Chapter 556.1: Small Attack

Shi Shanshan, who has been defending and not attacking, naturally heard the words of the elders outside, and also heard the angry voice of her master Song Huan.

At this point, Shi Shanshan couldn't bear to be merciful anymore. She turned around and was dodging all over the place just now, but now she was facing Li Zhiqi directly.

Hearing Song Huan's voice, the Island Master knew something would go wrong. She could see what Shi Shanshan's body technique implied. She was appreciating it carefully, and at the same time, she was trying to figure out the intention of Shi Shanshan every time she avoided an attack. When she suddenly saw Shi Shanshan's change, she was stunned for a moment.

Just like the Island Master, there were also the masters of the dacheng stage. Although Shi Shanshan can only defend but not attack, her posture was embarrassing, or she can't say any posture at all, but in their eyes, it was a rare good thing that makes people shine.

Although Li Zhiqi's attack was beautiful and fierce, in the eyes of everyone, it was as if she and Shi Shanshan had rehearsed many times, and her defensive movements were extremely skilled.

What's even more surprising was that Shi Shanshan even noticed the elders who are not protected by the surrounding formations, and even their inadvertent actions could cause Shi Shanshan's subconscious reactions in the circle. But every time in this completely unexpected situation, Shi Shanshan's comprehensive protection and the reaction that can minimize her own damage simply made all the dacheng stage elders intoxicated.

This kind of performance even made several dacheng stage elders even more addicted, they would make some actions by themselves from time to time to interfere with Shi Shanshan, who seems to be in a state of embarrassment.

Every time, Shi Shanshan can respond in a timely manner, act skillfully, and often make some unbelievable cracks.

In the eyes of those who do not understand, Shi Shanshan was simply a clown, she was also a clown dressed as a genius disciple of the Green Jade Immortal Island. Such a performance was from a genius disciple, that genius disciple really did not live up to her name.

But in the eyes of those who understand, Shi Shanshan's performance could only be described as amazing, and some can't express it perfectly. It's just that they cultivate in a place like the dao sect, which was relatively comfortable and did not have to worry about death all the time. How could they have seen such an unrestrained fighting consciousness?

Elder Liu Zifang wished that Shi Shanshan could be a little more ugly, but the other masters were expecting Shi Shanshan to show more splendor. Except for those who really care about Shi Shanshan but can't see it like Song Huan, no one could bear to let Shi Shanshan stop at this time.

However, Liu Zifang's words irritated Song Huan, and she was furious. Song Huan even pulled Yang Chen in and started roaring at Shi Shanshan.

"Idiot!" A dozen pairs of eyes stared at Liu Zifang angrily, and all the masters who were looking at Shi Shanshan secretly cursed at Liu Zifang, a woman who was over-comprehensive but still thought she was self-sufficient.

Such a wonderful defense was ruined by her in a single sentence. Couldn't she just be happy for a while? Does she have to catch herself getting slapped in the face?

However, after the initial dissatisfaction, the experts began to look forward to it. Even defense can achieve this state, so once Shi Shanshan starts to attack, how exciting will it be?

In fact, Shi Shanshan didn't want to harm her fellow senior sister, so she kept avoiding her. She was looking forward to the seniors, seeing the situation and then ordering them to stop.

However, her performance was beyond everyone's expectations. Those who wanted to see her make a fool of herself were reluctant to let her stop, and those who wanted to see her stunning performance were also reluctant to let her stop, which created the current situation.

If it was just Shi Shanshan, she wouldn't care what others said. From the very beginning, she was the unsmiling Fairy Hanmei, when did she care about what other people say?

But now, those ridicules have fallen on her master and husband, which was not something Shi Shanshan could bear. Even though she has experienced an emotional outburst of inner demons, she was clearly calm now, and there was no sign of losing control.

Even in the Demon Continent, it was only after being surrounded by a large number of demonized monsters in the dacheng stage, but now she was being teased like a monkey by a fellow senior sister who she could kill anytime, anywhere. No matter how well Shi Shanshan has cultivated herself, she will never endure it at this moment.

Most importantly, Shi Shanshan's style is always to move forward bravely, replacing defense with the strongest attack. If you have to, you will try your best to defend. But this was not in line with Shi Shanshan's habit, and she has long been impatient.

Song Huan's words instantly became the best catalyst, which completely triggered Shi Shanshan's anger. At the same time as her figure turned, two sharp eyes were directly fixed on the body of her opponent Li Zhiqi.

Li Zhiqi was also a genius disciple of the Green Jade Immortal Island, she has always looked down on others. Except for some rare masters, she has never cared about others. When cultivating, Li Zhiqi was also considered hardworking. Even when she went out to cultivate, Li Zhiqi worked extremely hard, eliminating demons and guarding the dao, without falling behind.

However, those who have not experienced the kind of slaughter in the Demon Continent cannot imagine that kind of environment. All around are enemies who are not afraid of death, even if a flying sword is equipped with a body, it is not the kind of strong opponent that can be compared with a wise enemy.

Just a glance from Shi Shanshan made Li Zhiqi involuntarily startled. The kind of indifference that although there was no killing intent, but hardly any life in the eyes, was even more shocking than the eyes with killing intent.

“Not good!” The Island Master suddenly screamed in her heart. At the same time, Elder Bei Shuangyu and Elder Min Huafeng also stood up at the same time, they were all aware of the danger.

Even Shi Shanshan’s defense was so refreshing, needless to say how thunderous and furious it will be once she attacks, Li Zhiqi, at present, will definitely not be Shi Shanshan’s opponent.

Although Liu Zifang always wanted to suppress Shi Shanshan and suppress Song Huan, she was not a person without eyesight. Her disciple was unable to attack for a long time. She just said that, which also added psychological pressure to Shi Shanshan.

Now the two dacheng stage elders stood up, and as soon as this scene came out, she immediately realized that it was not good. But soon Liu Zifang took it for granted that this must be because the two elders were afraid that something would happen to Shi Shanshan. After all, the time to defend and attack was different, and it is easy to be taken advantage of by the enemy.

However, Liu Zifang still loudly reminded her apprentice “Zhiqi, be careful!”

Chapter 556.2: Small Attack

Without Liu Zifang’s reminder, the experienced Li Zhiqi also knew how to deal with it at this time. During the battle, the elders of the Green Jade Immortal Island have never had the habit of distracting them during the battle. Seeing that Shi Shanshan’s eyes had changed, Li Zhiqi immediately became vigilant and quietly stimulated a few magic weapons.

Li Zhiqi won’t be as pedantic as Shi Shanshan, and take the protective magic weapon given by her elders and not take it seriously. With these things, it was an extra layer of insurance, which would make Shi Shanshan more embarrassed.

She was also excited now, she was looking forward to the situation where Shi Shanshan’s attack falls on these protective magic weapons refined by the elders and returns without success. She believes that it will be a scene that can cause a lot of people to laugh.

It was best that Shi Shanshan can become a turtle shell that has forgotten her original fierce attack method, and the attack is unsuccessful, and only knows how to defend herself against the wind and rain, that is the real pride.

Li Zhiqi also heard her master's cry. It was almost the same as Liu Zifang's judgment, and Li Zhiqi also thought that Shi Shanshan was a trapped beast, so the smile on her face suddenly became a little more evident.

However, Li Zhiqi believes in being stronger first. The performance just now was just to make Shi Shanshan look ugly, and she didn't come up with her most powerful killer move. Since Shi Shanshan wants to change her style, she will let her be more ugly.

The flying sword in the air slightly turned in a circle and quickly chopped off from another angle. This was what Li Zhiqi has practiced for many years, but she has only practiced in front of her master. So this was a new swordsmanship not known to the other elders.

"Thousand killing swords!" A few elders who were knowledgeable knew Li Zhiqi's swordsmanship at one glance.

This thousand killing sword was a very advanced flying sword technique of the sect, it could almost be said to be one of the most powerful sword techniques of the sect. Only when the cultivation base reaches the peak Yuanying stage, could there be enough strength to use it, its power was huge, it was not known how much fame it has brought to the Green Jade Immortal Island.

Li Zhiqi was only in the late Yuanying stage, but she had already practiced this sword technique so well that she could use it. Her qualification was absolutely excellent, at the same time, her strength was infinitely close to the peak Yuanying stage, otherwise she would not be able to control it at all.

As soon as the technique was used, the elders who disliked Shi Shanshan immediately began to shake their heads. It turned out that Li Zhiqi was only teasing Shi Shanshan before, and only at this time did she show her true talents, to defeat this girl Shanshan.

Li Zhiqi's Thousand killing sword attack had already launched an attack, but Shi Shanshan's counterattack was long overdue. The flying sword that blocks when necessary, suddenly there was a fierce murderous aura.

This was not Shi Shanshan's life source flying sword, the life source flying sword was still being tempered in her sea of consciousness. This was just a familiar flying sword that she used before, and its appearance was relatively ordinary.

However, the ordinary flying sword suddenly shone with a ray of light that people couldn't look up to, suddenly turned into a golden beam, and slashed towards Li Zhiqi.

No matter how famous Li Zhiqi's swordsmanship was, no matter how godly Li Zhiqi's current movement was, no matter how skilled Li Zhiqi's swordsmanship was. Thousands of moves, thousands of tricks, there was nothing she could do.

Shi Shanshan's flying sword, which came last, directly cut into Li Zhiqi's chest along an unbelievable angle in the eyes of everyone, and went straight to the point of her heart.

The sudden change shocked Li Zhiqi. Fortunately, just now, for insurance, she had activated all the protective magic weapons given by her master and elders. In the speed of light, Li Zhiqi couldn't even return the sword to block, and could only use the protective magic weapon to receive this strange and unparalleled sword strike.

Ding ding ding ding, the crisp and pleasant ding ding sounded one after another, almost forming a sound. It was the sound of Shi Shanshan's flying sword slashing hundreds of times on several body-protecting magic weapons at an unpredictable speed.

Among the stunned expressions of the crowd, Shi Shanshan's flying sword, which had turned into a golden glow, was not far from Li Zhiqi's body.

Almost every flicker was accompanied by a harsh attack. Unable to hit a single blow, she immediately switched to an attack angle without hesitation.

Every attack was full of pure and incomparable spiritual power that has been deliberately tempered by Shi Shanshan in the past few decades. After each sound, it represents the protection magic weapon that was hit, and the light must be dimmed.

The use of protective magic weapons also requires spiritual power. Even though Li Zhiqi was already in the late Yuanying stage and was infinitely close to the peak Yuanying stage, she has not yet been able to replenish the spiritual power needed for protective magic weapons immediately after accepting Shi Shanshan's attack.

Shi Shanshan's attack was really too fast, and each attack was too sharp. In just over a hundred or so short strokes, those protective magic weapons had no spiritual support, and the rays of light were all gathered.

Shi Shanshan's attack did not mean to stop at all, and was still controlling the flying sword to make hundreds of consecutive slashes. Now the attack didn't fall on Li Zhiqi's body, just because of the strong material of the protective magic weapon itself.

Tests from all angles and all directions have allowed Shi Shanshan to quickly grasp the weakest parts of these protective magic weapons. In the last few moments, the sound of ding ding ding turned into a shattering sound, the surrounding people couldn't even react to what was happening, the few protective magic weapons have been completely destroyed by Shi Shanshan.

In the end, Shi Shanshan has always firmly remembered that this was learning from the same sect, not to fight against a deadly enemy. After smashing the protective magic weapon, Shi Shanshan basically stopped the sword light, and with a flick of her figure, she dodged the flying sword that Li Zhiqi had just slashed over in front of her and waved her hand to launch just one punch.

This was a pure spiritual attack, but at this moment, all Li Zhiqi's protective magic weapons were shattered, and when the souls of the dead were on the verge of death, there was no longer the elegance of the past.

Boom, Shi Shanshan's fist, carrying an incomparable spiritual power, directly hit Li Zhiqi's hands.

Kacha Kacha, accompanied by two sounds of shattering bones, Li Zhiqi's hands were punched back to her chest by Shi Shanshan. After another sound of shattering bones, Li Zhiqi spit out a mouthful of bright red blood, her whole body flew up.

Just as Shi Shanshan was about to stop, her figure flashed and the flying sword, which had just stopped, suddenly accelerated and slashed towards a figure that suddenly appeared beside her.

Chapter 557.1: Extreme Counter Attack

Shi Shanshan's habit of fighting the enemy has been to kill if she can, or run if she can't. Now even if she was more restrained, it was to subdue the opponent and make the opponent lose the ability to attack. With one punch, Li Zhiqi was severely injured.

When she was in the Demon Continent, this kind of unexpected situation appeared endlessly. Not to mention whether she had just killed her opponent, and suddenly a demonized monster rushed out from another direction. It was not unusual for the beast to suddenly come alive like a cramp.

Sometimes, it was not uncommon for such a situation to often occur when the key points of the demonized monster are not sure.

This has also cultivated the habit of Yang Chen's family to be vigilant at all times when they do something, ready to be a powerful killer or run away at any time.

A habit that has been cultivated on the edge of life and death for decades, how can it be easily quit after more than ten years of retreat at sea? When encountering a stimulus, there will be a subconscious reaction, which has nothing to do with thinking or sanity at all, but is purely an instinctive action.

The sudden appearance of an unexpected figure in front of her directly inspired Shi Shanshan's habit, and she started attacking subconsciously without even thinking about it.

The first thing Shi Shanshan destroyed was the body protection magic weapon that Li Zhiqi's master, Liu Zifang, Elder Liu gave her. This magic weapon was refined by Liu Zifang herself, and naturally she had a clearer sense about it than others.

As soon as the magic weapon was broken, Liu Zifang knew that it was not good. With the speed Shi Shanshan showed just now and the power of destroying the magic weapon, she already fully understood that her own disciple was not Shi Shanshan's opponent at all. In the beginning, she only defended and not attacked, just to give her the face of the master and the apprentice, and did not want to destroy the harmony.

It was a good thing, as long as Li Zhiqi didn't act so aggressively, and if she held on for a while, Shi Shanshan would be defeated, and Li Zhiqi would go down the hill.

However, Liu Zifang's ridicule directly stimulated Song Huan, and also caused Song Huan to fight back in anger. This time it's good, all face was lost.

This was still a trivial matter, as soon as her own protective magic weapon was broken, Liu Zifang realized that the life of her disciple was at stake. Being able to smash the body protection magic weapon that she had worked so hard to refine in such a fast time, the attack power was simply beyond her imagination.

For the sake of her disciple's life, Liu Zifang could only go out in person to snatch Li Zhiqi back. Otherwise, wouldn't it be bad if Shi Shanshan made a murderous attack?

But Liu Zifang would not have thought that she suddenly rushed to intervene, she directly provoked Shi Shanshan's fighting instinct. The sanity that she had been encouraged to maintain was suddenly rushed, and she immediately returned to her habit and instinctively regarded this place as a demon continent and attacked without hesitation.

As a master of the peak Yuanying stage, he will be a master of tribulation and ascend, and Liu Zifang is of course one of the masters in the Green Jade Immortal Island. After rushing out, she found that Shi Shanshan immediately started to attack, and then saw the blood spurting from her disciple's mouth, her mind paused for a while, and then anger immediately filled her chest.

Liu Zifang's flying sword appeared in front of her in an instant, and she slashed towards Shi Shanshan regardless.

Isn't this just learning from the same sect? As for taking such a heavy hand? In Liu Zifang's mind, she would never think that her as the master and her apprentice would take the blame for this, she would never realize that it was Shi Shanshan's mercy just now. She just saw that Shi Shanshan punched her own disciple and was seriously injured.

The anger caused by this has also become another factor that stimulated Shi Shanshan. Almost like a reflection, Shi Shanshan's flying sword greeted her.

Ding, with a crisp sound, the sound of the two flying swords colliding did not last long, the flying sword controlled by Shi Shanshan led away Liu Zifang's flying sword. Afterwards, everyone watched the flying sword turn around quickly, directly towards Liu Zifang's neck.

Chi, the sound of flying sword cutting through flesh and blood was so harsh in the exclamations of the surrounding people. A bloodstain appeared on Liu Zifang's throat.

Ding, ding, two consecutive sounds, Shi Shanshan's flying sword suddenly bounced off Liu Zifang's throat, then turned in the air, and returned to Shi Shanshan's side in a flash.

Two figures suddenly appeared, it was Elder Bei Shuangyu and Elder Min Huafeng who were paying attention to the battle. The two moved at almost the same time, blocking Shi Shanshan's flying sword before Liu Zifang's head was about to be cut off.

Even so, Liu Zifang's throat was also cut open, the trachea was cut directly, most of the blood vessels were cut open, and blood poured out like a fountain.

Liu Zifang's face was full of disbelief, both hands tightly covering her throat, the throat clucked, but she couldn't make any other sound and her body began to slowly collapse.

Elder Min Huafeng, who had already rushed up, grabbed Liu Zifang's body and threw it directly to the place where the Hall Master of the Medicinal Hall was located in the outer circle and she and Bei Shuangyu rushed forward one after the other. In the same way, Bei Shuangyu threw Li Zhiqi's body outside and asked everyone to give first aid.

Everyone around was taken aback by this change. The head of the medicine hall saw Liu Zifang's body flying towards her. She hurriedly caught it in mid-air, and opened Liu Zifang's hands covering her throat.

Fortunately, a master at the peak Yuanying stage did not directly slap her head like this, but only shallowly incised the trachea and blood vessels, which would not be fatal immediately. Under the rapid treatment of the medicinal hall master, she was able to save her life.

Shi Shanshan was already stimulated again, and habitually attacked Elder Bei and Elder Min who were rushing up. During the battle, she was always on guard against the people around her. At this moment, she was not flustered at all, just fighting to the fullest.

Bei Shuangyu was fast and rushed in front. She had only just consolidated her realm when she was promoted to the dacheng stage, and when Shi Shanshan attacked Liu Zifang, she temporarily gave up on Li Zhiqi, allowing her to successfully save her. Now Elder Bei's whole mind was to suppress Shi Shanshan first, and then slowly guide Shi Shanshan to stop.

With Elder Bei's cultivation base in the early dacheng stage, there would be no problem in suppressing a disciple in the middle Yuanying stage, she could even suppress Shi Shanshan easily so that she would not be injured.

The idea was good, in Bei Shuangyu's heart, in the heart of Elder Min, and even in the hearts of the core elders people who were watching, probably all have this plan, except for the Yang Chen family.

However, everyone underestimated Shi Shanshan and Elder Bei, who rushed up, immediately felt the power of Shi Shanshan.

Chapter 557.2: Extreme Counter Attack

The flying sword moved around, towards Elder Bei's throat. Elder Bei has already prepared for the flying sword, which was to first block.

When the flying sword was knocked flying by Elder Bei's flying sword, Elder Bei was about to charge forward, but suddenly she noticed a sharp wind blade at her waist and slashed over, her body froze, and her flying sword turned towards the wind blade.

Shi Shanshan's attack was more than just flying swords. When she was in the Demon Continent, she was simply kicking her head and her feet. This was also a habit, it was still a habit of being besieged.

Now there are people around Shi Shanshan on guard, and two people have already rushed up. Instinctively, Shi Shanshan's first reaction was to knock down the first one with the fastest speed, and then meet the second one. This was the experience of being under siege summed up in countless moments of life and death.

One less enemy would make things easier, so all means must be used, and there was no room for them to hold. On the Demon Continent, the demonized beasts will not tell you morals, nor will they give you any chance. Even if they are seriously injured, when they can bite you, they will never let go.

In fact, before Yang Chen's family left, Shi Shanshan had been caught in this kind of siege more than once. The position where the four girls were at that time had exceeded the depth that their strength should normally reach, and the opponents could tear them into pieces anytime, anywhere, so there was no reason for any hesitation.

At this moment, Shi Shanshan was in such a state, so she used all the killer moves without hesitation. A cultivator could kill not only with flying swords, but any magic weapon, even empty hands can use some spells.

Ordinary wind blades, if slashed at a dacheng stage master like this, will be defeated and scattered immediately. But Shi Shanshan's wind blade, the spiritual power was so pure, if Elder Bei was slashed, it was only slightly swayed, and did not dissipate, but changed direction, and continued to attack Elder Bei.

While Elder Bei was dealing with the wind blade, at least four more rays of light, two bracelets, and two hairpins flew out of Shi Shanshan's body and attacked.

But Shi Shanshan's body didn't stop at all, almost with those magic weapons, not a step behind, and she also rushed up. Spiritual power attack, no matter how strong it was, can't be stronger than the destructive power of fist to flesh. At this time, even the body was the most powerful weapon.

Since the peak Yuanying stage, she has mainly devoted herself to seclusion and cultivation, so Elder Bei, who rarely participates in battles, has not encountered such a fierce and deadly style of fighting. Although blocking the attack of the flying sword and the magic weapon did not make her appear to be in a hurry, Shi Shanshan's rushing forward attack also made her extremely uncomfortable.

Boom, a dacheng stage master was a dacheng stage master. The power that just broke Li Zhiqi's arm and chest with a punch just made a loud noise in front of Elder Bei, and then was blasted back by the same fist from Elder Bei.

While Elder Bei blocked Shi Shanshan's fist, her heart twitched for a while. Shi Shanshan, how did this little girl cultivate, even two punches made her, a master of the dacheng stage, feel the pain in her fists, and her phalanx even cracked, but under this kind of movement, no one else noticed it.

After just receiving two punches, Elder Min, who was behind Elder Bei, had already followed. She thought this was the situation where Shi Shanshan was being suppressed, but suddenly a sudden change occurred.

The two hairpins that stabbed at Elder Bei turned and stabbed towards Elder Min. Elder Min used her flying sword to easily block the two hairpins.

At this moment, the two bracelets and the two hairpins that Shi Shanshan issued suddenly exploded. It was Shi Shanshan who did not hesitate to directly blow the four magic weapons that took a lot of time and effort to refine.

In the Demon Continent, nothing outside of one's body can compare to one's own life. Therefore, in such a situation, it must be self-destructing magic weapons to gain a chance of survival.

The distance was so close, the power of the magic weapon's self-destruction could even hurt some dacheng stage demonized monsters on the demon continent, needless to say here.

Unprepared, Elder Bei was directly shocked by the spiritual power blown by the fragments of the two bracelets. She was about to adjust, but her face changed drastically and her body flashed. Immediately, she felt a pain in her shoulder, and a golden beam flew out from her shoulder. It was Shi Shanshan's flying sword that pierced directly from the back of the shoulder blade and came through to the front.

Shi Shanshan was simply unreasonable. Just as Elder Bei's hand was on her shoulder, when the pain was excruciating, fists formed by the two plain hands slammed into Elder Bei's rib from a strange angle.

Boom, the sound of two dull fists hitting the body rang out, and two thorn-like spiritual powers pierced into Elder Bei's body.

Pfft, a mouthful of blood spurted out of Elder Bei's mouth, her eyes looked at Shi Shanshan with an incredible look, but her body slowly fell down uncontrollably.

Shu, a circle of aura suddenly flashed around Elder Bei's body, Elder Min next to her had already sacrificed a shield-shaped magic weapon in time to protect Elder Bei.

This shield has only just appeared, and the golden light transformed by the flying sword immediately slashed on top of the shield. If it weren't for the timely appearance of the shield, Elder Bei would have been directly cut into two pieces.

When she missed a hit, Shi Shanshan immediately retreated, which had become an instinctive habit. At the same time, her flying sword attacked the vital point of Elder Min who was rushing up without thinking. Attacking the enemy will save you, it was also one of the ways to protect yourself.

After all, Elder Min Huafeng was already in the middle dacheng stage and will soon enter the late dacheng stage, so she often goes out to gain experience. Relying on the superb cultivation base and her life-source flying sword, she desperately resisted Shi Shanshan's omnipresent attack like a lunatic.

Even in the face of the elders of the dacheng stage, Shi Shanshan did not flinch, and in one-on-one situations, even always caused a series of accidents to the elder Min Huafeng. All kinds of unimaginable attack methods emerged one after another, and the fighting spirit was so strong that even Elder Min felt a lot of pressure.

The core elders of the Green Jade Immortal Island have been stunned. Who would have thought that a disciple who seemed to be only in the middle Yuanying stage, and who had just entered the middle Yuanying stage, would actually seriously injure a late Yuanying stage master, a peak Yuanying stage master, and even an early dacheng stage master and fight a middle dacheng stage elder to a tie.

The most shocking thing was that in the battle between this disciple and the middle dacheng elder, she actually took the initiative and suppressed Elder Min only with the power to resist.

Chapter 558.1: What Punishment

"Shanshan, Elder Min is not an enemy!" During Shi Shanshan's vigorous attack, Yang Chen's voice was very soft but very clear and inserted into the battlefield.

Shi Shanshan was just stimulated by her fighting instinct, and she didn't lose her mind completely. When she was one-on-one, she was less nervous. At this moment, with Yang Chen's voice, Shi Shanshan immediately sensed her situation, and hurriedly stepped back and stopped.

"Shanshan has attacked an elder, I ask the island master to punish me!" When she realized what had just happened, Shi Shanshan was in a hurry, and hurriedly bowed in the direction of the island master and pleaded guilty.

To be honest, from when Shi Shanshan started attacking to knocking down Li Zhiqi, Liu Zifang and Elder Bei, it was only a few short moments, and even the real fight was only a few breaths. It wasn't until she was finally stopped by Elder Min that the fight took a little longer.

This one-hit-kill technique was very much in line with the way everyone has experienced in the Demon Continent, where there was no room for mercy and retreat, every attack must be done with the utmost effort to kill the enemy. Unexpectedly, it was used against a person of the same sect, which directly caused such consequences.

"What punishment? You didn't have to compete with them?" Shi Shanshan's master Song Huan also broke out at this time. She has not spoken much for her disciples, because Shi Shanshan earned her own status in the Green Jade Immortal Island.

But this time, Shi Shanshan had been away for too long, and a group of people had forgotten the amazing talent of this outstanding female disciple back then, so they had to force her to do something to cause such consequences. Coupled with Liu Zifang's cynicism just now, it's no wonder Song Huan didn't break out.

But speaking of it, Shi Shanshan was indeed not in the wrong. From the very beginning, Shi Shanshan refused to accept the contest and even Yang Chen said that there were some drawbacks, lack of control, and being unable to stop. If Shi Shanshan was punished for this reason at this time, then the Green Jade Immortal Island would be a big shame in front of Yang Chen.

The Island master did not reply for a long time. In fact, it was not only the Island master, all the core elders of the Green Jade Immortal Island who were watching were all dumbfounded.

In the dacheng stage and Yuanying stage, the state of mind was so important that even if Mount Tai collapsed in front of them, they would remain unchanged, but what happened in front of them was beyond everyone's imagination, they couldn't help but be shocked.

Shi Shanshan was only a disciple in the middle Yuanying stage, and it seems that she has just entered the middle Yuanying stage, at most, she has just consolidated her cultivation base.

But it was such a disciple who, at an astonishing speed, within a few breaths, shattered nearly ten protective magic weapons that were made by the core elders of the Green Jade Immortal Island, and punched a disciple of the late Yuanying stage severely in a coma with one punch.

Next, in another attack, she cut the neck of a late Yuanying stage elder by more than half. If the two dacheng stage elders hadn't acted quickly, Liu Zifang would have been headed directly.

The most surprising thing was that Elder Bei Shuangyu, was also punched to the point of vomiting blood within a few breaths. If Elder Min Huafeng hadn't picked it up in time, there might have been more terrifying consequences.

Even in front of Elder Min in the middle dacheng stage, Shi Shanshan did not show any signs of timidity. The continuous attack did not fail at all, and even forced Elder Min to take the defensive. The series of violent attacks made even Elder Min feel the chill.

Taken all together, it turned out to be the means of a disciple in the middle Yuanying stage. It's ridiculous that a lot of elders from the Green Jade Immortal Island really thought that Shi Shanshan had failed in the experience.

The scene where Yang Chen's family said no in unison will now remind everyone, and almost all of them can't help blushing. These young people knew from the very beginning that this would be the result, otherwise, Yang Chen would not have let the Island Master send someone to pay attention before the contest started.

The group of people who had just ridiculed them were all frightened like quails. They didn't dare to say a word, not even a single sound. Can't they just drop their heads down to their chests and never have to lift them up, would they still have to face Shi Shanshan and Yang Chen's family?

The Island Master and the elders at the Dacheng stage were equally shocked. Even though they had seen it at first, Shi Shanshan's defense was an eye-opener, but they never thought that when Shi Shanshan started to attack, it would be so terrifying.

Shi Shanshan pleaded guilty at first, but the Island Master didn't even react at once, until Song Huan's loud voice reached everyone's ears, and then she reacted.

"Shanshan, you get up first!" Shi Shanshan still fell to the ground, and the Island Master stretched out her hands to help her, trying to make her voice seem calm. However, no matter how calm she was, there was still some trembling in her voice.

This is not fear, but trembling with excitement. Her own disciple, after arriving from the Demon Continent, has such an outstanding performance. Does that mean that, if possible, the disciples of the Green Jade Immortal Island will have one more excellent performance like this?

Shi Shanshan stood up according to her words, Song Huan had already come out and she took her beloved disciple back to the seat without saying a word.

Until Shi Shanshan returned to her original seat, there was still an uneasy look on Shi Shanshan's face. In Song Huan's eyes, she felt even more pity.

"Don't be afraid, you didn't do anything wrong in this matter. If you are wrong, it is also Elder Liu's fault, don't worry!" Song Huan comforted her apprentice rarely, but looked at the Island Master again, waiting for her to speak.

The Island Master could only smile bitterly in her heart, this situation was not easy to handle. In theory, Shi Shanshan was indeed in the right. She said from the beginning that they should not compete, and Yang Chen also said beforehand. Since the Green Jade Immortal Island still has to insist, then Shi Shanshan can't be blamed for her heavy hand.

However, Shi Shanshan directly injured two elders and a senior sister with these few strokes. It was really unreasonable for Shi Shanshan to use such a heavy hand when they were sparring with each other. If Shi Shanshan was not punished, how can she convince the public?

This doesn't count as taking care of Yang Chen's face. In front of the husband, she has to punish his wife, anyone else would be unhappy.

It's fine if it's an ordinary person. The question is, was Yang Chen an ordinary person? The only fifth-grade alchemist in the mortal world, and an important partner of the sect, the Green Jade Immortal Island could not ignore Yang Chen's thoughts no matter what.

"If I knew this earlier, why would I bother!" The Island Master smiled bitterly in her heart and sighed secretly.

Chapter 558.2

In the final analysis, everyone still didn't have enough confidence in Shi Shanshan and Yang Chen. It has been more than seventy years since Shi Shanshan disappeared, and some things in the sect have always changed. People who never appear will inevitably be marginalized.

Some people took the opportunity to make trouble, but the core elders were dissatisfied with Yang Chen, who forcibly took Shi Shanshan to gain experience, because they underestimated Shi Shanshan's experience, and they wanted to suppress her, which led to this embarrassment at the moment.

After such a short time, Elder Bei had already been healed, while Li Zhiqi was still in a coma. On the contrary, Liu Zifang remained awake all the time, and after being healed by the elder, her internal organs did not suffer any more damage.

At this moment, when Liu Zifang saw that her disciple was still in a coma and was seriously injured, she didn't know what the situation was, she felt a burst of anger in her heart.

"Second class disciples who have committed murder against people of the same sect should be handed over to the law enforcement hall to be severely punished!" Elder Liu had already forgotten that she had almost walked between life and death just now, regardless of the size of the wound on her chest, she stood up and shouted sharply.

Elder Liu's voice directly attracted everyone's attention to her.

The Island master was suffering from a headache, when Elder Liu shouted, she suddenly frowned. In the final analysis, the initiator was still Liu Zifang, Bei Shuangyu just mentioned that Shi Shanshan's cultivation is not as good as Li Zhiqi's, so Elder Liu jumped out and insisted on forcing Shi Shanshan to fight.

Shi Shanshan was only defensive and not attacking at the beginning, which clearly gave enough face to everyone at the Green Jade Immortal Island. At this point, everyone took a step back and pretended to be undefeated and ended peacefully. As a result, Liu Zifang and her friends had to stimulate Song Huan, she even pointed a finger at Yang Chen.

This is fine but the two master and apprentice went up together, saying something unpleasant, and going up is the thing that was killed by Shi Shanshan. This will even jump out, they really don't know how to live or die.

Before the Island Master raised her eyebrows, the Yang Chen family over there was no longer dependent, Shi Shanshan was fine. However, Yang Chen and the other three women glared at Liu Zifang in unison.

In Yang Chen's eyes, there was a hint of murderous intent, and he stared straight at Liu Zifang.

Liu Zifang just shouted, and suddenly felt a piercing cold. It was a feeling of fear that people radiated from the depths of their hearts, as if they had been stared at by the demons in the depths of hell, the fear that their life and death could not be controlled by themselves.

The dangerous feeling of life and death just now came back to Liu Zifang's mind again. At this time, Liu Zifang only remembered that they were going to kill her, it's just a trick. Having never wandered between life and death, it was impossible to understand the great terror between life and death.

Suddenly, Elder Liu broke out in a cold sweat. Her body also began to tremble involuntarily. At first she was just trembling, but soon, even her jaws could not be gritted, there was a gurgling sound.

Elder Liu's abnormality immediately alerted the core elders of the Green Jade Immortal Island. Only then did they remember that Shi Shanshan did not go to the training alone, but went with Yang Chen's family of four.

In addition to Shi Shanshan, there will be people who have experienced the same experience as Yang Chen and the three women. From the looks of it, Yang Chen's cultivation base was similar to Shi Shanshan. Except for Yang Chen, who was slightly lower, everyone else was in the middle Yuanying stage.

To be able to frighten Elder Liu into such a state with just their eyes, the elders of the Green Jade Immortal Island didn't realize that the young people on the opposite side were all silver-colored spearheads. It was absolutely impossible that only their own disciple was outstanding. Sun Qingxue and Gongsun Ling have always been talented disciples of their respective sects. They have also gone through the same situation on the demon continent. Even if there is a gap with Shi Shanshan, they believe the difference is limited.

"Shanshan's words come first, what's the guilt!" The Island Master made a decision with the fastest speed, with a wave of her jade hand, she announced the result loudly.

No matter from which point of view, there was no reason to punish Shi Shanshan's crimes. Not mentioning that she had already said something in advance, just that she only defended and did not attack for so long and she gave enough face, she could not be punished.

What's more, Shi Shanshan was originally a genius disciple of the sect, and the sect regarded her as a hope for the future. Why would they ruin their own hope for a mediocre elder and a relatively mediocre disciple?

Such an outstanding disciple, it is too late to love her, how can they destroy the Great Wall themselves? The Green Jade Immortal Island is not the kind of sect that makes one's disciples feel chills, and cannot do things that hurt relatives and enemies.

With the decision of the island master, the little pressure that everyone felt just now disappeared without a trace. Elder Liu finally took a breath, and his body stopped shaking. Only at this time did Elder Liu realize that she had been holding her breath for a while, not even daring to breathe.

The pressure will disappear. After letting out a long breath, Elder Liu felt that her legs were weak, and she fell down and sat down directly. Sweat soaked through her heavy clothes, and the back of her vest was cold. Several young juniors actually frightened her, a late Yuanying stage elder, into this state.

If that's the case, even without the need for others to do it, a few people can crush her just by releasing their aura. After thinking about this, Elder Liu's face turned pale, and she didn't dare to make a sound for a while.

At this moment, the Island Master and the core elders have already developed countless interests in the experience of the Demon Continent, it only takes seventy years. If you leave it on the road and go back and forth, it will take only fifty years to turn a Yuanying stage disciple into this. The mystery of this must be carefully understood.

But now was obviously not the best time, the Island Master can only announce the end of this gathering, and then, together with a few core elders, bring Yang Chen's family to the back to discuss in detail.

"This experience has such an impact, how is it possible to go back to being normal?" Elder Min Huafeng never expected Shi Shanshan to have such an achievement in the Demon Continent. What she wanted to know most now was how this kind of thing was possible to overcome.

"As long as you retreat for a long time and slowly get used to a normal life." Yang Chen didn't say much in front of the elders of the Green Jade Immortal Island, but used this statement to prevaricate "Actually, it is a long-term habit, Long enough to not be a problem."

Yang Chen's words reassured everyone for a while, as long as they could solve it. Even if it takes a little time, the effect is so outstanding, it was definitely worth it.

What everyone wants to know most now is whether this kind of experience was possible for a large-scale organization.

Chapter 559.1

"It's not necessary." Yang Chen's answer made all the senior officials of the Green Jade Immortal Island startled. Was it unnecessary, Then why did the Yang Chen family go by themselves then?

"It's very dangerous, and there is death at every corner!" Yang Chen continued "We have a top-level defensive magic weapon in our hands, as well as a very fast flying shuttle so we can escape if we can't fight, others may not have such conditions."

This was true, Yang Chen's flying shuttle was also famous among the cultivators, and everyone knows the risks of the demon continent, but at this time, they were blinded by Shi Shanshan's great success and they chose to forget it.

"What if we let an expert lead the team?" Elder Min asked with anticipation.

"If you go in a group, you will definitely be attacked by a group." Yang Chen shook his head directly "No one likes having a powerful organization in the Demon Continent."

"How about a few people?" Elder Min asked again, in fact, she already had the answer in her heart.

"It's not worth it, taking a few people and taking care of them from time to time will not achieve the original intention of the experience." Yang Chen still shook his head. "Besides, if there is no such relationship as mine, it is difficult to stay there."

Not all the words have been said, but everyone has already understood that in the demon continent, almost everyone has to be on guard. No wonder Shi Shanshan didn't forget to guard against the elders around when she was fighting, this was already a habit.

Even the intimacy of being surrounded by husband and wife is like this, not to mention other relationships? Who knows what will happen?

It's not that the Green Jade Immortal Island has not been to the Demon Continent to experience it, but the achievement was not as good as Shi Shanshan, at best, it has turned an unqualified disciple into an expert. But as one of the five major sects, was there a shortage of experts?

This issue is already over. After all, this kind of sect was not so convincing that this kind of sect let its disciples risk death. But voluntarily, why bother with the sect organization, just go if you want, no one will stop you.

Next, Yang Chen also indicated to the island master and other senior officials that his family would go into seclusion to solve the problem of their fighting habits, no one objected to this. Anyway, no matter what Shi Shanshan said, she was still a member of the sect. If they solved the problem, it was just to add a master to the sect.

After lingering in the Green Jade Immortal Island for some time, Shi Shanshan asked her master for something and gave advice to her apprentice before embarking on the journey with Yang Chen and the others again.

Although ordinary disciples do not know what happened, the higher-ups are aware of it. Shi Shanshan's status in the sect has skyrocketed, and wherever she goes, she would be respected. Countless disciples wanted to get a few words from Fairy Hanmei, and even the elders who had other thoughts in the past completely dispelled their previous thoughts.

Soon, Yang Chen's family left the Green Jade Immortal Island, and this time they went straight to the Blue Cloud Sect.

"Sister Shanshan, in the Blue Cloud Sect no one dares to treat me like that." Sun Qingxue began to tease Shi Shanshan after walking out of the Green Jade Immortal Island, showing her superiority.

"Why?" Shi Shanshan seemed more calm after going through the previous events. In a short period of time, she has seen a lot of things and has more things to consider.

"Because your master is not strong enough." Sun Qingxue said with a smile "And you won't be coquettish to please your master, You won't be coquettish to please your husband!"

That last sentence was a complete joke. However, the master mentioned above was not strong enough, it was the real essence. Shi Shanshan's master Song Huan, her cultivation base was not very high, and her status in the sect itself was not very high. For Shi Shanshan's guidance, to be honest, it was really not as important as Yang Chen's.

Because of this, it can be said that most of Shi Shanshan's status was obtained by her own efforts. When something happened, Song Huan's words were not enough.

But Sun Qingxue was different, her master was now a master of the Dacheng stage, Hua Wanting, and she was also a powerful master of the Dacheng stage who had fought with the blood demon vine for hundreds of years. She was one of the few powerful figures in the sect. If others want to move against Sun Qingxue, they must first consider Hua Wanting's reaction.

If Yang Chen's role was taken into account, no one would dare to give Sun Qingxue a hard. This was also Sun Qingxue's confidence. It was because of so much consideration that she dares to make fun of Shi Shanshan.

Of course, they have experienced life and death hardships themselves, and they have helped each other in the same boat.

"Knowing that you will please husband, be careful that I will let husband spank your ass." Gao Yue next to her laughed and scolded, and then turned to Shi Shanshan "Shanshan, don't worry about it."

Shi Shanshan also understood that this was because Sun Qingxue and the others were deliberately trying to relieve her because they were afraid that she would be unhappy because of the sect's affairs. She smiled and nodded, indicating that it was okay.

"With master's strength, how can one's strength be more convincing?" Yang Chen on the side handed Shi Shanshan a cup of hot tea brewed by himself, and said with a smile, "Little Xue, if your sister Shanshan is unhappy, I can only beat your ass in front of her to calm her down."

Sun Qingxue refused to obey at the moment, and said in a sullen voice that Yang Chen was biased, and the family began to laugh. There was a warm smile on Shi Shanshan's face, that little unpleasantness was long overdue.

However, the truth was as Sun Qingxue said. When they went to the Blue Cloud Sect, the Blue Cloud Sect attached great importance to them, they only carefully asked about Sun Qingxue's situation and discussed it with Yang Chen, but there was no sign of a glimpse of the situation in the Green Jade Immortal Island.

When Elder Hua waited for her disciple to return, she smiled when she was happy, and wished she could tie Sun Qingxue to her belt wherever she went, and never wanted to be separated for a moment. Others didn't say they want to test Sun Qingxue, even if they have a little doubt, they were directly pushed back by Elder Hua.

“The apprentice of this old lady, this old lady herself hasn’t said anything yet, where will it be your turn to point fingers!” As for the result of the experience, Elder Hua has no plans to share it with others. She just knows it herself, Sect Master Lu knows it, and others don’t need to pay attention.

Of course, Elder Hua also clearly understood the disadvantages of the killing syndrome from Yang Chen, which made her very worried. However, Yang Chen said that he had a solution, although Elder Hua was reluctant, she still let Sun Qingxue linger in the sect for more than a month, and then let Sun Qingxue leave with her husband again.

Before leaving, Elder Hua did not forget to threaten Yang Chen that he must be nice to her disciple, otherwise he would face trouble.

Chapter 559.2

After leaving the Blue Cloud Sect, Sun Qingxue’s proud smile was no less. The sect’s attitude towards her and the Green Jade Immortal Island attitude towards Shi Shanshan gave her such a proud sensation.

However, after seeing the treatment Yang Chen received after returning to the sect, even Sun Qingxue could only see admit it shyly, that her husband’s status was still high.

The master of the Pure Yang Palace, with a group of elders, waited in person outside the gate of the sect hall, it was like a hero welcoming with triumph. There were no doubts, not even a single question, just everyone talking happily about their return.

This was the Pure Yang Palace. Naturally, it was difficult for Shi Shanshan and Sun Qingxue to participate on some occasions. Yang Chen settled them in his small courtyard and let them rest first, and then he and the sect master and other core elders met again.

In the seventy years since he left, the sect has undergone great changes. If nothing else, the number of houses in Meiqing Mountain seems to be several times larger. From this point, he can see how the Pure Yang Palace is prospering.

The size of the disciples has almost increased by more than ten times, and these are only the newly promoted disciples, not counting the members of the monster race’s eccentric hall.

On the basis that Yang Chen had laid in the past, the masters of the Pure Yang Palace began to emerge slowly. In the past seventy years, Elder Gao Shilin also successfully survived the tribulation and was promoted to the Dacheng stage. On the other side of the banyan tree immortal cave, there was also a monster cultivator who broke through and entered the Dacheng stage.

The number of masters in the Dacheng stage increased by two, and the number of masters in the Yuanying stage increased by hundreds, including the human race and the monster race. They were all promoted over the years with the help of Yang Chen's medicinal pills.

The original elders have all improved their cultivation bases now. The law enforcement hall master Meng Xian and Elder Zheng have already reached the peak Yuanying stage, and they were only one step away from entering the Dacheng stage. Even the master of the palace has reached the late Yuanying stage, and it seems that he will soon be able to break through the bottleneck.

These elders in the previous life, all of them died in the Yuanying stage, but now there were signs of breakthroughs. Everything has been very different from his previous life.

Jiedan stage masters are almost like cutting leeks, emerging one after another. It was now approaching the scale of tens of thousands. Later, tens of thousands of highly qualified disciples were recruited, and as time passed, there would be more and more masters.

There were many experts, it also means that the strength of the sect was even higher. The surrounding small sects have basically been incorporated into the Pure Yang Palace. These are all those small sects who took the initiative to take effect, and the Pure Yang Palace does not have the slightest act of bullying.

Everyone knows that the Pure Yang Palace was not what it used to be, so there are many benefits to joining the Pure Yang Palace. Those small sects joined decisively without even thinking about it.

If nothing else, the revenue from the 100,000 mountains alone gives the Pure Yang Palace countless resources. This was not to mention the banyan tree immortal cave, which is also a land with endless resources. If the income of the ten thousand treasure building is counted, the Pure Yang Palace was now extremely rich.

The ten thousand treasure building was supported by Yang Chen, with the face staying pills, almost all the markets of the sects have a branch of the ten thousand treasure building. Even the south china sea rogue cultivators alliance, which is not even involved in the Greatest Heaven Sect, has a branch. The banyan tree immortal cave of the monster race was even more indispensable.

It was a specialty of the monster race and the South China Sea. It has already made Ten Thousand Treasure Building a lot of money, and the difference between the two sides made Shangguan Feng, who was in charge of management, happy every day.

Although the Wine Immortal House joined the sect in secret, it would not hide anything from Yang Chen. Now the Wine Immortal House has also recruited more people, and their scale was also getting bigger and bigger. Even in addition to Senior Jiu Xian, there was another Dacheng stage expert, who now firmly occupies the top spot in intelligence trading. If there was any trouble in the cultivation world, it will be placed on the desk of the core elders of the Pure Yang Palace as soon as possible.

The entire sect was showing an upward trend like a volcanic eruption. The former seniors and the current sect master and elders have said how many times they want to revitalize the sect. Now they finally see the process of revitalizing the sect.

Everything shows the unstoppable upward momentum of the Pure Yang Palace. Almost all of this originated from Yang Chen, so the current core elders were extremely satisfied with Yang Chen, the young palace master. As long as Yang Chen is alive, not to mention that he disappears with his wives for more than 70 years, and no matter how long it was, they will not have any opinion.

During the years of Yang Chen's training, nothing major has happened in the world of cultivation. The major sects were developing independently, trying to grab the monster race's territory and win over the monster race.

The most prosperous Ten-thousand Trees Forest of the monster race has long been occupied by the Pure Yang Palace, which was only discovered by the five major sects after they arrived at the Ten-thousand Trees Forest. Because of Yang Chen's relationship, they all acquiesced in the control of the Pure Yang Palace, and none of them started to snatch it.

Now, other sects have regarded the Pure Yang Palace as a first-class sect, not the quasi second-rate sect of previous years. With the current strength of the Pure Yang Palace, it was enough to become a first-class sect.

However, in order to become a super-first-class sect like the five major sects, the Pure Yang Palace still needs more background growth, which is not something that can be achieved with some masters in a short period of time. That would take thousands of years or more to accumulate.

Even so, the Pure Yang Palace has been full of surprises. From a quasi-second-class sect to a first-class sect, it only takes three hundred years. Such efficiency, even the Greatest Heaven Sect has not experienced it.

“What’s your plan next?” After introducing this to Yang Chen, the palace master and the others naturally asked such a question after learning about the experience of Yang Chen and others.

“The habit of killing will take some time to adjust, so this disciple intends to take them to find a place to retreat.” Yang Chen did not hide anything from the elders and revealed his plan “In addition, in the past few decades, this disciple has not had too much time for alchemy, so I plan to concentrate on refining for a while, just in retreat.”

Yang Chen had promised to take some outside entrustments every once in a while. He hadn’t made alchemy in these years, so he just used the time to make a batch. At the same time, the sect’s questioning inner heart pills and inner sensing pills etc, have been consumed almost completely, and they also need to be replenished.

“You can arrange everything yourself.” The palace master has no plans to arrange for Yang Chen at all, but fully supports Yang Chen’s decision “The sect has obtained a lot of precious materials over the years. If you need it, you can find Elder Zheng who can bring everything to you.”

This decision, the elders have no objection at all, and all agreed.

Chapter 560.1

Of course Yang Chen couldn’t leave right away. Many people in the Pure Yang Palace needed him to stay and deal with many things.

If nothing else, the Ten Thousand Treasure Building was strictly Yang Chen’s private property. No matter which aspect, Yang Chen needs to take care of it.

Shangguan Feng has already entered the Jiedan stage. It must be said that this was a miracle, and it is also the most suitable example of finding the direction of his own cultivation.

At the beginning, Shangguan Peak didn't even have the confidence to reach the foundation stage, and had to manage Yixiu Villa as a last resort. It was not until Yang Chen appeared and gave some pointers that he entered the foundation-building stage.

But Shangguan Feng's fun was in management. Later, the Ten Thousand Treasure Building provided by Yang Chen also allowed Shangguan Feng to find a suitable way of cultivation. In the process of expanding the business, Shangguan Feng's state of mind and cultivation have also risen steadily, from the foundation-building stage to the current late Jiedan stage.

Speaking of which, Shangguan Feng's qualifications were very poor, otherwise he would not be able to build his foundation for decades. Until now, even if he has found a suitable cultivation path for himself, three hundred years have only allowed him to cultivate to the late Jiedan stage, which was still a long way from the Yuanying stage.

However, for Shangguan Feng with ordinary qualifications, this was already a great miracle. He has even seen the hope of reaching the Yuanying Stage. You must know that Shangguan Feng in his previous life had exhausted his lifespan before the Jiedan stage and was still in the Foundation Establishment Stage, this life was already a world of difference.

When Yang Chen saw Senior Brother Shangguan, he gave him some solid guidance. The current Yang Chen, not to mention cultivation, just because of his identity, he can completely instruct Shangguan Feng without any awkwardness.

Over the years, the face staying pills that Yang Chen left to Shangguan Feng has been exhausted. Fortunately, Yang Chen has returned in time, and will soon provide him with another batch for him to have a good relationship with the major sects.

Don't underestimate the fact that the face staying pills was stationed in this district, most of the female cultivators of the sect are rushing to it. Now they don't dare to say anything else, but whoever dares to do anything to the Ten thousand treasure building will definitely be destroyed from head to toe by these crazy female cultivators. Whoever dares to destroy their hope of staying in beauty, they dare to destroy the possibility of these guys to survive.

Some precious materials were directly taken away by Yang Chen. Yang Chen still hasn't taken anything from the sect's warehouse for the time being. Anyway, the ten thousand treasure building has been able to meet Yang Chen's needs, there is no need to take advantage of the sect at this time, although no one in the Pure Yang Palace has ever felt that Yang Chen is taking advantage of the sect by taking things from the sect.

The master and the elders visited him individually, and the old tree monster, She Kui and Xie Sha and others were no exception. Even Du Qian, who was a good friend from the past, did drop by. Almost everyone who had a good relationship with Yang Chen arranged a separate meeting.

The elders, Yang Chen, are not good at giving direct guidance, but only put forward some suggestions on their own cultivation by using suggested methods. These suggestions were adopted by the elders without exception. For things that make sense, no one will think that their cultivation is high.

Friends of the same generation, Yang Chen did not think so much, and told them something directly. She Kui Xiesha was used to being instructed by Yang Chen, and the old tree demon benefited a lot.

Du Qian was now at the peak Jiedan stage, and will soon enter the Yuanying stage. After Yang Chen gave some pointers, he let him get an inner sensing pill from the sect himself, and if necessary, take a questioning inner heart pill, so there would be absolutely no problem in being promoted to the Yuanying stage.

After taking care of his close elders and friends one by one, Yang Chen turned to his disciples.

Mu Bai had a strong cultivation base from the beginning, and he had a solid foundation at the Jiedan stage. With the help of his junior sister Hua Mengyou, the hidden dangers that he had fallen while cultivating in the bitter cold place have been cleaned up. As long as he cultivates step by step, it will not be a problem until he reaches the Great Lou Golden Immortal stage.

On Mu Bai, Yang Chen's instructions were also quite satisfactory. It didn't give him any shortcuts. At any time, shortcuts are good, but there are always hidden dangers of one kind or another. If you want to go further, you must be down-to-earth.

To inspire Mu Bai, Yang Chen even gave Mu Bai a promise, as long as he could cultivate step by step until the Yuanying stage. Yang Chen would teach him the first wood true secret art. Before that, Yang Chen gave Mu Bai some of the purified mysterious fibers from the demonized demon vine, and let him try to see if he could use it.

From this time, Yang Chen instructed Mu Bai to start tempering his life source flying sword. He believes that when it succeeds, its power will become stronger and stronger.

Speaking of Hua Mengyou, this disciple surprised Yang Chen. You must know that Hua Mengyou's aptitude was only comparable to that of Yang Chen's previous life, but now she was at the peak foundation building stage, and her cultivation speed was almost the same as that of Yang Chen back then.

He can't help but say that, just like Shangguan Feng, Hua Mengyou, who had found the right direction of her cultivation, burst out with a cultivation speed that surprised Yang Chen even more than in her previous life. Yang Chen was amazed by her achievements.

In her previous life, it was hundreds of years later that Hua Mengyou realized that planting elixir and various plants would trigger her own self-cultivation and improve her mood. In this life, Yang Chen had made her do this from the very beginning. After taking hundreds of years of detours, Hua Mengyou's achievements have been secretly admired by many people.

Not only Mu Bai, but even Mu Bai's clansmen, the old patriarch, and even the old tree demon, almost all have nothing to do and take turns stationing in Hua Mengyou's range of activities, allowing her to nurture them intentionally or unintentionally, and solve their growth process and some hidden dangers that are inevitably left behind.

After Hua Mengyou's recuperation, the cultivation of these wood-type monsters became smoother. Now Hua Mengyou doesn't have to rely on Yang Chen's apprenticeship in the Pure Yang Palace. Just these Mu Bai people and the support of the old tree demon are enough to make Hua Mengyou walk sideways in the Pure Yang Palace.

Yang Chen was equally satisfied with Hua Mengyou. He deliberately gave Hua Mengyou another space for her medicine garden, and handed over some spring water to her, and even moved a lot of the thousand-year-old spirit medicines in the first layer of his Medicine Garden, so that she could take care of it.

In order to give Hua Mengyou more insight, Yang Chen even threw Hua Mengyou into his own medicine garden. The thousand-year-old elixir planted in pieces, countless ten-thousand-year elixir, and even those cherished elixir of more than 100,000 years, opened Hua Mengyou's horizons.

Just this trip to the medicine garden allowed Hua Mengyou to gain countless benefits. The nourishment of countless elixirs has directly raised Hua Mengyou's cultivation to the peak Foundation Establishment stage. Only one step away, she will be able to achieve the Jiedan stage.

What surprised Yang Chen was that the quality of the various elixirs in his medicine garden had also improved due to the appearance of Hua Mengyou.

Chapter 560.2

For all the elixirs in the medicine garden, Yang Chen asked Hua Mengyou to take the seeds, and these seeds will be planted in the medicine garden that Yang Chen gave to Hua Mengyou.

Of course, Yang Chen didn't forget to instruct her. When cultivating, don't focus on fast speed, and try to cultivate as pure as possible.

By the time he had finished helping out everyone, Yang Chen had spent another half a year from Green Jade Immortal Island to Blue Cloud Sect and then to the Pure Yang Palace, and it was time to leave.

It's not that he doesn't want to stay in the Pure Yang Palace, Yang Chen himself is fine, but the four women have become more and more unable to adapt to the normal cultivation life, just in case, Yang Chen can only take them away.

"Where are we going? What method are we going to use?" Sun Qingxue must have acted as the vanguard of questions. Yang Chen and the other three girls doted on her very much, and she was the youngest, so she naturally took advantage.

Killing syndrome is the biggest trouble for the four girls now, and they will kill at every turn, which is not a good phenomenon. If this trouble is not solved, the four girls will not even be able to integrate into their sect.

On the contrary, Yang Chen himself, for the time being, does not have such a problem. Once he was in the Demon Continent, he didn't have a lot of killing experience, mainly fighting against demonic qi. Second, Yang Chen has the state of mind of a Great Luo Golden Immortal, so it was not too difficult to deal with such troubles.

"This world is so big, you haven't taken a good look at it, have you?" Yang Chen had already had a case, and replied with a smile "Husband will accompany you to take a good look at the wonderful rivers and mountains."

"Is there anything I haven't seen? When I traveled before, I saw a lot." Sun Qingxue did not expect it to be so relaxed and couldn't believe it.

"You used to watch it on your flying sword. Have you ever seen it while walking on your own feet?" Yang Chen asked rhetorically. As if afraid that everyone would not be surprised enough, he added

"Like an ordinary person, have you tried it?"

This is a never-before-seen experience, and the four girls seem to be a little moved. It sounds like a good idea for their husband to take them on a tour of the mountains and rivers.

"In order to avoid trouble, for the time being, your cultivation can only be sealed first." Yang Chen explained to the four women "Just like a real ordinary person."

"Why is this required?" Gao Yue asked in a deep voice, a little puzzled. The other three women also stared at Yang Chen, waiting for him to explain.

"Sometimes, you habitually kill because you have the power to kill. If you seal this power, your body will not be able to respond accordingly, and you will slowly restrain yourself a lot." Yang Chen explained "Wait for you to slowly adjust when you can restrain yourself. Even if you have completed the initial conditioning."

"Wouldn't it mean that sealing cultivation will delay our cultivation?" Shi Shanshan was most concerned about cultivation, and immediately asked.

“No, after sealing the cultivation base, all the spiritual power will be used to temper the life source magic weapon, and the tempering effect will be even better than that of normal cultivation.” Yang Chen replied.

“Then we will become weak women with no strength to hold a chicken?” Gongsun Ling asked closely, for a Yuanying stage master to suddenly become an ordinary person, there will definitely be a lot of discomfort, and the four women were more embarrassed.

“To be exact, it’s not like this.” Yang Chen said this, and the eyes of the girls immediately lit up.

“After all, you are all masters of the Yuanying Stage who have experienced the thunder tribulation. Even if your cultivation base is sealed, you are still much stronger than ordinary people.” Yang Chen explained with a smile.

The four girls were stunned for a while, and in the end, they still wanted to become ordinary people. Although there are many reluctances in their hearts, it seems that this is the arrangement of their husband, and it can help them solve their troubles, so it seems that they have to do it.

“Of course, after you seal your cultivation, it doesn’t mean you can’t continue your cultivation.” Yang Chen’s words made the four girls puzzled again, they all stared at him, waiting to explain.

“During this period of time, you will cultivate a kind of body refining technique, which will only benefit you and will not hurt you.” Yang Chen said directly without giving up.

“No!” As soon as they heard it was a body refining technique, the girls’ minds flashed the sturdy figure of Yang Chen when he cultivated the Yellow Turban Warrior’s body refining technique. All of a sudden, they were shaking their heads one by one like a rattle. If the body refining techniques were all that effective, the girls would rather not cultivate it.

Even Shi Shanshan, who pays the most attention to cultivation. There is no accommodation at all on this issue, she was determined not to cultivate it.

“Are you sure?” Yang Chen seemed to have anticipated the thoughts of the girls, and asked with a smile, “Don’t you want to cultivate any kind of body refining?”

“Anyway, we will never cultivate the kind you cultivate.” Sun Qingxue pouted and refused on behalf of everyone.

“Even if you are willing, I won’t let you cultivate it.” Yang Chen laughed directly, “I don’t want to see my four beautiful wives become like that.”

“What kind of body refining technique is that?” Gongsun Ling asked curiously.

“It was left by a certain female cultivator.” Yang Chen replied “The main function of the body refinement technique is to make oneself more beautiful.”

What Yang Chen mentioned was actually the Countenance Halting Heart Method left by Fairy Chang’e. This kind of cultivation method does not have any benefits for the cultivators strength, the only benefit is that it has the skills to protect beauty. Maybe it means nothing to others, but to the ladies, it was more important than anything else.

“Isn’t there your face staying pill? What’s the point of cultivating this?” Although she was already a little tempted in her heart, Gongsun Ling still asked inexplicably.

“This body refining technique is a little better than the face staying pill.” Yang Chen touched his nose and replied indifferently.

“What do you mean by being better?” The four girls almost listened with their ears perked up when it came to beauty, and even Gao Yue asked immediately.

“The better meaning is that as long as you cultivate one stick of incense every day, you can basically achieve eternal youth without taking the face-staying pills.” Yang Chen replied seriously “Of course, if you don’t want to cultivate it, I won’t force it.”

“We want to cultivate it!” The four women responded almost in unison, and at the same time, they did not forget to reach out and twist Yang Chen in unison.

After the Yang Chen family left the Pure Yang Palace, the cultivators never saw the Yang Chen family again. However, there suddenly appeared a young rich man in the mortal world. He hired a few big cars, pulled his four beautiful wives, and brought dozens of guards and servants to travel around the world slowly every day.

Every time the team went to a beautiful place, they would stop and take a careful tour. Not only that, but they also often enter the mortal city, taste the food, drink the wine, and watch the mortal world's beautiful scenery.
