Chapter 506.1: Powerful Demonic Qi Refiner

However, the shopkeeper showed a slight disapproval of Yang Chen's aggressive tactics.

This was not the domain of a dao sect, and a purchase like this by Yang Chen would only give people the feeling of him being stupid and having a lot of money. It could be said that there was no good man and someone to trust in the demon continent, and such exposure of wealth would definitely lead to a murderous disaster.

"The pure golden demon orb just now is too small, wait for me to refine these few, and auction it again!" The shopkeeper's worries hadn't been spoken and Yang Chen's words had been heard over there.

These words directly detonated the entire auction hall, processing the fourth and fifth grade demon orbs into pure golden Demon orbs? Boom, countless people's exclamations sounded directly, even if almost all the people present were the respected Yuanying stage ancestors.

The pure golden demon orb of the fourth and fifth grade could simply increase the spirit power cultivation base for decades to hundreds of years, without any side effects, and no demonic qi influence, was this possible?

Everyone was an expert, although Yang Chen's words were not high, but they still didn't make a mistake. The problem was that this sentence had almost subverted everyone's cognition. After exclaiming, they all looked at Yang Chen with a horrified look.

"He is a demon orb refiner?" They didn't know who said so slowly, and everyone suddenly woke up like a dream. When they looked at Yang Chen again, there was no longer the greed like just now, but a layer of jealousy and respect.

The shopkeeper was relieved for a while, Yang Chen has the identity of a demon orb refiner, and his safety on the demon continent was absolutely guaranteed. In addition, he could completely refine a demon orb into pure gold, which was an added layer of 100% insurance. No one wants to take the risk of being besieged by the cultivators on the entire demon continent to offend such a demon orb refiner.

It seems that the pure golden demon orb just now was launched by the master refiner to see how the market reacted. Of course, it does not rule out the possibility that the master refiner hasn't obtained more demon orbs so far.

From then on, Yang Chen's purpose for buying high-grade demon orbs was already very clear. After all, Yang Chen looked like a novice who just arrived. It's also very possible that he couldn't get demon orbs, he had the cultivation base of the early Yuanying stage. At the outermost periphery, he definitely couldn't find good demon orbs, so he could only buy it at the auction.

In what Yang Chen said just now, it was very clear that this batch of demon orbs had to be auctioned off after they were processed. Doesn't that mean that everyone on the scene hopes to obtain the pure golden demon orbs of fourth and fifth grade?

Decades and hundreds of years of cultivation base, you could get it overnight, how crazy was that? Everyone couldn't wait for the auction to start right now, so that everyone could bid freely.

Unfortunately, Yang Chen still needs to go back and deal with it, everyone understands. It was not an overnight effort for a demon orb refiner to deal with the demon orb. It was just this time that they could go out and raise some spirit stones.

"Grandmaster, what kind of materials are needed, if we have it, you can use it." The spirited guy immediately began to get close. Yang Chen has already proved that he has the ability to completely purify with a ninth grade demon orb. Naturally, the closer the relationship with Yang Chen, the better.

This voice reminded almost everyone and they all began to flatter Yang Chen. If Yang Chen needs anything, he should just ask them to do it and they would definitely gather it right away. The purpose was, naturally, they wanted to get closer to Yang Chen.

Seeing the enthusiasm of everyone, the shopkeeper became anxious immediately and hurriedly shouted "we have already taken care of the grandmaster's needs. You don't need to worry, let's wait for the next auction of the grandmaster!"

Yang Chen indeed came here with the shopkeeper and the demon orb was also auctioned under the name of his stall. The shopkeeper's words didn't bother many people, everyone just cared about when the next auction would be.

"One month later, there will be at least one fifth grade demon orb for auction." Yang Chen was waiting for the girls to reunite here anyway, so he gave a deadline directly. During this time, it was also convenient for these people to raise spirit stones.

Everyone hurriedly left to prepare for everything. It was known that Yang Chen doesn't have only one fifth grade demon orb, he also has a few fourth grade ones. Even if only one was auctioned a month later, it would be sold in the future. Just taking advantage of this time, one reason was to raise spirit stones, and second, if they have no hope, they could also notify some promising experts to come.

Even if you can't buy it by yourself, if this kind of news was sent to some super experts, it was not a big or small favor. If they could use it in the future, why not do it?

There was almost no fool here, everyone was busy immediately, and soon the auction room becomes empty. The host of the auction house was excited, and he came forward to bow to Yang Chen.

"Thank you, Grandmaster!" The auction house was sincerely grateful. Yang Chen not only chose to auction, but the key was that he chose to auction in their place, which was simply a pie from the sky. In the future, this auction house might grow from there, how could the auction house not be ecstatic?

Even if Yang Chen was here for a short time, it was a good opportunity for the auction house. You know, at their gathering point on the edge, there has never been a real grandmaster. This time, if it works properly, it would definitely have a relationship with some big people. The benefits for future development were simply self-evident.

Yang Chen ignored these trivial matters and went straight back to the room he had booked to retreat. It was strictly forbidden for anyone to fight at the gathering point. No matter what the reason, once it does, the first one would be attacked by a group. If you have any grievances that need to be resolved, go out to the gathering point and find a place by yourself, but no murder was allowed in the gathering point.

Moreover, with Yang Chen's current status as a demon orb refiner, no one dared to show any disrespect to Yang Chen. There were people paying attention to his residence almost all the time. Anyone who doesn't have eyesight who attacked him, except for being immediately killed as a gift to Yang Chen, there would be no other end.

Everyone was waiting for the next auction to be held, a month has not yet arrived. This small fringe gathering spot has already begun to gain a lot of popularity. There were also some dacheng stage masters who usually do not appear here. The person rushed to this side personally, so that the atmosphere at the gathering spot was also warmed up.

In the anticipation of the crowd, Yang Chen's closed hut finally opened on the 27th day, and Yang Chen appeared in front of everyone with a tired face.

"I have finished two." In the face of the coming auction house owner, Yang Chen just said one word, and threw two pure golden demon orbs at him "I want to rest."

Chapter 506.2: Powerful Demonic Qi Refiner

Yang Chen was not afraid that the auction house would embezzle his two demon orbs. Under the eyes of so many people, who dares? Even if it was served on the spot, it was impossible to increase a hundred years of skill on the spot, and it would definitely be swarmed and divided.

What's more, the auction house owner cares not only about the cultivation base over the years, but also the reputation of the auction house. Regardless of the lawlessness of the demon continent, there was no scum left at the gathering point.

"One is in the fifth grade, and the other is in the fourth grade!" The auction house owner was also refreshing enough, and when he got the demon orb, he immediately appraised the grade. In fact, it was known at the time of the last auction, but an announcement in itself could still attract a lot of attention. Especially the last sentence he announced "All are pure gold, super-class demon orbs!"

Boom, the people who gathered together anxiously waiting, finally let out their excitement. Even the big figures who were not there but always followed the situation with their spiritual awareness, also showed knowing smiles in their respective rooms.

The attention of the powerful experts didn't last long on the demon orbs, and they quickly turned to Yang Chen's side. A demon orb refiner who could completely purify a demon orb, put it on anyone, was an object worth fighting for.

Not to mention the demon sect disciples and the demon race, they need this kind of risk-free upgrade for their cultivation. Even if it was a dao sect disciple, who was unwilling to increase their cultivation base by decades and hundreds of years without any effort?

On the demon continent, establishing a friendly relationship with such a demon orb refiner means that as long as one has a fourth-grade and fifth-grade demon orb, he could improve his cultivation for a hundred years. One hundred years of cultivation was enough for those masters in the early dacheng stage to enter the middle dacheng stage. Not to mention those masters who have reached the peak Yuanying stage, even if there was no improvement in their mood, the spirit power cultivation base skyrocketing was enough to reach the dacheng stage.

All the masters of the Yuanying stage in the gathering point were warned, and there were warnings from several masters of the dacheng stage. No matter where in the demon continent, anyone who dares to have trouble with this demon orb refiner would be attacked by a combination of several masters.

Everyone here was expecting the auction to be held as scheduled, but Yang Chen over there was beginning to feel a little anxious about how his few wives have not arrived yet. In terms of time, it should be almost the appointment time. Could it be that something unexpected happened?

Regarding the cultivation base of the four women, Yang Chen was quite relieved. If they just wandered around the outer area, there would never be a problem. The demonic fiends similar to the demonized demon vine were also unique. Yang Chen doesn't believe that within thousands of miles around here, there could be another one.

This month's time was said to be used to purify the demon orbs, but in fact it only took a few days to truly absorb the demonic qi. Most of the time, Yang Chen used his heart demon to hone his state of mind.

It was not just negative emotions that affected the mind from the heart demon. When it accumulates to a certain level, even the positive emotions would also be induced into the heart demon. The most typical example was the expansion of self-confidence. Over-confidence becomes blind self-confidence, which has a series of counter-effects.

Yang Chen had never encountered such a situation in his previous life. Speaking of it, it was related to the experience of the previous life. How did Yang Chen develop self-confidence when he was chased and killed by the Greatest Heaven Sect and then controlled? It was nothing more than a step-by-step approach, and then the people at the Profound Heaven Sect didn't want Yang Chen to die early, so they helped him break through certain bottlenecks.

Regarding the true state of mind cultivation, Yang Chen in his previous life was at the peak of the heavenly Immortal realm at best. In this life, Yang Chen apparently didn't realize this until the emergence of these emotions.

In Yang Chen's cognition, negative emotions were prone to heart demons, but he has never thought that positive emotions would be the same. During this month, Yang Chen has experienced such a situation at least three times, and each time he avoided it when it was dangerous.

However, this kind of training has benefited Yang Chen a lot, he felt that his mood cultivation has improved a lot, and he had a correct understanding of things that he could not figure out before.

This also made Yang Chen even more aware of why those in the heavenly court would drink and party from time to time instead of cultivating assiduously. Yang Chen originally thought that the combination of work and rest was the right cultivation path, but now he understands how one-sided it was.

Although the combination of work and rest was good, the real reason was the correct desire to channel. Everything in the world has its own desires. Generally speaking, acting according to instinct was basically normal behavior. Human beings were a little more complicated, with a lot of morals and ethics, but some normal needs were not necessarily discarded. They were released when they should be released, this was the true way of cultivation.

The day before the auction, Yang Chen finally saw Shi Shanshan. Wearing a veil, she appeared in the gathering spot with a fierce murderous aura.

Many people in the demon continent have such a situation, everyone's mind was attracted by the demon orb to be auctioned, and they would not pay attention to a woman who they can't see her face. To be honest, those who survived the fight in the demon continent were they people who would be overwhelmed after seeing a woman? Even if they paid attention, she was just an opponent, not a woman who they wanted to have an idea on.

Especially when Shi Shanshan entered Yang Chen's room, no one dared to have an idea to attack Shi Shanshan. Who dares to move against the woman whom the mysterious grandmaster Yang was accustomed to?

Yang Chen was very strange, Shi Shanshan pinched to the gathering point. This was conceivable, but how come Gao Yue, Gongsun Ling and Sun Qingxue have not arrived yet? Although he didn't worry much about their safety, he was still afraid that something would happen to them.

"Why are you here now?" Yang Chen was naturally happy when he saw Shi Shanshan. Because of the achievement, he was also particularly gentle with Shi Shanshan, and does not conceal the feeling of missing Shi Shanshan.

Shi Shanshan was the first to come back, facing Yang Chen alone and seeing Yang Chen caring so much, she felt the same sweetness in her heart. It seems that even the murderous intent on her body has been forgotten behind her, the cold and compelling cold plum fairy curled up in Yang Chen's arms so comfortably, as if she was a little cat of Yang Chen. If they let other people see it, they would definitely be shocked.

Yang Chen hugged his sweet wife while telling her about his experience during this period of time. When she heard that Yang Chen could completely purify the demon orb, even though Shi Shanshan was accustomed to seeing Yang Chen performing miracles, she couldn't help but express her shock again.

In the same way, Shi Shanshan curled up in Yang Chen's arms, enjoying the best fragrant tea in a very comfortable way, and also told Yang Chen about her harvest over the past year.

While Yang Chen and Shi Shanshan were enjoying their rare time alone, the auction floor had turned the sky upside down.

Chapter 507.1: The Miracle Of The Auction House

Yang Chen didn't care about the auction of the demon orbs, anyway, it was just spirit stones, he already had a lot. With a beautiful woman in his arms, who would be interested in those things?

If Yang Chen doesn't care, that doesn't mean that others don't care. People who came to the demon continent to cultivate, Yang Chen didn't know, but the dao sect knew that they were all the guys who basically had no achievement in their sect. They came here to put their lives on the line in exchange for a little bit of cultivation growth.

Everyone was a cultivator with poor aptitude, these fifth- and fourth grade demon orbs could improve their cultivation for decades and hundreds of years. For hundreds of years, where could they find supplements for poor qualifications, not in terms of time? It saved a hundred years of penance in one fell swoop. Which one won't be happy?

In the auction hall alone, there were seven dacheng stage masters and dozens of peak Yuanying stage masters. This was because the news has not spread farther in a month, otherwise, the lineup would definitely be stronger than this.

The people at the auction house knew what was good or bad, and they didn't arrange other things, they just went straight to the topic. These guys were all used to killing people, who knows that they would wait patiently until the end? It's better to come up and meet their needs, as soon as it came up, the auction entered the climax.

"Fifth grade demon orb, super first-class, pure gold, the starting price is 80 kilograms of high-grade spirit stones, and the price increase shall not be less than one gram of high-grade spirit stones, start!"

"One hundred kilograms!" Someone immediately raised the price directly to another level. However, although in terms of value, one hundred kilograms of high-grade spirit stones were equivalent to one kilogram of top grade spirit stones, but not everyone has the top grade spirit stones, and everyone still habitually uses high-grade spirit stones to calculate the price.

"One hundred and twenty kilograms!"

"One hundred and twenty-five kilograms!"

"One hundred and thirty kilograms!"

...Everyone defaulted to using the high-grade spirit stone as the unit of quotation, and the quoted price later basically increased according to five kilograms of the high-grade spirit stone, and soon reached 180 kilograms of the high-grade spirit stone.

At this point, even those dacheng stage masters seem to have begun to count the spirit stones in their pockets, and the increase in their quotations has also dropped to a kilogram.

“One hundred and eighty-one kilograms!”

“One hundred and eighty-two kilograms!”

..... One hundred and eighty kilograms of high-grade spirit stones were already equivalent to one kilogram of top grade spirit stones. From the perspective of replenishing spirit power, this one kilogram of top-grade spirit stone was enough for an early dacheng stage master to use it uninterrupted for decades, and it was almost the same as the level of improvement.

The problem was that improving one’s cultivation base was to increase the upper limit of one’s cultivation base, while supplementing spirit power only supplements the current cultivation base. The two were definitely not the same.

At this time, the speed of the auction bidding has been much slower. Normally, in this case, the host of the auction house must vigorously arouse the emotions of the bidders and let them join the bidding process. This was the usual method of the auction house.

However, in the face of so many experts today, even if the host of the auction house was also a Yuanying stage ancestor, he dared not say anything at this time. Stirring emotions? What a joke! Didn’t he see that some of the dacheng stage masters’ faces have turned black? At this time, if he stirs their emotions, wasn’t he courting death?

Most of the Yuanying stage ancestors in the auction hall were reduced to spectators. This price, even if they put all their money into it, they can’t get it. They could only watch a few experts and giants bid there.

Several dacheng stage masters were chanting words, but everyone around couldn't understand what they were talking about. However, in the ears of several dacheng stage masters which were undetectable by others, there were constant arguments from several bidders.

"This old man has been trapped in this state for more than two hundred years, and this orb is bound to be obtained by me so why don't you let me have it."

"You are old and you lack cultivation skills, I also lack cultivation skills, so why let it be for you?"

"This old man has a superb material in his hand. If you are willing, the old man is willing to reward you."

.....All kinds of secret operations were done, and on the table, there was still a pound by pound. When the time was about to come, they added a kilogram to ensure that there was no transaction.

The invisible transaction finally had a result, and the price of the auction house was also handed over 206 kilograms of high-grade spirit stones. This fifth-grade demon orb was finally sold, and it fell to a dacheng master who was a demon cultivator.

The spirit stones were delivered on the spot, and the goods were also delivered on the spot. The demon cultivator who got the demon orb, without saying anything, directly swallowed the fifth grade demon orb into his mouth, chewed it a bit and swallowed it in his stomach.

This move was not surprising at all, most people who bought the demon orb dealt with it in this way, and directly eliminated any thoughts about the idea of fighting for the demon orb. There were also people like Yang Chen, but they were usually demon cultivators, and no one would make up their minds.

Before the second demon orb was auctioned, everyone wanted to see if the demon orb of the fifth grade had any effect, so a cultivator directly spoke to the host of the auction house, and then the whole auction was suspended. Everyone looked at the master who subdued the demon orb.

It was strictly forbidden to attack at the gathering points, even if there was a hatred of disagreement, no force was allowed here. The expert was relieved to subdue the demon orb, and then no matter who was around, he closed his eyes to refine the demon orb.

An invisible power emanated from the sitting cultivator, directly forcing the people around him a few steps away. Afterwards, everyone felt his aura soaring all the way up, almost without stopping.

This soaring aura lasted for a full two hours. And during the two hours, whether it was the Yuanying stage ancestors or the masters of the dacheng stage, they all stared at him silently.

Whether the high-grade demon orbs would work after being completely purified, this guy was the best touchstone. In addition to the many benefits he promised, the reason why other cultivators would cede this demon orb to him was also for observation with this purpose.

If they wanted to purify a demon orb completely, they would just look for Yang Chen, but they were just afraid. In fact, there were a few high-grade demon orbs in the hands of these experts. It's just that they were afraid that the demonic qi contained in it would hurt them, so they haven't dared to use it. If it really works, they would rather spend a high price to ask Yang Chen to purify their demon orbs for them.

After the cultivator's momentum soared to the apex, he finally stopped, and then he just snorted and stopped doing everything. Although he didn't have any other performance, the changes that had occurred in him were enough for everyone to judge whether the demon orb was effective.

After just such a short time, the old cultivator had become much younger. Although he still had gray hair, they have become more energetic.

Chapter 507.2: The Miracle Of The Auction House

Needless to say, this was the effect of the demon orb. Adding decades of cultivation base was naturally good for the body.

The reason why the old guy was so anxious to win one was because he has been stuck in this state for a long time and has been unable to break through, and his body was slowly aging. There was no way to stop this change, his only hope was to break through the bottleneck and improve his cultivation base.

In his situation, several masters of the same dacheng stage could almost guess it. Seeing what he looked like now, it was obvious that the demon orb played a decisive role.

“What are you waiting for, bring out the second one?” Another dacheng stage master immediately urged.

The second demon orb was quickly brought up. This time it was a fourth grade demon orb, which was one grade better than the one just now. Although it was only one grade, the grade was a big level higher. This could be a demon orb, which could raise the cultivation base by a hundred years.

“Fourth grade demon orb, super first-class pure gold...” The host of the auction house didn’t dare to neglect, and quickly mentioned these routines.

However, before he finished speaking, someone interrupted his introduction and directly offered the price “Two hundred and fifty kilograms of high-grade spirit stones!”

“Two hundred and seventy kilograms!”

“Two hundred and seventy-five kilograms!”

...

The group of people did not pay attention to the host, and competed with bids. The host gave a dry laugh on the stage, closed his mouth knowingly, and then quietly waited for the bid to stalemate. At that time, it was time to show him the time to announce the first and second time as well as the closing time.

The competition quickly became fierce, the cultivator who got the first demon orb in front seemed to be very trustworthy. He didn’t bid on this demon orb, but closed his eyes slightly, listening to the surrounding movement and at the same time, feeling the new changes in his body.

The sudden increase in the cultivation base was naturally a bit unaccustomed. Normal cultivation requires decades of cultivation to be able to improve, but now that it was acquired in a short period, it was normal to not get used to it.

At the beginning, the first demon orb was only pursued by the dacheng stage masters. The masters of Yuanying stage in the halls of the auction house and basically didn’t make a lot of moves, but now the

situation was different. Everyone has truly seen the effect of the demon orb, and all the people with financial resources were vying to bid for it.

“Three hundred kilograms!” Finally, the price broke through three hundred kilograms of high-grade spirit stones, which was the price of three kilograms of top-grade spirit stones, but the competition continued and still did not stop.

“Three hundred and five kilograms!”

“Three hundred and eight kilograms!”

“Three hundred and ten kilograms!”

...

The price was at an increase of three kilograms and five kilograms. Slowly ascending, it seems to have reached the climax. That’s about it, suddenly abnormal changes occur suddenly.

“Three hundred and fifty kilograms!” A decisive voice came out and reached everyone’s ears.

Everyone’s eyes were attracted by the owner of the voice, and they looked over. The bid was made by a shopkeeper who had opened a shop at this gathering point, who was stingy and loved money like his life. The sudden bid at this time was truly shocking.

He suddenly added dozens of kilograms of high-grade spirit stones. Even those masters of the dacheng stage couldn’t help but begin to ponder. Upgrading the cultivation base was a good thing, however, not having so many spirit stones on hand was problematic. Everyone always paid attention to spirit power cultivation, how could they care about how much net worth they had?

This auction was stopped on the spot. Without spirit stones, there would be no way to buy demon orbs. Borrow from others on the spot? Who was willing to use his life savings to help others improve their cultivation base? This was the demon continent. If the other party decides not to pay it back and kills him directly, wouldn’t he dig his own grave?

There was no bidding for a while, and the auction hall fell silent for a while. The host of the auction house finally refreshed, it was his turn to appear.

“Three hundred and fifty kilograms of high-grade spirit stones going once!”

“Three hundred and fifty kilograms of high-grade spirit stones going twice!”

“Three hundred and fifty kilograms of high-grade spirit stones sold!”

In the angry eyes of several dacheng stage masters, the shopkeeper who successfully bid for the demon orbs coldly delivered the spirit stones and got the demon orb, just like the dacheng stage master just now, he quickly swallowed the demon orb, sat down and started refining.

Everyone didn't leave, they all wanted to see what effect this shopkeeper would have after taking it. Soon everyone noticed the fact that the shopkeeper had reached the peak Yuanying stage and was stuck in this bottleneck for a long time and couldn't break through. Later, he could only open a small shop at the gathering point, and feel the challenge while operating. This time it was estimated that it was for the impact of success, so the one who broke the boat took out all his continuations, intending to break through the bottleneck in one fell swoop.

The waiting time didn't last long, and the shopkeeper opened his eyes after almost two hours.

There was no need to ask the shopkeeper if it was effective, because the sky has already begun to slowly condense tribulation clouds at this moment. The shopkeeper screamed in excitement, and then flew away from the auction room and went straight to the outside of the gathering point.

If the cloud condensed, he was about to face a tribulation. It was forbidden to fight in the gathering point, and naturally it was also forbidden to face the tribulation here, so the shopkeeper rushed out quickly.

Less than a moment after he rushed out, the yin fire tribulation began to descend. The Yuanying stage masters resisted the tribulation, and only those masters of the dacheng stage dared to lean over, and the others were hundreds of meters away.

The yin fire tribulation, after the sky over there flashed a few times, the cloud in the sky began to dissipate, but in the direction of the cultivator, there was a strong and slightly familiar aura. It was the shopkeeper who bought the fourth grade demon orb.

This situation could only show that the shopkeeper has successfully passed the yin fire tribulation and has been promoted to the dacheng stage.

The effect of two consecutive masters after taking the demon orbs, one was to rejuvenate, and the other was to promote to the dacheng stage. No matter which one, those who want to know the effect of this pure golden demon orb were irresistible.

The people in the gathering point were overjoyed almost instantly. Such a powerful demon orb came from the more shocking grandmaster Yang. The most important thing was that grandmaster Yang was still in the gathering spot, and he still had two higher-level fourth grade demon orbs in his hand, which were said to be auctioned later.

Those experts who have demon orbs in their hands that have not yet been purified were even more happy. Of course, it was better to use their own demon orb, as long as they pay for the processing costs.

At this time, it was natural to pay attention to grandmaster Yang, to pay attention to when he would organize the auction and when to acquire the demon orb. Everyone has more or less swallowed a low-grade demon orb, and naturally knows the risk of the demon orb that contains demonic qi. Now that Yang Chen could completely purify it, how could everyone easily give up this kind of opportunity?

Countless people began to wonder what kind of purification technique Yang Chen used to make the demon orb so pure.

Chapter 508.1: Meeting

Yang Chen's method of purifying the demon orb was theoretically what most people could think of, but unfortunately, being able to think of it doesn't mean being able to do it.

He absorbs the demonic qi and uses it to temper himself, and then makes the demon orb become pure. It wasn't known how many people have thought about it, and it was not known how many people have tried it, but except for Yang Chen, the results of everyone else were just one word, miserable!

After most people do this, the result was that their spirit power loses control and their body explodes. There were a few others that seem to have made small breakthroughs at critical moments, and even attracted the tribulation, but they themselves could not completely suppress the demon orb, so the result was that they disappeared in ashes in the tribulation and there was nothing left.

Over time, some smart people figured out the practice of using other living creatures to absorb the demonic qi, and it has also received certain results. However, ordinary living creatures may not be able to withstand the attack of the demonic qi and they need to use various methods to enhance the purification effect of living creatures. Of course, in the final ending, the living creature would definitely become a demonic fiend, and then be killed.

This technique was also a common technique in the demon continent now. The only difference was the living creatures used by each refiner and the methods used to enhance the living creatures. The best demonic orb refiner could reach the first-class level, but there would still be a black streak remaining.

In the minds of the people in the demon continent, the demonic qi cannot be completely driven away. The demon orb that Yang Chen took out simply subverted all people's cognition.

And Yang Chen was also blessed with unique conditions to be able to do this. First of all, Yang Chen's spiritual awareness has reached the level of the second grade human immortal realm, and it could completely suppress this degree of demonic qi, and control the speed and amount of absorption at any time. Second, Yang Chen has the memory of a Great Luo Golden Immortal.

These two points were particularly important. Although the demonic qi was powerful, under these two points, it cannot cause any substantial damage to Yang Chen. Yang Chen could control the intake of demonic qi, and this alone has firmly established himself in an invincible position.

Even if the demonic qi was not sufficiently concentrated, it would not allow Yang Chen to be in danger of becoming confused. All the emotional disturbances caused by the demonic qi could be quickly calmed down under the mental state of his previous life. Coupled with the three purities secret art, the demonic qi on the demon orb could only become Yang Chen's fortune.

The powerful movement of the yin fire tribulation outside, of course, awakened Yang Chen and Shi Shanshan. Yang Chen walked out the door and found someone to understand what had happened. When grandmaster Yang asked, which bastard would dare to conceal anything? Besides, this matter has something to do with grandmaster Yang.

Yang Chen was okay, Shi Shanshan couldn't help being surprised when she heard that it was her own husband's demon orb that caused a cultivator who had been trapped in the peak Yuanying stage for a long time to reach the dacheng stage.

Before they parted ways, Yang Chen had sternly told the four women not to take the demon orbs. The reason was very simple, this kind of easy thing was far less suitable for you than the one you have cultivated.

Now that some people used the demon orb to advance to the dacheng stage, Shi Shanshan couldn't help being curious again, and asked Yang Chen "This demon orb, you really don't want us to use it? Can't you get rid of all the demonic qi?"

"It's medicine with three points of poison!" Yang Chen directly responded to Shi Shanshan's question with a popular saying among ordinary people "Your aptitude is outstanding, there is no need to use such a method. Even if you don't use the demon orbs, the speed of your cultivation is much faster than that of them, so why bother to use something that will cause big trouble in the future."

"There will be big trouble in the future?" Shi Shanshan frowned, seeming a little suspicious that Yang Chen's words were so general "How do you know?"

"I just know it!" Yang Chen pointed his finger at his head, but said nothing more.

The cultivators of the demon continent who soared to the spiritual realm and Immortal realm in his previous life were indeed very powerful warriors. However, when they cultivated to a higher realm, golden Immortal realm and great Luo golden Immortal realm, they had to spend thousands of years adjusting their increasingly complicated spirit power. It was not enough to describe it as a big problem.

Of course, the benevolent see the benevolent and the wise see the wisdom, not like this in the mortal world, maybe they don't even have the opportunity to enter the spiritual world. Everyone has his own

aptitude, and each person has his own way of cultivating, so you can't force it. Yang Chen could not force others to cultivate according to his instructions, but he could influence his wives.

Shi Shanshan just asked, and never said she would not listen to Yang Chen's instructions. After discovering that the demon orbs that Yang Chen had handled had such an effect, she couldn't help but be moved. She took out four demon orbs of about sixth grade or so from her body and gave them to Yang Chen.

"Deal with this too, the auctioned spirit stones are regarded as private money for my family!" Shi Shanshan uttered the word private money without evasiveness, not afraid that Yang Chen would be annoyed.

In fact, Yang Chen never cared about such things. Each of the four girls has a family, and it was normal that some of the precious materials are given to their relatives. On the contrary, it was said that this mate has not really given anything. He has given a lot of medicinal pills to them, but has never given them spirit stones.

"It's my mistake." Yang Chen immediately realized his mistake. It was normal to give his wife some key things, but he couldn't lack some little care. It was also the duty of a husband to give them a batch of spirit stones so that they could freely choose something they like.

The auction house did not ask Yang Chen to wait. After deducting half of the usual handling fee, it was quickly delivered to Yang Chen. The total amount was more than five hundred kilograms of high-grade spirit stones, and Yang Chen directly gave out one hundred kilograms to Shi Shanshan.

"Your pocket money." Yang Chen smiled and divided the spirit stone into five, four of a hundred kilograms, from the remaining one "For this period of time use this one and wait for me to buy a better demon orb to sell for a good price." The implication was that there will be more in the future.

Suddenly a hundred kilograms of high-grade spirit stones were given to her, and Shi Shanshan couldn't help but become happy. This was the same value as a kilogram of top grade spirit stone. Although the Green Jade Immortal Island has a great fortune, it has never been so lavish. Her husband, whether it was being an alchemist or a demonic qi refiner, it was always a rich and lucrative profession.

“By the way, why are you the only one to come back after so long?” Until now, he hasn’t seen the shadow of the other three women. Of course, Yang Chen thought of something, so he asked Shi Shanshan. He believed that Shi Shanshan must know the answer.

“We have agreed before we dispersed that everyone will come back to accompany you in turn.” Shi Shanshan was not afraid that Yang Chen would know, and directly replied “I’ll be the first in line, and the others will follow.”

Chapter 508.2: Meeting

For the thoughts of the four women, Yang Chen still felt it was a little funny. It seems that they all wanted to spend a period of time alone with Yang Chen and occupy Yang Chen alone. This made Yang Chen very proud.

Everyone agreed on ten days, naturally, lingering was indispensable during these ten days. Apart from intimacy, it was naturally indispensable to join in dual cultivation. Between husband and wife, they had not had spiritual awareness double cultivation in more than a year, and each of them has new insights. In just a few days, the cultivation results were remarkable.

Shi Shanshan was obviously still in a state of being unable to control the leakage of her murderous aura. This was a common state for newcomers who have recently come to the demon continent, and it was also a very obvious sign of being a newcomer.

“Has anyone provoked you?” Yang Chen asked with a smile while discussing with Shi Shanshan while cultivating.

“There are a few. Seeing that I have a low level of cultivation, I’m not familiar with them when I first arrived, and I have clashed with them several times.” Shi Shanshan replied casually “There are two or three late and peak Yuanying stage masters.”

While speaking, Shi Shanshan leaned on a beautiful couch that Yang Chen specially made for her, her body stretched out and she looked ravishing. In addition, she had just been moisturized by Yang Chen, and she was so fascinating that she couldn’t hide her beauty.

“Well, it’s better to be careful in the future.” Yang Chen doesn’t care who those guys were, he just told Shi Shanshan to be careful.

“Won’t you ask about their ending?” Shi Shanshan couldn’t help but want to show off, but Yang Chen didn’t ask about the results, which made Shi Shanshan a little bit embarrassed.

“You have come back safely, why do I have to ask?” Yang Chen replied with a smile.

Women were like this, when facing a lover, their iq seems to naturally decrease. For such a simple question, Shi Shanshan also wanted Yang Chen to give a reason.

However, this could only be explained by one point. In Shi Shanshan’s eyes, Yang Chen’s position was very high, and that’s enough. What made Yang Chen more happy than this? In the future, the cold plum fairy, who would be known throughout the immortal realm, values him so much. What else was he unsatisfactory about?

It was estimated that this state of accidental exposure would take a long time to disappear until Shi Shanshan could control it satisfactorily. This process in itself was a very good process of tempering her character, and Yang Chen would never pull the seedlings to encourage her, some things were better to let go with the flow.

“When you can control the killing intent on your body, I have good things for you.” Demonic qi tempering was definitely a good thing that you can’t ask for. Of course Yang Chen wouldn’t cherish himself, he would definitely use it on his wife. Unfortunately, it was not the best time yet. It also needs their cultivation base to be further strengthened before they could proceed.

Being with Yang Chen, the tiredness and tense nerves caused by the crazy killings were completely relaxed, and Shi Shanshan also experienced a rare few days of trust in life without the slightest defense. Everything was supported by Yang Chen, which felt so good.

Ten days passed in a flash. Shi Shanshan and Yang Chen were so infatuated when they were together, and they almost had to rely on Yang Chen to not leave, but it was really time to separate. Shi Shanshan instantly reverted to the cold plum fairy, she kissed Yang Chen lightly and put on the veil, turned around and left without any muddle.

The people in the gathering spot that followed Yang Chen were all curious about Shi Shanshan's identity. Someone also recognized that she was a woman who came to the demon continent with Yang Chen, and she should be called Han Mei. But no one knows the specific origin of the woman.

Of course, someone would quietly arrange to let people secretly monitor Shi Shanshan's whereabouts. But before deciding what to do with Yang Chen, no one would attack Shi Shanshan. And soon, everyone's attention was attracted by another thing.

Yang Chen released five more demon orbs. This time, only one of the five demon orbs was in the fourth grade, and the other four were only in the sixth grade. But even so, it has attracted the attention of countless people.

The fourth grade demon orb would naturally be the competition of those masters in the dacheng stage, or the kind of masters who have been trapped in the peak Yuanying stage for many years, similar to those who have been promoted to the dacheng stage. As for those in the sixth grade, the experts would definitely look down on them, and they would naturally leave it for the pitiful Yuanying stage ancestors.

A Yuanying stage ancestor, placed on the dao sect's domain, was already enough to establish a sect. In the past, there were only eight Yuanying stage masters in the Pure Yang Palace. In the demon continent, they could only be called pitiful, there were too many experts and there were also many rich people.

Poor Yuanying stage ancestors, even if they wanted a high-grade demon orb, they couldn't afford that price. The peak Yuanying stage master had only saved his possessions after he had been in business for many years, and he invested in it all the time. Relatively speaking, there were many people who could afford the price of the demon orbs in the sixth grade.

Originally, someone wanted to talk to Yang Chen about purifying the demon orbs in their hands, but before they could find Yang Chen, another woman had already appeared in Yang Chen's room. It was Yang Chen's senior apprentice sister, who was called Liu Yun to the outside world. When the beautiful lady returned, naturally no one would disturb them, and everyone could only wait.

Gongsun Ling was also showing a murderous aura, there was no way around it, newcomers were like this. Relatively speaking, in terms of safety, among the women, Yang Chen was most assured about Gongsun Ling.

The protection of the mountain river geographical map could definitely effectively ensure the safety of Gongsun Ling. So the rest was to see how Gongsun Ling uses it to kill the opponent.

The ordinary dao sect cultivators and monster cultivators were easy to handle. When they meet Gongsun Ling, they may be able to save their lives, but they can't escape the fate of being imprisoned in the mountain river geographical map. However, the demonic fiends were completely different.

The demonic qi was so powerful that Yang Chen has repeatedly emphasized it many times, and even Gongsun Ling dare not easily send the demonic fiends with the demonic qi in the mountain river geographical map. The original intention of coming to the demon continent was to gain experience in killing, so it was natural to kill.

In a year's time, the original gentle and elegant senior apprentice sister has become a strong woman who kills decisively. The experience of the demon continent was far more fierce than in the immortal falling well, even if Gongsun Ling has experienced the slaughter of the immortal falling well, she was still not used to it here.

Underground spirit beasts and demonic fiends were two different things after all. One was a spirit body, and the other was a living monster. Whether in terms of cultivation level or degree of brutality, the underground spirit beasts cannot be compared with the demonic fiends of the demon continent.

They also spent ten days together, the same double cultivation, the same pocket money given by Yang Chen of one hundred kilograms of high-grade spirit stones, the same total relaxation here with Yang Chen, repairing tight nerves, Gongsun Ling did the same. Then she embarked on the journey of gaining experience again.

Next, she was replaced by Sun Qingxue, and ten days later, she was replaced by Gao Yue.

Chapter 509.2: Materials As Reward

With the materials collected on the demon continent, Yang Chen immediately remembered the vines he had collected from the demonized demon vine, the precious materials that blocked the exploration of spiritual awareness, and even the Yin Yang Heaven Burning Fire. Even if it's just a rudimentary Yin Yang Heaven Burning Fire, it's also a superb material.

“Don’t worry about the demonic qi, what precious materials are there?” Yang Chen answered directly, and then asked back.

Liu Ming was startled, and immediately realized that he had used common sense to measure the young grandmaster Yang in front of him. Others regard demonic qi as dangerous, but in the eyes of grandmaster Yang, it was not a big problem at all. Thinking of this, he laughed at himself.

“I was worrying about it, grandmaster forgive me!” Liu Ming quickly apologized, and then began to report what he had “Luo Chen Black Jade, Tianxiang Tongue Wood, nine quite flying dust...”

“Wait!” Yang Chen suddenly stopped, and then asked curiously “What is this nine quite flying dust?”

Seeing that Yang Chen was interested in one of them, Liu Ming was even more energetic, and hurriedly opened his qiankun bag, took out a black gourd, opened the mouth of the gourd and immediately a black dust flew out. This black ash, as soon as it was released, almost occupied the space of the entire room, gathering but not dispersing, the room was immediately filled with a devilish atmosphere.

Yang Chen stretched out his hand and grabbed it in the air, and he caught a handful. Upon closer inspection, he knew immediately. This nine quite flying dust was a kind of refining material belonging to the sixth earth attribute, he had never seen it before, but the feeling of holding it in his hand was that it was a precious material for refining magic weapons.

Among the Yin-Yang five element flying swords, Yang Chen has not yet had the sixth earth flying sword, and now there was such a gourd of nine quite flying dust, so he could consider refining a sixth earth flying sword.

“How many of these nine quite flying dust do you have?” Yang Chen asked Liu Ming with a little fine dust in his hand.

“Hundreds of kilograms!” Liu Ming was taken aback, and replied subconsciously.

“Okay, I want these nine quite flying dust, senior are willing to make a deal?” Yang Chen immediately made a decision and asked quickly.

“Huh?” Liu Ming was almost stunned by the pie falling from the sky. Grandmaster Yang didn’t want spirit stones, just these nine quite flying dust? Was there such a good thing?

The nine quite flying dust was originally a precious material, but after being contaminated by the demonic qi, it basically had no use, and belonged to the rank of waste. Originally it was not easy for Liu Ming to obtain these nine quite flying dust. After exerting great efforts, he realized that no one cares about it, and he can’t use it and it has become a tasteless existence.

Now Yang Chen actually wanted to use the nine quite flying dust as a reward for purifying the demon orbs. This sudden change gave Liu Ming an unusually unreal feeling. He stayed where he was, and there was no other reaction except for the sound of “Ah”.

“Senior? Senior?” Yang Chen waited for a while, and was surprised to see Liu Ming still maintaining his open mouth shape. He yelled twice and awakened Liu Ming from his sluggishness.

“Ah? Ah! No problem, no problem!” As a master of the dacheng stage, Liu Ming hadn’t made such a gaffe for a long time, and he didn’t expect to lose face like this in front of Yang Chen. But now he can’t take much care of it, and he hastened to agree first before talking. No one wanted the nine quite flying dust that was worth a few hundred kilograms of high-grade spirit stones, so he didn’t lose anything.

Seeing Liu Ming’s expression of surprise as if he had picked up gold ingots while walking, Yang Chen smiled slightly in his heart and declined to comment. You abandon it like a shoe, I regard it as a treasure, so it was impossible to talk about who loses and who earns.

The black gourd containing the nine quite flying dust was directly delivered to Yang Chen’s hands. Liu Ming enthusiastically told Yang Chen how to control the gourd to collect the nine quite flying dust. The gourd that was attached was regarded as a gift and was also given to Yang Chen.

Others were afraid of demonic qi and didn’t dare to explore the usefulness of the nine quite flying dust in depth, but Yang Chen was not afraid at all. Just after a while, Yang Chen discovered that this nine quite flying dust was able to fully absorb demonic qi. What fascinated Yang Chen the most was that the nine quite flying dust had no upper limit for absorbing demonic qi.

Now this gourd has almost always maintained the demonic qi concentration when it was just collected, but after taking it out of the gourd, it only took a short while to slowly absorb the demonic qi around it. The first thing to bear the brunt was the demonic qi on the demon orbs that Liu Ming left behind.

It's just that the rate of this absorption was too slow, so slow that it was almost imperceptible. Even dacheng stage masters like Liu Ming couldn't detect it. If it weren't for Yang Chen's extremely keen sense of consciousness, plus the fact that he had been dealing with demonic qi for some time recently, even Yang Chen would not have discovered this.

Liu Ming was sent away, and several other dacheng stage masters came, all of whom had already arrived but did not buy the demon orbs. They each had one or two high-grade demon orbs in their hands, they wanted Yang Chen to help purify it.

Later, Yang Chen was not polite, they were all asked if they had any precious materials, and then asked them to use the materials to compensate for a part of the reward, and then add some spirit stones. Moreover, Yang Chen has an additional requirement. After finishing the business with the four dacheng stage masters, Yang Chen would go out to cultivate, so he asked them to block the later ones.

Of course, Yang Chen also let go. When he arrives at another gathering place two years later, he would naturally do business again, telling everyone not to worry and to wait patiently.

The dacheng stage masters at this gathering point have been taken care of by Yang Chen. Even if the Yuanying stage masters were reluctant, but under the eyes of the four dacheng stage masters, they had to give up their plan to find Yang Chen in vain.

It didn't take Yang Chen too much time to absorb the demonic qi of these demon orbs. However, in order to create an illusion for them, Yang Chen stayed in the room for more than two months before leaving.

The demonized demon vine phantom in his sea of consciousness swelled a lot after absorbing the demonic qi of these demon orbs, but it still did not fully recover to its original size of more than ten meters. After Yang Chen wrapped it in the silk of spiritual awareness with confidence, he ignored it for the time being.

Yang Chen didn't idle the extra time, and had been studying the nine quite flying. To refine the flying sword, and still use this kind of material that has never been seen or heard before, it was natural to study the material thoroughly before you could do it.

Fortunately, he had hundreds of kilograms of the nine quite flying dust, and it doesn't cost much to study such a handful each time. In two months, Yang Chen had a thorough understanding.

The nine quite flying dust's ability to absorb demonic qi gave Yang Chen a whole new idea. If the flying sword was built according to this method, the power of this sixth earth flying sword would be the most weird among the great yin yang five elements flying sword, and it was also the most elusive one.

This brand-new refining method also made Yang Chen look forward to it himself.

Chapter 510.1: I Won't Pursue It Anymore

After more than two months, Yang Chen left the room and gave everyone their demon orbs, Yang Chen then left the gathering point directly, he entered the jungle of the demon continent again and continued his own journey.

Yang Chen asked the four women to make progress gradually, and he did the same himself. Although Yang Chen was now confident enough to go deeper, Yang Chen does not intend to do that.

Speaking of which, Yang Chen himself also needs to fight more battles. Regardless of whether it was killing immortals on the Immortal Executioner Stage or underground spirit beasts in Immortal Falling Well, the opponents stood still and let him swing his swords. The number of kills was enough, but he had not experienced the most tragic fighting and melee.

Even in his previous life, Yang Chen participated in some similar battles, but after all, the number was small, and it did not happen every day. Like the Demon Continent, you must be careful to raise your vigilance almost every day or even every moment, always be careful to be surrounded by demonic fiends, and after being surrounded, you must do your best to kill the demonic fiends to escape safely, even if Yang Chen had never encountered it during the most frequent battles in the Immortal world.

There are not many opportunities like this, and Yang Chen was rarely reborn, so naturally he must take it well. The demon continent was a whetstone that was hard enough. Before Yang Chen really becomes a

powerful expert, he would sharpen some things on his body, while also grinding away some unnecessary cumbersome things. This was exactly the purpose of gaining experience.

Going deep into the jungle, Yang Chen casually found a further direction. The demon continent was big enough, and there were enough creatures in the jungle. There are countless plants and animals that Yang Chen has never seen before, so Yang Chen couldn't help but sigh about the world's size and wonder. Even with Yang Chen's experience that he has lived for more than one lifetime, there were more than 90% of things that he doesn't know.

Whether in the mortal world or the spiritual world, there could be no omniscient person. No matter how powerful people are, they have their weaknesses and things they don't understand. Even if they are as powerful as the Grand Supreme Elderly Lord, there were no exceptions.

There were countless demonic fiends that Yang Chen couldn't even count, let alone know the opponent's attack tactics and characteristics. When encountering this kind of unfamiliar enemy, Yang Chen could only rely on his judgment to adapt to changes.

The golden bell protection was never called out, it was a trump card that would only be used in the case of death threats. Yang Chen would not use it to resist ordinary injuries or even serious injuries.

This forced him to forcefully rely on his own response, rely on his own swordsmanship, and rely on his own judgment to meet the enemy. In a short time, this kind of high-intensity fighting may not have an effect, but it puts Yang Chen in danger all the time. But it took a long time. When all of this has become an instinctive reaction, Yang Chen's strength would once again rise to a higher level.

Yang Chen went deep into the jungle to fight for almost four or five months, dealing with the demonic fiends that rushed out from all directions every day, which could almost be described as inexhaustible. On several occasions, he even had to take the initiative to face the attacks of certain demonic fiends, using non-fatal injuries in exchange for his own ray of life.

Fortunately, Yang Chen's healing pills were very effective, always stabilizing the injury at a critical moment and then recovering quickly. Otherwise, it's just the drag of the injury. It could drag Yang Chen's life to death.

The situation seems very abnormal, when Yang Chen was cultivating in the jungle before. The frequency of the appearance of demonic fiends was not so high. Although it was in the marginal area, the area where the demonic qi was the thinnest. The level of the demonic fiends was not very high, but the current situation was obviously a little abnormal.

Almost every once in a while, there would be demonic fiends rushing over to Yang Chen. Sometimes when Yang Chen was being attacked by a group of demonic fiends, another group would come. Twenty thousand points of spirit, barely coping with these endless demonic fiends.

During the occasional rest breaks, Yang Chen released his spiritual awareness to investigate, and within hundreds of miles, no one else existed. But Yang Chen could be sure that someone farther away must be staring at him. Even Yang Chen suspected that these people might be the dacheng stage masters who asked him to purify their demon orbs.

He could only blame his ability to purify the demon orbs was too amazing. The pure golden demon orbs could completely improve the cultivation base without any side effects. Whether it was a cultivator or the monster race, it was coveted by them, not to mention the demon sect. Those cultivators of, hate to be replaced by their own lives.

Under such circumstances, the idea of capturing Yang Chen became inevitable. What's more fun than controlling such a grandmaster in your hands? Not only could you get a lot of wealth through the refining, but also provide a steady flow of qi for the demon orbs you need.

They couldn't do anything in the gathering point, so they must wait until they get out of the gathering point before making any plans. As a demonic qi refiner, his cultivation level was definitely not very good. This was almost a common problem of demonic qi refiners in the demon continent.

As a demon refiner, Yang Chen couldn't get out of this range even if his purification methods were brilliant. This could also explain why Yang Chen asked his four women to cultivate, but he stayed at the gathering point for several months.

Generally speaking, there must be a strong backing behind such a superb refiner. If you say something nicely, it's your backer. If you don't speak it nicely, it's actually controlled by the so-called backer. It's just that even those backers would not force the demon refiner too much, otherwise who would purify the demon orbs for them?

These people must also have the same mind. They would never do it lightly. They would only use these demonic fiends to drive Yang Chen into a desperate situation, and then save Yang Chen from the abyss of desperation and they would have the opportunity to get close to him.

The plan was a good plan, and Yang Chen objectively provides these people with convenience. Each of the materials he received for refining the demon orbs had imprints of spiritual awareness on it.

Because the materials were contaminated with demonic qi, Yang Chen didn't want Xiao Tian to swallow these materials to swallow the imprints of the spiritual awareness. This makes it possible for those masters to track Yang Chen's whereabouts.

Since entering the demon continent, Xiao Tian has resisted the demonic qi very much, and stayed in the medicine garden all the time. Yang Chen was also unwilling to force Xiao Tian to participate in the exercise at this time, so this flaw was inevitably left.

There should be people in several directions, otherwise the demonic fiends would not flood from several directions. However, even though Yang Chen has discovered this, his behavior hasn't changed in any way. Instead, he has worked harder to adapt to all of this.

There were so many free laborers to find demonic fiends and bring them here, was there a better training partner than this?

Chapter 510.2: I Won't Pursue It Anymore

Such days did not last too long. When Yang Chen remained in this state for eight months, someone finally couldn't help but prepare to act.

There was no other way, in eight months, although Yang Chen has gone deeper, the demonic fiends he encountered have become more powerful. The lowest level was in the middle Yuanying stage, and the average level was even close to the Yuanying stage. In the later stage of consummation, Yang Chen never collapsed, nor did he enter a life-and-death situation.

On the contrary, Yang Chen has become more and more adept. Facing more and more demonic fiends, Yang Chen has honed in this tide of monster siege. He was fierce and unforgiving and his tricks were almost as concise.

A few months ago, although Yang Chen was also very sharp in his hands, there were still a few small flaws that caused the efficiency to be not high, and just a few months later, the hordes of mid-to-late Yuanying stage demonic fiends were actually unable to stop Yang Chen.

At first, Yang Chen suffered a lot of injuries, but in recent months, Yang Chen has rarely been injured. Even if he was injured, he would take the initiative to send some parts that are not very fatal or even cause serious damage to the attack of the demonic fiends, and the counterattack was even sharper. Generally, the price of Yang Chen's injury were at least five or six heads of demonic fiends attacking Yang Chen.

If this continues, Yang Chen would get better and better, and their plan would become increasingly impossible to implement. Everyone knows the existence of opposition, just with the same mind and tacit cooperation. Now someone finally couldn't help it and jumped out.

A wave of hundreds of demonic fiends of the late Yuanying stage directly surrounded Yang Chen. In the frenzied attack, Yang Chen's body protruded from left to right, and the blood demon vine sword in his hand was pulled out of a fiend again and again. Only one demonic fiend corpse whose blood had not been sucked up was left at the scene.

However, after all, it was a demonic fiend in the late Yuanying stage, even if Yang Chen looks relaxed, it would consume a lot of qi. When Yang Chen finally killed the last monster. He couldn't help being exhausted, and sat down on the ground, gasping for breath and adjusting his breath quickly.

It's just that when Yang Chen just sat down, before he could breathe for two or three breaths, he heard a familiar voice ringing in his ear "Grandmaster Yang, what skill!"

"Senior Li is very patient!" Yang Chen sat on the ground without any intention to stand up, still panting.

"Did you already know it's this old man?" The Senior Li that Yang Chen mentioned was the dacheng stage master Li Tianxue who handed Yang Chen two third grade demon otbs. At this moment, he was slightly surprised, as if he could not believe Yang Chen had guessed it from the beginning.

"It's not hard to guess." Yang Chen still sat on the ground, supported himself with his hands, leaned his body against a big tree next to him, tilted his head to look at Li Tianxue standing there and smiled

forcefully “In fact, except for you, senior, there are several others, but senior always feels that he is lucky. That’s why you came out first.”

Hearing this, Li Tianxue took a moment to look at Yang Chen with admiration. Just as Yang Chen said, they were all experienced in the demon continent, and they were all hundreds of years old. From the Yuanying stage to the current dacheng stage, only he had the luck to get two third grade demon orbs, one was under the third grade, one was in the third rank. He also always felt that his luck was good.

To cultivators, this kind of illusory blessing was very important. People who have no blessing or shallow blessings, even if they have good aptitudes, won’t have high grades. Just like Li Tianxue thought, why could he find two such high-grade ones under the same conditions and at the same time, while others only have one?

This fully shows that Li Tianxue has better luck than others, and his fortune was deeper than others. Therefore, in the face of such a situation, he decided to do it himself first, maybe with good luck, he could directly take Yang Chen down and let him succumb.

“Grandmaster, you still don’t have to think about it being a fluke.” Li Tianxue looked at Yang Chen who was sitting there panting, shook his head slightly and said, “Are you tired from the battle just now? I accidentally arranged here a small formation method to disperse spirit power, so the grandmaster still doesn’t have to think about absorbing spirit power from the surroundings. Of course, before the goal is achieved, the grandmaster will not be given a chance to absorb spirit stones to recover.”

The distance was so close, so it was easy for a dacheng stage master to trap a junior of the Yuanying stage.

“I don’t need a fluke.” Yang Chen leaned against the big tree and smiled at Li Tianxue and said: “Anyway, you won’t kill me anyway, and this kind of intimidation of me is for Senior Liu and the others. It’s also an opportunity, isn’t it?”

Yang Chen’s current situation was too close to the edge of a life and death crisis. At this moment, as long as someone jumps out to rescue Yang Chen, he was afraid that Yang Chen would be grateful, and immediately confess his grace and bow to the ground?

Li Tianxue's face changed slightly, and he seemed to have thought of this possibility. However, he did not panic, but laughed haha "Grandmaster Yang is really clever, but unfortunately, you still missed a bit. Do you think I will allow them to approach so easily?"

Before Yang Chen could say anything, Li Tianxue pointed to the surroundings and said with a big smile "Around ten miles, beyond the edge, there are all demonic qi gathering formations arranged below. The demonic qi is stronger than any place they have experienced. All three are demon cultivators, so they don't dare to get infected at will."

"Senior indeed has a complete plan!" Yang Chen couldn't help but look at Li Tianxue differently when he heard the words. Others here were usually killing to gain experience, and they rarely study demonic qi. However, the senior in front of him was able to study the formations, set up the demonic qi gathering formation and gather the demonic qi after his experience, he was indeed clever.

"But junior still doesn't understand. Since the senior has done such a deep research on the demonic qi, why should this junior help in refining the demonic qi?" Yang Chen really didn't understand this, so he immediately asked it face to face.

"This old man has only studied how to condense the demonic qi, but he cannot get rid of the demonic qi." Li Tianxue did not hide it, and directly stated the reason "Moreover, i can only condense the demonic qi that escapes from the demon continent, but cannot condense it from the demon orb, so, do you understand?"

"Junior understands." Yang Chen smiled and nodded, watching Li Tianxue speak, "Senior, how about we have a discussion?"

"What are we discussing?" Li Tianxue was taken aback, then asked.

"Senior, teach me the formation of your demonic qi gathering formation to this younger generation junior. Then this younger generation junior will not hold you accountable for plotting against me, what do you think?"
