Chapter 721: : Dragon Spirit

“That’s good, it’s not bad to ascend to the spiritual world and live in the Immortal world, it’s hundreds of times better than the mortal world.” The dragon didn’t care about the little tricks in Yang Chen’s words, and commented directly, and then suddenly asked: “It seems that you have guessed the identity of this old man.”

“Senior, please give me some pointers.” Yang Chen sent a kind message to the other party, and said with a smile.

“Where did you get this gourd?” the other party asked impatiently again. After such a long time, the dragon seemed to be getting weaker and weaker, and even the thoughts passed over brought an uncontrollable panting.

“This junior said that this junior has a lot to do with the dragon clan.” Yang Chen didn’t explain in detail, but stopped the dragon from asking: “Don’t worry, senior, you are in a bad state now, let this junior refine some pills to help you recover.”

“Help to protect me, I want to refine a pill.” The communication with the dragon just now has been through the Beast Control Art, the communication of spiritual awareness, which can neither be seen nor heard by others. Yang Chen decided to make alchemy, and immediately told the girls again.

The girls were a little stunned, wondering why Yang Chen wanted to refine the pill at this time. But they all understand that since Yang Chen has made a decision, he will not change it easily. As Yang Chen’s women, at this time, they had no other choice but to follow Yang Chen’s orders.

Everyone is already on the Langya crystal ship. For the time being, as long as all the girls pay attention with vigilance, no blind guy will dare to provoke the seven masters of the Dacheng stage and the four peak Yuanying stage masters.

Yang Chen’s actions reassured all the girls, alchemy is better than risking one’s life at the edge of the weak water, right? As for the treasure in the Langya crystal ship. From the very beginning, Yang Chen said that he wanted the pure yin true fire, and whoever finds other things doesn’t matter. After being

influenced by Yang Chen's wealth, the girls have not paid attention to any treasures that may appear in the Langya Crystal Ship, so there is no need to compete with others at this time.

The people on the Langya Crystal boat looked at Yang Chen's family in astonishment, putting on such a posture, they didn't know what they were thinking. After finally getting on the Langya crystal boat, he didn't even look around for the treasure, did he want to wait for the treasure to jump into his arms by itself?

Unexpectedly, those few guys who came to Langya Well have released all the customers they brought in at this moment. Their performance in this aspect seems to be very upright. None of the guys who paid with the spirit stones was in danger, and all of them boarded the Langya Crystal Ship safely. However, like Yang Chen's family, they found a corner to meditate on their own, and they didn't mean to rush to find the treasure at all.

No one understood their actions, and these guys who were lucky to board the ship began to search around, they don't know how many people regret it. If they knew that there would be these guys who brought people on board, and they only needed fifty catties of high-grade spirit stones to board the boat. Why bother to spend a lot of money and risk your life to board the ship, they just needed to meet these guys earlier.

Yang Chen ignored these guys who were greedy for treasure, put out the profound spirit furnace, and concentrated on refining the elixir. What was refined this time was the kind of pill used to restore the spirit of the pill, in order to restore the spirit of the dragon.

The current Yang Chen is not what he used to be. The medicinal materials used are many times better than those prepared by Elder Wu Xiong back then. The only thing that is lacking is the powder of dragon bead. The dragon bead is the inner alchemy of the dragon clan, there was a very huge one in the grass treasure house of the dragon clan back then. It has been thrown to be swallowed by Xiao Tian for refining and absorption. He doesn't know if there are any left at this moment.

With a thought, Yang Chen immediately contacted Xiao Tian. The dragon bead Xiao Tian has not been fully refined, but for Yang Chen's way of asking for a little powder, Xiao Tian seems very stingy. To put it bluntly, after promising a purified demon orb, he only got a little.

Since you want to be a good person, then a good person will do it to the end, send the Buddha to the West, when refining the elixir, Yang Chen did not hesitate to add the technique of the merit. He spent a lot of his own merits, trying his best to restore the dragon to its best state.

At this moment, the dragon was already in Yang Chen's gourd, and Yang Chen is not afraid of any threat to himself when the dragon becomes stronger. To put it bluntly, let alone a dragon spirit in the mortal world, even if it is the dragon spirit of the East China Sea Dragon King in the heavenly court, Yang Chen was sure to subdue him.

With Yang Chen's current level, such a pill didn't take too long. Of course, it was only relatively speaking, Yang Chen was immersed in alchemy and did not feel the passage of time, but when he completely finished refining the pill, it was already a month later.

It seems that only Yang Chen's family is left on Langya Crystal Ship, and no one else can be seen. Those people had already left one after another during Yang Chen's alchemy, and even those who re-entered the Langya Well again disappeared.

"Husband, the Langya crystal boat has arrived at the ground, and they all went down to search for treasure." Seeing Yang Chen's puzzled look, Tao Junqi immediately explained: "The Langya crystal boat is a magic weapon for ferrying, and this is the real place of treasure. "

When Yang Chen heard it, he suddenly understood. This is reasonable, otherwise, a Langya crystal ship seems to be only a few miles long, it can only hold so many people, there is no place to hide things. The Langya crystal boat is not a cave at first glance, it is just a tool to bring people to the destination, which makes sense.

"No rush, let's take our time!" Yang Chen said while putting the refined pill into the gourd.

"What kind of pill is this? It's still at the second grade!" The dragon hadn't moved for a while, and was recuperating obediently. It sounded like he was in better spirits, but he still looked weak. He don't know how many years it haven't communicated with others. As soon as he saw the elixir, he immediately knew that Yang Chen had finished the work, and immediately started talking.

"This taste..." Soon the dragon discovered the extraordinariness in the pill, the pill mixed with dragon bead powder brought him a very strange sense of intimacy. Because it's not his own Dragon bead, so there is a little bit of rejection, which was very weird.

The best material to restore the spirit body is the inner alchemy powder of the spirit body itself, but the dragon obviously does not have it. Fortunately, Yang Chen has already considered this problem, and deliberately used a lot of merit to calm the repulsion not caused by the dragon bead itself. As long as you get close to the elixir, you can feel that the spirit body is rapidly becoming stronger.

At this time, the dragon didn't care about what to say to Yang Chen, and directly rolled up the pill with his spirit body, and began to absorb the medicinal energy in the medicine pill from all directions, and the damage suffered by the spirit body before began to decrease a little bit.

"Let's also go and see what good things are here!" While the dragon was slowly recovering, Yang Chen waved at his wives and concubines and said, "What good things are there in the legendary treasure!"

Chapter 722: : Find Me A Body

The expected glittering eyes did not appear. On the contrary, when Yang Chen walked out, his eyes were completely dark, and he couldn't see anything at all.

"The place the Langya crystal ship brought us should be underground, without any light." Gao Yue's voice came from beside him, they had already come out to look at it in turn when they were protecting Yang Chen, and they were very familiar "Except for inside the crystal ship, it's pitch black outside."

For Yang Chen and others, the darkness didn't affect them too much, except that they couldn't see with their eyes, other sensations were there. As long as you activate your spiritual awareness, you can clearly know the scene around you, but those colors are gone.

As soon as he entered the darkness, Yang Chen subconsciously wanted to make some light. This is not intentional, but a purely subconscious habit. Before he could make a move, he was stopped by Gao Yue who was beside him.

"There is no need to emit light." Gao Yue's voice sounded from the side: "Those people specifically attacked places with light, and many people have died."

It seems that during Yang Chen's alchemy process, many things happened here. Treasure hunting and killing people here is simply a common plot.

This time Yang Chen was a little surprised, the people who went out had never said this, and of course, they never said that someone would bring them on the Langya Crystal Ship to earn spirit stones. It can be seen that there are still some people deliberately concealing it, and they don't intend to let others know.

In this way, everyone can only rely on spiritual awareness instead of eyes to explore the environment here. For Yang Chen, this is a good thing. If everyone can only use spiritual awareness, his spiritual awareness, which has already reached the tenth grade human Immortal realm definitely has the greatest advantage. With the addition of the jasper cup, Yang Chen can even kill anyone without making a sound.

This area is very large, and the spiritual awareness alone can detect more than hundreds of miles. However, except for Yang Chen's family, there is no trace of anyone else in this area now, and it is estimated that they have already gone to a farther place.

"Husband, which direction are we going?" Shi Wushuang's voice came over, seeming a little scared. After all, she is still a woman. For this kind of deep darkness, she still has an instinctive fear, even if she is already a Dacheng stage master.

"Don't worry, take your time." Seeing this situation, Yang Chen didn't know what to do. It was a bit unrealistic to wait for his spiritual awareness to explore the surroundings. After thinking about it, he ordered: "A'Ling, just walk around and explore the way, then you lead the way."

The geographical map of mountains and rivers can simulate the topography of hundreds of miles, and naturally it can also let Gongsun Ling know which direction to break through. But now it is most important to let the mountain and river geographic map form the simulated terrain first.

He casually received the girls into the shuttle. Finding a direction at random, Yang Chen controlled the shuttle to fly at high speed. They didn't care about anything else along the way, just let Gongsun Ling fully simulate the terrain inside, and at the same time wait for the dragon to recover.

As expected by Yang Chen, it didn't take too long for the dragon to recover, in just two days, it basically returned to the original state of the dragon. Based on Yang Chen's contact with his spiritual awareness, this guy has at least an eighth-grade human Immortal realm spiritual awareness. This is still the performance of the pure spirit state, if the physical body is still there, he don't know how strong it will be.

"It's so comfortable!" The dragon let out a moan of satisfaction, and he no longer felt weak, and sighed: "This feeling of complete relaxation is really memorable!"

After sighing, the dragon suddenly sent a sentence to Yang Chen: "For the sake of refining the pill for me, I won't take it from you. You have to find me a body and let me take it away."

In the dragon's tone, there was no politeness at all, full of high-handed charity and arrogance that Yang Chen could not resist.

"Are you sure you're talking to me?" Yang Chen's tone became less calm for a moment, and he became tit-for-tat.

This guy didn't seem to have figured out the situation yet, and he thought he was going to get Yang Chen. Although with his spiritual awareness cultivation base. From the point of view of common sense, it should be no problem to deal with Yang Chen who was a little Yuanying stage master. But there are no absolutes in the world, and Yang Chen in front of him is definitely an exception among exceptions.

The reason why Yang Chen didn't turn his face directly was that this guy still knew how to be grateful, at least he said that he would give up Yang Chen because of Yang Chen's love for helping him make alchemy. From this point of view, it was worth Yang Chen's rescue.

"Of course, who else is it if it's not you?" The Dragon said as a matter of course, without the slightest sense of asking someone to do something.

"Okay!" Yang Chen agreed, took out the Flying Dragon Bone Sword, and threw it into the gourd: "How about this?"

"I am a majestic real dragon, let me be attached to the dragon bone, what a joke!" As soon as the dragon touched the dragon bone flying sword, he immediately understood what it was, and immediately became angry: "Besides, there is your spiritual awareness on it!" The mark of recognition is clearly your magic weapon, so let me be the magic weapon?"

The dragon's words moved Yang Chen's heart, and he suddenly laughed: "It seems good to be a tool spirit!" As he said that, he was already thinking about which tool spirit to let this guy be.

Boom, the dragon didn't answer Yang Chen's words, but the whole area started to explode. The spiritual awareness of the eighth grade human Immortal realm directly reached the limit, and it hit Yang Chen's spiritual awareness fiercely. This kid who doesn't know what is good or he really thinks he is a soft persimmon, is he so easy to pinch? If he doesn't teach him a lesson, he wouldn't know how many eyes Prince Ma has.

To the dragon's surprise, Yang Chen didn't suffer any pain from his full-strength attack from his spiritual awareness. It even seemed that Yang Chen didn't even feel anything. After accepting such a collision, Yang Chen still acted as if nothing had happened, without any change.

"How is it possible?" The dragon thought that his spiritual body had recovered, and Yang Chen should be vulnerable, but the facts in front of him made him unable to believe it at all.

"Nothing is impossible, senior!" Yang Chen's words came back through the connection between the two of them, and then there was a hint of teasing in his voice: "Even Senior doesn't want to take possession of this weapon, could it be that senior still wants to find a real dragon to possess?"

"That's natural!" As soon as the words were passed on, the dragon realized that something was wrong. Yang Chen had already said that all the real dragons had already ascended, and there were no real dragons left in the world. He wanted to possess himself, his wish seems to be coming true.

"Since this is the case, senior, let's see if this is suitable?" Yang Chen suddenly smiled and put Xiao Tian in the gourd. At the same time, he didn't forget to tell Xiao Tian to teach the dragon who still couldn't recognize the situation clearly, let him know who is in charge here.

Chapter 723: : No Need To Think About Seizing My Body

“What is this?” The dragon was a little surprised at first, as if he had never seen Xiao Tian before, but the dragon qi on Xiao Tian’s body immediately made the dragon happy, and he rushed forward without thinking.

Roar! Of course Xiao Tian also noticed the dragon’s movements, and he roared angrily at the dragon. A kind of joy at seeing the prey suddenly appeared on the dragon’s head, and then opened its big mouth, sucking it violently.

As a monster, he usually feeds on the spirit of weapons. What is a spirit? To put it bluntly, it is a spirit body, but it is just a spirit body belonging to a magic weapon. Although the dragon spirit is the true spirit of a real dragon, in essence, it still has not escaped from this range. Xiao Tian knew very well how beneficial the pure dragon spirit would be after being absorbed by him.

As soon as Xiao Tian took a breath, the dragon couldn’t help but fly towards Xiao Tian’s mouth. At this moment, the dragon was scared out of his wits, and at the same time he knew what Xiao Tian was. Even if Xiao Tian’s cultivation base is much lower than the dragon’s, this natural restraint ability cannot tolerate his challenge.

“Don’t!” The dragon uttered a terrified scream, frantically trying to get out of Xiao Tian’s control. It’s a pity that he is only a spirit body, and in front of Xiao Tian, it is impossible to get out of Xiao Tian’s control range.

“Didn’t you want the body of a real dragon to use?” Yang Chen seemed to be watching a show, and his voice came into the dragon ears: “Xiao Tian can barely be regarded as a dragon son, so you can just use it!”

“No!” The dragon no longer had the arrogance and domineering attitude that he had before, and could not say anything other than saying no in horror. And while he conveyed this meaning, the dragon was getting closer and closer to Xiao Tian’s big mouth.

The traces of dragon qi spouting from Xiao Tian’s mouth were no longer as kind as in the dragon’s eyes, but at this moment, they are as terrifying as the impermanence that seduces the soul and kills the soul. No matter how terrified the dragon yelled, the movement of his body flying towards Xiao Tian’s mouth did not stop.

All the movements stopped when the dragon was about to enter Xiao Tian's mouth, and when Xiao Tian could lick off a layer of skin from the dragon just by sticking out his tongue and licking it lightly. Close to the monster's lips, the dragon felt an unprecedented fear, and in front of him seemed a very suitable object to seize. It looks so hideous now, so scary.

"The dragons also want to fight for their homes, are you too shy?" Yang Chen's teasing words reached the dragon's ears again.

"Cannibalism is not exclusive to you humans." Although the dragon was afraid, he also understood that Yang Chen had no intention of killing him at the moment, and his tone calmed down.

After sending Xiao Tian back to the Dragon Palace, Yang Chen faced the dragon alone again "Tell me, who are you, why are you in the weak water, and what's going on with the erosion spirit dragon fire?" "At this point, Yang Chen even omitted titles such as senior and junior, and just called you and me.

The spiritual awareness could not shake Yang Chen's spiritual awareness, and he was still firmly restrained by Xiao Tian, the dragon also understood his current situation. There is no other way, people are knives and he was the fish. The dragon didn't even have the possibility to resist, so he could only cooperate honestly. He didn't want to face Xiao Tian's big mouth again, and feel the breath exhale from Xiao Tian's mouth.

"I was attacked and lost my physical body. As a last resort, I entered the weak water and used the power of the weak water to warm up my spiritual awareness." The dragon recognized the situation, without any concealment, he quickly replied: "The erosion spirit dragon fire is my life source fire, but I lost my body, and the fire began to backfire, making me weaker and weaker. If I hadn't met you, maybe it would be another thousand years and I will be completely gone."

The dragon's words sound simple, but they contain a lot of news. Being attacked by someone, by whom? How daring is it to dare to attack the True Dragon Clan? In addition, even in such a weak situation, this guy can still resist the erosion spirit dragon fire for thousands of years, which is enough to show that this guy is excellent at controlling fire.

"What's the matter with Langya Well?" There was this guy who was barely half a local snake. Of course Yang Chen had to ask clearly.

“The sect that attacked me back then was annihilated by me in a rage, but I also lost my body. The sect’s mountain protection formation is still functioning, and it will be opened every few hundred years.” The dragon said very lightly, however there is inevitably a sense of complacency, and it is indeed worthy of his pride to destroy a sect by himself.

“Erosion spirit dragon fire is your life source fire, but you can’t resist it?” Yang Chen didn’t give him a chance to be complacent, and asked a different question.

“I lost my physical body, and my spiritual body was born to be restrained by the erosion spirit dragon.” On this point, the dragon was really not complacent, and could only say bitterly: “If it weren’t for every few hundred years, there would be tens of thousands of guys who rushed in, fell into the weak water and was swallowed by the erosion spirit dragon fire and increased the intensity of the fire, I would have extinguished the fire long ago.”

The dragon was a little dissatisfied when he said it, but if he really asked him to extinguish his life source fire, he probably couldn’t bear it. On the one hand, it is his own life source fire, and on the other hand, it is his life source fire that restrains himself. This feeling of contradiction is definitely quite uncomfortable.

People have always thought that the weak water hurts people here, even Yang Chen thought so before, only now did he realize that what really kills people is the erosion spirit dragon fire. This kind of fire that burns soundlessly, invisible, and colorless, no one can see it even in weak water, and no one even dares to come down to investigate easily. If it hadn’t been for Yang Chen, a freak who thought of collecting some weak water when he boarded the Langya crystal ship, he would never have discovered the secret inside.

The dragon must have also discovered that the opportunity is rare. If the erosion spirit dragon fire entangles Yang Chen, he can naturally get out of trouble quietly. The only thing he didn’t expect was that Yang Chen was able to restrain the erosion spirit Dragon Fire, which also made the dragon plan to cooperate with Yang Chen. He was polite to Yang Chen before, on the one hand because of his affection, on the other hand he felt that Yang Chen could take advantage of him.

“It’s a good plan!” Yang Chen smiled, and then said: “What are your plans now? However, you don’t have to think about seizing my body, you don’t even need to think about Xiao Tian. There is no real dragon in this mortal world, wait for me to ascend then we will talk later.”

“What else can I do?” The dragon sighed, and said helplessly: “It’s up to you to arrange it!” The situation in front of him is basically Yang Chen’s decision, and the dragon sees it very clearly, so he behaved. He is also very clever, without any reconciliation.

“You have two choices.” Yang Chen said with a smile: “One is to be the sword spirit of my wife’s dragon-horned flying sword, and the other is to be the weapon spirit of another fire-attribute magic weapon. Of course, when you meet a suitable body, I will let you out to seize the body, you can choose for yourself.”

Chapter 724: : Profound Spirit Furnace Tool Spirit

“Dragon Horn Flying Sword?” The dragon immediately exclaimed: “You still have the Dragon Horn Flying Sword? How many magic weapons of the dragon clan do you have? Are you the enemy of the real dragon clan?”

“Well, it’s a long story. Anyway, you know that I have a lot of connections with the real dragon clan.” While talking, Yang Chen took the dragon spirit out of the gourd and threw it into the Dragon Palace.

The abundant spiritual power and familiar aura of the Dragon Palace made the dragon stunned immediately, and then yelled frantically: “This is the Dragon Palace! You actually took the Dragon Palace too? It’s a pity, this is the Sea Dragon Palace, of the water attribute. Otherwise, the Dragon Palace is the most suitable.” After finding the Dragon Palace, the dragon sighed with admiration, and felt a little more regretful.

In surprise, the dragon was about to look around the Dragon Palace, when he suddenly saw Xiao Tian soaking comfortably in the four seas mysterious coral liquid outside the Dragon Palace, his enthusiasm for a while was extinguished, and there was nothing more to do.

“I have quite a few magic weapons of the dragon clan. However, since you have the life source fire seed, you must be a fire dragon. There are not many suitable for you.” Yang Chen didn’t care about the changes in the attitude of the dragon spirit before and after, and said directly: “The fire dragon horn refined flying sword is suitable for you to live in.”

“Is there another fire-attribute magic weapon you mentioned?” After hearing Yang Chen’s words, the dragon was silent for a while, then asked again suddenly, obviously interested in the fire-attribute magic weapon that Yang Chen said.

Yang Chen didn’t know why the dragon was not interested in the Fire Dragon Horn Flying Sword, but he would not force the dragon to be the sword spirit of the Dragon Horn Flying Sword. The twisted melon is not sweet, if the dragon is not voluntary, the effect can only be counterproductive.

The profound spirit furnace silently appeared in front of the dragon, and it caught the dragon’s attention as soon as it appeared. As the dragon spirit of the fire dragon, he immediately discovered the extraordinariness of this alchemy furnace, and when he got close to it, he sensed it carefully, and was suddenly shocked.

“This is the aura of the sixth-grade fire seed, the fifth-grade fire seed, the fourth-grade fire seed...” After savoring it carefully, the dragon’s tone became obviously excited: “There are so many fire seeds in your pill furnace”

“There are many types of fire seeds, the only thing that is a bit inappropriate is that this is not the magic weapon of the dragon clan, it just doesn’t have the aura of the dragon clan.” Yang Chen replied very proudly. The profound spirit furnace is Yang Chen’s proud work in this life. From a low-grade alchemy furnace at the beginning to the strongest alchemy furnace in the world, Yang Chen’s effort is not the slightest bit lacking, so he is naturally proud of it.

Now in Yang Chen’s profound spirit furnace, almost all fire seeds below the sixth grade have been included. There are also two kinds of sixth-grade fire seeds, plus the seventh-grade fire such as the erosion spirit dragon fire, which has surpassed all alchemy furnaces in the world, and there is no stronger alchemy furnace than the profound spirit furnace.

“I choose this!” The dragon made the choice almost without hesitation. Even before he saw the Dragon Horn Flying Sword. As a fire dragon, facing so many fire seeds, including his own fire seed, he would never choose a flying sword that was definitely not made from his own dragon horn.

“The only thing is before that, you can absorb the medicinal qi to grow stronger when I am refining alchemy. But you must also do your best to help me refine alchemy, otherwise, I don’t mind Xiao Tian eating one more spiritual sense of senior.” He mentioned everything, lest this guy be dishonest: “You also said that cannibalism is not exclusive to human beings.”

This is a real threat. If you can't go to the next level with your own handy alchemy, then it's better not to have it. It's not that Yang Chen has to rely on this dragon spirit, he just subconsciously feels that having this guy can be more beneficial.

"If you meet a suitable body after ascension, allow me to reincarnate." The dragon put forward his own conditions without hesitation.

"Deal!" Yang Chen nodded without thinking, he was not sloppy at all.

The two sides hit it off immediately, and now the dragon didn't procrastinate, and went straight into the profound spirit Furnace. Immediately, Yang Chen began to refine, so that the dragon and the profound spirit Furnace could become one. This is a necessary process to increase its success, the dragon and Yang Chen's spiritual awareness cultivation is really too strong. This process did not take much time and was completed quickly. After finishing it, Yang Chen didn't even think about it, and directly cultivated it once with the qiankun treasure cultivation art.

"Comfortable! Good guy!" After finishing, the dragon let out two praises in succession. His voice directly reached Yang Chen's mind through the profound spirit furnace. One is to praise the feeling that qiankun treasure cultivation art gave him, the other sound was directed at the profound spirit furnace itself.

"If you can have some dragon qi and some of my body, this alchemy furnace will be able to survive the tribulation immediately." Being in the profound spirit furnace, becoming a weapon spirit, the profound spirit furnace is excited to control every kind of flame. After reading it again, he sighed: "It's a pity!"

"I do have some dragon yuan." Yang Chen absorbed a lot of dragon yuan when he was in the Dragon Palace in the sea of no return, and now all of them have turned into a white dragon in the sea of consciousness. When he confronted the dragon head-on, he knew that he was a dragon, so he didn't use it. Now that the dragon mentioned it, Yang Chen immediately used the white dragon's qi in the sea of consciousness, and penetrated it into the profound spirit furnace.

Feeling this pure dragon qi, the dragon became excited again, and almost yelled at Yang Chen: "Quick, quick, I dropped a few dragon scales during the battle, right here, find them! Find them!"

Dragon scales? Yang Chen was taken aback for a moment, and then he was overjoyed. The dragon's own dragon scales must be able to make him more compatible with the profound spirit furnace. In the past, the profound spirit furnace was unable to survive the tribulation because it didn't have a weapon spirit. Now that there is such an opportunity, how could Yang Chen miss it?

It's not that Yang Chen doesn't know about the magic weapon to face the tribulation, but in his previous life, Yang Chen had only heard about it, and never had the opportunity to have such a magic weapon. Ordinary people's life source magic weapon is nothing more than going through the tribulation with the owner, and the magic weapon itself that can survive the tribulations, are very few. But whatever you take out, it's an incredibly precious weapon.

This is the second magic weapon that Yang Chen owns, the first one is of course the Medicine Garden. The previous Medicine Garden did not have the ability to pass the tribulation, and it is not known that now that Abi has absorbed the blood demon vine and the demonized demon vine, after Azhu merged with the Immortal peach, it has not yet reached the edge of the tribulation.

Either way, it's a great thing. There is no doubt that the higher the level of the profound spirit furnace, the greater the benefits for Yang Chen. That being the case, what he was looking for now, besides the pure yin true fire, another thing is added, which is the dragon scale of the dragon spirit's own body.

"Where is your dragon scale?" Yang Chen immediately asked, the Langya Well has been opened so many times, who knows if the dragon scale has been taken away by others.

"It's still here." The dragon replied very firmly "I couldn't sense it before, but now I have fully recovered. It's still here, my feelings can't be wrong."

Chapter 725: : Dragon Scales

Although Long Ling can be sure that his dragon scale is here, but the space is too large, with a radius of tens of thousands of miles, even he can't be sure where it is. If he wants to find it, Yang Chen has to work hard. After all, the dragon spirit is just a tool spirit now. After merging with the profound spirit Furnace, it is impossible for the spiritual awareness to spread through the profound spirit furnace.

It is certain that the dragon scale is still in this space because of the mysterious connection between the main body and the spiritual awareness, otherwise it would be impossible to know.

The flying shuttle has been wandering around for a few days. When Yang Chen and the dragon worked together to refine the profound spirit furnace, it was Gongsun Ling who was always controlling the flying shuttle. The effort of the past few days was enough for Gongsun Ling to cover all the places tens of thousands of miles away. They went around, at least there is a complete simulated terrain in the geographical map of mountains and rivers.

The geographical map of mountains and rivers has a small defect, that is, if a formation is arranged in a certain place, the geographical map of mountains and rivers cannot detect the terrain inside the formation, and can only display the outline of the edge. Unless one enters the formation, otherwise, it is impossible to detect the situation in the formation.

Therefore, although Gongsun Ling traveled to many places, there was basically no detailed simulated terrain in the places where the sects were entrenched, and only the Pure Yang Palace, which had no defenses against her inside and outside, had a complete terrain. It is even possible to simulate all terrains through the geographical maps of mountains and rivers.

This is the same situation here. In this underground unknown space, there are many places that cannot be detected by the geographical map of mountains and rivers. But this also indirectly shows that those places are the places worth exploring.

“In addition to looking for the pure yin true fire, we also need to find one more thing.” After the dragon was settled, Yang Chen could finally ignore him and concentrate on communicating with his wives and concubines. Immediately, he added another one to the target he was looking for.

All the girls were very curious, what kind of things they were looking for, he only said after they came in. When Yang Chen explained the cause and effect, all the girls were stunned.

Who would have thought that there was a dragon spirit hidden in that weak water that killed people without counting, and there was a seventh-grade fire such as the spirit-eroding dragon fire? Just a short experience, almost all of them can be written into a wonderful storybook. This is not to mention the amazing thing that Yang Chen subdued the dragon spirit to become the tool spirit of his alchemy furnace, and as long as he collected the dragon scales, he could make the alchemy furnace survive the tribulation.

Regarding this aspect, all the women were not as knowledgeable as Yang Chen, even Tao Junqi from the Greatest Heaven Sect has only heard of the magic weapon to face the tribulation. But she never knew what conditions were required for the magic weapon to survive the tribulation, let alone see one. If they can really succeed, it will be enough to make their understanding of cultivation to a higher level.

In fact, mortal magic weapons are rarely able to do this, just like Yang Chen has refined so many pills. Only the six desires pills have the experience of excessive tribulation. Without the weapon spirit, without refining the magic weapon sacrifice to a certain level, it was impossible to have a chance.

The matter of the dragon was just an episode, the real purpose of coming in was to find the Pure Yin True Fire, at most now there was one more target to find the dragon scales, the rest hasn't changed much. Of course, there is another purpose for Yang Chen to bring his family in, which is to cultivate quietly here, without paying attention to the quarrels between the sects, and quietly waiting for the bad luck of the Greatest Heaven Sect.

“Get what you want, and if others want to fight, then fight. Everything here is ownerless, and those who are destined will get it. Don't be afraid of anything.” If you like others, you don't have to give in. This is the principle Yang Chen set for the girls, and then, the family began to explore the path one by one.

Most of the people who come in have similar ideas. Especially those “second entry people” guys who brought people on board the ship, they are very familiar with the way. The good things here are not taken away at once, but one or a few items will suddenly appear at an unknown time. This is the reason why the Langya Well has been opened countless times over the years and still has people flocking to it.

Gongsun Ling leads the way to start looking for formations with relatively moderate strength. Those weakest formations, she believes there will not be any good things in them that are worthy of the hearts of women.

Around every formation, everyone was doing research. Everyone has the same thought, as long as they break through a formation, they can get at least one good thing, this was the consensus.

When you don't see the real resources, everyone can still maintain a certain degree of restraint. Who knows if there are any good things in it, and the first one who goes in may not be able to find it. They don't think that any formation is so big, at least it is a few miles around. Treasures still have to wait for those who are destined!

For so many years, no one has discovered that there is a pure yin true fire here. Yang Chen's plan to search for it by relying on the aura of the fire has been wasted. This is not something that can be found casually, maybe Yang Chen can only find it by looking through it one by one.

Formation is Gongsun Ling's strong point, so the matter of breaking the formation was left to Gongsun Ling. Sometimes Yang Chen just gives advice to Gongsun Ling and asks her to refer to it, but he never takes the initiative to break the formation. Although the Murong sisters used formations in battle, they preferred the five-element formations. They didn't dabble a lot, and occasionally they could only make suggestions, not take the lead. The other girls also knew that they were not very good at formations, so they all waited quietly, enjoying the process of searching at the same time.

Yang Chen said long ago that entering Langya Well is also a good place to hone everyone's mind and cultivation. Everyone is a master, so they naturally understand this truth, and will not waste a moment.

In front of the first formation, Gongsun Ling didn't spend too long, and successfully broke through the formation in less than ten days.

As soon as the formation was broken, a group of people who had already been waiting by the side rushed in, regardless of who broke the formation. In their hearts, it doesn't matter who broke the formation, what matters is whether they can be the first to rush in and find the things inside.

Yang Chen's family were not in such a hurry, whether it was the dragon scale or Pure Yin True Fire, they were not things that could be taken first. Seeing a group of people rushing into the formation one after another, they walked in calmly after waiting for a while.

As soon as he entered the formation, before he saw anyone, Yang Chen heard the sound of fighting. These guys are really a bunch of scumbags, they probably didn't even know what good things were in it, but they were already eager to move their hands.

They didn't know which guy was cheap, but when they saw a group of people coming in suddenly, they immediately greeted them with a sword. This time, it can be regarded as stabbing a hornet's nest.

The girls have long been dissatisfied with these guys, and they just ignored them for the time being, and now they dare to bully them, if it was tolerable, what can't be tolerated?

Chapter 726: : Asking For Directions

None of the four regular wives did anything, but Tao Junqi and the others did. Ever since they found out that Gao Yue and the others had experienced the experience of the Demon Continent and their combat effectiveness was very strong, they felt that they were faintly at a disadvantage.

They are obviously masters in the Dacheng stage, but they were firmly suppressed by the four wives in the Yuanying stage, which makes them very uncomfortable. Therefore, if there is such a fighting chance, they have already said something before handing it over to them. Gao Yue and the other three women only need to take care of their husband with peace of mind.

With the fighting in the Demon Continent and the experience of the mortal world a hundred years later, Gao Yue, Gongsun Ling, Shi Shanshan and Sun Qingxue are very open about certain things. There's no need for so many people to take action, and it's nothing to flatter those guys who don't know what to do.

The seven girls made a move, and even before releasing the iron wing flying eagle, the people inside couldn't take it anymore. This is where a medium-difficulty formation is located, and the real masters are all concentrated on the high-level formation, and few of them who stay here can compete with the seven girls.

After killing more than a dozen guys in one shot, no one on the opposite side of the seven girls dared to provoke them easily, and with a huff, they all ran away cleanly.

The enemy fled, and they had no intention of chasing them. They came here to find something, not to kill people. Gongsun Ling worked hard for a while, and had already simulated the topography of the area protected by the formation, and directly marked several doubtful points.

Yang Chen's spiritual awareness swept across those places in an instant, and after investigating, he shook his head directly. They were just a few bad magic weapons, and to him, they had no other value other than exchanging for some pitiful spirit stones. Without even looking at those things, Yang Chen turned his head and left.

As soon as he left, the girls naturally followed behind. After the whole family left, a few brave guys who were still wandering around quickly ran back. After a while, four or five people left happily. Afterwards, this place was surrounded by several waves of people. After patronizing, no one will come in to take a look.

After dozens of formations in a row took the whole family about several months, Yang Chen and the others could not find anything related to the Pure Yin True Fire and Dragon Scale. Every time they saw some dispensable things, there were a few things that the girls could take a fancy to, and they were all put away, and the rest were left in place untouched.

Although they know that it is not easy to find a needle in a haystack like the pure yin true fire and dragon scales within a radius of tens of thousands of miles, but it was indeed frustrating to find them one by one in such an aimless manner.

“Let’s see where those guys who re-entered the Langya Well are!” Sighing, Yang Chen finally gave up this kind of clueless search, maybe finding someone who is familiar with this place to lead the way is the right way. Of course, in terms of familiarity with this place, who else could there be except those guys who entered Langya Well for the second time?

In fact, all the girls have been paying attention to the whereabouts of those guys. Gao Yue, Gongsun Ling and the others have even secretly imprinted their spiritual awareness on those guys. Regardless of the fact that those few are all masters in the Dacheng stage, with their current cultivation of second grade human Immortal spiritual awareness, it is a breeze to keep an eye on those guys without anyone noticing.

Yang Chen made a decision, so the next thing everyone has to do is to find those guys. The few people were very divided, and Yang Chen didn’t want to only listen to one person’s side story, so he decided to find out all the people before asking. With Gongsun Ling and Gao Yue around, it was not too difficult to find each of them.

“This fellow daoist, I Yang Chen, wants to ask fellow daoists about something, I want to ask for directions, please enlighten me.” Every time he found one, Yang Chen said these words: “ I will not say a mere thank you, but will give you a six desire pill as a show of respect !”

As soon as they met, Yang Chen’s rich and powerful spiritual awareness was fully realized. He offered a six desire pill as a thank-you gift first, and his tone and attitude were full of asking for advice. Sincere attitude is full, no matter who has no reason to refuse, they can bring a person aboard the Langya

crystal ship for fifty catties of high-grade spirit stones, so of course they will take the top-grade pills like six desire pills, which has been hotly hyped outside.

To put it bluntly, after entering the Langya Well, it is still unknown whether you can find something better than a six desire pill. This is Yang Chen, who can have such a generous move, if someone dares to ask someone for a way and give a six desire pill, he will be regarded as a liar, and then he will be beaten till his mother will not recognize him.

“Grandmaster Yang, despite your orders, I will tell you everything, and I will say everything!” After actually getting the six desire pill and confirming that they were not dreaming, all those people had the same attitude. No one objected to Yang Chen gathering everyone together to ask questions. Everyone understood that Yang Chen was afraid that one of them would deceive him, so everyone gathered together to confront him.

After everyone found them all, Yang Chen asked his seven concubines to guard the periphery, arranged a few sound-isolating formations, and began to ask.

“I came down to the Langya Well, I just want to find one thing, several fellow daoists are familiar with this place, I don’t know if you have seen the Pure Yin True Fire?” Yang Chen didn’t hide anything, and directly told these “guides” his own purpose. Of course, the dragon scales must be kept a secret, what he mentioned was the pure yin true fire.

Yang Chen likes to collect fire seeds for alchemy, which is also well-known outside, just like Yang Chen likes to collect miscellaneous books, no one will doubt the famous things. Besides, the pure yin true fire seventh-grade fire seed is not something that anyone can get their hands on. Even a pure Dacheng stage fire cultivator may not dare to touch it. If you know the whereabouts of such a thing, tell Yang Chen that you will get a lot of resources as you, what’s the matter?

There were seven people in total, and when they heard that Yang Chen was looking for the Pure yin true fire, all of them frowned. In the dark underground, Yang Chen couldn’t see their expressions, but he could detect the hesitation on their faces at the moment through his spiritual awareness.

“To tell the truth, Grandmaster Yang, although I have been in Langya Well once, I have never heard of the pure yin true fire in the Langya Well.” Immediately someone told what he knew. Several other people also nodded when they heard the words, as if they had never heard of it.

“Grandmaster, is the news wrong?” After a clever question, he immediately realized that something was wrong, and hurriedly corrected it “Based on my experience, if there is no pure yin true fire here, there is only one possibility.”

“What’s the possibility?” When Yang Chen heard that this guy seemed to have something to say, and he might really know something, he hurriedly asked.

Chapter 727: : The Langya Cave

“Perhaps the fire seed is in those few places that have never been opened before.” The person who answered didn’t hold back, and directly expressed his guess.

When he said this, the others immediately reacted and nodded. In Langya Well, not all the places have been searched by people. There are a few places, but people who have come to explore in the past have not been able to enter. Since the outside world has never entered it, maybe the things are in these places.

Hearing this, Yang Chen immediately regained his spirits. There is such a place, and no one has ever entered it, so it is very possible that there is a pure yin true fire that no one has heard of.

“Where is it?” Before Yang Chen could ask, Sun Qingxue anxiously asked for Yang Chen. The others also seemed to be listening, waiting for these people to answer.

“Grandmaster Yang doesn’t know something.” The expert who was the first to conjecture said, “In this Langya Well, there are three great danger zones.”

Since it is called a danger zone, then don’t ask, there must be a great danger, otherwise it will not be called a danger zone. All the girls pricked up their ears and listened carefully, for fear of missing something.

“Every time people who enter Langya Well and survive, after more than ten years, basically all the formations that can be cracked have been found, and they will all gather here to the three great danger

zones.” One person mainly described, and the others were responsible to add, the scene of the three great danger zones began to be told to Yang Chen’s family.

The reason why it is called a danger zone is because many people died in these three places. If the dead people go in, that’s all. The problem is that thousands of people died outside the three danger zones, but no one can get over the thunder.

No one knows what’s in the danger zone, only that it must be something great. However, no one can decipher the three formations outside the danger zone. From the beginning of the legend of Langya Well to the present, the danger zone is still a danger zone, no matter how many waves of people come in.

The three danger zones are all recognized, and basically those who can survive in Langya Well will eventually gather near these three danger zones, wanting to try their luck. Of course, there are a lot of people who don’t believe in evil, and the end result is that they die themselves, and then become a failure to remind others.

Everyone wants to know what’s in the danger zones, everyone wants to keep it for themselves, and no one succeeds. Smart people just watch and don’t do anything, fools are doomed. Outside the danger zone, it’s as simple as that. In fact, everyone understands that this danger zone is nothing more than three formations with strong protection, and no one has cracked it so far.

The danger zone is actually not a secret, as long as everyone finishes looking for those outside places, they will focus on the three danger zones. It was only about ten years, relying on this news, the several people earned a six desire pill, which was definitely worth it.

All seven people said the same thing, and there must be no false news. Yang Chen sent the seven of them off very politely, and then discussed with the wives and concubines whether they should go and have a look.

“In the past, I could only look at it, but not do it!” Gao Yue hastily made a decision first. Since it is known as a danger zone, it must not be that simple. If they do it lightly, they may be in big trouble.

Gao Yue knew the character of her husband and apprentice, he might take risks when he got to the land, so she made a good call in advance to avoid accidents.

Of course Yang Chen agreed, he was not a reckless person, he will not commit suicide. Instead, he was a little curious, what kind of formation could block the footsteps of so many treasure hunters? To put it bluntly, these treasure hunters are sometimes real experts in certain fields, and their attainments are comparable to those of the masters of the big sects. Even if they are stumped, the difficulty can be imagined.

The first place they rushed to should be a cave. The reason why they say yes is because everyone doesn't know what is inside, and what blocks everyone's way is a stone gate at the foot of the mountain. The entire mountain has been sealed, and it can only be entered and exited through this stone gate.

The Langhuan Cave is one of the three great danger zones, and it was also the least dangerous place among the three great danger zones. But even so, there are still many corpses around the Langhuan Cave, some of which have rotted into powder, and they become a pile ash with a light touch.

Beside the stone gate at the entrance of the cave, there were several fresh corpses. These are guys who don't know how powerful the Langhuan Cave is, and go up recklessly to open the cave door. Every dead body seemed to have a fearful expression on its face, obviously feeling great terror before dying.

According to the guesses of the seven guides and the legends of the predecessors, this stone gate cannot be opened at all. Once the cultivators use their spiritual power when contacting it, all the spiritual power in the whole body will be absorbed by the stone gate. If you don't use your spiritual power, you'll be fine, but if a cultivator doesn't use his spiritual power, how can he open such a big stone door?

"Try it with a puppet." Yang Chen originally planned to try it himself, but was stopped by Gao Yue, and then came up with a compromise. Gao Yue, Gongsun Ling, Shi Shanshan, and Sun Qingxue all have a puppet made from the corpse of a gray mantis, and it is the safest way to test it.

Sure enough, as rumored, when Shi Shanshan's puppet used spiritual power, it seemed as if it was completely sucked by the door. If Yang Chen didn't see the situation was not good and he directly forcibly smashed the puppet, maybe Shi Shanshan would also be implicated. However, Gongsun Ling's puppet did not use its spiritual power, and nothing unusual happened after touching it for a long time.

"It looks like it's a powerful spirit-absorbing array." Yang Chen also had a spectrum in his heart, pondered for a while, and suddenly laughed: "There is a way."

“What way?” All the girls’ eyes lit up. Although they couldn’t see clearly in the dark, they could all sense the excitement of their companions. The danger zone, which has troubled countless generations, can be solved in the hands of their husband. Of course, they are worthy of their pride and joy.

“Two ways.” Yang Chen replied with a smile: “Since it is a spirit-absorbing formation, as long as it is a formation, there is a limit. If you give it a lot of spiritual power to absorb it, there will always be times when it can’t absorb it. However, this method consumes too much, and if measured by spirit stones, it will be a huge number, which is not worth the candle.”

All the women understand this truth, but no one will really use this method to break the formation. As Yang Chen said, it consumes too much. Don’t look at so many Dacheng stage masters dying here, it doesn’t use a few catties of spirit stones. What can be measured must at least speak with top-quality spirit stones facing upwards.

“Is there another way?” Sun Qingxue immediately asked about the other way.

“Actually, it’s easy to say, it’s just that a lot of people have been on the edge of their horns and couldn’t think of it.” Yang Chen said with a smile “We don’t need spiritual power, we use tools, we use brute force to open this stone door.”

Chapter 728: : Opening The Door

Cultivators do sometimes have trouble thinking about certain things. When they have been reliant on spiritual power all their lives, they will subconsciously think that without spiritual power, they can’t do anything.

Yang Chen is different, Gao Yue, Gongsun Ling, Shi Shanshan and Sun Qingxue are also different. They have all experienced the process of being sealed in their cultivation bases and then living like ordinary people for a hundred years. In this regard, they have a layer of understanding compared to other cultivators.

There are actually many ways for ordinary people without spiritual power to deal with immovable stones and logs. The simplest thing is to use a tool like a lever to prop up the weight they could not bear by relying entirely on physical strength.

The same is true for this stone gate, which cannot use spiritual power. In the eyes of ordinary people, it just thinks of various ways to achieve the goal. In the eyes of cultivators, it becomes another way of thinking.

First of all, everyone's first thought is to break the formation first. As long as the formation is broken, this problem does not exist. Of course, this idea is also normal. The other party has arranged a formation, and it is enough to break it by yourself. There are comings and goings, and they are upright.

The second thing that comes to mind is to attack the formation if the formation fails. Either use all kinds of magic weapons to try your luck, the lying and decaying corpses at the door are all victims of this idea.

No cultivator has ever thought about using ordinary people's methods to solve problems. The masters of the Yuanying and Dacheng stage are all at the age of hundreds or thousands of years. During the years of cultivation, they have already forgotten that they were once a member of ordinary people, and they can still use ordinary people's methods.

When Yang Chen said this, the girls suddenly felt enlightened. To solve this problem, there are actually two methods casually. The first method is a bit expensive, but it must be said that it can indeed be solved. The second method of ordinary people made the girls a little ashamed. None of them had thought of it, as if they didn't have this concept in their minds.

"Of course, it's not so complicated for your husband." Yang Chen waited for everyone to think about it, and then added with a smile: "If this stone gate is not as heavy as the mountain behind it, it's just a matter of effort. "

Except for Gongsun Ling, no one seemed to understand what Yang Chen meant. Gao Yue vaguely guessed something, but she was not sure if Yang Chen meant it.

While speaking, Yang Chen's hands had already grasped the two huge handles of the door. They don't know what material the handle is made of, but it looks very strong, just for people to hold and push the door.

The girls knew very well that there would be no problems if they didn't use their spiritual power, but they were still a little worried watching this scene, and they were afraid of disturbing Yang Chen, so no one dared to speak loudly, they just looked at Yang Chen nervously.

Yang Chen casually pushed hard, the two stone doors did not move at all, this made Yang Chen a little surprised. He didn't seem to have put much effort into it, but he had already practiced the yellow turban body refining technique to the level of overwhelming strength, and he had at least tens of thousands of catties of strength in a single stroke. He didn't even push the stone gate, this stone gate was interesting.

After careful observation, this stone gate has not been opened for at least tens of thousands of years, and nothing can be seen on the door, but Yang Chen still carefully found that on the edge of the stone gate, there are some subtle traces that almost no one will notice. These traces are actually vertical.

What do the vertical marks mean? Yang Chen thought for a while, and a smile appeared on his face, it was clearly the scratches left by the stone gate moving up and down. The designer of this place is really an insidious guy. He set up two ordinary-looking stone gates. Everyone else thought they opened from the inside and the outside. No one would have thought that the stone gates opened from bottom to top.

Immediately with both hands, he grasped the two handles and lifted them upwards. Amidst the rumbling sound, the two stone doors began to slowly leave the ground and move upwards.

Because it has not been opened for a long time, when the stone door was lifted up, there was a lot of friction and it looked very jerky. But under Yang Chen's terrifying power, the door still rose up unswervingly, revealing the passage below.

Their husband actually has such a terrifying power, the seven concubines were all shocked. Gao Yue finally confirmed her guess, Yang Chen really lifted it up with his own strength. When they retreated together back then, Gao Yue had seen Yang Chen waving huge stone pillars weighing hundreds of thousands of kilograms to play tricks. Looking at it now, she didn't seem so surprised. Gongsun Ling had seen the scene where Yang Chen pulled up the island and smashed it at Hou Yun, so it was not surprising to her.

The other girls were all surprised and speechless. What kind of monster is their husband, not to mention his level of alchemy, why is his body so terrifying? No wonder all the girls are sometimes not Yang Chen's opponents on the bed, the pure physical body is so shocking.

Fortunately, everyone's state of mind was good, surprise is nothing but surprise, but it's just a moment, business matters. Their husband has already lifted up the entire stone gate, if they don't go in and have a look at this time, wouldn't it be a disappointment to his hard work?

Tao Junqi's cultivation was the highest, and she was about to sneak under Yang Chen's arm and rush in. Yang Chen reminded in time: "Be careful!" Tao Junqi understood, summoned the Iron Wing Flying Eagle, took her flying sword, and then bowed her head in.

Yang Chen just lifted the door to his chest, while Tao Junqi had to bend over to get in. Next was Gongsun Ling, she has the geographical map of mountains and rivers to protect her body, and she can also cover Tao Junqi when necessary. The rest bypassed Yang Chen one by one, and entered the long corridor under the stone gate.

Gao Yue was the last one in line. After all the other girls went in, she stared at several directions in the distance, exchanged glances with Yang Chen, and walked in calmly. Now Yang Chen has lifted the stone gate over his head, and can easily walk in.

In the several directions that Gao Yue looked at, there were people staring at each other in a daze. At least three of them were the guides who entered Langya Well for the second time and Yang Chen asked them to pass by. At this moment, they couldn't believe what they saw with their own eyes. One of the three great danger zones in Langya Well was so easily cracked by Yang Chen, why does it feel like watching a show?

All the girls had already walked in a long way, and Yang Chen supported the bottom of the stone gate, maintaining the posture of lifting, and moved into the stone gate step by step.

However, in the eyes of the few people staring at this side, the door has always maintained the height of being lifted up, and has never fallen. This situation made several people overjoyed. Could it be that after the stone door is opened, it will remain open?

Chapter 729: : Patriarch Hall

As soon as Yang Chen and the girls walked into the tunnel, they realized that the tunnel was quite speechless. The stone gate, which looks very ordinary, has a thickness of more than ten feet, which also means that the top of the corridor, which was more than ten feet long, was all the two so-called stone gates.

No wonder it couldn't be pushed inward, the door was basically integrated with the mountain in this direction, and it would be hell if it could be pushed.

In order to go in by himself, Yang Chen had to hold it all the time, moving in step by step, never letting the stone door fall down. This situation naturally aroused many speculations from outsiders.

Seeing that there were at least a dozen breathing time but the stone gate did not fall, the people outside finally couldn't bear it, and rushed towards the stone gate from several directions. The one who rushed the fastest, reached the edge of the stone gate without the slightest hesitation, and entered the stone gate.

With Gao Yue's last glance, it was obvious that everyone had been spotted, because they were afraid of disturbing the Yang Chen family inside, so none of them dared to use their spiritual awareness to investigate. The guy who rushed in was very happy, even if Yang Chen's family ate meat, he would be fine with some soup. You know, these three great danger zones have never been opened, how many good things are there?

Before the second expert rushed to the door, the raised stone door suddenly came down with a bang. Although it was difficult and jerky when it was lifted up, when it fell, the huge weight ignored all obstacles, and it was pressed down like Mount Tai.

The master who rushed into the stone gate was horrified, it was obviously too late to make a turn when he rushed forward, and he was unwilling to go back. With just such a moment of hesitation, the stone gate was already on top of his head.

As a last resort, the master could only hold his hands together, imitating Yang Chen's appearance, trying to withstand the falling trend of the door. It's a pity that it's easy to watch others lift it up, but it's not so easy to lift by yourself.

The huge weight almost bent the cultivator's spine. In a blink of an eye, he already understood that relying on his own physical strength, it was absolutely impossible to lift the stone gate. But as soon as he used his spiritual power, he suddenly discovered that there was a huge suction force coming from the place where his hands were in contact with the door, washing away his spiritual power.

You cannot use spiritual power on this door, the master suddenly remembered this taboo, but it was too late at this time, the trend of the door's falling did not even slow down, and it fell down suddenly.

From the inside and outside of the door, there was a snort, and two lines of blood came out, it was that poor guy who was directly crushed into a meatloaf by the door. Blood sprayed all over the body of the master who rushed from behind, scaring him into a cold sweat. Fortunately, his speed was a little slower, otherwise, wouldn't he also end up as a meatloaf?

Of course, Yang Chen also noticed that the guy behind came in, but he didn't have the kindness to carry the stone gate for outsiders. When he got inside, he let go without thinking. These guys can't figure it out on their own, but they are good at picking up bargains. Let them know that bargains are not so easy to pick up.

It has nothing to do with Yang Chen, and there was no contamination on his body. All he wanted to know now was if there was anything he was looking for in one of the three great danger zones.

It seems that the formation outside and the stone gate are the final barrier, and there is no other aura inside. Tao Junqi, who was the first to rush in, had already checked and found that there was no danger. Even the lights were turned on, and the inside was brightly illuminated.

The space inside was not big, which was more than half of the mountainside. The whole space was a circular area supported by several columns. After just one glance, Yang Chen felt a little regretful.

In the middle of the circular space was a hall, and around it was a circle of tables. The tables were densely filled with memorial tablets, and there were some portraits on the wall, one next to the other, almost covering the entire wall. There were still some futons on the ground in the middle. Both the futons and the tables have been simply refined, they are still not decayed.

This posture is clearly the appearance of a sect patriarch hall. No wonder the outside was protected by such a weird formation. The sect's patriarch hall was probably heavily guarded and cannot be opened easily.

It was a good thing to open one of the danger zones, but to Yang Chen and others, it doesn't mean much. No one would keep any magic weapon in the patriarch hall, so this trip was a waste of hard work.

The girls probably also knew the result, everyone just looked at it, no one did anything, now they are all waiting for Yang Chen to make up his mind on what to do next.

"Anyway, I'm a senior, since we're here, let's burn incense!" Yang Chen thought for a while, and said to the girls. This is the old place of a certain sect, and when he goes to get things from others, he catches up with the patriarch hall, and offering incense sticks to the patriarchs is also the right thing to do.

No one objected, Yang Chen was the first, all the girls followed behind Yang Chen, Gao Yue, Gongsun Ling, Shi Shanshan, and Sun Qingxue were in the second row, Tao Junqi, the Murong sisters and Shi Wushuang were in the third row, starting from the position directly opposite the door, burning incense one by one.

There are ready-made incense sticks in their Qiankun bags, and after a while, there were three more burning incense sticks in front of each tablet in the entire Patriarchal Hall. The smoke curled up, and the Patriarch Hall began to be filled with a refreshing smell.

"What's that?" At first the smoke was just drifting randomly, but when there were three incense sticks in the incense burners in front of all the memorial tablets, those drifting smoke began to slowly form on the top of the Patriarch Hall a pattern.

This pattern is square, and it can't be formed by accident, although it hasn't fully appeared yet, it was weird. Everyone looked up and watched the smoke slowly gather, and everyone felt an indescribable taste in their hearts.

They thought that they would not gain anything after entering the Patriarch Hall, but they didn't expect that after a few sticks of incense, there would be such a surprise. Fortunately, Yang Chen proposed to burn incense, otherwise, no one would have noticed that the smoke would form a pattern.

The smoke quickly formed a square pattern with all kinds of complicated lines, making people feel dizzy at a glance. The smoke was constantly moving, which made people dizzy.

“It looks like a formation.” Gongsun Ling saw something first, followed by the Murong sisters. They all focused on the formation, so it’s normal to see it first. Yang Chen didn’t analyze what the pattern was, but tried his best to write down the pattern first. As for research, they’ll talk about it later.

The smoke didn’t last long and dissipated quickly. All the girls looked a little unfinished, especially Gongsun Ling and the Murong sisters, they only wrote down a part of it, and most of it disappeared before they remembered it.

“Let’s light the incense one more time, and watch it again!” Gongsun Ling immediately suggested.

“No need! I’ve already written it down, let’s go out and study it!” Yang Chen shook his head directly, instinctively, he felt that this Patriarchal Hall is not so simple, it’s better to go out first.

Chapter 730: : Danger

Logically speaking, the general sects would not set up any killing mechanism in the Patriarch Hall. Normally, the disciples or guests who came to pay homage to the Patriarch, there is no need to target these people. But no one can guarantee that this sect will be safe, so if something feels wrong, Yang Chen still plans to leave first.

Yang Chen’s words, in the ears of all the girls, are the golden rule. When Yang Chen said to go, no one would stay for a while. This was proved by Yang Chen relying on the majesty as the husband and the facts time and time again, no one has any objections.

Same as coming in, Yang Chen lifted up the stone gate, and all the girls rushed out quickly, while Yang Chen was the last one holding the stone gate up, and walked out slowly. The stone gate was stained with the flesh and blood of the cultivator who was pressed into gravy just now, but at this moment, he couldn’t care less, safety first. Of course, although the Qiankun bag on his body was crushed flat, it was not broken, which directly made Yang Chen get it easily.

However, before Yang Chen reached the outside door, he noticed that there were people outside who were confronting the girls. When Yang Chen quickly walked to the door, those people were still there.

They met a few times, more than a dozen, and two of them were acquaintances of Yang Chen and the others who passed by, and the others were all people who boarded the Langya crystal boat together. At this moment, all the girls were watching these people covetously, carefully guarding against them.

As soon as they came out, the girls ran into these people. If they hadn't raised their hands and made noises to show that they didn't have any malicious intentions, the girls would have attacked.

It was not known who made the light, which illuminates this side brightly, and everyone can see the surrounding scene clearly. It was precisely because those people did not intend to do anything that Yang Chen did not turn his face.

"Grandmaster Yang, please do me a favor. I'm just waiting to go in for a look, to take a chance. I have no other intentions!" An acquaintance's guide saw Yang Chen, and immediately stepped forward to ask him "Grandmaster Yang if there is a mission, I will do it for you!"

They showed sincerity right from the beginning, probably because they knew that the things on them would not arouse Yang Chen's interest, so they made such a promise. Speaking of it, sincerity is full, and it can't be said that it was not a small to pay such a price just to go in and have a look.

However, these people are not necessarily at a loss, this Langya Well is such an evil sect, sometimes, when the people in front look at it, there is nothing, but when the people behind look, they don't know when there are more treasures. It's purely depending on the chance of each person, and they can explain the past by saying so.

One of the three great danger zones, it is even more coveted, no matter what Yang Chen got in it, there might be something that slipped through the net. This is what everyone was thinking about, but they couldn't lift the stone gate, so they could only discuss it with Yang Chen.

"Ten catties of top-grade spirit stones, there is no need to talk about the future." Yang Chen didn't like their empty promise. After all, he still vaguely felt that something was wrong inside, but he couldn't say exactly what was wrong. Since these people want to go in, who knows if there will be a future for them, it will be a pleasure to trade real resources on the spot.

Everyone was overjoyed, at first they thought they would owe Yang Chen a promise, but now it was just ten catties of top-quality spirit stones. The people who came were all experts, and no one said anything. Everyone took out ten catties of top-quality spirit stones without hesitation and then handed it over to Gao Yue under Yang Chen's signal. Everyone handed over the spirit stone, then looked at Yang Chen eagerly, waiting for his intention.

Yang Chen didn't let everyone down either, he supported the stone door with one hand, and quickly ordered: "Prepare a few sturdy metal pillars immediately, just hold them up."

A group of people suddenly understood that no matter how powerful a person is, there will be times when they are exhausted. If you use a pile of pillars to support it, then there is no problem in this regard at all. Especially after resisting the door, there is no need to worry about whether Yang Chen will let it go after they enter.

No one dared to be negligent, everyone carried a lot of ordinary metal materials with them, and at this time, they didn't care about other things, they immediately took them all out, and started the sacrificial refining on the spot. Just to stand against the stone gate, there is no need to carefully refine it, as long as everyone's size is the same, soon there was more than a dozen metal pillars in front of Yang Chen.

"Little Xue, come and help support it, and then I'll let you go." Yang Chen directly ordered Sun Qingxue to collect all the metal pillars, and then entered the door, placing one every few steps. After everything was put away, Sun Qingxue left, Yang Chen also let go, the stone door sank, and then landed on top of a dozen metal pillars, being firmly propped up.

"I wish you all good luck." Yang Chen bowed his hands to everyone, and then quickly left with his wives and concubines. The uneasy atmosphere just now became more and more intense, and now Yang Chen didn't want to stay here for a long time.

The departure of Yang Chen's family was just in line with everyone's wishes. At this moment, facing the opened stone gate, one of the three great danger zones was inside, but a dozen of them began to be wary of each other. There is no other way, the human heart is like this, without the relationship between Yang Chen and the girls, it was impossible to truly cooperate seamlessly.

After quarreling for a long time, the guide who had just negotiated with Yang Chen said, "You can't use spiritual power inside the stone gate, so what are we worried about? No one can break these pillars with their physical body, so don't worry so much, let's go in together."

Sometimes many people just can't get rid of that taste. Someone said this, and everyone thought about it, and it is indeed the truth. That being the case, what are they waiting for? No one wanted to be left behind, so everyone rushed in. After four or five squeezes at the small entrance, the dozen people entered one after another.

"Everyone share those crystals, use them as pocket money!" Yang Chen's family was already hundreds of miles away at this moment, and Yang Chen's sense of crisis has disappeared, so he stopped and started talking to the girls about the allocation of those crystals.

More than a dozen people each had ten catties of top-quality spirit stones, and each of them would have more than ten catties of spiritual stones on their heads. It was a considerable fortune in any sect. It's a pity that the girls of today have already been influenced by Yang Chen's wealth and power many times, and they can be regarded as people who have seen big scenes. Who would take such a few crystals in their eyes? What everyone was interested in was why Yang Chen had to leave in such a hurry, and what the pattern meant.

"Why are we leaving in such a hurry? Are we afraid that they will find nothing and look for us when they go in?" Sun Qingxue didn't think too much, and asked Yang Chen directly. The latter statement was of course a joke, Yang Chen didn't promise that there would be something in it.

"I always felt something was wrong." Yang Chen shook his head and said directly. As soon as he said this, he heard a loud thunderous noise from the direction of the ancestral hall just now, and at the same time a dazzling red light burst out, instantly turning the entire dark space into blood.
