

## Zhanxian 486

### Chapter 486.1: Mystical Box

After getting the ninth water spiritual solution, the one that could use it immediately turned out to be Gao Yue. The ninth water true secret art was obtained by Yang Chen, Gao Yue and Gongsun Ling at the Blue Vault Mountain Immortal's Cave. Both the ninth water true essence and the ninth water true secret art were available, as long as she wanted to start to cultivate. However, now everyone was most interested in the last room.

There was no record of what was in the last room in the jade slips. They didn't know what the original owner of the secret plane thought was, didn't he want people to open it? Or he doesn't know it himself?

After a brief celebration, everyone began to concentrate on the last door. Whether or not to enter has become a difficult problem for everyone.

In the previous room, if they didn't have the mountain river geographical map to contain the ninth water spiritual solution, even Yang Chen would not be able to go inside. What if this room was equally dangerous?

"Is there still room in this secret plane?" Gongsun Ling went down to the ground floor with Yang Chen, looked at the surrounding structure and suddenly asked.

In the mountain river geographical map, the structure of this secret plane has naturally been simulated. Gongsun Ling did not find any other space, except for the appearance of a small room, unless there was something else in the room.

It's just a small room, it's about ten feet in total. Yang Chen thought about it, and finally decided to go inside to find out. Having reached this point, leaving the room really made him unwilling.

This time everyone asked to go in so Yang Chen's golden bell and Gongsun Ling's mountain river geographical map were all opened up to the maximum, and even Yang Chen's shuttle was made ready, once it was found that something was wrong, he would immediately take his whole family and fly away.

The door of the room opened, but there was surprisingly no aura inside, and then everyone could clearly see the scene in the room. The tugging on their heart also began to relax.

In this room, there was no other space, just a square room. However, in the very center of the room, there was a square thing placed there, surrounded by two very strange formations.

It was very peculiar, also for the four women, the two formations have long since been lost. However, Yang Chen probably recognized those two formations. The jade slips obtained earlier contained explanations about these two formations, so he understood what was going on at a glance.

The two formations were nested, and the outermost one was an overbearing netherworld spirit gathering formation. The only function of the spirit gathering formation was to extract all the ordinary spirit power in the surrounding area without leaving a trace.

When Yang Chen and the others were looking for this secret plane, a large plain outside of tens of thousands of miles was almost depleted of spirit power and was not suitable for cultivation at all. It seemed to be the result of this netherworld spirit gathering formation.

But the formation nested inside was a nourishing formation. The function of the formation was to use the surrounding spirit power to nourish the things on the eye of the formation.

The boxy thing in the middle of the room was what the nourishment formation was nourishing. Strange to say, even if Yang Chen's current spiritual awareness was strong enough to reach the second grade human immortal realm, he couldn't find out what that square thing was.

Although no one knew what this thing was, Yang Chen understands a little bit that after this nourishment formation has been here for tens of thousands of years or even longer nourishment. No matter what it was inside, even if it was a stubborn stone in the beginning, it has now become a top grade jade.

After explaining the effect of the two formations to the four women, Gongsun Ling's eyes flashed with different light instantly. The netherworld spirit gathering formation was not only having an overbearing effect, but it was really not taken seriously by cultivators. Cultivators were the most important to the cycle of the heavenly dao. Such a way of destroying a foundation would definitely hurt the harmony between heaven and earth.

However, the nourishing formation was not to be underestimated. If Shi Shanshan and Sun Qingxue hadn't been directly soaked by Yang Chen with the true essence spiritual solution, using this nourishing formation would be able to achieve the same effect.

Of course, this kind of precious thing must be mastered. Gongsun Ling didn't care what was nourishing in it, and immediately asked Yang Chen to translate the jade slip about the nourishing formation, and then began to study it herself.

The formation was only arranged on the ground and does not hinder walking. Regardless of Gongsun Ling for the time being, Yang Chen and the other three women walked up to the square object and observed it carefully.

The square object had a thin layer of dust on the surface. Yang Chen stretched out his finger and wiped it lightly, but there was no response, so everyone started to wipe away all the dust on this thing, revealing its true colors.

Under the dust, the square thing turned out to be a perfect translucent glass. After seeing the whole picture, Yang Chen blurted out "Seven Treasured Glazed Tile? How is this possible?"

"Seven Treasured Glazed Tile? What is this? Why is it impossible?" Sun Qingxue asked the most questions immediately. Gao Yue and Shi Shanshan both understood this characteristic of Sun Qingxue, and they didn't say anything, just waiting for Sun Qingxue to ask.

"This is a kind of heaven material and earth treasure produced in the immortal world, it is impossible to have in the mortal world." Yang Chen's face was solemnly able to scrape off a layer of frost. Things from the Immortal world appearing in the mortal world, how was this possible?

The girls were also shocked, although they didn't understand what the Seven Treasured Glazed Tile could do, the product of the Immortal world was enough to scare many people.

Yang Chen's mind has already begun to turn in tides, what was the possibility that things from the immortal world would reach the mortal world? The descent of the consciousness clone? That's just a clone of consciousness, it's impossible to bring things down. Could there be any unknown channel in the Immortal world to connect with the mortal world?

This problem was no small matter. Once such a channel really exists, then Yang Chen's revenge action would immediately face a catastrophe. If the Seven Treasured Glazed Tile could come down, maybe a Great Principle Golden Immortal could come down. What's more, let alone a great principal golden Immortal, a small golden Immortal could make Yang Chen die without a place to be buried.

For a while, cold sweat gurgled down Yang Chen's head, making the surrounding women feel a little frightened. In their minds, Yang Chen had never been so flustered. Whenever they saw Yang Chen, he was full of self-confidence, so it was the shock of mount tai collapsing in front of their own eyes after seeing this situation.

The women also felt that the situation was serious, but their understanding of the Immortal world was really limited, and they could only look at Yang Chen, hoping that he could give an answer.

How did this seven treasured glazed tile come to the lower realm? Who brought it down here? These are all questions that were difficult to explain. There was even the most serious problem, since this seven treasured glazed tile has been nourished for tens of thousands of years in the secret plane left by the predecessors of the Greatest Heaven Sect, does it mean that the Greatest Heaven Sect has the support of the immortal world?

Chapter 486.2: Mystical Box

While Yang Chen had been thinking hard, Sun Qingxue next to him, watching Yang Chen's gaffe like this, couldn't help but leaned against him, snuggled into Yang Chen's arms and gently hugged Yang Chen.

Yang Chen subconsciously hugged Sun Qingxue, feeling the softness coming from his chest and he was relieved. He was really too nervous, if the Greatest Heaven Sect really had the support of the experts in the Immortal world, it would have ruled the mortal world tens of thousands of years ago, why would they wait until now?

"What is the use of this seven treasured glaze tile?" Seeing Yang Chen's expression eased, Sun Qingxue asked timidly.

"The seven treasured glaze tile can completely isolate the exploration of spiritual awareness, no matter how strong the spiritual awareness is, it won't work." Yang Chen replied subconsciously. This answer

also surprised the women, no wonder it was impossible to detect what was in it with the spiritual awareness probe, that's how it was.

"Is it possible to use this seven treasured glaze tile to refine a hidden magic weapon that others will not see?" Sun Qingxue immediately became interested and hurriedly asked.

"It's just that they can't detect the seven treasured glaze tile inside the weapon, but they can still discover the weapon itself." Yang Chen smiled, rubbed Sun Qingxue's head and said with a smile "It's most suitable to make a box."

Sun Qingxue sighed, seeming to feel that her hopes were shattered and she was lazily unable to lift her energy, leaning in Yang Chen's arms, simply relying on it.

"The biggest use of the seven treasured glazed tile is to preserve the vitality of a body for a long time." Yang Chen stared at the huge piece of the seven treasured glazed tile and he continued "if some dormant pets or injured people are wrapped in it, even if it is kept for a long time, they will still be alive and will not die."

Having said this, Yang Chen's eyes lit up suddenly, and he looked at this square piece of seven treasured glazed tile in an incredible way. Could it be that some living things are kept in it?

The girls were all refreshed, and everyone began to observe it carefully. It was a pity that the inside of the seven treasured glazed tile was isolated from spiritual awareness exploration. There was no way to detect what was inside and it was not completely transparent but vague, with such a large volume, it was impossible to see the contents clearly.

But one thing everyone has confirmed, there must be something inside, because the vague color faintly revealed what was wrapped inside, they just don't know what it was.

There was no record on the jade slips, presumably because even the owner of the secret plane didn't even know what it was. It's just because this seven treasured glazed tile would actively absorb weak spiritual power, and he may be aware that something was inside. But he couldn't open it up to see what happened, so he simply used the nourishing formation to nourish it for a long time and left it to future generations to decrypt its content.

What the secret plane master didn't expect was that the key he left behind was such that no one could understand among the Greatest Heaven Sect's current disciples, and it was finally made cheaper for Yang Chen. But even if the people from the Greatest Heaven Sect found this place, he believed that they wouldn't understand what it was inside this square thing, not everyone has memories from the Immortal world.

This thing could be regarded as a seven treasured glazed tile. You could use this seven treasured glazed tile to store things. It's still such a precious material, the original owner's financial resources could be imagined.

After spinning around this seven treasured glazed tile many times, Yang Chen looked at it carefully for a long time. Generally speaking, if the seven treasured glazed tile was used to maintain biological activity, there must be a way to open it.

The craftsmanship of this seven treasured glazed tile was too high, and Yang Chen hasn't noticed any gaps in it for such a long time. The girls did the same when they watched it around, without any flaws.

There must be something in it. There was no doubt about this, they couldn't find the smallest gap with their spiritual awareness. Yang Chen simply closed his eyes and carefully touched the whole box from top to bottom with his fingers.

The sensitive touch on the fingers sometimes works better than the eyes, but after touching it again, Yang Chen was still a little depressed. On this, there was actually no trace of openings at all.

Everyone was at a loss, staring at this huge seven treasured glazed tile, there was a feeling of entering the treasure mountain and returning empty handed. Thinking about it, this was a good precious material in the world of immortals. What would it be like when it was really going to be opened?

Would there be a backlash after opening it? Without even thinking about it, things produced in the immortal world could only lead to disaster for any mortals playing with it. Moreover, the seven treasured glazed tile was originally used to protect the injured. If the Dragon Horn Flying Sword was successfully refined, it might be effective and other things don't need to be considered for the time being.

After looking up and down a few times and touching it a few times, after entering through door, Yang Chen finally put his gaze to the bottom of the seven treasured glazed tile. The bottom of the box was placed on the nourishing formation, which absorbs spirit power and receives nourishment, which was also the part that everyone has not checked.

However, once the seven treasured glazed tile was lifted, the nourishing formation would lose its effect. Yang Chen thought for a while and after communicating with the girls, he made a decision to lift the seven treasured glazed tile.

As soon as the seven treasured glazed tile was lifted from the eye of the formation, the nourishing formation immediately lost its effect, and Yang Chen and the others immediately noticed the power of the netherworld spirit gathering formation, the escaped spirit power directly turned the room into a paradise for cultivation like the dragon palace.

The bottom of the box was indeed slightly different. Although he couldn't see it, Yang Chen was able to feel it. There was a square gap along the four sides, presumably this was where the opening of the box was.

He asked the girls to retreat and told Gongsun Ling to use the mountain river geographical map to protect the girls, Yang Chen also shielded his whole body with the golden bell, and then tried to open the seven treasured glazed tile.

The opening of the glazed tile actually had a small formation circle, but it was just a common rejuvenation formation in the Immortal world. In the surprised eyes of the women, after Yang Chen made hundreds of secret techniques in succession, he easily unlocked the rejuvenation formation.

Click, a slight sound sounded, and along the square gap, a big crack appeared at the bottom of the box. After making a sizzling sound, he finally stopped. At this time, it was obvious that there was a base below, and the box above seemed to be a lid.

Yang Chen grasped the top of the seven treasured glazed tile with both hands, and lifted the upper box up. As the box moved away from the base of the ground inch by inch, the situation inside the box appeared in everyone's eyes.

A naked person was lying flat on a comfortable cushion on the base, with both hands on chest, eyes closed, like a living statue.

The most shocking thing was that this person's chest was still moving up and down, which meant that this person was still breathing normally.

This mysterious person who they didn't know how long he had laired in the seven treasured glazed tile was still alive.

#### Chapter 487.1: Understanding

The four women have been married to Yang Chen for several years and have already become women, no longer the innocent girls. Facing the body of this naked man, the four women only blushed a little, took a breath and then became nonchalant.

It was really that this body was too special, so that all the girls cheered up and watched it carefully. Yang Chen didn't even say a word, he started directly, and touched the whole body bones of the sexy man.

"Sure enough, it is the body of a Great Luo Golden Immortal who has undergone the three tribulations tempering body and the Great Luo Heavenly Tribulation." Yang Chen quickly came to this conclusion, but what made him puzzled was that although this man's body seemed to have experienced this, but relatively speaking, it didn't reach the intensity of a Great Luo Golden Immortal, which was very puzzling.

"That's what a Great Luo Golden Immortal is?" Sun Qingxue reached out and touched the man's body and said with a bit of disdain "Not as strong as our current body!"

Several people had used their spiritual awareness to probe, this body was indeed somewhat different, but if it was the body of the Great Luo Golden Immortal mentioned by Yang Chen, the Great Luo Golden Immortal was too weak.

Yang Chen's spiritual awareness has been infiltrating the man's body and he probed it carefully. This man's physical condition was all normal, all parts were in peak state, but he doesn't know why, he was so weak.

The man has not woken up, even if he was so tossed by the crowd, he still kept his original posture and was sleeping quietly.

After investigating for a long time, Yang Chen found out that this body did not have any spirit power, it was empty, as if it were just a skin and nothing else.

Stimulated by the spiritual awareness, the other party did not wake up, he had been maintaining that kind of calm breathing, without even a hint of movement.

What's going on, Yang Chen couldn't figure it out. An obvious person from the Immortal world, how could it appear in the mortal world and still look like this?

The first thought Yang Chen thought was that this guy descended from the Immortal world, has all his consciousness been lost?

This was very likely, the Greatest Heaven Sect's formation method used to draw a consciousness clone of the Immortal Realm into the lower realm, would make about 90% of its own consciousness and memories disappear. This was still under the protection of countless masters, even the operator himself had to lose thousands of years of cultivation base to achieve this.

And this guy doesn't have any spirit power in his body. Could it be that he has lost all his cultivation base? At the same time, all consciousness was lost? According to this situation, if it were not for the protection of the seven treasured glazed tile, this guy might have stopped breathing a long ago and his body would have also turned into ashes. Where could he sleep so peacefully until now?

There were many doubts, although the body has experienced the Great Luo Heavenly Tribulation, but being so weak was the biggest problem. The latter were also unsolvable puzzles.

He checked continuously for more than a day. Yang Chen has checked everything that Yang Chen could check, and the conclusion was that this guy has no spirit power in his body. The body was also very weak because of the descent into the lower realm from the Immortal world. There was not the slightest bit of spiritual awareness, not even consciousness.

This situation, it's like the puppets prepared by the martial sects to attract the upper realm consciousness clone to the lower realm. The difference was that the puppets were having consciousness, and this guy was not even having a consciousness.

When thinking of the word puppet, a thought suddenly flashed in Yang Chen's mind. Since this guy was in such a situation, does that mean that he could use his spiritual awareness to possess him?

As soon as the idea of possessing him came out, Yang Chen couldn't stop it anymore. Under the dragon yuan's catalysis, the three purities secret art entered the fourth stage, but Yang Chen knew that in fact, his spiritual awareness still stayed above the third realm and could not be improved.

Trapped in the trouble of his spiritual awareness splitting, Yang Chen has not dared to improve his three purities secret art to the later stage. Now that there was such a body that has no consciousness, no spiritual awareness, no spirit power, but was a Great Luo Golden Immortal, isn't it a great opportunity given to him by the heavens?

As long as his spiritual awareness splits and the splitted spiritual awareness takes over this guy's body, there would be no more trouble of splitting spiritual awareness in the future. Moreover, this body was an immortal body, and he didn't know how good the aptitude for cultivation was. Wouldn't he kill two birds with one stone by then?

The more he thought about this, the more Yang Chen couldn't help but wandered on the ground with his hands. The women who saw his actions were very puzzled. After watching him walk for a long time, this time Gongsun Ling finally asked.

"Are there any troublesome decisions?" Gongsun Ling's words represented everyone's thoughts.

"There is one." Yang Chen didn't conceal this aspect from his wife, but simply introduced the choices he faced. Of course, the three purities secret art was very important and he can't mention it, he could only say that his spiritual awareness has reached a bottleneck and he needs to split it.

"After the divine consciousness splits and seizes the body, which one will be you?" Gongsun Ling was more interested in this question, and it was also the most concerning point.

“Of course I am still me, and the other is just a clone.” Yang Chen replied without thinking.

“What impact will it have on you?” Gao Yue was concerned about the impact on Yang Chen after doing this. If there was any bad result, it would not be worth the loss.

It’s not that Gao Yue was cautious, it’s true that the mortal cultivators have heard of double cultivation, but they have never heard of a person who splits their spiritual awareness and consciousness. This realm was really too mysterious, and the women can’t help but feel a little bit too worried about the mystery.

“Impact?” Yang Chen was stunned, then smiled “It will improve my realm.”

“Then what are you waiting for?” Sun Qingxue made a decision directly for Yang Chen “Such a good opportunity, and it’s still an immortal body, what’s to worry about?”

All the girls were in fact of the same mind. Since it has no bad effect on Yang Chen and could improve his realm, this kind of good thing was of course to be done.

Yang Chen was actually troubled by an immortal body which descended from the immortal realm. He was worried about the way the immortal body got to the lower realm, but also worried about the troubles that would be caused later. When Sun Qingxue said that, he was stunned, and then immediately he let go of his thoughts.

Yes, such a good opportunity, why would he hesitate? Even if there was trouble in the future, the water comes to cover, the soldiers come to block it, and he has already died once. Why bother to live this life like this?

Suddenly, Yang Chen realized that his mentality had changed a lot since he was reborn. Although he has done a lot of things by relying on the advantages of his rebirth, he has also walked a long way on his own road of revenge, but maybe because of the experience in the heavenly court, he was very afraid of the Greatest Heaven Sect and even sometimes he was only scheming behind the scenes, but never stood on the opposite side of the other party.

Chapter 487.2: Understanding

Just like this time, it was a very simple decision. Since the people of the Greatest Heaven Sect didn't care about anything and kept this immortal body for tens of thousands of years or even longer, what were they still afraid of?

Looking forward to the future, things were not decisive enough, these were some principles for Yang Chen to do things in this life. It seemed that he was not alone, but his dao heart still has a shortcoming.

If it weren't for Sun Qingxue's nonchalant sentence, Yang Chen would have never thought so much. Suddenly, Yang Chen became enlightened, as if he suddenly became empty in his heart, he felt unspeakably comfortable.

Nothing could restrain Yang Chen's heart. To put it in a plain language, at this moment, Yang Chen would be incomprehensible with indescribable thoughts.

"I have enlightenment, act as dharma protectors for me!" Yang Chen swallowed a second grade questioning inner heart pill without hesitation, and then directly sat down on the spot and at the same time he began to cultivate the three purities secret art, he also began to comprehend his own gains.

The girls didn't expect such a result, but there were not many opportunities for their husband to have this kind of enlightenment. Everyone was careful not to disturb Yang Chen, and each looked for a direction and protected Yang Chen while cultivating.

With this enlightenment, Yang Chen realized that the third stage of the three purities secret art almost instantly. This was not a direct promotion with the dragon yuan's help, but a real understanding of the mystery of the third stage of the three purities secret art.

The hidden dangers caused by the dragon yuan's forced ascension before were corrected by Yang Chen one by one during this cultivation. The parts that he didn't understand and didn't ask for a thorough understanding before, now suddenly became clear one by one, and a new world was revealed to him in an instant.

That's why Yang Chen frequently sighed like waking up from a dream while cultivating. Not only the third stage, but even the previous first stage and second stage, looking back now, it seemed that there were some unsatisfactory areas, he just took this opportunity to solve them one by one.

The sea of consciousness began to churn wildly, and the sea of consciousness that had been so solidified had collapsed once again. The sea of consciousness that Yang Chen was so proud of had another scene of landslides and cracks in an instant.

Fortunately, Yang Chen still remembered that there was a mark of Li Liheng's spiritual awareness in the sea of consciousness, and he deliberately threw the mark into the dragon's mouth and then into the river of blood.

In Yang Chen's sea of consciousness, the only constants were the bloody river and white dragon, and everything else was changing. After the complete collapse, the sea of consciousness began to rebuild, but this time, it was based on Yang Chen's re-understanding of the three purities secret art.

Even the nine-fold thunder tribulation tempering does not seem to be as good as Yang Chen's own perception. After the sea of consciousness once again returned to its original appearance, Yang Chen only felt that there was no other part of his body that was not refreshed. His mind was free and there was no hindrance in his heart, this was the dao heart that a true cultivator should have.

When Yang Chen cultivated in retreat, the four women around him felt more and more surprised. At first, he sat there quietly, but slowly, Yang Chen slowly released an unignorable aura that filled the secret plane.

This aura grew higher and higher and finally reached a peak, suddenly disappearing without a trace like a crash. But then, an aura that was more solid and substantial than before began to climb from nothing until it reached the highest point.

The four women around only felt that this new aura was completely different from the previous ones, and even different from any one they had seen before. The kind of aura that needed to be looked up from the bottom of the heart entangled the hearts of the four women tightly, as if they were willing to follow this aura, they could rush straight to the peak without any regrets.

Just when the four women were also driven by Yang Chen's spiritual awareness and were immersed in a state of selflessness, Yang Chen's spiritual awareness finally began the ultimate change of the third stage of the three purities secret art and the spiritual awareness began to split a little bit.

Yang Chen never thought that the splitting of the spiritual awareness would be so painful, as if someone was holding a hacksaw and slowly sawing his head in half.

If it hadn't been for Yang Chen going through countless hardships in his previous life and his mind being as hard as steel, maybe he would not be able to bear such pain and interrupt his cultivation.

The more painful it was, the more Yang Chen persisted, Yang Chen understood this truth. Fortunately, the first split of the spiritual awareness did not last too long, it lasted only a few hours. The original complete piece of spiritual awareness began to become two parts.

What surprised Yang Chen was that the splitted part of the spiritual awareness was just a small piece of his original spiritual awareness, almost negligible.

But this small part of the spiritual awareness contains all the memories of Yang Chen up to now, and there seemed to be nothing else. It felt very strange, as if one person suddenly became two.

Next to the Immortal body, Yang Chen certainly did not hesitate to send his splitted spiritual awareness to the Immortal body, and then quietly waited for the small piece of spiritual awareness to succeed.

Yang Chen's body could clearly perceive that the splitted spiritual awareness had entered the immortal body, and then released his memory, occupying the opponent's mind. The series of processes were very mysterious, just like watching a person grow from nothing.

The small piece of spiritual awareness that occupied the immortal body, after it completely controlled the immortal body, it directly transformed into the divine consciousness of the immortal body itself, opening up a small sea of consciousness and then stopping all actions.

All these actions were clearly in the mind of Yang Chen as if he had witnessed it with his own eyes, and everything in the split body could not escape his observation.

He thought that the Immortal body would stand up immediately, but unexpectedly, after seizing the body, the consciousness of the splitted spiritual awareness seemed to run out of energy and began to fall asleep.

However, the current deep sleep was completely different from the previous deep sleep of the Immortal body. In the past, what was sleeping was just a skin sac without consciousness and feeling, but now, it was Yang Chen's clone body sleeping.

As soon as this process was over, Yang Chen suddenly had another awakening in his mind. The avatar consciousness that was split from the spiritual awareness was basically an extra insurance for his own body. When the consciousness of his real body dies, the consciousness of the clone would be awakened.

The secret of the three purities secret art was originally here. With such an immortal body, even if Yang Chen went to the Greatest Heaven Sect desperately now, he wouldn't have any fear. Even if his body dies, Yang Chen will not die. This immortal body was another life for Yang Chen.

With this solid backing, Yang Chen would no longer have any fear. Next, Yang Chen only had to finish tempering the Immortal beheading blade and he could kill in all four directions.

However, another person's shadow flashed through Yang Chen's mind. The Grand Supreme Elderly Lord, he was the one who taught Yang Chen the three purities secret art.

Now Yang Chen could completely conclude that the Supreme Lord was definitely not dead.

Chapter 488.1: Pressuring The Greatest Heaven Sect

If Yang Chen's three purities secret art for cultivating the heart was the same as the three purities secret art of the Grand Supreme Elderly Lord, then Yang Chen could be completely sure that the Grand Supreme Elderly Lord was definitely not dead.

Even if the Supreme Elderly Lord had his head beheaded by Yang Chen himself on the Immortal Executioner Stage, it was only his body. As soon as the main body dies, his clone, which he does not know where it was hidden, would immediately wake up to replace the main body, and re-cultivate to become another expert.

No one knows what the clone of the Supreme Elderly Lord would be, naturally, no one would know who the Supreme Elderly Lord would be in the future. At least in the memory of Yang Chen's previous life, there hasn't been any memory of the Supreme Elderly Lord.

Yang Chen was not afraid of any conspiracy hidden by the Supreme Elderly Lord, it didn't make much sense to him. The Supreme Elderly Lord would not notice a little executioner like him. Even if Yang Chen's three purities secret art was passed to him at that time, he wouldn't have thought that Yang Chen would be able to leave the Immortal Executioner Stage, right?

If it's the Supreme Elderly Lord, then many things have been explained. For example, the origin of this Immortal body, counting the entire heavenly court, it seemed that only the Supreme Elder had the ability to reach the Three Realms, not even the Jade Emperor could do it.

Among other things, the Immortal Executioner Stage was refined by the Supreme Elderly Lord. It was truly amazing to allow mortals in the mortal world to control and punish the immortals in the immortal world.

Speaking of this, it was really easy for the Supreme Elderly Lord to send a few immortal bodies to the mortal world. Maybe the present one was sent by the Supreme Elderly Lord tens of thousands of years ago. After all, the Three Realms were different, and it was common for them to be picked up by the seniors of the Greatest Heaven Sect after a while. Otherwise, it was impossible to explain the existence of such a large seven treasured glazed tile and the Immortal body.

After he figured this out, Yang Chen seemed to have less doubts, anyway, this Immortal body was already a separate body of himself, as long as it was preserved. Once something happens to his body, he could cultivate again and come again, which was equivalent to one more life, such a great thing should make him happy.

Not everyone could pick up the omission of the Supreme Elderly Lord. Maybe Yang Chen hit this kind of big luck this time, it's heaven-defying.

While Yang Chen was having fun with the ladies here, there was another turmoil on the side of the Greatest Heaven Sect. From nothing, the young sect master Li Liheng had another accident.

Of course, it wasn't a bad thing, it was a good thing, the young sect master directly turned his residence into dust again. Although some property was lost, for the Greatest Heaven Sect this was a great thing. This shows that Li Liheng has become more and more able to get in touch with the senior Liu Fengzi in the spiritual world.

Although Li Liheng fainted here, the overwhelming aura that shocked all the dacheng masters seemed to be getting stronger and stronger. The cultivation base of the predecessor Liu Fengzi seemed to have increased again.

When Li Liheng woke up and the sect master and several core elders inquired, he honestly talked about this change, it's still an earth-shaking change. Sometimes, Li Liheng couldn't even use words to describe, he could only mean that he couldn't speak in words, and the description was not thorough enough.

The core elders in the dacheng stage eyes almost fell out of their sockets with greed. This kind of scene does not know whether the life or death scene was real or the scene of spiritual awareness mapping. If you let them see, it definitely has the effect of greatly improving their cultivation realm. You know, that's a scene in the spiritual world, and they felt excited when they thought about it.

However, the elders also have self-knowledge and they won't get anything without the spatial spiritual awareness cultivation method. Now that Li Liheng encountered this kind of thing again, it could only be said to be Li Liheng's blessing. In the future, they would have to vigorously please Li Liheng, and let him ask Senior Liu Fengzi for directions in their cultivation.

They saw what happened with Li Tiancheng, the sect master, who was directed by the senior Liu Fengzi and he found a solution right away? Although it was hard to find people who had full natal spiritual roots with water attributes, at least he had a direction, which was much better than their blind groping.

Li Liheng, who had become a valuable treasure again, was keenly aware that his position in the sect seemed to have been vaguely improved. The elders would often come over and ask about his well being, and even some of the servants around him were flattered by others.

This feeling was simply too good. The young sect master of the mortal world's greatest sect, the future sect master, Li Liheng seems to have seen his glorious future and he has seen his great power in the mortal world. His whole body seemed to be capable when he got up, he naturally even spoke with a commanding tone.

Originally, Yang Xi still had a period of imprisonment, but under Yang Lan's care and pleasing, Li Liheng also agreed to Yang Lan and tried to release Yang Xi as soon as possible.

Li Liheng himself had no plans to succeed, but when he secretly said this to the hall master of the law enforcement hall. Without saying anything, the hall master directly brought the person to Li Liheng. This made Li Liheng a little surprised himself, when did the head of the law enforcement hall become so kind?

Yang Xi who was rescued was almost crippled. A newly promoted Jiedan stage master, who spent so long in a place like the cold deep pool, has almost been frozen into a popsicle. Even after he came out, it would be a long time before slowly recovering, this was still early to be rescued. If they waited until the actual sentence expired before he was brought out, it was estimated that Yang Lan would only be able to prepare for a funeral.

Yang Xi also learned from Yang Lan the reason why his sentence was increased for no reason. In the end, it was because of Yang Chen, Li Liheng now needed more spirit congealing pills and no one except Yang Chen could refine them, but Yang Xi had the idea to frame Yang Chen, so he would naturally be punished.

After understanding the whole story, Yang Xi thanked Li Liheng on the surface, but in his heart he hated Yang Chen even more. Incidentally, Li Liheng was also hated by him. He obviously had the ability to let him leave the cold deep pool, but he insisted on waiting until now, if he had the opportunity, he wouldn't mind even plotting against Li Liheng.

He didn't know when Yang Xi felt that everyone was against him and even if Yang Chen cultivated faster than him, his cultivation base was higher than him, and his realm was stronger than him, these were all sins. This kind of distorted mentality made his hatred for Yang Chen stronger and stronger and he wanted to eat his meat and sleep to dispel his hatred.

As for Li Liheng, he was a temporary backer for Yang Xi. It was impossible to say that when Yang Xi gets what he wants, he would not kick him away. He really thought that he was the young sect master, who was above everything, should everyone be inferior to him?

Chapter 488.2: Pressuring The Greatest Heaven Sect

Of course, Yang Chen didn't know that Yang Xi's mentality had changed like this. He was now considering where to send this clone to be absolutely safe, so that he could sit back and relax in the future. The choice of the place was indeed a headache.

But soon Yang Chen didn't worry so much. The mischievous Sun Qingxue always gave Yang Chen some key tips. For example, this time, she inadvertently said "As long as people can't get in, it's fine." Suddenly it gave Yang Chen a reminder.

Was there a safer place where people can't go in than the Dragon Palace that he visited last time in the South China Sea? That place was originally called the sea of no return, and countless dacheng stage sea beasts died there during this period, not to mention the human cultivators, it was simply the most suitable place.

Not only was there safety, but there was also an important benefit. In the middle of the sea, it could provide endless tenth water true essence and spirit power nourishment. No matter how long it takes, there was no need to worry.

In this place, the ninth water true essence has been exhausted, because the spiritual solution has been dried up, there would be no more ninth water true essence, and the spirit power of the surrounding ten thousand li has been drawn by the netherworld spirit gathering formation. In more than a hundred years, there might not be a trace of spirit power here.

But it was different in the sea of no return, there were countless spiritual veins plus the infinitely tightening tenth water true essence, it would just continue to nourish this immortal body. As for how this clone came out once an accident happened at that time, Yang Chen didn't care. With his current experience, there were at least a few ways to leave, and it would not be difficult to have a clone of all his memories.

For the time being, Yang Chen was no longer worried about the place to keep the clone. Next, it was natural to sum up the gains and losses, and then start to refine the sword embryos of the life source flying sword for Shi Shanshan and Sun Qingxue. Of course, after this, it was time to help his master Gao Yue refine the dragon horn flying swords.

However, before that, Yang Chen hadn't forgotten to let Li Liheng consume a few more spirit congealing pills. The Greatest Heaven Sect really thought that he had refined enough spirit congealing pills, so he could fall into trouble and sell the compass that tracked him so that people could chase him down and cause trouble for him? Yang Chen wanted to see what his face would like when he saw hall master Mao again.

As a result, Li Liheng, the young sect master of the Greatest Heaven Sect, was once again fortunate to connect with Liu Fengzi, the predecessor of the spiritual world. But Yang Chen's little tricks made Li

Liheng exhausted and he had to rely on taking the spirit congealing pills multiple times to reluctantly establish this connection in order to maintain a longer duration.

The explanation given to Li Liheng about the incident was also very relaxed, his own cultivation base improved again and the gap between the two sides widened again, so this sense of exhaustion would become heavier and heavier. There were only two solutions, one was that Li Liheng's cultivation base should be rapidly improved, and the other was to take more spirit congealing pills.

This time, the contact between the two parties lasted about half an hour and Li Liheng also asked the questions they encountered in their cultivation one by one according to the opinions of the core elders.

Yang Chen had obtained the Greatest Heaven Sect's cultivation methods from several places. Although it was incomplete, he still knows a few well-known cultivation methods. Coupled with his knowledge as a Great Luo Golden Immortal, he gave detailed answers to those people's questions.

Of course, Yang Chen won't explain the problem all at once and he left a little detail, enough to dangle the appetite of these people. He didn't want to increase the strength of the top experts of the Greatest Heaven Sect in a short period of time.

However, after all this tossing, Li Liheng used no less than ten pills, which was more than double the previous four. In the end, Li Liheng ended this spatial spiritual awareness contact by falling into a coma.

After waking up, Li Liheng did not dare to hide anything to himself. He was a wise man, he knew where his status came from. So before a few elders asked any questions, he took the initiative to give a detailed account of the experience.

The problems of several elders have been the bottleneck that have troubled them for many years. It was said that this kind of bottleneck would definitely appear after a certain level of cultivation. There were only a few ways to solve it. Either retreat for enlightenment, or go out to gain experience and improve the cultivation base, or just take some kind of natural treasures and so on.

But the elders of the Greatest Heaven Sect, especially those who have achieved the position of core elders, were so powerful and rare in the mortal world that the satisfaction they bring was sometimes even more intoxicating than the improvement of cultivation. Let them give up all this and cultivate hard in retreat, or go out to cultivate, they may not be able to endure that kind of hardship.

Naturally, this bottleneck limits their cultivation base and Yang Chen's explanations for everyone's problems really made the people feel refreshed. It was as if a beacon light suddenly appeared in their mist, it seemed that as long as they followed, they would be able to see the day they would ascend.

It's just that the people who were immersed in the surprise didn't realize that the direction was there, but there was no specific way to break through the bottleneck in front of them immediately. There were a few tricky answers that would allow them to solve a small part of the problem in a short time, but they couldn't overcome the bottleneck fundamentally.

Unfortunately, everyone was in ecstasy and no one noticed this. This spatial spiritual awareness cultivation method was simply the best treasure given to the Greatest Heaven Sect from heaven. With this, why worry that the Greatest Heaven Sect would not dominate the mortal world?

The thought that if the Greatest Heaven Sect dominates the dao sects, the power of everyone would be increased as never before, the core elders burst with excitement. Now that their own cultivation base was expected to be improved and their power was expected to increase, at this point, what more could they want?

The only problem was the spirit congealing pills. Last time, Yang Chen gave a sufficient amount, but the consumption this time, plus the previous ones, was obviously insufficient.

If it was in the past, they might still think about going to Yang Chen when it doesn't work in the end. But now after the two spatial spiritual awareness connections, they have discovered that compared with the future of the Greatest Heaven Sect, Hall Master Mao's face and some of the things outside of the Greatest Heaven Sect were completely inadequate.

In any case, they must find Yang Chen as soon as possible and let him refine enough spirit congealing pills. As for the price, it doesn't matter at all.

As for the compasses that have been sent out before, most of them have been recovered, but some have not been recovered. All the remaining owners that could be killed were killed, even those of the big sects who cannot be killed were strictly warned that if they dared to attack Yang Chen at will, they would become the next Hu Qianyi.

Yang Chen and the girls didn't know this. Even if Yang Chen knew it, he planned to whet the Greatest Heaven Sect's appetite. When more of the spirit congealing pills were consumed, they would become more anxious. At that time, Yang Chen's bamboo sticks would be able to knock more loudly.

Who could have imagined that by Yang Chen accidentally leaving a mark of spiritual awareness, he would be able to make the spirit congealing pills a deadly spot in the Greatest Heaven Sect?

Chapter 489.1: The Green Jade Immortal Island Also Has An Unfillal Disciple

Yang Chen's three purities secret art had truly and completely entered into the fourth stage. As a result of the splitting of the spiritual awareness, Yang Chen did not lose much spiritual awareness. On the contrary, after the split, he no longer worried and gained more diligence and space.

Strictly speaking, Yang Chen was forcibly promoted to the fourth stage by the dragon yuan before, but he was not at the real fourth stage. It was just that he had reached that form, but he had not reached the spiritual awareness. Now he was considered to have both form and spirit.

With a strong spiritual awareness as the foundation, whether it was to refine the flying sword embryos for Shi Shanshan and Sun Qingxue, or cooperating with Gao Yue to refine the dragon horn flying swords, it would become much easier.

The scarlet snow spirit crystal was a top grade metal attribute material, and it takes at least a hundred years or even longer to complete the creation of a sword embryo with a general refining technique. There was no way around it, a common fire had no effect on this material at all, unless it was a specialized fire attribute cultivator and it needed at least a fifth-grade fire seed to achieve the smelting effect.

If Shi Shanshan was to create the sword embryo by herself, she could only use the method similar to that of Gao Yue, she could only carefully sculpt it when she was able to control it with her spirit power for dozens or hundreds of years.

After this time, she would wait until the sword embryo was complete. As for letting a master refinee help to build the sword embryo, it could shorten the time by many years. However, without Yang Chen's pet Xiao Tian capable of devouring the tool spirits, it would take longer to get rid of the traces left by the refiner in the sword embryo.

The more advanced the material, the longer it would take. After all, the stronger the refiner was, the harder it was to get rid of the traces, this was common sense.

But under Yang Chen's Yin-Yang Heaven Burning Fire, the scarlet snow spirit crystal was like butter, melting anytime and anywhere without the slightest difficulty. The dome hall was also thrown into the flame by Yang Chen without any regret, smelting it together.

As for the sword formation, Yang Chen did not directly use it. Looking at Shi Shanshan's future thoughts in this way, if she wants, she could refine the sword formation as her own life source flying sword. Everything depends on Shi Shanshan's liking, after all, she was the cold plum fairy in her previous life and she didn't seem to have the shadow of a sword formation.

In the memory of Yang Chen, the shape of the flying sword used by the cold plum fairy when she swept across the immortal world should be Shi Shanshan's favorite appearance. Therefore, Yang Chen directly created the flying sword embryo in that shape.

The powerful flames, the incomparably powerful spiritual awareness, and the incomparable refining techniques. This sword embryo, one of the strongest metal attributes flying swords in the mortal world, cost Yang Chen a lot of time to build. Fortunately, Yang Chen and the girls were already Yuanying stage ancestors, otherwise this process would take several times longer.

Sure enough, as soon as the flying sword's embryo took shape, Shi Shanshan took it up in love. After waving it a few times, she seemed to notice the feeling of incomparable smoothness.

In Shi Shanshan's eyes, Yang Chen must have put a lot of thought into her flying sword and he must be very concerned about her preferences, otherwise he would not create a sword embryo that suits her characteristics.

It must be known that Yang Chen and Shi Shanshan have been fighting together a few times, but only a few times. It was absolutely necessary to understand Shi Shanshan's usage habits in this short period of time. At least Shi Shanshan asked herself, until now, she still doesn't know Yang Chen's fighting habits.

This discovery made Shi Shanshan's heart very sweet. Although she had always maintained a frosty face in front of the other women, the moment she got her flying sword, she couldn't help but throw herself in Yang Chen's arms and enjoyed it fiercely, the feeling of being pampered.

What could explain everything better than the fact that her mate thinks about her like this? Shi Shanshan was glamorous and aloof, but she does not exclude being cared for by her own mate.

The sword embryo has been built, and Shi Shanshan could take it to adapt to it, but it was not yet possible to temper it as her life source magic weapon. After Xiao Tian swallowed the dragon bead, it was still digesting, and it was estimated that it would take some time before he could finish. At that time, after Xiao Tian completely wiped out Yang Chen's aura from the sword embryo, Shi Shanshan would temper it again, that would be the most time-saving way.

After completing Shi Shanshan's sword embryo, Sun Qingxue was next. Relatively speaking, Sun Qingxue's heavenly thunderwood was also a top-level material, but the difficulty of refining it was less than that of the scarlet snow spirit crystal.

However, the use of flames to refine the heavenly thunderwood was a bit too much. Yang Chen used the wood-based refining technique, and also chose Sun Qingxue's favorite flying sword style from his previous life.

Sun Qingxue's performance with the flying sword was many times more unrestrained than Shi Shanshan. After more than a year passed, Sun Qingxue was overjoyed with her flying sword embryo, she immediately jumped into Yang Chen's arms in ecstasy and offered him a kiss without any hesitation.

"Thank you Husband!" Sun Qingxue no longer knew what to say to express her happiness. Only then did she understand why even the frosty sister Shi Shanshan couldn't help but rush into Yang Chen's arms after getting the sword embryo. The feeling of being taken care of by their husband was really wonderful.

Two female flying sword embryos were completed in two years. Next, Yang Chen was doing his best to help Gao Yue begin to refine the dragon horn flying swords.

With a whole set of carving tools, Gao Yue's difficulty in refining the dragon horn flying sword was a little less. Gao Yue himself was an expert in refining tools, and when Yang Chen was refining the flood dragon skeleton flying sword, she witnessed the process of the refining with her own eyes, which helped a lot. Refining the dragon horn flying sword was now a matter of time.

After hundreds of years of spirit power washing and spiritual awareness penetration, among the two dragon horns of water and fire, the aura of Gao Yue was completely present, which made it more handy for her when controlling it.

Yang Chen has confirmed the refining steps with her many times, and Gao Yue has also memorized it by heart. With the encouragement of Yang Chen and the other three women, Gao Yue finally started to work on the two dragon horns.

The first step was to carve it with tools and after becoming finely shaped, she then refined it with spirit power. Gao Yue already had a Yuanying stage cultivation base, and it didn't seem too difficult to control the entire refining process.

However, Gao Yue's time was still far beyond Yang Chen's. It took a full ten years for the two flying swords to complete the embryonic stage. Next, Gao Yue needed to spend about a hundred years again to refine the two dragon horn flying swords into her life source flying swords.

At this point, the Yang Chen family's purpose in coming to the secret plane has been achieved, and it was finally time to leave.

Chapter 489.2: The Green Jade Immortal Island Also Has An Unfillal Disciple

With the thought of creating a sword embryo for Gao Yue, Xiao Tian woke up. It has completely swallowed the dragon bead and its body has grown a big circle again, with a length of tens of feet.

However, when Yang Chen needed to use it, Xiao Tian would always be the size most suitable for Yang Chen's hand and would always be like the hilt of a flying sword.

Both Shi Shanshan and Sun Qingxue's flying sword embryos were swallowed by Xiao Tian, completely eradicating all traces left by Yang Chen. The two women happily held the formed sword embryos, saving hundreds of years of time and began to temper their life source magic weapons.

Gao Yue's dragon horn flying sword was originally made by herself, so there was no such problem at all. Basically, after a period of tempering, the two flying swords could truly become Gao Yue's life source flying swords.

Except for Yang Chen's not yet fully assembled, the family of five's life source magic weapons have already been settled.

"Who wants this tortoise shell?" Before leaving, Yang Chen looked at the huge tortoise shell that formed the secret plane and suddenly asked.

Yang Chen's tortoise shell statement made all the women uncomfortable. Yang Chen had no choice but to change his tone "Who wants this super protection and attacking magic weapon?"

The huge shell of a tortoise has been refined into a secret plane, but after tens of thousands of years of spirit power nourishment, the secret plane has become too tough. As Yang Chen said, this was a super strong protection magic weapon, and the sword formation at the entrance was another attacking magic weapon, which was similar to Yang Chen's dome hall.

Although everyone disliked the name tortoise shell, no one would ignore such a magic weapon for protection. In the end, the secret plane belonged to Sun Qingxue, the youngest and most naughty.

However, Sun Qingxue kept pouting her mouth and refused to call this a tortoise shell. After thinking about it for a long time, she finally came up with a name that she was satisfied with, she called it Xuanwu Shield. Moreover, it was strictly required that Yang Chen and the other three women would no longer call it a tortoise shell but Xuanwu Shield.

To Sun Qingxue, the youngest sister, everyone pampered her and no one wanted to disobey her so they all agreed with a smile. Then Sun Qingxue began to collect the secret plane with the help of Yang Chen.

For any fortress, the easiest way to capture the secret plane was from the inside. After cutting off the spirit power supply of the secret plane, it was basically a request.

Even so, it took Sun Qingxue almost two months to fully collect the Xuanwu Shield. After a simple refining, it became a protective magic weapon that could wrap the whole body after being released.

Moreover, under Sun Qingxue's resolute request, Yang Chen also slightly modified the appearance of the Xuanwu shield. It no longer looked like a tortoise shell, but became a very sleek translucent egg shape, Qingxue was temporarily satisfied.

Leaving the secret plane, Yang Chen was still required to form the secret technique. Just when Yang Chen formed the first secret technique and was about to complete all the techniques, he suddenly thought of it and asked Sun Qingxue to open the newly acquired Xuanwu shield.

Sun Qingxue didn't know why, but still followed Yang Chen's instructions, and everyone suddenly appeared in the canyon where they entered from the beginning.

However, the gorge at this time was not as calm as before, but was full of murderous air. As soon as everyone's figures appeared, there was a head-to-head attack around them.

Fortunately, Sun Qingxue had opened the Xuanwu shield and enveloped everyone, all of these attacks fell on the Xuanwu shield without causing any harm. Obviously, this was an attack from a formation.

"Who?" Shi Shanshan's eyes flashed, and a bitter murderous aura burst out from her. After Yang Chen married Shi Shanshan, it was the first time he saw Shi Shanshan's eyes like this.

After a long time of cooperation in the secret plane formation, the girls have been in a tacit understanding, they summoned their flying sword magic weapons and then divided into four directions, staring at the surroundings.

As for Yang Chen, he didn't worry about the girls, he reminded Sun Qingxue to open the Xuanwu shield, it could be seen that the abnormality was discovered long ago. Besides, there was the perverted golden bell, so there was no need to worry about Yang Chen's safety.

"Have you been tricked by someone before, is that why you have become more careful?" A strange woman's voice came from the outside, with a ridiculous teasing into everyone's ears.

"Aunt Master Guan? Why are you here?" Unexpectedly, it was Shi Shanshan who spoke. Listening to her tone, it seemed that the other party was actually a disciple of the Green Jade Immortal Island.

"Why can't it be me?" The middle-aged woman, known as Aunt Guan, finally appeared far away from the crowd. Next to the woman, there was an old woman who looked like an old granny, trembling with a cane.

“You brought Ya Gupo out?” Shi Shanshan was shocked again “Aunt Guan, are you not afraid of the sect rules?”

When Shi Shanshan was talking with the other party, Yang Chen and the other three women did not interrupt. It sounds like this was something within the sect Green Jade Immortal Island, so they should at least let Shi Shanshan and the other party speak clearly.

“Hmph, as long as you don’t tell, who will know?” Guan Shishu sneered, looking at the faintly glowing Xuanwu shield, she could not help but sneer again “It seems that you have a lot of tortoise shells, but do you think this can stop the attack of Ya Gupo?”

“Aunt Guan, are you crazy?” Shi Shanshan shouted again, with a violent shock, as if she wanted to awaken this Aunt Guan.

“I’m crazy?” Aunt Guan laughed wildly “Do you really think I’m crazy?”

“Why?” Shi Shanshan didn’t say much and asked directly, her face had returned to that frosty appearance again.

“Why? Hahaha!” Aunt Guan laughed wildly “Why? Back then, I was the disciple with the best aptitude in the Green Jade Immortal Island and almost all the resources were at my disposal. Everyone in the sects almost regarded me as a revitalizing hope of the sect, but, then you actually appeared. When you were a disciple of the outer sect, everyone looked up to you with admiration and took care of you frequently.”

“Those should belong to me, why did you steal everything I deserve?” At this point, Aunt Guan almost roared and her original beautiful face looked a bit hideous. “Why didn’t Hu Qianyi kill you? Why do you still have your life? But today, I will personally take back everything that belongs to me, and even take away everything that should belong to you!”

Everyone was staring at the roaring Aunt Guan. It was obvious that this lady couldn’t even accept that other people’s aptitude was better than hers. This kind of person, even if she cultivated to a high level, her realm would not be so good. No wonder she was still stuck in the late Yuanying and unable to reach the dacheng stage, her character determined everything.

## Chapter 490.1: : The Dumb Aunt's Strength

Gao Yue, Gongsun Ling and Sun Qingxue were all looking at Aunt Guan, but Shi Shanshan and Yang Chen's attention was always focused on the old aunt who seemed to be trembling and would fall down next.

This old lady was definitely an expert, and also a master in the dacheng stage. Her aura was very restrained, almost not leaking out at all, at least in the eyes of Gao Yue, Gongsun Ling and Sun Qingxue, she was an old lady who may need to be taken care of by others.

However, Shi Shanshan clearly knew the terror of Ya Gupo, this was a hidden dacheng stage master of the sect. The reason why she was hidden was because she actually went crazy during her cultivation, which made her not very clear minded and she couldn't speak.

Aunt Guan's name was Guan Zhenyao, Ya Gupo took care of her in many ways and loved her when she was normal. Therefore, after the accident happened to Ya Gupo, Guan Zhenyao took the initiative to take care of her. Although they were not close relatives, but thankful in return, this was even a good discussion in the Green Jade Immortal Island.

Because the mute aunt had gone so far as to burn her brain out, she cultivated more thoughtlessly than others. In her eyes, there was nothing but cultivation. Although she may not be able to continue to improve in the great realm, the strength she has accumulated during the dacheng stage was considerable.

Very few people knew about this in the Green Jade Immortal Island, and at the beginning, almost no one knew about it except Guan Zhenyao. Later, the sect master and several elders discovered this fact by accident, and Shi Shanshan, as the beloved disciple of the sect, naturally also learned some news about it.

But Shi Shanshan was only clear that Ya Gupo only has the strength of a dacheng stage master. As for how powerful she was, she has never seen it before and she doesn't know.

But Yang Chen was different, his experience in battles and his spiritual awareness had clearly told him how terrifying the Ya Gupo not far in front of him was.

When there was only cultivation and fighting left in the mind, the fighting power that erupts was definitely beyond the imagination of ordinary people. Otherwise, why do people say that certain crazy people are crazy, it's because of the horror of lunatics.

This Ya Gupo was undoubtedly a master in this category. Now it seems that Shi Shanshan's Aunt Guan may know how to control this terrifying master. That's why she has the confidence to appear here.

Not only that, he estimated that Guan Zhenyao had bought a compass from Li Liheng that could track Yang Chen, otherwise she would not be able to grasp Yang Chen's position so accurately and block Yang Chen's family.

Yang Chen also knew that Li Liheng's imprint of spiritual awareness could reveal his whereabouts, but this was a double-edged sword. Obviously, it was more important to plot against the Greatest Heaven Sect now than preserve his whereabouts. Perhaps one day when the Greatest Heaven Sect was completely destroyed, it would be the time when he completely obliterated the imprint of Li Liheng's spiritual awareness.

Guan Zhenyao not only tracked down where Yang Chen last disappeared, but still waited here for an unknown amount of time, and arranged an attack and siege formation to ensure that Yang Chen's family could not escape. If coupled with the strength of the Ya Gupo, Yang Chen's family of five would obviously be eaten to death.

Of course, this was Guan Zhenyao's thoughts, at least her current thoughts. Although Yang Chen and the others used an egg-shaped protective magic weapon to protect a few people, they couldn't escape the siege of her carefully arranged formation. Now she could tell her conditions first.

"Yang Chen, if you want the lives of your family of five, take out what Hu Qianyi wants from you!" Guan Zhenyao yelled at Shi Shanshan and turned to Yang Chen.

It must be said that there were many smart people in this world, Yang Chen just throwing out a pill recipe for the questioning inner heart pill would definitely not make everyone think that this was what Hu Qianyi was pursuing.

Although the pill recipe of the questioning inner heart pill was important enough, it was enough to explain Hu Qianyi's motives to some people. However, when Yang Chen sold the pill recipe the Greatest

Heaven Sect didn't make a move this time. This shows what? Either the Greatest Heaven Sect had already obtained the pill recipe, or Yang Chen and the Greatest Heaven Sect had an agreement long ago.

Either way, it shouldn't be a reason for Hu Qianyi to do something. So naturally, Yang Chen had something else to make Hu Qianyi tempted, and even didn't hesitate to attack Shi Shanshan and Sun Qingxue.

Guan Zhenyao thought this was a good opportunity. If it was really the key to how Yang Chen became a fifth-rank alchemist, then with her personal knowledge in alchemy, if she wanted to replace Yang Chen as a fifth-rank alchemist after obtaining it, it should not be impossible.

Therefore, the wise Guan Zhenyao chose a method that she thought was appropriate. On the one hand, to suppress and retaliate against Shi Shanshan, on the other hand, to get something from Yang Chen. With Ya Gupo, everything was not a problem, not to mention the formation siege that she had carefully prepared for decades. Today, even if Yang Chen's family put their wings on, they couldn't fly out of Guan Zhenyao's formation.

"Do you think, in this case, I will give it to you?" Yang Chen was not as angry as Shi Shanshan, he was not a disciple of the Green Jade Immortal Island, and he didn't have to think too much about the Green Jade Immortal Island.

"Either you give it to me, or I get it from your corpse, you can choose one yourself!" Guan Zhenyao was really confident, and the tone of her speech was like taking charge of everything.

Regardless of Zhenyao's carelessness, Ya Gupo was undoubtedly powerful, everyone else was not clear except her. If she didn't know this, how could she go back and take care of an old lady who had gone crazy with all her heart?

She saw with her own eyes that Ya Gupo resisted two middle dacheng stage masters, she didn't lose and even injured the two masters. The sect only learned about the power of Ya Gupo after the two masters recovered from their injuries, and before that, Guan Zhenyao had fully obtained the trust of the sect to take care of Ya Gupo.

“Shanshan, I’m sorry!” Yang Chen did not answer Guan Zhenyao’s question, but gave Shi Shanshan a regretful sentence. At the same time, his gaze stayed on Guan Zhenyao’s dumb aunt who had been doing nothing behind her.

Of course Shi Shanshan also noticed Yang Chen’s gaze, and even understood what Yang Chen meant. The reason why he was sorry to her was obviously that he was going to ruin the peerless master of the Green Jade Immortal Island.

Subconsciously, Shi Shanshan said to Yang Chen “No!” Although Ya Gupo was crazy, she was also a fighting force in the Green Jade Immortal Island. It was a pity that she would be ruined by Guan Zhenyao.

“It’s too late to beg for mercy!” Guan Zhenyao finally showed a smug smile on her face. She even heard Yang Chen’s compromise from Yang Chen’s words.

Chapter 490.2: The Dumb Aunt’s Strength

“It’s not too late, it’s just a little Yin Yang Nine Heavens Formation.” Yang Chen mentioned the name of the formation that besieged everyone.

“How do you know?” Guan Zhenyao’s face was taken aback, and then she showed an incredible expression “What are you going to do?”

In Yang Chen’s hand, it was not known when an earth-yellow flying sword appeared. It was his life source magic weapon, the living soil flying sword, which had never been used after he got it from the hand of the Greatest Heaven Sect’s Elder Ming Guangruo.

There was a trace of the aura of the living soil in the living soil flying sword. As long as it grows deeper and longer, the aura of the living soil would slowly swallow the surrounding materials and gradually enlarge itself. Although it would take thousands of years or even longer for this aura of the living soil to double, it did not hinder the flying sword’s strength.

Especially when this flying sword was still in the mouth of Xiao Tian. Yang Chen grabbed Xiao Tian, swung his sword in the direction of the core of the formation and slashed.

If it was an ordinary flying sword, this kind of action would not have any effect. But now it's different, the living soil flying sword was held in the mouth by Xiao Tian, that was a completely different effect.

Swish swish, a few visible sword lights, separated from the blade of the flying sword and flew towards the direction Yang Chen wanted to cut. Boom boom boom, a few booms sounded and the places hit by the sword light began to explode.

"How is it possible?" Guan Zhenyao has been preparing for this day for a long time. She was good at alchemy and even studied the formation of the Yin Yang Nine Heavens Formation. When she personally tried it, let alone swordlights, she personally urged flying swords to stand in the formation and attacked the core of the formation, it all didn't have any effect. Now Yang Chen has achieved something she couldn't even imagine with a few sword lights, how could she not exclaim?

Surprise turned into astonishment, Guan Zhenyao was also a master in the late Yuanying stage, and it couldn't be said how rich her combat experience was. But she also knows that now was not the time to be surprised.

When the core of the formation began to explode, Guan Zhenyao directly addressed the dumb aunt behind her and said softly "Auntie, they are bad guys. Kill them."

The old lady who had been standing there trembling, brushed her head up. Suddenly, there was a violent flash of light in her eyes, and the originally very rickety and thin body suddenly began to swell wildly, like a balloon that was blown up.

From a dry and thin old lady to a fierce woman comparable to a strong man in an instant, it was just a blink of an eye. The long walking stick that was half taller than her before turned into a stick, and the old lady didn't even make a sound. She lifted her crutches high and smashed it down at Yang Chen who had already rushed to the front.

Ya Gupo went crazy because of her cultivation, so many of her previous attack methods have been forgotten. The only thing she has not forgotten was that she picked up her dragon head crutch, which was originally her life source magic weapon, to hit people. This most direct and straightforward attack method was the most comfortable method to Ya Gupo.

The formation core was exploded by Yang Chen, and the formation naturally began to slowly lose its effect. Yang Chen's figure naturally had no obstacles anymore and he rushed directly to the front.

Boom, the moment the dragon head cane and the living soil flying sword hit each other, it was as if a small nuclear bomb exploded in the surrounding canyon, the whole area exploded. Countless flying rocks and dust shrouded everyone's figure, and there was no trace of them anymore.

"Snort, you want to bite more than you can chew. A little Yuanying stage ancestor dared to clash with Ya Gupo head on!" Although she couldn't see what was happening and her spiritual awareness could not detect the situation around the dumb aunt, Guan Zhenyao still expressed a happy laughter. But soon she remembered something, and suddenly exclaimed "Auntie, be careful, don't damage his cosmos bag."

Obviously, Guan Zhenyao was afraid that after Ya Gupo destroyed Yang Chen's cosmos bag, her arrangement would fail. She had seen the power of Ya Gupo attacks before and even dacheng stage masters couldn't keep up. Yang Chen was nothing more than a newbie in the Yuanying stage, at this time, he might have become fleshy meat.

Om, a low bell sound rang and Guan Zhenyao suddenly felt a shock in her mind and she became dizzy. The smoke and dust in front of them suddenly dissipated, revealing the figures of Ya Gupo and Yang Chen.

"How is it possible?" Guan Zhenyao couldn't help exclaiming even when she was dizzy, seeing the scene in front of her.

It was not known when a big golden bell appeared on Yang Chen's body, which completely enveloped his figure. Ya Gupo leading crutches hit the bell in front of Yang Chen, motionless. On the surface of the golden bell, there were still two illusory dragon shadows moving up and down, flying constantly.

This scene was completely different from the situation in Guan Zhenyao's imagination of Yang Chen becoming a pool of fleshy meat, so she can't control herself not to exclaim. Ya Gupo didn't know how to hold back her hand. This crutch must have been smashed with all her strength, but she didn't even smash Yang Chen to death. It seemed that even Yang Chen's protective magic weapon had not been damaged.

What kind of magic weapon could block the dacheng stage aunt's full blow? Guan Zhenyao's mind was a little more dizzy and she couldn't accept this fact at all.

But the thing that shocked her was still behind. After Yang Chen's golden bell, it was his living soil flying sword. At this moment, the blade of the living soil flying sword cut right into the dragon head cane of the dumb aunt, it has been cut into by almost half an inch. Not only that, as the two of them added their strength, the blade seemed to cut deeper and after a while, maybe it would cut off the crutches directly.

This was the life source magic weapon of Ya Gupo, it was not known how many battles it has experienced, and it has never been damaged. Now it was ruined like this, even if Ya Gupo's brain was not good, but the painful color on her face was not concealed the slightest. Even if she doesn't know the pain anymore, the damage of her life source magic weapon was closely related to her mind, and it was also extremely painful at this time.

Before Guan Zhenyao could react, Yang Chen and Ya Gupo's free hands had already blasted towards each other. With two loud bangs, the two fists hit each other's body at the same time. This time, even Yang Chen's golden bell did not block the fist of Ya Gupo.

Yang Chen's figure flew directly, flew back dozens of steps, and fell directly into the arms of Gao Yue who was following him. He still hadn't been able to stop, even Gao Yue couldn't help but step back a few steps before the vigorous force disappeared.

Watching this scene, Guan Zhenyao's face showed a smile again. Ya Gupo fist was no worse than a magic weapon, and even the magic weapon for body protection may not be able to block it. On this point, Yang Chen's golden bell was useless.

But Guan Zhenyao's smile only appeared for a moment, and immediately turned into a shocked expression.
