Chapter 461.1: Withdrawal

Yang Chen was alone, hiding under the ground, relying on the sea pouring jasper cup to wrap around the flying shuttle, he quickly approached the place where the group of people gathered.

It was a very hidden small valley, surrounded by cliffs, off the beaten track. There was no spiritual energy here, it was very desolate, basically there were no people around for hundreds of miles.

The people in the wine immortal house only judged that these people were in this area, probably within a hundred miles. But they didn't know the specific location, and even sent a few disciples disguised as passerbys, all of them were silently killed. So the wine immortal house didn't send anyone in afterwards, but just put them in several directions around the group of people stared at those who came out from this direction.

Until now, the people in the wine immortal house haven't found anything unusual. With Yang Chen's spiritual awareness, as he got closer, he had already grasped the cultivation base of these people clearly.

The most powerful was a master at the peak dacheng stage. This guy had a mysterious power that suppresses his own strength at the peak dacheng stage and prevents the arrival of the tribulation. This mysterious power was what the Greatest Heaven Sect secretly transmitted to suppress strength.

In fact, the cultivation base of these people has exceeded the limit of triggering the tribulation. This formation could suppress their strength to about 70%, so their peak strength could be at least 50% stronger than Wu Xiong before the ascent. When Wu Xiong met them, he could only escape for his life.

However, without the baptism of the wind tribulation, after all, it was impossible to achieve a qualitative change, so it was still a step away from the cultivation base of the human immortal.

This great elder, in the crowd, he seemed very ordinary. If it weren't for Yang Chen's spiritual awareness which clearly marked his position, most people would not be able to detect his existence.

This old guy hid in a corner, sitting cross-legged, without saying a word, but the so-called Yuanying stage ancestors who went back and forth around did not seem to see him, it seemed that this person did not exist at all.

It seemed that these people were also people who were suddenly gathered and there seem to be many people who don't know each other. Many people were chatting with each other and seemed very relaxed.

For those who cultivated, if not necessary, they were generally reluctant to stay in a space carried by others. Even if Yang Chen took some experts out, he would try his best to be on the upstairs boat to allow everyone to move around freely without restraining them in the space.

The purpose of this was to make everyone more comfortable, so as not to get bored in a small space. Secondly, it was to give everyone a taste of equal communication, so as not to make people misunderstand themselves, they must stay in the space of others to cultivate.

The people of the Greatest Heaven Sect had the same idea, so they were scattered in this valley. The valley itself was extremely secretive and there were dozens of Yuanying stage masters among them, plus that great elder, it was basically impossible for outsiders to approach it.

At least they thought so, so there was no need to get into a person's space magic weapon to stay secret. But precisely because of this, Yang Chen was given a fatal chance by them.

Yang Chen was still more than a thousand miles away from them. At the speed of the flying shuttle, he could arrive in less than an hour. However, Yang Chen didn't dare to speed up. The unknown great elder, with a strong cultivation base, could not be made aware of his movements.

Within a hundred miles, Yang Chen was even more cautious, moving forward almost at the slowest speed. Anyway, this group of people would not leave within one or two days. Even if it took two days to escape the hundred miles, Yang Chen was willing, as long as he was not discovered by the old guy in advance.

Yang Chen couldn't be careless. At this level of the old guy, it was not impossible to say that his spiritual awareness has been so sensitive that it couldn't be cheated. Even if there was the sea pouring jasper cup, he must be very cautious and not fail.

Although these old guys have excellent cultivation bases and they were also very cautious. It must be known that if they made a move, it was almost 100% certain that it would soon trigger the tribulation, so under normal circumstances, they would not easily take action. Once it was found that something was wrong, he would flee.

Having reached this point, Yang Chen never hoped that his negligence would cause the opponent to leave. If only seventy or eighty Yuanying masters were killed, Yang Chen's hatred could not be eliminated. Only this great elder could make the Greatest Heaven Sect really feel pain.

It took almost three hours slowly and carefully before Yang Chen approached within ten miles. This distance, if he wanted to release the pulse calming powdered medicinal pill, it should be said that it was enough, but he was afraid that the wind direction was wrong, and the other party was deeply hidden in a valley. In order to avoid falling short, Yang Chen still wanted to be safe and get closer.

After another hour, Yang Chen dived underground to the edge of the valley, about a hundred meters away from the group of people. At this time, when Yang Chen made the move, he was able to guarantee 100% that the medicinal qi would definitely be concentrated in this valley and would never drift outward.

Just as he was about to squeeze the pulse calming powdered medicinal pill underground, Yang Chen suddenly stopped the movement in his hand, condensed the aura of his whole body and stayed in place motionless.

The elder, who was no one cared about, frowned suddenly and swept his eyes in the direction of Yang Chen. It was not known what he found, he had been staring in this direction.

A powerful spiritual awareness, silently drilled directly from the ground and almost turned over the surrounding ground. Yang Chen activated the sea pouring jasper cup, his whole body was like a dead thing, he stayed in place without moving.

The crazy spiritual awareness brushed back and forth at least ten times around the area, as if he was unwillingly to retreat it. After a while the old guy's gaze finally retracted and he returned to the posture of sitting with his eyes half-squinted cross-legged.

In this series of movements, none of the Yuanying stage ancestors and Jiedan stage masters found out, they were still cultivating and some were enjoying friendship.

The moment the old guy withdrew his spiritual awareness, Yang Chen crushed the pulse calming powdered medicinal pill underground. A puff of medicinal qi began to fill all sides silently, slowly puffing out from the ground and dispersing in the surrounding air.

In order to avoid being discovered by the supreme elder, Yang Chen didn't even use A'Bi to get rid of the toxins at this time.

The people over there also saw nothing strange so what could they do.

After the time a stick of incense would burn, the great elder sitting on the ground suddenly seemed to notice something and stood up abruptly. It's just that he didn't control his strength and his body bounced directly from the ground, causing a lot of movement.

Chapter 461.2: Withdrawal

The surrounding experts never knew that there was anyone in that corner. Suddenly everyone was shocked to find that a figure jumped up from there, and there was a loud noise all of a sudden.

Countless spiritual awareness swept over, and easily found the figure of the great elder. Several Yuanying stage masters remembered what they have been told before they left and they immediately realized that this must be the mysterious expert, the main force that would be used to deal with Wang Yong and the old tree monster.

Before the experts gathered here decided to attack, several masters in the Yuanying stage who knew the inside story immediately stopped those people's attempts to do so. The leading Yuanying stage ancestor immediately bowed to the old guy "Greetings great elder!"

The other disciples hurriedly followed the leading Yuanying stage master and did not dare to lift their heads. The great elder, the mysterious expert who they would have a better chance of seeing a dragon than to see him, how could he appear here?

“We have been plotted against!” The great elder had already noticed that something was wrong and hurriedly reminded them, but there was no time at this point.

“Plotted?” The leader was startled, and immediately realized that his spirit power could no longer be controlled and he didn’t even realize it.

Suddenly, the leading Yuanying stage ancestor burst out with cold sweat. When did something like that even happen, why didn’t even the great elder know?

Although the spirit power couldn’t be controlled, everyone’s spiritual awareness cultivation was still there, but no matter how these people use their spiritual awareness to probe, they couldn’t detect any clues.

The spiritual awareness of the great elder scanned over and over again in the valley, especially the direction where Yang Chen just stayed. He didn’t let it go, but what made him still unable to understand was that he couldn’t perceive the existence of anyone.

The cold sweat on his forehead gurgled down, but the great elder did not care about it. He hasn’t sweated for many years, even the great elder didn’t notice it.

“Which expert is here, the Greatest Heaven Sect is undertaking a private issue here, please do forgive us for causing you any inconvenience!” The great elder failed to detect anything with his spiritual awareness, so he said in a direction that he just felt was suspicious.

Just when the Yuanying stage ancestors and the Jiedan stage masters were puzzled, a figure suddenly appeared slowly hundreds of meters away from the direction the great elder spoke to.

The blue jade blood phantom vine had plunged into Yang Chen’s veins where no one could see it, it was quickly suppressing the pulse calming powdered medicinal pill toxin for Yang Chen and Yang Chen’s spirit power quickly returned to his body.

There really was someone there, seeing Yang Chen who suddenly appeared, the group of people felt a chill. All of them have lost their spirit power at this moment, whether it was using magic weapons or

fleeing, there was no spirit power to support it. The person who suddenly appeared in front of them had almost dominated their lives and deaths.

“He is Pure Yang Palace’s Yang Chen!” As Yang Chen moved forward, someone finally recognized Yang Chen’s identity. Suddenly, all the experts were having cold sweats.

They gathered here for the purpose of destroying the Pure Yang Palace, everyone knew the purpose. They haven’t done it for a long time, just because the sect hasn’t asked them to do it. It was estimated that there was the island master of the Green Jade Immortal Island in the Pure Yang Palace, so they were afraid of making too many enemies at the same time.

Now their target of action actually appeared here, and at the same time they lost all their spirit power. What happened and what would happen, could almost be guessed.

“This inferior people here are absolutely not malicious, grandmaster Yang, please don’t misunderstand.” The leading Yuanying stage master almost immediately clarified that, after all, he must save his life first.

The other party was a fifth grade alchemy master, all their spirit power was unknowingly lost, so if it had nothing to do with Yang Chen, they wouldn’t believe it even if it killed them. But at this moment, the man was the sword and they were the fish, so they had to bow their heads obediently.

“Is that so?” Yang Chen’s performance made everyone feel relieved. His question shows that there was still a chance. It seemed that he would not just attack them without question.

At this moment, the great elder had already guessed how Hu Qianyi was captured. It was estimated that just as they were today, he had also lost all his spirit power without knowing it and was at the mercy of the enemy.

“We know our mistakes, and we are willing to follow grandmaster Yang to the Pure Yang Palace to accept any punishment!” The great elder was worthy of being a great elder “If you have any requirements, grandmaster mention it, as long as I am able to accomplish it, there will be no disagreement. This old man is willing to swear a heart oath.”

Even if everyone arrived at the Pure Yang Palace, it was estimated that the Pure Yang Palace could only send a note again. This time the Greatest Heaven Sect would completely accept the blame, they would first compensate for the loss of the Pure Yang Palace and redeem the old man. This account could be calculated slowly in the future. If they were headstrong and all were lost here, then it would not be worth the loss.

The great elder's words also contained threats. If they die here, no matter what, the Pure Yang Palace would be the first to be suspected by the Greatest Heaven Sect, this was unavoidable.

Regardless of the fact that elder Hua, the palace master and the Island master felt that they could pass the test by acting innocent, but ever since the time Ming Guangruo's magic weapon was lost, the Pure Yang Palace has been the most suspicious object. After this matter, it would be difficult to think otherwise.

One was a threat, the other was a temptation. Judging from the several transactions between Mao Qi and Yang Chen, Yang Chen wasn't a greedy person, but his appetite was getting bigger and bigger. As long as they could afford the price, Yang Chen even sold the pill recipe of the questioning inner heart pill, let alone letting them go.

The key point was that the great elder felt hopeful, that was because Yang Chen was by himself. Maybe he bumped into them by accident, so he took the initiative to make a move against them, maybe the Pure Yang Palace didn't know anything about the situation. As long as a deal with Yang Chen was reached, it was not an extravagant hope to be able to retreat.

"Haha you are too kind!" Yang Chen seemed to be fooled by what was said "A seventh grade fire seed, then at least ten kinds of ten thousand spirit medicine, each of which should not be less than 0.5 kg, plus two beautiful female disciples in the Jiedan stage, how about that?"

"Deal!" The great elder agreed without hesitation. At this moment, it was of great importance to save his life first. No matter what Yang Chen asked for, he would agree to it "This old man swears by my heart devil and will never break my words."

"So straight forward!" Yang Chen took a few steps forward and walked to the elder's side and he laughed loudly "Since the elder is so straight forward, I am also happy to let everything be. First, I will remove half of the restrictions for you and let you go, I will then wait for the things to be delivered to my Pure Yang Palace."

While talking, Yang Chen reached out and caught the arm of the great elder. The elder only felt pain in his skin, it seemed that something had pierced his blood vessels, but he immediately noticed that the spiritual power he had just lost was quickly returning.

Now he was thinking about whether he should slap Yang Chen to death after recovery, but after remembering the heart oath he decided to keep his promise, the great elder suddenly realized a serious problem and screamed "No! It's a trap!"

Chapter 462.1: Not Relatable

Although he felt that his spirit power was recovering, the great elder also discovered that the formation that he maintained to suppress his strength had a gap broken through it without knowing when it happened and it no longer had its original effect.

This also meant that he could no longer suppress his own strength, as long as his spirit power recovered, or even if only half recovered, it would cause the tribulation to fall.

The great elder knew how terrifying the wind tribulation before the ascension was. If it were his heyday, he believed it would not be a problem to survive the tribulation. However, it was different now, as his spirit power had not fully recovered.

Since Yang Chen was able to poison him with the unknown toxin, how could he tolerate allowing him to cross his tribulation? The great elder could firmly believe that Yang Chen would definitely leave behind the poison, preventing him from returning to his peak state.

The tribulation could descend at any time, but he was in a weak state, which was simply killing him. Not only that, but the surrounding Yuanying stage and Jiedan stage masters, under their situation with exhausted spirit power, within the scope of the tribulation, their fate could almost be determined.

Even if these Yuanying stage and Jiedan stage masters were at their peak, there was only one possibility of being within the scope of the wind tribulation, and that was to turn to ashes. Even their ashes won't leave a trace, all would disappear without a trace.

This also meant that Yang Chen could use the power of the heavenly tribulation to wipe them out without even lifting a finger at them. Even if the Greatest Heaven Sect came to the sect, all the people in the Pure Yang Palace could swear by their heart devil that they had never touched them.

It's just that he only realized this at this time, obviously it was a bit late. Yang Chen indeed was having such a plan. The blue jade blood phantom vine only wiped more than half of the pulse calming powdered medicinal pill, and a part of the pulse calming powdered medicinal pill's medicinal power remained in the body of the great elder.

Recovery of spirit power also requires a process. It was impossible to say that as soon as the toxin was removed by the blue jade blood phantom vine, it would be restored here immediately. Yang Chen had already gained enough time to recover all his spirit power by the moment he just spoke, but the great elder did not have this opportunity.

After taking care of the hidden power of the Greatest Heaven Sect, they watched Yang Chen take away the qiankun bag of the great elder casually, and at the same time quickly took away the 30 or 40 Yuanying stage master's qiankun bags that lined up in front, and then quickly he escaped into the ground and was gone.

But the great elder stood there, motionless, he had just regained a little spirit power, which was not enough for him to control Yang Chen's actions. He could only watch Yang Chen take a bunch of qiankun bags and run away, he didn't even have a little power to block him.

After a few breaths, the spirit power of the great elder had recovered by 60%. At this time, the signs of the wind tribulation appeared in the sky immediately and countless clouds began to gather.

If the heavenly tribulation was a peerless master, the great elder would be fixed on, he would not even dare to move half a step, for fear of triggering it in advance. In this state, it was impossible to survive the tribulation.

Fortunately, the spirit power was still recovering continuously. After three or five breaths, it has recovered to 70%. As long as he recovers a little more, the great elder would have complete confidence to survive the tribulation.

As for the other Yuanying stage ancestors and Jiedan stage masters, the great elders have completely ignored them. At this moment, he only cared about his own destiny and could no longer care about other things.

Just as he waited happily, as long as he had a dozen more breaths, his spirit power would be able to recover to 80%, allowing him to pass the tribulation smoothly, suddenly there was a sudden emptiness in his meridian. The spirit power that had just been recovered, quickly dissipated at a speed many times faster than the recovery.

The medicinal power of the pulse calming powdered medicinal pill in the body of the great elder was just absorbed by the blue jade blood phantom vine. However, the pulse calming powdered medicinal pill that was permeating in the air did not dissipate, and it was always full in this absolute valley.

Under the command of Yang Chen, A'Bi left a trace of the pulse calming powdered medicinal pill in the body of the great elder, but this bit would only run out in 500 breaths of time.

Without the blue jade blood phantom vine to continue to detoxify him, the great elder soon discovered that he had been poisoned by the pulse calming powdered medicinal pill again. The spirit power that had just gathered was disappearing quickly.

The heavenly tribulation has been triggered, but his own spirit power has disappeared, the face of the great elder could not help showing a sorrowful smile. The young man's calculations were so perfect that he had no hope of escaping at all, the sect wanted to fight someone like him, he really didn't know if this decision was the right or wrong decision.

Of course, the vision in the sky attracted the attention of everyone in a radius of hundreds of thousands of miles and it also included the attention of those Yuanying stage and Jiedan stage masters who were in the valley.

The Jiedan stage masters were okay, they just thought this was some ordinary tribulation, thunder tribulation or Yin fire tribulation. But those Yuanying stage elders knew that this was not a thunder tribulation, nor a yin fire tribulation, but a wind tribulation for those that could ascend.

No matter what kind of tribulation, for them, it was no less than facing the disaster of extinction. If their spirit power was okay, they may be able to avoid the thunder tribulation and yin fire tribulation for a lifetime. Regrettably, none of the people present had spirit power in them.

In their plan, in order for it to be top secret, they deliberately chose a deserted valley surrounded by cliffs, which was inaccessible. With spirit power in their body, they could fly out anytime, anywhere, without any problems.

But right now, everyone was trapped in this absolute valley, and no one could leave. Flying away has become a luxury that everyone could only dream of, and everyone could only watch the cloud in the sky getting lower and lower, and the threat of death was getting closer.

When observing the yin fire tribulation, those with the cultivation base in the Yuanying stage had to fly hundreds of meters away, now it was the wind tribulation. It was estimated that within a thousand meters, as long as there were living things, they would all become targets of the wind tribulation. The radius of this absolute valley was only two hundred meters, everyone was within the scope of the tribulation, they were all in the center.

Just before the fall of the heavenly tribulation, everyone had already figured out this, and their faces were ashen and desperate. Originally, they should have been proud to enjoy the glory of uprooting the Pure Yang Palace, but now the Pure Yang Palace has only sent a disciple in the Jiedan stage and all of them were sent into the abyss of hell.

“Oh!” The great elder raised his head and sighed heavily as he looked at the tribulation cloud in the sky.

Immediately, a bright light flashed in the sky and the invisible wind blew directly in the absolute valley. Starting from the great elder, everyone in the valley turned into flying ash silently one by one and then completely dissipated in the mortal world.

Only after the first round of the raging wind tribulation, there was no more vitality in the valley.

Chapter 462.2: Not Relatable

Yang Chen certainly knew how powerful the wind tribulation was so he quickly escaped from the absolute Valley dozens of breaths in advance.

When leaving, Yang Chen was not afraid to be exposed, anyway, hundreds of miles around were uninhabited. Yang Chen increased the speed of the shuttle to the highest, then he used the sea pouring jasper cup to wrap it and sped away from the absolute valley.

Before the raging wind tribulation came, Yang Chen had already fled dozens of miles away. Afterwards, the direction of the shuttle changed, and he plunged directly into the ground, still using the fastest speed to escape without anyone knowing it.

As soon as the raging wind tribulation fell, the cultivators in a radius of hundreds of thousands of miles became aware of it. They knew that this was a dacheng stage senior who wanted to cross his tribulation and ascend, all the cultivators' eyes were focused on this area. Some cultivators who were relatively close had already begun to gather quickly in this direction.

What a lucky thing to be able to meet a dacheng stage predecessor who could ascend. If they arrive in time, they could still experience the aura of the raging wind tribulation. For every cultivator, that was a valuable experience worthy of a life in exchange.

Of course, the Pure Yang Palace also felt this aura, and after determining the direction of this aura, the palace master felt a thud in his heart and sank into deep thought.

This direction was clearly the direction Yang Chen was going. There was only the great elder of the Greatest Heaven Sect who could trigger the tribulation. Since the other party caused the tribulation, could it be that Yang Chen's plan has failed?

At this moment, the palace master almost couldn't believe it. Even so, he still swayed. If he didn't gain support from the pillar next to him, he might have fallen to the ground immediately.

The elders quickly gathered here, and they were all puzzled when they saw the palace master in such a state. This time Yang Chen's plan only included the palace master in the sect, and no one else knew it. This was also a strategy set for the future response to the Greatest Heaven Sect's investigation, so they kept everyone else in the dark.

The triggering of the tribulation was too short, it just took a while and disappeared immediately. This could only be explained by one situation, that was, the person who was facing the tribulation failed and has not survived the nine raging wind tribulations, so his soul was extinguished.

“The predecessor over there is no more than a thousand miles away. In any case, I should go and observe the tribulation.” The palace master was indeed worthy of his title, and soon calmed his mind and began to give orders.

No matter what happened over there, what has happened was destined to be unchangeable. The palace master must rush to see if there was anything wrong with Yang Chen.

This kind of opportunity, naturally everyone would not let it go easily and the group flew in that direction. Only half an hour after the departure, a figure suddenly appeared beside the palace master, taking a closer look, it was Yang Chen.

Seeing Yang Chen appearing alive in front of him, the palace master’s heart was immediately filled with ecstasy. Yang Chen was okay, but the other party caused the wind tribulation to appear. No matter what happened to the great elder who faced the tribulation, the people around him must be dead.

And everyone already knows that the predecessor facing his tribulation failed, that was to say, the great elder of the Greatest Heaven Sect has also been completely killed in body and soul.

The palace master suddenly felt his mood brighten, great compassion suddenly turned into great joy, his mood seemed to have improved a lot.

Although the result was already known, everyone still had to go in a group. Even under the guise of feeling the aura of the wind tribulation, they have to visit the scene.

The people from the Pure Yang Palace were not the first to arrive, there was a closer sect over there. By the time the palace master and his party arrived, hundreds of people were already surrounding the valley.

The absolute valley of two hundred feet square became a dead place, without any creatures left. Even a slightly larger stone was not left, and the ground of the absolute valley completely turned into a fine

powder, and the surrounding cliffs were also having a large piece wiped out, which has also turned into powder.

The extremely subtle aura of the raging wind tribulation made everyone who came here felt that this trip was worthwhile. It was not easy to encounter a dacheng stage master crossing his tribulation, because they would usually find a place that other people couldn't find, one reason was because they were afraid of interference from others, and second, they were also afraid of harm to the nearby creatures. There has never been such a surrounding area with many sects.

This was the first time that everyone had the opportunity to feel the aura of the wind tribulation, and they didn't know which dacheng stage senior did such a good thing. However, it was a pity that the senior failed to cross the tribulation, this was the only regret.

Later on, there were more and more people coming, but the raging wind tribulation aura was already fading and finally disappeared completely. Without the aura of the wind tribulation, the crowd began to slowly disperse.

Among the people who were leaving one after another, the people from the Pure Yang Palace did not attract any special attention. Everyone came here with the same purpose, and there was no need to pay attention to other things.

After returning to the sect, Yang Chen had the opportunity to report to the palace master alone what had happened. After listening, the palace master was even more overjoyed.

Yang Chen's handling method was far more proficient than the previously discussed method. Who could doubt the Pure Yang Palace now? Everyone knew that there was a dacheng stage predecessor who failed in his ascension. Who knew that hundreds of people had been buried along with that predecessor?

The formation for suppressing the cultivation base could not guarantee 100% success. No matter how powerful he was to trigger the tribulation, it was impossible to succeed in the tribulation by 100%.

Even if the Greatest Heaven Sect knew it, they could only think that their own great elder did not suppress his cultivation base well, and caused the tribulation. Perhaps it was because he wanted to save

the experts that were with him, which led to the failure of the crossing and affected those masters. This was a natural outcome and has nothing to do with anyone.

Sure enough, it would be undetected, not even the palace master who made the plan together with him could figure it out, let alone other people. This time, the grievous loss of the Greatest Heaven Sect was determined.

Yang Chen immediately went into seclusion, refining healing pills for his fiancé, and refining face retaining pills for the island master. The head of the palace was very calm, waiting for the Greatest Heaven Sect's response.

All that happened here, he sent people to send the news to the Green Jade Immortal Island and Blue Cloud Sect. Of course, the news only said that there was a dacheng stage predecessor who caused the wind tribulation to appear in a place thousands of miles away from Meiqing Mountain. The tribulation failed and the valley was turned into ashes, there was nothing alive there. Presumably, when the two senior sect leaders received the news, they would naturally know what had happened and how to respond.

The news reached the Greatest Heaven Sect at the fastest speed. When receiving the news, the senior officials of the Greatest Heaven Sect couldn't even believe what they had heard.

That place was clearly a secret meeting point arranged by the sect in their plan to uproot the Pure Yang Palace in one fell swoop. But now, only a piece of powder remains.

A great elder at the pinnacle of the dacheng stage, seventy or eighty Yuanying stage masters and hundreds of Jiedan stage masters, were they gone like that?

Chapter 463.1: Consequences Of Their Actions

A great elder, seventy or eighty Yuanying stage masters and hundreds of Jiedan stage masters, even the Pure Yang Palace that Yang Chen joined in the first place did not have such powerful strength. Now such a mammoth strength was gone, how could the Greatest Heaven Sect remain indifferent?

It was necessary to send people to investigate immediately, at least the cause of death of those people must be figured out. Otherwise, for them to die so unclearly, it wouldn't make sense in any sect.

As for Hu Qianyi's life and death, it was not so important now. For this reason alone, even if he made such a big sacrifice for the sect, even if Hu Qianyi was a dacheng stage elder, it would not be a pity to die.

The Greatest Heaven Sect immediately announced its disposition towards Hu Qianyi. The Greatest Heaven Sect previously said, that whoever dared to touch Yang Chen, they would become the enemy of the Greatest Heaven Sect, but now it was the elder of the Greatest Heaven Sect who took the initiative to attack Yang Chen, it was definitely their own member who slapped the sect in the face.

Hu Qianyi was removed from the eldership, and then left to the disposal of the Pure Yang Palace. At the same time, another elder of the Greatest Heaven Sect, a peak Yuanying stage ancestor, was also dismissed from his post and dealt with by the sect rules for protecting Hu Qianyi and trying to blame others. It was said that the result of the punishment was a hundred years of seclusion and not going out.

As soon as the news came out, many people began to unanimously praise the Greatest Heaven Sect for adhering to justice and righteousness to punish their own people. For this, they paid enough respect to the Greatest Heaven Sect.

But the Greatest Heaven Sect has a bitterness and they couldn't inform anyone. The truth was held in hands by others, and people were captured on the spot, so they cannot deny it. Originally they planned to use this to destroy the Pure Yang Palace, but the people sent for the ambush was completely wiped out, but all this could only be a dumb loss and there was no way retaliate.

Hu Qianyi had no value anymore, even if he was sent back from the Pure Yang Palace, it would probably be a waste. At the moment, it was necessary to find out the real culprit who attacked the great elder for the tribulation to descend. It must be known that he was part of the core strength of the Greatest Heaven Sect. Once the great elder was conspired against, the one who conspired against the great elder was the greatest enemy of the Greatest Heaven Sect.

As for the Pure Yang Palace, in front of such a powerful enemy, their strength was really not worth mentioning. This time the experts gathered in secret, let alone the Pure Yang Palace, even if there was the Island master waiting in the Pure Yang Palace, it was estimated that it was impossible to see through the movement of the great elder, needless to say that there was something that could cause the great elder to attack for the heavenly tribulation to appear.

The only thing worth paying attention to now was figuring out what happened. If someone fought with the great elder and triggered the tribulation, that would definitely be a big deal. Those with this ability, there were only hidden masters in the other four sects that were also ranked among the five sects with such strength.

But the problem was that what they could feel right now was only one raging wind tribulation, but they didn't feel the second raging wind tribulation. If it was triggered by battle, why didn't the opponent trigger his own raging wind tribulation?

At the level of the great elder, he could only support the power of the first attack. As long as the battle starts, the seal of the formation would be unlocked and even before the battle would be over, the tribulation would have appeared.

The opponent who could let the great elder untie the seal would definitely not be worse than the great elder. It stands to reason that this kind of strength would definitely cause a tribulation, but why it didn't cause it was worth pondering.

This situation would only happen unless the opponent has been killed by the great elder. If this was the case, the Greatest Heaven Sect would not lose. Using dozens of Yuanying stage ancestors and hundreds of Jiedan stage masters in exchange for a great elder of the other party was definitely a big profit.

After much deliberation, there was only this possibility. Otherwise, the top members of the Greatest Heaven Sect couldn't think of a second reason for this. And the biggest suspicion that could do this was that the Green Jade Immortal Island or the Blue Cloud Sect allied with the Pure Yang Palace.

Their own disciples were crippled by Hu Qianyi and they were their two most talented disciples. It was definitely worth the two major sects using this kind of method. Only a great elder with the same cultivation base could discover the experts under the cover of their own great elder and it was impossible for others to approach, let alone cause the great elder to attack for the tribulation to appear.

What the Greatest Heaven Sect was dealing with at this moment was to make a decisive decision without further delay. Compared to attacking the Pure Yang Palace, finding out this expert who fought against their great elder was the most important thing to do now.

A group of the Greatest Heaven Sect's masters have been dispatched to investigate the scene of the incident. Hall master Mao also set off quickly to the Pure Yang Palace to discuss the compensation for this incident with the Pure Yang Palace. Of course, in addition to the Pure Yang Palace, there was also the Blue Cloud Sect and Green Jade Immortal Island, all of which must be settled.

The issue of compensation was easy to discuss. After all, the Greatest Heaven Sect has handed over Hu Qianyi to be disposed. Although it was said that Yang Chen captured him, at least they had to know the attitude of the Greatest Heaven Sect, even the two major sects had to wait. Besides, they also dealt with another elder, which made people even more angry.

Anyone with a discerning eye could see that the so-called punishment for the peak Yuanying stage elder, a hundred years of seclusion, was clearly a cover for him to take the opportunity to attack the dacheng stage realm. When the Greatest Heaven Sect mentioned the punishment, it made people speechless.

The Greatest Heaven Sect thought that this trick to push the boat along the water was absolutely seamless. It consumed at least one great elder of the two sects, and their own great elder ascended, but the other party died. It was estimated that at least one of the two sects would be distressed to death.

From this perspective, the Greatest Heaven Sect was not the sect that suffered a loss, but one of the Blue Cloud Sect or Green Jade Immortal Island. As for the Pure Yang Palace, they had good luck this time, so they got pure profit.

Hall master Mao's speed was very fast. When he came to the Pure Yang Palace, the group of investigators sent by the Greatest Heaven Sect also rushed to the valley where the great elder faced the tribulation.

The scenery in the valley was almost intact. Although many people have already come to appreciate the aura of the raging wind tribulation, after only one day, there would be no residual aura left, so it was the group of people who came from the beginning that was remaining. They were all experts, there was no need to destroy the things in the valley, so they could keep it till now.

This group of investigators turned the valley almost inch by inch, trying to find some traces of the battle, in order to discover the identity of the opponent from the smallest clues. Even the great elder, he must have been out there back then, it was impossible for one to appear for no reason.

As long as they find a few characteristics, they could determine who the opponent was. If they find out the opponent, they could determine which sect has attacked their great elder and they could weaken one of them in a targeted manner. Maybe a few hundred years later, there would be only four big sects instead of five big sects.

All the ideas were wonderful, but reality slapped the Greatest Heaven Sect with a merciless slap. No matter how these investigators searched, no matter how hard they tried, they couldn't find a trace of the battle.

Chapter 463.2: Consequences Of Their Actions

The battle at the level of the great elders brought great destructive power with every action. There was no need to mention this small valley, even if it's a whole mountain, two such masters could easily raze it to the ground.

The peak dacheng stage could only be surpassed by the strength of the masters who have ascended, if they were to fight, the area of thousands of miles, if it could be preserved intact, it was absolutely blessed by the gods.

Even at the level of the first city lord, when facing the siege of Yang Chen, Wang Yong and the old tree monster, he completely ruined the area within a hundred miles. That was the middle dacheng stage, so the battle of the great elders was definitely more destructive.

Analyzing from this perspective, there hasn't been any battle at all. Every destruction in the valley was caused by the wind tribulation, without any traces of battle.

It was impossible! How was this possible! The Greatest Heaven Sect's investigators didn't believe this result at all, how could this be possible? Something must be wrong somewhere.

They had to check again! They had to turn the whole valley over to check it again and even the smallest stones must be checked carefully to see if someone has used an extraordinary formation to cover up everything, making it impossible to find clues.

Dozens of master investigators have been in the valley for half a month, and they have not found any traces of battle. On the contrary, another group of people got some news from the cultivators who

noticed that someone was facing a tribulation and came to watch the excitement. Who was there, who came first and who came later?

It's just that, combining all this information, there was no way to find any evidence about the fighting that took place here. If the great elders were really fighting here, how could those who approached this place keep their lives?

The only thing that was certain was that this time the process of facing the tribulation was very short, and it seemed that it had just started and ended. And this could only be explained by one thing, the one who faced the tribulation failed and was wiped out in an instant.

Among the investigators, one was a core elder of the Greatest Heaven Sect, who was qualified to know all the secrets of the sect. Originally, he wanted to find out whether it was the Green Jade Immortal Island or the Blue Cloud Sect's great elder who made the move, but he didn't expect that the investigation would take so long. The Greatest Heaven Sect was far away so he couldn't accurately sense the time of the tribulation. He didn't know until now that it turned out that the great elder who faced the tribulation here probably failed the tribulation.

The excitement disappeared with the wind after the news was confirmed. This core elder couldn't accept such a result, how was this possible?

The strength of the great elder was definitely more than the strength of the wind tribulation, and there was absolutely no possibility of failure in facing the tribulation! So how could this be?

After thinking about it, if this was the case, there were only a few possibilities left. One was that the great elder couldn't control his own strength, after the tribulation came, he was not fully prepared so he failed. The other was that there was a problem with the formation that was used to suppress his strength.

Either way, it was directly related to the great elder and since there was no dacheng master at the scene, it was only himself who had a problem. Having a few Yuanying stage ancestors show up, it was not worth the action of the great elder, let alone causing the great elder to lose control.

If that was the case, the dozens of Yuanying stage masters and hundreds of Jiedan stage masters in this valley were actually affected because of a problem with their own great elder.

After reaching this conclusion, even the core elder felt that it was unacceptable. But apart from this conclusion, there was no other possibility. No matter how the great elder lost control, the result was destined, but the reason was between the great elder himself and the suppressing formation.

Their own great elder caused the death of their younger generations, how would they account for this? Should they put the blame on the Pure Yang Palace? It wouldn't make sense, people don't even know that there was a gathering here.

As for blaming the Blue Cloud Sect and Green Jade Immortal Island, it was even more nonsense. Even after the third note was issued, the Island master had determined that the Pure Yang Palace was safe and sound, so she returned ahead of time. From the beginning to the end, only two elders appeared from the Blue Cloud Sect, and they also left with the island master. In any case, this account could not include the two major sects.

Now the core elder in charge of the investigation was almost crying. Dozens of elite Yuanying stage ancestors and hundreds of Jiedan stage masters were arranged in secret by the Greatest Heaven Sect, but now they were all dead. The power that was accumulated by the resources of the Greatest Heaven Sect was lost because of the great elder alone.

This was only the most direct calculation of the loss. The influence of these people in the rogue cultivators alliance and the small sects has not been counted together. If they really wanted to calculate these, even a great elder cannot compare with these people in influence.

The core elder didn't even know how to report this to the sect. The great elder of their own sect brought a large team of secret masters to uproot the Pure Yang Palace, but he didn't expect that not long after the gathering, there was such an accident, and everyone was turned into flying ash under the influence of the raging wind tribulation.

It was these two sentences that came up in the mind of the core elders first. However, even if he was the core elder of the Greatest Heaven Sect, even if he has the cultivation base of the dacheng stage, returning to the sect, he would never dare to say these words. In conclusion, he would be slapping his face and slapping the face of the high-level members of the Greatest Heaven Sect.

Just when the core elder was worried about what to say, the Pure Yangyang Palace had already begun to handle Hu Qianyi.

Now Hu Qianyi was no longer an elder of the Greatest Heaven Sect, he was expelled from the sect by the Greatest Heaven Sect and he was not even a disciple of the Greatest Heaven Sect. At the moment, he was only a prisoner in the dacheng stage.

Although the Greatest Heaven Sect sent hall master Mao meant to tell the Pure Yang Palace to deal with him anyway they wanted, everyone knew that if Hu Qianyi was killed regardless of his crime, it would be a sin against the Greatest Heaven Sect.

Even if the Pure Yang Palace felt that the Greatest Heaven Sect was a thorn in their eyes, this kind of obvious thing would not be done. Therefore, the Pure Yang Palace's answer to this was only to imprison Hu Qianyi, making him think about his actions and didn't directly kill him.

Of course, hall master Mao was satisfied, the Pure Yang Palace didn't rely on the two big sect's support to dare challenge the Greatest Heaven Sect. Although Hu Qianyi was unbearable, he was also from the Greatest Heaven Sect, if he was to be punished it could only be done by the Greatest Heaven Sect. When was it the turn of the Pure Yang Palace? After thinking about it, this punishment was good.

Of course, hall master Mao could not have imagined that there was another dragon clan's magic weapon called the mountain river geographical map in this mortal world. He didn't even think that Pure Yang Palace would not only abolish Hu Qianyi's cultivation base, but would allow him to enter the mountain river geography map of mountains and rivers a hundredfold.

Chapter 464.1: I Don't Have A Free Time

In the eyes of hall master Mao, the Pure Yang Palace's handling of Hu Qianyi was done to carry favor with the Greatest Heaven Sect. Otherwise, how could one easily let go of someone who treated their most important young palace master like this?

That's good, the sedan chair people carry people, at least for now, it was necessary to maintain a good relationship with the Pure Yang Palace. Although the Greatest Heaven Sect has several important pill formulas, they have not been successfully refined, have they?

Coming to the Pure Yang Palace to respond to the note from the Pure Yang Palace to deal with Hu Qianyi. This was one of the purposes of hall master Mao, and another purpose, naturally, was still to make some transactions with Yang Chen.

The spirit congealing pill recipe was already in their hand. From the time they got the pill recipe to the present, the masters of the Greatest Heaven Sect medicinal hall have only mentioned the fact that the pill recipe was indeed real. Only that kind of refining technique could refine the spirit congealing pill.

But that's all, there was no further gains. Not to mention the questioning inner pill, which was more difficult and high-quality pill, this small spirit congealing pill alone has already made the Greatest Heaven Sect's medicinal hall lost for words.

In Mao Qi's view, these fellows in the medicinal hall were all lacking substance. They have consumed so many resources of the sect in vain, and even the small spirit congealing pill cannot be refined by them. If this was not the case, as the master of the Greatest Heaven Sect's foreign affairs hall, wherever he goes, everyone was eager to carry favor with him, why would he bother to smile at a young man in the Jiedan dtage?

Now Mao Qi was sitting opposite Yang Chen, with a smile on his face, with an amiable look. On the other side, Yang Chen was frowning.

"Alchemy at this time? Forgive this younger generation for refusing!" Yang Chen frowned for a while before making a decision and started to shake his head.

"Why is it like that?" Mao Qi was a little worried. One of his missions on this trip was to make Yang Chen refine another batch of spirit congealing pills so that Li Liheng could recover. Yang Chen could produce hundreds of pills in one refining, which was enough for Li Liheng to use for several years.

"It's good that senior want to know." Yang Chen didn't give much face to Mao Qi, at least it was not necessary at this time. Mao Qi still prefers to be close to Yang Chen for the time being.

"This younger generation junior will get married in one year." Yang Chen smiled and explained to Mao Qi "The sect wants to make it a great occasion, it will take at least half a year to prepare."

"In addition, the Island master, Elder Hua and others have all been kind to this younger generation junior before, and this younger generation junior intends to refine a small batch of medicinal pills to thank them." Yang Chen did not conceal the issue between the Island master and elder Hua, the others

will know about the alchemy anyway, and it's not a matter of life or death. It doesn't make much sense to conceal it "It would take more than five months if it doesn't take long."

Hearing that Yang Chen was going to make alchemy for the Island master and Elder Hua, Mao Qi couldn't help but raise his eyebrows, but after all, he didn't say much. Even if the Greatest Heaven Sect's action was hidden this time and no one noticed it, but as soon as the tribulation was launched, everyone knew that there was a master in that place.

If the Pure Yang Palace doesn't understand what kind of danger it has just experienced, then they were all fools, and the Pure Yang Palace doesn't know how many times it should be destroyed. Even if he didn't know that it was the Greatest Heaven Sect, he knew that it was under the blessing of the island master and Elder Hua that they escaped the catastrophe.

Under this circumstance, if Yang Chen expressed his gratitude to the Island master and Elder Hua by refining some pills, which was definitely a good reason and Yang Chen immediately added a clue.

The pill that would be refined for more than five months was definitely not the questioning inner heart pill but some other pill. Thinking of this, Mao Qi also recognized Yang Chen's approach, but he still wanted to get the spirit congealing pill sooner.

"After getting married, will grandmaster be free?" Mao Qi asked again. He was now a core elder who understands the situation and of course he also knows the importance of the spirit congealing pill.

"Sorry, senior, after getting married, this junior will have to refine pills for my two wives to recover from their injuries." Yang Chen was rarely kind and gave his reasons directly.

This reason was so powerful that even Mao Qi couldn't say more. No one would leave their wife without treatment, but would refine pills for others, this was the truth.

Let alone the Greatest Heaven Sect, it was impossible to force Yang Chen to do anything even if someone descends from the Profound Heaven Sect of the Immortal Realm. The reason was this, they knew that it was already the turn of the Blue Cloud Sect to get their alchemy but they all obediently said nothing, waiting for Yang Chen to make the alchemy for his wives first.

Mao Qi didn't have anything to say. Originally, he still wanted to endure Yang Chen's lion's big mouth this time, but he didn't expect that even he had no chance of being slaughtered, he could only honestly line up for ten years later.

"In addition..." Yang Chen looked at Mao Qi, he wanted to say something but stopped, making Mao Qi a little puzzled, and he asked "What else? Grandmaster, just open up, don't hide it."

"Elder Hu Qianyi was healed by the fifth grade lingzhi mushroom jade pill refined by this younger generation junior, but when he was healed, he attacked this younger generation junior's fiancée." Since Mao Qi asked, Yang Chen was not afraid to offend Mao Qi and directly sneered "This kind of thing, can senior guarantee that it will not happen to others again?"

Mao Qi didn't know how to answer Yang Chen's question. This was because Yang Chen's words were more subtle, and if he was irritated, it was estimated that he would directly say that they had no gratitude to repay his virtue.

Speaking of it, this was indeed the truth. It could be said that Hu Qianyi's life was saved by Yang Chen, but he changed hands to kidnap Shi Shanshan and Sun Qingxue to threaten Yang Chen. For this one reason, the Pure Yang Palace should have executed Hu Qianyi and no one in the mortal world would dare to slander the Pure Yang Palace. Now that Hu Qianyi's life was still left to him, it has already given face to the Greatest Heaven Sect.

Yang Chen asked relaxedly, but his words seemed to have been slapped in the face of hall master Mao, and it's the kind of unceremonious slap in the face that makes people unable to hide.

Now, not only was Mao Qi unable to answer, but he was almost ashamed and unable to raise his head. The hall master of the foreign affairs hall of the dignified Greatest Heaven Sect, now he was a core elder who had mastered the secrets of the sect, was said to have no self-confidence in front of a junior. This kind of grievance, hall master Mao has never suffered like that since he was promoted to become the hall master.

It was a shame to be blushing in front of a junior and this shame was not brought to him by Yang Chen, but their dacheng stage master, elder Hu Qianyi.

At no time did Mao Qi want Hu Qianyi to die more than he does now. This shameful fellow, a master of the dacheng stage, couldn't even handle two juniors in the Jiedan stage but he still had the face to make trouble for the Greatest Heaven Sect.

Chapter 464.2: I Don't Have A Free Time

From beginning to end, Mao Qi did not feel that what Hu Qianyi did was wrong. At least the top leaders of the Greatest Heaven Sect thought so. As for Hu Qianyi's mistake, he did not keep this matter secret and he was not able to complete it.

As soon as Yang Chen's answer came out, Mao Qi knew that there was no way to ask Yang Chen to take action this time. All hope could only be placed on those masters in their medicinal hall.

However, Mao Qi had a vague hunch that the reason why Yang Chen would hand over the pill recipe so happily was probably because he had spotted that everyone in the medicinal hall of the Greatest Heaven Sect couldn't refine the questioning inner heart pill and the spirit congealing pill.

Although Yang Chen hasn't said it yet, Mao Qi could also imagine that if he really asked Yang Chen to refine the pill, the price he would pay next time would be a number that would make the Greatest Heaven Sect tremble.

"Hu Qianyi was acting on his own and it has nothing to do with the Greatest Heaven Sect." Mao Qi had to express his position at this time and he hurriedly tried to prove their innocence first "If grandmaster feels unwilling to let go of the hatred, then put Hu Qianyi to death, the Greatest Heaven Sect absolutely will not do anything different."

At this time, he could only give up Hu Qianyi completely. For him, the Greatest Heaven Sect had already paid the price of a great elder, plus dozens of Yuanying stage ancestors and hundreds of Jiedan stage masters. Even if Hu Qianyi was sold ten times, he would not be able to make up this huge loss.

Yang Chen looked at Mao Qi, but only smiled without saying much. Mao Qi knew that the matter was over, so he could only wait patiently. Apart from sighing, there was only a trace of extravagant hope in his heart. He could only hope that those masters in the medicinal hall could refine the spirit congealing pill in these coming years!

Sending away Mao Qi also meant for the time being, Hu Qianyi's matter came to an end. Regarding Hu Qianyi's disposal alone, the Greatest Heaven Sect was still very satisfied. So far, Hu Qianyi's life tablet has not burst, which meant that he was still alive. The Pure Yang Palace also said it well, just imprisoning and they did not cripple his cultivation base, as long as there was a suitable time in the future, the Greatest Heaven Sect would still have the opportunity to take back their dacheng stage master.

Not to mention how the Greatest Heaven Sect accepted the loss of the great elder, Yang Chen was already immediately involved in the process of refining the face retaining pills.

Refining the pill for the island master and Elder Hua, on one hand was to thank them, on the other hand it was for publicity. The smell of wine was also afraid of the deep alleys, no matter how good the pill was, if no one knew about it, it would be in vain. For the face retaining pills used by women, were there any more suitable propaganda candidates than the masters of the two major sects of the Green Jade Immortal Island and the Blue Cloud Sect?

He was afraid that once the female cultivators were to learn about the existence of this kind of beauty pill, then they would definitely buy one with everything they had.

For these two purposes, all of the face retaining pills that Yang Chen refined for the girls were made of real materials. The ten thousand years spirit medicines in the second dimension of his medicinal garden were used and the medicinal pill was directly on the same level as the one given to Shi Shanshan and Sun Qingxue.

More than four months later, Yang Chen's first batch of second grade face retaining pills was released and there were twelve pills in total. Apart from leaving two for his master Gao Yue and senior apprentice sister Gongsun Ling, the other ten, five each were sent to the Green Jade Immortal Island and Blue Cloud Sect. The palace master sent two Yuanying stage masters to send it over.

In fact, if it weren't for Shi Shanshan and Sun Qingxue who were seriously injured, they would have been youthful at this time, and there would be no need for a beauty pill. The same goes for Gao Yue and Gongsun Ling, but since he had given some to Shi Shanshan and Sun Qingxue, Yang Chen naturally wanted the bowl of water to be smooth.

When the two women's cultivation level was restored, Yang Chen could teach the four girls the beauty-preserving technique of Fairy Chang'e and if they cultivate it once a day, without the face retaining pill, they would still have a beautiful and youthful appearance.

Yang Chen himself began to prepare medicinal materials for the recovery of Shi Shanshan and Sun Qingxue. In fact, it was easy to repair the injuries of the two women, but it was difficult to recover their cultivation base. In the days when Yang Chen was refining the face retaining pills, in addition to controlling the refining, he was always thinking about how to restore the cultivation base of the two women at the same time.

After thinking about it, Yang Chen finally got a relatively less risky solution. However, the only problem was that the two women needed to have more intimate contact with Yang Chen during the recovery process. In this regard, only after marrying the two women would Yang Chen not embarrass the two women.

Even the method that Yang Chen thought of would take at least twenty years. However, compared with the two women's re-cultivation, if it would take 20 years to restore the cultivation base and they could even be more diligent than before, that was absolutely better.

After repeated verifications in his mind, Yang Chen told Shi Shanshan and Sun Qingxue the news. Hearing that it would only take twenty years to restore their cultivation base and diligently, the two women almost cried with joy. There was nothing more that could change the body's taste and mood than falling from a cultivator to become an ordinary person, but the two women went from heaven to hell in just one year and now to heaven again.

Not to mention the fanfare preparations for the young palace master Yang Chen's marriage in the Pure Yang Palace, the Green Jade Immortal Island and Blue Cloud Sect received the face retaining pills sent by Yang Chen and they were all overjoyed.

Everyone could see if the medicinal materials used were good or bad. Several recipients, including Sect Master Lu and the Island master, were all overjoyed, almost the moment after receiving the face retaining pills, they couldn't stand to let the masters of their respective medicinal halls study it, they just wanted to swallow them immediately.

Their cultivation bases were much higher than those of Shi Shanshan and Sun Qingxue, who have lost their cultivation bases so the effect of the medicine was faster, and the time to show the effect after taking it was shorter.

In just one day, all ten female masters who were already middle-aged turned into young girls with bright eyes and white teeth. This was not the magic of changing alive people, but the changes that have taken place in front of them under the high-level attention of the Green Jade Immortal Island and Blue Cloud Sect who have not received the attention of the face retaining pills.

Was there anything more crazy than this? The pill that could make people stay young forever, almost immediately after seeing the changes of the ten masters, the news spread throughout the Green Jade Immortal Island and Blue Cloud Sect. The two major sects dominated by women, with no fewer than hundreds of thousands of disciples, were directly detonated by this little face retaining pill.

Who doesn't want to live forever? Who doesn't want to stay young forever? Especially for women, when they have cultivated to a certain level, they could slowly make their appearance more perfect, but after all, they still couldn't stop the invasion of time. There was actually a pill that could keep them young and beautiful, even if they exchanged half of their lifespan for it, they were willing.

The face retaining pill directly once again sent Yang Chen to the peak of attention.

Chapter 465.1: Gathering

The effect of the second grade face refining pills that Yang Chen took out was really too powerful. The medicinal materials were all top-level medicinal materials. After the second grade refining of the profound spirit furnace, they were already the top-level face retaining pills in this mortal world.

Although everyone was surprised by the changes between Shi Shanshan and Sun Qingxue, after all, the two girls were originally two young and beautiful girls, at least in the world of cultivators, their age was still the same.

But Sect Master Lu and the Island master were different. They have cultivated for a thousand years and could maintain the form of a middle-aged woman, it was already very rare. Some masters who were stuck in the Yuanying stage and cannot enter the dacheng stage have even had some old age characteristics appear on them.

But taking this face retaining pills one by one was simply a drama of time reversal in front of everyone. No matter how old or unable to keep their previous appearance, in just one day, from flattening the skin to restoring elasticity and finally becoming a young girl, it was a miraculous performance.

Others did not say anything, but the elders of the two sects went crazy first. Which woman does not want to live forever? Seeing the changes taking place in the sect masters, several elders and others wished they could stretch out their two small hands from their eyes and pull out the pill that had been swallowed by the sect masters from their bodies.

The women who took the pill, waited until the effect of the medicine was absorbed, the first time they got out and they saw the shocked gaze of the other elders, the first thing they did afterwards was to look for a mirror to watch themselves carefully.

Seeing the women in the mirror, if they hadn't cultivated deeply and determinedly, they would have almost screamed. But even so, they touched their face in disbelief. Feeling the elasticity and touch that was different from usual, it took a long time for them to say a word.

Seeing the crazy appearance of the surrounding girls, the several big figures also knew that they were indirectly promoting Yang Chen. However, this price was absolutely worth it and they were even willing to do it several times over.

The speed of news dissemination was even faster than when the questioning inner heart pill came out. Soon, the countless female disciples of the two major sects were moved like the wind, all wanting to see the beauty of their own sect master. And after confirming from a short distance that their sect master had indeed restored their youthful appearance, it suddenly caused another wave of madness.

The medicinal materials needed in the pill spread quickly. This was the face retaining pills newly refined by Yang Chen. It was said that he would be able to help refine it, as long as everyone could collect the medicinal materials. The more mature the medicinal materials were, the better. Ten thousand years materials had the best effect and one thousand years materials could only maintain a hundred years of youthful appearance, this series of news spread quickly.

The news spread like wildfire among the female cultivators and then inevitably reached the ears of the male cultivators. Some experts would inevitably have so many concubines around them, hearing about such a precious thing, they naturally had to be coquettish and beg for it, even their own husband knew this. The news spread more widely, and the grand occasion was even crazier than hearing the news of the questioning inner heart pills.

Not to mention the female-dominated sect like the Blue Cloud Sect and Green Jade Immortal Island, even among the Greatest Heaven Sect. There were also countless female disciples who began to look around for medicinal materials and even at high-level meetings, the elders asked the sect not to deal

with Yang Chen for the time being, and to wait until they got the face retaining pills, leaving the men in the meeting dumbfounded.

The medicinal materials of the face retaining pill had also become the most difficult medicinal materials to get in the market. Almost all females would find these medicinal materials in every market, so those who originally did these businesses would make a lot of money.

No one expected such an effect. Even Yang Chen, the initiator, didn't know that things would develop into this way, but now he still doesn't care about this. The marriage ceremony was only half a year away and there were more and more things to prepare.

The palace master had begun preparing for ten years ago and a lot of invitations have been issued. The Pure Yang Palace at this moment was nothing like in the past, especially the wedding of the fifth grade alchemist master Yang Chen. How many people want to go to people who had received invitations to get this opportunity. Naturally, they promised everything.

After two visits, more than a thousand people came to congratulate them. Naturally, the reception work was also very cumbersome. Those who could be invited were all well-known masters and their habits and preferences must be taken care of, especially the accommodation must be arranged to perfection. Everything needed to be prepared in advance.

As the master of the wedding, how could Yang Chen not partake and let the disciples of the sect take care of everything? Especially to appease the mentality of his several fiancées, he really had to work hard.

A series of all kinds of cumbersome things were not settled until a month before the marriage. At this time, guests were arriving one after another, ready to celebrate Yang Chen's wedding.

The people who could get invited by the palace master were basically people with great and powerful reputations. Most people gave the Pure Yang Palace face and agreed to come because it was the wedding of the only fifth-grade alchemist in the mortal world. But it does not rule out that some masters felt that they were not the kind of followers who tended to be inflamed and declined the invitation.

However, as soon as the news of the face retaining pill came out, whether it was a man or a woman, everyone was shocked. Even the masters who had already declined the invitation before rushed in. There were many confidantes around everyone, even if they don't want to come, they were forced to come by the women around them.

On Meiqing Mountain, there was unprecedented excitement and everyone fell into a festive atmosphere. Yang Chen received some invited guests every day and almost laughed to cramps.

These were only the formal invitations, not counting the uninvited ones, most of them were some famous rogue cultivators. These people, on the one hand, were uncertain, and on the other hand, they were all quirks of laughing and cursing and the Pure Yang Palace sent no formal invitation to them. However, since the other party came to congratulate them, the Pure Yang Palace would not turn away and they treated each other with courtesy in the same way.

The wedding was not just a big matter in the Pure Yang Palace. Even though Shi Shanshan and Sun Qingxue had their cultivation base destroyed, they were still disciples of the two big sects. Many people, even if they don't care about Yang Chen's face in the Pure Yang Palace, they still want to give the two big sects some face and came to congratulate them.

As a result, the number of congratulatory guests who came to the Pure Yang Palace suddenly increased by several times. There were thousands of masters above the Yuanying stage, and the waiting Jiedan stage masters does not even have the qualifications to enter the gate of the Pure Yang Palace. There were too many people coming and there was no way that the Pure Yang Palace could entertain all of them.

Fortunately, everyone also understood the difficulties the Pure Yang Palace was facing and did not blame the Pure Yang Palace for being rude, they each looked for a suitable place to settle within the range of Meiqing Mountain. Almost all the disciples of the Pure Yang Palace strayed out to entertain these guests. The entire Meiqing Mountain was filled with guests coming to visit, and the number was close to 100,000.

Chapter 465.2: Gathering

The grand wedding finally arrived. Yang Chen, dressed in auspicious clothes, stood at the gate of the mountain, welcoming the guests who came to congratulate him one by one.

Just like the previous arrangement, the guests who could enter the gate were all experts with big reputation and fame, they were all at least masters of the Yuanying stage. At this moment, a Jiedan stage master already counted for nothing in the Meiqing Mountain. Without seeing the many Jiedan stage masters in the Pure Yang Palace, weren't all of them reduced to hospitality?

...

"Wine Immortal House Senior Jiu Xian is here!"

Yang Chen didn't know how many people he greeted, and finally heard the name of an acquaintance. Senior Jiu Xian walked over in a hurry and congratulated Yang Chen repeatedly.

He had not seen Senior Jiu Xian for decades, but Jiu Xian has been successfully promoted to the dacheng stage. There was an invisible power on his body, compared with his appearance in the past, he did not know how many times he was wiser. Even the wine immortal house was getting more and more prosperous because of senior Jiu Xian's promotion to the dacheng stage.

Of course, this also meant that the hidden power of the Pure Yang Palace was becoming stronger and stronger, which was definitely a good thing for the Pure Yang Palace.

"Boy, you are great!" After congratulating, Senior Jiu Xian gave Yang Chen a thumbs up and tacitly complimented him.

When others heard it, they naturally thought Senior Jiu Xian praised Yang Chen for marrying four beautiful wives. But Yang Chen knew that Senior Jiu Xian was talking about the great elder of the Greatest Heaven Sect.

Even the wine immortal was taken aback when he knew what had happened afterwards. He thought there were only dozens of Yuanying stage masters and hundreds of Jiedan stage masters gathered there. These forces seem huge but dealing with the Pure Yang Palace was still something they couldn't accomplish. Senior Jiu Xian was also an elder of the Pure Yang Palace, so he was naturally qualified to know about the addition of hundreds of monster race Yuanying stage masters to the Pure Yang Palace.

But no one expected that there was a great elder of the Greatest Heaven Sect among them. It was impossible for the small sects to know such secret things as the existence of the elder greats. Senior Jiu Xian also learned some clues through the wine immortal house. Naturally, Jiu Xian also had some concepts about the strength of these great elders.

Yang Chen calmly killed one of the great elders of the Greatest Heaven Sect, which really surprised Senior Jiu Xian. After understanding, he couldn't help but look at Yang Chen in a different light. This sentence of praise was for this.

After sending Senior Jiu Xian into the mountain gate, Yang Chen still continued to stand at the gate to greet the guests. One by one, famous men entered the gate. What he heard was the endless congratulations, and he saw the gesture of congratulations with both hands clasping fists and the whole Meiqing Mountain was full of joy.

...

“Sect Master of the Beast Taming Sect is here!”

“Senior Black Tiger from the Beast Taming Sect is here!”

The Beast Taming Sect and the Pure Yang Palace were also allies and if Yang Chen was getting married on such a happy day, the Sect Master and Senior Black Tiger, the highest ranking members in the sect, came to congratulate Yang Chen.

Although everyone's starting point was similar, the starting point of the Beast Taming Sect was slightly higher. They have had the dacheng master the Black Tiger a long time ago. Although the Black Tiger was injured, he was still a dacheng master after all. Ordinary Yuanying stage masters were not his opponents at all.

But now the Pure Yang Palace was coming from behind and they had even dacheng stage masters. Not only that, but the Yuanying stage masters also increased a lot. Their strength skyrocketed and at this time it had already surpassed the strength of the Beast Taming Sect. Even if the Beast Taming Sect was inherently superior in absorbing monsters and foreigners, but it was only able to absorb some monsters and foreigners of the Yuanying stage and below, no dacheng stage master was recruited.

Even so, the Beast Controlling Sect had gained a hundred thousand new members, and its strength had also rushed into the range of the quasi-first-rate sect, which was no longer the declining sect before.

All of this seemed to be bestowed by Yang Chen, so the sect master and Senior Black Tiger came together to give Yang Chen's face.

...

"The deputy sect master of the Qiankun Sect is here!"

"The Deputy Sect Master of the Five Elements Sect is here!"

From the announcer at the gate, there were two sounds. The arrival of the two super characters made the surrounding scene quiet for a moment. This was the first group of congratulations from the big sects after rogue cultivators and some small sect masters.

The two main sects sent deputy sect masters to come, and it was considered to have given Yang Chen and the Pure Yang Palace enough face. At the same time it also made the guys who had bad intentions completely give up.

Not to mention the gathering of so many masters before, just the arrival of these two could definitely hold any place. No one dared to offend the two sects of the Qiankun Sect and the Five Elements Sect at the same time, not even the Greatest Heaven Sect would dare.

The two deputy sect masters were grandly welcomed into the mountain gate, and were specially received by two elders of the Pure Yang Palace. The arrival of the deputy sect masters of the two sects also showed the attitude of the two sects. For Yang Chen, this was an absolute support to the end.

"The Greatest Heaven Sect's young sect master is here!"

"The Greatest Heaven Sect's Foreign Affairs Hall Master Mao is here!"

Soon after the two great men entered, the Greatest Heaven Sect finally came. Unlike the previous two major sects where the deputy sect masters came forward, this time the Greatest Heaven Sect sent the young sect master Li Liheng and Mao Qi to arrive at the same time.

Although this lineup does not seem to be as important as the two deputy sect masters, it has also shown the attitude of the Greatest Heaven Sect. Even though the Pure Yang Palace had already disposed of Hu Qianyi, the former elder of the Greatest Heaven Sect, the Greatest Heaven Sect still sent a guest to congratulate him, which has fully demonstrated that, at least for now, they have compromised with the Pure Yang Palace.

Of course, the specific content was not clear to others, but the young sect master and the foreign affairs hall master came together, which has already explained the apparent attitude.

“Sect Master Lu of the Blue Cloud Sect is here!”

“The Master of the Blue Cloud Sect’s Law Enforcement Hall History is here!”

“Elder Hua of the Blue Cloud Sect is here!”

...

After a few sounds, everyone quickly saw three young and beautiful figures in their eyes and exclaimed. They have heard about the magic of the face retaining pills for a long time and they finally saw an example at this moment, and it really deserves its reputation.

“Green Jade Immortal Island’s Island master is here!”

“Elder Min of the Green Jade Immortal Island is here!”

“Elder Guan of the Green Jade Immortal Island is here!”

...

The people from the Green Jade Immortal Island arrived almost at the same time as the Blue Cloud Sect and were also a large group of powerful people. Among them, the Island Master and Elder Min Huafeng were also girls with bright eyes and white teeth, and people can't help but make a sound of exclamation.

Both the Green Jade Immortal Island and the Blue Cloud Sect were having their disciples married, and it was normal for their sect masters to come forward. But dispatching so many dacheng stage elders at once was an unprecedented event.

Only the lineup attending the wedding has shown how important this marriage was to the two sects, and also expresses the importance they attach to Yang Chen.

The five major sects unanimously used this method to show their attitude towards Yang Chen, which seemed to be a silent announcement to the outside world that anyone who dares to deal with Yang Chen was an enemy of the major sects. Even if their own sect members have this idea, Hu Qianyi was an example.
