### Chapter 651: Refining The Ninth Water Flying Sword Is Possible

Days of peacefully cultivating and living a peaceful home life in the sect finally ended after the arrival of a certain rogue cultivator.

This rogue cultivator was entrusted by someone to come to send something to Yang Chen. The thing was very simple, it's just a tightly wrapped box. At the same time, along with the box, there was another sentence "the ninth water flying sword can be refined."

As soon as he received this news, Yang Chen knew that this was the news from his sworn brother Li Cheng.

Except for Yang Chen and his four wives, only Li Cheng knew about the refining of the ninth water flying sword. Moreover, Yang Chen asked Li Cheng to find a way. Now that Li Cheng has sent the news that it can be refined, it was obvious that a refining method has been found.

A second grade inner sensing pill made the Jiedan stage rogue cultivator who sent the news happy and couldn't find the north. It was such a good thing after just one trip. He wished he would run errands for Yang Chen without doing anything every day.

The box was sealed with a very mysterious restriction, and most people don't know how to open it. However, for Yang Chen, this was not difficult. The way to break this restriction was very simple. As long as the spiritual awareness reaches the fifth grade human Immortal realm, the spiritual awareness can be activated, and the box will be opened smoothly, revealing the contents inside.

It was a compass that didn't look delicate, it seemed to be made from a few things in a hurry. There are also no flags on it, just a flexible pointer. As long as you use spiritual power, the pointer will immediately point in one direction.

This is what Li Cheng used to give Yang Chen directions. Yang Chen was also very clear about what Li Cheng meant, that is, he wanted him to follow the direction pointed by the compass and head to the rendezvous. Presumably the method that can refine the ninth water flying sword is not that simple and it requires a face-to-face chat.

Yang Chen had no doubt that Li Cheng would lie to him, there was no need for that. Although Yang Chen didn't know Li Cheng's true identity, he never doubted that Li Cheng would be able to let his soul fly away when he raised his hand. This is purely a feeling, but Yang Chen was very convinced. It was by no means accidental that the Supreme Elder of the Greatest Heaven Sect of that year was beheaded by Li Cheng's sword.

With this good news, Yang Chen finally doesn't have to stay in the sect. This time, both Gao Yue and Gongsun Ling stayed in the sect, but before leaving, Gao Yue told the seven women to follow Yang Chen all the way, and they must wait on him on the way.

This is not the first time Yang Chen has gone out with the seven women, but this is the first time they have gone out with Yang Chen since they married Yang Chen. Even Yang Chen didn't know where he was going, which made the seven Dacheng stage concubines puzzled. It seems a bit rash for a journey without a destination to reach their realm.

But since Yang Chen insisted, no one objected. It was no big deal to go out to cultivate and follow their own husband, which is not unbearable.

During the journey, Yang Chen discovered that his seven Dacheng stage concubines actually had a very elegant hobby and their level was surprising.

Fairy Junqi likes calligraphy, when she encounters troublesome things, she also uses non-stop writing to achieve the purpose of calming down. She has been immersed in calligraphy for nearly a thousand years, and all kinds of calligraphy have good attainments. Those master-level experts in the world are no more than a group of babbling child doodles in front of Fairy Junqi's handwriting.

Fairy Aoki was fond of Go, and in her spare time, she always closes her eyes and plays blind chess alone. There is also a lot of research on the way of choosing between verticals and horizontals. No wonder Fairy Aoki in the previous life was good at dancing with long sleeves, and it was inseparable from this hobby.

The Murong five sisters surprised Yang Chen very much. What the five sisters like most is to collaborate on painting together. What makes these people amazing is that each of them will only use their own attribute spiritual power mixed in the brush to draw their own flavor of the five elements into a

landscape. Every time the five women collaborate on a painting, people can feel the way the five elements interact with each other.

Normally, this is the kind of cooperation of people that have the same heart. No wonder the five people can be as one in cultivation and battle. From this point of view, it must be said that nothing was without reason.

“I only know a little bit.” When the girls asked about Yang Chen, Yang Chen answered modestly. However, when he began to communicate with them separately, the girls found that every word Yang Chen said seemed to speak to the deepest hidden depths of their hearts, which made people feel joy from the bottom of their hearts.

In his previous life, Yang Chen had no hope of cultivating, and he had dabbled in various aspects. Being tortured, what allowed Yang Chen to persevere, in addition to his thoughts of his master and revenge, he had to focus on things outside his body.

Although it is only limited in scope, compared with those guys in Heavenly Court, it is not a specialization at all. But at this level of the mortal world, Yang Chen was still able to have a good conversation with the girls on their respective hobbies, and even had in-depth exchanges in their respective favorite fields, and then pointed out some of their current shortcomings.

The seven women did not expect that their husband was still such an elegant man who was proficient in painting, calligraphy and chess. Surprised, they were even more grateful for their choice. After all, even if they ascend, they are still women after all. Who doesn't like to lie in the arms of a husband, whom they love deeply, and exchange their favorite hobbies with their husband?

That feeling of being alone for hundreds of years and thousands of years, and suddenly encountering a confidant who is invincible, is nothing more than this. Everyone and Yang Chen's time alone seems to have experienced many times in their dreams, so familiar, so harmonious, so harmonious, they wish they could just occupy their husband until forever.

Even when everyone was together, Yang Chen was always able to bring everyone's hobbies together, from calligraphy to painting skills, to chess skills, and occasionally to express some opinions, which always made all the girls very happy.

Yang Chen was like a mysterious treasure trove. The more you touch, the more you discover, but you can't see the edge. Every fairy has a feeling of seeing each other late.

At this time, the girls seemed to have forgotten the sect's entrustment, and threw themselves into the arms of their husband. In just a few short years, it seems that they have lived together for hundreds of years. Occasionally, the girls would think of the sect's orders, but they couldn't help but worry. Once Yang Chen and the sect had a disagreement, how would they deal with it themselves?

Before they knew it, Yang Chen had left the Dao sect's domain with the seven women, rushed into the boundless sea again, and flew towards the other side of the ocean.

#### Chapter 652: Ninth Grade Human Immortal Realm

It was not the first time for Yang Chen to cross the vast ocean. However, this time was different. There are seven Dacheng stage masters, one late Dacheng stage master and six early Dacheng stage masters, and all of them were born in great sects. At this point, Yang Chen and his four wives were completely incomparable before.

In the past, Yang Chen's trip would definitely attract a lot of coveted people, and there would even be people in ambush or something. After all, the strongest of Yang Chen and his four wives was only the late Yuanying stage, there are many people who exceed this realm. Not everyone knows that Shi Shanshan's fighting power alone was enough to tie with Elder Min who was in the late Dacheng stage.

Now that these seven concubines were accompanying him, no one dares to attack Yang Chen again, at least in the territory of the Dao sects, no one dares to provoke him easily. No one has the confidence to subdue seven Dacheng stage masters at the same time, especially when they don't know how many pills their husband Yang Chen has in his hands, no one will think that he will die easily.

The powerful sea beasts encountered along the way became the pastime of the girls when they were bored on the road. Of course, in fact, sitting in the shuttle with Yang Chen was not so boring.

Among the Great Yin Yang Five Elements flying swords, Yang Chen still lacks the Ninth Water flying sword and Eighth Metal flying sword. The ninth water flying sword already has the materials, and Li Cheng may also have a refining method, he believes he will be able to start refining soon. On the other hand, he has never been able to find suitable materials for the eighth metal flying sword. Even in the huge reward received this time, there was no material suitable for Yang Chen to refine the flying sword.

Not being able to gather the Great Yin Yang Five Elements Flying Sword in a short period of time was a little disappointing, but Yang Chen didn't care. Many things depend on fate, he believes that as long as the opportunity comes, some things will be delivered to the door by themselves. Just like the eighth metal spiritual solution, when he met Li Cheng, the two exchanged naturally and everything was in order.

Yang Chen's spiritual power has improved a lot, causing the speed of the shuttle to be a little faster. According to Li Cheng's instructions from the compass, Yang Chen arrived at the place Li Cheng agreed to in less than two years.

It was a small island that wasn't too big, and there was nothing to be excited about on the island. It seems that Li Cheng just randomly found a remote island, just to communicate with Yang Chen.

When Yang Chen arrived with the seven concubines, there was no trace of anyone on the island, not even a single sea monster around. It was an empty island, and then there was a stone like a mark on it. The final point of the compass was that stone.

"Husband, where is the person who asked you to come here?" Shi Wushuang looked at the surrounding environment and couldn't help frowning. She asked Yang Chen to come over, but no one was waiting, wasn't this sworn big brother a little too big?

"If the compass is correct, it should be here." Yang Chen looked at the compass, and then his eyes fixed on the stone. The stone was not big or small, it was high and it looked like a rock on an ordinary island, so there was no surprise.

Bang, after observing for a while, Yang Chen started directly and smashed the stone into pieces. Afterwards, Yang Chen vaguely discovered that a subtle, almost imperceptible spiritual awareness escaped from the stone and disappeared into the distance in a blink of an eye.

"Okay, unpack up and wait for big brother to come!" Yang Chen put away the shuttle, but let the girls start to prepare.

The Dragon Palace was carried by Yang Chen and did not stay in the Pure Yang Palace. At this level, Yang Chen would not rest assured to leave it in the Pure Yang Palace, even if Gao Yue and Gongsun Ling were

there. The Dragon Palace was released casually, and it turned into a seaside cottage that did not look very conspicuous at all.

The seven girls started working together, and under Yang Chen's orders, they caught a lot of seafood from the surrounding seawater. Although none of the seven women are as good at cooking as Gongsun Ling, sometimes seafood is simply washed with water to preserve the umami, and it's not too complicated.

Of course, to cook seafood, Yang Chen didn't use sea water or other spiritual springs, but directly used the four seas mysterious coral liquid. This is the liquid that oozes out of the coral under the sea for thousands of years. If it is used to cook seafood, it is even more delicious.

"He is here!" Just now, the four seas mysterious coral liquid from the four seas was boiled, and before the seafood was in the pot, Yang Chen stood up and started looking in a certain direction.

Hearing Yang Chen's words, the seven women tried their best to probe with their spiritual awareness in that direction. Within a thousand miles, they didn't notice any movement, but Yang Chen actually said that. What's the reason?

This doubtful thought did not last for a few breaths, and suddenly the girls noticed a terrifying momentum, and frantically pressed towards this side. With this momentum, even Tao Junqi, with her late Dacheng stage cultivation base, still felt that kind of despairing fear, which was simply not something that anyone present could match.

Tao Junqi, who had the highest cultivation base, was like this, not to mention Shi Wushuang and the Murong sisters, who were even worse. Feeling this powerful momentum, they almost used their flying swords to resist.

Fortunately, Yang Chen was by their side, and he released a little spiritual awareness to wrap the girls so that they didn't have to face the powerful spiritual awareness directly, and the seven girls felt better. However, after discovering that it was their husband who made the move, they couldn't help but be a little puzzled about Yang Chen's cultivation base.

At the edge of everyone's field of vision, a small black spot suddenly appeared. The small black spot grew rapidly, getting closer and closer. After a few breaths, everyone realized that it was a very large

flying eagle. The coercion that made the girls feel stressed and even a little scared just now emanated from this flying eagle.

Of course, Yang Chen also saw this flying eagle. The moment it caught his eye, Yang Chen was stunned. This flying eagle already has the cultivation base of the eighth grade Human Immortal realm. It seems that it was clearly a beast from the Demon Continent, but the demonic qi in the whole body has disappeared for no reason and only the cultivation base was left.

In an instant, Yang Chen found Li Cheng who was sitting on its back, and suddenly, everything was explained. With Li Cheng's mystery, it is not unimaginable to subdue a flying eagle beast of the eighth grade human immortal realm. Even if it was a beast of the Earth Immortal realm, Yang Chen probably won't be able to please him in front of Li Cheng. It's a piece of cake.

"Big brother came just in time, the seafood is about to cook." Before he landed, Yang Chen went over to Li Cheng and invited him with a smile, "we have made a lot of good wine, just wait. Brother, have a taste!"

#### Chapter 653: Meeting Gifts

Of course, the seven girls also found Li Cheng on the eagle's back, but in their hearts, they were still frightened by the strength of the beast. Even with the protection of Yang Chen's spiritual awareness, it did not prevent them from being able to barely judge the cultivation base of this flying eagle beast.

How unbelievable was that? A monster that has surpassed the fifth grade human Immortal realm has appeared in the mortal world with such a big stab. How was this possible?

Although with Tao Junqi's status in the Greatest Heaven Sect, she already knows some things about the great elders, but even the great elders are only in the realm of the first and second grade human Immortal realm, barely surpassing some guys who have just ascended through the tribulation. How is it possible for a monster of the fifth grade human Immortal realm to appear here?

From the eyes of the seven women, that is to say, they can't judge that the cultivation base of the flying eagle is above the fifth grade human Immortal realm, and what level it has reached, their current knowledge is still unable to judge. But even so, the level that has been determined has caused the seven girls to fall into a sluggishness.

They can't remember clearly, since they came to Yang Chen's side, this is the first time they have encountered such an unimaginable thing. Finally, they didn't lose face to Yang Chen too much. After being sluggish for a while, when Li Cheng jumped off the flying eagle, the seven girls woke up.

Slap, a crisp sound, in the stunned eyes of the seven girls, Li Cheng casually knocked on the huge hook beak of the flying eagle, and commanded in a nonchalant tone "Go, play around, don't run far."

The powerful monster of the fifth grade human Immortal realm was as obedient as Li Cheng's pet. It wisely nodded its huge heads and then flew into the sky, disappearing somewhere in the blink of an eye.

No matter what, the seven girls couldn't believe that the terrifying owner who rode on the back of a flying eagle and treated this fifth grade human immortal monster like a pet was actually a young man in the middle Yuanying stage. The huge difference in understanding made the seven women even forget to go forward and greet, which was very rude.

"Big brother, these are the concubines of this younger brother. They haven't seen the world, big brother, don't blame them." Yang Chen's words rushed into the ears of the seven girls like thunder, and they were removed from the kind of awakened in a state of shock. Only then did the seven women realize that they were being rude, so they hurriedly stepped forward and bowed.

"We are all brothers and sisters, please get up!" Li Cheng raised his hands slightly, and the girls felt a force lift their bodies up. This is Yang Chen's sworn eldest brother, and they didn't dare to resist, and obediently got up with this force.

"You are very lucky. The qualifications of these younger sisters are better than each other." Li Cheng saw the details of Yang Chen's seven concubines at a glance, and immediately praised them. Then he said to the seven women "When we meet for the first time, there is nothing to take away, this little thing, take it back and play with it!"

The seven women just got up, listening to Li Cheng's words, suddenly there was something in their hand. The seven girls were shocked, how they got the thing, they didn't even notice it at all.

Looking down, the seven girls were all a little surprised. What Li Cheng gave them turned out to be seven eggs that looked exactly the same, one for each and not one more. Each egg was the size of Yang

Chen's two fists, with golden light on the surface, and at the same time there were lines of formation that looked very mysterious.

"Brother, isn't this greeting gift a bit much?" Yang Chen looked at the things that Li Cheng gave, and was slightly surprised and hurriedly said politely.

"It's not too much, since they are my new siblings, they are not outsiders, so I can't be perfunctory, hehe!" Li Cheng's words did not treat Yang Chen as outsiders, nor did he regard Yang Chen's concubines as outsiders.

"Thank your eldest brother!" Yang Chen was not a hypocritical person, and after a polite sentence, he immediately instructed the seven women. After the command, he explained "This should be the egg of the iron-winged flying eagle refined by big brother. As long as you imprint it with your spiritual awareness, the iron-winged flying eagle will hatch and become your monster pet."

During the conversation, the girls had already obediently thanked Li Cheng again, and after they got up, Yang Chen continued "Don't underestimate this little eagle egg, this should be the offspring of the iron-winged flying eagle just now. If it is hatched, it will be at the peak Dacheng stage, big brother has given you a precious treasure, you have to be grateful."

Hearing Yang Chen's explanation, all the girls were shocked. When they met, he gave each person a monster pet at the peak Dacheng stage. Who is this mysterious big brother?

"You don't need to listen to your husband's hypocrisy, it's just things outside your body. I'm a cultivator of my generation, why bother?" Li Cheng's words sounded immediately, but it was like a pointing tone, it even had a calming effect.

The seven girls are geniuses with excellent cultivation aptitude, how can they not understand that Li Cheng is taking the opportunity to give pointers. No one hesitated, just sat down with their knees crossed, and began to close their eyes and think. Just as soon as they sat down, there was an extra pill in their mouth, it was Yang Chen who stuffed each person with a second grade questioning inner heart pill. In a blink of an eye, the seven girls entered a state of closed-realization.

As soon as Yang Chen waved his hand, the figures of the seven girls disappeared into the Dragon Palace. In front of the seaside hut, only Yang Chen and Li Cheng were left.

“No one is there to bother us, let’s just drink.” Yang Chen took out dozens of jars of different wines, and then began to throw those seafood into the boiling four seas mysterious coral Liquid.

After a while, the seafood was on the table. Yang Chen and Li Cheng also didn’t use wine glasses, each holding a wine jar, and started to enjoy the delicious wine with this delicious seafood. Of course, Li Cheng asked Yang Chen, who had not seen him for decades, why there were seven more concubines.

Yang Chen shared his recent events one by one, and even when he revealed the secrets of a fifth-grade alchemist. Li Cheng had no opinion on this. To him, these things Yang Chen did did not seem to be a big deal.

After all that was said, they finally got to the point. After Li Cheng had almost finished the third jar of wine, he began to talk about the refining of the ninth water flying sword.

“After I went back, I checked the family’s classics, and even consulted a few elders, and finally found a solution that wasn’t a solution.” Li Cheng felt a little drunk, but his words were still clear.

“It’s not a solution?” Yang Chen asked with some doubts.

“Yes, it should be able to refine your ninth water flying sword.” Li Cheng explained after taking another sip “However, it is a little troublesome, maybe in your realm, there is no way to do it at all. When it arrives, if you have to say it is possible, maybe you can think of a way after ascending.”

Chapter 654: Knowing Everything

Is it possible to do it after he ascends? Yang Chen was also intrigued by what Li Cheng said. What advantages does he have over his current state after he ascended? Could it be that there must be a spiritual pressure in the spiritual world or the Immortal world to refine it?

“I found in the ancient books handed down from my ancestors that there is an illusory thing that can restrain those black liquids.” Li Cheng did not sell off his words, and then explained “The merits of the heavens, maybe you don’t understand now, but in the future you will definitely understand.”

Merit? Yang Chen immediately let out a sigh of relief. How could he not know merit? Don't dare to say anything else, if he wants merit, Yang Chen will never lack. Just beheading the Jade Emperor and the Queen Mother will have several times as much merit.

"Although it sounds illusory, if something like merit is used in cultivation, it is also very hard to guard against." Li Cheng continued to explain "There are some records in the ancient books left by the ancestors, but now that I think about it, it's unrealistic to know if it's going to happen."

While speaking, Li Cheng handed over a piece of jade slip. Yang Chen stretched out his hand to take it, and as soon as his spiritual awareness probed, he immediately saw the content inside. Of course, it was just a scan. For the specific content, Yang Chen would have to study it slowly in the future, not now.

"Thank you big brother!" Yang Chen sincerely thanked him. This is a classic handed down by Li Cheng. To put it poorly, it must be the family secret that the Li Cheng family paid a huge price to pass down from the Immortal world. It was given to Yang Chen like this, without the slightest hesitation, why would Yang Chen not be grateful?

"You and I are brothers, you don't need to say this." Li Cheng waved his hand, held up the wine jar in front of him and touched Yang Chen's, drinking heavily. Of course, Yang Chen also accompanies him to the end, and soon a jar of fine wine will see the end.

"I'm a little curious, but where does the aura of the human emperor come from?" Li Cheng also finished the wine jar in one breath, stretched out a piece of shell meat and threw it into his mouth, chewing a few mouthfuls and asked curiously.

Yang Chen didn't hide much about the aura of the human emperor. He immediately told about his experience of bringing his four wives to seal their cultivation base in Qixia Town to temper their state of mind. Even the last few decades of suspended animation in the tomb were completely spoken out.

"So that's the case!" Li Cheng said suddenly, but he didn't ask how Yang Chen knew that the aura of the human emperor would appear at that place at that time. Everyone has their own secrets, just like Yang Chen would never ask Li Cheng why he has such a terrifying cultivation.

Next, Yang Chen didn't hide too much, he explained how he pointed Sun Qingxue to absorb the ultimate demonized demon vine, pointed Shi Shanshan to absorb the supreme pure Yang sword qi left by Lu Zu

and pointed out Shi Shanshan's deployment. These experiences almost put Li Cheng to one side, unable to believe it.

The ultimate demonized demon vine is okay to say, after all, it is just a corpse, as long as Yang Chen can absorb the demonic qi on it, there was no problem at all. With the help of the geographical map of the mountains and rivers of the Dragon Clan, it is also not difficult to conquer dozens or hundreds of masters of the Dacheng stage. However, it is not something ordinary people can do to find the supreme pure Yang sword qi left by Lu Zu.

"Your luck makes people speechless!" Li Cheng couldn't help but sigh at Yang Chen's chance "That guy is said to have only left a sword qi to a mysterious old friend, I hope you can take advantage of it.

"It's not for me, it's for your sister!" Yang Chen smiled and corrected Li Cheng's small mistakes, his face full of happiness. There are not many times when Li Cheng can show such an expression, it was only this once.

"Aren't you taking advantage of it?" Li Cheng gave Yang Chen a direct glance "Don't tell me that you just threw away that scabbard. As long as you improve your cultivation and keep refining it, what sword qi will be able to hurt you?"

This is not Li Cheng's bragging. The scabbard left by Lu Zu looks inconspicuous, but it was a material that can withstand the supreme pure yang sword qi. As long as other sword qi is not as strong as Lu Zu's sword qi, it is absolutely impossible to destroy it, which is equivalent to Yang Chen adding an ultimate defense magic weapon easily.

"Hehe!" Yang Chen laughed out loud, his face full of smugness "Big Brother thinks I'm that kind of ignorant club?" The implication was that he had already admitted Li Cheng's words.

"Little Xue, Shanshan and A'Ling all have their direction, what about A'Yue?" Li Cheng glanced at Yang Chen sideways "Don't you want a bowl of water to be level? How did you arrange for A'Yue?"

"With the dragon horns flying swords that A'Yue refined by herself, plus the aura of the human emperor, she should be able to protect herself." Yang Chen still said with a smile on his face. In front of Li Cheng, Yang Chen didn't have to hide his feelings at all "I can't think of a good way for a while. I can only let A'Yue cultivate as usual first. I hope brother can give A'Yue some pointers."

Reaching out his hand not to hit the smiling face, Li Cheng looked at Yang Chen's rogue appearance and couldn't help but give him another look. However, he looked into Yang Chen's eyes and laughed without restraint. Yang Chen asked for such a visit, and it was impossible to say that Li Cheng also had to use his brains.

Seeing Li Cheng start to think, Yang Chen was very attentive and opened a wine jar for Li Cheng again, brought it to him, and then slowly waited. He believed that Li Cheng must have a way to make Gao Yue better.

Because he was too concerned, Yang Chen himself did not dare to interfere too much with Gao Yue's cultivation, especially since he had no memory of Gao Yue's previous life cultivation, Yang Chen was even more cautious. This kind of mood is probably the reason that doctors are not autonomous. The more people they value, the less likely they will take action. There is no doubt that Gao Yue is the most important one in Yang Chen's mind.

Li Cheng thought about it for half an hour. Yang Chen didn't rush, just sat across from him and slowly sipped his wine, waiting quietly. Finally, Li Cheng let out a long breath, reached out and grabbed the wine jar in front of him, and took a big sip. Yang Chen knew that Li Cheng must have a solution.

"You guys, you must have no idea how I got some precious materials." Seeing Yang Chen's expectant look, Li Cheng couldn't help laughing and scolding "Well, it seems that this thing can't be kept after all, it's better to fulfill the younger brother and sisters!"

Saying that, Li Cheng rubbed his hands on the table, and three quaint copper bottles appeared on the table. Looking at the style of the bottle, it is impossible to tell what age it is. However, the complicated patterns and formations on it all show the preciousness of the items in this bottle.

Chapter 655: Langya Well

"What's this?" Yang Chen was quick, almost as soon as Li Cheng put down the copper bottles, he took all three copper bottles into his hands, looked up and down and said "It's not like you just took out a few bottles and perfunctory, right? Brother, it's not me who wants it, if it's not good enough, I won't follow it."

Li Cheng was amused by Yang Chen's gesture, he stretched out his hand viciously, and scolded Yang Chen, "Then forget it, give it back to me?"

"How can you take back what you took out?" Yang Chen said, but his hand was not slow at all. He directly received the three copper bottles into the ring of merit, the speed was unprecedented.

The moment the merit ring took the copper bottle, Li Cheng's eyes seemed to light up, and then he calmed down again with a smile on his face.

"Big brother, what exactly are in these rotten bottles?" Yang Chen still didn't change his tone, belittling the three copper bottles.

"It's nothing, it's just some emperor's qi collected by generations of people." Li Cheng had already given up hope for Yang Chen's virtue, and replied directly, "The qi of the demon emperor, the qi of the monster emperor, there are only a few traces of the qi of the Immortal Emperor."

Hearing that it was these three kinds of emperor's aura, Yang Chen's face immediately blossomed with joy. The worst human emperor's aura can easily knock down the opponent to a small realm. If you add these kinds of things, it is not too difficult to directly knock the opponent down to a large realm in the face of the enemy. As long as Gao Yue absorbs and refines all these types of emperor's qi, her future achievements will be limitless.

This time, it can be regarded as a complete solution to Gao Yue's cultivation problem. With the qi of these emperors, even if Gao Yue used the most common method to cultivate step by step, she would become one of the masters in the Immortal world.

"If you have that thing, it seems that merit is not a big problem, right?" Li Cheng asked directly, ignoring Yang Chen's silly pleasure.

Knowing the merits and recognizing the merit precepts is certainly not a surprising thing. Yang Chen didn't realize it was strange at all. He directly revealed the merit ring, so that Li Cheng could see it clearly, and replied with a smile, "Of course, I would like to thank you brother for your guidance."

"You came out of the Immortal Executioner Stage?" Li Cheng asked again lightly.

This time Yang Chen didn't answer, but nodded directly. The only communication channel between the Immortal world and the mortal world, there is only one explanation for those who can have merit precepts among mortals, and there can be no other. Li Cheng seems to know a lot about the Immortal world.

"No wonder you can even find the Pure Yang sword qi left by that guy. No wonder you are a fifth-grade alchemist at such a young age." Li Cheng looked like he was suddenly enlightened.

"If that's the case, then there is a way to control the merit and refine the flying sword on the jade slip, so you can refine it slowly." Li Cheng didn't ask any more questions, and then instructed.

This is the first time for Yang Chen to share his secrets with others. He felt like a huge stone has fallen in his heart, and there is no longer the loneliness that requires a person to keep secrets. In an instant, he was indescribably refreshed and happy. He stretched out his hand to pick up the big wine jar in front of him, clicking and clunking, and in a blink of an eye, another jar of fine wine was drunk.

"There are so many killed inside, these small fish and shrimps in the mortal world, you don't have to fight for yourself, you don't have to lift them up." Li Cheng's words seemed to warn and also seemed to be admonishing "Just kill a few that are worth doing. Now, you don't have to worry about the rest, you will have a chance to kill when you arrive in the Immortal Realm."

Yang Chen kept nodding, Li Cheng's words went to his heart. Killing tens of thousands of Immortals, and then killing these mortal guys with weak cultivation, really doesn't feel the same. As Li Cheng said, to do it yourself is to lift them up.

After the business was finished, the two began to chat about other topics while drinking. It must be said that Li Cheng's extensive knowledge made Yang Chen admire him at times. In the sky and the ground, there is almost nothing that Li Cheng does not know.

"Brother, where is the Pure Yin True Fire?" Since Li Cheng knew so many secrets, Yang Chen's heart moved and he asked. If he wants to refine the longevity pill, he needs to have the Pure Yang True Fire and Pure Yin True Fire. Now the Pure Yang True Fire was in the secret pavilion of the Pure Yang Palace, but the Pure Yin True Fire has not been found.

“Pure Yin True Fire?” Li Cheng immediately frowned, and after thinking for a while, he gave a not very precise answer: “It seems that there was a record from the ancestors, in one place, but I am not sure.”

“Where?” Yang Chen expected to get an answer at first, but he didn’t expect Li Cheng to actually know and asked in surprise.

“It’s just a legend, no one can be sure.” Li Cheng emphasized it again, and then replied, “Langya well, you should have heard of it, right?”

More than just heard of it, everyone knows it. Yang Chen responded in his heart, and a wry smile began to appear on his face.

Langya well is a mysterious place, according to research, it may be the mountain gate of an ancient sect. It wasn’t known what happened to that sect. Anyway, all the disciples disappeared without a trace, and even the sect was sealed, but countless treasures were left behind.

Every thousand years, it will appear in the mortal world. Every time it appeared in the mortal world, it would cause the cultivators to go crazy, and countless people would rush into that place, trying to find their own opportunities. Those who have a great chance have also obtained countless good things from it, magic weapons, medicinal herbs and cultivation methods, all of which have made countless people jealous and envious. Of course, those who survived and got the treasure in the end have all become experts, there has never been an exception. This also drove countless cultivators to go in desperately to try their own chances.

In fact, Langya Well is not the real treasure, at best it is just an entrance. The real treasure trove is the heaven and earth in the well, and the most important and mysterious one is a Langya crystal ship inside. In order to be able to board the Langya Crystal Ship, it was not known how many people had tried their best. When Yang Chen got the Five Elements Rope Hook, the first thing that came to his mind was to board the Langya Crystal Ship.

Every time the Langya crystal ship appeared in the mortal world, it was accompanied by countless blood and rain, and those guys who wanted to find the treasure in the Langya well would often kill the blood into rivers. Even so, every time he appeared in the world, he always attracted many cultivators to rush into Langya Well one after another, not afraid of death. This situation has never changed for tens of thousands of years.

Hearing that it was this place, Yang Chen couldn't help but smile bitterly. Counting the days, in about a hundred years or so, Langya Well will appear in the mortal world. If he wanted the Pure Yin True Fire, it seems that he can't do it if he doesn't go.

#### Chapter 656: Ninth Grade Pills

From the bottom of Yang Chen's heart, he was unwilling to rob some so-called treasures that have been clarified with a group of greedy people. With the memories of his previous life, plus the secrets he learned from the Immortals in the Immortal executioner stage, it was enough for Yang Chen to quietly make a fortune.

With such conditions, fools will compete with those greedy guys for a large number of things that are not necessarily better than what they know, but they will cause countless troubles and fights. Even if he wins, he might have to hide or gain something with a troublesome reputation, the gain outweighs the loss.

Counting down the things Yang Chen has obtained from the beginning of his cultivation until now, whether it is the Medicine Garden, or the hidden treasures of the Dragon Palace or the supreme pure Yang sword qi; whichever one when taken out, isn't it an earth-shattering treasure? How far must one's brains go to compete with others for a third-rate product that can't be graded?

Besides, since Yang Chen already knew where some items were, he wouldn't allow them to be collected after they were discovered. That was a pure fool, a top-notch behavior that he thought he didn't have enough troubles on his body.

Therefore, even if Yang Chen knew the location of the Langya Well, knew the opening time of the Langya Well, and even had a five-element rope hook in his hand, which was a powerful magic weapon that would definitely allow him to board the Langya Crystal Ship, Yang Chen had no intention of joining in at the beginning, this was hilarious.

However, Li Cheng told him that the Pure Yin True Fire might be in the Langya well, so Yang Chen couldn't help but lose his mind. Yang Chen understood that if Li Cheng was not more than 70% sure of this guess, he would not easily tell Yang Chen. Since he said so, it is very likely that the Pure Yin True Fire was really in the Langya Well.

In this case, Yang Chen had to think about going to the Langya Well. Even if he had to face the heroes of the world at that time, he had to go through this experience.

After making up his mind, Yang Chen felt relieved. What was he afraid of, he had the Five Elements Hook in his hand. He can board the Langya Crystal Ship with 100% certainty, maybe there will be other surprises at that time. As for the fact that many people know that there must be killings, was the official executioner of the Heavenly Court still afraid of killings? In this world, as long as dao disciples are afraid that killing will bring demons, the only one who is not afraid is probably Yang Chen.

With the whereabouts of the Pure Yin True Fire, at least it is good news, Yang Chen was very happy, drinking with Li Cheng. After the two of them drank more than a dozen jars, Li Cheng unceremoniously accepted the remaining hundred jars of fine wine that Yang Chen had taken out, said goodbye to Yang Chen and went straight to the back of the Iron Wing Flying Eagle and swaggered away.

Li Cheng came quickly and left quickly, leaving a lot of solutions for Yang Chen and meeting gifts for his younger sisters, very free and easy. Yang Chen watched the back of Li Cheng and the Iron Wing Flying Eagle disappear, and then sat back at the table and began to study the jade slips that Li Cheng brought to him.

All the girls were stunned by Li Cheng, he said something about things outside the body in an admonishing tone. With the qualifications of the seven girls, they all gained something. There was no other way, when a series of things outside of the body hit them so that they can't even be surprised, there will always be a qualitative change in the state of mind.

Now that the seven girls are in such a state, plus with Yang Chen's questioning inner heart pills for help, one by one, one by one, he believes they won't wake up in a short time. And once they wake up, they will definitely improve their mental state greatly.

Speaking of which, Gao Yue, Gongsun Ling, Shi Shanshan and Sun Qingxue have already reached the point where foreign objects cannot invade them. Following Yang Chen, a monstrous husband, even if he wants to raise his horizons. Even the most inconspicuous dog has become a jerk, what else can make them shocked and confused? Perhaps, there are only surprises from their husband, right?

There are not many things recorded on the jade slips, it can be seen that they were newly engraved with spiritual awareness, presumably they are the records of the ancestors copied by Li Cheng. It's normal to think about it, it's impossible for Li Cheng to show the original to Yang Chen.

Most of the content was related to merit points, but Yang Chen found that all the records here are how merit points are used to refine tools and alchemy, and there was no introduction of merit points or the most commonly used exchange. This can only explain one point, Li Cheng knew that Yang Chen understood this, he might have guessed the identity of Yang Chen long ago, and he only took advantage of the opportunity to get an accurate answer from Yang Chen not long ago.

In the heavenly court for almost thousands of years, Yang Chen didn't even know that merits could be used to refine weapons and alchemy. After only watching for a short while, Yang Chen couldn't help but was dumbfounded even by himself. Where is the stuff recorded here that ordinary Great Lou Golden Immortals shouldn't even know? Who is this elder brother Li Cheng's ancestor who would know such a terrifying secret?

Speaking of it, whether it was alchemy or weapon refining using merit, the effect was completely reflected in two words – “defying the heaven”. As long as it was something refined with merit, there will be a powerful effect that will never appear normally, and it can even subvert everyone's common sense.

Using a simple example, the Body Refining Pill can improve the physique of ordinary people and cultivators, but for cultivators, it doesn't change much. Even at least until the fifth grade, it is possible to improve the cultivator's five-element spiritual root almost insignificantly. It was because Hua Mengyou took Yang Chen's fifth-grade body refining pill back then that she raised her wood attribute spiritual root by two points.

The attribute of the spiritual root has been increased by two points, which was already a miracle-like good luck, if it weren't for her being in Yang Chen's medicine garden that has hundreds of thousands of years of elixir, under the influence of the medicinal energy, plus given her natural affinity with plants, this would never have been possible.

If you want to achieve the effect of significantly improving the attributes of the spiritual root, you need at least the seventh grade body refining pill to be barely effective. If you want to completely upgrade to full value, you would need the ninth grade body refining pills!

The question is, in the mortal world, where do you get the ninth grade pill? Even in the spiritual world, it was impossible for this kind of thing to exist. There is no other place where ninth grade pills can be produced, except for those guys who own the top ten alchemy furnaces in the Heavenly Court. Of course, he doesn't know how far the Grand Supreme Elderly Lord can reach, maybe it has already surpassed the concept of ninth grade, Yang Chen still doesn't know.

If merit was used in the refining process of ordinary body refining pills, it can also achieve the effect of improving the spiritual root attribute, which was the so-called heaven defying effect.

#### Chapter 657: Cultivating Merit

It could make ordinary body refining pills achieve the medicinal effect of seventh grade body refining pills, if this was not called heaven defying, what else could be called heaven defying? The reason for this heaven-defying effect was because of merit.

Of course, just adding a few points of merit will not be able to make the body refining pill of the first grade reach the effect of the seventh grade. The specific degree of defying the heavens depends on the amount of merit added. The more merits which are added, the more obvious the effect will be.

For Yang Chen, the current merit is the least cherished thing. The merits of Yang Chen's body at this moment are only under the current Heavenly Court system; what Yang Chen will do after his rebirth is to overthrow the Heavenly Court headed by the Profound Heaven Sect. Since even the current Heavenly Court is going to be overthrown, the merit left by the overthrown Heavenly Court can only be wasted if it was not used.

Others don't know, but Yang Chen himself knows that even if he uses up the immeasurable merits in his body after he arrives in the Heavenly court, he may not be able to use them up in just a few thousand years. Now that he knew that there was such a good thing, Yang Chen certainly wished for it.

The most important point is that whether it is a magic weapon or a pill refined with the blessing of merit, the effect of going against the heavens does not have any side effects at all, because Yang Chen has already paid the price of the merit.

The jade slip that Li Cheng gave Yang Chen at this time, which uses merit to refine alchemy and equipment, was simply a good thing tailored for Yang Chen. If Yang Chen is asked to describe his feelings in the simplest words, then only one word would be used, developing.

There are many people who care about Yang Chen, the palace master and the elders, Du Qian, Shangguan Feng, Wang Yuan, Hua Mengyou, She Kui, Xie Sha, Guishan friend Hou Yun, friends of the monster race, those brothers from the previous life, there are dozens of them in detail.

The cultivation aptitude of these people were not as good as Yang Chen's wives and concubines, who have full spiritual roots. Speaking of which, their cultivation aptitude was at best average. After knowing the ultimate usage method of merit, Yang Chen can completely refine a batch of fifth grade body refining pills, and then improve their cultivation qualifications. Although the effect may not be as strong as when they first cultivated, they are still in the mortal world after all, the years of cultivation are not long enough, and the improved acquired spiritual roots are enough for them to be among the ranks of Great Luo Golden Immortals in the future.

Of course, Yang Chen has to pay a lot of merit. This is to forcibly improve a person's spiritual root in the mortal world. To put it bluntly, it is to change one's fate against the heavens. For everyone, Yang Chen has to pay at least one billion merits. This is just the price of being promoted to an excellent spiritual root. If he want them to cultivate their spiritual roots to full value, he was afraid that he will have to pay as many merits as the sands of the Ganges River.

This is just a body refining pill to enhance the spiritual root. If Yang Chen added a large amount of merit to the fifth grade spirit mushroom jade dew pill, Mu Mingyuan's injury back then would not have any sequelae at all, and he could completely return to his original level. It could even bring Mu Mingyuan more benefits. It's a pity that he didn't know this method at that time.

As for the heaven seizing pills that Yang Chen became famous for, questioning inner heart pills, hundred years pills, Seven Emotions and Six Desires Pill, etc., not to mention the effect of improvement. To use a blunt word to describe it, any ordinary pill can become an Immortal pill as long as enough merit is added.

There is such a powerful effect in alchemy, and it is no exception in refining equipment. The principles are basically the same. If you want more heaven-defying effects, you need to pay as much merit.

Yang Chen's ninth water flying sword couldn't be refined by Yang Chen at this time because of the raw materials. However, if he used a lot of merit as the price, the black liquid secreted by those ultimate demonized demon vines was not impossible to tame.

The only thing that needs to be considered in the refining process of this ninth water flying sword is not to hurt Yang Chen, the master. As for how much it can hurt the enemy, the more powerful the better, who would worry that their weapon is too powerful?

The method of mobilizing merit is explained in detail in the jade slips. In fact, this part is the real essence. Yang Chen read it most carefully, almost digging out every single word. He didn't want to read it wrong at all, and he didn't want to miss the deviation at all.

Soon Yang Chen discovered that at his current cultivation base, it was not so easy to use merit. Although it is a merit earned by oneself, there are still limitations when using it. It's not about the quantity limit, but the speed of invoking the merit.

The higher the realm, the higher the efficiency of using merit, and so far, the largest merit that Yang Chen can use at one time is only in the unit of grams. Whether it's alchemy or weapon refining, the one-time use is at most one trillion.

Compared with Yang Chen's huge merits of using infinity as a unit of measurement, grams can be ignored. But it is not an easy task for any ordinary Immortal to accumulate so much merit in such a short period of time in the Heavenly court. Except for the group of people who can appear in the Firmament Treasure Palace every day, there are very few people who can exceed this number.

Naturally, the use of merit is limited, which brings about the limited refining effect of Yang Chen's ninth water flying sword. Fortunately, this number was enough for Yang Chen to successfully refine the ninth water flying sword. In the future, as long as it is maintained and tempered frequently, the level of the flying sword will be higher and higher.

As long as the ninth water flying sword can be successfully refined, Yang Chen's goal has been achieved. Li Cheng said that he found a solution was not exaggerating at all.

The only thing that needs to be considered is that if you want to skillfully use merit, at Yang Chen's current state, it will take at least a few decades to cultivate with the method recorded on the jade slip. After all, a person is still in the mortal world, just like a child learning to speak, even if he has a lot of wealth, he doesn't know how to use it.

Yang Chen started to cultivate using the method on the jade slip almost without thinking. This method was named by Li Cheng as the merit, and Yang Chen would consume a lot of merit for cultivating it at the moment, which was the price he had to pay. Fortunately, for Yang Chen, this point of merit is nothing but a waste of resources, it is just a waste of spiritual power in ordinary cultivation.

The meeting with Li Cheng this time was even more developed than those ordinary cultivators who discovered a secret plane. Calculating casually, let alone the on merit, it seems a bit shabby to describe it as priceless. Just giving Gao Yue the Demon Emperor's Qi, the Monster Emperor's Qi and the Immortal Emperor's Qi was enough to make the five major sects tempted. Not to mention the seven concubines, each of them got a peak Dacheng stage iron-winged flying eagle demon pet, and the improvement of mood brought about by Li Cheng's casual guidance was also counted.

It's just that Yang Chen doesn't quite understand why Li Cheng asked Yang Chen to come to this place for a meeting. Although Li Cheng's Iron Winged Flying Eagle was indeed not suitable to show off in the dao sect, he didn't need to show off at all, but the dao sect's territory was not something unacceptable, so he can't figure out why.

#### Chapter 658: Zhao Clan

Zhao Chengtian who spoke, Yang Chen and the girls all recognized him. When Yang Chen sold the cultivation secrets of a fifth-grade alchemist, two ancient big families participated and one of them was the Zhao family. Zhao Chengtian who was speaking at this moment was one of the three people who were present to listen to Yang Chen's experience.

Judging from experience, Zhao Chengtian already has a late Dacheng stage cultivation base, which is basically on par with Tao Junqi. But now Tao Junqi already has the Iron Wing Flying Eagle monster pet at the peak Dacheng stage, so her combat power may be slightly better.

To the surprise of the girls, among the dozen or so figures who showed up, none of them were below the Dacheng stage. Such a lineup, coming from an ancient big family, is something that people can't help but be afraid of.

The five major sects are on the territory of the dao sect, they are absolute leader-level sects. However, they do not have much control over the territories of these overseas rogue cultivators and further distant big families. Generally speaking, these ancient big families have their own inheritance, and they will not easily provoke a disturbance on the dao territory, so everyone was still at peace.

Although it is normal that all the masters of the Dacheng stage appeared this time, after all, seven monster pets at the peak Dacheng stage were born, if the masters below the Dacheng stage came here it was just to deliver food. But so many came out casually all at once, it let the girls see the terrifying background of the Zhao family.

“It’s easy to discuss, so it’s Senior Zhao!” Yang Chen also bowed his head and saluted. After returning the greeting, he asked curiously “I don’t know if Senior Zhao was passing by, or was it just a coincidence?”

While speaking, more than a dozen masters of the Zhao family had already arrived on the island, looking at the seven girls behind Yang Chen, no one made any unnecessary movements. They just stood on the opposite side in an orderly manner, vaguely forming a semicircular encirclement, enclosing Yang Chen and the seven girls in it.

“My home is nearby, and I suddenly found that the spiritual power here is disordered, so I came here to take a look.” Zhao Chengtian said without any concealment, his face was full of smiles, they didn’t know if it was because he was happy to see Grandmaster Yang Chen, or because of other reasons.

“We were going out for a trip, passing by here with my wives, I happened to think of a difficult problem in my formation, so I cultivated it here.” Yang Chen opened his mouth and explained to Zhao Chengtian with an apologetic face “Unexpectedly we disturbed Senior Zhao, forgive us!”

The Murong sisters’ reputation was well-known, and they all cultivated formations in the Dacheng stage. It was not something incomprehensible for people to cultivate a formation that causes chaos in the spiritual power of the world. The cultivation qualifications of the five women themselves are high, and it is not too much for the formation of the five people to have the aura of the peak Dacheng stage.

“Oh? Grandmaster Yang is married again?” After Zhao Chengtian heard this, he immediately changed the topic from the chaos of spiritual power to Yang Chen’s marriage “I didn’t know you were the wives of the Grandmaster, please forgive me for being rude!” He bowed his head to the seven girls again and again.

“Greetings fellow Daoist Zhao!” Since the other party asked, the seven girls also bowed their heads to Zhao Chengtian heroically in return. Although Yang Chen called Zhao Chengtian senior, they didn’t follow Yang Chen in addressing him like that, they just called each other fellow daoists. The disciples of the great sects have such confidence and pride.

Seeing the seven girls greeting him at the same time, Zhao Chengtian understood that even if he was stupid, these seven girls were all Yang Chen’s wives. While he couldn’t help but feel a burst of envy in his heart, there was a burst of warm congratulations in his mouth.

“It’s better to meet by chance than to invite each other. Since we met, it is destined.” After the congratulations, Zhao Chengtian warmly invited them “My humble house is nearby, please I would like to invite you to be our guests, the whole Zhao family would be honored!”

It is normal etiquette for people you know to invite each other to a nearby home when they meet. However, Yang Chen felt that Zhao Chengtian’s appearance was a bit strange. As far as the noise being loud, when Li Cheng came, the iron-winged flying eagle beast he was sitting on was even more noisy, why didn’t they come out. On the contrary, they will create some movement at the peak Dacheng stage. It is very strange that there are so many masters of the Dacheng stage here.

“If that’s the case, then we have to bother you!” Although his posture was a bit strange, Yang Chen was not a fearful person, especially with seven new concubines and seven peak Dacheng stage monster pets, where wouldn’t he be able to go? Immediately he agreed to the other party’s invitation, without delay.

Li Cheng asked Yang Chen to come to this island, there must be a purpose, maybe this is the Zhao family that Li Cheng wanted Yang Chen to know. With this premise, even if it is a dragon’s pool and a tiger’s den, Yang Chen will make a breakthrough. Besides, the seven girls were not coquettish and weak girls who can be bullied by others, they were Dacheng stage masters of the three major dao sects standing behind him.

At that moment, Yang Chen put away the Dragon Palace, followed Zhao Chengtian, and under the escort of a group of Zhao family experts, went straight to the family location that Zhao Chengtian said.

The Dragon Palace was just an image of a thatched hut on an island at the moment, it was inconspicuous and did not have the slightest overflow of spiritual power. Seeing Yang Chen even go for such a simple little hut, the experts of the Zhao family couldn’t help but look at him with contempt.

Seeing these contemptuous gazes in seven girl’s eyes, they suddenly had a secret urge to laugh. These ignorant guys, and how they imagined back then, thought that Yang Chen’s yard was just a few ordinary small rooms. They really don’t know how dumbfounded these guys would be if they knew the truth.

It was said to be an escort, but this time the masters of the Zhao family blatantly surrounded Yang Chen and the seven girls. Except that Yang Chen and the others were not shackled, everything else seemed to be the same as an escort.

Yang Chen didn't seem to have seen all of this, and the seven women were also pleasing to the eye, the women who followed Yang Chen, whatever Yang Chen was doing and what they were doing, they couldn't see the slightest anger.

"Senior Zhao, forgive me. When I came down, I didn't see any islands where people could live on for thousands of miles. I don't know where senior lives, where is it?" In a blink of an eye, everyone flew away. About a few hundred miles away, Yang Chen asked curiously while following Zhao Chengtian on the sea.

"Hahaha!" Zhao Chengtian didn't answer Yang Chen's question directly, but laughed wildly first, and then replied very proudly "Everyone who has been to my house is like this at the beginning, please don't worry, grandmaster, soon grandmaster will know where the Zhao family is located."

As if cooperating with Zhao Chengtian's words, the sea ahead suddenly began to boil. With the sound of rumbling water on the calm sea surface, a huge island suddenly emerged from under the sea surface. On the island, there was a semi-circular transparent shield that isolates all the sea water. Under the shield, there were exquisite pavilions, like an Immortal palace on earth.

This island had a radius of hundreds of miles, and it has been rising continuously. When they finally floated on the surface of the sea, in Zhao Chengtian's proud eyes, Yang Chen and the seven women couldn't help but let out a sound of surprise.

#### Chapter 659: Showing Courtesy

The island that Yang Chen and the girls saw was a huge black turtle, no matter what kind of island it was. The shell on the back of the black tortoise alone has a radius of thousands of miles, and the manor of hundreds of miles only occupies less than a quarter of the back area of the black tortoise.

The manor was all in the hemispherical shield, and there were no shields to cover other places, so they all look like a wet seabed, covered with various sea creatures. Often playing on the bottom of the sea, Yang Chen was very clear about the situation on the bottom of the sea. Looking at it like this, it seems that the black turtle has lived on the bottom of the sea for a long time.

The huge black tortoise opened its teeth and claws, as if it wanted to break free from some restraint, but it was always bound by some unknown force and could not escape. Looking at the situation, how could Yang Chen and the girls not understand that this mysterious turtle must be controlled by the masters of the Zhao family.

Even if you often see some large monsters, even She Kui Xiesha, a wild monster who cultivated naturally, was only a few thousand feet in size.

Sure enough, it is because of the creatures in the sea. Because of the buoyancy of sea water, it does not need to bear its huge weight, so its size can grow to a jaw-dropping level.

It seems that the black tortoise cultivation base was not low, but it was restricted within a certain realm and cannot be freed. Yang Chen only took a few glances to understand that the cultivation base of the mysterious tortoise was converted into a spiritual vein by a huge formation engraved on the back of the turtle, and then used for the cultivation of the whole manor.

This kind of act of forcibly snatching the cultivation base of other monster clans, if the masters of the monster clan saw it, it will be outrageous. However, Yang Chen didn't have a sense of justice to the point where he wanted to seek justice for a black turtle, so he just turned a blind eye to it.

The huge hemispherical shield with a radius of hundreds of miles, in addition to protecting the manor from the intrusion of sea water, seems to have the function of isolating the spiritual awareness. In this way, many things can be explained.

No wonder Yang Chen didn't find any habitable islands thousands of miles away. It turns out that the Zhao family has been hiding in the seabed. No matter how vigilant Yang Chen is, he will not always explore every inch of the seabed. The other party used formations to isolate the spiritual awareness, and Yang Chen's spiritual awareness explored, but it was only a seabed, how could he find any abnormalities?

This also explains why the Zhao family is so generous, but none of the idle cultivators know where the Zhao family is. As long as the tortoise is still alive, they can change places all the time, and it's normal if they can't find it.

"The Zhao family lives on the back of this black tortoise, we have been cruising on the bottom of the sea all day." Zhao Chengtian's words reached the ears of Yang Chen and the girls from the side, with indescribable satisfaction in his tone "Today, the patriarch specially asked the mysterious turtle to float to the surface of the sea to welcome you, this is the first time in thousands of years this has happened."

Anyway, what Zhao Chengtian said really made Yang Chen look good. Since the other party gave face, Yang Chen didn't take it too seriously, and followed Zhao Chengtian outside the gate of the manor as if flattered.

The protective shield seems to only have the function of isolating the sea water. When Yang Chen and others landed and passed through, there was no obstacle at all. Of course, neither Yang Chen nor the girls were rookies who had never seen the world, so they wouldn't be so naive as to really believe that this shield would have no protective ability.

The Zhao family really put on a big scene this time, the middle door was wide open, and thousands of Zhao family's members lined up to greet them from the gate, and the team lined up all the way to the reception hall of the Zhao family. The Patriarch of the Zhao family and another alchemy master who had been in the Pure Yang Palace last time stood at the gate to welcome them, giving them enough face.

Yang Chen was polite all the way. Under the leadership of the Patriarch of the Zhao family, he followed the welcoming team lined up by the Zhao family and arrived at the huge reception hall, leaving only a few Dacheng stage elders to accompany him. The welcoming team dispersed.

Along the way, Yang Chen saw thousands of Jiedan stage cultivators, thousands of Yuanying stage masters, and nearly a hundred Dacheng stage masters. The closer to the hall, the higher the cultivation base of the people lining up.

Just the number of these cultivators were enough to make the seven girls behind Yang Chen afraid. Even if it was their respective sects, the Dacheng stage masters outside will not be half of this number. Most of the masters are in a state of seclusion and retreat, and they will not easily let outsiders know.

Those who dare to show up have such strength, and one can imagine how many are hidden. Masters like the supreme elders are not limited to the five major sects. Among these families that can last for hundreds of thousands of years or even longer, which one does not have a few backers?

The Zhao family showed such a sight when Yang Chen and the girls visited for the first time, and they were not afraid that the seven girls from the three major sects would know that if there was nothing wrong with it, then they really had seen a ghost up. The performance seemed to give Yang Chen enough face, but in fact there was a sense of threat. Even if Yang Chen wanted to have other thoughts, he had to make a new plan at this moment.

Originally, the posture at the beginning made seven girls secretly careful, but now she dare not be careless. Before the other party revealed their final purpose, the seven girls put on a posture of marrying a chicken and following the chicken, marrying a dog and following the dog, and followed Yang Chen, extremely obedient, and didn't even make a sound when Yang Chen was talking to the Patriarch of the Zhao family.

What Yang Chen saw was more than the seven girls. Among the masters lined up to welcome them, many of them were haunted by demonic qi, obviously they had experienced training in the Demon Continent. If Yang Chen's predictions were correct, the Zhao family obviously wanted to know how Yang Chen dealt with the demonic qi.

"Grandmaster Yang, you have also cultivated in the Demon Continent. There are some things I would like to ask for advice with." After the Patriarch of the Zhao family was polite with Yang Chen, an elder who had just been introduced immediately asked Yang Chen straight to the point.

"Wait!" Yang Chen didn't wait for the other party to say the follow-up words, and directly reached out to stop the other party.

Yang Chen's actions baffled several members of the Zhao family, and two impatient elders even showed a little angry expression.

"I've been on the road for the past few days. My wives have cultivated the formation for many days, and they are a little tired. Seniors, can I arrange for them to take a break first?" Yang Chen said politely, and then added "My wives and the others have never been to the Demon Continent for training, so they probably won't be interested in what we have to say."

The remaining elders all have a little bit of demonic qi, and they must have been to the Demon Continent to cultivate. Hearing Yang Chen say this, he immediately understood that when they left the Demon Continent, they must have sworn a heart demon vow. If it was revealed to outsiders, it would be a big problem.

Chapter 660: What Do You Want

"I was rude!" The head of the Zhao family immediately apologized, and then ordered an elder to arrange for Yang Chen's family to rest in the guest room.

The seven girls were inexplicable, what meant that they were not interested, on the contrary, they were very interested. It's just that Yang Chen said these words, they couldn't possibly have any objections, so they obediently followed Yang Chen to the guest room.

The elder who brought them here was very polite and enthusiastic, and even showed a little gratitude, which puzzled the seven girls. After leaving a lot of food and drink and several people serving, the elder left.

After the elder left, without saying a word, the seven women drove the servants out of the guest room, and started to talk together. Everyone threw down a few restrictions, making sure that no one outside could hear them, and then they all looked at Yang Chen.

"It's nothing more than being courteous for nothing, it's not deceitful or a robbery!" Of course Yang Chen knew what they were going to ask, so he directly said this sentence with a smile, which was regarded as an answer.

"Husband is saying that we have no shame in pestering you?" Everyone understood that Yang Chen was talking about the Zhao family, but Shi Wushuang didn't directly ask about the Zhao family and the meaning of Yang Chen's words just now, but rather resentful looking at Yang Chen, she asked aggrievedly.

The girls immediately realized that it wasn't just the Zhao family who were courting for nothing. When they approached Yang Chen before, didn't they just show courteousness for nothing? It would not be a good thing for Yang Chen to have this kind of connection in his heart. The current seven girls absolutely do not want Yang Chen to have such a view of them in his heart.

"Aren't we just hooking up to commit adultery?" Yang Chen was taken aback, then smiled, and explained in a down-to-earth manner "Now you are all my concubines, and you are all my women, what is adultery or robbery?" After speaking, he burst out laughing.

The girls didn't agree for a while, although Yang Chen's words were a bit unpleasant, but it was true. Strictly speaking, aren't they just what Yang Chen said about colluding with each other? The words are rough and the rationale was not rough.

The key is that the girls are afraid that Yang Chen will have a bad opinion of them, since Yang Chen thinks so. And if he also described himself as the other half who hooked up with him, it would naturally be a boudoir love story, not a heart-to-heart. Speaking of which, in the future this will also be a kind of happiness for husband and wife.

Since the girls and Yang Chen hooked up to commit adultery, it is obvious that the Zhao family must belong to the bandits. They didn't seem to intend to seduce Yang Chen with a stunning beauty, even if they did, the seven women will also try their best to stir up things. Next to the couch of them and their husband, how can they allow others to snore.

After such a short period of effort, everyone could already clearly feel that the black turtle had sunk into the bottom of the sea again. If the Zhao family had any intentions, as long as the shields for entering and exiting were sealed, the Yang Chen family would only be caught in a urn.

Before the other party revealed their purpose, Yang Chen guessed that they must have something to ask for, so Yang Chen was very relieved until he had no plans to meet. The seven women were cautious, they were vigilant at all times, always ready to fight to the death.

"There is no need to be nervous." Yang Chen simply ordered "Tomorrow, your husband will talk to them and see what they want." After speaking, he explained "Some of the things we said are not suitable for being heard by people who have never been to the Demon Continent. This is the rule inside, so don't look into it."

All major sects have disciples who have been to the Demon Continent, and when they all talk about the Demon Continent, they either talk in the same way, or keep secrets, and the seven girls have seen it. Since Yang Chen said that this was the rule of the Demon Continent, they naturally wouldn't ask any further.

There was no sun or moon on the bottom of the sea, but on the Zhao family's shield, the sun, moon and stars are mapped out, which are exactly the same as the outside world. Day and night are distinct, and living under the sea does not feel any different from living on the sea surface.

Yang Chen's family rested overnight. Then he was invited to the hall alone, the seven women naturally stayed in the guest room to rest.

“Thank you, grandmaster, for reminding me that I almost broke the precept yesterday.” Seeing Yang Chen, the fast-talking elder came up just to thank him, with full courtesy. The two elders who were angry at that time also had a pleasant expression.

Naturally, the two sides were polite again, and then they turned to the topic. There are no people here who have never been to the Demon Continent to cultivate, and naturally there are no taboos in their words.

“Grandmaster, I would like to take the liberty to ask you, grandmaster, can you teach my Zhao family the method of purifying demonic qi?” One of the Zhao family elders asked straight to the point “What kind of price does the grandmaster want, as long as my Zhao family can get it, we will pay.”

“The way to purify the demonic qi...” Yang Chen’s tone dragged on for a while, and several members of the Zhao family looked at Yang Chen nervously, before Yang Chen continued “It’s not that it can’t be sold, but, I can’t guarantee that you can learn it.”

It was the same argument as when he sold the secrets of the fifth-grade alchemist. This was not the first time the Zhao family had heard it. I can teach you the method, but whether you can do it is another matter. The ugly words are in the head, if it doesn’t work in the future, you can’t blame Yang Chen.

“Grandmaster, as long as you try your best to teach, there’s no reason why you won’t succeed!” An elder next to him immediately took up the conversation, and said with a smirk “I’m afraid the grandmaster intends to keep his hand, so naturally we will not be able to learn it.”

These words were not so nice, Yang Chen’s expression immediately turned down. The strange thing is that the Patriarch of the Zhao family and several other elders next to him didn’t seem to hear it, and they didn’t seem to jump out to reprimand the elder.

“Hehe!” Yang Chen’s expression softened immediately, he laughed, and then replied “A village woman in the mortal world can have a few children, but even if your excellency has cultivated to the Great Luo Golden Immortal realm, I’m afraid she won’t be able to give birth to them. There are some things that can’t be learned just by teaching them hard.”

“Limited aptitude, it’s normal.” Before the elder turned his face, the Patriarch of the Zhao family finally spoke and asked slowly “Grandmaster Yang, what do you think of the strength of my Zhao family?”

“Very strong!” Yang Chen nodded without hesitation, and replied directly “It’s no worse than the five major sects of the dao domain. If the Zhao family’s children all go to the Demon Continent to cultivate, I’m afraid when they really fight, maybe you will even occupy upwind.”

“That being the case, grandmaster Yang, are you interested in joining my Zhao family’s outer branch?” The head of the Zhao family stared at Yang Chen intently, and asked very formally “What the Pure Yang Palace can give you, my Zhao family can double it. What the five major sects can give, my Zhao family will also double it to you, I wonder what grandmaster Yang wants?”

As soon as the Patriarch said these words, the other elders stared at Yang Chen’s face for a moment, waiting for Yang Chen’s answer.
