

## Zongwu 2781

### Chapter 2781

Zhao Ya and Shangguan Yalan nodded.

Today is the first time to hunt zombies. Some of the girls may be panicked, but hunting zombies must be overcome.

The girls Zhao Ya experienced killing zombies yesterday, and they also shot and killed people anxiously.

The girls Zhao Ya were not too worried about hunting zombies, but they did not know whether other women would overcome their fear.

"Each team will check their weapons and equipment again. We will set off in ten minutes."

"yes!"

Lin Yun and Song Yuxi looked at each other helplessly.

They didn't have to hunt zombies, but Leng Qingxue also asked them to hunt zombies, saying that people who can't hunt zombies will not survive in the apocalypse.

Lin Yun and Song Yuxi think about it. That's right, they can't be protected by women like Zhao Ya all the time, and Su Chen can't"143" save them in time every time they are in danger.

Ten minutes later, thirty-nine women set out in full gear to hunt zombies , some of their faces were very pale, but these women were not timid, they held the guns tightly and showed firm eyes.

After being humiliated and tortured, the girls knew the cruelty of the end of the world, and with Su Chen's selfless help, they With Su Chen's way of making them stronger, the girls want to control their future destiny. They don't want to encounter nightmare-like humiliation and torture.

Su Chen stood in a corner.

He looked at the girls leaving without saying anything.

The end of the world There is no need for weak people in the world, and there is no need for tears in the apocalypse.

The girls don't want to be subjected to nightmare humiliation and torture again. They must be strong, so strong that those who want to do evil to the girls will run away in fear when they see them.

"It's almost half a month, damn, one day is still far away."

Su Chen leaned against the wall and rubbed his forehead, feeling very helpless.

A thousand days?

In a thousand days, many warriors and evolved zombies may appear. If he cannot absorb the zombie crystal core,

Su Chen's strength will remain the same. If he survives A thousand days? He felt that the world would become more and more dangerous in the future.

A month later, Su Chen and the girls moved here to a luxurious villa in the Magic City for more than half a month. Living in the residential building was very inconvenient, and Going upstairs and downstairs was a waste of time, so they decided to move to the luxurious villa area.

On the balcony of the third floor,

Su Chen was lying on a chair and basking in the sun.

He was getting lazier and lazier, but there was nothing that could be done about it. The physical quality and strength of the seven girls have been improved to seven times, and the physical quality and strength of the seven girls Zhao Ya have been improved to eight times. If Su Chen doesn't use some means, he will not be the opponent of the girls.

Cui Siying massaged Su Chen and asked,

"Sir, are we going to hunt zombies today?"

Su Chen shook his head and replied,

"No, you guys have a few days off"

"OK sir!"

Su Chen reminded me while taking a sip of tea.

"Siying, please ask Leng Qingxue to pay attention to the large supermarket on Jiangbei Road. The survivors in the supermarket also used crystal cores to improve their strength. Cui

Siying nodded quickly and replied,

"We know that Xu Xuan's team has been monitoring that side for the past few days."

Su Chen closed his eyes and rested after hearing this.

Leng Qingxue was very capable.

She led the women in the four teams vividly. After a month of hunting zombies, not one of the more than 30 women died.

Su Chen became more and more interested in Leng Qingxue. The more I appreciate it, but

Leng Qingxue has a very bad temper. What's wrong with the girls in the villa taking care of him? He can't use the zombie crystal core, why should Leng Qingxue let him hunt zombies?

Cui Siying saw Su Chen closed his eyes. Eyes, she smiled and continued to massage Su Chen. (To read Baoshuang novels, go to Feilu Novel Network!)

For a month, these women took turns taking care of Su Chen.

Although Su Chen did not hunt zombies, he did not help them again, but they have no dissatisfaction with Su Chen. It is Su Chen's help that all the girls have the strength today.

Without Su Chen, some of their women may have died, and some of them may have continued to be imprisoned and humiliated. Torture.

At noon,

Leng Qingxue came to the balcony in a hurry.

She saw Su Chen enjoying herself lying on the rocking chair. Cui Siying and Zhao Ya were whispering and talking next to them.

Leng Qingxue pinched her waist and shouted,

"Su Chen, wake up, can't you move? If you don't move around, won't you worry about getting rusty?"

Su Chen opened his eyes and laughed,

"Come on, I won't rust even if I lie down for a hundred years. Leng Qingxue, do you think I'm an ironware?"

Leng Qingxue rubbed her forehead and said,

"Su Chen, it's been more than a month. Although you can't use the zombie crystal core, you can still exercise your body and shooting ability. Now you are like a dead pig who is just waiting to eat and drink."

I guess? I'm just eating and waiting. Drink?

Dead pig?

Why is Leng Qingxue so crazy? Su Chen doesn't need Leng Qingxue to take care of him, nor does he need Leng Qingxue to find food for him, nor does Leng Qingxue warm his bed. Does Leng Qingxue care too much about him? Su Chen doesn't need Leng Qingxue to take care of him.

Chen took off his sunglasses and asked,

"Leng Qingxue, what are you doing today?"

Su Chen took off his glasses and was not worried about the girls discovering that he was a zombie.

Half a month ago,

Su Chen's face returned to rosy. Although his eyes were still a little red, they were not as red as before. When the girls saw him His appearance would not guess that he was a zombie, and Lin Yun and Song Yuxi would not tell him that he was a zombie.

Leng Qingxue said seriously,

"Su Chen, I contacted the army today. Some troops are at the Jiangbei Police Station. There are more than 300 soldiers and police there. We people can go and meet with the army."

Su Chen shook his head and refused,

"Don't go!"

"you.... You don't want to go? Do you want to take Zhao Ya and the others to stay in the villa?"

"Leng Qingxue, do you want to take Zhao Ya and the others to the police station?"

"good."

Su Chen frowned and said,

"Leng Qingxue, if Zhao Ya and the others want to leave, you can take them away 4.3. I won't stop you."

"You really don't want to leave?"

Leng Qingxue asked seriously.

She was leaving the villa to go to the police station.

Leng Qingxue only contacted the army a month later. She is a soldier and she wants to protect civilians with the army.

"will not leave!"

Leave?

Is he well fed? Does he go to the police station to meet with the army? Does a zombie dare to go?

Even if Su Chen is not a zombie, he cannot be with the army and police.

If he meets with the army Together,

Su Chen's weapons and equipment will be taken away, and it's not certain whether the army can protect him.

"Su Chen, forget it if you don't leave. Zhao Ya, Cui Siying, you gather everyone, we will go to the police station to meet with the army."

Chapter 2782

Leng Qingxue didn't care about Su Chen anymore.

She couldn't understand why Su Chen became so lazy for a man who was also a very good marksman. Leng Qingxue thought that when Su Chen rescued her and Lin Yun's three girls a month ago, Su Chen shot the thugs' heads off one by one, and then provided weapons and crystal cores to the women here. but? Su Chen completely degenerated from then on. He was either sleeping or basking in the sun with nothing to do all day long. For a month, Su Chen had been relying on his daughters to support him. Although Leng Qingxue didn't hate Su Chen, she also couldn't stand Su Chen very much. After discovering the existence of the army today, Leng Qingxue decided to leave. She wanted to be with her comrades in the army, and she wanted to leave with the women here. As for Su Chen, Leng Qingxue felt that after no one took care of Su Chen, Su Chen must Will go to the police station to find them

"Leng Qingxue, we will not leave. If you want to leave, just leave!"

"Yes, it is impossible for us to leave, and we will not leave ungratefully. Leng Qingxue, please leave."

Zhao Ya and Cui Siying said to Leng Qingxue, leave?

How could they leave Su Chen?

The lives of more than thirty of their women were saved by Su Chen.

They were able to possess weapons and equipment and become so powerful. This is also because of Su Chen. They helped at the beginning.

Without Su Chen, there would be no them.

Zhao Ya, Cui Siying, and other women would not be able to leave Su Chen.

Leng Qingxue asked in surprise,

"Are you really not leaving?"

Zhao Ya shook her head and said,

"Leng Qingxue, our lives were saved by your husband, and it was his help that made us stronger. We will not leave your husband."

Leng Qingxue reminded with a frown,

"Zhao Ya, you have protected and cared for Su Chen for more than a month. In the apocalypse, you cannot always take care of and protect Su Chen. Su Chen cannot absorb the crystal core. He will be an ordinary person in the future. You can send Su Chen to the police. The Bureau let him be with ordinary people~. Cui

Siying said coldly,

"Leng Qingxue, you can leave."

Leng Qingxue looked at Zhao Ya and Cui Siying and shook her head. She understood what Zhao Ya and Cui Siying were thinking.

Su Chen saved them from hell. Zhao Ya and Cui Siying were repaying their kindness to Su Chen.

"Alas, I am leaving. If other women want to leave, I will take them away, so you can take care of yourself."

Leng Qingxue sighed and turned around to leave the balcony. She was going to persuade other women to leave.

Su Chen lay on the chair and opened his eyes and asked,

"Are you really not leaving?"

Zhao Ya shook her head and said, "Sir, we will not leave."

Cui Siying: "Our lives were saved by Mr. We will not leave.""

Su Chen smiled and looked into the distance.

These women are not bad.

Let's take a look.

If these women are worth cultivating, Su Chen will pass on some of their cultivation techniques.

In the large supermarket on Jiangbei Road, there were more than 200 people on the second floor. Gathered on the building, more than a dozen of these people had firearms in their hands, and the others were holding various weapons.

A middle-aged man in his forties and a burly scarred face stood face to face. Together, there were more than a hundred men with weapons standing behind them.

The middle-aged man shouted with a serious face, "Bolxiong, you'd better watch your men carefully. If your men dare to abuse women again, don't blame me." Take action to kill him."

Bao Xiong said disdainfully,

"Zhang Hao, please take care of my men. The people downstairs are all appendages. We protected them in the apocalypse and provided them with food. My men are just playing with some women. What's wrong with this." (To read exciting novels, go to Feilu Novel Network!)

Zhang Hao shouted angrily,

"Bao Xiong, how many women have you insulted this month? How many women have your men abused? Do you still have humanity? Have you forgotten about being a human being?"

Zhang Hao wanted to kill Bao Xiong at this moment, but he and Bao Xiong were equally powerful.

In the past month, they fought several times without a winner, and dozens of their men died.

Zhang Hao originally didn't want to fight Bao Xiong. Xiong had another conflict, but Bao Xiong's men had been abusing the woman downstairs these days, and he could no longer pretend that nothing had happened.

Bao Xiong snorted to Zhang Hao,

"Hum, this is the end of the world, Zhang Hao, you don't have to worry about what I want to do in the end of the world, and you don't have to worry about what my men do in the end of the world."

"Bao Xiong, don't forget the army in the police station. I have sent someone to contact the army. Prepare to be punished and executed by the army."

"Zhang Hao, you are looking for death."

Bao Xiong's face changed when he heard Zhang Hao's words.

There were hundreds of troops and policemen in the Jiangbei Road Police Station, and he knew everything about it.

Bao Xiong did not expect that Zhang Hao would contact the army in the police station. If the army knew about him, Whatever he did, he and his men would be shot by the army.

The violent bear absorbed the crystal core and tripled his physical fitness and strength, but he would still be beaten to death in the face of firearms.

Zhang Hao said with a mocking face,

"`court death? You and I are equally powerful, can your men kill my men? Three days, at most three days, the army will arrive. You should think about how to face the army."

"let's go!"

Bao Xiong waved his hand and led his men upstairs.

He wanted to think about what to do.

The large supermarket cannot stay any longer.

Bao Xiong and his men have done too many evil things. If they continue to stay, they will definitely be destroyed by the army.

In the villa,

Leng Qingxue looked at the women in disbelief.

She did not expect that all the women would not agree to leave, even Lin Yun and Song Yuxi did not intend to leave.

Leng Qingxue could not understand, although Su Chen. After helping all the women, they also took care of and protected Su Chen for more than a month.

Leng Qingxue didn't want to abandon Su Chen (Manuo's) and leave him alone.

Why didn't these women plan to leave? Su Chen really cared about these women. Is it so important?

Leng Qingxue left alone.

She couldn't persuade other women to leave with her. She could only go to the police station to reunite with her comrades.

As for these women,

Leng Qingxue would find a way to convince them later. These women. All of them are very powerful, and she will not give up on the women she has trained.

On the balcony on the third floor,

Su Chen looked at Leng Qingxue and shook his head, police station army?

He guessed that the police station was also very chaotic.

It was the end of the world. Yes, the soldiers and police in the army are good, but what about those who are officials?

Those officials will have their own ideas, and they may even fight each other for power and gain.

"Leng Qingxue, in the apocalypse, people's hearts will change. I hope you won't regret your decision this time."

Chapter 2783

When Cui Siying and Xu Xuan heard Su Chen's words, they looked at each other in confusion.

What did Su Chen mean?

Could it be that civil unrest also occurs in the military and police?

This is impossible, right?

The army and police of Daxia are very loyal and just. How could the army and police cause civil strife like thugs?

Shangguan Yalan asked,

"Sir, the military and police in the police station, will they also be the same as the thugs? -"

Su Chen touched his chin and replied,

"Some will, some won't. Everything will happen in the last days. People's hearts are unpredictable. Everyone will have desires and ideas. I hope that the situations I think will not happen."

"Sir is right!"

Xu Xuan nodded and said, anything can happen in the apocalypse, just like those people in the residential building.

They usually look human-like and gentle, but after the apocalypse, the demonic nature of those people has disappeared. It was exposed that these women were all victims, and they were humiliated and tortured like nightmares by those people with human faces and animal hearts.

Su Chen stood up and said,

"Everyone, please have a good rest today and continue hunting zombies to obtain crystal cores tomorrow. Zombies have not yet evolved and mutated. Now is the best time to hunt zombies. If zombies evolve in the future, you will be very troublesome in hunting zombies to obtain crystal cores. difficulty"

"Yes, sir!"

In the garden of the villa, all the women put on beautiful dresses. Some of them were sitting together chatting with each other, some were swimming in the swimming pool, and some were preparing sumptuous food.

The girls saw Xu Xuan and Shangguan The girls from Yalan came down, but Su Chen did not come down.

A woman asked,

"Captain Xu, where is sir? Why didn't he come down? Xu

Xuan replied with a smile,

"Sir will be here soon, everyone relax, we have no action today."

The girls all became happy when they heard Xu Xuan's words.

Although they could see Su Chen in the villa every day, today was their break time. Everyone was gathered together, and they didn't want the only man not to come.

After a while , After Su Chen fell down, he was surrounded by women. There was a man and more than thirty women.

Su Chen was just a little green among thousands of flowers. Su Chen didn't know how to deal with the charming women..Su

Chen waved to the girls and said,

"Everyone sits down."

After Su Chen saw all the girls sitting down, he continued,

"You are all powerful now, but not strong enough. After your physical fitness and strength increase to ten times, you will become warriors. A powerful warrior can smash a mountain with one punch."

"You may also become a person with superpowers, such as fire, earth, thunder, etc. Only then will you become a truly strong person, and you will also become a strong person who controls your own destiny."

Zhao Ya sat next to Su Chen and asked,

"Sir, will you really be very powerful after becoming a warrior?"

Su Chen nodded and replied,

"Yes, after becoming warriors, you will not only be very powerful, but your lifespan will also be increased a lot. The more powerful you are, the more your lifespan will be increased. Your strong strength will also make you look immortal."

The girls' eyes lit up when they heard Su Chen's words.

Do they have immortal looks?

The girls didn't pay attention to what Su Chen said. They knew that they would become more and more powerful in the future, but after becoming powerful, would they also have immortal looks? This made everyone This was something that all the women had not expected.

Su Chen raised his glass and shouted, "Let's all raise a toast and relax today."

"cheers!"

The girls raised their glasses and started drinking.

After a while, one by one, women came over to drink with Su Chen.

More than thirty women came over one after another.

Su Chen's face turned green as he drank.

He is just an ordinary person now. Man, eh! He is an ordinary zombie. After a round, there are more than thirty drinks. Although these wines are only low-alcohol cocktails, he will get drunk if he drinks too much.

Lin Yun and the other girls saw Su Chen being raped by the girls. They all laughed as they gathered around to drink. (To read exciting novels, go to Feilu Novels.com!)

More than thirty women took turns drinking with Su Chen. They thought Su Chen would get drunk today.

Zhao Ya reminded Xu Xuan and the girls,

"We all drink less. Although there are no zombies in the villa area, some people with evil intentions may appear in the villa area."

"We understand!"

Xu Xuan and the girls all nodded.

Today is rest time.

They, the captains, are responsible for guarding the villa and be careful of people with evil intentions sneaking into the villa.

0 Asking for flowers.

In the evening,

Su Chen had drunk too much and was lying on the bed. People fell asleep on the table, and some of the girls also drank too much. Cui Siying clapped her hands and shouted,

"Everyone went back to rest. Those who didn't drink too much took those who drank too much back to the room to rest."

"Yes, Captain Cui!"

"Zhao Ya, Xu Xuan, please send Mr. Su Chen back to the room"

"good!"

In the room, after Xu Xuan and Zhao Ya helped Su Chen back to the room, they all turned red and very shy.

Along the way,

Su Chen not only touched them randomly, but also kissed them and even kissed them. Madam  
Madam keeps calling

"do not go!"

Xu Xuan and Zhao Ya helped Su Chen lie down. Su Chen suddenly sat up and hugged Xu Xuan and lay down.

"Sir, please rest quickly. We are leaving.....Woohoo!"

When Xu Xuan was held by Su Chen and wanted to say something, she was suddenly kissed by Su Chen.

Xu Xuan was stunned for a moment.

She stared wide-eyed and didn't know what to do.

Leave?

Or stay. Here?

After a while,

Xu Xuan leaned in Su Chen's arms and closed her eyes.

Let everything take its course!

Zhao Ya looked for a while and hurriedly left the room.

Her heartbeat was very fast.

Zhao Ya understood that Su Chen was drunk. Xu Xuan did not push Su Chen away, and she understood why.

Su Chen gave them a new life and gave them the seeds to become stronger in the future.

Xu Xuan could do anything for Su Chen, and other women would also do it for Su Chen. Do anything in the morning. It is very quiet at night in the apocalypse.

There is no sound of cars driving by, no roar of planes flying by, and no other messy sounds. There are pleasant sounds on the third floor, and some in the villa. The women all heard it.

With seven or eight times their physical fitness and strength, they were all very powerful. They could detect any disturbance, but for the sounds in the villa, these women were confused about who could make them. On the balcony of the villa, Shangguan Yalan whispered with a blushing face,

"Sister Cui, let's go inspect the villa."

Chapter 2784

On the balcony,

Cui Siying and Shangguan Yalan jumped off the balcony with blushing faces. They all understood what was happening upstairs.

"Wait for me!"

Zhao Ya also quickly jumped off the balcony.

After she saw Su Chen and Xu Xuan kissing, she hurriedly escaped from the room.

However,

Zhao Ya's face turned red after listening to the pleasant sound for a while. Come over and meet Cui Siying and the girls.

"Zhao Ya, hurry up!"

"good!"

In the large supermarket on Jiangbei Road,

Bao Xiong and his men quietly walked out of the supermarket. They wanted to escape from the large supermarket. They wanted to escape from Jiangbei District overnight. Bao Xiong would not wait for the army to arrive and destroy them.

Bao Xiong was around One of the boys asked, "Boss, do we really not close the rolling shutter door of the supermarket?"

Bao Xiong patted his little brother's head and said coldly,

"Shut it up, Zhang Hao wants to kill us, we will let the zombies rush in and eat them"

"However, there are still more than 300 people in the supermarket. Wouldn't this be too cruel?"

"cruel? Yangzi, this is the end of the world. Where can there be no cruelty in the end of the world? In this magical city with a population of over 20 million, how many people do you think are still alive01? Ten thousand? Or one hundred thousand?"

All the boys around nodded.

Bao Xiong was right.

There is no cruelty in the apocalypse.

There are thousands of zombies outside the supermarket.

They have seen less than a thousand living people in half a month, and there are thousands in the magic city. Tens of thousands of people may not have tens of thousands of living humans, and they may be killed by zombies at some point.

Insulting women?

Killing innocent people indiscriminately?

Stealing food?

If they don't enjoy themselves while they are alive, their death will be in vain. They will all die anyway, so they might as well follow the violent bear and enjoy life.

Ding ding ding ding.....

A mobile phone was turned on by Bao Xiong and thrown at the entrance of the supermarket. He smiled cruelly and led his men out of the supermarket.

Ouch ouch.....

Outside the supermarket, zombies were attracted one after another. In just a moment, thousands of zombies rushed into the supermarket.

"Ah, zombies, zombies have run into the supermarket, run away, run away!"

"The door was opened, and there was music playing on the mobile phone. This was someone deliberately attracting zombies."

"Run, go upstairs quickly, the first floor is full of zombies"

"Mom, I want mom!"

"Husband, don't leave me!"

"Ah, I was bitten by a zombie, I was bitten by a zombie."

The civilians on the first floor screamed and ran upstairs in panic.

Many people were squeezed down in the chaotic scene, and some were knocked down and bitten by the zombies that rushed over.

On the second floor,

Zhang Hao and many younger brothers Looking at the chaotic scene on the first floor, each of them looked very pale.

There were too many zombies, and it was impossible for them to kill the zombies that rushed in.

A younger brother asked tremblingly,

"Brother Hao, it's Bao Xiong. After Bao Xiong left with his men, they didn't close the safety door of the supermarket. They also used music on their mobile phones to attract zombies. Bao Xiong was going to kill us."

Zhang Hao ordered with an ugly face,

"Everyone went upstairs, took all the ropes we prepared, and we escaped from the roof behind the supermarket."

"Yes, Brother Hao!"

"I'm sorry, I can't save you. If you want to blame, just blame that bastard Bao Xiong!"

Zhang Hao looked at the tragedy on the first floor and clenched his fists tightly.

On the first floor, the elderly, children, and women were all knocked down and bitten by zombies. There were thousands of zombies.

Zhang Hao couldn't save these people.

Moreover, zombies are still rushing in. If they don't escape quickly, Zhang Hao and his men will also be killed by zombies.

In the Jiangbei Road Police Station, (for Baoshuang novels, go to Feilu Novel Network!)

Sitting in the cold snow She looked very ugly in the corner, and what she saw and heard in the police station made her very angry.

It was the end of the world, and government officials were still fighting for power. Army leaders were dismissed and imprisoned, and other soldiers dared not speak out. , the entire police station was divided into three factions, one faction of hundreds of police officers, one faction of more than 200 troops controlled by government officials, and one faction of several soldiers.

Leng Qingxue regretted coming to the police station.

The officials here were just for self-protection.

It has been half a month. , the army and police have guns and other weapons, but they have been huddled in the police station, and these people have not discovered the existence of crystal nuclei in zombies. A policewoman handed a bottle of water to Leng Qingxue,

"Qingxue, drink some water."

Leng Qingxue took the water and asked,

"Sister Liu Rong, do the military and police have to huddle in the police station all the time? How long can the food here be eaten? Liu

Rong shook her head helplessly and said,

"Qingxue, this is not something we soldiers can decide. The food in the police station can last about ten days. If we save some food, we can eat it for more than half a month."

Leng Qingxue asked with a frown.

"About ten days? What next? If the food is gone, how will you spend your time with more than 400 troops and police, plus more than 500 civilians? Liu

Rong sighed and replied,

"well! I don't know, but there are zombies everywhere outside. The army and police have been dispatched several times, but they have suffered heavy casualties every time, and the leaders are unwilling to take risks in search of food."

Leng Qingxue rubbed her forehead and thought for a while, then she planned to tell the leaders of the three factions that zombies have crystal nuclei.

There are thousands of humans in the police station, and

Leng Qingxue doesn't want to see these humans killed by zombies one day. , and she didn't want to see her comrades killed by zombies.

Half a month later, at 023, in the villa,

Su Chen got up from the bed and looked at Zhao Ya who was still resting. It was Zhao Ya who accompanied him to rest yesterday evening.

It's been half a month. ,

Su Chen also managed a few women in the villa.

There was no way.

Xu Xuan was no match for him. She could only pull Zhao Ya and the other girls to deal with his tossing.

Su Chen stood on the balcony and looked into the distance and whispered. road,

"It has been more than a month, time is really slow, not even one tenth of the time has passed, a thousand days, a hundred steps, I am afraid it will be even more difficult in the future."

In the past few days, there have been evolutionary mutant zombies among the zombies.

A low-level evolutionary mutant zombie, women with eight or nine times the physical fitness. It takes ten people to kill them.

A low-level evolutionary mutant zombie is so powerful.

Intermediate level Where?

Where is the senior one?

Where is the future zombie king?

The more Su Chen thought about it, the more he felt a headache.

A woman quickly ran to the balcony and shouted to Su Chen,

"Sir, no, our drone found hundreds of thousands of zombies gathering in the Xicheng District of the Magic City."

Su Chen asked in surprise,

"Hundreds of thousands of zombies? Is there going to be a zombie wave? Mu Hanxi, in which direction are the zombies heading?"

"Here, some of the zombies are heading towards Jiangbei District, and some are heading towards Nancheng."

Chapter 2785

Su Chen felt that big trouble was about to happen.

Well, it had only been more than a month. How could there be a zombie wave?

Only some zombies begin to evolve and mutate. Could it be that an advanced evolved zombie has appeared?

Su Chen thought about it and said hurriedly,

"Hanxi, notify everyone immediately that we have to leave the villa area. The zombie wave is not something we can handle."

"OK sir."

Su Chen saw Mu Hanxi going to inform others. He touched his chin and started thinking, where to escape?

No district in the magic city can be safe. There are millions or tens of millions of zombies. Su Chen thought about it. Everyone's scalp is numb.

He is a zombie.

He can blend into the zombie wave, but what about the girls in the villa? They will be dead if they encounter the zombie wave.

"How about going to sea?"

Su Chen thought about it and thought it was good. There can't be zombies on the sea. As long as he takes the girls to find a boat on the beach, they will be very safe when they sail to the sea.

In the living room of the villa, thirty-eight women gathered in full armor. In the living room, they got the news that the zombie wave was coming

"What are we going to do? Escape from the villa area?"

"Xu Xuan, we definitely can't stay in the villa area. There are hundreds of thousands of zombies at the beginning. In a few days, there may be millions or even millions. It's a dead end for us to stay in the villa area."

"Yes, we need to rush 270 to evacuate the villa area, but where should we evacuate?"

"Yes, the zombies in the Magic City may gather together, and the zombie wave will sweep across the entire Magic City. No matter where we escape, it will not be safe."

"That's right. Just wait for your husband's instructions. He will definitely think of a way."

After Shangguan Yalan and Lin Yun talked for a while, they all looked at the stairs. They must escape from the villa area, but wherever they want to escape, they will follow Su Chen's arrangements.

After a while ,

Su Chen came down and looked at the girls and said,

"Are you all ready? We need to leave the villa area and start our escape. Shangguan

Yalan asked worriedly.

"Sir, what should we do with the daily necessities here?"

The other girls also looked at Su Chen.

There were many supplies they had collected in the villa.

If they wanted to leave the villa area where they had been living, they would not be able to take away so many supplies.

Su Chen said with a smile,

"Don't worry about the daily necessities. I will find a way to take care of them. You should all bring your belongings. We will leave (abcc) in half an hour. Cui

Siying asked,

"Sir, where are we going?"

Su Chen walked to the wall and pointed at the map and said,

"We are going to the beach to find a boat to go to the sea. On the sea, we can not only avoid the tide of zombies, but there will also be no zombies threatening us on the sea."

"OK sir, we'll get ready right away."

The girls all nodded when they heard Su Chen's words.

The sea is indeed safer and there is no threat from zombies. As long as they have enough living materials, they can wait for the zombie tide to recede.

Su Chen came to the villa In the warehouse, he looked at the numerous living supplies and smiled.

The girls collected a lot of supplies in a month.

There were not only many kinds of food in the warehouse, but also a lot of luxury accessories, sexy dresses, There were also some colorful underwear. Su Chen's eyes were filled with tears just looking at them.

"receive!"

Su Chen waved his hand and put all the items away.

At the entrance of the villa,

Su Chen deployed armored vehicles and armed off-road vehicles. Four armored vehicles and five armed off-road vehicles. He was going to let the girls drive these vehicles to the beach.

"gentlemen? How did these armored vehicles and armed off-road vehicles appear?"

After a while, (to read Baoshuang novels, go to Feilu Novel Network!) the women appeared outside the villa one after another.

After they saw the armored vehicles and armed off-road vehicles outside the villa, all the women were stunned. They were very familiar with the villa area. They had never seen armored vehicles or off-road vehicles in the villa area. Why did armored vehicles and armed off-road vehicles appear outside the villa all of a sudden?

Su Chen waved his hand with a smile and said,

"You will know this later, Shangguan Yalan, you arrange for women who can drive to drive these vehicles. Armored vehicles are almost the same as cars. You will be fine even if you hit the wall."

"OK sir!"

Half an hour later, the women in charge of driving were all familiar with the control of the armored vehicle. The cost was that a large part of the outer wall of the villa collapsed, and even the door of the villa was knocked out.

"Set off!"

Su Chen waved and got on an armed off-road vehicle. Xu Xuan and Zhao Ya were sitting in the same car with him.

The machine guns on the armed off-road vehicle, the controlled machine guns and small missiles on the armored vehicle were all used to deal with zombies. Big killer.

Da da da.....

Boom boom boom.....

Along the way, the zombies encountered were blown up by machine guns, and the roadblocks were cleared by small missiles from armored vehicles.

"Car No. 3's idea, there are hundreds of zombies on your right, don't be surrounded."

"Command car, No. 3 car understands"

"Car No. 5, start the missile attack. The target has been marked with coordinates for you."

"Car No. 5 understands."

Su Chen heard the voice from the communicator in the car in the middle, and a smile appeared on his face.

There are really many talents among the girls. Some are good at driving, some are good at computers, and their command skills are getting better and better. Well, ahem, she also has good makeup skills, especially the girls wearing sexy pajamas at night. Su Chen can't get enough of it every time.

"Sir, the drone has spotted dozens of survivors ahead."

"survivor? Xiao He, are they on our only path?"

When Su Chen heard the reminder from the communicator, he was a little confused.

How could there be survivors on the road? Did the survivors also discover the zombie wave?

"Yes, sir!"

"Don't worry about them. If they dare to stop us from moving forward, just kill them."

"Yes, sir!"

At this moment, on the overpass, people like Bao Xiong and others are surrounded by zombies. There are only less than thirty people left out of hundreds. There are hundreds of zombies around, and everyone is desperate.

Bang bang bang.....

A younger brother shouted while shooting,

"Boss, what should I do? Can't we escape?"

The violent bear ordered loudly with a fierce look on his face,

"Hold on, as long as Wei Zi fixes the rope, we can slide down the overpass."

"Boss, look, a convoy of about ten vehicles is coming. Are we saved?".

Chapter 2786

Bao Xiong hurriedly looked under the overpass. Sure enough, there were eight or nine off-road vehicles and armored vehicles coming under the bridge. army?

Could it be that the army was chasing him?

Damn it, huh?

No, the army doesn't have to wait until half a month to hunt them down. Is this another army?

The violent bear thought for a moment and shouted,

"Hold on, the army is coming. You all pretend to be good people with me. If we escape, the army's weapons and armored vehicles will be ours."

"Yes, boss!"

"kill!"

The violent bear quickly kills the rushing zombies with a machete.

The physical fitness and strength of the violent bear are four times that of ordinary zombies. They have no problem killing ordinary zombies. As long as they are not surrounded by zombies, he can kill hundreds of them." A zombie won't collapse from exhaustion.

Da da da.....

At this time,

Su Chen's convoy also arrived.

The machine guns on the armed off-road vehicles and armored vehicles quickly killed the zombies, but the convoy did not stop. The armored vehicles opened the way in front, and the zombies they encountered were crushed one after another.

Shangguan Yalan reported to Su Chen on the communicator,

"Sir, the people in front are probably thugs. There are some bodies of women in the car next to them, and they are still women without clothes. They must have been abandoned after encountering zombies after being insulted. Su

Chen frowned and replied,

"Shangguan Yalan, since they are thugs, you have to kill them and act quickly. The drone detected a zombie wave ten miles away."

"Yes, sir!"

After Shangguan Yalan heard Su Chen's comments, she ordered to the team in front,

"Car No. 2 and Armored Car No. 5 destroyed the thugs in front."

"Yes, Captain Shangguan."

Da da da da da".....

Boom boom boom.....

The No. 2 and No. 5 armored vehicles quickly shot down the violent bears, and the small missiles on the armored vehicles also attacked the trucks hidden by the thugs.

For a time, the men of the violent bear were shot and killed into a hornet's nest.

Before the violent bear could escape due to his extraordinary strength, he was hit by a missile and blown to pieces.

Su Chen saw that the thugs had been killed, and more than half of the zombies in front of the overpass had also been killed.

He hurriedly ordered through the communicator,

"Leave immediately and don't fight on the overpass again."

"Yes, sir!"

Three days later, the speed of Su Chen's motorcade was getting slower and slower.

The road leading to the seaside was either blocked by many vehicles, or the bridge was damaged and difficult to pass. The bridge was destroyed or the road could not be bypassed, so Su Chen ordered all the women to get off the road. He would put away all the vehicles.

After Su Chen took the girls on foot across the destroyed bridges and roads, he would redeploy the vehicles.

The girls all looked at Su Chen with ghostly expressions. Nine cars The car disappeared in an instant and then appeared in front of them. The girls all looked at Su Chen in disbelief.

In the evening, after Su Chen led the girls through a blocked tunnel, he rearranged the vehicle. Come out.

Su Chen took out some ammunition supplies from the system space and ordered,

"Cui Siying, please distribute these weapons and ammunition supplies, as well as small missiles, and ask the girls to quickly install them on the armored vehicles."

"OK sir. Cui

Siying nodded hurriedly and replied.

Su Chen has been conjuring items in the past three days. If one off-road vehicle is damaged, Su Chen will conjure up another one. Food, weapons and ammunition have also been conjured up continuously in the past three days.

Cui Siying and the girls I feel that Su Chen is a robot cat.

As long as they are short of items, Su Chen can transform them. (To read Baoshuang novels, go to Feilu Novel Network!)

Even luxury accessories and sexy underwear, Su Chen had to fetch food last time. The mistake also turned out.

Su Chen asked in the earphone, "Mu Hanxi, how far away is the zombie wave from us?"

"Sir, the drone has detected that zombies are gathering very fast in Jiangbei District. The latest zombie wave is only more than three miles away from us, and there are at least more than 100,000 zombies."

"Okay, I understand. You continue to send out drones to monitor the surrounding situation."

"Yes, sir!"

Su Chen sat on the hood of the car and thought. The nearest zombie wave was only three miles away from them. It was too close. If they rested at night, the zombie wave would definitely surround them.

Su Chen rubbed his forehead and whispered,

"Alas, there are still more than ten kilometers to reach the seaside. Magic City is really big, more than ten kilometers? It may take two days to reach the seaside. The road is too congested, and the closer you get to the seaside, the more zombies you will get."

Su Chen touched Xu Xuan's hair beside him and said, "Xu Xuan, let everyone rest for an hour. We will set off again in an hour."

"good!"

Xu Xuan nodded to Su Chen and hurriedly ran forward. She was very shy to stay alone with Su Chen, especially in the car.

It was too embarrassing for Su Chen to have her serve.

At this time, another street on Jiangbei Road On the road, three to four hundred troops and civilians fled quickly for their lives, followed by countless zombies.

More than half of the team of more than a thousand people had been injured and killed, and the remaining troops and civilians were also very tired.

But they did not dare to stop.

More and more zombies gathered behind them. If they dared to stop, they would be engulfed by zombies.

On the road,

Leng Qingxue pulled a beautiful policewoman and ran quickly, while the surrounding people ran for their lives, panting.

The beautiful policewoman Liu Rong said with a pale face,

"Qingxue, leave me alone, I can't run 520 anymore."

Leng Qingxue pulled Liu Rong to cheer her up and said,

"Sister Rong, hold on, we will reach the beach in more than two days. As long as we find a boat and go to sea, we don't have to be afraid even if the zombie wave chases us to the beach."

Leng Qingxue looked at Liu Rong and everyone around her. She felt very helpless.

If she were alone,

Leng Qingxue would have escaped long ago with eight times her physical fitness.

But for Liu Rong and the entire team, Leng Qingxue He has been helping everyone.

What happened to the people in the villa area?

Have they escaped?

Leng Qingxue thought of the girls in the villa area. She shook her head helplessly as she thought. The girls in the villa area are all very powerful. Zombies The tide shouldn't be able to stop the girls from escaping.

"吡吡.....second team....吡吡....Alert, the rest...吡吡.....Rest where you are."

Suddenly, a voice came from Leng Qingxue's communicator. Although the voice was intermittent, Leng Qingxue could still clearly hear that it was Xu Xuan's voice. Are

Xu Xuan and the others nearby?

Leng Qingxue was very surprised.

If they and Xu Xuan's girls After a meeting, hundreds of people here may be saved.

Liu Rong asked in surprise,

"Qingxue, the woman's voice in the communicator just now, is she the teammate you mentioned earlier?"

Chapter 2787

Leng Qingxue nodded with a smile on her face,

"Sister Rong, the voices just now are from my former teammates. They must be nearby. As long as we find them, hundreds of people here will be saved. I will try to contact them using the communicator later. Liu

Rong frowned and reminded,

"Qingxue, are you sure your teammates will help us? Don't forget that if you leave them, you are effectively leaving their ranks. Will they still accept you?"

Liu Rong thought of the women Leng Qingxue told her, some women who were abused and tortured by thugs. A man named Su Chen rescued them. After they absorbed the crystal core and became stronger, they have been protecting Su Chen and taking care of Su Chen. Morning.

Leng Qingxue wanted to abandon Su Chen and brought the girls to the police station. The women refused one after another. No woman was willing to leave with Leng Qingxue. Liu Rong felt that those women could no longer accept Leng Qingxue. As for them,

Liu Rong Guessing that those women would not care about their life or death, it was even less likely that they would run away with so many burdens.

Leng Qingxue was stunned when she heard Liu Rong's words.

Yes, she had already left the team, and before Leng Qingxue left, she still wanted to Split their team and take away some, especially Su Chen.

Her behavior at that time was that Su Chen did not agree to leave. She would leave Su Chen alone in the villa.

Will the girls still accept her?

Leng Qingxue said with a complicated expression. ,

"Sister Rong, I will give it a try and hope they can accept me again"

"All right!"

On the dark road, people in front began to stop and rest, while people behind them collapsed on the ground one by one, gasping for air. They had to take a rest quickly, because the zombie wave might catch up after a while.

On a bridge pier ,

Leng Qingxue stood above and contacted through the communicator,

"Cui Siying, Cui Siying, I am Leng Qingxue. If you hear me, please reply. If you hear me, please reply."

The surrounding soldiers and civilians all looked at Leng Qingxue. They didn't know who Leng Qingxue was contacting, but everyone's eyes showed anticipation. They hoped that Leng Qingxue could contact the rescue team.

Suddenly, the communicator A woman's voice came out,

"Leng Qingxue, I am Shangguan Yalan, what do you want?"

Leng Qingxue said hurriedly,

"Yalan, where are you? I have three to four hundred soldiers and civilians here. We will meet with you."

"No need, Leng Qingxue, you are no longer the instructor of each of our teams. Ever since you abandoned Mr. Su Chen and took us away, you have nothing to do with us anymore. That's it. We will change this communication frequency. Goodbye and best wishes. good luck to you"

"Yalan.....Yalan....."

After Leng Qingxue called into the communicator several times, there was no response from Shangguan Yalan in the communicator. She understood that the communication frequency of the communicator had been changed.

Leng Qingxue squatted silently on the bridge pier. She understood that her relationship with the girls of Shangguan Yalan was over.

After a month of getting along, she felt very good about the Shangguan Yalan girls. There was no intrigue or scheming against each other. They hunted zombies together, absorbed crystal cores to increase their strength, bathed and rubbed their backs together, and rested together.

What now?

She couldn't even eat enough in the police station, and she had to face those hateful officials every day.

She hunted zombies for more than half a month to obtain dozens of crystal nuclei, and most of them were asked to leave by those officials.

For half a month,

Leng Qingxue The absorbed crystal cores didn't even double her strength, and her strength was exactly the same as in the villa.

"Qingxue, are you okay?"

Liu Rong came over and asked with concern.

She heard the communication sound just now. Leng Qingxue's former teammates still haven't forgiven her.

Everything is too late.

Leng Qingxue's previous choice was a mistake, and she has no way to undo it now..

Leng Qingxue shook her head and replied, (If you want to read Baoshuang novels, go to Feilu Novel Network!)

"Sister Rong, I'm fine."

Aaaaaaaaaaaaaaaaaaaaaaaaaaaaaa".....

Suddenly, a big zombie roared on a building. He looked at the zombies upstairs and shouted hurriedly,

"No, it's an evolved zombie, everyone run away!"

Boom!

The huge zombie jumped down from the building quickly, roaring and charging into the crowd.

Bang bang bang.....

Da da da.....

"Help, quick.....Ahhhh!"

"Run away, run away quickly"

"Tear it up? A person is being torn apart. Run away quickly. Don't shoot. Ordinary firearms cannot kill evolved zombies."

"Ah, my legs!"

"Help me, I am the mayor of Jiangbei District"

"Ahhhhh...."

The evolved mutant zombies rushed into the crowd and started the massacre. Every soldier or civilian was torn apart, and the bullets from the guns made a tinkling sound when they hit the evolved mutant zombies.

Leng Qingxue grabbed Liu Rong and ran away quickly and said,

"Sister Rong, let's leave quickly. This is a power-defense zombie. I'm no match. Run away quickly, or we'll all die here. Liu

Rong shouted with a pale face,

"`.Qingxue, run away alone and leave me alone."

"No, we must run away together."

At this time,

Su Chen and Shangguan Yalan were sitting in the command information vehicle. They were very surprised when they saw the images transmitted by the drone.

More than 300 soldiers and civilians were massacred by evolved zombies, and the army's firearms were few and far between. It's useless, the massacre, the massacre scene in the video is very brutal, the evolved mutant zombies tear humans apart with their hands, bite humans with their mouths, the power defense zombie is like a humanoid tank

"Evolutionary mutant zombies are so scary that it's hard to kill them even if we encounter them"

"Yes, the defense of zombies is too strong. Without sharp and strong weapons, it is difficult for us to kill evolved zombies."

"It's powerful and its defense is amazing. If we encounter it, I'm afraid we will suffer huge casualties."

"Yes, if we have sharp weapons and strong defense, zombies will not pose a threat to us, but without magic weapons, we (Wang Nuo's) cannot kill zombies with amazing defense."

"Leave, we have to leave as soon as possible, we must not encounter this zombie."

Cui Siying and Shangguan Yalan talked seriously for a while. They all looked at Su Chen. They couldn't stay here any longer.

It was too close.

Within three miles, the power defense zombies would definitely encounter them. If they did, As for the power-defense zombies, more than thirty women might not be able to kill the power-defense zombies if they come together.

Blah, blah, blah!

Su Chen waved his hand, and swords appeared in the command car. These are used by the black-armored army. Although the sword is not a spiritual or magical weapon, it is more than enough to kill power-defense zombies.

Su Chen hugged Zhao Ya's waist and said,

"Yalan, Xu Xuan, please distribute the swords. These swords are more than enough to kill power-defense zombies. You don't have to worry about not being able to kill power-defense zombies."

Chapter 2788

Shangguan Yalan and Xu Xuan looked at the dozens of swords on the ground, and they all looked at Su Chen speechlessly.

Is it really Doraemon?

Su Chen can conjure up whatever they want?

These swords looked like magical weapons. How did Su Chen create them?

Shangguan Yalan and the other girls all wanted to know, but they didn't ask. Su Chen would definitely tell them if he wanted to tell them. Su Chen didn't tell them at the moment, so the girls guessed that Su Chen must have something hidden.

Shangguan Yalan nodded to Su Chen and said,

"Sir, we will distribute them immediately. With these magical weapons, we can quickly kill evolved zombies when we encounter them."

Su Chen nodded and said, "Well, go ahead and tell the girls that we will set off in ten minutes!"

"Yes, sir!"

After a while, the six Shangguan Yalan girls left the command vehicle with the Zhan "Zero Six Seven" knives.

They wanted to distribute the knives as soon as possible.

With the knives of the magic weapons, the girls would be able to quickly deal with emergencies. Solved, at least the girls will not be caught off guard by the evolved zombies.

Su Chen said to the three girls who were monitoring the information of the sword,

"Mu Hanxi, the three of you continue to monitor the surroundings. If there is any emergency, please notify me immediately."

"OK sir!"

The three girls of Mu Hanxi nodded hurriedly to Su Chen.

They were very curious about Su Chen.

Without strong strength, how could Su Chen conjure food, weapons and ammunition, magical weapons, and some embarrassing sexy underwear?.

Su Chen touched Mu Hanxi's smooth and delicate face, and before leaving the armored vehicle command vehicle, he whispered something to Mu Hanxi.

We have to continue on our way,

Leng Qingxue!

I hope I can escape my life this time. Your help is a thank you for training the girls.

In the command car,

Mu Hanxi looked at the surveillance video of the drone with a blushing face. What Su Chen said to her surprised Mu Hanxi, but it was Su Chen's order. , Mu Hanxi will definitely execute it

"Xue'er and Leya, control drones No. 3 and No. 4, and help Leng Qingxue clean up the surrounding zombies."

"Yes, Captain."

At this time,

Leng Qingxue pulled Liu Rong and ran quickly. After ten minutes of fast escape, there was no human being around, zombies, zombies. There were only zombies on the street.

Liu Rong looked to the left and shouted hurriedly,

"Qingxue, you can't go to the left. There are zombies everywhere. We are surrounded by a wave of zombies."

Leng Qingxue was a little anxious.

There were too many zombies around, and there was an evolved zombie behind them. If they didn't escape as soon as possible, after the evolved zombie killed everyone, she and Liu Rong would also be killed by the evolved zombie. catch up and kill

"Sister Rong, there are only tens of thousands of zombies around. We still have a chance to escape. I must take you to escape from the zombies."

Liu Rong shook off Leng Qingxue's hand and shouted,

"Qingxue, leave quickly. I can't escape. You can escape from the zombies by yourself."

"No, I will not....."

Da da da.....

Boom boom boom.....

Suddenly, two armed drones appeared in the sky. The two armed drones launched an attack on the zombies on the left. Machine guns and small missiles shot down the hundreds of zombies on the left.

Liu Rong and Leng Qingxue watched the drones shooting zombies. They were very surprised.

Who was helping them?

They couldn't help but think of the women of Shangguan Yalan, who were the only ones around.

Liu Rong asked Leng Qingxue guessingly,

"Qingxue, is the armed drone controlled by your former teammate? Are they going to help us clear the way to escape? Leng

Qingxue nodded complicatedly and replied, "Sister Rong, it must be Shangguan Yalan and the others. They want to save our lives."" (To read exciting novels, go to Feilu Novel Network!)

"Those former teammates of yours are really good, I kind of want to meet them."

Leng Qingxue decided,

"Sister Rong, they must have also fled towards the seaside. If we are faster, we can still catch up with them. I want to obtain their forgiveness."

"Okay, let's go quickly, the drone has cleared an exit"

"Okay, Sister Rong."

Two days later, Su Chen took a few girls on a small yacht at the beach. Although the yacht was a small yacht, it could accommodate dozens of people without any problem. They were less than 40 people, and a small yacht could not accommodate more than 40 people. more than enough

"Where is sir?"

"Sir, go get fuel. We will set off in a while. 0."

"It turns out that we are getting fuel. If Mr. can bring enough fuel, we can sail the yacht anywhere in America."

"Don't think too much, just clean the yacht."

"Okay, Sister Zhao Ya."

On the yacht, the girls chatted for a while and began to clean the yacht. No one had cleaned the yacht for several months, and it was very dirty with a thick layer of dust. If they want to live on the yacht, the yacht must be cleaned.

At this moment,

Su When Chen Chen was collecting fuel, the system's reminder made Su Chen nervous.

"system? Are you saying there are mutant beasts in the sea?"

【Ding, yes, the sea is more dangerous than the land. Host, it is impossible for you to escape to the sea. The mutant beasts in the sea are more powerful than zombies. You have no strength at all. If the yacht is overturned by the mutant sea beast, you and All the girls will be done playing. 】

Su Chen's face turned ugly.

He couldn't take refuge in the sea.

Mutated beast?

Damn it, this world will become more and more dangerous in the future.

The zombie wave is very terrifying to humans, and the countless mutant beasts in the sea will be even more terrifying.

Su Chen asked with a dark face,

"System, are there mutant beasts on land?"

【Ding, yes, there are a lot of mutant beasts on land, but the mutant beasts on land are still very weak. In half a year at most, mutant beasts and evolved zombies will become the life and death enemy of mankind. 】

3.4 Chen rubbed his forehead helplessly.

It was too difficult.

Half a year?

It's less than two hundred days, and the mutated beast will become the most terrifying opponent in half a year. How will he survive in the future?

"It's time to teach the powerful skills to the girls, otherwise, he will definitely die in half a year."

After Su Chen collected some fuel, he quickly returned to the yacht. The zombie wave was about to reach the seaside. Although there were mutant beasts in the sea, they should not encounter powerful mutant beasts as long as they did not go deep into the sea.

Su Chen suddenly saw There were two more women on the yacht, one in a blue combat uniform and the other in a police uniform.

Leng Qingxue?

Su Chen didn't expect that Leng Qingxue also arrived at the beach.

"Leng Qingxue actually escaped from the zombie wave to the beach? Leng Xiaoniu is really lucky"

Chapter 2789

A week later, on the seaside, a luxury yacht was parked not far from the sea outside Shanghai. Dozens of beauties in sexy swimsuits were playing on the yacht on the deck. The beautiful scenery made people salivate.

In the cabin,

Su Chen looked at the picture returned by the drone and shook his head.

Millions of zombies in the magic city were outside. In the magic city, tens of thousands of evolved and mutated zombies were fighting each other every day. Hundreds of evolved zombies were devoured by their own kind.

Song Yuxi asked,

"Sir, it is impossible for us to return to Magic City in a short period of time. Should we go to a nearby city to check the situation?"

Su Chen shook his head and said,

"If we wait for a while, the sea will not be safe. We'd better not sail randomly on the sea."

Leng Qingxue said hurriedly,

"Su Chen is right. The mutant beasts we encounter these days are not strong yet. If we enter the deep sea or enter the territory of some powerful mutant beasts, we may be killed by the powerful mutant beasts."

Leng Qingxue wanted to show off.

Although Su Chen agreed to her and Liu Rong staying,

Su Chen had been lukewarm to her in the past few days, and the girls didn't talk to her too much.

Leng Qingxue understood. Su Chen is the leader of the girls.

If she and Liu Rong want to integrate into the team of Shangguan Yalan girls, they must be recognized by Su Chen

"Mu Hanxi, you continue to monitor the situation at the beach. If the zombie tide recedes, you must notify me as soon as possible."

"OK sir!"

"Cui Siying, Xu Xuan, Shangguan Yalan, Zhao Ya, Lin Yun, Song Yuxi, the six of you come to the room with me"

"good!"

Cui Siying and the six girls nodded hurriedly and replied.

They knew what they were going to do when they went to Su Chen's room.

In the past five days, they had been taught powerful immortal cultivation techniques by Su Chen. Shangguan Yalan and the others had not developed any magic power in the past five days. Su Chen A lot of the spiritual fruits and spiritual tea provided to them were wasted, and they were very anxious.

Leng Qingxue asked,

"Mu Hanxi, why is Su Chen calling Shangguan Yalan and the others to the room every day? do you know?"

"I have no idea."

After Mu Hanxi glanced at Leng Qingxue, she continued to monitor the magic city.

She knew exactly what the six Shangguan Yalan girls were doing in Su Chen's room. Su Chen was teaching the six girls the powerful skills of cultivating immortals.

Shangguan Yalan's skills are just the beginning. If the six girls can cultivate their magic, all of them will also start practicing the immortal skills.

Leng Qingxue shook her head and left the information monitoring room. She understood that her former teammates had not accepted her yet. ,

Su Chen?

All this is because of Su Chen.

What charm does Su Chen have that makes the women rely on him so much? Is it because of an ordinary person who cannot absorb crystal nuclei that Su Chen saved these women from danger?

"Qingxue, are you okay?"

Liu Rong saw Leng Qingxue coming out of the cabin. She hurried over wearing a sexy swimsuit.

Liu Rong was very satisfied with being here.

There was endless food to eat every day, and it was all very delicious food. There were even some luxurious cosmetics and sexy dresses. She suddenly didn't feel like she was in the apocalypse. Liu Rong seemed to be having fun on the yacht.

Leng Qingxue shook her head and replied,

"I'm fine, it's just that my former teammates still don't accept me."

Liu Rong grabbed Leng Qingxue and reminded,

"Qingxue, don't be impatient. I see that Su Chen is the leader of these women. As long as you let Su Chen accept you, all the women here will accept you."

"I see!"

At this moment, in the cabin,

Su Chen cut his arm with a knife. (To read Baoshuang novels, go to Feilu Novel Network!)

He wanted to use his blood to help the six girls practice.

The human characteristics in the modern world are not suitable. In cultivating immortals, if there is no medium to change the physique of the girls, it is impossible for the girls to cultivate magic power even if they eat low-level spiritual fruits every day.

Shangguan Yalan and Lin Yun were very confused when they saw Su Chen cut his arm.

Cui Siying asked worriedly,

"Sir, what are you doing?"

Su Chen waved his hand and said,

"You come here one by one to suck my blood. Remember, each of you can only take one breath. You should quickly practice the exercises I teach you."

"Yes, sir!"

After Shangguan Yalan and the six girls looked at each other, they went over one by one to suck a mouthful of Su Chen's blood, and then everyone hurriedly sat down to practice the Su Nu Tianxuan technique.

Boom boom boom.....

Half an hour later, the six girls of Shangguan Yalan cultivated their magic powers one after another.

A powerful aura erupted from the six girls, which was a hundred times more powerful than the aura of their promotion to one-star warriors. The six girls of Shangguan Yalan had entered the threshold of cultivating immortals. , let me join in!

Su Chen was constantly forced back by the powerful aura of the six women. He felt very depressed. His lack of strength was really helpless. He couldn't even get close to the six women at the moment.

Damn, this is the first time. There are nine thousand levels on the ladder.

Su Chen has to roll dice nine times to choose his identity. He guesses that the identity he chooses each time will not have any strength at all.

"We succeeded, we cultivated our magic power"

"Sir's blood is so powerful, I feel like there's still a huge amount of energy in my body that I haven't absorbed yet"

"Yes, I feel it too. I even think that we don't need to absorb the crystal nuclei in the future. With the blood of Mr. in our body, we can't absorb it completely in a hundred years."

"Listen carefully, Mr. 300 of blood must be kept secret. Except for our own people, no one else can be told to death."

"clear!"

"Ah, our bodies are so dirty. This is even dirtier and smellier than the dirt discharged from the crystal nuclei when we absorbed it for the first time."

"Come on, let's go out and take a nap."

Shanguanya and the girls were chatting happily. Suddenly they smelled a very foul smell.

The girls all understood what was going on. They quickly left the room one by one to wash their bodies.

On the deck,

Su Chen saw Shanguanya Several women appeared quickly, and one by one they quickly took off their clothes and jumped into the sea.

Su Chen was speechless looking at the white flowers.

The women on the deck were wearing sexy swimsuits. Su Chen was very hot looking at it. The six Shangguan Yalan girls were even more excited. They actually jumped into the sea naked.

Leng Qingxue asked in confusion,

"How is this going? How could the six Shangguan Yalan girls jump into the sea naked? Are they all crazy? Liu

Rong shook her head and reminded,

"Qingxue, Su Chen is the only man on the yacht, and the women here don't care about Su Chen's existence. Look at the sexy swimsuits worn by the women on the yacht. Do they care about Su Chen's watching?"

Leng Qingxue frowned and said,

"No, there was a powerful aura in the boat just now. Could it be that the six Shangguan Yalan girls have advanced again?"

Chapter 2790

The more Leng Qingxue thought about it, the more something was wrong.

Even if Shangguan Yalan and the girls didn't care about Su Chen's existence, they couldn't jump into the sea in broad daylight.

There was also the vibration that broke out in the cabin just now.

Leng Qingxue guessed that Shangguan Yalan and the girls were promoted again, but after being promoted to one-star warriors, they would not be able to have such a powerful aura if they were promoted again. What is going on?

"Qingxue, are you saying that the six Shangguan Yalan are powerful again?"

Liu Rong looked at Leng Qingxue in surprise.

The six Shangguan Yalan women were very powerful, and the other women were also very powerful.

These women could easily kill the ordinary mutant beasts in the sea with one knife, even some dozen or so. Three or four women can kill a meter-sized mutated beast in less than ten minutes.

Liu Rong is like a child compared to other girls. If Shangguan Yalan and Xu Xuan are promoted again, how powerful will they be? At this point?

Leng Qingxue said with a complicated expression,

"It should be, I guess the six Shangguan Yalan people have discharged dirt again. They couldn't wait to take off their clothes and jump into the sea, probably because they wanted to clean up the stinky dirt on their bodies."

"Qingxue, how did their strength improve so quickly? Are thirty-eight women enough for zombie crystal cores? I doubt they have absorbed the zombie crystal core."

Leng Qingxue said seriously,

"No, Shangguan Yalan and the others have long since lost the zombie crystal core, and it is impossible for them to absorb the zombie crystal core again,

Su Chen?

Could it be that the promotion of the six girls was because of Su Chen?"

The six girls have been going to Su Chen's room these days. Are they going to Su Chen's room to improve their strength? The six girls of Shangguan Yalan have been promoted in strength today. Is this all because of Su Chen?

Can an ordinary man have such great abilities?

"Suchen?"

Liu Rong looked at Su Chen who was admiring the bathing of several girls on the upper floor.

She was a little confused.

Liu Rong felt that Su Chen was not as strong as her. How could Leng Qingxue say that Su Chen helped the six girls improve their strength?

At this moment,

Su Chen touched They held their chins and looked into the sea with interest.

The fair skin of the six women in the sea was exposed. It is impossible to encounter such a beautiful scenery often.

Half an hour later, the six Shangguan Yalan women boarded the yacht with their faces flushed. They didn't pay attention. The way Su Chen looked at them

"Sister Yalan, have you succeeded?"

"Sister Xu Xuan, your skin is really fair. Have you developed your magic power?"

"Captains, have you discharged dirt and impurities again? Have you developed your magic power?"

"Captain Cui Siying, tell us quickly, have you developed your magic power?"

"Yeah, yeah, did you all make it?"

The girls on the yacht asked Xu Xuan and the Six Girls one after another.

They found that Xu Xuan and the Six Girls' skin was fairer and more moist, and their bumpy figures were more perfect.

The girls guessed that Xu Xuan and the Six Girls should have cultivated magic power.

They They were all promoted to become immortal cultivators.

Zhao Ya shouted with her face flushed,

"Get out of the way, let's put on our clothes first and then talk about what we're doing? Are you all perverts? Don't touch it."

The girls from Shangguan Yalan squeezed out to get dressed.

Six of them appeared naked on the deck. The girls touched their bodies and asked.

The six girls were all very embarrassed and helpless.

Leng Qingxue and Liu Rong looked at each other in shock.

Immortal cultivator?

Magic power?

The news told by the girls was hard to believe. Immortal cultivator? How could the six Shangguan Yalan girls cultivate immortality?

Su Chen leaned on the chair and looked at the blue sky and white clouds.

The six Shangguan Yalan girls After successfully cultivating magic power, he felt at ease.

As long as Shangguan Yalan and the others continued to advance, the evolved zombies and mutated beasts would not pose a threat to him.

"Today is the best day!"

Boom boom boom boom....

Suddenly, there was the sound of artillery fire in the distance.

Damn it, (to read Baoshuang novels, go to Feilu Novel Network!)

What the hell,

Su Chen stood up in a hurry with a dark face.

He had just said that today was a wonderful day. One day, why was there the sound of artillery fire?

Is this a missile launched by a warship?

Or the roar of ship-borne artillery?

The girls on the deck quickly took out their combat uniforms and weapons. They began to put on their combat uniforms and prepare for battle.

The sound of gunfire in the distance was getting closer and closer.

The girls guessed that some humans had encountered mutant beasts, or maybe they were from the army. Warships are attacking mutant beasts in the sea.

Mu Hanxi ran over and said to Su Chen,

"Sir, it's a warship. There are more than ten warships escaping in the sea. Behind the warship is a mutant shark that is over a hundred meters long. The warship will arrive at our side in twenty minutes."

Su Chen shouted hurriedly,

"Cui Siying ordered the yacht to quickly enter the Yangtze River."

Orequest flowers

"Yes, sir!"

"Mu Hanxi, release all drones, and warships around and behind the Yangtze River must be monitored at all times"

"Yes, sir!"

Su Chen gave the instructions and looked at the direction of the deep sea.

A shark over a hundred meters tall?

Could this be the mutated beast king in the sea? More than ten warships? Is this the naval fleet of Daxia?

"What a headache!"

The zombie tide in the Magic City has not receded yet.

Another mutated beast king appears in the sea. There is a tiger in front and a wolf in the back. Where are they going to escape?

Leng Qingxue is looking at the sea with a telescope.

Warships?

It must be Daxia. The country's warships,

Daxia State has four aircraft carrier fleets, and there is an aircraft carrier fleet in Jiangning City, hundreds of miles away from the Magic City. Leng Qingxue guessed that this fleet should be Jiangning City's aircraft carrier fleet.

But why are there no fighter jets?

Could it be that what happened on the aircraft carrier ? Was attacked by zombies? The aircraft carrier was occupied by zombies?

Boom boom boom.....

The yacht quickly sailed towards the Yangtze River Estuary.

Behind it, more than a dozen warships also rushed towards the Yangtze River Estuary. The warships' missiles and fire-control artillery fired continuously.

"Holy shit, a shark as big as an aircraft carrier? Shark fin? Damn it, does anyone still dare to eat shark fin?"

Su Chen saw a big black shadow behind the warship, a mutated shark that was almost two hundred meters long. The mutated shark was about the same size as some of the monsters in the Shenyun Continent. Su Chen guessed that the mutated shark was at the Golden Core level. Strength.

Lin Yun quickly ran to Su Chen and asked,

"Sir, the warship is about to catch up, and so is the mutant shark. What should we do?"

Su Chen shouted with a serious face,

"Ignore the warships and mutant sharks, everyone is ready to fight. Xu Xuan, you and your team will be around the yacht. If any mutant beasts appear, kill them immediately."

Xu Xuan hurriedly replied to Su Chen,

"Yes, sir!"

Su Chen saw the warships and mutated sharks getting closer and closer, and he understood that a war was inevitable. The warships were faster than the yachts.

The warships would overtake the yachts in a short while, and more than a dozen warships might use them as shields..A mutated shark with a power of over 100 meters,

Su Chen encountered a huge crisis for the first time in several months.

"Shangguan Yalan, gather the others here"
