

## A Bunch 611

Chapter 611: "Is this a Phoenix Egg?"?

"Mommy, are you done?" Goudan Li approached her with a mischievous look.

Zhang Minjun, who was drying the silk, was startled at first, but she immediately reacted. She turned around and knocked her daughter's dog head...

Only her daughter, Goudan, could approach her so silently in this tailor shop...

"What's wrong? You look like you want to cheat me of snacks!" Zhang Minjun rolled her eyes at Goudan.

"Hehe..." Goudan nervously rubbed his hands and said, "Mom, the work over there is basically settled. I think we will leave in two days..."

Zhang Minjun was stunned, then she smiled and patted Goudan's head. "So be it. Why are you acting like a Thief?"

She was already somewhat immune to the shock her daughter had given her over the years.

First, she said that she had become a disciple of a sect. Then, she said that she was working for the country in the Dragon Group and was even working as a bodyguard for the leader of Ba tie...

Finally, all sorts of extraterrestrial forces came. To be honest, the protagonists in movies and novels did not feel that their identities had changed so quickly...

However, when she heard that she could be resurrected here, she finally heaved a sigh of relief. At least her daughter's life would not be in danger if she were to cause trouble outside.

That was enough...

"Mom..." Gou dan smiled fawningly, "I'm going to be a captain this time, opening up a new route on the sea. I'll probably be gone for a year or two, don't You Miss Your Daughter?"

"Oh, you're going to be a captain this time?" Zhang Minjun laughed, "What are you going to do next time? Drive a spaceship?"

"I have this idea..."

"Then you want to go out and have fun, what's the meaning of this now, do you want mom to go out and have fun with you?"

"That's not..." Li Goudan laughed, "Why don't you go offline and go home when you rest at night, when I go offline, won't we see each other every day?"

"HMPH..." Zhang Minjun's eyes immediately narrowed. "I'm not interested..."

These words weren't meant to be sullen. The current Zhang Minjun really had no interest in going back to the Li family.

The reason why she didn't want to go back was because the hypocritical faces of the Li family were too annoying, especially Goudan's father. He came back to plead for peace without any bottom line, like a mangy dog. Just looking at him made her eyes bulge. As for the second reason.., it was mainly because she was very satisfied with her life during this period of time in the game!

Not only was there beautiful scenery, exquisite food, but most importantly, there was also her own career!

Even though it was very hard, she had to study so many things every day, and she had to do so many chores after studying, including training new tailors. She felt that she didn't even have time to sleep for three hours twenty-four hours a day...

But she was very satisfied. It could be said that the majority of the half a year that Gou Dan brought her to this game was the most fulfilling half a year she had in recent decades. She felt like she was dreaming of the feeling she had when she was studying in university, that feeling of full confidence in herself.., the feeling of the future filled with longing!

At that time, after she won the Milan Design Award, she was also full of passion, until she married into the Li family...

In the beginning, when she received half of the shares of the Li family, Zhang Minjun was indeed satisfied for a period of time. The Li family, who had oppressed her for decades, worshipped her as if she was their ancestor, making her feel as if she was making a comeback.

Old Master Li always had that kind smile on his face, and the annoying sister-in-law was also always attentive, including that ruthless husband. He came back to beg for forgiveness with a licking of his face. The script was better than she thought.

But after a few days of pleasure, she felt a little bored. The grievances that she had suppressed for decades were released, but in the end, she got endless emptiness.

Suddenly, she felt that there was nothing she could do...

To continue to seize power in the Li family's business? To make a career?

She knew her own ability. If she were to really manage the company, she wouldn't have the ability. Moreover, she had no interest in managing the Li family's business at all...

Just like that, she was depressed for a few days. It was also because of this that Goudan brought her into the game.

As she recalled these memories, Zhang Minjun suddenly felt a little emotional. She had been resentful for half her life, but she didn't expect that when she was old, she would have a chance to start all over again...

This feeling was much more meaningful than sitting on the shares of the Li family.

However, looking at her daughter's coquettish appearance, Zhang Minjun's heart still softened. She immediately said, "I can't go back every day. I'm busy here. I'll go back one day a week. You can decide the time!"

“Okay, Mom!” Li Goudan immediately said with a smile.

Zhang Minjun pinched her daughter’s face helplessly. “By the way, you’ve accepted the job of the captain. What about your job as a bodyguard in Ba Tie?”

“I’ll find someone to cover for me...” Li Goudan said with a smile, “There are quite a lot of players in the Dragon Group now, and the deployment of the members isn’t as tight as before. It shouldn’t be a big problem for me to transfer them. I’ll just tell them when I go back...”

“Since you want to go back, you can go to the Li family and tell them about your cousins in the sect. Otherwise, the Li family will call me often for no reason...”

Li Goudan: “Oh...”

“And that person... I’ll go and see if he’s dead?”

“Which person?” Li Goudan asked with a smile.

“You Girl, are you playing dumb for me?” Zhang Minjun immediately sneered and said, “Forget it if you don’t know. I Can’t be bothered to care about him and die.”

“Hey, I know, I know!” Li Goudan quickly said, “I’ll go back and record the miserable life of that person and report it to Mom!”

Zhang Minjun immediately glared at her. Although she really wanted to know how bad the life of that person was, but..? ... Do you have to say it so bluntly, you wretched girl?

Doesn’t it make me look like a scoundrel?

“Hehe...” Li Goudan saw his mother glaring at him and quickly shrunk his head. “That... if there’s nothing else, I’ll leave first, mother...”

“Hurry up and get lost...”

“...”

After getting out of the tailor’s shop, Li Goudan did not return to the Li family immediately. Instead, he was first teleported to the main base.

The most important issue now was the signing of the contract with the ice crown, so she planned to find Grandpa Lu to discuss the cost-effectiveness issue.

However, when she arrived at Grandpa Lu’s place, she found that the huge SH \* t had disappeared and was replaced by an even stranger thing...

On closer look... it looked like...

“What the Hell Is This?” Li Goudan froze on the spot and thought to himself, is this Grandpa Lu? Why does Grandpa Lu always change into such strange shapes?

Another person who had the same thought was the Lord, Seer, who was standing not far from Goudan.

He stared blankly at the huge and indescribable thing and said in a daze, "Virien... are you sure... This guy is really a phoenix seed?"

"UH..." virien also became a little hesitant, in the past, when she was in the family, she had also seen the early stages of a phoenix seed. Although it seemed a little strange at first, it would become more and more normal as time went on. How could she be like Grandpa Lu, who was becoming more and more wretched?

"And... why is he not speaking now?" Xi Ye continued to ask.

"UH... he should have entered a dormant period..." virien was a little uncertain as she said, "Usually... when a phoenix seed turns into a phoenix egg, it seems to enter a dormant period."

"You told me that this is an egg?" Seer's face was full of black lines as she pointed at the huge object. "Which family's egg looks like this? This is clearly... clearly... clearly..."

Seer stammered for a long time but in the end, she still could not describe the object.

Suddenly, Wang Goudan's surprised voice came from afar.

"Wow... What a big butt! !"

Everyone:"..."

Chapter 612 Ice Crown's sincerity!

"Oh, is this Grandpa Lu?" Wang Goudan looked enlightened. "Has he evolved?"

Li Goudan looked at him blankly. "You... Where did you see that this is evolution?"

"It's very obvious!" Wang Goudan said seriously. "He used to be a turd, but now that he has become something that creates excrement, of course he has evolved. Have You Seen Digital Treasure?" After the evolution of the fecal beast is the fecal bin Beast, the feces into feces can be complete body, now into feces may be the ultimate body... <per\_0> . ."

Everyone:"..."

"so that's how it's explained?" Seer's face was full of confusion, as if he had lived long enough to learn...

Li Goudan covered his face, do not want to continue this topic with this guy, in the strange line of reasoning, Feel Wang Goudan is a master...

"Oh right, Goudan, what are you doing here?" Li Goudan changed the topic and asked.

"Looking for Grandpa Lu. Dad signed a contract with a player to purchase the seafood market. I want to ask Grandpa Lu how to set the price and develop the seafood better. Oh right, what are you doing here? Goudan?"

Li Goudan paused for a moment and then said, "I'm also here to look for Grandpa Lu. However, it seems that he can't help us now. is the faction player from the seafood market that you're working with called Ichigo Goudan?"

“Yes!” Wang Goudan immediately smiled and said, “Why? You know her too. Goudan?”

Xi Ye: “...”

These two people were twins in her previous life, right?

“Goudan, if you have any difficult questions, why don’t you try asking this lord?” Xi Ye said slowly.

Xi Ye naturally knew about the two of them. Towards the player called Icecrown, although Xi Ye couldn’t help him directly, she still tried her best to let him succeed.

The other party’s start-up mode had a very positive effect. Little cabbage had set an example for the players by setting up a horde mode in the grasslands, Isabelle had used the opening of a human city’s central station to open up new ideas for the players.

Now, while everyone was passionate about exploring the grasslands and cities, there were players who took a different path and took the sea route. This kind of innovative idea was very encouraging.

Right now, everyone’s eyes were still on the same planet. When they entered the cosmic era later, the players would encounter all kinds of situations. There would be endless opportunities and even stronger challenges, under such circumstances, blindly following the path of others was a waste of their own potential.

Only when more and more people dared to try this way would the pluralistic forces that he envisioned be able to be developed to the greatest extent.

Faced with Seer’s gentle tone, the two dogs were slightly stunned and subconsciously took a step back.

The last time they spoke in such a tone, it was to trick them into taking out a loan... ..

“Little dogs, this lord isn’t someone who can give advice easily. There are tens of thousands of players in the entire base, and you two dogs might be the first. Don’t regret it if you miss it...”

The two doggies looked at each other and hesitated for a moment.

Although Grandpa Lu’s analysis of the situation was always accurate, if one were to say that he really understood the situation, then the big boss in front of him was probably the most authoritative one.

After hesitating for a moment, Li Goudan was the first to speak. “Lord, Ice Crown wants me to join them. What do you think of the price-performance ratio if I join them now?”

“Ice Crown?” “The player who built the city on the East Coast?” Seer pretended to pull out the virtual screen to take a look. “Let me take a look. Her faction now has a total of six people. She has 25% of the shares, and then she joined Flower Spirit: [ four-leaf clover ] has 20% of the shares, and she hired a high-level mechanical system developer player, [ Tinker ] has 20% of the shares. Her sister also joined, but she only took 5% of the shares symbolically. After that, she hired two retired science professors through the public recruitment. One physics department and one biology department, each gave 5% of the shares, and now there’s only 20% of the shares left...”. “...”

Pausing for a moment, he said, “From the looks of it, you’re not worth it. As the only Level 4 wind demon in the base, you have very high potential. If you can maintain your advantage, the value you’ll

create in the future will be extraordinary. However, after joining this faction, your shares will only be inferior to the other two players who are lower in level than you...”. “...”

Li Goudan raised her eyebrows when she heard that. The other party had hit the nail on the head... ..

The reason why she didn't agree immediately was actually because of this... .. Because once she agreed, didn't it mean that she admitted that she wasn't as valuable as the other two?

In reality, many people occupied more resources not because they were more capable than others, but because they had better opportunities than others. For example, when a company was just starting out, you joined this small company, and then the company became prosperous, you also followed the chickens and dogs into the sky, resulting in the employees who came later, no matter how powerful they were, could only be inferior to you.

This kind of justified reason was actually not wrong. Other people chose that opportunity, took risks, and finally obtained results.

However, this did not mean that the people who came later would be convinced. For example, Li Goudan entered this brand new platform. Everyone was just starting out, and he was still a veteran player. Then, she was asked to be inferior to other players. It was not because of her strength, but because she was a step slower than the others. No matter how one thought about it, it felt uncomfortable...

Seer smiled, she continued, “If we don't consider these things, from the perspective of potential, this player's faction is indeed very valuable to join. This is because once she succeeds, she might become the third super faction in the current base. In the future, she will also be very competitive with the outside world. Moreover, it suits your goal very well. Haven't you always wanted to go to the sea to take a look?”

“But...” Li Goudan hesitated for a moment. Just as he was about to say something, his AI suddenly informed him that she had a private message. The name of the private message was actually the ice cap that they were discussing.

Li Goudan subconsciously opened the private message...

Senior Li Goudan, Hello, I am player ice cap. My real name is Luo Yuxin. Please allow me to sincerely invite you to join us again. We really, really need you here. I promise you here! As long as senior is willing to join us, I will guarantee you 20% of your shares. Please believe in my sincerity and seriously consider it!

Looking at the content, everyone was stunned for a moment, including Lord Seer who was thinking of Guiding Goudan.

Even he did not expect this little girl called Bingguan to be so bold.

The information he had just mentioned was not exaggerated at all. The remaining shares of Ice Crown faction were only 20% in total.

Under normal circumstances, in order to attract the players who would join later, they would definitely have to leave shares to stabilize their loyalty. It was impossible for them to all be given to Goudan. Now that the other party had said that, they must not have lost their minds.

Seer speculated that this girl wanted to use her shares to subsidize less than 20% of Li Goudan's shares!

This could be seen from the other party's private message: I'm making a promise here, not our promise...

When she thought of this, Seer smiled in her heart and thought to herself, 'this child is a person who gets things done...'

Chapter 613: the only thing that's similar to you!

The Li family had been doing quite well recently. Because of Goudan, the Li family had received quite a lot of dividends in various places!

In terms of external business, due to Goudan's outstanding performance in killing the Kagura Legion and other special ability organizations, the Li family had even been treated as a god-like existence by the officials. After learning that the Li family was Goudan's family., the ba-tie officials opened a backdoor for the Li family to accept the construction business of the ba-tie subway system.

Not only did they give all the land business that they had originally planned to contract to other companies to the Li family, but they also gave them huge bonuses in terms of policy incentives, including large tax deductions and material discounts.

This made the profits of the Li family's big business nearly double!

The neighboring small countries also seemed to be trying to get in touch with the Li family. The number of businesses was growing rapidly. It was estimated that in the next 20 years, the Li family would no longer have to worry about the number of businesses. As a result, the Li family's stock value was also rising!

Internally, due to Li Goudan's astonishing performance in the Kunlun martial arts competition, many sects and families also knew of the existence of the Li family. These days, family-style companies that originally disdained to get in touch with them often came to get in touch with them.

Domestically, due to Li Goudan's performance in the Dragon Group, whether it was showing off her might in Ba tie or her outstanding performance in the Kunlun Martial Arts competition, the organization highly valued her. This also allowed the Li family to obtain a lot of benefits, this included the contact with big shots. The Li family, which originally had no foundation in the capital, instantly gained the friendship of elder Li, elder Tian, elder Liu, and a series of other big shots. It almost made the Li family feel like they were on a meteoric rise!

This also made the Li family members feel extremely comfortable these days. Of course, the enjoyment of all these bonuses left out the person who should have enjoyed all this the most!

It was Li Jiayi's biological father, Yichen Li...

“Old Wang, is madam still not back yet?” In the hall, Yichen rubbed his hands and asked expectantly.

The current Yichen was dressed completely differently from the overbearing CEO from before. He was wearing a cheap casual outfit that he had bought from God knows where. His face was disheveled and his expression was haggard.

With this appearance, anyone would believe that he was a vagrant on the streets. In any case, very few people would believe that he was the young master of the Li family, who had been in the limelight recently, and the former head of the company... ..

Meanwhile, the person called Old Wang was currently dressed in a rather decent manner. He was wearing a custom-made suit, and his hair was combed smooth. His leather shoes and watch were obviously of high quality. Although his temperament did not match his outfit, it was obvious that he was dressed in a high-class suit. Compared to Li Yichen’s current condition, he looked like a high-class white-collar worker who had just been sent to prison...

Half a year ago, Old Wang was just a security guard...

After making the right bet, he was successfully promoted from a security guard to a housekeeper of the manor. His annual salary had increased by nearly ten times. At this moment, his nostrils were in the air, and he felt like a villain who had achieved his goal, he glanced at the former owner of the manor from the corner of his eye and sneered in his heart, however, he said in all seriousness, “That... Mr. Li, I’ve told you many times that Madam is not here. If she were here, you would have been thrown out by us by now...”

“...” Li Yichen

Looking at the security guard who was obviously laughing at him, it was impossible for him not to be angry. However, at this moment, his face did not reveal the slightest emotion, he continued to smile sincerely. “It’s fine. As long as Minjun is willing to come back, she can throw me out a thousand times or even ten thousand times. As long as she’s happy...”

Old Wang rolled his eyes at this and thought to himself, are all big shots so thick-skinned?

If I knew this would happen, why would I be so cheap in the first place?

“Yo, you’re so sincere?”

Just as he was about to say something else, a cold voice suddenly sounded from behind him.

The voice was cold and sarcastic, but it jolted his body and filled his eyes with pleasant surprise!

“Jiayi!” He turned around and hugged his daughter.

With a slight turn, Jiayi cleverly avoided her father’s hug...

His daughter avoided his hug with a look of disdain, but he was not embarrassed at all. He turned around and asked, “Jiayi, are you still angry with me?”

Goudan: “...”

His expression was as pitiful as an abandoned puppy. Coupled with his disheveled clothes and weathered temperament, he gave off an incomparable sense of decline...

Goudan suddenly understood why his mother had been soft-hearted toward this fellow many times. Damn it! This Goudan was such a cold-hearted person, yet he was actually touched a little...

“Wang, throw it out before mom comes back.”

Yichen:” ...”

“Good Young Lady!” Old Wang’s waist straightens, a face grimace came over: “Mr. Li, please cooperate with a bit!”

-----

“Oh, isn’t that Yichen?”

No sooner had Yichen been thrown out than a familiar voice rang out.

His face darkened at this. This voice was very familiar to him. It was his eldest sister, Li Siyan!

Li Siyan looked at the beggar-like yichen, who looked like he had been chased out by a rich family, and laughed. “Yichen, what are you trying to do?”

As someone who followed the old man every day, Li Siyan naturally knew that Yichen was not as miserable as he looked now. Although the old man had chased him away on the surface, he did not say anything about it, he did not say that he would not let his former successor have a meal.

Even after Yichen was cheated out of a lot of money by the mother and son, the old man still lent a helping hand and secretly gave him a lot of subsidies. That money was enough for Yichen to directly open a large-scale company in another city!

How could he imagine that he would dress up in metersbonwe to pretend to be poor?

“What are you doing here?” Yichen asked in an unfriendly tone.

His relationship with his sister was usually ordinary, but he did not expect that her daughter would benefit from the other party’s benefits after gaining power. Not only her, but he also heard that the child of the uncle next door, who was a close relative, also benefited from the benefits. On the other hand, he ended up in this state. Just thinking about it made him feel extremely f \* cked up...

“Of course, I’m here to see my little niece...” Li Siyan beamed.

“Jiayi has just arrived, and you’re already here because of the smell?” Li Yichen sneered. “You installed someone in the manor, right?”

“That’s...” Li Siyu smiled. “No matter what, we’re people with a bit of status and face. We can’t be like young master Li, who waits like a dog every day, right?”

“You...” Li Yichen choked and his face flushed red!

"If you can't think of anything to say, then take your time to think. I still have to curry favor with my biological niece, so I won't chat with you, young master Li..." saying this, he walked toward the main door without turning his head back.

"Li Siyan!" ! Li Yichen coldly called out to her. "There are some things you need to understand. She's my biological daughter. Even if she gets angry at me, I'm still more important to her than you people. Once her anger subsides, you'll regret it!"

Li Siyan paused in her steps and sighed. She did not look back. "To think that you're a father, yet you don't know your precious daughter's character..."

He frowned and sneered. "You talk as if you know her very well!"

"I don't really know her very well..." Li Siyan smiled. "However, after interacting with her for a period of time, I'm certain of one thing..." With that, she turned to look at her younger brother. "This girl doesn't look like you from head to toe. Only her heart, which is as cold as ice, is not much different from a man who has abandoned his wife and daughter for more than a decade!"

"..." Li Yichen

Chapter 614 the impatience of the undead (I)

"Aiyu, niece, when did you come back? Didn't you call to tell me?" Li Siyan looked at Li Goudan with a smile and asked affectionately.

Li Goudan smiled gently and said, "I just came back. Aunt came at the right time. I have some things to take care of and have to leave for a period of time. I originally wanted to say goodbye to the old master and not talk about the situation. Since aunt is here, I might as well tell you. You can just tell the old master..." "..."

"Eh, is it that urgent?" Li Siyan asked with a concerned expression.

"En... it's a little urgent. It's not convenient to talk about the specifics. Anyway, I'll be back for a period of time."

"Oh... I see..." Li Siyan nodded. Then, she pulled Li Goudan to sit down and said, "Then if you have anything to say to Elder Auntie, just tell me. I'll tell the old master word for word later."

Li Goudan said, "I've been out for quite a long time this time. I'm afraid I'll be out for a year or two. Mother has been a little busy recently. If you need anything, just leave a message for me. I'll recover as soon as I receive it. After that, it'll be the matter of a few cousins. Aunt told the old man that they're all pretty good in the sect and have improved a lot. At the end of the year, the sect will let them come back once, so you don't have to worry too much..." "..."

When she heard this, Li Siyan's heart instantly relaxed. She had come in such a hurry to curry favor with Li Goudan because she wanted to know how her own child was doing in that Luofu., she also hoped that this niece could take care of her cousin.

After she relaxed, Li Siyan looked at her niece thoughtfully. Clearly, the other party understood her thoughts very well and directly told her what she wanted to know the most... ..

But the more it was like this, the harder it was for her to continue being close to her...

After interacting with her for half a year, Li Siyan could be considered to have some understanding of her younger brother's daughter. Usually, when they interacted with each other, they would basically not speak ill of each other. Their attitudes were modest, and they did not rely on their achievements to disrespect their elders.

However, it was difficult for them to get close to each other. They felt like an expert in tai chi. Their hands seemed gentle, but it made it impossible for others to enter.

Li Siyan said, "Jiayi, no matter how busy you are, you should take care of your cousins in the sect. They are your blood relatives and will be your most loyal pillar in the future. After all..." "..." "What kind of friendship can be more reliable than a family?" Li Siyan said earnestly.

Li Goudan looked up and smiled. "Aunt is right. I understand!"

Li Siyan was stunned. The other party was so sensible. She did not know what to say. She thought to herself, 'it's still the same as before. I Won't be affected by oil or salt...'. .

"Alright, Elder Auntie, if there's nothing else, you should go and reply to Old Master. I'm going to take a flight later tonight. I Won't be able to stay here for long..."

"Alright, Alright, alright..." Li Siyan nodded and smiled. "You don't have to rush too much. Take care of your health. The Li family is depending on you now..."

"Thank you for your concern, aunt..." Li Goudan smiled brightly, then, he suddenly thought of something and said, "Aunt, when you go out, tell that guy outside that I won't be back for a year or two. Tell him not to waste his time if he has nothing to do."

Looking at her niece's smiling expression, Li Siyan's heart shivered. Although she didn't like her younger brother and also found it funny that he still wanted to protect his illegitimate child at that time, he was still the biological father of this child. As the saying goes, blood is thicker than water. The child's tone is like asking her to drive away a dog...

Looks like Pops was right. This kid... .. Is indeed a hard-hearted person, she only cares about his mother, if Zhang Minjun one day left the Li family, the niece will certainly not look back and the Li family draw a line... . .

-----

"You want to leave?" In the next day, Li Goudan very efficiently appeared in the office of the BA tie Chief.

Honestly, if it wasn't for the fact that her resignation was such a big deal and the authorities were so focused on it, she wouldn't have been on that plane for so long?

"This... . Do you have something to be dissatisfied with here?" The chief asked with a nervous face.

Although the dragon team members sent by Central China seemed to be quite outstanding, he was more convinced by this captain-level character who killed two members of the Kagura Legion in front of him like a chicken being slaughtered.

After all, after Goudan Li's death, the outside factions became much more cautious in probing this place. They didn't send out any top-tier experts easily, so the newly arrived cold star and the others didn't have such a magnificent battle record like Goudan's!

"There are some private matters that I have to deal with, so I have to leave for a while... If you still welcome me here after the matter is settled, I will come back," Li Goudan said with a smile as he turned around, this smile was very different from the smile he had when he faced his aunt. It was not to deal with the matter. The leader of BA tie valued her very much. Although she had a purpose, she did not dislike it, on the contrary, she felt that she was recognized.

Although the Li family also valued her ability, she had no sense of achievement at all.

"Of course!" The leader quickly said, "The door here will always be open to you!"

After a pause, he said, "Then how long will you be going for this time?"

"I can't say. At least one or two years..." Li Goudan sighed. But in fact, she knew that she would not come back in the future. After all, she would not be able to return ... Her goal was the Sea of stars!

"It's been so long..." the leader sighed slightly, obviously a little disappointed. This disappointment was very different from her father's show, which deliberately made her feel that she had gone through a lot.

Li Goudan's heart softened slightly, then, she took out a crystal from her pocket and said, "This is our sect's communication device. If you need my help, I will rush over as soon as possible. No matter what you need help with, I can do it, and I will not refuse!"

The leader's face immediately shook when he heard that. His hands trembled as he took the crystal. He realized that this was a rather big promise!

Like other countries, he was a leader who was rotated. However, as long as he had the friendship of this powerhouse, his status would not be too bad even if he retired in the future...

Moreover, he had a feeling that this promise of Li Goudan's would be of great significance to him and even to his country in the future!

-----

"A year and still no response?"

In the dark underground palace in the capital of the Steel Martial Empire, the lich, whose skin was as ugly as an old tree, stood in front of the huge crystal, and his breath was gloomy!

And before he although old but a complete human skin is not the same, his body is clearly many parts of the beginning of the phenomenon of decay, revealing the ghastly white bones!

Like him, the other people in the hall also started to rot to different degrees, and the intensity of their aura was significantly reduced!

Facing the Old Lich who had been performing the summoning ritual for the whole day, a tall and sturdy figure stepped forward and said in a muffled voice, "Kersu, tell me the truth. can that person still come back?"

Chapter 615 the impatience of the undead (part two)

Could that person still return?

Faced with this question, the usually wise Kersu was also at a loss... ..

He knew better than anyone else that his master was powerful, because he had not only come into contact with his master's external power, but also the vast knowledge base that his master possessed.

As an arcane mage who never forgot to study the truth diligently in the world of the undead, he greatly admired the power of civilization. His master possessed the treasure of civilization, and this treasure was more reliable than any other power in the world, this was also the reason why he admired him so much.

But he did not expect that such a powerful master would abandon them and run away without saying a word in the face of that strange outsider!

There was not a single sound, not a single trace, not even a single order left behind for them. He ran away in such a panic. It was really difficult for people to understand what kind of terrifying existence he had encountered?

Would he abandon them forever because he was afraid?

He did not know...

Because when his master left, he did not have the time to tell them anything.

All they could do for the past year was to wait...

But this wasn't the undead realm. Without the help of their master's domain, they didn't have the ability to stay here for long.

This could be seen from their rotting bodies.

Just like when Alice was teleported to the D sphere, without the help of her domain, her body rapidly rotted. If it wasn't for little cabbage helping her in the end, even someone as smart as her wouldn't be able to resist the power that the undead realm summoned back to her.

And now, everyone in the palace was facing the same predicament as Alice!

"Are You Dumb?"The huge man said in a muffled voice.

Kersu raised his head and looked at the other party. This person was the same as Alice. He was one of the seven great legends of the Steel Martial Empire: The Giant: Bengal Goode!

As a human, he had a body that was stronger than the Tauren. But now, his body that he was proud of was gradually withering...

This made his originally irritable temper even more difficult to suppress.

Faced with this guy's unfriendly tone, Kersu's eyes flickered with green flames as he coldly said, "If you want to return to that damned place first, then just do it!"

These words caused the giant's body, who couldn't suppress his anger, to obviously stiffen. He was indeed a hot-tempered person, but to be able to grow into a legendary expert, how could he be just a boorish person?

He knew very well that Kersu was not weak. Even if he could win, killing him would consume the little energy he had left. And once his energy was exhausted..! He would return to that F \* cking world where there was no hope at all!

"But we can't just wait for death, right?" A female voice sounded faintly, and everyone turned back to look.

Alice was the only woman among the seven great legends. This woman was not among the legends of the steel martial empire, but in the distant western islands, this woman's fame was illustrious. She was no less than Alice.

The Bloody Queen Marina, the woman who had once caused the powerful magic empire, Tirislin, to fall into a reign of terror, the only female emperor in the history of the islands!

This woman was as cunning as a fox and as vicious as a snake. Even Kersu became a little cautious when facing her. He asked in a low voice, "What do you think?"

"If we continue to stay here with our current bodies, how long can we last with the Dark Energy left by Master?" Marina asked straightforwardly.

Everyone suddenly felt a chill in their hearts and quieted down. Obviously, they had always cared about this topic, but they didn't dare to face it...

Kersu was silent for a while before finally saying, "One year..."

Everyone: "..."

There was only such a short period of time?

Marina nodded. "Then, if we walk out of here, how long can our bodies last?"

Kersu: "One month!"

"That short?" Marina frowned and said.

Kersu: "If there is a continuous supply of fresh vitality, it can last for half a year..." . "... "after a pause, he continued, "I said the life force is the more peaceful kind. For example, you'd better not try those mutated life forms in the map of the Black Goat. There is a high possibility that your bodies will collapse instantly!"

Everyone's faces turned gloomy. In other words, if their master did not come back, they would only have one year to live!

Marina did not care about this. Instead, she nodded and said, "There is a chance if it is half a year!"

"What Chance?" Everyone looked at her immediately.

"A chance to fight for the last wave!" Marina narrowed her eyes and said.

"What do you mean?" This time, even Kersu was a little anxious.

Marina said, "Two directions. The first direction is Alice!"

Everyone was stunned when they heard this name. Then, they looked at the recording crystal that represented their soul fire in the hall.

The faint flame on it represented the strength of their soul power. Obviously, compared to before, the light of the candles was much dimmer now.

However, one of the flames was burning vigorously. The flame was purple. It was the soul fire that used to represent Alice!

Marina said, "After Alice went to that so-called other world, she should have rotted and returned to the world of death..."

Kersu nodded. He had seen that Alice's flame was so weak that it was almost extinguished, but suddenly, the light returned, and it became brighter and brighter in the past year, it was even stronger than when their master was around!

Marina said, "Obviously, that woman has mastered the method to survive in this world without relying on their master!"

Everyone nodded, but then they said, "But she's in another world. How can we find her?"

"She might not be in another world!" Marina sneered. "Since the people from that world appeared in the steel warrior empire, they must be plotting something, and Alice's life force might be revived because she defected to that world. Since the other party has taken Alice in, how can they let her continue to stay there? After all, this side is more suitable for Alice's performance, isn't it?"

Hearing that, everyone nodded repeatedly.

"But..." Kersu said solemnly, "That mysterious force is very powerful. Even master was forced to flee back to the death realm. Is it something we can afford to provoke?"

"That force isn't necessarily very powerful..." Marina shook her head and said, "If it was really that powerful, it would have swept over this place long ago. Since there hasn't been any movement for such a long time, it means that the force over there isn't as powerful as we imagined."

"But it is still very dangerous..."

"Dangerous?" Marina sneered. "We are about to die a second time, why are we still afraid of Danger?"

Kersu was silent for a while after hearing that, finally, he nodded as if he had made up his mind. "Later, I will cast a prophecy spell to predict Alice's location, but that will consume half of my energy. After that, you will have to rely on yourselves to go out and find her!"

Everyone immediately nodded, but one of them suddenly said, "Marina, you just said two directions. Alice is in one direction. Is there a second direction that will let us survive?"

When everyone heard this, they immediately looked at Marina. After all, Alice's direction was very dangerous. If there was a safer way, it would naturally be better.

"The second direction..." marina smiled and said, "Is in the West!"

"The West?" Everyone was stunned. Kersu was also stunned, but he immediately reacted. "You mean..."

"Yes...". Marina looked at the west and said faintly, "The first time master appeared in this world was in the west. I suspect that the location of the rift that master mentioned is there. Maybe if we go there, we can get master's information..." ". "

Chapter 616: Come with me!

After bidding farewell to the leader of Ba tie, all the formalities were completed. The last thing Gou Dan did was to bid farewell to the Special Forces soldiers who had once lived in his dormitory.

During that period of time when he had just come to Ba tie, because he did not speak the language of the people around him, he was closest to this group of soldiers. Now that he was about to leave, he naturally had to say goodbye properly.

Around six or seven o'clock, Li Goudan found the restaurant that his brothers had chosen. It was said to be a very local restaurant. When Goudan arrived, the dishes on the table were almost all served.

Ba Tie's diet was a little similar to the style of the Three Kingdoms. They liked to eat spicy food. They were famous around the world for the curry food that they made with pepper and turmeric.

Goudan took a look. The dishes on the table were the same as before. They were all stews. be it meat, fish, beans, or vegetables, they were all stewed thoroughly. It was very different from the style of the Big Wok in China.

However, Goudan actually did not hate to eat a meal. On the contrary, although the different meat and vegetables stewed together made people feel like vomiting, but... ... The taste was still pretty good even though the vision was blocked.

Seeing that Goudan had arrived, a bunch of soldiers quickly gave up their seats. Goudan did not stand on ceremony either. He casually found a seat that someone had previously sat on and casually sat down. He picked up a piece of chicken and started to eat it.

Immediately, a soldier beside him quickly handed him another piece of meat patty made from starch and minced meat. Goudan smiled and took a bite. He then picked up a piece of lettuce and put it in his mouth.

At this time, she was in the image of an elf. Although she had hidden her wings, she was still as beautiful as a fairy. However, she ate like a heroine.

The soldiers laughed. Although they had not seen each other for some time, Goudan was still the same old Goudan.

Goudan looked at everyone and realized that they were not all here. Goudan had expected this. The main mission of this team was to help with security, so it was impossible for everyone to be on vacation, naturally, he had to leave a few people to familiarize themselves with the new dragon team members.

The new dragon team member, Li Goudan, was not very familiar with them. Wang Goudan had joined the cabbage faction and was sent by Alice to explore the map in Gondolin. His schedule was very busy, and Leng Xing was worried about Goudan, so he naturally followed along, he did not have the time to continue staying here.

Thinking of this, Li Goudan suddenly felt that the cabbage faction was very good at picking people. Look, Wang Goudan, who had the largest restaurant chain and the best chef father, not only fully utilized the advantage of their faction's food level.., moreover, there was a two-for-one benefit when they chose Wang Goudan.

One person's shares had roped in two high-level players, Goudan and cold star. That cabbages looked silly, but they were quite good at scheming... ..

However, what Goudan didn't expect was that the person who didn't come was actually captain Wang Ye...

"Where's That Guy Wang Ye? Why didn't he come?" Goudan asked curiously.

"The captain is familiarizing himself with his work with the new members of the Dragon Team..." a fat soldier beside him replied.

Dog Egg curled his lips when he heard this. "He's very fake. He must be unhappy that I want to run away. Give me some face!"

All his teammates laughed at once. Everyone in the team knew that Wang Ye had a crush on this little dog egg, but who didn't like dog egg?

It was good that he didn't show up. No one took a photo with dog egg before they left. They would die of envy if they went back!

———

On the other side, after Wang Ye explained everything to the two newcomers, he sent them to a high-class hotel first while he found a place to smoke quietly.

Looking at the bright moonlight, Wang Ye's eyes were a little lost. No one knew what he was thinking about.

Suddenly, a familiar voice sounded behind him. "Old Wang, we can still make it to Goudan's farewell party at this time. Are you really not going?"

Wang Ye coldly put out his cigarette. "What's there to go for? A bunch of people don't even know what they want from a guy who ran away at the last minute..."

“She’s Beautiful!”

“Shallow!”

“You talk as if you know what she’s really like...”

Wang ye frowned. “By the way, what are you doing here? Didn’t I say that I would be the only one receiving guests?”

“Do you think I want to?”The vice-captain chuckled. “If I wasn’t afraid that you would lose control of your emotions and cry in front of the ambassador, disgracing the Chinese military, I wouldn’t be willing to accompany a single dog like you...”

“Bullsh \* T...”Wang Ye rolled his eyes at him. “You’re just looking for trouble, aren’t you?”

“I’m talking about you...”the vice-captain sighed. “If you like someone, just say it. When did you become so wishy-washy? Now that she’s gone, you really have no chance at all!”

Wang Ye was stunned. He wanted to retort, “Who likes her?”?

However, when he saw the look in his old partner’s eyes that could see through everything, he finally sighed helplessly. He found a grass field and sat down. “What’s the use of saying it? What’s her identity? What’s my identity?”

If the other party was just the daughter of a merchant family, he, Wang Ye, might have courted her with all his courage. After all, it was common for soldiers to sneak into the city and flirt with rich female ceos...

Yet, the other party was a cultivator!

At such a young age, she had the ability to kill multiple team leaders of the Kagura Legion. It was said that she had also gained a lot of attention during the Karakorum martial arts demonstration.

Such a person far surpassed him in terms of wealth, status, and strength. What right did he have to pursue her?

It was not only wealthy families who understood the concept of a well-matched family. Anyone with a brain would understand it.

“Useless guy...”the vice-captain glared at him. “How would you know if you don’t try?”

Wang Ye rolled his eyes at the vice-captain. “Boring!”

“You...”the vice-captain looked angry and was about to say something when a sweet female voice sounded behind him.

“Exactly, how would you know if you don’t try?”

This voice made Wang Ye and the vice-captain’s bodies freeze!

Wang Ye turned his head stiffly. Under the bright moonlight, it was the figure that made people dream...

...

Wang ye stared blankly at the other party for a long time until the vice-captain beside him couldn't help but kick him. He finally reacted and stammered, "You... Why are you here?"

After saying that, he saw Goudan carrying a box in his hand...

He also remembered that this guy had booked a flight ticket for tonight...

His heart instantly sank...

She left so gracefully, what a heartless girl...

At the thought of this, Wang Ye, who was originally a little excited, suddenly felt as if he had poured a bucket of cold water on him, and his mood turned cold again.

"Won't your flight be late?"

"It shouldn't be..." Li Goudan said with a smile, "There are still two hours left..."

"Is that so..." Wang ye said faintly, "You don't have to come here. How troublesome is it to run around?"

"You don't want me to come here?" Li Goudan stared at him.

Wang Ye opened his mouth and was about to say, "I don't want to, but I can't bring myself to say it..."

In the end... he wasn't that tactful...

"Come with me..." Li Goudan looked at the silent Wang Ye and said with a smile.

"Oh... have a good trip. Call me if you need anything... eh?" Wang Ye was stunned and stuttered, "What... What did you say?"

"I said..." Li Goudan looked at him seriously, "Come with me, Wang Ye! !"

Chapter 617 take you to see this captain's beloved ship!

"You mean... Captain left with Jiayi just like that?" One of the team members said in a daze.

"I didn't expect Little Jiayi to be so domineering..." the vice-captain imitated the other party's tone and said, "Wang Ye... come with me!"

"You don't know. That tone and that spiritual stage are very similar to those country bumpkins on TV who seduce young ladies to elope. You said that those young ladies on TV couldn't stand this kind of confession. Now that their identities are reversed, how could old Wang, that boor, withstand this kind of attack?" "Of course, he surrendered!"

"No..." the team member next to him said in puzzlement, "But... but the captain is still serving in the army, right? Is it okay to leave like this?"

"Oh... about this..." the vice-captain took a sip of tea and waved his hand indifferently, "Jiayi called elder Li and said that Luo Fu was willing to accept Old Wang as the first partner. Elder Li approved it on the spot!"

“F \* ck, you can do that?”The soldier was stunned. “With power and influence, you can really do whatever you want!”

“Nonsense...”the vice-captain rolled his eyes at him. “So many people want to fight for power and influence. Isn’t it to do whatever you want to do to bring peace to the world?”

Everyone:”...”

-----

Ye Wang, who had just gotten off the plane, was still in a daze. Li Goudan’s sudden invitation and elder Li’s straightforward release had left him somewhat unable to react.

At this moment, Goudan Li did not notice ye Wang’s state of mind. Most importantly, Ye Wang was a person who liked to keep a straight face.

“Let’s go, we’re running out of Time!”Goudan Li pulled ye Wang out of the airport with quick steps.

“Where are we going?”Ye Wang was stunned.

“To the east coast. Today, this captain’s ship is going to sea for a trial run. How can I miss such a historic moment?”Goudan said excitedly.

Wang Ye was stunned. “When did you become the captain? and... aren’t we going to Luofu?”

“UH... ahem, can’t Luofu have no ship?”Eggface forcefully explained.

Wang ye immediately frowned. He felt that something was wrong.

After leaving the airport, Eggface pulled Wang Ye all the way to a small forest beside the main road.

Wang Ye was stunned. Why did this girl pull him into the small forest in broad daylight?

Could it be...

That Wild?

Wang Ye’s face immediately turned red. He thought that even if the girls nowadays were more open, they would at least find a hotel...

He saw Goudan pull Wang Ye into the forest. Then, he looked around sneakily. Then, he turned to Wang Ye and asked, “Are you ready?”

“I...”Wang Ye didn’t know what to say. could he be as shy as a little girl and say that he wasn’t ready?

Or perhaps he could say, like a gentleman, “Should we calm down?”?

What kind of joke was this? How could he face his tough brother with these words?

“Should we go to the hotel and take a shower?”

“Wash your head, close your eyes!”

“Oh...”

Old Wang, who did not have much experience, chose to close his eyes. He was a practitioner of internal martial arts. His old master had once told him to try not to break his Yuan Yang before thirty and not to watch any evil small movies. This would easily affect his state of mind.

Therefore, old Wang could actually be considered a real old virgin, the kind who had never seen a pornographic film before.

Naturally, he was a little nervous when he suddenly encountered such a thing. Although he was pleasantly surprised, he felt a little regretful at the same time. It was obviously not the first time that Gou Dan was so casual...

He suddenly felt that he had suffered a little loss...

But then, old Wang suddenly felt that the world was shaking and he was puzzled. Could it be that he had gone into shock because he was too nervous?

F \* ck, wouldn't that be awkward?

"Don't open your eyes!" Doggie reminded him.

"Oh..." Old Wang said honestly.

After a long time, the shaking of the sky and Earth finally calmed down. It felt like riding an accelerated roller coaster, but the physically strong Wang Ye only took a light breath to recover.

"You can open your eyes now..."

Wang Ye obediently opened his eyes when he heard that. When he saw everything around him clearly, he was stunned...

Didn't they agree on the small forest?

Why were there so many people watching all of a sudden?

And these people looked...

"Aiyo, Doggie, where did you find such a handsome brother?" A delicate voice sounded. Wang Ye turned his head to look, but when he saw the source of the voice, he almost jumped up in shock!

The source of the delicate female voice was a four-meter-tall green giant with muscles as big as a small mountain. It walked over like a tiger and a dragon, it lifted its chin with a finger that was thicker than its arm and looked like a hero teasing a good woman. "Handsome, what's Your Name?"

"F \* ck! !" Wang Ye's body quivered. Goosebumps rose all over his body. He suddenly jumped back and pulled away. He thought to himself, "What Monster?"

"This is my first mate!" Goudan placed his hands on his waist and said proudly.

"Little girl, you have good taste!" The little fairy nodded repeatedly. "With this tough-guy model, if he chose our Green Titan bloodline, he would definitely be a first-class tough guy!"

"I won't let him become a muscle monster like you guys!" Li Goudan said with his nose arched.

“Little girl...”the little fairy laughed when she heard that. “One look and you can tell that he is young and inexperienced. He is also addicted to that kind of fresh meat skin. When you reach your age, you will know that tough guys are the Kings!”

“Cheh...”Li Goudan rolled his eyes at her. “Even if he is a tough guy, he can’t be like you guys. Other than muscle, there is only muscle, right?”

“Then what do you want?”The little fairy laughed. “If you don’t choose Titan, then you’re an elf. The elves are all sissies. It’s not like you haven’t seen it.”

“Who said that?”Li Goudan puffed up his face. “There are many versions of transformation, okay? I believe that after Wang Ye transforms, he will definitely become an existence that has the temperament of a tough guy and is handsome at the same time!”

“Hehe... do you think it’s a private decision? Who knows, he might end up like Grandpa, becoming a butt that has two bare halves...”

Li Goudan said, “Bah, nonsense, it won’t Be Like That!”

Behind him, Wang Ye was stunned. The other party’s words were spoken in D Ball language. He could understand every word that was separated, but when he put them together, he could not understand what the other party was saying at all!

“Jiayi, what’s going on here? What are these things?”Wang Ye looked around vigilantly and asked.

These green giants were walking around leisurely as if there was no one else around. They seemed to be used to the presence of him and Goudan...

“This... I’ll explain it to you later...”Li Goudan replied and then turned back to the little fairy, “The sea trials haven’t started yet, right?”

“I’m waiting for you...”the little fairy rolled her eyes and said, “How would they dare to start without a captain like you?”

“Hehe...”Li Goudan smiled and quickly took out a set of protective clothing from the teleportation formation and handed it to Wang Ye. “Quickly put it on and I’ll bring you to see this captain’s beloved ship!”

Wang Ye:”...”

Chapter 618: Are You Serious?

The east coast was remote and the flat land area was small. It was surrounded by a large desert, making it almost a border area that had once been despised by the kingdom.

However, in terms of climate, this place was extremely good. It was located along the coast and was surrounded by a tropical desert. In addition, the unique wind eye on the western side of the ocean made this place have a mediterranean-like climate. There was neither the heat of summer nor the cold of winter. It was wrapped in warm sunshine all year round... ..

And because there was not much industrial pollution, the air quality here was excellent. Of course, Wang Ye, who was wearing a protective suit, could not feel this.

But even if he could feel it, he probably was not in the mood to enjoy it, because he was more concerned about the inexplicable things here.

Just now, he saw lobsters that were bigger than people, and seashells that were the size of a few people. Occasionally, those seashells spat out pearls that were even bigger than the tires of a tractor!

However, the people around him were a little more normal. Although they looked a little like western white people, they still felt much more acceptable than the green giants that he saw just now...

At this moment, Goudan pulled Wang Ye and walked towards the beach impatiently. Seeing that there were too many pedestrians walking too slowly, Goudan directly picked up Wang Ye. The hidden wings on his back immediately spread out, and with a boom.., the two of them were reflected into the blue sky!

Li Goudan, who was flying high with his wings spread out, displayed the beauty of the wind demon to the extreme. This scene immediately caused an uproar in the surroundings, and the little fairy behind him was also stunned, then, she sighed. "If I choose to be an elf, I will definitely be such a beautiful wind demon after i transform."

The ice crown beside her rolled his eyes when he heard this. He thought to himself, "If you transform, you will most likely be a lump of streaky meat...".

Wang Ye, who was in mid-air, almost choked. He did not expect Li Goudan to be able to fly... And he even had wings

!!

Looking at Goudan, who was less than half a centimeter away from him, that beauty was so close that it made his heart waver, and at the same time, doubts rose in his heart.

What on Earth... was going on?

As a level-four wind demon, Li Goudan's flying speed was extremely fast. In just a few breaths, the two of them had steadily landed at the port.

After landing, Goudan directly pulled Wang Ye. He did not even have time to retract his wings before he ran toward the port with a smile.

Wang Ye was staring blankly at Li Goudan's figure from behind. Those beautiful wings matched Li Goudan's figure perfectly. It was a perfect combination. It did not feel strange at all. On the contrary, because of these wings.., it was like the finishing touch of a painting.

"We're Here!" Eggface Li pulled ye Wang all the way to the port. From Afar, she finally saw the big ship that she had always dreamed of, the first ship that belonged to her that was about to set sail!

Hearing Eggface Li's excited voice, Ye Wang looked in the direction that Eggface Li pointed to. Then, he saw the endless blue sea and the steel castle at the port!

Wang Ye was slightly stunned and slowly moved closer.

This was a huge battleship. He had served in the Navy for a few years, but he had never seen such a huge battleship.

Ever since the Red Sun country's once huge ship, the Yamato, was shot down by an aircraft carrier, the concept of a huge ship and cannon had been eliminated. An aircraft carrier that had far more attack power and the ability to control the air was the darling of the sea.

This was normal. When a ship could fly, it was like a shining target when faced with such an existence. The bigger it was, the more disadvantageous it would be...

Wang Ye, the giant ship that had been eliminated hundreds of years ago, had only read about it in history books. He had never thought that he would be able to see the real thing one day. From the looks of it, it was probably even more exaggerated than the Red Sun Empire's Yamato!

Moreover... ! What kind of paint was used on this ship? It looked so shiny and handsome! ! !

Why did it look even cooler than a sports car?

"HMM... not bad, not bad!" Li Goudan looked at the first ship that belonged to him. He put his hands on his waist and looked very pleased with himself. He was just short of sticking his nose up into the sky.

"This ship... its turret is so strange..." Wang ye frowned and looked at the turret on the ship.

"HMM...". The developer who rushed over from the side said, "This warship has installed two turrets. One is a mechanical turret and the other is an elemental turret. The main cannon of the mechanical turret is a triple-mounted type 9445x diameter 460 mm naval gun. The total weight of the three cannons in the turret is 1,720 tons. Adding the weight of the armor and ammunition of the turret, the total weight of the revolving part of the single turret is 2,774 tons "...". "..."

"But... where is the turret man standing?" Wang ye asked curiously, because he saw that the turret seemed to be... Where no one was standing.

"The man is standing in the cabin...". The developer opened the virtual screen and explained, "The cannons on the ship are operated by delicate mechanical arms. The crew only needs to operate it from the cabin through the 5-D screen and the angle data provided by the intelligence...". "..."

As he spoke, he used the computer to remotely operate it. Wang Ye discovered that the various large caliber anti-air cannons on the cannon platform were rotating at a very flexible angle. It felt as if there were no blind spots.

And what was even stranger was that under the control of the robotic arms, all the cannons could change positions at any time!

Wang Ye was instantly stunned. "This... Don't such large caliber cannons have to be positioned?"

“This is the design of the pulo-type active turret. It uses highly precise mechanical arms to operate the mobile turret!”The developer yawned. “This way, the turret can be guaranteed to have no blind spots, and it will be more resistant to air attacks!”

“Bullsh \* T!”Wang Ye’s face twitched.

Anyone with military knowledge would know how strong the recoil of a cannon at this level was. Putting aside the possibility of the cannon body flying off if it was not positioned, even if these mechanical arms had the strength to forcefully resist the recoil., but how could they guarantee stability?

With just a shake, the hit rate would be greatly reduced, and they would even masturbate? To be able to hit a ship that was close to his face, that mechanical arm was awesome!

The developer sighed slightly when he saw the other party’s disdainful look, he explained patiently, “The metal we used is high-grade black gold. It is hard and of high quality, but it is very light. We used a high-density cyclone to accelerate the ejection, so the recoil force is not as severe as you think. Moreover, this mechanical arm is not one of the industrialized elementary mechanical arms on the D sphere. It is a more advanced mechanical industry technology. Its accuracy is far from what you can imagine. Not to mention half of the cannons, even the plastic energy cannon in the middle would not be able to shake these mechanical arms even a single bit!”

Plastic Energy? High-grade black gold? A basic mechanical arm on a D ball?

Old Wang was stunned when he heard that. What the hell?

Just as he was stunned, suddenly, there was a chaotic sound in the distance. It sounded like a swarm of bees.

Old Wang and the developer looked over at the same time. Then, they saw a swarm of densely packed things flying over in the distant sky.

Old Wang was stunned and thought to himself, what is this? A swarm of locusts. Scale: . . Isn’t it a little too big?

The seemingly endless sea of locusts was densely packed. It was like a wave that was surging towards them... ..

Even Wang Ye, who had seen this scene many times, could not help but step back repeatedly. He turned around and wanted to find Li Goudan to escape.

“HMM... just in time...”the developer player appeared calm and said calmly, “Just in time to give you a demonstration...”

As the developer spoke, he remotely activated his AI and said, “Activate the mechanical turret and wipe out the swarm of bugs in front!”

When Wang Ye, who was about to run away, heard this, his face twitched. He turned around and stared blankly at the developer player who was even more expressionless than him.

Fighting Bugs?

Using artillery?

Annihilating them all?

Was this guy serious?

Chapter 619 Do You Think You can call the red police?

The battle ended very quickly...

Wang Ye felt that the whole process took less than half a minute. After all, before the swarm of insects could reach him, they had already become fish fodder on the surface of the sea... ..

Judging from the speed of the swarm of insects just now, it shouldn't take them more than 30 seconds to reach here, right?

Wang Ye looked at the debris that was blown over by the sea breeze and turned into powder. He felt a little dreamy...

The scale of that sea of insects was definitely at the level of hundreds of billions of insects. In Ball D, a swarm of locusts of this level was no different from a natural disaster. It required precise deployment and a large number of destructive pesticides to be sprayed at any cost before it could be destroyed, although some countries had begun to design more advanced ways to destroy insects, they had never heard of a way to simply destroy them with fire.

Wang Ye felt that he had really broadened his horizons today!

As the guy who looked like a nerd gave the order, numerous large machine guns emerged from the countless hidden compartments on the ship. A second later, the firearms on the ship were fired simultaneously, wang Ye saw a metal bullet that was like a storm sweeping out!

This was not an adjective, but a literal meaning. The dense firepower was really like a huge metal storm, instantly colliding with the swarm of insects like a tide, and in an instant... The overwhelming swarm of insects was swallowed up by the naked eye, just like the grass on the plains that had been ignited. It looked densely packed, but under the power of the flames, it seemed to have no resistance...

How many times did this machine gun fire in a second?

Wang Ye was stunned. This scene of a ship creating firepower that was more powerful than a hundred ships was too shocking, and he could not react in time!

Ever since he joined the army, he had experienced a total of three large-scale military exercises. Two of them were at sea. Huazhong was one of the top military powers in the world. For hundreds of years, their weapons and equipment had never fallen behind, this also allowed him to witness countless advanced warships and terrifying firepower!

However, he swore that even if it was a large-scale military exercise, the combined attack of hundreds of warships would not have such an effect!

This firepower was truly indestructible. Hundreds of billions of flying insects could not even charge over. If the enemy was a battleship or aircraft with a larger area and a better hit rate, would they be able to withstand this firepower for 10 seconds?

If the Yamato had such firepower back then, would the era of aircraft carriers still have begun?

“How is it? Is this Eggface’s ship awesome?” Li Goudan asked with a boastful tone.

In fact, she was also dumbstruck just now, but when she saw Wang Ye, who was even more dumbstruck, she was now full of pride!

Li Goudan’s proud tone pulled Wang ye out of his shock, but when he came back to his senses, he shook his head. “Outwardly strong, but inwardly weak!”

“Uh...” when Li Goudan heard this, he almost subconsciously kicked this guy into the sea!

However, Wang ye continued, “This type of large ship mode is an obsolete technology. If the hull is too big, the chances of being hit are even higher. As long as the enemy keeps throwing torpedoes, you won’t be able to stand it. Moreover, with so much powerful firepower, the interception will definitely be weakened. In such a large warship, without a precise interception system, it’s a huge target!”

Eggface was stunned. He felt that what the other party said made a lot of sense... ..

Seeing Eggface in a daze, Wang Ye slowly calmed down and felt a lot more at ease. Although he didn’t understand why an immortal cultivation sect would secretly build modern weapons, it was still okay.., the people here obviously didn’t have much military common sense.

He wasn’t talking nonsense with Eggface just now. This could be seen from the fact that the large warships currently in service only had one main gun. Increasing the accuracy of firearms and reducing the excess load... Using more area for missile interception and air defense was the mainstream design of modern naval warships...

If this kind of thing was placed on a modern battlefield, it would definitely not be able to withstand a single blow!

Wang Ye comforted himself in his heart...

However, he still had to report the situation here to the higher-ups. This kind of private force had such powerful firepower. It was clearly still too dangerous!

In the face of Wang Ye’s belittlement, the developers at the side did not say anything. They first activated the magic cannon device on the plastic energy cannon.

In an instant, thousands of laser beams shot straight into the sky, and then swept across at an exaggerated speed. When Wang Ye saw that the countless clouds in the sky were instantly cleared by the laser beams, his body froze again...

What the hell was this?

“Our battleship’s main air-to-air firepower is the plastic energy cannon...”. The developer said calmly, “Each cannon can fire high-energy elemental energy up to a distance of 30,000 meters. Its power and

penetration effect are excellent. Under the concentrated firing, it can shoot down more than 10,000 fighter jets without shields in three seconds.”

“As for the missile interception you mentioned, we have always had it. The firepower you saw just now is used for both attack and interception. As I said just now, the ship has a sophisticated defense system that can quickly calculate the trajectory of distant flying objects. Otherwise, do you think that all those insects were shot by chance?”

Wang Ye:”...”

“As for torpedoes...”the developer sneered. “You’ll know about those backward things in the future. They’re useless against technology above level four. Even missiles are useless in the future!”

Wang Ye:”...”

Has This Guy lost his mind?

Torpedoes are backward things? Are missiles useless? Why Don’t you fly into the Sky?

But... ... That laser weapon just now was indeed a little scary. With that kind of intensive firing and distance, the air raid might not be of much use to this ship...

“Come... Let’s go up and take a look!”Li Goudan’s eyes lit up. He grabbed Wang Ye, who was still in shock, and flew directly onto the ship... ...

After entering the cabin, Wang Ye, whose worldview had just been blown up by the black technology weapons, was stunned when he saw the facilities inside.

The outside of the ship was definitely a military ship, but inside the ship... ...

Was this really not the new diamond princess?

The luxurious decorations, the separate rooms, as well as the high-end cruise-like facilities, restaurants, bars, swimming pools..! There was even a freaking library! ! !

The developer on the side introduced, “There are a total of 1,457 separate cabin rooms in the cabin. All of them have separate bathrooms, crystal lights, and high-grade mattresses. Among them, 300 of them have private terraces. They are designed with the high-end interior design of the elves. It will be easy for you to attract the nobles of the western islands to board the ship... “...”

“There are five main restaurants on the ship, which can provide different flavors of dishes for the tourists. “There are four swimming pools of different sizes, a princess theater that can accommodate more than 700 people, various bars, nightclubs, luxury casinos, fitness centers, spas, libraries, and even romantic wedding halls,”the developer introduced seriously. “These expensive facilities use mechanical compression technology. During wartime, the rooms and entertainment facilities inside can be instantly compressed into shock-proof metal boxes to avoid damage...”. “...”

“Oh!”Li Goudan’s eyes lit up. She rubbed her hands together and said, “That’s great! !”

Wang Ye was in a daze. What kind of ship is this?

“Then when can we set off?”Li Goudan asked excitedly.

“Set off?” The developers looked at her in surprise. “Don’t you train the crew?”

Li Goudan was stunned and said in a daze, “You... You Want to train the crew?”

“Aren’t you talking nonsense?” The developer looked at her speechlessly. “Do you think this is a red alert? You can use electricity by building a power station, you can drive cars by building a mine, and you can drive by building a boat?”

Li Goudan: “...”

## Chapter 620 Fear!

Li Goudan had always thought that she was here to be a ready-made captain, and that she was only responsible for raising the sails and setting sail. He did not expect that the lackeys would have to rely on their own training?

He was instantly depressed.

However, after some explanation, he came to a lot of understanding. After all, this ship was so huge, and it had to carry thousands of people on it. With so many people managing it, it would be difficult to guarantee the authority of your captain if they did not train themselves from the very beginning...

And then, this ship had just been built. To start up a large machine, it really needed to train specialized personnel...

There were many people who needed to be trained in all aspects. First, the ship needed operators to understand the basic operation and daily maintenance of the ship. Then, it also needed specialized operators to operate the weapons.

Then, there was also the need for some people who could repair the machinery. After all, there was no guarantee that the large ship would not break down. The astronauts in the movies were all experts in physics, mechanics, and electricity, where did it break down? Everyone could take a wrench and go there to repair it temporarily. This kind of quality might not be easy to find among the natives of the New Territories, but at the very least, they had to train some specialized talents, how about if the ship broke down in the middle of the journey, where would you find someone to repair the ship?

Other than these basic things, there were also many types of personnel to prepare, such as... ? Doctors and cooks. After all, there were so many people on the ship. It was impossible not to prepare one or two doctors, right?

It was the same for cooks. The long sea journey was actually quite boring most of the time. A good cook could give the crew a better mood.

Of course, there were still some professional needs. For example, the maid who took care of the room, the dealer of the casino, one or two teams that could perform plays, singers and bards. All of these were necessary, they couldn’t let those large entertainment venues become decorations, right?

When he heard this, Li Goudan felt that his scalp was going to explode!

Ice Cap looked at the Numb Li Goudan and smiled embarrassedly. "Senior, I know you're not good at this, but since you want to be a captain, there are some things you still have to learn..."

Li Goudan looked at her with a hidden bitterness.

Bing Guan felt a shiver down his spine and quickly said, "We're just starting out in this field. It's normal that we don't have the necessary personnel. After all, the ship hasn't been built yet. How are you going to train the crew?"

Li Goudan:"..."

"Of course...". Icecrown quickly said, "We can help you with most of the basic personnel. For example, basic sailors. There used to be a lot of fishermen here. After being strengthened, not only are their physical abilities stronger than the average aboriginal, but their water abilities are also very good. They can act as basic crew members. We only need to train some of the people inside to operate the ship. As for the chefs, doctors, and bards, we're relatively remote here. We lack talents in this field. Senior, you have a wide range of friends. I believe that with your connections, it won't be difficult for Brother Cong and the other lords to poach some talents in this field. Of course, we'll provide the points for poaching people." ... ..

Goudan puffed up his cheeks. "What about the people in charge of repairing it?"

"This is a difficult problem..."ice cap rubbed his hands together and said, "This kind of technical talent that understands machinery is very precious now. Many forces don't have enough of it themselves. It's obviously impossible to poach it through trade. We can only train it ourselves..."

"Modern training! !"Li Goudan's eyes immediately widened. "This place is filled with ancient people. Doesn't that mean that we have to start teaching them physics in junior high school?"

She had already bid farewell to her mother and thought that she would be able to go out to sea soon. From the looks of it now, when would she be able to go out to sea?

"We are considered good here...". Bing Guan said helplessly, "The population is all human. They are smart and eager to learn. My Sister has a lot of engineers who are good at making these machines. They are many times more convenient than the orcs outside. Moreover, these people have been strengthened and their learning ability is much better than ordinary people. It Won't take long for them to learn ... Of course, the prerequisite was to have a good teacher ..."

Goudan was stunned. "What do you mean?"

Ice cap said, "There's a limit to the number of developers in our base. We can't get away from them, so if we want to find someone who can help with the training, we have to recruit another developer player!"

Li Goudan said, "I..."

"Senior, don't be anxious...". "...".ice cap quickly said, "Going out to sea to explore the shipping route is a big project. We have to have sufficient equipment. The developer we recruit not only has to be responsible for teaching the crew the basic knowledge, but he also has to be on the ship. Otherwise, it's very difficult to guarantee the quality of the ship's maintenance!"

Li Goudan was stunned when he heard that. Then, he nodded. It seemed to be the case...

“Originally... I wanted to recruit people myself...”ice cap smiled and said, “But now that senior has connections with the military, I think it’s better for you to recruit people!”As he said that, he looked at Wang Ye beside him...

Wang Ye was stunned by the stare...

He was already baffled by what he heard. What population, what training, what players, and now it was about the military. What did this guy want to do?

Thinking of this, Wang Ye became more vigilant.

“Military relationship?”Goudan Li was stunned.

“Yeah...”ice cap smiled and said, “You’re from the Dragon Group, and I heard that you’re very popular. Isn’t it more reliable to recruit a high-level technical officer than us to recruit a university student?”

“Eh...”Li Goudan was stunned. He felt that it was true.

Those high-level technical officers who served in the military had experience in repairing battleships. They would definitely be able to recruit those people faster than college students.

Moreover, if the military came to teach, their management would definitely be better than that of ordinary college students!

“But if senior wants to go back to the previous world to recruit people...”Bing Guan looked at the vigilant Wang Ye and smiled. “It’s better for you to bring this person to sign a contract first...”

“HMMM... . . MAKES SENSE!”Li Goudan touched his chin and looked at Wang Ye.

Wang Ye was stared at under the heart a tight hurried way: “You... . Exactly what do you want to Do?”

-----

“hey... . Did you see that?”On a hill off the east coast, two figures stared at the harbor. . .

The man who spoke was tall and covered in a scarlet bucket. He was one of the seven legendary heroes who had become a Ghost: Bengal Gudd!

The other person was the bloody queen: Marina...

At this moment, Bengal Goode, who had always been arrogant, had a look of shock in his eyes. He muttered, “What is that? Magic? Isn’t its power a little too exaggerated?”

Marina remained silent.

They had spent more than ten days to lure these hundreds of billions of flying insects from the mutated area. They were a type of mutated flying insects. Along the way, the two of them had witnessed the destructive power of this swarm of flying insects. It was a large-scale city on the level of a Duke., under the attack of these flying insects, they were completely defenseless. In an instant, the people in the city had turned into ghastly white bones!

This was also a method they used to test the harbor.

However, they did not expect... .. Such a terrifying swarm of flying insects was annihilated in just a few seconds...

Fortunately, they did not try to attack the city of that mysterious force while their master was away. Otherwise... ..

The consequences are really unimaginable!
