Chapter 596.1: Shi Shanshan Misfortune

Yang Chen sent Ye Yu back to the Pure Yang Palace, and when his master and apprentice sister were not there, Yang Chen went directly to the Green Jade Immortal Island to see Shi Shanshan.

Sun Qingxue had a very good life in the Blue Cloud Sect. She had a strong master who loved her very much, and her husband was the only fifth-grade alchemist in the mortal world. It could almost be said that she could do whatever she wanted.

Relatively speaking, Shi Shanshan's days in her sect were not so comfortable. Of course, being comfortable is also relative, at least in the eyes of others, the torture of Sun Qingxue being surrounded by blood demon vines can't be said to be comfortable.

Shi Shanshan was still a genius disciple in the Green Jade Immortal Island, and she still has everything she should have. The problem was that some people in the sect treated Shi Shanshan with more hostility.

Her master Song Huan was not originally a strong figure in the sect, so it was not bad to be able to speak for his apprentice, but to support her apprentice in the sect like Elder Hua, she couldn't do it with her ability.

The last time when she just came back from the Demon Continent, Shi Shanshan seriously injured her senior apprentice sister Li Zhiqi, her master Liu Zifang and elder Bei Shuangyu, and fought with elder Min Huafeng.

However, this also made the faces of a large number of people dull, especially Elder Liu Zifang and a large number of people she knew well, and even Pei Shuangyu, was a little unhappy. In front of so many people, Elder Liu and Elder Bei made such a big mess, how could it be possible for them to just forget about it?

With a large sect, it is inevitable that there will be various interest groups and various factions. Even the dao sect leader the Greatest Heaven Sect was like this. As one of the five major sects, how can the Green Jade Immortal Island be exempted from the custom, so there are also many factions within the sect.

After Shi Shanshan returned to the sect, these people began to embarrass Shi Shanshan intentionally or unintentionally. In the allocation of some resources, although there was no deliberate deduction, there are always ways to get stuck in the allocation of time or procedures, so as to achieve the purpose of disturbing Shi Shanshan.

It's impossible for Shi Shanshan to complain to the top management for such trivial matters. Little things like this can't be solved by her, what else could she do.

Shi Shanshan doesn't care if it's only about resources. Following her husband, what kind of precious materials have she never seen? In addition, the net worth of thousands of Dacheng stage masters who they killed in the Demon Continent was divided equally, what else did she want? This little thing of the sect was really not in the eyes of Shi Shanshan.

But when these people saw that they couldn't bother Shi Shanshan like this, they decided to tagert elsewhere. Aren't Shi Shanshan amazing? Then do the sect mission! those dangerous missions. The enemies were tough, and it was a mission of life and death, all piled up to Shi Shanshan.

How could Shi Shanshan, who has experienced the experience of red dust (mortal world), not understand what they were trying to do? However, she returned to the sect, firstly to make up for the fact that she had not contributed to the sect during her years of cultivation, and secondly, to improve her cultivation as much as possible.

When they parted back then, Yang Chen had said that when Shi Shanshan's cultivation became more diligent, he would take her to a place to collect one thing. With such a thing, in the future Shi Shanshan's cultivation will no longer need Yang Chen to guide.

Shi Shanshan kept it in her heart, thinking about improving her strength all the time. After the experience of the demon continent, ordinary sect missions are indeed difficult to achieve the goal of making Shi Shanshan improve in a short period of time, and she needs some tough enemies with dangerous missions to sharpen herself.

These people handpicked the tasks, facing Shi Shanshan's appetite, it also saves Shi Shanshan's time to search in the huge pile of sect quests. Therefore, although Shi Shanshan knew that these people had bad intentions, she took over these tasks and started to complete them one by one.

When Yang Chen arrived at the Green Jade Immortal Island, Shi Shanshan happened to be away, but when she left, she had already said that she would be back soon, so Yang Chen was also waiting at the Green Jade Immortal Island. He is Shi Shanshan's husband so if he lives in Shi Shanshan's courtyard, no one can say a word.

That is to say, in the process of waiting, Yang Chen also learned from the chatter of Shi Shanshan's servants that Shi Shanshan had been excluded from the sect during this period of time, and was immediately furious.

Shi Shanshan was from the Green Jade Immortal Island. She does not cause trouble for her sect, solves the problem by herself, and also takes on dangerous missions to experience herself. Shi Shanshan has Shi Shanshan's pride, such trivial matters, in her eyes, are probably nothing at all. She is so focused on her cultivation that she doesn't want to be distracted to deal with this kind of petty discord.

Yang Chen can understand this, but this does not mean that Yang Chen can tolerate these people treating his wife like this. As Shi Shanshan's husband, his wife was wronged, and she was wronged at her own sect. In any case, Yang Chen had to seek justice for his wife.

Of course, it wasn't that the faction that Shi Shanshan and Master Song Huan belonged to did not support Shi Shanshan. On the contrary, they attached great importance to Shi Shanshan. It's just that Shi Shanshan wasn't tender enough to cry to her master when she encountered trivial matters. He was afraid Song Huan and the faction they belonged to didn't know about these trivial matters.

Only Shi Shanshan's side servants could understand from the resources allocated by the sect that they were plotted against by some guys in the sect.

With Yang Chen's ability, in Shi Shanshan's courtyard, nothing could hide from his eyes and ears. The servants talked in a hidden way, but they seemed to be speaking in Yang Chen's ear, very clearly.

To deal with this kind of secret trick, Yang Chen just smiled coldly, and threatened Shi Shanshan with something that was not uncommon, and those in charge were not very clever. As for fighting with them, Yang Chen wasn't so unprofessional.

However, no reaction is not Yang Chen's style. Since the other party has already made a move, Yang Chen naturally has to respond. Shi Shanshan's matter is Yang Chen's matter. As a husband, it is his duty to come forward to solve it.

The tit-for-tat thing is really too easy to solve. He found the Wine Immortal House people in the market of the Green Jade Immortal Island casually, and asked them to send a letter to Shangguan Peak.

There was no other meaning in the letter. It just asks Shangguan Feng to double the auction interval of the face retaining pills held at the Green Jade Immortal Island auction house every once in a while, and then halve the amount allocated to the Green Jade Immortal Island side.

The Green Jade Immortal Island, where most of them are female disciples, was a terrifying market for the face retaining pills. Yang Chen's arrangement quickly caused a madness in the Green Jade Immortal Island.

Chapter 596.2: Shi Shanshan Misfortune

In the eyes of female cultivators, the face retaining pills refined by Yang Chen was an important strategic resource comparable to the hundred year pills and questioning inner heart pills. That's right, it's a strategic resource. In the minds of the female cultivators, the face retaining pills were so important.

Who doesn't love a youthful glow? Who wants to let their skin look old and rotten? As long as you're a woman, you care about your looks. In terms of profit alone, the profit rate of the face retaining pills was far higher than that of the questioning inner heart pills and hundred year pills.

The Ten thousand treasure building's face retaining pills auction has always been a major event for the disciples of the Green Jade Immortal Island. Every time the auction comes, as long as there is no way to rush back, almost all the disciples who are qualified to participate will join, the competition was fierce.

However, suddenly, the ten thousand treasure building said that the supply was insufficient, and then the auction interval was doubled, but the supply of the face retaining pills was reduced by half, the supply was reduced by three-quarters in the auction, it made these female cultivators go crazy.

If all the sects were dealt with like this, then that's all, there would be no problem, but except for the Green Jade Immortal Island, the supply of the ten thousand treasure building in other places has been

normal and has not changed at all, which makes people have to suspect that the ten thousand treasure building was deliberately targeting the Green Jade Immortal Island.

It happens that the real owner of the ten thousand treasure building, Yang Chen, was in the Green Jade Immortal Island, enjoying the grand reception of the Green Jade Immortal Island. Could it be that something annoyed Yang Chen and made him make such a decision?

Immediately, someone reported the news to the Island master and several core elders, asking them to intervene. The Island Master would naturally not pay attention to such trivial matters normally. The face retaining pills that Yang Chen gave her back then had the best effect. In the mortal world, she didn't have to worry about her appearance changing at all. Of course, the same is true for several core elders, the ones who really care are the female elders below them.

To be honest, the face retaining pills were only aimed at female cultivators who love beauty, the effect was nothing but lingering. It can neither improve one's state of mind, like the questioning inner heart pills, nor directly improve spiritual power like the hundred year pills. For the sect, it was just an expensive consumable, and it was not an indispensable thing for the sect's development.

But things need to be considered from more aspects. Today, the ten thousand treasure building can reduce the number of face retaining pills in the Green Jade Immortal Island. Wouldn't they be able to reduce the questioning inner heart pills and hundred year pills tomorrow?

This was a big deal, and they must not wait until then to think of a remedy. If there is any problem now, it must be solved immediately. Otherwise, if they wait for the other sects to surpass the Green Jade Immortal Island in a big way, they couldn't blame anyone.

From the establishment of the cooperation with the Pure Yang Palace to the present, the strength of the Pure Yang Palace has greatly increased, but relatively speaking, the strength of the Green Jade Immortal Island and Blue Cloud Sect has increased even more. From a proportional point of view, the Pure Yang Palace has grown a lot, but in terms of pure development, the benefits of the Green Jade Immortal Island and Blue Cloud Sect are much greater than that of the Pure Yang Palace.

It was precisely because of the partnership with the Pure Yang Palace that the strength of the Green Jade Immortal Island and Blue Cloud Sect has now steadily surpassed that of the Five Elements Sect and Qiankun Sect and was near the Greatest Heaven Sect. If it weren't for this, the three major sects would not have rushed to force a few beauties around Yang Chen.

The key was still Yang Chen, was it because Shi Shanshan wasn't there that he was dissatisfied? No one at the top knows, but if they have to ask Yang Chen directly like this, it might be embarrassing to say that you have to investigate for yourself what happened.

They started with the cooperation with the Pure Yang Palace first. After checking, no problems were found. Everyone unanimously followed the long-term cooperation agreement, basically nothing happened, and the cooperation was normal.

Since it wasn't a problem with the sect partnership, it was Shi Shanshan. Then, everything that happened since Shi Shanshan returned to the sect was placed in front of the Island Master and the core elders.

Shi Shanshan's life was very regular. After returning, she has been busy with sect tasks, and it seems that everything was normal. But soon the elders discovered something unusual. These sect missions performed by Shi Shanshan were all extremely dangerous missions, and there were even a few missions that could only be completed by Dacheng stage masters, which were even recorded in Shi Shanshan's missions.

If that's the case, it's easy to explain, after all, Shi Shanshan was a master who can compete with Elder Min Huafeng in the Dacheng stage, and it was natural to perform difficult tasks. But referring to the records of the sect resources that Shi Shanshan received, it seemed a little unusual.

According to the usual habits of the disciples of the Green Jade Immortal Island, every month they can receive monthly resources from the sect for cultivation. Even if the disciple herself is not there, her servants will receive it on time every month. This is the case for almost everyone, even the Island master.

But Shi Shanshan's receipt records show that from the time Shi Shanshan left the sect after training from the Demon Continent, it was normal at first, and then the resources allocated became less and less, until Shi Shanshan returned to the sect before returning to normal.

Everyone understands that people are warm and cold. At that time, they thought that Shi Shanshan had been destroyed, so the deduction in this regard was normal, but after returning, the sect still doubled everything owed to Shi Shanshan, which should be no problem.

But the receipt record shows that Shi Shanshan never received it herself, only her servant received it. And not once a month like everyone else, but once a year. Even so, it is not always possible to receive the full amount, which explains the problem.

Why did Yang Chen detain the face retaining pills? Because Shi Shanshan's due share was deducted, and it was also greatly delayed.

"Who is in charge of material distribution?" Before Island Master could ask, Elder Min asked angrily, "Let her get out here immediately!"

Although Shi Shanshan and Elder Min were not on an equal footing, this did not prevent Elder Min from appreciating Shi Shanshan. In particular, Shi Shanshan was still considered to be a major player in her faction, and her own people were bullied like this, how could she take it?

"What happened to Shi Shanshan's monthly payment, tell me!" The responsible disciple quickly appeared in front of the Island Master and the elders. The Island Master also comforted Elder Min and asked first.

There were so many core elders, and when they asked about this matter, how can the disciple in charge still not know that she was in big trouble. Thinking of the recent situation in the ten thousand treasure building, and thinking about the relationship between Yang Chen, the ten thousand treasure building and Shi Shanshan, there was no need to ask, this was Yang Chen's counterattack! The fifth-grade alchemy master wants to trouble her, an ordinary disciple of the Green Jade Immortal Island, so what good result does she have?

"This disciple has nothing to do with it!" With a thud, the disciple in charge fell to her knees, almost lost her soul, and exclaimed quickly, "This is all arranged by Elder Liu, this disciple is just doing what the elder ordered!"

Chapter 597.1: Seven Emotions And Six Desire Pills

"Elder Liu?" Min Huafeng knew who the disciple was referring to as Elder Liu in just a second. Except for Liu Zifang, who was disgraced by Shi Shanshan, there will be no one else.

This kind of small means that can't be on the table doesn't seem to have much impact on Shi Shanshan, but if you want to seriously explore the mystery, it is also the only method that the people have not discussed.

What does cultivation depend on, isn't it just resources? If there are no resources, the speed of cultivation will be greatly reduced, which is a matter of life and death for cultivators.

No matter how wealthy Shi Shanshan was, and she doesn't care much about the sect's small share, such an endless stream of small tricks can always disgust you and make you feel irritable, right?

As a disciple of the sect, she could not harm her fellow sect disciple, and Shi Shanshan would not bother others with such trivial matters, so she could only knock down her teeth and swallow blood, and secretly suffered from this dumb loss.

Cultivation of people in the heart also pays attention to one idea. If you always encounter such depressing and irritable things, your cultivation will be affected no matter what. Even if one thing is not disgusting, Shi Shanshan can't help but not get angry when they arrange one after another. No matter what Shi Shanshan's reaction is at that time, it will not fall.

Everyone has come up step by step from the bottom. Who doesn't know this kind of invisible trick? Liu Zifang actually hit her mind on Shi Shanshan, a genius disciple supported by the sect, was it tolerable, and what is not?

"How dare you do this, Liu Zifang, damn you!" Elder Min cursed, intending to hold Liu Zifang accountable.

"You can't talk like that." Elder Bei Shuangyu next to her, said slowly, just before Elder Min's attack, she blocked her words "Since Elder Liu is in charge of allocating resources for the sect, she must have her in this arrangement. Besides, it's not a deduction, it's just a delay in the distribution for some time, even if it's a little inappropriate, it's not a damn thing, right?"

Bei Shuangyu's speech was not unexpected. She was also the target of Shi Shanshan's instant defeat back then. At that time, Liu Zifang was not the only one who was embarrassed, including Liu Zifang's disciple Li Zhiqi and Gong Chuan elder Bei Shuangyu. Liu Zifang not only vent her anger for herself, but

also meant to please Bei Shuangyu. Everyone was a grasshopper on the line, Min Huafeng wanted to hold Liu Zifang responsible, but Bei Shuangyu must protect her.

When it comes to the dispute between the two core elders, even for the Island master, it was not easy to clearly identify which one she supported. The forces on both sides are similar, because it was not worth it to cause the internal strife in the Green Jade Immortal Island.

Speaking of which, everyone was still worried that Yang Chen's side will cause problems with the supply of the questioning inner heart pills and hundred year pills in the future. If this problem can be solved, the other things are not the point. Although Shi Shanshan is Yang Chen's wife, but the Green Jade Immortal Island is her master's sect, the decision of the sect, as an outsider, Yang Chen does not need to interfere, right?

"So, my family's Shanshan share has to be deducted for no reason?" Min Huafeng was furious. It's a bit too much to dare to argue openly with such an obvious plot.

The Island Master watched the dispute between the two core elders, her face was calm, and she didn't say a word. As the master of the sect, you must always balance the power below, and you can't let one family dominate, so that you can control them.

However, Bei Shuangyu and the others have indeed gone too far recently. Some things are not only aimed at Shi Shanshan, but many disciples have been calculated against by them overtly and secretly. If this approach continues, it will inevitably make many people turn their backs on the sect.

"Elder Liu's move is indeed inappropriate. Provocation comes first, and revenge comes later. I think she should relinquish her elder position first!" Another elder next to her said, which was a relatively fair statement.

"No way!" Bei Shuangyu immediately lowered her face. Even if Liu Zifang made a mistake, she couldn't dismiss the elder's position because of such a small mistake. If this was successful, who else would follow her, even as an elder? She couldn't protect Liu Zifang, let alone others.

"If we don't do this, how should we resolve the matter of the face retaining pills?" Min Huafeng certainly would not miss this opportunity, and immediately asked back. Now Yang Chen has made it

clear that he wants justice for Shi Shanshan, so that if Yang Chen is not satisfied, what they say here is useless.

“It’s only the face retaining pills, is it necessary?” Bei Shuangyu snorted coldly, posing a tough posture.

Her words caused all the elders present to curse. They don’t need it, Yang Chen has already given them better face retaining pills, but the disciples below are fighting for it. A face retaining pill can only manage a hundred years of youth, who doesn’t want to buy a few more? Some disciples kept working hard to save money in order to buy more face retaining pills. According to what Bei Shuangyu said, it would be strange for these disciples not to be angry.

“Whoever causes trouble, is who will solve it!” Min Huafeng sneered: “When the troubles of outsiders are solved, let’s talk about what to do with Liu Zifang.”

The Island finally nodded, which is also the attitude that a suzerain should have. However, she didn’t hold out much hope for Bei Shuangyu’s ability to persuade Yang Chen. If nothing else, she could imagine the price Yang Chen sold to the five major sects. Even if Bei Shuangyu could solve it, it would still be a big deal that made her feel distressed to the core.

At this moment, Bei Shuangyu had no choice but to bite the bullet and come to see Yang Chen. Now Yang Chen was an honored guest, and although Liu Zifang was an elder, she can’t be allowed to plead guilty, Bei Shuangyu was the only one who will show her face.

What surprised Bei Shuangyu was that Yang Chen was concocting pills and no one was there. On the spot, Bei Shuangyu was enraged, one Buddha was born and two Buddhas ascended to heaven. The dignified elder of the Green Jade Immortal Island was rejected on her own site, and she was told by Shi Shanshan’s servant. Yang Chen didn’t show up, how could she not be filled with anger?

However, this anger only lasted for less than a moment, and Bei Shuangyu noticed a very unusual aura, floating out from the place where Yang Chen, who was known as an alchemy master was.

This was not some kind of smell, but a scent that made Bei Shuangyu feel a terrifying dread. It’s just a wisp, but it made a Dacheng stage master feel like this, what kind of miracle is this?

Not only Bei Shuangyu, but other masters of the Dacheng stage in the Green Jade Immortal Island basically sensed this aura, and soon, in front of Shi Shanshan's small courtyard, the elders of the Green Jade Immortal Island arrived. However, everyone stood at the door and no one went in.

"What's going on?" The Island Master asked first.

Chapter 597.2: Seven Emotions And Six Desire Pills

Shi Shanshan's maids have never been as proud as they were today. From the Island master to the elders in Green Jade Immortal Island, they were all stopped by them, standing at the door of Shi Shanshan. From the establishment of the Green Jade Immortal Island to the present, the servants had never been so glamorous. Their lady's husband was indeed an existence that people look up to.

No one cares about the maids, most of the time, the maids were shaking with excitement. The Island Master and the others only cared about what pill Yang Chen was refining.

"This is the aura of the raging wind tribulation." Elder Min Huafeng next to her frowned and said solemnly. She had already sensed the aura of the raging wind tribulation in that wisp of the aura, but she didn't know why, this aura was only a very faint wisp, and was not enough to pose a greater threat.

Most of the people present had the opportunity to see the sect seniors ascending through tribulation, so Min Huafeng was not the only one who felt this way. When Elder Min said this, everyone nodded.

"Did Yang Chen say, what kind of medicinal pill he is refining?" The Island Master called a maid who was serving and asked with a pleasant face.

"I don't know, the Grandmaster only said that he was going to retreat and make alchemy and wait for the young lady to come back, and he didn't say anything else." The maid bowed and replied "However, the Grandmaster seemed to have mentioned something when he first came, he said he wanted to strengthen the chance of passing the tribulation, I don't know if it has something to do with this medicine pill."

The aura of the raging wind tribulation, the enhancement of the chance of passing the tribulation, if these are linked together, it was easy to think of something. Involuntarily, everyone was excited, if their guesses were correct, it should be an elixir that can generally increase the success rate of the tribulation, or something else related, like the heaven seizing pill.

But, in this way, there will be trouble. There is still no explanation for Shi Shanshan's matter, but Yang Chen has tinkered with these new medicinal pills. If the Green Jade Immortal wants it, it will not be so easy. There was also Shi Shanshan's relationship before so Yang Chen would give them a 50% discount. Now that Shi Shanshan was suppressed in the sect, how could Yang Chen be relieved?

Several people's eyes were fixed on Bei Shuangyu's body. Bei Shuangyu felt uncomfortable for a while, and couldn't help but say, "What do I do? I still don't know what kind of medicine he made."

The mouth is tough, but Bei Shuangyu was already a little guilty. Yang Chen made it clear that he wanted to seek justice for Shi Shanshan, which was the case with the face retaining pills before. Now this medicinal pill must have these reasons, otherwise it would not be concocted in the Green Jade Immortal Island but in the Pure Yang Palace. If this medicine pill is really important to the sect, they were afraid Bei Shuangyu herself would not have any good results.

Everyone was waiting curiously, but the aura that escaped from Yang Chen's alchemy didn't change at all. Then, the closed door opened.

It seems that he didn't expect that the elders of the Green Jade Immortal Island would be there, and Yang Chen's face was obviously a little surprised but soon became indifferent. He has seen a lot of big people, there was no need to be too surprised.

"I'm sorry seniors, junior felt bored so I tried to refine a few medicinal pills in Shanshan's place." Yang Chen apologized to the Island Master and the others "I was really negligent!"

Who cares about such trivial matters, what everyone wants to know is the new medicinal pill refined by Yang Chen. Min Huafeng was straight-minded, and immediately asked "Yang Chen, what kind of medicinal pill have you refined, and there is still the aura of the raging wind tribulation in it?"

With Min Huafeng's identity, even if Yang Chen is the only fifth-grade alchemist, he is still a junior, so calling Yang Chen that way is totally fine. Of course, Yang Chen would not have any dissatisfaction with Min Huafeng over this title.

"Junior was just on a whim, and wants to refine some medicine pills to train the state of mind." Yang Chen didn't hide it, in fact, he didn't plan to hide it in the first place "It contains some of the aura of Yin

fire tribulation and raging wind tribulation. This medicine pill that can trigger the outbreak of inner demons on a small scale is called the seven emotions and six desires pill.”

When Yang Chen said this, everyone understood the purpose of this medicine pill. Not only can you feel the taste of the Yin fire tribulation and raging wind tribulation in advance, but it is not too powerful, plus it can trigger inner demons on a small scale, it was indeed the best thing to temper yourself.

It’s very simple to explain, it’s just an elixir that combines the demonic qi with a little bit of Yin fire tribulation and raging wind tribulation aura.

Of course, that was for others, and for Yang Chen, there was no problem at all. There is as much demonic qi as possible, and if he waits for the core of the Demon Continent to be refined, it will continue to flow. Yang Chen has seen the Yin fire tribulation many times, and even when Mrs. Fanghua faced the tribulation, Yang Chen was within the attack range of the heavenly tribulation and collected a lot of Yin fire tribulation’s aura. As for the raging wind tribulation, the gathering point in the core area of the Demon Continent, there was a period of time when people continued to face the tribulation. It was not very difficult for Yang Chen to collect some aura of the raging wind tribulation.

For someone else, of course, there is no such possibility. The aura of the Yin fire tribulation and raging wind tribulation is something that can be collected at will. When ordinary people face a tribulation, they wish they could be at ease with their full attention. Where can there be such a powerful technique as Yang Chen?

Therefore, when Yang Chen naturally took out two pills, one was the Yuanying stage seven emotions and six desires pill, and the other was the Dacheng stage seven emotions and six desires pill. For the sake of distinction, the one at the Yuanying stage was called the seven emotions pills by Yang Chen, while the one at the Dacheng stage was called the six desire pill. The same medicinal effect was just a difference in the level of the person taking it.

Whether it was the aura of the Yin fire tribulation and raging wind tribulation, they are all perfectly wrapped in the medicinal pills, and it is impossible to detect a trace from the outside. Only after taking the medicinal pill, can the medicinal energy be stimulated, and under the aura of the two heavenly tribulations, the demonic qi begins to trigger the inner demon.

The process will be very difficult, but as long as you can successfully survive, your state of mind will be greatly improved, and because you have more early feelings about the aura of the tribulation, the

possibility of passing the tribulation in the future will be much greater. At least they have tried to deal with inner demons in the event of a tribulation.

This kind of medicine pill is simply the best preparation before the tribulation, no one can resist such a pill. In particular, the Island master, although she has reached the peak Yuanying stage, she has not attempted the tribulation for a long time, because of her lack of confidence for the time being. With this, she may be able to succeed immediately.

Although no one has tried the effect yet, since Yang Chen took action, how could it be useless. It seems that if the Green Jade Immortal Island does not solve Shi Shanshan's troubles, it will take a lot of trouble to get this batch of medicinal pills.

"Island master, if you don't dislike it, you can try this seven emotions pill, just to provide some reference for this younger generation junior." Since he had to try out the pill, Yang Chen took it out and sent it to the Island master to test.

Chapter 598.1: I Can't Afford To Hurt You

To temper the state of mind by triggering inner demons with the aura of the Yin fire tribulation and raging wind tribulation was definitely an idea that makes anyone stunned, how much benefit people will get.

It still has the aura of a tribulation, but its power was less than 1% of the real tribulation, it was extremely safe. After triggering the demons, the difficulty of confrontation increases. It can be said that taking a seven emotions and six desires pill was equivalent to a simulation of a tribulation. For those cultivators who are on the brink of a tribulation, but who are not fully confident, this was simply a supreme treasure that was even more timely than the timely rain.

It's not that no one has thought of such a medicinal pill, but, in the mortal world, let alone the Six Desire Pill that contains the aura of the raging wind tribulation, even the Seven Emotion Pill that only contains the aura of the Yin fire tribulation, no one was able to do it, even the masters of the Dacheng stage are no exception.

Without Yang Chen's spiritual awareness at the level of the human immortal realm, and without Yang Chen's means of transcending this world, it would be impossible to achieve this. Without the raw materials, even a Great Lou Golden Immortal couldn't conjure up a seven emotions and six desires pill out of thin air.

Such medicinal pills are precious materials that can make people break their heads wherever they are placed. The most exciting thing is that the Island Master herself was on the verge of this tribulation, at the peak Yuanying stage, even as the Island master of the Green Jade Immortal Island, she still lacks confidence.

Yang Chen sent a seven emotion pill over so easily. The Island Master was already used to seeing big scenes, and she would not feel guilty in front of any earth-shattering character, but faced with this seven emotions pill, the Island Master still couldn't help but tremble slightly.

These people present were still immersed in shock, all watching dumbly, waiting for the Island Master to make a decision.

No one would suspect that Yang Chen wanted use a poison to murder the Island master. Yang Chen never had the courage to do so, nor did he have the motivation to do so. The only thing that was a little bit doubtful was whether the medicinal pill Yang Chen refined had such a medicinal effect.

It's not because they doubted Yang Chen's ability, but it was really too unbelievable for such a thing to be believable. There are still people in the world who can do this.

Yang Chen didn't care about the unbelievable gazes of the people in front of him, this was human nature and a normal phenomenon. Even if the questioning inner heart pill that was used by the two Dacheng stage masters from the two major sects, did they believe in the efficacy of the medicinal pill previously? The current situation was easy to decipher, as long as the Island Master takes it, they will just know how the medicine works.

Normally, the Island master, who would remain unchanged when Mount Tai collapsed in front of her, was facing a small medicinal pill at this moment, but her hands were shaking a little. She turned her head to look at the surrounding elders, then turned back to look at Yang Chen, then, without hesitation, she swallowed the pill.

When the surrounding elders saw this, they all tacitly stepped back a dozen feet, and then imposed a series of restrictions. This small courtyard of Shi Shanshan was directly requisitioned. The Island master was protected in two central protection circles, the elders also sat down around and watched carefully.

The Island master who took the seven emotions pill, immediately sat down with her knees crossed, assuming a deeply calm posture. This was the most comfortable and easiest position to control the inner demons. Soon, the medicinal effect of the medicinal pill began to kick in, and the Island Master immediately sensed its power.

The surrounding elders were unable to detect the situation of the Island Master. There was no other way, this was completely a pill for inner demons. When inner demons attacked, they were invisible and no one else could notice it.

Everyone's eyes were fixed on the Island Master's face, their eyes fixed on her. There was no other way, who would make another elixir that would be useful to each of them? People are not for themselves, and the world will be destroyed. Even the cultivators are no exception. When their own vital interests are involved, everyone will pay such close attention.

An exaggerated smile appeared on the Island Master's face, and they didn't know what she had experienced. The smile went on for a long time, then changed to another angry look.

The surrounding elders watched helplessly as the Island Master kept changing her emotions and expressions in that small circle. What shocked them a little bit was that the Island Master even burst into tears once, which made the elders just couldn't believe their eyes.

In the hundreds of years since she became the Island master, the Island master has never shown such fragile emotions. It was even a hundred times more difficult to make a person who was infinitely close to the Dacheng stage cry.

The mood of the elders began to get excited. This is the effect that they actually saw. If the Seven Emotions Pill works, then the Six Desires Pill is believed to have the same effect. They don't dare to say anything else, that wisp of raging wind tribulation aura escaping during the refining process can't be faked anyway.

Different from the joy and excitement of the other elders, Elder Bei Shuangyu was very conflicted. Speaking of which, Yang Chen's refining of this Seven Emotions and Six Desires pill should be beneficial to everyone. With the relationship between the Pure Yang Palace and the Green Jade Immortal Island, and the relationship between Yang Chen and Shi Shanshan, this kind of benefit will definitely fall on the Green Jade Immortal Island. This medicinal pill is also of great benefit to Bei Shuangyu. Who doesn't want to have a better chance of crossing the tribulation?

However, she and Liu Zifang, who participated in suppressing Shi Shanshan, will never get any benefit from this incident. On the contrary, the sect originally only intended to maintain a balance of power and compromise with each other. To make up for Shi Shanshan's previous deduction, even if it was doubled, it was just some ordinary cultivation materials, and there will be no big loss.

But after the success of the pills, the ending would be very different. The sect needed a pill of seven emotions and six desires, and it was bound to bow to Yang Chen again. Then, in this matter against Shi Shanshan, it was not easy to be kind. Don't dare to say anything else, Liu Zifang will definitely be punished, and she is an elder who spreads the power, and it is estimated that she can't escape the joint responsibility of lax restraint.

Yang Chen's move was simply a draw from the bottom of the pot. In addition to the previous affairs of the face retaining pills, people don't even need to say a word, and the sect has to find a way to settle Yang Chen's dissatisfaction. If this is the result, Bei Shuangyu felt absolutely unacceptable.

The contradictory mood made Bei Shuangyu not know how to deal with it herself. She wanted to give up Liu Zifang, but she couldn't throw away her face. Besides, if she gave up, it would have a huge impact on her in the future.

Chapter 598.2: I Can't Afford To Hurt You

Unlike Bei Shuangyu, but also slightly different from the other elders, was Elder Min Huafeng. Although Elder Min did not serve as the head of any hall, she was indeed a powerful force in the sect.

Unlike Bei Shuangyu, Min Huafeng fully supported the Island Master, so her status in the sect was quite high. Logically speaking, no matter whether Song Huan or Shi Shanshan belong to her faction, no one should dare to have an idea about them.

But Bei Shuangyu and Liu Zifang both suffered huge losses under Shi Shanshan, lost face, and tried their best to target Shi Shanshan. In addition, Shi Shanshan is not the kind of person who likes to make small reports. Her proud personality makes her not care about these small tricks. After returning to the sect, she has been working hard to cultivate in order to achieve Yang Chen's goal, which led to Liu Zifang and the others disgusting little tricks Elder Min didn't even know.

However, as the elder of the Green Jade Immortal Island, Shi Shanshan was still covered by her, and she has suffered such a loss for no reason. It is still up to an outsider like Yang Chen to find out and seek justice for Shi Shanshan. This was simply beating Elder Min Huafeng face up. I can't help my people, and I have to ask outsiders to help, can I still raise my head in the sect?

The two of them had different thoughts, and they were both eagerly thinking of ways in their minds, the Island Master here finally had a problem.

The Island Master took the medicine pill and meditated for a month. During the month, everyone saw with her own eyes the constantly changing expressions on her face and the constant release of various emotions. That's how it went, but they didn't expect that the Island Master's body would suddenly break out at this time.

Pfft, a mouthful of crimson blood spurted out from the mouth of the Island master, and the Island Lord, who was immersed in the tempering of her mood, was a little sluggish for a while. However, for some unknown reason, her internal organs were shaken, and under the invasion of demons, she couldn't help but vomit blood.

This accident shocked everyone, all the elders jumped up for the first time and looked at the Island master in the circle worriedly.

The only person who was ecstatic in her heart was Elder Bei Shuangyu. The Island Master suddenly vomited blood, apart from Yang Chen's medicinal pill, there was no other reason. This alone was enough to cause her to have a seizure.

"Bold evildoer, dare to plot against the island master!" Bei Shuangyu immediately seized this rare opportunity and shouted at Yang Chen. She rushed up directly "If you don't give an explanation, you will be captured!"

When she came up, she first gave Yang Chen a charge of plotting against the Island Master, and immediately attacked. Just take down Yang Chen, there was no way to solve the predicament. Maybe she can get the secret of his becoming a fifth-grade alchemist from Yang Chen. As long as this secret was in hand, Yang Chen will be useless.

It must be said that the speed of Yang Chen's rise like a comet has not only made the people of the Greatest Heaven Sect curious, but even the Green Jade Immortal Island and Blue Cloud Sect, who have a good relationship with the Pure Yang Palace, have also speculated and analyzed. In this regard, the speculations of several major sects are all directed in the same direction.

Yang Chen was young, the Pure Yang Palace does not have enough background, so it was impossible to know so many things. Some of the things Yang Chen knew were beyond the realm of the mortal world. The only explanation was that there was an expert from the spiritual world or the immortal world guiding him. Combined with Yang Chen's performance, the most likely possibility in the mortal world is that Yang Chen possesses a magic weapon that was seized and possessed by a primordial spirit.

This unknown master was constantly pointing out Yang Chen, so that Yang Chen could have such a monstrous performance. Otherwise, with Yang Chen's aptitude, it was impossible to be so amazing. This was the only explanation, and it was also the accepted explanation.

However, guessing is guessing, but no one has directly acted on the surface. Everyone has seen the fate of Hu Qianyi in the Greatest Heaven Sect. The lessons from the past are not far away, and no one will repeat the same mistakes. But that doesn't mean people aren't tempted when the opportunity arises.

Now Bei Shuangyu was thinking like this. After she shouted that, Bei Shuangyu knew that she had no way out. Although the Island Master vomited blood, it was not a fatal injury. If she waited until she woke up and said that it was not the cause of Yang Chen's pills, wouldn't she have made more mistakes? The only chance to make a comeback was to capture Yang Chen and create a fait accompli after she succeeds.

Bei Shuangyu acted so quickly, even while she was berating, she started to act. A mere tens of feet away, for a Dacheng stage expert, it was almost useless to resist, and the attack immediately landed on Yang Chen. The action was so fast that even the other elders could not react.

Elder Min just jumped up, and her attention was still on the Island master. On this side, Yang Chen was approached by Elder Bei Shuangyu, and she only had time to shout, "Stop!" The situation over there was out of her control.

Everyone felt that Yang Chen could only be captured at once. Bei Shuangyu was a master of the Dacheng stage, but Yang Chen was cultivating more and more now?

Fortunately, everyone heard Bei Shuangyu's words that it was easy to capture, and everyone didn't care. Just capturing Yang Chen was not a big deal. Anyway, Yang Chen, the Island master who vomited blood, was the most suspect. In any case, Yang Chen had to take some responsibility. Therefore, no one had any plans to stop her, even Elder Min only shouted, but did not act.

Bei Shuangyu had already vaguely seen the situation where Yang Chen could not hold back after being fatally attacked by her, and everyone was arguing. A little guy in the Yuanying stage, if he was killed, can it be that the Pure Yang Palace would still dare to clamor with the Green Jade Immortal Island?

The complacent mood didn't even last for a blink of an eye, and even before the eyelids completely fell, Elder Bei felt her body lighten, as if she had suddenly lost control over her body. Then it sank again, and then fell heavily to the ground, her face rushed down and it was embedded directly into the ground.

The sudden change made Elder Bei extremely surprised. Although she was not injured, it made her lose face. Just as she was about to get up in a rage, she suddenly felt a chill on the back of her neck, and then a spiritual awareness that made people tremble so much that they didn't dare to flutter their hair at will spread all over her body. This time, Elder Bei didn't even dare to get up from the ground, she could only crawl into the human-shaped pit in an embarrassing manner, not daring to move at all.

"Elder Bei, you are too reckless." Yang Chen's voice sounded above Elder Bei's head "This junior has also experienced in the Demon Continent. If I accidentally hurt you, this junior can't afford it!"

Chapter 599.1: The Green Jade Immortal Island Is Not Rich

When it comes to the experience of the Demon Continent, it was obvious that Yang Chen was taking this opportunity to express his dissatisfaction, and it was also a very serious warning. If Elder Bei dared to move around easily and Yang Chen accidentally hurt her or killed her, that would be the best excuse for prevarication.

Anyway, everyone knows that after the demon continent experience, there will be a kind of trouble in controlling themselves. Shi Shanshan had already demonstrated this in front of the elders of the Green Jade Immortal Island more than a hundred years ago, the reason why Bei Shuangyu and Liu Zifang targeted Shi Shanshan was for this reason.

After all, it was Bei Shuangyu who attacked first. As long as Yang Chen used this reason, after killing Bei Shuangyu, no one else could say anything. Although killing the elder of the Green Jade Immortal Island is

definitely a big crime, looking at the posture just now, the elders present are not blind. At this moment, everyone understands what Bei Shuangyu wanted to do.

Min Huafeng was especially angry, Bei Shuangyu not only did not mean to restrain, but intensified her efforts to kill Yang Chen in front of her, completely ignoring the development of the sect and the troubles from the Pure Yang Palace. You must know that Yang Chen was still a fifth-grade alchemist. If she kills him, how many masters who are already waiting in line for Yang Chen's alchemy will hate them to the bone? This does not count the other four sects.

No matter how powerful the Green Jade Immortal Island was, and no matter how fast it has developed recently, it is impossible to challenge the four major sects at the same time. If something really happened to Yang Chen, this would simply be the best excuse for the four major sects. It would not be impossible for them to join forces to strangle the Green Jade Immortal Island.

Even though the Green Jade Immortal Island and the Blue Cloud Sect are good friends, the combination of the three major sects is enough to suppress the Green Jade Immortal Island and Blue Cloud Sect to the extreme. These are still matters between the sects, not including Shi Shanshan, Sun Qingxue, Gao Yue and Gongsun Ling's reaction.

At this time, no one will ignore the four of them. Shi Shanshan can fight with Min Huafeng alone. What will happen with the four? If they unite, maybe none of these ordinary elders in the Green Jade Immortal Island can escape their attack.

All the elders all had a thought in their minds. Bei Shuangyu was trying to push the sect into the abyss! With such a vicious mind, it seems that she was no longer suitable to be the elder of the Green Jade Immortal Island.

Of course, this wasn't the most shocking thing. What shocked them the most was that Bei Shuangyu, a master of the Dacheng stage, didn't even react when they were close at hand. But Yang Chen not only took it, but also made Bei Shuangyu embarrassed in one move and she didn't even dare to move, such toughness, even Min Huafeng couldn't do it.

Everyone saw the incredible scene, Bei Shuangyu's figure just appeared in front of Yang Chen, and the magic weapon had already started to attack, but Yang Chen just stretched out his hand gently, and between the lightning and flint, he grabbed Bei Shuangyu's neck and slammed her down. Elder Bei, who was in the Dacheng stage, was directly smashed into the ground by a junior in the early Yuanying stage.

Subsequently, Yang Chen simply took out a ghost-headed blade that they had all never heard of, and placed it on the back of Bei Shuangyu's neck. Then Bei Shuangyu became more obedient than the most tame kitten. Not only did she not dare to raise her head, she didn't even say something unpleasant, she didn't even dare to tremble.

How scary was this scene? No one would think that Bei Shuangyu was letting the younger generation go, and no one would think that Bei Shuangyu was afraid of death. You must know that such a famous person would rather die than be humiliated. In this scene, if she was replaced by them, they would definitely slam into the blade and understand themselves. Such a humiliation, even if she survives, she will have no face to see anyone.

But Bei Shuangyu not only did not take the initiative to ask for death, but did not dare to move, what does this mean? No one was an idiot, and they all understand that there must be something here that everyone doesn't know about.

At this moment, Yang Chen seemed as if nothing had happened. He even let go of the hilt of the ghost-head blade in his hand, and put the knife on Bei Shuangyu's neck out of thin air. He calmly looked at the Island Master in the field.

Although Bei Shuangyu made a mistake first, it can be said that she was still the elder of the Green Jade Immortal Island. Even for the sake of her classmates, other elders can't watch her suffer such a humiliation. In front of them, to humiliate Bei Shuangyu like this was to slap them in the face, and the faces of the elders immediately became stiff, and the atmosphere became more chilling.

"Yang Chen!" Min Huafeng did not speak, but another elder spoke, staring at Yang Chen, very unkindly "Elder Bei's behavior is wrong, but it was out of concern for the Island master, it is excusable so put your blade away!"

It would be the same feeling for anyone from any sect to see their fellow sect elder being dealt with like this. If it wasn't for the strength Yang Chen just showed was too frightening, even Elder Bei Shuangyu couldn't support herself, otherwise, they would have already started attacking him.

First, they were afraid of Yang Chen, second, their own sect members took the lead. Third, Yang Chen's identity as an alchemy master and the cooperation between the Pure Yang Palace and the Green Jade

Immortal Island over the years prevented them from taking action immediately, but their tone was unprecedentedly stern.

However, although the tone was severe, the words were not so confident, even the fools could see Bei Shuangyu's purpose. Besides anger, everyone had another feeling, which was shame. As a dignified elder in the Dacheng stage of the Green Jade Immortal Island, she attacked a junior of the Yuanying stage and was restrained almost immediately, what other feelings could there be?

"Junior has offended seniors!" Yang Chen was polite and calm, and he put away the Immortal Slaying Sword without even making a move.

Seeing Yang Chen like this, the faces of the elders were much better. It would be hard to say that this would give them face, and they had to favor Yang Chen when dealing with the aftermath.

What made them strange was that although there was no threat of the Immortal beheading blade on the back of Bei Shuangyu's neck, Bei Shuangyu's body was still lying on the ground, not moving. While the elders were surprised, they found out that Bei Shuangyu had already fainted and lost consciousness. They didn't know if she was angry or frightened, but it was the former.

Shame! Several elders shook their heads secretly in their hearts. They really didn't know how to express their feelings at the moment. They only felt that their faces were hot, and they didn't even dare to look at Yang Chen. Fortunately, Yang Chen didn't look at them, but kept staring at the Island Master, which made them feel better.

Chapter 599.2: The Green Jade Immortal Island Is Not Rich

Just when everyone was embarrassed, and they didn't even know if they should get up and help Bei Shuangyu up and send her away, the Island master in the field changed again.

Pfft, two mouthfuls of red blood spurted out again, but there were some small black fragments mixed in the blood. Everyone present was an expert, and all of them have discovered this.

"It's a good phenomenon, the dark wounds and bruises were also forced out. Now the Island master has improved again." Yang Chen looked at the small pieces of blood, and said in a low voice, "I'm very happy!"

Everyone was a well-informed person. From the look of the Island master's expression at this moment, they know that what Yang Chen said was true. After spitting out the two mouthfuls of blood, the Island Master became much more energetic, which fully explained the situation.

The Island master was diligent, which was a good thing. This has fully demonstrated that Yang Chen's Seven Emotions Pill was very useful. Thinking of this, everyone forgot about Bei Shuangyu for a while, and focused on the Island Master again.

This situation did not last long, an elder with the highest cultivation base first discovered the problem, and then the other elders also noticed that there was a difference in the sky. The tribulation cloud came and was slowly forming, there was no need to ask, apart from the tribulation caused by the Island Master, there was no other possibility.

"Disperse!" Min Huafeng shouted loudly, and with a wave of her hand, all the protection restrictions were eliminated, and then Elder Min shook her body and took the servants of Shi Shanshan who had been hiding in the room and dared not come out, and quickly left.

Everyone knows that they have to scatter, an elder took the opportunity to pull Bei Shuangyu up and quickly left. Several fast-paced elders have begun to urge the surrounding disciples to disperse immediately, so as not to interfere with the Island master's tribulation.

In less than half a column of incense, the place became empty for a few miles and no one was there, none of the evacuated disciples complained. All of them were outside the circle specified by the elders, looking inside with surprises. Even in the Green Jade Immortal Island, it was not easy to see the scene of the yin fire tribulation.

The Island Master has been sitting cross-legged on the ground, even if the tribulation clouds are approaching. Soon, the yin fire began to burn on the Island Master.

The first yin fire, the second yin fire, the third fire... all the way to the ninth yin fire tribulation, the Island Master sat cross-legged facing the sky, and her body did not change at all. She quietly endured nine yin fire tribulations and entered the realm of the Dacheng stage. Subsequently, the tribulation clouds retreated, an astonishing aura emanated from the Island Master.

The Island master, who was originally the sect master of the Green Jade Immortal Island, was very imposing normally, and this promotion to the Dacheng stage was a step forward. Although she had just been promoted to the Dacheng stage, she was actually no different from the masters in the late Dacheng stage.

The Island master was the Island master, even if she succeeded in crossing the tribulation, she did not laugh out loud like many people, she was still as calm as ever. After sitting cross-legged on the ground for a while, she slowly got up, then her eyes immediately turned to Yang Chen.

“Congratulations to the island owner!” The voices of congratulations sounded one after another, and everyone’s face was full of joy. Their sect master was successfully promoted to the Dacheng stage, of course it’s a welcomed thing.

Only a few core elders knew that the Island Master was able to pass the tribulation so easily, and most of the credit should be attributed to Yang Chen’s pill. Without the previous tempering of the state of mind, without the advance feeling of the Yin fire tribulation, the Island Master would even have the confidence to face the tribulation.

After smiling and signaling to the surrounding disciples, the surrounding disciples dispersed excitedly. This time, they were feasting on their eyes, the situation where Yuanying stage masters survived the Yin Fire Tribulation was definitely an experience that they can’t exchange no matter how much they cultivate.

The elders left behind were not only a few core elders, but almost all the elders from the Green Jade Immortal Island were all here. The promotion of the Island master to the Dacheng stage was a great event for the sect, and it should be celebrated no matter what.

Yang Chen was soon invited to the main hall where he was discussing matters. He faced the Island Master and several core elders again, the difference was that this time, elder Bei Shuangyu was absent.

For such a long time, Bei Shuangyu was still in a coma and did not wake up. No matter what means the elders used, they were unable to awaken Bei Shuangyu. Although no one knows the reason, what is certain is that it has something to do with Yang Chen.

The Island master has always been non-present, and she has no idea what happened. Naturally, she also took the opportunity to invite Yang Chen to the hall to learn about it from several other elders. After listening to what happened, even the island master couldn't help blushing a little, and at the same time, she scolded inwardly, with Bei Shuangyu's behavior, how could she ask Yang Chen to discuss the matter of the Seven Emotions and Six Desires Pill?

The Island Master has personally tested the efficacy of the Seven Emotions and Six Desires Pill, so she was naturally clear. With such a powerful medicinal pill, how many masters of the sect can be created, and how much the strength of the sect can be improved, the island master also knows. In any case, she will not give up the Seven Emotions and Six Desires Pill.

"Yang Chen, I want to order a batch of the Seven Emotions and Six Desires Pills for the Green Jade Immortal Island, You can name a price!" After much deliberation, the Island Master can only negotiate straight to the point. As long as Yang Chen pretended to be stupid, in the end, the Green Jade Immortal Island had to figure it out by themselves.

"Island master, the Green Jade Immortal Island is not rich now, why would you waste resources and buy these Qi Emotions and Six Desires Pills?" Yang Chen slowly opened his mouth and put on a pair that was very considerate for the Green Jade Immortal Island. With a stance, he said earnestly "Let's focus our resources on the most basic needs first!"

"Not well-off? Where does this come from?" The Island Master was stunned for a moment, and she asked back without thinking. As soon as she said it, she realized her mistake, but it was too late to change her mouth.

"Island master doesn't have to hide it. Speaking of which, this junior is not an outsider and will never reveal it." Yang Chen still maintained his calm tone, but the content of what he said was a bit unpleasant "If you are rich, Shanshan's share will not be reduced so much. Even Shanshan has to do those dangerous tasks to earn spirit stones for the sect, this junior still has some spirit stones here. Accepting it is considered a small thing done by this younger generation junior for Shanshan."

While speaking, Yang Chen took out a Qiankun bag, placed it on the table, and gently pushed it towards the opposite Island Master.

Including the Island master, all the core elders of the Green Jade Immortal Island were red-faced. Yang Chen's pretence was like a slap in the face, and it produced a kind of loud noise.

Chapter 600: Be Sincere

Yang Chen beat another elder into a coma in front of several elders, which made them lose face, but did not make them feel so embarrassed.

After all, only a few people know about it, and these people are masters with brains. They know what is good and what is right, and they know right and wrong. Therefore, for what happened to Bei Shuangyu, it was actually more anger than resentment towards Yang Chen.

After all, Yang Chen was still an outsider, even if Bei Shuangyu was dealing with Yang Chen, she was dealing with outsiders. However, Shi Shanshan was not only a member of other sects, but was trained as a genius and the future pillar of the sect. It's ridiculous that the elders of their own sect would target their genius disciple because of their own mistakes, and the person who should have protected this genius disciple didn't even know about it, and Yang Chen, an outsider, came to expose it.

Under the calculations inside and out, the elders felt even more slapped in the face. Especially Elder Min Huafeng, she now feels that she was a little embarrassed. This news has not reached the ears of ordinary disciples yet, if it spreads out, even a dignified elder like her can't cover a core disciple like Shi Shanshan, who else would dare to depend on her?

"This matter is the fault of our sect. After Shanshan comes back, there will never be a shortage of everything that should be there." The Island master was also someone who can afford to let it go, and has to rely heavily on Yang Chen, now that he has the Seven Emotions and Six Desires Pill, not to mention, she immediately expressed her stance to Yang Chen.

The Island master couldn't help but not express her position. Looking at Yang Chen's appearance, he first suppressed the number of face retaining pills, and then took out the Seven Emotions and Six Desires pills. In the end, it was to seek justice for his wife. If Yang Chen was not satisfied, this matter will never have a good outcome.

"To be honest, senior, do you think that this junior will make Shanshan lack anything?" If Yang Chen was satisfied that there was no shortage of things, then Yang Chen would be too relieved. Yang Chen hadn't taken that point of the sect's monthly routine into his eyes. All he wanted was justice, if there was such justice, he didn't need anything.

The Island master also sighed inwardly, it seemed that Yang Chen would not be able to nod his head unless she showed enough sincerity. There was nothing to be said, she can only give up Bei Shuangyu. Speaking of which, Bei Shuangyu's approach was really too much, even if she was worried about the suzerain, it doesn't make sense, her plan was not to capture Yang Chen alive.

Now it was not only because of this embarrassment, but even the Island master owes Yang Chen a big favor. A free pill made her rush directly from the peak Yuanying stage to the Dacheng stage, and she still doesn't know how to repay this favor in the future. If the bond between Shi Shanshan and Yang Chen was not maintained, the Green Jade Immortal Island will only be able to watch the Blue Cloud Sect soar in the future.

"Bei Shuangyu's actions are not good, she will be cut off from the position of elder, and she will be punished with 100 years of seclusion." Thinking of this, the Island master announced very directly "Liu Zifang deliberately plotted against the disciples of the sect and will be cut off from the position of an elder. The punishment hall will cane her with ten thousand strikes and she will go into seclusion for two hundred years in the wanzhang sea eye!"

The wanzhang sea eye was a natural sea eye in a sea area around the Green Jade Immortal Island, which was deep in the sea. The sea eye will spew out scorching ocean currents every day with the change of tides, the disciples below the Yuanying stage can be easily killed by this scorching current, only disciples above the Yuanying stage can resist this terrifying ocean current.

No matter whether you retreat here or face the wall, you are actually locked at the bottom of the sea and cannot escape. Those who are punished can only resist by mobilizing the cultivation of the whole body, which was extremely miserable. This was also the heaviest punishment in the Green Jade Immortal Island, except for direct beheading and abolishing the cultivation base and expelling from the sect.

It can be said that Bei Shuangyu and Liu Zifang could only endure their respective punishment time with difficulty on the seabed. For Bei Shuangyu and Liu Zifang, one is a core elder and the other is an ordinary elder, it must be said that this was a very serious punishment.

When the Island Master announced to deal with the two elders in succession, Yang Chen's face turned a little better. However, Yang Chen seemed to have lingering anger, and his eyes swept over to Elder Min's side again.

“It’s my fault, I didn’t care enough about Shanshan before.” Min Huafeng was originally a straight-forward character, Yang Chen’s eyes were obviously dissatisfied with her, and Elder Min simply admitted her mistake “I will take care of it myself in the future. I will never let Shanshan suffer any grievances again.”

Because the small monthly resources were detained, a core elder and an ordinary elder were disqualified as elders. He believes that anyone in the Green Jade Immortal Island who wants to have any crooked thoughts about Shi Shanshan will subconsciously sum up whether it was worth it.

It was only at this moment that Yang Chen’s expression returned to normal. Facing the Island master, he said slowly “It’s not difficult to refine this Pill of Seven Emotions and Six Desires, but the raw materials are very rare, and the quantity is small, as for how to exchange for it, let’s wait for Shanshan to come back and talk about it!”

The implication was that they had to wait for Shanshan to come back to see if she was satisfied. They can’t help but say that Yang Chen was thinking about his wife and must strive for the highest position in the sect for her.

The Island master could only smile bitterly. Who would have known that just a little bit of ignorance would make things happen to such a point? Speaking of which, it’s also their fault that they don’t take enough care of Shi Shanshan. If they often ask questions, give warnings to the warehouse manager, she wouldn’t dare to disgust Shi Shanshan according to Liu Zifang’s instructions.

Of course, Yang Chen was not without any sincerity. The news about the face retaining pills was originally released by himself, so as long as he notified Shangguan Feng, everything will be business as usual. As a result, at least the core elders of the Green Jade Immortal Island were relieved. As long as they returned to their original state, those disciples would have no reason to be anxious.

The small disturbance soon passed, and Yang Chen stayed in Shi Shanshan’s courtyard as always, waiting for Shi Shanshan to return. During this period of time, the Island master and several core elders’ evaluation of Yang Chen rose by several steps.

Bei Shuangyu didn’t wake up until seven days later, but after waking up, she became a cowardly person. If there was a little trouble, Bei Shuangyu would tremble all over, and she didn’t even dare to breathe out. No matter how the Island Master and the others inquired, they could not get any useful information from Bei Shuangyu.

The elders who watched everything happen with their own eyes didn't see anything very strange. Yang Chen clearly just fell and used the sword to frighten Bei Shuangyu. How could Bei Shuangyu become like this? Although they don't know what method Yang Chen used, what is certain is that from the beginning, Yang Chen didn't intend to let Bei Shuangyu go.
