Chapter 471.1: Thunder Tribulation Benefits

During the powerful thunder tribulation, even Yang Chen's body was destroyed several times, not to mention his clothes. Fortunately, the merit ring was strong enough to not be damaged in this degree of tribulation, otherwise Yang Chen would not even be able to find a robe that covered his body.

The naked Yang Chen was watched by all the girls, but even if the girls had a higher level of cultivation, they were still big girls, who had never seen such a battle before, and they all made a big red face. It wasn't until Yang Chen put on his robe that he turned back blushing.

Gao Yue's shyness quickly turned into worry, and she flew forward and fumbled a few times on Yang Chen, only to stop when she was sure that Yang Chen was already a Yuanying stage master and was safe and sound.

Coldly, Gao Yue was about to take back her hand and Yang Chen grabbed it. Gao Yue struggled twice, but didn't break free. She blushed and her head drooped, she didn't dare to look at the other three women.

Shi Shanshan looked at Yang Chen's safety, the joy in her eyes flashed, but her face still had that cold expression. Sun Qingxue was very happy, especially when she watched Yang Chen grasp Gao Yue's hand, she seemed to be very envious, and took the initiative to step forward and put her little hand into Yang Chen's hand.

"We were really scared to death just now." Sun Qingxue patted her chest with the other hand, and said with lingering fear "What the hell is going on, how could the thunder tribulation become like this?"

Sun Qingxue's question was also what the other three girls wanted to ask. It's just that no one was as straightforward as Sun Qingxue. Among the four girls, Sun Qingxue was the youngest and she was the first to get to know Yang Chen, so she seemed right to speak.

"I don't know either." Yang Chen gave a wry smile, still feeling the lingering fear of the terrifying thunder tribulation. Now that he thought about it, it was really close. If any one of the conditions was not met, today he would have died without a burial place.

Whether it's that the spiritual awareness couldn't reach the human immortal realm, or that there wasn't many true essence spiritual solutions to provide instant massive spirit power, or even if there was no bloody river and white dragon sitting in the sea of consciousness, it may have resulted in his death. He just got married and the four beautiful ladies couldn't bear such a situation.

Thinking of this, Yang Chen couldn't help but sweep across the faces of the four women around him. The fiery gaze made the four women feel a little overwhelmed. Except for Shi Shanshan, the other three women lowered their heads slightly.

Suddenly, Shi Shanshan, who had been stubborn, didn't know what she was thinking of, her face suddenly turned red and she gave Yang Chen a fierce look, then dropped, she didn't dare to look at Yang Chen again.

Yang Chen looked at it inexplicably, but didn't know what Shi Shanshan was thinking of, so he could only shake his head slightly, then gently pulled the two women in her hands and said "let's go back and celebrate, this is a big day! "

While talking, their bodies had sunk underwater. At this time, the dragon palace treasure house was the best place to celebrate, and the four women followed Yang Chen's movements and disappeared into the water.

However, when he was about to completely enter the water, Yang Chen suddenly turned his head and glanced in a certain direction, frowning slightly, as if there was something he couldn't figure out. But immediately Yang Chen returned to normal and returned to the dragon palace treasure house with the four women swaggering.

Everyone took turns to fight the tribulation, especially when Yang Chen was facing the tribulation, it was so dangerous, and everyone's heart was raised into their throat, so no one had time to carefully investigate the changes in their body. Now that they had returned to a safe place, they naturally had to look at their bodies first.

The first thing that they did when they went back, the four women sat cross-legged, and then explored, Yang Chen was no exception. He also wanted to know how his body has changed after experiencing such a dangerous thunder tribulation.

The most obvious thing was naturally the change of spirit power. After becoming a Yuanying stage master, both the amount of spirit power and the manipulation of spirit power have been raised to a large level. The difference between the Yuanying stage and Jiedan stage was that the Yuanying stage has more spirit power than Jiedan stage, so it was naturally very different.

Of course, from the Jiedan stage to the Yuanying stage, there was such a change, which was not surprising. But Yang Chen's was different. He has ten nascent souls, which was completely different from one of others, and they were still distributed in two parts of the dantian. Same as the original gold core and the yin yang five elements occupy a part respectively.

The spirit power alone was ten times stronger than others, not to mention the five elements' mutual growth and mutual restraint. But this was where Yang Chen cared the least. What he wanted to know the most was what happened to his body after being destroyed by the thunder tribulation and then reborn.

Spirit power circulated within the body without any obstacles at all, it was smooth and round, as if it had been integrated with the body, regardless of each other. But this was also normal, it seemed that the current new body was shaped with a massive amount of original spirit power, and it was expected to fit into the spirit power.

But the change in physical strength made Yang Chen really startled. Compared with the mortal body before, this body was no less than a hundred times stronger. Ordinary flying swords may not be able to pierce it, let alone the changes in strength.

Yang Chen didn't need to try to know that his body had already reached the river turning strength peak middle stage. Wanting to cultivate from the early stage to the middle stage in normal circumstances, it would take at least thousands of years of painstaking effort for those in the Immortal world. Unexpectedly, in the mortal world, it would be achieved within a mere two hundred years.

However, there would be no such good things in the future. Every time the body was transformed by the heavenly tribulation, the difficulty of cultivating the yellow turban warrior body refining technique increased by a few points, which Yang Chen had expected.

In addition to strength, resilience, bone strength, etc, there were extremely significant changes and Yang Chen had a profound memory of the tribulation. In his impression, the changes in his body after the

thunder tribulation simply cannot reach such a level, unless he has passed the yin fire tribulation and entered the dacheng stage, would there be such a degree of change.

Unusual tribulation, unusual physical changes, Yang Chen could only attribute these unusual things to this extraordinary tribulation. But what kind of tribulation Yang Chen experienced, Yang Chen was still at a loss and has no memory of it.

After thinking about it, Yang Chen choose to forget about it. In any case, Yang Chen has already been promoted to the Yuanying stage and there was a long path of cultivation in front of him, so he does not need to look for things that have no foundation.

Compared with the changes in his body, the changes in his sea of consciousness were quite surprising. It was simple to say that the first grade human immortal stage was promoted to the second grade human immortal stage, but Yang Chen knew that this simple promotion takes longer than cultivating from the early dacheng stage to the middle dacheng stage.

Not to mention the changes in the condensed level of the sea of consciousness, even if someone bombarded Yang Chen with a magic weapon comparable to Yang Chen's golden bell, it would not have any effect on Yang Chen.

Chapter 471.2: : Thunder Tribulation Benefits

The strange thing was that the scope of the sea of consciousness had not expanded, it was still the same size. But the intensity of the sea of consciousness has increased by so much. It was the first time that Yang Chen had encountered a thunder tribulation that could directly target the sea of consciousness, he had never heard of it before now.

The biggest change was actually those magic weapons that Yang Chen tempered in the sea of consciousness, the advantages brought to the magic weapons were numerous.

After the thunder tribulation's fragmentation and reorganization, all the yin yang five elements flying swords except for the Immortal beheading blade seemed to have been sacrificially refined by the thunder tribulation again. By observing in the sea of consciousness, he could easily discover the changes.

Some small flaws that could not be solved because of his insufficient cultivation base seemed to have been completely compensated by the thunder tribulation and no longer existed. Of course, there would

be some flaws, but that was something that could only be eradicated through years and years of tempering. No matter how powerful the thunder tribulation was, it cannot be changed.

It's a pity that because Yang Chen didn't want to use magic weapons to face the tribulation and hoped to rely solely on his body to resist the thunder tribulation, some powerful magic weapons such as the golden bell did not get additional benefits. But this was not a major problem anyway, after Yang Chen's cultivation base was upgraded, he would naturally slowly refine and upgrade it.

There was the heavenly spirit treasure refining secret art and earth fiend sacrificial formation secret art, plus the universe nourishing treasure secret art. As long as his skill was deep, even ordinary magic weapons could be turned into treasures.

Speaking of the heavenly spirit treasure refining secret art and earth fiend sacrificial formation secret art, the profound spirit furnace has been refined to the tenth heavenly level and the twentieth earthly level. Yang Chen's current yin-yang five elements spiritual power was divided into every subdivided spiritual force. Thirty of the species have been lit up, and their power was almost ten times more than ordinary spiritual power.

It's a pity that the heaven measuring ruler was not in his hand now, but in the hands of Elder Gao Shiyao, Gongsun Ling's master, to measure his spiritual power level in order to attack the dacheng stage. Otherwise, the measuring ruler could most intuitively show Yang Chen's combat effectiveness.

When Yang Chen finished checking his body, the four women had basically completed their own tests, and all of them were full of joy. Sun Qingxue seemed to want to share her joy with Yang Chen, rushing to tell him her changes.

The first wood true essence has transformed into spirit power, but the others have not changed much, but her spiritual awareness has increased to the peak Yuanying stage, it seemed that only one step was needed to break through this bottleneck and enter the dacheng stage.

"Big Brother Yang...Ah no, husband, let's do the spiritual awareness dual cultivation together once, maybe I can break through immediately." After Sun Qingxue finished talking about her situation, she directly said to Yang Chen, making the women shocked.

This was not over yet, after Sun Qingxue finished speaking at this time, she suddenly thought of something, and cried out in surprise “Hey, we have reached the Yuanying stage, and we can join husband for dual cultivation.”

As soon as Sun Qingxue said this, the other three women made a big blush for a while, lowered their heads and no one dared to look at Yang Chen. Only then did Sun Qingxue realize her shyness and she screamed, hurriedly covered her small face with her hands, and dared not lift it up.

Only then did Yang Chen remember that promotion to Yuanying stage still had this benefit. Immediately he remembered that Shi Shanshan was inexplicably shy when they were outside, did she also think of this problem?

The embarrassing topic made the four women very shy, but soon everyone recovered. What were they afraid of? They have been married so what was there to be embarrassed about if they were a married couple having dual education? Human relations matters, it was even unavoidable in the Immortal world. Doesn't the Jade Emperor also have a queen mother?

“That's good.” Yang Chen watched the four women raise their heads separately to look at him, Yang Chen nodded and praised “At any time, don't let some trivial things affect your dao heart, it's not worth it!”

Although Yang Chen's words were a bit preaching, the four women all bowed and saluted Yang Chen slightly and said in unison “Yes, husband!”

Looking at the four beautiful women, Yang Chen suddenly felt an unspeakable sense of accomplishment. Marrying these four women at the same time and putting was probably something that even the Jade Emperor at the time could not even imagine. Was there anything more that could make Yang Chen proud?

Except for Sun Qingxue, the spiritual awareness of the other three females were all on the verge of breaking through. Of course, Yang Chen would not refuse to help them, and immediately started cultivating with the four women in the treasure house.

The highest mystery yin-yang heart sutra was truly extraordinary, Yang Chen's spiritual awareness had already broken through the second stage of the human immortal stage. Only one spiritual awareness

double cultivation allowed the four girls to break through their bottleneck and their spiritual awareness reached the early dacheng stage.

All of them were new to the Yuanying stage, and their cultivation bases needed to be consolidated. Under such circumstances, the best way to consolidate the cultivation bases was to have dual cultivation.

“The origin of this cultivation method is difficult to explain, so don’t go into it.” Yang Chen couldn’t explain to the women the origin of the dual cultivation method he gave them and simply told them not to pursue it.

The four women were mentally prepared for the mystery from Yang Chen. Since Yang Chen said so, they certainly agreed. Seeing the four wives saying “Yes, husband!” to himself, Yang Chen felt an indescribable sense of accomplishment.

However, it was said that they would not be held accountable, but when they carefully studied this double cultivation method, it still surprised the four women. It stands to reason that they were already rare in this mortal world with excellent comprehension abilities, and they could comprehend that they were inseparable after almost obtaining the cultivation methods of the sect. There were still many places in this cultivation method that cannot be understood.

Yang Chen was not surprised at all. The top double cultivation technique of the Immortal world was placed in the mortal world. If the four women could see through the mystery at a glance, it would be called the top technique in vain.

Therefore, Yang Chen did his part and acted as a guide again, from beginning to end, explaining the content of the cultivation method and at the same time, how to cultivate it with their current cultivation base and where to pay attention to the most.

Although Yang Chen’s explanations inevitably mentioned some things between husband and wife in some places, the women also knew the importance, even if they were red-faced, they listened to them without missing a word, for fear of missing something.

Everyone was extremely clever, and they could see many things from this dual cultivation method. Especially the content of Yang Chen's explanation made the women vaguely understand that his duties as a husband was far from being as simple as it was now.

This point could be seen from the incredible heavenly tribulation.

Chapter 472.1: Delayed Wedding Festivities

While Yang Chen explained to his four wives the mystery of the dual cultivation method, Li Liheng, the young master of the Greatest Heaven Sect, was also telling the sect master and several other core elders how he felt before being unconscious.

In Li Liheng's memory, before he was unconscious, he seemed to be in a world of lightning and thunder, everywhere being destroyed and shattered. Everything around was something he had never seen before.

Especially the scene that he saw at the last moment before he fell into the coma, a living white dragon swallowed him before he was crushed by thunder and lightning. The voice of that familiar predecessor would not be forgotten for the rest of his life.

"Let you improve your cultivation base?" Sect master Mi chewed the message passed by the senior. Li Liheng explained everything carefully, without missing a word, so the last half sentence left by the predecessor was really worthy of pondering.

"I have many..." What does this mean? What was there? Cultivation methods? Or was it experience? The predecessor didn't finish speaking, but the meaning expressed was really exciting.

If it were just Li Liheng's words, it might not be so important to sect master Li and the several other core elders. However, the situation at the time was that the small courtyard where Li Liheng, the young sect master of the Greatest Heaven Sect, lived, seemed to have suffered a tribulation. Except for Li Liheng, everyone else, everything, was turned into powder. Within a radius of twenty feet, apart from Li Liheng, there was no living thing left.

The most weird thing was that even the few dacheng stage elders who were hundreds of meters away were exchanging their cultivation experience did he notice any trace of spiritual power raging. On the

contrary, they felt a tyrannical spiritual awareness sweeping over the mortal world, and several of their dacheng stage elders almost fell to the ground under the sudden spiritual awareness pressure.

The courtyard of the young sect master was of course arranged in the core area. Because of this, the fleeting and overbearing spiritual awareness was also noticed by all the masters within a few hundred meters.

It was a pity that the dacheng stage masters almost fell to their knees in fright. Those ordinary Yuanying stage masters made a fool of themselves on the spot. In just an instant, more than a dozen people were shocked and the rest stayed in place, it took a long time to return to normal.

Li Liheng, a younger generation in the Jiedan stage stage, even if the Greatest Heaven Sect brought out all their resources to help him, he couldn't make several dacheng stage elders to feel like this, nor could he scare others in this area in this way. What's more, Li Liheng had no possibility of cheating at all.

Many elders, including the sect master, had personally experienced that moment and after regaining their sanity, everyone guessed that there was only one explanation. The predecessor who emitted the spiritual awareness was definitely not a master in this mortal world. Of course, only the sect master and a few core elders came to this conclusion, and all the others were kept in the dark.

This big event that happened inside the Greatest Heaven Sect, which was almost like a small tribulation, completely attracted the attention of all the high-levels. Those high-level people who didn't know the reason also sensed an extraordinary aura from it.

The whole thing was suppressed by the strongest orders from the top. All the disciples who knew about this situation made a heart oath, never to spread it and discussion about it was prohibited. The incident happened hastily, and the sect master did not even have the most basic explanation so he hurriedly issued such an order.

Many ordinary elders were vaguely aware that perhaps the young sect master Li Liheng was not the illegitimate son of the sect master Li as everyone has guessed. The reason why the top leaders value Li Liheng so much was absolutely related to this matter.

Suddenly, many people looked at Li Liheng with admiration, and no longer dared to say anything ill of him behind his back as before, nor dared to guess privately. They all waited in awe to see what kind of surprise the young sect master would bring in the future.

That unknown senior asked Li Liheng to improve his cultivation level, no one had misunderstood this requirement. All insiders agreed that what the senior wanted Li Liheng to promote was definitely the cultivation base of his spiritual awareness.

At this moment, the Greatest Heaven Sect's senior executives suddenly became embarrassed. If they wanted to improve his spiritual awareness cultivation base, the first prerequisite was to solve the trouble of Li Liheng's unprovoked comas at every turn. And to solve this trouble, they must use the spirit congealing pills.

This was where the embarrassment lies. Although the Greatest Heaven Sect has already spent a lot of effort to exchange the seventh grade fire seed with Yang Chen for the pill recipe, the masters of the medicinal hall also unanimously believed that the pill recipe was real and Yang Chen also made a heart oath. This pill recipe was real but it happened that the pill recipe was in hand and the medicinal materials were in hand, but the spirit congealing pill could not be refined.

Yang Chen has been in seclusion for 18 years. In addition to the previous years of research, dozens of masters in the Greatest Heaven Sect's medicinal hall have studied the refining method of this spirit congealing pill for more than 20 years. The result made the senior management almost vomit blood, they got almost nothing.

What was the purpose of purchasing the pill recipe, was it not just to get rid of their dependence on Yang Chen?. But now the whole thing went around in a big circle, and the high level of the Greatest Heaven Sect reluctantly discovered that in the end, they had to ask Yang Chen for help again.

Not to mention whether Yang Chen would agree to refine for the Greatest Heaven Sect in a short period of time. The price of this alchemy alone would definitely make the Greatest Heaven Sect feel pain.

The high-levels hated the wastes in the medicinal hall. For such a simple thing, with the pill recipe and the medicinal materials in hand, even a broken pill could not be refined. The sect really fed this group of waste in vain.

Of course, this could only be thought in their heart, it was impossible to say it out loud. However, what happened in Li Liheng's courtyard made sect master Li and the core high-level leaders determined to let Yang Chen refine enough pills no matter what the price was.

No matter how big the price was, it was worth it. As long as they could establish contact with that senior, whether it was cultivation or alchemy, they could get unprecedented guidance. It seemed that the time when they became the only super martial art sect could be expected. This was not the assumption of sect master Li alone, but the common understanding of all core elders who know the inside story.

The arduous task of course fell on Mao Qi, the head of the foreign affairs gall who had dealt with Yang Chen many times, it was up to Mao Qi to let this kind of thing happen. The authorization given to Mao Qi by the high-levels of the Greatest Heaven Sect was to agree to Yang Chen, regardless of the cost, as long as he could do it.

However, when Mao Qi accepted the task and left, his face was not so relaxed. The figure who left looked completely like a brave soldier who was going to die generously and only sang "Wind and Cold" in his mouth.

Chapter 472.2: Delayed Wedding Festivities

Yang Chen didn't know how shocking the event was caused by his sudden whim at the time in the Greatest Heaven Sect, and he didn't even know that the power of the thunder tribulation was even reflected in the Greatest Heaven Sect through the imprint of the spiritual awareness. He was now preparing to enter the bridal anthurium, which has been late for eighteen years, would finally become a reality.

In the memory of his previous lives, he couldn't even count how many immortals wanted to become the dual cultivation partners of the cold plum fairy and the dancing snow fairy, even the sect master of the Profound Heaven Sect, the new Jade Emperor was part. It's a pity that they could only think about it, it's impossible to become a reality.

But in front of him, the things that countless people dreamt of would soon happen to Yang Chen. Now that everyone has been promoted to the Yuanying stage, the life between husband and wife would naturally happen.

It was impossible for a husband and wife to be together and start double cultivation without doing anything, everything needed to be a familiar process. The highest mystery yin-yang heart sutra had already made the four women accustomed to ordinary contact with Yang Chen, so now it was necessary to be familiar with the more in-depth contact process.

The four women were a bit laid-back, but Shi Shanshan was decisive. Seeing that all the women did not speak, she stood up and bit her lip and stretched out her hand to lift Yang Chen and came to a palace behind.

When Shi Shanshan revealed her snow white skin, as she slowly took off her outer robe to reveal it, even Yang Chen couldn't help but feel excited.

Shi Shanshan's delicate body didn't show a trace of flaw, perfect skin tone, perfect lines, plus perfect facial features, no matter from which angle, it was a flawless work of art.

Yang Chen's hand lightly touched Shi Shanshan's skin, which immediately caused a small tremor, and a small bump appeared on Shi Shanshan's delicate skin.

Yang Chen slowly hugged Shi Shanshan, and when he kissed her cherry lips, Yang Chen suddenly felt an unreal feeling when he smelled Shi Shanshan's exhalation.

"How can I, Yang Chen, how can I win the favor of this fairy?" Yang Chen could not help but whisper this sentence in Shi Shanshan's ear.

This sentence seemed to detonate a bomb in Shi Shanshan's body. Shi Shanshan suddenly took the initiative, and quickly took off Yang Chen's clothes with both hands, and then plunged into Yang Chen's arms, her body heated like a fire. There was no similarity between her and the name cold plum fairy.

Candle shadow shook red, both of them were cultivators and this bridal chamber flower and candle lasted all day and night. Yang Chen and Shi Shanshan were also immersed in the kind of pleasure that was not a practice, and they could hardly extricate themselves.

What surprised Yang Chen was that Shi Shanshan had actually practiced the art of inner charm, which really gave Yang Chen a surprise. The cold plum fairy, who was cold outside and didn't give anyone a

good face, seemed to completely let go in front of Yang Chen, becoming a passionate lover. The beauty of it was not for outsiders.

With the first one, there would naturally be a second. However, Yang Chen took the initiative and pulled Gao Yue to spend the second time in his bridal chamber.

Gao Yue and Shi Shanshan had completely different feelings. It was the joy of fulfilling the long-cherished wish for a long time for Gao Yue. With his master's amazingly charming body in his arms, Yang Chen hated not being able to be together with his master forever.

Next was the senior apprentice sister Gongsun Ling. Relatively speaking, Gongsun Ling did not perform so fiercely, but she relied on Yang Chen to do what she did. No matter what Yang Chen's methods were, she was always willing and obedient.

The most naughty was Sun Qingxue, and the last of Yang Chen's wives to become a woman. She had complete trust in Yang Chen, and she had completely handed herself over to Yang Chen, even Sun Qingxue would take the initiative to let Yang Chen experience some novelty.

In just half a month, the four wives took turns to become real women, and truly became Yang Chen's women.

What surprised Yang Chen was that all the four girls had practiced sex. Although everyone did not say anything, they all wanted to give Yang Chen the most wonderful feeling to let Yang Chen's couple of bridal chambers be blissful as the gods.

This kind of heavenly life, Yang Chen and the four females spent half a year in the Dragon Palace treasure house. After the husband and wife had become thoroughly familiar with each other and the four women' understanding of the dual cultivation method was also in place, Yang Chen and the four women began the joint double cultivation.

Each of the four women had cultivated the original cultivation methods of their own attributes, and when they cooperated with Yang Chen, they complemented each other. For the next two years, Yang Chen and his four wives spent the two years of joint and dual cultivation while consolidating their respective cultivation bases.

Calculating that the time was almost the same, Yang Chen finally discussed the future cultivation with the four women. According to Yang Chen, although the four women were now considered to have a very good cultivation base, they were still far from the true dao heart, and they still needed very hard training.

Regarding Yang Chen's statement, no one of the four wives would disagree. Many of Yang Chen's statements and practices have proven his correctness. As his wife, Yang Chen would never harm them, so all of them nodded.

If it's just a simple ascension into the dao, the four women would follow the current cultivation, it was a logical thing to cross the tribulation and ascend.

However, things were not that simple. Yang Chen knew that the world after the ascension was not so peaceful, and the competition was even more cruel than the mortal world.

Originally, following the trajectory of Shi Shanshan and Sun Qingxue, after they ascended, they would slowly begin to show their cruel side to the enemy, and the spiritual world and the Immortal world would truly recognize the reputation of the dancing snow fairy and cold plum fairy.

However, the two women in the previous life also paid a painful price in the spiritual world. Although it was not as serious as this time, their cultivation base was abolished, but they were also seriously injured and each had hundreds of years of painful healing experience.

The reason why the two women suffered such serious injuries in their previous lives was because when they first entered the spiritual world, they had no experience of brutal fighting.

Yang Chen didn't want the women who were already his wives to have this kind of tragic experience again, naturally, he wanted to wipe everything out in the infancy.

Since everyone was a Yuanying stage ancestor, there was a place that was most suitable for honing the dao heart and killing experience of the girls. Yang Chen had also heard the name of that place from the mouth of the ascended Lan Ying before, the Demon Continent.

Yang Chen in the previous life did not have the experience of going to the Demon Continent, but he also knew from some people in the spirit world that it was a continent full of killing and fighting. There, there was no difference between good and evil, nothing. The difference between races was just endless killings and hardships between the strong.

The masters who have fought in the Demon Continent, after ascending, all become strong. How could Yang Chen let go of this kind of mortal place that could be experienced.

Chapter 473.1: Return

However, the Demon Continent was not a place you could just go to. Among other things, just going back and forth on the road, even if Yang Chen was now promoted to Yuanying stage and the shuttle would be faster, it was estimated that it would take ten years. This was not the time for the experience, so if he wanted to go, it would take at least fifty years.

Moreover, they would have to return to the sect to leave their life tablet after they were promoted to the Yuanying stage. A Yuanying stage ancestor was a treasure to any sect, and they can't just lose them casually. They could know the life and death of their Yuanying stage ancestors by leaving behind the life tablet. At the same time, they could use the life tablet to track the whereabouts of the Yuanying stage ancestors when necessary.

This was a step that all disciples who have been promoted to the Yuanying stage and have to leave the sects must take, Yang Chen was no exception, and even more so for the four girls. Therefore, a trip back to their sects was inevitable.

Everyone was not alone in the sect. Everyone accepts apprentices, so teaching apprentices was also a must. It would take at least several years for them to finish these things.

Therefore, going to the Demon Continent was only the plan of Yang Chen's family, and could not be implemented yet. However, there was one thing to be done right away.

After the Dragon Clan Treasure palace was collected from the Dragon Bead by Xiao Tian, there was no need to stay here. Yang Chen already had a Dragon Palace in his hands, so naturally he would collect this and integrate it with the Dragon Palace.

After Xiao Tian swallowed the dragon bead, he fell asleep. Yang Chen controlled the dragon tower and placed it on the octagonal base of his own dragon palace. Then, with the help of Xiao Tian's body to control the dragon tower, he began to merge it with the dragon palace treasure house.

He was already having a Yuanying stage cultivation base, and it was easier to control it. Although the whole process required the help of Xiao Tian, Xiao Tian was his own spiritual pet, and he was still sleeping so Yang Chen's spiritual awareness remote control of it was not too difficult.

The only difficulty was that it required a lot of spirit power. But on the complete East China Sea chart, there was no problem of lack of spirit power at all, and with the help of many women, it only took a few months to complete the collection of the treasure palace.

So far, in the East China Sea, apart from some seabed elixir, there was nothing that Yang Chen needed to pay special attention to. Yang Chen released the shuttle and took the four ladies with him to find the right direction and fly towards the nearest Green Jade Immortal Island.

The speed of the flying shuttle was unprecedentedly fast, even surpassing the speed of the previous flying shuttle with water splitting wings. From here, they arrived at the Green Jade Immortal Island in just two or three months, which was twice as fast as before.

The return of Shi Shanshan directly caused a sensation in the Green Jade Immortal Island. Hu Qianyi's affair was so widespread before that almost all cultivators in the world knew that the cold plum fairy had been crippled and she was seriously injured.

All those who have seen Shi Shanshan's state at the time, although they didn't say anything, they felt it in their hearts. Shi Shanshan has been hopeless, of course, as Yang Chen's fiancée, he might be able to save her life. No one had doubts about her recovering from the injury, maybe she could cultivate again.

But it was simply impossible for the cold plum fairy to restore her cultivation in a short period of time. Needless to say, the cold plum fairy cultivation base would not be even higher.

Ninety-nine out of 100 people who have seen Shi Shanshan had this attitude. Therefore, when Shi Shanshan stood in front of everyone again, not only were her injuries healed, but she was also successfully promoted to the Yuanying stage, directly leaving a lot of people in the same place for a long time, dumbfounded.

After a long time, the island master and several great elders recovered first. Song Huan, Shi Shanshan's master, grabbed Shi Shanshan in one step, she was surprised and eagerly groping for Shi Shanshan with both hands on the spot to make sure that everything she saw was real.

In fact, as soon as Shi Shanshan's Yuanying stage aura was released, everyone present knew that Shi Shanshan had been promoted to Yuanying stage. Now that she has been promoted to the Yuanying stage, no matter her previous injury or cultivation base, she was naturally all cured and there was no need for any test.

But the concepts left before were too desperate, that's why a group of masters in the Green Jade Immortal Island behaved like a gaffe. After the shock, what was left was a thick surprise.

Shi Shanshan who was arguably the most talented disciple of the sect, her recovery almost declared that this time the sect had no loss at all.

Not only that, Shi Shanshan's successful recovery also meant that she once again had a place in front of her husband Yang Chen. A son-in-law who was a fifth-grade alchemist could definitely make the seniors of the Green Jade Immortal Island wake up from their sleep, although they have not enjoyed what it was like to sleep for a long time.

Of course, Shi Shanshan was now a woman, and everyone has seen this.

The Greatest Heaven Sect was the biggest loser in the situation. Not only does it bear the loss of fame, but also damages to Hu Qianyi who was a dacheng stage master, there was also a great elder plus dozens of Yuanying stage and hundreds of Jiedan stage masters lost. Counting the compensation from the Greatest Heaven Sect before, the Greatest Heaven Sect could simply be said to have lost his wife and broke down.

Everyone knew who caused such a miracle. He was a great guest and now Shi Shanshan's savior, Yang Chen should have become the most honored guest of the Green Jade Immortal Island. Including the Island master, they all respected Yang Chen, the more they looked, the more they felt like that.

Yang Chen's other three wives naturally received a grand reception. Shi Shanshan was dragged by her master Song Huan hurriedly to the Patriarch's hall to pay respect to the Patriarch and at the same time to leave her life tablet.

The Green Jade Immortal Island almost celebrated because of Shi Shanshan's great return. Later, under the persuasion of several great elders, there was no big fanfare, but a simple congratulation from them.

He could bring back Shi Shanshan who was on the brink of death, and not only heal her injuries, but also improve her cultivation base. How could such a genius not bring awe out of the people?

What's more, there was an ultimate weapon in Yang Chen's hand, the face retaining pills.

At least five of the seniors of the Green Jade Immortal Island have already experienced it. Including Shi Shanshan, that was the sixth one. A living example was in front of them and for these female cultivators to deliberately maintain the image of a master, it was already comparable to the difficulty of fighting the Greatest Heaven Sect.

In the hall welcoming the distinguished guests, the Island master had already recovered her calm, and asked in detail about the experiences of Yang Chen and the women over the years.

Yang Chen wasn't too detailed, so he gave a brief introduction. After talking about some experiences that were not too much of a secret.

At the end, the Island master asked solemnly "Yang Chen, the face retaining pills, will you be refining some?"

Chapter 473.2: Return

This was not what the Island master needed for herself. The face retaining pills that Yang Chen gave to the Island master last time were all refined with ten thousand year materials, which could make people look youthful in the mortal world. The words of the Island master were asked for the millions of disciples in the Green Jade Immortal Island.

Only the five of them have enjoyed such great benefits, it would be abnormal if the people below were not making noise. As a woman, the Island master certainly knew better than Yang Chen, the fatal

attraction of this face retaining pills to female cultivators. Therefore, she must take advantage of this time to ask clearly, even if they can't get it right away, she must also win a chance for her own disciples.

He has been with the ladies for a long time, so naturally they also talked about this topic. Yang Chen now understands how much trouble he has caused himself to launch the face retaining pills at this time.

However, if the situation at the time were not revealed, Sun Qingxue and Shi Shanshan wouldn't even have the least confidence, so Yang Chen couldn't help thinking too much.

Now that things have happened, Yang Chen naturally wouldn't refuse. However, Fairy Chang'e's face retaining pills were not so easy to obtain, and it was impossible to say that Yang Chen could only use the second grade Nine Heaven Profound face retaining pill to deal with it. Moreover, the medicinal materials cannot be replaced with a thousand-year-old one with this extremely precious medicinal pill.

Even so, this face retaining pill was destined to be expensive. Yang Chen alone, even if he doesn't do anything every day, specifically refining the face retaining pills, he couldn't meet the needs of all the female monks in the world. What's more, even if it was a second ten thousand year medicinal material, it was also a ten thousand year medicinal material. How many could there be in this mortal world?

"After this junior returns to the sect, I will spend a period of time to refine a batch of low-level face retaining pills, which will be sold by my ten thousand treasure tower." After making a decision, Yang Chen didn't mind sending the news out sooner, he also gave publicity to the ten thousand treasure tower "The specific price will be decided by brother Shangguan of the ten thousand treasure tower!"

With just this sentence, Shangguan Feng became the favorite friend of women of all female cultivators after Yang Chen. Which ten thousand treasure tower could allocate how many face retaining pills quotas were all within the thought of Shangguan Feng. Which female cultivator does not want to have a good relationship with Shangguan Feng? There were many blue-faced confidants of any female cultivator. These people, almost without exception, praise Shangguan Feng highly.

Although it couldn't meet everyone's needs, at least there would be a stable channel to buy the face retaining pills in the future. The Island master was relatively satisfied.

Naturally, the host and the guest had a great time. Shi Shanshan also came back and sat beside Yang Chen, her every move was very submissive, giving Yang Chen enough face.

After staying in the Green Jade Immortal Island for almost a month, Yang Chen took his master and senior apprentice sister and Sun Qingxue and flew to the Blue Cloud Sect instead. Shi Shanshan wanted to stay in the sect to handle some affairs, and at the same time continue to receive some guidance in the sect.

It was almost the same reaction as Shi Shanshan's return to the Green Jade Immortal Island. The people of the Blue Cloud Sect almost shouted when they saw the living Sun Qingxue and Sun Qingxue who had become a Yuanying stage ancestor.

A vague message came from the Green Jade Immortal Island before. It was said that the cold plum fairy had returned to the Green Jade Immortal Island and the dancing snow fairy who was with her was also there, but the specific situation was unknown to them. When Yang Chen's family stayed in the Green Jade Immortal Island. The Blue Cloud Sect was already waiting to see through, and it was easy to wait until people returned to the sect. Who knows that meeting was an unforgettable surprise.

Elder Hua Wanting was just like Sun Qingxue's mother, carefully looking at Sun Qingxue up and down, for fear that she would still leave a trace of hidden danger.

This disciple of their sect was not as good as Shi Shanshan in cultivation, so in Hu Qianyi's attack, she was not as badly injured as Shi Shanshan. But it was worth mentioning that even with Hu Qianyi's dacheng stage cultivation base, when he was alone against Sun Qingxue, she did not get caught intact. This was already the highest praise to Sun Qingxue.

Even if the injury was not as serious as Shi Shanshan, in the eyes of the members of the Blue Cloud Sect, Sun Qingxue's best result was a complete failure of her cultivation base. With Yang Chen, perhaps she could re-cultivate after recovering from her injuries, but no one had expected such a big surprise. In just twenty years, all of Sun Qingxue's injuries were healed, and she was elevated to the Yuanying stage.

Even if the fifth grade lingzhi mushroom jade pill could heal the injuries of the dacheng stage masters, they were after all dacheng stage masters, their bodies were extremely powerful, and they wouldn't be swallowed by the medicinal energy. Shi Shanshan and Sun Qingxue in the Yuanying stage couldn't bear the medicinal energy of the fifth grade lingzhi mushroom jade pill at all.

Under such circumstances, Yang Chen even successfully cured the injuries of the two women and improved their cultivation. The mystery of this makes people feel expectant after thinking about it.

However, everyone in the Blue Cloud Sect also knew that this kind of thing belonged to Yang Chen's exclusive secret method, and it was absolutely impossible to ask. However, this did not prevent them from asking their disciple Sun Qingxue.

Naturally, this was the next thing, the top priority was to entertain the Yang Chen family. Shi Shanshan's absence, the friendship between the Green Jade Immortal Island and Blue Cloud Sect was not a big deal. But Yang Chen couldn't be neglected, the grand posture of the Blue Cloud Sect was almost the same as the Green Jade Immortal Island.

Even the question asked by sect master Lu during the dinner was the same. The Blue Cloud Sect was also mainly having female disciples, and the demand for the face retaining pills would never be less than the Green Jade Immortal Island.

Therefore, before Yang Chen had refined the face retaining pills, Shangguan Feng had already become the object of the two sects' struggle. Favored by the two sects, Shangguan Feng felt painful and happy.

Also after staying in the Blue Cloud Sect for a month, Yang Chen left with his master and senior apprentice sister and hurried back to the Pure Yang Palace. At this time, the news that the cold plum fairy and dancing snow fairy had returned at the same time had spread among the cultivators, and even the two girls had been promoted to the Yuanying stage.

Regardless of the surprise of these people, Yang Chen drove the shuttle and quickly returned to the Pure Yang Palace.

The palace master brought all the elders and Yuanying stage masters out to greet them. They had heard about the return of the five members of Yang Chen's family a long time ago and they had waited for them. Now they finally saw Yang Chen appear in front of them with Gao Yue and Gongsun Ling.

The three Yuanying stage masters caused the palace master to nod and say with a little choking, "Good! Good!" There was nothing else to say.

Gao Yue and Gongsun Ling's masters, Wang Yong and Gao Shiyan, were also feeling unspeakable pride looking at their disciples.

In the end, everyone's eyes were on Yang Chen. This was the talent and miracle that allowed the entire Pure Yang Palace to spread its wings and fly high, the unicorn of the Pure Yang Palace.

Chapter 474.1: Last Bamboo Pole

Yang Chen also didn't elaborate on where they were going for the seclusion to his own sect master, master ancestor and the others. He just said that he had refined a special pill, and wanted to try his best to restore the cold plum fairy and the dancing snow fairy's cultivation base.

As for everyone's collective promotion to the Yuanying stage, it was because of the long-term seclusion and their dual cultivation. In addition to their dual cultivation method, Yang Chen also prepared a relatively ordinary but superior double cultivation method to prevaricate the past.

There were many things, except for the husband and wives, other people couldn't know too much, even if it was the palace master. Yang Chen had already made this point clear to his four wives.

In fact, the four women also knew that the things Yang Chen gave them, just taking them out was enough to send the whole world of cultivators into a craze. Treasures driving people crazy was not only applicable to ordinary people, it was also applicable in the world of cultivators.

In any case, there were three more Yuanying stage ancestors in the Pure Yang Palace, which was no small matter. In the past, there were only eight Yuanying stage ancestors in the Pure Yang Palace, and there was one who had a heart toward the Greatest Heaven Sect. Later, although many Yuanying stage ancestors were recruited, the monster race were mostly aliens, and the Yuanying stage ancestors who were human beings were among the few.

In the years when Yang Chen was absent, the changes in the Pure Yang Palace have continued with each passing day. Those newly recruited disciples with good aptitudes searched from the private sector have already begun to show up temporarily, and thousands of them have reached the Jiedan stage. Compared to the past, there were only a few hundred people who were having poor qualifications and they have not increased for a long time, it's simply heaven and earth.

There was even more rapid development in the hall of eccentrics. There were already about a dozen Yuanying stage monster cultivators who have reached the peak Yuanying stage, and everyone has

received a questioning inner heart pill and began their seclusion. As long as they wait until they end their seclusion, maybe there would be more dacheng stage masters in the sect.

There were more monster race cultivators in the Jiedan stage. So in the past few decades, every year, one or two monsters at the peak Jiedan stage would face their tribulation with the help of the second grade inner sensing pill. The total number of Yuanying stage ancestors in the Pure Yang Palace was close to two hundred, just this power would make many sects jealous.

Of course, it was more envy than jealousy. Who told their sect not to have a fifth-grade alchemist? It could be said that the Pure Yang Palace could have such achievements and it absolutely cannot be separated from Yang Chen.

Now the Pure Yang Palace, even without the backing of the Green Jade Immortal Island and the Blue Cloud Sect, could still be regarded as a quasi-first class sect, and it was also a force that could not be ignored. Even recently, two small sects around them have wanted to come and join the Pure Yang Palace.

Naturally, the palace master and the elders were in charge of these matters and Yang Chen had a lot of things to do when he came back. First, they went to the patriarch hall to pay respect to the patriarch, and then went to leave behind their life tablet.

When he reached the Yuanying stage, he already had the strength to completely put his own spiritual awareness imprint into the jade tablet with his life source and preserve it for a long time. Each jade tablet was engraved with the name of the owner of the jade tablet and if something goes wrong, they could quickly figure out which one it was.

The current life tablet hall was no longer having only a few life tablets like in the past. There were hundreds of life tablets, arranged neatly and hung on the most conspicuous wall. As long as you look at it, there was a kind of natural pride. This was the masters of their own sect.

After completing these things, when Yang Chen stayed alone to meet with the palace master and a few core elders, Yang Chen was congratulated by everyone one by one.

There was nothing that could be done about it, it was not just Yang Chen who cultivated diligently alone, and everyone present cultivation base has been improved. Even Qiao Ming and Xu Chengxin, who had

just raised their realms not long ago, seemed to have raised a small realm. After reaching the peak early Yuanying stage, he could enter the middle Yuanying stage in a few decades.

Elder Gao Shiyan was already at the peak Yuanying stage, Yang Chen looked at him, maybe the tribulation would appear in the next ten or twenty years. At that time, there would be another master of the Pure Yang Palace who had reached the dacheng stage by himself. While the strength of Pure Yang Palace has improved, it also adds more attractiveness.

Who could refuse a sect that could bring so many dacheng stage masters? Who doesn't want to join such a sect? Isn't the reason why those super-large sects attract people because of the more resources for cultivation and the more attractive prospects for cultivators?

However, the masters of the super sects themselves were disciples with excellent spiritual aptitudes, and it was natural to have high achievements. But several elders in the Pure Yang Palace, including Wang Yong and Gao Shiyan, were completely hopeless before. For such a cultivator to be promoted, this was even more rare for Pure Yang Palace.

After some congratulations, Yang Chen talked about the face retaining pills to the palace master. This face retaining pill was originally the pill that Yang Chen refined, and everyone naturally had no opinion on how he would deal with it.

"It's a shame to sell at a price." The palace master was worthy of being an old fried dough stick. As soon as he rolled his eyes, he came up with an idea "Every time you take a few of them, they will be auctioned in various places. The price must contain some medicinal materials you need."

If Yang Chen divided the face retaining pills into grades, the low-level ones would use the thousand year medicinal materials, the intermediate ones would use the thousands year medicinal materials, and the high-level ones would use the ten thousand year medicinal materials, it would definitely meet the needs of cultivators at all levels.

It was conceivable that when these face retaining pills were launched, the ten thousand treasure tower would definitely become a new dark horse that could rival a few large organizations. Others wouldn't dare to suppress it, otherwise they would endure the condemnation of countless female cultivators and the crazy attacks of those blue-faced confidants around them.

The Banyan tree Immortal's Cave was now completely in the hands of the Pure Yang Palace, and Hou Yun was still there to handle it. The Immortal's cave could collect the first wood spiritual solution, so it can't be easily given up. It happens to be an outer sect of the Pure Yang Palace.

There were not many other things in the sect that Yang Chen needed to know. On the contrary, the Blue Cloud Sect had already obtained the batch of the questioning inner heart pills given by Yang Chen and paid the remuneration as scheduled. These things were kept for Yang Chen by the palace master, and they happened to be returned to Yang Chen now.

And during these years, there was another Yuanying stage master in the Blue Cloud Sect who had reached the dacheng stage, and the Green Jade Immortal Island also had one, which put great pressure on the Greatest Heaven Sect. Others were increasing their dacheng stage masters, only the Greatest Heaven Sect was constantly losing them.

For Yang Chen, this was also good news. However, he believed that the Greatest Heaven Sect would soon come to him.

Sure enough, the palace master told Yang Chen next that Mao Qi, the head of the foreign affairs hall of the Greatest Heaven Sect, had been waiting for him for two years.

Chapter 474.2: Last Bamboo Pole

This time Mao Qi was not what he used to be, he waited for news after he notified the Greatest Heaven Sect, he kept squatting in the Pure Yang Palace, waiting for Yang Chen to come around.

Hall master Mao performed well this time and waited patiently, beyond everyone's expectations. Those who knew the prestige of hall master Mao of the Greatest Heaven Sect were sturdily shocked.

Even the hall master of the Greatest Heaven Sect behaved like this. Those people of all kinds who came to ask for alchemy were naturally well-behaved and cautious, for fear that a word would offend anyone in the Pure Yang Palace, as the chance of asking for alchemy by themselves was completely slim.

This kind of waiting, the Greatest Heaven Sect's intention was simply obvious. Of course, the Five Elements Sect and the Qiankun Sect, which were about to be in the back, would like it. Even if the Greatest Heaven Sect was powerful, it can't be unreasonable, right?

There were repeated requests for stoppering, and it was still a stopper for decades. How could it be so easy? Of course, the two sects sent someone over to negotiate upon receiving the news.

To put it bluntly, Mao Qi almost made a heart oath that they would never take the opportunity of the two major sects this time, but wanted Yang Chen to make an extra move. He would also give the Five Elements Sect and the Qiankun Sect how much benefit they didn't know, and then reluctantly made the two sects stop pursuing the matter.

But there was a prerequisite, if Yang Chen disagrees, then everything was forbidden. Even if he doesn't give face to the Greatest Heaven Sect, he would not hesitate. Those who break the rules would always be attacked by the people who obey the rules. No matter how powerful the Greatest Heaven Sect was, it was impossible to compete with the combined forces of the four major sects.

To be honest, Mao Qi was indeed ready to sink the boat and let Yang Chen help this one last time. After this time, he never wanted to see Yang Chen's face again, unless it was before he killed Yang Chen.

After seeing the young sect master Li Liheng, Mao Qi firmly believed in the spatial spiritual awareness cultivation method. A predecessor in the spirit world could definitely make the sect more prosperous. Compared with this ultimate goal, the extraneous things that Yang Chen wanted were not worth mentioning.

When Yang Chen sat opposite Mao Qi, he clearly saw the frenzy in Mao Qi's eyes. It seemed that the hand he played when he was facing the tribulation was enough to make the Greatest Heaven Sect make up their mind.

"Grandmaster Yang, wise people don't talk secretly." Mao Qi knew that Yang Chen would never keep his hands and would never be afraid of the strength of the Greatest Heaven Sect, so after taking a sip of tea, he said directly "The sect asks for the spirit congealing pill, please make a price!"

"Spirit congealing pills?" Yang Chen showed a playful smile on his face, looking at Mao Qi and asked "wasn't the pill recipe sold to you? Why, do you think that the pill recipe is fake? Don't worry, this younger generation junior made a heart oath, I didn't face the heart devil when I was going through the thunder tribulation, so the pill recipe I gave to senior was absolutely genuine."

Of course Mao Qi discovered that Yang Chen was already a Yuanying stage ancestor, and he even knew that Yang Chen's four wives had been promoted to the Yuanying stage. At this point, Mao Qi could only be envious. Who would let him not have a fifth-grade alchemist to help at all costs? Looking at this situation, let alone being promoted to the Yuanying stage, even if it was the dacheng stage, it was not impossible to ascend one day.

The authenticity of the pill recipe has already been identified by the masters of the Greatest Heaven Sect's medicinal hall, and there was no doubt that it was absolutely real. And the sentence Yang Chen said today also proves this point. He made a heart oath, when he faced the tribulation, he would face the oath. Once the oath was violated, the heart would definitely be overwhelmed when the tribulation was faced. At the very least, he would usually turn into flying ash and completely disappear from this world.

Yang Chen's words made Mao Qi blush, what else could he say? Could he say that his own medicinal hall has raised a group of idiots, dozens of Yuanying stage masters, third and fourth grade alchemists, who have not been able to refine a spirit congealing pill?

However, even without saying these words, Yang Chen knew it well. Since it was something that everyone was tacitly aware of, then simply put it on the surface and make it clear.

"Grandmaster, you are really clever, this time, my Greatest Heaven Sect acknowledges that the punishment is deserved." Mao Qi bluntly admitted that he failed. He took the pill recipe but couldn't refine the pill. He was embarrassed, but he was ashamed in front of a fifth-grade alchemist, it doesn't seem to be a big deal either.

After several times of contact with Yang Chen, Mao Qi's face was now thick to a certain extent. At least listening to Yang Chen's half-tittering and half-truth, he could sit on the spot and drink tea instead of getting up and walking away, it explains everything.

After surrendering his defeat simply and neatly, Mao Qi also directly asked again "A spirit congealing pill that is sufficient to treat my young sect master, grandmaster, name a price!"

Yang Chen stared at Mao Qi's eyes, as if he wanted to see the bottom line of the Greatest Heaven Sect from Mao Qi's eyes. Mao Qi didn't hesitate to look at Yang Chen, but both of them were Yuanying stage ancestors, so even if Mao Qi wanted to overwhelm Yang Chen with his aura, he couldn't.

“A seventh grade fire seed, do you still have it?” Yang Chen asked directly without being wordy, “If so, then we have a deal!”

Mao Qi almost sprayed out a mouthful of old blood, spraying it on Yang Chen’s face. What did he think a seventh grade fire seed was? The Greatest Heaven Sect had a big influence and the collection of four seventh grade fire seeds was already the limit, where could they get another one again?

Besides, even if there was a seventh grade fire seed and they gave it to Yang Chen, could he use it? Mao Qi was very uncomfortable with Yang Chen’s practice of it being useless to him but still occupying it by his side. Instead of wanting something that was not necessary at all, he might as well want some practical magic weapon that could improve his cultivation base or better things like that.

Even if it was the Greatest Heaven Sect, talents come forth in large numbers. These seventh grade fire seeds have been in existence for hundreds of thousands of years, but only single-digit disciples could control them. No matter how powerful Yang Chen was, Mao Qi didn’t realize that Yang Chen had this ability. Yang Chen asked for the seventh grade fire seed, and Mao Qi wanted to knock Yang Chen to the ground with a punch.

“These seventh grade fire seeds are really finished.” The anger returned to calm, but Mao Qi still suppressed his emotions, and said in calm words as much as possible “Change to something else!”

“In that case...” Yang Chen touched his chin, and slowly moved his fingers on his chin, as if stroking his non-existent beard. After thinking about it, he said again “Then ten kinds of the original spirit power essence, each one?”

Some of the original spirit power was not collected by Yang Chen, so if he could get the full set from the Greatest Heaven Sect, it would be a good thing.

Upon hearing this, Mao Qi staggered and threw himself in front of Yang Chen. Ten kinds of original spirit power essence, one for each? Sure enough, it didn’t hurt to speak while standing. The Greatest Heaven Sect spent hundreds of years in order to try to collect a little fifth earth true essence, but later failed. Even the Five Elements Sect was offended. Ten kinds were required, what kind of joke was this?

Chapter 475.1: Reward

“Forgive me for speaking out.” Mao Qi didn’t feel embarrassed in front of Yang Chen, he just talked eloquently “spirit power true essence, didn’t you already have a kind of sixth earth true essence last time? In addition, if there is no original cultivation method then this original spirit power essence is not so easy to use.”

Mao Qi’s words were not exaggerated at all. Without the original spirit power, and not the monster race with extraordinary talents, forcibly absorbing the original spirit power would result in only one end, exploding to death without exception.

This was also a reminder to Yang Chen, to point out practical things and not always keep this kind of extremely precious but unusable “scrap”.

“You can’t use it, it doesn’t mean that this younger generation junior can’t use it.” Yang Chen smiled and explained to Mao Qi: “If some medicinal pills have such a small amount of it, it is enough to make the medicinal pill be reborn.”

You don’t need a heavy hammer to sound a drum, and a smart person doesn’t need a second sentence. Mao Qi immediately understood Yang Chen’s plan. Of course, this was the concept Yang Chen deliberately gave him.

“No!” Mao Qi shook his head resolutely. Originally, he was ready to be violently ripped off by the lion, but he was not ready to be broken by Yang Chen. The ten spirit power true essence were not available in the Greatest Heaven Sect.

“Are there several? The vacant part is easy to discuss, and can be replaced with other things.” Yang Chen said with a smile, looking like a very old bargainer.

“Nothing.” Mao Qi shook his head again and replied decisively “The only one has been given to you last time. The others are really gone, let’s change to something else!”

“Hall Master Mao is not sincere!” Yang Chen shook his head and said disapprovingly “If that’s the case, then there is nothing to talk about.” He started to make a gesture of serving tea.

He just intended to see off the guest.

How could Mao Qi let this negotiation fall apart? Of course, he must do his best to reach an agreement. Seeing that Yang Chen was about to serve tea, he hurriedly reached out to stop Yang Chen. Regardless of the dignity of a Yuanying stage master, he hurriedly said "The original spirit power true essence is really not there. Even if there is, it has been used by the elders. Last time the sixth earth true essence was left by chance, it's really gone. Let's change to something else!"

To be ashamed was to be ashamed. Mao Qi has already given up. This was the last time and there would be no next time. The tone of his speech was almost pleading.

"Speaking of it, Senior Mao, this spirit congealing pill is not a great medicine." Yang Chen pretended to be puzzled and asked casually "The young sect master of your noble sect is so important that it can make Hall Master Mao so...abnormal?"

When Yang Chen said this, Mao Qi was a bit alert, they must not let Yang Chen sense a single trace of the situation. But beyond that, there seems to be no good explanation. The only possibility was to admit certain rumors.

"Grandmaster, now it will not hide anything." Mao Qi's heart was stunned. Anyway, sect master Li only needed the spirit congealing pills, so he could only sacrifice his reputation "The young sect master is my Sect Master Li's biological son, so you know..."

This reason was enough to explain why Mao Qi valued the spirit congealing pills so much, and it was enough to explain everything before. Yang Chen was amused, looking at Mao Qi, he really didn't know how to react, he could even say this kind of thing, which shows that he was forced to a certain extent.

"So that's it..." Yang Chen estimated that he couldn't knock what he said before from Mao Qi, and he had to take a step back, rubbing his chin and thinking for a moment before he said "Twenty kinds of sixth-grade fire seeds that the junior don't have, also....."

"There is no problem with the sixth grade fire seeds." Mao Qi hurriedly agreed first and then continued to ask "What else?"

“The Greatest Heaven Sect has a long history. There are always some medicine gardens and elixir left by predecessors more than 100,000 years ago!” Yang Chen stared at Mao Qi and said these words “Plus such a medicine garden and elixir, then we have a deal.”

“Uh!” Mao Qi almost hit a hiccup and swallowed again. The medicine garden and the elixir mentioned by Yang Chen really existed in the Greatest Heaven Sect, but those elixir were all from the bottom of their super reserve. For ordinary circumstances, even if they refine the questioning inner heart pill, they would not use the super reserve. Yang Chen really dared to think that he would get it.

This was what Yang Chen had considered for a long time, in the Greatest Heaven Sect, Yang Chen had heard some people blowing the ruins in the heavenly court in the previous life, so naturally at this time he was not polite.

“If you can’t be satisfied, then leave it alone.” Yang Chen looked at Mao Qi still hesitant, and added another sentence. He could now be sure that the Greatest Heaven Sect was in urgent need of the spirit congealing pills, so he didn’t worry about not agreeing. It doesn’t matter if they don’t agree, anyway, the initiative was in his own hands.

The Greatest Heaven Sect saw the hope of the spatial spiritual awareness cultivation method succeeding, and would agree with him at this point. This was Yang Chen’s confidence. Otherwise, if anyone dared to blackmail the Greatest Heaven Sect in this way, it would definitely be that even their sect would be uprooted by the Greatest Heaven Sect, leaving nothing behind.

This time, it was Mao Qi’s turn to consider. What Yang Chen wanted was definitely the heart and soul of the Greatest Heaven Sect.

The ten thousand year spirit medicine was very rare, so what was the concept of a spirit medicine that had matured for a hundred thousand years? It was estimated that the restless qi refining stage juniors could directly build their foundation after a smell of the scent. Were these precious things really going to be given away?

However, looking at Yang Chen in front of him, Mao Qi remembered the time when Yang Chen smiled and said to him that the market had changed now. If he refused this time, then the same situation would be repeated next time. Although Hall Master Mao had murmured in front of Yang Chen several times, he had already sworn an oath before coming this time. This was the last time, and there would be no next time.

The sixth grade fire seed was a trivial matter, but the addition of the elixir in the medicine garden, even if it was used by the elders, it would have to pass by almost 80% of the elders at the top. Can he really agree?

On one side was the spatial spiritual awareness cultivation method, on the other side was the medicine garden adding the elixir, which was more than one hundred thousand years old, so Mao Qi was in a dilemma.

Seeing Mao Qi fighting between heaven and man here, Yang Chen said nothing but waited quietly. In fact, he was also a little excited in his heart. If he could really get such a medicine garden's elixir, it would play a very important role in his alchemy and the expansion of his medicine garden's space.

Mao Qi sat opposite, thinking about it for two hours without moving his body. Although Yuanying stage masters were really used to things like this, Mao Qi was not cultivating, so Yang Chen can't help but look forward to it more and more.

"If you immediately refine the pills, the deal will be done!" Mao Qi finally made up his mind, choosing between the spatial spiritual awareness cultivation method and the medicine garden elixir. The sect master said that whatever they gave away, he could kill Yang Chen when the time came and then take it back.

Chapter 475.2: Reward

The promise was a promise, but Mao Qi still made a condition that it must be refined immediately. The sooner he refined it, the sooner Li Liheng's injury would heal, and he would be able to cultivate the spatial spiritual awareness cultivation method.

"When the reward is handed, that would be when the alchemy will start." Yang Chen chose to agree to this condition without hesitation. Twenty sixth grade fire seeds, plus a medicine garden with more than one hundred thousand year old plus elixir, could definitely make Yang Chen laugh out loud in his dreams. However, empty words were not enough, only those who have real wealth could do it.

Mao Qi left immediately without saying a word, he waited two years for this moment. Anyway, the conditions have been negotiated by himself. At that time, the sect master and the core elders also said that if he decided by himself, there would be no major problems.

After returning to the sect, his master Gao Yue began to plan to start refining the Dragon Horn Flying Sword, and his senior apprentice sister Gongsun Ling also began to teach the female apprentice she had received while consolidating her cultivation. For the time being, life was very peaceful, but the three of them were now openly living together.

Yang Chen was now looking forward to Mao Qi's coming again more than Mao Qi was looking forward to his return. Unfortunately, he was destined to disappoint him. Mao Qi had said in secret that he would never see Yang Chen again, so this time the things were sent by two other dacheng stage masters.

For the sixth-grade fire seeds, Yang Chen tested it one by one and confirmed that he did not have it before accepting it. Afterwards, the dacheng stage master carefully took out a wooden box from his Qiankun's bag and held it in his hand, but did not immediately hand it to Yang Chen. After squeezing it for a while, it was handed over to Yang Chen.

"When can we get the pill?" The two dacheng stage masters who had delivered the things were obviously planning to wait here to get the pills. The box had been delivered to Yang Chen, but instead of letting go, they asked Yang Chen.

"Two years." Yang Chen said very positively. Now that he has been promoted to the Yuanying stage, his spiritual power exceeds the Jiedan stage by more than ten times in terms of quality and quantity. So he was faster when refining a pill.

"Don't make any mistakes!" Another dacheng master threatened face to face. The faces of the palace master and Wang Yong next to him were a little ugly.

"This younger generation junior swears by the heart demon, i will definitely do my best to refine the pill." Yang Chen casually gave a reply with the heart demon's oath, which made the other party feel at ease and he released his hand holding the wooden box.

Here, the palace master settled the two dacheng stage masters, and Yang Chen over there did not break his promise, and went straight to retreat and began the alchemy. Since it was agreed with the Greatest Heaven Sect, when Yang Chen got the things, he simply verified the authenticity of the wooden box medicine garden, looked at the elixir inside, and threw the wooden box medicine garden into the net bottle medicinal garden, and began to make alchemy for the Greatest Heaven Sect.

Although the net bottle medicinal garden does not have the long history of the wooden box medicinal garden, it has one more advantage than the wooden box medicinal garden, that was, it has a tool spirit.

There was no doubt that the Greatest Heaven Sect would not give Yang Chen the medicinal garden with tool spirits. Maybe there were several similar heritage medicine gardens and this was just the worst one.

Even so, the elixir in it has already made Yang Chen speechless. After he got the yang mountain medicine garden, he was already a rich man in spirit medicine, but when he was really compared with the inheritance of the Greatest Heaven Sect for hundreds of thousands of years, the difference was not one or two points. The foundation of the big sect, it was far from what Yang Chen could contend with alone.

A'Zhu and A'Bi were even more pleasantly surprised than Yang Chen, if the two medicine gardens became one, just the elixir in the wooden box medicine garden was enough to raise them to a level again.

Even without Yang Chen's order, A'Zhu and A'Bi began to devour the wooden box medicine garden. It's just that this wooden box medicine garden has been in existence for so long, and it was not known how many masters have experienced it before and after so it was almost impossible to swallow it smoothly.

Yang Chen also knows this. This was a long-term slow effort, so he doesn't look forward to it right away. Anyway, the things were in his hands, and the elixir could be used at any time without delay.

It didn't take Yang Chen too much time to refine the spirit congealing pills. Especially after his spiritual awareness has been promoted to the second stage of the human immortal realm, coupled with the effect of the fourth stage of the three purities secret art, this kind of pill that required distraction and multi-use has no difficulty for Yang Chen.

Since the Greatest Heaven Sect also took out their own collections, Yang Chen didn't mind giving the Greatest Heaven Sect a more beautiful job. Of course, it was mainly due to the profound spirit furnace merits. After the first round of spirit congealing pills were refined, the second grade spirit congealing pills were released.

Yang Chen didn't use up the two years, it only took one and a half years to refine enough spirit congealing pills. But still he patiently and carefully thought about it in the alchemy room for half a year before leaving.

Seeing the second grade spirit congealing pills that Yang Chen gave them, the two dacheng master elders of the Greatest Heaven Sect didn't say much, they just checked the quantity of the pill, then carefully sealed it in a jade bottle and collected it, then turned around and left without a moment's stay.

"They used such a high price to ask for the pill." The palace master watched the two dacheng stage masters leave, and couldn't help but said to Yang Chen "Could Li Liheng really be the son of sect master Li?"

"That is fake!" Yang Chen smiled and gave an answer to the palace master. His gaze had been watching the direction the two dacheng stage masters had left in, and a stone in his heart finally landed.

The Greatest Heaven Sect, after all, was hooked. The next step was to wait for decades to implement all the plans that he had already thought of, surely it would be very pleasant.

"What you are going to do, you don't have to tell us." The palace master also realized something, and patted Yang Chen's shoulder gently "As long as you remember that the Pure Yang Palace will be with you at any time."

"Disciple will remember!" These words were the real sect's concern, and Yang Chen certainly wanted to appreciate it.

A'Zhu and A'Bi swallowed the wooden box medicinal garden only by a little bit. Fortunately, the medicinal garden has a huge amount of first wood spiritual solution as a backing, so they could cope with the huge spirit power needed to swallow them. Not only that, Yang Chen also threw in a lot of seventh metal and tenth water crystal stones, which made A'Zhu and A'Bi even more powerful.

Not only that, the two tool spirits also used the twenty-four Penglai divine wood monsters that had been growing in the medicine garden. It was not known what method they used to make these Penglai divine wood monsters to withstand the space backlash, the damage was much faster than before.

According to this progress, it was believed that it would not be long before the two medicinal gardens could be combined into one. At that time, Yang Chen could also refine some of the legendary elixir of life and death.

Except for cultivating and teaching apprentices, Yang Chen was now starting to absorb the fire seeds that he has collected.
