Chapter 611: Return

Return

The small episode did not change the schedule of Yang Chen and Shi Shanshan, but when they left, the two had a few extra bags from those who planned to plot against them. In Yang Chen's shuttle, there were two more beauties, Tao Junqi and Shi Wushuang.

Those people's calculations were exquisite, Yang Chen and Shi Shanshan appeared beside Fairy Junqi of the Greatest Heaven Sect and Fairy Aoky of the Qiankun Sect, if they kill Yang Chen together with the three fairies together, it will definitely cause the Greatest Heaven Sect, Green Jade Immortal Island, Qiankun and Pure Yang Palace to be in chaos, then they can calmly take the things they got from Yang Chen and escape, and no one could find them.

Hundreds of tenth water divine thunders with added ingredients, were enough to send four Dacheng masters into hell. But what these guys never imagined was that Shi Shanshan was so terrifying, a sword qi cut hundreds of tenth water divine thunders into two halves, and even together with them, how could it be the power of a sword qi.

The appearance of the hundred year pills has made Yang Chen very prosperous now. The greater Yang Chen's reputation, the more protective umbrella he has been given, but also more people coveted him. The Pure Yang Palace was not a sect that was good at alchemy, but there was a fifth-grade alchemy master there, how strange it was.

Countless people were digging into the secret of how Yang Chen became a fifth-grade alchemist. Countless speculations point to one direction, that was, what Yang Chen learned was not from the sect, but from another source. This source was obviously kept with him, as long as they killed Yang Chen, they would be able to get precious materials.

This group of hands-on people are not the first. It will definitely not be the last batch. As long as Yang Chen has an impressive reputation, there will be no shortage of such people. It's just that those who do it in the future will become more and more difficult to deal with and become more and more powerful.

After this action, Shi Shanshan no longer dared to use the pure Yang sword qi casually. The next day, it is all about refining this sword qi at all times. Yang Chen said that he would never interfere with Shi Shanshan and Sun Qingxue's cultivation direction again, the last time he interfered was to let them not have to think about using it for anything else for thousands of years or even longer.

Yang Chen still sent Shi Shanshan back to the Green Jade Immortal Island. Although being by Yang Chen's side could make Shi Shanshan happier, after all, the Green Jade Immortal Island was her sect and the root of Shi Shanshan.

"Island master, Elder Min, Shanshan really can't easily deal with others this time." After sending Shi Shanshan back, Yang Chen took Shi Shanshan directly to meet the Island master and Elder Min Huafeng. He very solemnly explain Shi Shanshan's current state.

Regarding the Green Jade Immortal Island, Yang Chen didn't plan to let Shi Shanshan hide the sword qi. He only didn't mention the origin, everything else was made known. They heard that even Fairy Junqi and Fairy Aoki couldn't stop Shi Shanshan's blow. While the people of the Green Jade Immortal Island were surprised and happy, they couldn't help but feel a little embarrassed.

The reason why Yang Chen warned them about this was naturally because of the last incident, Shi Shanshan didn't want to do it, but the sect wanted to know the effect of her experience. Under the arrangement of Elder Bei Shuangyu, the elder of the sect, she would compete with the masters of the sect. If it wasn't for Elder Min's early action, perhaps Shi Shanshan would have caused a big disaster, even so, Shi Shanshan did not escape being calculated against afterwards.

This situation was different now than it was then. Once you do it, you will die. Shi Shanshan couldn't control the sword qi freely at all, whether it could be sent or not, causing Shi Shanshan's anger, there was only one way to die, and there was no other way. On this point, Yang Chen made it very clear that even if it was an elder, they shouldn't try it at will.

In addition to embarrassment, the core elders of the Green Jade Immortal Island were also surprised and happy. Shi Shanshan also has great benefits, not to mention that the Seven Emotions and Six Desires Pill must be part of the Green Jade Immortal Island. However, the specific price has to be negotiated in detail, and these will have to wait for Yang Chen to return to the Pure Yang Palace, it was impossible for the Green Jade Immortal to bypass the Pure Yang Palace and directly discuss with Yang Chen.

After setting up Shi Shanshan, Yang Chen could only return to the Pure Yang Palace with Tao Junqi and Shi Wushuang. The two women cherished this opportunity to have further contact with Yang Chen. The injury had long since recovered under the treatment of the fifth grade pills. On the basis of proper intimacy, the two women also behaved very decently, which made Yang Chen feel very good. They didn't use this to ask Yang Chen to give any answer about anything, they just enjoyed the feeling of being with Yang Chen.

What surprised Yang Chen was that when he returned to the Pure Yang Palace, one of the Murong sisters from the Five Elements Sect had been waiting in the Pure Yang Palace for a long time. She did not directly look for Yang Chen with a tracking compass like Tao Junqi and Shi Wushuang did, but waited for him in the Pure Yang Palace. Anyway, Yang Chen will always come back, right?

The beauties of the three major sects gave Yang Chen a headache. After temporarily settling down the three women, Yang Chen still first visited the palace master and his master ancestor, and then the elders.

"What happened with the Seven Emotions and Six Desires Pill?" The core elders of the Pure Yang Palace had been waiting anxiously for a long time. As soon as Yang Chen came back to see them, they immediately asked anxiously.

After Yang Chen told the story of what happened in the Green Jade Immortal Island, the palace master and the others understood the reason, and they also learned more about the Seven Emotions and Six Desires Pill.

"So, is this seven emotions pill also suitable for me?" The palace master has reached the peak Yuanying stage in the past few hundred years. Hearing that the Island Master used the seven emotions pill to cross the tribulation, the palace master also became excited.

"It's true." Yang Chen replied with a smile "Before this disciple was not too sure, but the Island Master helped me try the effect, so it made the disciple sure."

"How dare you, dare to let the sect master of the Green Jade Immortal Island test the medicine?" When everyone heard that Yang Chen actually asked the sect master of the Green Jade Immortal Island to test the medicine, they couldn't help but secretly worry. The dissatisfaction of taking this precious medicinal pill to let outsiders know first was also thrown into the clouds.

“The effect is definitely there, but I just didn’t know how good it was.” Yang Chen didn’t worry at all, and replied with a smile “In the end, there won’t be any big problems.”

Yang Chen said it lightly, but everyone knew that it was dangerous, and they couldn’t help but sweat coldly at this disciple’s audacity. In order to vent his anger for his wife, he took out this heaven-defying medicinal pill, and also brought down a core elder of the Green Jade Immortal Island plus an ordinary elder. This ability to cause trouble was not ordinary.

“How is this medicine going to be arranged?” While everyone was happy, they all understood that there was another big resource in the hands of the Pure Yang Palace. With these seven emotions and six desires pills, the Pure Yang Palace will have more and more say in the future.

“It’s not easy to collect the raw materials, so we can only supply a small amount.” Yang Chen thought about it and replied, “It’s still the old rule, first let them give the sect a benefit, and then let them talk to this disciple.”

Chapter 612: Negotiations

Negotiations

The three beauties of the three major sects were here waiting for Yang Chen with a purpose. You don’t need to ask to know that they must be here for the seven emotions and six desires pills. From the Island Master, countless sect masters have seen the hope of improving their own cultivation, who would easily miss it?

Not only the five major sects, but many people from other sects have already arrived at the Pure Yang Palace and were waiting for Yang Chen to come back and make an offer. Representatives of many sects were not qualified to see Yang Chen immediately, so they could only wait honestly.

During this time, there were quite a lot of people flocking to the Pure Yang Palace. Although the Pure Yang Palace has been very lively before, it still can’t catch up with this time. All the rooms in the Pure Yang Palace were full, and they can’t even stay there, and even Fang City has arranged a lot of visitors. Countless rogue cultivators gathered in the Meiqing Mountain, and all of them had almost the same goals, all for the sake of pills.

Yang Chen's medicinal pills in recent years, no matter what medicinal pills it was, whether it was a questioning inner heart pill, a second grade inner sensing pill, a hundred-year pill, or a face retaining pill, plus the seven emotions and six desire pills that have been launched recently, they were all precious pills which made people flock to. Those cultivators who were not supported by the big sects, if they get any of them, they could be met but not sought after.

After almost two or three hundred years of research, the second grade inner sensing pill was finally refined by a master of the Pill Cauldron Sect, and it was no longer the specialty of the Pure Yang Palace. However, the rest were still Yang Chen's unique pills. The questioning inner heart pills and hundred year pills, even if the five major sects and the Pill Cauldron Sect have pill recipes, they cannot be refined. The questioning inner heart pill was still too difficult, but the hundred year pill has no raw materials for alchemy at all.

The face retaining pills was a secret that Yang Chen has exclusively mastered. It was never leaked, no matter who asked, it was never leaked. This is one of the guarantees of the ten thousand treasure building's wealth, and Yang Chen will not give it away easily.

In the end, what remains was the Seven Emotions and Six Desires Pills. Everyone has only heard of the reputation of the magical pill, but only one has actually used it. It was the Island master of the Green Jade Immortal Island and the effect was very outstanding.

The Pure Yang Palace has never had such a scenery since the establishment of the mountain gate to the present. Several core elders, including the master of the palace, have been smiling from ear to ear since Yang Chen came back. The grand vision of their ancestors will be realized in their hands, how could it not make these elders happy?

However, Fairy Junqi and Fairy Aoki came back with Yang Chen. Moreover, one of the Murong sisters was still waiting for Yang Chen in the Pure Yang Palace, especially when they settled in the small courtyard where Yang Chen lived. This situation was seen by many people, and there have been many ambiguous rumors.

Originally, there had been a lot of rumors some time ago that the three sects came to propose marriage, but they were politely rejected by the Pure Yang Palace. But at that time, because Yang Chen hadn't dealt with it completely, there have been all kinds of rumors. Now Yang Chen came back directly with the two women, one was also waiting at home, what does this mean? Sometimes Yang Chen really wanted to slap himself a few times, why would he say something that he regretted so much, it really does stop.

The three women have probably heard a lot of such a statement, and they don't care about it. Instead, they felt happy to see it happen. They just hurt Yang Chen, and it was inappropriate to refute the rumors.

Many small sects were envious of the five major sects. After all, they were powerful, even if they ignore the genius of Yang Chen at first. But there are always many things that can be used to make up for it later. Even if you pay a few talented and beautiful disciples of your own, you can still achieve your goal in the end. On the contrary, they couldn't force the marriage proposal like the five major sects did, and the Pure Yang Palace directly refused the proposal, so they could only wait in line to ask for pills.

Gao Yue and Gongsun Ling also returned to the Pure Yang Palace. Of course, they have heard a lot of rumors, but they have absolute confidence in their husband. Regardless of the rumors outside, they all responded with a smile and showed no signs of being jealous.

This scene fell into the eyes of others. Naturally, Yang Chen's wives had a righteous way. The garden was full of fragrant flowers inside and outside the walls. Especially, all of them were fairies with unparalleled beauty, which always made people envious.

Compared to Yang Chen's wrath, Tao Junqi and Shi Wushuang hurriedly spread some news. They had been staying on Yang Chen's flying shuttle before, and they didn't find a chance but when they arrived at the Green Jade Immortal Island they finally had the opportunity to avoid Yang Chen and pass what they know back to the sect.

They didn't know what adventure Shi Shanshan had, but she could kill more than a dozen Dacheng stage masters with one move. These things happened in front of their eyes, if it wasn't for Yang Chen's quick protection, maybe the two of them would have been beheaded.

Fairy Hanmei was only having the cultivation level of the middle or late Yuanying stage, it was absolutely beyond everyone's expectations to have such fighting power. Especially combining the news of Elder Bei Shuangyu's long-term retreat for two years, and the news of Shi Shanshan's previous suppression, there must be something wrong.

Everything was inseparable from Yang Chen. In particular, the reason why Shi Shanshan was able to leapfrog and kill more than a dozen Dacheng stage masters is what every major sect wants to know. This point was even comparable to the pill recipe in Yang Chen's hands.

“The seven emotions and six desires pills contain the aura of yin fire and raging wind tribulation. It is not easy to collect, and I don’t have much in my hands.” The representatives of the five major sects and the Pill Cauldron Sect didn’t know these things, so Yang Chen then expressed his attitude “Each sect can have three pills for each of the seven emotions and six desires pills, there will be no more. In the future, I will have to find a way to find a master facing his tribulation to collect the tribulation aura, let’s discuss it and see what price is right.”

Unexpectedly, whether Tao Junqi, Shi Wushuang, or Murong were not their respective sect representatives, the sect representatives were other people, which surprised Yang Chen.

“Grandmaster Yang, are the pill recipes of the Seven Emotions and Six Desires Pills available to sell?” The representative of the Pill Cauldron Sect wanted to know about the pill recipe, and he was the first to ask. In fact, this was what other sects wanted to know.

“Of course, as long as the price is enough. However, do you still have the seventh-grade fire seeds?” Yang Chen has always used the seventh-grade fire to calculate the price of the pill recipes. Even if the fire seed was not enough, it must be equal to the seventh-grade fire seed to compensate. Saying this, everyone was not surprised, but Yang Chen’s next sentence made many people hesitate “The raw materials needed are the aura of the Yin fire tribulation and raging wind tribulation, how to collect the aura of this tribulation is not in the pill recipe.” The implication is that this was Yang Chen’s exclusive secret recipe and will not be leaked.

Chapter 613: Another Transaction

Another Transaction

Since Yang Chen said so, everyone could be sure that these Seven Emotions and Six Desires Pills can definitely be refined at the level of a third- or fourth-grade alchemist. However, if there was no material, it can’t even be refined by a Great Lou Golden Immortal.

How to collect the aura of the tribulation made many people smile bitterly. In the mortal world, when everyone talks about the tribulation, they were all cautious and unusual, and they wish they could deal with it with everything they got. Every person who faces the tribulation, who was not trembling, for fear of failing to cross the tribulation, who would have thought that he would still be able to survive the tribulation, so they would collect some heavenly tribulation aura for alchemy?

Yang Chen not only thought of this, but also achieved it, which only shows that Yang Chen's idea was indeed unique. He was worthy of the name of the fifth-grade alchemy master. Others have never thought of this, this was the gap between him and the others.

In this way, the alchemy technique should not be the most important, but the material. For a time, everyone began to hesitate whether to really buy this pill recipe. After all, even if there is a pill recipe, it was in vain if there is no way to collect the aura of the tribulation.

"Grandmaster Yang, are you willing to sell this method of collecting the aura of the heavenly tribulation?" Someone immediately asked. Yang Chen was famous for selling everything, but the price is expensive. Some people were interested, but it is not enough.

"The price is very high!" Yang Chen replied without hesitation, and at the same time gave the other party some information without hesitation "Even if there is a way, you have to risk your life to enter the scope of the tribulation, are you sure you want to buy it?"

As soon as they heard that they would still be within the scope of the heavenly tribulation, many people thought about it. The seven emotions and six desires pills was good, but it's nothing compared to life. Whoever would be willing to enter the scope of others' tribulation. First, it makes it more difficult for others to cross the tribulation, and secondly, they have to experience the threat of tribulation. This kind of cost was greater than the benefit, only a fool would do it.

"How did the grandmaster stay safe and sound within the scope of the tribulation?" Among the cultivators, there were almost no fools, and someone immediately figured out the key to the problem, and then asked aloud.

"There are actually many ways. Simply put, as long as your cultivation base is strong enough, you can." Yang Chen didn't feel unhappy at all, and replied directly "In fact, as long as the person who faces the tribulation agrees, a Dacheng stage master can easily enter within the scope of the yin fire tribulation"

This principle was very simple, almost everyone could think of it, but everyone's mind was obviously not on Yin fire tribulation, but on the higher-level raging wind tribulation. Everyone was staring at Yang Chen, waiting for Yang Chen to give a specific answer. Even if it's not that specific, it's good to have a direction.

“As for the raging wind tribulation, it’s the same format. The cultivation base must exceed the level of transcendence of the tribulation and ascending, so naturally it is safe and sound. I think everyone understands this.” Facing the representatives of the five major sects and the Pill Cauldron Sect, they should all think about it. Knowing the existence of the supreme elder is not incomprehensible. It’s hard to say for small sect, it was simply unimaginable for them to believe that there are people in the mortal world who are beyond the tribulation.

“As for my own method...” Yang Chen sold out a little, but it attracted a lot of sect representatives eager to see it through. Although they haven’t seen the real Six Desires Pill, since Yang Chen said that he can provide three, that means there must be some. Yang Chen’s cultivation base was not at the level of the supreme elder, so how he was able to collect the aura of the raging wind tribulation was naturally the focus of people’s attention.

“If I do not interfere with the people who face the tribulation, it will not increase the difficulty of the tribulation, and of course, I will not be hurt.” Yang Chen first explained the characteristics of his method, and then he was staring at a group of people like hungry wolves. In the eyes of everyone, he said slowly and leisurely “It’s very expensive!”

“How expensive is it?” Although the Pill Cauldron Sect didn’t have very powerful experts, they had always been rich and powerful. As long as it was something that could be offered at a price, they were not afraid. When it comes to the money earned from medicinal pills, ten of Yang Chen can’t compare to the accumulation of the Pill Cauldron Sect’s tens of thousands of years or even longer.

“It’s so expensive that you want me to say a few more words of nonsense, otherwise you’ll feel a pain in the flesh!” Yang Chen gave a rare humor, but in disguise, he explained the expensiveness of this method. Although no specific price has been given, everyone already has a concept in mind.

Yang Chen has now understood some of the sect’s style, some precious things, even if they can’t do it temporarily, they must take the method in hand, maybe there will be outstanding disciples who can do it in the future. Therefore, if they can buy pill recipes, they will definitely buy pill recipes. This is a strategic reserve, and it is no longer on the same level as small sects kind of training masters first.

Of course, Yang Chen would not push the benefits of being delivered to the door, so the representatives of the major sects, right in front of Yang Chen, began to bargain with Yang Chen.

The seven emotions pill was simple, one pound of top-quality spirit stones, and there is no additional cost. The Six Desires Pill was much higher, not to mention ten pounds of top-quality spirit stones, each sect must send a copy of the alchemy experience of the sect seniors.

Of course, this is the price of adding the Pill Cauldron Sect to the five major sects, and the rest, except the Pure Yang Palace will leave a batch for personal use, the rest will be auctioned at the ten thousand treasure building according to these prices. He believe many people will be very interested in this.

Yang Chen's asking price for the pill recipes was not high, a seventh-grade fire seeds plus some refining materials. However, it was specially specified that the seventh-grade pure yin true fire was required. If there is the pure yin true fire, the transaction can be directly traded without any additional materials. So far, Yang Chen has not obtained the pure yin true fire. In the future, the life prolonging pill will also need the pure yang real fire and pure yin real fire to refine. This was to prepare for a rainy day.

The representatives of the major sects have yet to give Yang Chen an answer on the method of collecting the aura of the tribulation. It is true that Yang Chen's asking price was too high, it was directly ten kinds of seventh-grade fire seeds or equivalent items. This price was enough to make any sect flinch.

After sending off the representatives of the major sects, Yang Chen was finally able to calm down. What surprised him was that Tao Junqi, Shi Wushuang and Murong did not leave, but continued to stay in the Pure Yang Palace. It was very embarrassing for Yang Chen to rush and stay.

Since the seven emotions pills has been verified by the Island Master, it was natural that the Palace Master and another elder who was about to break through try it out. After Yang Chen has settled the price with the major sects, they will retreat and take the pills, Yang Chen's master ancestor Wang Yong, was the guardian of the two of them.

Yang Chen, Gao Yue and Gongsun Ling hadn't seen each other for a long time. The two girls have been busy with the sect mission, and they were very happy to meet Yang Chen after a long absence. Yang Chen didn't say a word, and took the two girls to retreat, he absolutely must first upgrade the two girls' spiritual awareness.

Just when everyone cultivated separately and the Pure Yang Palace seemed to be normal, a change suddenly occurred. A powerful force, like thunder, frantically launched a devastating attack on the Pure Yang Palace.

Chapter 614: Attack On The Pure Yang Palace

Attack On The Pure Yang Palace

Boom, Meiqing Mountain seemed to be detonated in an instant. The violent collision between the mountain protection formation and an unknown formation method caused the sound and vibration, like a landslide. Countless fire lights lit up, and countless flying sword magic weapons boiled in the air, and the crisis that had been brewing for a long time finally broke out.

The timing of the attack was chosen at the right time. The palace master and an elder took medicine and were cultivation in retreat, Wang Yonghu, Yang Chen, Gao Yue and Gongsun Ling retreated together, the old tree demon happened to be on duty in hundred thousand mountain, and Hou Yun was in Banyan tree Immortal's Cave, the highest-end power of the sect can almost be said to be the weakest, and the powerful attack came so suddenly.

This mysterious power almost brought together at least twenty Dacheng stage masters, and at the same time there were nearly a hundred Yuanying stage masters, which absolutely surpassed the Pure Yang Palace. The long-planned attack organizer has completely estimated the strength of the Pure Yang Palace, even with all the experts of the Pure Yang Palace available, it was estimated that it is not an opponent. As for the Jiedan stage and foundation-building stage cultivators, the number was basically in the thousands. All of these people were fighting to help contain anyone who was panicking and trying to escape.

Those who came to the Pure Yang Palace for a long time, and settled in the square market or within the mountain gate, now almost half of them have become participants in this conspiracy attack. It was not so easy to use such terrifying manpower at one time, even if it was the five major sects.

The masters who participated were both demons and monster cultivators, and it was completely impossible to tell which side was the dominant player. However, all the participants had the same goal, which was Yang Chen. To be precise, Yang Chen was to be captured alive.

It was not known how long the other party had been planning, but a powerful formation circle was secretly arranged around the entire Meiqing Mountain. The role of the formation circle was to offset the great formation of the Pure Yang Palace to protect the mountain, and the second was to trap people who are not their own as much as possible.

All attackers seem to have a characteristic that can be identified by this formation. Of course, this is easy to do. There are many methods, but in a hurry, who can find out what method the other party was using?

It was self-evident that one side will be trapped by the formation, while the other side will move freely. What's more, one side has been planning for an unknown time, while the other side was passive protection. As the saying goes, only a thousand days of being a thief can't prevent a thousand thieves.

Although the mountain protecting great array can barely support it because it has enough spirit stones, the side of the Pure Yang Palace has already loomed. Of course, the mountain protecting formation can protect the disciples of the Pure Yang Palace, but now this advantage was offset by a little bit.

The palace master and the others did not come out to command it at all. The place where he retreated and practiced was attacked by the first wave. The other party had no intention of letting the palace master come out alive and attacked with the combined attack of four Dacheng stage masters. Even if Master ancestor Wang Yong was acting as dharma protector and was at a critical juncture in his cultivation, it was impossible for the master of the palace to be spared. With just one blow, the small courtyard where the Palace Master retreated was turned into ruins, and no one was able to escape.

Even the guardian Wang Yong didn't seem to have calculated such a sudden situation. He was completely killed by the joint attack of the four Dacheng stage masters without even the most basic resistance. At least in the eyes of the four Dacheng stage masters who launched the attack, the result was that no one can survive the joint attack of the four of them plus dozens of seventh metal divine thunder, not even Wang Yong.

Another place to be taken care of was the warehouse of the Pure Yang Palace. As we all know, the Pure Yang Palace has obtained huge resources from the hundred thousand mountains, from the demon clan, and from the South China Sea over the years. In addition, the sect warehouse of the Pure Yang Palace can be said to be one of the richest places for oil and water in order to ask for the benefits of those sects and rogue cultivators to the Pure Yang Palace.

This is not to mention the large amount of medicinal pills that Yang Chen handed over to the sect as a reserve. Every medicinal pill that Yang Chen refined, even the most basic foundation building pills, was an astonishing third grade foundation building pill that made people 100% successful in building a foundation. Who wouldn't like something like this?

What were they fighting for, isn't it just these external things? Even if Yang Chen's pills were limited, there was no way for everyone to have one per person or evenly distribute them. But those precious materials in the warehouse were not less. As long as the Pure Yang Palace was destroyed, these are the gluttonous feasts shared by everyone.

Of course, the secret pavilion of the Pure Yang Palace was the most important thing. However, the secret pavilion has always been controlled by the master of the palace. If you want to grab it, you can only get it from the body of the master of the palace.

Fortunately, the space of the secret pavilion was relatively stable. Even the masters of the Dacheng stage may not be able to destroy it. However, this is something that can be encountered but not sought. Otherwise, there would not be thousands of secret places in this world, and they were basically left by sects or families that had been wiped out.

The monster cultivators were taken care of the most. The high-end power of the Pure Yang Palace was basically concentrated in the eccentric hall, and most of them were monsters. After all, if the human cultivators can reach the Yuanying stage, they are all people and the proportion of people joining the Pure Yang Palace is very small.

In this regard, the other party sent a strong force, at least seven or eight Dacheng stage masters, more than the Dacheng stage masters in the Pure Yang Palace combined. Coupled with hundreds of masters in the Yuanying stage, there will be no problem at all in a short period of time. As long as they fight, those masters of the Dacheng stage can slaughter recklessly, completely destroying the force of the Pure Yang Palace.

Yang Chen's small courtyard was the focus of the attack, even more important than the palace master's side. There were ten Dacheng stage experts who surrounded Yang Chen's courtyard. However, the opponent did not intend to kill Yang Chen all at once, but together with dozens of Yuanying stage masters, surrounded Yang Chen's residence, and then the ten masters of the Dacheng stage masters rushed in.

There was one thing that the organizer of the other party may not have expected. Fairy Junqi of the Greatest Heaven Sect, Fairy Aoki of the Qiankun Sect, and Murong of the Five Elements Sect were also in the courtyard next to them. This accident made the experts involved in the attack hesitate.

The disciples of the three major sects are not comparable to disciples of the Pure Yang Palace, they couldn't be killed easily. Such a big action was absolutely impossible without a little bit of wind coming

out. Once the three women were killed, the three major sects will know later and none of the people who participated in the attack will be able to survive the calamity. This point does not even need to be verified, even the Pure Yang Palace dares to destroy the Luo Yuan family who had a late Dacheng stage master, the Greatest Heaven Sect, Qiankun Sect and Five Elements Sect were ten thousand times stronger than the Pure Yang Palace.

Chapter 615: Extreme Wealth

Extreme Wealth

As a last resort, these attackers could only separate a part of the cultivators to trap the three girls. However, this was a bit troublesome, Fairy Junqi herself was a late Dacheng stage master, plus Murong was an early Dacheng stage master, and a master of the peak Yuanying stage Shi Wushuang, there were at least five Dacheng masters here to hold them down.

The remaining five Dacheng stage masters rushed directly into Yang Chen's courtyard. In Yang Chen's courtyard, theoretically, there should only be three masters, Yang Chen, Gao Yue and Gongsun Ling, plus some servants of Gao Yue and Gongsun Ling, and nothing else.

However, as soon as they rushed into the yard, the five masters couldn't help showing shocked expressions. What they saw in front of them directly subverted their cognition. If it wasn't clear that they had just rushed in from outside, everyone would think it was a hallucination.

It looks like an ordinary small courtyard from the outside, but when you enter it, it is extremely magnificent. Even if the five Dacheng stage masters are all well-informed, they have never seen such a luxurious scene. The huge palace complex, not to mention how exquisite these palace complexes are, just the neat floor tiles laid on the square was enough to make people take a breath of cold air.

Where is the floor tile? It was clearly a large piece of the finest jade, of average size, meticulously carved, and beautifully decorated the ground beneath their feet. If it's just beautiful, that's fine. The problem is that every piece of jade has been carefully refined by a craftsman master, and taking any piece out is no less than a first-class magic weapon.

Not only are the floor tiles a magic weapon, but the spiritual power overflowing on the ground was more than ten times more intense than what they have seen anywhere, so that even these Dacheng stage masters who enjoy the best spiritual veins in the major sects were having a sense of self-pity.

Just looking at the ground, the five experts who thought they were well-informed who rushed in couldn't wait to vent their hysteria by pounding their chests. They have worked hard all their lives, accumulated all kinds of resources, and cultivated assiduously, and finally achieved their current achievements, but when they got here, they found that their net worth could not even afford the floor tiles that others lay in their yard.

What does it feel like to cultivate in such a place? All the masters have expectations, and greed appears in their eyes. They wish they could dig up a few tiles from the ground now, hold them in my arms and never let go.

This trip was really right. They knew that Grandmaster Yang was rich, but they never thought that Grandmaster Yang would be so rich. It's just this palace, in contrast, their respective sects are beggars' nests.

The several people glanced at each other, no one could hide the greed and aggravated breathing in their eyes. As long as they can capture Yang Chen, isn't it all theirs?

Thumping, the sound of something falling into water aroused the attention of the five Dacheng stage masters, and everyone's eyes turned to the side where the sound came from. Afterwards, the few people stared at it collectively like copper bells, almost jumping out of their sockets.

A very ordinary looking dog jumped into a large purple pool happily. In the purple pool, it swam comfortably with a dog planer, shaking it's head, indescribably happy.

It's just that everyone's eyes were fixed on the purple pool, with a little starlight on it. This obvious feature was enough for any self-professed knowledgeable master to understand what this is.

Four seas mysterious coral liquid, except for the Four Seas Mysterious Coral liquid, there was no other liquid that was this color. However, in the eyes of any cultivator, it is the Four Seas Mysterious Coral liquid that will be robbed without any remaining. Usually a drop was enough to make people ecstatic, there was such a big pool here.

No wonder Yang Chen's level of alchemy was unparalleled in the mortal world. With so many Four Seas Mysterious Coral liquid from all over the mortal world, no matter how difficult it is to refine a pill, it will

be a hundred times easier in Yang Chen's hands. What is a fifth-grade alchemist, if a fourth-grade alchemist is given so much Four Seas Mysterious Coral liquid, he can directly refine a sixth-grade medicinal pill.

It turns out that the secret of Yang Chen's alchemy fame lies in this. All five of them had a feeling of enlightenment. This time, they don't have to worry about Yang Chen's uncooperative, unwilling to hand over his alchemy secrets. Now everyone can safely and boldly kill Yang Chen, and then justifiably occupy these Four Seas Mysterious Coral liquid.

Countless thoughts were spinning in their minds, but everyone followed the figure of the dog and kept cruising in the Four Seas Mysterious Coral liquid pool. They have all heard of this dog, back then, Yang Chen didn't buy a high-level demon pet at the Ten Thousand Beast Pavilion, but bought a dog. These were all in Yang Chen's information, people used to be curious about the whereabouts of the dog, but now they finally know where the dog was.

After swimming for a while, the dog climbed to the shore, and then stood on the shore, shaking the wet hair and drying the Four Seas Mysterious Coral liquid on it. Then, under the angry gazes of the five Dacheng stage masters, the dog raised one leg and directly drenched in the Four Seas Mysterious Coral liquid.

Of course, the dog was Xiao Tian, and this was its initial form. In the eyes of Xiao Tian, urinating in the Four Seas Mysterious Coral liquid by itself can greatly enhance the various effects of the Four Seas Mysterious Coral liquid.

It can be seen in the eyes of the five Dacheng stage masters, that this was clearly a waste of precious materials. The Four Seas Mysterious Coral liquid that could drive people crazy turned out to be this beast's swimming pool, and it even urinated in it. When they thought that the medicine pill they had obtained from Yang Chen before was likely to contain this beast's urine, the crowd was filled with anger, if it can be tolerated, then what can't be tolerated?

The five people now have all the hearts to swallow Xiao Tian alive.

How would it dare to urinate in their Four Seas Mysterious Coral liquid? Subconsciously, everything here was already their personal belongings, and no one can see it being destroyed and ruined.

Finally holding back the thought of smashing the Xiao Tian into ten thousand pieces, everyone moved forward together. The main purpose of coming here was to subdue Yang Chen, which no one has forgotten. As long as Yang Chen was restrained or killed, everything here was theirs, and no one can take it away.

Entering the first palace, everyone's pupils tightened again. This was a large living room, but, from the tables, chairs, benches, to the teapots and cups above, anyone you take out can make people crazy. There were two masters who even wished they could throw away their life source magic weapon and replace it with the teacup on the table.

They have seen extravagance, but never seen such extravagance. The several people couldn't help sighing in the bottom of their hearts, vainly claiming to be well-informed, and only when they got here did they realize that they were just a frog in the bottom of a well.

Chapter 616: The Distraction Of The Pure Yang Palace

However, the more wealth Yang Chen showed, the more he would 'stimulate' the greed of the guys who came in. If it was just for Yang Chen's pill 'medicine' before, now even Yang Chen's wealth was counted.

Unable to bear, a Dacheng stage master picked up a teacup and looked it up and down, left and right. The material used in this teacup was far beyond his imagination. If it was used to refine flying swords or other magic weapons, it would definitely be a precious sword that can make countless people crazy, but now, such a precious Kunlun purple core 'jade' was just a teacup.

This was a living room at best, and after walking back through this hall, there was a huge courtyard.

In the courtyard, there were many 'exquisite' 'flower' altars, each 'flower' altar was full of fresh 'flowers', decorating the 'flower' altar with an extraordinary beauty.

Just seeing the first 'flower' altar, a cultivator with unique insights into 'medicinal materials' couldn't help but groan and almost fell to the ground.

The red 'flower' blooming on the edge of the 'flower' altar, which was not much taken seriously at first glance, was clearly a snow-red flower. Checking its appearance, he was afraid that it would have tens of thousands of years of maturity.

Even the most fringe 'flowers' were like this, then the ones inside would be even more jaw-dropping. It can be said responsibly that if you fold a 'flower' from here and take it outside, you can exchange it for the luxury of a lifetime of a cultivator of their level.

But these extremely precious 'medicinal' materials, here, are just the materials to decorate the 'flower' altar. Looking at this scene, several of the Dacheng stage masters who rushed in had the urge to slap their chests. What kind of prodigal son does he have to be so wasteful on natural treasures.

The battle outside has come to an end. Most of the disciples of the Pure Yang Palace in the past few hundred years are below the Yuanying stage, and were in the Jiedan stage, foundation building and Qi refining stage. However, when caught off guard, no one can stop this sudden attack.

As soon as they attacked, many disciples of the Pure Yang Palace were killed. For these junior disciples, the enemy has never planned to keep their hands. Since the Pure Yang Palace was full of geniuses, it was natural to kill these junior disciples.

The mountain protection formation can only protect the disciples within the range of the formation for a short time, and those outside the range of the formation cannot enjoy this protection at all. Moreover, the preparations of the enemy were so thorough that even countless experts rushed in within the mountain protection formation. As long as you enter the range of the large formation, the attack you receive will be relatively weakened, especially with the offset of the formations already arranged by the opponent, the masters within the range of these formations can even be said to be completely unaffected.

On the contrary, the disciples of the Pure Yang Palace were bound by the opponent's formation, and were greatly disturbed. Under this situation, even a cultivator who has the power to fight can only end up dying and hating.

This is not to mention, the most chilling thing was that after the attack was launched within a stick of incense time, some of the disciples of the Pure Yang Palace who were fighting with the enemy suddenly turned their flying swords and attacked frantically towards the same disciples around them.

They never thought that their partners would suddenly become a terrifying enemy. Countless Pure Yang Palace disciples, under this sudden attack, lost their souls. Until they were about to die, they didn't close their eyes and couldn't believe what they saw.

On Meiqing Mountain, there were shouts of killing everywhere, and the 'gate' of the Pure Yang Palace Mountain, which had just been rebuilt for only a few hundred years, turned into a pile of rubble.

All the people within the scope of Meiqing Mountain were all involved, even some innocent people who came to ask for pills, were caught up in this unexpected disaster which opened wide in the Meiqing Mountain. The guys who were attacking, no matter who was innocent or who was not from the Pure Yang Palace, as long as they are not their own people, they will kill all. With no way to escape, these people could only rise up and resist.

Thousands of miles away from the edge of Meiqing Mountain, there were five people sitting in a pavilion on the mountainside of a barren mountain, looking at the direction of Meiqing Mountain. Looking from this direction, you can just see the fire on Meiqing Mountain.

"Hmph, this time the Pure Yang Palace is doomed. I want to see if he, Yang Chen, has the means to escape from so many cultivators." The speaker was a 'woman', if Yang Chen was there, he would definitely recognize that this was an elder from the Green Jade Immortal Island, who 'mixed' with Liu Yinyue and the others, laughing at one of Yang Chen and Shi Shanshan.

"If we use the hidden power of the sects like this, if the sect's get to know, won't we be punished greatly?" A man next to him said, this man already has a Dacheng stage cultivation base, but it was not known what method he cultivated that made it seem that he was just a Jiedan stage cultivator.

"What are you afraid of, as long as we get Yang Chen's alchemy secrets, any mistakes can be offset." Another man said "We can't let such an important alchemy material be in the hands of Yang Chen"

In fact, the people here are also looking for words to relieve their inner tension. After all, to destroy such a powerful sect as the Pure Yang Palace, if they are careless, they will be mad backlashes, so they can't help but be nervous. But the arrangement for many years was about to succeed, and they also hope to see everything they expect here happen.

The situation on Meiqing Mountain could no longer be eased. Some smart people fled the Meiqing Mountain range from the beginning, and those who were not smart enough were blocked on the mountain, either killing or being killed. But in any case, the attackers have the vast majority of the advantages, and the Pure Yang Palace has not seen any powerful cultivator come out to preside over the scene so far.

The five Dacheng stage masters who entered Yang Chen's palace were still moving forward. The palace was too large and shields the spiritual awareness. No matter how much they mobilize their spiritual awareness, they cannot detect the scene twenty feet away, they could only detect one room. So they had to search one by one, but one thing was certain, Yang Chen must be in one of them, and he has not left.

In a large palace in front, a small voice suddenly came out. The five masters suddenly became 'energized', looked at each other, and then each made a few gestures and swiped, they boke open the big 'door' of the palace and rushed in.

As soon as they rushed in, the five people wisely occupied five positions, posing a siege posture, and then everyone looked around. Just looking at it at a glance, the five people suddenly stayed in place, like falling into an ice cellar.

Inside the palace, it seemed like a huge lecture hall, and someone was talking about something in the center. Except for the place where the five of them broke in, which was a circular open space, everything else was a layer of circular stairs. On each floor of the stairs, there were quite a few people sitting, almost a thousand in number, watching them as if they were watching a monkey show.

Chapter 617: Reality And Illusion

If hundreds of ordinary people looked at them, these masters would not feel anything. It's not that they haven't experienced being worshiped by countless ordinary people as gods. That kind of situation was enough to make them feel proud.

But if these hundreds of people were masters of the Dacheng stage, then it was another matter entirely. In particular, everyone here looks very sturdy, and the killing aura on their bodies was enough to make people terrified.

"My God, the blood-handed old demon Liu..." One person seemed to recognize one of the old demons, and after saying something in a low voice, his body could no longer stop shaking.

"The person that slaughtered the old demon Zhang..."

“Shang Demon Head...”

...

The five of them were all cultivators who have traveled the world and met countless people, and their skills in recognizing people are first-class, but every time they recognize one person, their hearts sink. Not to mention so many cultivators swarming up, just recognizing these few was enough for everyone to pack up the five of them.

Isn't this Yang Chen's private courtyard? How can there be so many cultivators gathered here? What are they doing here? Countless questions came up in the five people's minds, but at this moment, they would rather not have come in than know the answer to the question.

The chaos in the Pure Yang Palace finally calmed down after more than an hour. At this moment, the Pure Yang Palace has been completely turned into ruins. There was no complete house, and there was no living Pure Yang Palace disciple. There were enemies who attacked everywhere.

When it was finally time to enjoy the fruits of victory, the hearts of countless people were filled with pride. What about the Pure Yang Palace, wasn't it destroyed by them? Even if there are a few masters of the Dacheng stage, so what if there are hundreds of masters of the Yuanying stage, is it not enough to destroy it if they want to, without leaving a trace of trouble?

Just when everyone thought they were victorious and started to turn over the rubbles to collect the spoils, everyone heard a long sigh clearly in their ears.

“Alas!” The sigh sounded in everyone's ears, so clear, full of regret, as if it was not worth it for these cultivators.

“Who is it?” Someone immediately asked, putting on a defensive posture. It doesn't matter their excitement, the others immediately realized that the sigh they just heard was not only heard by themselves, but by everyone.

“My Pure Yang Palace has never offended you, but why are you killing everyone like this?” The voice of questioning still rang in everyone’s ears. If someone was very familiar with the people of the Pure Yang Palace, they would definitely be able to hear that this was the voice of the palace master.

“Stop talking nonsense, everyone is innocent and everyone is guilty. If you want to blame someone, blame that disciple of yours, Yang Chen, who let him master things he shouldn’t have.” It was not unimaginable that someone would immediately scold him. Of course, if you can’t find a suitable reason, you can only respond with this reason that was not on the table.

“If that’s the case, then it’s not like my Pure Yang Palace can not punish you for your actions.” The master of the palace sneered and said these words. These words made everyone who heard it have a feeling of dread, what does it mean?

In the midst of uncertainty, the scenery in front of everyone suddenly changed. It was no longer the Pure Yang Palace in the middle of the night, but became daytime, and the location was changed to a huge empty square.

The most terrifying thing was that everyone found that they were unable to move their entire bodies. No matter how much spiritual power was activated, the body cannot move at all, and the whole body seems to have no other active parts except the mouth that can make sounds.

The figures of the palace master and several core elders appeared in front of everyone, and behind them were a large group of Yuanying stage masters. Judging from their appearance, they were not hurt at all.

“How is that possible?” The trapped guys, seeing those people appear, couldn’t believe their eyes, obviously they had killed some of them, how could they still stand there so well? Immediately, they realized that they were still on Meiqing Mountain just now, and now they were here, clearly they were in an illusion. Everything that happened before was just an illusion, after thinking of this, everyone was in a cold sweat, no longer proud of just destroying the Pure Yang Palace.

“You waited in my Pure Yang Palace for no less than 20 years, do you really think that the people in my Pure Yang Palace are blind and can’t even see this?” The master of the palace sneered at the guys standing there. With a sound, the contemptuous eyes made them almost wish they could find a crack in the ground to get in. Unfortunately, they couldn’t move their entire body and could only stand there, like a wooden stake.

The old tree demon Gui Shanyou sowed his seeds all over the mountain when he was facing his yin fire tribulation. From then on, any disturbance in the entire Meiqing Mountain was under the control of the old tree demon, so how could the other party have avoided the eyes and ears of the old tree demon for such a long time with their arrangements?

All of this was planned long ago. It's just that the Palace Master and the others didn't know when the other party would launch their attack, so they have been careful to guard against it and haven't made a move.

After Gongsun Ling returned, she brought a brand-new preventive method to the sect. The mountains and rivers geographical map directly covers the entire Meiqing Mountain, and everyone lives in the illusion of the geographical map of mountains and rivers. The completely identical terrain makes it impossible for those who are in it to distinguish whether it was real or an illusion. As long as you leave the area of the Meiqing Mountain, you will return to the real world, and if you enter the area of Meiqing Mountain, you will enter the illusion. Even people far away from Meiqing Mountain saw the situation in the illusion.

With a wave of the palace master's hand, a group of people dressed in the clothes of the disciples of the Pure Yang Palace were escorted up by a large number of the disciples of the Pure Yang Palace. These people were all guys who suddenly attacked their fellow disciples after the other party launched an attack.

"You are a disciple of the Pure Yang Palace, but you serve the interest of outsiders, and murdered your fellow sect disciples. According to the rules of the sect, you will be beheaded!" The palace master did not even look at these people, and announced directly.

The people in the punishment hall had been waiting for a long time, and when they heard the instructions of the palace master, they immediately flew out with their flying swords, and after a few swishing, heads fell to the ground.

The hearts of the people who were looking at them all tightened, and finally a frightened expression began to appear on their faces. Every sect has almost the same attitude towards this kind of sect's enemy, and now it seems that they are absolutely not immune. It's a pity that there are so many hands that even a disciple of the Pure Yang Palace has not been killed.

Several leading Dacheng stage masters were even more heartbroken. If they knew this earlier, why did they have to do it in the first place.

Chapter 618: It's More Fun To Watch

"Since you have come and you have already attacked, then you all have the consciousness to pay the price." The master of the palace did not give these guys a chance at all, and directly announced their disposition "Murderers, the human being you kill is permanent, everyone must know this, then, I hope you can leave with peace of mind, so you can leave!"

After speaking, the master of the palace didn't even look at these trapped guys, turned around and left. A few core elders sneered and stepped forward, looked at the trapped people carefully, and seemed to see a few familiar faces. After looking at them for a while, they also walked away without stopping.

"Forgive us and spare our life!" Some guys with low cultivation, no longer caring about their own face, shouted for mercy at the disciples of the Pure Yang Palace who silently pushed forward.

"I'm just following orders..."

"The culprit is not us..."

A series of cries came, when faced with the great terror between life and death, some people who had seen life and death couldn't help crying.

In the past, seeing through life and death was because there was still a silver lining, so they risked their lives to fight for a better future. Now, the other people were the knife and they were the fish and meat.

The main ones who killed them were the disciples of the punishment hall, but some other disciples of the Pure Yang Palace who had been injured in the previous illusion were also willing to participate. Anyway, there are enough people, there are thousands of people, one person can kill one, and no one will be satisfied. They brushed off such a small will from their fellow disciples.

"Leave these cultivators for us to kill!" Those Yuanying stage masters in the eccentric hall rubbed their hands and walked towards the area where the group of Yuanying stage masters were concentrated. Being able to fight a cultivator of the same level was a kind of excitement for monsters like them, and it

also has a small boost to their cultivation. The monster race was originally created by fighting the weak and the strong.

Of course, the killing of the monster race is not a simple killing, but a direct devouring of the opponent. In the past, there were sect's regulations, and they had a lot of rules, but will there still be so many restrictions for this kind of enemy who attacked the sect? If one person divides one, everyone benefits.

“Elder Li of the Greatest Heaven Sect ordered me to wait...”

“Elder Liu of the Five Elements Sect is the culprit...”

“Elder Gao of the Green Jade Immortal Island instructed me to wait...”

“The order came from elder Wang of the Qiankun Sect...”

“The Blue Cloud Sect's Elder Ouyang is in charge...”

The group of Yuanying stage masters obviously did not expect that they would be swallowed by the monster race. When they thought of this terrifying method of death, they could no longer remain calm, and they all cried and told the people behind the scenes. Unsurprisingly, the five major sects dominated.

It must be said that there were only five sects that can mobilize so many people. Dozens of Dacheng stage masters and thousands of Yuanying stage masters are far from being organized by ordinary small sects and rogue cultivators. These guys who came to offend, almost all the dark pawns arranged by the five major sects, have now been almost wiped out by the Pure Yang Palace.

Tao Junqi, Shi Wushuang and Murang were fighting with the five masters of the Dacheng stage. They were also very strange, who dared to do this in the Pure Yang Palace, but due to their resistance, the Pure Yang Palace did not have anything to do with them without any kind of restraint, but let them watch it all happen.

Hearing that their own sects have high-level participation, and even the Green Jade Immortal Island and Blue Cloud Sect have high-level participation, the three girls were all ashamed and didn't know how to

express their apologies. No one in their sect had ever informed them that they would launch such an attack, so obviously, they were also the part that was abandoned by the sect.

Seeing that the masters who belonged to their respective sects slowly lost their lives under the attack of the disciples of the Pure Yang Palace like killing chickens, there was no reason to stop them. Once they speak, they believe that they will turn from bystanders into enemies immediately. At this time, the Pure Yang Palace will never easily believe any outsider.

“Hey, you are really unlucky guys.” Yang Chen, of course, witnessed all this, and let out a deep sigh: “If you want to have a seizure, you can’t find a good time, you have to wait for A’Ling’s spiritual awareness to break through the second grade human Immortal realm.”

As soon as Yang Chen came back, of course, he and Gongsun Ling, Gao Yue had spiritual awareness double cultivation first. It quickly elevated Gongsun Ling’s spiritual awareness to the second grade human Immortal realm. It was better and easier to control the geographical map of mountains and rivers.

It was in this situation that a group of masters threw themselves into the geographical map of mountains and rivers. Even the disciples of the Pure Yang Palace saw the same illusion, which also induced a large number of chess pieces placed in the Pure Yang Palace to be exposed, making the disciples of the Pure Yang Palace more and more pure.

“How to deal with those culprits?” These Yuanying and Dacheng stage masters have all said who was behind the scenes, and Gao Yue naturally wanted to know Yang Chen’s attitude.

“You don’t need to ask, let them die!” Yang Chen raised his eyebrows slightly, and put Gao Yue in his arms “If you dare to attack my sect, you will always have to pay a price.”

“The sects can’t compete with the five major sects now, right?” Gao Yue considered this, not the other “If the elders of the sect are murdered with great fanfare, the five sects will never keep quiet?”

“Why do we have to care?” Yang Chen smiled slightly, holding Gao Yue’s hand, they were having a spiritual awareness double cultivation and replied with a smile “If such a big thing happened, how could they follow the sect themselves? The sect to explain? Even if the five major sects are to pretend, they have to put on a sufficient posture.”

After speaking, Yang Chen looked at Gongsun Ling, who was trying to control the geographical map of mountains and rivers. Although Gongsun Ling's spiritual awareness has greatly increased, to create such a big illusion, it still made her a little mentally exhausted. If she can support it up to now, it was already Yang Chen who has helped a lot.

Glancing at Gongsun Ling, Yang Chen turned around and said, "Trust me, let their sect kill them by themselves, the feeling of exhilaration far exceeds the feeling of doing it ourselves."

"Little Xue and Shanshan may not have a good time." After thinking about it, Gao Yue seemed to think it made sense, but she just started to worry about Sun Qingxue and Shi Shanshan. After all, this time, both the Green Jade Immortal Island and Blue Cloud Sect were participants, the two of them are caught in the middle, it was really uncomfortable.

"It doesn't matter. As each sect grows, there will always be different factions. This is an excellent opportunity for the five sects, and it is the best excuse for their seniors to eradicate dissidents." This kind of power struggle inside a sect was very clear "You wait and see, soon the heads of those people will appear in the Pure Yang Palace, waiting for us to check."

Chapter 619: Dire Situation

Gongsun Ling was indeed at the end of her power. If she just created a terrain illusion, it wouldn't take a lot of energy. The difficulty was that she had to create a lot of battle illusions, so that the guys who go deep into the geographical map of mountains and rivers wouldn't feel suspicious.

Fortunately, things have come to this point, all the guys have been put to death, and for the time being, Gongsun Ling does not need to fully control anything. Gongsun Ling also quickly released the control and put all the disciples of the Pure Yang Palace back into the real world.

In the real world, the Pure Yang Palace was still the Pure Yang Palace, and there was no change at all. After the raid in the middle of the night, the disciples of the Pure Yang Palace behaved as if nothing had happened. The only difference was that in an empty place on Meiqing Mountain, there were thousands of dead bodies. Of course, some cultivators have no corpses at all, only their heads remain.

There were smart people who fled Meiqing Mountain in a hurry when the raid was launched, and they naturally knew what happened last night. Even if they left the Meiqing Mountain, they could see the Meiqing Mountain blazing into the sky and turning into a piece of rubble.

But what they didn't expect was that overnight, everything was restored to its original state, and it seemed that nothing had changed. If they have to talk about changes, it was that there are many fewer people among the disciples of the Pure Yang Palace, and there are many more corpses everywhere.

Such a major event, of course, cannot be concealed, and the news spread at the fastest speed. Soon, the major sects knew what happened in the Pure Yang Palace and the result.

Speaking of which, almost all the core elders of the five sects were unaware of the actions against the Pure Yang Palace this time. Although the Greatest Heaven Sect wished that they could immediately destroy the Pure Yang Palace and take Yang Chen away, Sect Master Li was not crazy enough to deal with the Pure Yang Palace right now. The other sects have no reason to be against the Pure Yang Palace. They also expect to buy better medicine pills from Yang Chen. How could they easily do such a thing as self-destructing the Great Wall.

Some things can't be solved by destroying the Pure Yang Palace or capturing Yang Chen. As the core elders of the major sects, they are very clear about this. Although the price was slightly more expensive, it can maintain the basis of cooperation.

The problem was that when something like this happens, the core elders of the five major sects have begun to sit on the wax. Especially the Green Jade Immortal Island and Blue Cloud Sect, they should be the sects that cooperated most closely with the Pure Yang Palace, but they also joined this attack on the Pure Yang Palace, which was really incomprehensible.

If there was no clear account of this matter, they believe that no one will deal with the five major sects in the future. Even a sect like the Pure Yang Palace was almost wiped out. What else could other sects do except wash their necks and wait to be slaughtered?

The core elders of the five major sects were collectively angry, this was not a trivial matter, it was related to the reputation of the sect. The most important thing was that the elders below them did such a thing without telling the core elders. The core elders of the sect have lost control of the sect. No matter which sect, such a thing means disaster.

It was a taboo that the core elders can't control the sect. It was like the emperor was overthrown by the ministers. No high-level sect will allow such a thing to happen. In the world of ordinary people, what these criminals do was equivalent to a rebellion, and they must be brutally suppressed.

In addition to the anger, the core elders were also very distressed. On average, every sect has lost a few Dacheng stage masters, hundreds of Yuanying stage masters, and countless others at the Jiedan stage. It was not easy for a sect to secretly cultivate these masters. How many sect resources have been lost in this battle.

Sometimes, when the five major sects thought of this, they hated the ruthlessness of the Pure Yang Palace so much that they didn't leave a single one alive, and all were executed. But at the same time, they were relatively fortunate that the Pure Yang Palace has not left a living hole, which provides an opportunity for them to turn around in the future. Everyone can explain it with ignorance, and then slowly repair the relationship.

If they really leave a few important people for them to tell the truth, the five major sects could only turn against the Pure Yang Palace. At that time, the Pure Yang Palace will find it difficult, but the five major sects may not feel good either. This time, dozens of Dacheng stage masters and thousands of Yuanying stage masters returned without success and were wiped out.

Judging from the situation at the scene, the Pure Yang Palace may have used a large illusion array, otherwise, such a situation would not have happened, but what kind of formation method and what kind of function it has, no one can say for sure. There were already many small sects who have sent messages to Gong An, the palace master of the Pure Yang Palace, through various relationships, and want to ask whether this mountain protection illusion can be bought.

The elders of several sects who used their sects to hide their power privately discovered the abnormality of the Pure Yang Palace early the next morning, and then they realized that they were finished. Even if this matter was directly instigated by the big sects, they will be pushed out as scapegoats, not to mention that this was the manpower they secretly used without the knowledge of the sect.

They thought that as long as things were successful and Yang Chen's secret was obtained, they would be able to convict and even reward them, but they did not expect that the previously weak Pure Yang Palace would become so difficult to bite, so they acted directly with confidence but became annihilated.

Returning to the sect was also a death, but no one dares not to go back. If they confessed their crimes and obeyed the law, the sects might be able to keep their families alive. If they dared to abscond, the

sects would uproot their families as an example. This point, even the Pure Yang Palace could do it a long time ago, not to mention the five sects that have already established great prestige.

The Pure Yang Palace didn't say a word on this matter, and didn't raise any protests or other things to any sect, they just kept silent and responded silently.

The more this was the case, the more impatient the five sects felt, and the five sect masters have to go out in person to express their goodwill to the Pure Yang Palace. Along with them, in addition to their respective core elders, there are also a group of elders from various sects who were involved in this incident.

If you want to express kindness, you must first show enough sincerity. The lives of these errant guys are the sincerity of the five major sects this time. Of course, in addition to these, it was estimated that many concessions will also be made, which depends on the results of their negotiations with Palace Master Zhang Ao.

Chapter 620: Gifts

Yang Chen won't care how the sects deal with it, because the ultimate goal of the five sects to express their goodwill was himself. In the final analysis, the fifth-grade alchemist is still the only one. This kind of otherworldly existence should be looked up by countless people.

After going through the negotiation between the sect masters of the five major sects and the sect masters who came successively, the palace master of the Pure Yang Palace and the sect masters of the five major sects reached a series of cooperation plans with a smile. Of course, in the eyes of outsiders, the Pure Yang Palace seems to have gotten a lot of things, but this was not surprising, their sect has a fifth-grade alchemy master, and they can also take care of the five major sects.

Many people who don't know what to do naturally think that they were collaborators. The masters of the five major sects came to visit the attacked Pure Yang Palace in person. Although the Pure Yang Palace has not lost anything, it was a clear signal that the five major sects were in support of the Pure Yang Palace.

Some people who have vaguely guessed the inside story were even more afraid to talk casually. Who knows what kind of revenge they will provoke from the five major sects? If you don't look at the Pure Yang Palace, all the participants will be silenced, and there will be no future troubles? Who dares to say that the five major sects are not in on it at this time, that is to find death with a lantern.

The sect's discussions were relatively easy, but discussions with Yang Chen were not so easy. Yang Chen directly used the reason that he was disturbed in his retreat and cultivation, and he went into trouble, so it was inconvenient to see guests, so he shut the door on the five major sects.

Yang Chen can't help but be so angry, this time, the main goal was to focus on Yang Chen, don't look at Yang Chen's side and directly gather ten Dacheng stage masters and dozens of Yuanying stage masters? The purpose was to deal with Yang Chen, Gao Yue and Gongsun Ling. The purpose of those people was simply obvious.

If Yang Chen didn't put on any airs, he would be fooled and calm down, that would be looked down upon. The more it was like this, the more you have to pose. This time, the Pure Yang Palace escaped by luck, what about next time? It was impossible for Gongsun Ling to stay in the Pure Yang Palace every day and not go out. How many tricks does the other party have yet to use? Who dares to say that the Pure Yang Palace can be as peaceful as Mount Tai?

The sect masters of the five major sects did not see Yang Chen after all, so they could only leave angrily. However, the Greatest Heaven Sect, Five Elements Sect and Qiankun Sect still have a way. Since Yang Chen has an affair with the disciples of their own sect, at least in their eyes, the Pure yang Palace did not dispel Tao Junqi, Shi Wushuang and Murang as a result of their relationship.

In this case, the three major sects were simply happy and generous, and in front of the master of the palace, they gave Tao Junqi, Shi Wushuang and the five sisters Murong to Yang Chen. Interference, this is determined to use the beauty plan to the end.

Relatively speaking, the Blue Cloud Sect and Green Jade Immortal Island were very embarrassed. The two sects were clearly related to the Pure Yang Palace, but such a thing should happen. They wanted to ask Sun Qingxue and Shi Shanshan to help talk about the situation, but when the two women heard the matter, they shook their heads like a rattle. The elders of their own sects plotted against their husband and asked them to speak about the situation. How is this possible? Not to mention the two women, even Elder Hua and Elder Min were a little embarrassed when they talked about this matter.

Without Sun Qingxue and Shi Shanshan to mediate, the two sects would have to pay more to get Yang Chen's forgiveness. It was also impossible for them to do things like the three major sects and send a few beautiful women to win over Yang Chen, so they had to use their brains in other areas.

Sun Qingxue and Shi Shanshan's life suddenly became much better. All kinds of sect resources were simply allowed to be seized by them at any time, massive resources began to pile up towards the two women. At the same time, the two major sects also decided to give 10% of the total amount to the Pure Yang Palace.

Finally, at the sect level, the impact of the matter was temporarily minimized, and then it was the time to settle the accounts, and those elders who were implicated at this time began to suffer.

If you are not at the level of the elders, you may not even know which pieces are arranged by the sect. Therefore, the only people who can really mobilize these people are the elders of the sect. As soon as these matters were investigated, it became clear and clear that no one could take them out. On the contrary, a few innocent guys have also suffered from it because of their proximity to these elders, have been dealt with together.

The Pure Yang Palace has never asked for any statement, and has been silent on this issue from beginning to end, but not speaking does not mean not acting. They almost wiped out their sect, and they still expect them to keep their mouth shut and do nothing? Now they didn't say anything to give them face, but if they do too much, don't blame them for ignoring this kind of face.

Privately using the sect to hide the power directly led to countless losses, plus disobeying the sect's orders, etc., a series of charges were brought down, and all the elders involved were all dealt with by the sect rules. This time, the five major sects have come up with thundering methods, and the disposition of the sect rules was not simply a specious statement about how many years of seclusion, but a real punishment with their lives.

Killing so many sect elders at one time was something that the five major sects have never done before. However, compared with the lives of these elders, the reputation of the sect and the cooperation with the Pure Yang Palace and Yang Chen were more important.

The elders who made mistakes, even if they did not provoke the Pure Yang Palace or Yang Chen, they would definitely be silenced by the sect. No high-level sect would like such an elder, and their reckless actions would definitely bring the sect into a state of doom. The good thing this time was that, the Pure Yang Palace did not clamor, things were still within the controllable range. But who's sure something like this won't happen again?

Maybe the next time it happens again, the target may be the sect master himself? When it comes to one's own life and death and power, which core elder will be soft-hearted?

The five sects added up, a total of more than 200 heads were secretly sent to the Pure Yang Palace, and the master of the palace was asked to take a look. This was the explanation given by the five sects to the Pure Yang Palace, and it was also an attitude that must be displayed. Although it was secret and not public to the world, it was already a great honor for the sect master and the others.

“Sure enough, Yang Chen was right!” After seeing the heads and confirming the authenticity of the heads, the palace master couldn’t help but smile when he returned to the hall to talk about it with the other elders. He said “Looking at the heads that their own people sent up, it really is more fun than us cutting them off ourselves!”
