Chapter 631: The Real Immortal Peach

“That’s right.” Yang Chen said with a smile.

“Husband, but when we searched, we didn’t find such a small peach?” Tao Junqi asked immediately.

“This peach was hidden behind that stele, and cannot be detected by spiritual awareness.” Yang Chen used this to explain why everyone couldn’t find it.

It’s actually behind the stone tablet, it’s not wrong to think about it. At this time, everyone looked at the big peach in their hands, how dazzling it was, and they couldn’t help but want to throw it away.

“Don’t waste it.” Yang Chen hurriedly stopped them “This is your own opportunity, you can’t waste it, it’s better to eat it.”

Yang Chen’s words now basically have authority, and the girls did not hesitate to start to clean them a little, and put the peach into their mouths.

The big peach tastes very sweet, and it seems to melt in the mouth. When you bite into a small mouth, the pulp inside seems to turn into a sweet juice, which flows into the mouths of the girls.

A powerful spiritual force was directly replenished into the bodies of the girls. This spiritual force was continuous and gurgling, as if a spiritual vein entered the body. What’s more important was that this spiritual power has no attributes. If it just touches anyone’s body, it will be automatically converted by the influence of their cultivation.

What surprised the girls the most was that the speed at which this spiritual power was released was exactly the fastest speed they could absorb and refine, neither too fast nor too slow, it was just right. No wonder it’s an Immortal peach, it’s really amazing.

“This peach can provide you with spiritual power for ten years.” Yang Chen explained with a smile “It was all chosen by yourself, this is your chance this time.”

“Then husband, can it make up for your life essence?” Shi Wushuang looked at Yang Chen worriedly, and the girls recovered from the surprise. They didn’t know if Yang Chen could make up for his lost life essence, it seems a little too much to be so happy.

“No problem, at most half a year, I still need to refine it.” Saying that, Yang Chen put away the Immortal peach.

The real Immortal peach was no different from the one in the hands of the old man of the south pole, except for the maturity, and it can completely increase the cultivator’s lifespan. Only this one was enough to add tens of thousands of years of life to people. Yang Chen can’t bear to use it alone. When the pure yin true fire was also gathered, he will use it to refine the longevity pills.

Of course, if Azhu can absorb and refine that Immortal peach tree, it will be able to grow a steady stream of peach trees in the future. At that time, Yang Chen will be the object that countless people want to cling to, even crazier than this time.

No one found out that the hill had disappeared, the distance they were now was thousands of miles away. Even if someone came to look for it in the future, it was impossible to find any traces.

This trip to find the Immortal peach made the seven fairies less suspicious of Yang Chen’s ability to find some rare treasures. No longer would they think that Yang Chen was able to obtain these treasures because of the guidance of a senior, or the records of a certain senior.

It was recorded well by the predecessors, but no one would have thought that it was among the miscellaneous books that Yang Chen had always liked to read. You can find something so useful. It wasn’t that no one learned to read miscellaneous books like Yang Chen before, but after persisting for a while, they gave up, and it was useless. Now that they think about it, they didn’t learn Yang Chen’s real reading skills at all.

Yang Chen still underestimated his attractiveness. On the way back, he was still targeted by someone. The compass that flowed out from the hands of the Greatest Heaven Sect in the past was now very rare outside, but they still existed. It was with these compasses that these people came here.

This time, Yang Chen didn't do anything, it was Fairy Junqi, Fairy Aoki and the Murong sisters who took care of it. The seven fairies were in the Dacheng stage, facing these people who meant wrong to Yang Chen at this moment, everyone had no intention of holding back, and they killed them.

Normally, they are the people of the three major sects who are rampant. When would they think about how the sects would be implicated like Yang Chen? They are killers when they meet, and they are extremely ruthless. In particular, Fairy Aoki, who has just been promoted to the Dacheng stage, needed someone to consolidate her cultivation base.

The opponent's only two Dacheng stage masters were surrounded by the five Murong sisters, their formation was deployed, and there was no possibility of escape, so they could only fight with all their might, but in front of the formation of the five masters, they could only drink hatred.

After just a dozen or so brief encounters, no one was able to leave alive. The seven women happily took the seized Qiankun bag and came to Yang Chen to invite him to check.

"The medicinal materials and the pill recipes are mine, and you can take the rest for yourself." Yang Chen was also interested. As long as he was interested in things, he later added "If they have high-grade fire seeds, leave it."

The girls agreed in unison, and then began to sort, and happily began to divide the spoils. Based on their identities and origins, it was estimated that they have less chance of encountering such unreasonable tribulation, and everyone looks happy.

Yang Chen got what he wanted, but it wasn't particularly good. There were only some relatively common medicinal herbs and a few kinds of high-grade medicinal herbs that those experts in the Dacheng stage may find precious, they could be discarded like a shoe by Yang Chen.

"Husband, do you always encounter such a situation when you go out?" Fairy Junqi asked in a low voice. The other women also pricked up their ears, waiting for Yang Chen to answer.

"Almost, it's been like this since I got the questioning inner heart pills." Yang Chen also said helplessly "Then it was better after I sold the pill recipe for the questioning inner heart pill, but it didn't last long, and there were many people coming after me again. They want to know how I became a fifth-grade alchemist, there are even more people chasing me."

All the girls were silent. In fact, wasn't that what they did when they approached Yang Chen? Of course, their main purpose was to establish a good relationship with Yang Chen, relatively speaking, they don't have to go against their hearts.

"Husband, is there no way to solve it?" One of the Murong sisters asked seemingly innocently.

"Yes, as long as I also announce the method of becoming a fifth-grade alchemist." Yang Chen replied casually, and suddenly came up with a brilliant idea "Yes, I only need to become a fifth-grade alchemist. Wouldn't it be enough to sell the alchemist's method? I can also make a lot of money."

"Husband!" Shi Wushuang was a little stunned. Yang Chen was going to sell this, how could everyone not be shocked "You really want to do this?"

"Of course!" The more Yang Chen thought about it, the more he thought it was a good idea, and he simply said to the girls, "It's just right, you also use your sect to help me spread the word, saying that I will reveal the method of becoming a fifth-grade alchemist in five years. Interested sect, who can pay enough price, each sect can come with three people, come to the Pure Yang Palace to listen to my explanation."

Chapter 632: Revealing The Secrets Of The Fifth Grade Alchemist

Almost all the girls were stunned. No one thought that Yang Chen was serious and really wanted to tell outsiders the secrets of becoming a fifth-grade alchemist. However, this was also a little unbelievable, a little too unbelievable.

"Of course, you can also be present. In view of our relationship, I will not charge you fees. However, your sect's share is indispensable." Yang Chen also expressed enough sincerity to the fairies around him. They were given an Immortal peach spiritual vein, plus the latter, it can be said that benevolence and righteousness are exhausted.

"What's the price?" Tao Junqi finally couldn't hold back and asked. Speaking of which, which sect does not have the heart to covet the secret of Yang Chen's fifth-grade alchemy master secrets? It's just because some face is not good to do it. Now that Yang Chen took the initiative to take it out, it was too simple for the sect to pay some price.

“I sell pill recipes for two kinds of seventh grade fire seeds, this is the secret of becoming a fifth-grade alchemist master. If I want ten kinds of seventh-grade fire seeds or something of equivalent value, it is not a slaughter” Yang Chen pondered for a while. The price tag was mentioned on this basis. The seventh-grade fire seed Yang Chen had will not be too few, it is best that someone can find the pure yin true fire, so that Yang Chen will be hopeful of refining the life prolonging pills in the future.

All the girls shook their heads in unison. If it was really just ten kinds of seventh-grade fire seeds or something of the same value, this would not be considered a slaughter, it would be a great deal. A fifth-grade alchemist, except for Yang Chen, a fifth-grade alchemist who had never been seen before, those big sects would be happy to pay a high price.

The price of the sect was naturally negotiated by the sect. Presumably, the palace master who has a tacit understanding with Yang Chen will not agree easily, and will definitely take the opportunity to collect a lot of chips, Yang Chen was not worried at all.

“No matter what sect, Dao sect, monster race, or demon sect, as long as they take out ten kinds of seventh-grade fire seeds or something of equivalent value, I will allow three of them to participate.” Yang Chen reiterated again, he wants to earn enough money, so as not to have any troubles in the future.

This is also a hope to spread this matter further through the mouths of the three sects. In addition, with the help of the power of the three major sects, some people who eliminate demons and defend the way will not be obstructed at certain times. If Yang Chen didn’t want to take one less, he would hide his hands a little bit, and everyone would be playing chickens and eggs, and no one would want such a result.

“If the Pill Cauldron Sect is also interested, then in addition to Senior Deng Yiya, they can add three others. Senior Deng does not need to be limited to three places.” After thinking about it, Yang Chen added another point.

This time, all the girls remembered clearly, and after confirming that Yang Chen had no other intentions, they left Yang Chen one after another, hurried back to the sect, and reported the important news to the sect first.

Before Yang Chen returned to the Pure Yang Palace, the cultivators in the entire mortal world were already boiling. Yang Chen, Grandmaster Yang was willing to disclose the secrets of the cultivation of

fifth-grade alchemists to everyone. This was such a shocking news that it spread all over the place almost immediately.

Everyone who heard the news couldn't believe it. How could this be possible? How could the secret of a fifth-grade alchemist be released casually?

Of course, everyone quickly realized that it was not just announced casually. If you want to know, you have to pay enough price. The price was ten kinds of seventh-grade fire seeds or items of equivalent value. The value of the specific items was determined by several old rich men of the ten thousand treasure building.

Countless people began to move their minds, and the main sect has already begun to prepare for it, just waiting for that day to come. Countless rogue cultivators scratched their ears and scratched their cheeks, thinking about how to make up for this sky-high admission fee at that time. In short, there was no quiet place.

"Do you really want to do this?" The first sentence the Palace Master said when he saw Yang Chen was this sentence.

"Yes, Palace Master." Yang Chen nodded, and then followed the palace master back to the conference hall. Several core elders were there, waiting for Yang Chen.

After meeting Yang Chen, Wang Yongcai asked Yang Chen "If you really want to announce it, you don't have any advantages here. Have you thought about it?"

"It doesn't matter whether there is an advantage or not, Master." Facing Wang Yong, Yang Chen was still very respectful "It's just that there will be less boring battles, saving time and effort, and also making a lot of money, why not do it?"

"If someone followed your method and became a fifth-grade alchemy master, what would happen?" Zhu Chentao was concerned about this, but in fact, he himself was already itching and wanted to know the secret of Yang Chen's refining of medicine pills.

“Fifth-grade alchemy masters can’t be made by talking about it.” Yang Chen smiled slightly “Isn’t the pill recipes already sold, and now besides this disciple, who else can make it? “

As soon as they heard Yang Chen’s words, everyone suddenly realized that this must be Yang Chen’s method, not everyone can do it, that’s why Yang Chen was so relaxed. Speaking of which, the Pure Yang Palace has made countless profits on Yang Chen, and this time was no exception.

“If that’s the case, then you should recharge your batteries and wait until the time is right to point out others!” The master of the palace smirked like a vixen who was laughing wickedly, his eyes almost narrowed into slits. It’s a good opportunity to make money and gain fame. If the Pure Yang Palace doesn’t take the opportunity to seize it, doesn’t it seem that the master of the palace is too incompetent?

In the Greatest Heaven Sect, Tao Junqi reported Yang Chen’s words and the matter of this trip to Sect Master Li and a group of core elders.

“Did he really say that?” Sect Master Li couldn’t believe his ears at first, but after getting Tao Junqi’s affirmative answer, he closed his eyes and pondered.

“We’ve wronged you. Junqi!” Another core elder said, “We’ve wronged you because of a few disobedient guys.”

“Junqi won’t feel wronged if I can do something for the sect.” Tao Junqi lowered her head slightly, only said this sentence, and said no more. If it was true that she felt a little wronged before, then after she followed Yang Chen out this time, it seemed that feeling was no longer there.

“Wushuang, when did you cross the tribulation?” Shi Wushuang’s master saw that she became a master of the Dacheng stage after seeing his proud disciple go out and come back. She was very surprised and immediately thought of Shi Wushuang’s mission. It must be because her disciples feel depressed, so she got angry and made great progress in her cultivation, right?

“I’ve wronged you, Wushuang!” Shi Wushuang’s master, holding her beloved disciple in her arms, was about to cry, her genius disciple had to suffer such grievances and be a servant.

“He treats this disciple very well.” Shi Wushuang just said this, but she suddenly missed the time when she called Yang Chen husband.

Chapter 633: Gathering

The Five Elements Sect welcomed the return of its five genius disciples, which was naturally a happy occasion.

“Really? He agreed to disclose the cultivation method of a fifth-grade alchemist?” The suzerain of the Five Elements Sect couldn’t believe his ears, but the five women were obviously not joking with him, and nodded solemnly.

After the Sect Master was sure that what he had heard was correct, his eyes turned complicated, and before the five sisters Murong could speak, the eldest sister of the five sisters took the initiative to say, “Sect Master, I am waiting for what I want, so there is no need for Sect Master to be embarrassed.”

“You have made great contributions, go to the secret pavilion of the sect to see what is suitable for you, pick one each!” The sect master didn’t say much. When the back of the women disappeared, he was silent for a long time.

... The world of cultivators was really lively this time, this has never happened before. No matter who is in the hands of such a high-level alchemist, no matter which sect is in the hands, it is always the case. If you want to store things that are encrypted and stored in layers, no one has ever thought about opening them up.

Although it was only open to a limited extent, you must have enough net worth to have the opportunity to participate, but after all, that was the cultivation technique of a fifth-grade alchemist. Who would be stupid enough to open it up unconditionally? If they want to replace this kind of thing with themselves, that’s a stunt that they won’t be able to do.

In the past, there was only a method that could be obtained by killing people and genocide. Now they only need to pay some extra price. Who wouldn’t like this kind of thing? Even if they were as strong as the Greatest Heaven Sect, they are willing to buy it instead of forcibly taking it.

It’s not like Hu Qianyi didn’t do this before, what kind of result did he obtain? It might be better to wait for these years before Yang Chen made it public. Losing a Dacheng stage elder for nothing, even the

Greatest Heaven Sect would feel distressed. This is not to mention the group of elders and masters who were lost to Yang Chen and the Pure Yang Palace before. If you add the group that disappeared on the Demon Continent, it will definitely make the Greatest Heaven Sect feel distressed to death. If nothing else, two Supreme Elders were definitely 10,000 times more valuable than ten kinds of seventh-grade fire seeds.

It's too late to say anything now, since Yang Chen has already released such rumors, no one can monopolize this kind of secret. Even if a certain sect thought of doing so, once they dare to act, they will be strangled by the joint efforts led by the five sects. No one will use this kind of brain, let's honestly collect money.

On the distant Demon Sect domain, in the Promise Demon Sect.

"Is this really the case?" Ye Zhenxiong, the sect master, couldn't suppress the shock in his heart and stood up directly.

"It has been spread all over the mortal world, and there is no falsehood." The disciple who got the news almost dared to vouch for it with his life.

"Prepare right away, we will go to the Pure Yang Palace when the time comes." Ye Zhenxiong ordered, but he also thought in his heart that it was time to drop by to see his son, and the things he had treasured for a long time can also be used by him.

In the Yin-Yang Demon Sect, the same scene occurred, but Mrs. Fanghua, who was already in the late Dacheng stage, was already one of the core elders.

The last time they organized to kill Yang Chen, the Yin-Yang Demon Sect lost a lot of good elders. Fortunately, Mrs. Fanghua has reached the perfect stage, and has become a banner that can hold up the sect.

Hearing that Yang Chen made such a decision, countless people were shocked. Mrs. Fanghua's strong yearning seemed to be unbearable, and she was eager to see her lover and enjoy her love.

There is still more than a year before the day Yang Chen said, and countless people have already started to gather in Meiqing Mountain. Even if there is no chance to see the scene announced by Yang Chen, it is good to be able to see the big figures in the cultivation world, maybe there will be opportunities of its own.

With such thoughts in mind, countless people gathered on the Meiqing Mountain side, which directly drove the popularity of the Meiqing Mountain. Originally, there were a lot of open spaces in Meiqing Mountain, but in order to accommodate these people, houses had to be built in those open spaces. The entire Meiqing Mountain, from the outermost gate to the core hall, was almost connected.

Yang Chen rested his head on Gao Yue's thigh, enjoying the feeling of Gao Yue peeling the thousand-year-old profound yang fruit one by one with her slender jade fingers and feeding him. He was very comfortable.

"What's the benefit of doing this?" Gao Yue asked as she served the disciple who was supposed to serve her.

"The benefits are great!" Yang Chen replied without hesitation "At least I can start with the resources of hundreds of seventh grade fire seeds. It would be even better if I had the seventh grade fire seeds I wanted."

"If it's just this little thing, it's not worth it for you to do it, right?" Gao Yue was unmoved. The resources sounded a lot, but they didn't have one percent of any kind of source spirit liquid in Yang Chen's hands.

"The key is that there will be a lot less trouble in the future." Yang Chen continued to explain "After this, those who are interested will not try to think of us again."

"This is barely counted as one, what else?" Gao Yue gave Yang Chen a sip of wine, but Yang Chen took advantage of the situation for a while, before pushing away his head, she slapped Yang Chen and said coquettishly, "Be honest. ."

"Also, I have dug a big hole for the Greatest Heaven Sect. We need to wait quietly for them to jump into the hole, and we can't make them more vigilant." Yang Chen didn't hide anything from Gao Yue, and said his own thoughts. Seemingly guessing what Gao Yue was going to ask next, Yang Chen shook his head directly "Master, you don't need to know what the big pit is, just know that this time, it might be

enough to destroy the Greatest Heaven Sect. This burden is still on this disciple and I will carry it! Master, you just need to remember at all times that there is me behind you.”

Gao Yue looked down at Yang Chen’s face carefully for a while, then she stopped talking, just took a sip of wine, then took the initiative to hug Yang Chen’s head, and kissed Yang Chen lips. Yang Chen also stood up, hugged his master horizontally, and walked to the bedroom, but the two of them kept their lips and tongues together all the way.

The day was finally coming, and the real important guests have begun to arrive at the Pure Yang Palace. The palace master and the foreign affairs hall were in a mess. They have been entertaining and arranging distinguished guests to come to the sect, and there was almost no free time. The disciples of the Pure Yang Palace, like a festival, all dressed up, stood from the mountain gate to the main hall, and welcomed the distinguished guests into the Pure Yang Palace again and again.

In the end, after confirmation by the master of the palace, this time, there were 17 sects, 6 dao sects, 5 demon sects, 6 demon sects, and 6 rogue cultivators alliance who came to listen to Yang Chen’s public cultivation secrets this time. In addition, there were two ancient families who also got the opportunity.

Everything was waiting for Yang Chen to announce.

Chapter 634: Beginning

In this mortal world, it was not known how many people were eagerly looking forward to Yang Chen’s ability to reveal the secret of his fifth-grade alchemist journey to the public, and even they did not even hesitant to try all kinds of methods to participate, killing people and making more money, just to be able to take part.

But when Yang Chen really wanted to reveal these secrets, countless people were still dumbfounded that the price of ten kinds of seventh-grade fire seeds was not something that not anyone could easily come up with. Only those sects with rich heritage could take them out without affecting them.

Seeing that, the representative of these sects who had already paid the price, entered the soundproof formation that had already been arranged, the people outside were dying with greed. How good would it be if they were allowed to participate?

At this time, whoever dares to make trouble in this matter will not only offend the five major sects of the Central Plains dao sects, but almost all of them, including the Demon Sect and the monster race.

In fact, even these sects who have obtained the qualifications were very surprised. They never thought that Yang Chen would be willing to announce the secret of the fifth-grade alchemist at this time. When they heard the news, almost all the sects went all out to raise funds, and only then did they catch up with this grand event.

Fortunately, Yang Chen said at the beginning that it would be five years later. In these five years, it was enough for the news to spread far away, and enough for some people to collect enough resources.

Entering this area, in addition to the three representatives of each sect, senior Deng Yiya of the Pill Cauldron Sect was specially invited by Yang Chen. Of course, the representatives of the Pill Cauldron Sect were another matter. In addition, Fairy Junqi, Fairy Aoki and the five Murong sisters were all present, plus the palace master of the Pure Yang Palace and several elders, there was no one else.

Basically, among the three representatives who came, at least two were experts in alchemy. This was originally the secret of the alchemists. If the real alchemists were not on the scene, even if others listened to them, they might not be able to fully grasp them. Therefore, it is best for the alchemists to come over. The other one was basically the protector.

This area was also created by Gongsun Ling with the geographical map of mountains and rivers. It was a space of various beauty, and no one else existed. Here, there was no need to worry about anyone being able to eavesdrop, it was absolutely safe.

The master of the palace, on behalf of the Pure Yang Palace, welcomed everyone, and without saying much, announced that the meeting was starting and Yang Chen appeared in front of everyone.

Everyone has been waiting anxiously for a long time, and these seniors seem to be a little reluctant to wait anymore. The Palace Master who was in charge of the palace just said a few words. If he delayed his words for a while, he might be attacked by these people collectively.

“Thank you all for coming to join us!” Yang Chen came forward, not talking nonsense, and made a bow around him, as a thank you to the cultivators.

“Actually, why did I make this decision? Everyone must have an idea.” Yang Chen didn’t tell the real secret at the beginning, but said something like this.

As soon as these words came out, many people’s faces were somewhat uncomfortable. Yang Chen’s move, everyone understands, some people and sects will do whatever it takes for this secret, which was hard to guard against. Yang Chen definitely didn’t want this situation to happen again, so he made such a decision.

However, the uncomfortable expression just disappeared for a moment. If they can really get the secret of a fifth-grade alchemist, even if the price was high, it was worth the loss of face today, but the benefits are real. Although the price was a bit high, it’s worth it.

There were also many people who secretly admired Yang Chen’s plan. The secret of a fifth-grade alchemist may not be suitable for everyone, but using this trick has not only gained huge benefits, but also the secret has been shared with so many sects, even if someone wants to calculate against him in the future, it will not only be aimed at Pure Yang Palace has calculated, and indirectly it can be regarded as preventing many disasters for the Pure Yang Palace.

“Before we start, let’s talk about some uncomfortable things.” Yang Chen didn’t care about the thoughts of many people present. “Even if you know some secrets, it’s not necessarily that anyone can become a fifth-grade alchemist. One point, I hope you seniors have an idea. If you don’t think it’s worth it, it’s not too late to leave now.”

This was to say beforehand. If someone wants to ask for a later account in the future, Yang Chen will not easily agree.

“Of course, I also swear by my inner demon that I will tell the seniors how to become a fifth-grade alchemist. I ask you to rest assured.” In order to reassure everyone, Yang Chen first made an inner demon oath.

Someone wanted to say something just now, but now that he heard Yang Chen’s oath, he no longer hesitated and sat down firmly.

Fifth-grade alchemists are not children’s toys, that they can get a lot of them at once. Just as there are many people in this world who can survive the tribulations in the most normal way, but still the vast

majority cannot reach such a height. Therefore, it must not be said that it is a mistake of the method, but that the aptitude of the individual was limited.

The same is true for fifth-grade alchemists. Yang Chen can be called a fifth-grade alchemist according to this method, but it was not necessarily true to work for other people.

On this point, everyone basically knew what they had in mind, especially Yang Chen who took the trouble to talk about the shortcomings in front of them, and the oath of the heart devil was even more reassuring. This was definitely Yang Chen's secret, otherwise he wouldn't care so much.

If Yang Chen told them that a large number of fifth-grade alchemists could be produced anytime, anywhere, no one would believe it. Things are so strange, the harder it was, the more real it seems to be.

"It's easy to understand, Grandmaster Yang leads the way, cultivation is personal, Grandmaster doesn't have to mind, no one here will doubt Grandmaster Yang's sincerity." The leader of a rogue cultivators alliance spoke directly, as if he had another endorsement for Yang Chen.

Many people were in agreement, if they really got a lot of fifth-grade alchemists, it also seems that Yang Chen's secret was too worthless. You must know that each sect has spent ten kinds of seventh-grade fire to be eligible to attend this place. Naturally, it is hoped that the harder it is, the better. It is best that people from other sects will be stumped, only their own sect would succeed. It is best for an alchemist to succeed in one fell swoop.

"If there is no objection, let's start." Yang Chen looked at the people around him and asked again. All the people around had a look of anticipation, and no one spoke indiscriminately.

Chapter 635: Millions Of Medicinal Dregs

"The first key to becoming a fifth-grade alchemist is to understand the properties of medicine." Yang Chen saw that everyone was well prepared, and without talking nonsense, he went straight to the topic.

As soon as the words "understanding the medicinal properties" came out, the serious people who listened to it suddenly fell into five clouds and mists. The word understanding of medicinal properties was too vague. Everyone was talking about it, and it seemed that what Yang Chen said was really confusing.

Yang Chen waited until all the voices of discussion had gradually subsided before continuing to speak. As soon as Yang Chen opened his mouth, the other voices disappeared without a trace.

“The monarchs, ministers, assistants and envoys of these medicines in the process of dispensing, these seniors are all experts, and they won’t be here to play the axe.” Yang Chen immediately began to explain everyone’s confusion “The main thing I’m going to talk about is the refining process, about understanding the properties of the medicine.”

When everyone heard it, they thought that it was right. Since it is the key to the fifth-grade alchemy master, it was naturally a problem in the refining process.

“In this refining process, what other medicinal properties do we need to know?” Someone immediately asked strangely. Everyone looked closely, it was a monster cultivator.

The monster race’s refining method was relatively rough, so it was not surprising that he had such a problem. No one would laugh at him on this occasion, but everyone was waiting for Yang Chen’s answer.

“It’s very simple.” Yang Chen also did not ignore the simple question, but took out an ordinary herb, put it in his hand and said, “What you need to understand during the refining process is basically this herb. What kind of heat, what kind of time, what kind of technique can make the best use of the medicinal properties.”

As he spoke, a flame had erupted from Yang Chen’s hand, wrapping the herb in it. Those who had good eyesight could see at a glance that the flame released by Yang Chen was the third-grade earth core fire, the most suitable kind of fire for refining medicinal materials.

Even if there was no cauldron, Yang Chen’s third-grade earth core fire was pure green, and that herb was quickly tempered by Yang Chen’s third-grade earth core fire, turning into a green medicinal liquid. The medicinal material was an ordinary medicinal material that everyone was familiar with, and those who can participate are all alchemists with a high level.

Of those present, eight out of ten were able to do this easily. Therefore, although Yang Chen’s technique looked beautiful, no one commented on it. If a fifth-grade alchemist couldn’t even do such a basic thing, that would be a joke.

“Of course, just knowing a single medicinal ingredient is not enough to make everyone a fifth-grade alchemist.” Yang Chen’s words immediately floated over, and everyone listened intently, for fear of missing a point.

“Actually, most of the medicinal materials cannot be perfectly integrated unconditionally. Basically, how to achieve this depends on the methods of the alchemists.” Yang Chen’s words were unhurried and could make everyone hear clearly and understand. The reasoning was not complicated, everyone understands it, and even has a deep understanding of it.

Following Yang Chen’s words, the second type of medicinal material appeared in Yang Chen’s hand, which was also quickly transformed by the third-grade earth core fire, and then merged into the first batch of medicinal liquid. The two were integrated, but there was no conflict at all, this was easily achieved.

However, in the eyes of everyone, it was another matter. The second type of medicinal material was completely different from the first type of medicinal material. Under normal circumstances, if an ordinary alchemist wants to fuse, he must use other medicinal materials to neutralize the conflict between the two medicinal effects to be able to do this. As for Yang Chen, just relying on his skill, he did it with ease, which was amazing.

This was not to mention, the third medicinal material appeared immediately, and it was also the medicinal material that had a fierce conflict with the first two. Under normal circumstances, once these three medicinal materials are mixed together, they will definitely conflict violently and even cause the danger of exploding.

But in Yang Chen’s hands, the third medicinal material also turned into medicinal liquid in front of everyone’s eyes, and then slowly added to the first two medicinal liquids in a very incredible way. After adding the three medicinal liquids, it has obviously become one, but there was no sign of any conflict.

“As for the understanding of medicinal properties, you must have an intuitive understanding at this moment.” Yang Chen held the medicinal liquid ball in his hands, and then handed it to an alchemist not far in front of him without hesitation. The other party is also a virtual medicine liquid group. After observing for a long time, he reluctantly handed it over to another person.

No need for Yang Chen to say more, he has clearly shown everyone the point of understanding the medicinal properties with his actions. For ordinary people to refine these three kinds of medicinal materials, there are more than ten kinds of other medicinal materials that can help neutralize the medicinal properties, and it is of course more difficult to refine. Where is there simply three so simple and easy to control?

Even if they ask themselves, except for the guy with the highest level of alchemy in Yang Chen, they would not dare to say that they can do this. With such a fusion of three common medicinal materials, even a fourth-grade alchemist might not be able to do it easily. From this point of view alone, Yang Chen's level was much higher than everyone else's.

"How can this be done?" Many people understand what Yang Chen said, but they don't know how to do it effectively. Although Fairy Junqi was not an alchemist, she helped everyone to ask this question at the right time.

"There's no good way, so try it one by one!" Yang Chen shook his head directly, and then gave a direct answer "Even if the predecessors gave detailed records, it would be useless. Try it one by one, if you don't get started, you won't be able to learn it."

Hearing that Yang Chen actually said that one type of experiment was coming, a few alchemists suddenly felt a sense of being fooled. Yang Chen could easily do it but didn't say it, but let everyone use the stupidest method, which was obviously a waste.

"Grandmaster didn't do it this way yourself, right?" An alchemist from the rogue cultivators alliance immediately said out loud. His words also resonated with many people, and everyone was waiting to see how Yang Chen would answer.

"It's not enough to keep one hand, but the medicinal residues during the experiment were all left behind. If you are interested, you can see it." Yang Chen didn't care about the criticism of these guys, and said lightly.

After speaking, Yang Chen waved his hand, and millions of piles of medicinal dregs appeared in front of everyone in an extremely spectacular way. Everyone who saw this pile of medicinal dregs couldn't help showing a dumbfounded expression.

Chapter 636: Basic Skills

There was no way not to be surprised. When millions of dregs appeared neatly in that huge space, the unbelievable amount directly stunned everyone.

There were a lot of medicinal dregs, much more than when Yang Chen first got the medicinal gourd. For a certain period of time, Yang Chen has been refining simple herbs, or several combinations, and has been mastering the most suitable heat for each herb and the refining method under the combination of various herbs.

This kind of thing was just like what Yang Chen said, there was no shortcut, there was only one experience. No matter how rich the previous records are, it was impossible to pass on these practical operating experiences to future generations. Without personal experience, even if you read 10,000 volumes of predecessors' notes, at most you will know some theoretical things, but you will still not be able to get started.

Countless people were dumbfounded and speechless when they looked at so many medicinal dregs. The guy who just made a sarcastic remark couldn't wait to tuck his head into his crotch at this moment. The rest of the people also stared at the pile of medicinal dregs in a daze, estimating how long it would take to actually refine so many medicinal dregs.

Yang Chen's move shocked everyone, so many medicinal dregs are not random medicinal dregs, but are produced after various combinations, and even those experts in the defense of medicine can distinguish which medicinal material or which types are from the medicinal dregs, a combination of medicinal herbs.

If you don't look at anything else, just looking at so many medicinal residues was enough to explain why Yang Chen can easily smelt three medicinal materials with completely comparable properties, but there was no problem at all.

There was a time when Yang Chen bought a lot of common medicinal materials, and now people finally understand where those medicinal materials have gone.

Even sharp-eyed people found that some thousand-year-old, or even ten-thousand-year-old medicinal materials were found in the dregs. Those who can be willing to use the medicinal materials of this age only for hand training. It is estimated that apart from Yang Chen, no one else has such a great skill.

Familiar with medicinal properties, they were simple words, but from Yang Chen's body, everyone can see how much hard work Yang Chen has put in for these words. Just the dregs of medicine, those guys who once suspected that Yang Chen had obtained some ancient senior's secret manual or had senior's guidance, are enough to feel ashamed.

What kind of secret book was this, it was clearly the experience accumulated by every drop of hard sweat. If such a person did not become a fifth-grade alchemist, there would be no one in this world who could.

Among the people present, more than 80% were alchemists, some were even fourth grade alchemists, but when they saw the medicinal dregs that Yang Chen took out, they all felt a little guilty. Even if they have reached the realm of fourth grade alchemy masters, how has it ever been so solid to understand medicinal materials from the most basic medicinal properties?

"Of course, this method is indeed a bit stupid and consumes a lot of money. Sometimes, I'm really embarrassed to say it, and there are some misunderstandings among the seniors." Yang Chen's words came from the side and entered the audience in the ears "If you seniors have any better way, I am also willing to buy them from you seniors."

When everyone heard Yang Chen's words, it was obviously aimed at the guy who just said that Yang Chen had a hand in it. Very cooperatively, they turned their eyes in that direction.

The guy who just said this to Yang Chen, his face was red and his head was drooping, how can he say half a sentence. He wished he could immediately become invisible so that everyone wouldn't see him.

Fairy Junqi, Fairy Aoki, and the Murong sisters looked at Yang Chen with a strange brilliance. Last time, Yang Chen staged the fact that he found the Immortal peach from folklore in front of their eyes. Now, he has taught everyone a solid lesson, which is solid basic skills. People like Yang Chen are indeed worthy of love.

When everyone finally calmed down and began to think about Yang Chen's method, Yang Chen also collected the dregs little by little. These medicinal residues have to be passed on to disciples, so that they can also feel more things, but they can't just be thrown away as waste.

Although everyone saw Yang Chen's actions, no one stopped him. It's not that no one has thought that getting these dregs from Yang Chen, even a simple observation, can find a lot of things. However, thinking about the price that Yang Chen has always offered, this thought was immediately extinguished.

Everyone began to discuss one after another. After trying one by one, it was indeed possible to clearly grasp the medicinal properties, but after all, it was still a bit troublesome. It was better to choose some of the medicinal herbs that produce and inhibit each other, which can shorten a lot of time. Although it may not be as comprehensive as Yang Chen's grasp, it was a very good direction for the cultivation of those new disciples in the future.

Regardless of whether they will become a fifth-grade alchemist, it is not wrong to master such basic skills, even a higher-level alchemist can use it. It can be said that this ability to master the medicinal properties of alchemy was definitely a necessary skill for alchemists.

Many people were beating their chests and feet, why they hadn't thought of it before. It's not that people don't think about it, but for a long time, most alchemists have always been refining the finished medicinal pills according to a specific pill recipe. This method was used in order to know the refining of two or more medicinal materials.

After a long discussion, people finally stopped slowly. Someone began to ask tentatively: "Can you reach the level of a fifth-grade alchemist with these?"

"Of course not!" Yang Chen answered this question decisively. What a joke, if you want to become a fifth-grade alchemist after mastering a few medicinal properties, it was too easy for a fifth-grade alchemist.

Seeing that everyone's attention has been focused on this side, Yang Chen asked everyone whether they should continue with his eyes. The group of people kept nodding, so Yang Chen began to continue.

"Another skill that needs to be mastered in order to become a high-quality alchemist is the art of controlling fire." Yang Chen said his experience very seriously.

With the last lesson, no one will take the initiative to look for discomfort this time, but many people have some disapproval on their faces. What a joke, of course, an alchemist must know how to control fire, otherwise how could they control the flame in alchemy? Is not this nonsensical?

However, more people were looking forward to it. It was also the simplest skill. The art of controlling fire in Yang Chen's mouth was definitely different from the art of controlling fire that most people think.

Chapter 637: Controlling Fire

"Maybe all seniors will think that this art of controlling fire is very simple. As long as you master the fire, you can control the flame, and accurately control the fire, it is enough." Yang Chen's words were slowly spoken, so that everyone could have a thought process.

Many people really think so. When in alchemy, it was enough to be able to completely control the fire, and there is no need to carefully ponder the mystery. Yang Chen said this, obviously there were some different opinions.

"Actually, these are still far from enough. Some medicinal materials need to control the flame to the millimeter. Simply being able to control the fire is not enough." Everyone could hear clearly.

"Which step must be taken to meet the standard?" Someone immediately asked in a playful manner which caused a group of people to join in.

This time, Yang Chen didn't speak, but started the demonstration directly. There was still one hand outstretched, and the fire began to emerge from the hand. After a while, the flame turned into the appearance of a villain. The villain began to perform various flexible movements in Yang Chen's hands, just like a living person.

Everyone, looking at the action of the flame villain, their expressions became solemn. Most people do not pursue the refinement of the art of controlling fire to this level. Many times, everyone pursues the size of the power of the flame, not the refinement.

The villain suddenly spread out and turned into a flame. Then, the flame began to change again and again. After a while, all the people present found that Yang Chen's hand seemed to have a miniature model, and all the people present were there. Everyone could be found in Yang Chen's hands. The surrounding environment was also beautifully outlined by the flames, which was very realistic.

With so many people, all the morphological movements were exactly the same, and even the appearance of some people standing on tiptoes to watch has been simulated in real time. The expression on their faces were lifelike, except that everyone sees the flames at a glance, other than the others, it was impossible to tell whether it was true or false.

The hand that Yang Chen showed, immediately stunned everyone. All the experts were present, and some people immediately began to try to learn from Yang Chen as if they did not believe it. They also used flames to outline the surrounding environment.

It must be said that they are all experts in alchemy, and they have been exposed to flames all the year round, and they still have a certain foundation for the control of flames. Many people could easily simulate the surrounding environment. Although it was not as detailed as Yang Chen's, it roughly simulated the surrounding scene.

Just when they wanted to go further, everyone found it difficult, they began to have trouble with many details. The main trouble is still those moving scenes. Although the flame can simulate a fixed scene, it is not so easy to want to be so vivid once it was moved.

Not to mention that Yang Chen was able to simulate everyone's looks and shape very well, just the swaying leaves of the surrounding trees had already stumped most people. Even if someone can barely make the scene move, the moving part was a mess.

"What is this? The basic skills of controlling fire?" Some people couldn't do it by themselves. Seeing Yang Chen do it, he didn't seem to think it was too great, so he asked a little puzzled "Could it be that if you have practiced to this point you can reach the level of a fifth-grade alchemist?"

"This level is only a requirement for the Foundation Establishment Stage to temper basic skills." Yang Chen shook his head directly. What a joke, this level is like a fifth-grade alchemist. What kind of person do they think a fifth grade alchemist is?

"How is that possible? How could a cultivator in the Foundation Establishment period achieve this level?" Some people simply could not accept that this was only a basic skill requirement of the Foundation Establishment stage, and immediately refuted it.

Not only this person, but many people actually have such thoughts in their hearts, but some people were deeply shrewd and did not say it directly.

“A cultivator in the Foundation Establishment stage can do this.” Yang Chen replied with certainty. Seeing that everyone didn’t believe it, Yang Chen said directly “I’ll find someone to show everyone.”

After a while, He Lian, the maid of Yang Chen’s Yixiu Villa, was brought by Yang Chen. He Lian’s aptitude was not good, even if she was successful in reaching the foundation stage, but so far, it has just been the peak foundation building, and it looks like she will soon break through.

Yang Chen just simulated the surrounding scene with flames again, and then instructed He Lian to do the same. He Lian has practiced this kind of fire controlling technique for many times. Since Yang Chen gave her advice, she has not stopped. Soon, a scene similar to Yang Chen’s occurred in He Lian’s hands.

The same meticulousness, the same meticulous craftsmanship, the same lifelikeness, all the people present were speechless looking at a younger generation who was at the peak of the foundation building stage, and easily accomplished what everyone present was unable to do. How many evildoers are there in the Pure Yang Palace, and just pulling a disciple of the Foundation Establishment stage can make so many masters feel ashamed.

“How can I meet the requirements of a fifth-grade alchemist?” He Lian was able to do it, and everyone accepted that this was only the level of the basic skills of the foundation-building stage, and immediately someone asked curiously. Everyone was concerned about this issue, and everyone listened attentively, for fear of missing a word.

“At least it has to reach this level.” Yang Chen didn’t talk too much this time, and started to show everyone the facts.

A thin line of fire began to outline a familiar figure in the air. Yang Chen’s movements were fast, and the complete graphic was quickly completed. Then, after Yang Chen finished the last stroke, the graphic started to activate.

The water-type spirit gathering array, and the water-type spiritual power gathered on it, it was unusually eye-catching against the backdrop of the flames. The group of stunned eyes around them stared like copper bells, as if they couldn’t believe what they saw.

Next, Yang Chen drew a wood-type spirit gathering array, earth-type, and metal-type. The five elements were complete, and none of them have fallen.

Using flames to build a formation with other attributes was simply subverting the entire people present. What kind of fire controlling method was this? Compared with Yang Chen, the guys who are known as the fire controllers are all scum among the scum.

What kind of evildoer does he need to be able to reach such a level? How smart do you have to be to come up with such a solution? Even if this fire controlling technique was not used in alchemy, it is one of the best unbelievable clever techniques in battle and cultivation.

No wonder Yang Chen was a fifth-grade alchemist, with such imagination and basic skills. If Yang Chen was no longer a fifth-grade alchemist, was there still heaven?

Chapter 638: Eventual Breakthrough

Surprised, but this opportunity in front of them was won by the sect with ten kinds of seventh-grade fire seeds or an equivalent price. Everyone has an idea in their hearts, and they have to figure out if they can do what Yang Chen said.

The large amount of dregs at the beginning, that was definitely possible, it was nothing more than hard work, nothing special.

From the beginning of the art of controlling fire, there have been constant requests to know if other people can do it. He Lian's move just now made many people feel at ease.

However, as soon as Yang Chen's method of arranging the flames came out, people immediately began to have the same doubts.

"Can other people do this too?" The speaker asked a question that everyone cares about. Everyone wants to know if they or their own people can do the same so that they can become another fifth-grade alchemist.

“There should be no problem.” Yang Chen didn’t give a positive answer this time, but gave an ambiguous answer, as if he wasn’t sure about it himself. After waiting for some time, everyone’s hearts were raised. If this was not possible, then becoming a fifth-grade alchemy master was an extravagant hope. Is there something Yang Chen has not explained clearly and left behind?

“Senior Deng?” Yang Chen didn’t ask everyone to wait any longer, he turned around and faced Senior Deng Yiya from the Pill Cauldron Sect.

Senior Deng Yiya was a master of the Pill Cauldron Sect that Yang Chen had cooperated with when he was refining the Heaven seizing pill. At that time, he was already at the level of a fourth-grade alchemist. Deng Yiya was there when he made a bet with Helianyun, and he saw everything Yang Chen showed at the time. He believe that if he was not stupid, he should know what to do all these years.

“I was just lucky!” Deng Yiya pleaded guilty in a low voice and stepped forward. Deng Yiya can almost be said to be the alchemist with the highest level of alchemy except Yang Chen, a fifth-grade alchemist. Many people have the same respect for Deng Yiya.

Hearing Deng Yiya say he was just lucky”, Yang Chen’s face also showed a smile. In his estimation, Deng Yiya should have been able to do this with ease. After so many years, it seems that Deng Yiya should also be able to touch the edge of a fifth-grade alchemist.

Seeing Deng Yiya coming forward, everyone was shocked. They didn’t know what he was going to do, and they all stared at him with wide eyes. Only Fairy Junqi, Fairy Aoki and Sister Murong knew that Deng Yiya was specially invited by Yang Chen, and he was the only one who didn’t have to pay the price.

Deng Yiya, who came out, didn’t waste much time explaining anything, but just like Yang Chen, he stretched out her hand, and the flame in her hand began to slowly condense into almost the same shape as Yang Chen. After a while, the water-attribute spirit gathering formation took shape, and then Deng Yiya was only a little excited, and everyone felt the thick water-attribute spiritual power escaping from the spirit gathering formation.

Senior Deng Yiya also did it. Facts are more convincing than any eloquence, and everyone was excited. Doesn’t this mean that senior Deng Yiya can do it, and so can they?

As early as a hundred years ago, Deng Yiya was actually able to do this. At that time, Deng Yiya easily broke through the bottleneck of the Yuanying stage and entered the realm of great achievements. Seeing that the threshold of the fifth-grade alchemist was getting closer and closer, Deng Yiya always felt that there was such a line, and he still doesn't know where it was.

When Yang Chen invited him over, Deng Yiya agreed almost without hesitation. He was about to ask Yang Chen for advice on what was the last point of his own shortcomings.

"Grandmaster Yang, this old man is now able to control fire like water, control fire like soil, control fire like metal, and control fire like wood, but I am still a little bit worse. I don't know why?" Deng Yiya said after the demonstration. He respectfully asked Yang Chen for advice. Although he was much older than Yang Chen, he still called Yang Chen a grandmaster during the process of alchemy.

"Senior Deng is worse, in fact, it's only a little bit." Yang Chen replied with a smile.

Deng Yiya's question and Yang Chen's answer made everyone excited on the spot. Deng Yiya was only one line away, and looking at Deng Yiya's appearance just now, it is clear that he has met Yang Chen's requirements for controlling the fire, so what is the difference? Everyone seems to be more interested than Deng Yiya.

Everyone knew that Deng Yiya and Yang Chen had cooperated when refining the Heaven Seizing Pill. Presumably, Deng Yiya learned from Yang Chen at that time. After so many years, Deng Yiya was able to touch the edge of a fifth-grade alchemist, which only showed that Yang Chen's method was very effective.

"When refining the questioning inner heart pills and the second grade inner sensing pills, you need to use several kinds of fire at the same time." Yang Chen said slowly and clearly "Actually, this is the key to the fifth-grade alchemy master."

Everyone wished that their ears could be turned into antennas, and they all listened to Yang Chen's explanation of the key point. Especially at this time, they didn't even dare to make a sound, for fear of missing something.

"Junior is born with an ability." Yang Chen still said slowly and leisurely "I can divert my attention and use it for two purposes." As he spoke, Yang Chen stretched out his hands, drawing a circle with one

hand and a square with the other. The figure composed of two flames soon appeared in front of everyone, the round ones were perfectly round, and the square ones were square.

“I believe there are many people who have this ability.” Yang Chen continued after showing how he could divert his attention. His words caused people to nod for a while, so many masters of the major sects, what kind of genius have they never seen, not to mention the disciples who can do two things at the same time, it was not uncommon for them to do five things at the same time.

“I guess that’s what senior lacks.” Yang Chen said sincerely “To be able to control multiple fires at the same time, and to grasp the heat during refining, grasp the opportunity of adding medicinal materials, and also finely control, after you can do this, you can basically reach the level of a fifth-grade alchemist.”

As soon as he heard that he needed to multipurpose, Deng Yiya couldn’t help but closed his eyes and began to figure it out. The more he thinks about it, the more reasonable it feels. It seems that as long as he can distract himself from the bottlenecks, he can easily get through it. It was not particularly incomprehensible to realize the fifth grade refining of medicinal pills.

“Of course, not everyone has this kind of talent.” Yang Chen added “However, as long as you can greatly improve the cultivation base of your spiritual awareness, it is not so difficult to achieve this. Seniors are all experts, and I believe you know more ways than I do.”

Chapter 639: The Last Key Point

Indeed, none of the people present were below the late Yuanying stage. Even alchemists belonged to the super-genius category. Their cultivation aptitudes were excellent, and they were not comparable to ordinary people.

After the cultivation of spiritual awareness was improved, whether it can be used for multitasking or not, there was no need for Yang Chen to give an example to illustrate this, everyone knows this. Especially Deng Yiya, several problems that plagued him, it seems that after Yang Chen’s advice, there were no more problems.

“It turns out! It turns out that is it!” The smile on Deng Yiya’s face was by no means fake, it was genuine happiness, it was a kind of joy that the researchers finally have after solving the problem, others can see the joy in it.

“I was just a little bit short, I understand! I understand!” Deng Yiya’s words really surprised the masters of the Pill Cauldron Sect. If Deng Yiya can break through the bottleneck of the fifth-grade alchemist, then Yang Chen will no longer be the only one who dominates the mortal world, and the Pill Cauldron Sect will also have its own fifth-grade alchemist.

The people from the Pill Cauldron Sect were happy, and people from other sects were also happy. Since Deng Yiya will be able to break through this step soon, even if their own alchemist started late, it has only been a few hundred years since Deng Yiya refined a pill. If Deng Yiya can, and so can their own alchemist. Even the major sects can train a group of new alchemists from an early age, and train them in this direction.

“There is no way to improve your spiritual awareness here, you need to solve this yourself.” Yang Chen’s voice reached everyone’s ears again, but no one took it seriously. Of course, this method of raising spiritual awareness is that each sect has its own stuff, and it will never be easily revealed to others. Originally, they had no intention of asking Yang Chen to give this method.

It sounds like, so far, the key to Yang Chen’s ability to become a fifth-grade alchemist has been completely revealed. One is the understanding of medicinal properties, the other is the control of flames, and the other is to be able to be distracted and multi-purpose, and control multiple flames for refining at the same time. All these factors make sense to everyone.

Among the three elements, two are very important basic skills. While familiar with medicinal properties, there is actually control over the use of heat. As for controlling fire, it is completely the basic skill in the basic skills. Even if it was not used for alchemy, as long as it is a fire attribute cultivator, it will never be harmful to practice the art of controlling fire in this way.

At least Tao Junqi thinks so. In the past, Tao Junqi had her own pride. Fairy Junqi, who was in the Dacheng stage, would never ask Yang Chen for advice or anything in her cultivation. Only today did she find out that she was far from Yang Chen. Moreover, Tao Junqi also discovered that if she combined the way of controlling fire that Yang Chen said today with the advice she received from Senior Liu Fengzi, she believed that the original deviation would soon be corrected and she would be able to overcome her tribulation and ascend.

This was a complete surprise, not only Tao Junqi, but also Fairy Aoki, the Murong Sisters, and even everyone present. Since the way of controlling fire can be like this, can other attributes also be like this?

Regardless of whether it works or not, everyone understands that after cultivating in this way, the control of one's own spiritual power will be directly elevated to another realm. Even if there is no benefit to the growth of cultivation, but for the overall cultivation, there are only advantages and no disadvantages.

Well worth the trip, everyone feels that way. At the same time, they finally gained a better understanding of Yang Chen's ability to become a fifth-grade alchemist.

Except for Yang Chen's talent for distraction and dual tasking, everything else seems to be achieved by Yang Chen's own diligent cultivation and mastery of extremely deep basic skills. It can be said that Yang Chen's ability to become a fifth-grade alchemist was by no means a fluke, let alone some hidden master's guidance to achieve such a level.

Even those who had this idea before, after seeing the mountain of medicinal dregs and the superb fire control technique, they no longer had such an idea. Those two things alone, even if Yang Chen could be distracted and practice non-stop every day, he couldn't do it without hundreds of years of hard work. It seems that Yang Chen himself was using his actual experience to show everyone that success is never a fluke.

The most fearful thing about cultivation is that there is no direction. With direction, even if it takes a little more time, it is not a big deal for the cultivators. If you can waste hundreds of years to become a fifth-grade alchemist, they believe that among the 100 alchemists, the next 120 will be willing.

The alchemists all seem to see their future success from the current Yang Chen, and they also seem to see their future direction from senior Deng Yiya. As long as they work hard to grasp what Yang Chen said, and then diligently cultivate their spiritual awareness, it seems that they can easily become a fifth-grade alchemist.

Thinking of the brilliance after becoming a fifth-grade alchemist, the glory that everyone admires, the alchemists couldn't help but start to look forward to it.

Everyone firmly believed that they could become the next Deng Yiya and the next Yang Chen, but no one thought about how to quickly improve their spiritual awareness.

After the cultivation of spiritual awareness was improved, you can easily distract yourself and use it more. This is common sense, so there was no need for Yang Chen to demonstrate. However, if you want to improve your spiritual awareness step by step, how many people can reach the level of Human Immortal when they are in the mortal world without such a powerful thing as the three purities secret art in Yang Chen's hands?

It is not surprising that Yang Chen explained the past with a natural ability, because there are many such people. However, no one has thought about the difficulty. Maybe they will despair and improve their spiritual awareness when they react. How can things be so easy?

These are not things that Yang Chen will remember or should remind them, Yang Chen was happy to watch the show. Anyway, after this time, Yang Chen was no longer the only fifth grade alchemist. After the news spread, the pressure on Yang Chen would be much less correspondingly.

Now what Yang Chen wants is not to be in the limelight, but to watch the Greatest Heaven Sect step by step fall into the pit according to the big hole he dug. Even the announcement of the secrets of the fifth-grade alchemist this time has the meaning of digging a hole.

He believes that the Greatest Heaven Sect, who has mastered the Free Demonic Heart Sutra, will definitely have more people who cultivate it. The allure of a fifth-grade alchemist is by no means comparable to ordinary glory. As long as others don't know what method is used to improve the cultivation of spiritual awareness, can others control it?

Chapter 640: Precious Gifts

Relatively speaking, the Yin-Yang Demon Sect, who has unique experience in spiritual awareness cultivation, will definitely be very happy. The characteristic of their sect is that they have strong spiritual awareness, which can definitely give them a lot of advantage.

The other sects are all big sects with extremely deep foundations, and there may not be better means. However, even if Yang Chen added his previous life, it is impossible to know more about the secrets of these sects, so it is not clear what good tricks each sect has.

But there is one thing Yang Chen can be sure of, even if it is a powerful sect, it is impossible for them to cultivate an alchemist with the first grade human Immortal realm spiritual awareness cultivation base, and it will be impossible for them to accomplish that in a few hundred years from now on. This is not something that happens overnight. Whether it is controlling fire or understanding the properties of

medicine, it takes a long time and hard work. In addition, if you have to cultivate your spiritual awareness, it will take longer.

For a fifth-grade alchemist, for a long time, Yang Chen will still be the only one who dominates. Even if Deng Yiya can make a breakthrough in the late Dacheng stage or even at the peak Dacheng stage, it will take at least hundreds of years. What's more, after the breakthrough, it would not be far from his ascension.

Unless those sects find a new disciple who could multitask, as Yang Chen said, and has a fire-type spiritual root to start training, otherwise, Yang Chen believes that they should not have several fifth-grade alchemists appearing before he ascends, this was Yang Chen's confidence.

At this point, basically Yang Chen's secrets were revealed to everyone, and no one will doubt that Yang Chen has something like a magic weapon seized by his predecessors. Everything comes from hard work. This also proves that there is no shortcut to practice. In fact, many times, this is the truth that many sects have been teaching their disciples, but sometimes they can't figure it out.

The people who participated were all treasured by their sect, as long as there was nothing wrong with them, they all left as soon as possible and rushed back to the sect. Fairy Junqi, Fairy Aoki and the five Murong sisters all stayed, also left behind was Ye Zhenxiong, the suzerain of the Promise Demon Sect.

Ye Yu has been accepted as a disciple by Yang Chen, and it has been a long time since he returned to the sect. During this period of time, Ye Yu showed a very strong cultivation ability and had already stood out among the disciples of the same period. In less than ten years, he successfully established his foundation and officially joined Yang Chen's sect.

As a father, even if he was born in the Demon Sect, he attaches great importance to his own blood. Of course, Ye Zhenxiong also wants to see how his son's cultivation and whether he has been bullied in the Pure Yang Palace. The most important thing is that Ye Zhenxiong brought some treasures to his son, which can give him some advantages in his cultivation.

Ye Yu now lives with Hua Mengyou and Mu Bai, and between the same family, Yang Chen intends to let them have more contact. Mu Bai's cultivation base was the highest, and at this moment, he has already reached the Yuanying stage. Hua Mengyou was second, her cultivation aptitude was not perfect, but she has already shown a very strong talent in the cultivation of medicinal materials. From top to bottom in the Pure Yang Palace, everyone who has seen her skills was shocked. For Yang Chen's ability to know people, all of them admired him.

At present, Ye Yu's cultivation was the lowest among several brothers and sisters. However, his cultivation aptitude is so good that even Yang Chen admires him very much and often gives him some unique guidance.

In the previous life, Ye Yu cultivated the cultivation methods of the Demon Sect, so Yang Chen did not force him to cultivate the Dao Sect's cultivation method, but found a foundation-laying technique similar to the Demon Sect for Ye Yu to cultivate. In other respects, it was cultivated to the best of his ability.

When Ye Zhenxiong saw Ye Yu, it was when Ye Yu was discussing cultivation with his Senior apprentice Brother Mu and Senior apprentice Sister Hua.

Mu Bai and Hua Mengyou were already well-known cultivators. Ye Zhenxiong, who cared about Yang Chen, could not understand their reputation. Ye Zhenxiong was also very satisfied with the entry of his son.

This time when he came to the Pure Yang Palace, in addition to learning the secrets of Yang Chen's fifth-grade alchemist, Ye Zhenxiong brought some precious gifts to his son. These things are precious materials that he has been searching for for many years and treasured for many years that he was reluctant to use for himself, he must use them for his son no matter what.

This was Ye Zhenxiong's secret. In fact, when he was still in the Jiedan stage, he had already discovered a place where the Four seas mysterious coral liquid was produced. He collects it every year and he has as much as a jade bottle.

Every year on his birthday, Ye Zhenxiong would carefully take out a drop of the four seas mysterious coral liquid and take it himself, which was one of the reasons why his cultivation soared.

In order to give his son a good start, Ye Zhenxiong deliberately brought half a bottle of four seas mysterious coral liquid, intending to take it for his son at one time. Pity the hearts of parents all over the world, such a good thing, the first thing that comes to mind is not his concubine, but his own son.

Since Mu Bai and Hua Mengyou were also there, Ye Zhenxiong was also a hero, so naturally they will not lose their share. As long as a few drops of the four seas mysterious coral liquid were distributed, he believes that with the eyesight of Yang Chen's disciples, it was impossible not to see the preciousness of

this thing. With the good fortune of these few drops of the Four Seas mysterious coral liquid, they will take good care of Ye Yu, their younger apprentice brother, in the future.

When Ye Zhenxiong was on his way and took out half a bottle of four seas mysterious coral liquid, as if he was holding some treasure, he wanted to share some of it with Hua Mengyou and Mu Bai, Ye Yu had already half-closed his eyes, unable to bear to see it, his face flushed flushed.

The expressions of Mu Bai and Hua Mengyou at that time, in Ye Zhenxiong's opinion, seemed to be that they were shocked. Ye Zhenxiong was very satisfied with holding back his breath without screaming. Not everyone was qualified to see this kind of heaven and earth treasure, even Grandmaster Yang's disciples were the same.

"Father, it's not easy to collect these four-seas mysterious coral liquids, so you should put them away!" Ye Yu was still concerned about his father, and couldn't bear to watch any more, and blushed and persuaded Ye Zhenxiong to put it away.

"How can it be? Those who see it must have a share, your brother and sister are not outsiders. These are precious materials, they are good for the body. Use some of them, it is a little greeting from this old man." How could Ye Zhenxiong take the things back, thinking it was his son being stingy and reluctant to give good things to others, he didn't accept the advice.

"Thank you, Uncle Ye!" Mu Bai and Hua Mengyou didn't think much about it. After they calmed down, they bowed and saluted Ye Zhenxiong. The other party gave them gifts, and of course they should thank them as the etiquette they should have as juniors. Ye Yu is their junior brother, and according to their seniority, they should call him Uncle Ye Zhenxiong.
