

## Zhanxian 701

### Chapter 701: : Preparations

In this life, because Yang Chen had memories from his previous life, many things were planned in an orderly manner. Apart from the Demon Continent and the Zhao family, there was basically nothing that Yang Chen could not control. Even in the Demon Continent, it was planned early in the beginning to go to cultivate there.

Yang Chen can't see the kind of people whose cultivation depends on everything according to fate, and it is even more inexplicable to rely entirely on the uncertain adventures in life. Cultivation is self-cultivation, not relying on heaven to cultivate. It is the most stupid to expect everything to depend on the unpredictable future. The truth is just like the life of ordinary people, a life with a plan and a life without direction are completely different.

It is still the same until now, since it was decided to go to Langya Well to collect the pure yin true fire, there are still decades before the opening of Langya Well, but Yang Chen has already started to make timely plans, some things need to be arranged as soon as possible.

Once the Langya Well was entered, it would be impossible to leave for decades or hundreds of years, and everyone knew this. Those who have entered Langya Well before and survived, all mysteriously appeared around thousands of miles around Langya Well decades or even hundreds of years after entering the Langya Well, without exception. Although Yang Chen thought he was powerful in combat, he didn't think he could break the rules. Although Yang Chen has broken many common sense rules, wasn't everything prepared for?

Before leaving, many things have to be arranged, especially the sect's affairs. The old tree demon cultivated a clone secret art, which is a unique skill of the monster clan to which plants belong. It just so happens that Mu Bai has also reached the Yuanying stage, and he can already cultivate this art, which is also a qualitative improvement for his strength.

Like the wood cypress, the Penglai devine woods belong to the same plant and have entered the Yuanying stage, there are those Penglai devine woods in Yang Chen's medicine garden. They have also been taught the clone secret art, and the transformation secret art, basically no matter whether it is a wood cypress or a Penglai devine wood, they will be at least five points more confident when it comes to the raging wind tribulation.

Mu Bai and these Penglai divine woods are of the first wood so Yang Chen passed on all of them the first wood true secret art and the first wood true essence. The most original cultivation method is passed down, and so their cultivation in the future depends on them.

Hua Mengyou has been under the power of the fifth grade merit body refining pill for these years, and her spiritual root has risen rapidly. Although she has not reached the full value of her wood spiritual root, it is not very far from it. Compared with her innate spiritual roots in the seventies at that time, it was heaven and earth. Although she didn't dare to compare with her several teacher wives and fellow apprentices, she also stepped into the ranks of geniuses.

For the cultivation of Hua Mengyou, Yang Chen didn't give many pointers. Hua Mengyou's natural ability to communicate with plants allows her to get twice the result with half the effort when cultivating wood attribute cultivation methods. Moreover, the jaw-dropping ability shown when cultivating various rare plants and medicinal materials does not require Yang Chen to give too much advice. In fact, Yang Chen can't give too much advice, both first wood true secret art and second wood true secret art were ready-made, first wood true essence and second wood true essence were completely prepared just waiting for her to reach the Yuanying stage before cultivating.

Ye Yu is relatively more complicated, in his previous life, Ye Yu was a cultivation genius of the Demon Sect. In this life, Yang Chen only took Ye Yu under his sect and laid the foundation with the most orthodox dao sect's cultivation methods. However, the direction of Ye Yu's future cultivation is with the direction of the demon sect. With Yang Chen's unsparing cultivation and foundation laying of all kinds of natural materials and earth treasures, he believes there will be surprising performances in the future cultivation of the Demon Sect.

The three apprentices all have their own characteristics, but none of them has inherited Yang Chen's alchemy. But Yang Chen was already prepared, his next apprentice will appear in just a few years. In the future, he will also be a genius in alchemy, Mo Chunmei, a master alchemist in his previous life, Yang Chen have already made an arrangement. He was just waiting to appear in front of him when the time came.

The disciples have made almost the same arrangements, and the next thing is the matter of the sect. The current development of the Pure Yang Palace can only be described as thriving. The size of the sect has expanded dozens of times compared to when it was at its strongest back then, and the influence of the sect has been able to stand out among the six major sects because of Yang Chen's appearance.

Because it was the first to establish the eccentric hall, and it has a complete inheritance of the monster clan's cultivation in the Banyan Tree Immortal Cave, the Pure Yang Palace eccentric hall is now the first

choice for the monster clan to apprenticeship. The income from the hundred thousand great mountains and the cave-level magic weapon of the Qingqiong Mountain Cave Mansion make the cultivation conditions of the disciples of the Pure Yang Palace comparable to those of those super sects. In addition, the disciples recruited in the past few hundred years are all candidates with excellent qualifications actively discovered among the people, and one by one is outstanding, so that the Pure Yang Palace does not have to worry about having no successors at all.

With the help of Yang Chen, the original elders of the Pure Yang Palace, except for a few newly promoted Yuanying stage masters, have all entered the Dacheng stage without exception, the more developed the better.

Questioning inner heart pill, inner sensing pills, Hundred Years Pill, Seven Emotions and Six Desires Pill, and even a few extremely precious merit and virtue pills have become the secret treasures of the Pure Yang Palace. As long as the disciples of the Pure Yang Palace do their best for the sect and make great contributions, they will always have the opportunity to obtain one or more of them, which also enhances the centripetal force of the sect's disciples. The Pure Yang Palace is no longer the loose-minded sect it used to be.

What Yang Chen has to do is to ensure that the sect has a healthy development direction. In this regard, Yang Chen has far-sightedness than anyone else. He only needs to propose his suggestion to the master of the palace and several elders, Yang Chen doesn't need to worry about everything else, as someone will take care of it properly.

Relatively speaking, Yang Chen's wives and concubines don't need much attention from Yang Chen. Yang Chen has already planned to bring them with him when he enters Langya Well. Since they are all together, he can take care of them all the time, and there is no need to say anything at this time.

Zhao Family Manor, Yang Chen has already planned to hand it over to Tao Junqi. Among all the wives and concubines, Tao Junqi is the one with the highest cultivation and will be the first to ascend. And before Yang Chen ascended, more than half of the girls would ascend before Yang Chen. The Zhao Family Manor is the home of the family after everyone ascends in the future.

Naturally, the things in the Zhao Family Manor were taken by his wives and concubines casually, and he was not stingy. On this point, all the girls are very clear, home is home, sect is sect, things at home will not be given to their respective sects casually.

After everyone else settled down, the rest was Yang Chen's own business. The most important thing is two aspects. One is to get together the Great Yin Yang Five Elements Flying Sword. This Yang Chen has already made arrangements, and he is searching for top-level eight metal materials wantonly. He will start refining it when the materials are complete.

Another aspect is about fire seeds.

Chapter 702: : Eight Metal Materials

Yang Chen's purpose of entering Langya Well was the pure yin true fire. However, the pure yin true fire is a seventh-grade fire seed, and Yang Chen did not dare to conclude that the Pure Yin True Fire in Langya Well has already been harvested and can be taken away by hand, so there must be no less preparations.

What is most needed is the ability to collect seventh-grade fire seeds. In terms of cultivation, with Yang Chen's middle Yuanying stage cultivation base, it's a bit self-defeating to collect the Pure Yin True Fire. But with the profound spirit furnace and Yin Yang heaven burning fire, this is no longer a luxury, but something that can be achieved as long as it can be improved a little.

The Yin Yang heaven burning fire has only absorbed the fifth-grade fire seeds now. In Yang Chen's view, it has not yet reached the time when it can withstand the seventh-grade fire seeds, but the sixth-grade fire seed is no problem at all. The fifth-grade fire seeds in his hand has almost been absorbed, and it is time to absorb the sixth-grade fire seeds.

As long as it absorbs a few more sixth-grade fire seeds, the power of the Yin Yang heaven burning fire will be greatly improved, and it will also be able to withstand the next seventh-grade fire seeds. And at this point, he can consider combining the Yin-Yang heaven burning fire and his own flying sword into one.

The southern bright trigram fire armor worn by Scar back then is actually an example of the fusion of fire seeds and magic weapon. When the magic weapon is fused with fire seeds, not only will there be a qualitative leap in grade, but also a substantial increase in power. The ultimate goal of condensing the fire is for the last step. It's just that there is a choice between the alchemist and the warrior, whether to integrate the alchemy furnace or the life source flying sword.

For most alchemists, this choice is meaningless, because the life source magic weapon of most alchemists is their own alchemy furnace. The same is true for Yang Chen, this choice is also meaningless,

because Yang Chen's profound spirit furnace itself has the characteristic of merging fire seeds to upgrade itself.

As for the flying sword that needs to fuse with the Yin-Yang heaven burning fire, Yang Chen didn't have to think about anything else. The bright ray sword must be one of them, the fourth fire flying sword has already been prepared. The grade of these two flying swords was not high back then, but the grade of the magic weapon can be greatly improved through this method.

The Pill of Seven Emotions and Six Desires passed lives from the masters of several major sects, the head master of the Pure Yang Palace, and several elders directly became the sacred object of the Yuanying and Dacheng stage masters who were on the verge of breaking through. It is not a problem to exchange the high-quality eight metal materials for more advanced things, especially the five major sects. After tasting the sweetness, they directly used the treasures of the sect to exchange some Seven Emotions and Six Desire Pills with Yang Chen.

The five major sects of the dao sects are like this, and the Demon Sect and the rogue cultivation alliance are no exception. They all took out the secret treasures of their own sects and came one after another. After the matter of the demon sealing formation last time, the Greatest Heaven Sect surprisingly didn't say much about this exchange in the Pure Yang Palace this time. As long as this exchange does not happen under their noses, they will turn a blind eye.

Less than two years after Yang Chen released the exchange news, Yang Chen had a lot of top-notch eight metal materials in front of him. Every material here is a coveted precious material outside, and you can refine a high-quality eight metal flying sword casually with it. But in Yang Chen's eyes, this level of material is not enough.

Yang Chen, on the other hand, gave a generous filial piety to the palace master. The master of the palace already has a life source flying sword, but his dual cultivator, Wan Qian, has not yet had a particularly suitable high-quality life source flying sword. These materials are enough for Wan Qian to refine one.

For Yang Chen's filial piety, the palace master accepted it with peace of mind, he also knew Yang Chen's plan. Just to let Yang Chen rest assured about the sect's affairs. He can still worry about it for hundreds of years without Yang Chen being distracted at all. The master of the palace is extremely satisfied with Yang Chen. Not only did he give him a beautiful companion, but he is also the kind who is obedient. If he was not satisfied, then there is no reason.

The eight metal is also called soft metal, so this eight metal flying sword is destined to be a soft sword. Yang Chen didn't directly refine the flying sword, instead, he mixed dozens of selected materials according to the secret recipe in his memory, and then melted them together with Yin fire, and then put them into the sea of ??consciousness. From the beginning, he can refine his life source magic weapon.

Not only that, the Yin fire dragon in the sea of ??consciousness was directly coiled on this huge piece of eight metal material, and use its own flame to smelt it all the time. Under this situation, every trace of impurities in the fused material is removed bit by bit.

This process will take at least several decades, and Yang Chen is not in a hurry. Anyway, there are still about 80 years before the opening of Langya Well, which is enough for the eight metal flying sword to be refined.

Yang Chen's energy at this moment is all focused on absorbing and fusing the sixth-grade fire seed. After processing the eight metal materials, Yang Chen retreated with his wives and concubines again.

In fact, Gao Yue and Gongsun Ling have never left seclusion, only Yang Chen's seven concubines have left the seclusion. During this retreat, Yang Chen summoned the seven girls to his side, and after explaining some precautions to them, he released the nine nether flying sword, and slowly released the demonic qi from light to thick, wrapping the seven girls in it.

As early as a long time ago, Yang Chen told women that the Seven Emotions and Six Desires Pill is a deceit, and women still didn't believe it. After seeing the demonic qi at this moment, they realized how powerful the demonic qi is. The seven women who have experienced the taste of the Seven Emotions and Six Desires pills immediately understood that the Seven Emotions and Six Desires Pills are just a weakened version of the demonic qi with a little bit of aura of the tribulation. Compared with the pure demonic qi, it can really be called rubbish.

They are all masters in the Dacheng stage, and everyone understands the benefits of tempering this kind of demonic qi. The seven girls immediately devoted themselves to the confrontation with the demonic qi. However, compared with Yang Chen's four wives, although they are all at the Dacheng stage, their spiritual awareness is not as good as the other women, and they have not experienced the Demon Continent, so the demonic qi they bear is much weaker, almost not even half of the four girls.

Even so, the seven girls has already felt a lot of hardship, but also benefited a lot. This kind of demonic qi that directly awakens all kinds of emotions in the bottom of their hearts is simply a training ground for demons, letting them be in the outbreak of demons anytime, anywhere. The seven women couldn't care

about anything else at all, they could only concentrate on the confrontation, forgetting everything around them.

After seeing the seven women enter this state, Yang Chen himself took out the sixth-grade fire seeds, and started his usual process of absorption and fusion. First use the profound spirit furnace to absorb the fire seed, and then through the profound spirit furnace, absorb it into his own body. Of course, it is indispensable to add merit in the process.

Chapter 703: : Sixth Grade Fire Seeds

With Yang Chen's current cultivation base, it was actually not suitable to touch the sixth-grade fire seeds. In his previous life, Yang Chen absorbed the true Yang fire and was also in the Yuanqing stage, but even so, he had a narrow escape from death, almost extinguishing both body and spirit.

Yang Chen's master, Gao Yue, now has the sixth-grade Purple Heart Profound Fire, and it's an upgraded version of her life source fire, the Purple Heart Fire, but she hasn't started refining and absorbing it, because she is afraid of danger due to insufficient cultivation base. This life is different from previous lives, so there is absolutely no need for his master to take such a risk.

But Yang Chen himself is a real freak, and he can't use common sense at all. Yang Chen has already absorbed and fused dozens of fifth-grade fire seeds of the level of the true Yang fire in his previous life, and even absorbed the red lotus fire and the peach blossom fire, which everyone has heard of and was no longer within this limit.

In order to balance, Yang Chen still planned to absorb one kind of third fire and fourth fire respectively. For this reason, he prepared two kinds of sixth-grade fire seeds. One is the upgraded version of the Gold Forging Profound Fire, and the other is the upgraded version of the Earth Core Fire. Gold Forging Profound fire is the most suitable fire for smelting metals in the mortal world, while the earth core fire is the most suitable fire for smelting medicinal materials in the mortal world.

It is said to be an upgraded version, but in fact this kind of upgrade cannot be easily controlled by humans. Strictly speaking, it is just a natural mutation of fire seed. The advantage of fusing this kind of upgraded fire seed is that it will not affect the mutation of one's own fire seed, so this so-called upgraded fire seed is the favorite of fire attribute cultivators.

Yang Chen is rich and powerful now, especially in terms of fire seed collection. He has not stopped since he sold the pill recipes, and he already has a lot of sixth-grade fire seeds in his hands, so there is no shortage of such kindred fire seeds.

The reason for choosing these two sixth-grade fire seeds is precisely because of their characteristics, and he can learn from experience in their control, which is relatively easy. But no matter what, they are all sixth-grade fire seeds, at least fire seeds that can only be considered in the Dacheng stage. Although there is no danger to Yang Chen, the difficulty is unmatched by all the previous fire seeds combined.

His master ancestor Wang Yong had strong confidence when he passed the Yin fire tribulation, and tempered his own fire with the power of the Yin fire tribulation. Thus successfully upgrading the Qilin fire to the Qilin heavenly fire, but even then, it's just a trace of fire seed that has mutated, and it will take years and months of hard work to completely change it. He believes that it will be completely completed with the help of the power of heavenly tribulation at the time of the wind tribulation.

What Yang Chen wanted was to proceed step by step, not this kind of sudden promotion, so the difficulty is much higher. Fortunately, the fire seed is ready-made, all he has to do is to fuse and absorb it, and the risk is much lower.

With the experience of controlling fire in the previous life, plus the experience of absorbing thousands of fire seeds of various levels in this life, Yang Chen controlled the profound spirit furnace to absorb these two kinds of six-grade fire seeds without much twists and turns, it just took a long time.

It took Yang Chen more than four years to absorb the Gold Forging Profound Fire seed into the profound spirit furnace, which was an unprecedentedly long time before absorbing other types of fire seeds. The next step is the absorption of the Earth Core Profound Fire, which is still about the same time. However, with the experience of the Gold Forging Profound Fire, Yang Chen can already do other things in the process of absorbing the Earth Core Profound Fire.

The main thing is to smelt the remaining cyan crystal gold, all of which are fused into the profound spirit furnace. While improving the quality of the profound spirit furnace. It also added the refining method of the merit, directly integrating a large amount of merit into the profound spirit furnace.

As soon as the two kinds of sixth-grade fire seeds were absorbed, the profound spirit furnace changed again. This time, from the original simplicity and restraint, it suddenly became that kind of dazzling splendor. Yang Chen understands that a good magic weapon has to go through several cycles of reciprocating from brilliant to ordinary and then brilliant again, before it can truly be completely reborn.

The same is true for the profound spirit furnace, which can become something comparable to the Grand Supreme Elderly Lord Universe Eight Trigrams Furnace, such a process is absolutely inevitable.

A large amount of merit was added in the refining process, which gave Yang Chen a vague feeling that sooner or later, this profound spirit furnace would produce some pills with heaven-defying effects. Although he may not be able to see it now, it is only because the merits have not been added during this period of time. When Yang Chen continues to bless the merits and virtues in the universe treasure raising secret art to warm and nourish the furnace, one day he will see this effect.

Even now, Yang Chen can vaguely notice that as long as he can break through the Dacheng stage, then relying on the profound spirit furnace, there is no need to think about high-level questioning inner heart pill, he can also refine the simplest sixth grade pill. This has almost reached the level of Yang Chen Great Lou Golden Immortal in the previous life. Although it relies on a foreign object such as the profound spirit furnace, once it is taken out, it will definitely be shocking.

This kind of thing should be done as little as possible, Yang Chen's current limelight is already enough, there is no need to add such a title of sixth-grade alchemist to himself, he will really be the target of public criticism by then.

Next is the process of merging fire seeds, which will be a longer process. Yang Chen was mentally prepared, and at the same time, he was also prepared to endure the burning of the sixth-grade fire seeds. He separated a trace of the gold profound fire from the profound spirit furnace, and began to slowly integrate it into his own Yin Yang heaven burning fire.

Every time the Yin-Yang heaven burning fire absorbs a high-level fire seed, there will be an essential change, especially when absorbing a higher-level fire seed for the first time, this change will become more obvious.

The moment the Yang fire dragon fused with the gold-forging profound fire seed, it suddenly turned into a complete fire dragon with a purple color close to black. The scales on its body and the horns on its head were extremely clear and lifelike. Flying up and down around Yang Chen, the movements were indescribably flexible and vivid. There was also a slight aura that makes people feel a sense of fear at a glance.

This is just the change of the Yang fire dragon. Next, Yang Chen continued to absorb and fuse the earth core profound fire seed. This time it was a complete change of the Yin fire dragon. After the completion, the Yin fire dragon was exactly the same except for the color and the Yang Fire Dragon.

Any metal in Yang Chen's storage bag, as long as it slightly touches the two fire dragons, it will instantly turn red. If you touch it for more than a breath, you don't even need to think about it, it will directly become a molten body, without exception. He was afraid that only some materials that have been refined by cultivators can barely withstand the burning of the Yin-Yang heaven burning fire, but he believes it will not last long.

It took Yang Chen 30 years to completely absorb the two types of fire seeds and the Yin Yang heaven burning fire finally achieved a small success. Next, it will be relatively easier to integrate other sixth-grade fire seeds. After all, Yang Chen's cultivation is still too low, as Yang Chen's cultivation improves, the process will become shorter and shorter in the future.

Chapter 704: : Great Yin Yang Five Elements Flying Sword Completion

The change in the sea of ??consciousness was the most obvious. First of all, the two fire dragons are just like the Yin-Yang heaven burning fire outside. They have become two lifelike fire dragons, one purple and one green, complementing each other. The area of ??the sea of ??consciousness has expanded again. The only regret is that although the cultivation of the spiritual awareness has improved, he has not reached the point of breaking through the ninth grade Human Immortal realm.

On the contrary, it was the spiritual power of the five elements that had always been balanced. Because of the sudden strengthening of the Yin-Yang heaven burning fire, the third fire true essence and fourth fire true essence were raised by a level out of thin air, rushing to the realm of the late Yuanying stage. This was Yang Chen's first imbalance of spiritual power after balancing his spiritual power, it would take at least decades to change this situation.

But in this way, Yang Chen's fire attribute spiritual power was highlighted, making Yang Chen look more like a pure fire cultivator. In fact, until now, those masters from various sects who have met Yang Chen have some doubts in their hearts. Yang Chen, a cultivator with a fire attribute spiritual root, does not behave so much like a fire cultivator. He believes that when they see Yang Chen again, they will definitely not have such doubts again.

After completing the absorption and fusion of the two sixth-grade fire seeds, Yang Chen finally reached a spiritual connection with Li Liheng again. This is the first time Yang Chen has connected with Li Liheng in hundreds of years.

Li Liheng, who had known for a long time that Senior Liu Fengzi was retreating, cultivated the spatial spiritual awareness cultivation method almost every day. He knew where his status and glory came

from, so he never dared to stop. Li Liheng was overjoyed when he contacted Senior Liu Fengzi suddenly, almost Li Liheng would answer whatever Senior Liu Fengzi asked, he was very specific.

Yang Chen was also very skillful, he didn't ask in detail, but just asked about the current situation of the Greatest Heaven Sect. Li Liheng immediately began to introduce the current situation of the Greatest Heaven Sect, without any concealment.

With the help of Yang Chen's seven emotions pills, the head of the Greatest Heaven Sect and several core elders have entered the realm of the Dacheng stage, and they are more effective in controlling the sect. What's more important is that the Everlasting Universe Origin Suppression Great Formation has been set up for hundreds of years, and it is continuously extracting those idle spiritual powers in the mortal world. After a while, the formation will be activated to truly benefit the disciples of the Greatest Heaven Sect.

In addition, Yang Chen clearly felt the improvement of Li Liheng's spiritual awareness cultivation base. For this, Yang Chen did not hesitate to praise him. Of course, he only praised Li Liheng for his hard work, not the method he used.

Li Liheng was naturally happy in his heart, the free demon heart sutra was indeed a good thing, his spiritual awareness cultivation base increased several times faster than before. However, from the early Yuanying stage, his cultivation of spiritual awareness has directly caught up with the peak Yuanying stage in the late Yuanying stage, so he can't help but feel complacent. It seems that in the future, he need to find a few more female cultivators to make cauldrons, so that this kind of cultivation will have a progress.

In Li Liheng's mind, Yang Chen's seven concubines are the most suitable cauldrons, but it's a pity that Yang Chen doesn't go out of the sect now, even if he wants to make up his mind, he can't attack Yang Chen. It is impossible for the Greatest Heaven Sect to declare war on the Pure Yang Palace for no reason, so Li Liheng can only think about it. On the contrary, Yang Xi is very capable, and can always find enough female cultivators for him to act as cauldrons.

In Li Liheng's answer, of course, the appearance of the Demon Sealing Formation was mentioned. Senior Liu Fengzi only expressed his knowledge of this, but he didn't pay much attention to it. After all, it's just a formation in the mortal world, and it doesn't help much in the spirit world.

After answering some cultivation questions that the Greatest Heaven Sect had accumulated long ago, Yang Chen told Li Liheng to cultivate more diligently. He stated that he would retreat for another two hundred years, and then disconnected again.

The Greatest Heaven Sect has already fallen deeper and deeper into the big pit dug by Yang Chen, and it will be time to completely enter the bottom of the pit after the Everlasting Universe Origin Suppression Great Formation is launched. Yang Chen was not in a hurry, slowly watching the Greatest Heaven Sect fall into hell without any consciousness, it was also a kind of enjoyment for Yang Chen who had accumulated thousands of years of grievances in his previous life.

After finishing all this work, basically the eight metal materials that Yang Chen refined in the sea of consciousness have been purified to the limit, and all impurities have been discharged, it was time to forge the eight metal flying sword.

For Yang Chen, who has already achieved a small amount of yin and yang, the building process is not too complicated, the only thing he has to pay is time. The material fused with the formula of the spirit world has hundreds of times higher performance than a single material, and the flying sword created was naturally a top magic weapon with super powerful attributes.

The eight metal flying sword was forged directly from the beginning, instead of creating a sword embryo first like other flying swords, and then slowly refining and supplementing it to finally become a flying sword. However, this does not mean that the eight metal flying sword has no room for improvement. Now it is only using mortal materials, when it comes to the spiritual world and Immortal world, there will be more advanced materials for upgrade.

When the eight metal flying sword was completed, it was already five years later. At this point, the Great Yin Yang Five Elements Flying Sword was finally assembled. Yang Chen dare not say that each flying sword is the strongest flying sword with a single attribute, but it is the most suitable flying sword. At this point, he can finally combine the Great Yin Yang Five Elements flying swords into one.

The seventh metal flying sword is also the Immortal beheading blade, which is essentially a sword case, which can hold one or several sword souls. The rest of the other flying swords of the Great Yin Yang Five Elements Flying Sword are the sword soul of the Immortal beheading blade. When Yang Chen put the other nine flying swords into the sword one by one according to the control method of the sword, the Immortal beheading blade turned into an extremely ferocious nine-ring machete.

The nine saber rings are transformed from the nine other flying swords. This is the only difference between Yang Chen's Immortal beheading blade and the Immortal beheading blade in the Immortal Executioner Stage. The other nine flying swords have become a part of the Immortal beheading blade through the shape of the knife ring, and their respective characteristics will also be fully displayed through the knife ring.

This also means that at any time, as long as Yang Chen is willing, the Immortal beheading blade can have the attack power of the Great Yin-Yang Five Elements Formation, and at the same time, it also comes with blood-sucking (Blood Phantom Vine Flying Sword) and highly corrosive poison (Ninth water flying sword), Devil Qi Invasion (Sixth earth flying sword), Yin-Yang heaven burning fire (third fire and fourth fire Flying Sword) and other powerful additional effects, Yang Chen couldn't think of anyone else in the mortal world who could take such a blow. Even Li Cheng, his own brother, might be a little embarrassed in the face of such a magic weapon.

Holding the Immortal beheading blade in his hand, feeling the taste of flesh and blood after being tempered by his own essence, Yang Chen couldn't help being ecstatic and laughed out loud.

Amid wild laughter, a pair of snow-white hands embraced Yang Chen from behind, and a delicate body leaned against Yang Chen's back, holding Yang Chen in her arms. Afterwards, Yang Chen heard Gao Yue's familiar voice "Husband, why are you so happy?"

Chapter 705: : Completed Immortal Beheading Blade

Gao Yue laid down for decades in the array arranged by Gongsun Ling, in order to fully absorb the qi of the Three Emperors. Coupled with Yang Chen's unique technique of sealing her cultivation base, it not only does not damage her cultivation base but also increases the tempering of her life source flying sword, so Gao Yue can be said to be the most relaxed person in cultivation. In the eyes of others, as long as she sleeps quietly she can improve her cultivation.

It has been more than sixty years since the formation was arranged, and the qi of the Three Emperors in the three jade bottles has already been completely absorbed by Gao Yue. Yang Chen's sealing method has been set for sixty years, and when the time is up, Gao Yue has automatically awakened. It's just because Yang Chen has been concentrating on refining the eight metal flying sword, so Gao Yue didn't bother him. Now that Yang Chen had already left seclusion, Gao Yue naturally leaned over.

"My life source flying sword is finally finished, do you want to take a look?" Yang Chen just twisted his waist slightly, stretched his arms back, and pulled Gao Yue from behind to his chest, holding her in his

arms. At the same time, holding the Immortal beheading blade in one hand, Gao Yue watched it as if offering a treasure.

“Your life source flying sword?” Not only Gao Yue, but also all the girls around were attracted by Yang Chen’s words.

In fact, when Yang Chen completed the eight metal flying sword and combined the Great Yin-Yang Five Elements Flying Swords into one, he had already withdrawn the Nine Nether Flying Sword, and the demonic qi that tempered the seven girls’ minds was naturally withdrawn, so the seven girls also came out, hearing Yang Chen’s words, they naturally all paid attention to this side.

The eyes of all the girls fell on the Immortal beheading blade held in Yang Chen’s left hand. Basically, everyone has seen this blade, but it seems a little different now. If you look carefully, there are nine more rings on the knife, which doesn’t seem to be a big change.

“It seems that there is not much change.” Gao Yue was quite blunt. As the most famous craftsman in the Pure Yang Palace, Gao Yue is fully qualified to evaluate any magic weapon. However, even so, she only saw the change in appearance, but did not notice the inner change.

“Of course you have to look at good things first.” Yang Chen was not at all afraid that Gao Yue would damage his weapon, and he thrust the Immortal beheading blade into Gao Yue’s hand with a big stab “Look at it carefully, it doesn’t matter if you use spiritual power.”

This is Yang Chen’s unique ability. His life source magic weapon is not afraid of being contaminated by anyone’s spiritual power at all. With Xiao Tian, he can easily swallow all the spiritual power that does not belong to Yang Chen, without affecting the quality of the life source magic weapon at all.

Yang Chen is not polite to Gao Yue, and Gao Yue is the same to Yang Chen. After taking Yang Chen’s Immortal beheading blade, Gao Yue entered spiritual power without saying a word. However, the Immortal beheading blade seemed to have suddenly turned into a solid piece of iron, and it didn’t respond to the spiritual power input by Gao Yue at all, which made Gao Yue stunned for a while.

Also stunned were Yang Chen and the seven girls who were watching around. Gao Yue’s astonishment didn’t last long, and it turned into another form of astonishment. It seemed that she had discovered something from it, but she seemed a little unsure. She raised her head to look at Yang Chen, but only

saw an encouraging look on his face. Gao Yue's heart warmed up, and she didn't think about anything else, so she handed the Immortal beheading blade to Shi Wushuang who was closest to her.

Shi Wushuang took the Immortal beheading blade, also input spiritual power, and then remained equally sluggish. Afterwards, this sluggish expression seemed to be contagious, and soon passed from Shi Wushuang to the Murong sisters and finally to Tao Junqi.

The Immortal beheading blade turned around from the girls' hands, and returned to Yang Chen's hands. Looking at the reactions of the girls, Yang Chen asked innocently, "How do you feel?" There was a moment of silence.

"Husband!" Seeing that no one spoke, Shi Wushuang hurriedly opened her mouth "Why doesn't your sword respond to spiritual power? Did something go wrong during refining?" Everyone knows that if something goes wrong with the life source flying sword, how much it will affect his cultivation. Yang Chen's life source Flying Sword is like iron, and they can almost be 100% sure that there is something wrong.

As soon as Shi Wushuang spoke, the other girls, except Gao Yue, nodded worriedly. Although they have high cultivation bases, they don't have much research on refining equipment. They have never seen a life sword flying sword that does not respond to spiritual power.

Yang Chen didn't answer the girls, but looked at Gao Yue. Gao Yue suddenly smiled, and said to the girls: "You guys, you are so stupid, our husband is almost the best in everything, can his life source flying sword be worse?"

The girls understood this truth in their hearts, but they couldn't imagine how powerful a sword that couldn't use spiritual power could be. No wonder their husband used to hold the Immortal beheading blade in his hand all the time. Could it be because he couldn't control the sword?

"However, husband can't control the sword." Shi Wushuang said a little unwillingly, but looked at Gao Yue, waiting for Gao Yue to explain.

"Husband's magic weapon just doesn't respond to our spiritual power, not his own spiritual power." Gao Yue explained with a proud expression on her face "This is the real magic weapon exclusively for husbands, no one else can use it."

“Then why does it look so ordinary, without any otherworldly performance?” Murong Yan asked jokingly from the side.

“Because husband’s refining techniques are brilliant, all the spiritual light is restrained, and there is no leakage, so it looks so ordinary.” As a master of refining, Gao Yue certainly understands where Yang Chen’s Immortal beheading blade is so brilliant. At this time, she also patiently explained to the girls “This is where the real genius is. For the time being, our life source flying sword is still far behind.”

With Gao Yue’s explanation, the girls immediately understood. They also seemed to understand why Yang Chen generously let the girls use their spiritual power to explore and test it. It turned out that the life source magic weapon would behave like this when it was refined to the extreme. In the past, the girls didn’t understand the characteristics of a truly high-level magic weapon, but now they finally know two of them.

However, Gao Yue couldn’t even imagine the power of the Immortal beheading blade. In a moment of curiosity, Gao Yue stretched out her slender hand and touched the edge of the Immortal beheading blade, as if she wanted to feel the power of the Immortal beheading blade after it broke through the body.

Seeing that Gao Yue’s fingers were about to touch the blade, the Immortal Slayer Knife disappeared in an instant, and then Yang Chen shook his head a series of times. What a joke, if the skin was cut by the Immortal beheading blade, not to mention other effects, just the murderous intent attack on the body can cause Gao Yue to suffer heavy injuries, how could Yang Chen cause Gao Yue to suffer such injuries.

“To know the real power, let’s find an enemy with enough strength.” Yang Chen smiled and gave Gao Yue an explanation that was not an explanation.

\*\*\*

Chapter 706: : Preparation Before Departure

Although she was curious about the power of Yang Chen’s Immortal beheading blade, Gao Yue could still understand Yang Chen’s unwillingness to hurt her. While feeling sweet in her heart, she also looked forward to seeing the real power of the Immortal beheading blade with her own eyes.

After everyone chatted for a while, Yang Chen finally remembered something. He reached out from the merit ring and took out the Zhao Family Manor, which had shrunk countless times, and put it in his hand.

The Zhao Family Manor itself is a magic weapon that has been sacrificially refined. Except for the destruction of the Demon Sealing Formation, there is no damage in any other places. Yang Chen easily erased all the marks of the Zhao family's spiritual awareness on the Zhao family manor, and then sent this small model to Tao Junqi's eyes.

"This is?" Tao Junqi didn't understand what Yang Chen was going to do, so she was stunned, looked at Yang Chen suspiciously, and waited for his explanation.

"Zhao Family Manor." Yang Chen replied. In fact, this answer is superfluous, except for Gao Yue, all the other girls have already seen that this is the Zhao Family Manor so answering is no different from not answering.

"I've already put away the scriptures pavilion inside, and you can pick the rest at will." Yang Chen had already decided to hand over the Zhao Family Manor to Tao Junqi, and put the things in Tao Junqi's hands: "From now on, this manor belongs to you, Junqi."

"What about senior sister!" In front of Gao Yue, a senior wife, Yang Chen actually gave such a precious thing to Tao Junqi, Tao Junqi was a little anxious immediately and hurriedly called out.

"You don't need to refuse." Yang Chen signaled Tao Junqi to be calm, and then explained "Among our family, Junqi, you will be the first to ascend. When you reach the spiritual world, before I ascend, this is going to be our home. You have to take care of it, Junqi, and don't let everyone be homeless."

Upon hearing that this was the intention, Tao Junqi did not shirk, and accepted the Zhao Family Manor frankly. The other women had nothing to be jealous of, he said it was for Tao Junqi, but in fact they just let her take care of it, no one would care.

"By the way, there are still a few attendants. You also take them with you." After setting up the Zhao Family Manor, Yang Chen suddenly remembered something, and then said, with a wave of his hand, twelve Penglai devine wood monsters appeared on the ground. In front of the eyes of the women, this is half of all Penglai devine wood monsters, exactly the number of earthly branches.

“The Zhao Family Manor is located on the sea, and it has the attribute of water.” Yang Chen pointed to the twelve Penglai devine wood monsters and said, “A few of them can form a set of the twelve zodiac crowd guarding great formation, which is specially used for the blessing of town houses. Let them live in the formation, in the future, this manor will be safer and more suitable for cultivation.”

At this moment, except for Yang Chen and Gao Yue, the other seven girls have completely fallen into a sluggish state. Looking at the twelve Penglai devine wood monsters in front of them, they were dumbfounded and couldn't say a word. Murong Bi, who had just taken a sip of wine, spit out all the wine in her mouth with a “poof”, losing her image.

The seven women are all well-informed characters, even if they have never seen the Penglai devine wood before, but they have also heard the name of the Penglai devine wood. Now twelve Penglai devine wood monsters have appeared, still maintaining their tree shape. It's almost obvious at a glance what they really are.

It is precisely because of this that the girls are so surprised. This kind of Penglai devine wood with a devine character in its name is a super treasure of the heavens and earth that can be compared with gods at any time. Ordinary cultivators, not to mention getting a whole Penglai devine wood, even if they only get a branch, can make an excellent top-level wood-attribute magic weapon.

But now, before the eyes of the women, there are not only twelve complete Penglai devine woods, but also twelve Penglai devine wood monsters who have achieved sanity and cultivated to become monsters. It takes a strong fortune to get so many Penglai devine woods monsters?

Although Yang Chen has already given the seven girls a lot of surprises, especially in the numerous treasures of heaven and earth, it is unbelievable that they pop up from time to time, but not everyone can get used to them anytime, anywhere.

“Husband, let them stay in the Dragon Palace for now!” After being stunned for a while, Tao Junqi finally remembered what she should say. Looking at the Penglai devine wood monsters she knew that it would be good for the manor, but she still cared about her husband first. The other women also have the same meaning.

“No problem!” Yang Chen waved his hand and asked Tao Junqi to take the Penglai devine wood monsters into the manor, and then casually explained: “I have twelve more here, with the same

cultivation level, they can also form a set of Twelve Zodiac Crowd Guarding Great Formation, no one will be left behind, don't worry."

Twelve more? The beautiful eyes of the seven women and seven pairs almost popped out of their respective eye sockets. There are still twelve of this kind of Penglai devine wood monsters who have only heard the legend but never seen the real thing, and the Penglai devine wood monsters, which is more illusory than the legend? They just woke up from the sluggishness, Murong Bi took another sip of wine to calm down, and sprayed a sip of wine all over the place again.

The seven women finally understood once again what kind of rich man their husband is. Thinking about the things he took out, whether it was all kinds of elixirs or the four seas mysterious coral liquid that everyone used as bath water, or this random twenty-four Penglai devine wood monsters, even if the five major sects combined, they would not have such a rich and powerful method.

To be honest, until now, none of the girls understood what was going on with the Twelve Zodiac Crowd Guarding Great Formation, and they were completely shocked by the Penglai devine wood monsters. Gao Yue still knew about Yang Chen's family background, or was used to Yang Chen's extravagance, so she coughed lightly, and only then did the girls recover from the shock.

"For some reason, they can't be my disciples, they can only become slaves." Yang Chen saw that everyone was sober, and said slowly: "It's most suitable to take care of the house, and it also suits their temperament."

This time, Tao Junqi had no reason to refuse, and obediently received the twelve Penglai devine wood monsters into the Zhao Family Manor. They will find a suitable place to take root, and then activate the Twelve Zodiac Crowd Guarding Great Formation, without Tao Junqi worrying about it.

"Husband you are leaving seclusion, what's the next plan?" Only Gao Yue can ask this question, because of their status, it is difficult for others to speak at this time.

"Langya Well will be opened in more than ten years." Yang Chen looked at the girls before asking slowly, "Are you interested in going in?"

“We will follow husband’s orders.” At this time, who would defy Yang Chen’s intention? Yang Chen made it clear that he wanted to enter Langya Well, the girls didn’t understand what he meant, they all had the same idea, marry a chicken as a chicken, marry a dog as a dog.

“If that’s the case, then wake up A’Ling, and by the way, call Shanshan and Little Xue, and the whole family will go to Langya Well to have a look.” Yang Chen ordered unceremoniously “It may take decades or hundreds of years, everyone prepares carefully for some time.”

\*\*\*

Chapter 707: : Awakening Shi Shanshan

Gongsun Ling was just studying the secrets of the Demon Sealing Formation and another formation given by Yang Chen, it is not a cultivation that cannot be disturbed. She can leave the seclusion anytime and anywhere without being affected at all. But Shi Shanshan and Sun Qingxue are different, it will take at least a few years to wake them up, so as not to affect their cultivation.

And this time, just as Yang Chen said, after decades or hundreds of years, some sect affairs must be explained in advance to avoid any problems. As for whether Yang Chen’s next goal will be revealed, Yang Chen doesn’t care, he has never planned to hide his destination.

Except that his goal is the seventh-grade pure yin true fire, the rest of it, Yang Chen is not afraid of any leaks. In fact, as long as he appeared near the Langya Well at that time, others would know that his destination was the Langya Well without asking, and it was meaningless to hide it.

The girls began to settle down separately, and Tao Junqi, Shi Wushuang and the Murong sisters returned to the sect to make arrangements. Gao Yue woke up Gongsun Ling and prepared for the sect as well, Yang Chen himself left the Pure Yang Palace alone.

There are two purposes for coming out, one is to wake up Shi Shanshan and Sun Qingxue, and the other is for his next apprentice – Mo Chunmei. Mo Chunmei was a famous ninth-grade alchemist in her previous life. He believes that if she can be accepted as an apprentice in this life, it will be a good thing for both Mo Chunmei and Yang Chen.

Mo Chunmei was born in an aristocratic family, and she grew up under the influence of medicine books and various medicinal materials since she was a child, so she also has a special liking for alchemy. After

starting to cultivate, she devoted herself to studying the art of alchemy, which is also inseparable from her family background.

But now, the future ninth-grade alchemist is just a girl of eighteen or nineteen years old, not to mention cultivating, she has not even shown her innate spiritual roots. Usually a woman of this age, if she hasn't cultivated yet, it's time to get married and have children.

In her previous life, the reason why Mo Chunmei only became a ninth-grade alchemist and failed to make further progress was because she was married before cultivating. Although there is no child, the Yuan Yin has been broken, so much so that when she accidentally discovered that she had an innate spiritual root, it was irreparable to cultivate again, and her achievements were relatively limited.

Of course, Yang Chen would not let this kind of regret happen again in this life, so when Yang Chen appeared in front of Mo Chunmei, Mo Chunmei's family thought Yang Chen was a liar.

"How is it possible?" Ordinary people are naturally infinitely welcome to join the cultivation world, but if someone came over and said to them that he want to accept their daughter who has no spiritual roots as a disciple, most people will have such doubts.

"I want to take her as an apprentice, what I value is her understanding of alchemy." Yang Chen did not hide his purpose, and at the same time he did not forget to praise Mo Chunmei's parents: "It is also the teaching of the two of you in medicine since she was young that they are the most important, it gave me the idea."

Speaking of this, Mo Chunmei's parents were still very proud. Their daughter has been smart since she was a child, and she almost has an unforgettable memory. She can distinguish so many complicated medicinal materials one by one, and the functions of each of them are like a treasure. If their daughter is not old and she must find a husband's family, otherwise they are not willing to let her leave.

Although there were still some doubts, when Yang Chen put two thousand-year-old ginseng and Polygonum multiflorum in front of Mo Chunmei's parents, the two no longer had any worries. They are from the aristocratic family, naturally recognize what this is. To put it bluntly, the two plants of ginseng and Polygonum multiflorum are more than enough to buy them all, but Yang Chen said that these are just a gift from the master to the apprentice's family.

Almost without any big twists and turns, there was an extra mortal woman in Yang Chen's medicine garden. Naturally, Yang Chen didn't forget to give his personal disciple a fifth grade merit body refining pill, taking it before cultivating, the effect is the best.

Mo Chunmei had already been overwhelmed by the resources in Yang Chen's medicine garden. A medicinal herb that should only appear in legends that she have only heard of but never seen, was planted alive in front of her. She couldn't believe her eyes, certainly such a mysterious space also completely dispelled Mo Chunmei's doubts. Her master, who doesn't look very old, was definitely an Immortal.

It will take a while for the fifth grade merit body refining pill to take effect, and Yang Chen did not return to the Pure Yang Palace, but took Mo Chunmei directly to Green Jade Immortal Island.

Shi Shanshan was still retreating in the eyes of the sea, Yang Chen's arrival did not alarm too many people, but even so, the Island Master and Elder Min still personally received Yang Chen. After asking about the purpose of their visit, the Island master and Elder Min had nothing to say. Immediately, Elder Min took Yang Chen to see Shi Shanshan himself.

These years, because Shi Shanshan has been cultivating in seclusion, the connection between the Green Jade Immortal Island and Yang Chen seems to be a bit out of touch. In addition, the Pure Yang Palace was attacked, and the Green Jade Immortal Island was also involved in it. They were so ashamed to meet Yang Chen, but Yang Chen also had the Seven Emotions and Six Desires pills and the Demon Sealing Formation, so sometimes they have to bite the bullet and deal with the Pure Yang Palace.

Now that Yang Chen took the initiative to find Shi Shanshan, the higher-ups were naturally happy. Why are the Greatest Heaven Sect, Five Elements Sect and Qiankun Sect so proud recently? Isn't it because a female disciple of their own sect married Yang Chen as a concubine and stayed with Yang Chen all the time? If Shi Shanshan doesn't leave seclusion, it won't be their turn.

Even with Elder Min's cultivation base, he was cautious when approaching the sea eye. Elder Min came here before and accidentally startled Shi Shanshan, and immediately attracted a burst of sword qi attack. If it wasn't for the long distance, and it was still under the eyes of the sea, maybe Elder Min would die in the sea. From then on, the Green Jade Immortal Island strictly ordered that no one should approach the sea eye within ten miles without the order of the island owner.

Elder Min's caution was completely different from Yang Chen's relaxation. Seeing that Yang Chen was so indifferent, Elder Min can't help reminding Yang Chen in a low voice, lest Yang Chen be hurt by Shi

Shanshan's sword qi and affect their relationship. Although Shi Shanshan seemed to be getting stronger and stronger, if something like this really happened, it would be a big problem.

"It's okay!" Yang Chen also knew what Elder Min was worried about, so he just smiled and signaled that it's okay. Unprepared, he rushed towards the direction of the sea eye.

Elder Min was shocked immediately, he was within Shi Shanshan's sensing range any further, if he was not careful, Yang Chen would end up injured on the spot. In a hurry, Elder Min flew forward, intending to stop Yang Chen.

At this moment, a fierce sword qi suddenly pierced the sea water, stabbing at Yang Chen and Elder Min mercilessly.

Chapter 708: : Sword Qi

At this point, Elder Min couldn't care less about complaining about Yang Chen, and in shock, she could only protect him with her life source flying sword, hoping to block Shi Shanshan's blow, and then drag Yang Chen to a safe place.

What Elder Min never imagined was that when she had already risked her life to reject the sword qi, desperately trying to lose hundreds of years of cultivation, trying to pull Yang Chen away. But she grabbed Yang Chen's shoulder and pulled, Yang Chen's body seemed to have taken root in place, and he didn't move at all.

Shocked, Elder Min was about to remind Yang Chen loudly, but found that Yang Chen had already thrown his Immortal beheading blade one step ahead of her.

The Immortal beheading blade is Yang Chen's life source flying sword, Elder Min is not very clear about this, he only knows that Yang Chen likes this sword very much and keeps it with him all the time. Seeing that Yang Chen was a bit over his head and planned to use this knife to block Shi Shanshan's sword qi, she couldn't help feeling anxious. However, Elder Min also knew what was going to happen, at this time, Yang Chen must not be hurt. She could only use her life source flying sword to step up to resist Shi Shanshan's sword qi.

Yang Chen's Immortal beheading blade came first, and directly met the invisible sword qi. Chick, a slight sound reached Elder Min's ears through the sea water, and the scene she expected that Yang Chen's

Immortal beheading blade would be shattered into pieces, and then the sword qi slashed at Yang Chen without hesitation did not appear, but after that soft sound, there was no more movement.

Seeing this scene, Elder Min, who was still very anxious just now, turned into a wood carving, with her mouth gaping, and she stood there with her head turned to watch, without moving a muscle.

How can this be? Elder Min knew exactly how powerful Shi Shanshan's sword qi was. Even if the distance is still far away, the power of the sword qi has been greatly reduced, but it is not something an ordinary magic weapon can bear. Even the shields refined by several Dacheng stage masters in the sect couldn't block it. What kind of material is Yang Chen's Immortal beheading blade that can take such a blow?

"This is made from the scabbard that was holding Shanshan's sword qi back then." Yang Chen knew that his performance was a bit shocking, so he explained softly to Elder Min. The matter of Shi Shanshan's acquisition of the sword qi is no secret among the elders of the Green Jade Immortal Island, Yang Chen has no need to hide it.

"Sword scabbard?" Elder Min's complexion finally improved a little, which can be explained. Otherwise, a Dacheng stage master from the majestic Green Jade Immortal Island would not be as good as a junior from the Pure Yang Palace in her own territory, it would be a shame.

The Green Jade Immortal Island loves and hates Shi Shanshan as a disciple. Those who hate her are naturally those factions of Elder Bei and Liu Zizhi, but now they have been purged and suppressed, and they basically have no say in the sect.

The ones she loves are the Island Master and Elder Min. Shi Shanshan's cultivation qualifications are already excellent. Especially after getting married with Yang Chen in the later period, the benefits the Green Jade Immortal Island received are indescribable. It's a pity that they didn't pay enough attention to such a disciple before, and even suppressed her within the sect, which made Elder Min feel sorry for Shi Shanshan.

This time for Shi Shanshan seclusion, in addition to absorbing the Supreme Pure Yang Sword Qi, another reason may be that she feels a little ashamed of meeting Yang Chen. On this point, Elder Min also felt it was a pity, but there was nothing she could do about it. This disciple has always been assertive, and they didn't care enough so persuasion is largely ineffective.

Ever since Elder Min was almost injured by the sword qi, the Green Jade Immortal Island understood. This time, Shi Shanshan definitely had a great opportunity. How can ordinary people imagine such a level of sword qi? As long as Shi Shanshan is firmly controlled, it is not impossible for the Green Jade Immortal Island to surpass the Greatest Heaven Sect in the future.

The sect elders like it and worry about it at the same time. What they like is that the sect may grow stronger because of Shi Shanshan, but what worries them is that they may not get her understanding. Now that Yang Chen took the initiative to come, the Green Jade Immortal Island also saw the opportunity to completely dispel Shi Shanshan's dissatisfaction, so even if she was injured, Elder Min still wanted to protect Yang Chen.

Seeing that Yang Chen blocked Shi Shanshan's sword qi easily, Elder Min couldn't help but admit that many people underestimated Yang Chen's family. They are all at the Yuanying stage, but their fighting power is no less than that of a Dacheng stage master. Even Elder Min doubts whether the supreme elders of the sect will be able to block Shi Shanshan's full-strength sword.

Shi Shanshan has been in retreat, although the retreat time was getting longer, many reactions are not her subjective consciousness, but purely subconscious reactions. Just like attacking outsiders who approach at any time, it has become an instinct of Shi Shanshan, and she herself was still cultivating in seclusion.

Both Yang Chen and Elder Min understood this state, and they didn't rashly startle Shi Shanshan, but stopped after getting close to a certain point. Then Yang Chen began to protrude the thread of spiritual awareness, and spread it out quietly, bit by bit, he began to stimulate Shi Shanshan who was immersed in her cultivation.

This process alone lasted for more than two years. It also made Elder Min fully understand how much Yang Chen cares for Shi Shanshan.

Finally, under Yang Chen's constant stimulation, Shi Shanshan felt the discomfort outside, which gradually accumulated to the point where she had to wake up. After putting away all the aura in her body, including all the sword qi in her body, Shi Shanshan ended her closed-door seclusion and stood up.

Shi Shanshan's actions were all under the attention of Yang Chen's spiritual awareness. As soon as Shi Shanshan finished her retreat, Yang Chen and Elder Min had already come to her. Seeing her husband

suddenly, even with Shi Shanshan's usual coldness towards others, she instantly smiled and threw herself into his arms.

Elder Min was stunned again, never expecting that Shi Shanshan would lose her composure in front of Yang Chen. In this way, it made Elder Min a little embarrassed, but leaving was not enough, so she could only cough softly to remind Yang Chen and Shi Shanshan that she was still beside them.

Shi Shanshan's face was tender, and she immediately realized that she had lost her composure, she hurriedly pushed Yang Chen away with a blushing face, and bowed to Elder Min.

"What's the result of the retreat?" Elder Min helped Shi Shanshan up, carefully sizing up this unparalleled female disciple of her sect, and asked casually, and at the same time reminded Shi Shanshan: "Yang Chen has been waiting for you for more than two years."

"Thank you, Elder, for your care." Shi Shanshan replied politely, and at the same time gave Yang pChen a look full of tenderness. If Elder Min wasn't by her side, she would have shared her heart with Yang Chen long ago.

"It's still too early to fully absorb the sword qi, but this disciple can already control the sword qi and cut five swords."

\*\*\*

Chapter 709: : Gathering At The Langya Well

If people who don't know the depth hear this, they may directly despise Shi Shanshan to the bone. To be able to emit just five sword qi, dare to call her a genius disciple of Green Jade Immortal Island? But whether it is Yang Chen who knows the details of the sword qi, or Elder Min who has tasted the power of sword qi, they don't think so.

Regardless of the mere five sword qi, both of them believed that if there were no special circumstances, the five sword qi sent face to face meant that five lives would be taken away. Whether it is a master of the Dacheng stage or an elder who has surpassed the Dacheng stage, neither can escape the sword qi. Elder Min was able to escape from the sword qi, firstly because of the long distance, and secondly because it was not Shi Shanshan's attack when she was awake.

Perhaps the only exception is Yang Chen, who has a scabbard. Speaking of this point, even Elder Min Huafeng had to admit that Yang Chen, a junior, never stopped surprising her from the beginning to the end.

After hundreds of years of closed-door seclusion, Shi Shanshan's cultivation has reached the late Yuanying stage, which is also much higher than Yang Chen's. If Yang Chen's women really talk about hard work, Shi Shanshan should be ranked first. It is precisely because of this that Shi Shanshan has achieved the greatest achievement in the future in his previous life.

Shi Shanshan will not go against any of Yang Chen's decisions now, ever since Yang Chen found the Supreme Pure Yang Sword Qi for her, not to mention that Yang Chen is going to bring her with him this time. Is there reason Shi Shanshan would not like to cultivate with her husband?

The Green Jade Immortal Island was also very satisfied. Their female disciple has returned to Yang Chen's side again, and it seems that Yang Chen's attitude towards the Green Jade Immortal Island has not changed at all, and the matter of the demon sealing formation last time was also taken care of, at last the Island Master and Elder Min secretly take a deep breath.

Yang Chen didn't stay longer in the Green Jade Immortal Island, and took Shi Shanshan straight to the Blue Cloud Sect. In the Blue Cloud Sect, Yang Chen also received a grand reception, and it was also the sect master who came forward directly to welcome him, giving Yang Chen enough face.

Sun Qingxue's cultivation is different from Shi Shanshan's. Although she also uses the blood demon vine to hone her cultivation, but at the same time she is still refining the ultimate demonized demon vine. She is awake all the time and can actively control it. She soon noticed Yang Chen's arrival, then stopped her cultivation, and threw herself into Yang Chen's arms happily.

After not seeing her for a hundred years, Sun Qingxue became more and more watery, and her cultivation also easily entered the late Yuanying stage. After experiencing the Demon Continent, at the same time, after being tempered by the blood demon vine, Sun Qingxue's combat power is almost as good as some masters of the Blue Cloud Sect in the middle Dacheng stage, and as the master, Elder Hua really likes it to the core.

The Blue Cloud Sect also expressed great satisfaction with Yang Chen's coming to pick up Sun Qingxue, the elders included Lu Zongzhu, the head of the Law Enforcement Hall, Elder Shi, and Sun Qingxue's

master, Elder Hua Wanting. They were all happy to see it succeed, Yang Chen took Sun Qingxue to cultivate.

Although Yang Chen had more than one woman by his side, the Blue Cloud Sect firmly believed that Yang Chen still loved Sun Qingxue the most. After all, Sun Qingxue is the youngest, and also the earliest acquaintance with Yang Chen, isn't it?

When they returned to the Pure Yang Palace, three years had passed since Yang Chen left. Mo Chunmei spent the past three years in Yang Chen's medicine garden. While nourishing the body, while delving into more pharmacological knowledge, and seeing all kinds of rare medicinal materials at the same time, it is not wasted at all.

After such a long time the body refining pill has fully exerted its medicinal effect. After all, Mo Chunmei has never cultivated before, so it is the time when the medicinal effect is at its best. When Yang Chen checked Mo Chunmei's postnatal spiritual root again in the Pure Yang Palace, Mo Chunmei had already shown the excellent aptitude of more than 90 postnatal fire spiritual root.

This is the most important successor of Yang Chen's alchemy. Yang Chen personally sent her to Yixiu Villa to receive the education of the Pure Yang Palace from the beginning. This is the rule, and Yang Chen will not make an exception, but he has already brought Mo Chunmei to meet her three senior brothers and sisters, especially Hua Mengyou. She will be relying on her senior Sister Hua Mengyou the most.

In the past few years, the girls also returned from their respective sects one after another, and basically arranged the affairs of the sect. Especially Tao Junqi, this time when she enters the Langya Well with Yang Chen, Yang Chen had already explained that she might be on the verge of ascension by the time she came out, so some things should be settled in advance, so as not to be in a hurry in the future.

Neither Shi Shanshan nor Sun Qingxue had seen the seven concubines that Yang Chen had accepted, but both had heard of their names. Regarding the matter of Yang Chen taking concubines, the two women's minds were exactly the same as Gao Yue's, they only regarded the seven concubines as serving Yang Chen, and never thought they were competitors.

Facing Shi Shanshan and Sun Qingxue, two regular wives who had never met them before, none of the seven women dared to neglect, no matter how high their cultivation was, they still paid homage to their elder sisters as younger sisters.

Speaking of which, Yang Chen is still the one who seems to have the lowest cultivation base in the family, and he is only in the middle Yuanying stage. However, all the girls around him are obedient to him. Looking at this situation in the eyes of others, they don't know how many people envy Yang Chen's shit luck. With so many beautiful and talented geniuses from great sects throwing themselves into his arms, why wouldn't he have such good fortune?

The family stayed in the Pure Yang Palace for another ten years. In the past ten years, Mo Chunmei has successfully built a foundation, formally apprenticed to a teacher, and began to cultivate fire control and alchemy under Yang Chen's guidance, and everything is on the right track. The day of the Langya Well's opening finally arrived.

Langya Well is basically opened every few hundred years, and almost everyone in the mortal world knows this well. Every day when it is opened, countless cultivators will gather in Langya Well, hoping to find some treasures inside. This time was no exception. As the day when Langya Well opened, tens of thousands of cultivators had already gathered near Langya Well, all waiting to enter to try their luck.

Although the name is called Langya Well, the real Langya Well is not simply a well, but a huge lake. When Langya Well is opened, the lake will become a straight passage, no one knows how deep it is, and no one knows where it leads. But one thing is certain, that is, time in the well has endless treasures, and they don't know how many people have proved this with their personal experience.

Around the Langya Well, all the cultivators were quietly waiting, waiting for the moment when the moon will be in the sky. When the time comes, Langya Well will be completely opened, and everyone can easily enter the tunnel that leads to nowhere and enter the world of treasures as long as they jump into the big lake.

At this time, no one will pick a quarrel and make trouble. It will be difficult for everyone. All you can do is wait quietly. As for killing, after entering, are they afraid that there will be no chance of killing?

\*\*\*

Chapter 710: : Opening Of The Langya Well

Among the tens of thousands of people waiting, a large ship that looked like a high-level magic weapon was very eye-catching. Countless people were staring at the ship, paying attention to the ship, for fear of missing something good.

What everyone cares about is not actually the ship, but the people on the ship. On the ship, there were eleven women who can be said to be the most beautiful in the mortal world. If you take any one out, you can compare everything to the soles of your feet, such beautiful eleven women are all on the same boat. The most outrageous thing is that they are all women of the same man.

The man on the ship was of course Yang Chen, the fifth grade alchemy master who is the most famous and popular cultivator in the mortal world. The whole family appeared around Langya Well in a very high-profile way. Like the tens of thousands of people waiting around, they were all waiting to enter Langya Well to hunt for treasure.

Unlike most of the people around who were waiting nervously, Yang Chen and his wives and concubines seemed very comfortable. There was delicious food, fine wine and fragrant tea on the ship. The girls were drinking tea, playing chess, calligraphy and painting, or snuggling in Yang Chen's arms to drink with Yang Chen.

It seems that Yang Chen's family is very arrogant, but no one dares to approach the ship casually within a few dozen feet. The eleven beautiful women, any one of them is a genius disciple of the five major sects. If you provoke any of them, you are making trouble with one of the five major sects. No one will be stupid enough to find such a terrible situation.

In the anticipation of countless people, the round moon finally slowly rose to the highest point. A clear light seemed to shine directly from the moon onto Langya Well, and a burst of white dazzling light shone on the huge lake with a radius of ten miles. All the people watching this scene couldn't help but close their eyes.

The moment everyone closed their eyes, they seemed to hear an extremely slight voice in their ears. When they opened their eyes again, the Langya Well just now had changed.

The lake water was still lake water, and the height has not changed, but the bottom of the lake water should have been dark and muddy, but now it has become a void. Everyone's eyes can see through the lake water to see the depth below, but they still can't see the bottom.

When Langya Well was closed, everyone was waiting to open it. But when Langya Well was really opened to reveal the passage, everyone hesitated. Everyone stood in place, watching this scene, looking at each other, you look at me, I look at you, no one entered first.

At this time, all that is missing is a leader. Once someone goes in first, there will be a large number of followers immediately. Unfortunately, this situation lasted for dozens of breaths, but no one jumped out.

“What are you doing? Waiting for Langya Well to close?” Yang Chen’s voice was not loud, but it clearly reached the ears of hundreds of people around. Following Yang Chen’s voice, the huge ship flew directly to the center of the lake. Then he plunged headfirst into the lake, saw that he passed through the lake easily, and disappeared into the dark passage in an instant.

“Follow Grandmaster Yang!” As soon as the boat disappeared, at least hundreds of people rushed into the lake immediately. These people are all members of the sect, determined to follow Yang Chen and don’t want to fall behind at all.

They have heard the story of Yang Chen taking his seven beautiful concubines to find the Immortal peach from various sources, and they also know Yang Chen’s reputation for being well-read. Although Langya Well has treasures, but the chances of getting it are not great, and even if you can get it, it can’t be compared with the value of the pills refined by Yang Chen, but Yang Chen brought his family in so high-profile, presumably because he discovered something from some records. This alone is enough to make many people tempted, as long as they follow Yang Chen, they don’t have to worry about not having good things.

Someone took the lead, and immediately everyone behind became nervous. If there is a treasure inside, wouldn’t the people who go in ahead take advantage of it? Immediately, the rest of the people didn’t care about anything else, rushed into the lake water by their own means, and their figures quickly disappeared in the passage. In the blink of an eye, there was no one left by the lake, which was still full of people’s voices, and the tranquility was restored.

The moon began to slowly sink to the west, but it lasted less than half a stick of incense, and the white light on the lake surface quickly subsided. After a slight noise, the lake water returned to its original state, and the bottom of the lake was still covered with mud. The channel has completely disappeared.

The boat has been descending, Yang Chen and all the girls can clearly feel this. But the passage was pitch black, they couldn't see anything, and even with their spiritual awareness, they couldn't detect the surrounding scene ten feet away, entering the channel, one becomes blind.

Yang Chen had expected this, and no one in the family was worried. In fact, not only Yang Chen's family, but also the people who came in behind were not worried. This is just a passage, and if they fall to the end, they will naturally reach the place they want to go, and they will neither be injured nor have any accidents. This is the unanimous description of countless people who came out of Langya Well.

All five senses are useless, except that they have been falling, and even time seems to have stopped. After an unknown amount of time, the ship paused and stopped. Afterwards, everyone felt their eyes brighten up, and their bodies appeared in a bright world.

This is a huge open space, very large, with a radius of tens of thousands of miles. The terrain is flat, all of which are plains, the ground is bare and nothing grows. In the middle of the clearing is a huge lake with a radius of tens of thousands of miles, their boat is the one not far from the lake.

After a while, no one else appeared beside the ship, those guys who rushed in with Yang Chen's family appeared somewhere. What is certain is that it must be around this huge lake, but the place is too big, tens of thousands of people came in, and it was impossible for everyone to fall in the same place.

Only on magic weapons like ships, they will be together when they fall, otherwise it must be random and don't know where they landed. This is not surprising, everyone just tries their best to familiarize themselves with the environment first and then wait for the next move.

Langya Well is just a passage, and here is another portal after passing through the passage. To enter the core and find treasures, you need to board the mysterious Langya crystal ship.

From now on, the killing switch is turned on, and those who enter Langya Well will start fighting for the treasure in the following time.

All the killings are actually for the purpose of being able to board the Langya crystal ship, or to grab the magic weapon that can board the Langya crystal ship. For this opportunity, people are willing to pay the price of their lives.
