Chapter 601: Be Sincere

Even if it is the Green Jade Immortal Island, they were still bitter about the loss of a master in the Dacheng stage, let alone an elder who was a core elder. If it was ignored like this, then the Green Jade Immortal Island was not one of the five major sects.

“Yang Chen, honestly, what did you do to Elder Bei?” Elder Min had the most contact with Yang Chen, and when Shi Shanshan was away, she became the best person to communicate with Yang Chen “How could Elder Bei become that way?”

“Elder Bei?” Yang Chen asked in confusion, “Isn’t she already disqualified as an elder? Why do you still call her Elder Bei?”

“I’m used to it, I can’t change it for a while.” Min Huafeng couldn’t help but get angry, Yang Chen had the attitude of holding you back, and he was still holding on to this little title. She could only explain in one sentence, and then waited for Yang Chen’s answer.

Of course, Yang Chen couldn’t keep putting on the show. If he made a core sect master like this angry, he would be rude to her, the Green Jade Immortal Island has not held Yang Chen accountable until now.

“I’m just shocked, it’s a trivial matter.” Yang Chen quickly explained Bei Shuangyu’s current situation, and gave a solution “If it is handled normally, it will take about two hundred years to recover. However, since she was punished, the recovery time can be greatly shortened.”

“Oh? Just why?” Elder Min didn’t think of the key here, and couldn’t help but ask curiously.

“When she usually cultivates, she will keep thinking about the things she has been frightened by, so she will be restless, and it will take longer.” Yang Chen was not afraid to tell Min Huafeng, and explained in great detail “If you are punished, your mind will be focused on the fight against the ocean current, there is no time for her to take care of herself, and naturally she will be able to recover quickly.”

Although Min Huafeng was dissatisfied with Bei Shuangyu’s targeting of Shi Shanshan for a long time, she could not help but gasp when she heard Yang Chen’s explanation. If the sect did not punish Bei

Shuangyu, then she doesn't need to think about any normal practice for two hundred years. And looking at the courage she is showing now, it is estimated that even in the face of an ordinary foundation cultivator, she may not dare to take the initiative to attack.

Strictly speaking, what is the difference between this and abolishing Bei Shuangyu's cultivation base for two hundred years? Yang Chen really was devious. Even the sect's response was taken into consideration. Fortunately, the Island master made a decisive decision, otherwise not only would the sect betray Yang Chen. If they can't get the Seven Emotions and Six Desires Pill, even the genius disciples of their sect will be disgruntled.

"How long will it take to recover like this?" She always felt that Bei Shuangyu deserved it, but Elder Min still needs to know the exact time. Otherwise, it would not be easy to explain to the Island master.

"Not much, only a few decades." Yang Chen replied without concealment, and he understated it, as if it was a trivial matter. Who would have thought that this was a major event that would determine the fate of a Dacheng stage master.

Hearing this answer, Min Huafeng also secretly breathed a sigh of relief, it didn't matter for decades. Bei Shuangyu would not have left seclusion at that time, which is a good thing for her and the Green Jade Immortal Island for the time being.

The Island Master indirectly knew Yang Chen's attitude from Elder Min. After discussing with a few core elders, the group of people who managed the warehouse were punished. Everyone was beaten with a stick and whipped, making everyone feel a little anger from the top.

And the matter of Yang Chen's dealing with Bei Shuangyu was also carefully suppressed by the core elders, and basically no one knew the specific truth. However, the charges of Bei Shuangyu and Liu Zifang were all announced, and they were all related to Shi Shanshan, which really shocked all the disciples of the Green Jade Immortal Island.

Although a few elders were not very happy, under the urging of the Island Master and the need for the Seven Emotions and Six Desires Pill, they did not do anything to Yang Chen, and Yang Chen was able to quietly wait for Shi Shanshan to return.

This time Shi Shanshan came back very quickly, Yang Chen only waited less than four months for Shi Shanshan's return.

Shi Shanshan returned to her courtyard after delivering the sect mission this time. To Shi Shanshan's surprise, when she delivered the mission, the disciple in charge of reception was with a smiling face almost all the way, and she was eager to help Shi Shanshan. Everything that can be done has been done, and it was completely different from the indifference of the past.

Upon returning, Shi Shanshan noticed Yang Chen's existence before entering the courtyard, and felt a burst of warmth from a distance.

"Husband!" Shi Shanshan accelerated her pace and almost ran into the courtyard. As soon as she entered the courtyard, she saw Yang Chen who was waiting for her with a smile. There were no outsiders around, and her several servants were not in sight. Shi Shanshan almost threw herself into Yang Chen's arms, hugging Yang Chen to death and not letting go.

"Let your husband take a good look at you!" After the two held each other for a while, Yang Chen began to seriously look at Shi Shanshan.

The dangerous sect mission has kept Shi Shanshan in a dangerous situation during the period of time she came back, but it has to be said that these are indeed very significant effects for tempering Shi Shanshan.

Compared with the last time they parted, the aggressive aura on Shi Shanshan has disappeared, replaced by a calm like a lady's aura. All the sharpness seemed to be wrapped under this calm appearance, and there was no trace of leakage.

"Very good, then we'll go get that thing." Yang Chen was very satisfied, Shi Shanshan has become more and more restrained, and the preparations have been fully completed, it was just waiting for him.

Of course, Shi Shanshan also had to know from Yang Chen what happened in the Green Jade Immortal Island. Hearing that Bei Shuangyu and Liu Zifang had paid a heavy price for this, Shi Shanshan just let out a faint sigh, as if it was a matter of course.

When a husband and wife meet, Yang Chen will not favor one another over another. After cultivating the Mysterious Yin-Yang Heart Sutra with Shi Shanshan, Shi Shanshan immediately realized that she has a second-grade human immortal realm spiritual awareness. Even with Shi Shanshan's calmness, she couldn't help but ask in a shocked voice, "Husband, how much have you surpassed us?"

Shi Shanshan couldn't help but sigh, it seemed that her husband was getting stronger and stronger. Although his cultivation base has returned to the early Yuanying stage, his spiritual awareness has been greatly improved. His spiritual awareness has actually reached the peak human immortal realm, even Shi Shanshan was shocked beyond belief.

"Okay, let's go and collect what I mentioned!" After all the preparations were done, and after saying goodbye to the Green Jade Immortal Island, Yang Chen took Shi Shanshan and set foot on the road.

Chapter 602: A Local Bully

When Shi Shanshan returned to the sect, of course she felt the difference in the sect, and the servants also told her everything that happened recently. In this regard, Shi Shanshan only had joy in her heart, when she got together with Yang Chen, she was even more lingering, not at all like that cold and arrogant iceberg beauty. However, she was only like this in front of Yang Chen. In front of others, she was still the proud and arrogant genius.

Shi Shanshan didn't even ask Yang Chen what he planned to do, since Yang Chen wanted to take her there, he obviously wanted to show it. Some things, or a little delay, can let the sect see their importance. At this point, Shi Shanshan's comprehension was not as bad as she imagined.

Until Yang Chen took Shi Shanshan to leave the Green Jade Immortal Island, Shi Shanshan didn't know what Yang Chen took her to pick up this time. Yang Chen just said that it was something that was very important to Shi Shanshan's cultivation, it was also the last time he would interfere with Shi Shanshan's cultivation, and Shi Shanshan attaches great importance to this.

After returning from the mortal world experience, Shi Shanshan has been constantly looking for various opportunities to hone herself, because Yang Chen said that she should further strengthen her mind. Now Shi Shanshan's spiritual power has reached the peak middle Yuanying stage, and will soon enter the late Yuanying stage. In Yang Chen's estimation, she has already met his requirements.

What Yang Chen intended to give to Shi Shanshan was a pure Yang sword qi left behind when he killed a powerful guy in the Immortal executioner stage. It is said that this sword qi was given to him by master

Lu Dongbin. Although Yang Chen didn't know how powerful this sword qi was, as long as it involved a strong expert like Lu Dongbin, it would not be weak.

Shi Shanshan's character sometimes prefers to bend and not bend, she keeps moving forward. She was the most suitable for cultivating with this supreme pure yang sword qi, and her dao was also the closest to this pure yang sword qi. Such a precious material, how could Yang Chen let it stay in the mortal world?

The place where the sword qi was preserved was in the middle of the inaccessible mountains. Yang Chen was sometimes very curious, how could these ancient masters hide their good things in such a desolate place? They couldn't find a prosperous place. Was the local big hidden in the dynasty and the small hidden in the city?

After reaching the ground, Yang Chen realized that this place was not an ordinary desolate place. What the two of them saw was nothing but a barren mountain. Except for the stones, there was no green at all. Not only were there no mountains and waters, but even thousands of miles in radius, the spiritual power was very thin, it was difficult for people to believe that this was the hiding place of a treasure of cultivation.

However, if you refer to the secret plane where the Xuanwu Shield was located, or the situation at the Yang mountain medicine garden at that time, you can guess, perhaps it was because of the treasure of cultivation, that the spiritual power of thousands of miles around was almost absorbed, that's why it's so desolate.

All the peaks were the kind of very steep rocky mountains, the rocks were rugged, showing all kinds of sharp edges and corners, as if they were not formed naturally at all, but were formed by something chopped. After an unknown number of years of wind and sand invasion, there were weathered appearances everywhere. Although it was not like a desert, it was not far from that kind of situation.

There are very few living creatures in the large surrounding area. Even if there are, they are just birds flying in the sky, these birds don't live here at all, they just pass by. After all, this was a barren land.

There was no water and soil, what was there was the kind of fine sand and gravel formed by the weathering of the stones. If you look around, it was just a stone except for the stone.

On the contrary, Shi Shanshan felt that the atmosphere here was very comfortable, and soon the two of them discovered that this place was actually a large metal mine. Most of the stones in their eyes were metal ores. There was a metal aura everywhere, no wonder the metal attribute Shi Shanshan felt comfortable.

After discovering this, Shi Shanshan couldn't help showing a trace of expectation on her face. She didn't know what Yang Chen would give her, but one thing was certain, it must be a good metal attribute material, suitable for her own cultivation.

"Where did you little juniors come from, what are you doing here?" A sudden voice sounded suddenly, as if people were in the ears of the two of them. The tone was very kind, like an elder who loves his younger generation.

Neither of the two were surprised, with the worst of both of them having a second grade human immortal spiritual awareness, they had already discovered the Dacheng stage master who was hiding there. It was just that he was just paying attention but didn't mean to do anything, so they just ignored it.

"We came to get something." Yang Chen didn't even plan to hide it. Since he has already come here, Yang Chen did not plan of giving that pure Yang sword qi to others. With his current strength, facing one or two mortal masters, no one has the qualifications to make him retreat.

"What?" The tone suddenly hurried, with a faint hint of excitement. At the same time as the voice sounded, someone also appeared in front of Yang Chen and Shi Shanshan like a ghost.

A middle-aged literati, he looked elegant and has a bit of Master Lu's demeanor in Yang Chen's memory. It's just that, in this barren land, such a person suddenly appeared, which seems a little out of place.

"It can't be regarded as anything." Yang Chen didn't seem to think that there was a problem here, and answered without concealment "It's a sword qi."

"Sword Qi?" The middle-aged scholar's eyes lit up, and then he felt a sudden realization, and he muttered to himself "Yes, it should be sword qi, nothing grows here, no grass grows, all the mountains is all like an axe chopping a knife, and there is no other explanation other than there being a fierce sword qi."

After muttering to himself for a while, the middle-aged scribe couldn't help laughing, and his voice shook the world. Yang Chen and Shi Shanshan looked at him like a madman, and neither of them said anything. Even if the two are in love during the journey, they are a little boring. It would be good to have such a person jumping out to mediate the atmosphere.

"Where is it? Tell this old man and this old man will spare you!" After laughing, the middle-aged scribe suddenly stopped, his face suddenly turned pale, as if he had changed, he asked viciously. Of course, it's just a verbal threat, just two juniors in the Yuanying stage, and it's not worth his move.

"It should be in this area." Yang Chen didn't seem to feel the changes in the middle aged man. He had always been ignorant and unconcerned about the mortal world, like a chick who was immediately taken out of his mouth when he went out for the first time. " But where exactly is it, we have to search for it."

"How will we find it?" The scribe immediately asked, for fear that Yang Chen would not answer if he found something wrong.

"Senior has been here for so long, you should know where the metal qi is the strongest, right?" Yang Chen asked rhetorically, still unconcerned.

Chapter 603: A Local Bully Is Easy To Handle

"Where is the metal qi the strongest?" The scholar was startled, and immediately realized what he was doing. With a smile on his face he said "I see, hehe, junior..."

He laughed out loud, the middle-aged scribe was about to make a move, but before he could finish what he said, Yang Chen said another sentence at this moment "The place where the metal qi is strongest is not where the sword qi lies. "

The self-righteous laughter was suddenly forcibly stuffed back into his throat, making the middle-aged scribe feel as uncomfortable as eating flies. He abruptly stopped the words "Hey!" that he almost blurted out, and asked eagerly, "Where is it then?"

"You really don't use your brain, sword qi depends on metal qi. After so many years, I don't know how much metal qi has been absorbed. How can it be located in the strongest place, of course it's the

weakest place!” Yang Chen seemed to be teaching his children a lesson. Said the same, looking at the middle-aged scribe in the Dacheng stage with contempt, as if looking at a brainless fool.

“It makes sense!” The middle-aged scribe was startled, then nodded involuntarily, the corner of his mouth twitched, and just as he was about to speak again, he clenched his hand and planned to move.

“There should be restrictions around the sword qi, otherwise the sword qi would have dissipated a long time ago.” Yang Chen seemed to have been invisible, and said to himself, his eyes were still looking around.

Shi Shanshan has been watching coldly from the side, Yang Chen’s performance was in the eyes of her as a bystander, he was playing with this guy who suddenly appeared, the Dacheng stage master was played by Yang Chen like a child. But after hearing that it was a sword qi, Shi Shanshan couldn’t help but start to look forward to it, the sword qi that Yang Chen could never forget, even with his toes, she knew that it was a good thing.

There were restrictions around the sword qi, which was common sense, and a thought flashed in the middle-aged scribe’s mind immediately. Now that Yang Chen and Shi Shanshan are to be killed, maybe he will have to look at the sword qi and not be able to collect them. Yang Chen and Shi Shanshan made it clear that there was something handed down from their ancestors that made them come here to collect the sword qi, maybe together after they break the seal, he can get the greatest benefit.

“This old man has stayed here for many years and is very familiar with it. Let this old man take you to find it!” The middle-aged scribe immediately changed his tone and became enthusiastic.

Little did he know that Yang Chen was planning to make him a guide, so he and Shi Shanshan looked at each other, and both of them saw the smile hidden in each other’s eyes. Yang Chen nodded, then he took Shi Shanshan’s little hand and joined the scribe to go to the place where the scribe knew the weakest metal qi.

If Gongsun Ling was there, where the metal qi is the strongest and the weakest, she can know just by walking around, but now it was obvious that Gongsun Ling was not with them. If Yang Chen and Shi Shanshan were looking for it, it was estimated that they would not be able to find such a large area without looking for half a year or more.

With this ready-made guide who jumped out actively, the two can save a lot of time. Looking at the guy's posture, it was estimated that there was a problem with this area, he was unable to go there. Otherwise, how could a Dacheng stage expert spend time on this barren land.

The scribe led the way and the two followed, and after flying for a full day, the three flew to a mountain peak. This mountain was not the highest mountain, but it was the most dangerous one. The rocks stood like sharp swords piercing the sky, but they were badly weathered, and there were fine stones everywhere at the foot of the mountain.

There was a small hole in the middle of the mountain, the hole was so small that only one person could squeeze through it sideways. It was a cave, but it was better to say it was a gap between two huge rocks. There was a big rock outside that just blocked the sight in several directions. If you don't know the place well, you will not be able to find that there was a small cave here.

The scribe went in, and Yang Chen and Shi Shanshan squeezed in, only to realize that there was something special inside. After entering, there was a big hole that was much wider than the entrance, and it was also formed by stacking several rocks together. But these are not the main points, the main point is that on the ground of this big hole, there was a deep well of unknown depth, which exuded a chilly atmosphere.

Both Yang Chen and Shi Shanshan were subconsciously exploring with their spiritual awareness, but they were stunned to discover that their spiritual awareness could not penetrate the deep well at all, and even in the caves, there was a feeling of detecting the essence. If it was outside, this feeling will make them believe that this was a solid mountain, and it was impossible to find this cave, let alone a deep well.

"This old man has lived here for more than 600 years, and only by chance did I discover this cave. If there is no great chance, it is impossible to find it at all." The scholar said very proudly. Of course he understood the peculiarities of this place. Seeing Yang Chen and Shi Shanshan seemed to be a little surprised, so he said it.

"This is where the metal qi is the weakest." After showing his chance, the scribe said the following words "However, this old man has gone into the deep well, it is empty. There are traces of a seal, I don't know if it is the place you are looking for."

Yang Chen has been observing carefully since he came in, and now he was almost certain that this was the destination he was looking for. Not to mention anything else, just the cold air coming out of the deep well was proof.

“It should be good here.” Yang Chen didn’t expect that it would be so smooth. It seems that it was really good to have a local bully, which saves him a lot of effort. If this guy was not so impure, Yang Chen doesn’t mind giving him some benefits, but right now, it’s up to him to choose.

The scribe’s eyes lit up again, and then it was as if nothing had happened. Yang Chen had already started to break the seal over there, so the scribe naturally wouldn’t interfere. This silly boy took the initiative to open the seal, saving himself the trouble of torture and extorting after he took it down. Being so knowledgeable and interesting, he must have made his death more comfortable. As for that beautiful woman, he was lacking a good cultivation cauldron, isn’t this a gift from God?

Yang Chen’s tricks were endless and very complicated. After reading it for a long time, the middle-aged scribe was even more proud of his previous decision. Such a complex formula, even if he did it, he may not be able to easily break it.

Finally, after Yang Chen’s technique was finished, light began to emerge from the bottom of the originally dark well. It was only a very faint point at first, but later, it became brighter and brighter, and even began to dazzle.

The supreme pure yang sword qi left by Master Lu finally appeared again after an unknown number of years.

Chapter 604: Supreme Pure Yang Sword Qi

From the beginning of the bright light, the eyes of the three people all focused on the faint light, and they watched as the light became brighter and brighter, and finally became dazzling.

The deep well, which was originally empty, finally showed its true appearance after Yang Chen broke the seal. A huge long sword extending almost from the bottom of the well to the mouth of the well, showing a bright phantom, appeared in front of the three of them out of thin air.

The incomparable sword qi could be felt without even touching it. The sword qi in the sky was vertical and horizontal, and the top of the entire mountain seemed to suddenly become sharper. Those birds

that were still dozens of miles away, they didn't even dare to fly in this direction, as if there was something here that made them feel extremely terrified.

All of this, the three people in the cave were temporarily unable to know, everyone's eyes were focused on getting the sword shadow, and no one wanted to look away.

Yang Chen didn't do anything, and didn't prompt, Shi Shanshan certainly wouldn't do it, but just admired it from a close distance. However, the two of them didn't move, but the middle-aged scribe couldn't bear it any longer and started to attack eagerly.

With a soft sound, Yang Chen, who had been standing there watching, suddenly a sword tip appeared close to him. It pierced through Yang Chen's back, and then emerged from Yang Chen's chest. At the same time, the middle-aged scribe had already pointed at Shi Shanshan.

Yang Chen and Shi Shanshan both stared at the middle-aged scribe with the same unbelievable gaze, and then their bodies fell limply to the ground.

"I will teach you to be good, don't believe in anyone in the future." The middle-aged scribe was quite happy. He didn't know how this two juniors cultivated to the Yuanying stage, and they didn't even have any experience.

"Boy, go in peace, you beautiful lady, this old man will treat you as a concubine." The middle-aged scribe said proudly, his face couldn't hide the ecstasy "You can be fine before you die. See how this old man collects this sword qi. It can be regarded as letting you die in bliss."

Saying that, the scribe, while laughing loudly, stretched out his hand and pointed at the tip of the phantom of the huge long sword. A drop of blood immediately seeped out from the tip of the scribe's finger and stained the long sword. The blood originally extends from the bottom of the well to the wellhead, which was very easy to do.

Recognizing a master by a drop of blood, this was the lowest-level way to establish a connection with a magic weapon, which was a few steps worse than the control of the spiritual awareness but it's better and simple, and it works well. Although it was a temporary recognition of the master, but it can buy time for further sacrificial refining in the future.

The middle-aged scribe was not a guy who doesn't understand anything. Naturally, he knows that this sword qi has been cultivated here for many years, and it was unrealistic to want to refine it in a short time, so he used this method. As long as the sword qi does not attack him for the time being, there will be hope of being subdued in the future.

As expected by the scribe, as soon as the phantom of the huge long sword saw blood, it seemed as if it had suddenly found its owner. With a flash of light, all the phantoms penetrated into the scribe's body from where the blood seeped.

When the sword qi entered his body, the scribe's expression also became cautious, and he stood there cautiously. After a little bit of feeling the sword qi roaming around in his body, after a while, a relieved expression appeared on his face, and a smile appeared on his face.

"Hahahaha!" The scribe began to laugh wildly again, and his mouth began to be maddened by ecstasy again to himself "It has been six hundred years, and finally this old man got this sword qi, hahaha, six hundred years, six hundred years, hahahaha!"

After laughing wildly, the scribe looked down at Yang Chen and Shi Shanshan, who were slumped on the ground. He made no secret of his pride and happiness, and laughed, "I would like to thank you two for solving the six-hundred-year-old mystery for me. I got an answer and a cauldron like a flower jade, this trip has been worthwhile!"

"I forgot to remind senior." Amid the arrogant laughter of the scribe, Yang Chen, who was supposed to be hanging by a thread with a flying sword pierced through his chest, sat up as if nothing had happened, his voice was calm, where was there any trace of injury?

"This sword qi has been cultivated in the land of metal qi for hundreds of thousands of years. The impurities contained in the metal qi will form a protective shell outside the sword qi. Moreover, these impurities are mixed and impure, and it is very difficult to control." In the stunned eyes of the scholar, Yang Chen smiled and got up, and said slowly "It would take at least hundreds of years or longer to refine these impurities, but senior have volunteered to use your physical bodies to try them out. Attracting it with flesh and blood saves a lot of effort, thank you!"

Not only Yang Chen, but Shi Shanshan next to him stood up as if nothing had happened, and showed no signs of being restrained. The performance of the two of them made the middle-aged scribe in the Dacheng stage not dare to look westward at all, could it be that everything he saw was fake?

To be honest, Shi Shanshan was also a little strange, Yang Chen has clearly been pierced in his chest, how can he be so relaxed? However, Yang Chen had previously hinted that Shi Shanshan should wait and see the change. Shi Shanshan absolutely trusted Yang Chen and followed suit. Now that Yang Chen sat up unscathed, she was naturally happy.

Hearing Yang Chen's words, Shi Shanshan couldn't help but chuckle in her heart. Everything was under the control of this husband of her own family. She didn't know how this middle-aged scribe, who thought he was in control of everything, was feeling at the moment.

However, it was clear that the scribe had no time to investigate why Yang Chen did not die from the pierce in his chest. He had already discovered the abnormality in his body, and his face became ugly.

Ah ah ah! A shrill cry came from the scribe's mouth, as if he was suffering some kind of extreme pain, and a large bag would keep swelling up on his body, and then collapsed again. Here and there, here and there, constantly appearing.

Chi chi chi, continuous voices sounded from the scribe, blood appeared from the scribe's mouth, and then a bright light flew out from the blood, bringing up bursts of blood mist.

The bright lights that flew out only flew a few steps away before being swallowed up by a dragon shadow that appeared from nowhere. This kind of impurity of supreme sword qi was Xiao Tian's favorite delicacy. It was simply a natural tonic, especially after the nourishment of the flesh and blood of the master of the Dacheng stage, it was even more delicious.

In addition to screaming, the middle-aged scribe could only helplessly watch his body pierced by the sword qi, and the sword qi that flew out was swallowed up by the Xiao Tian. Every shot of sword qi will take away a lot of the scribe's vitality. Slowly, the scribe's voice became lower and lower, and then there was no sound.

Chapter 605: Return To The Dragon Palace

Xiao Tian burped contentedly in the air, swallowed the last strand of sword qi impurities, and then slammed into Yang Chen's body and disappeared.

The scene where Yang Chen's chest was pierced just now was just the process of the opponent's flying sword flying from behind to Xiao Tian's mouth, and then Xiao Tian appeared in Yang Chen's chest in the fastest time and spat out the tip of the sword. On the surface, it really looks like Yang Chen was pierced in the chest, but in fact, Yang Chen didn't hurt even a single hair.

As for Yang Chen bleeding, many people in the Jiedan stage can do this, needless to say Yang Chen who was a Yuanying stage master. However, the scholar thought he had destroyed Yang Chen's vitality, so he deliberately did not finish him off, but let Yang Chen watch the process of refining the sword qi to show his pride.

Harming others was not the opposite of harming oneself. When the scribe was dying, he probably thought of this sentence. Especially after hearing these explanations from Yang Chen, it was estimated that this kind of unwillingness was even more obvious.

Yang Chen really intends that if this guy was knowledgeable, everyone will benefit from it. Although the sword qi body can't be given to him, the metal qi impurities outside, if he can refine it, would be a rare precious material in ten thousand years. But now, the benefits were still given to Xiao Tian first.

Without the outer shell, the body of the sword qi was finally revealed. Right at the bottom of the well, Yang Chen jumped down, took out the scabbard containing the sword qi, and handed it to Shi Shanshan.

The real pure yang sword qi was not that long at all, just a strand less than three feet long, as thin as a gossamer thread. There were some faint rays of light flashing, and it kept wandering in the scabbard. From the appearance alone, compared to those metal qi impurities, it was not known how bad it was. It has neither the imposing manner nor the brilliant appearance, it looks like a thin little earthworm.

The scabbard was also something that looked very ordinary. The scabbard made of metal was very ancient, but that's all, there was no gorgeous appearance, there was no compelling aura, if someone else sees it, it will be regarded as an antique scabbard at most. Who will take it seriously?

But Shi Shanshan was not the kind of superficial person who judges things by their appearance. There was Yang Chen, a husband who knows almost everything, nothing good can escape his eyes.

"Shanshan, this is a pure Yang sword qi left by Master Lu to his friends back then. It is invincible and unparalleled, and it fits your attitude." Yang Chen finally told Shi Shanshan the origin of this sword qi " In

the future, your cultivation will be refining and subduing this sword qi. I believe that you will continue to carry out this process for many years from now until you ascend to the spiritual world.”

This was not Yang Chen underestimating Shi Shanshan’s ability, but this sword qi was indeed so powerful. The foundation left by Master Lu, plus the fact that it had been nurtured for hundreds of thousands of years or even longer in this metal qi-rich land. To put it in a bad way, let alone the sword qi left by Master Lu, even if it was a fart, it was now the most powerful fart in the mortal world, not to mention this supreme pure Yang sword qi?

“Similarly, Shanshan, this is also the last time I interfere with your cultivation.” Yang Chen said very formally and seriously “You will have to decide the direction of your future cultivation. I believe that one day, you will be my pride.”

This is not the first time Yang Chen has said this, but now that Shi Shanshan has obtained the sword qi, she truly realizes the value of everything Yang Chen arranged for her. She couldn’t help but feel a heat flow in her eyes. The warmth in her heart was a happiness that Shi Shanshan had never felt from her sect or her master.

“Husband, are you not afraid that after I refine this sword energy, you won’t be able to beat me?” Fortunately, Shi Shanshan has always been in a good state of mind and quickly controlled her emotions. She buried her head in Yang Chen’s arms, feeling this happiness personally, and then asked in a joking manner.

“How could it be?” Yang Chen lowered his head, kissed his wife lightly, and then said with a smile, “You refine the sword energy, of course this scabbard belongs to me, and you will still be in the hands of your husband and cannot escape in the future.”

A scabbard that can accommodate pure Yang sword energy, as long as you are not a fool, you must know that this was very precious. Shi Shanshan refined the sword qi, and the body was the scabbard, so naturally, it will not be used. There was no need to ask the ownership of this scabbard, it must belong to Yang Chen.

With this kind of holy artifact, added to the sword, the quality of the sword will definitely be higher. If he refines the space connection point in the future, with the addition of Xiao Tian, Yang Chen can’t imagine who else can resist his Immortal beheading blade.

“Let’s go, there’s going to be a drastic change here.” Yang Chen reminded Shi Shanshan gently, but Shi Shanshan was still in Yang Chen’s arms and didn’t want to move. Yang Chen smiled, summoned the flying shuttle, and rushed into the sky quickly.

Not long after the shuttle left, the entire area of thousands of miles began to vibrate violently. Countless mountain peaks, in the shaking of the earth, fell down and collapsed in pieces, and it was not too much to describe it as earth-shattering. Fortunately, there were no living creatures at all here, otherwise, it was not known how many living creatures would be ruined.

The situation of the landslide and ground fissure lasted for more than an hour before it stopped. When everything was calm, the original scene of the towering mountain peaks had undergone earth-shaking changes, and it had directly turned into a large pit covering a radius of thousands of miles.

Rain clouds began to slowly accumulate in the sky, which was unprecedented, and then the raindrops fell quickly. Countless water droplets fell from the sky and gathered in this huge earth pit. The water level rose little by little, and the surrounding area also had rivers diverted and flowed to this area. Soon, a not so deep lake was formed here.

It is believed that with the passage of time, this place will become a huge lake, the river will bring living beings in the water, and the surrounding spiritual power would be replenished and slowly return to normal. In just a few years, it will be a vibrant scene, maybe there will be cultivators coming here to cultivate, but these are for later.

Yang Chen and Shi Shanshan have not paid attention to these. Yang Chen took Shi Shanshan back to the sea of no return, plunged into the bottom of the sea, set up the Dragon Palace, and the two entered the Dragon Palace.

Just above the huge map of the East China Sea, Yang Chen chose a few places with the strongest spiritual veins, placed a large amount of four seas mysterious coral spiritual Liquid directly on it, and then let Shi Shanshan immerse her whole body in the spiritual liquid, and sat down. On the black Yaoyu futon, he began to instruct Shi Shanshan to refine this pure Yang sword qi.

Chapter 606: Intense Pain

Shi Shanshan’s cultivation aptitude was considered a genius among geniuses, she has an innate metal spiritual root. Later, after Yang Chen launched the postnatal spiritual root, she tested it again. Her postnatal metal spiritual root was also full. This kind of innate and postnatal aptitude with a single

attribute of the same Five Elements makes her absolutely powerful when cultivating the metal attribute technique, and she has many advantages over ordinary aptitudes.

But even so, it was not so easy to refine the supreme pure Yang sword qi left by Master Lu at the peak middle Yuanying stage. If it wasn't for the support of Yang Chen's spirit veins and four seas mysterious coral spiritual liquid at all costs, she wouldn't even have to think about it in the Dacheng stage.

Even with Yang Chen's unremitting support, Shi Shanshan still has to pay enough price, one of which was unimaginable pain.

That tiny wisp of earthworm sword qi was introduced into Shi Shanshan's body, and then began to wreak havoc in Shi Shanshan's body. Lu Zu's sword qi was not so easy to be subdued, if it can be refined simply by dripping blood to recognize the master or forcibly controlling it with the spiritual awareness, it would be too simple.

Shi Shanshan had already swallowed a fifth grade Lingzhi Mushroom jade pill, and she still had one in her mouth. If something went wrong, she would swallow it immediately. Yang Chen, who was acting as a Dharma protector next to her, had already prepared at least hundreds of fifth grade Lingzhi Mushroom jade pills, ready to replenish Shi Shanshan at any time.

After the sword qi was guided from the scabbard into Shi Shanshan's body, the chi chi's sounds did not stop. On Shi Shanshan's body, a small hole would keep breaking open from the inside to the outside, and a wisp of thin blood would burst out.

The Lingzhi Mushroom jade pill has a very strong medicinal effect. Shi Shanshan's current body would be fully able to withstand such a drug. As soon as the wound appears, it will recover immediately, and then the wound will appear in other places, and then the medicinal effect of the medicine pill will continue to work, and it will start again and again, as if there was no end.

For Shi Shanshan, the whole process was like slashing her with thousands of knives. At this moment, her beautiful body was a stabbed torn sack like a sieve, and she didn't know when it would fall apart.

With such pain, Shi Shanshan, the proud girl, kept her mouth tightly shut. Silently and patiently, she still clearly remembers what Yang Chen said to her.

“Refining this supreme pure yang sword qi, with your current cultivation base, you don’t even have to think about it, you can’t make it recognize you as it’s master. No longer attacking your body is the biggest purpose this time.” Yang Chen said at the time “During the process, you will suffer unprecedented pain. Believe me, it is a more painful process than little Xue’s blood demon vine, if you can’t, then wait until you’re ready, and don’t force it.”

With Shi Shanshan’s character, how could she back down at such a moment, rejecting Yang Chen’s kindness to let her cultivate for a while without thinking. Determined to start the process of refining the sword qi.

In fact, this was also a small trick of Yang Chen. For Shi Shanshan, the cold and proud Fairy, this trick was always more effective than encouragement. Especially when comparing her with Sun Qingxue, of course, it was her husband Yang Chen who said this, which added fuel to the fire.

What Yang Chen wanted was Shi Shanshan’s indomitable aura, which was in line with the nature of the sword qi, and Shi Shanshan, who was stimulated, was more likely to be recognized by this sword qi.

The physical pain made Shi Shanshan think of her husband’s words more and more and her spirit became more tenacious. Anyway, with the continuous healing of the fifth grade Lingzhi Mushroom jade pill, and the continuous replenishment of the four seas mysterious coral liquid, plus the continuous spiritual support of several spirit veins, Shi Shanshan didn’t even grit her teeth, she abruptly endured.

At the same time, the fifth grade Lingzhi Mushroom jade pill worked. The four seas mysterious coral liquid soaked outside Shi Shanshan’s body was also rapidly absorbed by some invisible shadow. It slowly reduced, and soon it will be reduced by half.

Yang Chen has been paying attention to the changes around Shi Shanshan’s body, and immediately filled up the four seas mysterious coral liquid without hesitation. Just to be on the safe side, Yang Chen even threw a few pieces of the Lingzhi Mushroom jade pills into it, and at the same time drew a few spiritual veins on the chart.

The Dragon Palace was strong enough. Around the bodies of the two of them, Xiao Tian waited happily outside. As soon as he saw the sword qi bursting out of Shi Shanshan’s body, he immediately rushed forward as if he had seen some delicious food and swallowed by it.

Outside the Dragon Palace, there was another scene at this moment. Although the treasure house of the Dragon Palace has been refined, it looks like an inconspicuous seabed stone. However, on top of the stone, there was an exaggerated shadow of a giant sword with a length of several thousand meters, shining in all directions.

The sea water in the phantom of the giant sword had already been squeezed out by an unknown force, forming the appearance of an air giant sword. The rays of light that radiated out revealed the slenderness of the dark seabed that was more than ten thousand feet deep. However, not a single fish or a shrimp dared to approach this side. The original underwater creatures here were smashed to pieces the moment the giant sword phantom appeared.

In the beginning, Yang Chen chose the deepest seabed that was more than ten thousand feet deep. There were two dragon magic weapons, such as the inverted sea jasper cup and the flying shuttle so he did this easily. Thanks to this, the phantom of the giant sword did not appear on the sea, otherwise it would be another earth-shattering event.

Before they started, Yang Chen had already cleaned up the surrounding sea area for hundreds of miles, and basically there was no existence of sea monsters. Therefore, although the phantom of the giant sword was very exaggerated at the bottom of the sea, no powerful guy has found it yet.

Everything was going on in secret, which was what Yang Chen wants. Since he has the memory of his previous life, he can quietly take precious materials away without disturbing anyone.

Yang Chen was not afraid of fighting with others. In fact, whether it was the third fire true essence, nourishing medicine gourd or this time's Pure Yang sword qi, there were outsiders who have discovered it and they have fought, but it was only on a small scale. The only thing known to the world was the third fire true essence. If he can make a fortune in silence, Yang Chen will never put himself on the cusp of the storm.

Shi Shanshan still followed the method that Yang Chen had taught her, and kept using her spiritual awareness to wrap around the pure Yang sword qi, completely ignoring the pain of her body being pierced. There was only one goal in front of her, which was to let the Pure Yang sword qi accept her, and the rest, everything will be solved by Yang Chen.

The spiritual awareness of the second grade human Immortal realm was the key to Yang Chen's belief that Shi Shanshan could control the Pure Yang sword qi.

Chapter 607: Yang Chen's Multiple Tasks

If nobody saw this scene, they would never believe the price of this pure Yang sword qi.

Needless to say, Shi Shanshan's physical pain, the second grade human Immortal realm realm was not something that anyone can achieve, and perhaps only the elders who have been in seclusion and guarding the sect can achieve it.

But even so, those people may not be able to collect it smoothly in the face of this pure Yang sword qi. The fifth grade Lingzhi Mushroom jade pill is a powerful elixir that can heal almost any injury before ascension. Not to mention ordinary sects, even the Pill Cauldron Sect, which specializes in alchemy, does not have such a large-scale amount. Except for Yang Chen, no one in the mortal world can take it out.

This was not to mention, there were at least ten spiritual veins under Shi Shanshan's body, each of which was almost comparable to the spiritual veins in the mountain gates of the five major sects. Even in the five major sects, it was impossible to find so many spiritual veins just for one person to use.

Not to mention the four seventh metal spiritual solution and the seventh metal true essence crystals. If the sect has so many kilograms or taels, it was already a treasure, how would they allow Shi Shanshan to use it, not to mention bathing with enough to fill a swimming pool. The used seventh metal spiritual solution was also enough to fill dozens of swimming pools.

If Bei Shuangyu and Liu Zifang from the Green Jade Immortal Island knew about this kind of luxurious price, it was not known what they would think. People with this kind of handwriting will look at the mere sects they control? The forest is getting bigger, and there are all kinds of birds. It really is honest and not deceiving, even the Green Jade Immortal Island was no exception.

The reason for using the seventh metal spiritual solution was because the last time Shi Shanshan and Sun Qingxue were abolished by Hu Qianyi, they soaked their bodies in the seventh metal spiritual solution to recover. Their bodies have been completely transformed by the seventh metal spiritual solution. At this moment, this seventh metal spiritual solution was used to repair Shi Shanshan's body with the fifth grade Lingzhi Mushroom jade pill, and the other purpose was to more effectively accumulate sword qi.

Of course, if the sword qi wants to absorb the seventh metal spiritual solution, it must absorb it from Shi Shanshan's body, which is also an important medium for the sword qi to recognize Shi Shanshan faster.

While staring at Shi Shanshan's situation. On the other side of Yang Chen, he had already held the scabbard filled with pure Yang sword qi in his hand. This ancient magic weapon, which can preserve pure Yang sword qi for hundreds of thousands of years, definitely has its uniqueness. What's more, this kind of magic weapon was Yang Chen's first choice to improve the quality of his current swords.

With Yang Chen's spiritual awareness cultivation base, it was enough to support him to perform multiple tasks. In fact, Yang Chen's experience in the mortal world through the following years, the total number has exceeded more than a hundred years, but his cultivation base has always stayed in the middle Yuanying stage, not because he didn't cultivate. Rather, he has been doing several things at the same time.

The space point of refining the demon continent, this has never stopped, and almost 30% has been completed. He believes it will take more than two hundred years for Yang Chen to refine the spatial connection point of the Demon Continent. At that time, it will be integrated into the Immortal beheading blade, and the Immortal beheading blade will have the ability to cut off space.

Of course, after refining the Demon Continent space point, there was still the entrance to the Immortal beheading stage to be refined. That would be more time consuming, he believes, but after refining, the effect will be even more terrifying.

Refining medicinal pills was the key skill for Yang Chen to become famous, Yang Chen has been continuing. The fire of the profound spirit furnace has never been extinguished. The questioning inner heart pills and face retaining pills, these are pills that are needed in large quantities. The hundred year pills were also in need, and these pills are more difficult and time-consuming to refine. For so long, Yang Chen has only been able to provide the sect's reserves and daily consumption.

Most importantly, Yang Chen was still groping for the experience of refining various basic medicinal pills. The fire of another ordinary alchemy furnace was also not extinguished, and it kept producing various kinds of pills. Low-level medicinal pills or failed medicinal dregs.

Devouring and merging all kinds of fire seeds was the only way to upgrade the Yin-Yang heaven burning fire, and it has never stopped. One of the fire seeds below the fifth rank devoured the other, and now Yang Chen has been continuously absorbing the fifth grade fire seeds. It's just that after reaching the fifth grade, each kind of fire has extremely rich characteristics, and each kind was not so easy to absorb.

The True Sun Fire and the True Moon Fire may be the easiest. In fact, any one of them needed to be handled carefully, most of Yang Chen's energy was on refining the demon continent space point and alchemy, and he was a lot slower on the side that absorbs the fire seeds.

Daily practice is a must, the daily maintenance of magic weapons, Heavenly Spirit Treasure Refining Secret Art, Earth Fiend Sacrificial Formation Secret Art, Universe Treasure Raising Secret Art, such as the core life source magic weapons and several magic weapons of the dragon clan, refining the medicine garden once a day. Absorbing the demonic qi on the demon orbs were also continued, and this is not counting the reading of various types of jade slips when Yang Chen seems to have nothing to do.

All of this was supported by Yang Chen's ninth grade human Immortal spiritual awareness. All those who looked at Yang Chen and seemed to have never cultivated very much could not imagine that Yang Chen had never interrupted his cultivation.

Of course, because of so many reasons, Yang Chen's spiritual power has not grown rapidly, which was also a reasonable necessity. However, in the eyes of others, this must be because Yang Chen didn't cultivate hard enough, which was understandable. As an alchemist, you never rely on your cultivation to break through.

Now there are two more things to add, one is to take care of Shi Shanshan, and the other is to fuse the scabbard into the sword after pondering and studying the refining method of the scabbard.

Speaking of which, the Immortal beheading blade was originally a sword box, relying on the soul of the sword to exert its power. In essence, it was just multiple scabbards, which complemented each other with this scabbard and could increase its power even more.

Time passed quickly, and it was two years in the blink of an eye. On average, Shi Shanshan takes a fifth grade Lingzhi Mushroom jade pill every day, she absorbs almost the equivalent of a swimming pool of seventh metal spiritual solution and a dozen seventh metal crystals. If nothing else, the flushing of the seventh metal spiritual solution in the body was enough to make Shi Shanshan's seventh metal true essence so powerful that it makes people speechless.

The wounds on the body have appeared less and less. At the beginning, there were almost a dozen wounds at the same time, and then the number gradually decreased to a few wounds, followed by one

wound, and then a tenth wound every half a column of incense, every half an hour. , every hour, every few hours, every other day, every two days, until now, a wound will appear every half a month.

Yang Chen finally felt relieved, the sword qi has gradually recognized Shi Shanshan in the past two years, and with a little more effort, the final recognition process can be completed.

Chapter 608: Controlling The Sword Qi

Yang Xi's mood has been looking forward recently. The sect's Everlasting Universe Origin Suppression Great Formation has already been completed, and is slowly completing the stage of energy injection. This stage will take at least three hundred years, after three hundred years, he will be able to enjoy the benefits of that special formation eye.

The reason for such expectations was that Yang Xi knew from Li Liheng that, apart from the core elders and Li Liheng, no one else knew about this special formation eye. Of course, now we have to add the two siblings, Yang Xi and Yang Lan.

If Yang Xi was still doubting whether the simple improvement of cultivation would work, then Mu Mingyuan's ascension within a stick of incense gave him the most realistic example. Even Mu Mingyuan, who has been abolished, could ascend. With Yang Xi's aptitude, it goes without saying.

This was a shortcut that the heavens wanted to give this brother and sister pair to ascend. With this special formation eye, as long as they use it carefully, their cultivation will be greatly improved, and then they will become a sect elder. As long as they have status, what would they want at that time? As for that boy Yang Chen, couldn't he let him die as he wanted?

Yang Chen has been arrogant for a long time. Not only has he released the hundred-year pill, but he also heard that he has recently made a seven emotions and six desires pill, which directly helped the Island master of the Green Jade Immortal Island become a Dacheng stage master. If he continues to develop like this, won't he become more and more difficult to deal with in the future?

Moreover, with the hundred year pills, it was simply a provocation against the special formation eye of the Everlasting Universe Origin Suppression Great Formation. The original unique resources of the Greatest Heaven Sect have become wealthless, was it tolerable or unbearable?

You don't even need Yang Xi to do it. As long as he spoke ill of Yang Chen lightly in the process of serving Li Liheng on a daily basis, over time, Li Liheng hated Yang Chen to the core. Although Li Liheng has already made a great oath not to use the special formation eye, it does not mean that no one in the sect will use it in the future. What happens once someone was in a situation like Mu Mingyuan?

If they let the Pure Yang Palace grow bigger and bigger, and Yang Chen became stronger and stronger, which was obviously not in the interests of the Greatest Heaven Sect. Li Liheng also mentioned it to several core elders and Sect Master Li, intentionally or unintentionally. Just like Yang Xi's strategy, he will not bite Yang Chen, but when it's time to go down the drain, he will push him along. Therefore, although the core elders of the Greatest Heaven Sect have not yet reached the point where they have made up their minds to destroy Yang Chen and the Pure Yang Palace, they do not have a good impression of Yang Chen.

No one has seen the Seven Emotions and Six Desires pills, but the news came from the Green Jade Immortal Island. However, all those present at the time were the core elders of the Green Jade Immortal Island. It was futile to try to get specific information from them. Outsiders only got the news from the disciples of the Green Jade Immortal Island who were fortunate to watch the ceremony that day.

Just this kind of hearsay was also exciting enough. The Island master's situation, many people are aware of, in fact, the Greatest Heaven Sect's sect master was in a similar situation, mainly because the control of the sect consumes most of his attention, so he encountered an insurmountable bottleneck in cultivation and was trapped in the peak Yuanying stage, unable to enter the Dacheng stage. Not only the Greatest Heaven Sect, in fact, many sects were like this.

As soon as they heard that the Island Master had already made a breakthrough with the Seven Emotions and Six Desires Pill, countless people made their move. Yang Chen and Shi Shanshan went out to cultivate and couldn't be found. Those who have a good relationship with the Green Jade Immortal Island naturally came to the Green Jade Immortal Island to ask for news. Some people in the Green Jade Immortal Island can refuse, but some people are obviously not suitable for concealment. More news about the Seven Emotions and Six Desires Pills came out. The Seven Emotions Pills were aimed at the Yuanying Stage, and the Six Desires Pills were aimed at the Dacheng Stage, they were both good things to hone your mood.

Countless people began to look for Yang Chen's whereabouts, and those secret compasses that flowed out of the Greatest Heaven Sect back then became the most sought-after items. The Greatest Heaven Sect has also learned to behave well now. This unique resource can only be mastered by the sect, and can no longer be leaked out. No matter if you find Yang Chen to please or kill him, there are more benefits to having exclusive control than sharing it with others.

Yang Chen and Shi Shanshan didn't know how much the outside world had stirred up because of the Seven Emotions and Six Desires Pills he made out of anger. Now Shi Shanshan has reached the last moment of controlling the sword qi.

Shi Shanshan was indeed a genius with excellent understanding, another point is that she is not greedy, neither greedy for money nor time. If she can lay a solid foundation, she will never take a short time. This also makes Shi Shanshan rarely encounter trouble in her cultivation, especially when Yang Chen was by her side.

In the last step of controlling the sword qi, Shi Shanshan adopted this attitude. This control of the sword qi can save Shi Shanshan at least hundreds of years and thousands of years of cultivation time in the future. Therefore, she became as cautious as she can at the beginning, Shi Shanshan knows this truth better than anyone else.

Under the support of Yang Chen, Shi Shanshan finally succeeded in gaining the approval of the Supreme Pure Yang Sword Qi. That sword qi that has existed for thousands of years, obediently stayed in Shi Shanshan's body, and regarded Shi Shanshan as its future master, and there was no more sword qi overflowing.

But even so, at the last moment, the Supreme Pure Yang Sword Qi broke out once. The phantom of the giant sword thousands of meters outside the Dragon Palace was completely crazy at that moment. The sharp sword light penetrated the sky and almost cut the sky in half.

In the thousands of miles around, all living creatures felt that trembling power, and the countless weak monsters, all curled up into a ball and shivered when they felt the power of the sword qi. Within this range, the magic weapons exposed by hundreds of cultivators with unknown purposes were all smashed into pieces by the sword qi, and the sound of the explosion was endless.

How many people were frightened by this sudden illusory attack and fled away desperately. There were only a handful of cultivators who dared to stay in that area.

Fortunately, the sword qi didn't continue after this outbreak. After the outbreak, the sword qi completely stayed in Shi Shanshan's body and stayed there obediently.

Shi Shanshan stood up with an uncontrollable happy smile on her face. Even the normally glamorous Fairy Hanmei couldn't help but be ecstatic when she got such a big benefit, and her happy expression was beyond words.

"Thank you, husband!" Shi Shanshan, who got up, even threw herself into Yang Chen's arms, regardless of her own physical discomfort, and said very emotionally.

Chapter 609: I Am Just Too Lazy To Think

It was impossible for Shi Shanshan not to thank Yang Chen. Without Yang Chen, Shi Shanshan would not have the chance to touch this supreme sword qi, let alone refine it. Although the refining and complete control was still far away, with the current foundation, it means that Shi Shanshan's achievements in the future will be even more brilliant than in the previous life.

Shi Shanshan wouldn't know this, she only knew that without Yang Chen, there would be no such thing. Not to mention the whereabouts of the sword qi, just the consumption in the collection process was not something that any sect could handle, even the Green Jade Immortal Island, one of the five major sects, was no exception.

Not to mention anything else, the seventh metal spiritual solution used to nourish the sword qi alone would have used at least several million kilograms. If it was converted into spirit stones, selling the entire Green Jade Immortal Island would not necessarily be enough to make up for it. This was not to mention the massive amount of spiritual power consumed in the process, as well as the hundreds of fifth grade Lingzhi Mushroom jade pills.

Fifth grade Lingzhi Mushroom jade pills, the best existences in the mortal world, every one of them could mean the difference between life and death and flesh and bones, just to allow her to receive timely treatment during the collection process. Without a close relationship with Yang Chen, who could let Yang Chen use such precious materials?

Compared with the huge price that Yang Chen used to collect sword qi, the mere monthly resources of the Green Jade Immortal Island was really not worth Shi Shanshan's anger. But Yang Chen just wanted to vent her anger, and directly brought down the core elder, why would it not make Shi Shanshan happy?

Shi Shanshan was fascinated by every bit of the journey since she met Yang Chen. In this whole life, it can only be that if her body and mind are firmly controlled by this enemy, there is no way to escape.

“Between us, husband and wife. Is it necessary to say thank you?” Yang Chen embraced Shi Shanshan in his arms, also very happy.

Shi Shanshan found a suitable cultivation direction, and Yang Chen also settled the cause and effect of the sword qi which was left behind, killing two birds with one stone, making Yang Chen’s mood more and more harmonious.

After the two lingered for a long time, they set foot on the road back to the sect again. Shi Shanshan didn’t seem to want to leave Yang Chen’s arms for a moment, and has been in Yang Chen’s arms all this time.

Once out to sea, Yang Chen’s shuttle stopped. Shi Shanshan, who was fascinated by the warmth of Yang Chen’s arms, immediately noticed. However, Shi Shanshan was also too lazy to investigate with her own spiritual awareness. Anyway, with her own husband having a ninth grade human Immortal spiritual awareness, how would she be afraid that anyone can hide from them?

“Who is it?” Shi Shanshan really didn’t want to be separated from Yang Chen, so she curled up in Yang Chen’s arms like a kitten and asked without looking up.

“Tao Junqi from the Greatest Heaven Sect, and Shi Wushuang, Fairy Aoki. There are also some idle people waiting.” Yang Chen couldn’t help but reply with a wry smile. These two women, to actually block him here, surprised Yang Chen. Fortunately, the five Murong sisters did not appear at the same time, otherwise Yang Chen would not know how to explain it to Shi Shanshan.

However, it’s normal to think about it. Tao Junqi should have the easiest way to know Yang Chen’s whereabouts. With the wisp of spiritual awareness of that guy Li Liheng, he couldn’t escape the pursuit of the Greatest Heaven Sect. He also estimated that Shi Wushuang also obtained the tracking compass from the Greatest Heaven Sect, so it’s no surprise she showed up here.

Tao Junqi and Shi Wushuang were indeed rushing to follow the compass, but after reaching this sea area, the compass in their hands was directly destroyed by a sword qi of the five elements and no trace was left. Although it was no longer possible to track Yang Chen’s whereabouts, it was certain that Yang Chen was in this area.

They arrived here more than a year ago, of course, with the purpose of finding Yang Chen about the Seven Emotions and Six Desires Pill. It's just that no matter what they try, there always seems to be an area that people can't get close to. As soon as you get close, you will have a terrifying feeling, and no one can tell what was inside. Although the giant sword phantom was large, no one could see it clearly if it was not close.

There were a lot of people who appeared in this area with them, but those people didn't go all the way. Everyone went their own way and didn't interfere with each other. It was rare that they didn't do anything.

One thing was the same for everyone, these people were all holding a compass to track Yang Chen. Basically, it was released last time by Li Liheng in order to retaliate against Yang Chen. Of course, everyone's conclusion was the same, Yang Chen was in this huge sea area, but unfortunately, only in this sea, they didn't know where to go.

After patrolling this sea area for almost two years, when everyone's patience was almost exhausted, the sudden burst of sword qi directly shattered the dreams of countless people. None of the compass in their hand was left, and that fierce aura completely shattered the only luck in the hearts of many guys with various thoughts. There were only less than ten people left on the sea, all of them were famous masters.

After waiting for Yang Chen on the sea for four or five days, everyone finally found that Yang Chen's flying shuttle appeared from the bottom of the sea. Tao Junqi and Shi Wushuang even felt an indescribable sigh of relief when they saw the shuttle appear. Perhaps, in their hearts, for a moment, they were worried that Yang Chen would also be hurt by that sword qi.

"What are they doing here?" Shi Shanshan asked casually and curiously. She just focused on cultivation and didn't pay attention to some trivial matters of fighting for power and profit, but it didn't mean she didn't understand. Immediately guessed the answer "Do they want a pill?"

"The sect behind them." Yang Chen said with a wry smile.

"Other sects, it doesn't matter if you are properly drawn and made good friends." Shi Shanshan startled Yang Chen as soon as she opened her mouth "However, Tao Junqi of the Greatest Heaven Sect, you can't let her succeed. It's a big deal. , can't let the Greatest Heaven Sect get substantial benefits."

Yang Chen didn't seem to know Shi Shanshan, and looked at his wife, who was most concerned about cultivation. When did Shi Shanshan have such thoughts, was this still the Fairy Hanmei that she knew?

"I'm just too lazy to use these brains to think, it's not that I don't understand." Shi Shanshan knew Yang Chen's expression without looking at it. Even if she was too lazy to pay attention to this kind of intrigue before, when she was cultivating in the mortal world, she spent decades listening to those things. The stories told by the court servants, even if she didn't understand it, she has become an expert after decades.

"Eat and wipe clean and don't recognize people?" Yang Chen couldn't help shaking his head: "You said it lightly, if I did the same to you, can you give up? Can the Green Jade Immortal Island give up? Or do you think that the Greatest Heaven Sect is easier to deceive than the Green Jade Immortal Island?"

"Then let them all focus on you." Shi Shanshan didn't care too much, she just continued to talk about herself "I know, you must have arranged the cultivation direction for Sister Gao and A'Ling, and we will have a long time. If we can't take care of you, let them serve you for us during this time."

Chapter 610: Sword Qi Outburst

Sword Qi Outburst

Shi Shanshan's words made Yang Chen shake his head for a while, what a joke, he didn't have time to hide, he had accidentally left him a lot of trouble last time, and now he don't know how to solve it, how can he keep them by his side and still expect things not to get chaotic?

However, people were already around, apparently knowing Yang Chen's whereabouts. If he didn't say hello, it's still a little rude, so Yang Chen took Shi Shanshan's little hand, put away the shuttle, and appeared in front of Tao Junqi and Shi Wushuang.

The intimacy of the two holding hands was seen in the eyes of Tao Junqi and Shi Wu, which made the two women feel a little uncomfortable. But Shi Shanshan was the wife of Yang Chen, no matter how close they are, no one else can say anything. People who practice cultivation don't pay attention to worldly etiquette.

"Greetings fairies!" Yang Chen greeted Tao Junqi and Shi Wushuang. After all, he was a man, and it was proper courtesy to meet each other with courtesy.

Just as Yang Chen saluted, the expressions of the four people present changed at the same time. Hundreds of tenth water divine thunder suddenly appeared around the crowd. Seeing the signs, they would explode in an instant.

As soon as his mind moved, the golden bell appeared outside Yang Chen's body. He was about to block all these attacks when he suddenly found that Shi Shanshan had already moved her hand.

"No!" Yang Chen only had time to shout this sentence, and the sword qi in Shi Shanshan's body burst out, instantly slicing the tenth water divine thunder in half. Even though tenth water divine thunders were on the verge of eruption, there was still none which escaped the fate of being cut open.

The supreme pure yang sword qi was almost invincible in the mortal world. Not to mention the tenth water divine thunder, even if it was ten times stronger, it will not be able to escape a single sword.

The threat of the tenth water divine thunder has disappeared, but new troubles were coming. The supreme Pure Yang sword qi, Shi Shanshan has only just collected it, and has not even started refining, so it was impossible to control it freely. Just because she has been fighting against the sword qi for the past few years, she released it when she encountered danger subconsciously, but the fatal problem was that, could she control it.

Yang Chen realized something was wrong almost instantly, and hurriedly appeared in front of Tao Junqi and Shi Wushuang, and the golden bell opened to the maximum. He even took out the Immortal beheading blade and blocked it in front of him and the two girls.

There were more than a dozen screams before death in the distance, and the screams were full of unwillingness. Yang Chen knew that those guys must have been patrolling around and waiting to plot against them.

These guys, when they die, no one will care. The trouble was, the two women behind Yang Chen, Fairy Junqi from the Greatest Heaven Sect and Fairy Aoki from the Qiankun Sect, also let out a painful cry.

The supreme pure yang sword qi, was invincible. In the mortal world, only the scabbard can restrain it. Fortunately, Yang Chen had already absorbed the scabbard into the Immortal beheading blade, so the Immortal beheading blade he took out in a hurry still blocked most of the sword qi.

However, the remaining part of the sword qi still broke through the blockade of the Immortal beheading blade, and two subtle sword qi directly broke through the dragon shadow defense on Yang Chen's golden bell. It passed through Yang Chen's body and directly submerged into the bodies of the two women.

At this moment, Yang Chen didn't even feel the pain in his body. Tao Junqi and Shi Wushuang could not die at the hands of whomever attacked them, and neither could it be at the hands of Shi Shanshan. Although Yang Chen did want to let the Greatest Heaven Sect be ruined all the time and let the four major sects join forces to attack it, it was obviously not the time now. Shi Shanshan attacked first, if something happened, it would be the same fatal trouble for Shi Shanshan.

Things were happening too fast, although Tao Junqi and Shi Wushuang had already made a defensive posture, and their body protection magic weapons was summoned in time, in the face of the supreme pure yang sword qi, even if it had passed through the sword qi that Yang Chen had neutralized part of its power, it was still impossible to withstand. The two body protection magic weapons shattered suddenly, and the sword qi directly passed through the bodies of the two women, carrying the two women up and falling heavily.

Yang Chen's movements was fast enough, but he only had time to catch the falling bodies of the two girls. Immediately, Yang Chen took out two fifth grade Lingzhi Mushroom jade pills and delivered them to the mouths of the two women. The injuries of the two women were not too serious, and they were not fatal. They still kept their minds and swallowed the medicinal pill obediently, and no one said much.

Only at this time did Yang Chen realize his physical injuries, and he also took a fifth grade Lingzhi mushroom jade pill. Seeing that the two girls were still in good spirits despite their injuries, he breathed a sigh of relief.

Shi Shanshan finally took back the sword qi, but after this, she no longer dared to use it at will. If the Pure Yang sword qi can be sent out, there is no distinction between enemy and friend. It seems that it can only be used after refining a part of it.

Seeing that Yang Chen was injured, the glamorous Fairy Hanmei was also in a hurry, patiently waiting for the sword qi to be withdrawn before she came to Yang Chen's side. Looking at the sword wound on Yang Chen's body, she couldn't help but feel some resentment towards Tao Junqi and Shi Wushuang.

Of course, Shi Shanshan knew that Yang Chen had already refined the scabbard. If it were him alone, the sword qi would not have been able to hurt Yang Chen at all. It was because he had to protect the two of them that Yang Chen was injured. Therefore, for the two women Tao Junqi and Shi Wushuang, Shi Shanshan no longer has the same good feelings as before.

However, in the hearts of Tao Junqi and Shi Wushuang, the situation at this moment could not be better. Shi Shanshan hurt the two of them, no matter what the reason was, Yang Chen would always feel guilty, which also gave them an opportunity to get closer to Yang Chen.

However, the two women were shocked by the strength of Shi Shanshan's sword qi. When the sword qi hit them, the two women couldn't resist at all. At that moment, even Tao Junqi in the late Dacheng stage had to admit that she was by no means Shi Shanshan's opponent when she attacked. As for Shi Wushuang, whose cultivation level was similar to that of Shi Shanshan, there was a feeling of being unmatched.

Shi Shanshan was only in the middle Yuanying stage and close to the late Yuanying stage. Even if she breaks through, it was only in the late Yuanying stage.

Fairy Aoki originally thought that everyone was about the same, but now she realized that she had been dropped so far by Shi Shanshan unknowingly. The original Hanmei Fairy, although famous, was not so startling.

Everything seems to have changed after being involved with Yang Chen. If Tao Junqi and Shi Wushuang had to deal with Yang Chen because of their sect at the beginning, now seeing Shi Shanshan's performance, the two women have a different mind.

It seems that cultivating with Yang Chen was not an unacceptable thing.
