Chapter 566.1: Awakening In The Grave

The four girls didn't think at first that Yang Chen would let them really be buried in the grave. However, under the circumstance that their cultivation base was sealed, they were unable to resist at all, and was easily sealed by Yang Chen into a strange state of suspended animation, and then they were buried in a glorious way.

As for what Yang Chen's intentions were, he didn't say it clearly. The four girls only knew one thing, that Yang Chen would never harm them. With this foundation and premise, the four girls silently accepted Yang Chen's arrangement, sealed them one by one, and buried them.

First was Gao Yue, then Gongsun Ling, then Shi Shanshan, and finally Sun Qingxue. After the four girls, it was Yang Chen himself.

Of course, Yang Chen was sent to the tomb in an awake state, and after setting up a vigilance formation in the tomb that could wake him up at any time, Yang Chen also began to practice a kind of suspended animation, and entered the tomb in a state of suspended animation.

No one would think there was anything strange here. The cemetery was prepared by Yang Chen a long time ago, and the construction started more than ten years in advance. Some feng shui masters have also seen it, and it happens to be where the Jade Belt Cave in Qixia Town was originally located, it was not a strange place.

The inside of the cemetery was even more rudimentary. There was neither the grandeur of a rich family, nor anything to accompany the burial. If you have to say that something is valuable, it means that a few coffins are made of good old nanum wood, nothing else.

The only thing that is a bit special is that the cemetery is deep enough, with a depth of several dozen feet. If Yang Chen hadn't already arranged it properly, it would be a hassle to dig up the cemetery every time and send in a new coffin for burial.

Fortunately, the trouble was only a few times. After Yang Chen was also buried in the ground, no one will move the cemetery again. First, there was nothing of value, and second, it was too deep, and it takes effort to dig.

No matter how brilliant he was during his lifetime, he is nothing but a handful of ashes after death. Soon, the people of Qixia County slowly forgot about the Yang Chen family. Twenty years later, except for the skills that Yang Chen and the others handed down, there was no memory of Yang Chen's family.

In Qixia County, only people over forty years old would occasionally think of Mr. Yang and his four wives, and would tell their stories in front of their children and grandchildren. But the story was soon slowly forgotten, the changes in the mortal world happened too fast.

The humble cemetery will naturally not attract the patronage of tomb robbers, and the deep burial of dozens of feet underground was beyond the thoughts of all tomb robbers. The years of Yang Chen's family in the cemetery were unusually quiet.

A full twenty years later, the five coffins were neatly placed in the tomb and motionless. Yang Chen's was at the very center, and the four girls are in the four directions surrounding Yang Chen. Until a certain time had passed, the coffin on which Yang Chen was lying at the very center finally made some movement.

The long nails that nailed the lid of the coffin flew up one by one, as if an invisible hand was pulling out all the nails one by one. After all the spikes were up, the coffin lid was gently lifted, fiddled from the inside to the side, and then Yang Chen sat up from the coffin.

With a raised hand, several night pearls appeared at the top of the tomb, the whole tomb was illuminated brightly. Yang Chen waved his hand and swept away all the dust around him. Only then did the coffins of the four women begin to be opened one by one.

After lying down for twenty years, the body of the four girls has not changed in any way.

Yang Chen easily put away the seals, and let the four women wake up one by one from the sealed state of suspended animation, and helped them sit up.

Twenty years without moving, even the masters of the Yuanying stage would be a little uncomfortable, not to mention their cultivation base has long been sealed. After half an hour of getting used to it, the four girls woke up from that ignorant state, and only then did they understand where they were.

“Ah!” Although she was the last one of the four girls to be buried, Sun Qingxue still screamed when she saw that the place where she was lying turned out to be a coffin, and threw herself into Yang Chen’s arms regardless of whether Yang Chen was massaging Gao Yue to activate blood.

“What are you afraid of? You’ve already died once, and you’re still afraid of the coffin?” Yang Chen gently touched Sun Qingxue’s little head, then laughed and teased “This is not how Fairy Xuewu, a master of the Yuanying stage should react!”

“Isn’t everyone’s cultivation base sealed, they will naturally be afraid!” Sun Qingxue retorted with a pouted mouth. But she soon discovered that she couldn’t find an ally, the other three girls were all in their own activities, and then looked at her with a smile.

“Husband, why do you have to let us be buried?” Sun Qingxue immediately asked something she couldn’t understand, without being polite.

“If you haven’t died once, how can it be considered a mortal world experience?” Yang Chen replied with a smile “You didn’t realize it, is this also an experience and a realization?”

In fact, since Yang Chen woke up the girls, the four girls started to think about it. They are all characters with excellent understanding, and it was easy to think of Yang Chen’s intentions.

To be honest, such a “death” was indeed an indescribable feeling. Especially when they were placed in a coffin and buried in this tomb, that feeling was really difficult to express in words.

“Is this what it feels like to die?” After Shi Shanshan was active for a while, she sat on the lid of her own coffin without shyness, and said, “After a mortal dies, it’s really troublesome.”

These words came out of Shi Shanshan’s mouth, and it didn’t seem strange at all. At least in Shi Shanshan’s eyes, those outsiders’ sadness and pain, even secretly laughing and secretly happy, etc., and so on, but no matter what they think in their hearts, they always have a look of sadness on the surface.

In particular, some former business competitors and some guys who held grudges with them even sent people to come to express their condolences. Some people were really sad, so much so that they actually kneel and pay homage in front of their burial.

When a person dies, the lights go out, and once a hundred are gone, even the karma can be written off. This death really gives people a lot of insights. They saw other people die before, and they had an idea in their hearts. This was completely different from the thoughts of others after their death, and it was a very mysterious situation.

“Okay, untie your seal!” Yang Chen saw that everyone had recovered, and seemed to have thought of something, so he reminded the four women again “There is no point in sealing it again, untie the seal and take a look!”

Chapter 566.2

*Awakening In The Grave

The seal of the four girls can be released by oneself at any time in times of crisis. At this time, Yang Chen asked them to release themselves.

As soon as the seal was lifted, the surging spiritual power and surging spiritual awareness returned to the four girls again. After traveling for 20 years, living in Qixia Town for 50 years, and then lying in the cemetery for 20 years, adding up to nearly 100 years, the cultivation base has been sealed. As soon as it was opened, the four girls began to cultivate skillfully.

They hadn't used their spiritual power for nearly a hundred years, and they hadn't used their spiritual awareness, but it didn't seem to cause any consequence of the decline in their cultivation base. As soon as the girls cultivated, they immediately discovered that their spiritual power was much purer than before the seal, and their spiritual awareness had also grown considerably.

Although it has not yet reached the point of directly raising a small grade, the growth of cultivation base and spiritual awareness was really not discounted by half.

This point, Yang Chen mentioned before the seal. Because the spiritual power of the seal will be concentrated on refining the magic weapon, it will be refined by this spontaneous refining process. In the same way, the spiritual awareness will also be slightly improved due to the long-term unutilized cultivation.

It was said beforehand, so the four girls didn't find it strange at all. What they care about was how well their life source magic weapon has been tempered.

Soon, the four women exclaimed in unison, even Shi Shanshan, who was usually the quietest and coldest-faced. The tempering result of the life source magic weapon made the four girls indescribably happy and surprised.

Long before they went to the Demon Continent to cultivate, the four women had already completed their life source magic weapons. It started to be tempered in the sea of consciousness, and Gongsun Ling knew even when the tempering was completed.

After more than 70 years in the Demon Continent, and in the early mortal world experience, Gao Yue, Shi Shanshan and Sun Qingxue's life source flying swords have been tempered and ready to use. As for Gongsun Ling, the tempering method that Li Cheng taught her has also been tempered more than half, and it seems that it will take several decades for it to be initially completed.

On average, the tempering of the four women's life source magic weapons has shortened the time by at least fifty years. According to the original plan, it will take at least 50 years to achieve the current effect.

They can't help but say that Yang Chen's sealing technique was too miraculous, and the immortal world's technique was simply unprofitable when used in the human world.

The four girls impatiently summoned their own life source magic weapon. Slowly rubbing and appreciating it, they felt the wonder of it being one with their own mind.

Shi Shanshan's Scarlet Snow Spirit Crystal Flying Sword, Sun Qingxue's Dry Sky Thunderwood Flying Sword. Each one was meticulously crafted, Yang Chen made it by himself. Compared with the flying swords of their previous lives, they don't know how much better they were. The combat effectiveness of this flying sword was more than double that of their previous life, and this was not even counting the first hundreds of years of refining time saved by refining it in advance.

Gao Yue's water and fire dragon horn flying sword was refined by herself, but during the refining process, Yang Chen also participated in the design and helped throughout the process. The dragon horn itself was the best material in this mortal world, and it is a fit that was refined by hand. Gao Yue's flying sword was even stronger than that of Shi Shanshan and Sun Qingxue.

Gongsun Ling's mountain river geographical map goes without saying. After adding hundreds of Dacheng stage masters, even if Gongsun Ling stayed where she was and never cultivated, her spiritual power would automatically improve. For the same reason, when it comes to the longevity of spiritual power, if you don't count the help of the source spirit crystal stones, even Yang Chen, a fellow cultivator of ten kinds of spiritual power, has to bow down in front of Gongsun Ling.

As long as the way to purify spiritual power was solved, Gongsun Ling was simply the fastest monster in Yang Chen's family. In this respect, Shi Shanshan and Gao Yue, who had cultivated hundreds of years earlier than Gongsun Ling, were no match for her.

"Don't try your life source magic weapons here." Yang Chen saw that the four girls were all in an unbearable posture, and hurriedly blocked them "There is Qixia Town above your head, and you don't want the town you built yourself to be destroyed by you, right?"

Yang Chen said that it was a bit exaggerated to say that everyone built it by themselves, but Qixia Town was really built from scratch day by day under the eyes of the girls. Every day the town changes, it falls in the eyes of the four girls.

Especially when all the changes in Qixia Town were related to the four girls, this feeling was very different from watching the changes in the sect after cultivating in the sect for decades.

Under this kind of thinking, Yang Chen said that they should not easily test the life source magic weapons. Although the four girls were already curious, they all stopped.

"Don't worry, after you leave, there will be a chance to give your flying swords an edge!" Yang Chen smiled and gave the four girls a guarantee, and then reminded "Apart from the life source magic weapon, what else has changed?"

"Spiritual power is more pure." Gao Yue replied quickly.

“Cultivation has also improved.” Gongsun Ling followed Gao Yue and said quickly.

“The spiritual awareness has improved.” Shi Shanshan was not left behind.

“The sea of consciousness has also been condensed.” Sun Qingxue was the last one.

The four women’s answers made Yang Chen nod frequently. After they had all finished speaking, he asked again, “Is there any change in your body?”

“The younger sisters, the more beautiful they look.” Sun Qingxue answered happily after grabbing the first one this time.

“This is the credit of the body refining technique.” Yang Chen replied with a smile “As long as you keep practicing, you will maintain this state in the future. Even if you feel that something is not perfect, you can focus on that part when practicing, gradually change according to your ideas.”

“Really?” Not only Sun Qingxue, but also Shi Shanshan asked happily.

No woman will feel that she is perfect, there will always be dissatisfaction. The beauty of the mind is so powerful that the four girls couldn’t be ecstatic.

“Really, but the process of change is a bit slow, and it may take hundreds of years.” Yang Chen smiled and gave a positive answer.

In Yang Chen’s eyes, the four girls were already perfect, and there was no need for any further changes, as long as they maintain their appearance. But it was undeniable that men and women are very different, and this awareness was one of them.

“This technique can’t be spread out. The stuff at the bottom of the box can be sold at a high price in the future.” After Yang Chen finished speaking, he warned the four girls again.

Of course the four girls knew that it was precious, and they all agreed. Such a powerful body refining technique, so that they will not be rumored to the outside world.

“It seems that the body is stronger.” After the ecstasy lasted for a while, it slowly calmed down, and the four women probed their bodies again, then Gao Yue said with some uncertainty.

Chapter 567.1

*Husband, You Are Partial

In the state of the seal, the girls were not sure yet, but now that the seal was released, the girls could easily understand their physical condition.

The improvement of physical fitness was not too big or too obvious for those benefits just now. Especially for those of them who have already experienced the thunder tribulation, this improvement in physical fitness was really insignificant.

It's no wonder that the girls didn't discover it at first, but regarded it as another benefit under the seal of spiritual power. Even the spiritual power cultivation base could be improved, not to mention the improvement of natural physical fitness.

Now that Gao Yue said this, the girls naturally checked, and then they all confirmed the situation. Could it be the credit of that body refining technique? All the girls were very suspicious.

“It has nothing to do with the body refining technique, and it has nothing to do with the seal of spiritual power.” Yang Chen smiled and shook his head, denying everyone's speculation, and then asked “Don't you realize that people living in Qixia Town are in good health?”

“Isn't it because you secretly set up a spirit gathering array?” Gao Yue asked curiously. Before, the four girls always thought that the physical changes of those people in Qixia Town were all because of Yang Chen. Now that Yang Chen said that, it obviously had nothing to do with him.

“Since it's a mortal experience, naturally I won't do that kind of thing.” Yang Chen smiled and shook his head “And it's easy to attract other cultivators by setting up the spirit gathering array. I don't have that kind of spare time.”

“What’s the reason, you’d better say it.” Gongsun Ling was also a little anxious when she saw Yang Chen holding out and urged directly.

“Okay!” Yang Chen stopped talking to everyone, and asked directly “Don’t you realize that now everyone has such a trace of the human emperor’s aura?”

“The aura of a human emperor?” All the women were startled, and then immediately began to investigate. After everyone checked their bodies, they raised their heads and looked at each other and couldn’t say a word again.

The aura of a human emperor was a kind of emperor’s aura unique to the mortal world, it was almost impossible for cultivators to have it. Unless you are the lord of a country, you will have such an aura, and it was impossible for other people to have it.

However, occasionally a few cultivators whose blessings are deep will use some things used by the emperor, such as the jade seal of the country, to be able to use some human emperor’s aura.

Although it was only the monarchy of the mortal world, but once stained with the word emperor will have incredible power. Compared with those magic weapons that destroy the sky and destroy the earth, the effect of the human sovereign’s aura was not very powerful, but with the human sovereign’s aura, they will be able to suppress their opponent by a small realm.

It seems simple to say, but in the eyes of the cultivators, knocking down a small realm was simply abolishing at least 50% of their cultivation. The higher the cultivation base, the more difficult it will be to improve a small realm. When it comes to the Dacheng stage, the gap of a small realm was even comparable to the combat power of a peak Yuanying stage master.

This was not to mention, the aura of the human emperor was useful in the spiritual world and the immortal world. Whether it was a master in the spiritual world or a master in the immortal world, when encountering the aura of a human emperor, regardless of cause and effect, they will all be knocked down to a small realm, this was the scary thing.

How many cultivators exhausted their minds and tried their best to get a touch of the human emperor’s aura. The aura of a human emperor was not something that anyone can easily contaminate. Those

experts with a good fortune that defies the heavens, just took the jade seal that has been passed down for hundreds of generations as his own, and the others are similar.

Although they have it, they dare not use it casually. It will only be used at the juncture of life and death, but it will also cost a lot of resources. This kind of human emperor's aura acquired through foreign objects, even the master's realm will be knocked down at the same time.

Because the aura of a human emperor was rare, when Yang Chen said that they possessed a trace of human emperor aura, the four girls would find it so incredible, how can that be?

However, when they probed their body, they found that there was indeed a trace of a majestic and infinite aura in their body's sea of consciousness. They didn't investigate it very carefully before, but now they found it with Yang Chen's reminder.

"Is this the aura of a human emperor?" Sun Qingxue's sea of consciousness aroused, and that aura was also aroused. Suddenly, everyone felt a kind of silent majesty, as if there was an emperor silently suppressing them, making them very uncomfortable.

"This is the aura of the emperor." Yang Chen smiled and nodded "However, because of everyone's different circumstances, the absorption of the aura of the emperor is not the same, so the results are slightly different."

The aura of a human emperor was something that was out of reach. Everyone's blessings are different, and it was very natural to get different amounts. As a cultivator, this kind of thing was of course open to everyone. Everyone was surprised how Yang Chen made everyone have the aura of a human emperor.

"Could it be because of the 20 years of being buried in this tomb?" Shi Shanshan knew it at one point, and immediately guessed the reason.

Just feign death and lie in one place for 20 years to have the aura of a human emperor? If other cultivators heard this news, they would definitely despise it beyond measure. If it was really so easy, how can it make the countless ancestors who are looking for the aura of a human emperor suffer disappointment?

This time, Yang Chen didn't say anything to answer, just nodded. This time, the four girls couldn't figure it out. This is too incredible, right? This shock even surpassed the surprise that they possessed the aura of a human emperor.

"Actually, everything is calculated first." Yang Chen knew that if the four girls didn't understand this issue, they would definitely not give up, and began to explain.

Qixia Town was the place that Yang Chen had arranged early in the past. The four girls didn't think about any other place. They just thought it looked good and ordinary, so they just stayed there. It never occurred to them that this place was actually a land with dragon veins.

In the decades of living here, in fact, they were always adapting to a faint trace of the human emperor's aura escaping from the dragon veins. Over the past few decades, their bodies have naturally improved their physical quality without cultivation, and it was for this reason.

Years of adaptation, in the end, were just preparations for the last two decades. This ordinary tomb chosen by Yang Chen, in the eyes of ordinary Feng Shui, was just an ordinary jade belt cave, but in fact it was where the dragon head was located.

Twenty years of suspended animation was to continuously absorb the pure human emperor's aura in the dragon veins. Before they knew it, the girls had the aura of a human emperor that drove countless cultivators crazy.

Chapter 567.2

*Husband, You Are Partial

"You mean, this is where the dragon head is located?" After listening to Yang Chen's simple description, all the girls were dumbfounded. It was Sun Qingxue who asked incredulously.

"Before yesterday, yes." Yang Chen nodded without hesitation, but added an attribute, limited to before yesterday.

The dragon vein was where the qi of the emperor of the world gathered in great success, and it has always been wandering. Under normal circumstances, it was common sense not to stay in one place for more than 20 years.

And the four girls obviously know this common sense. Combined with their own family lying here for 20 years and being nourished by the dragon veins, if they can't figure out what happened, they will not be living up to their genius name.

However, because the dragon veins are the sum of the aura of the emperor, even the cultivators, even if they reach the peak Dacheng stage, cannot see where the dragon veins are, let alone find the dragon veins accurately and make full use of them for 20 years, this was simply impossible.

However, the changes in their bodies made the four girls have to believe that the impossible had happened to them. The only explanation was that Yang Chen did know where to get the exact location of the dragon veins.

When the four women looked at their husbands again, their eyes seemed to be looking at some evildoer. The location of the dragon veins, which countless cultivators couldn't even study through the exhausting scriptures, Yang Chen easily included in his plan. What kind of madness would it be to let those people know?

However, the unbelievable ability displayed by this husband of their own family does not seem to be once or twice. To be crazy, those people should have been crazy again and again, the whole world has become a lunatic.

Yang Chen also laughed secretly in his heart. Others don't know where the dragon veins in the mortal world are, but there are detailed records in the heavenly court. In his previous life, when Yang Chen had nothing to do, he often flipped through such boring things. It was not surprising that he just added such a link to his plan.

"How do we use the human emperor's aura in us?" Shi Shanshan quickly calmed down and asked quickly.

“For the time being, Shanshan, you and Qingxue’s Human Sovereign aura can only protect your body.” Yang Chen shook his head regretfully “If others use the Human Sovereign aura against you, you will not be affected in any way.”

“Why?” Sun Qingxue felt a little unbalanced when she heard it. Everyone has also been lying in the grave for twenty years. Why are Gao Yue and Gongsun Ling different from them?

“Because you don’t have the magic weapon of the dragon clan.” Yang Chen sighed and said with a pity “The magic weapon of the dragon clan itself is the best magic weapon that can accommodate the aura of the human emperor. The dragon horn flying sword and the geographical map of mountains and rivers both absorbed a lot of the human emperor’s aura. Future attacks will have the characteristics of a human emperor’s aura.”

Yang Chen got a lot of things from the treasure house of the Dragon Clan, but not all of it was given to his own women. Gao Yue’s dragon horns flying swords and Gongsun Ling’s geographical map of mountains and rivers had been prepared long ago. At that time, Yang Chen didn’t have the idea of getting Shi Shanshan and Sun Qingxue, and naturally he didn’t prepare for them.

The rest of the items obtained from the Dragon Clan Treasure House were all used by Yang Chen himself. The Five Elements Rope Hook, except for Yang Chen, could not be used by anyone. Inverted sea jasper cup and flying shuttle. Contrary to the attributes of the two women, the Dragon Tower was used by Xiao Tian, so only the golden bell and the gourd remain.

The golden bell was of the metal attribute and the gourd was of wood attribute. It was suitable for Shi Shanshan and Sun Qingxue to use, but these two are not magic weapons for attacking. The golden bell is defensive, needless to say, the gourd is just a container.

Naturally, all of these dragon clan magic weapons have absorbed enough human sovereign aura. At this point, Yang Chen would not favor one over another, and directly took out the golden bell and the gourd and placed them in front of the two women.

“The golden bell has excellent protection, and should be suitable for Shanshan, but it is not your life source magic weapon. You can only go to the spiritual world or the immortal world in the future, and then find a way to fuse the golden bell with your life source flying sword.” Yang Chen showed that he was holding the golden bell and said to Shi Shanshan.

The reason why he said that it was necessary to go to the spiritual world or the immortal world to merge was because no matter who it was now, the cultivation base was not enough to move a hair on the golden bell. And even in the immortal world, it is estimated that it is only a possibility. The powerful magic weapon refined by the dragon family was not something that anyone can change.

“The magic weapon of defense is not suitable for my swordsmanship.” Shi Shanshan naturally knows that the golden bell is powerful, but her swordsmanship has always been indomitable, and getting the golden bell will make her heart troubled, and she will no longer be able to maintain that kind of transparency. So Shi Shanshan refused the golden bell directly.

It was also for this reason that Yang Chen didn't take it out before. Now he was afraid that Shi Shanshan and Sun Qingxue would have an idea and felt that he was unfair, so he took it out. Unexpectedly, Shi Shanshan has a clear direction for her own cultivation. Facing this kind of dragon clan magic weapon with the aura of a human emperor, it is also said that if she refuses, she refuses. No wonder Shi Shanshan achieved her fame in her previous life, it was definitely not accidental.

“Little Xue, the gourd doesn't have any offensive ability, it only has some fine wine and spiritual liquid.” Yang Chen pushed the gourd in front of Sun Qingxue and motioned her to put it away.

Sun Qingxue picked up the gourd, squeezed it in her hand and played with it again and again, but still gave it to Yang Chen: “A magic weapon without the ability to attack, it is meaningless to have the aura of a human emperor.”

Both women rejected the magic weapon of the Dragon Clan, which surprised Yang Chen. Shi Shanshan can still be understood, but Sun Qingxue's performance was so remarkable that she didn't even take the gourd, which made Yang Chen a little impressed.

“Husband, Sister Gao and Sister Gongsun both have the magic weapon with the aura of the human emperor, but neither Sister Shanshan nor I have it. You are biased!” Although she rejected two magic weapons of the dragon family, Sun Qingxue still depended on Yang Chen for life and death. She kept acting like a spoiled child in her arms, looking unbalanced.

The other three girls could see Sun Qingxue's intentions. They clearly wanted their husband to make up for the unbalanced lack of human sovereign aura. No one spoke, they all looked at Yang Chen with a smile to see what else he could get.

There was no other way, their husband was becoming more and more incomprehensible, and even the experience of the mortal world can produce such a peerless treasure as the aura of a human emperor. They can't say that they have to put a little pressure on it to see what it can do. Anyway, it's their husband, so it's normal to compensate his wives.

"Okay, don't be partial." Yang Chen was confused by Sun Qingxue's entanglement, and when he saw the posture of the other three women, he finally reluctantly conceded defeat "I have prepared this for you a long time ago, I will see if you can endure the hardship."

With that said, Yang Chen spread out his palm and presented the contents of his palm in front of everyone's eyes.

Chapter 568.1

*Request That Can't Be Refused

In Yang Chen's hand, a small green bead was spinning around like an emerald. The bead was very round, but there was no spiritual power overflowing, making people not understand what this was.

"What is this?" Sun Qingxue asked curiously first, while speaking, she stretched out her hand to pick up the bead, and carefully observed it for a while before asking with some uncertainty, "Seed?"

"Yes, seed." Yang Chen sat on the coffin board and replied with his arms around Sun Qingxue.

"What kind of seed?" As soon as everyone heard that it was a seed, they knew that it must be related to Sun Qingxue, and no one asked more, only Sun Qingxue frowned and asked, "What's the use?"

"The seeds that can improve your cultivation." Yang Chen replied with a smile, and then suddenly asked, " little Xue, are you afraid of suffering?"

"Not afraid!" In front of the other three women, even if Sun Qingxue was really afraid, it was impossible to say it. Besides, if it was just a seed, Sun Qingxue wouldn't be too bitter if she asked herself.

“Do you know why Elder Hua is only in the early Dacheng stage, but her combat power is so extraordinary?” Yang Chen smiled noncommittally, and then asked everyone.

Elder Hua was Sun Qingxue’s master, her story has spread almost all over the cultivation world. Everyone knows that she once fought against the blood demon vine alone for hundreds of years.

“Elder Hua is able to achieve such an achievement because she has fought against the blood demon vine alone for hundreds of years, and has been honed for hundreds of years.” Shi Shanshan quickly added by the side, and then looked at the green seed. She asked worriedly “Husband, don’t you want little Xue to go through the ordeal of Elder Hua all over again?”

When Yang Chen rescued Elder Hua, Sun Qingxue was present, but not in the courtyard, but outside with Sect Master Lu and the others. The situation back then was vivid in her mind, and when Sun Qingxue remembered how her master was being attacked by the blood demon vines, she felt horrified.

“No!” The sight of the blood demon vine back then was so shocking that even Sun Qingxue couldn’t help but whispered no. Not to mention the taste of being sucked by blood demon vines. That situation alone made people look frightened, and Sun Qingxue could hardly imagine her body covered with blood demon vines.

“Don’t worry, I don’t want to make my sweet wife look so ugly.” Yang Chen could feel Sun Qingxue’s tender body trembling in his arms, and the hand around her slender waist tightened slightly, and comforted a little “I just give you one more experience and one more way to cultivate.”

After hearing Yang Chen’s words, the girls felt a little calmer in their hearts, Sun Qingxue’s mood also eased a little. But her body was still trembling slightly, pinching the green seed and asking, “Then what should I do?”

“This is the seed of a demonized blue jade blood demon vine. It is made from the fusion of three kinds of vines.” Yang Chen quickly introduced “Among them, the blue jade vine can solve 99% of the poison in the world, and the blood demon vine, needless to say, are naturally for blood-sucking. In addition, there is the weakest vine species, the demonized demon vines that live on the Demon Continent.”

No matter the blue jade vine or the blood demon vine, they are all extremely precious vines. Back then, Elder Hua was attracted by the blood demon vine just to get a blood demon vine. Hearing that this is

actually a fusion of the blue jade vine and blood demon vine. In terms of preciousness alone, Sun Qingxue was naturally surprised.

What puzzled the four girls was, of course, the four women had heard of the name of the demonized demon vine. But Yang Chen said it was the weakest vine, and they didn't know why. However, Yang Chen always has his own reasons, and they believe he will say it without them asking.

"The reason why the demonized demon vine is the weakest is because the blue jade blood demon vine only fuses a seed of the demonized demon vine, and does not fuse the body, so it is relatively the weakest." Sure enough, the next step was Yang Chen's explanation.

Hearing this explanation, all the women were stunned. A mature body that has grown and a seed, of course, cannot be compared.

"However, don't underestimate this fused demon vine seed. It was collected from a second-grade human immortal demonized demon vine." Yang Chen emphasized the importance of the demonized demon vine. "Even if it's just a seed, it shouldn't be underestimated."

All the girls were stunned. Yang Chen had told them about his experience in the Demon Continent, but he had never said how powerful the things he was dealing with were. The girls couldn't help but be surprised when they heard that it was the second-grade human immortal realm demonized demon vine, which has surpassed the cultivation of everyone in the mortal world.

"What you have to do is to refine the seed of this demonized blue jade blood demon vine, plant it on your own body, and use your own flesh and blood to nourish and grow it." Yang Chen hugged Sun Qingxue and said very hard-heartedly.

Everyone knows what it would be like to nourish such a plant with one's own flesh and blood spiritual power, even the seeds that have been refined. At most, they are obedient, but the guilt they deserve will not be relieved at all.

"With the blue jade vine, the blood demon vine itself can be suppressed, and it won't be as terrifying as the old blood demon vine." Yang Chen comforted Sun Qingxue in a low voice, and at the same time persuaded her: "But you will also experience the old blood demon vine. The taste, the benefits to you,

are self-evident. Elder Hua had the same experience back then, I believe she can give you detailed pointers.”

This way of cultivation can almost be said to be in the same line as Elder Hua Wanting. Elder Hua has a hundred years of experience, so she can naturally point Sun Qingxue in this regard. Yang Chen’s arrangement basically took into account the factors of Sun Qingxue’s master and sect.

For the past two hundred years, it was basically Yang Chen who arranged the cultivation of the four women. Gao Yue and Gongsun Ling were fine, they were both members of the Pure Yang Palace and would not complain. But Sun Qingxue and Shi Shanshan were different. They each had their own sect, and they always had to consider their sect’s feelings.

Especially Sun Qingxue was different from Shi Shanshan. Shi Shanshan’s master Song Huan was weak in the sect, and basically Shi Shanshan herself cultivated as the master. Sun Qingxue’s master is a very powerful elder, and this will definitely make Elder Hua dissatisfied.

This arrangement would certainly make Sun Qingxue suffer a bit, but it would make Elder Hua more emotionally acceptable. One’s own apprentice, of course, is her own guidance, this was justifiable.

“I believe that under the guidance of Elder Hua, you can make rapid progress in just a few decades.” Yang Chen continued “This in itself is a kind of tempering of spiritual power. I believe that you can persevere, little Xue.”

“Don’t refuse.” Seeing that Sun Qingxue wanted to refuse, Yang Chen directly blocked her words: “To do this is just the first step.”

Chapter 568.2

***Request That Can’t Be Refused**

For a young and beautiful female cultivator like Sun Qingxue, it is not so easy to accept the practice of having her body covered with vines.

Although she knew that Yang Chen was doing it for her best, Sun Qingxue subconsciously wanted to refuse. She believes that Elder Hua also does not want her disciples to suffer the dangers she suffered in the past. Elder Hua dotes on Sun Qingxue so much, and she was definitely not happy for her to suffer.

But Yang Chen said that this was just the first step, so Sun Qingxue couldn't say anything, so she could only stare at Yang Chen with a slightly pitiful gaze, expecting him to continue.

"You don't have to pretend to be pitiful." Yang Chen smiled and pinched Sun Qingxue's pretty face "It makes sense for you to do this. Apart from going through a lot of hardships and trials, the most important thing is to completely master this demonized blue jade blood demon vine of yours. Especially the part that focuses on the demonized demon vine must be completely controlled."

"Do I need to use demonic qi to train my cultivation all the time?" Sun Qingxue still had a slightly pleading expression, which made people look at her with pity, especially when she asked in a timid voice with this expression.

"Of course the demonic qi cannot appear at will." Yang Chen shook his head, directly making everyone stop thinking about the idea of attacking the demonic qi "If you don't want to be regarded as a demon, you can only use the demonic qi to temper yourself."

On this point, all the girls knew what was going on, and they understood that what Yang Chen said was justified, they nodded silently without refuting.

"Then why should I focus on controlling the demon vine? Do I have to do this? My husband!" Sun Qingxue still had a little bit of resistance, looking forward to asking in case.

It was related to her decades of hardships, although Sun Qingxue cultivated hard, if she could not endure that kind of suffering, she should try her best not to experience it. Unless it was a last resort, he was really unhappy from the bottom of his heart to let her famous Fairy turn into a vine-tangled tree.

Not only Sun Qingxue, but even the other three women felt that it was too cruel to Sun Qingxue. It's just that Yang Chen has been very serious from the beginning to the present, it doesn't look like he was joking. The three girls abruptly held back and did not ask, but seeing that Yang Chen didn't seem to be accommodating at all, Gao Yue had to open her mouth to plead for Sun Qingxue.

“Yang Chen, little Xue is ignorant, her words just now were not intentional. Please, don’t let little Xue suffer like this, okay?” Gao Yue thought that Yang Chen was like this because Sun Qingxue said that Yang Chen was partial so he would make Sun Qingxue suffer a little bit, and she had to say something nice for Sun Qingxue.

When Gao Yue opened her mouth, Sun Qingxue didn’t dare to interrupt. But her little head kept nodding, and what Gao Yue said was in Yang Chen’s mind. At the same time, she still had the pitiful look on her face, begging her husband.

This time, Gao Yue called Yang Chen not as her husband, but Yang Chen, indicating that she was speaking as a master. Yang Chen had no choice but to consider this.

“Although I’m not very good, I your husband is not narrow minded, right?” Seeing Gao Yue’s formality, Yang Chen couldn’t help but smile bitterly.

“Little Xue, are you really unwilling?” Yang Chen took the green bead back from Sun Qingxue’s finger and asked with a smile.

Seeing that Yang Chen seemed to want to let go, Sun Qingxue was overjoyed, and she quickly nodded her head. As long as she doesn’t turn into a tangled tree, everything is fine.

“Husband, little Xue is wrong. In the future, little Xue will be obedient, so don’t use this seed, ok?” Sun Qingxue immediately began to take advantage of this opportunity to act coquettishly while the iron was hot, looking forward to dispelling Yang Chen’s thoughts.

“What do you think?” Yang Chen was amused, and turned to the other two women to ask for their opinions.

“It’s okay to go through a lot of hardships, and you can improve your cultivation a lot.” Shi Shanshan definitely supports it. She was a hard cultivator herself, so of course she supports it.

Hearing Shi Shanshan’s words, Sun Qingxue’s face immediately collapsed, and she turned to Gongsun Ling pitifully.

“Still don’t suffer that crime!” Gongsun Ling couldn’t help but plead for her sister’s suffering.

“Okay then!” Yang Chen put away the green seed “Then don’t suffer this crime.”

“My husband is the best!” Sun Qingxue was instantly overjoyed. In ecstasy, she hugged Yang Chen and kissed Yang Chen’s face fiercely, cheering.

Seeing this, Gao Yue and Gongsun Ling couldn’t help shaking their heads. It wasn’t to say that Yang Chen and Sun Qingxue couldn’t be seen making out, but Sun Qingxue was the youngest, so she was a little fond of it.

“After a while, you will still have to ask the husband to give you that seed, why bother?” Shi Shanshan also shook her head beside them, but what she said was different “Which of the arrangements of the husband did you reject? ”

Sun Qingxue, who was cheering, was stunned for a while, and even Gao Yue and Gongsun Ling were a little stunned. Everyone thought about it carefully, but found that what Shi Shanshan said seemed to be true. When did they refuse Yang Chen’s arrangement? Didn’t even Gao Yue of fire attribute finally cultivate water attribute cultivation methods? It was later proved that Gao Yue’s acquired water spirit root was full, and Yang Chen’s arrangement was not wrong at all.

That being the case, how could Yang Chen give up the seed of the demonized blue jade blood demon vine so solemnly this time? Not to mention, the seed alone was enough for countless people to fight for it. The essence of such a seed is only the first step of Yang Chen’s request. What is the next request?

It sounds like such a big thing, can it really be easily dismissed? Suddenly, the pitiful expression appeared on Sun Qingxue’s face again, like a puppy who did something wrong.

“Husband!” Sun Qingxue’s pitiful voice, ordinary people would definitely be unbearable after hearing it, and would never be demanding of the owner of the voice again. Unfortunately, Yang Chen was an exception.

“It’s still Shanshan who understands me!” Yang Chen gave Shi Shanshan a smile, then turned around to face Sun Qingxue, and asked again, “You really don’t want to use it?”

“En!” Sun Qingxue kept nodding her head.

“Hmmm!” Yang Chen shook his head and seemed to have given up, but he said regretfully, “I have a second-grade Earth Immortal Demonic Demon Vine in my hand, if you can absorb the seed and you integrate it, I believe it will be of great help to your cultivation. However, since you don’t want to, then forget it.”

As soon as these words came out, Sun Qingxue’s face was stunned for a while. The pitiful expression lasted for less than a few breaths, and then changed into a worried look “I want, husband, I want, give me that seed!”

Chapter 569.1

*The Last Intervention

Sun Qingxue’s performance made the other three women shake their heads speechlessly. Originally, she was unwilling to accept, and even Gao Yue put on a master’s style to intercede with Yang Chen, but now he doesn’t need to push her, she immediately asked for it herself, they really didn’t know what to say.

However, the girls were really speechless about the performance of their husband. One is that he has paved the way for everyone in a calm manner, and the other is that, as Shi Shanshan said, there was no reason for everyone to reject him.

The demonized demon vine body of the second-grade earth immortal was really scary to say it! Only now did the four girls know what kind of terror Yang Chen faced when he was in the center of the Demon Continent. Recalling that they were only working together to fight against the attacks of some demonized monsters in the Dacheng stage, it seemed that the gap between them and their husbands was getting bigger and bigger.

It’s easy to feel this way, there was no other way, the second grade earth Immortal realm, this has surpassed everyone’s imagination. It is the existence that can easily kill all the masters of the five major sects at any time. It was taken by Yang Chen, what does this mean? How could such a monster appear in the mortal world?

“It’s not that big. When I went, this ultimate demonized demon vine was on the verge of death. I just picked up a ready-made cheap one.” Yang Chen knew what the four girls were thinking by looking at their expressions, and hurriedly enlightened them.

He didn’t tell the four girls about the detailed process before, because he was afraid that they would have some bad ideas. At the critical moment of cultivation, Yang Chen didn’t want to let them have any bad thoughts, especially the depressed mood, which was a taboo in cultivation.

He said so, but the girls still felt that the gap with Yang Chen was getting bigger and bigger. However, at this time, the difference between genius and mediocrity is reflected.

“We’ll catch up with you.” Shi Shanshan jumped out first and directly announced her determination with these words. Next, Gao Yue, Gongsun Ling and Sun Qingxue were all in a posture that would not admit defeat.

For the time being, Sun Qingxue calmed down. With this second-grade Earth Immortal demonized demon vine, Sun Qingxue estimated that she would not be free until she ascended, and even this could not guarantee complete integration, and she might ascend to the spiritual world. Only after she has the cultivation base of a human immortal can she truly absorb the power of this demonized demon vine.

Needless to say, this kind of cultivation speed and efficiency was absolutely shocking that countless people’s eyes would burst open, and there is no one who dares to provoke Sun Qingxue.

Needless to say, Gao Yue, fellow cultivator of water and fire. In addition, the dragon horn flying sword that absorbs the aura of the human emperor, only needs one attack and the opponent will immediately fall to a small realm. Coupled with the strength of the Dragon Horn Flying Sword, taking into account the results of the Demon Continent’s experience, even if she faced the master of the last Dacheng stage, she would not fall behind.

Not to mention Gongsun Ling, her cultivation base was the highest among the people right now, but because her spiritual power was a bit mixed and impure, she was concentrating on refining the geographical map of mountains and rivers to condense her spiritual power. She believes she will wait until this step is completed. With the help of hundreds of Dacheng stage masters in the geographical map of mountains and rivers, Gongsun Ling can definitely walk sideways in the mortal world.

In the end, there was only one Shi Shanshan left. It doesn't look like much improvement. Of course, this is also relative. Compared with anyone of the same level, Shi Shanshan's combat power was the best, except for Yang Chen.

The matter had reached this point, and Sun Qingxue also fully understood that Yang Chen was not so careful, and immediately began to complain about Shi Shanshan.

"Husband, Sister Shanshan doesn't have your special guidance, you can't be partial!" Sun Qingxue spoke with partiality again, making it difficult for Yang Chen to refuse.

Only Sun Qingxue could say this. Anyway, someone like Shi Shanshan with a competitive personality would never say that he is biased in front of Yang Chen and ask for benefits.

"It's already been prepared, I don't need you to say it." Yang Chen smiled and scratched Sun Qingxue's little nose, and said dotingly.

Hearing what Yang Chen said, Sun Qingxue had a plan, and secretly gave Shi Shanshan a sneaky look, snatched the seed of the demonized blue jade blood demon vine from Yang Chen's hand, and hid it like a treasure, she was happy like flowers and was about to laugh.

"Like little Xue, first go back to the sect to cultivate for decades, and then I'll go to a place with you to sample things." Yang Chen said to Shi Shanshan "Anyway, before the spiritual world, you don't have to worry about not having anything to cultivate."

"Thank you, husband!" Shi Shanshan had a calm personality, nodded at Yang Chen, and after saying this, she stopped talking.

"What is it?" Sun Qingxue became curious again, pulling Yang Chen's arm and asking.

"You don't need to think too much, it's not good for everyone to know in advance." Yang Chen didn't say anything this time, just smiled and refused.

“In the future, apart from the double cultivation technique, this is the last time I will interfere with your cultivation.” After the four of them were taken care of, Yang Chen said to everyone very seriously.

Everyone was taken aback by Yang Chen’s statement. For a long time, everyone seemed to be used to Yang Chen’s arrangement. As long as they followed what Yang Chen said, there was basically no big problem. Now that Yang Chen suddenly said this, the four girls had a feeling they couldn’t explain.

“Actually, each of you has your own perseverance and direction. I have interfered so much in the early stage, and it is already the limit. In the future, you can only look out for yourself.” Yang Chen said this very seriously “Even if it is your master, masters lead the sect to cultivate as an individual, without my interference, you will develop better. I look forward to your genius performance, let me be proud of you as your husband !”

In just a few short sentences, Yang Chen’s own thoughts were clearly explained, and at the same time, the mood of the four girls was raised to a level of indignation. Let Yang Chen be proud of being their husband, it sounds very good.

“Are we going to be separated for a while?” While Sun Qingxue was excited, she also heard some of Yang Chen’s digression, and couldn’t help but ask.

“We have been together for more than a hundred years and almost two hundred years. We are always from our respective sects, and we always have to make some contributions to the sect.” Gao Yue understood Yang Chen’s thoughts and directly replaced Yang Chen and said these words “You can’t forget the cultivation of the sect just because you are married.”

Gao Yue has always been the eldest sister, and everyone was convinced by her words, especially this time Gao Yue was actually expressing it instead of Yang Chen, the girls have no objection.

However, as Gao Yue said, everyone has been together for two hundred years, and they have long been accustomed to each other’s existence. Even in Qixia Town’s “farewell”, there was no such sadness.

There is no lasting feast in the world, and everyone must be separated for a short time after all.

Chapter 569.2

*The Last Intervention

“Don’t be so sad, we’ll have a long time in the future.” Relatively speaking, Yang Chen looked a little more open. As a man, he is naturally not as sentimental as a woman. Seeing that the four girls were a little unhappy, he still said a good thing to make the four girls happy.

“Actually, we have slept here for 20 years, and there are other benefits.” Yang Chen’s words really attracted everyone’s attention.

“What’s the benefit?” Gongsun Ling asked.

“Us five masters of the Yuanying stage have slept on the dragon veins for twenty years. Not to mention that you have absorbed the aura of the human emperor, it will also bring great blessings to the descendants of our family.” Yang Chen said with a smile “ At least it can bring two hundred years of imperial destiny to the descendants of the family, and it is impossible to say in the future that some descendants of our family will rule in a country.”

Compared with ordinary good feng shui, burial on the head of the dragon vein was definitely not a description of the blue smoke from the ancestral grave, but the fireworks from the ancestral grave. Such good feng shui, the descendants of later generations are naturally blessed with profound blessings. Yang Chen said less about the two-hundred-year emperor’s destiny.

Speaking of which, Yang Chen has no plans to have children, nor does the four girls. Usually cultivators give birth to children, and most of them leave offspring because of their limited qualifications and unable to continue to make further progress. Generally speaking, female cultivators think that mothers are more expensive than children, so that they will have children.

The four girls naturally have great qualifications, so there was no need to consider the issue of having children at all. Even if he wanted to give birth, according to Yang Chen, it would be after he ascended to the Immortal Realm. Otherwise, if there are children, everyone’s world experience will be more perfect.

The breakup was imminent, Shi Shanshan and Sun Qingxue were particularly reluctant. Gao Yue, Gongsun Ling must return to the Pure Yang Palace with Yang Chen, and they can be together at any time, but the two women have no such opportunity.

Knowing it was not easy for them, Gao Yue and Gongsun Ling were very knowledgeable and handed over the last part of the gathering time to Shi Shanshan and Sun Qingxue.

The two women almost unabashedly expressed their separation and sorrow, and even on the way Yang Chen sent everyone back to their respective sects, the two women were unwilling to separate from Yang Chen. Even when they were both cultivating together, they were sleeping together, which made Yang Chen enjoy the taste of a gentle life.

Can't help but say that the 90 years of experience in the mortal world that Yang Chen arranged was simply too effective. The symptoms of the slaughter syndrome accumulated in the Demon Continent before, no longer existed at all. The kind of peace of mind that has been cultivated by living with ordinary people for decades allows them to control any of their actions anytime, anywhere.

The power to go crazy was the power that makes people terrifying, but the power that could be completely controlled was the power that was even more frightening. The four girls have now entered such a higher level realm.

This time, it was to send Sun Qingxue back to the Blue Cloud Sect first. Under the guidance of Yang Chen, Sun Qingxue had already planted that demonized blue jade blood demon vine, but under her control those vines were only of a very small scale, and only when Sun Qingxue was willing would they burrow out a little.

Elder Hua was shocked when she saw Sun Qingxue's state, thinking that Yang Chen had not taken good care of Sun Qingxue, and almost turned against Yang Chen on the spot.

It was Sun Qingxue obediently saying that she took the initiative to follow the old path of her master, which made Elder Hua accept it with both distress and joy, but she still hugged Sun Qingxue in her arms and cherished her, she was just about to cry out.

Naturally, about the ultimate demonized demon vine, everyone was very tight-lipped. This is the secret of the Demon Continent, and no one who has made a big oath will naturally reveal it.

For her disciples to be able to follow her path, at the same time, it was a controllable blood demon vine. Elder Hua was very satisfied, and immediately took Sun Qingxue into seclusion to teach her how to fight against the blood demon vine. On this point, no one has more say than Elder Hua.

Leaving Sun Qingxue in the Blue Cloud Sect, Yang Chen went straight to the Green Jade Immortal Island with his three wives. This time, on the road, Shi Shanshan was the one who dominated Yang Chen. Fairy Hanmei, who was usually glamorous and unparalleled, wished that she could become one with Yang Chen during this period of time, and she was reluctant to part for a moment.

In the next few decades, Shi Shanshan's main focus was to strengthen the control of her life-source flying sword. The life source flying sword that has just been tempered needs to be further perfected, so that it can become a little more powerful than the one in her previous life. Of course, purifying spiritual power and improving her cultivation base were also essential.

According to Yang Chen's estimation, it will take at least thirty years before Shi Shanshan can withstand the power of what Yang Chen said. Before that, don't even think about it. There is no way, the flaws in the cultivation realm can't be compensated for by anything.

When Shi Shanshan was returning from the Demon Continent, she was very eye-catching in the sect. One move seriously injured Senior Sister Li Zhiqi, one move seriously injured Elder Liu Zifang, two moves to bring down Elder Bei Shuangyu, and later she was evenly matched with Elder Min Huafeng, the sect was stunned.

This time back, Shi Shanshan will definitely be able to get the key training from the sect. On this point, Yang Chen has no doubts. He just hopes that in the future Shi Shanshan will be even better than the previous life.

After sending Shi Shanshan and Sun Qingxue back to their respective sects, Yang Chen took Gao Yue and Gongsun Ling together and slowly returned to the Pure Yang Palace.

These days, Yang Chen has been taking care of the two girls, and now, Yang Chen has the opportunity to carefully examine the changes that have taken place in him.

Needless to say, the magic weapon of the dragon clan, the golden bell, the five-element rope hook, the inverted sea jasper lamp, the gourd and the flying shuttle all absorbed enough human emperor's aura.

But there was another point that cannot be compared with the four women. When Yang Chen was suspended from death, the white dragon in his sea of consciousness was madly absorbing the aura of the human emperor like a whale.

That white dragon was originally the dragon might formed after Yang Chen absorbed dragon yuan when he was in the Dragon Palace. Originally, it was extremely majestic. Once it was refined, even if the cultivation base was much higher than Yang Chen, one would still feel the terrifying majesty.

Now that he had absorbed enough of the aura of a human emperor, his majesty was becoming more and more terrifying. Even the masters of the Dacheng stage in front of Yang Chen, it was estimated that they would have a feeling of involuntarily wanting to kneel. That was completely involuntary reverence from the bottom of their heart, they would directly lower their head in terms of identity and status, which was far more than comparable to knocking down the cultivation realm to a small realm.

After the whole experience of the mortal world, Yang Chen completed at least tens of thousands of second grade inner sensing pills and hundreds of second grade questioning inner heart pills. At the same time, during this period of time, Yang Chen also absorbed and fused hundreds of demonic fire seeds below the fifth grade, and the power of the Yin-Yang heaven burning fire was even more terrifying.

Because Yang Chen did not seal his spiritual power, during these years, Yang Chen was condensing and purifying his spiritual power almost constantly. Although the quality of Yang Chen's spiritual power was still not comparable to Li Cheng's degree of condensing. From a few decades ago, it has more than doubled.

Chapter 570.1

*Yang Xi's New Hope

After planting a seed of ambition in the Greatest Heaven Sect, Yang Chen did not contact Li Liheng much in the following days. Just looking for a reason, Senior Liu Fengzi had to retreat and cultivate for a while, so it was easy to prevaricate.

Because there was no consumption of the spatial spiritual awareness cultivation method, Li Liheng's remaining spirit congealing pills could basically meet his needs of using two per month. Fifty years later, even before Yang Chen and the others returned from the Demon Continent, Li Liheng's old problems were already cured.

At least for a long time, Li Liheng did not faint for no reason. This time has lasted for almost a hundred years, which fully shows that Yang Chen's spirit congeling pills was indeed a cure to the disease.

At this point, Yang Chen's reputation was still enough. If he said to be used for fifty years, that was, fifty years.

The core elders of the Greatest Heaven Sect were very happy about this. After Li Liheng's hidden danger was eliminated, he can only improve his cultivation in the future, and then he can communicate with the seniors in the spiritual world without any problems.

There was still a batch of spirit congeling pills left, but this time no one dared to use them at will. The core elders all understand that it will cost at least ten pieces of the pills for Li Liheng to contact Senior Liu Fengzi once. In the future, if he wants to communicate with Senior Liu Fengzi, he will need the help of the spirit congeling pills.

In this regard, Li Liheng also asked Senior Liu Fengzi for advice, and the explanation given by Senior Liu Fengzi was that the two sides had too much difference in the cultivation of spiritual awareness, which would lead to this. This situation seems to be intensified in the future, because it seems that the growth of senior Liu Fengzi's spiritual awareness was much faster than that of Li Liheng.

Li Liheng also conveyed this meaning to the core elders, but the core elders did not have a good solution. Cultivation was definitely a step-by-step approach, and any idea of taking shortcuts will prove to be more costly in the end.

Li Liheng knew what the core elders meant, but it didn't mean that he could accept the status quo safely. In fact, Senior Liu Fengzi once instructed that the Demonic Heart Sutra cultivation method seemed to be able to speed up Li Liheng's spiritual cultivation.

Li Liheng was not too presumptuous, just concentrated on his cultivation. It must be said that those who can enter the Greatest Heaven Sect have relatively good qualifications. Over the past hundred years, Li Liheng has successfully survived the thunder tribulation and entered the realm of the early Yuanying stage.

Yang Xi has been beside Li Liheng all these years, the eldest brother in name of the young sect master, and the celebrity around him. This status has finally allowed him to taste that kind of aloofness again.

Although it was just a false feeling of fox and tiger majesty, this kind of taste was really wonderful, and it was different from the one who was bullied by the same family like a lost dog before.

Over the past hundred years, Yang Xi's cultivation base has also been improving day by day, and he has reached the peak Jiedan stage. It seems that he was only one step away from entering the ranks of Yuanying stage masters.

Li Liheng's performance seemed normal, but he couldn't hide it from the person next to him. Yang Lan was very keenly aware of this. So, when serving Li Liheng, Yang Lan was a very skillful guide to Li Liheng, who let Li Liheng express his thoughts that he would never dare to say normally.

The imprint that Yang Chen planted back then finally came to fruition, and after a hundred years, no one would doubt that it had anything to do with Senior Liu Fengzi, and even Li Liheng himself would not realize what he said.

Worrying that his spiritual awareness cultivation won't catch up with the spiritual world's senior Liu Fengzi, and spatial spiritual awareness cultivation method, these incredible things made Yang Lan listen to it like a book from heaven, and she was shocked beyond belief.

She didn't believe it, but the performance of the core elders of Greatest Heaven Sect made Yang Lan have to believe that it was true. In particular, Li Liheng told the truth this time after drinking, and even mentioned the shocking news of the Everlasting Universe Origin Suppression Great Formation, which made Yang Lan almost faint with excitement.

This great formation was so powerful that it could turn the entire mountain domain of the Greatest Heaven Sect into a cultivation heaven. What was especially special was that the special formation eye in it can directly raise a person's cultivation from the lowest level to the highest possible. If it wasn't from Li Liheng's mouth, Yang Lan would not have believed it.

But as Li Liheng's bedside person, Yang Lan was aware of certain high-level trends. In the past hundred years, it seems that the resources supplied to the sect disciples have been shrinking, and the Greatest Heaven Sect was quietly collecting a large number of materials. All of this was simply a naked indication

that the core elders were preparing for this Everlasting Universe Origin Suppression Great Formation, and the preparations seem to have been basically completed.

After Li Liheng fully stated his thoughts, his whole person couldn't hold on easily, and it seemed that the demons in his heart that he had accumulated for many years had disappeared. After sobering up, his state of mind of cultivation has improved significantly, and his spiritual awareness cultivation base has also increased slightly.

Yang Lan has been calm, and after hearing the news, she never showed any abnormality. The only thing was that Li Liheng, who was serving him, was more dedicated, and Li Liheng has tasted the pride of a man who has nothing to do with women, and was more and more favored.

After a long period of careful consideration, Yang Lan finally found an opportunity to tell her brother Yang Xi this. Yang Lan's purpose was also very clear, to help Li Liheng meet with all his strength, and at that time, she can also secretly enjoy that special formation eye.

This time, Yang Xi felt like he got a treasure, and finally made up his mind to help the young sect master solve his troubles. The key to the solution was naturally the Demon Heart Sutra cultivation method.

Others were not allowed to easily read this cultivation method, but who was Yang Xi, he was a popular man next to the young sect master, while the core elders are not in the hidden sutra pavilion, they can read a book at will, it was not known how many years it has been stored. It's not an easy thing to do?

This Demonic Heart Sutra cultivation method was not so easy to cultivate, it still requires a lot of preparation work, especially some female cultivators, and their cultivation base should not be too low, at least higher than Li Liheng's cultivation base.

This condition was simply impossible for Yang Xi. But Yang Xi soon found out that the creator of the Demon Heart Sutra cultivation method seems to have left a set of contact information for his descendants, there may be an easier way.

After researching for a long time, Yang Xi finally decided to find the descendants of this senior. Naturally, the most convenient way was to buy news from Wine Immortal House. Anyway, it's just the whereabouts of a family, presumably the Wine Immortal House will be happy to take over this business.

The reason for looking for the Wine Immortal House, Yang Xi has another layer of consideration, and the thing about being bullied by the Wine Immortal House before has to be considered.

Chapter 570.2

*Yang Xi's New Hope

With Yang Xi's current popularity in the Greatest Heaven Sect, it was naturally easy to find the culprit who planned against him back then. It seemed that everything was secretly arranged by the Wine Immortal House.

However, Yang Xi also knew that the Wine Immortal House was just an executor at most, and Yang Chen was the real mastermind behind the scenes. But who was Yang Xi? It was not an exaggeration to say that it was necessary to report and he had to get back some capital in the Wine Immortal House.

The Wine Immortal House's branch in the Greatest Heaven Sect was immediately put in difficulty, and people kept asking for trouble. Speaking of which, the Wine Immortal House's people were really powerful, and they were definitely unique in inquiring about news, so it was quickly understood that Yang Xi was arranging the people.

After reporting to Senior Jiuxian, Senior Jiuxian instructed them to first tread carefully, make a good relationship, and then see what Yang Xi's idea was.

With the instructions of Senior Jiuxian, the branch shopkeeper in the Wine Immortal House side immediately went to visit Yang Xi with a heavy gift. Their posture was very low, and they kept saying good things, explaining that they also took over a business, and they did not intend to target Yang Xi.

After experiencing such low-profile pleas several times, Yang Xi's revenge was finally satisfied, and he no longer bothered with the Wine Immortal House. However, he gave the Wine Immortal House a business, he wanted them to find the location of the descendant family of an old devil.

This kind of task of finding someone, the Wine Immortal House was the best at it. Although the target was in the Demon Sect's territory, it seems a little troublesome, but it was not a problem for the Wine Immortal House.

In recent years, the Wine Immortal House has developed a lot, not only the territory of the monster race, but also the bow of the demons has penetrated a lot. Many demon cultivators simply have the temperament of being a mother if they have milk.

Soon a large and well-conceived net was laid out on the lower domain of the demon sect, in order to find the whereabouts of a secluded family.

However, it was really not that easy to find this kind of family that has gone through tens of thousands of years. The Wine Immortal House has said that from the beginning, this kind of thing may take a little longer and asked Yang Xi to hold on. Yang Xi had no objection, just asked them to find it as soon as possible.

Yang Xi's strange request was also reported to Senior Jiuxian immediately. Senior Jiuxian knew that Yang Chen and Yang Xi were at odds, so the news about Yang Xi was very important, and they were sealed up and sent to the Pure Yang Palace, indicating that Yang Chen should pay special attention. He believes that when Yang Chen returns to the Pure Yang Palace, he will be able to see it.

The core elders of the Greatest Heaven Sect have indeed been preparing for the formation. Hundreds of carefully selected formation masters in the sect, all selected those who are loyal to the sect. All made an oath to never reveal what they were about to study, before they are allowed to touch the formation.

After the secret research of hundreds of formation masters, this formation was completely effective, and even just studying this formation has improved the collective realm of the hundreds of formation masters in the Greatest Heaven Sect, which was incomparably wonderful.

Such a powerful formation, other sects can't recognize it at all, it's a shame not to use it. As long as they can be careful and not use that special eye. This formation can almost become the most powerful resource of the Greatest Heaven Sect. It was not impossible for him to surpass the other four sects in the future.

Materials needed for the formation, after hundreds of years of searching around and the sect's frugality, it finally got together. The next step was to arrange the split formations of large formations in various places. When the eyes of the formation were completed, it could continuously provide the Greatest Heaven Sect with an inexhaustible spiritual power.

This was a long-term and complicated task, and it will take decades just to set up the formation, they should not be careless. Fortunately, the hundreds of formation masters were already irritated by the bright prospects of the formation, and their eyes were red.

At least Yang Chen had already discovered the traces of this formation when he sent Sun Qingxue and Shi Shanshan back to their respective sects. At that time, Yang Chen was secretly delighted, but his face was unmoved. The big fish of the Greatest Heaven Sect finally took the bait.

After 90 years of experience in the mortal world, Yang Chen has also improved a lot in terms of mood. The short life of mortals has almost gone through a cycle of reincarnation in a few decades, which made Yang Chen have a different feeling.

The ultimate demonized demon vine will be purified in about 20 to 30 years, and the few demon orbs under three feet in Yang Chen's hands have also been purified by Yang Chen. He plans to wait until he returns to the sect to use these demon orbs to refine a batch of pills to increase cultivation.

It has to be said that these things that are contaminated with demonic qi are very special. Whether in the mortal world or in the spiritual world, Yang Chen had never heard of anything that could increase one's cultivation. Only in the immortal world, after the rank of some medicinal pills passed the seventh grade would they be so magical.

Directly increasing the cultivation base has always been a taboo in cultivation, and this will breed the mind of unearned gain and affect the state of mind. Second, this kind of one sounded unreasonable, and Dao cultivators have never had an idea in this regard. Of course, the most important thing was that there was nothing that could achieve this effect, not even 100,000-year-old ginseng and ganoderma lucidum.

The demon orb was obtained from a demonized monster, and there was absolutely no taboo in the mood to use it, but it still had such a magical effect, so Yang Chen naturally had to study it carefully. Fortunately, his current spiritual cultivation base was enough for Yang Chen to distract himself, without delaying his cultivation, research, or even chores.

The two girls have been away from the sect for a long time. For such a long time, they have cultivated together with Yang Chen. Although no one will say anything, they have not contributed to the sect in the slightest. When they go back this time, they have to do some sect quests and add some sect contributions.

As for Yang Chen, this problem does not exist at all. The contribution he made was enough for the sect master to pass the sect leadership to him directly. The prosperity of the sect was developed on the basis of Yang Chen, how much contribution should be made by him again?

When Yang Chen brought Gao Yue and Gongsun Ling back to the Pure Yang Palace, what Yang Chen saw was a scene of more and more prosperity of the sect. Everyone's faces were full of happiness, and the whole sect seemed to be very positive.

The first thing he did when he went back was to meet Gao Yue's master, Yang Chen's master ancestor. As Yang Chen's wife, Gongsun Ling also followed Yang Chen and Gao Yue to meet Wang Yong immediately.

"You came back? It's good to come back, it's good to come back!" It's almost a hundred years since he hasn't seen them. The state of the master Wang Yong looks very good, there was a vague feeling that his cultivation base was about to break through, but there are some stumbling blocks.
