Chapter 521.1: Deposit

“As long as the grandmaster agrees, everything is easy to decide!” Hearing Yang Chen’s intention to go, the man in the strange robe was naturally overjoyed and hurriedly agreed.

“I don’t lack spirit stones and I don’t need magic weapons for the time being, I only need a few things.” Since Yang Chen has made a decision and intends to take a look, naturally he would not be polite with the strange-robed man and directly ask for his compensation.

“Grandmaster, please give orders.” The man in the strange robe was even more happy. Yang Chen said he had already agreed, it was only left with the price. However, for people like them, what price was there that they can’t come up with?

“Fire seeds, the more the better, whether it is demon fire seeds or monsters fire seeds, no matter what grade, I want it.” Yang Chen first put the things he wanted first “This time, no matter what it is, I want at least ten types of sixth grade fire seeds, 20 types of fifth grade fire seeds, 100 types of fourth fire seeds and no less than 500 types of fire seeds below fourth grade. If there are more fire seeds, I will exchange them with demon orbs.”

Hearing this condition, the man in the strange robe was about to say something, but was directly stopped by Yang Chen.

“It’s not that I am being greedy, you must know how extreme the things you want me to do are.” Yang Chen’s reason was very strong, and he was confident “This thing could not only be done by senior alone, so many of your dacheng stage masters couldn’t achieve it, for this younger generation junior to do it, I must get enough benefits because of the risks?”

This was very reasonable, at least in the ears of the man in the strange robe, there was nothing to refute for the time being. What kind of person was he? He was not a master of the Dao Sect who was reasonable, and a man in the Demon Sect. Who would reason with you when he needs it?

But the man in the strange robe didn’t speak for the time being, let alone answer. He had already seen it, and Yang Chen seemed to be still inexplicable. It seems that there were still conditions that have not been finished.

He simply asked Yang Chen to put forward all the conditions first, and as to whether he agreed or not, when he got to the ground, could he still let him make the decision? He was just listening to the silly boy chattering to relieve his boredom.

“What are the other conditions? Let’s say it all together so that we can come to an agreement to satisfy both parties.” The man in the strange robe didn’t change his expression and said quickly.

“Pill recipes!” Yang Chen said without hesitation “Whether it is the demon sect or the dao sect’s pill recipe. The pill recipe used above the Yuanying stage cannot be less than twenty.”

Those above the Yuanying stage were the pill recipes used in the dacheng stage. This time Yang Chen encountered a triumphant, and the lion opened his mouth wide, and did not mean to be polite at all.

The man in the strange robe had another idea, so naturally he didn’t bargain with Yang Chen. Instead, he urged him to finish all the conditions, and even reminded him of any omissions.

“Don’t you want the magic weapon materials? For us, as long as the goal is achieved, it doesn’t matter what the price is.” The man in the strange robe persuaded in turn “As long as it is worth the money, it’s just something that can be achieved.”

“The top grade eight metal, ninth water materials, and various true essence spirit powers, if you don’t have them, you can trade them with demon orbs or spirit stones.” Yang Chen also knew that it couldn’t be too much, so these things were only offered for exchange, there was no need to achieve it.

Now most of the Yin-Yang five-element flying swords have been formed, First Wood Penglai Divine Wood flying sword, Second Wood Blood Phantom Vine flying sword, Third Fire Bright Ray Sword, Fourth Fire was the flying sword that he refined himself, Fifth Earth Living Soil flying sword, Sixth Earth Nine Nether Flying Sword, Seventh Metal Immortal Beheading Blade, Ninth Water Greatest Heaven Sect contribution flying sword, Tenth Water flood dragon bone flying sword, he was only missing the Eighth Metal flying sword.

However, although the ninth water flying sword of the Greatest Heaven Sect was very good, but it was still a little short of Yang Chen’s requirements. It needs to be refined with some advanced materials. The

current ninth water flying sword was only a sword embryo at best, not even a real ninth water flying sword.

For the essence spirit power, he already had First Wood, Third Fire, Fourth Fire , Fifth Earth, Sixth Earth , Seventh Metal, Ninth Water, Tenth Water, but also lacks Second Wood True Essence and Eighth Metal True Essence. If he could get them together, the Yin-Yang five element true secret art was almost complete, only the third fire true secret art was missing.

Of course, these are things that Yang Chen hopes to be able to get by chance, and after mentioning them, he didn't expect to get them. But maybe these cultivators have it with them, and Yang Chen would never refuse it in exchange for it.

"There is nothing else for the time being, but there is one thing. The demon orbs obtained by purifying the demonic qi on the road are owned by me." Yang Chen thought for a while, when there were no other requirements, after mentioning the last one, he finally said no more.

The man in the strange robe has been listening with a smile on his face, but he has sneered again and again in his heart. It could be said that their plan this time was so big that it was understandable to use these prices in exchange for Yang Chen's help. But then again, they are either demon cultivators or monster cultivators. In this lawless continent of monsters, do they really have to pay for what Yang Chen wanted?

"No problem, grandmaster, should we be on the way now?" The man in the strange robe clapped directly, and then reached out and made a request.

"Do you agree with everything?" Yang Chen was taken aback, and he also sneered in his heart. This guy seems to have agreed to everything, but he must have another idea in his heart. Yang Chen was not a fledgling stupid boy, and he wouldn't unconditionally trust the people in the demon sect.

"One won't be left out!" The man in the strange robe replied affirmatively.

"It's been so long, I haven't asked the senior's name, I have been rude." Yang Chen suddenly changed the subject and began to ask about the identity of the man in the strange robe.

“My surname is Li, but my name has long been forgotten. Others have given me a nickname called Yingmei (shadow demon).” The man in the strange robe finally revealed his identity, but he still didn’t have a full name. He just gave him a surname and a nickname “You can call me old Li, and you don’t have to be cautious with me.”

Both sides claimed to be humble, in the demon continent, nobody claimed to be a senior. Whether it was Yang Chen or Ying Mei, they all called themselves juniors.

Yang Chen wasn’t so arrogant that he wanted to call him old Li. The first time they met, it didn’t matter to that point. This name could not be used casually. If it was replaced by Li Cheng, Yang Chen screamed, and Lao Li was still alive. This old fellow has absolutely no such friendship.

“Senior Ying, you must have investigated my methods.” Yang Chen said with a smile, “Doing business at the gathering point is safe. But this time the business is a bit big, so Senior should pay some deposit first?”

“Deposit?” Ying Mei said with a serious expression, and his heart began to churn.

According to reason, Yang Chen’s request was not exaggerated, but it was not possible to put it here in Yingmei. From the very beginning, he used the empty glove white wolf’s idea and asked him to pay the deposit. Isn’t this terrible?

Chapter 521.2: Deposit

“Young man, you want to be paid before you work, that’s not justified!” Ying Mei put on a serious expression and began to confront Yang Chen.

“It’s not a payment, it’s just a deposit.” Yang Chen carefully corrected Ying Mei’s statement “Show me your sincerity and that of the other seniors.”

“You asked for so much, how could I have carried them with me?” Ying Mei said with a bit of irritation, and his tone became a little uncomfortable.

“I’m not in a hurry.” Yang Chen replied with a grin “When predecessor Ying pay the deposit, I will freely go with you”

“Then how much is the deposit?” Ying Mei was forced to endure the anger in his heart, but didn’t plan to lose his face with Yang Chen immediately. If he has enough things on him, he would give it to Yang Chen first, and after tricking him into doing a good job, it won’t be too late to take it back.

“The deposit, just something a little bit more interesting.” Yang Chen’s face was so pleasant and what he said made people feel comfortable to listen to, but he immediately made a specific request “Just come halfway first, and after it’s done, pay the other half.”

Puff, Ying Mei almost spit out a mouthful of old blood after listening to Yang Chen’s slightly interesting meaning. Half of it a bit more interesting? The things that Yang Chen wants, if calculated on the basis of the spirit stone alone, have exceeded tens of thousands of kilograms of high-grade spirit stones, and if converted into the top grade spirit stones, there are hundreds of kilograms.

Besides, there are some things that are not necessarily available even if they have spirit stones, such as those pill recipes and high grade fire seeds. Even if Yang Chen only wants half as a deposit. He couldn’t get it even if Ying Mei was killed.

“Young man, you are unreasonably making trouble.” Ying Mei doesn’t want to do everything, after all, he needs Yang Chen to do things. If the relationship was too stale by that time, Yang Chen would not work hard and it would be unsightly.

They had been planning this matter for hundreds of years, only to discover Yang Chen was such a cultivator who could purify the demonic qi, once Yang Chen didn’t cooperate. Then these hundreds of years of preparation have been in vain. If not as a last resort, he still has to give in to Yang Chen.

“Senior, I’m only willing to make a deal because of you. If senior is unhappy, then treat it as if it never happened.” Yang Chen put on a posture of not seeing rabbits or hawks, anyway, he was catching up now. It was not him who was begging for help, but Ying Mei.

“That’s it. No wonder the old man used some methods.” Ying Mei sighed, as if foreseen something regrettable. Shaking his head again and again “Oh. If you don’t listen to this old man, you will suffer. A young man is a young man and you can’t see the situation clearly!”

While shaking his head, Ying Mei's figure disappeared in front of Yang Chen's eyes, as if directly into the jungle. Yang Chen can't help but say that this guy's concealment technique was indeed unique.

"It's useless. Senior, you can't hide the demonic qi on your body." Yang Chen also shook his head and said in a certain direction.

"It's just a habit, grandmaster will have to give me a period of time!" His voice came out of thin air from that direction "Grandmaster, you should worry about your confidantes and your friends first!"

"Oh?" Yang Chen was not angry either, he just sighed and then loudly said "Then please invite my friend here first, as long as he agrees, I have no objection."

From the very beginning, Ying Mei threatened Yang Chen with Li Cheng and the four women, and it was still the same now. Yang Chen didn't worry at all. If the other party wanted him to cooperate, it was impossible to kill them. And Yang Chen felt that for the four women, this experience might also be a rare opportunity for them.

It's just that Ying Mei was so wicked, Yang Chen didn't mind his suffering, and took the initiative to focus on Li Cheng. These people must have been very excited to deal with Li Cheng.

"As you wish, that friend of yours will be brought to you soon!" Ying Mei's voice came from farther away, as if he felt much better. Maybe he felt that since Yang Chen had agreed to this condition, it would not be too difficult to capture Li Cheng who was in the early Yuanying stage.

"Thanks!" Yang Chen directly pointed his thumb in that direction. Even if there was no one else around, Yang Chen still had an expression of admiration on his face, and finally added "I hope I can see you again!".

It was hard for Yang Chen not to admire someone who dares to attack Li Cheng so blatantly. This old man must have never heard of Li Cheng's greatness, but it's normal to think about it. Who had the face to talk about the events of that day, was it the people at the gathering point? Since they didn't say anything, no one knew, and it was excusable for Ying Mei not to know.

Yang Chen was now very much looking forward to the scene of Ying Mei meeting Li Cheng, he didn't know how Li Cheng would deal with the old guy Ying Mei. Would he cut his head with a sword, or break him in two with a punch? In short, it was estimated that there would not be too many opportunities to see Ying Mei.

When he left, Yang Chen didn't have any interest in killing the demonic fiends immediately. Since the other party was willing to agree to Yang Chen's almost harsh conditions, it was obviously a big deal and it was obviously not something that Ying Mei alone could support.

The look of Ying Mei was not the kind that would promise Yang Chen deliberately, but it was really a big benefit that he was willing to pay the price, otherwise there would be no such performance from Ying Mei.

At this point, Ying Mei had already made a clear statement but was still unwilling to take action against Yang Chen, showing how much they value Yang Chen. You know, the demon sect has never lacked the means to control people, but those means will more or less cause some damage to the controlled person. For the sake of insurance, they will let Yang Chen go willingly instead of directly controlling Yang Chen.

This could only be done by further confirming their plans, and it must be so big that it was earth-shattering. Otherwise, how could these old demons who have reached the dacheng stage have such a talkative person? It would be good not to capture Yang Chen and torture him on the spot.

As for what these people want to do, Yang Chen really doesn't bother to care. The guys of the Demon Sect, even if they do something big, they have nothing to do with Yang Chen on the Demon Continent, so he still continued to cultivate his own way.

If things are really worth participating in, he believes Li Cheng would make the right decision. If Li Cheng was willing to join in, Yang Chen doesn't mind going as well. The reason why the last condition was made was because of this consideration.

All the choices seemed to have been handed over to the mysterious Li Cheng and Yang Chen didn't think there was anything wrong with this.

Chapter 522.1: .1

Ying Mei didn't know that he had actually been on death's door a while. When he met Yang Chen, he was in a good mood, especially thinking that this trip was profitable, so he let him go. At this moment, the shadow demon, who has made up his mind, was planning to discuss with some other people, and take the several women related to Yang Chen and Li Cheng as their hostage, and then there would be no need to worry about Yang Chen not coming along.

Yang Chen continued to cultivate here, and the people of Ying Mei over there have already started to move intensively. He can't help but say that their efficiency was really high, after less than two months of separation, Ying Mei reappeared in front of Yang Chen again.

Li Cheng appeared with Ying Mei, However, when he appeared this time, Ying Mei was not as arrogant as he was in front of Yang Chen last time, he was followed by Li Cheng with a little cringe and caution on his face. In Yang Chen's eyes, he looked like a slave who led the way.

"Brother Yang, this time things are a bit interesting, let's go take a look!" Li Cheng and Yang Chen were not polite when they met, and talked straightforwardly.

"Okay!" Yang Chen didn't mind Li Cheng's invitation and agreed directly without thinking about it.

Not far away, Ying Mei looked at the two people having such a brief exchange with a surprised look, and never dared to lean forward or say a word.

Now in Ying Mei's mind, only regret was left. If he knew that Li Cheng, who seemed to be in the early Yuanying stage, was such a terrifying character. Even if he borrowed a hundred courage, he would not dare to provoke this monster!

The scene that happened that day, like a nightmare, kept reappearing in Ying Mei's mind, he would never forget it until death.

He thought that a young man in the early Yuanying stage would definitely be suppressed easily as long as Ying Mei came out. With such thoughts, Ying Mei didn't even discuss with others, but directly found a companion who was in charge of watching Li Cheng according to the secret note. The two did not make any preparations and appeared directly in front of Li Cheng.

Two dacheng stage masters were looking for trouble with a Yuanying stage junior, what else should they prepare for? Stopping Li Cheng, they directly threatened Li Cheng to go with them to persuade Yang Chen.

Li Cheng's response was also very refreshing, only a sword cut off the head of the dacheng stage master who was stalking him, and then punched Ying Mei so that his whole body was limp and couldn't stand up, then he asked what was going on.

Only then did Ying Mei realize Li Cheng's greatness. Under Li Cheng's several small tricks, Ying Mei finally knows what it means to be unable to survive. Don't talk about the question Li Cheng asked, even the question that Li Cheng didn't ask, he quickly said it like a bamboo tube pouring beans.

Wasn't he just asking for quick death? At least in Ying Mei's mind, the few actions tossed by Li Cheng fully explained the meaning of these words.

In the past, the dacheng stage masters who were aloof in the past, always waved their hands to decide countless lives and deaths, but in front of Li Cheng he was like a lamb to be slaughtered and if he wants him to live, he will live, if he wanted him to die, he would die.

He originally thought that the methods of his own demon sect masters, although he dare not say that they are the best in the world, at least they are also unparalleled in the mortal world. But in front of Li Cheng, he discovered that the things he knew were nothing but leftovers from other people's play.

Had it not been for Li Cheng's sake that Ying Mei could quickly find Yang Chen's whereabouts, Ying Mei at the moment would have already been the bloody food in the mouth of a certain demonic fiend.

Ying Mei finally understood why Yang Chen let Li Cheng decide, as there was such a terrifying master as Li Cheng, let alone pit Yang Chen, even if he gave a little less, it was estimated that Yang Chen would give up.

At the thought of the huge price Yang Chen had put forward, Ying Mei felt a little bit bitter. If he knew this a long time ago, he wouldn't have agreed to Yang Chen, and didn't need to take Li Cheng, the evil star.

It's fine now, even if he took the two to the destination, he didn't know how much complaint he would fall behind. After all, when he promised Yang Chen, he didn't discuss it with those people. Once those companions disagree, how should he explain?

But the current situation allows him to bargain with Yang Chen again? Li Cheng already knows everything. Without a sword, he was already looking at him for leading the way. If he can't even do this well, is there still a need for him?

Ying Mei never thought of daring to escape, and he couldn't help trembling at the thought of Li Cheng's methods when he was forced to question him. Although his name was shadow demon, he absolutely believes that if he escapes in front of Li Cheng, even if Li Cheng asks him to go for an hour first, he would definitely not be able to escape with his head.

Being able to live till now, Ying Mei suddenly realized that he was more afraid of death than anyone else. This feeling made him extremely doubtful as to what he had cultivated in his previous cultivation.

If he knew the outcome, why would he bother? Apart from regret, Ying Mei had no other thoughts, and could only obey Li Cheng's words honestly, even if Li Cheng had not imposed any restrictions on him.

"Let's go!" Yang Chen decided the next itinerary with one word "Since Brother Li also feels it good, let's go and have a look."

Li Cheng turned his face, just glanced at Ying Mei, Ying Mei immediately obediently came over to meet Yang Chen and took the lead, leading the two to fly towards the depths of the jungle.

In the beginning, Ying Mei didn't dare to be too fast, for fear that Yang Chen would not be able to keep up. As for Li Cheng, he had already learned a lot, even if he used the fastest speed, it was impossible to get rid of Li Cheng.

But soon, Ying Mei found that not only Li Cheng, but even Yang Chen's speed was definitely not slow. No matter how fast he increased his speed, Yang Chen and Li Cheng always followed him at a certain distance without hurry.

At the end of the day, Ying Mei had already used the strength to eat milk and increased the speed to the extreme, but Yang Chen and Li Cheng were still as relaxed and comfortable as they were, and they even had room to spare. Fast forward while chatting, it was completely different from the tired Ying Mei who almost had his tongue out in front.

No matter how stupid Ying Mei was, he finally understands it now and there was another fear in his mind. Yang Chen and Li Cheng, two young men who seemed to be only in the early Yuanying stage, were definitely two terrifying guys. He was so fateful, after provoking one, he still has to prosecute the second one. Wasn't it such an eagerness to reincarnate if life was too long?

At this time, Ying Mei has no other thoughts, only to be able to take the two to the destination in peace and also to make great efforts to persuade the others, otherwise if these two evil stars break out, they won't be ready for them. After hundreds of years, even after hundreds of years of preparation, those benefits would be nothing to them.

It all depends on whether those companions are on the road or whether they are cooperating.

Chapter 522.2: .2

Along the way, Ying Mei was rushing at full speed, but there were some demonic fiends rushing out constantly around. For these guys blocking the way, Ying Mei did not dare to let Yang Chen and Li Cheng take action and directly killed these demonic fiends.

Both Yang Chen and Li Cheng ignored Ying Mei. On the way, Li Cheng just told Yang Chen what Ying Mei and the others wanted to do.

It was also very simple: they had discovered an ancient sect on the Demon Continent, which was sealed by a large seal formation, and they had found the entrance. The only trouble now was that if they are attacked by a very strong demonic qi, even these guys who have experienced a lot of battles can't bear that level of demonic qi. They could only watch the entrance but can't get in.

Therefore, these people were always looking for a cultivator who could deal with demonic qi to help them open that mysterious entrance. It's just that there are so many cultivators who know this matter, and everyone was on guard against each other, and no one dares to leave easily, so that it has not been resolved until now.

It wasn't until they heard that Yang Chen appeared, that there was a first-line turnaround. Everyone quickly reached an agreement, and then sent the shadow demon who was best at concealed tracking and a few companions to bring Yang Chen to the ground.

That ancient sect even predates the appearance of demonic qi. Or it was because of the appearance of demonic qi that the ancient sect could not continue and was forced to close the entire sect with a great mountain sealing formation. With just a few words passed down, everyone could be sure that there are countless good things in the sealed ruins, which are worth waiting for after many years of hard work.

This was basically the case, the details could be ignored. The ground was in a valley deep in the Demon Continent, and it would take at least half a year to rush over from where Yang Chen and the others were. This was not to say that there are endless demonic fiends to deal with on the road.

However, for Ying Mei plus Yang Chen and Li Cheng, this was not a problem. Ying Mei was a dacheng stage master which allows him to easily deal with most demonic fiends, as long as there are demonic fiends rushing out, basically they can't escape the fate of being killed by the shadow demon. Occasionally, a few small fish that slipped through the net were also killed instantly by Li Cheng, leaving no living creatures behind.

Under full speed, within half a year, everyone rushed to the destination. Of course, they didn't forget to go around a few circles halfway and bring Yang Chen's four wives along the way. Since there was such a good thing, wouldn't it be a pity not to bring the four women to gain insights?

On the way, Yang Chen felt that Ying Mei was too slow, so Gongsun Ling took out the ship. Ying Mei was shocked by the speed of the ship and then he pondered what Yang Chen said at the time.

Yang Chen asked him to take action against his wives, but fortunately those companions were only tracking them from a distance. It's just for positioning and they didn't do it, otherwise, it's uncertain what the result would be. Not to mention anything else, just the speed of the ship, if they want to run, they would definitely not be able to catch up.

Certainly the guys who followed the four girls were not qualified to enter the ruins. Now on the ship were Yang Chen and the four women plus Li Cheng and Ying Mei. Ying Mei was thrown directly at the bow to lead the way, while Gongsun Ling made some side dishes for Yang Chen and Li Cheng to drink and feast.

The demonic fiends simply couldn't keep up with the speed of the ship, but occasionally there were a few flying demonic fiends that could threaten the speed of the ship, so they would be directly killed by Ying Mei and they would continue on their way.

Because these days were almost spent together, the relationship between Li Cheng and Yang Chen has also gotten closer. When Yang Chen had a good relationship, the two quickly became brothers. Li Cheng was older than Yang Chen, so Yang Chen regarded himself as the younger brother and Li Cheng as his elder brother.

Yang Chen couldn't see through his current brother Li Cheng. However, as long as he was not malicious towards Yang Chen, he would never refuse to have such a relationship with Li Cheng.

Everyone was a cultivator, and there were not so many ceremonies to follow. There was no need to burn incense and bow down to become brothers of the same sex. They just drank a cup and started calling each other brothers.

"This younger brother felt that my family's cultivation base was not deep enough, so we could only come to the demon continent to have a killing experience, so I asked my elder brother to give me some advice." Yang Chen couldn't see through Li Cheng, but it didn't prevent him from knowing that Li Cheng had a lot of secrets in his stomach. Therefore, he was very indifferent to ask Li Cheng for advice on the cultivation of the four women.

"All of the four younger siblings have excellent aptitudes. It is rare that you can have such excellent luck in love, brother." Li Cheng did not directly agree, but did not directly refuse, he just said this. He can't help but say that Li Cheng's vision was absolutely vicious, he has such an insight without the aid of anything.

The four women listened quietly, they also knew that Yang Chen would never speak falsely. They were all intelligent people, and when they heard Li Cheng's words, they immediately paid homage to him.

"I am happy today so I will give you four sisters a few meeting gifts." Li Cheng smiled and waved his big hand, four white lights flew directly to the four women's foreheads, and got in almost without hindrance.

The sudden sight shocked Yang Chen. Had it not been for the training of the heart demons with the help of the demonic qi, he might have exclaimed and stood up. Forcefully resisting the surprise, Yang Chen turned to Li Cheng with an inquiring look.

“The magic weapon of the four younger sisters seems to have just been tempered. I will give you a little help as your brother. When the tempering is completed, you will be able to upgrade it a little bit.” Li Cheng seemed to have done a trivial thing. Picking up the wine glass and taking a sip, he explained with a smile.

When Li Cheng spoke, it would never be a lie, so Yang Chen was overjoyed. The four women were also a little surprised, but seeing Yang Chen so happy, naturally they knew that there would be no fakes. They all smiled and thanked one Li Cheng after another, everyone offered a drink to this righteous brother.

“Speaking of it, you still have a deep blessing. Such a good wine, I don’t know which old guy left it behind and it was actually found by you.” Li Cheng’s expression of enjoyment, and he filled his cup.

Yang Chen’s face was happy, but he was also secretly surprised. The four women were still working on their life source magic weapons but Li Cheng could use a method to help without him knowing what kind of method, this kind of method was simply unheard of, this cheap righteous brother, he was afraid that he was an incredible man.

“Big brother likes it, little brother naturally offers it with both hands.” Of course, Yang Chen would not begrudge the district wine, and directly took out the gourd, and was about to divide the wine in half. As soon as he took out the gourd, it was snatched by Li Cheng. With Yang Chen’s current strength, he didn’t even have a chance to hold the gourd.

“I was wondering who left it behind? It turned out to be the possession of these old guys, no wonder!” Li Cheng held the gourd up and down to play with it and blurted out.

Chapter 523.1: Dao Heart

Li Cheng’s actions shocked Yang Chen again. With the gourd in his own hands, even if Yang Chen had already cultivated the yellow turban warrior body refining technique to the level of river turning strength, he could not hold the gourd and it was easily grasped by Li Cheng. What kind of terrifying strength was Li Cheng having?

There were many things in the gourd that were incredible. First Wood Spiritual Solution, Seventh Metal Spiritual Solution, Ninth Water Spiritual Solution, Tenth Water Spiritual Solution, these were all described in terms of lakes, such a huge amount of true essence spiritual liquid, if people were to know about it, wouldn't it cause a commotion?

But after another thought, Yang Chen calmed down. With the strength and insight shown by Li Cheng, it was estimated that he would not be able to see the true essence spiritual solutions.

Sure enough, as Yang Chen had expected, after Li Cheng got the gourd, he only recognized the signature of the dragon clan from the refining technique. Hearing his tone, it seemed that he was a little dissatisfied with some of the Dragon Clan guys.

"I have read some records, these old dragons one by one for fear that others will know their lair hide it very secretly." After rubbing the gourd in his hand for a few times, Li Cheng said with some envy "they even refused to tell others where the treasures were when they were ascending, who would have thought that you would find it, brother."

"Good luck, just good luck!" Yang Chen didn't know what to say. Even for his wives, he never told them that he was reborn and became a heavenly executioner. Naturally, he would not tell Li Cheng.

"A good thing is a good thing, we shall divide it into half." Li Cheng and Yang Chen, the new brothers, were not polite at all and directly mentioned dividing it into two, "when those old guys brewed these fine wines, they were just storing it all. They wanted to compete with the heavenly court, so they didn't even taste it themselves. It's all left to you, brother, hahaha!"

"It just so happens that I don't have any good things to honor my eldest brother, so I will use this wine instead." Li Cheng said he was not polite, but Yang Chen didn't take it to heart. There are some things that you won't worry about if you want to open them. Simply following Li Cheng's words, he turned the so-called half into a filial piety to the eldest brother as a younger brother.

Li Cheng's words also shocked Yang Chen. The wine made by the Dragon King and the others were actually planning to compete with the heavenly jade liquid jelly, Yang Chen didn't even know about these things. Of course, after Yang Chen's ascension in the previous life, there was already no Dragon King. There was only a short time to meet the Dragon King in this life, and it was impossible to know these secrets.

It's how Li Cheng knew these inside stories that Yang Chen could never guess. It's just that Li Cheng was originally a mysterious master who can't be seen through. There must be some records in his family that have been passed down from generation to generation.

"How can this be unworthy?" Li Cheng was not an ignorant person, although Yang Chen's gourd could only allow what Yang Chen wanted people to see, how could Li Cheng not be able to find this? Many of the true essence liquids made him change his expression in surprise at the moment.

"The benefits that the eldest brother gave to the four younger siblings, this brother hasn't thanked you much yet." Yang Chen thought well, Li Cheng was able to upgrade those magic weapons while the four girls tempered their life source magic weapons. This great gift was enough to be comparable to all the true essence.

Everyone understood the importance of the promotion of one's life source magic weapon. That was by no means an easy task, it could only be achieved after years of tempering. But Li Cheng just shot a white light and completed it in no time, not knowing how much time was saved for the four girls.

That's not to say, the more powerful the life source magic weapon, it means that their future combat effectiveness would be more powerful. An average upgrade of a life source magic weapon was equivalent to giving the four women one more life. Compared with those true essence liquids, it was natural that the lives of the four women were more important to Yang Chen.

"That's a meeting ceremony, naturally it can't be compared." Li Cheng laughed and didn't say much. He just took out a jade bottle from his cosmos bag and held it in his hand.

"Brother, I just like a few sips of fine wines. You have a rare wine, so you can't say that your brother is not polite." While talking, Li Cheng held Yang Chen's gourd with the mouth of the gourd facing the mouth of his bottle. Then it was poured, as if two alcoholic drinkers were holding a gourd wine.

Only Yang Chen knew what the amount of the wine in that gourd was a huge lake, dumped in this way, he was speechless.

Li Cheng was really not polite at all, but the speed was quite fast, and it was half done in two strokes. After pouring, he lifted the bottle and shook it twice, his face full of joy.

Next, Li Cheng's movements made Yang Chen somewhat incomprehensible. He was holding the bottle, still facing the mouth of the gourd, but this time he poured it from the bottle into the gourd.

Yang Chen didn't know what Li Cheng was pouring into it, but with Li Cheng's eyes, he would surely be able to put him in the jade bottle containing the wine mother, and it would definitely not be anything ordinary.

"When I traveled around the world, I found a lot of good water, whether it's used for brewing or alchemy, it's all top quality and it can't be cheaper for others." Li Cheng said while pouring into the gourd.

It's just some good water, Yang Chen felt at ease. So many wines have been exchanged for some of the top grade spirit stones, and it can't be said that it was a loss or a profit. There are always some courtesy exchanges between brothers.

"I think one of your precious flying swords uses a little bit of living soil." Li Cheng looked at Yang Chen and said without raising his head "It's just that there is too little soil, I have a little here. If you take it to refine your flying sword, it should be a bit beneficial."

Li Cheng's remarks were an understatement, but in Yang Chen's ears, they are no less than heavenly music. That was the living soil flying sword, the magic weapon used by Gun Zhishui. Although he was not famous, the name of the living soil has spread all over the world.

If Ming Guang of the Greatest Heaven Sect didn't know how long it took to find such a trace of living soil, according to Yang Chen's estimation, it was only a few grams at most. Refined into the flying sword, it was already a superb flying sword. Now Li Cheng actually wanted to give him a little bit so that he could supplement the refining of the flying sword, which was really surprising.

Yang Chen could completely predict that one point in Li Cheng's mouth was absolutely jaw-dropping, but the following facts were also in front of him like iron.

Looking at the little bit of soil in Li Cheng's mouth, Yang Chen suddenly felt like seeing a fortune. Even after collecting so much true essence, Yang Chen had never felt this way. It was not an exaggeration to describe him as feeling ecstatic.

No matter who it was, if you suddenly see ten grams of living soil in front of you, they would probably have the same feeling. It was definitely a kind of happiness that was like being stunned by the golden pie falling from the sky.

Chapter 523.2: Dao Heart

Ten kilograms of living soil, this could no longer use spirit stones to calculate the value. No matter who has ten kilograms of living soil, no matter what kind of spiritual root he was having, there would be no other way to deal with it except for the two methods of using it or using it as a family heirloom.

Now, Li Cheng was right in front of everyone, generously giving ten kilograms of living soil to Yang Chen. There was no other one with great writing and grandeur.

Even Yang Chen, a well-informed fellow, couldn't help trembling slightly in his hands when he picked up these soils. With his cultivation base in the middle Yuanying stage, he seems to feel heavy when holding ten kilograms of living soil.

This was what a gift could be described as, it was simply a super luxurious and heavy gift. With these ten kilograms of living soil, Yang Chen's living soil flying sword could definitely be upgraded to a point comparable to the Penglai Divine Wood flying sword. You know, the Penglai divine wood flying sword was made from a whole Penglai divine wood, a complete divine wood, ten kilograms of living soil could be comparable to the entire divine wood, it was already going against the heavens.

However, Yang Chen's surprise was not over yet, Li Cheng's words immediately plunged him into sluggishness again.

"You're a fire cultivator, you don't want to have a shortage of fires! However, you shouldn't have the two most suitable fire seeds with you. I haven't felt any kind of aura from you." Li Cheng said unceremoniously and made no secret of the fact that Yang Chen almost could not hide anything in front of him.

"I have quite a few fire seeds, brother, of all grades. I don't know which two you are referring to?" Yang Chen asked with a smile.

There are indeed a lot of fire seeds on Yang Chen, ranging from the first to the seventh grade. The fire seeds in the dao domain have been collected almost all over, he dare not say that there are all of them,

but 80% of the fire seeds should already be in Yang Chen's hands. But Li Cheng said that there are two types of fire seeds that are most suitable for him, Yang Chen did not know about it but it raised Yang Chen's interest.

"There are two types of fifth-grade fires, third fire peach blossom karmic fire, fourth fire red lotus karmic fire." Li Cheng also didn't keep him guessing and directly said the answer with a smile.

As soon as the word "Karmic fire seed" entered Yang Chen's ears, Yang Chen was shocked. To put it more popularly, karma fire is the fire that burns sinners. Regardless of whether it was the peach blossom fire or the red lotus fire, the legend was that as long as there was a trace of evil thoughts, they would be burned to ashes by the fire.

Even Yang Chen wouldn't dare to get involved with this kind of fire, let alone other people. Who could guarantee that he can't even have evil thoughts in his heart? Except for stubborn stones, it was estimated that no living thing could do it. If there was such a person, then it could be said with certainty that no heart demons would bother him.

Fire seeds that no one dares to touch, naturally, no one could collect it. Although Yang Chen searched the world for fire seeds, these two karma fires were rated as the fifth grade fire for no reason, but they have never been able to use them. Even if anyone has seen it, they both say it's like Yang Chen's Yin-Yang heaven burning fire, it was in the legend, but no one has ever seen it.

"How is it possible?" Yang Chen had heard of these two names, but hadn't seen them either. Not only that, even in the process of merging the Yin-Yang heaven burning fire from nothing in this life, he never thought of fusing the red lotus karma fire and the peach blossom karma fire. He wants to control the fire, not to be burned to ashes by the fire.

"What's impossible?" Li Cheng always smiled. This time was no exception, he answered with a smile "it is only a fifth grade fire seed, is there anything special about it?"

"That's karmic fire, so you can't get any bad thoughts while using it." Yang Chen looked at Li Cheng, the righteous brother, and was really speechless. He even dared to have ideas about karmic fire seeds, it was by no means an ordinary vigor.

“Haha, evil thoughts, what is good and what is evil?” Li Cheng asked with a smile, “If you understand this, then you don’t have to worry about the distinction between good and evil thoughts, and you don’t have to worry about the burning of karmic fire.”

“Big Brother, please instruct me!” Given the opportunity, if Yang Chen didn’t know how to ask, he would be a stick, so he immediately climbed along and asked.

“The two points of good and evil are just your own so-called moral codes.” Li Cheng shook his head disapprovingly, and explained to Yang Chen in detail “In this world, what are the completely correct standards for judging good and evil? “

“Lying is evil, but in order to conceal an illness for relatives and friends, it is good. But if the person being deceived doesn’t understand your intentions, wouldn’t it be evil again?” A very simple example, Li Cheng explained. The standard was hard to find. “If there is no standard to judge good and evil, aren’t these good and evil thoughts just empty talk?”

“As long as the starting point is good, can it be evil?” Yang Chen asked cautiously.

“Good question.” Li Cheng snapped his finger and asked with a smile “Then I ask you, in times of crisis, a mother lets her young son escape and sacrifices herself, is this considered good?”

“Of course!” Yang Chen nodded.

“So for a son, using his mother’s life in exchange for his own life is not filial piety? Hundreds of filial piety first, such an unfilial person must be full of evil right?” Li Cheng asked next.

“This?” Yang Chen was asked all of a sudden. According to Li Cheng’s standards, it was indeed hard to let go of.

“Or it may be a little troublesome because of the different objects. Then, let’s go back to the mother.” Li Cheng smiled and said from the beginning to the end “The mother is willing to sacrifice herself for the sake of her son. This is good, but if she wants to save her own son by blocking the way for others to escape, causing more lives to die. Then, what she did, was it good or evil?”

There were no other thoughts in Yang Chen's mind, only the words of Li Cheng wandered around. This question seems very interesting, even the four women listening next to him were lost in thought.

"The moral code of the human cultivators is that killing is evil, killing the bad is good, but being blinded to kill a good person is evil, and vice versa. Is it just one sentence for good, although good is not rewarded, and unintentional to do evil, even if evil is not punished, it can be justified?" Li Cheng asked again, "Where is good, good and evil, so easy to say clearly. Even if it is out of good intentions, are there few people doing bad things with good intentions in this world?"

Doing bad things with good intentions is indeed a thing that makes people speechless, but it cannot be denied that no matter where you are, such things are always happening endlessly and there is never a time to stop.

"Actually, to talk about it, it's just the dao heart." Li Cheng finally said in a concluding remark "As long as you firmly believe that what you are doing is right, you might as well go on. What is a dao heart, the dao heart is just perseverance. Even if it is a demon cultivator, as long as you firmly believe that you are right to kill and set fire, then this killing and arson is your dao heart and it wouldn't be long before you ascend."

Chapter 524.1: Li Cheng's Pointers

"If the demon cultivators actions can also bring enlightenment, wouldn't it bring chaos to the world?" This time it was not Yang Chen who asked, but Gao Yue from among the four women who was watching.

"How do you know that the people killed by the demon cultivators are not bad guys who would do evil in the future?" Li Cheng's words were very philosophical, and of course, they also were unpredictable. If you insist on speaking in plain language, you may be incomprehensible.

Gao Yue stopped questioning, but began to think. To be honest, the conversation between Yang Chen and Li Cheng really made the four women feel a little bit insightful. Even Yang Chen himself seemed to have figured out many things.

"The so-called good thoughts and evil thoughts, since they are just thoughts, as long as there is no action, they are just thoughts." Li Cheng smiled and said to Yang Chen "Karmic fire is just a kind of fire, and it has no wisdom. How will it judge good or evil?"

“Could it be...” Yang Chen suddenly thought of a lot of things in his heart.

Li Cheng smiled and gave Yang Chen an encouraging look. Yang Chen felt more confident for a while, and then said “Could it be that this Karmic fire is only backed by a guilty conscience?”

“It’s a bit close!” Li Cheng clapped his hands and gave Yang Chen a very affirmative reply “As long as your idea is not implemented, it will not have any influence on the outside world, and you will naturally not face judgement. A guilty conscience, the so-called good thoughts and evil thoughts are just to see if you feel regret.”

“In the world, who can never have regrets?” Yang Chen sighed and said, “There are always things that people can’t let go of.”

“When you have regret, can you change what has happened?” Li Cheng stared at Yang Chen with an ulterior gaze. He smiled and said “Just stick to the original heart. If you look forward and backward in the path of cultivating the dao, what kind of dao will you cultivate? Let’s live an earthly life honestly.”

“What is the conscience?” Yang Chen asked Li Cheng suddenly and solemnly.

“The one who does not regret is the conscience.” Li Cheng did not hesitate to give an answer that seemed to have been said before. Then he stretched out his hand, and there were two more oil lamps with faint flames in his hand “Two kinds of Karmic fire seeds that are the most suitable for you, take them!”

“Thank you, brother!” This time Yang Chen was very formally thanking Li Cheng. The words just now made Yang Chen even more open to the sight of the fire seeds. His mood has naturally improved, but these words were a sincere thanks.

“A little bit of trouble, what’s the point of worrying!” Li Cheng said in his always cheerful tone: “let’s drink happily!” While talking, Li Cheng threw the gourd to Yang Chen.

Yang Chen took the gourd, but subconsciously inspected it, intending to see how much of his wine was missing. But under investigation, he was stunned on the spot. In the gourd, the wine was indeed reduced by half, but there were several other kinds of liquids.

Li Cheng said when he was traveling around the world, he found several spiritual springs and gave them to Yang Chen. Now in the gourd, there are several gurgling springs, and several small lakes have slowly formed.

This was not what surprised Yang Chen, what surprised Yang Chen was another small lake. Or it can't be described as a lake, it's just a small pond, with a radius of a few meters, and it doesn't look very big.

But this small pond was a kind that makes Yang Chen feel very familiar but a little strange. Yang Chen just probed it carefully, he knew the name of this pond right away.

Eighth metal spiritual solution, this was one of the two true essence spiritual liquids that Yang Chen couldn't find. Eighth metal spiritual solution, he doesn't know where Li Cheng got it, although it's not as outrageous as the ninth water spiritual solution and first wood spiritual solution that Yang Chen got from the golden star of the sun and Dragon Palace. But so much eighth metal spiritual solution was enough for Yang Chen to take a bath.

"I took some of your true essence, and naturally I have to make up to you." Of course, Li Cheng knew why Yang Chen was surprised. He smiled and said while drinking a glass of wine, "It just happens that I am having some true essence on hand. I took some of Ninth Water Tenth Water and First Wood Spiritual Solution, and used these eighth metal spiritual solution to replenish it. If you don't want to take it, I will give you three glasses of wine!"

Li Cheng said that he would not confess himself, but there was no guilt on his face for confessing himself. Holding the cup, he poured three cups of jade dragon wine, all of which were suffocated in one mouthful and his face was smiling. It's as if it never happened.

Of course, Yang Chen would not care about this little matter with Li Cheng. What's more, Li Cheng gave Yang Chen a great opportunity. Seeing the cultivation of the great Yin-Yang five elements secret art in sight, how could Yang Chen account for such a trivial matter.

"Thank you, brother!" Yang Chen said thank you this time. He didn't thank him any more, just picked up the wine glass and had a few drinks with Li Cheng.

“Big brother, can you do us another favor.” Gao Yue was obviously the one who will come forward among the four women. Seeing that Yang Chen and Li Cheng were both happy now, they also came forward and offered a glass of Li Cheng, and then said “We have cultivated for several decades, but we still need the eldest brother’s diligent advice!”

The other three women were not foolish, and they knew what to do after hearing the words, and immediately lined up to toast one by one to Li Cheng.

“Actually, you guys, all of you have good aptitudes, and with your husband, you all have the true essence secret art, in this respect, there is nothing to point out.” Li Cheng and the four women all had a drink and after one round, he said “In the future, as long as you learn the origin of the five elements of Yin and Yang, there will be no more problems.”

“However, cultivation is not just a matter of realm and cultivation methods, but also depends on many practical applications.” Li Cheng looked at Yang Chen’s eyes, but also saw Yang Chen’s four wives “As long as the goal can be achieved. The method is a good method, and the trick that can kill the enemy is a good trick. You don’t have to stick to the realm of cultivation. In this regard, if you have any questions, bring them up and we will discuss them together.”

The words are polite, they were to discuss, but everyone understands that this was already a promise to give pointers. Of course, it depends on what kind of questions the four women could ask. When Li Cheng said so, everyone was overjoyed.

“There are still some days left on the way, brother, you can try to take advantage of the two karma fires.” After agreeing with the four women, Li Cheng turned to Yang Chen and said, “These two karma fires are better than your earth fire and first wood fire.”

Having said this, Li Cheng seemed to feel a little weird and asked directly “Brother, you have so many fire seeds in your hand, how can you only use these two third grade fire seeds as your life source fire seeds instead of more advanced ones? Is there any reason for this? Or is there some unsolvable problem?”

Chapter 524.2: Li Cheng’s Pointers

When Li Cheng asked this, Yang Chen also felt surprised. For a long time, Li Cheng gave Yang Chen the impression of being omniscient. He didn’t have the slightest secret in front of Li Cheng and was completely seen through by him. But this time it was clear that Li Cheng had been deceived.

The Yin-Yang heaven burning fire could simulate any kind of fusion flame, or it could be said that it was not a simulation. It has the characteristics of that kind of flame itself, and it could naturally display that kind of flame to the fullest.

Yang Chen has never wanted others to know his own details, so there are also two kinds of life source fire that appear externally. Third Fire Black Wood Fire, Fourth Fire Geocentric Flame were both third grade fire seeds, not very extraordinary fire seeds, but both the Third Fire Black Wood Fire and Fourth Fire Geocentric Flame were very suitable for alchemy and treatment of medicinal materials.

This gave the outsiders the impression that Yang Chen was just a pure alchemist. Unexpectedly, this deliberate effect even fooled Li Cheng.

It was rare for Li Cheng to have a place where he did not understand Yang Chen. Yang Chen was naturally proud of it for a long time, and then he released the already formed Yin-Yang heaven burning fire.

Two fire dragons flew up and down beside Yang Chen. The two purple and cyan fire dragons were like living creatures. Except for their low grade, they couldn't simulate all the details of the dragon. From a distance, they would really think they were two living fire dragons.

"This is?" Even Li Cheng couldn't help but widened his eyes, carefully observing Yang Chen's two life source fire dragons, startled and couldn't speak anymore.

But Li Cheng was Li Cheng, and he quickly saw some clues from it. Suddenly his face changed drastically, and he pointed at Yang Chen's two fire dragons and asked with some uncertainty "This, isn't this the fire of Yin-Yang burning the heavens?"

These words of Li Cheng immediately earned Yang Chen's respect, especially for the family or sect who taught Li Cheng. The legend of the Yin Yang heaven burning fire that only exists in the heavenly court, he could even know that this was by no means an ordinary profound foundation.

Sometimes Yang Chen would even wonder if Li Cheng was a consciousness descended from the immortal world, but soon he dispelled the idea. Impossible, the lower realm of the immortal consciousness clone would lose more than ninety-nine percent of the memory, how could it be like this.

“Big Brother is really like a torch!” Yang Chen couldn’t help sighing, Li Cheng was really knowledgeable, how could other people know the name of the Yin-Yang heaven burning fire.

“You really surprised me.” Li Cheng’s incredible gaze glared at Yang Chen again, and then turned to the two fire dragons which he observed carefully.

“Purple is full-bodied and blue is pure, it’s not bad, it’s a good foundation.” After watching for a long time, Li Cheng finally gave a comment, and then asked “Why is it only in the fourth grade, why not incorporate high-grade fire seeds? You still have a lot of advanced fire seeds!”

“I was afraid that I wouldn’t be able to lay a solid foundation, so I never dared to advance it.” Yang Chen was also telling the truth, for Li Cheng, a master who could easily control karmic fire. He also happened to ask “I want to incorporate more low-level fire seeds, and then use high-level fire seeds.”

“The foundation is up to this point. In fact, it’s almost the same.” Li Cheng nodded first, agreeing with Yang Chen’s statement. Then, after carefully observing the two fire dragons, he came to this conclusion: “You can fuse high-level fire seeds, and if you have a low-level fire seed in the future, if you merge it, it will not affect the quality of the Yin-Yang heaven burning fire.”

Yang Chen had already had the intention to fuse fifth grade fire seeds, but he hadn’t done anything. Now even Li Cheng said so, so he immediately made up his mind.

“It just so happens that the red lotus karmic fire and the peach blossom karmic fire are the most suitable fires for you in this demon continent. They are unique in dealing with demonic qi. During this time on the road, I will help to protect you so you can integrate these two kinds of fire seeds.” Li Cheng persuaded him, and at the same time gave Yang Chen another surprise “I happen to have two methods of manipulation of Karmic fire, please refer to them first.”

With the thoughts of good and evil that Li Cheng told Yang Chen before, plus the method of manipulation of Karmic fire given here, combined with Yang Chen’s previous life experience, controlling karmic fire would no longer be a problem at all. The only thing that needs to be considered, was estimated to be time. If they rush on the road, they may have reached the ground, and there would be no way to successfully absorb and merge.

However, this was not a problem for Li Cheng at all. The Shadow Demon didn't even dare to take a breath in front of Li Cheng. Li Cheng asked him to find a suitable place for the four girls to cultivate, it was just a matter of speaking.

As for the time delay, it was even easier. Ying Mei only sent a message back and informed his other companions that they have found all the people, and it will be over when they are on the way. Now that the person was already in hand, then there was no need to worry about other things. They were all masters of the dacheng stage, waiting for a year and a half was normal, no one will be impatient.

In the days that followed, the four women cultivated under Li Cheng's guidance, while Yang Chen concentrated on absorbing and fusing the red lotus and peach blossom fire seeds. The process was the same as that of the low-grade fire seeds. They start to be absorbed by the profound spirit furnace, and then use the profound spirit furnace as a buffer to merge into the Yin-Yang heaven burning fire.

However, even if the process was the same, the difficulty was beyond the reach of low-level fire seeds. The fifth grade fire seeds could already be regarded as the best for cultivation in the mortal world. In the previous life, Yang Chen just merged with a fifth grade fire seed, and was able to fly through the tribulation and ascend, and later became the a great lu golden Immortal. The power of the fifth grade fire seed was evident.

In the previous life, when Yang Chen absorbed the true sun fire, it could be said that he was dead. At that time, Yang Chen had to take this huge risk in order to get revenge, and he was lucky to succeed.

Although the fifth grade fire seeds were integrated again in this life, the difficulty would never be as high as in the previous life, but this was not the true sun fire that Yang Chen was familiar with, but the red lotus karmic fire and peach blossom karmic fire he just received.

It was a relatively simple process to absorb the two kinds of fire seeds into the profound spirit furnace. After all, as long as Yang Chen's dao heart was strong, he would not be affected. The profound spirit furnace was a dead thing no matter what, there would be no thoughts of good and evil, no matter how powerful the karmic fire was, it was impossible to burn a dead thing without thoughts.

But the next thing was not so simple, fusing the fifth grade fire seeds, especially these two karmic fire seeds, a little carelessness would result in the consequence of facing backlashes. Before starting, Yang Chen even had to use the profound spirit furnace to control the two karmic fire seeds to refine some messy medicinal pills, familiar with the properties of various medicines, and at the same time familiar with the fire properties of the two karmic fire seeds.

It wasn't until Yang Chen had considered himself proficient in manipulating them, that Yang Chen began the process of fusion.

Chapter 525.1: Absorbing The Karmic Fire Seeds

The words of Li Cheng and Yang Chen's family are not qualified to listen to by Ying Mei, nor could he hear them. Li Cheng's restrictions could not be broken by any cat or dog. Although the shadow demon was already a master of the dacheng stage, none of the people present has put him in their eyes.

The four women were surprised to find that Li Cheng's knowledge was not even less than that of their husband. At that time, when Li Cheng killed the Greatest Heaven Sect's great elder, the four women were not there, and they did not see Li Cheng's majesty, but now they had a better understanding of Li Cheng.

Since they were considered brothers, Yang Chen naturally no longer concealed his identity, and also told Li Cheng about the true identity of the four women and Li Cheng also talked about his origins. What surprised Yang Chen and the four women was that Li Cheng came from an old family, strictly speaking, he was only a rogue cultivator.

A rogue cultivator family could have such a profound background, if it was left out and known by others, it would definitely attract some large sects to come to their door, and they would take these inheritances in their hands. He just doesn't know how Li Cheng's family got around these big sects.

The four women cultivated under Li Cheng's guidance, and Yang Chen had already begun the process of absorbing and fusing the red lotus karmic fire.

Yang Chen was cautious about the absorption of the fifth grade fire seeds. With the help of Li Cheng's fire control techniques, Yang Chen collected a ray of red lotus karmic fire into his body.

Fire control was just a technique, but in one's own body, the ultimate success or failure depends on the consciousness and state of mind. Especially with Karmic fire, there shouldn't be any hesitation in his heart. As long as there was an interruption, he would be burned by the karmic fire immediately, even if Yang Chen was already in a rudimentary form, he would not escape this fate.

During the absorption process, there should be no interference. Yang Chen knows this and Li Cheng knows this better. Therefore, Li Cheng was very dedicated to protect Yang Chen and place Yang Chen in a special formation.

This formation was really powerful, and once the monstrous demonic qi encountered it, it seemed to be hit by an obstacle and couldn't penetrate at all. Not only that, the vibrations from the outside world could not reach Yang Chen's ears at all. The formation has a super strong defense function, and even if two dacheng stage demonic fiends smashed into it, there would be no impact at all.

The fire seeds of the fifth grade were completely different from the fourth grade, and its power was almost dozens of times higher. It's just that the moment the flame entered the body, even with Yang Chen's ability and endurance to control fire, he was almost buried by the intense pain.

Fortunately, Yang Chen's will was very strong and he endured the pain, according to the usual method of merging the fire he sent the ray of red lotus karmic fire into the Yin-Yang heaven burning fire.

The fire seed seemed to be suffering too, wiggling frantically, but under the strict control of Yang Chen, he kept absorbing the ray of flames, and finally after a burst of extreme pain, the small flames merged into the Yin-Yang heaven burning fire.

It's easy to handle in the beginning, and then another strand, and another strand, and the color of the Yin-Yang heaven burning fire became more and more blue like a blue sky.

Time flew by, and in a blink of an eye it was half a year. Yang Chen's side suddenly began to show abnormalities. A blooming red lotus tightly wrapped Yang Chen in it. If someone could get close to Yang Chen, he would definitely find out that all the petals of this red lotus were composed of flames.

At first, the red lotus was still a bit rough, but slowly began to refine, and in the end, it was almost lifelike. Yang Chen's body shook slightly and the flames also swayed with Yang Chen's body, swaying like it was just alive.

The four women outside naturally saw this situation, and they were all a little at a loss, and all their doubtful eyes were cast on Li Cheng. Li Cheng watched this scene, but nodded frequently.

“It’s not bad, this red lotus karmic fire has only been able to absorb and merge in just half a year by him. I really did not misunderstand this person.” Li Cheng was also a little surprised at Yang Chen’s speed, but thinking about Yang Chen’s Yin-Yang heaven burning fire, it seems that such performance was also normal.

Red lotus karmic fire, Yang Chen only had the last flame left, and he would complete the entire process of absorption and fusion. After half a year of fusion, Yang Chen was already perfect. Very familiarly, he merged the flame into the Yin-Yang heaven burning fire and ended the whole process. When he was just about to get up, there was a sudden shake in his sea of consciousness.

The cyan Yin fire dragon suddenly turned into a golden lotus in the sea of consciousness, no longer in the shape of a fire dragon. The whole sea of consciousness, as if being blown by an invisible pure wind, felt indescribably clean and refreshing.

Under the blowing of this pure wind, the spiritual awareness began to steadily improve again. As the sea of consciousness became more and more strengthened, the spiritual awareness cultivation base was smoothly and steadily promoted to the third stage of the human immortal realm.

However, with only the fusion and absorption of the red lotus karmic fire, the Yin-Yang heaven burning fire was a little unbalanced, so Yang Chen did not get up, and directly started the fusion and absorption of the peach blossom karmic fire.

The process was basically the same, but after experiencing the baptism of the Red Lotus Karmic Fire, Yang Chen’s endurance and aspirations have also been greatly improved so it was much easier to absorb the peach blossom karmic fire seed.

In the same half a year, a peach blossom flame formed around Yang Chen. At the moment when it was completely absorbed and merged, the yin and yang in his sea of consciousness, the yang fire dragon that burned the sky, also turned into a pink peach blossom.

His spiritual awareness was raised again to the fourth grade human immortal realm. The promotion went so smoothly, Yang Chen couldn’t believe it. Even when he absorbed the true sun fire in his previous life, he had a similar experience, but it was only from the early Yuanying stage to the middle Yuanying stage. Even as it is now, he was still in the mortal world, but their spiritual consciousness has ascended to the human immortal realm?

The fifth grade fire seed was the fifth grade fire seed, which was completely different from the fourth grade fire seed. Of course, Yang Chen also understands that the fire seeds below the fourth grade and lower were only laying the foundation when they merged with the Yin-Yang heaven burning fire, and now was the real time to manifest the power of the Yin-Yang heaven burning fire.

Li Cheng had long noticed Yang Chen's change, and after he calmed down completely, he released the formation. Because of the formation, this area was already a vacuum of demonic qi. As soon as the formation was opened, the demonic qi around him was like a shark smelling blood, rushing towards Yang Chen.

Quietly, two flowers appeared outside Yang Chen, a peach blossom, and a lotus flower. When the demonic qi of the sky touched these two flowers, it was as if ice met the sunny sky, and it melted and disappeared silently without the slightest trace.

No wonder Li Cheng said that these two karmic fires are the most suitable flames in the Demon Continent. This kind of innate restraint was indeed extremely powerful. As long as the two kinds of karmic fires were in front of him, even if Yang Chen does not have any other protection, surrounded by the demonic qi, he would be absolutely unscathed.

Chapter 525.2: Absorbing The Karmic Fire Seeds

"With this Karmic fire for self-defense, you can go to that place." Li Cheng didn't say much, but he couldn't hide his appreciation.

However, the words revealed that the place they were going to was very dangerous. Yang Chen would very much doubt whether Li Cheng had already been to that place, otherwise how could he be so well prepared.

The four women's experience for more than a year has also been fruitful. Going deep into the Demon Continent, facing enemies who were much stronger than their cultivation level, every day was an extreme challenge. If it weren't for Li Cheng's protection at critical moments, maybe the four girls would have died.

But this kind of extreme killing experience was extremely effective, hovering on the death line every day, it almost aroused all the potential of the four women. The four women's killing skills were rapidly improving, and everyone faced four or five demonic fiends in the early dacheng stage, and they did not lose the wind.

The experience that Yang Chen arranged before was relatively safe, and the four women had to practice on their own, and didn't want Yang Chen to be on their side, so they could only say that they followed the rules.

But the current situation, because of the changes, they had no choice but to use this method similar to killing chickens and eggs to force the potential of the four women, otherwise the four women would become a burden to Yang Chen in the next incident.

Fortunately, there was Li Cheng, who seems to be more proficient in various killing techniques than Yang Chen. Every time the four women took a break, he would summarize and give guidance to the four women, so that their experience was also rapidly increased.

Everyone finally set foot on the road to the valley again. A sad reminder of the shadow demon, in this year's time, he obediently in front of the four girls, dare not slacken at all. A dacheng stage master has become so, people can't help but sigh.

Everyone on the road, once again unified the caliber, in fact, the main thing was to let Ying Mei have a statement and let him face those companions so that a reasonable excuse could be found for everyone's delay of one year.

The next step was a smooth journey. Yang Chen's Yin-Yang heaven burning fire was carefully released on both sides of the ship, and the demonic qi on the path seemed to have encountered a nemesis, let alone affecting everyone on the ship, even getting close to the ship was impossible.

The nine nether flying sword hasn't absorbed the demonic qi for a long time, and the more he advances toward the depths of the mainland, the more the demonic qi becomes stronger. Of course Yang Chen would not let go of this opportunity. He placed the nine nether flying sword right at the bow of the ship, absorbing demonic qi along the way.

This time it took a few months to reach the destination valley. Of course, when there was still some distance from the valley, Gongsun Ling put away the boat, and each of them restrained their aura. The Shadow Demon once again became the master of everything, and Yang Chen, Li Cheng and the four daughters became the poor creatures coerced by the Shadow Demon.

Entering the valley and seeing the scene in the valley, everyone couldn't help but be a little surprised. No matter who sees thousands of dacheng stage masters gathered in such a big valley. It was estimated that there would be such a feeling.

Yang Chen and the others also appropriately showed the tension and restraint of Yuanying stage juniors when they suddenly saw so many senior masters, they huddled behind Ying Mei and dared not say a word.

"Why have you taken so long to get here?" Someone was obviously already a little impatient in waiting. Since the news was sent back from the Shadow demon to the present, more than a year has passed, at the speed of the Shadow demon, it felt like they crawled back.

While talking, he has already released a strong pressure, and has firmly enveloped Yang Chen and the others, as if he was going to give them a slap in the face.

"One couldn't do anything about it, the little guy has never seen the world, and has only dealt with the demonic qi in the periphery." The Shadow demon replied very casually, without revealing any flaws, at the same time waved his hand and the other party's coercive pressure disappeared: "I could only let him adapt to the increasingly strong demonic qi, on the way, to see if he can really purify the demonic qi. Don't just act so casually, how can you frighten these people?"

Saying this, the shadow demon in his heart was really shocked. If Yang Chen and Li Cheng were to be attacked, he would not dare to say anything else, at least he would definitely not be able to survive.

"What's the result?" The other party didn't care about his pressure being swept away, but was very interested in Ying Mei's statement, and immediately began to question the result.

"It's not bad, at least after a little adaptation along the way, he will no longer be afraid of the demonic qi." The Shadow demon replied pretentiously.

"Then what are you waiting for? Let's get started!" Hearing Ying Mei's words, someone immediately became uncomfortable and yelled. It seems that these people have waited for hundreds of years, and when they heard that there was hope for a solution, they were a little anxious.

“Wait!” Just as Ying Mei was about to request Yang Chen to begin, someone deep in the valley shouted.

“What’s the advice of Brother Qian?” Ying Mei hadn’t spoken yet, and someone frowned and asked.

“He’s just not afraid of demonic qi, but I don’t know if he can purify the portal.” The person called Brother Qian was also covered in black veil. Others can’t see his face clearly, and his whole person seems to be hidden in the black mist. He gloomily said “Once it fails, but it damages the portal, how can he be able to repay?”

From beginning to end, these people talked about what they were going to do, and they didn’t even plan to ask about the identity of the four women and Li Cheng who followed. In their eyes, including Yang Chen, they were just tools that could be used, who cares about them?

Everyone felt it was reasonable upon hearing this. The Shadow demon suppressed his fright, for fear that these people would be disrespectful and annoy Yang Chen and Li Cheng. Fortunately, Yang Chen and Li Cheng were very cooperative now, they just stood quietly without talking, and it seemed that they wouldn’t attack on the spot, which made Ying Mei secretly breathe out.

“That kid, how do you prove that he can purify the demonic qi?” Someone immediately asked about this topic.

“Does the purification of a demon orb count?” Ying Mei knew that he had to speak, and hurriedly asked.

“What can the third- and fourth grade demon orbs show? I have a first grade demon orb here, purify one on the spot for us to see!” The other party seems to have been prepared, or has already planned and quickly got it from the cosmos bag. He took out a huge demon orb, placed it on the palm of his hand, glanced at Yang Chen with both eyes, and said arrogantly “Boy, let us see if you are of any use.”

Everyone’s eyes were fixed on Yang Chen. Yang Chen didn’t seem to be so scared at the moment. He took a step forward and said with a smile: “I have already agreed with Senior Ying Mei that to purify the demonic qi, I must receive my reward.”

As soon as the voice fell, the large group of people burst into laughter.
