

## Zhanxian 466

### Chapter 466.1: Marriage Ceremony

“Perform obeisance to Heaven and Earth!”

“Second obeisance to the parents!”

“Husband and wife perform obeisance to each other!”

Yang Chen, dressed in a red auspicious costume, held four brides with hijabs in their hands in red silk. Under the direction of Master Ancestor Wang Yong, they bowed to heaven and earth and their respective elders. Then Yang Chen and the four brides bowed to each other, they finally officially became husband and wife.

When bowing to the parents, Yang Chen’s parents had already enjoyed their lives, so they had to kneel down to worship the elders and the sect master. Even if the parents were alive, Yang Chen couldn’t let them appear on such occasions. Even Shi Shanshan and Sun Qingxue had calculated it, if Yang Chen’s ordinary relatives were known, they would definitely bring disasters to them.

Yang Chen’s wedding also ended with the last call of being “sent into the bridal chamber”. Yang Chen brought four charming ladies to the new house that the sect had already prepared.

Of course, this was just a new house in the apparent sense of the external arrangement of the sect. In fact, the real new house of Yang Chen and his wife was in the Dragon Palace and no one knew about them except the five of them.

The cloud-like guests brought stunning gifts. You know, this was to celebrate the wedding of the only fifth-rank alchemist in the mortal world. The guests who came here would be savvy people who would go out of their way, especially to give Yang Chen a good impression. Naturally, the gift would never be light.

All kinds of rare medicinal materials, refining materials, pill furnaces, spiritual springs, books, fire seeds, formations, etc., almost everything that Yang Chen had focused on before, piled up like a hill. It’s

impossible for every guest to deal with it with a shabby gift. It was strictly calculated, it was even higher than the income value of the hundred thousand mountains in decades.

Yang Chen's gift in return was really generous. Every guest who entered the gate of the mountain would be given a second grade inner sensing pill, plus two fourth grade foundation establishing pills. These pills were prepared beforehand, just for giving back gifts. Fortunately, with the profound spirit furnace, Yang Chen does not need to refine the second and fourth grade, he only needs to refine the first grade inner sensing pill and the third grade foundation establishing pills.

Although the second grade inner sensing pills has no effect on the masters of the dacheng stage, it still has a certain effect on the masters of the Yuanying stage. At least it could let the Yuanying stage ancestor discover the deviation of the cultivation in their body. If the Yuanying stage master doesn't use it, handing it over to a master at the peak Jiedan might give him a breakthrough opportunity.

As for the fourth grade foundation establishing pill, there was no need to say more, as long as it was not an elm knot, a cultivator who could cultivate to the peak qi refining stage, after taking fourth grade foundation establishing pill, it was 100% certain that he would reach the foundation stage without any problem.

Needless to say, this was for the younger generations of these masters. Such a return gift really made these happy congratulations continue.

Although four brides were married at the same time, the four brides were in four new houses. Yang Chen went to each room one by one to pick up the red hijabs on the brides' heads, and drank the hebu wine over the arms, which was regarded as completing the last process of this wedding.

The bridal chamber was just a symbolic entry, now everyone's cultivation has not reached the Yuanying stage, so it was not suitable for dual cultivation. This time the marriage was more important than a formality, rather than a real start of dual cultivation.

The four girls felt very happy about becoming Yang Chen's wife. This was the moment they had been looking forward to long ago and now it has finally become a reality. Although they were still a bit shy to say anything, the smiles on the faces of the four women could better explain their inner thoughts.

The lively scene lasted for more than two months before all the guests dispersed. Under the scene of big people gathering, no one with evil thought dared to make trouble in Pure Yang Palace during this period of time. Everyone passed the two months very peacefully.

However, some of the people from the wine immortal house and the seedling clones of the old tree demon were hidden among the guests on the periphery. It was discovered that many people were sneaking in the Meiqing Mountain range, not knowing what they were looking for, but there was no further action. In order not to disturb the guests, no one paid any attention.

Sun Qingxue's master Hua Wanting and Shi Shanshan's master Song Huan were the last to leave, the injuries of the two girls have not fully recovered. But together with Yang Chen, they said goodbye to their masters.

The four girls have now taken up the appearance of a woman, they looked like women. Hua Wanting and Song Huan gave their disciples a thousand warnings and left a lot of demands on Yang Chen to let him take good care of their disciples and then they reluctantly left.

After sending away all the guests, Yang Chen and his four wives completely let go of their business and began to heal Shi Shanshan and Sun Qingxue. All other things were handed over to the palace master to arrange.

Regardless of healing or alchemy, a quiet and undisturbed environment was needed. Yang Chen spent half a year again, refining a batch of enough questioning inner heart pills to meet the requirements of the Five Elements Sect, Blue Cloud Sect and Qiankun Sect in the next few decades, so as not to be disturbed during these decades.

He became more proficient in the refining of the questioning inner heart pills. It originally took a year to complete the refining, but now it only takes half a year. Moreover, it could reach hundreds of pills in one refining. It seemed that the concept of practice makes perfect was applicable in any industry.

The reason why he had to prepare so well in the early stage was because Yang Chen not only wants to restore the cultivation of the two women this time, but also wanted to take advantage of this rare seclusion to adjust the direction of Shi Shanshan and Sun Qingxue's cultivation. On the other hand, he also hoped that the five of them would be able to collectively attack the Yuanying realm.

Gao Yue and Gongsun Ling had reached the late stage of the Jiedan stage and if she was not injured, Shi Shanshan was even at the peak Jiedan stage and Sun Qingxue had also entered the late Jiedan stage. With Yang Chen's help, it was not impossible for everyone to reach the peak Jiedan stage within twenty years.

Yang Chen never doubted that his four wives would not be able to survive the thunder tribulation. Even without the help of Yang Chen in their previous life, the four women were all very powerful women who survived the thunder tribulation. Could it be that with the help of Yang Chen in this life, they were getting weaker?

All arrangements were made and the questioning inner heart pills were also handed over to the sect master, so that he could deal with the several sects. Yang Chen and his four wives left the Pure Yang Palace collectively and flew towards the East China Sea.

The next healing process required a lot of spiritual power and Yang Chen didn't want to drain the spiritual veins of the sect. In the vast East China Sea, there were countless spiritual veins on the bottom of the sea. In the treasure house of the Dragon Palace, it was absolutely safe and they would not be disturbed. It was the best place for seclusion and healing.

#### Chapter 466.2: Marriage Ceremony

Now that he was married, he had some secrets and it was time to share with his wives. Gao Yue and Gongsun Ling already knew a lot about the Dragon Clan, but Shi Shanshan and Sun Qingxue only knew that Yang Chen had gotten a Dragon Palace, and they didn't know the others. It was time to let them know.

As the flying shuttle flew quickly along the way, Yang Chen also slowly communicated with the four girls. Gao Yue now has the water and fire attribute dragon horns so he didn't have to worry about her life source magic weapon. For Shi Shanshan and Sun Qingxue, Yang Chen didn't know how their sect prepared for them, so he took the opportunity to ask.

It didn't deviate from the original trajectory at all. Whether it was Shi Shanshan or Sun Qingxue, they both chose to refine their own magic weapon from the beginning, even though their refining skills were relatively average.

In Yang Chen's memory, the two women's magic weapons were not very formidable, the two women themselves were really strong. They started the sacrificial refining of their life source magic weapon in

the mortal world, and it took thousands of years and nearly ten thousand years to reach the immortal world, and this was the final state of killing the quartet.

But in Yang Chen's view, the life source magic weapon they refined could be more in line with their own characteristics, but it seemed a bit too wasteful to let two masters who were not good at refining to refine their life source magic weapon from scratch. At least thousands of years in the mortal world would be saved.

It was not that the methods used by the two women were not good. Without the help of their life source magic weapon, the two women could carefully craft their own realms and achieve the prestige of the cold plum fairy and dancing snow fairy. It's just that since there was Yang Chen, then this thousand years of time should not be wasted.

Yang Chen's approach, it's not directly helping the two women refine their life source magic weapons for them to temper themselves. This method looked good in the early stage, but after all, it would not be 100% suitable for them like the magic weapon they refine themselves.

To meet this requirement, but also to allow two masters who were not good at refining to save time on refining, the method Yang Chen adopted was to create sword embryos for the two women.

After Yang Chen help build the sword embryo of the life source flying sword, the remaining perfection would be completed by the two women themselves. This was equivalent to the core and most powerful part being built by professional masters, and the complete adaptation of the control allows the user to control it, which naturally saves a lot of time.

This small change alone could save the two women about 500 years of time. With these five hundred years or so, it would be the first time to temper the life source magic weapon, it was definitely more effective.

Fortunately, the two major sects have prepared materials for their genius disciples to refine their life source magic weapons and they were all rare materials.

The main material prepared by the Green Jade Immortal Island for Shi Shanshan was the scarlet snow spirit crystal, which was almost the top metal refining material in the mortal world that Yang Chen has

seen. Except for the golden bell left by the dragon clan, there was no more advanced metallic material than this kind of scarlet snow spirit crystal.

The Blue Cloud Sect also did not show weakness, the main material prepared for Sun Qingxue was a heavenly thunderwood. It was the most powerful first wood and was even used on weapons, a wood attribute material that was stronger than Yang Chen's Penglai divine wood.

The two main materials alone were enough to explain the wealth of the two major sects. Only this kind of super sect, which has been passed down for hundreds of thousands of years, could have such a profound background, even the current Yang Chen cannot compare.

The original plan of the two major sects was to allow the two girls to become Yuanying stage masters and then refine their own magic weapons. This was also the consistent practice of all major sects. The five super sects, including the Greatest Heaven Sect, all follow such rules.

This approach makes sense. Only in the Yuanying stage could a cultivator have a thorough understanding of his own cultivation situation, or in more precise terms, he could have a clear goal of his future cultivation direction and have a clear understanding of what kind of life source magic weapon he needs. In the refining process, he could also refine the magic weapon suitable for oneself more perfectly.

But now they had Yang Chen so there was no need for such trouble. Especially when Shi Shanshan and Sun Qingxue heard that Yang Chen, Gao Yue and Gongsun Ling had already begun to temper their life source magic weapons for hundreds of years, and even Gongsun Ling had finished tempering and could fully display its combat power, they couldn't help but feel shocked and their mouth opened wide in surprise.

From the Jiedan stage, they began to temper their life source magic weapon. Moreover, it has been tempered. How could this not be unbelievable? But Gongsun Ling revealed her magic weapon and after explaining the mystery in detail, Shi Shanshan and Sun Qingxue couldn't help but flash their beautiful eyes.

The picture frame made by the dragon skin and the scroll made by the dragon bones. How could this kind of life source magic weapon be found without a strong luck? What's more, the huge geographical array of mountains and rivers contained in it was simply something that went against the heavens. Hundreds of Yuanying stage ancestors and several dacheng stage masters were helping her to refine it, it was really extraordinary.

And Gao Yue's situation was even more exaggerated. The two dragon horns of water and fire attribute made people directly look at the materials that could shame them to death. If it weren't for the fact that the two women's materials could barely be considered top-notch, otherwise they would almost be ashamed and faceless.

On the contrary, Yang Chen's magic weapons looked very ordinary. Although the Penglai divine wood flying sword, blood demon vine flying sword, flood dragon flying sword, living soil flying sword, these all seem to be first-class magic weapons, they were basically the same as the two girls but not on the same level. On the contrary, the number was so large that the women were a little surprised.

Everyone didn't understand why Yang Chen was like this. For the time being, Yang Chen didn't explain much, just told the ladies to stay calm and they would naturally know later.

On the contrary, the refining of the flying sword embryos by Shi Shanshan and Sun Qingxue could be put on the agenda. After Yang Chen explained the situation, the two women had no objection. The flood dragon flying sword was there to show Yang Chen's refining level, so the women couldn't refuse. Who would have thought that Yang Chen, a fifth grade alchemist who was famous for alchemy, was also a super expert with a level of refining no less than his alchemy level?

Sun Qingxue's wood attribute flying sword, with the heavenly thunderwood as the main material, Yang Chen generously took out a whole Penglai divine wood as auxiliary material, which directly shocked the four women again. Even the Blue Cloud Sect might not be able to use such a big tree. It was not that there was no Penglai divine wood, but there was no Penglai divine wood that has grown to such a degree.

In contrast, Shi Shanshan's auxiliary materials were a bit worse. Yang Chen only used the entire dome hall and the sword array in the hall as auxiliary materials, and then refined it into one body. The flying sword itself contains a sword array, which was infinitely powerful.

The two women also recognized Yang Chen's methods, and were surprised by the materials Yang Chen gave them. They felt more confident about their recovery.

Chapter 467.1: Husband And Wives Seclusion

The flying shuttle flew along the way and when it reached the sea, it plunged into the vast sea.

Yang Chen's four wives, apart from Gongsun Ling who followed Yang Chen to the South China Sea and enjoyed the ocean scenery, even Shi Shanshan, who has been living and cultivating in the Green Jade Immortal Island which was in the sea, did not have much chance to see the underwater world.

At the bottom of the ocean, the bizarre, colorful, and bizarre scenery attracted the women's exclamations. Yang Chen didn't forget to put some suitable marine medicinal materials into the medicine garden.

When he arrived at the huge rock where the Dragon Clan's treasure house was located, it was already half a year later. As Yang Chen displayed a series of hand signs, after everyone appeared in the treasure house, the faces of the four women changed from novelty to surprise again.

The huge map of the East China Sea, with countless red dots that mark the spiritual veins shining brightly, the abundant spiritual power even made people feel that every air they breathe in was equivalent to cultivating for a week. This kind of heaven blessed land was simply unbelievable.

The huge palace behind, the buildings in the same style as the Dragon Palace that Yang Chen had already acquired, amazed the girls. Soon, the girls knew that this was the treasure house of the dragon clan that Yang Chen discovered.

When he got here, Xiao Tian was also released by Yang Chen. Xiao Tian felt as if going home, it ran straight to the huge dragon bead in the main hall.

As soon as Xiao Tian's figure appeared, the women were shocked again. Fortunately, knowing that this was released by Yang Chen, they didn't panic. When they understand that this thing with the body of a dragon was actually the little earthy dog that Yang Chen bought in the market of the Beast Taming Sect back then, and the real identity of Xiao Tian turned out to be one of the descendants of the wolf dragon the only surviving dragon clan member in the mortal world, they could hardly believe their ears.

When he bought Xiao Tian back then, he was with Gongsun Ling. Countless people, including those in the Beast Taming Sect, thought that Yang Chen was crazy to even spend a pound of low-grade spirit stones to buy a worthless spirit pet. Who could have imagined that the thin and weak little dog that was not surprising at the time was actually a wolf dragon?

Yang Chen and Shi Shanshan even went to search for the blood essence of the howling celestial dog which purified the blood of Xiao Tian back then. Back then, Shi Shanshan hadn't noticed that the dog would turn out to be the Xiao Tian now.

The figure of Xiao Tian disappeared, and the girls followed with curiosity. Soon, the huge dragon bead appeared in front of everyone.

The dragon bead exuded a majestic dragon aura, forcing Xiao Tian outside. Xiao Tian's body formed a circle, and his greedy mouth was absorbing the dragon qi that escaped from the dragon bead.

The girls were completely stunned, no one knew what such a huge dragon bead meant. But just standing not far from the dragon bead and feeling the dragon qi released by the dragon bead already made people feel a sense of diligence in their cultivation. Even Yu Shi Shanshan and Sun Qingxue's meridian injuries healed somewhat.

This was also one of the most important reasons why Yang Chen wanted to bring all the girls here to retreat for healing. On one hand, it was to use the endless spirit power here, on the other hand, to use this dragon bead.

The role of the dragon bead, for Yang Chen's previous visit, seemed to be the key to the Dragon Palace in the South China Sea in addition to the tonic upgrade for Xiao Tian. But now, it was still the key to the healing of the two women.

When the girls got acquainted with everything here, and were no longer so curious, only then did Yang Chen come out with the treatment methods for the two girls.

It's easy to explain, that was, while using the spirit pill to restore the meridians, he would use the dragon qi and a lot of spiritual energy to wash the bodies of the two women. When their meridians were restored, their spirit power would also be restored.

The reason was simple, but it was very difficult to operate. In the current situation of the two women, they couldn't withstand a lot of spirit power at all and they couldn't withstand strong medicinal pills.

But with the help of Yang Chen, all of this was achievable. No one was more familiar with the medicinal properties of the pill that he refined than Yang Chen himself and no one could be like Yang Chen, with a powerful human immortal stage spiritual awareness that could easily control the spirit power entering the two women's bodies. Similarly, no one could let the powerful dragon qi obey their command and use it to regulate the bodies of the two women. All of this, Yang Chen met the conditions.

Of course, with such a huge dragon bead, it would be a waste to only treat the two women, he would also take care of Gao Yue and Gongsun Ling bodies. He believed that with these dragon qi, it would be easier for the two women to control the dragon clan's magic weapon. They would be able to give full play to the magic weapon's power.

Under the gaze of the women, Yang Chen took out the three huge jade basins that had been prepared a long time ago, took the purple gourd, poured out three kinds of jade liquid and filled the three jade basins.

As soon as the three kinds of liquid appeared, there was another exclamation for a while. The women were all well-informed people, but when they suddenly saw so many first wood spiritual solution, seventh metal spiritual solution and tenth water spiritual solution, even Shi Shanshan and Qingxue, who were born in a super sect couldn't help but exclaim.

A small bottle was enough for people to cultivate the first wood true secret art, seventh metal true secret art and tenth water true secret art, but such a large basin would be used for bathing.

"Yes, this is for taking a bath." Yang Chen said with a nonchalant face and immediately turned to Gongsun Ling after finishing "Senior apprentice sister, sorry, I haven't found the fifth earth spiritual solution, so I can only wrong you."

The girls then realized that the three spiritual liquids correspond to their attributes. The first wood spiritual solution corresponds to Sun Qingxue with wood attribute, the seventh metal spiritual solution corresponds to Shi Shanshan who had the metal attribute and the tenth water spiritual solution corresponds to Gao Yue with the water attribute. Indeed, Gongsun Ling, who has the earth attribute did not have any.

In this regard, Gongsun Ling didn't care, her own life source magic weapon was more powerful than the others and she had already taken advantage of it. In this mortal world, where everything couldn't be perfect, some small shortcomings were normal.

“However, I have extorted a bottle of sixth earth true essence and the original sixth earth true secret art from the Greatest Heaven Sect”. Of course, Yang Chen would not let Gongsun Ling go back empty-handed and brought out the issue about the sixth earth true secret art.

Gongsun Ling has already cultivated in the fifth earth true secret art and if the sixth earth true secret art was added, the Yin and Yang would complement each other, he believed that her cultivation base would be higher. Yang Chen really took it into consideration for each of his wives.

After all the women calmed down, Yang Chen began to talk about the process of their cultivation. Yang Chen spoke in great detail and every step was calculated, especially for Shi Shanshan and Sun Qingxue’s healing process, which was almost accurate to every change in their physical condition.

The four ladies listened carefully and nodded frequently. Regarding cultivation guidance, apart from Shi Shanshan who has not seen Yang Chen’s prowess, the other three women were very clear about what Yang Chen was and had no objection.

#### Chapter 467.2: Husband And Wives Seclusion

Shi Shanshan had only experienced Yang Chen’s help to fight her heart devil once, but it was only aimed at the heart devil, so she still had doubts about Yang Chen’s cultivation instructions.

However, Shi Shanshan still completely trusted Yang Chen when it comes to healing. No one cared more about her injury than Yang Chen and would never make fun of her injury. So, at this time, whatever Yang Chen said, Shi Shanshan just nodded.

Yang Chen unreservedly taught Sun Qingxue and Shi Shanshan the first wood true secret art and seventh metal true secret art. After listening to Yang Chen’s narration, the shocked mouths of the two women could almost swallow a whole orange. The surprises encountered during the first half of their lives did not add up to as much as today.

However, the two true secrets arts did make the two women understand how Yang Chen took care of them, and why Yang Chen had to ask them to ask the sect if they could accept Yang Chen’s cultivation method. These precious cultivation methods, even if it was the two major sects, it was not necessarily available to them.

This time Yang Chen had a lot to do. In addition to taking care of the two injured wives and healing them at the same time, it was necessary to take care of the dragon qi to clean Gao Yue and Gongsun Ling's bodies, and also to follow the moment when everyone was cultivating to help Gongsun Ling to cultivate the sixth earth true secret art after cultivating it himself.

That's right, this time Yang Chen was about to start cultivating with the four girls at the same time. Not only did he have to take care of each one of his own wives, but he also had to cultivate his own skills, this was unprecedentedly difficult.

It's not that time was pressing to this point, he had to complete these all at once. It was true that Yang Chen also knew that once the dragon qi begins to escape, the five people would add to the absorption of Xiao Tian. Even this huge dragon bead could not support them for too long.

After the dragon bead's qi was reduced to a certain level, Xiao Tian would unceremoniously swallow the dragon bead in one bite and would not leave Yang Chen and the four women any of it. On this issue, Yang Chen couldn't control Xiao Tian's behavior. This was completely racial instinct and being under command was not the same thing.

Of course, Yang Chen knew the preciousness of the dragon qi. Before, he could not control and absorb it, but after cultivating in the dragon yuan, Yang Chen could already control a small part of the meager dragon qi. For his wives, Yang Chen must of course share the benefits with them, especially when this dragon qi was still very beneficial to Shi Shanshan and Sun Qingxue's injuries, even more so.

A large amount of spiritual solution would directly cause some cultivators to burst into death, but that was under massive circumstances. The spiritual solution in the large bathtub was not enough to make the girls feel unbearable. However, even so, with the current state of Shi Shanshan and Sun Qingxue, they cannot be soaked in the jade basin just like that.

This required Yang Chen to use huge spirit power to block the invasion of their respective spiritual fluids for the two women and at the same time to control a small amount of spiritual fluids to enter their bodies, together with the pill and dragon qi, to comb the body while repairing their injuries.

The whole process needed to be gradual and there could be no mistakes. This was where the risk lies, but Yang Chen was 90% sure that he could do this at this moment.

The first wood spiritual solution, seventh metal spiritual solution and tenth water spiritual solution were enough to supplement, and the three women soaking in it don't need much outside spirit power. Gongsun Ling only cultivated herself, refining the dragon qi. She doesn't need too much, it was Yang Chen who really needed a lot of spirit power. That's why Yang Chen chose to sit down and control everything in the place with the most spiritual veins in the East China Sea.

After controlling the blue jade blood phantom vine to absorb all the medicinal qi of the pulse calming powdered medicinal pill in the bodies of Shi Shanshan and Sun Qingxue, everyone began to enter a cultivation state.

After repeatedly admonishing the four women and asking them to remember all the details, Yang Chen first let Gao Yue lie down in the jade basin filled with the tenth water spiritual solution and then together with Gongsun Ling, helped Shi Shanshan and Sun Qingxue soak into the seventh metal spiritual solution and first wood spiritual solution.

Naturally, the scarlet snow spirit crystal and the heavenly thunder wood, which the two women wanted to refine as their life source magic weapons, were also soaked in with them. This was the most original spirit power, plus the dragon qi after soaking, not to mention that the two materials would be higher and the degree of compatibility with the two women would also increase greatly in the future.

From the moment the two women's bodies entered the jade basin, Yang Chen needed to separate his mind to control the spiritual fluid around their bodies. At this time, Yang Chen didn't say much, he sat down among the three jade basins and began to control with concentration.

The three women in the jade basin each stretched out a snow-white jade hand and put it on Yang Chen's body. This was the bridge between them and Yang Chen spirit power, it was also the part that must be connected in the whole process. After seeing them all settle down, Gongsun Ling also sat in another direction, stretched out her hand and pressed it against Yang Chen's body.

Xiao Tian was also under the control of Yang Chen, his long body stretched out, his head was still at the position of the dragon bead in the hall, but his tail had reached Yang Chen's side, just next to Yang Chen's body.

With a big mouth, the dragon qi that escaped from the dragon bead turned into a mist and entered the mouth of Xiao Tian. However, this time it was not that Xiao Tian completely absorbed it, but left a part of it, which entered Yang Chen's body through the tail. Under the control of Yang Chen, the dragon qi was sent to the surrounding four women.

The five people were like one body, without saying anything, entering into the boring process of cultivating. As long as the four girls were busy with their own affairs, Yang Chen, as a husband, worked harder. While taking care of the four girls, he also started to cultivate.

Shi Shanshan's injury was the heaviest, but the effect of the dragon qi mixed with the pill was also the most obvious, recovering almost at a speed visible to the naked eye at first. When she recovered to the same level as Sun Qingxue, the speed finally slowed down.

This saved Yang Chen a lot of efforts. For the time being, there was no need to treat the two women differently. He just controlled the dragon qi and the medicinal qi to repair their bodies together. The spiritual solution from the outside entered the two women's bodies and then flowed out again, the pure and most original spiritual solution washed their bodies.

This process lasted for three years. The meridians of the two women slowly recovered bit by bit, the broken meridians slowly recovered and the true essence formed by the gasification of a small amount of spiritual solution began to fill the two women's meridians.

Based on the first wood true secret art and seventh metal true secret art respectively, the two women began to cultivate carefully. First wood true essence and seventh metal true essence, as thin as hairsprings, slowly flowed through the meridians of the two women. Their bodies had been washed by the first wood spiritual solution and seventh metal spiritual solution for three years and had already fully adapted to the two true essences, so the two girls had easily entered the process of cultivation.

With the participation of the two women who took the initiative to cultivate, the sooner the injury would recover. The warm nourishment of the true essence and the nourishment of the dragon yuan made the bodies of the two women more and more healthy. Five years later, the two women completely returned to normal.

Chapter 468.1: The Greatest Heaven Sect's Predicament

Recovery from the injury was only the first step of Yang Chen's goal, his ultimate goal was to restore the cultivation base of the two women.

The two women who were no longer affected by the injury cultivated their own cultivation methods, with excellent results. Moreover, after the dragon qi nourishment, coupled with a large amount of

scouring from the spiritual solution, the abolished cultivation bases of the two women were slowly recovering.

It was said to be slow, but it was still dozens of times faster than cultivating from scratch. This was also an important reason why Yang Chen was sure that he could restore their cultivation base within twenty years.

The two women's active cultivation has increasingly intensified the absorption of the spiritual solution. Changing to any other person, they couldn't provide the two women with this constant source of spiritual solution to quickly restore their cultivation base.

Shi Shanshan and Sun Qingxue had already reached the peak Jiedan stage and late Jiedan stage, but now they were only recovering and they have replaced their cultivation methods with the most original technique. The efficiency was naturally very different and their cultivation base had increased by leaps and bounds.

Relative to the rapid recovery of the two women, Gao Yue's cultivation was slightly troublesome. Unlike the two women who had to heal their injuries, Gao Yue's main focus was to refine the dragon horn flying sword in the near future or nearly a hundred years, which has caused her to devote a lot of energy to the two dragon horns.

Although her whole body was in the tenth water spiritual solution and she has already cultivated the tenth water true essence, Gao Yue could only use 30% of her spiritual awareness in her cultivation and the rest was used to pay attention to the dragon horns.

Yang Chen's thoughts on Gao Yue were far less than those of Shi Shanshan and Sun Qingxue. He doesn't have to worry about the tenth water spiritual solution causing damage to Gao Yue, as long as he controls the absorption and nourishment of the dragon qi, paying attention to whether Gao Yue's tenth water spiritual solution was enough and much easier.

In this situation, Gao Yue's cultivation was still constantly advancing, seeing that she had reached the peak Jiedan stage. If this situation continues to develop, within a few years, it would be possible to reach the bottleneck of the Yuanying stage.

Gongsun Ling was the easiest one Yang Chen had to deal with. He just infused Gongsun Ling with the dragon qi and didn't have to worry about her anymore.

Although there was no nourishment of the spiritual solution for her, with the strong spirit power here and the constantly escaping dragon qi, it seemed that Gongsun Ling's sacrificial refining of the mountain river geographical map seemed much easier. In just five years, Gongsun Ling has used the dragon power to thoroughly purify the mixed spirit power of the many masters in the mountain river geographical map and it completely became her own power.

With the life source magic weapon, the cultivation was very different. In addition to these gains, Gongsun Ling also raised her cultivation base to the peak Jiedan stage and it would be possible to face the tribulation in a few years.

As for Yang Chen, he was distracted by taking care of the four women while mobilizing the spirit power on the nautical chart to help Shi Shanshan and Sun Qingxue without stopping for a moment. The great yin-yang five elements secret art almost worked to the extreme and he was still cultivating for five years.

After five years of sleepless cultivation, Yang Chen has even vaguely reached the edge crossing his tribulation and forming his nascent soul. It's just that he could suppress his own cultivation base, which guarantees that the heavenly tribulation would not come to this point in advance and Yang Chen could finally relax. First of all, he no longer worried about the harm of the spiritual solution to the women, which made it a lot easier to just control the dragon qi.

Everything has become formal, originally, Yang Chen planned to cultivate the sixth earth true secret art in the process, but now it was completely unnecessary. Everything could be done after reaching the Yuanying stage. If he wanted to cultivate now, it was bound to send the tribulation three times in advance and it was extremely disadvantageous for the women.

The transmission of dragon qi was increasing and the benefits to everyone was increasing. But Yang Chen knew that this was caused by Xiao Tian's absorption of the dragon qi becoming faster and faster. Presumably it won't take long for that dragon bead to reach the point where it could be controlled by Xiao Tian.

After absorbing the dragon bead, Xiao Tian would definitely grow and upgrade again. So far, Xiao Tian has been able to increase the sharpness of Yang Chen's flying sword and it must be possible to at least be able to cut everything by then.

The next thing to do was still to cultivate step by step and absorb the dragon qi. The girls knew their goals, so they didn't need Yang Chen to urge them to cultivate their own cultivation methods. It's just the four snow-white jade hands that have been resting on Yang Chen's body have never left in five years.

Not to mention Yang Chen's calm cultivation in the dragon palace treasure house, a series of things happened in the outside world.

Because Yang Chen took away Shi Shanshan and Sun Qingxue and promised to restore the cultivation base of the two girls, the Green Jade Immortal Island and Blue Cloud Sect also relaxed and waited for good news.

With Yang Chen leaving behind the questioning inner heart pills, the Pure Yang Palace was not afraid of the several big sects coming to them. After discussing with several elders based on the close relationship with the Blue Cloud Sect, the palace master took out the questioning inner heart pills that were supposed to be given to the Blue Cloud Sect and sent it to them in advance. In this way, the Blue Cloud Sect could carry out the talent training plan of its own sect in advance.

The Greatest Heaven Sect's medicine hall masters, after five years of constant experimentation and practice, spent countless medicinal materials, finally discovered an embarrassing fact. Although they got the pill recipe of the questioning inner heart pill and spirit congealing pill, they were still unable to refine the complete pill.

Regardless of whether it was a questioning inner heart pill or a spirit congealing pill, a prerequisite was required, that was, to divert your attention. Their concentration was to be distracted for six purposes, while the questioning inner heart pill was even more terrifying. Diverting the attention was the starting point, if it couldn't be done there was no other result except a burnt medicinal pill.

Distraction was almost impossible among the cultivators in the mortal world. Even some masters who specialize in spiritual awareness could just divert their attention into two, which was already the limit. Even the best experts at the peak dacheng stage could do this very reluctantly, not to mention these alchemists who specialize in alchemy.

Therefore, the only way was to cooperate with others. However, cooperation required a tacit understanding between everyone, this was not a practice of a sword formation or other, it does not

matter if it was a little bit close. As long as there was a slight deviation, the medicinal materials would be ruined, except for the black medicinal residue, nothing would be obtained.

The most important point was that at least eight types of fire seeds needed to be used in the refining process, ranging from third grade to the fifth grade. This required more stringent cooperation among several people. If they were not careful, the fire seeds would conflict with each other and the medicine would be ruined.

The masters of the Greatest Heaven Sect were facing such a problem at this moment. No matter how they practice or cooperate, they would always fall short in some places.

After consuming the medicinal materials that would cause a small sect to go bankrupt several times, the master of the Greatest Heaven Sect medicinal hall had to come to a conclusion dejectedly. There were pill recipes, but the Greatest Heaven Sect couldn't produce the pills !.

#### Chapter 468.2: The Greatest Heaven Sect's Predicament

This result really was devastating to the people. Especially the masters of the medicine hall, who were usually held in high esteem by people in the sect, at this moment, in front of several high-level officials, all of them were dejected and afraid to show their face.

There was nothing that could be done about it, the things that the medicinal hall has done in the past few years have really caused the Greatest Heaven Sect's Li Liheng's spirit congealing pill. At first, hundreds of pills were forcibly removed by the medicinal hall and nothing was gained from their studies.

Now the situation was getting worse. The pill recipe that the sect has only exchanged for with the seventh grade fire seed, after so many years, apart from proving that the pill recipe was real, there hasn't been any progress. In vain, a lot of resources of the sect were consumed and nothing was achieved. Even if they were too wealthy, they had to hold back their prodigal from squandering.

Sect master Li stared at the master of the medicine hall, almost a fire in his eyes. Had it not been for his adeptness, they had robbed Li Liheng's spirit congealing pills in the past and now Li Liheng has successfully communicated with the seniors in the spiritual world, he would have ruined them abruptly.

“This medicinal pill, is that kid Yang Chen that good?” Sect master Li’s words contained anger that could not be hidden. He couldn’t get angry in front of so many people, so he could only transfer his anger to Yang Chen “With my dignified Greatest Heaven Sect, I have to give face to a younger generation junior?”

No one dared to answer, whoever answered at this time was a fool and the anger of the master would be vented on the person who answered. Everyone stood silently, not knowing what they were thinking in their minds.

The only person who was a little bit happy was Mao Qi, the head of the Foreign Affairs Hall. The few deals with Yang Chen, although they all fell short, but he was the one who could talk to Yang Chen right now.

Others were either having too high a status and disdain to shame themselves in front of a younger generation junior, or don’t have this friendship at all and were not used to bargaining things that make people feel inconsistent with their status. If the Greatest Heaven Sect wanted to find Yang Chen for help again, only Mao Qi was left.

The spirit congealing pill was definitely required no matter what the price they had to pay. Mao Qi also knew that as long as Li Liheng’s spacial spiritual awareness cultivation was successful, no matter how much he paid, he could get it back ten times or a hundred times and this credit obviously would go to Mao Qi.

However, at this time, if the Greatest Heaven Sect was to seek help from the Pure Yang Palace, it would be really embarrassing. The matter should start with an incident two years after Yang Chen got married.

Hu Qianyi was given up by the Greatest Heaven Sect as a last resort, the situation at that time had already reached that point. However, Hu Qianyi’s disciples and descendants were not reconciled.

Without Hu Qianyi to support these disciples and descendants, life in the Greatest Heaven Sect was very difficult. Everyone was unwilling to accept this fate and was doing everything possible to change this situation.

Since Elder Hu Qianyi’s life tablet was not broken, it meant that as long as the life of Elder Hu could be retrieved, their family could still restore their previous status.

As a result, many people began planning to save him from the Pure Yang Palace. Secretly, these people gathered dozens of Yuanying masters and at a high price, they hired two dacheng stage masters and at some point they suddenly went to the Pure Yang Palace to pay their respect.

Of course, the excuse used was to ask for alchemy. It just happened that everyone met together and the Pure Yang Palace couldn't say a word. The two dacheng stage masters came directly to take care of the two dacheng stage masters of the Pure Yang Palace. Their task was not to fight Wang Yong and the old tree monster, as long as they could restrain them and they couldn't make a move, the remaining dozens of Yuanying masters could naturally take care of everything.

If the time was right, they might be able to destroy the Pure Yang Palace. This was what the Greatest Heaven Sect has always wanted to do but failed to do. Once they could do this, then these Greatest Heaven Sect disciples would not only have no fault, but would have merit.

As for the rescue of Hu Qianyi, it was even more wishful thinking. Even the palace master does not know where Hu Qianyi was locked up. These people would not be able to find him even if they turned meiqing mountain over.

Not to mention the dingy down the mountain, the news was spread by countless people who saw this scene because of a joke. While everyone expressed envy and jealousy about the growing strength of the Pure Yang Palace, they couldn't help but sigh that a fifth grade alchemist could really attract 3 masters and cast their effects. Replaced with the previous Pure Yang Palace, which monster race master would consider them?

Naturally, the source of these people's troubles was also found and the Greatest Heaven Sect had to punish a large number of sect disciples, losing a lot of face.

After this incident, the high level of the Greatest Heaven Sect had originally hoped that the medicinal hall would be able to refine the pill, and no longer have anything to do with the Pure Yang Palace and then concentrate their efforts to completely destroying the Pure Yang Palace.

Now, the medicinal hall's performance was extremely disappointing and the Pure Yang Palace, which they don't want to contact, was indispensable. Not only that, but also had to put on a low posture and once again proactively extend the bamboo stick to the opponent's hand, letting the Pure Yang Palace to take advantage!

Chapter 469.1: Family Seclusion

Because of their disciples they were ashamed, not to mention that the strength of the Pure Yang Palace surged, which also made the Greatest Heaven Sect feel a little more jealous. Fortunately, the Pure Yang Palace only increased the masters of the Yuanying stage masters, the masters of the dacheng stage did not increase, which made the Greatest Heaven Sect feel a little relieved.

Everyone knew that now the Pure Yang Palace has a fifth grade alchemist, Yang Chen, which would definitely attract more experts to join them. If some dacheng masters also swarmed in, then Pure Yang Palace could no longer be suppressed.

However, even if the Pure Yang Palace increases its strength, it cannot be the Greatest Heaven Sect's opponent. At this point, the Greatest Heaven Sect has absolute confidence.

Besides, they had another trump card. As long as Li Liheng's spacial spiritual awareness cultivation was successful, they would be absolutely invincible in the mortal world. Not to mention the Little Pure Yang Palace, when the time comes, the Green Jade Immortal Island, Blue Cloud Sect, Five Elements Sect and Qiankun Sect, would just be a thing of the past.

But everything was maintained on a small spirit congealing pill. Now Li Liheng's situation was getting more and more serious and he has returned to the point where he would be unconscious once in less than ten days. The senior officials of the sect watched helplessly and could only cast their anger on the masters of the medicinal hall.

To be honest, the masters of the medicinal hall were very puzzled by their previous orders. Regarding the degree of preciousness, they knew how precious the questioning inner heart pills were compared to the spirit congealing pills, but the sect master even asked them to spend great efforts to refine the spirit congealing pills.

From the simple and complex degree of pill refining, it was understandable from what was easy to difficult. The problem was, it's just that the spirit congealing pills had not been refined successfully and the sect master should be so angry, it was really unreasonable.

This spirit congealing pill was only used by Li Liheng alone, for the sake of him who had the name of a young sect master, but did not have the strength and contribution of the young sect master, it was really not worthy of the sect leader and the seniors. Unless Li Liheng was really the illegitimate son of sect master Li, as rumored.

Sect Master Li certainly didn't know that the hall master of the medicinal hall would have such nasty thoughts in his heart. He was just thinking in his heart how he could get the spirit congealing pills as soon as possible.

When several core high-level officials discussed in secret, hall master Mao Qi was among them. Understanding the importance of Li Liheng, hall master Mao was also very concerned. What they had to consider now was what price it would cost for Yang Chen to act.

Mao Qi could not forget so far, after the initial negotiation between the two parties, Yang Chen talked to him about the price of the refining for the second time, he smiled and said that the market situation was different. Based on his understanding of Yang Chen, this time, he must pay an unimaginable price.

If he kept asking for pills, maybe it won't be too ridiculous. However, asking for the pill after getting the pill recipe was another matter. They couldn't refine it, so the price was naturally different. Last time, he asked for two sixth grade fire seeds, and now he didn't know what outrageous prices would appear.

Sighing in his heart, Mao Qi could only take the initiative to negotiate with Yang Chen. Naturally, his attitude satisfied the senior members of the sect, and even allowed him to act freely. As long as it was not too unacceptable, he could reach an agreement with Yang Chen on the spot.

However, even if The Greatest Heaven Sect was anxious, there was no way now. In order to heal his wife, Yang Chen and the four wives were in seclusion together.

Unexpectedly, Mao Qi also secretly hated Hu Qianyi. If it wasn't that he couldn't even handle the two Jiedan stage girls, how could the sect fall into such a passive situation? Even if they got a pill recipe that can't be refined, they could always find Yang Chen to make a deal. Why would they be so anxious but couldn't do anything?

Not to mention how the Greatest Heaven Sect's high-level members were gnashing their teeth at Hu Qianyi, now Yang Chen and his four wives were gradually entering a better state of cultivation.

The cultivation bases of Shi Shanshan and Sun Qingxue were improving rapidly after they had cultivated their own cultivation methods and being supported by a large amount of spiritual solution. Within three short years, they had reached the peak foundation stage and were recovering towards the Jiedan stage.

The experience of losing their spirit power has given the two women a new understanding of their own cultivation compared with the smooth sailing cultivation before, and they had more control and mastery of their own power.

What Yang Chen brought to them was by no means only constant surprise, and not only an understanding of cultivation, but most importantly, Yang Chen has given them unparalleled confidence.

Even a serious injury such as the destruction of spirit power could be recovered in a short time, what else could be difficult for Yang Chen? This kind of self-confidence with the limit being the sky was the spiritual state of mind that anyone dreams of.

This time the five people's retreat could be said to be a true retreat. He didn't hear things going on outside and he devoted himself to cultivating. Compared with the last time when Yang Chen and her master and senior sister went into seclusion to reach the Jiedan stage, they had to work many times. At that time, Yang Chen often chatted and communicated with the two women. This time, it was like he was in the realm of sleep without talking.

The endless source of spiritual solution brought infinite power to Gao Yue, Shi Shanshan, Sun Qingxue and Gongsun Ling, with the help of the dragon qi, refined the mountain river geographical map of mountains and rivers even more.

Entering this situation, time seemed to be fleeting, so fast that people couldn't feel time slipping away. Before they knew it, more than a dozen years had passed.

The first thing that moved was Xiao Tian whose tail had been entwined with Yang Chen. The huge dragon bead in the hall, after so many years of hard work, Xiao Tian had absorbed countless dragon qi and its own strength has also grown a lot.

At this moment, the dragon bead was no longer inaccessible and Xiao Tian was sensitive to this, his body flew forward, opened his mouth and swallowed the dragon bead into his abdomen in one bite.

After that, the dragon tower appeared out of thin air. Without saying anything, Xiao Tian got into the dragon tower with one head and entered the second floor. His whole body was curled up inside the dragon tower and he didn't move.

The dragon qi around him also suddenly diminished in an instant and soon disappeared without a trace.

Without the dragon qi, Yang Chen no longer had to control the dragon qi to comb the body of everyone. Once his mind relaxed, the people immediately woke up from a state of full cultivation.

As soon as he was sober, Yang Chen began to investigate the situation of the four women. Shi Shanshan and Sun Qingxue had also completely restored their original cultivation base at this moment, and with the help of the spiritual solution, their cultivation base was even more advanced than before they were abolished.

Shi Shanshan was already on the verge of facing her tribulation, it seemed that as long as there was a little more cultivation, the tribulation would be attracted immediately. Sun Qingxue was not so exaggerated, but she has also entered the peak Jiedan stage. It would only take one or two months at most to break through the bottleneck.

Gao Yue also made great advances in her cultivation. If it hadn't been for most of her energy had to be focused on the two dragon horns, she might have already begun to face her tribulation a few years ago. As for Gongsun Ling, she was also on the verge of facing her tribulation.

#### Chapter 469.2: Family Seclusion

Yang Chen had never doubted that the four women would not be able to survive the thunder tribulation and complete the transformation of their nascent soul. However, the situation at this moment also made him have to temporarily stop his cultivation and explain all the experience of crossing a tribulation to the four women in advance.

He was not afraid of ten thousand, but afraid of it in case. Now that the four women were all his own wives, Yang Chen would certainly try to keep them from harm.

With a pinch, it has been 18 years since this retreat. Everyone looked at their bodies that were almost motionless for eighteen years before they started to communicate.

Shi Shanshan and Sun Qingxue were investigating their own physical conditions for the first time. The recovery and even improvement of their cultivation levels made the two girls feel unbelievable.

Activating their vitality and mobilizing spirit power, everything seemed so dreamy. But the feeling of strength between gestures was more abundant than before, which told the two women that the current situation was extremely real.

The four girls were all on the verge of facing their tribulations. Yang Chen didn't talk nonsense, and told the four girls all the experiences he knew. At the same time, two thunder pomegranates were given to each of the four women. When necessary, the thunder pomegranates were better used instead of causing harm to the body.

However, Yang Chen still had confidence in the four women after all. The experience he mentioned was all about how to use the thunder tribulation to temper the body, get rid of impurities, and purify the spirit power. The four women nodded frequently.

After enough communication, Yang Chen let the four women cultivate for another three months, when all their conditions had been restored to the best time, then he and the four women were ready to face the tribulation.

Sometimes, Yang Chen had to sigh with emotion for the cultivation aptitude of the four women. He himself killed tens of thousands of immortals, only then was he able to transform his body and possess the aptitude of the acquired postnatal spiritual root. Almost all of the four females were born with computers innate spiritual roots, and they have been on the verge of forming their nascent soul after only two hundred years of cultivation. It makes countless people who have not been able to break through for hundreds of years of penance to be ashamed.

This was the bottom of the East China Sea, where water-attribute cultivators take advantage of the most, so Gao Yue has become the first target to face the tribulation.

Leaving the Dragon Palace treasure house, everyone was above the sea. Yang Chen shielded the other three women with the inverted sea jasper cup, a little farther away. Then he gave Gao Yue an encouraging smile and motioned her to start.

Gao Yue quickly swallowed a second grade inner sensing pill, using various sensations to increase the efficacy of the medicine a hundredfold, and quickly adjusted some small defects in her body. Immediately afterwards, the tribulation clouds began to gather in the sky.

The thunderbolt shook the sky, but Gao Yue was like a moth fighting a fire, actively flying towards the thunder that was the thickness of a bucket as soon as it appeared. In an ordinary thunder tribulation, the first thunder light was at most only the thickness of a calf. Obviously, Gao Yue's thunder tribulation has surpassed the average.

The shining thunder light kept wandering on Gao Yue's body, but it was only a flash and then disappeared without a trace.

The next second, third, and eighth thunder rays, one thicker than one, all hit Gao Yue directly. Then it disappeared on the surface of Gao Yue's body, as if it had been completely absorbed and did not escape at all.

The ninth thunder light, full of the thickness of a grinding disc, completely wrapped Gao Yue in it. But Gao Yue's body seemed to have infinite suction, soon all the lightning was completely absorbed.

After a while, the tribulation cloud quickly dissipated and the sky became clear again, as if nothing had happened. But the Gao Yue flying in the air over there was no longer the same Gao Yue, her whole body exuded a strong aura and it took a long time to calm it down, no longer showing that sharp aura.

Gao Yue's success in the tribulation also gave the other three women infinite motivation. Everyone didn't want to show a weaker performance in front of Yang Chen than others, so Shi Shanshan took the initiative to jump out.

Among the four women, Gao Yue may be slightly older in terms of age, but Shi Shanshan was definitely the highest in terms of cultivation base. Even Gao Yue lags behind her because of her re-cultivation of her water attribute.

She also took a second grade inner sensing pill that quickly attracted the tribulation clouds. In fact, the four girls could also cause the tribulation clouds to appear without the use of the inner sensing pills, but the inner sensing pills could let them know their spirit power and the running status of their blood before the tribulation, so as to guide the thunder into the body to transform it, so it was taken in unison.

Shi Shanshan's tribulation scene was very surprising. The first thunder tribulation was even worse than Gao Yue's first thunder tribulation.

A series of thunder tribulations all wandered around Shi Shanshan's body. When the next thunder tribulation struck down, the light of the previous thunder tribulation had not disappeared. One overlapped with the other and the weight increased, forming a huge lightning ball outside Shi Shanshan's body. It illuminated the sea almost a hundred miles in radius.

After all the lightning disappeared, the tribulation clouds dispersed, but the lightning around Shi Shanshan's body had not disappeared. After waiting for almost an hour, it dissipated completely. Similarly, Shi Shanshan also showed the aura of the Yuanying stage.

Yang Chen looked quietly at this scene, but couldn't help nodding in his heart. His master Gao Yue first absorbed all the thunder into the body, and then resolved it in a targeted manner. However, Shi Shanshan kept all the thunder out of the body and absorbed them in a targeted manner. There were two different ways, one inside and one outside, but it was difficult to distinguish.

Relatively speaking, Sun Qingxue and Gongsun Ling didn't have much ambition to fight for superiority. After the two humbly gave each other a bit of time, Sun Qingxue went out first, swallowed the inner sensing pill and started to provoke the thunder tribulation.

The heavenly thunder was originally of the first wood attribute, and Sun Qingxue's attribute was the same. Sun Qingxue could survive the thunder tribulation easily. What made Yang Chen's eyes bright was that Sun Qingxue not only used the thunder tribulation to transform her body in the process of crossing the tribulation, but also introduced the thunder tribulation into the heavenly thunder wood and tempered it with the help of the thunder tribulation.

Gongsun Ling was the easiest to deal with the tribulation, all the thunder was directly absorbed by the mountain river geographical map that appeared out of thin air, and then a bright light was released from the mountain river geographical map that entered Gongsun Ling's body. The same was taking the opportunity to temper the body, but the method was completely different. At present, only Gongsun Ling could do it with her life source magic weapon.

Within a day, the four women successively crossed their tribulations to form their nascent souls and none of them failed, and none of them cheated with the thunder pomegranate, the interval between them was not even enough for a cup of tea. If it weren't for there being no people here, everyone else would be surprised to see this scene.

Now only Yang Chen was still in the Jiedan stage. Seeing all the girls with expectant eyes, Yang Chen laughed and took back all the magic weapons. They also didn't see him take any inner sensing pill, just let go of his spirit power and for a while, the sky was again full of tribulation clouds.

Boom, a thunderbolt, dozens of thunder lights madly blasted towards Yang Chen from all directions, and for a while, the four women were shocked.

#### Chapter 470.1: Unprecedented Thunder Tribulation

From ancient times to the present, in the common sense of everyone, thunder tribulation should have fallen one by one, and there would never be more than one at the same time, everyone including Yang Chen thought so. At least in his previous life, that's how he survived the thunder tribulation.

The scene before him surprised everyone who saw it. What happened that even the heavenly tribulation has become so abnormal?

The four women were all people who have just gone through the thunder tribulation. Naturally, they have a rough estimate of the power of the thunder tribulation. The first blow Yang Chen endured was already equivalent to the power of at least the eighth thunder tribulation they had faced. It hasn't been adapted step by step, and there are still many more to follow, could Yang Chen take it?

When he saw such a tribulation thunder, Yang Chen was taken aback, and then immediately mobilized the spirit power of his whole body. The yin yang five elements secret art worked to the extreme, and he abruptly took down the first stage, but in fact there were at least nine stages of the thunder tribulation.

Boom, the thunder tribulation lighting rushed into Yang Chen's body like a flexible snake. Of course, this was deliberately done by Yang Chen. The thunder light entered Yang Chen's body, not destroying it, but transforming it.

The biggest difference between the Jiedan stage and Yuanying stage, except for the condensed Jindan and the broken Jindan, the most important thing was the body. Even at the peak Jiedan stage, it was just a body that has been strengthened by his own cultivation, and it was still the body of an ordinary person. But after the thunder tribulation's transformation, the Yuanying stage body could no longer be regarded as a mortal body.

After the transformation, no matter from the strength of the body or the absorption of spirit power, the masters of the Yuanying stage far surpassed the Jiedan stage. Even the speed of absorbing spirit power from the heavens and the earth was far beyond the reach of the Jiedan stage masters.

Naturally, the Jiedan stage has strengths and weaknesses and Yuanying stage was the same, everything was relative. There was no concept of absolute suppression between the two. Otherwise, it would not happen that Yang Chen killed the Yuanying stage masters with his Jiedan stage cultivation base.

His powerful spiritual awareness directly suppressed all the tribulation thunder that entered Yang Chen's body, allowing these tribulation thunder to obediently cleanse the whole body up and down according to Yang Chen's intention. There were no errors or omissions.

The tribulation thunder in Yang Chen's body hadn't completely dissipated and the second tribulation thunder had already fallen. This time, it was eighteen parts, it directly occupied almost all the space around Yang Chen.

The four women who had been watching from a distance were already stunned. What's happening here, no one knew what Yang Chen was doing inside and they didn't dare to easily get their spiritual awareness in, lest they interfere with Yang Chen. The only reason they had a little confidence in their heart was that they knew that Yang Chen had a lot of thunder pomegranate. If it doesn't work, he could cheat through the thunder pomegranate.

Yang Chen also ignored the surprise of the women. With the eighteen tribulation thunders, each tribulation thunder was comparable to the ninth tribulation thunder he had faced in his previous life. Even if Yang Chen was now more sure, no matter how strong he was, facing the power of heaven and earth, he must also be careful.

However, such a situation made Yang Chen chuckle in his heart. Even the heavenly tribulation values him so much. Doesn't it mean that what he cultivated was definitely a super powerful heavenly dao?

Considering from this point of view, it could only show that even the heavens and the earth recognize his own direction of cultivation. Otherwise, this super powerful thunder tribulation would not have appeared.

The mighty thunder tribulation not only didn't make Yang Chen fear in his heart, it made him more confident. If others knew Yang Chen's thoughts, they would not know how to evaluate it.

The confident Yang Chen released his strongest power without any scruples. The third stage of the yellow turban strongman body refining technique appeared, a huge body that looked more hideous than Hou Yun's body, holding all the thunder in his arms.

His human immortal first grade spiritual awareness directly compressed all the thunders and quickly condensed it into a ball of light that was countless times more intense than the sun, and then Yang Chen opened his mouth and swallowed the ball of light.

A warm current set off from the mouth, went straight into his chest and abdomen, and then made a few laps in the chest and abdomen, passing through the limbs of the body. The cells of the whole body seemed to be numbed by the powerful electricity, but after the numbness, it seemed to have absorbed enough energy and was nourished by lightning, which brought unspeakable comfort.

The heavens seemed unwilling to see Yang Chen who cultivated to defy the heavens succeed. The power of the second thunder tribulation had not been completely absorbed by Yang Chen, and the third thunder tribulation came down immediately. This time, there were three twenty-seven thunder lights, and each thunder light seemed to be much stronger than the previous one.

This time, the thunder directly combined into a piece of armor, wrapping Yang Chen from head to toe in the middle. The robes on Yang Chen's body were originally carefully sewn by Gao Yue and Gongsun Ling. As the thunder light fell, Yang Chen could no longer be distracted and protect it, and it instantly turned into flying ash.

The place where Yang Chen was facing the tribulation was so bright that the eyes of the four women could not see what was happening. They couldn't detect with spiritual awareness, but the four girls didn't want to miss anything, so they could only hold on and stare for fear of missing something. It's a pity that it seemed to be painful to see, and they still couldn't see anything.

Yang Chen's skin after cultivating the yellow turban strongman body refining technique was already very hard to be injured by a sword, but it was still burned in pain under this terrifying thunder light. Fortunately, Yang Chen immediately mobilized the spirit power of the water attribute to resist the horrible burning. Afterwards, the lightning ray, like mercury leaking from the bottom, drilled in from Yang Chen's pores, and no matter how much Yang Chen resisted, it was useless.

Yang Chen's spiritual awareness could no longer resist these terrifying thunder rays, and can only use his whole body's spirit power to protect the most important parts of his body, allowing the thunder rays to wreak havoc in his body.

Wherever the thunder light passed, almost all the flesh and blood of the meridians were burned, leaving a piece of something like coal. Fortunately, the part that Yang Chen was fully protecting, only experienced a brief burn, but it was not destroyed.

The third thunder tribulation already had such power, Yang Chen even had the intention to cheat with the thunder pomegranate. But in an instant, Yang Chen discovered a crucial point. There was a breath of life among the flesh and blood that was burnt.

This breath was so weak that even Yang Chen's first grade human immortal spiritual awareness could only barely find a trace.

After discovering this, Yang Chen suddenly realized that he no longer had to resist the power of thunder tribulation, and simply let go of the protective spirit power completely, allowing the thunder and lightning to submerge himself.

In the jade gourd that no one could see, the first wood spiritual solution, seventh metal spiritual solution and tenth water spiritual solution were all decreasing at a speed visible to the naked eye. The spirit power released by such a huge amount of the original spiritual solution instantly activated the vitality in the coal-like Yang Chen's body.

#### Chapter 470.2: Unprecedented Thunder Tribulation

Maybe there was only one cell left alive, but this cell quickly began to divide and in just a few breaths, it had quickly reorganized into a brand new Yang Chen.

There was no construction without destruction, Yang Chen completely understood this truth in an instant. Even if he had faced his tribulation several times in his previous life, not once was the destruction so complete as this time.

Yang Chen even guessed that if he hadn't been lucky enough to raise his spiritual awareness to the realm of the human immortal, he would not be able to discover the gleam of vitality at all, resolutely give up resistance and use his spirit power to grow again. There seemed to be only one end of the situation in the increasingly powerful thunder tribulation, it was him eventually turning into flying ash.

It was not accidental that every thunder that appeared in multiples of nine was by no means trying to completely eliminate Yang Chen, an alien. However, the heavens' good virtuous life still left Yang Chen a glimmer of life, depending on whether Yang Chen could catch it.

When the brand-new Yang Chen appeared again, Yang Chen couldn't help being afraid for a while. Even if he seized the glimmer of life, but without the support of huge spiritual power, it would never be possible to complete such a reversal. Fortunately, he had already collected a huge amount of first wood spiritual solution, seventh metal spiritual solution and tenth water spiritual solution, otherwise the consequences would be really unimaginable.

As if verifying Yang Chen's guess, the next tribulation thunder, one was more powerful than the other, each were nine times more powerful than the previous one. When the seventh thunder tribulation appeared in the sky, the four women who were observing from a distance were no longer able to stay in place, and had to retreat quickly to avoid being affected.

Just by observing and feeling from a distance, the four girls who had just been promoted to the Yuanying stage already felt unable to resist. Could Yang Chen who was in the Jiedan stage really resist the power of this level of tribulation? A worried look appeared on the faces of the four women, looking at each other, they all had panicking eyes.

The only thing that could relieve them that Yang Chen was still alive was that the tribulation thunder that was still falling. If Yang Chen died, the tribulation would dissipate immediately. As long as people live, there was hope, perhaps this was the only comfort left in the hearts of the women.

The fourth stage, the fifth stage, the sixth stage, and the seventh stage of the tribulation were all in the same process, burning Yang Chen to the ground, but leaving only a glimmer of life. Then Yang Chen would recover quickly in the tribulation thunder. For several consecutive times, Yang Chen's body had undergone complete rebirth changes.

The eighth thunder tribulation fell as scheduled. But to Yang Chen's surprise, this time the thunder tribulation did not burn Yang Chen's body as before, but disappeared without a trace in the flash of thunder. Yang Chen's body suddenly appeared, hanging naked in the air, seemingly safe and sound.

But in Yang Chen's sea of consciousness, suddenly thunder began to spread. Eighty-two thunder lights, like the most terrifying saboteur, smashed the shadows in the sea of consciousness of Yang Chen frantically.

The Penglai divine wood, blue jade blood phantom vine, yin-yang heaven burning fire everything all crashed and shattered. Even the yin-yang five-element flying swords that were tempered in the sea of consciousness seemed to be crushed by it.

But there were still a few things that remain intact. The dragon whose energy gathered was still the same. The bloody river still flowed quietly under the dragon's body, naturally, the Immortal Beheading Blade in the blood river was still safe.

In the sea of consciousness, except for the phantom of Yang Chen's sea of consciousness, there was also a mark of Li Liheng's spiritual awareness. This was something that does not belong to Yang Chen. With a thunder strike, this imprint of spiritual awareness would be erased.

It's just a matter of time. Yang Chen suddenly used all his strength and threw the spiritual awareness imprint under the giant dragon. This imprint of Li Liheng's spiritual awareness was the key to the destruction of the Greatest Heaven Sect in the future, and it cannot be easily lost.

At this time, Li Liheng, who was far away in the Greatest Heaven Sect, suddenly discovered that he suddenly appeared in a thunderous world. Everything around him was shattered and destroyed, only himself seemed to be on an isolated island. Seeing a dazzling thunder light was about to smash his body into pieces, his body seemed to be under the protection of a supreme being.

"Boy, quickly improve your cultivation level, this is too much for this old man..." The voice of the spirit world senior who Li Liheng had been looking forward to meeting for a long time entered his mind directly, and then there was no more. Because Li Liheng had fainted very simply and neatly.

The small episode did not prevent Yang Chen from paying attention to his sea of consciousness. After throwing Li Liheng's Imprint of spiritual awareness into the river of blood, Yang Chen began to cultivate the three purities secret art frantically. No matter how surging the sky was in the sea of consciousness, he did not move.

Just like the destruction and rebirth of the body, everything destroyed in the sea of consciousness quickly began to be reborn. With the reappearance of all the items, Yang Chen's first grade human immortal spiritual awareness began to decline, the peak dacheng stage, the late dacheng stage, the middle dacheng stage, the peak Yuanying stage...It didn't stop until the early Yuanying stage.

The cultivation base of the spiritual awareness did not simply decline, but it was condensed and compressed by the thunder tribulation. The efficiency of this condensing was even many times stronger than that of the three purities secret art.

After condensing to the early Yuanying stage, his spiritual awareness began to regrow again. The middle Yuanying stage, the late Yuanying stage, the peak Yuanying stage...the middle dacheng stage...the peak dacheng stage...the first grade human immortal stage, and it was still improving, until the second grade human immortal stage, then it stopped.

All of this happening in the sea of consciousness took almost half an hour long, but in the outside world only a moment had passed. Before Yang Chen could carefully realize what detailed changes had taken place in his sea of consciousness, the ninth thunder tribulation had already smashed down regardless.

Ninety-nine rays of thunder light directly formed a closed thunder circle, which completely wrapped Yang Chen in it. The light flashed dramatically, and the four women in the distance had to back up again and then stopped in shock.

The thunder circle surrounded Yang Chen, and kept bombarding the ten golden cores of Yang Chen's upper and lower dantian. After Yang Chen's golden core stubbornly resisted for a while, they all shattered.

The remaining thunder light seemed to have found an outlet, frantically squeezing toward the ten broken golden cores. The broken golden core also began to change its shape crazily. After a while, it turned into ten little people sitting cross-legged, flashing different colors, but still slowly rotating in the order of the positive and negative five elements.

The clouds in the sky disappeared and the rain stopped, and the sky became clear in an instant. The figure of Yang Chen finally appeared in the eyes of the women.

The four women looked at each other, and they all found the unconcealable joy in each others' eyes. Gao Yue took the lead and rushed forward, and the other women quickly followed.

But immediately, there was a scream of exclamation, and the four women instantly turned with red faces, twisted their bodies and never dared to look at Yang Chen's direction again.

"Isn't it just that the clothes are ruined? We are husband and wife, so?" Yang Chen thought very uncomfortably, and took out a robe from his qiankun's bag and put it on.
