Chapter 551.1: Departure

The demonic qi was really no small matter, Yang Chen saw all the beasts on the way, as if they had eaten meat, and all the beasts were so excited that they didn't even care about the reproduction plan, and ran wildly towards the center. There were several flying monsters that have taken the lead and rushed to the front.

Yang Chen doesn't care what these beasts will do after they rush to the central area. What he had to do now was to quickly escape from this terrible area, then take his four sweet wives with him, and leave the demon continent as quickly as possible.

This large number of species of beasts, it is impossible to say that they will start a battle between dragons and tigers, and finally decide which tough guy will guard the center, and then all species of beasts will be rearranged according to their strength.

You must know that the closer you are to the center, the more intense the demonic qi. For these beasts, it also means a better living environment and more demonic qi resources. It also means that they can reproduce more and stronger offspring.

This battle will definitely last for a long time, enough to take the four ladies away. Speaking of which, the initial refining of the space connection point was successful, and in the future, it can be refined anytime and anywhere, so leaving the Demon Continent was the right way.

Now that these beasts are robbing them, no one will know that after Yang Chen refines the space, they will not get a trace of demonic qi, and it will all be owned by Yang Chen alone.

Speaking of which, Yang Chen's trip to the center was a bountiful harvest that he didn't even expect himself. Not to mention, the huge demon orb alone was enough to cause a frenzy in the dao sects.

All things were too late to organize, safety first, Yang Chen drove the shuttle, and added a layer of shielding to the outside, and quickly rushed out of the area where the beasts were dense. Fortunately, all the beasts were focused on the demonic qi, so Yang Chen was able to rush out unaffected.

It has been a few years since Yang Chen left, and all the girls were actually anxiously waiting in the most central gathering point, they could only wait patiently while cultivating. Finally Yang Chen returned.

“Let’s go!” As soon as Yang Chen met them, he didn’t say much, just a word, and left with the four daughters without stopping. He didn’t even tell them what happened.

The four girls could also see the seriousness of the situation from Yang Chen’s face, so they got up and left without hesitation. This was a good thing about cultivators, almost all of their belongings were carried on them. There was no need to clean up at all, just turn around and leave.

“Everyone, there will be big changes in this place in the near future. Leave as soon as you can!” Yang Chen was about to leave with the four women when he saw some cultivators who were still doing business and resting in the gathering point. Regardless of the status or position of these cultivators, Yang Chen felt it was necessary to warn them.

This sentence has no beginning or end, which was confusing. But Yang Chen didn’t give those people a chance to ask questions. He directly drove the shuttle and flew towards the outermost periphery.

At the gathering point, there were no demonized monsters that could threaten Yang Chen. So he felt free to use the flying magic weapon.

Yang Chen was completely happy to leave, but it made the cultivators who were resting at the gathering point inexplicable. Those who do business are fine, they have met Yang Chen before and know Yang Chen’s identity, but most of the others didn’t know Yang Chen. They came here for a rest, and because they heard that Grandmaster Yang would stay here, they came to find Grandmaster Yang to purify their demon orbs.

Those cultivators who knew Yang Chen immediately realized that something big had happened, and immediately packed up their things and left without nostalgia.

This action immediately made everyone else a little worried. A cultivator grabbed a store owner who was about to leave, frowned and asked, “What happened, why are you leaving?”

“I don’t know what’s going on, but Grandmaster Yang said that he wants us to leave immediately, so I will leave immediately.” The store owner didn’t want to stay for a moment, so he just dropped this sentence, then broke free from the man’s arm, and hurriedly left.

“Grandmaster Yang? Which Grandmaster Yang?” The shopkeeper’s words also made several people around him frown and asked.

“Which Grandmaster Yang is there? What are you coming here for?” A shopkeeper who followed behind gave a wry smile, and without hesitation, he took out his flying sword and left quickly, leaving behind a large group of people who hadn’t fully reacted.

“Grandmaster Yang, the demon orb refiner!” Most people suddenly became serious when they heard that the words were from Grandmaster Yang. Everyone looked at each other for a long time, and then seemed to have reacted suddenly, got up quickly and left without caring about anything else.

Even Grandmaster Yang, the demon orb refiner, said he was going to leave, and the shopkeepers left without hesitation, doesn’t that explain the problem? Those who can get here must be experts, and they are all smart masters who have been training for many years. No one was a fool, if it was a matter of life and death, if they would rather believe it or not, they would leave!

In less than the time it takes for a stick of incense to burn, this gathering spot immediately became clean, and no one stayed.

“Husband, what happened?” After Yang Chen found the direction and set the shuttle, he sat down in the shuttle, Gao Yue stood behind Yang Chen, and then gently massaged Yang Chen, while massaging, she asked.

When Gao Yue asked, the other three girls were not idle either. Shi Shanshan quickly made a pot of tea for Yang Chen, then filled the cup and delivered it to Yang Chen, while Sun Qingxue took advantage of it and got into Yang Chen’s arms, waiting for him to answer.

“I took the center point of the overflowing demonic qi.” Yang Chen had nothing to hide from his wives
“It may cause a big change, so it’s better to leave early.”

Without the most core species of beasts within a few hundred miles, it is true that the remaining species of beasts were shuffled. However, because the species has been reduced a lot, there was no ultimate demonized demon vine, which can suppress the demonic qi. The demonic qi that the remaining species of beasts can get will definitely increase, and in a short time, all species of beasts will skyrocket in strength.

The consequence of the soaring strength of the beasts was that the strength of the demonized beasts they breed will also soar. Others don't know, Yang Chen was the most aware of how strong the demonic qi that escaped from that demonic qi overflow point. He was afraid that the demonized monsters near the core gathering point can grow at least two small realms in strength as a whole.

That also means that the demonized monsters that were originally just at the late and peak dacheng stage will all have the cultivation of the first and second grade human immortal realm. Not everyone has the strength of Yang Chen and Li Cheng that surpasses the imagination to deal with them.

Chapter 551.2: Departure

Yang Chen was just helping out those cultivators morally. As for whether they listen or not, that was their business. Yang Chen has absolutely no idea how influential his own words as Grandmaster Yang was. Not a single cultivator at the gathering point was left.

Hearing that Yang Chen actually broke the center point, the four girls were a little stunned. They have not yet entered the core area, and even in that area, they had to work together to protect themselves and try together. Their husband actually reached such a state quietly, while they were rejoicing, they also felt that they were being pulled further and further away from their husband.

"Don't belittle yourself." Of course, Yang Chen could understand what his four wives were thinking. If the others didn't say anything, Shi Shanshan had almost written the meaning on her face, how could he not see it?

"I was extremely lucky this time, otherwise I would have died." Yang Chen sighed and began to talk about his experience.

Hearing those beasts were above the seventh grade human immortal realm, and the ultimate demonized demon vines was at the second earth immortal realm, all the girls couldn't help exclaiming. Everyone couldn't help but tremble when they thought that their husband was in so many places where he could get killed at any time.

It was so shocking that things had passed, and one could imagine Yang Chen's mood at that time, it was no wonder that Yang Chen would flee in such a hurry as soon as he came out. If it was them, they would definitely do the same thing.

Then they heard that their husband was regarded as a descendant by the ultimate demonized demon vine because of the nine nether flying sword, and was almost absorbed for healing. Everyone was terrified, as for saying that the terrifying black liquid had finally demonized the demon vine and was on the verge of death at that time, it was a shocking thing.

No wonder their husband said that he was extremely lucky, he really was. With so many coincidences, whichever one did not catch up, Yang Chen was at a dead end. After all this he was able to come back with all the beards and tails, which was already great luck.

"Don't take such dangerous risks in the future!" After listening to Yang Chen's narration, when everyone was frightened, Gao Yue once again showed the face of being his long-lost master. She scolded Yang Chen severely " If you don't think about yourself, then think about us sisters. You have to have three strengths and two weaknesses, how will we cope if something happens to you?"

This time, the four wives all stood on the opposite side of Yang Chen, and they all complained about Yang Chen. Until Yang Chen repeatedly promised that he would never take such a risk again before they gave up.

Although the four girls behaved like this, Yang Chen's heart was full of sweetness. Was there anything more happier than the fact that your wives cared about you?

Yang Chen did not stop along the way. Driving the shuttle at full speed toward the edge of the demon continent. This trip has completely achieved their purpose of gaining experience. Decades have passed, and it was time to return to the sect.

The flying shuttle was galloping and galloping all the way. It was not until halfway through the Demon Continent that Yang Chen finally felt relieved. At least here, there will be no danger for the time being.

Only then did the family's emotions ease, and the four girls began to share their experiences with Yang Chen. Summarizing various battles, Yang Chen also shared his own experience, everyone has benefited a lot.

Because of Li Cheng's instructions, everyone was polishing their spiritual power, making the spiritual power more and more pure. Simply speaking of their spiritual power cultivation, it did not increase much and still maintained the level of middle Yuanying stage.

But in terms of real fighting ability, the four women have even been able to deal with a demonized monster in the early dacheng stage alone. As for Yang Chen, he couldn't use common sense to guess. Anyway, apart from some old monsters from big sects, there was no way anyone could be his opponent.

It was too early to deal with the demon orbs and the nine nether flying sword before, and Yang Chen was afraid that if he dealt with it in the Demon Continent, it would cause unnecessary trouble, so he should temporarily seal it in the storage bag and wait until he left the demon continent.

After several months of driving, they finally came to the edge of the demon continent. It was still the same entrance back then, but now it has become the exit for Yang Chen and others to leave.

If they want to leave, they must make an oath to be released by the formation. It didn't matter that Yang Chen and others were only at the Yuanying stage, even those masters who have risen through the tribulation must make a big oath before they ascend, that they will never reveal the true situation of the demon continent before they are sent to the spiritual world, otherwise it will only trigger the attack of the formation.

Yang Chen and others knew this rule long ago, and after everyone made an oath, they were able to move from a sudden opening in the formation to another place. Here was a resting place for all those leaving waiting for the exit to open.

Basically, the rules here were the same as the gathering point. Those who want to leave also know that the demon continent hides dragons and crouching tigers. No one will set up an enemy who does not know how powerful they are when they want to leave safely.

"Big brother?" To Yang Chen's surprise, he saw Li Cheng's figure again here "This is really fate!"

Li Cheng was also at this resting point, waiting for the exit to be opened. In terms of time, it was so consistent with Yang Chen and others. When they came in, they were together, and they never made an

agreement, but they were also together when they were leaving, he couldn't help but say that it was really fate.

"You guys are leaving too?" Li Cheng never thought that he would meet Yang Chen's family here, and after meeting his four younger siblings, he couldn't help but sigh "As expected, it is fate, it seems that you and I really have to be brothers."

The acquaintances were happy to meet each other, and everyone was chatting again. After Li Cheng also cultivated near the central area, he felt that the purpose of the journey had been achieved, so he left.

From this point of view, Yang Chen and Li Cheng's views were the same. It was not necessary to be able to deal with the most powerful demonized beasts to complete the goal. As long as you can hone your combat skills and find a way to deal with inner demons, capable of fighting high-intensity combat, these were enough.

As for dealing with the enemy, their cultivation base was high, and when the time comes, it will naturally be done. What's more, with everyone's aptitude, they don't need to spend more time here to gain more opportunities for themselves.

After everyone was talking with each other, Yang Chen suddenly remembered that the big brother he had sworn in should be a master refiner, it would only take hundreds of years to refine the geographical map of mountains and rivers without seeing him instructing Gongsun ling to refine the geographical map of mountains and rivers.

Such a refining master might know how to refine those powerful black liquids. Yang Chen's ninth water flying sword might also have the possibility of being refined.

Chapter 552.1: Vicious Poison

"I have a question that I want to ask Big Brother." Yang Chen thought of it and acted immediately.

"Oh? What's the problem?" Li Cheng didn't care and asked very casually.

"I recently found a ninth water material, and I want to refine it into a ninth water flying sword, but this material is a bit special, I don't know how to refine it." Yang Chen asked sincerely.

Although Yang Chen was a good refiner in his previous life, he was still a lot worse than a real refining expert. Moreover, the magic weapon he made by himself was limited to the magic weapon of fire attribute. For other attributes, he saw more and heard more, but he did less.

To be able to bring the Great Yin Yang Five Elements Flying Sword to this point on several occasions by fate was already a great achievement. But when he really came across a material that he was not familiar with and didn't know the refining method, Yang Chen still had to seek help.

There were not many people in the resting place. Apart from Yang Chen's family and Li Cheng, there were two dacheng stage cultivators in the other corner. Li Cheng didn't worry that anyone would hear it, and asked curiously "What good material is it that even you don't know how to refine it?"

Li Cheng had also seen Yang Chen's methods, especially his cultivation of Yin-Yang and Five Elements, refining the Great Yin-Yang five Elements Flying Sword, which was enough to make him look at Yang Chen with admiration. But now that he heard that there were materials that Yang Chen couldn't figure out, he immediately became interested.

Yang Chen's thoughts moved, and a drop of black liquid oozed out from the gap of the flying sword, and then A'Bi also stretched out a thin green vine from the medicine garden, it was spread on Yang Chen's hand.

Carefully holding the drop of black liquid, Yang Chen stretched out his hand in Li Cheng's direction. Li Cheng's face also became serious, he stood up, looked at the drop of black liquid carefully, and then frowned.

After careful observation, Li Cheng suddenly gritted his teeth, stretched out a finger, and lightly touched the black liquid.

Yang Chen watched all this happen, but did not stop it, just quietly waiting for the results of Li Cheng's analysis. Yang Chen knew that with Li Cheng's cultivation base, it would never be dangerous if he touched it with just one little finger, but he was still careful to prepare and always planned to use the blue jasper blood demon vine to detoxify Li Cheng.

"Hhuu!" After Li Cheng came into contact with the black liquid, he made a sound of gasping for air, and after a while, he twisted his fingers to dissolve the black liquid that he had touched, leaving no trace

behind. He gritted his teeth and said, "You want to use this kind of thing to make flying swords, you are really vicious! Whoever is your enemy will be a blood mold for eight lifetimes."

Li Cheng's unceremonious scolding has fully explained the horror of the black liquid, Yang Chen's wives were also watching. Although Yang Chen talked about the black liquid, he never let them see the real thing, for fear of hurting the girls. Now they finally had the opportunity to witness it with their own eyes.

Although they didn't know the power of the black liquid, even Li Cheng said so, which shows how scary the black liquid was. The girls listened to Li Cheng's laughter and scolding, and their hearts were also somewhat concerned. Even if these black liquids were not used, it would not be a happy thing to be Yang Chen's enemy.

"The material is good, top of the top." After Li Cheng scolded, he still commented objectively "However, what material do you plan to use for the hilt? Presumably according to your habit, you still prefer to fight with a flying sword in your hand, right?"

As soon as Li Cheng finished speaking, an unfamiliar voice suddenly interjected "What top-quality material can be so good? Can you let this old man take a look?"

There was negotiation in the words, but there was no negotiation in the tone, but a kind of arrogance, as if Yang Chen had to do what he said.

It was one of the two dacheng stage masters who were resting in the other corner. The two masters were one in the early dacheng stage and the other in the middle dacheng stage. It was the early dacheng stage master who spoke. However, the master in the middle dacheng stage was also watching with cold eyes and there was a threat in his eyes.

The bad habits of those who have cultivated and gained experienced in the Demon Continent was bullying the weak and not afraid of taking them by themselves, there was no so-called morality in the slightest. What everyone was excited about was that strength is the key, so doing such a thing at a time like this was nothing but ordinary.

"Boy, do you want me to teach you to be good before leaving the demon continent." The middle-aged man in the early dacheng stage said with a grin "If you don't show your wealth, don't offer your

treasures in public, or you will die miserably. Today you met us, if you are lucky, us two old men are reasonable, we will just have a look, is that too much to ask?"

The four girls were all discolored, although they were all in the middle Yuanying stage, they had killed one or two masters in the dacheng stage. How could there be two guys in the early and middle stages of the Mahayana who were making noises and acting as seniors here? At the moment, they wanted to teach these two disrespectful guys a lesson.

"Don't be so impulsive, fighting is banned here." Yang Chen's words were just an understatement, and the four girls obediently threw away their temper.

"You are really lucky to have such a good wives!" Li Cheng, however, didn't care what happened, just praising the girls.

"What he wants from me, I will give it to him, isn't it hands-on?" Yang Chen suddenly asked as if he was talking to himself.

"No!" Li Cheng immediately shook his head and answered with certainty, "If you don't believe me, ask them, does this count as hands-on?"

"Of course not! How can this be considered hands-on?" Hearing Yang Chen talking like this, the faces of the two dacheng stage masters were all smiles, and the master at the early dacheng stage replied immediately. After speaking, he was still smiling "You're on the road, and I'll save your life!"

"That's good! Since you want to see it, take a look!" Yang Chen didn't lift his head, flicked his palm, and the drop of black liquid flew over, thinking of the masters in the middle dacheng stage, Li Cheng just stretched out his finger and dipped a little bit, and there was still some left, enough for the two guys to look carefully.

Seeing the black liquid getting close, the masters casually reached out and took them. Just now Yang Chen stretched out his hand like this and Li Cheng also touched it with his fingers. The two juniors in the Yuanying stage were so relaxed, wouldn't it be easier to replace them with a senior in the dacheng stage?

However, Yang Chen's willingness to give as much as he can now makes the two of them misjudge it. If it's so easy to get it, this thing was obviously not a good thing, what can a junior in the Yuanying stage say is the best of the best? They don't know how many things they have never seen or heard of. Do you know what is the best?

At this time, the two of them were already a little regretful. They didn't get the precious material that they were hoping for, and they didn't get the name of being a big bully. Although no one would care about this, it would not sound good after all.

Chapter 552.2: Vicious Poison

Drip, the half drop of black liquid directly hit the hand of the middle dacheng stage master, and then splashed. However, even though black water splashed, this drop of black liquid seemed to be very viscous.

The master of the middle dacheng stage only felt that the palm of his hand was wet, and he planned to retract his arm and put it in front of him. However, when this thought came to him, he also began to exert force to retract his arm, but the arm remained stretched out and did not move.

What happened? The master in the middle dacheng stage had cold sweat on his head, and only then did he realize that his arm was only touched by a drop of black liquid and he immediately became paralyzed, his arm no longer listening to the command of his brain.

Thinking of the words "so vicious" that Li Cheng said just now, how could he not understand? This black liquid was poisonous, and it was also highly vicious. Just by seeing that he can be paralyzed and unable to move, he knew that this poison was definitely ranked in the top few in the mortal world's strange poison.

"Junior dare to use poison to deceive me?" The master was shocked and couldn't help but scold. After saying this, he planned to rush out and slap Yang Chen to the ground with one hand, but suddenly he found that he was completely unconscious below his chest.

The expert at the early dacheng stage who was the first to speak next to him was shocked when his companion said that he had been poisoned.

However, just as his flying sword was unsheathed, a thunderbolt suddenly dropped from the dome above his head, and with a click, it evenly hit the forehead of the early dacheng stage master.

“Why did you come here? You are not allowed to do any fighting here.” Yang Chen and Li Cheng both stood there and didn’t move. Yang Chen even looked at the two guys with a very regretful look and tone and shook his head “we will leave soon, if you want to leave, what can’t you think of, you have to jump into this kind of muddy water by yourself?”

The voice fell, and the master of the early dacheng stage just burst out, now he stopped in front of everyone. His body maintains a rushing posture, but his eyes were no longer clear and bright, there was only a void of death.

That thunder, it has directly damaged his whole body, he never imagined that he who had been cultivating in the Demon Continent for hundreds of years, both of them finally achieved a breakthrough. How could they be vulnerable in front of these Yuanying stage juniors?

It’s just that the thunder released by the seal formation was not a random joke. This is not the inside of the Demon Continent, although the gathering point was not allowed to use force, there was no such powerful guardian to maintain order. Now everyone was on the edge of the seal formation, and there was an additional attack formation, which was all too powerful.

Common was common, but power was not common at all. A thunderbolt went down, and the master of the early dacheng stage was hit, there was no more movement. Everyone’s spiritual awareness was released, even if they can’t see his face, they all understood, he was dead now.

As for the remaining one, it was just a master who reached out to pick up the black liquid and didn’t do anything. Now he was completely paralyzed and could no longer move.

The mind of the cultivator was full of remorse. He was about to finish his training and leave the hellish environment of the Demon Continent. Why can’t he help himself, and want to bully a few Yuanying stage juniors?

As a result, the things that the two juniors were holding were no obstacle at all, but he and the old man were both dead and paralyzed. If he knew this earlier, why would he bother? Would he be dead if he listened to their discussions quietly?

In the final analysis, greed was still at play. When they heard that several juniors had top-notch materials in their hands, both of them immediately became coveted at the same time. The so-called people die for money, it was really true.

The paralyzed master still thought that he must endure the humiliation and bear the burden. After the poison strikes, he can force out the poison, and then he can kill these arrogant boys one by one to vent his hatred. However, the pain and itching from the palms and the hissing sound made the cultivator's mood sink into hell in an instant.

That black drop of liquid was actually highly corrosive. Right in front of the master in the middle dacheng stage, his palm started from the point where it touched the black liquid, gradually turned into black pus, and then the whole palm, arm, wrist, arm, the connected flesh and blood began to flow continuously. It was deeply corroded, revealing the bones of the cultivator.

Seeing his own flesh and blood turn into bones, it is not that people in the game can't feel that kind of fear at all. Even though this master has been trained in the Demon Continent for many years, and he has seen various killing scenes many times, when it really happened to him, he realized how fragile he was after his experience.

At this time, the cultivator finally understood what Li Cheng meant by scolding Yang Chen for being vicious just now. It's really not wrong at all, it really was vicious!

However, at this point, the cultivator could only watch helplessly, unable to make any changes, and even begging for mercy. He could only watch the flesh and blood on his arm disappear bit by bit with fear, starting to disappear from his shoulders and chest.

Yang Chen, Li Cheng, and Yang Chen's four wives, none of them wanted to save him, they all watched silently.

Such a terrifying corrosiveness made the four girls finally understand why Li Cheng asked Yang Chen what he planned to use as the hilt. Can someone really hold a flying sword made from such a thing with their hands?

“Sure enough.” Li Cheng withdrew his gaze from the cultivator, frowned and began to think “I have never seen such a thing before, I have to think about it carefully. There will be no results for a while, so don’t worry, wait until I think of a safe way to start refining it.”

“Then I’ll thank big brother first.” Yang Chen was not in a hurry. If Li Cheng came up with a refining method on the spot, it would be terrifying. On the contrary, this was very natural. Anyway, he still needs a lot of time to refine the two space points, the entrance of the Immortal beheading stage and the exit of the demonic qi, so he can’t take care of it too much for the time being.

“When I think of a way, I will send it to your sect. It will not delay your business.” Li Cheng nodded and gave Yang Chen a small promise.

At this point, everyone stopped talking about the black liquid, chatting with each other about some interesting things happening inside the demon continent, and slowly waiting for the exit to open.

This time the wait time was not long, after seven days, the exit was opened. Everyone filed out and finally broke away from the seal formation of the Demon Continent.

“We will meet in the future!” Yang Chen and Li Cheng clasped their fists to say goodbye to each other. Li Cheng took a step ahead and disappeared in the opposite direction of Yang Chen’s in the eyes of Yang Chen’s family.

“Let’s go, let’s go home!” After leaving the Demon Continent, Yang Chen’s spirit was also lifted. Looking at his four beautiful wives, he waved his hand in high spirits and flew away in time.

Chapter 553.1: Deadly Treats

Once at sea, it was now truly safe, at least in the previous life, after Yang Chen’s ascension for a long time, there was no problem with that sealing formation, and now it won’t be a big problem if he thinks about it. As long as Yang Chen could refine the space connection point where the demonic qi overflows, there will be no more worries.

The flying shuttle drilled directly into the bottom of the sea, and Yang Chen’s heart, which was a little nervous along the way, was completely relieved. To be honest, there were some things that even Yang Chen would be afraid of.

If there weren't so many coincidences this time, Yang Chen himself would also be lost in the Demon Continent, which would really not be worth the loss.

In the future, such a dangerous thing, if he could, he would try not to do it. However, the benefits were by no means absent, not to mention what he has obtained, just the experience in cultivation was enough to satisfy Yang Chen, not to mention the situation where he cannot control the memory of his past life, how beneficial it was for Yang Chen gaining experience in dealing with emergencies.

Counting it with his fingers, it was exactly fifty years from the year they entered the Demon Continent to when they left. Not much time had passed, exactly as Yang Chen estimated back then.

Fifty years of experience in the Demon Continent was also a rare opportunity for the four girls. In their previous lives, they had never been trained in the Demon Continent, and after ascending, they still became the incomparably powerful Fairy Hanmei and Fairy Xuewu.

With this experience in this life, it was even more difficult to estimate the growth of the four women. If nothing else, at least it saves hundreds of years of correcting mistakes in cultivation, they will only be better in the future.

The slaughter in the Demon Continent had caused the hands of the four girls to be infected with no less than tens of thousands of lives. Although the killing intent on their bodies could not be compared to that of Yang Chen, the casual release was enough to make ordinary cultivators feel fear.

Coupled with the tempering of heart demons that Yang Chen deliberately cultivated, the four women's dao hearts became more determined. It could not be said to be a perfect situation, but at least they basically had a way to deal with any heart demons they encountered.

All in all, the Yang Chen family can almost be said to have returned with a fruitful experience, especially Yang Chen. Needless to say, there were dozens of demon orbs that surpassed the first grade. The smallest one has become the size of a washbasin because of the absorption of demonic qi in the later stage, others were even having more different degrees of growth.

Speaking of which, these demon orbs have now turned into black demon orbs with demonic qi, and they still need to be thoroughly purified by Yang Chen before they could be used.

There were not many other things in the sea drifting, and the four girls had no idea of slaughtering sea beasts. After killing so many powerful demonized monsters in the demon continent, it would be much easier to deal with these sea beasts in turn.

This time it was a complete departure, there was no plan to continue to come back in the future, so the four girls can rest assured and boldly retreat in the shuttle of their husband. On the one hand, they maintained their cultivation, and on the other hand, they thoroughly summarizes his experience in the Demon Continent.

There was no such opportunity on the Demon Continent. Even if you are not allowed to fight in the gathering point, people are unpredictable, and who knows what will happen. Only by the side of their husband could the four women have such a completely relaxed mood.

Yang Chen himself, on the other hand, intends to start purifying those demon orbs that were contaminated with demonic qi. At least before returning to the dao sect domain, Yang Chen had to purify the demonic qi on these demon orbs, otherwise he would not be able to use them at all.

In addition, the body of the ultimate demonized demon vine also needs to be dealt with. At least the demonic qi should be purified first, and the black liquid will not be able to see the light for the time being. Only after processing can it be taken out properly.

The body of the ultimate demonized demon vine was naturally too powerful. Yang Chen initially planned to take half of it himself to strengthen his own blood demon vine flying sword, and the other half would be for A'Bi from the medicine garden to fuse to the brand new blue jasper blood demon vine. If there was no other accident, it would be arranged like this.

It is believed that after swallowing and absorbing the body of this ultimate demonized demon vine, the strength of the blue jasper blood demon vine will increase by several levels, and there was no need to worry about anything that could easily hurt him.

Although Sun Qingxue was also of the wood attribute, her flying sword has already been completed and was of the first wood attribute, so the demonized demon vine body of the second wood attribute was useless for the flying sword. Not everyone was Yang Chen, and all acquired spiritual roots were full.

He can't help but say that just adding up these things was enough for Yang Chen to be busy. But when Yang Chen began to use the power of the nine nether flying sword to purify the demonic qi on the demon orb, he realized that his plans still couldn't keep up with the changes.

At that time, he didn't pay attention when refining the demonic qi space point. The demonic qi attached to the nine nether flying sword has exceeded the strength of the demonized demon vine before. Basically, as long as the nine nether flying sword was used, even Yang Chen had to be forcibly suppressed in order to suppress the explosive emotions.

If he wanted to continue to increase the strength of the demonic qi, Yang Chen's spiritual awareness must be improved to continue, otherwise even Yang Chen will not be able to use it freely.

The nine nether flying sword was already unprecedentedly powerful, and even Yang Chen didn't dare to use all its power easily. If he wanted to absorb and purify the demonic qi, he must use the nine nether flying sword.

It wasn't that the nine nether flying sword couldn't contain more demonic qi, but if there was more demonic qi, even Yang Chen himself couldn't suppress it. Therefore, the matter of purifying the demonic qi was abandoned halfway before it even started. Naturally, purifying the body of the ultimate demonized demon vine has also become nonexistent.

Everything related to demonic qi can't see light, at least before purification, Yang Chen can't use it. If someone gets rid of it as a demon, then it will be worth the loss.

Therefore, Yang Chen could only use this period of time to refine and absorb the thousands of demonic fire seeds he obtained on the Demon Continent.

With the speed of the shuttle and the assistance of the water-splitting wings, it would take at least ten years to return to the dao sect domain at the speed on the sea. During this time, it was enough for Yang Chen to absorb and fuse all the fire seeds below the fifth grade.

There were still a lot of jade slips in hand, obtained from various sources, most of which Yang Chen has not had time to study carefully. Since Yang Chen was still under the guise of reading a lot of books, he naturally needed to scan it and add some knowledge that he didn't understand in his previous life memory.

Most importantly, Yang Chen had never touched the pill recipes that Yang Chen had obtained from the Greatest Heaven Sect. Those were precious materials, and they were definitely worth savoring.

Above the shuttle, the four women retreated separately, while Yang Chen studied with the jade slip while absorbing the fire seeds.

For the four women in retreat, ten years seemed to pass in a short while. Yang Chen also completely absorbed and merged all the fire seeds below the fifth grade and studied more than 10,000 books.

Finally, the shuttle entered the dao sect's domain that had been separated from them for more than 60 years.

Chapter 553.2: Deadly Treats

A month or two ahead was the Green Jade Immortal Island. The four women finally came out one after another.

In this seclusion, all the four girls have gained a lot. Even if not anything else, their mental state has been greatly improved, and even their spiritual power has risen slightly.

Seeing that they had returned to the dao sect's domain, everyone was full of interest, it felt like a wanderer was returning to his hometown.

"Husband, is it okay for us to go back like this?" Perhaps it was because of the timidity of being close to the sect, even Shi Shanshan, who had never cared about things other than cultivation, thought more and asked Yang Chen.

"Why is it inappropriate?" Sun Qingxue asked in a puzzled way, not worried about her. Gao Yue and Gongsun ling were also a little puzzled, and all eyes turned to Shi Shanshan.

"Alas!" Shi Shanshan sighed slightly, turned to Sun Qingxue, and asked in a low voice, "What would you do if a stranger suddenly rushed towards you right now?"

“I will kill him with one attack!” Sun Qingxue replied without hesitation, “Haven’t we always been like this on the Demon Continent?”

After answering her own answer, Sun Qingxue immediately noticed something was wrong. On the Demon Continent, as long as the person was unfamiliar, there was no reason to say anything, they would just attack. The original intention was to kill and gain experience, naturally it doesn’t matter how fierce they were.

But now they are back to the dao sect’s domain, if it is also dealt with in this way, it will be a big trouble. Killing at every turn, that’s what murderous demons do. Even if it is to eliminate demons and defend the dai, it is necessary to verify their identity, know the evil deeds of the other party, and cannot do things that are not taught and punished.

The problem was that after 50 years of experience in the Demon Continent, they have become accustomed to the tense situation where they will act immediately if something goes wrong. Suddenly returning to the relatively normal realm of dao sects, no one could guarantee that they will be able to hold back from time to time and will not act easily.

Speaking of which, this was a kind of war syndrome similar to that of most soldiers who have been on the battlefield. It’s just that after the experience in the demon continent, the symptoms will be thousands of times stronger than ordinary war syndrome. The slightest movement will lead to the habitual destruction of the women.

All the girls were a little sad, all thought of this question. If this problem is not solved, they will hardly have a foothold in the dao sect. They don’t know how those who have experienced and then left the Demon Continent dealt with this kind of thing.

“Most of the experts who have experienced the Demon Continent will find that they can’t adapt to ordinary life after returning to their original places.” Yang Chen was about to talk to the girls about this question. Shi Shanshan asked it first, and he also started to answer.

“Then how do they overcome it?” Sun Qingxue asked eagerly, she didn’t know much about it, but she always feels that there must be a better way.

“There are a small number of people who immediately go into seclusion for a long time after returning, at least for a hundred years or even longer, all of which are used to recuperate their emotions.” Yang Chen replied with a smile.

Hundreds of years to retreat and recuperate, this kind of thing was really cruel to the four girls. Sun Qingxue felt a little bored when she thought about it. Speaking of which, none of the four women are retreating madmen, and naturally they will not be used to such methods.

“What about the majority of people?” After hearing Yang Chen say that only a small number of people did this, Sun Qingxue immediately regained her spirits looking forward to Yang Chen’s answer.

“Most people choose to return to the Demon Continent and continue to cultivate until they die or ascend through the tribulation.” Yang Chen said calmly.

These are facts, at least the masters they met at the most central gathering points, almost all had such experiences. It’s just that the four girls at the time didn’t think much about it, just not paying attention, but Yang Chen knew it all.

“Ah?” Sun Qingxue, who was waiting with anticipation for Yang Chen to come up with a good solution, could not help but cry out with regret when she heard that it was like this. If she was allowed to continue to experience on the Demon Continent until she ascended through the tribulation, it would be a cruel torture to her and all the girls.

“Don’t make fun of little Xue, how can you do that?” Gao Yue couldn’t stand beside her and couldn’t help complaining.

Sun Qingxue just remembered that when Yang Chen answered the question, he had always been unhurried and confident. Thinking about his gaffe, she felt a little reluctant at that moment, only acting like a spoiled child she asked Yang Chen to speak quickly.

Among the four women, only Sun Qingxue would act like a spoiled child by Yang Chen’s side. The other three women were all older than Yang Chen, and in terms of identity, one was his master and the other was a senior apprentice sister, and Shi Shanshan was also of the same age as Gao Yue, so they were not allowed to do such a thing.

Many times, Yang Chen doted on Sun Qingxue very much. Not only Yang Chen, but also the other three women. Seeing Sun Qingxue acting coquettishly, the three girls looked at them with smiles, but did not speak or urge.

It wasn't until Sun Qingxue acted coquettishly and asked Yang Chen to speak quickly, that Yang Chen said with a smile, "Of course your husband has a way, you don't need to retreat, and you don't need to go back to the Demon Continent. As for the solution..."

Speaking of which, Yang Chen lengthened his tone and began to stop his words. Sun Qingxue was the most anxious, and twisted her delicate body in Yang Chen's arms to act coquettishly, insisting that Yang Chen speak out now.

"If I say it now, you have to tell the elders if you can't say it, and my plan may be affected by then." Yang Chen was very determined, not continuing "So, I can't say, wait for me to take you. After returning to the sect, I will arrange it."

This time, the four women were not reconciled, but Yang Chen was determined, so he didn't say anything. The four girls also seemed to sense something from Yang Chen's attitude, after a while, they stopped asking questions.

"When we come back, we must act together. If there is any mistake, I can recover it in time." Yang Chen told the four women "After we go back to meet the seniors of the sect, we will leave. It is estimated that this trip will take decades. This time, let the sect have a mental preparation."

Repaying the sect was a trivial matter, but it seems that it was not unacceptable to spend decades to recuperate, especially if they are with Yang Chen all the time.

No one would doubt that Yang Chen couldn't do it. Since the four women and Yang Chen met, not a word of what Yang Chen said was to deceive them. Since Yang Chen said that it can be solved, then naturally it can be solved.

What made everyone curious was how to do this in order to be able to do this. You know, this habit of killing, if you are not careful, you will take away human life. With the strength of the four girls now, there were not many colleagues who could withstand their joint blow.

Chapter 554.1: Provocation

The Green Jade Immortal Island was the first sect that they arrived at, Yang Chen's family of five naturally wanted to visit them. The reason why they all wanted to be together was that Yang Chen was afraid that the girls would not be able to control themselves under certain circumstances.

This was Shi Shanshan's sect, once something bad was to happen, it would be a big trouble. Now the four girls don't seem to have any sense of proportion in controlling themselves. They were used to fighting in the environment of the Demon Continent, but Yang Chen was by their side, just in case.

In addition to the journey by sea, Yang Chen's family left the dao sect domain this time and went to the Demon Continent for more than 70 years.

As a genius disciple of the Green Jade Immortal Island, Shi Shanshan has always been paid attention to. Everyone knows that she and Yang Chen went to the Demon Continent, and her life source jade tablet did not shatter, which also showed that Shi Shanshan was still alive. However, exactly what happened to her, no one knew.

The first thing Shi Shanshan did when she returned to the sect was to see her master, then the island master and several core elders.

The talented disciple of their own sect went to the Demon Continent to train and returned successfully, which naturally attracted the attention of the core elders. This was not a mediocre disciple with poor aptitude who must rely on experience in the Demon Continent to gain opportunities, but the pillar of the sect in the future, especially with the fifth-grade alchemy master Yang Chen, it was even a more grand reception.

Of course, the elders of the sects will inevitably ask about their experience in the Demon Continent. Fortunately, the Demon Continent has organized official lies, so it was not too difficult for them to deal with it.

"It's good that you came back! It's good that you came back!" The Island master's performance was exactly the same as Shi Shanshan's master. It's good to just come back, but there are always people who have different opinions, they want to know the effect of Shi Shanshan's experience this time.

“What’s the effect of the experience?” Elder Chuan Gong and Elder Bei Shuangyu asked directly. Of course, as an elder of the sect, there was nothing wrong with asking such a question. Was it wrong for the elders to care about the younger generation?

“Elder, the effect is very good!” Shi Shanshan replied respectfully. In front of the elders of the sect, even if Shi Shanshan was cold-faced, her attitude was still very respectful.

“When you left, Shanshan, your cultivation base was similar to your senior sister Li Zhiqi. Now your senior sister Li Zhiqi is in the late Yuanying stage, and you are just in the middle Yuanying stage.” Elder Bei Shuangyu pondered for a while, but still felt that the effect wasn’t very good. There was no way to define it exactly and immediately thought of a way “It’s not as good, you should spare with each other and see how big the gap is?”

Li Zhiqi, senior sister Li mentioned by the elders, was also a well-qualified disciple. This can be seen from her cultivation base growing from the early Yuanying stage to the late Yuanying stage in just over seventy years.

Shi Shanshan herself said that the effect was good, but in the eyes of everyone, Shi Shanshan’s cultivation base was inferior to that of her senior sister Li Zhiqi. From the point of view of the cultivation base alone, if Shi Shanshan’s growth was just like this, then the experience of the Demon Continent does not seem to be as surprising as everyone imagines. Spirit power is pure, it has always been taken seriously by the cultivators when they arrived in the spiritual world, there are not many people in the mortal world who are willing to make great efforts to temper them.

Everyone was an understanding person, and their real power cannot be measured by the realm of cultivation alone. So, let the two compete against each other, and they could really see the gap between the two. The method proposed by Elder Chuan Gong made everyone’s eyes shine.

“No!” Including Yang Chen, the five members of Yang Chen’s family said this sentence in unison.

What a joke, Shi Shanshan was still used to killing at this time, and the ultimate move is easy, if it was one-on-one, Shi Shanshan will not necessarily lose against a master at the early dacheng stage. If they let her compete with Senior Sister Li it would be beyond deadly.

How could this be agreed casually, so Yang Chen and the four women all refused in unison.

The voices of the five people immediately caught the attention of everyone, everyone didn't know what happened that would make the five of them lose their composure like this.

"You were gone for a long time to gain experience, it doesn't have any effect, so you don't dare?" Immediately, an elder teased in a strange tone.

The female elder surnamed Liu who spoke up happened to be Liu Zifang, the master of Li Zhiqi, whom Elder Chuan Gong spoke of. She was already at the peak Yuanying stage, she was only one step away from entering the dacheng stage.

Shi Shanshan's aptitude was good, so she has received a lot of care in the sect. This made a lot of people feel a little unbalanced, and one of them was Elder Liu, the master of Senior Sister Li Zhiqi. In her eyes, her own disciple has the same outstanding aptitude, but she was only slightly worse than Shi Shanshan, but their treatment was vastly different.

Shi Shanshan was not pleasing to her eye, she feels that she enjoys privileges. Today, when she encounters such an opportunity, Shi Shanshan dares not fight. What does this mean? It shows that Shi Shanshan has a guilty conscience, which shows that she was simply vain.

What kind of experience in the Demon Continent was clearly putting gold on his face. Now that the realm of cultivation was not as good as that of her own apprentice, she still has the face to sit here? If it weren't for the fact that her husband was a fifth-grade alchemist, she would have been reprimanded by all the elders.

It just so happened that Shi Shanshan's weakness also allowed the elders to see her true colors. Today, she must seize this opportunity and let her apprentice humiliate Shi Shanshan so that everyone can see her true colors.

Elder Liu Zifang, who thought so, immediately uttered those teasing words. A few elders who knew her well all laughed in agreement. However, they stopped after laughing a few times. After all, Yang Chen was still there, and they didn't want to get in a bad relationship with Yang Chen.

"Why not?" Bei Shuangyu felt that the request was not too much, he weighed the disciple's cultivation. Whether in terms of identity or seniority, he was qualified as a gong-passing elder, right?

“This disciple is accustomed to killing in the Demon Continent, and is afraid that a miss will hurt Senior Sister Li. How should the disciple deal with it?” Shi Shanshan’s personality was not so smooth.

It’s good that Shi Shanshan said this, even if the core elders of the Green Jade Immortal Island gave Yang Chen face, they will not force Shi Shanshan, not to mention that Shi Shanshan has always been the pride of the sect.

But now, as soon as these words were spoken, Liu Zifang was instantly furious. What does this mean? That was to say, her apprentice was not Shi Shanshan’s opponent at all, she was afraid of accidentally hurting her?

Was she mistaken? Shi Shanshan was only in the middle Yuanying stage. Her apprentice was already in the late Yuanying stage. A middle Yuanying stage cultivator was afraid of hurting a late Yuanying stage master, how was that possible?

“Since that’s the case, why don’t you open my eyes?” Elder Liu Zifang changed her words for a while and began to retaliate.

Chapter 554.2: Provocation

To tell the truth, the Island Master and the other core elders also want to know the effects of training in the Demon Continent, especially for a genius disciple like Shi Shanshan. If the effect was really good, they might consider sending a few more in the future.

However, Shi Shanshan’s initial refusal made them somewhat disappointed. In particular, the whole Yang Chen family has such an attitude, it seems that it can only explain one thing, that was, they didn’t believe in their chances.

In other words, the effect of this Demon Continent was not very good. For the core elders, this was not a big deal, it just proves the inadvisability of a cultivation method, it was no big deal. Anyway, as long as they have a good relationship with Yang Chen, they don’t need to care too much about other things.

Shi Shanshan was a genius disciple, and the sect had good hopes for her, but when necessary, it was possible to give up on her. What's more, the water poured out by a married woman was the same for her daughter, not to mention female disciples.

The failure of the Demon Continent's experience may be a mistake. In the beginning, Yang Chen should not be allowed to play around with the four women. It was not only Shi Shanshan that was destroyed, but also Sun Qingxue, a genius disciple of Blue Cloud Sect, plus Gongsun Ling, a genius of the Pure Yang Palace.

It was said that Yang Chen was not such a reckless person, how could he make such a wrong decision? Could it be that he believed too much in the records in various miscellaneous books and historical materials, so he fell into it?

That's right, it must be the case. It was better to believe in books than to have no books. The ancients' words really make sense, even a wise person like Yang Chen would make this mistake.

Hearing Shi Shanshan's next explanation, the Island Master and the others had another thought in their hearts.

She was used to killing, and was afraid she wouldn't be able to hold back. It sounds so reasonable, but if you think about it carefully, it was worth pondering.

How can a real cultivator have an uncontrollable situation? Just this statement has already explained a lot. Their experience this time was not so perfect, or in other words, not so successful, at least half of them had failed.

Sometimes, in a high position, especially in a high position in a big sect like the Green Jade Immortal Island, you have to make a balance.

Now that Shi Shanshan has failed, then they will suffer the consequences of failure. Naturally, Yang Chen, who caused Shi Shanshan to fail, will also pay a price. The genius disciple of the Green Jade Immortal Island, shouldn't be ruined like this. Even if Yang Chen was a fifth-grade alchemist, he must accept his lesson.

The big deal, after what happened today, they will use other methods to remedy it in the future. But for now, it was still necessary to balance the people within the sect.

“If that’s the case, why don’t you just be careful?” The island master didn’t say anything, but Elder Bei Shuangyu seemed to have anticipated the island master’s thoughts, and said very lightly.

Bei Shuangyu, who was an elder, said so, while the other core elders nodded slightly. As an outsider, Yang Chen saw this situation, but he sighed slightly in his heart, he knew this earlier. It’s better not to go back to the sect first and wait until they recover.

In the current situation, Shi Shanshan has been unable to escape. All the core elders agreed for them to learn from each other, so she could only do it.

“This disciple urges the island master to give some magic weapons to protect the body, so that senior sister Li can protect herself.” Shi Shanshan doesn’t usually like to socialize, but it doesn’t mean that she doesn’t understand the situation in front of her. Since it was inevitable to do it, then she must find a way to minimize the casualty.

If these words were said before the Demon Continent’s experience, given the importance of Shi Shanshan in the sect, it will naturally not be a problem, and it must be responsive. But now that these words were spoken, everyone’s understanding has been discounted.

“Does it need to be so troublesome? Isn’t it just to learn from each other?” Liu Zifang’s impolite voice sounded again. It’s not easy to have a moment of raising your eyebrows and venting out freely, can’t you be sorry for yourself?

“Shanshan asked you to be careful, why do you say that?” Shi Shanshan’s master Song Huan was unhappy for a while. Her beloved disciple was taught such a lesson by Liu Zifang. Even if Shi Shanshan’s experience in the demon continent was unsuccessful, her master hasn’t said much here. Where can you get someone else to speak?

“There’s so much nonsense, you won’t know if you don’t fight.” Elder Liu was complacent, and she looked at other people’s faces.

All the people here agreed that Shi Shanshan and her senior sister Li would spare each other, but Yang Chen, as an outsider, couldn't say anything more. Even if he was Shi Shanshan's husband, he can't get involved in the affairs of other people's sects. In the eyes of others, it's just a competition between the same sect, how big was it?

"Shanshan, try to hold back as much as you can!" At this point, Yang Chen couldn't say anything more. He persuaded Shi Shanshan, but he sighed in his heart, this senior sister Li was really pitiful, sitting at home, but disaster comes from heaven, it was really unfortunate to have such a master.

"Island master, if you have any magic weapon to protect the body, let them use it. It is best if everyone is safe, so that things don't look bad." After persuading Shi Shanshan, Yang Chen turned his head and suggested to the island master.

Yang Chen's identity was as an honored guest, he was also a distinguished guest that the Greatest Heaven Sect deliberately wanted to win over. When he opened his mouth, it was also out of safety considerations, and no one could say anything. The Island master could only nod her head in agreement and ask people to make preparations.

However, Yang Chen's words intensified everyone's speculation about Shi Shanshan. Even Yang Chen said that, so it was estimated that Shi Shanshan really failed, otherwise it would not get out of control. It was said that it was a body protection magic weapon prepared for Senior Sister Li, but they also must prepare some for Shi Shanshan. The one who really wanted protection was Shi Shanshan.

Among the people present in the Green Jade Immortal Island, they can take out a few good body protection magic weapons casually. After a while, more than a dozen kinds of body protection magic weapons were gathered in the hands of Elder Bei.

Elder Bei Shuangyu was not biased, and directly divided them equally according to the number, Shi Shanshan and Li Zhiqi each had a share.

Of course, the competition cannot be in the reception hall, and soon everyone appeared together in a martial arts arena. Li Zhiqi had been called over by Elder Liu Zifang and was standing in the martial arts field, waiting for Shi Shanshan.

Shi Shanshan turned her head to look at her husband, Yang Chen took a deep breath and nodded towards Shi Shanshan. Shi Shanshan didn't say much, she didn't take the body protection magic weapon that Elder Bei gave her, she walked out to the martial arts field.

The protective formation on the edge of the martial arts field was activated immediately, surrounding Shi Shanshan and Li Zhiqi in the center. The two were separated by a distance of more than ten meters, standing at both ends, waiting to start.

Chapter 555.1: Losing Face

While Shi Shanshan and Li Zhiqi were waiting for Elder Bei to issue an order, Yang Chen suddenly turned to the Island Master, bowed to the Island Master and the group of elders "Island Master, elders, once you make a move, the sword has no eyes, if Shanshan can't hold back, please forgive her and don't hold her accountable for her reckless behavior.

The reason why he only opened his mouth at this time was that Yang Chen was a little angry.

Shi Shanshan was Yang Chen's wife, a properly married wife. If there was any discord in the Green Jade Immortal Island, they can handle it themselves behind closed doors, Yang Chen won't say much.

But in front of Yang Chen, they were just burying his wife like this, no one would be able to bear it. As soon as they returned to the Green Jade Immortal Island, he watched Shi Shanshan being oppressed by Elder Liu Zifang. He didn't even have a few words to enlighten him, Yang Chen couldn't bear it.

In this case, it was necessary to make these people suffer a bit. Tigers don't show their power, when they were not provoked, do they really think that Shi Shanshan was no longer so talented? As for Liu Zifang, if she can really bear the fact of losing her apprentice, that's fine.

However, after all, Shi Shanshan was still a disciple of the Green Jade Immortal Island. Even if she entered the Yang family, she will have to live and cultivate in the Green Jade Immortal Island in the future. She has to hold back her hands when it is time to hold back, but it can't be too much.

When the Island Master listened to Yang Chen's words, her heart sank for no reason, and she suddenly regretted it. Were Liu Zifang and the others going too far today?

Shi Shanshan has just returned from training and has not had time to rest. Before she even had time to finish the experience, she was provoked by Liu Zifang to the point that she had to compete with Li Zhiqi. Anyway, even if Shi Shanshan really failed in the training, it shouldn't be like this.

Even if you don't give face to the cultivator, you should give face to Buddha. Yang Chen was Shi Shanshan's husband, can he tolerate Shi Shanshan being bullied so much by others? If this matter affects future cooperation, it will be a bit of a loss.

After all, Shi Shanshan left the Green Jade Immortal Island for too long, it's been more than seventy years. Not to mention that the old people have forgotten, those new disciples have no idea that there was such a cultivator in the sect. From top to bottom, it seems that Shi Shanshan's amazing talent has been forgotten.

From the Island Master's heart, she doesn't care about Shi Shanshan's success or failure. To put it another way, the Green Jade Immortal Island could become one of the big sects, and it was not because of one or two talented disciples. From the establishment of the sect by the ancestors to the present. The number of genius disciples who died halfway was definitely not less than 120,000, there were many disciples as talented as Shi Shanshan.

Therefore, the core elders did not really value Shi Shanshan's success or failure. Success was gratifying, but failure is just to let the sect know that it is better for talented disciples not to go to the Demon Continent to gain experience, that's all. As long as Shi Shanshan can maintain her relationship with Yang Chen, it was enough.

Out of this consideration, some of Liu Zifang's words were unpleasant, but everyone tolerated them. In fact, the core elders still hope to actually see the effect of Shi Shanshan's training, hearing can be false, but seeing is believing.

But Yang Chen only said so at this time, the Island Master had to think more. Even Yang Chen, who was her husband, said so, thinking that it was a relatively high degree of confidence. Liu Zifang and Li Zhiqi didn't seem to be able to ask for it.

Yang Chen's attitude was very low, and he pleaded for Shi Shanshan in advance, but he ran all the core elders into an embarrassing situation, especially Liu Zifang.

If Shi Shanshan really couldn't hold back and seriously injure or kill Li Zhiqi, there was really no way to pursue Shi Shanshan. People were reluctant at first, and it was Elder Liu who forced the situation. Moreover, even Yang Chen spoke like this, having said that the Green Jade Immortal Island can't do such unethical things.

Now everyone remembers how strong Shi Shanshan was back then. At the Jiedan stage, she could compete with the senior sisters at the Yuanying stage. Now that she has reached the Yuanying period, and have been practicing in the killing field of the Demon Continent for so many years, it was really easy to say that it is not good. It was also very possible that Li Zhiqi would be killed.

"There is always a winner or loser in a competition, it doesn't matter." The island master couldn't help but express her position. Yang Chen was still waiting here, so she could only wave her hand and give an answer.

However, while replying to Yang Chen, the Island Master did not forget to wink at Bei Shuangyu, an elder who was already in the dacheng stage and another elder, Min Huafeng. If something goes wrong, the two of them will take care of it.

Of course, Elder Bei and Elder Min saw the hint from the island master, and they nodded slightly and began to pay attention.

"Let's start!" Liu Zifang was not stupid, if so she couldn't be an elder. From Yang Chen's mouth, she also heard a trace of something wrong, but up to now, what she said was like water that was poured out and she couldn't take it back. There was no turning back when the bow was given, so she could only fight to the end.

The two women in the field immediately took action when they heard Elder Liu announce to begin. Li Zhiqi had already been told by her master that in this contest, Shi Shanshan must be defeated, so that Song Huan would also lose face.

As soon as she heard that, Li Zhiqi started to attack. She had a late Yuanying stage cultivation base, and her cultivation base is much higher than Shi Shanshan. The gap between the late Yuanying stage and the middle Yuanying stage was not as small as it sounds, and it was normal for the gap in cultivation base to be one or two times.

Her flying sword was summoned out at the fastest speed, and slashed towards Shi Shanshan frantically, with a heavy hand and a fast speed, there was no competition at all, it was completely a posture to kill the enemy.

Li Zhiqi was attacking, while Shi Shanshan was defending. From the bottom of her heart, she is still from the Green Jade Immortal Island, and naturally she does not want to hurt her fellow senior sister. Anyway, when she was in the Demon Continent, she didn't have less time to be besieged by the demonized monsters in the dacheng stage. At this time, she was just dealing with a senior sister in the late Yuanying stage, it seemed that she could do it with ease.

In front of the elders, Shi Shanshan only defended and did not attack, she repeatedly avoided Li Zhiqi's series of powerful attacks. The movement technique has been perfected in the Demon Continent, so there was no need to protect herself with the magic weapon at all, even Li Zhiqi's attack cannot fall on Shi Shanshan at all.

Shi Shanshan was often besieged by several demonized monsters in the dacheng stage in the demon continent. Sometimes, she didn't look good, let alone calm and was entirely practical. But in the eyes of the elders, it was a look of embarrassment.

Chapter 555.2: Losing Face

Speaking of which, it was because the fusion experience had not been fully absorbed after the experience, so these instinctive movements could not be comprehensively summarized. On the Demon Continent, if only practical, who would pay attention if it was good-looking or not?

On the other hand, Li Zhiqi had a graceful figure, fluttering clothes, and her flying sword attacked so calmly, just like a fairy.

They were also beautiful women and they were born in the Green Jade Immortal Island, one is calm and the other is embarrassed. Especially in a sect dominated by women, the aesthetic requirements are better than other sects. Under the circumstances, the two balance between victory and defeat, at least in the minds of most people, has already been biased.

Most of the core elders present were at the Yuanying stage, which was not much higher than that of Shi Shanshan. Most of the people in their hearts shook their heads secretly for Shi Shanshan's performance.

This kind of embarrassment, although she can avoid Li Zhiqi's attack every time, it was already a failure. The experience of this demon continent was really worthless. A female disciple who was originally a full genius was actually ruined like this, even if you hide, you have to hide beautifully right?

Just take the movement just now, there is a flying sword movement technique in the sect that could dodge Li Zhiqi's attack very beautifully and delicately, and can also wait for an opportunity to counterattack. This flying sword movement is a basic swordsmanship that can be cultivated in the foundation stage, it was impossible for Shi Shanshan to not know it.

Obviously there were wonderful movements that could counter defense and attack, but Shi Shanshan didn't use it, but used this kind of vulgar countryman's fight like a village man's move, what was this? Back to Basics? How long did it take for the seniors of the sect to create the exquisite swordsmanship, was it not comparable to her ugly movement like some beast?

Talking about the movement method was really too flattering, it's obviously just a subconscious action. They don't know what kind of beasts she has learned from, that she even forgot the basic swordsmanship of the sect. She did such self-destructive things, wasn't that what destroying genius was?

Most of the elders who had a lot of affection for Shi Shanshan were extremely disappointed with Shi Shanshan's performance at the moment. At the same time, there was also a hint of resentment towards Yang Chen, who had forced Shi Shanshan to go to the Demon Continent for training.

Back then, Yang Chen had a high profile saying that he was going to bring his wife to the Demon Continent to experience it for decades. Not only did their cultivation base not grow much, but on the contrary, even the disciples who were not as good as her were now her equal. It was simply deliberately destroying the future hope of the Green Jade Immortal Island.

However, those experts in the dacheng stage and the few core elders like the Island Master saw a different scene.

Shi Shanshan looks embarrassed, but in fact, she has never attacked actively, she was completely defensive. Even if the flying sword was occasionally used, it would lead the opponent's attacking flying sword away. So that the attack does not fall on herself, from beginning to end, there was not even a single attack.

No matter how wonderful Li Zhiqi was, she couldn't hide the result. That was, her attack was futile from beginning to end.

Attacks that do not fall on the enemy. Even if it was strong, fast, and powerful, what was the use? But Li Zhiqi didn't seem to know it yet, she had been using this method all the time.

At the beginning, some of the experts also felt that Shi Shanshan's actions were really ugly, but the more they looked at it, the more terrifying the experts felt after they understood the meaning behind Shi Shanshan's actions.

While Shi Shanshan was guarding against Li Zhiqi, she was on guard against even all the onlookers around her.

Just to say that her previous, vulgar, lazy donkey rolling in the eyes of others not only subtly escaped Li Zhiqi's attack, but even the audience around Shi Shanshan seemed to be unable to find her weakness if they suddenly attacked.

If it was once or twice, it can be said to be a coincidence, but every time Shi Shanshan's actions were with such intentions, it was really incredible.

Except for Yang Chen's family, no one knew what Shi Shanshan's experience in the Demon Continent had been. When she was attacked by dozens of demonized beasts at the same time, she wanted to be able to defend against all attacks, and to be able to act beautifully. That's not training, that's courting death. After the test of this cruel attack, the body technique of removing the succulent and preserving the essence was only practical, not beautiful.

The elders who were watching would not have thought that Liu Zifang had specially instructed Li Zhiqi to make Shi Shanshan a fool of herself. In the eyes of the master and apprentice, Shi Shanshan was making a fool of herself.

"Hmph, some people don't know that the sky is high and the earth is thick, so they ruined the talented disciples of my sect." Not everyone would care about Yang Chen's face, so someone immediately pointed at Sang Hai and scolded "Shanshan is ruined! "

“Only defending and not attacking, my Green Jade Immortal Island is not like this.” Another elder who heard this said immediately “Could it be that she was hunted and almost killed on the Demon Continent for this? This child, Shanshan, how much suffering did she endure?”

...

This was still the core elders who originally favored Shi Shanshan. It’s not easy to say, but it still implies concern. Some of those who stood on Elder Liu’s side were no longer so polite, almost sneering.

“This is the result of the experience? It’s good to be defensive and not attacking.” An elder who Yang Chen didn’t know his identity said “The sect’s ingenious movement skills don’t need to be used, and people don’t do it. If you are a beast, the face of the Green Jade Immortal Island shouldn’t be thrown away.”

“Hahahaha, if this is the result after going to the Demon Continent to cultivate, then forget it!” Another elder shook her head and sighed earnestly: “Lessons! In the future, the disciples of my branch, even if they aren’t qualified. No matter how bad it is, you can’t go to the Demon Continent to experience it, it will hurt people!”

...

Elder Liu on the side looked at all this with a smile on her face, listening to the surrounding voices, her heart was as comfortable as if she was drinking honey. She didn’t even forget to turn her head to Shi Shanshan’s master Song Huan who was not far away and joked “Sister Song, Shanshan is really ruined this time. It’s your fault that you didn’t stop her from going to the demon continent!”

You can’t help but say that Elder Liu’s ability for mocking was good. After saying this, after stimulating Song Huan, she immediately turned to Yang Chen “Grandmaster Yang, your level of alchemy is unparalleled in the mortal world, but in terms of cultivation, grandmaster, you are a little bit worse.”

“Shanshan!” Before Yang Chen said anything, Song Huan on the other side was already furious, and shouted at Shi Shanshan in the field “If you keep defending and not attacking, the faces of your master and your husband will be lost.”
