sun Qingxue had already been secretly promised to Yang Chen for marriage, which was also good for the sect. No one would be foolish enough to refuse.

Now the people of the two major sects were worried about two things. One was the situation of the two women, whether Yang Chen would hold the wedding as scheduled, and the other was how effective Yang Chen's face retaining pill would be.

As for the Greatest Heaven Sect, they would let them have a headache. The previous wrong decision has made them lose face. Next, they may be desperate, disregarding the prestige and reputation they have accumulated before, and angrily fight the two major sects. Or pull down their face to apologize, and then pull out a high-level top ranking member that was at least the level of the master of the foreign affairs hall, to blame for this wrong decision.

Either way, in short, they were too unlucky. Even if it was a war, the two sects were not afraid, not to mention that the combined strength of the two sects was already stronger than that of the Greatest Heaven Sect, and the two sects were already ready to fight after the first note was sent.

The most important thing was that the two sects occupy the righteous ground and the moral commanding heights. The Greatest Heaven Sect would be causing a war outbreak without a cause, which determines that they would never have the upper hand when facing the two sects.

After arranging everything, the island master did not return to the Green Jade Immortal Island, but waited in the Pure Yang Palace. In fact, except for the experts who had to return to the sect to control the sects affairs, basically all the experts who came to the Pure Yang Palace this time stayed in the Pure Yang Palace.

On one hand, it was to prevent the Greatest Heaven Sect from jumping over the wall to launch a surprise attack on the Pure Yang Palace, on the other hand, it was to collectively wait for the release of Yang Chen's face retaining pills.

Yang Chen couldn't imagine how attractive the face retaining pills he mentioned were to the two basically female sects of the Green Jade Immortal Island and the Blue Cloud Sect. He just thought he wanted to restore the appearance of his two fiancées, so he was attentively refining.

The Greatest Heaven Sect's reaction was basically under Yang Chen's guess, so there was no need to consider outside matters at all. Now it was the time to concentrate on refining the face retaining pills.

Shi Shanshan and Sun Qingxue were still taking 10 portions of the lingzhi mushroom jade pill every other time. The meridians in their bodies were slowly improving, but the improvements were limited. It could only be said that it was stable and rising, and it was still far from complete recovery. If the two women weren't worried about their appearance, Yang Chen would have already started treating the two women.

The face retaining pill left by Fairy Chang'e was definitely not so easy to refine. With the appearance of Fairy Chang'e, he didn't know how many treasured medicinal materials were collected in the heavenly court to refine it. It must be known that it was the spirit medicine in the Immortal world, which was of higher quality than the spirit medicine of the mortal world. Naturally, her pill recipe was also very demanding.

In terms of medicinal materials, Yang Chen could only use the spirit medicine of the mortal world that had matured for thousands of years to refine the face retaining pill. Even so, the efficacy of the pill was still much worse than that of the heavenly court spirit medicine. However, it was absolutely possible to let the mortal world cultivators stay young forever in the mortal world.

The method of alchemy, Yang Chen had the reference of the elderly lord pill scripture, and his previous life experience was more than enough. His ability to control fire was even more outstanding, even stronger than Fairy Chang'e back then. Speaking of it, refining the face retaining pill should be a breeze.

But Yang Chen still underestimated the importance of beauty to women. The complicated and tedious process of the pill recipe for the face retaining pill would make people almost vomit blood.

In Yang Chen's understanding of pill recipes, sometimes, it was just to increase the perfection of the skin, but Yang Chen felt that no one would notice the effect. Fairy Chang'e added at least to the pill recipe more than a dozen cumbersome steps and meticulous craftsmanship which have plainly increased the difficulty of the alchemy by at least 30%.

If there was only this then it would be ok, the problem was that there have been at least forty times like this, and every small step can't have the slightest error, making the overall difficulty of refining more than ten times more difficult. And the time for the refining has increased five or six times and it takes at least half a year to refine this beauty pill.

Things were not over with the Greatest Heaven Sect, and Yang Chen really has no intention to simplify these tedious steps. It was not a small project. Therefore, using the method of Chang'e face retaining pill recipe step by step, he started refining the first face retaining pills.

If Fairy Chang'e knew Yang Chen's simplified thoughts, she would definitely climb out of the immortal executioner stage and slap Yang Chen severely. The fairy knew how much effort it took to optimize the original face retaining pill, which had a good effect, to the present point. Yang Chen wanted to simplify the refining and weaken the face retaining pill effect, what a slap in the face.

Not to mention Fairy Chang'e, just let the women waiting outside know, it was estimated that it would not end well for Yang Chen.

Yang Chen has been refining the face retaining pills during the period when the three sects sent the three notes to the Greatest Heaven Sect. Until the Greatest Heaven Sect was in a state of desperation and chaos, Yang Chen's face retaining pills was finally released.

As soon as he came out of the alchemy room, he saw a group of people led by the Palace Master, Gao Yue, Gongsun Ling, Shi Shanshan and Sun Qingxue. The Island master and Elder Hua were also on the sidelines. Yang Chen was shocked directly.

"What happened with the Greatest Heaven Sect?" Yang Chen immediately asked subconsciously. With so many people gathered, apart from the changes in the Greatest Heaven Sect, Yang Chen couldn't think of any reason why these people could be at the entrance of the alchemy room.

"Is the face retaining pills refined?" To Yang Chen's surprise, the island master of the Green Jade Immortal Island, who should pay the most attention to events like the Greatest Heaven Sect situation, turned out to be the first person to ask about the face retaining pills.

Chapter 457.2: Face Retaining Pills

"You are all waiting for the face retaining pills?" From the fiery eyes of the other women, Yang Chen saw some facts, but still couldn't believe it.

"Of course, what do you think?" Elder Hua snatched the small jade bottle containing the face retaining pills from Yang Chen, opened it directly, looked inside and immediately frowned: "How come there are only two?"

Yang Chen only refined for his two fiancées so of course he refined only two pills. He didn't think much about this and he subconsciously followed this amount. The ten thousand years spirit medicine doesn't fall from the sky, and if he could save it, he would save it.

Obviously, this situation made the ladies headed by Island master and Elder Hua very unhappy, but they didn't say much. Two would be two, at least they must first see the effect.

Sun Qingxue and Shi Shanshan were checked again by Yang Chen and after confirming that their injuries were stable, they each found a quiet room and took the medicine.

The effect of the medicine was not a short-lived matter. When the women waited for the effect of the medicine to work, Yang Chen was finally able to come to the side with the palace master and chatted about the recent situation of the Greatest Heaven Sect.

“The Greatest Heaven Sect had a bad intention, and it seems that they had a heart to destroy my sect.” Listening to the master of the palace, he talked about the movements of the Greatest Heaven Sect, especially when he heard some people faintly pointed at the Pure Yang Palace, Yang Chen couldn’t help but snort coldly.

“There is news from the wine immortal house that some unidentified experts have gathered in a place thousands of miles away from Meiqing Mountain, and they seem to want to attack my sect.” The master of the palace nodded. The wine immortal had secretly joined the Pure Yang Palace. As a result, Pure Yang Palace’s information to the outside world was so well informed, if there was a little bit turbulent outside, the news was immediately presented to the palace master.

“Elder wine immortal is okay in his cultivation now?” Yang Chen hadn’t seen the wine immortal for a long time. Hearing the palace master talk about the wine immortal house, he naturally asked.

“Thanks to you, he has now begun his seclusion and intends to hit the threshold of the dacheng stage.” When the palace master talked about the arrival of the wine immortal, a smile appeared on his face.

Although the wine immortal only secretly joined the Pure Yang Palace, with the help of the questioning inner heart pills, it seemed that he was on the verge of reaching the dacheng stage. The Pure Yang Palace would have another dacheng master. Although it was secret, it was enough to make the palace master happy. Especially if the wine immortal became a master of the dacheng stage, the wine immortal house would naturally rise, and what would follow would be a series of benefits.

“What’s the answer from the Greatest Heaven Sect now?” Yang Chen asked anxiously, without asking what kind of confession the Greatest Heaven Sect had this time.

“The third note has only been sent to the Greatest Heaven Sect for ten days, and no one has come back. They have not responded yet.” The head of the palace master was not as impatient as Yang Chen, and sat very calmly.

He couldn't blame Yang Chen, he has been refining and he didn't know the news from the outside, he didn't know how far things have progressed, so he felt a little impatient.

Hearing the words of the palace master, Yang Chen also fell silent. Suddenly his heart moved, he once again asked the palace master "How many of those experts gathered, what realm do they have and are they still there now?"

"There are more than 400 people, of which there are more than 80 Yuanying stage ancestors, and the rest are all at the peak of the late Jiedan stage." After thinking about it, the palace master replied "However, it is said that there are still people. As we rushed over there, they were all people from small sects and rogue cultivators."

Thousands of miles away from Meiqing Mountain. If there was a better flying magic weapon, it would only take a few hours to reach Meiqing Mountain. This was clearly a plan to do something, and he just waited for the Greatest Heaven Sect to speak.

"Is there no master in dacheng stage among them?" Yang Chen was still a little puzzled, relying on dozens of hundreds of Yuanying stage ancestors would not be enough to destroy the Pure Yang Palace. It was known that there were two dacheng stage masters in the Pure Yang Palace now, and sending so many Yuanying stage ancestors here was nothing short of being futile.

"The whereabouts of the masters of the dacheng stage are difficult to grasp, and it is impossible for the people in the wine immortal house to find them." The master of the palace shook his head. He did not believe that the other party would not dispatch the masters of the dacheng stage, but the people of the wine immortal house obviously could not trace dacheng stage masters. The presence of such a master would be unknown, unless the master showed up intentionally.

"Maybe it's a repeat of the old trick. There are a few great elders who have been in the Greatest Heaven Sect for a long time. No one knows what they look like. They may appear on our side when they do it." Yang Chen knew quite a few of the secrets of the Greatest Heaven Sect, at this time he immediately thought of this key point.

The reason why the Greatest Heaven Sect has always ruled the mortal world was that in addition to its revealed power, there were also a large number of secret disciples scattered among various minor sects and rogue cultivators. However, these were not the ultimate force, the ultimate force of the Greatest Heaven Sect was an unknown number of great elders.

These great elders were dormant in the secret formations deep in the Greatest Heaven Sect. With their strength they could already ascend immediately, but were relying on some mysterious formations to force their cultivation to be suppressed. At the peak of the dacheng stage, they do not trigger the heavenly tribulation and hide their cultivation base, only to secretly protect the Greatest Heaven Sect or take action after encountering certain major enemies.

These old guys, who were extremely hidden, were very powerful. Maybe elder Wu Xiong before crossing the tribulation was not necessarily the opponent of these old guys.

These guys were all loyal to the sect. Every time before they could ascend, they would voluntarily guard the sect for hundreds of years and then ascend. The experts accumulated by the Greatest Heaven Sect for tens of thousands of years were absolutely terrifying numbers.

In fact, not only the Greatest Heaven Sect, the Green Jade Immortal Island, Blue Cloud Sect and other major sects also have such great elders, but they did not have many great elders like the Greatest Heaven Sect, so their ultimate strength was still a lot worse.

If the Greatest Heaven Sect used these people, it wouldn't need to be too many, as long as one made a move, Master Wang Yong and the old tree demon could be suppressed, and there might be life or death concerns.

But after using them, it was not without consequences. Once these old guys made a move, they would soon trigger the tribulation, so they would not easily do it. They would only use it when the sect needs it. Once these people were really used, when the Pure Yang Palace was destroyed, this was a great elder who had been in seclusion for many years and finally broke through the bottleneck. Who could doubt the Greatest Heaven Sect?

It was a pity that the Greatest Heaven Sect just said that Hu Qianyi was in retreat, and it was said that Hu Qianyi was captured alive. Once this happened, it was not so easy for the Greatest Heaven Sect to use the same technique to cover it up. That's why it has been delayed until now, and they haven't done anything yet.

When Yang Chen was discussing with the palace master, there was a commotion among the girls over at the other side, Shi Shanshan and Sun Qingxue had already exited the quiet room.

Chapter 458.1: Effect Of The Face Retaining Pills

The ladies over there were just agitated at first, and then all fell silent. The lowest level of cultivation base that was among them was the Jiedan stage so they won't be shocked like ordinary women.

Yang Chen could feel it without even looking, when Shi Shanshan and Sun Qingxue walked out and then they heard a sound of inhalation. Then the two women were surrounded by the girls and there was no shadow of them from the outside.

Yang Chen would never doubt the effect of the face retaining pills. The daily maintenance of Fairy Chang'e was definitely something that made the female fairies of the heavenly court jealous almost to the extent of vomiting blood. This beauty pill was definitely the top magic weapon for women to maintain their beauty.

Unfortunately, Yang Chen's impression of Fairy Chang'e was not particularly stunning. One couldn't do anything about it, the beauty sent to the immortal executioner stage, no matter how graceful and peerless, she was captured after a bitter fight, she was wounded and in an extremely difficult situation, so how could she still maintain her status as the cold and proud fairy of the moon palace. In Yang Chen's eyes, Fairy Chang'e was unworthy of her fame.

Because of this first impression, Yang Chen certainly didn't expect much. At least in his eyes, those boring medicines were used to increase the effect by one percent but had to pay 100% of the hard work. The effect was certainly good, but if he refines it again, he would definitely greatly simplify the pill.

Thinking like this in his mind, Yang Chen still wanted to see the actual effect. It's just that the ladies who surrounded the two women seemed a bit strange, standing there one by one without saying a word, it was really elusive what happened.

"Gosh!"

"Unbelievable!"

...

Just when Yang Chen thought that the most powerful women in the world had a collective hysteria. The girls who surrounded the two women seemed to wake up from a dream, and exclaimed for a while.

Yang Chen and the palace master looked at each other, and the palace master looked at Yang Chen. Turning his head at him, motioned for him to go forward. After all, it was his fiancée, and it was justified to go up and see. On the contrary, it was not easy for the palace master to approach them, so he could only stand here and wait quietly.

On this occasion, the island master and elder Hua were present and it was very rude to probe with spiritual awareness. Therefore, no matter how curious the palace master was, he did not dare to easily use his spiritual awareness.

When Yang Chen walked over, the footsteps were deliberately heavy. It also indirectly reminds these seniors except for his fiancée.

Sure enough, hearing the sound of Yang Chen's footsteps, the women spontaneously stepped aside for him and he walked easily in front of the two women who had just come out of the quiet room.

The beauty pill was really effective, this was the thought in Yang Chen's mind after first seeing it. Shi Shanshan and Sun Qingxue, as expected, had restored their youthful appearance, they were the same cold and unparalleled beauties and they had the same charm.

No, there seems to be some small differences. Looking carefully, it seemed that the skin of the two women was slightly more delicate than that of the previous, and the body looks slightly smoother. Of course, it was only a little change. In Yang Chen's eyes, the two women were still the two women in his memory, unchanged.

Looking at the two women. There should be no other changes, and the injury has not worsened. But the exclamation of the girls just made Yang Chen a little uncertain, so he subconsciously stretched out his hand, grabbed the nearest Sun Qingxue's jade wrist and began to examine her pulse carefully.

Yang Chen's actions caused the women around him to laugh, but Yang Chen still didn't understand why the women were exclaiming. Was it just because the two girls became younger?

In fact, there was no need for the face retaining pills. People with cultivation bases like them could achieve the same effect by directly using some spirit medicines. It's just that these spirit medicines were quite rare, but with the abilities of these people in front of him, no matter how precious the spirit medicine was, wasn't it a matter of saying a few words?

Sun Qingxue's pulse was all normal, except that her injured meridian still maintains that kind of injury, there was no other change.

Yang Chen breathed a sigh of relief, as long as nothing happened. Then, he reached out to Shi Shanshan. In the presence of so many people, he has not yet reached the point of unscrupulously using his spiritual awareness to probe the bodies of the two women.

Shi Shanshan was trying to put up a little bit of resistance, especially in front of so many elders, but Yang Chen seemed to be very persistent, and she hesitated for a while, letting Yang Chen hold her jade wrist, a red glow appeared on her face.

Shi Shanshan's skin also recovered the tenderness of her youth, holding it in his hand, the slippery feeling made Yang Chen a little bit entranced. When he first held Sun Qingxue, Yang Chen didn't care. He always treated Sun Qingxue as a little sister, and he didn't have any ambitions. But now holding Shi Shanshan, he had a different feeling from Sun Qingxue.

In front of so many elders, this was not appropriate. Yang Chen quickly suppressed the thoughts in his heart and focused on checking the pulse, fortunately no one could see it.

After a while, Yang Chen could finally be 100% sure that Shi Shanshan had no effect on the injury except for the recovery of her appearance after taking the face retaining pill.

As it was a face retaining pill, without any side effects, except to restore the best moment of appearance, there was no other effect. In Yang Chen's eyes, it was indeed a kind of pill with extremely uneven input and output, so these medicinal materials were enough to produce the same amount of questioning inner heart pills.

After confirming the efficacy of the medicine, Yang Chen didn't understand why the masters of the dacheng stage and Yuanying ancestors all made such exclamations, even his other two fiancées, his master Gao Yue and senior apprentice sister Gongsun Ling.

He didn't understand, but obviously it's not a good time to ask clearly now. Didn't he see the fiery eyes of the girls as if they were going to swallow him alive? Yang Chen was not a dumb person, and knows when to do what.

"The effect of this pill is still barely okay!" Yang Chen could only smile a little wryly, and gave such an evaluation of the women.

"Barely?" Sun Qingxue's master, Elder Hua Wanting, directly shouted in a tone that Yang Chen hadn't even expected "Is this still okay?"

Elder Hua was the first to jump out, followed by all the ladies, looking at him with a monster's eyes. That kind of gaze reminds Yang Chen of a beast that has seen food without having any hesitation.

"I want one pill!" The Island master said more directly and domineeringly than Elder Hua Wanting "You say your price!"

As soon as the voice of the island master fell, the same request immediately evoked everywhere.

"I want one too!"

"I also want one!"

"I want three!"

...

Facing the group of requests, Yang Chen looked inexplicable, this pill, was it so popular?

Chapter 458.2: Effect Of The Face Retaining Pills

Yang Chen had no way to understand the madness of the girls. That's right, it's crazy. Even the island master, whose words could make people tremble and Elder Hua Wanting, a master of the dacheng stage, it's actually useless for them to get pills which could only change their appearance with their cultivation base.

There was no such thing as a master of the dacheng stage, and no demeanor of the island master of the Green Jade Immortal Island, this situation was really unbelievable. How could this face retaining pill make these high-ranking women so crazy? Just because they could change their face?

In Yang Chen's opinion, the reason why Shi Shanshan and Sun Qingxue were a little better than before was that in addition to the effect of the face retaining pills, after the pulse calming powdered medicinal pill diverged their spiritual power, they were soaked in the four seas mysterious coral liquid for dozens of days. For a certain reason, the more impurities in the body that were removed, the better the natural skin performance would be, this was quite normal.

But it's not like this, right? Seeing how the women looked, if Yang Chen didn't agree, he wouldn't be able to pass this situation, making it difficult for Yang Chen to refuse for a while.

"Ahem!" The palace master understood the women's mentality better than Yang Chen, and made two coughs in time, attracting the attention of the women.

"This, everyone should stay calm." Seeing everyone looking at him, the palace master gave a light cough and slowly said "It is not difficult to find Yang Chen for alchemy. The cooperation of several of our sects is also not so easily broken. In this way, everyone should first listen to the medicinal materials needed for this pill, and then go back and get ready to talk about it."

Although the head of the palace master did not explicitly say that Yang Chen would still need compensation for alchemy. But asking everyone to prepare medicinal materials, it was a brief reminder to all the ladies.

Except for Yang Chen's fiancée, the other women immediately remembered the rules of asking for alchemy. They could not help but be startled, Yang Chen was not an alchemist who could just agree to help others to make alchemy. This was the only fifth grade alchemist in the mortal world. According to the public statement of the Pure Yang Palace, it would take 25 years to make alchemy once, and he was paid a lot.

But since the head of the palace master said so, Yang Chen would definitely give face to everyone, there was no doubt about this. Needless to say others, just the other two fiancées of Yang Chen must also require some. At that time, Yang Chen only needed to refine them together. As for remuneration, it would be whatever Yang Chen wanted.

Women could pay any price for their looks, even for women who were masters of the dacheng stage. At this time, everyone had consciously put aside any rewards and other things, and only wanted the pill. What Yang Chen wanted was only trivial.

In the eyes of the palace master. The performance of these women was like handing over blank checks with no upper limit to Yang Chen and the Pure Yang Palace, this was a good thing. How could the palace master be unhappy?

“What medicinal materials are needed, tell me!” Elder Hua urged without waiting for a moment to pass “I’ll have someone prepare it right away.”

“Ginseng, Polygonum multiflorum. Scutellaria, Panax notoginseng, Acanthopanax senticosus, Angelica, Angelica dahurica, Baifengzi. Fangfeng, these will be enough.” Yang Chen reported the required medicinal materials almost without exception, all the girls were engraving on jade slips with their spiritual awareness. Of course, there are a few people who don’t need to record, Gao Yue, Gongsun Ling, Shi Shanshan and Sun Qingxue, they don’t have to worry about not remembering.

With the medicinal materials mentioned by Yang Chen, the expressions on the faces of the women became more and more relaxed. They were all ordinary medicinal materials and they were not unbearable things to obtain.

“But...” Yang Chen’s words caused all the women to lift their hearts to their throats at the same time, for fear that Yang Chen would say something that could not be done. Fortunately, Yang Chen just added an explanation “You must wait a bit longer.”

The age of the medicinal materials was of course the longer the better, at least in the eyes of the women. Needless to say, they would follow Yang Chen’s supplementary statement.

Subconsciously, the Island master asked “What kind of maturity is needed to achieve the effects of Shanshan and Little Xue?”

In a word, all the women's attention was drawn to Yang Chen again. Being stared at by so many women with high or low status and high or low cultivation base level, Yang Chen also regarded it as the first time and immediately replied "The two pills were made with medicinal materials with ten thousand years of maturity."

Brushing, the whole scene quieted strangely, all the women seemed to lose their interest in talking and even stopped breathing. The scene was so quiet that if a needle dropped on the ground, the sound could be heard.

After a while, Yang Chen heard a sound of people breathing in the cold air.

"Ten thousand years, you are really something!" The island master finally smiled bitterly. It was beyond the control of the island master from smiling bitterly. Even if she was the island master of the Green Jade Immortal Island, there was a certain amount of pressure to come up with such a variety of medicinal materials. If it was for the questioning inner heart pills, there was definitely no scruples, but just for the face retaining pill, the island master has to consider the thoughts of other elders.

"What will the effect be if the maturity is lower?" Elder Hua also fell silent, but she still asked hopefully "For example, if it has a thousand years of maturity?"

This question was something all the women wanted to know. Everyone pricked their ears to listen, for fear of missing a word. No one dared to speak, for fear of disturbing Yang Chen.

Faced with such a situation, Yang Chen couldn't help but sigh. Even when discussing dealing with the Greatest Heaven Sect, he didn't see them being so cautious and paying so much attention!

"The specific effect is not very clear, but I guess that the effect of the pill can only last for hundreds of years." Yang Chen gave a relatively cautious answer after thinking slightly.

"What about after the effect of the pill?" Elder Hua asked hurriedly again, with a lot of joy on her face. It's not easy to get the ten thousand years medicinal materials, but it's easier to find the thousand years medicinal materials, but there was one more key question, Elder Hua immediately asked "Would there be any decrease in effect if I take it then?"

Not only Elder Hua, but the other girls all had the same relieved expressions. However, Elder Hua's question was definitely the most fundamental point that everyone cared about and it was forbidden that the women do not take it seriously.

"That's naturally useful." Yang Chen replied without hesitation. This kind of pill was a long-term beauty treatment, and it doesn't exist after taking one. But was it really worth using so many thousand year medicinal materials to refine the face retaining pills?

Yang Chen's answer directly detonated all the women present. If it weren't for their own identities, maybe they would cheer. But even so, everyone was smiling, and the temperature at the scene seemed to have collectively increased by several degrees.

"Yang Chen, when can you start another refining?" The island master was already feeling a little bit unbearable and immediately couldn't wait to ask this question.

Chapter 459.1

This was obviously an additional opportunity for Yang Chen to make alchemy in addition to the refining once in twenty-five years. Regarding this, the palace master just now seemed to have expressed his views, so Yang Chen would not refuse.

"When you have all the medicinal materials and solve the problem with the Greatest Heaven Sect, this junior will immediately make a refining of the face retaining pills." Yang Chen replied quickly, without any hesitation.

The medicinal materials needed to be gathered together, this was natural, it was impossible for Yang Chen to gather the medicinal materials by himself. As for solving the matter with the Greatest Heaven Sect, this was even more necessary, not to mention the Pure Yang Palace, Green Jade Immortal Island and Blue Cloud Sect also attach great importance to this.

The reason why the island master and elder Hua have stayed in the Pure Yang Palace was firstly for the convenience of communication, and secondly, to prevent accidents. The Greatest Heaven Sect's subsequent actions were predicted by the two major sects. Before the third letter was issued, all kinds of spearheads were directed at the Pure Yang Palace. If it wasn't for the island master being here, maybe they would have already attacked.

This was also the reason why when Yang Chen and the palace master were discussing the current situation in the Greatest Heaven Sect, they did not hide it from the island master.

The conversation between the two basically belonged to the content that could be known by the Island master. The Pure Yang Palace paid the price to buy news from the wine immortal house, this was a normal transaction. Almost all sects had similar transactions with the wine immortal house.

As for the questioning inner heart pill helping the wine immortal to hit the threshold of the dacheng stage, it was easier to explain. The questioning inner heart pill was the price of the transaction between the Pure Yang Palace and wine immortal house, and only this price could be exchanged for such careful service from the wine immortal house.

Speaking of it. Those experts who gathered did not rush to Pure Yang Palace in one fell swoop to bring the disaster of destruction to the Pure Yang Palace, they still had to thank the island master and the others for their stay in the Pure Yang Palace.

Even the Greatest Heaven Sect had to weigh the consequences of attacking the Pure Yang Palace at this time. If it was the Pure Yang Palace alone, it would have been attacked by now. The Greatest Heaven Sect had the previous foreshadowing and there would be no worries, but if they dared to take the initiative in front of the Island master, that's another matter. If they don't want to cause a melee among the three major sects, the Greatest Heaven Sect must be honest and not dare to act rashly.

Now that the third wave of notes has been issued, the Greatest Heaven Sect no longer had a righteous reputation. Naturally, the crisis was resolved. Although even if the opponent attacks, the Pure Yang Palace was not without the power to resist, but this kind of thing still has to be considered as a big favor. Helping to refine a furnace of the face retaining pills was the best payment as a return.

This furnace of the face retaining pills. The palace master even thought about it, except for the raw materials, it would be without any compensation. On the one hand, it was to repay favors, on the other hand it was to advertise.

Yang Chen didn't know why the girls were so crazy, but the head of the palace master was very clear about it. It was estimated that no woman would not want permanent youth. Especially in the Green Jade Immortal Island and Blue Cloud Sect, these two sects were mainly for women. Even the Island

master and Elder Hua would want to use the face retaining pills, were they afraid that others would not buy it at a high price?

The face retaining pill was simply another huge profitable business for the Pure Yang Palace after the second grade inner sensing pills, and there was no need to worry about lack of customers. If they took one pill every 100 years with so many women add up, what would be consumed was by no means an ordinary amount.

Naturally, Yang Chen, who was the alchemist, would definitely become the most popular alchemist in this mortal world. Which sect has no female cultivators? As long as there were female cultivators, there would be a market.

The face retaining pills were used by female cultivators, the second grade inner sensing pill and the questioning inner heart pill was for all the cultivators. Was there any alchemy sect that was more powerful than the Pure Yang Palace? Even in the heyday of the Pill Cauldron Sect, it was impossible that so many sects would crave for their refining at the same time?

The women who got the guarantee were naturally happy, and all of them began to send people to collect the medicinal materials, with Yang Chen's promise. After no longer worrying about the face retaining pill, everyone's focus has returned to the situation of the Greatest Heaven Sect this time.

"How will the Greatest Heaven Sect respond this time?" Elder Hua has been waiting for the news to come back, but now he has just sent the note to the Greatest Heaven Sect for only ten days and everyone could only wait until there was feedback.

"I'm afraid there are several high-level officials in the Greatest Heaven Sect who will pay for it." The Island master was the head of the Green Jade Immortal Island. Naturally, she also knew how to minimize the loss when encountering this kind of thing and also to maintain the reputation of the sect. It could be said that they could come up with one or two important characters and let them take the blame, then resolve the matter.

Hu Qianyi, who was captured alive, was definitely going to pay, the Greatest Heaven Sect had to give up on Hu Qianyi. They had to calm the anger of the three sects, one person did the things and one person should pay for it. It's just a pity that the life of a dacheng stage master only had to be traded with the cultivation base of two Jiedan stage juniors, which was really a bad loss.

It's just a backlash before. It was estimated that they would introduce a heavyweight to let him admit that he had concealed the facts without the consent of the sect, take the blame and step down and accept the punishment of the sect and then the Greatest Heaven Sect would pay a certain amount of compensation to the three sects, thus ending this thing.

Disobeying of the sect rules should not be too light, at least the level of cultivation base being abolished, otherwise it would be difficult to block the mortal world's leisurely mouth. As the largest sect, they must have the style and demeanor of the largest sect to deal with their own people, they couldn't be soft.

The reputation that has been damaged, of course, could only be remedied bit by bit by time and re-establish the reputation of the Greatest Heaven Sect. This was a long process and wouldn't be effective in a short time.

In any case, the Greatest Heaven Sect has suffered heavy losses this time. The life of a dacheng stage master, an elder-class expert would be deposed and the sect's reputation was discredited. This time, the blow to the Greatest Heaven Sect was no less than that of the sect gate explosion that year.

They just don't know which guy would be unlucky and would be pushed out. It was estimated that it would be someone who has failed in the struggle for power, but as long as it was a struggle, there would be losses. The losses inside the Greatest Heaven Sect were far more than those seen outside.

Speaking of the two major sects, they were already very satisfied. They have fought with the Greatest Heaven Sect for so long, and the ones who really have the upper hand were those with Yang Chen. The secret plane incident was counted once, this time was the second time and the two major sects were also unsatisfied with the results this time also.

"That's the only way!" Yang Chen was a little disappointed. Although he knew that the island master was right and the situation would basically develop in this direction, he still felt unwilling. Two of his fiancées were wounded like this and he didn't want to let them off so cheaply.

"What do you want?" Although Elder Hua was irritated, she was also a person who knew the importance. Hearing Yang Chen's disappointed tone, she couldn't help but asked angrily.

It's already like this, still not satisfied, what else did he want?

Chapter 459.2

Yang Chen looked up at the crowd, turned to the palace master and then turned to Elder Hua. After a glance, he finally fixed his gaze on the island master.

The Island master immediately realized that Yang Chen had something important to say. With a wave of her hand, the Island master ordered her entourage "You all leave first!"

With the example of the island master, how could Elder Hua not know what to do, she also waved away the people around her. Only the palace master, the island master, elder Hua and Yang Chen were left at the scene, and even the four fiancées of Yang Chen retired and went to the courtyard of Gao Yue to talk together.

The palace master, the island master and elder Hua placed a restriction around them and then focused on Yang Chen.

"Now there is no one else." Elder Hua said quickly "This old woman can represent Sect Master Lu with full authority, Yang Chen, if you have anything to say, just say it!"

"It can't be so simple that we will let the Greatest Heaven Sect get away so easily." Yang Chen reiterated his thoughts again

"They just abandoned Elder Hu and a scapegoat, it's not enough."

"Do you have a good way?" When the Island master talked about business, she couldn't say anything calmly.

"Didn't the wine immortal house have news that a group of experts have gathered thousands of miles away from Meiqing Mountain?" A sneer appeared on Yang Chen's face "Seventy or eighty Yuanying stage ancestors and hundreds of Jiedan stage masters, presumably even the Greatest Heaven Sect will feel such a lose, right?"

Listening to Yang Chen's words, the three decision makers suddenly began to ponder. Everyone basically knew the existence of these people. The Island master and Elder Hua also guarded against these

people's attack on the Pure Yang Palace, that's why they stayed, but they haven't thought about eradicating all of these people.

Everyone knew that these people were members of the Greatest Heaven Sect. If they were eliminated, it would surely cause the Greatest Heaven Sect to counterattack. It would have been possible for the Greatest Heaven Sect to pay a certain price and settle the matter, but then they would have to face the anger of the Greatest Heaven Sect at any time, this didn't match with their original plan.

Everyone was estimating the Greatest Heaven Sect's reaction after doing this and the wider implications that it may bring. No one thought that Yang Chen would be so bold, taking the life of a dacheng stage elder and abolishing the cultivation base of another elder level master, even assassinating these people.

However, this also reflects Yang Chen's concern for Shi Shanshan and Sun Qingxue. Those who dared to hurt them, Yang Chen not only wanted bloody revenge, but also got involved himself. This thought was really rare, at least the Island master and Elder Hua felt that their disciples did not choose the wrong person.

"With so many masters being killed, won't it stimulate the Greatest Heaven Sect too much?" The Island master groaned and said slowly.

"The Greatest Heaven Sect?" Yang Chen asked in a pretended manner "Why does this concern the Greatest Heaven Sect? Which of these people is from the Greatest Heaven Sect?"

The three decision makers were taken aback and then all reacted. These people were either little-known disciples of the small sects or rogue cultivators, what relationship did they have with the Greatest Heaven Sect? Even if they were all dead, it would not be the turn of the Greatest Heaven Sect to jump out and gesticulate, right?

The Greatest Heaven Sect had arranged many hidden cultivators outside the sect, but they also had a fatal flaw. That was if there was a loss of these people, the Greatest Heaven Sect had no reason to make remarks about it. No one dared to move against them in the past and they don't know who were the experts who were secretly arranged by the Greatest Heaven Sect, but now that this group of people have jumped out, it would be a pity if they don't take advantage of it.

In fact, the gathering of those masters this time was quite a secret. The people in the dozens of miles around the gathering place were all killed and it shouldn't have been discovered.

They have to say that those people were also unlucky. It happened that a few disciples of the wine immortal house saw several different experts passing by in different directions and it seemed that their target was that area.

The people in the wine immortal house found it strange. After several high-level analysis and summary, a few wine immortal house disciples were sent to the area to inquire about news. However, under the deliberate blockade of the news from the Yuanying stage ancestors, the result was naturally that they never came back.

The loss of the disciple also made the people of the wine immortal house notice the abnormality. They dispatched a master who was proficient in invisibility and approached within a few miles, only then did he discover that the group of experts had gathered. And this time neither the Greatest Heaven Sect nor these masters themselves knew that the situation had been leaked.

The news from the wine immortal house was sent directly to the Pure Yang Palace, and only one copy was given to the Pure Yang Palace, there was no wind of it at all to other sects. Even the island master of the Green Jade Immortal Island and elder Hua only learned about it after the palace master told them.

Originally, they wanted just to guard against these people and did not intend to retaliate against them. But now that Yang Chen mentioned it, it made the three of them wake up like a dream. If this group of people were ambushed and killed, the Greatest Heaven Sect would probably cry even when they fell asleep.

"It's not so easy!" The palace master thought of something, frowned and said "There is always a reason to do it, right? Without a reason, wouldn't it be criticized? The Greatest Heaven Sect will use this as a reason to attack us to defend the weak, What would we do then?"

"How can there be no reason?" Yang Chen suddenly laughed "The captured Elder Hu didn't use the power of the sect this time and gathered these desperadoes privately, except for the desire to obtain the secrets of this disciple, they also wanted to seize the property of Meiqing mountain in the Pure Yang Palace. After Elder Hu was arrested, he confessed to these arrangements, so the Pure Yang Palace could only act first for self-protection. Isn't that reason enough for this?"

“To be honest, it’s not very good!” Elder Hua shook her head directly and gave a disdainful comment, but she added “However, it should be enough to deal with the Greatest Heaven Sect.” The words of Elder Hua made all four people present laugh.

“Actually, if we can kill them secretly, even if the Greatest Heaven Sect asks, we can also ask questions without admitting that we have done this. What can the Greatest Heaven Sect do?” Yang Chen also laughed, followed by a few more sentences.

“Secretly? It will be difficult!” The Island master frowned and shook her head “This old woman suspects that there is at least one strong old guy among them, it’s hard to tell if we can hold him.”

The old guy mentioned by the Island master was also the kind of ultimate force of the Greatest Heaven Sect that Yang Chen knew, the dormant great elders. Since the other party intends to destroy the Pure Yang Palace, they naturally prepared a long time ago. It was quite normal for one or two great elders to appear.

If they wanted to take the lives of these people, it was indispensable that the Blue Cloud Sect and Green Jade Immortal Island would also automatically use their own great elders. Anyway, the great elders who do their work afterwards would surely face their tribulations and as long as they could kill these seventy Yuanying stage ancestors, the two sects would not lose.

“Perhaps, the junior has something that can help.” Yang Chen once again said something that surprised everyone.

Chapter 460.1: Creating An Alibi

“Do you have a way?” The Island master’s eyes lit up for a while, but at the same time, there was also a trace of deep fear hidden within it.

If the Greatest Heaven Sect used those old guys, few people could be compared with those guys by strength. Unless the Blue Cloud Sect and Green Jade Immortal Island also sent their own treasured great elders. Even so, it could only be said that everyone would be fighting evenly and maintaining each other’s invincible situation.

But if they wanted to kill these people silently, that’s absolutely terrifying. Those who could kill the great elders of the Greatest Heaven Sect today, they would be those who could kill the great elders of the

Green Jade Immortal Island or Blue Cloud Sect tomorrow, the island master couldn't help but become afraid.

Thinking about it, what terrifying thing was it that could kill a dacheng stage master anytime and anywhere without him knowing it, the island master looked at Yang Chen with a different gaze because of this.

However, Yang Chen was on her side now. If Yang Chen could kill a supreme elder of the Greatest Heaven Sect silently, it would make them feel more heartbroken than killing dozens of Yuanying stage masters. This one great elder alone was equivalent to one-tenth the strength of the Greatest Heaven Sect.

Yang Chen naturally knew how shocking his words were, so he immediately explained with a smile "You seniors may be curious, how could this junior arrest Hu Qianyi alone."

"Didn't Wang Yong and Gui Shanyou act together to arrest him?" Elder Hua was shocked when she heard this. Hu Qianyi was captured by Yang Chen alone, she had always thought that it was the two dacheng stage masters from the Pure Yang Palace who had joined forces to capture Hu Qianyi, only now did she know that there was another hidden story.

The Island master was also somewhat skeptical. Both Wang Yong and Gui Shanyou have just been promoted to the dacheng stage only a hundred years ago. But Hu Qianyi was a veteran dacheng stage master, at least he had reached the mid-to-late dacheng stage level and it was obviously impossible for him to be captured alive by two early dacheng. But the fact happened before her eyes and she couldn't help but have to believe it.

Only now did she know that Yang Chen did it alone. This was even more shocking than the combination of two early dacheng stage masters. It was not a fantasy to capture an expert in the middle or late stages of the dacheng stage.

But the palace master of the Pure Yang Palace nodded silently, acknowledging all this. The Pure Yang Palace was now a partner of the two sects so it was impossible to lie about this kind of thing.

"How did you do it?" The Island master couldn't help but ask, she didn't even notice that there was a little tremor in her questioning voice.

“By the luck of this younger generation junior, I got a pill recipe for a certain medicinal pill.” Yang Chen replied honestly. It seemed that this was not convincing enough and he added “It’s very overbearing, crushing the pill will silently allow a dacheng stage master to not be able to move and within a dozen breaths, it could dissipate his spirit power.”

Hu Qianyi’s situation has been seen by the island master and elder Hua and it was indeed as if all his spirit power had been dispersed. Not only Hu Qianyi, but also Shi Shanshan and Sun Qingxue. However, the situation of the two women was different, their spirit power was dissipated, which just happens to not cause further injury to the meridians, but was a blessing in disguise.

It was estimated that the two women were affected by Hu Qianyi. When Yang Chen dealt with Hu Qianyi, the two women were also poisoned by this pill. Such a process was reasonable, otherwise, with Hu Qianyi’s ability, if the two women’s spirit power could be dissipated with such precise control, the meridians would not be injured like that.

“This pill is so powerful?” Elder Hua also paled. A dacheng stage masters spirit power could be dissipated within a dozen breaths, how could ordinary dacheng masters stop this?

However, this could also explain why Yang Chen captured Hu Qianyi unscathed. With this kind of medicinal pill, let alone Hu Qianyi, ten of him would probably not be his opponents. How could others think of things that they didn’t even know of?

“It is very great, but the raw materials for the refining are very rare. You need dragon bones and it must be the bones of poisonous dragons.” Yang Chen shook his head directly “I have only collected three bones in the mortal world and refined three pills, no matter how much am given, I can’t make another.”

Yang Chen repeatedly emphasized that there were only three, it was to reassure everyone. One couldn’t do anything about it, this kind of thing was colorless and tasteless. No one knows when they would be hit and if they were to always stay prepared against it, that was simply a nightmare.

The medicinal materials used was dragon bones, this was a lot of peace of mind for everyone. The dragon clan have long since disappeared in the mortal world, where would they find the bones of dragons?

Yang Chen had been in the East China Sea for a while, looking for submarine medicinal materials. Maybe by coincidence, he found some dragon bones. This was normal, but for them to believe that Yang Chen had countless dragon bones, they didn't believe it.

Yang Chen said that there were only three and everyone believed it. The bones of the dragon clan, and it must be the bones of the poisonous dragon, was it so easy to get?. With such a strong medicinal effect, it seems that only the pill made from the bones of the poisonous dragon was capable. Ordinary medicinal materials, even if they were ten thousand years old, how could they have such a powerful effect?

"You used one, and two more are remaining?" The Island master asked calmly.

"I used two. The first one was tested by this younger generation junior." Yang Chen replied with a smile "The second one was to deal with Hu Qianyi."

"Is there an antidote to this pill?" Elder Hua immediately discovered the problem keenly. Yang Chen used one to test the effect, but he was fine, and he was also fine with Hu Qianyi himself. There must be an antidote, otherwise he couldn't explain it.

"There is an antidote, but it is very troublesome to refine. This junior have insufficient skill and it will take at least 20 years of hard work to refine." Yang Chen nodded and replied.

This answer also caused the island master and Elder Hua to take in a cold breath. Yang Chen's lack of skill was a shortcoming, which was something no one could help. If it takes twenty years to refine the antidote, doesn't it mean that Shi Shanshan and Sun Qingxue would be such a waste for twenty years?

However, after another thought, it was not the case. The injuries of the two women would be pretty good if they could recover within 20 years. They don't have the physical background of a master in the dacheng stage and they couldn't even bear the effects of too strong medicinal pills.

It seemed that everyone had nothing to worry about. There was only one in Yang Chen's hand, if it was used this time to handle the Greatest Heaven Sect group, there would be no more worries about the pill.

There was no need to consider future risks, so everyone's interest would naturally shift to the immediate matter. With such a pill, it was indeed possible to make this group of people disappear without others knowing it, but the other party was a master who was about to ascend, how could they hide from his spiritual awareness and get close to the group without being noticed?

Chapter 460.2: Creating An Alibi

"How did you use the medicinal pill but you didn't poison yourself?" Elder Hua was more curious about this. Yang Chen was obviously fine, could there be an antidote?

"As long as the whole body is sealed with beeswax to prevent the medicinal qi from attacking you, it will be fine." Yang Chen lied without hesitation.

Elder Hua understood how to seal the whole body, not breathing or being contaminated by the outside atmosphere, was indeed very easy for a cultivator. The only difficulty was that it was troublesome to get close to the opponent.

The supreme elders of the Greatest Heaven Sect who they were now going to deal with were more powerful than any ordinary expert and it was not so easy to hide from them.

However, since Yang Chen was able to hide from Hu Qianyi, maybe there was really a good way to get close to these people without them knowing it and then apply the medicinal pill.

"This younger generation was lucky and got a magic weapon that can shield spiritual awareness." Yang Chen laughed and mentioned his trump card, giving the two masters peace of mind "As long as you can get close to the group, the effect of the medicine can be quickly displayed. It's just a matter of time."

With this guarantee from Yang Chen, it seems that dealing with those people was not so difficult. What could a group of masters who have lost their spirit power do, even if it was a peak dacheng stage master who was about to ascend. They could just send a younger generation junior in the foundation stage to go over and take care of them all.

Everyone's spirits immediately lifted up. Now it was no longer a question of whether it would work or not, but how to do it more secretly, so that the Greatest Heaven Sect had nothing to say.

Generally speaking, this kind of thing could be dealt with by not admitting it even to death. You said that many of your masters died there, we don't know! When the Greatest Heaven Sect gathered these masters this time, it was a secret operation. The Pure Yang Palace didn't know anything about what went on in their sect. No one could say that something happened thousands of miles away from the Meiqing Mountain and the Pure Yang Palace was responsible for it.

As for the Green Jade Immortal Island and the Blue Cloud Sect, that was even more nonsense. The sphere of influence of the two major sects, one was overseas, and the other was tens of thousands of miles away, how could it be possible to silently kill an elder of the Greatest Heaven Sect?

It was impossible for the Greatest Heaven Sect to slap themselves in the face and say that these people were sent to deal with the Pure Yang Palace, otherwise they would be even more unable to appease the Dao sects. They couldn't say anything, they could only suffer from this huge loss.

There was no reason to blame the Pure Yang Palace. Moreover, with the strength of the Pure Yang Palace, it was impossible to do this. Even if the Green Jade Immortal Island and the Blue Cloud Sect were to help, it was impossible to do such a thing in secret, there was no movement at all but dozens of Yuanying stage masters and unknowing number of elders were killed.

When something went wrong, the Greatest Heaven Sect could only look for the suspect, just like the last time the sect gate was destroyed, there has been no suspect arrested yet.

Although it seems that the Pure Yang Palace was the most suspicious, the Greatest Heaven Sect had no evidence and would not believe that the Pure Yang Palace could do this. If the Pure Yang Palace really has such strength, why should it be necessary to unite with the Green Jade Immortal Island and Blue Cloud Sect to directly attack the Greatest Heaven Sect, which would be enough to uproot the Greatest Heaven Sect.

Anyway, as long as the three sects were asked, they didn't know anything. Since the Greatest Heaven Sect was using a secret manpower arranged, they should check if anyone had leaked the secrets!

The island master, elder Hua and the palace master in charge of the situation carefully discussed the cause and effect, and even simulated the situation that might occur afterwards and realized that there were no flaws, so it was decided.

“So, we still have to trouble Yang Chen, you have to take care of it!” The Island master said to Yang Chen.

Yang Chen had the medicinal pill and a magic weapon to conceal and shield his spiritual awareness, so he was the best candidate to carry out this plan. No one dared to rest assured when it was replaced by someone else. The overbearing medicinal effect alone made people daunting. Other than Yang Chen, who knew better about that kind of medicinal pill? It could only be said that Yang Chen had to make another hard trip.

“After we arrange it, let’s begin!” Elder Hua said the same thing. She instructed Yang Chen and added another sentence after thinking about it: “Pay attention to safety. If you can’t do anything, it’s important to get out first and keep them away temporarily. I’ll take it next time. Anyway, we’ve already earned it this time. I don’t want little Xue to be a widow before she gets married.”

Elder Hua was straightforward, but she didn’t hide her caring thoughts. Yang Chen was her son-in-law now, even for Sun Qingxue’s consideration, Yang Chen must be safe.

“This younger generation junior understands.” Yang Chen bowed in salute, expressing his gratitude for the care of the elders.

After that, the island master and elder Hua led their people away from the Pure Yang Palace and returned to their respective sects. In the current situation, the Greatest Heaven Sect did not dare to make a desperate attempt to destroy the Pure Yang Palace and the Pure Yang Palace had no crisis of their sect being destroyed for the time being. There was not much need for them to stay here, they just had to go back, they could also play their roles in their respective sects, so that the Greatest Heaven Sect couldn’t doubt them.

In the final analysis, there was a proof of alibi. Since Yang Chen could do this by himself, there was no need for everyone to gather experts with great fanfare. If the Greatest Heaven Sect were to make trouble unreasonably like this, it would just give the three sects another excuse.

As for Yang Chen, of course he would use the excuse of retreating to refine pills, refining healing pills for his two fiancées, and at the same time refine the beauty pill for the girls. Just taking advantage of the accident of Shi Shanshan and Sun Qingxue, the name of the face retaining pills was also spread out, there must be countless female cultivators coming one after another.

All parties seemed to arrange readily, only waiting for Yang Chen to take action. News from the wine immortal house kept coming, the experts seemed to have gathered there quietly and never left.

Of course, this does not rule out the fact that the people in the wine immortal house didn't find the other people leaving. A master at the peak dacheng stage, just bringing a space magic weapon could enable him to take everyone away without them knowing it and no one would find them.

In the eyes of the palace master, Yang Chen safety took first place. If the person was there, he could do it. If the person was not there, he would come back secretly, as if nothing happened. Anyway, the biggest loss would be that Yang Chen ran a fruitless trip.

Yang Chen also understood the good intentions of the palace master, but he knew that those people were still where they were, and among them there was a master who was in the peak dacheng stage and could ascend. The Greatest Heaven Sect still didn't have the idea of destroying the Pure Yang Palace, but the sect was still weighing against the decision.

The three purities secret art's formidable spiritual awareness thread had already reached that area without anyone knowing it, even the supreme elder of the Greatest Heaven Sect could not hide from it.

The quarrel between the island master and the Greatest Heaven Sect gave Yang Chen enough time. This time, the Greatest Heaven Sect was destined to lose more experts.

It was not known what kind of heartache the Greatest Heaven Sect would feel after these people were gone.
