Chapter 576.1: The Grandmaster Likes Beautiful Women

“For the time being, I don’t have much needs here, it also shows that you have a lot of face.” Yang Chen shook his head slightly, this time it was refining for his two wives’ sects, so why should they be more generous? It was enough to go back to save face, it was too much, but it seems that the contribution of the two women to the sect would be very big.

“The island master has already instructed, so I must give it.” Shi Shanshan laughed instead, she could understand Yang Chen’s intentions for them, but this kind of benefit was not for nothing.

“If it must be given, then get some new fire seeds, all kinds of alchemy and refining equipment and materials.” Yang Chen did not have too many requirements for this, he just casually said “If there is a treasured elixir, whatever it is, it’s ok.”

Fire seeds were enough for Yang Chen, from low-grade to high-grade, almost the ones they have heard of have been searched. There are not too many medicinal materials, so are the materials for refining. The family’s life source flying sword requires the perfection of various advanced materials, especially Yang Chen’s Great Yin Yang Five Elements Flying Swords were simply a black hole that swallowed materials.

Here, Shi Shanshan and Sun Qingxue returned with Yang Chen’s attitude, and over there, the hundred year pills had already caused an uproar among the cultivators.

“There are many beautiful female disciples in my sect, how come there is no one who can get closer to Grandmaster Yang?” When the news of the hundred year pills spread, it was not known how many sect masters began to envy the Green Jade Immortal Island and Blue Cloud Sect “Since Grandmaster Yang likes beautiful women, it seems like an opportunity!”

Why did the Blue Cloud Sect and the Green Jade Immortal Island always walk in front of other sects to get Yang Chen’s medicinal pills? To put it bluntly, it was because of Sun Qingxue and Shi Shanshan. All the sects understood this, but they were embarrassed at first.

The big sect didn’t bother to use their talented disciples to do this kind of thing, and the small sect didn’t have any good candidates for it. For the time being, there were no more beautiful women to harass

Yang Chen. However, since the appearance of the hundred year pills, countless people have begun to use their brains in this regard.

Speaking of which, Yang Chen was indeed the perfect dual cultivation partner in the eyes of beauties with several elements of cultivation. Yang Chen almost occupied the entire wealth of the sea and the land.

Needless to say, the spiritual power of Yang Chen's cultivation, except for the spiritual power of the third fire, all the others are the spiritual power of the true essence. Was there a better cultivation method than the true essence secret art?

On the ground, the newly discovered spiritual power of the Pure Yang Palace was very sufficient, definitely a good place to cultivate. This is still unknown to outsiders of Yang Chen's dragon palace, if they are known, it was not sure what kind of madness it would cause.

Not to mention other cultivators, whether it was Gao Yue or Gongsun Ling, Shi Shanshan or Sun Qingxue, they are all genius disciples with excellent cultivation aptitude, outstanding disciples that are rare to see in a hundred years, are there dao companions better than them?

Not to mention the wealth, if any of Yang Chen's medicinal pills are to be exchanged for spirit stones, it won't be exchanged for a small amount of wealth. Especially his status as a fifth-grade alchemist was the biggest cornucopia.

For female cultivators not to mention if it was just any medicinal pill refined by Yang Chen, it was enough to drive them crazy.

From the point of view of cultivation, the Jiedan and Yuanying stage has been provided with suitable medicinal herbs until the Dacheng stage. The second grade questioning inner heart pill was enough to support the consumption from the Jiedan stage to the Yuanying stage, and the questioning inner heart pill can improve the mood of the user.

These are enough and now there are one more hundred year pills, which was a good thing to increase the cultivation base. The effect is strong and the power is great, Mu Mingyuan's experience has already staged the effect of a trial medicine.

How many beautiful female cultivators, because of their lack of cultivation or lack of aptitude, had to become a dao companion or even a cauldron of some masters, and sometimes had to sacrifice their future to leave children for those masters, just because they had no hope of cultivation, so this decision was made.

If they have the hundred year pills in their hands, why would they bother with these questions? Didn't they see that Mu Mingyuan, who could only cultivate to the foundation stage, was abruptly able to transcend the tribulation and ascend within a stick of incense time? As long as there is the hundred year pills, what kind of bottleneck can't be overcome? What realm cannot be surpassed?

This reason alone was enough to make the female cultivators who think they look good go crazy. If you add the face staying pill, a must-have magic pill for women who can just walk down to the age of 9,009, even the arrogant female cultivator will be obedient as long as Yang Chen beckons.

They don't know how many people are lamenting the good luck of Shi Shanshan and Sun Qingxue. Gao Yue and Gongsun Ling were Yang Chen's master and apprentice sister, so it was normal. But Shi Shanshan and Sun Qingxue actually seized such an opportunity, how could they not be envied to the core?

Grandmaster Yang's life experience has also been excavated. In fact, apart from the location of his family, Yang Chen didn't hide anything. Soon those people knew where Yang Chen and Shi Shanshan and Sun Qingxue met.

How many people wish they could replace Shi Shanshan and become the heroine who met Yang Chen. This kind of good luck that makes all the women in the world jealous, how could they catch up with Shi Shanshan. It's not fair if you can't have good aptitude, even if you have such a deep blessing!

Hundreds of years ago, when Shi Shanshan, an elixir master, Fairy Hanmei and Yang Chen had such a quarrel, countless people were still secretly scolding Yang Chen for wanting to eat swan meat. Now that they think about it, Fairy Hanmei has a vision. There were so many outstanding people, Yang Chen was chosen among the countless masters, she really has a unique vision.

In any case, the hundred year pills is what countless people want, and other sects have also sent their own messengers to start negotiating with the Pure Yang Palace.

This time, what surprised Hall Master Xu of the Foreign Affairs Hall of the Pure Yang Palace was that the representatives of the various sects who came to the Pure Yang Palace were either their own messengers were a charming beauty, or they were accompanied by a charming beauty, and all the messengers asked for a meeting with Yang Chen.

This kind of battle, even Hall Master Xu, who was a battle-hardened person, but he has never seen it before. He had to be dumbfounded and temporarily declined these requests. Of course, there are good reasons to decline, Grandmaster Yang felt that the effect of the last time was too violent and needed to be readjusted to make the effect more gentle, and he was studying medicine pills in seclusion.

Ordinarily, after such a refusal, the representatives of each sect only need to discuss the hundred year pills with the Pure Yang Palace, but the performance of all sects was surprisingly consistent. All the beauties stayed behind, waiting for Grandmaster Yang to leave seclusion in the Pure Yang Palace.

Chapter 576.2: The Grandmaster Likes Beautiful Women

Yang Chen said that the effect of the medicine last time was more intense, which the cultivators could understand. Although he could ascend within a stick of incense time, it was a good thing for Mu Mingyuan, but it was not necessarily a good thing at all.

We all know that no matter what, the cultivation based on foreign objects is always not better than the cultivation based on one's own cultivation. Therefore, no one will use this method unless it was a last resort.

However, not everyone has absolute certainty that they could face the tribulation and ascend and resist the tribulation. Those who are not very sure before the tribulation, or who encounter a bottleneck when they hit the realm, can't break through, and their lifespan was already insufficient. For them, the hundred year pills was the key to saving their lives.

Sudden increase of one hundred years of cultivation, no matter from which aspect, was a great event. Increase confidence, increase ability and when necessary, add a life span to the person who takes it. In particular, the medicinal effects of the hundred year pills can be accumulated, which was even more remarkable.

Taking one will add a hundred years to one cultivation base. If it is not enough, then take it again. In theory, things like what happened to Mu Mingyuan's could happen to everyone.

As long as there are enough hundred year pills, as long as they are cultivators, they will be able to ascend through the tribulation, no doubt. If the state of mind was insufficient, wasn't there a questioning inner heart pill to make up for it? If not all, but at least part of it. As for other things, when you reach the spiritual world, would they be afraid that there will be no expert guidance?

At this time, Yang Chen has become the target that countless people must strive for. Of course, it is necessary to become the goal of more people.

If it was said that people in the past were just coveting the pill recipe of the questioning inner heart pill. Now those people can't wait to directly grab the pill recipe of the hundred year pills. How can such a heaven-defying medicinal pill be in the hands of one's own people! Even if Yang Chen concocts alchemy for others, how can he be as relieved as his own alchemy?

If nothing else, at least the Greatest Heaven Sect has such thoughts. It must be said that Yang Chen has indeed shocked everyone in the Greatest Heaven Sect over the years. Starting from the heaven seizing pill, to the questioning inner heart pill, to the inner sensing pill, and then to the hundred year pills, they were shocked every time.

At this time, Sect Master Li wished he could go back to the past, and before the guy who dared to throw Yang Chen out of the mountain gate could speak, he would smash him to ashes. Such a disciple, who came first to join the Greatest Heaven Sect, was thrown out abruptly, and was picked up by the Pure Yang Palace instead.

Such an experience made the core elders of the Greatest Heaven Sect gnash their teeth once they think of it. The guy who was in charge of recruiting disciples has been punished repeatedly. But no matter what, nothing could quell the monstrous anger of the core elders of the Greatest Heaven Sect. They could only vent their anger by punishing the disciple again and again.

Naturally, the Greatest Heaven Sect also sent a representative to the sect to discuss the hundred year pills with the Pure Yang Palace. Hall Master Mao Qimao had long since not wanted to deal with Yang Chen, but this time, the higher-ups also sympathized with his feelings, and directly replaced him with another Dacheng stage elder.

The Elder Tao Junqi sent by the Greatest Heaven Sect this time was a woman. Her cultivation base was very strong, but there was a slight deviation in the cultivation. She has been stuck at the bottleneck of the late Dacheng stage for hundreds of years.

Originally, this Elder Tao Junqi was middle-aged, but after taking the face retaining pills, she regained her youthful appearance. This time, not only did she want to reach a deal with the Pure Yang Palace to purchase the hundred year pills, but she also wanted to establish a further relationship with Yang Chen.

Speaking of which, Elder Tao Junqi can definitely be regarded as a master with good qualifications. She was once a famous fairy, but she has been in seclusion for hundreds of years, and outsiders gradually forgot her name. This costumed trip has directly attracted the attention of countless people.

The Greatest Heaven Sect sent a representative, and the Five Elements Sect and Qiankun Sect were also unwilling to be outdone, especially the Qiankun Sect. This time, they brought another female disciple of the sect.

Fortunately, Qiankun Sect did not directly propose to the Pure Yang Palace to marry Yang Chen, but their purpose was already obvious. Fairy Wushuang's appearance was no worse than Shi Shanshan and Sun Qingxue, but she just didn't have the chance to get in touch with Yang Chen. She believed that as long as they could get to know each other and get along for a while, it was not impossible to grab Yang Chen from Shi Shanshan and Sun Qingxue.

If it was some other small sects, Hall Master Xu, could ignore, but people from the Greatest Heaven Sect, Five Elements Sect, and Qiankun Sect must be paid attention to. The representatives of these three sects were settled in the mountain gate of the Pure Yang Palace, and the reception standards were very high.

Of course, it was also fortunate that a large number of core disciples of the Pure Yang Palace were now cultivating in the blue vault mountain immortal's cave. The strength of the Pure Yang Palace temporarily displayed did not attract the special attention of the representatives of the three major sects. Now everyone's attention was focused on Yang Chen.

Yang Chen was indeed in seclusion now. Yang Chen had already figured out a refining method for the demon orb when he was cultivating in the mortal world, but it has not been practiced yet, so he must experiment.

Of course, the test subjects used must be those small demon orbs purchased from the Demon Continent. Yang Chen still has a lot of these things, which just happened to be used for the experiment.

This was the first time Yang Chen has refined an elixir that was not in his memory after his rebirth. For this reason, Yang Chen has considered it for hundreds of years. The conflict between the medicinal properties of various medicinal materials and the control of the heat have already had a preliminary stage.

Thanks to the dregs and leftovers in the nourishing gourd, Yang Chen practiced a lot by himself and gained a considerable understanding of the medicinal properties of various medicinal materials. This time, he tried to refine a hundred-year-pill. After only five trials, he had already touched the doorway and began to determine the pill recipe.

After a few more tests, Yang Chen has completely determined the pill recipe. When to add what adjuvant, what kind of heat to control, and when to add the demon orb, it was completely determined.

The profound spirit furnace has become more and more powerful because it has absorbed twice the previous fire seeds. When Yang Chen finally made a pill, he directly obtained the second grade hundred year pill. Even Yang Chen had a hunch that if the profound spirit furnace could absorb the sixth-grade and seventh-grade fire seeds, it would be possible to directly refine the third grade pills.

Even if it hasn't reached the third grade, the efficacy of the second grade hundred years pill was already very powerful. According to Yang Chen's calculations, with so many doses, the hundred-year pill that should be obtained could increase the user's cultivation base for a hundred years, but now Yang Chen's spiritual awareness exploration has been preliminarily estimated to be able to increase the cultivation of about 150 years. For, the potency was twice as strong.

This was the first time Yang Chen has created a medicinal pill by himself, and the medicinal formula was also his own creation. After refining a hundred-year pill, Yang Chen was even happier than refining a successful questioning inner heart pill.

However, as soon as he got out of the seclusion, Yang Chen found that he had to face a lot of women who were stunningly beautiful.

Chapter 577.1: The Three Great Sects

Yang Chen never imagined that he had married four wives, but was given a lewd reputation from the bottom of his heart, and then they used such a method to deal with him.

It may seem a little too much to deal with, and it was more appropriate to describe it as flattery. A single fifth-grade alchemist, plus the questioning inner heart pill and the hundred year pill, are enough to make anyone with low confidence move their minds.

Of course, it wasn't these guests that Yang Chen saw when he left seclusion, but his wives, Gao Yue and Gongsun Ling.

The two women now lived together with Yang Chen, their servants were also in charge of serving the three of them.

The place where Yang Chen retreated was the Dragon Palace, which had been transformed into an ordinary house, and the two girls could go in and practice at any time. As for the others, there is no such blessing.

"A lot of people come to ask for pills?" Yang Chen just asked this question, without any surprises.

"A lot!" Gao Yue smiled and nodded "And there are unexpected surprises."

"What kind of surprise?" When Yang Chen asked again, whether it was Gao Yue or Gongsun Ling, they didn't answer again, just snickered, very mysteriously.

So, after Yang Chen met the palace master and the elders, he was brought before the representatives of these sects. Looking at the group of beautiful female cultivators, Yang Chen couldn't help but widen his eyes.

In fact, the agreement with the various sects has basically been reached. According to what they discussed with Yang Chen before, each of the five major sects has fifty pills, and some other first-class sects, which have a good relationship with the Pure Yang Palace, will temporarily receive ten pills from each sect. It's hard to say if the relationship was bad.

However, all the prices of the hundred year pills were based on the highest price of the top the auctions in the ten thousand treasure building auction. Except that the Green Jade Immortal Island and the Blue Cloud Sect's pills were obtained at the most favorable price, even if it was the medicinal pills that the Greatest Heaven Sect wanted, the price must follow this procedure.

It's not that no one has not seen the thought process of the ten thousand treasure building. As long as everyone unites, they will not increase the price at the auction, but only bid at a price higher than the reserve price. It might even be cheaper, it's just that as soon as they said this, they would be scolded by someone who heard.

"Are the people in the Pure Yang Palace fools? As long as they arrange for one person to join the auction, how many times can the price go up?" The scolding person didn't care where his spit was flying "Honest auction, don't play any tricks. It makes people anxious, so what if they don't sell it?"

In one sentence, all the guys who were thinking about the auction were blocked back. Now the initiative was in the hands of the Pure Yang Palace, people could come as they want, the current Pure Yang Palace was not a soft persimmon that anyone could handle.

If it was the Pure Yang Palace with only eight Yuanying stage masters in the past, let alone a large sect like the Greatest Heaven Sect. Any first-class sect, all are sure to directly destroy the Pure Yang Palace, and then grab Yang Chen with the medicinal herbs. But now no one dares to use this thought at will.

In the current Pure Yang Palace, there are hundreds of Yuanying stage ancestors alone, the number has exceeded more than 400. This was not considered to be an endless stream of Dacheng stage masters. There are already five on the bright side, who knows how many more are there in the dark?

The Pure Yang Palace has the hundred-year-pills in hand, as long as the people make up their minds, they can turn more people into Dacheng stage masters. This was not to mention the alliance between the Pure Yang Palace, Green Jade Immortal Island and Blue Cloud Sect.

Even without the Green Jade Immortal Island and Blue Cloud Sect. There are always countless people who want to befriend the Pure Yang Palace who will take the initiative to find a bond with Master Yang. If someone dared to do this, it was the greatest opportunity for these people.

So far, dozens of heads have been sent to the Pure Yang Palace, all of which are the heads of guys who want to be detrimental to the Pure Yang Palace and Yang Chen after the news of the hundred year pills came out. Among these heads, there are gifts from several major sects.

“Greetings Grandmaster Yang!” Seeing Yang Chen, the beautiful representatives of the sects all greeted him delicately, leaving the reception disciples of the Pure Yang Palace Foreign Affairs Hall, who had never seen such a scene, dumbfounded.

A group of all kinds of beauties, and they were all famous beauties in the mortal world, gathered in front of Yang Chen like this. If a lecherous king in the mortal world knew about it, he would not know how to envy Yang Chen’s boundless beauty.

“Little sister Tao Junqi greets you, this is a special gift from my sect to Grandmaster Yang!” Tao Junqi took the lead, offering a jade slip and a qiankun bag with both hands.

It was a matter between the sects to negotiate with the master of the palace, and this is purely a reward for Yang Chen, although this time Yang Chen did not intend to receive any specific reward.

However, Tao Junqi, an elder of the Dacheng stage, actually called herself a little sister in front of Yang Chen, which made the women of other sects despised.

As soon as Tao Junqi’s things were delivered, the other beauties didn’t hesitate to send the same things one by one. One by one, the names became more and more intimate, and even Brother Chen was called out without hesitation.

Basically, everyone took out a jade slip and a qiankun bag. The qiankun bag was filled with rewards, while the jade slips are the conditions offered by various sects.

This was what Hall Master Xu wanted. There are so many people here, it was naturally difficult to talk one by one. Using this method was also a way to express, it was very similar to the project bidding of later generations, but here, it was only a benefit for Yang Chen alone.

Yang Chen already knew that all the jade slips were to be taken first. As for the qiankun bag, he didn’t take it. If he take something, it means that the deal was done. Yang Chen will not make such a mistake.

However, when receiving these jade slips, some female cultivators even secretly put their jade hands into Yang Chen's hands, and the seduction was very obvious. This is still a bit reserved, and some of them wish they could pretend to be careless and throw themselves directly into Yang Chen's arms.

After coming out of the Foreign Affairs Hall, Yang Chen already had the memory of a Great Lou Golden Immortal, but he couldn't help breaking out in a cold sweat. With so many women and such a big battle, the average person can't really control themselves.

"How do you feel? Wouldn't it be nice to be a heartthrob?" Hallmaster Xu next to him kept teasing Yang Chen, as if he was happy to see Yang Chen embarrassed.

"The big tree attracts the wind!" Yang Chen shook his head helplessly, looking like he had lingering fears.

Although Yang Chen had long expected that the appearance of the hundred year pills would cause a sensation, it was inevitable that it would be sought after by various sects. However, Yang Chen never thought that the fact that he had four wives would also be regarded as evidence of lust, and all of them started to make their own ideas from this aspect.

Chapter 577.2: The Three Great Sects

The conditions offered by the various sects were nothing more than the price they were willing to pay for getting more hundred-year-pills from Yang Chen.

This was Yang Chen's own idea, but he still underestimated the desire of others for him as a fifth-grade alchemist.

From reading those jade slips, Yang Chen found that at least hundreds of sects expressed their admiration for Yang Chen, hoping that he could come out of the Pure Yang Palace and join their respective sects. Among these sects, the Greatest Heaven Sect, Five Elements Sect, and Qiankun Sect were among them, and there are hundreds of first-class sects left.

Betrayal was a big stain in the world of cultivators, but all the sects are the same, so Yang Chen doesn't have to worry about this small problem. As long as he was willing to join their own sect, these sects will help solve all follow-up problems.

As for the smaller sect, it was estimated that they knew about their own affairs, so they just asked for pills, and did not mention the matter of making Yang Chen betray his sect.

In addition to inviting Yang Chen to join their respective sects, the Greatest Heaven Sect, Five Elements Sect and Qiankun Sect also made another request. If Yang Chen didn't want to betray his sect, then they would beg to buy the pill recipe for the hundred-year-pill. Anyway, Yang Chen had sold pill recipes before, and he would not refuse this time, as long as the price was enough.

Of course, the price everyone was willing to pay was really exciting. All kinds of wealth, status, readily available. In addition, it was the condition that made Yang Chen laugh and cry, beauties.

Every sect was willing to use the best female disciples of their sect as a price in exchange for Yang Chen's cooperation. The three major sects, the Five Elements Sect and the Qiankun Sect, were the most generous.

Fairy Aoki was a master who will be as famous as Fairy Hanmei and Fairy Xuewu in the future. Like Sun Qingxue, Fairy Aoki was also a wood-type spiritual root, and it was also close to full value. It could be said that in terms of cultivation, appearance and future achievements, she was on a par with Sun Qingxue.

Especially Fairy Aoki has another point that Sun Qingxue and Shi Shanshan can't match. She was slightly different from Shi Shanshan and Sun Qingxue, who was a little naive, that was, Fairy Aoki was definitely good at subductive dancing.

In the Immortal Realm, Fairy Aoki could be considered to have a wide range of contacts. Shi Shanshan had more of a different kind of attraction.

Such a fairy can go to the hall, get down to the kitchen. After entering the immortal world, it was not known how many people wanted to be the dao companion of Fairy Aoki. However, although Fairy Aoki has a wide range of contacts, she was also very self-loving. Before Yang Chen died, he had never heard of anyone being favored by Fairy Aoki.

Or a master who was too good was destined to have such a fate. Those who like Fairy Aoki, after thinking about it, in front of Fairy Aoki, they couldn't help feeling ashamed and couldn't stand her seemingly decent but noble aura that came from her heart.

Such a fairy, however, she was willing to become a dao companion with Yang Chen for the sake of the sect. It must be said that the Qiankun Sect's effort was unique. Of course, it was also related to the fact that Fairy Aoki hadn't really grown up.

Tao Junqi of the Greatest Heaven Sect needn't say more, the dignified and majestic elder have excellent aptitude, and her appearance and figure was top-notch. If there was only one shortcoming, it was that she was several hundred years older than Yang Chen. But after cultivating for a long time, who would care about this mere hundreds of years? Wasn't Shi Shanshan and Gao Yue a hundred years older than Yang Chen?

It was a pity that at this stage of the late Dacheng stage, Tao Junqi's cultivation was slightly deviated. Even after the guidance of senior Liu Fengzi, it could not be completely corrected in a short period. Now Tao Junqi has a direction to correct it, what was lacking was only time.

Moreover, Yang Chen was very aware of Tao Junqi's future, she was also the master of the Profound Heaven Sect in the Immortal world. Her cultivation might not be comparable to that of Shi Shanshan, but Fairy Junqi's name could also shock a large number of people.

Such a master was even willing to perform double cultivation with Yang Chen for the sake of the sect. Because the difference in cultivation between the two sides was not small, Tao Junqi was even willing to serve as Yang Chen's cultivation cauldron before Yang Chen's cultivation reached her realm.

Tao Junqi was an innate fire attribute spiritual root, which absolutely matches Yang Chen's innate spiritual root. Acting as a cauldron, but her own cultivation base was stagnant, and she would be completely fulfilling Yang Chen. Who can imagine that a master in the late Dacheng stage master being a cauldron?

Coupled with Tao Junqi's identity as an elder of the Greatest Heaven Sect, so self-reliant, taking her out was simply a sight that made countless people coveted. If you want to have face and you want to have status, could there be any man who can refuse such beauty?

As for the Five Elements Sect, they took out five beauties at one time. These five beauties were quintuplets themselves, and they were completely identical in body shape and appearance, it was difficult for the world to distinguish them.

This was not the most special thing. The quintuplets were born with a five-element attribute, and the five people together form a complete five-element array. In particular, the five women were almost in the same mind, and the power of the formation was simply unparalleled.

In Yang Chen's mind, there were memories of the five sisters of the Five Elements Sect. Although the five sisters were not as talented as Shi Shanshan and Sun Qingxue, the difference was limited.

The five women were the masters of the Five Elements Sect guarding the sect in the Immortal world. Just the five women, they blocked hundreds of crazy attacks by the devils in the Immortal world.

Many people now know that Yang Chen was a cultivator of the five elements, and their five cultivation bases were exactly the same, they were sisters of the five elements. It was simply the most suitable for Yang Chen to be a double-cultivator companion. Of course, the five girls were also a little older, they were older than Shi Shanshan, but not as old as Tao Junqi.

The beauties that other sects took out were not on the same level as those of the three major sects. Those women who still need Yang Chen to use the hundred year pills and the questioning inner heart pills to improve their cultivation, can they be compared with these women who will be all-powerful in the immortal world in the future?

From this point of view, the three major sects really showed their sincerity. Of course, on the other hand, it also shows that they are generally optimistic about Yang Chen.

After all, in the mortal world he was a fifth-grade alchemy master, and he was only in the Yuanying stage. Who knows if he will reach the level of a sixth-grade alchemist before he ascends? Such an alchemy genius, coupled with those peerless pills, was enough to make any sect be tempted.

Chapter 578.1: Marriage Proposal

To be honest, Yang Chen was really surprised when he saw these conditions.

These are the prices that Yang Chen paid for in the past. Although they are a bit high, there are examples from the Green Jade Immortal Island and the Blue Cloud Sect. The two major sects have been taken care of by Yang Chen so these prices were not very surprising.

It's just that Yang Chen never thought that the Five Elements Sect, Qiankun Sect and the Greatest Heaven Sect would be willing to pay such a price for him alone. You must know that this does not include the loss of reputation caused by Yang Chen's betrayal of his sect. In this regard, if the three major sects want to settle, it will inevitably cost a higher price.

If it was replaced by anyone, it was estimated that such a high could not be tolerated. Jumping from a small sect to become the core disciple of one of the five major sects, and being accompanied by beautiful women, was definitely an improvement, like becoming a dragon.

But this happened to Yang Chen, and it could only be said that the three major sects still underestimated Yang Chen. To put it in a bad way, it was seriously underestimated.

The Green Jade Immortal Island and Blue Cloud Sect were also part of the five major sects, and their respective genius disciples were now Yang Chen's wives. Even if Yang Chen wanted to change sects, he would at least choose two more familiar sects, right? They believe that with Yang Chen's ability, he will definitely receive better attention in the Green Jade Immortal Island and Blue Cloud Sect.

As for the other small sects, let alone, Yang Chen doesn't have to think about it. These things can be used for Gao Yue and Gongsun Ling's fun. They don't need to be discussed on the table, it was impossible to agree.

The hundred year pills test was successful, and Yang Chen still needed to make a batch. This time, he used the demon orbs of the demonized demon vines, and he was able to produce a lot of medicinal pills.

Soon, Yang Chen reluctantly retreated and made alchemy again. In this regard, all parties were psychologically prepared. The first time it was to ask for directions, they did not expect Yang Chen to be tempted to think about it. When the hundred year pills were officially launched, he believed it was what all parties strive for.

When refining the hundred year pills, Yang Chen thought about the reduction in the efficacy of the huge demon orb after the separation. Among the hundred year pills, they became the core.

The first batch of hundred-year-pills directly produced nearly a thousand pills of the second grade hundred-year-pills, and ten of them even reached the efficacy of the fourth grade. According to Yang Chen's speculation, the increase in cultivation could reach eight hundred to one thousand years. It was not too much to call it a millennium pill.

In particular, these ten medicinal pills were the most important part of the medicinal effect. Basically, they could be said to be the essence of this medicinal pill. Next, Yang Chen continued, and after refining two demon orbs, he obtained a total of nearly 5,000 second grade hundred year pills and fifty fourth grade hundred year pills.

When he left the seclusion again a year later, Yang Chen delivered some of the medicinal pills to the sect, and the rest were given to Shangguan Feng, so he started to organize an auction in the ten thousand treasure building.

Many sects were waiting for the official hundred year pills to appear and see the efficacy of the pill for themselves. For some things, hearing could be false, but seeing was believing. Although it was unlikely that such a superficial thing would happen with Yang Chen, this kind of expensive thing was also carefully sailed for ten thousand years, and it was better to be cautious.

The first ten hundred-year-old pills were bought separately, and the most expensive one even reached twelve kilograms of top-quality spirit stones. This price was also the price at which the major sects want to take the goods directly from the Pure Yang Palace in the future. As for if they want to ask for more, they need to compete with others from the auction house.

At every moment, there were countless masters who were trapped in a bottleneck and even close to the end of their lifespan. These ten hundred-year-old pills were sold almost within a day at the auction within the territory of the Pure Yang Palace.

It must be said that Yang Chen's reputation in alchemy was still very strong. With ten medicinal pills, eight Yuanying stage masters who were trapped in the realm broke through their bottleneck, and three of them caused the yin fire tribulation to appear almost on the spot and successfully survived the tribulation, the rest was to cultivate with diligence.

The remaining two were masters of the Dacheng stage, one entered the late Dacheng stage from the middle Dacheng stage, and the other entered the middle Dacheng stage from the early Dacheng stage.

The ten hundred year pills were all successful. This time, no one doubted the medicinal efficacy of the hundred year pills. They began to prepare spirit stones and planned to bid at the next auction.

When the news came, the major sects came to the sect one after another and began to buy medicine pills. Anyway, the Pure Yang Palace promised to give a batch of medicinal pills to the major sects in batches. These medicinal pills must be in hand first.

The Green Jade Immortal Island and Blue Cloud Sect still sent Shi Shanshan and Sun Qingxue, but they were accompanied by two more Dacheng stage elders. After all, these medicinal pills were invaluable, and they must be guarded by experts to be at ease.

After a short period of time, the couple met, and while they were happy, Yang Chen gave each of the two girls a small surprise.

“This elixir is different from those, it can basically increase the cultivation base by eight hundred to thousand years.” Yang Chen took out four of the core thousand-year-old pills and gave two to each of the two women “You keep one for yourself, at the critical moment use it just in case. The other one is to be handed over to the sect, which is a gift from your husband to your sect.”

A thousand-year-old pill, for any one of the two women to take, the consequence of increasing their cultivation base by a thousand years was to directly achieve the effect of the peak Dacheng stage. In the mortal world, it was basically impossible for anyone to harm them.

Another favor was given to the Green Jade Immortal Island and Blue Cloud Sect. The two women were now strong in their own fighting power, and their status in their respective sects has improved. Coupled with Yang Chen’s unremitting support, it was impossible not to be taken seriously by the sects.

“Our husband is now highly valued, and a large number of beautiful women are willing to marry you.” Gao Yue said with a smile when she received the two sisters in the sect.

When the family was reunited after their official business was over, Gao Yue and Gongsun Ling naturally took Yang Chen to make fun of him. Those jade slips that recorded the conditions of each sect became the happy pastime of the four women.

Every beautiful woman who appeared will be judged by the four women, and even some people like Fairy Aoki will be specially commented on. What they are good at and what they were bad at, what are the benefits of taking them, etc. The serious energy seems to be like the four women choosing a concubine for Yang Chen.

Facing the happy ridicule of the four women, Yang Chen was also full of happiness. He was half-lying and hooked on the waists of Shi Shanshan and Sun Qingxue. He closed his eyes comfortably, listening to the four of them chatting. Seeing these gossips that only women in the mortal market talk about, there was a sense of peace and fulfillment in his heart.

This kind of life was the real life of flesh and blood, right?

Chapter 578.2: Marriage Proposal

No one will take these things seriously, it was absolutely impossible for Yang Chen to betray the sect. The four girls knew this from the beginning, and naturally they would not agree to the conditions of those sects.

Moreover, even if the women from the three major sects were stunning, so what? The four women were not fuel-efficient lamps either. No matter in terms of appearance, figure, or emotional foundation, they can't be compared with just a few beauties, the four girls didn't even feel any threat.

"My sect wants the pill recipe." After the family enjoyed enough time to reunite, Shi Shanshan reluctantly said another small request from the sect.

"It's the same for us here." Sun Qingxue also followed in a low voice. In their eyes, being able to get the medicine pill at the bottom price was already because Yang Chen took care of their own sect for their own sake. Now that they wanted the pill recipe, they seemed a little greedy.

"It's not surprising." Yang Chen smiled, but he didn't realize the surprise, his arms tightened, and he kissed the two women's faces gently "Don't worry, I'll sell all the pill recipes for the questioning inner heart pill and the hundred year pill. It's nothing, as long as there is enough price."

The two women may just want an answer, but did not put forward any price on the spot. However, with this result, they can already go back to do business, and it was a kind of credit.

“However, I think you should try your best to convince the sect, it’s better not to.” Yang Chen suddenly added “When I refine that space connection point, the demon orbs will become less and less in the future. It doesn’t make much sense. If your sect doesn’t mind. Let’s talk about it, this time I will give you a 20% discount.”

The last time they asked for a pill recipe, Yang Chen gave the two sects a 50% discount. This thing can’t happen again and again, so although Yang Chen still gave the Green Jade Immortal Island and Blue Cloud Sect a discount for the sake of the two women, it has improved a lot.

The sects hope that the sooner they can get the hundred year pills, the better. Many sect representatives were waiting in the Pure Yang Palace. As soon as the auction results come out, the pills will work. Immediately, someone took out enough spirit stones and took away the medicinal pill.

The five major sects were rich and powerful, and they could collect the fifty kilograms of top grade spirit stones needed for the medicinal pills at one time, only the five major sects could do it.

However, soon Yang Chen saw the representatives of the Five Elements Sect, Greatest Heaven Sect and Qiankun Sect again, but they were not the women from last time. This time, they once again gave Yang Chen a jade slip, which recorded the little requirements of the three major sects.

The three major sects asked for pill recipes, Yang Chen was not surprised at all. These big sects think about things that they can control in their own hands, they want to keep it in their own hands as much as possible. This kind of thinking was also correct. If it was always controlled by others, of course, it was not as good as mastering it yourself.

A few sects even regularly publish some research results to gain fame. Yang Chen’s questioning inner heart pills, including the formation of Everlasting Universe Origin Suppression Great Formation Formation, was obtained from the spiritual world for this reason.

What surprised Yang Chen was that Tao Junqi, Fairy Aoki as well as the quintuplets of the Five Elements Sect, were still the price of the three major sects in exchange for pill recipes. No wonder they didn’t come this time, this was the reason.

Yang Chen already has four wives, and two of them were disciples of the five major sects. In the eyes of others, it was not a big deal for Yang Chen to have more wives. These women, no matter their background, appearance or cultivation qualifications, will not humiliate Yang Chen.

Now what Yang Chen just can't understand, wasn't it a bit too much for the three major sects to be willing to pay such a price for a mere hundred-year-pill recipe?

This was not the complete price. The other conditions are the rare fire seeds, top-level medicinal materials and refining materials that they have paid. It could almost be said that just using these fire seeds and medicinal materials was enough to buy the pill recipe. The three major sects also being willing to pay the price of a beautiful disciple was really staggering.

In fact, Yang Chen was still in the game, and he couldn't understand some things. Although Yang Chen had planned his future, he had never imagined what kind of status his future would have in the eyes of the top five sects.

In the Jiedan stage, he was a fifth grade alchemist's alchemy genius. What will people look forward to in the Dacheng stage? For Yang Chen, he has already experienced the experience of the Demon Continent. Was there any suspense in breaking through the Dacheng stage?

Such a person, no matter what the major sects want to win over, even if he was not in their own sect, they must maintain a good relationship. At present, the Green Jade Immortal Island and Blue Cloud Sect have taken the lead in this regard, and of course the other three have to catch up.

Sending out these female disciples was in the hope of forming a good relationship with Yang Chen. In the future, when Yang Chen was of any benefit, through these female disciples, they can also win some good prices. Even, several sects guessed that Yang Chen might have a magic weapon that parasitized the primordial spirit of a senior, and they also wanted these female disciples to do everything possible to find it from Yang Chen.

For this reason, getting in touch with Yang Chen ahead of time has become a priority for several major sects during his time. Even if there was a Everlasting Universe Origin Suppression Great Formation Formation in the Greatest Heaven Sect, they were thinking about this. At least before the grand formation can exert its power, it is necessary to capture Yang Chen. They will just wait for a certain day in the future to directly take the Pure Yang Palace into the bag with the power of thunder.

In this regard, Yang Chen did not hide it from his wives. After showing them, Yang Chen gave a reply from the great sect. It's still the old rule, two kinds of seventh-grade fire seeds, or other materials of equivalent value, as for people, it was not necessary to consider for the time being.

What Yang Chen didn't expect was that the Green Jade Immortal Island and Blue Cloud Sect were fine, but the other three sects agreed that Yang Chen would not have to bear the pressure of the Green Jade Immortal Island and Blue Cloud Sect. It will be resolved, but the female disciples who promised to give Yang Chen bluntly told them that they proposed marriage to the head of the palace.

Propose marriage? Hearing these words, Yang Chen shook his head like a rattle. What was this? When he proposed marriage to Shi Shanshan and Sun Qingxue, many people laughed at him for wanting to eat swan meat. Now the three major sects have turned around and proposed marriage to the Pure Yang Palace. He can't help but say that the changes in the world were really exciting, which made him speechless.

Yang Chen naturally disagreed, joking, how could he accept it without friendship? Even he and Shi Shanshan had been in contact with each other before, and then they came together step by step. How could a few sects be able to make Yang Chen nod with a single word?

However, the minds of the three major sects were very determined, and they even announced this matter directly to the outside world. As soon as the news came out, there was another flurry of chickens and dogs storm in the dao domain.

Chapter 579.1: Love Is An Eternal Topic

It was not that there was no precedent for marriage between them. The Pure Yang Palace, Green Jade Immortal Island and Blue Cloud Sect were obvious examples.

Of course, compared to the two major sects, the Pure Yang Palace was still weak. From the perspective of the sect, if it was necessary to divide the primary and the secondary, the Pure Yang Palace was still a little higher.

However, as soon as the news of the three major sects proposing marriage to the Pure Yang Palace spread, no one thought that the three major sects were courting the Pure Yang Palace. Everyone understands that this was all for one person, Yang Chen.

And Yang Chen also used his own series of unique medicine pills to prove to everyone that he was fully qualified to be courted by the three major sects. There was no doubt about this, and no one has any objection.

Yang Chen was not mentally prepared for this. Although he knew that the other party would use beauty as tricks, he thought that as long as he didn't pick up, he should be fine, but he didn't expect the other party to use such a method.

The reason for the unification of the three major sects was that these female disciples of their own family have always admired Yang Chen's character, so they intend to have a close relationship with him.

The Pure Yang Palace side did not seem to have expected this, and they were all a little stunned. Fortunately, Yang Chen was still able to grasp it, and he was not dazzled by the reputation of several beauties. After a detailed discussion with Yang Chen, the palace master declined this time.

The Green Jade Immortal Island and Blue Cloud Sect disliked the behavior of the three major sects, and they also sent people to the three major sects to protest. They've seen it posted above, but they've never seen such a shameless face. If the Pure Yang Palace can't stand the pressure or Yang Chen was fascinated by beauty, their previous hard work and the little advantage they have finally built up will gradually be leveled by the three major sects. How could this be possible?

The five sects were not a harmonious group, and everyone was in an orderly competition. In terms of rejecting the three major sects, the Green Jade Immortal Island and Blue Cloud Sect firmly stand on the side of the Pure Yang Palace. If the suppression fails, will it be changed to win over immediately?

Although the three major sects were politely rejected, they were not annoyed, but there were rumors that several the fairies seemed to be sad and sullen because of this. Such a swaying beauty, was Yang Chen still a man?

It was better to be drunk and whip a famous horse than to be too affectionate with a beautiful woman. Yang Chen naturally knows that his refusal will make many fairies who are looking up to the curtain rejoice and add hatred. But Yang Chen couldn't say much about it, it was better not to say more and make more mistakes.

The major sects also quickly took the hundred year pills away, so they were all pleasantly surprised to find that in addition to the fifty hundred year pills they bought, they also got a millennium pill at the price of one hundred year pill. This was a great favor, and even if the three major sects were unhappy, they cannot but recognize this favor.

The first thing that the people from the five major sects did when they brought back the hundred year pills to the sect was to invite some seniors who were in closed seclusion, and give some of them to these people.

The reason why these seniors were in closed seclusion was because of insufficient cultivation or lack of confidence. Now, with the help of one or more hundred year pills, in just one month, the five major sects combined had hundreds of masters to overcome the tribulation to ascend.

Such a scale has directly frightened many sects, they thought that there were already many masters in their own sect. At least in terms of number, they were already on an equal footing with the five major sects. They were planning to find a suitable opportunity to turn the five major sects into six big sects or the seven sects or something. But when this group of masters survived the tribulation, it immediately scared all those ambitious sects back.

There were on average more than 20 masters per sect who are not confident enough to rise above the tribulation. These were all masters at the peak Dacheng stage, but those disciples who are just closed doors are not counted as those with good qualifications and confidence. A complete expert, thinking about the consequences of acting rashly, countless people were covered in cold sweat.

Not to mention those sects who did not know the details of the five sects, even Yang Chen himself was taken aback. To be honest, Yang Chen himself thought that the Pure Yang Palace had also become a first-class sect, and was catching up with the super-first-class sect. Only now did he realize how short-sighted he was in the past, even if he had the memory of being reborn for ten thousand years, he was still a frog in the bottom of the well.

If it weren't for the appearance of the hundred year pills, it was estimated that these hidden strengths of the five major sects would not have been discovered. Those masters who have recently ascended, should be said to be the disciples who have made great contributions to their respective sects, and it was estimated that taking the hundred year pills was the reward given to them by the sect.

Although everyone understands that taking the hundred year pills was not the right way, but the major sects were still so active in buying it, so this was the reason. As long as there are the hundred year pills,

there was no fear that some disciples will not be able to break through at the last minute, and the goal was to maintain the unity of the sect and enhance the centripetal force of the disciples.

Yang Chen was a little annoyed now, was it cheap? You must know that after this encounter, the disciples of the five major sects must all strive to dedicate themselves to the sect? If he had to deal with the Greatest Heaven Sect, the difficulty will increase.

But after thinking about it, this was the best way. On average, more than 20 masters who took the hundred-year pill to ascend, it was estimated that it took a lot of hundred-year pills. Each sect has fifty pills, how many are left? This exclusive resource that he has mastered must be able to bring more benefits to himself and the Pure Yang Palace.

At this point, even if it was the Greatest Heaven Sect, it can't just find a reason to change the Pure Yang Palace. The five major sects all want to get all kinds of medicinal pills from Yang Chen. How can other sects tolerate the Greatest Heaven Sect eating alone?

Unless the five major sects have such thoughts at the same time, but this was unlikely, at least the Green Jade Immortal Island and the Blue Cloud Sect are difficult to pass.

Until now, it was the time when the Pure Yang Palace truly stands in the first-class sects and can stand for thousands of years or even longer, and when the Pure Yang Palace was truly safe.

Everyone understands that the major sects could get the hundred year pills, not to mention the Pure Yang Palace. As a result, many rogue cultivators and demon cultivators, the first sect to choose to serve must be the Pure Yang Palace. No matter how rich the five major sects are, it was impossible to pay more attention to a master who will be effective in the later stage. The treasured resource of the hundred year pills will never be easily taken out. Only the Pure Yang Palace could provide it in large quantities.

As a result, the influence of the Pure Yang Palace increased again, just like one of the most dazzling stars in the sect.

Of course, what people talk about more was the story of the seven women of the Qiankun Sect, Five Elements Sect and the Greatest Heaven Sect fighting for Yang Chen, especially when this man already has four beautiful wives.

Chapter 579.2: Love Is An Eternal Topic

Whether in the mundane world or in the cultivation world, love seems to be an eternal topic, especially when it involves a total of eleven beauties, and all of them were from extraordinary backgrounds and were stunning in the cultivation world, they will be more sought after by people.

How many male cultivators were imagining how wonderful it would be if they were Yang Chen, and the beauties from the five major sects were captured in one go, they were wandering in the colorful battles.

All kinds of jokes became more and more mysterious, and even Yang Chen had various love entanglements with this beautiful woman hundreds of years ago. The story of jointly resisting the wild flowers outside the home spreads more and more widely, making people laugh and cry.

On the contrary, the protagonist and his four beautiful wives in the episodes have experienced of the red dust and after watching the reincarnation of the red dust.

“Husband, otherwise, you can take the five sisters of the Five Elements School!” Gao Yue sometimes even teased Yang Chen, and together with Gongsun Ling, they persuaded him a lot “our sisters are not your opponents at all, every time we can’t make you completely happy. They have the same mind, maybe the husband who they can serve would be more comfortable.”

Regarding the boudoir affair, after Yang Chen forced the four women to sleep together, the estrangement between the four women was much lessened, but Gao Yue and Gongsun Ling were still close, and Shi Shanshan and Sun Qingxue were close. However, Gao Yue was right, Yang Chen’s body was far stronger than they imagined. Even if the four women were added together, sometimes they really can’t make Yang Chen completely satisfied.

After being nourished by the life essence of tens of thousands of immortals, Yang Chen’s body was already unbelievably strong. In addition, the yellow turban warrior body refining technique has already reached the sea pouring strength. Not to mention that the four women were only Yuanying stage masters, even if they were masters of the Dacheng stage, they were not necessarily Yang Chen’s opponent.

Although Gao Yue was clearly speaking in a mocking tone, she still had no such thoughts. At least she didn't want her husband to be just a little satisfied every time, they themselves were floating in the clouds countless times. If so many people really helped, maybe it would really make Yang Chen happy.

To tease his master and wife, Yang Chen could only pout and rolled his eyes. What a joke, Sun Qingxue and Shi Shanshan have gone through so many things before they came together with him, and everyone was now husband and wife together, how happy they are. If they want to suddenly join a group of strangers, wouldn't they be embarrassed?

If nothing else, there were many secrets in Yang Chen, Yang Chen didn't hide it from his wives. If those women join, these secrets will definitely be known, which means that the three major sects will know, and this alone was enough to make Yang Chen retreat.

Thinking about it, he knew what the purpose of these women was. Yang Chen didn't want to be surrounded by the eyes and ears of other sects, then would he do something else?

Everyone was joking, they were never serious. As for what it will look like outside, Yang Chen doesn't care, what he has to do now was to stay in the sect for a solid period of time and continue to consolidate his cultivation base, purify the ultimate demonized demon vine and then refine the two spatial connection points.

A series of masters from the five major sects have risen through the tribulation, directly causing an uproar in the entire cultivation world. If Mu Mingyuan just let everyone see the effect before, and the first ten pills just let everyone understand that they could really increase their cultivation, then this group of masters will directly push the hundred year pills to the altar.

Not only the dao sects, but the whole monster race and demon sects were boiling, and countless masters began to find various channels to go deep into the dao domain and come to the Pure Yang Palace. Everyone's purpose was the same, and that was the hundred year pills. Of course, it would be the best thing to do if they could get the questioning inner heart pills along the way.

Everyone was excited, but some people were especially excited, and some people were unusually depressed. The most depressed one was Li Liheng, the young sect master of the Greatest Heaven Sect.

The effect of the hundred year pills was so powerful that Li Liheng directly sees a shortcut to cultivation that can be gained for nothing. However, the core elders of the Greatest Heaven Sect would definitely not want him to take the hundred year pills.

But no one knew Li Liheng clearly, if there was such a shortcut, why did he have to cultivate stupidly? Everyone said it was a partial door, but what was the trouble, everyone had ascended to the spiritual world, and no one knew. It was impossible to say that this was just a statement, let him dispel this idea.

If it was said that not being able to use the hundred year pills made him unhappy, then the formation eye of the Everlasting Universe Origin Suppression Great Formation cannot be used. It was obvious that directly increasing the cultivation base has such a powerful effect, and he was forced to swear that he cannot use it. This made Li Liheng more unhappy, how unhappy will he be in these days?

Compared with Li Liheng's unhappiness, Yang Xi and Yang Lan did not know how excited they were. The effect of the hundred year pills was so excellent, which means that the effect of the eye of the Everlasting Universe Origin Suppression Great Formation was also excellent, which also means that one day, even Yang Lan, whose cultivation qualification was not very good, by relying on this salvation, she could ascend to the spiritual world.

Those masters who have taken the hundred year pills were simply trying to prove to Yang Xi that they can successfully survive the tribulation only by relying on their cultivation base and not needing to cultivation state of mind. In particular, Mu Mingyuan from the Pure Yang Palace, a crippled person, can actually soar directly with his powerful cultivation. Could such a good thing be arranged by God for Yang Xi to take revenge on Yang Chen?

Yang Chen, this hateful guy, relying on the magic weapon stored with a primordial spirit who doesn't know which senior, thought that he could cover the sky with one hand, and could cause trouble for him? Now that the heavens have given Yang Xi a good road, he was just waiting for the success of the Everlasting Universe Origin Suppression Great Formation, then it will be time for Yang Chen to pay the price.

Don't talk about humiliating Yang Chen as much as he like, what if he just kill him? With the Everlasting Universe Origin Suppression Great Formation, the Greatest Heaven Sect was equivalent to having countless hundred year pills, millennium pills and questioning inner heart pills. Whenever they want to improve their disciples' cultivation, they could upgrade their cultivation, will they also care about a small alchemist?

At that time, all the hardships and humiliations that he has suffered will be repaid to Yang Chen a hundred times, a thousand times and a hundred thousand times over.

Chapter 580.1: Guiding New Disciples

“What? Are you going to teach the disciples of Yixiu Villa?” Hearing Yang Chen’s words, even the master of the palace couldn’t help but jump up.

Where was Yixiu Villa? It was the place where the newly recruited disciples of the Pure Yang Palace, who were not even the disciples of the outer sect, stayed. Generally speaking, it was a common practice to have a disciple at the foundation-building stage. With Yang Chen’s reminder, there are now a few disciples of the ninth level of Qi refining stage following the guidance, and this step was already the limit.

Yang Chen, a Yuanying stage master, went to a place where almost ordinary people gathered. The huge difference in identity could surprise the palace master.

Although Yang Chen had served as a disciple of Yixiu Villa before, it was only when he was building his foundation. It would be a waste to send a Yuanying stage Patriarch over there. With this time, it might be more cost-effective to let Yang Chen refine a few pots of pills.

“This disciple has an idea that needs to be verified by these new disciples.” Yang Chen didn’t hide anything, he just explained to the master of the palace with this reason “If verified, it will greatly improve my Pure Yang Palace’s status and reputation.”

After all these years, because of the double cultivation with Wan Qian, the master of the palace has reached the peak Yuanying stage, and he will be able to face the tribulation, he was just waiting for the right time. Recently, spending time and energy in charge of the main sect was also equivalent to an experience for the master of the palace.

Originally, the Palace Master would not agree to Yang Chen’s request, but after hearing Yang Chen’s explanation, he couldn’t help but hesitate.

Yang Chen, the young palace master, has never lied in front of them. Every word he said seemed to have become a reality or was becoming a reality. Now Yang Chen said that if the reputation of the Pure Yang Palace could be greatly improved, it would definitely improve.

After discussing with several elders, the master of the palace finally agreed to Yang Chen's request. Not to mention anything else, Yang Chen's skill in guiding his disciples was beyond anyone's reach. This has been proven a long time ago.

That group of disciples who had been instructed by Yang Chen back then. Now the one with the worst aptitude was also in the early Jiedan stage, and the highest one has already passed the tribulation, and his cultivation base was almost catching up with Yang Chen, the middle Yuanying stage. All of this was because when they were laying their foundation, they had the guidance of a master-level teacher like Yang Chen.

Now that Yang Chen has returned to Yixiu Villa again, they don't know how many people who know the old things were envious of this new batch of disciples. But envy was envy, this was a blessing and cannot be forced.

Yang Chen came to point out the new disciples, it's just a call at a critical time. As for enlightenment, there's no need for his old man to take action. When all the new disciples saw Yang Chen, they all had to pay homage to their ancestor.

The reason why he wanted to come to Yixiu Villa was because Yang Chen calculated that the time was about the same and decided to make the matter of the postnatal spiritual root public. If this matter was not made public, he believes that in less than a hundred years, the Greatest Heaven Sect will also announce these things. Instead of letting the Greatest Heaven Sect be a good sect to improve their reputation, it was better to let Yang Chen and the Pure Yang Palace get this benefit.

In the cultivation world, there are also researchers like scientists, and their interest was not in combat. Instead, it was studying various ways of cultivating. Basically, every sect has such a hall, even the Pure Yang Palace was no exception.

Most of the research results of these researchers will be protected as the secrets of the sect, but there are also many times, these research results will choose to be made public. On the one hand, it enhances the influence and reputation of sects, and on the other hand, it also means to promote all sects to follow their own research directions. Similar to various modern industrial standards.

A sect that has mastered this standard, naturally, there was an advantage over other sects in a certain direction. Strictly speaking, it was part of the comprehensive strength of the sect.

The reason why the Greatest Heaven Sect has become the largest sect of the dao domain. In addition to the strong armed forces of the sect, this kind of research was also indispensable. Basically, many things in the cultivation world were provided by the Greatest Heaven Sect.

In the previous life, the Greatest Heaven Sect announced the discovery of the postnatal spiritual root, and its influence was even higher. In this life, Yang Chen will naturally not let the Greatest Heaven Sect get this status.

Naturally, it was impossible for Yang Chen to come up with this result just a few days after going to Yixiu Villa. Naturally, he would have to stay in Yixiu Villa for several years or even decades before announcing the discovery of the postnatal spiritual root. Therefore, those who have joined the Pure Yang Palace over the years are really blessed. This kind of advantage accumulated from the beginning was definitely an ecstatic surprise.

Basically, just like in Yixiu Villa back then, Yang Chen would generally give centralized guidance every few months, and everyone could take turns.

Now there are dozens of times more new disciples in the Pure Yang Palace than in the past, and it will naturally take a little more time. However, for Yang Chen, giving pointers to a few juniors at the first level of Qi refining stage was definitely no effort.

The hundred year pills were still spreading wildly, the ten thousand treasure building would auction five pieces every year in its own auction hall. Just relying on the face retaining pills and the hundred year pills, the ten thousand treasure building has vaguely become the number one trade name in the mortal world, and with these specialties, even the Greatest Heaven Sect trade name cannot compete with the ten thousand treasure building.

Several beauties from the three major sects and Yang Chen's romantic affair were still being passed down by word of mouth among the cultivators. At this time, it was the best way for Yang Chen to ignore it and let this trend cool down slowly, otherwise it will become more and more difficult.

When he came to Yixiu Villa to give pointers to the new disciples, Yang Chen had the intention of avoiding the limelight. As long as he doesn't show up, people don't have the goal of gossip, and naturally the limelight will gradually decrease.

The five major sects unanimously chose to buy the pill recipes of the hundred-year-pills. Of course, the Pill Cauldron Sect, which has always been proud of refining pills, was no exception. Now, Yang Chen was the recognized master of alchemy in the cultivation world, and several masters from the Pill Cauldron Sect were behind Yang Chen respectively. As for the masters of medicine hall from the five major sects, it seems that their ranking was still lower.

Yang Chen offered the price of two kinds of seventh grade fire seeds for the hundred year pill recipe, which was the same level as the questioning inner heart pill recipe back then. In this regard, no matter whether it was the five major sects or the Pill Cauldron Sect, no one bargained, it seemed that the price was reasonable.

Of course, it was not so easy to find the seventh-grade fire. There were several kinds of seventh-grade fire in the mortal world, and Yang Chen has about half of them. In the end, the several sects basically paid for it with materials of equivalent value.

Chapter 580.2: Guiding New Disciples

Because of the relationship between Shi Shanshan and Sun Qingxue, the Green Jade Immortal Island and Blue Cloud Sect got the internal price and 20% off the external quotation. This price alone has made the two sects extremely happy.

The most unpleasant sect was actually the Greatest Heaven Sect, because of the arrangement of the formation, even with the wealth of the Greatest Heaven Sect, they couldn't help but be stretched. Fortunately, the profound heritage of the Greatest Heaven Sect still has a batch of elixir that has been passed down for more than 100,000 years, which was barely deductible.

This time, Yang Chen received a total of four kinds of seventh-grade fire seeds, and the others were all kinds of top-grade medicinal materials and top-grade refining materials. As for the finished medicinal pills, Yang Chen didn't want it at all.

Because when he left the Demon Continent, he had made a big oath, not to reveal the real situation in the Demon Continent. Therefore, Yang Chen's pill recipes only had the names, weights, and heat of various auxiliary medicinal materials, while the main ingredient, the demon orb, the name didn't even appear.

However, Yang Chen also mentioned that the name of the main material could not be named, because it was bound by an oath, but as long as the major sects sent people to the Demon Continent, they would be able to recognize what it was. On this point, Yang Chen vowed to make a promise, and all the sects also accepted this statement.

Every sect has masters who have been to the Demon Continent. As soon as the demon orb was described, those disciples immediately understood what it was. What made all the sects strange was that everyone knew what it was, but no one talked about it. It must be said that this was a strange phenomenon.

In fact, the news spread from Mu Mingyuan's ascension. Those experts who have experienced it in the Demon Continent know what it was, but they didn't expect it to be so big and pure gold. They thought it was Yang Chen who was playing tricks, but in fact, he put Mu Mingyuan at a huge risk to his life.

But after a hundred years had passed in the various sects, those people will completely understand that this was a clean demon orb from which the demonic qi has been purified. It's just that no one knows how to purify the medicinal properties of the demon orb at the stage of a hundred years of cultivation, and the others were not uncommon.

Even so, the importance of the hundred year pills made the major sects have to pay attention. Soon, they organized manpower to go to the Demon Continent, and specially obtained the demon orb for alchemy.

In this regard, the Green Jade Immortal Island and Blue Cloud Sect were once again ahead of the other sects. With the material given by Yang Chen, Shi Shanshan and Sun Qingxue were also rare rich women in the Demon Continent, and they scavenged for the demon orbs. Of course, Yang Chen would not charge any fees for them to purify their demon orbs.

This batch of low-grade demon orbs went directly into the medicine halls of the Green Jade Immortal Island and Blue Cloud Sect for those alchemy masters to refine the hundred year pills.

The refining of the hundred year pills was not as complicated as the questioning inner heart pills. As long as a fourth-grade alchemist was competent. Soon, the two sects successfully refined the pills in their own sects. When the news came out, suddenly, other sects were stimulated.

Even if other sects have demon orbs, there are no purified demon orbs, and they cannot be directly refined and it takes a long time to wait. It takes decades to go back and forth to the Demon Continent, not to mention the time to obtain the demon orbs.

So, a few sects with demon orbs had to send someone again to negotiate a way to purify the demon orbs. But this time however, Yang Chen said that he would not sell anything.

The way to declare to the outside world was that Yang Chen has a magic weapon. You can purify the demon orb, but you can't do it yourself. No sect could buy this kind of thing. Yang Chen would definitely not sell this magic weapon, but he agreed that he would purify the demon orbs for them.

Several sects had to grit their teeth and once again took out an extra spirit stone in exchange for Yang Chen to purify the demon orbs.

In this way, some guys who vaguely guessed the core inside story of the Demon Continent's training seem to understand why Yang Chen took the initiative to bring his four wives to the Demon Continent to experience the Demon Continent two hundred years ago.

During this time, Yang Chen didn't go out, so Yang Chen's four sweet wives acted by themselves.

Sun Qingxue followed her master, Elder Hua, to cultivate, and the Blue Cloud Sect had basically spread all over the place. She works so hard to inherit the mantle of her master, and the disciples who cultivated in the same way were also legendary.

Shi Shanshan continued her cultivation, going out from time to time to experience and complete some sect tasks. Anyone who knows Fairy Hanmei has found that she was becoming more and more calm and restrained, but her fierce aura has continued unabated. Even if they don't know the turmoil when Shi Shanshan just returned to the Green Jade Immortal Island from the Demon Continent, everyone understands that Shi Shanshan's cultivation has become more and more profound.

Gao Yue and Gongsun Ling worked non-stop for the sect, and spent most of their time running around. The two women now have powerful means, basically there are no twists and turns, they all completed the sect missions one by one without any risk.

Yang Chen stayed quietly at Yixiu Villa to guide the new disciples, which could almost be described as staying at home. In the blink of an eye, twenty years passed by in a flash.

For the past 20 years, apart from giving instructions every few months, Yang Chen has been purifying the demonic qi of the ultimate demonized demon vine. As the nine nether flying sword became more and more powerful, Yang Chen's strength gradually increased, and the speed of absorbing demonic qi became faster and faster. Finally, at the head of the eighteenth year, Yang Chen finally absorbed the demonic qi cleanly.

This second-grade earth Immortal ultimate demonized demon vine was enough for Sun Qingxue to not have to worry about how to cultivate for the next few hundred years. As long as she can absorb and refine this demonized demon vine, Sun Qingxue can be strong for a long time.

For the next two years, Yang Chen continued to use the cultivation method obtained by the Heart Demon Sect to go deep into the space where he refined the Demon Continent. It must be said that this speculative technique obtained in the Heart Demon Sect was Yang Chen's biggest gain when he arrived at the Demon Continent. Basically, all guesses so far have turned out exactly right.

It's just that Yang Chen wants to completely refine that space point, but it can't be done in decades or hundreds of years, this was a very long time-consuming work. With Yang Chen's current spiritual awareness cultivation level of the seventh grade human immortal realm, he can fully use his mind and refine it all the time.

At the beginning of the twentieth year, Yang Chen calculated the time and finally left Yixiu Villa. Soon after, the Pure Yang Palace began to announce to the public that it had discovered the secret of the postnatal spiritual root and disclosed it to various sects.

As soon as the news came out, it immediately caused a madness in the entire cultivation world.
