Chapter 476.1: Yang Xi's Opportunity

Yang Chen's fire seeds now included all types of fire seeds in the mortal world, from the first to the seventh grade. However, all of the sixth grade fire seeds and seventh grade fire seeds were completely untouched, but he controlled the profound spirit furnace to absorb some fifth grade fire seeds and lower fire seeds.

Of course, this was only absorbed into the profound spirit furnace. The level of the profound spirit furnace needs to be improved, except for Yang Chen's usual use of the Heavenly Spirit Treasure Refining Secret Art and Earth Fiend Sacrificial Formation Secret Art as well as Universe Treasure Raising Secret Art sacrificial refining, all that was left was to absorb the fire seeds.

In addition, the fire seeds were absorbed into the profound spirit furnace, which was the safest way for Yang Chen. Although many fire seeds were kept well when they were handed over to Yang Chen, who knows if there were any tricks played by the Greatest Heaven Sect when delivering the fire seeds? When the high-level fire seeds rebelled, Yang Chen would inevitably face a backlash.

Therefore, the safest way was to absorb all these fire seeds into the profound spirit furnace. Then through the profound spirit furnace, before slowly merging it into his own Yin-Yang Heaven Burning Fire.

He has successively received a lot of fire seeds below the sixth grade, including payment from the Blue Cloud Sect. Yang Chen first absorbed these fire seeds into the profound spirit furnace without any effort.

Now Yang Chen's realm has been greatly improved, and his ability to control the profound spirit furnace and flame control was even higher, and he could absorb low-level fire seeds, which was several times or even dozens of times faster than before. At the end of absorbing these fire seeds, the speed would increase.

In just a few months, all the fire seeds below the sixth grade were absorbed into the profound spirit furnace. After that, Yang Chen began to use his mind for the sixth grade fire seeds.

The highest level of the fire seeds that Yang Chen had controlled in his previous life was the fifth grade True Sun Fire. But now he has five kinds of seventh grade fire seeds plus dozens of sixth grade fire seeds, these things made Yang Chen very greedy.

However, after weighing it up, Yang Chen gave up this dangerous move. For now, with Yang Chen's ability to control fire seeds, it's not enough to control a sixth grade fire seed. It was still necessary to increase the power of the Yin-Yang Heaven Burning Fire first.

Yang Chen only absorbed the third grade fire seeds. There were too many fire seeds, and it takes a lot of time to absorb and fuse the fire seeds.

He paid attention to gradual and orderly practice in cultivation, the same was true for the Yin-Yang Heaven Burning Fire. If he absorbed the high-level fire seeds from the beginning, it would inevitably cause an unstable foundation. This was a fatal flaw for the Yin Yang Burning Sky Fire, so Yang Chen tried his best to absorb the low-level fire seeds first.

However, staying in the sect to absorb and fuse the fire seeds, Yang Chen always felt that it was a little waste of time. Instead of this, it was better to go out on the way and use the time on the road to do this.

Gao Yue wanted to refine her dragon horn flying sword, and could not leave the sect for the time being. Gongsun Ling would also be in the sect for a while, so in the end, it was Yang Chen who embarked on the journey alone.

The first thing to do was for him to go to the far north of the monster race plain. A hundred years ago, Yang Chen left a formation for collecting the fourth fire true essence. It must have collected enough fourth fire true essence for Yang Chen to cultivate the fourth fire true secret art and he wanted to get it back.

That was the secret plane found from that unlucky Yuanying stage ancestor from the Greatest Heaven Sect. He would also take that secret plane along the way and leave it to his future apprentice.

Speaking of apprentices, when he calculated according to the days, there would be an apprentice accepted by Yang Chen in the near future.

Hua Mengyou, a talented spirit medicine planter, although her cultivation may be relatively poor, she was an absolute master in spirit medicine planting. She discovered the method of growing the thunder pomegranate.

After returning from the far north, he could just bring Hua Mengyou back to the sect and accept her as an apprentice and Yang Chen had already prepared gifts for Hua Mengyou. The two medicinal gardens plus the secret plane to be collected from the Far North this time would definitely allow Hua Mengyou to exert her strengths.

Because her cultivation base was not very strong, although Hua Mengyou devoted herself to the Green Jade Immortal Island in her previous life, she did not receive much attention at the beginning. It was not until a hundred years later that she discovered the method of growing the thunder pomegranate, which made her famous. With the support of the Green Jade Immortal Island at any cost, she ascended to the spiritual world and the Immortal world.

However, Hua Mengyou's final cultivation base was not very high, but she had reached the level of the Golden Immortal. She was a highly regarded figure and has always had a high status.

This female apprentice, Yang Chen could accept. With her talent for planting spirit medicine, coupled with the spirit medicine possessed by Yang Chen and the elderly lord pill scripture left by the grand supreme elderly lord, this combination would definitely make anyone salivate.

Few people could catch up with Yang Chen's speed now. No matter where he goes, the senior sect leaders were very relieved. In addition, Yang Chen was already a Yuanying stage master, and his ability to protect himself was absolutely not bad, so when he left alone, no one had any objections. After all, it was good to cultivate frequently, and it was impossible to cultivate into a Golden Immortal by working behind closed doors.

The journey went smoothly, and there was almost no obstacle to the high speed travel. Yang Chen first took the way to the banyan tree immortal's cave in the ten-thousand trees forest and after meeting with Hou Yun, did he change to the extreme north.

While Yang Chen kept absorbing and fusing the fire seeds on the road to strengthen the Yin-Yang Heaven Burning Fire, it was also the most difficult period Yang Xi had in the Greatest Heaven Sect. However, it seems that there has been some turning point recently.

Originally, Senior Jiu Xian had already seen that Yang Chen was hostile to Yang Xi of the Greatest Heaven Sect before he joined the Pure Yang Palace, but he had never killed him. Although Senior Jiu Xian didn't understand why this was, he didn't mind doing something to please Yang Chen.

Senior Jiu Xian arranged some killers to disperse Yang Xi's scared soul. Then, using his internal relations of the Greatest Heaven Sect, he kept making things difficult for Yang Xi, causing Yang Xi to go through extraordinary hardships in the Greatest Heaven Sect.

Later, Senior Jiu Xian was promoted to the dacheng stage, and his words were even more powerful. In order to please Senior Jiu Xian, several guys in the Greatest Heaven Sect who had already bought in, naturally put more effort on Yang Xi, making Yang Xi miserable.

Over the past few decades, Yang Xi's life has been like hell, with no hope at all. Rebelling, he didn't even dare to think about it. Those who oppressed him had a much higher cultivation base and a much higher status. No matter what, he didn't have the capital to resist.

Without resources, being bullied by the disciples around him, Yang Xi's cultivation level also stagnated, constantly being assigned the dirtiest, most tiring, hardest and most dangerous work and he didn't even have time to cultivate. The sense of superiority that he felt when he joined the Greatest Heaven Sect before, he didn't know where he left it.

But recently, something indirectly related to Yang Xi happened. Suddenly all the people who were serving around the young sect master Li Liheng died. Under Li Liheng's own suggestion, Yang Lan, the younger sister of Yang Xi, who had been driven far away, returned to serve the young sect master.

Chapter 476.2: Yang Xi's Opportunity

Back then, Yang Lan was driven away because the sect master thought that the people around the young sect master had improperly served, which caused the young sect master to become unconscious. At that time, he changed all the people who served the young sect master.

Young master Li Liheng's recent status was not what it used to be. He was bullied by a few masters in medicinal hall and he still dare not say anything. Now all the senior officials respected Li Liheng and truly regard Li Liheng as the young sect master of the Greatest Heaven Sect.

All the people around Li Liheng died, and it was such a big deal to have the original people come back to take care of him, even without the approval of the sect master, naturally some elders helped the sect to organize this matter. Yang Lan naturally returned to Li Liheng's side.

Li Liheng, who was proud of the spring breeze, finally enjoyed the feeling of being in power. Although it was not a real power, the elders who have real power also obeyed his words. As long as it was not too excessive, they would do whatever he commands.

However, Li Liheng also knew that his strength was not in cultivation, but in his spiritual awareness, in the spatial spiritual awareness cultivation method, so he did not relax in the cultivation of his spiritual awareness.

But when it comes to a female's attractiveness, Li Liheng was not so cautious and Yang Lan was already very beautiful. After being left out for years, she had not tasted the warmth of human relationships. In addition, his brother was also oppressed by others. With this opportunity, she did everything to please the young sect master.

Soon, Li Liheng became very fond of Yang Lan, and other people naturally began to notice. As a result, Yang Xi's spring finally came again. As the younger brother of the concubine, Yang Xi's life was immediately much better.

No matter what the Jiu Xian said, he was also an outsider, not a disciple of the sect. People in the sect would still live in the main sect in the future, so it was natural to be in the red and white.

In addition to being constantly threatened by outside assassins, Yang Xi finally occupied a place in the sect again. As for those killers, as long as Yang Xi doesn't leave the sect, who would dare to enter the Greatest Heaven Sect to kill?

This was a once-in-a-lifetime opportunity, Yang Xi was like a long drought who had caught the rain. His sharp teeth quickly won the favor of the young sect master, allowing him to follow along.

And Yang Lan couldn't help getting some good things from Li Liheng's side to Yang Xi. The cultivation base that had been stagnant began to gradually improve. In less than five years, he had reached the peak foundation stage, and he was about to reach the Jiedan stage.

But Yang Chen's reputation at the moment has become even more resounding, the fifth-rank alchemist, the Yuanying stage master, and even the Greatest Heaven Sect have to ask for alchemy from Yang Chen, which could be described as unlimited.

As long as he heard the news of Yang Chen, Yang Xi couldn't help but grit his teeth. Everyone also came from the Yang Family village and in terms of time, he joined the sect earlier than Yang Chen. In terms of qualifications, he was better than Yang Chen. Regarding the sect, the Greatest Heaven Sect was thousands of times better than the Pure Yang Palace. Why was Yang Chen now famous and having a big reputation, but Yang Xi himself has just recovered from procrastination?

The soaring jealousy made Yang Xi's entire face twisted when there was no one. He fell into the previous dilemma all because of Yang Chen, this damn fellow. If he agreed to join the Greatest Heaven Sect, how could he be like this? He completely forgot that he had no intention of wanting Yang Chen to join the Greatest Heaven Sect at that time, but instead intended to put Yang Chen to death.

Yang Xi wanted revenge. However, after decades of hardship, he finally understands one truth. It was not too late for a gentleman to take revenge. The most important thing now was to improve his cultivation base, not to trouble Yang Chen.

Yang Chen was just as the sun was in the sky, and even the young sect master had to be careful about whether Yang Chen's pill has hands or feet, so this period of time, he could only hibernate and watch Yang Chen show his power. But Yang Xi believed that one day, he would ask Yang Chen to kneel before him like a dog and beg him for his life.

Yang Chen, who was concentrating on fusing the fire seeds, certainly would not have thought that Yang Xi would have another day when the salted fish turned over. He had forgotten this guy a long time ago. Perhaps if he had the opportunity to meet again, Yang Chen wouldn't say too much nonsense, and he would slay him cleanly and without leaving any future troubles. Anyway, Yang Xi has been tortured enough over the years, and it depends on Yang Xi's own luck.

The fire seeds of the third grade and lower grade on hand were finally absorbed and merged into the Yin-Yang Heaven Burning Fire. The two Yin-Yang fire dragons were born and moved like real dragons, their scales had already taken shape.

Seeing that there was no third-grade fire seed, Yang Chen finally set his sights on the fourth-grade fire seeds. The fusion and absorbing of fourth grade fire seeds, in theory, the Yin-Yang Heaven Burning Fire would have surpassed the fifth grade fire seed and was close to the sixth grade fire seed.

Of course, this was just a theory. After all, no one in the memory of his previous lives had such a super powerful flame. Yang Chen could only cross the river by feeling the stones and experiment step by step.

When Yang Chen was in the Jiedan stage, he took the risk of absorbing the fifth grade true sun fire. Now Yang Chen was already a Yuanying stage master, and coupled with his previous life's fire control techniques, he easily incorporated a fourth grade fire seed into the Yin-Yang Heaven Burning Fire and slowly began to absorb and merge.

When Yang Chen merged two fourth grade fire seeds, the extreme north was already in sight. More than a hundred years have passed, nothing has changed here, the same inaccessible, the same ice-bound.

The layout of the place did not change in any way, Yang Chen easily entered the secret plane left by the predecessor of the Greatest Heaven Sect, and then entered the large array he arranged to collect the fourth fire true essence.

As expected, Yang Chen already had half a bottle of the fourth fire true essence in the big jade bottle that Yang Chen had placed here. These were enough for Yang Chen to cultivate the fourth fire true secret art.

There were already several kinds of original spiritual power on hand, but Yang Chen had not cultivated those original spiritual powers. It was left by Yang Chen deliberately to be used to break through the bottleneck.

This bottle of fourth fire true essence was no exception, and Yang Chen carefully put the jade bottle away. After careful observation, he found that there was not much fourth fire true essence to collect. It seems that this secret plane has no meaning here, and it happened to be accepted by Yang Chen as a gift for his future apprentice Hua Mengyou.

When collecting this secret plane, another secret plane came into Yang Chen's mind. When Yang Chen used the secret plane incident to frame the Greatest Heaven Sect, he learned from the key of the Greatest Heaven Sect. Like this secret plane, that one was also the secret plane left by the Greatest Heaven Sect, but it hasn't been explored until now. After collecting Hua Mengyou this time, he would just go to search the secret plane.

Chapter 477.1: Your Name Is Hua Mengyou

A small black hole suddenly appeared on the snowy ice field and a figure slowly floated from the black hole, and slowly fell on the white snow.

The black hole that just appeared, in just a short time, a circle of thin white ice appeared. Then, the ice layer became thicker and thicker, and more and more white snow accumulated on it. In just a few breaths, it had been restored to its original appearance, and it could no longer be seen that a black hole had ever appeared there.

The figure that appeared was naturally Yang Chen. At this moment, Yang Chen's hand was still holding a thing that looked like a courtyard shrunk countless times. From a closer look, pavilions, rockeries and water were all available inside and even the water was still gurgling.

This was the secret plane that the unknown senior of the Greatest Heaven Sect left behind under the ice field. After Yang Chen collected all the fourth fire true essence, the whole secret plane was also put away. This was a gift Yang Chen intends to prepare for his next disciple.

Hua Mengyou was not from a noble family, on the contrary, she was just a subordinate of a certain noble and she was not the kind of maid who served the family by their side, but a flower farmer who takes care of a garden and grows flowers for the young lady.

To put it bluntly, she was a female gardener. Moreover, she does not have the name Hua Mengyou yet, but was just a village girl named Hua Simei, who was the daughter of the slave of the Hua family.

Simei Hua was very good at taking care of some flowers and plants, which also made her very appreciated by the family. However, appreciation was only appreciation, but there was not much to like. Simei Hua's face was corroded by some poisonous plant juice, she had potholes all over her face, in the eyes of others, were simply hideous.

Such a woman who was also a slave, who would like her? Had it not been for the fact that Hua Simei was the only one who could take care of the rare flowers in the garden, she would have been rushed to work in the farmland.

Not long ago, Simei Hua was like many young people with dreams of cultivating to become an immortal. She tried to go to the Immortal sect to try her luck, however, it was a pity that Hua Simei, who was just nineteen years old, didn't show any innate aptitude, just like when Yang Chen went to the Greatest Heaven Sect for the first time that year, she was sent back unceremoniously.

The trouble was that Hua Simei went to the Immortal sect without permission from the master's house, she went there secretly. This has taken more than a month, and by the time she came back, sadly most of the rare flowers she was in charge of had already died.

Then the poor Hua Simei was sturdily whipped and left half dead. If it were not for keeping her life for planting a few rare flowers, she might have been put to death as a fugitive slave. Even so, the subordinates sprinkled some healing medicine on the body indiscriminately, and threw her into the garden. No one ever asked her anything.

Hua Simei, who was covered with scars, was curled up in the broken little shed in the garden, and many of the wounds on her body had become very painful. The rain outside was getting heavier, but the heart of Hua Simei was getting colder and colder. With this honor of hers, coupled with the scars and pus all over her body, not even one of the slaves thought about approaching her to help her.

In the past few days, Hua Simei have survived entirely by relying on some plants in the garden. No one cared about the life or death of an ugly woman who also wanted to cultivate to become an immortal, wasn't this the biggest joke in the world?

Simei Hua's heart seemed to be desperate, the physical pain was nothing compared to the psychological pain caused by all the broken hopes. She was not reconciled, she wanted to enter the Immortal sect to change her destiny, but even the only friends who were still talking to her laughed at her when she mentioned it, she could no longer bear this kind of blow.

Her hopes were shattered, and the wounds on her body became more and more painful, and her consciousness became more and more blurred. Just when she was about to faint in her dimness, she suddenly saw a person who suddenly appeared in front of this broken shed.

It was a strange looking man, very young, with an indescribable temperament on his body, with a warm smile on his face, like an Immortal.

"Do you want to cultivate to become an Immortal?" In confusion, Simei Hua heard the young man asked her such a sentence and at the same time she was happy, she already had a kind of enlightenment that brought her back to light.

“Yes!” With just such a word in her mouth, Simei Hua lost consciousness cleanly. The injuries on her body were too serious, and she realized that she was on the verge of life and death, and could no longer support herself, so she fainted.

The man who showed up was naturally Yang Chen. He remembered Hua Mengyou’s life experience, a big figure that the immortal world would attach great importance to, and she never concealed her previous life, which also gave Yang Chen a chance to find her easily.

It’s not that Yang Chen didn’t want to find Hua Mengyou earlier, it was because even if she was found in advance, it would be useless. Her innate spiritual root was not awakened, and she was still a mortal, it was impossible to cultivate.

Yang Chen clearly remembered that it was after this time that Hua Mengyou suffered such hardships, she survived by chance, and later cultivated a quiet dream grass that even a normal cultivator could not cultivate, so she was discovered by a female cultivator from the Green Jade Immortal Island. The female disciple of the Green Jade Immortal Island who discovered her brought her to the Green Jade Immortal Island, so she was able to join the Green Jade Immortal Island.

Of course, with Yang Chen now, the original disciple of the Green Jade Immortal Island has also become a disciple that Yang Chen has long been fond of, and has been included in the bag.

When Hua Simei woke up, she suddenly found that her body didn’t hurt at all, as if the injuries on her body were completely non-existent. She was shocked, she sat up suddenly and found that her clothes were intact, but the surroundings were no longer the dilapidated hut, but on the ground with all kinds of strange flowers and plants.

“Are you awake?” Hua Simei could figure out where she was, a gentle voice rang in her ear, and then a figure appeared in front of her.

“God?” What Hua Simei saw in front of her eyes was the young man before she fell into a coma, and also the man who asked her if she wanted to cultivate, Yang Chen.

“I’m not a god, I’m just a cultivator.” Yang Chen smiled gently at Hua Simei, and then continued “You were injured very badly before, so I will treat you for a while, see if you still feel uncomfortable?”

Only now did Hua Simei realize that the scars on her body had disappeared without a trace. The skin on her body had returned to its original appearance, leaving no trace on her body.

This magical change made Hua Simei unable to believe her eyes. When she put her hands on her face she shed tears of joy, she suddenly found that her face seemed to have changed.

Chapter 477.2: Your Name Is Hua Mengyou

Simei Hua's face was burned by a poisonous plant sap when she was a child, so she was pitted and hideous. Many people did not even want to look at her face.

But now when Hua Simei touched it, her face was smooth and she didn't have the rough feeling from before. Simei Hua couldn't believe what she touched with her hands, but she couldn't see it herself. She could only touch her hands on her face constantly, trying to verify whether her face had indeed changed.

Yang Chen understood her current thoughts and directly took out a mirror and gave it to Hua Simei. Hua Simei took the mirror, took a quick look and suddenly saw her smooth skin and a face without any scars.

To be honest, Simei Hua was not a very beautiful woman, not to mention the four women of Gao Yue, Gongsun Ling, Shi Shanshan, and Sun Qingxue, even compared to ordinary female cultivators, she was nothing but modest. But for Hua Simei herself, this was an earth-shaking change, as it was the first time she saw her true face.

Gently stroking her face that was once covered with scars, Simei Hua looked at the person in the mirror with her fingers slowly walking on the face in the mirror, and couldn't help but shed tears. How many times she had fantasized about such a scene, and it has finally become a reality.

Yang Chen didn't interfere with the emotional outburst of Hua Simei at the moment, but looked at her quietly. To be honest, the current Hua Simei has not yet awakened her innate spiritual roots, but she was not very far from that day.

Hua Simei finally stopped crying and recovered her calm, carefully tidying up the clothes that were not neat. She knelt down at Yang Chen, "Thank you, my benefactor!"

Yang Chen didn't avoid Hua Simei's kneeling. All her injuries were cured by Yang Chen, including the scars on her face. It was all Yang Chen's credit, and he deserves this thanks.

"Get up and talk!" Yang Chen gently stretched out his hand and Hua Simei had already stood up involuntarily. This time, more and more, Hua Simei realized the young man in front of her, he must be those divine Immortals flying into the sky in her mind.

"I implore divine Immortal to take me in!" Hua Simei was also an extremely smart woman, otherwise she would not be able to take care of the plants so well, so she immediately took the opportunity to ask Yang Chen to accept her.

"Do you want to cultivate to become an immortal?" Yang Chen asked again.

"Yes!" Hua Simei replied immediately, she would not change her answer.

"Actually, your spiritual roots for cultivating to become an immortal have not yet been awakened." Yang Chen sighed slightly and said, "I want you to cultivate now, but it's a bit early."

Simei Hua did not hear a direct refusal from Yang Chen's mouth, but said that the time had not come. Her intuition told her that this was a great opportunity, Hua Simei immediately pleaded again and again "I implore divine Immortal to accept me, I implore divine Immortal to accept me."

"If I accept you now, maybe you will miss your great opportunity in the future. Are you willing?" Yang Chen lowered his head and looked at the kowtowing Hua Simei, and asked.

"I don't know the great opportunity, I only know that you saved me and healed my injury." Hua Simei said "No matter what opportunities there are in the future, you are the opportunity in front of me."

Maybe it's because of the previous life and death, Hua Simei has lost her hope for the future. For her, the most important thing was the present, not the great opportunity in the future.

"Would you like to accept me as your master?" Yang Chen stood there quietly for a while before finally asking.

“Master, please accept Hua Simei’s bow!” Hua Simei didn’t understand what Yang Chen meant, but she hurriedly bowed down to Yang Chen again, kowtowed heavily.

Being able to be accepted by an immortal, Hua Simei couldn’t believe everything she saw. As everyone knows, Yang Chen was even happier than her.

Right now, Yang Chen told Hua Simei the name of himself and the Pure Yang Palace. This simple ceremony could be regarded as Yang Chen temporarily agreeing to Hua Simei and accepting her as a disciple. However, a more formal and solemn ceremony would be held after Hua Simei reached the foundation stage in the future, this was also explained to Hua Simei.

Sister Hua naturally had no objection to Yang Chen’s statement. It was the rule of all sects to formally apprentice after reaching the foundation stage, and it was impossible to break it for the sake of Hua Simei alone. Of course, Yang Chen was also very relieved that Hua Simei would be able to reach the foundation stage successfully.

“This pill, if you take it, you can awaken your spiritual roots as soon as possible.” Yang Chen handed a pill into the hands of Hua Simei and told her.

Hua Simei naturally understood Yang Chen’s kindness, picked up the pill and swallowed it without hesitation, without the slightest precaution. If Yang Chen wanted to kill her or oppress her, there was no need for inferior methods such as using a pill, there was really no need to harm her.

The pill that Yang Chen gave to Hua Simei was the body-refining pill he carefully refined on the road. Body refining pills could improve the physique of ordinary people, and could also induce spiritual root awakening in advance. It was of little use for cultivators, but it was infinitely useful for mortals.

Hua Simei’s spiritual root was not awakened, so the body refining pill was just right for her. However, the body refining pill that Yang Chen gave was not an ordinary body refining pill, but a fifth grade body refining pill that was carefully refined by Yang Chen.

After the fifth grade refining, even the most ordinary pill could become a top-level spirit pill. Although the body refining pill was not even ranked in the minds of the cultivators, the fifth grade refining pill was also a good thing for people to compete for.

Before reaching the seventh grade, the body refining pill could not achieve the effect of reincarnation, but it was enough to completely induce the spiritual roots of Hua Simei. It was even possible that due to the efficacy of the medicinal pill, there would be better performances on the innate and acquired spiritual roots.

The innate spiritual roots of Hua Mengyou in the previous life were similar to those of Yang Chen, but slightly lower than Yang Chen and had just reached seventy, which also led to the fact that Hua Mengyou's cultivation level only reached the Golden Immortal, and failed to become the Great Principle Golden Immortal. With this fifth grade body refining pill in this life, it might be able to slightly change some of the results of her previous life.

As expected by Yang Chen, Hua Simei immediately fell asleep after taking the body refining pill. When she woke up after ten days of sleep, and when Yang Chen checked it again, Simei Hua had already awakened her innate spiritual roots. According to Yang Chen's calculations, it was about seventy-four, which was the same as Yang Chen in his previous life, and was about four points higher than her previous life.

Don't underestimate these four points, they would be enough to make Hua Simei a Great Principle Golden Immortal. Of course, Hua Simei didn't even know that her destiny had changed drastically.

"Hua Simei, this name doesn't sound good, I'll change it for you as your master." Yang Chen smiled and said to the refreshed Hua Simei "From now on, you will be called Hua Mengyou."

Chapter 478.1: Blocking The Way To

Hua Mengyou was born with a tacit understanding with plants, so no matter how difficult it was to grow plants, she could grow it very well in her hands.

When her spiritual root hadn't awakened, Hua Mengyou's ability was not obvious, but she could grow mortal plants, and at best, plants that seemed rare in the eyes of ordinary people could be grown in her hand. But after her spiritual root awakened, it was completely different.

The place where Hua Mengyou was now located was the first layer of Yang Chen's medicinal garden, which was basically where some thousand-year-old elixir was planted. But Hua Mengyou already seemed to be able to communicate with these plants, and seemed very cheerful.

For a long time, no one around Hua Mengyou wanted to communicate with her, so Hua Mengyou also developed a slightly bored character that was not good at talking. But in the medicinal garden, even if there was only Hua Mengyou, accompanied by so many spiritual medicinal materials, she was very happy and didn't feel alone at all.

Under the influence of Hua Mengyou, even A'Zhu and A'Bi, who were fully focused on fusing the wooden box medicine garden, discovered anomalies. It seems that the planted elixir in the first layer does not need to be influenced by them, and it could grow very well. This allowed them to also allocate more power to integrate the medicine gardens spaces.

And the magic of Hua Mengyou was that the elixir in this medicine garden has begun to nourish Hua Mengyou's body, even if she has not practiced any cultivation methods, but this pure wood attributed spirit power, it had spontaneously entered into her body.

Planting elixir could automatically improve her cultivation, just as Senior Shangguan could improve his realm through business. It was the most suitable path for her cultivation.

Hua Mengyou has not yet cultivated any cultivation methods, but she has already shown such a great power. One could imagine what kind of magical elixir planter she would be after she specializes in wood attribute cultivation methods.

Unfortunately, Yang Chen can't teach her proper cultivation methods now. Ever since she was a child, she just spent time in the garden. Where would Hua Mengyou have the opportunity to read, she has no foundation for anything. She could only be sent to the Ye Xiu Manor in Pure Yang Palace to learn from scratch.

However, Yang Chen had already prepared everything she needed, including the qi seeking pill for starters, appropriate wood attribute techniques, etc, and even the third grade foundation establishing pills were already prepared, he was just waiting for the time to come, to let her get started. Naturally, those medicinal gardens and secret plane were reserved for her, but it was not the time to hand them over to her at this time.

Yang Chen was looking forward to the time when his female apprentice who could take good care of plants and his first apprentice Mu Bai cultivate together. What a complementary process it would be.

After placing Hua Mengyou in the medicinal garden, Yang Chen embarked on the way back to the sect. This time, when he went back to explore the secret plane, he would naturally bring Gao Yue, Gongsun Ling, and of course, Shi Shanshan and Sun Qingxue were indispensable. Now that everyone was a family, the benefits must of course be considered.

And there was one thing, the life source magic weapon's of the cold plum fairy and the dancing snow fairy, Yang Chen had not yet begun to refine them. This has to wait until Xiao Tian wakes up, without Xiao Tian's help to eliminate the refiner's aura, the effect would not be as good as letting the two women directly refine it.

In any case, there were still many things to be busy with next. Moreover, Yang Chen knew very well that after the young sect master of the Greatest Heaven Sect took the spirit congealing pills and was "healed", he would never leave his confidant worry again, and would definitely do it. Yang Chen was also ready, waiting for the day when he would trap the Greatest Heaven Sect.

Even if Yang Chen could still toss Li Liheng, but the Greatest Heaven Sect would never tolerate his repeated extortion of the Greatest Heaven Sect, and there would only be one result left.

On the way back to the Pure Yang Palace, Yang Chen didn't rush too quickly, and was thinking about what kind of trap he should set for the Greatest Heaven Sect.

Suddenly, the shuttle stopped in the air, but the front end of the shuttle turned into four streams of light and the four streams of light flew forward at the speed of the shuttle just now.

The flying shuttle disappeared in an instant, and Yang Chen hovered abruptly in the air, and a blood-red flying sword suddenly appeared in his hand. In the blink of an eye, Yang Chen's figure followed the four streams of light in front of him and rushed forward.

Boom boom boom boom, the four streams of light in front, after flying to a certain point, suddenly exploded in the empty place.

With the violent explosion, a dozen embarrassed figures suddenly appeared in the empty sky. The bursts of thunder and lightning caused by the explosion forced more than a dozen people to be affected with the sudden thunder.

Yang Chen's figure happened to be affected in this situation, the flying sword in his hand had already taken off and flew out. He snorted twice, the two guys closest to this side became corpses and fell from the air.

The others were shocked, but they weren't particularly flustered, the lightning attack came and went quickly. Although the power was not small, it was not enough to cause fatal damage to them, the real enemy was Yang Chen.

However, Yang Chen did not give them such an easy opportunity to counterattack. After a successful blow, a golden domed hall suddenly appeared, covering everyone in it from the air.

Forty-nine high-grade flying swords, under the control of Yang Chen, revealed their hideous features, and began raging crazily in this space covered by the hall.

Whoosh whoosh, the sound of the wind brought by the high-speed flying sword, carrying a scream like a ghost, wrapped the dozen figures in it.

The Dome Hall will be given to Shi Shanshan in the future as an auxiliary material for refining her life source magic weapon.

These secretly hidden guys don't even know the power of the seven-step soul pursuing sword array, and they were still trying to attack Yang Chen. With just a move of their feet, forty-nine flying swords immediately attacked them.

Pulling up the familiarity with this sword formation, there was nobody in this mortal world more powerful than Yang Chen. While the group of people were being attacked by the flying swords, Yang Chen was not idle either, and the blue jade blood phantom flying sword also took care of the empty attack of the sword formation.

Under the two-compartment attack, the dozens of guys who were already trapped in the formation, only persisted for less than a few minutes, and they all fell under the sword formation.

This group of people appeared very abrupt, and Yang Chen only discovered them within a distance of one hundred meters. It was also fortunate that he had maintained his spiritual awareness around hundreds of meters. His spiritual awareness found these people in time, so he was able to stop them by himself and threw four thunder pomegranates.

There are more than a dozen masters in the Jiedan stage and Yuanying stage, which add up to a lot of power. But who these people were and why they were blocking him on his own path, Yang Chen has not yet figured it out.

Chapter 478.2: Blocking The Way To Buying Pills

The only thing that was certain was that these guys had killing intent on their bodies, and they were deliberately hidden and unruly. Yang Chen would not be polite to such a person.

It's not that Yang Chen has now become a cultivator who kills people without asking questions. But besides this group of people, there was a more daunting group hidden not far away.

"Which expert is here, please show yourself!" Yang Chen bowed his hand in the void and shouted in a slightly deflected direction.

"Sure enough, I can't hide from you." A gentle voice suddenly pierced into Yang Chen's ears, and then three people appeared in the void out of thin air.

The middle-aged man who spoke in the lead, was in the late Yuanying stage, had five long beards, a face with Chinese characters, and a rich god like jade. At first glance, he looked like a big figure in a top position. The two around him were even more amazing, clearly they were two masters of the dacheng stage.

If it wasn't for them releasing a trace of their murderous aura, Yang Chen might have already taken action. At this moment, the three of them appeared, and they couldn't help but surprise Yang Chen. How was this possible, it seems that every individual could trace his whereabouts now.

"Old man Shao Wenxuan greets grandmaster Yang!" The middle-aged man gave Yang Chen his greetings and said his identity first.

“This younger generation junior has seen Sect Master Shao!” The other party claimed to be Shao Wenxuan, and Yang Chen was shocked. This was the name of the Sect Master of the Five Elements Sect. He also carried two dacheng stage masters with him, it was estimated that besides this Sect Master Shao, where would anyone dare to pretend to be him?

“Grandmaster Yang doesn’t need to be courteous.” Shao Wenxuan waved his hand slightly, first pleaded guilty and said “It’s reckless to come. It’s impolite to hide, I also hope grandmaster Yang won’t mind.”

It must be no small matter to let the Sect Master of the Five Elements Sect go out and wait for him himself. Yang Chen could be sure of this, but how could he be so close to those guys who weren’t on the stage, Yang Chen was always puzzled.

“Recently, this old man got a magic weapon to find out the location of grandmaster Yang.” As if seeing through Yang Chen’s doubts, Shao Wenxuan explained with a smile, and then a compass appeared in his hand.

As soon as he saw this compass, Yang Chen knew that this was something that the Greatest Heaven Sect had made. This was clearly the compass used by the Greatest Heaven Sect to track the imprint of the spiritual awareness that Li Liheng left on his body. It’s no wonder that the spiritual awareness imprint shook slightly before, Yang Chen thought it was Li Liheng trying to contact the non-existent “predecessor”, but unexpectedly it was the compass that was playing tricks.

This kind of compass has always been used internally by the Greatest Heaven Sect. How could it fall into the hands of Sect Master Shao? Yang Chen was very puzzled, but it was not the time for him to solve the puzzles. Sect Master Shao came to meet him, absolutely not to explain it to him.

“Senior, please give instructions.” Since the other party was blocking himself on the road, it was estimated that some things were not easy to refuse, so it was better to take the initiative. So Yang Chen immediately said to Shao Wenxuan.

“Grandmaster, this old man just wants to verify a rumor.” When Shao Wenxuan saw that Yang Chen was acting this way, without much nonsense, he straightforwardly stated his purpose.

This time, Yang Chen did not answer. Instead, he made a please gesture and signaled Shao Wenxuan to continue.

“This old man also has a few friends in the Greatest Heaven Sect.” Shao Wenxuan smiled, with no emotions on his face, and asked in a hurry, “According to them, grandmaster Yang once sold a few pill recipes to the Greatest Heaven Sect?”

“There is indeed such a thing.” When Yang Chen heard that this was the case, he immediately understood. The opponent must have the idea of inquiring about the pill recipe for the questioning inner heart pill, and without waiting for the other party’s follow-up question, Yang Chen directly replied “The spirit congealing pill, this is for their young sect master Li Liheng to heal his spiritual awareness, the other is the questioning inner heart pill and the medicinal pill used during ascending.”

Shao Wenxuan and the two dacheng stage elders were shocked by him admitting that they had sold the pill recipe for the questioning inner heart pill in such a straightforward manner, so simple? The pill that was used during ascending. After the few people pondered it, they immediately understood that it was the heaven seizing pill.

They thought that Yang Chen would deny it in every possible way, but now that Yang Chen admitted it so happily, it made the three of them puzzled. It was better that Yang Chen admitted it, didn’t they have this idea?

“The pill recipe of the questioning inner heart pill, grandmaster, are you willing to sell it?” Shao Wenxuan asked in surprise on the spot. Not only Sect Master Shao, but the two dacheng stage masters around him all had the same surprised expressions.

“As long as the price is right, there is absolutely no problem.” Yang Chen smiled and explained to Sect Master Shao and the two dacheng stage elders “This junior said it from the beginning.”

The three of them were startled again, when did Yang Chen say this? Immediately, a dacheng stage elder reacted quickly, and immediately remembered from the incident of the heaven seizing pill. At that time, Yang Chen took the pill that harmonized the inner core and sold it at the price. Everyone just took it for granted that the pill recipe of the questioning inner heart pill was precious and would definitely not be sold out, so they didn’t think about it at all.

Soon the three of them understood, and looked at each other. When they were about to ask something, Yang Chen took the initiative to speak.

“If senior wants to buy the pill recipe for the questioning inner heart pill, this junior will utter a word.” Yang Chen said seriously.

“I would like to hear the details.” Sect Master Shao immediately asked with his eyes wide open. It’s about the questioning inner heart pill, even if Yang Chen talks nonsense, he would listen to it with all ears.

“In terms of cost for refining the pill, it is not worth the loss to buy a pill recipe.” With a sigh, Yang Chen said helplessly “It is better to buy a finished pill directly.”

“Why is that?” Sect Master Shao asked in a puzzled manner. However, his attitude has always been good. Since Yang Chen didn’t say not to sell, everything was easy to discuss. He would also like to know some reasons why Yang Chen said so.

“Without a fifth grade alchemy master, it’s useless to hold a pill recipe.” The other party was barely leaning toward the Pure Yang Palace side, and there were reasons for opposing the Greatest Heaven Sect. Yang Chen happily answered this question “However, before when hall master Mao bought the pill recipe, junior did not say this to him.”

When Sect Master Shao heard this, his face suddenly became a little unnatural. Yang Chen’s words were equivalent to telling him that it was better not to buy. As for the Greatest Heaven Sect, it was obvious that they had taken a lot of resources to buy a pill but couldn’t refine it.

The Five Elements Sect surely had some internal connections in the Greatest Heaven Sect, otherwise the news would not be detected. They were even able to vaguely inquire about the price from the Greatest Heaven Sect. If it was really like what Yang Chen said, it was indeed better to buy the pills than the pill recipe.

For a time, Sect Master Shao also fell into contemplation. What Yang Chen meant was obviously to put the ugly words to the fore. If there was any unpleasantness in the future, he couldn’t say that he wasn’t warned.

The question was, should the Five Elements Sect buy or not buy the pill recipe for the questioning inner heart pill?

Chapter 479.1: Counter-Attack Of Yang Xi

Sect Master Shao didn't think for too long, and soon he made up his mind.

Sect Master Shao believed Yang Chen's words, and he also firmly believed that Yang Chen must have not said similar words before selling the pill recipe to the Greatest Heaven Sect. This point could be concluded from the Greatest Heaven Sect's repeated actions against Yang Chen. Unless Yang Chen was a fool, he would not let go of the opportunity to cheat the Greatest Heaven Sect so easily.

But saying this to Sect Master Shao and the two dacheng elders meant that he did not think of them as his opponents like the Greatest Heaven Sect, but as his allies.

From this perspective alone, Shao Zong mainly thanked Yang Chen. Even if the pill recipe was not sold at a high price, they would know the whole story clearly and would not pay dead money.

Explaining in advance and discovering afterwards, there were two totally different feelings. One was to feel the other's kindness, the other was to be pitted, how can it be the same?

However, after weighing and weighing, Sect Master Shao decided to buy it. After all, having a pill recipe in hand does not hinder the continued purchase of the medicinal pill from Yang Chen, but there was another possibility. Even if there was no fifth-grade alchemist in the sect, what if there would be one in the future?

The big sect considers more about the direction of future development. Although the immediate interests were also valued, but they were not the focus of attention. Therefore, based on this consideration, Sovereign Shao also decided to buy the pill recipe first.

"If you buy a pill recipe, you can also buy a medicinal pill, right?" Although Yang Chen's attitude was certain, Sect Master Shao still had to make sure.

"Of course!" Yang Chen replied with a smile "And this younger generation promises, It will never be the same as for certain sects. The price of the pill before the purchase of the pill recipe will be the same."

From these words, Sect Master Shao heard something again. It seemed that when he was dealing with certain sects, the strategy and attitude adopted by Yang Chen was completely different. He could conclude that if the Greatest Heaven Sect wanted to ask for some medicinal pills, it would definitely not be the normal price quoted by Yang Chen. That was a saying that Yang Chen has already said very clearly.

With the pill recipe, he would also ask Yang Chen to make the medicinal pill. If it was replaced by Sect Master Shao, the price would be raised. If you have the ability, you won't need help, since you have to take the pill recipe, the price would naturally be much higher than normal.

Sovereign Shao admired Yang Chen's attitude. The Five Elements Sect and the Greatest Heaven Sect were not the kind of big sects that wear a pair of trousers. The previous desolate valley incident was equivalent to the Greatest Heaven Sect slapping a few times on the face of the Five Elements Sect. Although the Greatest Heaven Sect didn't reap any benefits at the time, the Five Elements Sect was still holding back its rage until now.

Even if they didn't buy the pill recipe, they were happy to hear that the Greatest Heaven Sect was deflated. What's more, Yang Chen still saved their faces like this, as long as they were willing, he would sell them the pill recipe.

"What is the price for the pill recipe for the questioning inner heart pill?" Sect Master Shao finally asked the price of the pill recipe. The two dacheng elders also looked at Yang Chen expectantly, waiting for his answer.

"The price offered by this younger generation junior to the Greatest Heaven Sect is..." Yang Chen stretched out two fingers and put them in front of everyone "Two seventh-grade fire seeds."

Hiss! There was a sound of the people breathing in the cold air. After hearing the price that Yang Chen said, even the dacheng stage elders of the Five Elements Sect could not help but take a cold breath.

Yang Chen really dared to ask for two seventh-grade fire seeds. What made Sect Master Shao and the others unexpected was that the Greatest Heaven Sect actually agreed to this price. How could this be possible?

Sect Master Shao's heart turned like a windmill. He kept pondering, he wanted to understand why the Greatest Heaven Sect agreed to such a price. When he thought about it, it seemed that the only possibility was that reason.

When Yang Chen just spoke, he had been paying attention to whether Yang Chen lied or not, it was easy to tell. Moreover, when trading in the future, Yang Chen could also make a heart oath.

Thinking of that reason, Sect Master Shao couldn't help but feel tight. The Greatest Heaven Sect was willing to spend such a large amount of resources, it seemed that only that reason could make sense, otherwise it can't be explained.

Thinking of this, Sect Master Shao didn't think much anymore. After looking at each other with the two elders, they both saw the kind of affirmation in each other's eyes.

"Okay, let's just make the deal at this price!" After reaching an agreement, Sect Master Shao finally made a decision.

Of course Yang Chen was happy, as he could trade the same kind of pill recipe for a variety of seventh-grade fire seeds. Where could he find such a good thing? If it weren't for the Green Jade Immortal Island and the Blue Cloud Sect being the sects of his own wavings, and they had worked well with the Pure Yang Palace before, Yang Chen would want to get these two sects too.

Of course, if one was willing to fight and the other was willing to endure, it was impossible to say who was pitted against. In Yang Chen's view, there was no alchemy master and only the pill recipe, which was not worthwhile. However, in the eyes of the Five Elements Sect, getting a pill recipe at a price was also a way to enhance the sect's heritage. Everyone gets what they want, and there was no question of pitfalls.

Sect Master Shao and the two elders naturally wouldn't have the seventh grade fire seed with them, so the two parties agreed that in the Pure Yang Palace three months later, they would exchange the fire seed and pill recipe with the other. Everyone was happy.

Standing in place, Sect Master Shao and the two elders watched Yang Chen leave. After a long time, Sect Master Shao asked without looking back, "You said, these people in ambush were arranged by Hu Qianyi

from the Greatest Heaven Sect. What did he want from Yang Chen? Logically, they have already bought the pill recipe of the questioning inner heart pill, so what exactly does Hu Qianyi want?"

This question was worth thinking about. They couldn't understand it, if they thought of something deeper, maybe the three of them can't help but catch up and try to attack Yang Chen.

However, neither Sect Master Shao nor the two dacheng stage elders acted rashly. Hu Qianyi didn't get the slightest benefit as a dacheng stage master, that was when Yang Chen was in the Jiedan stage. Yang Chen was now in the Yuanying stage, and if nothing else, the speed of the flying magic weapon alone was not something they could catch up with now.

As long as they do, they might be the next Hu Qianyi. Not to mention his ruin, he was pushed out by the sect. How could Sect Master Shao not clearly see the mystery inside?

And there was a very important point. Since they could exchange some external objects for what they want, why should everyone make the relationship so rigid? It was because of this fact that the Greatest Heaven Sect hadn't seen through before, it caused a huge loss. Thinking about it, when the Greatest Heaven Sect wanted to get the questioning inner heart pill in the future, they would definitely pay a price that would make their sect feel great pains.

After staring at it for a long time, Sect Master Shao settled his mind, and no longer considered so many minor details. He said to the two elders "Go, let's go back to the sect!"

After finishing speaking, Sect Master Shao flew up first, and the two elders followed and quickly disappeared in place.

Chapter 479.2: Counter-Attack Of Yang Xi

In the Greatest Heaven Sect, Li Liheng was enjoying Yang Lan's service. During this period of time, the young sect master Li could be described as being proud of the spring breeze, and there was no better time than these days.

Regardless of whether it was the sect master or the elders, whether it was the core or ordinary elders, they all respected him. The masters of the medicinal hall who dared to slap his face at him casually and took his things, when they now saw the young sect master, they acted like a mouse and a cat, as if they

were afraid that he would look for revenge, when the young sect master saw it, it gave him a refreshing mind.

Yang Lan's service was very good, allowing the young sect master Li to fully enjoy the taste of being superior. Everything went smoothly in the sect, and almost all the orders of the young sect master Li were regarded as golden rules. Lying on the knees of a drunk beauty, awakening the power of the world, was simply a true portrayal of the current young sect master Li.

The prerequisite for enjoying all of this was that the young sect master Li only needed to take the spirit congealing pills on time, and then concentrate on cultivating his unique spatial spiritual awareness cultivation method. Of course, the young sect master Li knew the importance and he did not slack in his cultivation. In addition to rest and enjoyment every day, it was hard cultivation.

The ease of life and the more convincing life made young sect master Li's mood to swell up. Anyway, he didn't know anything else, he only knew one thing. As long as he devotes himself to cultivation, he could often contact that senior. He could make the Greatest Heaven Sect to cover the whole sky.

Incidentally, the young sect master Li now looked after Yang Xi a lot. This beautiful woman's brother seems to be a very knowledgeable and interesting person, with good words, he lets him do whatever he wants, and it was worthwhile to love Yang Lan.

Recently, Yang Xi helped young sect master Li with an idea, which made him make a lot of resources for the sect. For this, the young sect master Li was very proud.

Yang Xi's idea was to let the young sect master Li make a batch of compasses that could track Yang Chen's whereabouts and auction them everywhere in private. In Yang Xi's words, since the spirit congealing pills had been obtained, Yang Chen was useless. Using his whereabouts to exchange for a batch of spirit stones, this was absolutely a good deal, and it could definitely make a fortune for the sect.

The young sect master Li certainly knows the importance of Yang Chen, but what Yang Xi said was really reasonable. These pills were enough, anyway, he also knows the attitude of the sect towards Yang Chen, he must be killed. So not taking advantage of the opportunity to make a fortune from Yang Chen at this time was really unreasonable.

The fact was as Yang Xi said, as soon as these compasses arrived on the black market, they were sold at an amazing price. Not only that, the compass was still in short supply.

Young sect master Li almost immediately made another batch of compasses to earn more. It was Yang Xi who persuaded him that he couldn't feed these guys all at once, so that these guys were always hungry and he could earn more in the future.

This was very reasonable. Although young sect master Li doesn't know what hunger marketing was, he also knows that too many shipments at once would definitely suppress the price. And once there are too many people looking for Yang Chen and they accidentally caught Yang Chen, wouldn't it be impossible to make money in the future?

Yang Chen, this abominable fellow, thought he could use the spirit congealing pills to threaten the Greatest Heaven Sect for decades? Little did he realize that he was just a tool for the young sect master Li to earn decades of spirit stones.

As for why so many people wanted to find Yang Chen's whereabouts, it was too easy to guess. The only fifth-grade alchemist in the mortal world, there must be many secrets items on him. Even Elder Hu Qianyi wanted a bite of the delicious food, how could other people avoid it?

However, Young sect master Li was not interested in the secrets of Yang Chen. As long as he could get in touch with that senior, the fifth-grade alchemist would be a fart to him. No matter how big his secret was, how many secrets would there be in the spiritual world?

Yang Xi was even more proud. The young sect master Li was so simple to be manipulated by him, it made him so happy that he didn't know how to describe it.

Thinking that Yang Chen would face endless troubles after those compasses were made, Yang Xi's pride became even stronger. Yang Chen had to bear the hardships he had suffered before including those days of fear, so as to eliminate Yang Xi's hatred.

What about the fifth grade alchemist? Wouldn't he have to face the day of being hunted down every day? In a corner that young sect master Li couldn't see, Yang Xi's eyes flashed countless times.

After leaving the monster race territory and entering the dao sect territory, Yang Chen was attacked three times. Every time, the other party seemed to have calculated the direction he was going to pass, waiting on the road with ease. Yang Chen's current whereabouts were easy to grasp, that was, they drew a straight line between the current position and the Pure Yang Palace, as long as it was on this line, he could basically be blocked.

The Yuanying stage masters were the main players and he had not met a dacheng stage master, but on the contrary, many Jiedan stage masters joined in the fun.

To these guys, Yang Chen was not too polite to them, no matter which sect they came from, as long as they had the intent to kill, he would kill them all. Under Yang Chen's sharp magic weapon and super fast speed, the guys in ambush didn't even have the chance to escape.

After killing several groups of people, Yang Chen also realized that this was not the way to go. More and more people wanted to take action on him, obviously all for his pill recipe and medicinal pill.

Although he had resolved Hu Qianyi by himself, he had left huge problems. It was estimated that all the cultivators were thinking about what Hu Qianyi wanted from Yang Chen. What was it that allowed the dacheng stage master of the Greatest Heaven Sect to risk their reputation?

In the past, except for a few people in the Greatest Heaven Sect and the Pure Yang Palace, few people knew that the Greatest Heaven Sect purchased his pill recipes. But now it's different, even Sect Master Shao of the Five Elements Sect knows about this, so the major sects must have received the news.

There was another important consideration when the news was spread at this time. Looking at the posture of the Five Elements Sect, it seems that they already know the dramatic changes that have taken place in Heavenly Court. The Greatest Heaven Sect was able to allow a consciousness clone to descend into the lower realm, and the Five Elements Sect also could do it. In this way, the other sects also had news.

The Profound Heaven Sect was the only one ruling in the Immortal Realm, which gives several big sects a reason to unite against the Greatest Heaven Sect. At this time, if Yang Chen didn't know to seize the opportunity, it wouldn't be Yang Chen.

Soon, the young sect master Li of the Greatest Heaven Sect met the “predecessor of the spiritual world” again during a cultivation. The first thing the senior told young sect master Li was that the heavenly court changed hands, and the Profound Heaven Sect’s sect master became the new Jade Emperor.

Upon receiving this news, sect master Li and several core elders almost jumped up in surprise. What does it mean that the sect master of the Profound Heaven Sect became the new Jade Emperor? It was simply to show nakedly that from this moment, whether it was the immortal world, the spiritual world, or the mortal world, it was all under the control of the Profound Heaven Sect, and it was also the world of the Greatest Heaven Sect.

Chapter 480.1: Trade

The last time they tried to have a consciousness clone to descend from the upper realm and failed, the Greatest Heaven Sect suffered heavy losses, and many important news were not passed down. Now, the Greatest Heaven Sect could finally receive news from the spiritual world directly through Li Liheng without setting up any formation.

Although he passed through the spiritual world for a while, the difficulty of the Immortal world consciousness clone coming to the lower realm to the mortal world was no less than dozens of times higher than the difficulty from the lower realm to the spiritual realm. After all, it was really difficult to cross two realms and come to a high position.

But with such a transit, the communication channel from the Immortal world to the mortal world will be much smoother at once. Not to mention that you don’t need to spend thousands of years of the cultivation base of a Great Principle Golden Immortal every time, and the scope of conveying news was countless times larger.

In the past, when the envoy of the Immortal world came, ninety-nine percent of the memory in it had been lost, leaving only a little bit of the most critical information, which made people feel regretful looking at a treasure mountain but gaining nothing.

Now they don’t need to think about it at all. The news from the Immortal world transmitted to the spiritual world was a hundred times easier than the mortal world. As long as Li Liheng could maintain this state, what worries would the Greatest Heaven Sect have?

The Immortal world has changed dynasties, and even the Jade Emperor was the sect master of the Profound Heaven Sect, so how could the Greatest Heaven Sect, which was the foundation of the Profound Heaven Sect in the mortal world, stand still?

The Greatest Heaven Sect was busy celebrating and preparing for expansion, but Yang Chen has already returned to the Pure Yang Palace.

From leaving to returning to the Pure Yang Palace, it basically took more than a year. Many people, including Gao Yue and Gongsun Ling, were surprised that Yang Chen brought back a female disciple who was not particularly outstanding.

It must be known now that the Pure Yang Palace has a huge network in the mortal world, they were constantly looking for disciples with good qualifications in the mortal world. Generally, people with innate spiritual roots below 80 wouldn't be taken by them. If he wanted a good disciple, he could grab some with great qualifications from the Ye Xiu Manor.

Now Yang Chen brought back a woman who was only seventy-four, and she was appointed to be his own personal disciple in the future, so everyone was curious.

Yang Chen didn't conceal from the people around him, and directly stated the reason why he had accepted Hua Mengyou. Of course, it was not his past life memory that he knew, but that he accidentally came across a woman who was very good at planting spirit medicine, so he accepted her as a disciple. After seeing the potential that Hua Mengyou showed before she even cultivated, everyone was amazed.

Of course, there were only a few people who knew Hua Mengyou's abilities. The master of the palace and the elders, plus Yang Chen, Gao Yue and Gongsun Ling, plus Yang Chen's great apprentice Mu Bai, no one else knew.

Yang Chen was originally an alchemist and needed a lot of spirit medicine, and this female apprentice would be able to provide Yang Chen with a steady supply of spirit medicines in the future. From this point of view, it was not uncommon for Yang Chen to accept her as a disciple. What everyone marveled at was Yang Chen's eyesight and luck. Randomly encountering a woman who was oppressed, he could also pick up such an enviable apprentice.

Even Mu Bai, the senior apprentice, after listening to Yang Chen's talk, went to Yixiu Villa to stay with his junior sister after all. Of course, he didn't alarm anyone, but in Hua Mengyou's small courtyard, he went into the medicine garden that Yang Chen had prepared for Hua Mengyou long ago, and turned it into a towering giant cypress, quietly cultivating.

As Yang Chen said, Hua Mengyou was really suitable for cultivating with the wood-type monster race. In her own medicine garden, Hua Mengyou has planted many spirit medicine seeds that Yang Chen gave her. While taking care of these spirit medicines, it also seems to have a great effect on promoting the growth of the cypress.

Some of the dark wounds that Mu Bai had accumulated over tens of thousands of years in the land of bitter cold also slowly healed with Hua Mengyou's ability. Hua Mengyou, with the medicinal energy of various spirit medicines and Mu Bai's back-feeding, her cultivation base was increasing day by day. The speed of her cultivation base growth was even comparable to that of Yang Chen.

Now Mu Bai's cultivation base has reached the late middle Jiedan stage. He had cultivated to the Jiedan stage according to his instincts from the beginning, and then under the guidance of Yang Chen, he started systematic cultivation from the beginning to the present point.

The first wood monster cultivators were all geniuses with long lives, and every one of them could be said to have accumulated a lot of experience. The old tree demon Gui Shanyou was like this, and the same was true for Mu Bai. The accumulation of tens of thousands of years in the early stage provided the foundation, and when it broke out in the later stage, the speed of cultivation was beyond the reach of Yang Chen.

Mu Bai's grandfather, the patriarch of their cypress wood monsters, became the disciple of the old tree demon Gui Shanyou, and has now been promoted to the Yuanying stage, earlier than Yang Chen's tribulation.

As for Mu Bia himself, under Yang Chen's guidance, he would be closely focused on refining his own magic weapon with his tree heart for a long period of time. In this situation, being nourished by Hua Mengyou every day was also an alternative way of cultivation.

This trip, if not counting a few minor troubles on the way home, could be said to be very smooth. He successfully obtained the fourth fire true essence and successfully found Hua Mengyou, without making any major mistakes along the way, it was barely a perfect journey.

After settling down Hua Mengyou, Yang Chen and the palace master talked about the attacks he encountered on the road. Of course, the most important thing was the appearance of the five-element sect master Shao Wenxuan, including the agreement reached with the five-element sect.

For the Five Elements Sect who also wanted the pill recipe for the questioning inner heart pill, this was not surprising at all. What made everyone more angry was that the Greatest Heaven Sect had sold a compass that could track Yang Chen's whereabouts. This was simply a naked provocation.

Although Li Liheng made a few turns when he sold it, Yang Chen knew exactly that there was no one that could produce it other than the Greatest Heaven Sect.

Now everyone was a little worried about Yang Chen's safety. So many people could track Yang Chen's whereabouts, unless Yang Chen stays in the sect, otherwise, as long as he goes out, he would definitely attract a large number of greedy guys.

"Since the Greatest Heaven Sect and the Five Elements Sect are going to buy the pill recipe, then we will simply sell them publicly." Yang Chen didn't mind very much, and directly proposed a solution that could shift everyone's attention to other things for the time being.

Regarding this, there was no objection in the sect. The pill recipe of the questioning inner heart pill was dispersed, which meant that Yang Chen's pressure was also dispersed. Those people paying attention to Yang Chen, isn't it because of the questioning inner heart pills? This was also a temporary solution to the immediate trouble

Chapter 480.2: Trade

The Pure Yang Palace attached great importance to Yang Chen, so the news was spread in the fastest way. Among them, the Wine Immortal House played an important role, not only that, but the Wine Immortal House also made a small profit with this news.

Yang Chen was about to sell the pill recipe of the questioning inner heart pill. This news directly overshadowed all the news on the market, and was placed in the top position by all the organizations that analyzed intelligence.

Of course, the price cannot be released at will. Those who were interested could come to the Pure Yang Palace to find out. Suddenly, all the sects who received the news began to be tempted, and countless people rushed towards the Pure Yang Palace madly.

The efficacy of the questioning inner heart pill has been spread among the cultivators. Not to mention anything else, the fact that dacheng stage masters have been continuously appearing in several major sects over the past few decades was enough to make people crazy.

It used to be Yang Chen's unspoken secret, and everyone couldn't get it even if they wanted it. Now Yang Chen actually wanted to sell the pill recipe of the questioning inner heart pill, this was simply like a treasure that fell from the sky! Although they don't need to ask to know that the pill would definitely have a sky-high price, they would get what they paid for, even if it costs a lot, it was worth it!

So many people bought the compass that could locate Yang Chen's whereabouts, for what, was it not for the questioning inner heart pill? Now they don't have to risk being killed by Yang Chen and they could exchange it with a few things, why not? Among other things, at least the people of the Greatest Heaven Sect had already given up the idea of temporarily dealing with Yang Chen outside.

Yang Chen's limelight was too strong, even if they asks for help from the Five Elements Sect and the Qiankun Gate, they seems to have a different mind. Not to mention other masters, the reason why they haven't done anything before was that the timing was wrong. If they were given the right opportunity, they would definitely move against Yang Chen without hesitation.

Among the major sects, the Greatest Heaven Sect has already obtained the pill recipe and they were not stunned, their attention was still focused on the change of the heavenly court. Basically, they don't care much about this kind of minor situation.

But other sects were different when they received the news. They all rushed to Pure Yang Palace at the fastest speed. However, they couldn't see Yang Chen even when they arrived at the Pure Yang Palace early, because the time for Yang Chen to sell the pill recipe has not yet arrived.

As a result, everyone could only wait. However, two sects directly sent representatives to directly contact Yang Chen. The two major sects of the Green Jade Immortal Island and the Blue Cloud Sect directly sent Shi Shanshan and Sun Qingxue as representatives, and they sat right opposite Yang Chen. In this regard, others could only envy, who made their sect not have a female apprentice to be Yang Chen's wife.

“Husband, is the pill recipe for the questioning inner heart pill really going to be sold?” Sun Qingxue was more uncomfortable than Shi Shanshan. They came together, but it was Sun Qingxue who spoke first.

“Of course!” Yang Chen didn’t hide anything from his wife, and directly recounted what had happened recently. Including the contact with the Five Elements Sect Shao Wenxuan and the selling of the compass by the Greatest Heaven Sect.

After listening to Yang Chen, Shi Shanshan didn’t say a word, but Yang Chen already saw a trace of anger in her eyes. The Greatest Heaven Sect was simply deceiving people too much, targeting Yang Chen and his wives again and again. This account would be calculated sooner or later.

“It’s too much!” Sun Qingxue jumped straight up and shouted, the Greatest Heaven Sect was so mean, Sun Qingxue hated that she couldn’t rush to the Greatest Heaven Sect immediately and kill those who perpetrated it.

“Selling the pill recipe for the questioning inner heart pill, is also to disperse the pressure.” Yang Chen said his purpose.

“Are you really selling?” Shi Shanshan interjected with a rare word.

“Is the Green Jade Immortal Island interested in buying?” Yang Chen nodded and asked back, before Shi Shanshan could answer, he smiled and said, “If the Green Jade Immortal Island and the Blue Cloud Sect are interested, I will give it at half price. The Greatest Heaven Sect and the Five Elements Sect paid the price of two seventh-grade fire seeds, you only need one. However, the external price is the same, and we have to say that.”

This was the face of Yang Chen’s wife, which gave the Green Jade Immortal Island and the Blue Cloud Sect great face. The two women also knew what was good or bad, and with Yang Chen’s words, they were already enough to deal with the sect. Yang Chen’s preferential treatment to their sect was a seventh-grade fire seed. Even if it was not a fire attribute cultivator, they knew the preciousness of a seventh grade fire seed very well.

As for what Yang Chen wanted them to keep secret, the two women naturally agreed. This kind of thing, who would mention it after getting it cheap?

“However, with a pill recipe, you may not necessarily be able to refine a pill.” After Yang Chen gave the two women a reassurance, he immediately stated the strict conditions “If you don’t have a fifth grade alchemist, this pill recipe can only be placed in the sect warehouse as a sect collection.”

“The island master has already thought of this. After all, this is just an opportunity for the sect.” Shi Shanshan said, directly giving Yang Chen a peace of mind.

Since the Green Jade Immortal Island has such an attitude, Yang Chen felt a little relieved. At least this was not because he was sincere to cheat others. It was a great thing for Yang Chen to add several seventh-grade fire seeds. The Blue Cloud Sect basically had the same attitude, both sides expressed their sincere gratitude for Yang Chen’s kindness.

After selling to the Green Jade Immortal Island and the Blue Cloud Sect, for the other sects, Yang Chen could sell to them at a high price without much consideration. Anyway, for these sects, except for the Greatest Heaven Sect, the other sects who asked for alchemy from him were treated equally at the previous prices. As for the Greatest Heaven Sect, it was still unknown whether it would reach him.

During the next period of time, Yang Chen spent the time receiving representatives from various sects. Many people were dumbfounded when they heard the price of two seventh-grade fire seeds from Yang Chen. But there were also sects who were wealthy and don’t mind agreeing directly.

As one of the non-big sects, Qiankun Sect, as expected by Yang Chen, readily agreed to this price, and only waited for them to retrieve the fire seeds and then trade with Yang Chen. But there was a sect that was unexpected to Yang Chen, as they graciously agreed to the price.

This sect that surprised Yang Chen was the Pill Cauldron Sect that has always been famous for refining pills. Yang Chen was not surprised to say that the Pill Cauldron Sect was interested in this kind of pill recipe, but that the Pill Cauldron Sect could also produce two seventh grade fire seeds, which really surprised Yang Chen.

Yang Chen had expected the alchemist master to be sought after, but the Pill Cauldron Sect’s rich net worth still made Yang Chen feel that he underestimated the importance of the alchemist masters.

The price was clearly marked so no one was deceived. The price of the pill recipe has caused an uproar among countless people, and it has also made several major sects feel at ease. At least Yang Chen did not slaughter them individually in terms of price, and treated them equally. At this time, even if Yang Chen treated the Green Jade Immortal Island and the Blue Cloud Sect differently, others would not care. After all, apart from the two ladies, the Pure Yang Palace and the two major sects cooperated together.

After a short period of six months, Yang Chen received eight seventh grade fire seeds, and also traded out five pill recipes for the questioning inner heart pill.
