

## Zhanxian 751

### Chapter 751: : Proud Li Liheng

There are also some abnormal phenomena that the major sects have not noticed much. Among the cultivators, no matter whether they are dao cultivators, Demons, monster race or rogue cultivators, some of the female cultivators seem to have disappeared a lot in the past hundred years, and the total number was no less than a hundred.

During the cultivation of cultivators, it is really normal for the cultivators to retreat and travel for a while. Cultivation is not behind closed doors, so basically the vast majority of cultivators will go out to cultivate after a period of cultivation. This point, even Yang Chen who has the memory of his previous life is no exception.

When going out for training, there may be accidents sometimes, such as getting injured or being trapped, and it is perfectly normal to delay returning to the sect for decades. Or it is also common to find a suitable place to retreat and cultivate for decades with occasional income from outside.

This kind of thing can be understood by Yang Chen. Going out to practice in the Demon Continent, plus the journey back and forth, counts for more than seventy years. After returning to the sect, within two days, he took his four wives to cultivate again, and it took another hundred years to return. The concept of time for cultivators seems to be much more indifferent than that of ordinary people.

In addition, it often happened that cultivators went out and the sect and could not find their whereabouts. Anyway, as long as the natal spirit tablet left in the sect were not broken, it showed that the cultivators had no worries in life. Generally speaking, if there is no need for help, the sect will not take the initiative to search for the whereabouts of the cultivators.

The most vivid example is Wan Qian of the Blue Cloud Sect. From being captured by Yang Chen to now, the Blue Cloud Sect has never even found her whereabouts for hundreds of years. The only time they asked about it was when Yang Chen was making things difficult for him to participate in the auction at the Blue Cloud Sect, which made Sect Master Lu angry and asked afterward. Later, when he heard that he was going out to cultivate, he let it go.

Judging by this common sense, those female cultivators have not disappeared, at least in the concept of their respective sects and relatives and friends. Maybe it's because they just went out for training and couldn't come back in a short time, it's no big deal.

These so-called missing female cultivators are basically masters at the peak Yuanying stage or in the late Yuanying stage, and there are about a dozen masters in the Dacheng stage among them. The places where they disappeared are also scattered everywhere, seemingly without any connection.

One thing they have in common is that the missing female cultivators are all fairies who are as beautiful as flowers and sought after by countless people. Now no one knows their whereabouts.

Not to mention that no one suspects, even if there is a sect's intention to search for their whereabouts according to the imprint of spiritual awareness on the natal spirit tablet, it is estimated that they will end up in a situation where they cannot be found at all. There is only one explanation for this situation, that is, the places where they are are blocked from their spiritual awareness.

Li Liheng is now very proud, in just over a hundred years, he has successfully entered the middle Yuanying stage, and his spiritual awareness cultivation base has reached the early Dacheng stage. The cultivation of the spatial spiritual awareness cultivation method has become more and more exquisite. In recent decades, even without the pills, he can maintain communication with Senior Liu Fengzi for a long time.

What the majoring of the method has brought about is that some information mastered by the Greatest Heaven Sect has become more comprehensive, and the development of the sect has also begun to tilt in a certain direction, and Li Liheng's status in the sect has also increased.

Now beside the young sect master, besides those who followed before, there are many more masters. There are even at least a dozen Dacheng stage masters in the sect who have joined Li Liheng's faction. This group is already considered to be the most promising group in the Greatest Heaven Sect.

Because the sect had to rely on Li Liheng to consult with the seniors in the spiritual world, many core elders, including Sect Master Li, would befriend Li Liheng intentionally or unintentionally. As for those masters who followed Li Liheng, they benefited a lot from Li Liheng, and they were also loyal to Li Liheng. It was not an exaggeration to describe them as dead hearted.

In a very high-grade cave mansion magic weapon that Li Liheng always carried with him, there were hundreds of beautiful and unparalleled female cultivators living in it. Each of the female cultivators were completely naked, living a leisurely life and cultivating in the cave.

If you distinguish carefully, these women seem to have been forcefully hypnotized, almost like female slaves, waiting to serve their masters at any time.

When Li Liheng was alone, his favorite thing was to enter this cave and accept the service of these women. At the same time, they will also be used as cauldrons to cultivate the Free Demon Heart Sutra.

The Free Demon Heart Sutra is not a palliative method. From the beginning to now, more than a dozen female cultivators in the late Yuanying stage have been crippled by Li Liheng. Li Liheng's cultivation of spiritual awareness has soared to the present level precisely by relying on the Free Demon Heart Sutra.

The Young Sect Master of the Greatest Heaven Sect cultivated the Free Demon Heart Sutra of the demon sect. If this news got out, they don't know what kind of disturbance it would cause. Fortunately, there are only three people who know about this matter now, one is Li Liheng himself, one is Yang Lan who serves Li Liheng, and the other is Yang Lan's brother Yang Xi.

Yang Lan is very smart, and knows very well that the more Li Liheng's affairs are, the faster she will die, so she took the initiative to ask to manage those women in that cave. She is also the only woman who can wear clothes in the cave.

As for Yang Xi, he has completely become Li Liheng's lackey. All these female cultivators were inquired by Yang Xi through certain channels, and then they took the masters around Li Liheng out to capture them. As for what to do after the capture, Yang Xi wouldn't say, and neither would Li Liheng, they just told them that these female cultivators had various problems, and capturing them was doing justice for the heavens.

They wholeheartedly voted for the young sect master's lineage, and these people naturally follow the young sect master's lead. Whatever the young sect master says is what they do, and no one will pay attention to those female cultivators. In the beginning, it was just female cultivators from the Demon Sect and monster race, as well as some rogue cultivators. Later, many of them were from the dao sects.

Yang Xi leaned against the young sect master, and lived a very nourishing life. Of course, he is still secretly waiting, waiting for the time when the formation will really work.

The effect of the formation is much better than Yang Chen imagined. In just over a hundred years, it has already absorbed enough idle spiritual power. If this trend continues, it will take less than three hundred years to activate that special formation eye.

Yang Xi, who was trying his best, was waiting for the day when the formation eye could be activated, and he already had a series of plans. When that time comes, he will secretly kill Li Liheng who never regarded him as a human being in his heart, and then blame Yang Chen, but himself and his sister Yang Lan can use the power of the formation to improve their cultivation.

Is there anything happier than watching the Greatest Heaven Sect use all their strength to kill Yang Chen, and then survive the tribulation and ascending?

\*\*\*

#### Chapter 752: : Cultivation

The person Yang Xi hates the most is Yang Chen. Although Li Liheng never regarded him as a human being, but Li Liheng came from a famous family and was born with a noble status. In Yang Xi's eyes, it is only natural that he is not in his eyes.

But what kind of thing is Yang Chen, the son of a small tenant in the Yang Family Village, the one who can make Yang Chen's whole family die with a single word from Old Master Yang, who dares to climb on his head and beat him down? Although Yang Chen never seemed to pay attention to Yang Xi after his rebirth, this kind of ignorance seemed to make Young Master Yang Xi even more angry.

In Yang Xi's mind, Yang Chen must be killed. Yang Chen seemed to have sensed something recently. He hid in Langya Well with his wives and concubines, thinking that he could avoid his schemes by doing so? What beautiful thing do you want? If Yang Xi can make him happy in Langya Well, then he will be the number one dog of the young sect master of the Greatest Heaven Sect.

At least one high-ranking master and three Dacheng stage masters entered Langya Well with the task of killing Yang Chen as soon as possible. Yang Xi even specially ordered that he didn't even need to do anything to Yang Chen's family in the early stage, and when Yang Chen thought everything was under his control, he would suddenly kill him. This kind of extinction of all hope when a person is at his happiest is what Yang Xi thinks is the most ruthless torture to Yang Chen.

Even if Yang Chen couldn't be killed in Langya Well, Yang Xi still had arrangements for him. As long as Li Liheng's death is forced on Yang Chen's head, not to mention a little Yang Chen, even ten or a hundred Yang Chens will not be able to resist the monstrous anger of the Greatest Heaven Sect.

For the young sect master Li Liheng, Yang Xi actually didn't want to kill him. As the young sect master's number one dog, Yang Xi was very comfortable pretending to be a tiger, but Li Liheng had to be killed. There is no other way, the image of the Young sect master of the Greatest Heaven Sect must be upright, without any blemishes or blemishes. In order to protect himself, Yang Xi also had to strike first before Li Liheng did it.

Now Li Liheng hasn't finished cultivating the Free Demon Heart Sutra, and he still needs Yang Xi, a bastard, to hunt down beautiful female cultivators for him, and Yang Lan to help him manage these cauldrons, Yang Xi and Yang Lan's brothers and sisters are still somewhat useful.

But this kind of need is not always needed. One day when Li Liheng's self-motivated and free demon heart sutras are mastered, and Yang Xi and Yang Lan's brothers and sisters are no longer needed, it will be their death date. No matter whether it is the Greatest Heaven Sect or Li Liheng, they will not tolerate two people who know that Li Liheng has practiced the Free Demon Heart Sutra to live, especially when so many cultivators have been harmed during the cultivation.

Since Li Liheng must die, then his death must be valuable. It would be best for his death to be on Yang Chen's head. It can not only make Yang Xi and Yang Lan brothers and sisters live better, but also make Yang Chen's death more miserable, killing two birds with one stone.

Yang Xi already had a comprehensive plan. If Yang Chen could not be killed in Langya Well, then he could use a small flaw in the Free Demon Heart Sutra to kill Li Liheng. The Free Demon Heart Sutra was originally found by Yang Xi for Li Liheng from the scripture pavilion of the sect, and Li Liheng was not the only one who cultivated it.

In fact, Yang Xi himself also has a space magic weapon similar to a cave, and there are also a group of female cultivators who have been captured. These cauldrons were secretly left behind by Yang Xi when he hunted them for Li Liheng. The wild goose has to pluck the feathers, so it's not too much for Yang Xi to keep some, right?

It was Yang Xi who discovered the small flaw in the Free Demon Heart Sutra. As a dao sect disciple, it was not surprising to find a small flaw in the Free Demon Heart Sutra. It's just that this small defect is hidden very deeply, and can only be discovered when cultivated at the early Jiedan stage, but it is

impossible for Li Liheng to have this opportunity. He was already at the peak Jiedan stage when he started cultivating.

Although the defect is small, if it is used well, it can be fatal. As long as a small introduction, Li Liheng's spiritual awareness can suddenly skyrocket and become uncontrollable, leading to his death. Regarding the problem of the spiritual awareness, in order to solve the problem, Li Liheng took countless pills from Yang Chen back then, and as long as Li Liheng died, Yang Chen would not be able to explain himself.

The only thing Yang Xi has to do now is to wait, to wait for the formation to be completely completed and ready for use. He just don't know if I can see Yang Chen's head first, or wait until Li Liheng dies.

When Li Liheng was smug and arrogant, Yang Chen was completely unaware of these things that happened at the Greatest Heaven Sect. For a whole ten years, he continued to cultivate his body refining technique under the blessing of the fifth grade inner sensing pills, and at the same time digging the yellow springs jade with his bare hands. Ten years of such self-abuse cultivation has finally paid off.

Originally, Yang Chen thought that it was impossible for him to advance in the yellow turban warrior body refining technique, but this time, with the help of the fifth grade inner sensing pills, he finally reached the brink of breakthrough.

After ten years of painful cultivation, it seems that Yang Chen has gotten used to the pain that comes from his body. No matter how hard a stone is, it is as soft as tofu under the body tempered by the yellow turban warrior body refining technique and under the physical strength raised to the level of sea pouring strength. Although Yang Chen dug the yellow springs jade with his bare hands, he had to be careful all the time, for fear of accidentally crushing a piece of it into powder.

To use an inconspicuous metaphor, what Yang Chen is doing now is like manipulating the largest crane in the 21st world to carefully pick up a small piece of Japanese soft tofu. It is extremely delicate and precise. This is not counting the pain that emanates from the body all the time, disturbing Yang Chen at any time.

Being in such a state for a long time, even Zhang Fei, who is very nervous, has become a skillful hand who can embroider lightly.

At the beginning, he didn't know how many top-quality yellow springs jade was destroyed. What Yang Chen accidentally held in his hand was stone powder. In ten years, Yang Chen has already lifted weights like light, and such a situation will never happen again.

That's right, it's a description like lifting weights like light. Under the magnified senses of thousands of times, the body can still lift heavy weights as lightly as it feels the unparalleled pain. The innermost kind of willpower to resist pain is directly induced by the improved yellow turban warrior body refining technique.

It was very natural, Yang Chen broke through the initial stage of the sea pouring strength without a sound, and entered the middle stage of the sea pouring strength. There is no special vision, no opportunity for sudden epiphany, everything happens naturally.

Don't underestimate the improvement of this mere small realm, it means that Yang Chen's physical strength is at least twice as strong as before, and this is not considered physical toughness. An ordinary flying sword, even under Shi Shanshan's control, would not be able to pierce Yang Chen's skin.

\*\*\*

Chapter 753: : Breakthroughs

The advancement of the body refining technique directly stimulated Yang Chen's spiritual cultivation, and the increase in physical strength brought about a sudden increase in internal physical pressure. The originally smooth spiritual power of the physical strength was suddenly blocked by the pressure in the meridians, as if it stopped for a while, and then triggered a more crazy rebound.

Boom, the meridians seemed to be filled with explosives, they were suddenly detonated, and then shrank suddenly under the strong pressure of the meridians.

It was just between entering and exiting that Yang Chen's spiritual power was suddenly compressed and condensed once, and the spiritual power of the Great Yin Yang Five Elements directly caused a small-scale qualitative change, and the spiritual power full in the meridians suddenly seemed to be half empty. The spiritual power outside seemed to be suddenly attracted by a strong suction force, rushing towards Yang Chen's body frantically.

The changes in the surrounding spiritual power made the busy girls outside startled for a moment, and then they all immediately understood that this was a breakthrough for their husband. Everyone looked at each other and saw the joy in each other's eyes.

Yang Chen's cultivation has always been an untouchable corner of the girls' hearts. Although they know that although Yang Chen's cultivation level is low, his combat power may not be inferior to anyone else, but this cannot be said to outsiders. Now those boring guys like to use this point to attack Yang Chen.

This is why all the girls can't tolerate others saying those words about Yang Chen. But Yang Chen didn't have any convincing performances to refute this statement. There is no other way, each of Yang Chen's wives and concubines has a higher level of cultivation than Yang Chen, this was an indisputable fact.

After so many years of double cultivating with Yang Chen, the girls of course know that Yang Chen is also cultivating the five elements, and everyone has been surprised from the beginning to now fully accepting it. Yang Chen's Five Elements concurrent cultivation has such a realm, and his true strength can only be imagined. The problem is, no one can publicize this kind of secret in the outside world, right?

Now Yang Chen has finally broken through. Before that, he was in the middle Yuanying stage, and now he is at least in the late stage. Counting Yang Chen's cultivation time, he has reached the late Yuanying stage in about five hundred and fifty years, which is the performance of a genius in any sect. In particular, Yang Chen was also a cultivator of the five elements, which shocked the girls even more.

The shock in Yang Chen's heart was no less than anyone else's. With just a small improvement in the Yellow Turban Warriors Body Refining Technique, Yang Chen felt that his cultivation had directly surpassed the middle Yuanying stage, and the late Yuanying stage and entered the peak Yuanying stage.

The spiritual power in his body was surging, as if it can trigger the arrival of a tribulation in the next moment. His spiritual awareness, which has not been improved for a long time, has broken through the ninth grade human Immortal realm in one fell swoop, and entered the peak of the tenth grade. It is only one step away from entering the first grade earth immortal realm.

The sea of consciousness began to surge again, and it began to expand crazily. It expanded more than twice before stopping. To Yang Chen's surprise, just after the sea of consciousness expanded, it suddenly shrank and condensed, returning to its original size. Then it expanded again, then shrunk again, and so on three times. After the expansion, it did not change, and remained at the size of 5,000 mu.

After confirming that everything had stopped and there was no change, Yang Chen stopped digging and jumped out.

“Husband, how could you do that?” When Yang Chen came out of the huge pit where the yellow springs jade was dug and came to his wives and concubines, all the women present looked at Yang Chen in astonishment.

Tao Junqi, who was refining pure yin true fire, couldn't even control the work in her hand, and scrapped one directly. If it weren't for Tao Junqi's quick reaction to absorb and control the escaping pure yin true fire in time, maybe Yang Chen's family would have to bear at least one semi-finished pure yin true fire bombardment.

“What's wrong?” Yang Chen looked at his women inexplicably, their eyes were so surprised, as if there was something on him that shocked them. Subconsciously asked, then lowered his head and began to look at his body.

Before that, he had been digging the yellow springs jade, resisting the fifth grade inner sensing pill, and didn't care about the changes in his body. Now when he looked down, Yang Chen was startled. His body shape actually began to become very muscular again, with knotted muscles and high bulges, his body immediately became huge.

The original clothes had obviously been torn, and now they hung on his body like a pile of rags, barely covering some vital points. Fortunately, they are all his wives and concubines in front of him, and they are all from his own family, and everything has been seen by Yang Chen's wife, otherwise, Yang Chen would be rude.

Everyone knows that Yang Chen was cultivating some kind of body refining technique, and it is normal for his body shape to change. What surprised the girls was that Yang Chen's change in body shape directly tore apart the robe on his body, yet Yang Chen didn't notice it.

One must know that all the clothes on Yang Chen's body are magic weapons carefully refined by Gao Yue. Everyone now knows very clearly that Gao Yue's crafting level is a rare master level in the mortal world, but her light was covered by Yang Chen, and her reputation is not obvious. Yang Chen's clothes, any one of them, is a high-grade magic weapon for protection.

Such a magic weapon was easily destroyed by Yang Chen, what kind of strength is needed? Others can't imagine what kind of body refining technique Yang Chen is cultivating now, which can have such a powerful effect.

It was Gao Yue who reacted quickly, and immediately took out a few top-quality materials, visually measured Yang Chen's body shape, and quickly made a simple robe for Yang Chen that could cover his body, and put it on for him to avoid his embarrassment.

This was not the first time that this kind of situation has happened. It happened once when Yang Chen first started cultivating the Yellow Turban Warrior Body Refining Technique, and the change this time is not so unacceptable.

Yang Chen didn't expect that there would be such a change in the middle of the realm of breakthrough force, but after thinking about it for a while, he seemed to understand in his heart that this kind of situation might happen several times in the future.

Every time one breaks through a small realm, it will cause a surge in strength. Obviously, the body must adapt to such a change in strength, and it will naturally become strong. And with the deepening of the body refining technique, after the body is condensed, it will slowly return to its original body shape. There will be such a reincarnation once in every great realm in the future.

There was another surprise for the girls. Yang Chen's cultivation had surpassed the late Yuanying stage in one step, and reached the peak Yuanying stage, surpassing Gao Yue, Shi Shanshan and Sun Qingxue in one fell swoop. Although the three girls cultivated diligently for ten years, and now they have reached the peak of the late Yuanying stage, and are about to face a breakthrough, they were still overtaken by Yang Chen.

This time, if anyone dared to say that Yang Chen was weak, all the girls could fight them directly. Although no one has ever dared to say this in front of any of the women.

"Congratulations, husband. Congratulations, husband. Congratulations!" After everyone was surprised, they congratulated Yang Chen in unison, and the whole family was filled with joyful laughter.

\*\*\*

## Chapter 754: : Uninvited Guests

Yang Chen has basically been suppressing his cultivation for so many years, and even after entering the middle Yuanying stage, he fell back to the early Yuanying stage because of the suppression of his cultivation base.

The only purpose of suppressing the cultivation base is to make one's spiritual power cultivation base more pure. Of course, the core matter of the Demon Continent, which has been refining, also restrained at least half of Yang Chen's energy, even if he wanted to quickly upgrade to a high level, it was impossible.

This time, it can be regarded as a lot of accumulation, and it is indeed something worth celebrating to directly raise the cultivation base to the peak Yuanying stage. Moreover, with Yang Chen's spiritual awareness cultivation base, coupled with the Yellow Turban Warrior's body refining technique, there is no such thing as a solid state, a real state.

The body refining technique is also a huge watershed when it is in the realm of sea pouring strength. In particular, the process of Yang Chen choosing the fifth grade inner sensing pill to cultivate his will power is also a process of inner strength in the process of body refining. Yang Chen doesn't know how many golden immortals are stuck on this hurdle, they have no way to go further, and can only be reduced to ordinary yellow turban warriors.

After all, it is the cultivation method of the Immortal world. After passing this watershed, every small improvement in the future will bring huge benefits to Yang Chen. Now raising Yang Chen's two small realms at once is nothing more than leisure, if Yang Chen has experienced the baptism of previous tribulations, he will get even more benefits.

With the example of husband, all the girls became more diligent in cultivating. In less than half a year, Gao Yue, Shi Shanshan and Sun Qingxue began to understand each other, and Gongsun Ling received the geographical map of mountains and rivers. After taking Yang Chen's fifth grade questioning inner heart pill, she began to retreat.

Tao Junqi spent more than ten years refining the pure yin true fire and cleared a quarter of the pure yin true fire. Tao Junqi was also a little tired of maintaining one thing for so long, and it happened that Shi Wushuang's natal flying sword was refined from a lot of branches and leaves of Penglai divine wood, and planned to go out to fight with those cultivators outside, so the two women simply went together.

The Murong sisters have also thoroughly refined the dismantled five elements hook for more than ten years. Although they have not yet started refining the natal magic weapon, there is no problem in using it freely. At the beginning of the refining of the five-element hook, the Dragon Clan considered the balance of the five elements, and the five girls finally got rid of the five-element magic weapon that was not completely balanced. The five-element formation method became more and more proficient in use, and its natural power was also greatly improved.

Before proceeding with the tempering of the natal magic weapon, the five sisters had to hook out the Langya Crystal Ship first and then go into deep retreat to refine the natal magic weapon. Because destroying the previous natal magic weapon will inevitably bring about a decline in one's own cultivation, it is better to complete some things first.

The Murong sisters also left the danger zone for legitimate reasons, leaving only Yang Chen and Gongsun Ling here. From the last time she went to the Demon Sect site to collect the Gengjin spiritual liquid, Gongsun Ling rarely spent time alone with Yang Chen. Gongsun Ling was very happy to be alone with her husband again, and didn't even care about the yellow springs jade weird smell.

Gongsun Ling was originally a model of gentleness and virtuousness. When she was alone, she treated Yang Chen as her own world, and she showed a virtuous wife character to the extreme. Yang Chen was extremely intoxicated by this peaceful and real feeling of home, and wished that life could go on like this and remain the same for the rest of his life.

And only when he was with Gongsun Ling, only Yang Chen could feel this way. Gao Yue is Yang Chen's favorite. But the master's character would rather bend. Although she is also tolerant of Yang Chen, she will not condone. Shi Shanshan's personality is rather cold, which gave Yang Chen a different feeling. As for Sun Qingxue, that needs Yang Chen's pampering, she can act like a baby and pester others, but she won't take care of Yang Chen like Gongsun Ling.

The seven concubines are also different. Tao Junqi thinks wholeheartedly about the sect, although now she is very inclined to choose between her family and the sect, but she will not abandon the sect and ignore it. Shi Wushuang is scheming, and she will also play a role of ups and downs in the future. It is true that she likes Yang Chen, but she prefers to control everything. The Murong sisters were relatively calm. As Yang Chen's woman, she will be with Yang Chen, but she will neither be as warm as fire nor as cold as ice.

Only Gongsun Ling is different, she is willing to be Yang Chen's vassal from the bottom of her heart. She doesn't seek fame or profit, she just wants to be by Yang Chen's side, watch him, and do everything he likes for him.

Yang Chen likes food, so Gongsun Ling put down her status and visited all the famous chefs in the mortal world to learn good cooking skills, just to let Yang Chen enjoy his appetite. Even Yang Chen's excessive requests, such as asking Gongsun Ling to act as a sexy concubine, Gongsun Ling would not refuse.

With Gongsun Ling, Yang Chen didn't feel any pressure. Yang Chen knew very well in his heart that Gongsun Ling was such a person, even if Yang Chen was not a fifth grade alchemist or a genius in cultivation, she would not change if she liked Yang Chen. Yang Chen is willing to be taken care of by Gongsun Ling, which is a kind of peaceful touch that he has never felt in his previous life for thousands of years.

It's a pity that this feeling didn't last too long, and was interrupted rudely and unreasonably by a few uninvited guests.

At least ten strangers entered the secret place. Yang Chen's spiritual awareness of the tenth grade human immortal realm instantly found the traces of these guys. When discovering these people, Yang Chen was also slightly taken aback. The formation outside the danger zone has not changed much. Apart from his own family, is there anyone else who has mastered the method to enter the danger zone?

Gongsun Ling also noticed these guys, and a look of anger appeared on her face. They have only been alone for a few days, and it is really disappointing to be interrupted by guys with no eyesight.

"Good place!" An extremely arrogant voice filled the entire danger zone, with a condescending aura, he praised slowly: "No one has found anything good in other places in Langya Well for ten years. Did it fall into your hands, Grandmaster Yang? Grandmaster Yang, your family eats meat, and you don't even leave us some soup, isn't it a bit too much?"

When the other party opened his mouth, he aimed at Yang Chen, no need to ask, he must know Yang Chen's identity. Hearing that arrogant tone and unreasonable accusatory tone, Gongsun Ling was furious for a moment, and was about to strike.

Yang Chen grabbed Gongsun Ling's slender waist with one hand, preventing her from making a move. He is now a little interested in how these guys got in. Could it be that there is another Patriarch Hall in this danger zone that can reveal the map of entering and leaving the danger zone?

\*\*\*

Chapter 755: : Thank You For Coming To My Door

Although some outsiders entered the danger zone safely and soundly, Yang Chen never doubted his concubines. Although all the seven girls were out at this time, the timing seemed a bit of a coincidence.

The concubines had no reason to betray Yang Chen, this was on the one hand, on the other hand, Yang Chen couldn't think of any benefits they could gain by betraying him. Winning a fifth-rank alchemist for the sect and killing a fifth-rank alchemist for the sect, the contribution to the sect, presumably even a fool can distinguish clearly.

"There's plenty of soup here, even bones and meat. If you want to eat it, come and get it yourself!" Yang Chen embraced Gongsun Ling, and responded with great interest, with a happy smile on his face.

The leader of the opponent turned out to be a great elder, which really surprised Yang Chen. The Great Yin Yang Five Elements Flying Swords were assembled, and the Immortal Sword still lacked a powerful target. Unexpectedly, before Yang Chen got out of Langya Well, it would automatically come to the door, Yang Chen couldn't help but be happy.

The interior of the danger zone now is very different from when Yang Chen's family first came in. The original splendid hall had long been demolished due to Yang Chen's excavation of the yellow springs jade. The things that are a little bit worth seeing were taken away by the girls as early as Yang Chen's reminder. Even if those crystal stone floors have no refining value, it seems to be a good choice to decorate one's room in the sect, isn't it?

What the guys who came in saw was a huge rocky mountain and a huge deep pit next to it. They don't know what was in the deep pit, but it was very deep anyway. There was also a burning fire field next to it, and the raging flames made several people's faces change when they saw it.

“No wonder Grandmaster Yang entered Langya Well, so there really is a pure yin true fire here.” Among the guys who came in, a master at the Dacheng stage immediately said this. Yang Chen actually felt familiar with the tone of the guy who spoke.

Soon, Yang Chen remembered the identity of this guy. After the Greatest Heaven Sect’s guiding formation was detonated back then, people were sent to search the mortal world frantically for formation masters and materials for arranging the guiding formation. At that time, the leader of the team to the Pure Yang Palace was the elder at the Dacheng stage, Elder Ming Guangruoming.

It should be explained that the elder went to the Pure Yang Palace last time, not only did he not find out the reason from the Pure Yang Palace, but he also had to give his natal flying sword under the words of the Island Master, and Yang Chen directly designed it to collect it. After losing his magic weapon, he broke down again.

At that time, Elder Ming’s natal flying sword was a living soil flying sword that he had meticulously refined for hundreds of years. The living soil sword was directly made cheaper for Yang Chen, after being collected. It became Yang Chen’s natal Earth Flying Sword. Later, Yang Chen obtained ten catties of living soil from Li Cheng, and refined it into the flying sword again, and now it has become one of the Great Yin-Yang Five Elements Flying Swords.

From this perspective, Yang Chen and Ming Guangruo can be said to be enemies. At that time, Ming Guangruo did not find out the reason from the Pure Yang Palace, and the Island master was in the Pure Yang Palace. There was no chance of finding trouble with the Pure Yang Palace at all. Seeing Yang Chen now, it is natural to count new and old grudges together.

From a long time ago, Yang Chen has been letting the word out to find the pure yin true fire. There was a time when he sold the cultivation secrets of the fifth-grade alchemist, and he sold the map of the demon sealing array, which is already well known in the mortal world. Now Ming Guangruo and the others saw the flames burning here, and with their eyesight and knowledge, they naturally recognized the pure yin true fire. He also immediately understood the purpose of Yang Chen’s family’s insistence on entering the Langya Well.

Before Ming Guangruo and the others were still wondering why Yang Chen entered Langya Well, could it be that there was something important to be found? Based on this suspicion, their purpose was to enter the Langya Well. In addition to looking for opportunities to kill Yang Chen, there is another thing to find out what that Yang Chen covets.

Now that they saw the Pure Yin True Fire, they naturally understood why Yang Chen came to Langya Well, and they felt a little disappointed. If it was a peerless magic weapon, they may still have a share of the action, but this is the pure yin true fire. Among the few of them, only one fire cultivator seemed to be able to take advantage of it, and the others could only watch helplessly.

Even that fire cultivator could only watch helplessly. Although the seventh-grade fire seed is good, not everyone is blessed with it. He don't know how many fire cultivators in this world are overwhelmed by their own means and want to collect fifth grade fire seeds that killed them, let alone sixth grade and seventh grade fire seeds. Tao Junqi's peak Dacheng stage strength, without Yang Chen's guidance and help, would not dare to touch the Pure Yin True Fire, let alone a little-known little fire cultivator.

The appearance of Ming Guangruo made Yang Chen immediately understand the background of these people, at least half of them were from the Greatest Heaven Sect. The remaining ones, even if they are not members of the Greatest Heaven Sect, are also pawns secretly arranged by them. This time, it was people from the Greatest Heaven Sect who came to the door.

The astonishment of the few people when they saw the Pure Yin True Fire couldn't fool Yang Chen, which meant that they didn't know what was inside this danger zone before. This also shows that these guys were not brought in by Tao Junqi. If Tao Junqi really leaked it, how could she leave behind things like the pure yin true fire that can be seen when they come in.

"Elder Ming endured a lot of hard work, but I never found out." Yang Chen couldn't help but sneered, and then asked the great elder, "I don't know what the name of this senior is?"

"You are a dying person, so what's the point of giving you my name and surname?" The great elder snorted coldly, glanced at Gongsun Ling who was snuggling next to Yang Chen, and said with a sneer, "Grandmaster Yang has such a beautiful woman. There are no beautiful women by my side, what a pity!"

"Grandmaster Yang, Steward Yang Xi, your fellow countryman, asked us to bring you a message." Ming Guangruo waited for the great elder to finish speaking, then took up the conversation, and said to Yang Chen "Steward Yang said, thanks to you for taking good care of him, and he will return you with interest today. He will take care of your wives and concubines properly, Grandmaster Yang, you can go on your way with a peace of mind!"

The meaning behind the words was actually arranged by Yang Xi. Yang Xi's cultivation base Yang Chen knew that before he entered Langya Well, people from the wine immortal house sent news of Yang Xi.

He was only a Jiedan stage master, yet he could arrange for a Dacheng stage elder like Ming Guangruo, Moreover, at least one great elder was involved in the attack, which made Yang Chen look a little different.

However, no matter who arranged it, whether it was Yang Xi, or the master of the Greatest Heaven Sect, since these people have entered the danger zone and came to Yang Chen's side, then Yang Chen will definitely not be polite. The great elder, with his status and cultivation base, was enough for Yang Chen to take action.

"A'Ling, don't let anyone leave." With a smile on his face, Yang Chen commanded with indescribable joy "Seniors, thanks to your hard work, you took the initiative to come to my door. I respect you, injustice has a head debt Lord, when you see Steward Yang in the future, you can talk about the past slowly!"

\*\*\*

Chapter 756: : The Prudent Grand Elder

After Yang Chen said don't let anyone leave, a contemptuous smile appeared in the eyes of the great elder, but then he was stunned, the people around him suddenly disappeared without a trace and he could no longer see a trace of them.

After all, he was a high-ranking expert, and after a moment of stupefaction, he immediately discovered a clue. There were faint spiritual fluctuations around his body that made him instantly realize that those people didn't disappear, but were trapped in a formation.

"Small tricks!" The great elder snorted coldly, such tricks were of no use to him. His eyes were fixed on Yang Chen and Gongsun Ling, who were tens of feet away. As long as he killed Yang Chen and Gongsun Ling, wouldn't he be able to break through the maze?

No matter how powerful the geographical map of mountains and rivers is, it needs the excellence of the master. With Gongsun Ling peak Yuanying stage cultivation base, controlling the geographical map of mountains and rivers can keep almost all the cultivators in the mortal world, but there are still a few exceptions, and the great elder in front of her is one of them.

She don't know how long he stayed in the mortal world, but this elder who didn't want to be named has already reached the fourth grade human immortal realm. It can be said that it is a miracle to be able to

cultivate to this level in the mortal world. No matter in terms of spiritual power or spiritual awareness, it is not a fluke that he was able to find some clues to the formation of mountains and rivers.

In the eyes of the great elder, there had never been a junior in the Yuanying stage who dared to be so arrogant in front of him. In front of his own eyes, he even expected to keep everyone behind, and even sent himself on the road. In the past, the great elder might have laughed crazily with a few fellow cultivators, laughing at this little guy's overreaching.

But now the great elder didn't have any contempt for Yang Chen, he didn't see any fear in Yang Chen's eyes. From the beginning to the end, Yang Chen's expression was calm, and later he even put on a smile. This was definitely not the posture of being generous to die.

The lion fought the rabbit with all his strength, let alone this old guy who didn't know how many years he had lived. His life lasted so long that he didn't know how many times he had seen the reversal of the rabbit kicking the eagle, and even he himself had leapfrogged more than once to kill a cultivator who was much stronger than him. His excellent insight and rich experience made him never think that he would have it easy from the very beginning.

This tone can be ridiculing or belittling, this is a means to make the other party feel pressured, but in his heart he will never underestimate any enemy, even if it is just a dying enemy. This is the prudence of a high-level cultivator, and it is also the way of life that has been lived until now. A dead enemy is a good enemy, this is an eternal truth.

Phew, before the intense sound of piercing through the air resounded, a beam of light had already hit Yang Chen's eyes. The speed of the great elder's attack was faster than the speed of sound, so fast that even Gongsun Ling almost didn't react; the attack had already landed on Yang Chen.

Hum, an extremely dull bell sound spread to the surroundings with a shocking power. Gongsun Ling, who was close at hand, was caught off guard and almost lost her defense. If her Sea of Consciousness hadn't been so condensed under Yang Chen's massage, maybe the sound of the bell would have made Gongsun Ling faint.

A phantom of a golden bell appeared on Yang Chen's body in time, and after blocking the blow of the great elder, the golden bell turned into a pair of shining golden armor, covering Yang Chen's body. Although the Yellow Turban Warrior's body refining technique is powerful, Yang Chen is not so stupid to think that he can only rely on his body to resist the attack of the great elder. If there is a magic weapon for protection, he would be a fool for not using it.

“A’Ling, dodge!” Yang Chen knew just how powerful this master is, and immediately asked Gongsun Ling to dodge. This is not a battle that Gongsun Ling can participate in. She just needs to hide in the geographical map of mountains and rivers and watch with peace of mind. No matter how strong the opponent is, at this time, he still doesn’t have the strength to hurt the geographical map of mountains and rivers.

The magic weapon that attacked Yang Chen finally appeared in reality, it was a ring. If you zoom in and look carefully, it was clearly in the form of a wrist guard. The great elder’s magic weapon for attacking turned out to be a wrist guard.

Although Yang Chen seemed to be able to easily block the strong power contained in the wristband, Yang Chen couldn’t help admiring the anti-shock force transmitted from the weapon to Yang Chen. There are really very few people in the mortal world who can cultivate to this level, what a pity!

After giving Gongsun Ling a word just now, Yang Chen’s mind flashed, usually there are two wrist guards. This idea just flashed, and there was a bang behind him, another wrist guard appeared from the ground without a sound and bombarded Yang Chen’s back heavily.

After two powerful attacks in a row, Yang Chen stood still and didn’t move except to release the golden bell. The only time he talked was with his wife. Such an understatement, so relaxed, as if those two attacks were not able to tickle Yang Chen, Yang Chen didn’t even shake his upper body.

“What a magic weapon!” When the golden bell appeared, the other party certainly saw it, and his eyes immediately glowed with splendor. The magic weapon that was able to easily take over his two attacks like this is an extraordinary without asking, and he couldn’t help but praise: “But don’t think that you can escape from this old man with this magic weapon, it’s wishful thinking!”

The great elder’s sneer had just begun, and the two wrist guards that appeared suddenly became abnormally soft, and the speed was so fast that they immediately put Yang Chen in the center. The upper one tightly bound Yang Chen’s arms and torso, and the lower one bound Yang Chen’s legs tightly and tightened them tightly at the same time. By this time, the second sentence of the great elder had just begun.

Gongsun Ling's figure disappeared in a flash, she didn't even have any intention of helping. Maybe she didn't see it, maybe she didn't intend to help at all, but no matter what kind of situation, it can't affect the caution of the great elder.

Even though Yang Chen looked as if his hands and feet were bound and he was powerless to fight back, the great elder still mercilessly summoned a flying sword and chopped it at him. At the same time, the two wrist guards began to shrink crazily like giant pythons entangled and during this period, the great elder was always tens of feet away, and he didn't even plan to get close.

Manager Yang only wanted Yang Chen to die, he didn't care how he died. The older and more refined the great elder would never let himself be in danger. Yang Chen was able to grow from a junior to this point, and obtain such achievements, it was by no means as simple as just being a fifth-grade alchemist. This point can be seen from the fact that the sect sent masters to deal with Yang Chen several times but failed.

The great elder wasn't afraid that Yang Chen would hurt him, he was just afraid that he would be accidentally forced to show his true strength and cause his tribulation to come, he still had to protect the sect for a hundred years, so it was not yet time to ascend.

\*\*\*

Chapter 757: : Expectations

Only using the power of the peak Dacheng stage, it should be foolproof according to reason, the old man has been cultivating to this point, relying on the word of caution.

The flying sword, which was imagined by the great elder master to be foolproof, went wrong just before it was about to cut Yang Chen's neck. A hand appeared out of nowhere, with two fingers like pinching flowers, lightly holding the flying sword between the two fingers, as if pinching a piece of hair.

In the stunned expression of the great elder, Yang Chen raised his hands that should have been firmly bound by the wrist guards without any hindrance, and quickly pinched the flying sword. With relaxed movements and a flat expression on his face, it was as if the powerful wrist guards on his body didn't exist.

The wristband that restrained Yang Chen's hands was unreasonably stretched by the powerful force, and it was put on Yang Chen's arm in a ridiculous way. The fact that it was getting longer and longer was evident.

At this moment, the great elder looked at Yang Chen as if he was looking at a prehistoric monster. The wristband is his natal magic weapon, and he can clearly feel that Yang Chen didn't use his spiritual power at all, but relied on his physical strength to easily push away the magic weapon he was so proud of, and he didn't even pause a little at all.

The wrist guards on both legs were pulled apart arbitrarily following Yang Chen's simple movement of splitting his legs. And the flying sword pinched in Yang Chen's hand has completely lost control. Seeing that Yang Chen just squeezed it casually, the flying sword carefully collected and tempered by the great elder turned into a U-shape, and with more force, it completely turned into a ball of metal, and this ball of metal was being captured by Yang Chen gently like kneading dough, changing the shape rapidly.

The wrist guards that were pulled away quickly deformed, like two spirit snakes, they slid towards the gap in the armor on Yang Chen's body. Surprise is nothing but surprise, but the great elder has rich combat experience, and he will never give up because of temporary setbacks, let alone shrink back when he sees this scene.

Yang Chen's strength is astonishing, the great elder already knew this from the guide who saw Yang Chen open the danger zone outside the first danger zone, so he was not surprised at all. He just didn't expect that Yang Chen's power would be so powerful that he could ignore his natal magic weapon.

If one trick fails, there are other tricks. There is not only one way to kill people. In this regard, the great elder is 10,000 times stronger than those guys who are shocked immediately after their attack is broken. How about Yang Chen's strength, so what about his protective magic weapon, as long as his natal magic weapon gets in through the loopholes, isn't it up to him to decide whether to kill or not?

However, Yang Chen is no longer the passive person that he was in the beginning. On the right hand that was freed, a ghost-headed sword appeared silently, and the nine rings of the sword rattled. At a distance of several tens of feet, a head was chopped off.

Whoosh, the sound of the blade cutting through the air also fell behind the blade, with a flash of silver light, the thing cut by the blade split into two parts, and quickly separated towards the two sides.

In the blink of an eye, a ghostly figure appeared behind Yang Chen, and punched Yang Chen's back viciously. Yang Chen's saber just cut on a metal puppet, but the real body of the great elder, it was not known when it appeared behind Yang Chen.

Yang Chen didn't dodge, his figure quickly slammed into him backwards. His back bumped into the great elder's fist, and the momentum persisted, not only the fist was knocked back, but the whole body was thrown into the great elder's arms.

Click, the sound of a slight bone crack reached the ears of the great elder. The sound was so soft that Yang Chen probably didn't even hear it, but the severe pain from his fist made the great elder realize that his fist had been injured.

It was completely unexpected that Yang Chen would be able to receive his punch without dodging or avoiding it. This is the strength of a peak Dacheng stage master, Yang Chen didn't even have to unload his strength, he just received it directly. At this point, the great elder has completely understood that if he doesn't show his true ability, it seems that there is nothing he can do to Yang Chen.

He never expected that Yang Chen would be so difficult to deal with, and be able to force out his true strength. He've never heard of other people saying how powerful Yang Chen was before. Such a powerful guy, with the name of a fifth-grade alchemist, he bluffs and deceives people. Thinking about it makes people shudder. Now that he has made a move this time, no matter what he says, he can't let Yang Chen survive.

"Die!" The great elder shouted violently, no longer caring about hiding his strength to suppress the tribulation, the strength of the whole body was directly raised to the highest level, the entire danger zone space seemed to start to tremble, and the sky began to condense crazily. The bone fracture caused by Yang Chen's bump just now, was instantly healed under the repair of huge spiritual power, and even the elder's fist turned into a jade-like color.

Boom, the elder's attack was really too fast, and another heavy blow landed on Yang Chen's body. This time, the golden bell couldn't completely block this powerful force, the attack power surpassed the golden bell's limit, and attacked Yang Chen solidly.

The powerful muscles of the body tempered by the yellow turban warrior body refining technique suddenly sank downward at the place where the punch was punched, and then rebounded violently. Although the strength was great, it wasn't something Yang Chen couldn't bear. This attack with the

strength of the fourth grade Human Immortal realm actually made Yang Chen pause for a while, and then Yang Chen's attack smashed down again.

The two soft wrist guards, which have been useless for a while, have given up looking for gaps in the golden bell's armor, and it returned to the wrist of the great elder, perfectly protecting the two forearms of the great elder. Seeing Yang Chen slashing down with a sword, the great elder did not dodge but crossed his hands, and greeted the blade of Yang Chen's ghost blade.

A master of the fourth grade human immortal realm, fully controlling his natal magic weapon, and blocked the blade attack of a peak Yuanying stage, how normal, how common, what could go wrong?

No matter how powerful Yang Chen is, the most he can do is to smash the body of the great elder to the ground a little bit. At that time, the hands of the great elder had already scratched Yang Chen's throat with his magic weapon and smashed his head. Trying his best to cause a tribulation and ascend to the sky, the great elder also want to kill Yang Chen on the spot, and must not leave any future troubles.

Everything was as expected by the great elder. Yang Chen's ghost head blade slashed on the wrist guard at the intersection of the great elder's arms without any deviation. Under the urging, it directly drove to the maximum. The sound of the blade and the wrist guard colliding could be heard clearly from far away.

\*\*\*

Chapter 758: : Death Of The Grand Elder

It's a pity that the great elder only predicted the beginning, but not the end. In his imagination, the scene where his own powerful natal magic weapon bounced Yang Chen's not-so-excellent ghost head blade into the air did not appear.

Well, this kid is extremely powerful, his grip is tight, and he can withstand the attack of the peak Dacheng stage without moving. It can be regarded as having two brushes. It is normal for the ghost head blade not to be bounced off, but it is absolutely impossible for it to cut through the natal magic weapon that has been tempered for thousands of years by a master at the fourth grade human Immortal realm.

The impossible thing became possible, the moment the blade and the wrist guard came into contact, the great elder instinctively sensed the danger. This is an intuition brought about by countless life and death experiences, and almost never makes mistakes.

Almost subconsciously, the figure of the great elder wanted to retreat violently. He had already seen that Yang Chen had great strength and a huge figure. If he didn't rely on a legendary flying shuttle to run very fast, he was not very fast. Based on this alone, as long as the great elder can get out of Yang Chen's attack range, Yang Chen will basically never be able to attack him again.

It's just that he thought about it when the blade had already hit the wrist guard, which was obviously too late. Under the blessing of Xiao Tian, the blade of the Immortal beheading blade cut off the wrist guard like cutting tofu, and cut into the forearm of the great elder.

In an instant, an extremely terrifying aura rushed directly into the body of the great elder from the blade, and accompanied by that aura, there was also an extremely evil feeling, as if he suddenly lost control of his body, involuntarily wanting to make some extraordinary moves. Countless memories flickered in his mind, and all kinds of unpleasant experiences came to his mind clearly, his sea of consciousness almost started rioting directly.

The most frightening thing was that Yang Chen's ghost head blade had an extremely strong suction force, and the blood all over his body rushed towards the blade uncontrollably. At the same time, two burning hot wires quickly burned along his arms to his whole body, the great elder could even feel his blood boiling.

Under all the painful feelings, two powerful and unparalleled spiritual powers rushed straight to the meridians of his whole body with an unstoppable momentum, wherever they passed. The spiritual power of the great elder seemed to meet an invincible army. After only a symbolic resistance, it was cut to pieces by those two strands of spiritual power, and could no longer stop the advance of the spiritual power.

The backlash brought about by the destruction of the natal magic weapon caused the great elder's cultivation to suddenly drop to a small level. A mouthful of bright red blood just surged to his throat, but was attracted by the suction from the blade, and was pressed back into his stomach. This time, the great elder almost fell into a coma.

In the nick of time, the great elder still managed to control his sanity, and did not fall into a state of trance, but various hallucinations had begun to emerge crazily, eroding his only sober consciousness. At

this time, he still dared to have any private thoughts, and tried his best to break free from the strong suction, resisting those complicated pains, carrying out the last struggle.

At this moment, there was only one word left in the mind of the great elder, retreat! Even if you care about your natal magic weapons and don't want a pair of forearms, you have to retreat quickly. Only by retreating can life be left, as long as life is still there, there is still a chance to turn things around.

The great elder, who has rich combat experience, is very aware of his current situation. Yang Chen's Immortal beheading blade is really evil, he couldn't bear even a strike. But it's not completely impossible to win now, as long as he can escape from this blow. As long as he gives himself a dozen breaths, there is still hope for everything.

The tribulation clouds in the sky were about to gather, and the place where the two were located was pitch black. The great elder gambled on the coming tribulation. No matter how powerful the magic weapon was, Yang Chen was only a junior at the peak Yuanying stage.

At this time, even if Yang Chen ran away with the fastest speed, it was impossible to escape from the range of the tribulation. Even the masters at the peak Dacheng stage would not dare to watch the ceremony easily, let alone stand almost at the center of the tribulation. As long as he can get out of Yang Chen's attack range, everything can get back on track.

The ideal is very full, but the reality is very skinny. When the great elder wanted to retreat, he suddenly found that his body had lost control at some point, he didn't know when this happened.

The great elder could only watch helplessly as his arms turned black when the Immortal beheading blade cut halfway through, and then the Immortal beheading blade was like a broken bamboo, without the slightest pause, and directly connected his arms together. The two natal magic weapons wristbands were chopped into several pieces. Then, before the blade's momentum disappeared, the blade of the Immortal beheading blade, gleaming with cold light, reached between his eyebrows.

All of this, as if in slow motion, clearly happened before the eyes of the great elder. Yang Chen's movements were fast, but the great elder could clearly see every step, or feel it clearly.

A few breaths before the tribulation that the great elder had hoped for came, Yang Chen cut the Supreme Elder in two with a single blow.

Without the control of the masters of the fourth grade human immortal realm, the blood in the elder body was sucked out in an instant, and the two corpses turned into mummies before they fell to the ground.

The tribulation in the sky suddenly lost its target, stopped gathering, and began to slowly dissipate. It came and went quickly, and disappeared without a trace after a while. There were only two corpses left on the ground, and the traces of the battle left by the two of them.

Yang Chen didn't take a second look at the corpse on the ground, but just raised his hand and placed the Immortal beheading blade in front of his eyes. The sword that drank the blood of the great elder seems to be a little different from before.

"Very good strike." Yang Chen's eyes finally stayed on the corpse for a while, and then with a move, the Qiankun bag of the great elder was in his hand, and the two corpses were sent to the raging flames with a wave of Yang Chen's hand. In the burning pure yin true fire, the ashes disappeared in a blink of an eye, leaving no traces.

"A'Ling, treat those masters well, and ask them about the recent movements of the Greatest Heaven Sect." Shouting into the void, Yang Chen casually put away the Immortal beheading blade and began to look through the Qiankun bag in his hand.

Gongsun Ling's figure appeared beside Yang Chen out of thin air, and she sweetly agreed, and followed Yang Chen's instructions, carefully interrogating Ming Guangruo and the others. Poor guys, they entered the geographical map of mountains and rivers without knowing what the situation is, and they will never have a bright future.

\*\*\*

Chapter 759: : A Good Show

In the storage bag of the great elder, as expected, Yang Chen found two compasses. Yang Chen had seen this kind of compass a lot, the one which tracked his whereabouts was the kind of compass concocted by Li Liheng.

A compass was used to track the whereabouts of Yang Chen himself. After trying it out, Yang Chen crushed the compass casually. The remaining one was tracking another person, looking at the direction of the compass pointer, that person was still in the northeast.

After a little thought, Yang Chen knew who the compass was following. Unexpectedly, Li Liheng would pay attention to Tao Junqi now, presumably it was Li Liheng's tricks when Tao Junqi went back to arrange the affairs of the sect before everyone left.

With Li Liheng's cultivation of the spatial spiritual awareness cultivation method, although he has not reached the stage where he can really contact with his seniors in the spiritual world, but few people in the mortal world can discover the imprint of spiritual awareness left by Li Liheng unintentionally. It is normal for Tao Junqi not to notice it.

The reason why Ming Guangruo and the others were able to enter the danger zone with ease was not because anyone took the initiative to reveal the method of entry and exit, but because these guys used the compass to locate Tao Junqi's trail. After Tao Junqi went back and forth several times, they also knew the route of entry and exit.

This time, Ming Guangruo and the others probably took advantage of the fact that Tao Junqi, Wushuang and the Murong sisters had left, and the masters of the Dacheng stage were not around Yang Chen. They wanted to kill Yang Chen and deal with Gao Yue, Gongsun Ling and the others at the same time.

Ming Guangruo's words have already made it very clear. Yang Xi said that he would take care of his wives and concubines for Yang Chen. This guy is so bold that he actually wanted Yang Chen's women. Even if there is no enmity from his previous life, he would absolutely die now.

From another point of view, Yang Xi, as the steward, can directly use the great elder without going through the high-level officials of the Greatest Heaven Sect, which was unbelievable. Even Yang Xi, who is so pretentious and pretends to be powerful, is so imposing now, Li Liheng's arrogance can be imagined.

During the several "spatial contacts" with Li Liheng in the past few decades, Yang Chen had already discovered it. Li Liheng's cultivation of spiritual awareness increased a lot. In the middle Yuanying stage, he already had the cultivation of spiritual awareness in the middle Dacheng stage.

Although the spatial spiritual awareness cultivation method can improve the level of spiritual awareness, it is also based on successful cultivation. According to Yang Chen's knowledge, those who can truly achieve spatial communication must be at least above the human immortal realm. Li Liheng's spiritual awareness was only in the Yuanying stage before, and it was by no means a sign that he had successfully cultivated the spatial spiritual awareness cultivation method.

Since it wasn't the improvement of spiritual awareness brought about by the spatial spiritual awareness cultivation method, then Li Liheng's abnormal spiritual cultivation can only be explained by one reason. That is the Free Demon Heart Sutra. The seeds planted back then are now finally bearing fruit. It seems that everything is proceeding according to the script written by Yang Chen.

The young sect master of the Greatest Heaven Sect is using the Free Demon Heart Sutra to harm his comrades, and the sect's formation absorbs spiritual power. For the time being, these have not yet exploded. Wait until Yang Xi, a key figure, uses the special formation eyes. When all this is exposed, he don't know how the Greatest Heaven Sect will explain it, and how the cultivators in the mortal world will treat the Greatest Heaven Sect, the number one sect of dao cultivators.

Gongsun Ling appeared in front of Yang Chen again after a while. It will take a long time for those Dacheng stage masters who have just been captured to be obedient. They probably don't know the situation when they just entered, and they are still expecting the great elder to appear beside them with Yang Chen's head.

"A'Ling, you don't need to tell others what happened just now." Yang Chen put his arms around Gongsun Ling's slender waist. He comfortably enjoyed the process of Gongsun Ling arranging her clothes and said casually.

"Why?" Gongsun Ling was a little displeased, these people dared to think of harming her husband. Of course, the whole family must come to their sect to seek for justice. What does it mean not to tell others? Immediately she came to some understanding, and asked cautiously, "Even Sister Tao and the others don't want to say that?"

In terms of status, Gongsun Ling is the main wife, and Tao Junqi and the others should call her sister Gongsun Ling, but in terms of age, Gongsun Ling should be called her senior sister Tao Junqi and the others. Anyway, among Yang Chen's wives and concubines, they all called each other elder sister, so others would find it strange.

“Junqi is a member of the Greatest Heaven Sect. If she knows, it will be difficult for her to behave.” Yang Chen nodded and explained to Gongsunling.

Anyway, knowing that Tao Junqi’s heart is for him, it’s fine if she doesn’t sell herself to the sect, there’s no need to make her unhappy before she ascends. Yang Chen’s plan for entering Langya Well at that time was to let Tao Junqi survive her tribulation in Langya Well, so that it would be difficult to stay away from the sect, so it’s better not to break this plan now.

Gongsun Ling was naturally obedient to Yang Chen, and she nodded immediately after hearing the words, but after nodding, she still asked unwillingly: “husband, is this the way to go?”

“How is it possible?” Yang Chen looked down at Gongsun Ling, and replied with a smile, “It doesn’t matter if they want to kill me, but they still dare to plot against you, there is no redemption for a hundred deaths, after we get out, see your husband vent your anger for you. “

Gongsun Ling knew Ming Guangruo’s identity very well, and she was a little bit unwilling just now, but after hearing Yang Chen’s words, she couldn’t help but start to worry. Ming Guangruo was an elder of the Greatest Heaven Sect, and the one Yang Chen killed just now was a great Elder. Could it be that her husband really wanted to trouble the Greatest Heaven Sect?

Although she knew in her heart that Yang Chen was very unhappy with the Greatest Heaven Sect, Gongsun Ling had never heard Yang Chen tell her that she wanted to trouble the Greatest Heaven Sect. In her mind, he was happy for Yang Chen to help them vent their anger and trouble the Greatest Heaven Sect, but she was worried about Yang Chen for a while, and her mood was very contradictory.

“Husband!” Not knowing how to say thousands of words, Gongsun Ling only called “husband” before she couldn’t continue, but the worry on her face appeared in front of Yang Chen without any concealment.

“Don’t worry, A’Ling, your husband won’t touch a stone with an egg.” Yang Chen smiled and comforted Gongsun Ling, “When the time comes, your husband will show you a good show.”

“What’s the show?” Gongsun Ling understood that Yang Chen had a temper that was uncompromising. If he said he wouldn’t fight head-on, then he really wouldn’t fight against the Greatest Heaven Sect.

Feeling relieved, Gongsun Ling also looked forward to the good show Yang Chen had to say, and asked curiously.

“The destruction of the Greatest Heaven Sect is a good show.” Yang Chen’s understatement made Gongsun Ling’s heart twitch again, and she almost cried out in surprise. Fortunately, she covered her small mouth in time, but the shocked expression on her face still put her emotions naked in front of Yang Chen.

Yang Chen was talking about destroying the Greatest Heaven Sect, how could Gongsun Ling not be surprised? The number one sect in the mortal world, the leader of the five great sects, and masters coming out in large numbers, no matter how powerful Yang Chen is, he can kill a great Elder, but can he deal with the entire Greatest Heaven Sect?

Chapter 760: Tao Junqi’s Suspicion

The aura of the Heavenly Tribulation just now was too shocking. Tao Junqi, who had been away for a few days, of course discovered the direction of the Heavenly Tribulation, and rushed back with Shi Wushuang. Even the Murong sisters were the same, they didn’t even care about the Langya crystal ship and hurried back to this place desperately.

They have already destroyed the body and traces of the great elder. Ming Guangruo and the others were imprisoned by Gongsun Ling in the geographical map of mountains and rivers. If they did not want others to know, no one could find out their whereabouts.

“What’s the matter with the aura of the heavenly tribulation?” Everyone was concerned about the aura of the tribulation that appeared in the danger zone. The cloud of tribulation began to condense and then dissipated, so that person started to face the tribulation, and he was already dead. At that time, it was impossible to suppress the tribulation.

“There was a master who observed you for a long time, found a way to get in and out, came in and wanted to fight, and he was granted.” Yang Chen replied lightly, and then added with a smile “Of course, it was A’Ling and I who joined forces, so the spoils are not yours.”

No one would care about the spoils, the seven girls thought that it was just an accident, someone observed them for a long time without letting them notice. You must know that Tao Junqi is already a master who is on the verge of ascending, the peak Dacheng stage, and she hasn’t even discovered it, so what level should the opponent be?

Reminiscent of the sudden tribulation, although the raging wind tribulation did not really come, the aura contained in the tribulation cloud showed that it was by no means an ordinary master. Being able to trigger a tribulation at any time can only explain one thing, a master who is too advanced.

There was a great elder here who entered Langya Well, and was killed by Yang Chen and Gongsun Ling together, which made seven girls feel astonished for a while.

On the one hand, it is the strength of Yang Chen and Gongsun Ling, two peak Yuanying stage masters, who are able to kill a great elder, their own husband and Gongsun Ling are really incomprehensible.

On the other hand, everyone was guessing which sect the great elder belonged to. There are only a handful of sects with great elders, including the Demon Sects and rogue cultivation alliance, that is, those few sects. What sect would send a grand elder to deal with a junior like Yang Chen?

Avoiding a few of them is not a problem, they have shown enough strength before. Each person plus their respective peak Dacheng stage monster pets is equivalent to fourteen masters of the Dacheng stage, and two powerful five-element formations. Even the grand elders have to weigh whether they can resist. It's normal to do it after they leave.

The issue is, these sects with grand elders really have no reason to chase and kill Yang Chen. Among other things, Yang Chen provided the Demon Sealing Formation alone, not to mention the pills needed for various breakthroughs. Which sect would be foolish enough to send out experts to do this kind of thing?

The only explanation was that it was a certain grand elder's own behavior, maybe he just wanted to ask Yang Chen for pills, and his attitude was a little arrogant. Anyway, their husband is still here. It is enough that the grand elder who came in died, and the other girls don't have to think about it.

This matter was just a small episode. After the girls realized that Yang Chen and Gongsun Ling would be safe and sound together, they no longer worried, left again, and continued what they hadn't done last time. Although cultivators have a long lifespan, none of them are willing to waste it on dead people who have nothing to do with them.

Tao Junqi still went out with Shi Wushuang, but she already had some doubts in her heart. She was not doubting Yang Chen. Instead, she doubted her own sect. If it is said that they will kill Yang Chen, the Greatest Heaven Sect must bear the brunt of it. Although the Greatest Heaven Sect had been maintaining a close relationship with Yang Chen for hundreds of years, the discord in the past was not so easy to eliminate.

At least Tao Junqi knew that the sect once sent people to chase and kill Yang Chen, and those who chased and tried to kill Yang Chen were basically dead. This time when they entered the Langya Well and returned to the sect, many people were very concerned about Yang Chen's whereabouts, including the sect master, several core elders, and even the young sect master Li Liheng.

Thinking of the young master Li Liheng, Tao Junqi's heart suddenly moved. She knew about the abilities of her own young sect master before. Tracking the whereabouts of other people is a good hand, many of the sect's compasses to track Yang Chen's whereabouts are from the hands of the young sect master. This time, someone can learn how to get in and out of the danger zone just by observing them in and out. Could it be related to the Young Sect Master?

It would be too simple for someone to know how to get in and out of a danger zone just by watching others come in and out a few times. This danger zone has stood in Langya Well for tens of thousands of years, and there have been batches of cultivators who have come in, with a total of no less than a million, but it has never been heard that anyone other than Yang Chen's family has entered, and no one has entered.

If so, it seems that there is only another way to find the way in and out of the danger zone, and that is to pinpoint their location. This point, the Greatest Heaven Sect can do it, especially the young sect master Li Liheng, as long as he puts a ray of spiritual awareness imprint on any object and brings it to someone else, he can find the most accurate position of that person without being noticed.

Recalling that Li Liheng paid a special visit when she returned to the Greatest Heaven Sect, Tao Junqi couldn't help but began to check her body to see if there was anything tampered with. In the sect, Tao Junqi had prepared a lot of things, so she could only inspect them one by one.

Shi Wushuang didn't know why Tao Junqi stopped suddenly, but she didn't ask any further questions, just waited quietly.

The some things were dug out from Tao Junqi's qiankun bag, and Tao Junqi carefully probed it with her spiritual awareness. Not only Tao Junqi herself, Tao Junqi also ordered her Iron Wing Flying Eagle to show up and investigate these things together.

Two hours later, Tao Junqi found at least eight gifts from the sect with the imprint of spiritual awareness in her things, and two of them obviously carried the aura of the young master Li Liheng. Tao Junqi's cultivation is at the peak Dacheng stage, and she has been in contact with Li Liheng recently, and even experienced Li Liheng's cultivation on purpose, and she will never admit her mistake.

After discovering this, Tao Junqi started to stir up an uproar in her heart. As expected, the problem was with her, with her sect. The grand elder who tried to kill Yang Chen was actually sent by the Greatest Heaven Sect.

Suddenly, Tao Junqi hesitated. One side is the sect, the other is the husband, but how should Tao Junqi choose?

Tao Junqi couldn't figure it out now, why the sect would kill Yang Chen, could it be because Yang Chen had killed a seemingly excellent foundation-building disciple before?

But since they wanted to kill Yang Chen, why did the sect let her approach Yang Chen? She even care that she had made a vow to be the Yang family in this life and the ghost of the Yang family in death.
