

## Zhanxian 481

### Chapter 481.1: The Young Sect Master's Punishment

There were eight kinds of seventh grade fire seeds, from the Five Elements Sect, the Qiankun Sect and the Pill Cauldron Sect, plus the Green Jade Immortal Island and Blue Cloud Sect. If you add the three from the Greatest Heaven Sect, with the Pure Yang True Fire Yang Chen inherited from the ancestor of the Pure Yang Palace, Yang Chen now has twelve kinds of seventh-grade fire seeds in his hands.

In his previous life, Yang Chen had only succeeded in getting the Fifth Grade True Sun Fire, and he had already become a Great Principal Golden Immortal. He has so many advanced fire seeds in this life, if the legendary flame the Yin Yang Heaven Burning Fire was really successful, Yang Chen would not even dare to imagine the height he would reach. What kind of power his own Yin Yang Heaven Burning Fire would have in the future.

The twelve kinds of seventh-grade fire seeds were obtained, which also meant that the Yin Yang Heaven Burning Fire had once again taken a solid step in reaching the small accomplishment in the mortal world.

Similarly, this was also the biggest deal Yang Chen has made in recent years.

It's not that no one has ever asked about the heaven seizing pill, but compared to the questioning inner heart pill, it was a bit worthless to buy a combination of more than a thousand small pills at such a large price. Not every sect was like the Greatest Heaven Sect, and not every dacheng stage master could afford this price.

Compared to purchasing the pill recipe, it was much cheaper to go to Yang Chen to ask for a pill. Regardless of whether it was the questioning inner heart pill or the heaven seizing pill, Yang Chen makes it in one refining, and there would be no scary price tag like the seventh grade fire seed. And what most people ask for was nothing more than a pill, and it was not worth having a pill recipe.

After the pill recipes were sold, for the time being, many people also gave up tracking Yang Chen. What did they pursue Yang Chen for? Isn't it these pill recipes? Now so many sects have the pill recipes, which could be obtained by various methods, so there was no need to use the most extreme kind. Maybe they still have to ask Yang Chen to get the pill, and they would be able to see each other in the future.

From the attitude of the major sects. Yang Chen guessed that the four major sects should have known the changes in the Immortal world. In this way, the Greatest Heaven Sect dominates, other sects also have the possibility of uniting to deal with the enemy. Anyway, to Yang Chen, this was good news.

Yang Chen finally found time for the changes in the Heavenly Court and talked to the Palace Master and a few core elders in secret. Everyone didn't doubt where he got the news from. Anyway, the last time the Greatest Heaven Sect array exploded and suffered heavy losses, everyone knew the source of the news, and it seemed that there was no need to explain.

This news was mixed for the Pure Yang Palace. On the bad side, since the Greatest Heaven Sect wanted to achieve hegemony like the Profound Heaven Sect in the mortal world. Naturally, the Pure Yang Palace and the other sects would be crazily suppressed. The good thing was that, because of this, the Greatest Heaven Sect would face the pressure of everyone who united to resist them.

Based on the current cooperative relationship between the Pure Yang Palace and the Blue Cloud Sect and Green Jade Immortal Island, the Pure Yang Palace would not be the first target of the Greatest Heaven Sect for the time being. For the Greatest Heaven Sect, the other four sects were their true competitors.

Specific matters would be dealt with by the Palace Master and the elders. In any case, it was the only way to increase their own strength. There was no harm in any situation.

Here Yang Chen was happily selling the pill recipe, but the Greatest Heaven Sect over there began to investigate why Yang Chen was selling the pill recipe. If it was only in the hands of their own sect, that was ok but if it was with all the sects and masters, that was a different concept and the Greatest Heaven Sect had to figure it out anyway.

Soon, the senior officials of the Greatest Heaven Sect received the news. Someone sold a compass that could locate Yang Chen on the black market, and they got a sample of the compass.

As soon as they saw this compass, the sect master and several high-level officials immediately realized that this was the handiwork of a certain elder.

After discovering this, the core elders of the Greatest Heaven Sect were furious, besides Hu Qianyi, there are people who can't wait to fight Yang Chen.

The idea was that they can't fight Yang Chen now, but that they can't fight now, at least until Li Liheng was completely cured, they must not act rashly. Yang Chen said that if he could be cured in 50 years, he would be cured. What if he lied? Could it be that after Hu Qianyi's matter, they still expect Yang Chen to swear by his heart demon when he was helping them.

The elder who made the compass was immediately summoned in front of a group of high-level officials and asked severely. The refining elder himself also felt very wronged, this was requested by the young sect master Li Liheng to be refined, and after the refining, it was handed over to the young sect master, he just followed orders and executed it.

Hearing it was Li Liheng's request, Sect master Li suddenly felt annoyed.

The sect targeted Yang Chen because Yang Chen's existence threatened the sect's dominance in certain advantages, and his existence would affect other competitors and cause inconvenience to the Greatest Heaven Sect. It was purely out of the consideration of the sect.

Except that Li Liheng's methods were based on personal grievances at the beginning, the other actions were not due to personal grievances with Yang Chen.

Even the Greatest Heaven Sect, known as the No. 1 Dao Sect, has strict requirements on the behavior of its disciples. Hu Qianyi did not do things authentically, and among them everyone feels that he would be avenged. What was the difference between Li Liheng's behavior and Hu Qianyi now?

Could it be that the young master of the dignified Greatest Heaven Sect turned out to be a villain who didn't know what was good or what was wrong, and who would take revenge for grace? If this trend continues, Li Liheng would be able to deal with Yang Chen who healed his injuries today, and tomorrow, he might change hands to deal with the Greatest Heaven Sect.

When Sect Master Li appeared in front of Li Liheng, Li Liheng was enjoying Yang Lan's service. There was wine in hand, the beauty was on the side, he felt like a divine Immortal. Suddenly seeing sect master Li, Li Liheng was so scared that he knocked over the table in front of him, and then hurriedly got up from the couch to bow to the sect master.

Sect Master Li just glanced left and right, snorted coldly and yelled "Get out of here!"

The servants around didn't even make a sound, bowed their heads and quickly retreated. Yang Lan, who was half untied, also hurriedly got up, bowed and moved behind the sect master and then quickly fled the house.

Bang, a compass was thrown directly in front of Li Liheng, and after rolling twice on the ground, it fell right beside Li Liheng.

"What's this about?" Sect Master Li pressed the anger in his heart and asked Li Liheng. If it were not for Li Liheng's current responsibility for the rise and fall of the sect, Sect master Li would want to kill him with a single palm.

"This is what this disciple did." Li Liheng just took a look, and immediately replied without denying it at all.

"Forget that you are a little responsible!" Sect Master Li snorted, and then asked "Why did you do this?"

Chapter 481.2: The Young Sect Master's Punishment

"That Yang Chen relied on his status as a fifth grade alchemy master to blackmail the sect many times, and this disciple couldn't tolerate it." Li Liheng replied, while carefully raising his eyes to look at the angry Sect Master Li.

Li Liheng's small movements, Sect Master Li felt it very clearly. However, Li Liheng's words somewhat touched the heart of Sect Master Li, so his attitude was slightly softened and he was no longer so angry.

"This is the reason why you were ungrateful and you paid back his kindness with enmity?" Although Sect Master Li's semantics was still very strict, his tone had been relaxed.

"This disciple just wanted to teach him a lesson." Although Li Liheng was not very smart, he still had a unique talent in catering to the sect master, and he doesn't distinguish between them. He just said everything truthfully.

“Stupid!” When he thought that the pill recipe for the questioning inner heart pill was no longer owned by his sect and Yang Chen alone, Sect Master Li suddenly felt a fire in his heart and couldn’t help cursing “You know, the trouble with your spiritual awareness, Yang Chen is required to help with his pills. Now that he is offended, will he help out in the future?”

“Hasn’t he already given us enough spirit congealing pills, and I will be healed after the pills?” Li Liheng was shocked. If the troubles of his spiritual awareness can’t be solved, wouldn’t everything he has now been wiped out and he would be completely beaten back to his original status.

After enjoying for so many days, to let him return to his life before, Li Liheng was unwilling. Sect Master Li’s reminder made him suddenly aware of that important issue, what if Yang Chen lied? What if he doesn’t recover when the time was up?

Thinking of this, Li Liheng’s cold sweat was gurgling, and the situation in his mind that he was holding the spirit congealing pill but was asked to leave by the elders of the medicinal hall came up in his mind. Then, it was Yang Xi knocking on the side to induce him to trouble Yang Chen.

“It’s Yang Xi, Yang Xi persuaded me to do this, saying it was to trouble Yang Chen and teach him a lesson.” At this time, Li Liheng’s anger was also provoked, and the perpetrator was immediately discovered.

“Yang Xi?” The impression of this person flashed in the head of Sect Master Li. It seems that Yang Xi just went to the Pure Yang Palace and reported that Yang Chen refused to join the Greatest Heaven Sect. Then the Greatest Heaven Sect began to target Yang Chen, could it be that this guy had been the root of the trouble?

“It turned out to be him!” Sect Master Li glanced at Li Liheng. From the beginning of coming in contact with Li Liheng, he knew that he was not a very assertive person. It was normal for him to be bewitched by words, he can’t say that he could only deal with this Yang Xi.

“Yang Xi violated the rules of the sect, to confuse the young sect master, send him to the law enforcement hall, and impose a capital punishment on him to prevent others from following his example!” When dealing with a small disciple, the sect master Li gave the order without even considering any gains or losses.

Of course Yang Xi was waiting outside. The sect master just told them to get out of the house, but didn't let them leave. Hearing the sect master's angry shout in the room, Yang Xi suddenly felt like five thunders had crushed into him, and his whole body softened. Yang Lan, who was not far away, was also frightened. The sect master's words were the golden rule in the Greatest Heaven Sect, no one could go against it.

"Wait!" At the critical moment, Li Liheng suddenly said, seemingly timid, but he still said his own words "Sect master, Yang Xi is at fault, but this disciple is also at fault. You might as well keep him alive, this disciple is willing to be punished. "

After coming in contact with Yang Xi for a long time, Li Liheng also gained some enlightenment. If he didn't save Yang Xi's life at this time, who else would follow him in the future? Who would dare to follow him?

The moment Li Liheng spoke, Sect Master Li also understood what Li Liheng meant. This was Li Liheng deliberately establishing his own prestige. As the future sect master, this was also a huge improvement, at least much better than before.

Compared with Li Liheng's future, Yang Xi's life and death was simply a trivial matter. However, the sect master's words cannot be taken back casually. Sect master Li just stared at Li Liheng with a cold face, and then asked after a long time: "Are you sure you want to do this?"

"Yes, sect master!" The pressure brought by sect master Li to Li Liheng was not small, but Li Liheng obviously intended to gamble here, he gritted his teeth and replied with confidence.

"In this case, Yang Xi's death penalty is forgiven, but his sins are hard to forgive. He will go into the cold deep pool to retreat for two years in order to pay for his sins." Sect master Li decided to give Li Liheng this opportunity. At least he was very satisfied with his performance just now.

"As for you, since you have done something wrong, you must accept punishment." Looking at Li Liheng, Sect Master Li announced his punishment "Go to the cold deep pool to retreat for half a year. During these half a year, think about what you did wrong."

"Yes, sect master!" Li Liheng hurriedly agreed.

Yang Xi and Yang Lan who were outside, as if cramped, their bodies completely softened. But this time it was not lost of hope, but the kind of rejoicing and fear of escaping.

Retreating in the cold deep pool, this was a very severe punishment in the Greatest Heaven Sect. The cold deep pool was cold all year round, even a bit more frozen than the arctic ice sheet, but this was not the most severe aspect. In the cold pool, a cold wave of lunar cold would be emitted every night, lasting for three hours, even Yuanying stage ancestors couldn't resist this cold wave.

Li Liheng was having a Jiedan stage cultivation base, and Yang Xi had just reached the Jiedan stage with the help of Yang Lan. It was almost impossible for the two of them to resist this cold wave. At least during this punishment period, they didn't have to want to get better for a day.

Yang Xi was very grateful to the young sect master for his life-saving grace, but in the same way, he gritted her teeth for this Yang Chen who has been throughout the entire incident. Unexpectedly, it was only just after causing some trouble for Yang Chen that his own sect started to punish himself. How could this unequal treatment convince him?

After this incident, the Greatest Heaven Sect didn't pursue Yang Chen's sale of the pill recipes, and of course, there was no reason to pursue it. However, every time Li Liheng cultivates, there must be a core elder or the sect master by his side, always waiting for him to get in contact with that senior.

When Yang Chen had dealt with the pill recipe's affairs and received the fire seeds that he deserved, Li Liheng finally finished his severe punishment, and the first thing he did after leaving, he contacted the "spiritual world" senior". Li Liheng immediately followed the instructions of the sect master and crushed a small jade tablet that he had been holding in his hand.

"Your cultivation is unstable, spiritual awareness is too bad, you can only communicate once a year, you have not made any improvement!" The senior seems to be very dissatisfied with Li Liheng, especially about being able to communicate once a year.

Li Liheng didn't know what to do, but a voice suddenly came from next to him "Ask the senior, if there is a way to completely heal your spiritual awareness."

The voice was very familiar, it was the Sect master Li who had been paying attention to Li Liheng.

Chapter 482.1: Solving One Own Problem

Hearing the tips from the sect master, Li Liheng was delighted in his heart and scolded himself for forgetting such a crucial question. As long as his own troubles could be resolved, the Greatest Heaven Sect would no longer have any fears, and do their best to support him. Therefore, Li Liheng immediately communicated this issue with the senior in the spiritual world.

“Is there something wrong with your spiritual awareness?” The senior in the spiritual world didn’t seem to notice Li Liheng’s problem at all. He seemed to react when Li Liheng mentioned it “What kind of problem do you have, tell me about it.”

Li Liheng immediately described his frequent fainting situation to the other party. Afterwards, hopefully waiting for the senior’s answer.

“The trouble in the spiritual awareness is not so troublesome.” A word from the predecessor in the spiritual world made Li Liheng overjoyed immediately, he did not dare to interrupt, just waiting for the guidance of the predecessor.

“As long as you take a spirit refining pill, all your problems would be solved.” If you say which sentence makes Li Liheng the most happy, it was undoubtedly this sentence “Don’t be a distracted kid, write down this pill recipe and let the masters in the medicinal hall refine it for you.”

Next, there was a series of medicinal materials and techniques given to him. It’s about Li Liheng himself, how could Li Liheng not care, he dared not leave a word, so he remembered everything clearly.

Yang Chen’s lessons for the past were in front of him and Li Liheng, after remembering it firmly, asked for some advice “Senior, can this refining pill be made by ordinary alchemists?”

“Of course!” The senior in the spiritual world said without hesitation “Just find a random sixth grade alchemist, and it will take less than half a year to refine it.”

When these words came out, Li Liheng almost fell to the ground with a sway, a random sixth grade alchemist?. A fifth grade alchemy master had taken advantage of them on countless occasions, not to

mention, where could they find a sixth grade alchemist even if they found a sect's resources that were not already given out?

"Oh, I forgot that there is no sixth grade alchemist in the mortal world." After Li Liheng reminded him carefully, the spiritual world senior finally remembered this. In the exchange of spiritual awareness, Li Liheng seemed to hear this senior hit his forehead with his hand.

"Then let's change it to the spirit congealing pill, but it will take longer, it will take decades." The predecessor immediately gave him another solution "If you have this fainting problem, your current situation is somewhat similar to taking a spirit congealing pill..."

The communication between the two of them now showed signs that the communication between the spiritual awareness was about to be broken, and the news that was being passed was also somewhat blurred. Li Liheng already felt a bit of dizziness, his mind was shaking.

"If there is a spirit congealing pill, take three immediately." The seniors of the spiritual world also noticed that it was not good, they had only talked about a bunch of nonsense, which was a waste, and immediately pointed out.

Of course, Li Liheng didn't dare to question him. He hurriedly took out the spirit congealing pills from his Qiankun bag, and after taking three of them, there was a moment of relaxation in his sea of consciousness, and the connection with the predecessor seemed clearer.

"Since you can refine the spirit congealing pill, let's use the concentrating pill for a few more years." The senior in the spiritual world pointed out "This spirit congealing pill is much simpler than the spirit refining pill, someone should be able to refine it!"

Li Liheng had only a wry smile at what the senior said. It was impossible for him to complain to his predecessor that the people in his own medicine hall have obtained the pill recipe for decades and have not even refined half of the pill, right?

However, Li Liheng's emotional change was immediately noticed by the senior in the spiritual world, and he immediately asked why.

Li Liheng couldn't hide it, he could only tell the reason

"It shouldn't be!" The spiritual world senior said in confusion, "Did the pill recipe make a mistake?"

Li Liheng didn't know exactly what the pill recipe of the spirit congealing pill was, but this did not prevent the Senior from telling him the pill recipe and let him verify it with the sect master and others.

"You only need to find one or two alchemists who have a powerful spiritual awareness and are capable of diverting their attention. You don't need a fifth grade alchemist, as long as a fourth grade alchemist can refine it." The senior said with confidence, "Look again."

"Senior, this junior hasn't asked senior's name in a hurry, so please tell me." After Li Liheng remembered the pill recipe of the spirit congealing pill, he remembered that he had always addressed the senior without knowing the other's name, so he hurried to consult.

"Old man Liu Fengzi." Yang Chen remembered clearly that Liu Fengzi was a special fellow in the Profound Heaven Sect. As an elder of the Profound Heaven Sect in the spiritual world, he spent most of his time in retreat and cultivation and he was not known by many.

With this guy's identity, even if there was any reaction in the spiritual world, it would not be found for a while. Besides, how could this news reach the spiritual world except for someone from the Greatest Heaven Sect ascending? Even if they get to the spiritual world, what if they know it? Could it be that they would descend into the lower realm to warn them? After using it a few more times, the mortal's Greatest Heaven Sect would no longer be able to activate the welcoming formation.

This was Yang Chen's series of plans. He really doesn't know what kind of mood the old Profound Heaven Sect in the spiritual world would feel if they knew that the mortal world's Greatest Heaven Sect was being played to death by him.

"Is the current sect master Li Tiancheng?" Liu Fengzi directly passed a question.

Li Liheng knew the name of Sect Master Li and hurriedly answered.

“His cultivation level should be stuck in the late Yuanying stage and it hasn’t been improved for a long time right?” Liu Fengzi seemed to remember something in general and asked “His cultivation level was a little reluctant to improve back then, and it should have accumulated to a bottleneck now.”

“Tell him that hundreds of years ago, a younger generation junior who had ascended said that if he wanted to improve, he should find a genius with full value of the water attribute to be a cauldron, and he may have room for improvement.” Liu Fengzi didn’t mind pointing out “Otherwise, he can only stop here.”

The instruction to Li Tiancheng was of course from the memory of Yang Chen’s previous life. Li Tiancheng’s realm defect was also one of the reasons why Gao Yue had to become his cauldron. Later, the other party found Gao Yue but failed to get her, and directly forcibly captured a genius female cultivator from a small sect, and his realm rose in one fell swoop.

Even if Yang Chen didn’t point the other party, the other party would know in the future, but speaking it out now could increase his position in the Greatest Heaven Sect heart, and convince the other party.

Li Liheng didn’t doubt it, and remembered this in his heart. Afterwards, it was basically Yang Chen asking and Li Liheng answering. After a while, the signs of spiritual awareness connection instability appeared again.

This time, Senior Liu Fengzi didn’t let Li Liheng take the spirit congealing pills again, but asked him to prepare more spirit congealing pills. In the future, during the spiritual awareness connection, the more the spirit congealing pills, the longer the connection time. This time, it was only a preliminary exchange. When Li Liheng’s cultivation base was improved, this exchange would become more frequent.

Chapter 482.2: Solving One Own Problem

After successfully communicating with the other party, Li Liheng finally fainted again. One couldn’t do anything about it, a small Jiedan stage junior had to face the coercion of the spiritual awareness of a spiritual world senior, it was already very impressive to be able to withstand it until now.

After waking up, Li Liheng didn’t wait for Sect Master Li to ask questions. In front of the Sect Master and the anxious core elders, like a bamboo tube pouring beans, he talked about the things he had communicated with Senior Liu Fengzi from beginning to end, not one word was hidden.

The pill recipe of the spirit refining pill and the pill recipe of the spirit congealing pill were written out and handed over to the sect master. Liu Fengzi even told Li Tiancheng how to break through the bottleneck of his cultivation base.

This was an extraordinary event, the spatial spiritual awareness cultivation method was finally able to communicate with the predecessors of the spiritual world. For the Greatest Heaven Sect, it was no less than obtaining hundreds of dacheng stage masters out of thin air.

Among other things, the pill recipe of the spirit congealing pill was exactly the same as the one he had obtained from Yang Chen. Since a group of masters in the medicinal hall had already determined that this pill recipe of the spirit congealing pill was real, the actions of the senior in the spiritual world were very real.

Moreover, the key to the alchemy that Senior Liu Fengzi said was right, that was, their attention must be diverted and used, it's just that this was the most troublesome aspect. After removing this, not to mention a fourth grade alchemist, even a third grade alchemist could refine it.

Everyone here has heard of Liu Fengzi's name. He was a senior who ascended more than two thousand years ago. It was a pity that no one, including those elders, has ever communicated with Liu Fengzi. Before they joined the sect, Liu Fengzi had already ascended, but it was recorded in the ancient books of the sect.

The pill recipe for the spirit refining pill was treated as a treasure by everyone. Although there was no way to refine it temporarily, once an alchemy master could be cultivated, this would be a treasure in the future.

As for the shortcomings of Li Tiancheng's cultivation, Liu Fengzi unceremoniously told Li Liheng. Although Li Tiancheng blushed when he heard it, there was more excitement in his heart. Once there was a solution to the problem that has troubled him for many years, how could it not make him happy?

So far, no one has doubted the authenticity of the spatial spiritual awareness cultivation method. The previous series of events have already shown that this was not Li Liheng playing a trick, but he really contacted the senior in the spiritual world.

The final question was still focused on the spirit congealing pill, Li Liheng's spiritual awareness problem. It was necessary to take the spirit congealing pills for a long time, and with the spirit congealing pills, it could also make Li Liheng's time to connect with Senior Liu Fengzi's spiritual awareness longer, which was irreplaceable for the Greatest Heaven Sect.

The spirit congealing pill was so important, but all the core elders were dumbfounded. In the Greatest Heaven Sect's medicinal Hall, no one has been able to refine even a single spirit congealing pill so far, and everything was provided by Yang Chen. If they wanted more spirit congealing pills, they could only ask Yang Chen for help.

And not long ago, because of the predecessor Liu Fengzi, Li Liheng also took three more spirit congealing pills, and he would probably take it like this in the future. Thus, the spirit congealing pills that Li Liheng needed to be cured were no longer enough.

How would they manage it? This was the question before the core elders of the Greatest Heaven Sect. It was such a seemingly simple but extremely tangled trouble.

This guy Yang Chen, everyone in the room wanted to smash him into pieces. But the reality was that if they couldn't find another alchemist who could refine the spirit congealing pills in a short time, they were afraid that even if they hate Yang Chen again, they could only find ways to keep Yang Chen and please Yang Chen.

All eyes were focused on Mao Qi, the head of the Foreign Affairs Hall.

Hall Master Mao Qi has been fortunate enough to join the ranks of these core elders because of his previous negotiations with Yang Chen. However, seeing everyone's eyes, he still couldn't help but shiver. Even Yuanying stage masters seem to be unable to withstand this pressure.

"I made an oath that I will never go to Yang Chen again." Hall Master Mao waved his hand directly before everyone could speak. How could he go to Yang Chen again, it would be better to go to the deep cold pool to retreat.

"Is it the heart demon's oath?" Sect Master's gaze followed Mao Qi's movements, and he asked calmly.

Hall Master Mao immediately became a little dejected. Of course he would not take this kind of thing to swear to a heart demon, but doesn't the sect master still understand? If it wasn't the heart demon's oath, he would have to look for it when it was time to look for Yang Chen.

"Ah, I think, let's try our best to train the alchemist of the sect." Mao Qi couldn't help coughing and said "Anyway, if you continue at this speed, it will take at least 20 or 30 years for the spirit congealing pills to finish. If there is no alternative, I can only find Yang Chen."

No matter what, Mao Qi doesn't want to face Yang Chen now. The inability to take the initiative to contact again and again made him very reluctant to negotiate with this guy who held their fate. As a last resort, he absolutely didn't want to see Yang Chen. He would drag it now, if it doesn't work, he would go.

Regarding Mao Qi's remarks, everyone was also not commenting on it, and it was considered that they agreed to this plan temporarily. However, there was still one problem that has not been resolved, it was the problem that Li Liheng left behind.

Many compasses that could locate Yang Chen's position were still missing. This was a very dangerous thing for Yang Chen. It was not known how many people wanted to make trouble for Yang Chen, but they couldn't find Yang Chen's whereabouts. With these compasses, they could definitely cause great trouble for Yang Chen.

But now if something happened to Yang Chen, it meant that the Greatest Heaven Sect was also in big trouble. In order to get the spirit congealing pills for the spatial spiritual awareness cultivation method, and for the future of the Greatest Heaven Sect, it was necessary to help Yang Chen to clear these troubles.

Now they were still wiping Li Liheng's ass. He had done the deeds before and now the whole Greatest Heaven Sect had to clean up after him. The eyes of a group of people staring at Li Liheng were very unkind.

"It's not me, Yang Xi said we should teach Yang Chen a lesson, and didn't want him to die." Li Liheng hurriedly distinguished again. After experiencing the cold deep pool for half a year, he never wanted to experience it again. He hurriedly pushed Yang Xi out, and all the responsibility was on Yang Xi.

“Yang Xi will spend five more years in the deep cold pool to retreat!” The Sect Master Li relentlessly increased the punishment. Before, Li Liheng was just punished for doing wrong, there was no follow-up trouble. Now it was necessary to deal with the aftermath, the responsibility was different, and the punishment was naturally different.

Yang Xi, who was still in the deep cold pool, of course didn't know that his sentence had been increased to another five years. He was still counting the days with hardships day by day, and trembling with the utterly cold and irresistible cold waves.

“Recover all the compasses that were sold out. Don't think about the ones that fell into the hands of the five major sects, and take them back from the buyers.” Sect master Li quickly ordered “If they refuse to hand it over, kill them.”

#### Chapter 483.1: Formation Cultivation

Yang Chen didn't know what was going on, but he knew that the Greatest Heaven Sect would definitely try to clear the obstacles for him. The spatial spiritual awareness cultivation method was one of the strengths of the Greatest Heaven Sect, but it was also their most fatal weakness.

The only downside was that in order to maintain the scam of the spatial spiritual awareness cultivation method, it was necessary to keep the imprint of Li Liheng's spiritual awareness, which also makes it possible for the people of the Greatest Heaven Sect to track his whereabouts at any time.

However, Yang Chen was not worried that the Greatest Heaven Sect would attack him right away, and he was not worried about the real spatial spiritual awareness cultivation method.

Even if Li Liheng has outstanding qualifications, he only has a chance to succeed in his cultivation. If the spatial spiritual awareness cultivation method could be cultivated so easily, the Greatest Heaven Sect would have ruled the mortal world a long time ago, so why wait till now?

Moreover, even if Li Liheng tried hard to cultivate, it was impossible. After taking the spirit congealing pills, his spiritual awareness was condensed in a non-active situation. Li Liheng's spiritual awareness cultivation base could only reach the peak Yuanying stage, and it was impossible to go further if he didn't take a medicinal pill from the spiritual world.

Wanting to rely on this incomplete spiritual awareness to cultivate the real spatial spiritual awareness cultivation method, Yang Chen would rather believe that the Greatest Heaven Sect would find another fifth grade alchemist.

Because of buying the pill recipes, Shi Shanshan and Sun Qingxue met with Yang Chen again. The four ladies were all in the Pure Yang Palace, so Yang Chen took them to explore the secret plane of the Greatest Heaven Sect.

The ancient key of the Greatest Heaven Sect that was destroyed by Yang Chen's design was indeed a real secret plane. When it was given to Yang Chen for interpretation, Yang Chen had already firmly grasped the information about this secret plane.

At that time, Yang Chen was asked by the people of the Greatest Heaven Sect to make a heart demon oath that he would never reveal the secrets of this secret plane. Yang Chen did a very good job of this, and he has never mentioned it to outsiders. Even now, when he was about to set off, he didn't say a word to his four wives, only that he would let the four women go out for a walk with him.

As for leaking the information, Yang Chen would never talk to the outside world about this.

This time Yang Chen had other plans besides looking for the secret plane. Gao Yue's dragon horn flying sword was about to be refined, and Shi Shanshan and Sun Qingxue's life source flying sword embryo was also about to be built. All the materials were nourished by dragon qi, so it was most suitable to refine them in the Dragon Palace.

After finding the secret plane, he would enter the Dragon Palace on the spot, Yang Chen would make the sword embryo and Gao Yue would begin to refine the dragon horn flying sword. After all these tasks were completed, the five people could set out to experience the Demon Continent.

This predecessor of the Greatest Heaven Sect, he didn't know if it was a predecessor from tens of thousands of years ago, the text left by him has become unrecognized by the current disciples due to long-term evolution. Similarly, because of the age, the way of hiding the secret plane at that time was not the same as the present one.

If it weren't for the record of that ancient key, even Yang Chen, who had the spiritual awareness thread of the three purities secret art technique, would not be able to find where he stood in the secret plane. The hiding of the ancient secret plane has an unusual shielding effect on spiritual awareness.

This was a huge canyon. It was said to be a canyon, but there was no water in it. It was not known how many years ago it had been, the long canyon dug out by the flowing river on the ground was hundreds of feet deep. Standing at the bottom of the canyon, looking up at the line of sky, even if the canyon was wide, it gives people a feeling of being trapped in a slit.

Even the river was dried up, and the spirit power was dissipating very seriously. The distribution of spirit power in this area was even worse than those of cities in the mundane land. If it were not for the guidance of the ancient key, Yang Chen would never have found it here.

None of the four girls asked him why he brought them here. There was now a blind trust in the four women for Yang Chen. Anyway, everyone knew that Yang Chen would never harm them. As for what they were doing here, they don't care at all. The husband sings and the wife succumbs, of course, they follow wherever he goes.

In the thousands of miles long canyon, after careful calculation, Yang Chen was finally able to locate the secret plane. One can't do anything about it, the old senior of the Greatest Heaven Sect who left the secret plane, when the secret plane was arranged, there was still a gurgling river. Changes in landforms over the past tens of thousands of years have also affected the determination of precise locations. Even if there were people in the Greatest Heaven Sect who could read and understand those ancient characters, they couldn't find the secret plane.

Even Yang Chen relied on the spiritual awareness threads cultivated by the three purities secret art, and he keenly discovered some signs of spirit power flashing in a huge range that was almost offset by hundreds of miles.

This kind of spirit power flashing was caused by the secret plane itself, and it takes almost three to five years to flash once. Yang Chen and the others were lucky that it happened that there was a flashing in the past few days, and they were caught by Yang Chen. Otherwise, Yang Chen could only keep his four wives here for three or five years.

Once he finds the location, things would be easier to handle later. In the surprised eyes of the four wives, Yang Chen began to condense one by one a secret technique, and hit the surrounding ground and the walls of the canyon.

None of the four women spoke, they were all waiting patiently.

Yang Chen would not do useless work. Gongsun Ling and Yang Chen had already experienced this scene once when they were collecting the medicine gourd, so there was a tacit understanding to let the girls not be surprised.

Yang Chen has now been promoted to the Yuanying stage, and the time for the coagulation technique was much faster than in the Jiedan stage. In almost a dozen breaths he could condense one.

After condensing a full forty-nine secret technique, and they were distributed in different directions, Yang Chen had completed this step. In fact, on the ancient key, this record was very simple, but there was more than fifty heavenly circulation here, but it must be arranged with spirit power and it was impossible to complete it while idle.

The heavenly circulation was still short of a secret technique, and this secret technique was also the key to activate the formation. After getting ready, Yang Chen called the four girls to his side. After letting them hold hands with his own hands together, Yang Chen made the last secret technique and hit it on the most central ground.

Fifty secret techniques emitted a bright light at the same time, but they were gathered within a radius of less than one hundred meters. The light was getting brighter and brighter, and the spirit power fluctuated more and more.

At the moment when the spirit power fluctuated to the most severe point, in front of Yang Chen's eyes, a round arched doorway made of white light suddenly appeared. Without thinking about it, Yang Chen took the four ladies and stepped into the doorway.

As soon as they entered the doorway, the figures of the five people disappeared instantly, and then all the light outside dimmed, and the spirit power fluctuations also disappeared without a trace as if no one had appeared here again.

Chapter 483.2: Formation Cultivation

The five figures of Yang Chen and his wives suddenly appeared in an empty space. Yang Chen almost didn't hesitate, he summoned the golden bell, and used it to envelope himself and the four women's shadows.

As expected by Yang Chen, as soon as he finished there was a sudden shock wave around them. There were more than a dozen spirit power waves in all directions, attacking the five people in the center regardless.

Boom, boom, after a series of roars, all the spirit power waves were picked up by the two dragon shadows from the golden bell, making a violent sound.

As soon as the spirit power wave ended, dozens of sword shadows appeared suddenly, it cut on the golden bell, making a jingle sound. With the golden bell's protection, this level of attack could not hurt Yang Chen's fur at all.

At this point, how could the four women still not understand that they have entered a secret plane. However, what made them strange was those who made the secret plane, and even gave back to the people who entered the secret plane.

The more so, the more exciting it was. The densely protected area could only be said to contain more exciting wealth.

The ancient keys indicated that after entering the secret plane, they would be attacked by a formation. This formation should be the secret formation of the Greatest Heaven Sect, at least there was no trace of this formation in Yang Chen's memory.

If he didn't know the name, he couldn't use normal methods to crack this formation. The only way left was to crack it by force.

This formation was even more powerful than the formation in Yang Chen's medicine garden. Even if it was a Yuanying stage ancestor, if he was not prepared, they could only fall under this formation.

It was a pity that no matter whether it was a spirit power attack or a flying sword attack, encountering the golden bell of Yang Chen, the crazy attack was useless under the protection of the golden bell.

Yang Chen guarded the four women and walked in a certain direction while being constantly attacked. As long as they left the range of this formation of attacks, they would naturally not be attacked.

The idea was good, but it was not so easy to implement. The formation itself has the function of restricting the actions of the people in the formation. Yang Chen wanted to protect the four women, so naturally he can't walk recklessly, so the speed of their movement was also very slow.

In fact, the best way was to let the four women enter Yang Chen's medicine garden, and Yang Chen breaks this formation alone. However, whether it was Yang Chen or the four girls, they all wanted to enjoy the process of being together and cultivate some tacit understanding. Them letting one person resist this kind of pressure alone was not what they wanted.

Under the protection of Yang Chen, the four women even came up with the idea of honing their cultivation in this formation. Regarding this, Yang Chen had no objection. Cultivation was to go through various situations, and this situation was right.

Anyway they could hide in the protection circle of Yang Chen's golden bell, life was worry-free, so the four women could also let go. Everyone was not in a hurry, so they just started to cultivate.

It must be said that the power of this formation that even Yang Chen has never heard of was far more powerful than he had imagined. Among the four girls, Shi Shanshan had the strongest cultivation base, she could only support herself for a brief moment before she had to retreat to Yang Chen's golden bell.

Shi Shanshan used the flying sword to cut against the opponent's sword formation. The same method of breaking the formation with brute force was also applicable. Perhaps because of the lack of material and grade of the flying sword, she could not last for a long time. When Shi Shanshan's life source flying sword was successfully refined, perhaps this situation would change.

Gao Yue and Sun Qingxue had similar situations, but they persisted for a shorter time. On the contrary, it was Gongsun Ling, who had the mountain river geographical map to protect her body who was able to do well in the formation and was the most relaxed.

Everyone didn't want to give up such a rare opportunity, even Gongsun Ling intentionally or unconsciously reduced the protection of the mountain river geographical map to the lowest level, and carefully experienced the reaction under the attack of the formation.

There were continuous spirit power attacks, and dozens of high-quality flying swords flying around incessantly, as if everyone was besieged by dozens of people. The four women had never had this kind of experience before, and all of them were excited. They would not hide in Yang Chen's golden bell circle without exhausting themselves.

This formation was not a simulated attack, a little carelessness would end up in injury. When exhausted, almost all of the four women were stabbed by flying swords. After all, although their own reaction was not slow, coupled with Yang Chen's timely protection, there was no danger. However, minor injuries were unavoidable.

Fortunately, everyone has a profound cultivation base and Yang Chen's medicinal pill was excellent, so these minor injuries were not at all a risk.

But Yang Chen was a little bit dumbfounded. He originally came to the secret plane to hunt for treasures, but how did it suddenly become a cultivation field? He also had a way of getting out of the range of this formation, but now he was ordered by the four wives to stay in place, providing them with protection, so that they could absorb this kind of combat experience when under siege.

Soon Yang Chen figured it out. Going to the Demon Continent was originally to allow them to increase their actual combat training, and the opportunity like this was now a preview before going to the Demon Continent. Anyway, this kind of cultivation was only good for the four women, and Yang Chen only needs to look after them without risking their lives.

The progress of the four women was rapid, and as they became familiar with this attack method, the four women supported themselves for longer and longer. From the beginning, they couldn't even support themselves for half the time for an incense to burn, and now they could withstand the full attack for an hour, which was really a huge improvement.

It was estimated that if this kind of full-strength attack didn't consume spirit power too fast, causing the spirit power to run out, the four women could hold on for a longer time.

On the contrary, Yang Chen's spirit power has been supporting the golden bell's protective circle, making all the women a little surprised. Especially Shi Shanshan, who originally thought that there would be a limited difference in spirit power with Yang Chen, and now she saw the difference.

Of course, it didn't mean that he was hundreds of times stronger than them, but in this situation, he didn't have to fight with all his strength, and he had enough energy to replenish his spirit power.

At this point, the purpose of the cultivation has actually been achieved, and it doesn't make much sense to continue. If they wanted their spirit power cultivation base to improve, it was not something that could be improved by fighting. Finally, after a full-fledged battle, the four women invariably stopped this cultivation.

Regardless of Yang Chen, the golden bell resisted the attack and slowly moved to the periphery of the formation under tremendous pressure. With Yang Chen's river turning strength, no matter how much resistance it was, Yang Chen only felt a little troublesome here.

Once they were out of the range of the formation, all the attacks disappeared. The four girls cheered and began to look carefully at this secret plane.

#### Chapter 484.1: Secret Plane

The place where everyone was at the beginning, or the place where the formation was introduced into the secret plane, was a huge hall. The hall had a radius of hundreds of meters, and all the stripes on the floor and ceiling were having dense arrays.

Yang Chen and the others forcibly left the range of the formation, and the flying swords also became quiet, the patterns distributed on the ceiling seemed to be part of the formation.

As early as when the girls were attacking and practicing, Yang Chen had already counted them. The total number of flying swords was over ninety-nine, if it weren't for Yang Chen having an extremely powerful protective magic weapon like the golden bell and he wanted to deal with this sword formation, it would not be an easy task to protect all the women from the attack.

Perhaps after Yang Chen's great yin yang five elements flying swords were completed, the great yin yang five elements flying sword formation could easily block this kind of attack and even destroy the opponent's flying swords.

The spirit power wave attack that entered the formation at the beginning was probably to be used by those who entered the formation to break the formation. If it was really a descendant of the Greatest Heaven Sect, he would definitely know how to crack this formation. Unfortunately, Yang Chen and others could only resist.

This hall was an exquisite aisle, which was also more suitable for passage. On the opposite side of the passage, that was, at the other end of the formation, there was a large horizontal slit on the wall that extended very long.

The passage was very wide, and the five people of Yang Chen's family walking side by side were not crowded. However, Yang Chen and the four women moved forward cautiously. There was no way, they would be disarmed as soon as they entered. Who knows if there was any formation mechanism inside, in short, there was nothing wrong with being careful.

There was no danger in walking all the way. Walking through the passage, there was an oval square. This large square was several times larger than the square that they came from, and it was also several times higher.

Around the square, there was a circle of rooms, apart from that, there was nothing else. Yang Chen let the girls stay where they were and he walked through the square and the door of those rooms, no more attacks appeared. Yang Chen's spiritual awareness didn't find any danger in this area, so he relieved his alert boldly.

Thinking about it, this was the secret property left to the younger generation, not a fierce land with many traps. With the formation of the gate, if a dacheng stage master came in, they would not be able to escape so there was really no need to guard against it.

Seeing Yang Chen's safety gesture, the girls cheered and rushed to the surrounding rooms. Needless to say, these rooms were the wealth concentration in the secret plane, just waiting to be raided.

Yang Chen was not in a hurry, the four women were his wives. Whoever gets the things was the same as Yang Chen getting it himself. There was no need to disturb the happiness of his four wives at this time.

Yang Chen was very certain that most of the four girls in this ancient secret plane would not know anything, so in the end, they would definitely come to Yang Chen again for advice.

Sure enough, none of the four women had the idea of swallowing them alone, they just moved out all the things in each room.

“Husband, please come over and see what these things are!” Seeing Yang Chen staying in the big square for a long time and waiting for the girls to move the things out, Sun Qingxue was irritated and pouted and began to complain to him.

Yang Chen smiled and pulled Sun Qingxue into his arms and for a while, he twisted Sun Qingxue’s little nose, then smiled and said “Good things won’t run away with long legs. I just have to wait, so why should you be in a hurry?”

Among the four girls, Sun Qingxue was the youngest and only she could act like this with Yang Chen. Gao Yue was Yang Chen’s master, and Gongsun Ling was his senior apprentice. It was almost impossible for the two women to do this kind of thing when there were others around. Shi Shanshan was even more cold, unless she was alone with Yang Chen, otherwise she was always cold.

Needless to say, the resources in this secret plane were still very coveted. There were a lot of good things in the first batch the four women brought out.

There was a pill room, which contains many pills that have been successfully refined. It’s a pity that the time has been too long, and the other party doesn’t have such a good thing such as the medicinal gourd to store it. Generally, after ten thousand years, these medicinal pills basically had no medicinal effect.

Obviously, this secret plane has experienced a longer period of time, and those pills have been completely turned into ashes. On the contrary, there were a lot of jade bottles containing the elixir, simple and elegant, carefully crafted, and looked very good.

There was also an alchemy furnace in the alchemy room, the shape was slightly different from the current ones and it looked like it was made from precious materials. It’s just that Yang Chen hasn’t paid attention to it yet, but some of the materials in the alchemy furnace were good, and they could be used to smelt into the profound spirit furnace to slightly improve the quality.

In addition, there were dozens of jade slips in the pill room, and the women couldn't understand the words recorded in the jade slips, so they could only give them to Yang Chen.

Yang Chen swept his spiritual awareness through it and immediately said with a smile "Good things, ancient pill recipes. Some medicinal pills have been improved, but some have been preserved to this day."

Among these jade slips, there were no less than hundreds of pill recipes recorded. Some medicinal pills overlap with some current medicinal medicinal pills, with slightly different names and then there were some subtle differences in the amount of certain medicinal ingredients.

For Yang Chen, these were only references. There were only a dozen pill recipes that Yang Chen had never seen before, and they could be refined to try their effects in the future.

The pill room room was vacated, and another room was cleared out. Surprisingly, this turned out to be a refining room.

Now everyone was refining magic weapons using their own different refining methods, but they basically relied on their own spirit power to polish them. This refining room was indeed a bit special, and there are even some stove bellows and anvil hammers used by mundane blacksmiths.

In the furnace, there was also a sealed true essence gathering formation and a unique sixth grade golden crow heavenly fire. This kind of fire could smelt most of the materials in the mortal world, it was also the fire that was most suitable for refining magic weapons.

Even the bellows was a magic weapon, as long as it was stimulated with spirit power, it could continuously urge the golden crow heavenly fire, and it could also control the fire.

What made Yang Chen most amazed was that in addition to these, there was a whole set of carefully crafted tools, axe, chisel, etc all were available.

All these tools were made of a very rare type of Taiyi mixed steel. This kind of Taiyi hybrid steel was harder than any material that Yang Chen has seen, but it was not tough enough, but it was the best material for making tools.

The magic weapon created with this kind of Taiyi mixed steel tool was totally different from the current refining magic weapon, leaving the aura of the owner in it. If Yang Chen didn't have Xiao Tian, this set of tools would be the best tool to create magic weapons.

Chapter 484.2: Secret Plane

More importantly, the Taiyi blended element steel could slightly carve the dragon's horns. Only for this point, this set of things couldn't belong to someone else, no one could use it except Gao Yue.

Of course, it's just a slight sculpting, it was impossible to do this kind of thing drastically. But even so, it made it a little less difficult to refine the dragon horn flying sword for Gao Yue and the success rate increased a lot.

Next to the refining room was a warehouse. All kinds of refining materials were piled up in the whole room, stored in different categories.

Some wood and stone materials had decayed and weathered after being stored for tens of thousands of years and cannot be used at all, only the metallic ones were left. However, many metals were also rusty and they couldn't see the original appearance.

After Yang Chen distinguished, many metal materials were recognized. Some of them could actually be used in the refining of the magic weapons of Gao Yue, Shi Shanshan and Sun Qingxue, and the effect would be better than ordinary auxiliary materials. At this point, their gains began to increase.

The rooms for storing materials and medicinal herbs were quite large, each occupying more than half of the rooms on both sides. The remaining rooms had much less storage.

However, seeing thousands of jade slips in a certain room, Yang Chen finally showed a smile on his face. Many inheritances from the ancient times, after experiencing continuous development and changes, and some accidental additions, deletions, or accidents, not many have remained until now.

These things were enough for Yang Chen to study the original appearance of many things. Including various cultivation methods, formations, etc, of course, after development and changes, some were developing in a more reasonable and optimized direction, but some were really retrogressive or lost.

All the jade slips recorded were ancient characters. Except for Yang Chen, the four women didn't know anything about it and they had to wait for Yang Chen to complete the translation.

Yang Chen even found a detailed explanation of the formation at the entrance in the jade slip. After a quick translation, it was handed over to Gongsun Ling and he asked her to figure out how to collect it. The attack power of this formation was still very strong, especially the ninety-nine flying swords, which were also very precious materials, it was worth collecting.

After everyone searched and charged similarly, the girls discovered that there were two rooms that couldn't be opened.

The rooms were locked by a strange formation, even Gongsun Ling couldn't recognize what kind of formation it was. However, one thing could be judged from it. If these two formations were forcibly opened, they were afraid that the things stored in the room would be completely destroyed.

The eyes of the women all looked at Yang Chen. If one of the five people could open these two rooms, it would be Yang Chen.

Seeing the two strange formations, Yang Chen also had to frown. He really had never seen these two formations before. He could only look for clues carefully from those jade slips.

A lot of jade slips have been put away, fortunately. When everyone collected it, they were all sorted out according to the original location, area by area. This gave Yang Chen a chance to find it quickly.

There was an area of jade slips that were cultivation methods, and it was estimated that they would not be recorded here. There was an area where the formation was used, and there was probably an explanation of the two formations here. Yang Chen looked around, but couldn't find the jade slip that recorded those two formations.

After thinking about it, he didn't understand why. The four women had collected all the jade slips and Yang Chen just waited in the middle of the square like a big master. Now, Yang Chen also had to go to the room where the jade slips were stored in person to see it again.

It was a study room. Except for the jade desk and chair in the center, all the bookshelves were jade bookshelves, which were still well preserved. The girls had just cleaned up the jade slips on the bookshelf, but ignored the things on the desk.

Yang Chen walked to the desk. There was a complete set of four treasures of the study on it. However, the pen, ink and paper had been turned into ashes, and only one inkstone remained. But there was still a black jade pen holder, and the pens in it had become flying ash. These ashes piled a thick layer on the table, burying the entire table top underneath.

With a wave of his hand, all the dust on the tabletop was swept away by Yang Chen. Then, Yang Chen saw the smooth jade tabletop with thousands of words almost the size of rice grains carved in the center.

It was more appropriate to say that it was a text, but it was more like a clumsy painting. The four girls came in and searched with their spiritual awareness. Everyone would think that those rice grain-sized words were patterns on the desk, and no one would think that they were words.

It happened that Yang Chen knew that this was an ancient cuneiform writing. Even Yang Chen didn't recognize these words, but among the jade slips he harvested, there happened to be a jade slip that introduced this ancient writing.

When Yang Chen had the impression, he immediately found the jade slip and began to learn and use it now, studying the contents of those words one by one. Soon, Yang Chen discovered that this text was an explanation of this secret plane.

The entire secret plane was refined from the body of a complete ancient giant tortoise. The place where Yang Chen and the others came in was the mouth of the ancient giant tortoise. They followed the throat passage and entered this huge square, which was actually the tortoiseshell of the ancient giant tortoise.

This canyon area, in ancient times, was still a huge lake, occupying a radius of tens of thousands of miles. Later, as the landform evolved, the lake dried up and turned into a huge plain, and the largest river on the plain has been washed away to form the current canyon after several years.

The ancient giant tortoise originally lived in this lake. When the senior from the Greatest Heaven Sect discovered it, it was already a complete body. Only because the giant tortoise had also cultivated by

instinct, the body was not transformed, and was refined into the current secret plane by the secret plane owner.

The huge tortoise shell itself has the natural effect of strengthening the formation. After being refined by the master of the secret plane, the formation here became even more powerful. If it weren't for Yang Chen's golden bell being so perverted, he wouldn't be able to come in at all.

Those two rooms were the places where the most important things in the secret plane were stored. Yang Chen and the others only came into contact with the outermost blockade formation. In fact, there were two sets of formations inside each, which were designed for different purposes.

Two rooms, two things, one of them was the same, and there was no word in it, but after seeing the other thing, Yang Chen couldn't help but smile happily.

There was nowhere to be found after breaking through the iron shoes, and it was all effortless to get it. Yang Chen didn't know how many places he found and didn't know what was inside, but he didn't expect it to be here. It seemed that Yang Chen's luck was not so bad.

Such things were very useful to Yang Chen and Gao Yue. According to the records on the jade slip, it was not known how many ninth water true essence was there.

#### Chapter 485.1: Gathering The Ninth Water True Essence

It's normal if you think about it. A huge lake with a radius of tens of thousands of miles which was all fresh water, it was in line with the conditions for the ninth water true essence.

The most exciting thing was that in this formation method for collecting the ninth water true essence, it was not known how many ninth water true essence would be accumulated after being here for tens of thousands of years?

He felt excited when he thought about it. The first wood spiritual solution left by the divine Immortal has already made Yang Chen so happy. Now there was the ninth water true essence left by the predecessors of the Greatest Heaven Sect, whether in terms of things or from leaving behind. In terms of his identity, Yang Chen has reasons to be happy.

Yang Chen has had several experiences in dealing with this massive amount of spiritual solution. He knew that if he couldn't handle it well, he would end up exploding. If there was not a magic weapon that could be used as a buffer to absorb the ninth water true essence or ninth water spiritual solution, even if Yang Chen cultivated the ninth water true secret art on the spot, it would not help.

As a result, it was a little troublesome. Yang Chen didn't have a particularly good ninth water flying sword for the time being. Last time, the Greatest Heaven Sect gave him two water attribute flying swords, one was used by Yang Chen to smelt and added to the dragon bone flying sword, and the other was the ninth water flying sword that was barely counted as one of the great yin yang five element flying swords. However, that ninth water flying sword was obviously not enough to bear this heavy burden.

Although Gao Yue's dragon horn has dual attributes of water and fire, the water attribute of that branch was not the attribute of the ninth water, but the attribute of the tent water. In other words, even if Gao Yue's dragon horn flying sword was successfully refined, it would not be possible to help Yang Chen.

Looking at this treasure mountain, this was Yang Chen's first time drooling after a treasure. In the past, whether it was the first wood spiritual solution or the seventh metal spiritual solution, or even the tenth water spiritual solution, there were corresponding magic weapons to withstand the power of these massive spiritual liquids, but now Yang Chen has no way of getting it.

Perhaps the original idea of the owner of the secret plane was simply to collect some ninth water true essence, but now after tens of thousands of years or even longer, the ninth water true essence has completely changed. Once the younger generations who don't know the dangers of the ninth water true essence open this room, the entire secret plane would become a huge cemetery, which was absolutely unexpected by the secret plane master.

In one room was the ninth water true essence, but the owner of the secret plane didn't explain what was inside the other room. Yang Chen was also hesitating whether to open it.

If the things inside were as dangerous as the ninth water true essence. Wouldn't it be that he would put himself in danger? Yang Chen may be fine by himself, and there may be a way to escape. However, this time Yang Chen was not alone, instead, he brought his four newlywed wives.

Letting his family take risks, Yang Chen has no such confidence, even among his wives, there were two fairies who would become famous in the future. That's not the reason for Yang Chen to risk his family's life.

Speaking of the cold plum fairy and the dancing snow fairy, now Gao Yue and Gongsun Ling have gradually broken out because of their fame, and they were also called fairies.

Because Gao Yue was good at refining tools and always doesn't go out much, when everyone sees her it seems that she was always shrouded in a red flame, so she was called the red jade flame fairy.

Since Gongsun Ling's natal refining of the mountain river geographical map was completed, she has always been surrounded by a hazy mist. People could only see her shadow at most, but they couldn't see her face clearly. This feature has also let her become known as the flowing clouds fairy.

Yang Chen married four fairies at the same time alone, making countless male cultivators envious and jealous to death. But not everyone has the guts to challenge a fifth-grade alchemist who was protected by countless sects. So for the time being, there were many people who were jealous, but there has never been anyone who really dared to clamor about this with Yang Chen face to face.

With Yang Chen, all four women in this life would have a greater future, it was not worth it to lose them over a small secret plane. After thinking about it, Yang Chen decided not to take this risk for the time being.

From Yang Chen's hesitation, the four women also felt abnormal. Sun Qingxue asked immediately, although the other three women did not speak. But also looking at Yang Chen, waiting for Yang Chen's explanation.

"...That's it. What do you think?" Yang Chen expressed his concerns, then looked at the four women, and waited for the four women to speak.

"That's it?" Sun Qingxue said without knowing the height of the sky and said casually, "Such a fun thing, of course I have to try it."

Listening to Sun Qingxue calling this fun, Yang Chen also felt a little dumbfounded. Just as he was about to talk to Sun Qingxue so that she could not be so careless, Shi Shanshan next to Yang Chen had already spoken "Little Xue, life and death is a big matter, don't be childish!"

“Oh!” Sun Qingxue obediently lowered her head to admit her mistake, without any disobedience. It was amusing for Yang Chen to watch. It seemed that Shi Shanshan’s words were sometimes better than Yang Chen’s, Sun Qingxue simply obeyed Shi Shanshan.

Sometimes Yang Chen felt strange, even if Sun Qingxue was led by Shi Shanshan into the Immortal sect, there was no need for such an obedience to her, right? He didn’t know if something else happened between the two girls that he didn’t know. Anyway, someone could make the mischievous Sun Qingxue be honest, so Yang Chen was very happy.

Everyone knows the preciousness of the original true essence, but apart from Gongsun Ling and Yang Chen experiencing the horror of collecting the seventh metal true essence, no one else has much idea about it. Although Yang Chen said it seriously, it seemed that the effect was not very good. At least Yang Chen had already seen the movement in Gao Yue’s eyes.

“Can’t you try with the dragon horns?” Sure enough, Gao Yue asked the next question.

Yang Chen shook his head. He had already said quite clearly before that the dragon horn was of the tent water attribute, which was not very suitable for the yin and yang of the ninth water attribute.

“Is it really that scary?” Shi Shanshan did not approve of taking risks, but she somewhat doubted whether Yang Chen had exaggerated the power of these spiritual solutions. After all, when she and Sun Qingxue were healing their wounds, they were soaked in the seventh metal spiritual solution and first wood spiritual solution, and at that time they had no spirit power in their entire bodies, and it seemed that they were not as dangerous as Yang Chen said.

“I have seen hundreds of people directly burst into powder because of it.” Yang Chen nodded directly and said without hesitation “A’Ling has seen it too.”

Gongsun Ling was beside him, nodding her head unceasingly. When collecting the seventh metal true essence spiritual solution, those people fell into a deep hole and burst into blood mist before reaching the bottom of the hole. She saw it with her own eyes.

Shi Shanshan also fell silent, it seemed that everyone was already thinking the same, listening to Yang Chen, she was about to give up first.

“Perhaps, there is also a way.” Gongsun Ling suddenly said, and then reminded Yang Chen “Husband, have you forgotten the usefulness of the mountain river geographical map when you were on the ground of the Demon sect domain?”

Chapter 485.2: athering The Ninth Water True Essence

Gongsun Ling’s reminder caused Yang Chen to raise his head fiercely. When the seventh metal spiritual solution was absorbed at that time, a part of the seventh metal true essence was absorbed by the mountain river geographical map.

You must know that although the mountain river geography map was said to be a magic weapon of the earth attribute, it was not limited to earth attributes. After absorbing the seventh metal spiritual solution, a large area of seventh metal was formed in the mountain river geographical map, which made the mountains and rivers illusion array appear more real.

If you follow this reasoning, then maybe the ninth water true essence could also be absorbed by the mountain river geographical map. Anyway, Yang Chen wasn’t about to cultivate the ninth water true secret art right now, but he wanted the gourd to collect the ninth water true essence.

The more he thought about it, the more excited Yang Chen was. If the mountain river geographical map could really bear it, doesn’t it mean that this trip would not be in vain?

Now that this possibility exists, Yang Chen would certainly not let it go. But Yang Chen wouldn’t act rashly and immediately open the room recklessly, instead he would let Gongsun Ling test it first.

In the medicine garden, there was a huge amount of first wood spiritual solution, which has been controlled by the two tool spirits of Yang Chen, A’Zhu and A’Bi. Yang Chen moved all the spirit medicines to the second layer and put the first wood spiritual solution in the first layer, a few less important medicinal materials were subsequently dropped in it and then the control of the first wood spiritual solution was released.

With a bang, the dropped medicinal materials exploded into fragments, and Yang Chen deliberately controlled all this for the girls to see. In addition to the medicinal materials, Yang Chen even found a few flying swords of poor grade and threw them in.

Without the slightest accident, those flying swords turned into powder which fell into the ground of the medicine garden space. One could imagine what it was like after ordinary cultivators entered it.

After seeing this scene, Gao Yue, Shi Shanshan and Sun Qingxue both took a cold breath. They didn't expect that these original spiritual solutions would be so terrifying. Fortunately, Yang Chen insisted at first, otherwise, everyone would be in great danger now.

Since it was an experiment, of course they must try the power of the mountain river geographical map. Yang Chen hesitated for a while, and finally agreed to let Gongsun Ling throw the mountain river geographical map into the first layer of the medicine garden.

Yang Chen himself was carefully exploring everything in the medicine garden with his spiritual awareness, once it was found that something was wrong, he would immediately suppress the first wood spiritual solution to avoid ruining Gongsun Ling's magic weapon.

It has to be said that the magic weapon of the dragon race was indeed powerful. Once the mountain river geographical map entered the medicine garden, it seemed that they would encounter the same fate as the previous flying swords. But in a blink of an eye, the madly raging first wood spiritual solution, as if suddenly encountered a sponge, was quickly absorbed by the mountain river geographical map.

After he observed for a while, there was nothing unusual in the mountain river geographical map. On the contrary, Gongsun Ling felt that there were more small changes in the mountain river geographical map. At least the formation method was more lifelike when simulating the trees that belong to the first wood.

Having passed the test of the seventh metal spiritual solution and the first wood spiritual solution, it seemed to have explained the problem. This dragon clan's magic weapon was indeed powerful, and with the help of those masters who have been taken into it, it should be able to survive the time when Yang Chen collects the ninth water spiritual solution.

Even so, apart from letting Gongsun Ling stay in place, Yang Chen took the other three women into the medicine garden as a precaution.

After making all the preparations, Yang Chen finally opened the room containing the ninth water true essence according to the method of breaking the formation described on the jade slip.

It was said to be a room, but after pushing the door in, there was only one opening that leads into the ground. Before the Yang Chen family was in the upper space of the tortoise shell, and the opening in this room could lead to the lower space.

Unsurprisingly, at the entrance of the cave leading to the lower space, there were warning words left in ancient texts. The general information was that if you don't have the ninth water true secret art, it was best not to go down lightly, so as to avoid any calamity.

The true essence was like this, unless it was those monsters that rely on instinct to cultivate to a certain level, otherwise if there was no true essence cultivation method and it was absorbed rashly, ranging from leaving a whole corpse, in the worst case, there would be no bones, there was no better possibility.

After seeing these warnings, Yang Chen smiled at Gongsun Ling, took her by the hand, and walked to the entrance of the cave together. Gongsun Ling controlled the mountain river geographical map, wrapped Yang Chen and herself and stepped into the ground.

Sure enough, as Yang Chen had expected, after tens of thousands of years of collection, the underground ninth water true essence had turned into a thick ninth water spiritual solution, and it was all in the huge underground space. The area of thousands of square meters, it was not known how deep it was, it was completely filled with the ninth water spiritual solution.

Countless ninth water spiritual solution rushed towards the two madly, and Gongsun Ling also had to do her best to control the mountain river geographical map, and absorb the ninth water spiritual solution at the maximum speed.

Yang Chen had already prepared the gourd that looked like an emerald, and now opened the mouth of the gourd and absorbed it to his heart's content.

Compared with the mountain river geographical map, the gourd was obviously faster, but it was not known by how many times it was. After all, the gourd was a direct collecting tool, but the mountain river geographical map was only having a bit of absorption, and the efficiency was not on the same level.

With the buffer of the mountain river geographical map, both Yang Chen and Gongsun Ling were protected by the mountain river geographical map without any harm. At this moment, the two people's hearts were completely calm.

The two of them dared not relax their vigilance at all times without knowing how long it would take to completely absorb the ninth water spiritual solution. Although this time was a good opportunity for Yang Chen to cultivate the ninth water true secret art, Yang Chen still did not cultivate out of caution for the three purities secret art.

After all, this kind of cultivation of the true essence secret art would definitely cause a change in his spiritual awareness. Although Yang Chen has temporarily stabilized his spiritual awareness and he was not afraid of the splitting of his spiritual awareness, but under the catalysis of the dragon yuan, the three purities secret art has reached the fourth stage. Once there was a change, Yang Chen couldn't distinguish it at this time.

Seeing that the ninth water spiritual solution in the space was getting less and less, the pressure on Yang Chen and Gongsun Ling was getting lighter and lighter. After almost a year, the ninth water spiritual solution finally reached the bottom.

The gourd collected so much ninth water spiritual solution, and the color seemed to become more and more verdant green, just like a jasper gourd.

The accumulation over the years was really amazing, the ninth water spiritual solution below has turned into a ninth water crystal stones. At this point, the rest was much simpler, under the protection of the mountain river geographical map, Yang Chen easily received all the ninth water crystal stones in the merits ring.

At this point, the collection of the ninth water spiritual solution was complete. Yang Chen also released the three women who were cultivating in the medicine garden and everyone celebrated this happy event.

"What's in the remaining room?" Sun Qingxue was most curious. When things were over, she just came out of the medicine garden without saying a few words, she started to have ideas about the last room "When will you open it to take a look?"
