Chapter 516.1: Demonic Qi Cannot Be Abused

There were only two swords in total, the one used by the great elder to kill Yang Chen, plus the one used by Li Cheng to kill the great elder. The two swords seem to be very ordinary, the swords were not special, but the results are completely different.

The sword that was slashed towards Yang Chen was grabbed by Yang Chen empty-handed, and now the flying sword was still in Yang Chen's hand. The sword that slashed towards the great elder was effective in one blow, and the elder's head was cut off clean and neat.

The fact was so unbelievable that it was not until the great elder had fallen to the ground and his body had fallen to the ground.

"How is this possible?" The most unbelieving people was that the cultivators of the Greatest Heaven Sect, the great elder, were so powerful and they followed his side from the sect to the Demon Continent for more than ten years, it was clear back then. Not to mention that it was a small Yuanying stage ancestor, it was like ten and one hundred.

But what everyone saw was completely different. A few Greatest Heaven Sect's cultivators even thought it was a great elder joking with everyone, deliberately creating an illusion.

But, this illusion was too real, right? It's so real that everyone thinks it's real. That's the great elder who surpassed the strength of everyone, it's impossible to be a joke!

On the other side, the guys in the Demon Continent were shocked. A peerless master who only exuded his aura scared them and didn't dare to move. How could he be so simply killed by a sword, without any resistance? What's wrong with this world? Was the Yuanying stage the most powerful realm in the mortal world?

Could it be that this expert was just a joke? Was it just that his aura was amazing, and he didn't have any fighting strength? This was the most likely situation. Otherwise, for such a strong cultivator, his flying sword could not move when caught by a young man in the early Yuanying stage. It would be too fake.

“Today, someone wanted to kill grandmaster Yang, which is against the rules. You didn’t do anything, when someone attacks you against the rules, who else will save you?” Li Cheng killed the great elder with one strike, but he didn’t continue to act on those people from the Greatest Heaven Sect, but shouted.

Li Cheng’s shouting awoke the sluggish people around him. Today, they were embarrassed and lost their dignity. They were bullied and slapped in the face but so many of them didn’t even dare to let out a fart. Only the two young men with the lowest cultivation base in the early Yuanying stage have been maintaining the rules, how could they not be embarrassed now?

Countless pairs of eyes with shame and venting gazed directly at the Greatest Heaven Sect cultivators who came out with the great elder. There were dozens of dacheng stage masters here. In addition, hundreds of cultivators who had been in the Demon Continent for at least ten years, who at worst were at the early Yuanying stage, were to be added.

Among the people the Greatest Heaven Sect dispatched this time, except for one great elder, they were just at the peak Yuanying stage or the late Yuanying stage. Faced with the hateful eyes of hundreds of cultivators, their mood that had just been energetic no longer existed. At this moment, their mood was absolutely the same as the mood of the people who gathered at the beginning when they were suppressed by the great elder.

It’s a pity that these guys were feeling shame and anger. When there was a strong desire to vent, there was no such magnanimity like that of the great elder who would let them go as long as they didn’t get in his way. Someone took the lead and just took a step. All of a sudden, everyone pounced on the nearest Greatest Heaven Sect disciple.

More than a dozen Yuanying stage masters of the Greatest Heaven Sect were buried by hundreds of angry cultivators in a blink of an eye, there was no trace of them anymore.

In the chaos, only two places were completely undisturbed. One was where Yang Chen was standing, and the other was where Li Cheng was standing. The distance between the two was almost two feet, but within a radius of ten meters, there was no other living person, only one without a head. The corpse was lying on the opposite side several feet away.

One caught the great elder flying sword with his bare hands, one also beheaded the great elder, the hundreds of people present were not fools, acting? Was there such a person who plays with his head?

What's more, when that peerless elder first appeared on the stage, there were more than a dozen peak Yuanying stage and the late Yuanying stage masters who were suppressed by him.

Since the peerless master was real, how horrifying was it to behead a master of this level with a single sword? How terrifying was a person who grabs that kind of flying sword empty-handed?

In the Demon Continent, in addition to not being afraid of death, you must also have enough eyesight to be able to judge the strength of your opponent, run when you should run, and pretend to be junior when you are a junior. Before the great elder, everyone pretended to be junior, so they obviously had good eyesight.

Such peerless experts, if anyone dares to provoke them at will, then they were really looking for death. So they would spread the anger on the guys who came out with that great elder.

"The flying sword is yours, the qiankun bag is mine, what do you think?" Li Cheng just yelled, not caring about the performance of these people around him, and talked to Yang Chen. The two were not far apart, so they could hear each other clearly.

The flying sword naturally refers to the flying sword of the great elder, which was now being held in Yang Chen's hands. Because of the death of the owner, it no longer struggled, and was honestly put away by Yang Chen. The qiankun bag was the qiankun bag on the corpse of the great elder.

"Okay!" Yang Chen knew that Li Cheng was a little mysterious, but he still didn't expect that he would be so terrifying. A single strike of his sword could behead the great elder of the Greatest Heaven Sect. Although there are elements of the great elder being careless in it, Li Cheng's own strength should not be underestimated.

Although Yang Chen could desperately kill this great elder if he wanted to do it, he might use a lot of capital, and may even destroy many things, exposing countless trump cards for the Greatest Heaven Sect to be prepared for in the future. Maybe he had to be injured, he would definitely not wave his hand to cut down the opponent as easily as Li Cheng.

In this way, Yang Chen's praise of Li Cheng was not overestimated, but underestimated. Fortunately, it was not too late to know, but he didn't know which sect the mysterious Li Cheng comes from.

The Greatest Heaven Sect's great elder life source flying sword was definitely a precious weapon. This kind of thing that would accompany the great elder to ascend to the immortal realm and the spiritual world, and fight for a lifetime, must be made by him at all costs. In terms of value, it would never be lower than the things in the qiankun bag.

Seeing that Li Cheng was refreshed, and there was no hostility from him since the beginning, Yang Chen also deliberately relaxed more. After Li Cheng took the great elder's qiankun bag back and put it away, he smiled and invited "Brother Li, this brother, has some good wines, i would like to invite you to have a few drinks together?"

"I can't ask for anything more!" Li Cheng was also a cheerful person, he laughed and agreed directly.

Chapter 516.2: Demonic Qi Cannot Be Abused

When the two walked into a room at the gathering point together, the guys who were at the gathering point with the two people breathed a sigh of relief.

It seems that these two evil stars were not particularly angry, but all the guys in this gathering point of the demon continent felt like blushing. They enjoyed the safety of the gathering point for hundreds of years, but when things came to the fore, they didn't know how to maintain the rules of the gathering point. If things go on like this, it would be impossible for them to find a place where they could feel rest assured on the demon continent.

It's this kind of shame and anger that made these guys extraordinarily merciless when facing the remaining disciples of the Greatest Heaven Sect. It was just a wave of attack, but not one of the dozen Yuanying stage masters of the Greatest Heaven Sect lived.

All the people of the Greatest Heaven Sect were killed, but they didn't dare to take any of the qiankun bags left by the Greatest Heaven Sect's disciples at will. In the end, two dacheng stage masters took the initiative to ask whether they could collect these qiankun bags, and then respectfully sent them to the outside of the house where Yang Chen and Li Cheng went for a drink.

They killed the people, but they have no face to take credit. The two young people seemed to be drinking, but no one dared to enter with a straight face. The performance of the two juniors was stronger than those of the old guys who had been in the Demon Continent for so many years. With the two young people in front of them, the people at this gathering spot couldn't lift their heads.

The two in the room did not pay attention to what happened outside, and did not say much about what just happened. The two were just chatting and drinking.

The wine was the jade dragon wine brewed by Yang Chen. Because Sun Qingxue also likes to drink a little bit, Yang Chen brewed a lot of auxiliary wines to blend the jade dragon wine. Every year, he uses the spirit springs from all over the place to brew, and after so many years, he has saved a lot in possession. In particular, some auxiliary wines have gone down in years, and they have been ready for one or two hundred years.

The auxiliary wine alone was considered a good wine, and when it was blended with the jade dragon wine made by the dragon clan that has been preserved in the gourd for thousands of years, once it was taken out, it was fragrant and intoxicating.

“Good wine!” Li Cheng was obviously a wine lover, and he knows wine very well. Just smelling the smell he seemed to be able to determine the origin of the wine.

“This is brewed from grains, and it is at least 170 years old.” After smelling it, Li Cheng took a sip, closed his eyes and sipped it for a while before continuing “Added with the aging distiller’s yeast, there is a sweet flavor to it, it really has a different taste.”

After taking another sip, he said again “This water should be the spiritual spring in the southern part of the dao sect’s domain, with a little bit of seventh metal true essence, it has a wonderful taste of good wine! Good wine!”

Just these two comments made Yang Chen look at him with admiration. Whether it’s the vintage material of the brewing or the place where the spirit spring belongs, he knew all these, this was definitely a unique skill. If he was not familiar with the geography of the mountains and rivers of this world to a certain extent, he wouldn’t know all that.

“This auxiliary wine is brewed by my own hands, but the distiller’s yeast is obtained from elsewhere. It is rare that Brother Li likes it, so drink more.” Yang Chen was naturally happy when someone appreciates the wine he has brewed.

Yang Chen's auxiliary wines were also taken out one by one, and Li Cheng was allowed to taste them. The wines blended with different auxiliary wines have different tastes. Whichever one comes out was the best wine in the mortal world.

Both of them were bold people, and regardless of whether there was a drink or not, they could just drink a cup and talk about some interesting things in the world.

"If my wife was here, she can fix a good side dish for all the wines." When drinking, Yang Chen did not forget to praise his wife "Especially for the appetite of this little brother, she has studied in the mortal world for ten years. In a few months, if Brother Li is still here, you will definitely be able to feast with me."

"Oh? Is there such a thing?" When Yang Chen praised his wife so much, Li Cheng's eyes lit up, his face full of anticipation, and he looked like a foodie: "In that case, I must wait a few months."

Both of them must have inhumane secrets in cultivation, and they seem to be willing to enjoy themselves. They were all cultivators who understand the combination of work and rest, and understand the proper indulgence of their emotional instincts, so they could naturally talk together.

Talking and chatting, they naturally talked about this demon continent. Everyone has experienced this demon continent, so naturally there were many topics in common.

Yang Chen was not very clear about the existence of these gathering points and the origin of the formation around the entire demon Continent, so naturally he had to ask Li Cheng for some advice.

However, Li Cheng claimed to have just arrived recently. In fact, the two of them should have entered the Demon Continent at the same time. It was just that Li Cheng came dozens of days earlier when he was outside, so he don't know much about it.

But Li Cheng didn't come to gain a complete experience, he also traveled a lot, saw a lot of things, and knew a little bit more than Yang Chen. It's just that the extras are nothing more than the special abnormality of the demonic qi. For Yang Chen, it was just a reference, and it doesn't have much effect.

On the contrary, Li Cheng was very interested in Yang Chen's current outer robe. With his eyesight, he could naturally see that this was a magic weapon, but it was too bold to refine the magic weapon that absorbs the demonic qi and wear it on his body, right?

"Brother Yang still has to be careful of this heart demon attack." Li Cheng said a little earnestly "This brother has studied the demonic qi for many days. Although it can't hurt people in idle time, if the concentration is high, the average cultivator will be entangled for life and cannot get rid of it. Because this heart demon attack is fatal and countless, Brother Yang has to be careful"

It's not too difficult to spot the demonic qi of the nine nether flying sword at a glance. People in this Demon Continent deal with demonic qi almost every day, and anyone could find it. But as Li Cheng said, once the concentration was high, lifelong entanglement was not that simple.

Yang Chen was now tempering his mood with the demonic qi as the inducement of the demonic qi, and the concentration of the demonic qi was far from the point of life-long entanglement. But Li Cheng has already come to this conclusion, one could imagine how deep Li Cheng's research was.

"Brother Li, I will pay attention." Yang Chen hurriedly thanked him. No matter what, the other party was kind.

"Don't be too nervous for the time being. This tool spirit is a bit interesting. It is used to temper the state of mind, but it is an excellent thing." Li Cheng kept staring at Yang Chen's robe, as if he could see what he was grateful for, and then said "If the spiritual awareness is strong enough, the will is firm, there is no need to worry. It's just that the ordinary cultivator's spiritual awareness cultivation base is not that high, so naturally you will be taken advantage of by the demonic qi. As long as you always pay attention to this, there is nothing to worry about."

This was good news, at least Yang Chen could use it with confidence. If the nine nether flying sword had to be sealed up after it were refined, Yang Chen would also feel it was a pity. Since Li Cheng said so, he believed Yang Chen would be able to manage it easily.

Chapter 517.1: Control

Strictly speaking, Li Cheng and Yang Chen could also be regarded as having met by chance. They said a few words to each other when they first entered the Demon Continent, this was the second time they have met.

Moreover, although the two people faced the same enemy this time, the purpose of their attack was different. Yang Chen was fighting against the opponent to defend himself, while Li Cheng was maintaining the rules of gathering spots in the Demon Continent.

Therefore, even though the two had drunk a lot of wine and communicated very speculatively, at best they were two drinkers, not close friends.

After drinking, Li Cheng did not stay with Yang Chen all the time, but found a room to cultivate. There were many rooms in this gathering point, which are safe places for people to cultivate so it was very easy to find a room.

Li Cheng didn't even look at the qiankun bags placed at the door of the room where the two of them drank. He kicked Yang Chen half of it according to the number, and he took the other half unceremoniously.

Li Cheng cultivated by himself, but Yang Chen was not so focused. Instead, he came out first to see if he could buy some demon orbs in the near future to increase his wealth while also absorbing some high concentrations of demonic qi.

Since Li Cheng said that Yang Chen shouldn't worry, Yang Chen didn't know why, but he believed Li Cheng's words very much. Although the two have not had much contact, they have a silent understanding and trust. Even though Yang Chen was slightly jealous of Li Cheng, there was no doubt about him.

To be honest, if Li Cheng really wants to be disadvantageous to Yang Chen, in a face-to-face battle, Yang Chen has no certainty that he would win. There was even a hunch in his heart that even if he releases his bloody river, it would not be effective. Therefore, he would not doubt that Li Cheng had anything to do with such a small problem that he didn't know when it would happen.

Walking in the street, the eyes of those people looking at Yang Chen were a little evasive. The people at the gathering point lost their courage this time, and a group of masters and famous people didn't even have the courage to do it, so this people felt ashamed.

“Shopkeeper, do you have any demon orbs? Any Demon Orbs that have not been purified? Both the big and the small ones.” The atmosphere was embarrassing, so Yang Chen quickly entered a store, directly explaining his request.

“You can buy anything, all the items here are 20% off.” The shopkeeper was also one of the people who didn’t dare to do anything yesterday. He blushed slightly when he saw Yang Chen, and then hurriedly said loudly.

Having said this, the shopkeeper took out all the demon orbs in his shop and let Yang Chen choose. No one else has this treatment, they would all mention what grade of demon orbs they want to buy. The shopkeeper would take out one, up to two for customers to choose.

Yang Chen was also not polite, the ten largest ones were directly selected. Then he let the shopkeeper settle the accounts. They were all unpurified demon orbs. Seeing that Yang Chen only picked these, the shopkeeper felt a little moved, and asked carefully “Are you a demon orb refiner?”

“Indeed!” Yang Chen nodded and admitted, and then directly ordered “Let’s settle the account!”

This kind of shop can’t get many good demon orbs, the best one was in the sixth grade. The worst one was under the sixth grade, with an average of sixth grade. It was already a good harvest, the previous two years, Yang Che had never harvested a demon orb.

“Shopkeeper, when will there be an auction recently?” After buying a demon orb, he naturally had to ask when there would be an auction. Only the high-level demon orb could be found at the auction. The higher the demon orb, the purer the demonic qi, the more beneficial it was to the nine nether flying sword.

“You’re lucky, there will be one in half a month.” The shopkeeper was also a well-informed person, and for the sake of being a little bit uncomfortable with Yang Chen, he also specially told him the latest news.

“There is a super first-class demon orb refiner, Grandmaster Yang, who may come to this gathering point in two or three months. He is a legend who can completely purify the demonic qi.” When the shopkeeper talked about this, his face was full of excitement. “Don’t you see so many dacheng stage masters here, they are all waiting for Grandmaster Yang to arrive.”

Yang Chen had never thought about how there would be so many dacheng stage masters at a gathering point that was a little deeper than the outermost gathering point. Now he finally understands the reason, it turned out to be because of himself.

At the last gathering place, Yang Chen said that he would be at this gathering place two years later. It was estimated that those who know it would spread the news, so there are so many people waiting here.

That's good, these experts have good demon orbs in their hands, which could fully meet the needs of the nine nether flying sword. Yang Chen didn't need to look for demonic qi to absorb them, and they could exchange for his services with many materials similar to the nine nether flying dust. With such good materials, even if there are no good materials, a large sum of spirit stones could still earn more pocket money for the ladies of his own family, which could take care of many things in one fell swoop.

With the nine nether flying sword, the speed of absorbing demonic qi increased greatly. The demon orbs purchased were directly surrounded by the nine nether flying sword. It didn't even take three days before all the demonic qi was absorbed by the nine nether flying sword, it's clean, leaving no trace.

They were all sixth grade super first-class demon orbs. When Yang Chen was considering whether to sell them on the auction floor, he suddenly discovered that Xiao Tian seemed to have some slight restlessness.

In fact, Xiao Tian has been digesting the huge dragon ball. Although Yang Chen has used it several times before, in fact, Xiao Tian did not completely absorb the dragon qi in the dragon ball, but kept it in his body, anytime and anywhere, it's just refining it. Especially when he was fine, he liked to stay in the Dragon Tower to cultivate.

In the past few years on the Demon Continent, Yang Chen was afraid that Xiao Tian would also be contaminated by the demonic qi and turn into a demonic fiend. In addition, for the purpose of gaining experience, he easily refused to use Xiao Tian.

Yang Chen now knows from the thoughts passed by Xiao Tian that Xiao Tian has truly absorbed all the dragon qi in the dragon ball this time. This time, that dragon ball directly allowed Xiao Tian to enter the third floor from the second floor of the Dragon Tower, and his strength rose abruptly by a level.

The power of Xiao Tian was mainly reflected in the increase in the magic weapon of flying swords. The higher the level, the stronger and sharper the flying sword in his mouth. Especially all things could be cut, which was almost a legendary attribute, it was simply an existence that goes against the heavens, and even any illusion array could be directly cut off. The magic weapon in the form of smoke like the nine nether flying sword could also be split into two pieces against the flying sword held by Xiao Tian.

Xiao Tian, who had never been tainted with the demonic qi, was even agitated at those demon orbs, making Yang Chen a little curious. Does Xiao Tian want to swallow these demon orbs? Does the demon orbs, which could improve the cultivation of a cultivator, also have an effect on Xiao Tian?

He just doesn't know, if Xiao Tian swallowed these demon orbs, would there be any obstacle to the growth of Xiao Tian in the future.

Chapter 517.2: Control

Together with this idea, Yang Chen did not shy away from letting Xiao Tian know, and it was also passed on to Xiao Tian through the connection between them. Immediately, Xiao Tian gave a response.

"Delicious, great tonic!" Yang Chen thought about chewing the words passed by Xiao Tian, and couldn't help smiling bitterly. It seems that he might affect his future cultivation and need to take great efforts to correct the demon orbs, but in the eyes of Xiao Tian, it was just a delicious tonic.

Sure enough, the origin of dragon species was different from that of human cultivators. This was also normal, human cultivators must cultivate the true essence technique to absorb the true essence spirit power. However, some powerful monsters could directly absorb the true essence spirit power of their own attributes by instinct. There were many differences, this difference also exists between Xiao Tian and Yang Chen.

Since Xiao Tian thought so, Yang Chen didn't worry much. Xiao Tian got the inheritance of the Dragon Tower and even the inheritance of the Dragon Palace, so it knew more of its clan than Yang Chen. It said it was okay, and naturally it was okay.

Without even thinking about it, Yang Chen threw a few demon orbs that had been purified to Xiao Tian in the medicine garden, Xiao Tian swallowed them directly in the air. Compared to Xiao Tian's body shape at the moment, a few sixth-grade demon orbs didn't even have the qualifications to squeeze

between his teeth. But Yang Chen looked at Xiao Tian who was holding the demon orb in his mouth like jelly beans, slowly melting and it looked delicious.

That's good, at least the demon orb that had absorbed the demonic qi in Yang Chen's hand had a place to be consumed. Too much of this superb demon orbs would cause its value to fall sharply, and it would also cause many people to covet it. With the consumption of Xiao Tian, it does not appear to be a waste.

While using the nine nether flying sword to refine his heart, Yang Chen waited for the auction to be held. After staying for half a month, the auction finally began.

This time when Yang Chen appeared again, someone had already recognized his identity. Everyone was shocked to see that Yang Chen was the Grandmaster Yang they were waiting for, and the masters who gathered in the spot were ashamed again. They didn't even take action when Grandmaster Yang was in trouble. This must have offended Grandmaster Yang miserably, they didn't know if they had a chance to get a superb demon orb.

Everyone knows what Grandmaster Yang wants to buy when he appeared at the auction, even the organizer of the auction. So he also deliberately prepared five high-level demon beads. Sure enough, it was better than in the periphery, and even the demon orb was getting bigger and bigger.

Yang Chen was very satisfied, and he was bidding with others. Yang Chen had spirit stones in his hand. He was not afraid at all, he was afraid that there would be no demon orbs. Unexpectedly, there were only five demon orbs. After waiting for a few moments, they were all bought by Yang Chen at an unimaginably low price, and no one offered a higher price.

From the auction organizer to the master of the demon orbs, it seemed that they were all of the same mind. Even the initial reserve price was set extremely low, and the final transaction price was not even as good as the market price outside. Yang Chen understood the reason for this.

Sure enough, the rules of this auction were slightly changed. At least the last time Yang Chen participated, it was delivered on the spot, with the spirit stones in one hand and the demon orbs in the other, but this time it was not until all the demon orbs were auctioned before that one of the auctioneer's chiefs personally took the initiative to invite Yang Chen into a room and offer all the demon orbs.

“Grandmaster Yang, this is a tribute on my account and a few seniors, I ask Grandmaster Yang to accept it.” The auctioneer’s attitude was very good, his posture was extremely low, and the respect was outrageous.

“I don’t lack these few spirit stones.” Of course Yang Chen understood and did not pretend to accept the demon orbs, and then brought a sufficient number of spirit stones. The owner of the auction house had intended to refuse, but after watching Yang Chen’s face, he carefully accepted it.

“Thank you for giving me face, these demon orbs, after they are purified, I will ask you to auction them.” Yang Chen first gave the auction house a guarantee, which immediately made the chief of the auction house laugh.

“I appreciate you for giving me face, thank you for the next one.” For the benefit of the auction house, naturally also the benefit of the people who provided the demon orbs, so Yang Chen directly gave a promise “Thank you for me, if these predecessors still have demon orbs in their hands that need to be purified, they will be picked up by the same rule, but there are a large number of them, so each person is limited to one.”

Including the auction house, the people who provided the demon orbs, and the experts who participated in the auction who did not bid to compete, were all waiting for Yang Chen. The owner of the auction house was overjoyed, flattered and sent it up without money, he didn’t care that he was dacheng stage master.

“I may stay here for two years this time so don’t worry about it.” There were many masters who provide demon orbs, and Yang Chen needs a steady stream of demonic qi, so he could take the opportunity to fix it.

Of course, besides Yang Chen, there were the four wives of Yang Chen. In the three years before, there were only ten short days of meeting, and Yang Chen really missed them. What’s more, with the nine nether flying sword, Yang Chen could also let the four ladies hone their moods, so that everyone could get together for some time.

Yang Chen quickly returned to his room with the demon orbs. The anxious masters who had been waiting for a while, looked at the owner who sent Yang Chen back to the room and rushed back to the auction room with anxious expectation.

“Grandmaster Yang said that he will stay here for two years. If you have a demon orb in your hand, you can also go to him for purification, but each person is only limited to one.” The auction house owner naturally knows what everyone saw waiting for, so he announced it as soon as he came back.

Hearing that Yang Chen promised to purify the demon orbs, the masters of the Yuanying and dacheng tage cheered. What was everyone gathering here waiting eagerly, isn't it just waiting for Grandmaster Yang to take action?

When the great elder wanted to kill Grandmaster Yang, none of them dared to speak up. When they discovered that the person who was almost killed that day turned out to be Grandmaster Yang who they were waiting for, it wasn't known how many people stomped their feet in regret. If they had the courage to say a word for Grandmaster Yang at that time, they wouldn't have to be so careful now, right?

Fortunately, Grandmaster Yang finally accepted everyone's kindness, he accepted the five low-priced demon orbs, and promised to help everyone refine the demon orbs. Finally, everyone's heart was relieved when it reached their throats. Many people have already begun to yearn about how their cultivation base would improve after taking down the advanced demon orb in their hands.

It was completely different from the ecstatic mood of the crowd in the demon continent's gathering place on the Greatest Heaven Sect's side, it was almost like a gloomy cloud was falling from the sky.

Chapter 518.1: Demonic Qi Cultivation

In the life tablets hall of the Greatest Heaven Sect, dozens of life source jade plaques exploded continuously. Such a violent movement directly shocked the disciples who guarded the hall. After standing there for a while, they remembered to hold these broken pieces and hurriedly reported to the hall master.

More than a dozen Yuanying stage masters fell within a few breaths, which was definitely a major event. Sect master Li was also shocked after learning about it, and hurriedly called the core elders to discuss.

“These are all people who went to the Demon Continent with the great elder.” After the sect master Li explained the situation, he added another sentence. Others don't know what these people were doing, but the core elders here know it.

“What about the great elder himself?” another elder asked. As soon as he uttered his voice, he knew that he had asked a silly question, and fell silent immediately.

To become a great elder, in addition to cultivating to a certain level, he had to take back his life source jade tablet, and all the primordial spirits are sealed in that array, otherwise, the tribulation would come immediately.

This was also the reason why the sect didn't know whether the great elder had an accident and didn't know if he had ascended through the tribulation or had died. When the elder asked this, he was obviously a little anxious, and he had forgotten this situation.

In what kind of situation could more than a dozen peak yuanying stage masters and the late yuanying stage masters die within a few breaths one after another? It was very possible to say that they met the great elder from another sect of another family, but the question was, what big sect was willing to send the great elder to the demon continent?

These people went to chase and kill Yang Chen. Whether they succeeded or not, no one knows, everyone only knows that now more than a dozen masters at the peak and late yuanying stage have died.

They didn't know whether the great elder was alive or dead, and all his followers had fallen. This situation makes people anxiously mad, but the Demon Continent was so far away, even if someone was sent to inquire about the news, it would take more than 20 years to go back and forth. Only then would they know what had happened.

Anyway, the loss of more than a dozen masters at the peak yuanying stage and the late yuanying stage was also a big blow to the Greatest Heaven Sect. Even if the Greatest Heaven Sect has a big population, it was impossible to casually use yuanying stage master as consumable cannon fodder.

There was another thing that also annoys these core elders. Li Liheng brought back a message of the free heart demon sutra, that was a solution to Li Liheng's very problem given by the predecessor Liu Fengzi.

It was not Liu Fengzi who was willing, but Li Liheng begged him to get it, everyone has read the free heart devil sutra. The text was relatively old, but it could still be translated. As far as they are people with cultivation bases. It was too simple to understand the meaning of the sutra.

The free heart devil sutra was originally the trophies obtained by the predecessors of the Greatest Heaven Sect many years ago when they killed the demons and defended the Dao, but they have been stored in the sect's scripture pavilion and was gradually forgotten.

Now it has been turned over again, and after the senior officials have read it, the unified conclusion was that this was not the dao cultivation method at all, but that of the demons. This was a demonic spiritual awareness cultivation method that allows cultivators to improve their own cultivation by harming others.

It was different from the double spiritual awareness cultivation method. The people of double cultivation would improve together, even if it was similar to Sect master Li who treats people as a furnace it would not be completely exhausted, but there was a sequence and priority. People who are regarded as cauldrons would not die first, and secondly, they would only lose some cultivation time.

Even so, some stubborn sects regard the use of people as a cauldron as a crooked way. But if these were to be compared with the free heart devil sutra, it was basically normal to the bones.

Free heart devil sutra was basically to eat people. Cannibalism may be a bit exaggerated, but it definitely depends on the life of the cauldron to improve one's cultivation level, and the cauldron would die very miserably.

Because what Li Liheng wanted to promote was his spiritual awareness, people who were cauldrons would be abruptly pulled out of their bodies when their spiritual awareness activities are the most intense. Originally, the most intense activity of this kind was usually the most painful time, which was coupled with the tragic withdrawal of the consciousness at the end.

The final outcome was to die in infinite pain. And the price in exchange for this was only an increase of less than 10% of the spiritual awareness cultivation base for those who practice the free heart devil sutra. Moreover, the prerequisite was that the spiritual awareness of the cauldron was higher than that of the person who practices the free heart devil sutra, and in addition, it must be of the opposite sex.

If Li Liheng really wants to cultivate this cultivation method, then according to estimates, Li Liheng would need at least hundreds of furnaces to completely get rid of the dependence of the spirit congealing pills.

In the past, the free heart devil sutra was brought by a certain predecessor of the Greatest Heaven Sect to exterminate the demon and defend the dao. Could the younger generations of the Greatest Heaven Sect in turn also cultivate this kind of evil cultivation method?

Everyone was arguing, and in the end they didn't come to a conclusion. It was unbelievable to let the young sect master of the Greatest Heaven Sect, traditionally the leaders of the dao sects, practice this demonic method.

In the end, everyone just put it aside. Anyway, there are still a lot of spirit congealing pills now, even if consumed, it would be enough for Li Liheng to consume for many years, maybe before the spirit congealing pills were exhausted, there was no need to consider this issue.

Of course, Li Liheng was not happy with such a result. If he was an honest person who was committed to relying on his own hard work, he would never ask Liu Fengzi on how to improve his cultivation.

However, Li Liheng could not overthrow the decision of the core elders, so he could only suppress his dissatisfaction and accept the arrangement of the sect.

The young master's unhappiness was naturally seen in Yang Lan's eyes. Under her gentle offensive, Li Liheng was intoxicated and casually vented his dissatisfaction. Therefore, the news of the Free heart devil sutra reached Yang Xi's ears through Yang Lan.

Yang Xi was now a contemptuous cowardice to Li Liheng, without Li Liheng, he would have been sentenced to death long ago. Because following Li Liheng, Yang Xi could almost get the wind if he wanted the wind and the rain to get the rain, and no one in the sect would easily offend him. Now that his master has troubles, he naturally wants his minions to share their worries.

Free heart devil sutra, he remembered this name. When he has the opportunity to enter the scripture pavilion in the future, he would definitely look for this cultivation method carefully and bring it out to Li Liheng.

Yang Xi fully believes that as long as he was fond of Li Liheng, when Li Liheng becomes the sect master of the Greatest Heaven Sect one day, that would be the time for Yang Xi to show his ambitions.

At that time, let alone the fifth grade alchemist, and even the entire Pure Yang Palace, Yang Xi would wipe them out and relieve the hatred.

Chapter 518.2: Demonic Qi Cultivation

Yang Chen doesn't care about what happened in the Greatest Heaven Sect, they have already lost another great elder. It was estimated that the Greatest Heaven Sect would feel distressed to death.

Now in this gathering place, Yang Chen and Li Cheng were definitely the two most unprovoked people, but relatively speaking, Yang Chen was more popular.

Since agreeing to purify the demon orbs for others, Yang Chen's residence has been like a market. For this reason, Yang Chen had to add another rule, only one person could be received every day.

Yang Chen also changed the reward for purifying the demon orbs to give priority to fire seeds. Of course, it was the fire seeds that Yang Chen didn't have yet. On the Demon Continent, dao cultivators, demonic cultivators and monsters were mixed, there were many kinds of fire seeds that the dao sect does not have, which was enough to supplement Yang Chen's Yin-Yang heaven burning fire.

In just ten days, Yang Chen received dozens of fire seeds, there were high-grade and low-grade ones. This made Yang Chen very satisfied and immediately he announced to the public that he would accept fire seeds without restrictions, which immediately made some masters with fire seeds in their hands happy. With the fire seeds, they would have the opportunity to let Grandmaster Yang purify their demon orbs to improve their cultivation.

The demonic qi absorbed by the nine nether flying sword these days has skyrocketed. The demonic qi itself has been condensed by the demonic fiends, the concentration of demonic qi was extremely high. In just ten days, although it has not recovered to the original demonic demon vine level, it was also comparable to some ordinary demon orbs.

Xiao Tian also gradually adapted to some of the aura here because of the small demonic orbs used as jelly beans every day, this change made Yang Chen very happy. If Xiao Tian could endure the demonic qi attack, then the nine nether flying sword would be able to play a more powerful role.

This process was just the beginning. Yang Chen still doesn't know whether Xiao Tian, as a dragon species, could withstand a higher concentration of demonic qi, he needs to experiment carefully. Otherwise, if there was a problem with Xiao Tian, Yang Chen doesn't know where to cry.

After waiting for dozens of days at the gathering point, Yang Chen finally met his wife. But this time, Gao Yue, who was the last in the row last time, was now ranked first.

After two years of not seeing each other, Yang Chen was excited to see his wife. From the day Gao Yue appeared, the people at the gathering point consciously didn't bother Yang Chen again.

There seemed to be endless words between the two of them, and for several days, Yang Chen couldn't bear to part with Gao Yue. This time, Yang Chen asked Gao Yue to stay and wait for the four women to gather.

Of course Gao Yue was obedient and when she learned from Yang Chen that the great elder of the Greatest Heaven Sect had appeared, she almost became nervous. But then she learned that the great elder was actually killed by Li Chengy, which made her even more surprised. Yang Chen was already quite terrifying but she didn't expect that Li Cheng would be even worse.

The four women gathered, everyone was even more happy. Yang Chen explained to the four women what they meant to do together this time.

After another two years of gaining experience, the murderous intent on the four women has begun to gradually fade, and the situation that was uncontrollable by accidentally venting when they met two years ago would no longer be the case. Although not enough, it could only be partially controlled, or it can't completely fade away, they needed a longer time of experience to be able to master it.

The nine nether flying sword at this level was just a precious material that could allow the four women to temper their mood. Maybe it would cause serious heart demons and lead to unpredictable consequences.

For this approach proposed by Yang Chen, the four women were very surprised. Whoever came to the Demon Continent would carefully avoid the demonic qi, for fear of the demonic qi's invasion, Yang Chen

actually did the opposite, using the demonic qi to temper his mood. This husband in their own family was really different.

Li Cheng said that the most important thing to prevent heart demons was to have a strong spiritual awareness and a strong will. These two conditions are all accounted for by the four women. Although they were all in the early yuanying stage, their spiritual awareness had already reached the dacheng stage and they were not far from the human immortal realm, which was enough to withstand this degree of demonic qi.

What's more, there was Yang Chen beside them, and he could immediately stop the nine nether flying sword when he found that something was wrong, which was an extra layer of insurance. Under such circumstances, triggering various mood swings was indeed the most appropriate way to get used to the heart demons.

Taking risks was a bit weird, but what kind of cultivation was not taking risks? Coming to the Demon Continent was a risk in itself.

Of course, the four women would not refuse Yang Chen's arrangement. At the beginning, Yang Chen's demonic qi was slight, and the naughty Sun Qingxue believed that the dao cultivators had a firm mind and firm will. She underestimated it a little and didn't take it seriously. As a result, surrounded by the nine nether flying sword, an abnormality immediately appeared.

It wasn't known what sorrow was caused by Sun Qingxue's heart demon, Sun Qingxue lay in Yang Chen's arms and wept bitterly all day and night before she calmed down.

This was still the case when Yang Chen controlled the influence of the demonic qi from the beginning, and stopped immediately when the situation was bad.

After this incident, the women no longer dared to underestimate it, and they all took it seriously. With some warnings explained by Yang Chen, coupled with their own willpower, they began to frantically resist the attack of demonic qi in all directions.

Yang Chen didn't tell them that their emotions need to be erupted to guide them at first, but just tried to maintain their safety. Some experiences were not something that you could tell them to make them pay the most attention, after all, it was only after suffering a loss that they were deeply impressed.

How do you know the taste of some things without experiencing them once, and how to know how to deal with them? Moreover, people are different, Yang Chen's method was not omnipotent and suitable for everyone. The four girls were all talented, and he believes they could find the most suitable way to deal with them on their own.

Compared to fighting outside, this experience of dealing with inner demons was even harder. In any case, fighting as long as you find the opponent's weakness and then attack it yourself, but now it is the other way around, the inner demon has found their own weakness and keeps attacking. Even if there was no danger to their life for the time being, it was no less dangerous than killing demonic fiends outside.

The four women slowly adapted, and began to find suitable ways to resist. And Yang Chen also began to slowly increase the demonic qi attack, the demonic qi the four women dealt with became more and more intense.

Yang Chen himself, while protecting the four girls, while receiving the business of purifying the demon orbs from the outside, while absorbing the fire seeds, he also merged the fourth grade fire seeds into the Yin Yang heaven burning fire.

Cultivation was something that needs to be carried out at all times. Even Xiao Tian, under the condition that he could taste a small demon orb every day, gradually became more adaptable to the demonic qi. So far, Yang Chen has not found any signs of being attacked and demonized by the demonic qi. This also means that the great Yin Yang five elements flying swords that would be controlled by Xiao Tian wouldn't lack the nine nether flying sword.

Time flew quickly and two years passed by. The madness caused by the demon orbs continued, but Yang Chen's family of five had already planned to go deeper into the demon continent.

Chapter 519.1: Venting And Killing

Yang Chen was planning to go deeper into the Demon Continent, but in the depths of the Demon Continent, a group of people have just received the news that someone from the outside could completely purify demon orbs.

These people were in a huge valley. In the valley, almost the same as the gathering point, there were all kinds of buildings and at least a thousand people gathered in the valley.

In the valley, the intensity of the demonic qi was beyond people's imagination. The black demonic qi was like the essence, covering the entire valley. Here, there was no way to see any scenery with the naked eye. If you want to be active here, it was simply impossible without a strong spiritual awareness.

If anyone came to see this valley, they would be shocked and open their mouths from ear to ear. The worst of all the people in this huge valley was also an early dacheng stage master, they were all dacheng stage masters, any sect that they were placed in would be a deterrent force that makes people extremely frightened.

Fortunately for many sects, the people here were not from the same sect. No sect could easily come up with thousands of dacheng stage masters, even the Greatest Heaven Sect, the top sect of the dao domain. Of course, if one were to count the ascended cultivators of the Greatest Heaven Sect, it was far more than this amount.

All the cultivators had all black robes, covered in black gauze, and even talked less to each other, but everyone had one thing in common. Everyone was from a demon sect, and all of their cultivation methods were of the demonic qi. With so many of such people together, it gives people a feeling of falling into a devil's cave.

The news was also brought by a master of the dacheng stage, if Yang Chen was present, he could definitely find that this guy was one of the cultivators at the gathering point at the time.

Except for what happened in the gathering point, the cultivator who brought the news over explained everything very clearly, except for the troubles that the great elder from the Greatest Heaven Sect had stirred up. As for the matter of the great elder, it really made them lose face, and secondly, it was not known what thoughts were in his heart, so he didn't disclose it.

The news spread quickly. At first, many people didn't believe it, but when the cultivator who came back revealed the pure golden demon orb that had been purified by Yang Chen, everyone became frantic.

These guys who cultivated in the places with the strongest demonic qi were not the people of the dao sect, they were all demon cultivators. Dao cultivation and demonic cultivation were just two ways to

cultivate, reaching the same goal in different ways. There was no complete distinction between right and wrong. Especially at this stage of the dacheng realm, it is about the firmness of the dao heart, maybe it's the people in the demon sect that might be even better.

If the cultivators of the demon path could cultivate to the realm of the dacheng stage, it was not known how many terrifying inner demons would have been overcome. It could almost be said that all kinds of inner demons came here along the way. Every time they struggled on the line of death, the state of mind of such a tempered cultivator could be described as an iron dao heart, which was not an exaggeration at all.

In this regard, the dao cultivators lay a solid foundation and then follow a step-by-step process of cultivation, so they would never face so many inner demons. Therefore, if it was only from the perspective of dealing with inner demons, the dao sect's masters of the dacheng stage were probably not as good as the demon sect cultivators of the same cultivation base.

Being able to overcome these horrible inner demons to achieve the dacheng stage has fully explained the toughness of these cultivators. This was also the reason why there are a lot of demon cultivators in the place where the demonic qi was strongest.

From the perspective of cultivation alone, demonic qi could evolve some ordinary monsters into powerful demonic fiends, which naturally promotes cultivation. The reason why these demon sect cultivators gathered here was also based on the use of demonic qi to cultivate.

Cultivation in the demon continent was far more than just hunting and killing demonic fiends. It's just that people who haven't reached the depths of the demon continent can't experience it at all.

It was self-evident what a refiner who could completely purify the demonic qi means to these cultivators of the demon sect. Although everyone seemed calm on the surface, there was a surge in their hearts.

Outsiders don't know what they were doing in this valley, and people here would never reveal it lightly. However, looking at everyone's cautious appearance, it seems that something extraordinary and important was happening here, which was very confusing.

Yang Chen didn't know what was happening here. He was now planning to leave the gathering point again and carry out killings to gain experience again.

The four girls have been tempered by the nine nether flying sword's heart demon for two years, and it wasn't known how many times they have experienced the growth of the heart demon. In the first few days, it was a great explosion of emotions. Fortunately, Yang Chen had been taking care of them all the time, so there was no accident.

In just two short years, the four girls never thought that they would have such a rich imagination and emotions that they would be able to remember clearly the little things that have been forgotten in the back of their minds many years ago, and also cause all kinds of incredible emotional outbursts because of such small things.

People who haven't experienced that kind of taste are simply unimaginable, like an orthodox disciple of the dao sect, just like a disciple of a demon sect.

It has to be said that the effect of this training was very significant. In just a short period of two years, or even the time that could be spent in a seclusion, they seem to have experienced thousands of years. They dare not say how determined their mind was, but any inner demon that ordinary dao sect disciples could meet has no meaning to them.

However, not everyone has the experience of thousands of years of suffering in previous lives like Yang Chen's, even if they were as good as the four women, they are showing more and more exhausted posture in this kind of heart demon tempering. Because of exhaustion, it triggered a series of negative effects.

Although it has only been two years, it seems that a long time has passed, and even the four girls were feeling a little irritable. Just before coming back, their killing intent could be reduced, and the explosion of various emotions caused those killing intents to appear again.

Under this situation, it was no longer realistic to cultivate with the inner demons again, it would make the four girls more and more fall into the more powerful inner demons. The most suitable thing for the four women now was to let the four women vent. Apart from the frantic demands every time they were with Yang Chen, the more effective method was to kill.

In the demon continent, the only thing that was not lacking was killing. Outside the gathering point, there were thousands of demonic fiends, they could just kill them without any guilt.

The four women's killing intent, which had been suppressed for a long time, was finally released again, hurriedly bid farewell to Yang Chen, and after arranging the time and place for the next meeting, they couldn't wait to throw themselves into the killing field outside.

There has never been a moment when the killing intent in the hearts of the four women have been so urgent, but there was no hatred at all, they are completely spontaneously wanting to vent their inner emotions with killing.

Chapter 519.2: Venting And Killing

In fact, even Yang Chen himself, after such a long period of demonic qi eruption, was a bit tired.

Emotions don't mean that they can't be produced with a high level of cultivation, but they have it all the time, anytime, anywhere. Anyone, any time, any place, would maintain at least one emotion. Whether it's happiness, anger, sadness or peace, there was always one kind.

This kind of shadowy and elusive thing may not be noticed when you cultivate, but once it was detonated by the heart devil and magnified thousands of times, it meant a terrible disaster for the cultivators.

A little bit of resentment in the heart, after being magnified by the demonic qi, will turn into tooth-grabbing hatred and unshakable hatred. It was by no means easy to maintain one's state of mind at this level.

Not to mention this kind of negative emotions, even happy things like happiness could become extremely dangerous after being magnified millions of times. When people are in such excitement, they would definitely do some unthinkable things.

As for being calm when mount tai collapses in front of you without changing color, isn't calmness also a kind of emotional state? When peacefulness and calmness has been magnified countless times, there would be no more thoughts in the heart. What was the difference between it and a stone? For the stone, what was the point of cultivating or not cultivating? Perhaps this was the most dangerous state.

The concentration of demonic qi that Yang Chen used to gain experience was dozens of times that of the four women. For the power of the nine nether flying sword, the four women together could bear up to 10%, and Yang Chen alone faces the remaining 90%.

Fortunately, Yang Chen's previous life experience and the state of mind of a Great Luo Golden Immortal also helped a lot. Even suppressing his own emotional resistance, coupled with safeguarding the safety of the four women, he still survived this period.

In addition to the cruel exercise, Yang Chen's only gain was that he gained more knowledge about his nine nether flying sword. As a weapon against emotions, it seems that it had no other defensive method besides hard resistance.

In the past two years, Li Cheng has also been in seclusion at the gathering point, leaving the place once in a few months, it wasn't known what he was cultivating. But no one in the entire gathering place dared to be contemptuous. Every time Li Cheng came out, they were always looking at him with fear.

Every time Li Cheng left seclusion, he would find Yang Chen for a drink. And the few days of drinking could be regarded as the days when Yang Chen and the four women had a rest. Every time Li Cheng returned home happily, every time he looked at Yang Chen, his gaze seemed to change a little, as if he was surprised. There was also comfort and even a touch of joy, there are so many different emotions.

The four women were sent away just in time for Li Cheng to leave seclusion again, the two naturally had a drink again. When Yang Chen and Li Cheng were drinking, the entire gathering spot was silent, without any noise. Even the birds that wanted to fly over the gathering spot were killed by a group of cultivators distributed in all directions.

All the people in the gathering spot were trembling, for fear that something would interfere with the two people's drinking. Back then, Yang Chen grabbed the flying sword empty-handed and the scene of Li Cheng beheading the great elder with a sword was still vivid, if it weren't for Yang Chen being grandmaster Yang, some of them would have run out from here.

After drinking to the fullest, Yang Chen also expressed their intention to leave. Li Cheng nodded, he didn't ask much, just clasped my fists and said indifferently: "If this is the case, there will be a period later when we meet!"

“There will be a period later!” Yang Chen also clasped his fists in response, then got up and left the gathering spot in strides. There seemed to be Li Cheng’s thoughtful gaze following him all the time.

After bidding farewell to Li Cheng, Yang Chen stepped out of the gathering spot in the eyes of the cultivators at the gathering spot. Breathing the familiar demonic qi, the nine nether flying sword appeared directly on his body, turning into a large cloud of black mist, disappearing into the jungle as if slowly and quickly.

As soon as Yang Chen left, everyone at the gathering point, except for those who were doing business at the gathering point, no longer wanted to stay here. In less than half a day, everyone left cleanly. A guy who could behead a great elder with a single sword strike was fine and wandering here, if they were not attracted by the demon orbs, who would keep enjoying this frightening feeling?

Yang Chen, who entered the jungle, also randomly found a direction to go deep into the Demon Continent, and after flying for hundreds of miles, he first swept away the demonic fiends that appeared beside him regardless of the kind of exhaustion in his heart.

It was undeniable that killing without burden was really a good way to relieve stress, even if it was determined to be like Yang Chen, he felt a little relaxed at this time.

The next meeting time agreed with the four girls was five years later. This period of time was enough for Yang Chen to calm down and continue cultivating. Yang Chen proceeded toward the depths of the mainland without rushing, and all the demonic fiends he encountered along the way were all beheaded.

Even if the nine nether flying sword encounters a demonic fiend, it could still work. Now the demonic qi condensed on the nine nether flying sword was far stronger than the demonic fiends encountered here. When the instinct of the demonic fiends was further amplified, it was originally just a demonic fiend that could withstand the invasion of demonic qi beast was naturally more demonized.

Under the influence of the nine nether flying sword, these demonic fiends even had hallucinations and began to go crazy. It was easily beheaded by Yang Chen with a sword, and then he absorbed the demonic qi.

The effect of the tempering of the heart demon was extremely clear in Yang Chen, even if the demonic fiends were allowed to pounce on him, the demonic qi carried by the monsters could no longer have any

effect on Yang Chen himself. With the addition of the golden bell and the yellow turban warrior body refining technique, even if Yang Chen stood in place and allowed the demonic fiends to attack, he would still be unscathed.

Unless other people are already familiar with the attacks of demonic qi, once they are injured by the demonic fiends, they would inevitably be attacked by the demon qi. In addition to healing the wounds, they have to devote their energy to fight the demonic fiends. But such a situation was meaningless to Yang Chen, and he could completely omit this step.

To be more realistic, even if the heavenly tribulation was coming now, Yang Chen didn't have to worry about the inner demons at least during the first few rounds of the heavenly tribulation. Unless it was breaking the heart demon oath, otherwise, there was no need to worry about the heart demon at all.

However, Yang Chen did not forget the original intent of the experience. After a month or two of slaughtering like this, Yang Chen stopped and switched to the blood demon vine flying sword, only at the last blow. Attack with the nine nether flying sword to absorb the demonic qi of the demonic fiends.

It's a pity that the Immortal Beheading Blade has not been fully tempered, otherwise it would have such an effect directly by installing the great Yin Yang five elements flying Sword.

Chapter 520.1: Invitation

After tempering the emotions, endless killings follow. The demon continent was a huge sharpening stone, sharpening all the sober people on the road into an unparalleled sharp sword.

For Yang Chen, the demon continent was the biggest unknown after his rebirth. He doesn't know what else will be inside, and what weird things will appear. What he needed to do now was to grow in the killing according to his usual experience.

At this moment, the demonic fiends that Yang Chen was facing were basically those at the peak and late Yuanying stage. Compared with the monsters on the periphery of the mainland, they were much stronger. Even the demonic fiends of the same realm, the ones here were more powerful than the ones before.

The most important thing was that for some unknown reasons, the monsters here were naturally grouped and fierce. Under the circumstances of Yang Chen's deliberate attacks, he had to pay a high price to be able to cope.

Yang Chen did not use the golden bell, and deliberately converged the yellow turban warrior body refining technique to only act on the bones. This could ensure that Yang Chen would not suffer fatal damage, but would not be unharmed at all.

It was impossible not to be injured at all. Yang Chen knows very well that it was definitely better to be injured than not to be injured during the training. For this reason, Yang Chen has to study how to be injured, if he was slightly injured, or even how to use non-fatal serious injuries in exchange for certain opportunities.

No matter who you are, there was no guarantee that you would not run into someone stronger than yourself, and it was impossible that you would never be hurt in your life. Once encountered at such a critical time, how to react after being injured, how to counterattack, these experiences are the capital of life-saving in the future.

Yang Chen was not only so cruel to himself, even the same requirements were applied to his own wives. Even for his four wives, all of them were beautiful but compared with the future, these small injuries could be completely ignored. Moreover, with Yang Chen, no matter how serious the injury was, there would be no problem and it was guaranteed that no scars would be left.

No one deliberately drove the demonic fiends to besiege Yang Chen this time, but going deeper would have posed such a dangerous danger. Yang Chen was also under more and more severe siege as he marched along the way.

Whether it was Yang Chen or the four girls, everyone has the ability to single-handedly challenge the dacheng stage demonic fiends, but Yang Chen was cautious and would never allow everyone to go too deep. This was a place he couldn't grasp. Yang Chen knew what kind of cultivation base was suitable for what kind of place to be experienced.

Chopping melons and vegetables along the way for almost a whole year, Yang Chen finally found a demon orb. However, these demonic fiends of the Yuanying stage could condense at most sixth-grade demon orbs, and the one in Yang Chen's hand was even smaller, only in the seventh grade. The "jelly beans" that Xiao Tian was enjoying now, if he just took out one and it was more than twice as big as this one.

Anyway, it's finally a bit rewarding. Although Yang Chen wanted the demon orbs, he just had to move his mouth. Countless people would offer it with both hands, but where could he find it with his own hands and feel a sense of accomplishment?

Yang Chen took this demon orb and helplessly shrugged his shoulders. This was a situation he couldn't control. Moreover, that kind of good luck that goes against the heavens in the dao sect domain also disappeared completely, killing for four years, only to get three demon orbs.

But thinking about the head-sized demon orb in his cosmos bag, Yang Chen couldn't help feeling pity for the guys who worked so hard here. Just a few days after he arrived, he got a heaven defying demon orb at the outermost periphery. Those people stayed for hundreds of years, but they could only use the third-grade demon orb as treasures. The difference between people was really true and can't be compared.

If someone knows that Yang Chen got a human head-sized demon orb and still sighs that his bad luck was here, there would definitely be countless people chasing him to death with flying swords. They have never seen such a cheap and good seller. The guy, was he tolerable or unbearable?

Yang Chen looked at the demon orb in his hand carefully for a long time, and then played with it in his hand, then calmly said in a certain direction "After so long, just say what you want!"

"Hahaha, Grandmaster Yang is really extraordinary!" Before the person arrived, there was a burst of laughter. Soon, a figure appeared in front of Yang Chen "I am not here to boast, but to try my hiding skills in front of you that even demonic fiends can't see through, I am very curious about how grandmaster Yang discovered me."

The visitor was a long jade man, very handsome, dressed in various dark green and light green robes, he looked like a large piece of fine jungle. Not to mention anything else, just this robe could make him hide his figure in the jungle, and ordinary people's eyesight was almost impossible to detect him.

"You have a strong demonic qi, much stronger than those around you." Looking at the strange attire of the other party, Yang Chen didn't take it seriously, just faintly mentioned it, which was regarded as an answer to the other party.

Actually, Yang Chen had long discovered that someone was tracking him. The thread of spiritual awareness from the three purities secret art was spread around like a spider web, anything that it touched would be known to Yang Chen. That said, he just gave the other party an acceptable explanation.

“That’s it.” The man in the strange robe suddenly understood. Following Yang Chen’s prompt, he began to uncover the secret about how Yang Chen discovered him.

Yang Chen was a very powerful demon orb refiner, able to completely purify the demonic qi of the demon orbs and naturally has a deep understanding of the demonic qi. Finding where the demonic qi was strong, and there are no monsters or human shadows, it could naturally be judged that someone was hiding there.

“Grandmaster is really amazing, I admire you!” The man in the strange robe gave Yang Chen a bow, and said very sincerely “for people able to find traces of me when hiding, Grandmaster, you are the third one, I admire you!”

After saying this, the man in the strange robe waited for Yang Chen to speak. Everyone would be curious once they hear that they were the third one, they will definitely ask who the first two are. In this way, the two sides would have further topic discussions, and their relationship would be closer because of this.

This man in the strange robe was almost hopeful, but this time, he encountered a dull gourd. After Yang Chen heard him say this, he just gave an understatement and said nothing more. Neither did he ask who the top two were, nor his identity and the purpose of being here.

The atmosphere froze for a while.

The man in the strange robe stood for a while, seeing that Yang Chen had no intention of opening his mouth, his face was a bit stunned. However, since he was here, he must make his purpose clear, so he could only speak up first.

Chapter 520.2: Invitation

“Grandmaster doesn’t want to know why I am looking for you?” The look on the face of the man in the strange robe did not change, but there was a little embarrassment in his eyes, so he asked Yang Chen.

In his heart, he said, Yang Chen should always ask, right?

“No!” Yang Chen’s answer directly blocked the strange robe man’s next words in his throat, which was extremely uncomfortable.

How could this be? The man in the strange robe really couldn’t see through Yang Chen, didn’t Yang Chen have any curiosity? When ordinary cultivator’s encounter this kind of thing, even if they don’t do it after they know it, they should at least try to understand it. Why doesn’t he even have any curiosity?

Little did he know how much Yang Chen suffered because of curiosity during the tempering of the heart demon, so why would he easily ask about it.

But Yang Chen also knew that since the other party came to him, there must be something. No matter what he said, the other party would still tell the matter in the end, so why bother asking.

“In fact, when I came down to find the grandmaster, I wanted to ask for something!” Seeing that Yang Chen was like this, the man in the strange robe couldn’t help but resist the embarrassment and continued to speak as if talking to himself.

He also knew that Yang Chen would definitely not be able to communicate, so he continued directly “Grandmaster can completely purify the demonic qi on the demon orb. I want to do a deep research on the demon qi but i am not talented. I would like to ask the grandmaster to help, please refer to it for more details and after the matter is completed, there would be many rewards!”

“What if I’m not interested?” Yang Chen finally picked up the topic of the man in the strange robe. This made the man in the strange robe finally breathe out, as long as he opened his mouth to answer the conversation, the rest of the matter would be easier to handle.

“It’s important, and it’s not something anyone can handle. Therefore, if the grandmaster is really unwilling to cooperate, I can only offend you.” The man in the strange robe still maintained that kind attitude, but the words from him were full of threat.

Yang Chen was only in the early Yuanying stage, but the man in the strange robe was already in the mid dacheng stage. The cultivation level between the two was more than a big difference. No matter from which point of view, the man in the strange robe seems to be settled. If it wasn't for needing Yang Chen's help, maybe he would have started attacking him a long time ago.

"Offend me?" Yang Chen suddenly laughed, "Are you not afraid that I would deceive you?"

"Because of this, I don't want to have that kind of situation." The man in the strange robe also had a smile on his face, and gently explained "Actually, it's not a particularly big thing, it's just that the grandmaster should take action to purify some demonic qi. The location is a bit special, I think the grandmaster will not refuse. Otherwise, the grandmaster's confidantes and the friend named Li Cheng might be in trouble."

The other party threatened Yang Chen with people next to Yang Chen, and Yang Chen was not surprised at all. These guys might have been watching since the four girls left the gathering point, just waiting for Yang Chen's attitude.

But what Yang Chen couldn't understand was that these guys dared to attack Li Cheng. Not to mention that Li Cheng was the first cultivator who he couldn't see through after Yang Chen's rebirth, just to mention that Li Cheng cut off the head of the great elder with one sword strike, he believed that few people in this world would dare to provoke him. Were these people's brains broken or were they deliberate?

After thinking about it, Yang Chen seemed to know the reason. Maybe when these people investigated, they didn't even know that Li Cheng had killed a great elder. Except for Yang Chen and Li Cheng, those people in the gathering place at that time were all scared and afraid to speak about it. They didn't say a word, how could they tell others about such embarrassing things?

The group of the strange-robed man didn't even find out Li Cheng's details, and they even dared to use Li Cheng to threaten Yang Chen. He was afraid they only knew that Yang Chen and Li Cheng had a few drinks, so they thought they were good friends. This was used to threaten Yang Chen, they didn't know how far Yang Chen and Li Cheng were involved with each other.

Yang Chen wanted to see the other side of the group of cultivators being rude to Li Cheng when he suddenly realized that Li Cheng was not a lamb to be slaughtered, but a fierce tiger. It's just that Gao Yue, Shi Shanshan and his women were involved, so Yang Chen had to be a little more cautious.

“What’s the matter?” Yang Chen finally said, asking him proactively.

“It’s very simple, Grandmaster, we want you to purify some demonic qi.” The man in the strange robe suddenly showed a relaxed smile on his face. Yang Chen asked, then there was a door to the matter “we are just going to go deep into the demon continent.”

“What’s the advantage?” Yang Chen still talked like when negotiating with the hall master of the Greatest Heaven Sect, with naked interests.

“Spirit stones, medicinal pills, magic weapons, grandmaster, you can get whatever you want.” The man in the strange robe was even more happy. Since he asked for a reward, then everything was easy to understand. The trouble that could be solved with the spirit stone was not a problem at all. In joy, he seemed to remember something, and immediately added “If the grandmaster likes beautiful women, it will be even simpler. Four dacheng stage cauldrons, when the grandmaster wants them, they will be sent to the grandmaster.”

He can’t help but say that the tone of the man in the strange robe was really too big. The spirit stone, magic weapon in front was okay, after all, it was something outside of the body, but he was so easy to send four dacheng stage beauties, and they were still cauldrons, which can’t help but make people be amazed by his mastery.

Those are four dacheng stage masters. Those who could cultivate to the dacheng stage were not easy to find, especially the beautiful women who are rare. Where could they be willing to be human cauldrons? Especially to be a furnace for an early Yuanying stage descendant? Unless it was to a distinguished person like the master of the Greatest Heaven Sect, it may be possible.

He didn’t know the identity of the man in the strange robe, so he dared to make such a promise, which made people wonder what exactly he was asking for.

No matter what he was going to do, one thing was certain. It was by no means a trivial matter to invite Yang Chen at such a high price. Analyzed according to common sense, if the benefits were not more than ten times or dozens of times the remuneration to outsiders, this business would never be done.

Yang Chen was really curious about such a big thing. But Yang Chen was also well aware of the risks involved, and after a little thought, he asked again “With such a large capital, it must be dangerous to go deep into the demon continent. How can you ensure my safety?”

Without waiting for the man in the strange robe to answer, Yang Chen continued “Also, Li Cheng is a friend of mine. I really hope to see him, I wonder if you can meet my small request? “

This kind of thing, pulling Li Cheng also along, presumably a lot of fun things will happen, Yang Chen can't help but look forward to it.
