

I Stayed At Home For A Century, When I Emerged I Was Invincible #Chapter 11 - Read I Stayed At Home For A Century, When I Emerged I Was Invincible Chapter 11 Chapter 11: Vice Sect Leader Of The Heretic Cult

Lu Qiang was the vice sect leader of the Chu County branch of the heretic cult in the Qin Kingdom, and his cultivation was at the third level of the spirit realm.

With his current strength, he actually did not have the qualifications to become one of the leaders of a county branch. He only earned this position because he was skilled at concealing himself.

He had once concealed himself by the side of an expert at the fifth level of the void realm for half a month without being discovered.

It was precisely due to this ability that he had managed to climb through the ranks and become the vice sect leader of the Chu County branch of the heretic cult.

The Chu family had wiped out the forces of the cult in Chu County. Facing the Chu family, which was one of the three great families of the Qin Kingdom, the cult naturally could not hold back.

They had paid a great price to have the disciples of the cult come over to the Chu family's territory to cause trouble in order to force the Chu family to withdraw some of their personnel back to their territory, which would in turn alleviate the dangerous situation the cult was facing.

In the end, the two cult disciples had disappeared without a trace, and nothing had happened in the Chu family's territory.

Faced with the mounting pressure from the Chu family, Lu Qiang had no choice but to pay a huge price once more to buy the necessary stealth equipment, after which he acted personally.

With Lu Qiang's stealth ability, coupled with the stealth equipment, it was not difficult for him to sneak into the Chu family territory.

Of course, it was absolutely impossible for him to sneak into the Chu family's ancestral residence.

There were many experts in the Chu family's ancestral residence, especially Chu Tianming, who was at the peak of the void realm, or perhaps even a half-step unity

realm expert. No matter how good his stealth ability was, he would be discovered if he got too close.

The signature ability of void realm experts was to merge their spiritual will and power with the void and, from there, control even the slightest of movements. No matter how good his stealth ability was, he could not avoid their detection.

However, Lu Qiang's purpose was only to cause trouble. He only needed to release the poisonous smoke in the Chu family's territory in order to create chaos in the Chu family and force them to bring back their experts to defend the territory. It would be enough to reduce the pressure currently faced by the cult.

The poisonous smoke he brought this time was stronger than the one brought by the two cult disciples last time, and it was even more difficult to remove.

Once it was released in the Chu family's territory, it would definitely cause a lot of damage to the Chu family.

He easily avoided the guards of the Chu family. Even spirit realm guards would not be able to discover traces of his stealth ability.

After Lu Qiang entered the Chu family's territory, the corners of his mouth curled up slightly. The Chu family was a sitting duck now, just waiting for the poisonous smoke to be released.

This was the border of the Chu family's territory. In order to create better results, Lu Qiang decided to continue sneaking further in. At the very least, he had to get close to the inner area of the Chu family's territory.

In the entire Chu family's territory, the defense of this particular section was the weakest. It would be the easiest to sneak in from here, and he would also be able to escape easily in this direction.

Lu Qiang continued to sneak further in. He did not go very far before he saw a small courtyard in the distance.

"The intelligence reports indicate that Chu Qiuluo's son was expelled from the ancestral residence. It seems that he lives in that courtyard."

Thoughts flashed through Lu Qiang's mind. He had a bold idea!

Chu Qiuluo was the peerless genius of the Chu family. He had once dominated his entire generation in the Qin Kingdom.

His son was trash though. In the end, however, he was Chu Qiuluo's son. If he died, that old ghost Chu Tianming would definitely not feel good, right?

What if Chu Qiuluo was still alive and returned to the Chu family to find out that his son had been expelled by that old ghost Chu Tianming, which resulted in his son being killed by the cult? Would he still be able to stay peacefully in the Chu family?

Perhaps, he might even fall out with that old ghost Chu Tianming.

Although Chu Qiuluo's son had been expelled, if he wanted to return to the ancestral residence, the servants would not dare to stop him, right?

Even if he could not return to the ancestral residence, releasing poisonous smoke outside the ancestral residence could still affect the Chu family's ancestral residence.

"What a good opportunity!"

Lu Qiang's eyes lit up. This was a heaven-sent opportunity!

The more he thought about it, the more excited Lu Qiang became. This was an opportunity that old ghost Chu Tianming had personally created for him!

Silently, Lu Qiang arrived at the courtyard.

However, he did not know that when he approached the courtyard, a silly and cute-looking kitten had been silently following behind him.

Lu Qiang waved his hand and a stream of spiritual power surged out. It transformed into a python and headed toward Chu Xuan's room.

Spiritual power that could be transformed into form, and that power could be controlled by one's spirit!

It was symbolic of the spirit realm!

Chu Xuan was speechless. Were these heretics crazy?

Why did they sneak in one by one, and the first thing they thought of was how to control him?

Moreover, the Chu family was too f*cking useless. They had been infiltrated once again.

When Lu Qiang approached the courtyard, Chu Xuan had already noticed it.

He left a spiritual energy body in his place, hiding his real body in a dark corner of the courtyard.

The spiritual energy body left behind by Chu Xuan was life-like, almost like a real person. Moreover, he had attached a trace of spiritual will to it.

Unless it was seen with the naked eye, it would be impossible to notice that it was not his real body.

The python formed by Lu Qiang's spiritual power quickly tied up Chu Xuan's spiritual energy body.

"Chu Qiuluo's son really is trash!"

Lu Qiang sighed endlessly.

He was afraid that this was a bait, so he used his transformed spiritual power to tie Chu Xuan up.

The spiritual power python returned.

Lu Qiang suddenly felt that something was wrong.

Chu Xuan's body seemed to be somewhat abnormal.

Although there were still spiritual will fluctuations, why did that body not look like a flesh and blood body?

Not good!

The alarm bells in Lu Qiang's heart rang wildly. That was not his real body, but a body formed from spiritual power!

It was actually bait!

That old ghost Chu Tianming was indeed treacherous!

He was careless!

No matter what, he was still Chu Qiuluo's son. No matter how useless he was, how could that old ghost Chu Tianming not have any protective measures in place at all?

Lu Qiang's figure retreated explosively. He was about to escape from the courtyard and release poisonous smoke simultaneously.

Pa!

Suddenly, his shoulder sank!

A furry thing suddenly jumped onto his shoulder. There was no warning or sound; he did not even have the chance to dodge at all.

Lu Qiang's scalp turned numb and cold sweat kept pouring down his forehead.

At the critical moment, the spiritual power in his whole body was about to shock the thing on his shoulder to death.

Pa Pa Pa Pa!

His spiritual power dissipated, and his face and head were hit countless times in an instant.

He only felt a small, fleshy paw slapping his face and head at an extremely fast speed.

His face was swollen, and his vision seemed to be spinning in circles.

His head was dizzy, and his spiritual will was trembling. His vision was also gradually turning blurry!

He was going to lose consciousness!

Lu Qiang wanted to put up a desperate final struggle, but it was useless. The moment he fell, he knew that he had fallen for good!

Chu Xuan walked out and looked at Lu Qiang, who was lying on the ground. A mere third-level spirit realm cultivator dared to come and try to deal with him? He was courting death.

The cat easily took him down.

Looking at the cute cat, Chu Xuan could not help but sigh. This cat's small claws were really fast.

It moved and left a series of afterimages. Lu Qiang did not even have the slightest ability to resist before he fell.

This too was because the cat's claws had shown mercy.

The cat had landed on his shoulder. It would be strange if he did not fall.

Looking at Lu Qiang, who was lying on the ground, Chu Xuan frowned. What should he do?

Hand him over to the Chu family?

There was a risk of exposing himself that way.

In that case, it was better to kill him.

The spirit-devouring flower sneakily moved over. The flower poked out and prodded Lu Qiang's fallen body, indicating that it wanted to swallow him.

"Swallow him."

Chu Xuan nodded.

The spirit-devouring flower was very happy. Its roots climbed up over his body and soon, it had swallowed Lu Qiang.

Lu Qiang, the vice sect leader of the heretic cult, who was in charge of Chu County, left peacefully.

"Take a look at his memories."

Chu Xuan instructed the Spirit Devouring Flower to retrieve Lu Qiang's memories and show them to him.

Lu Qiang was the vice sect leader of the heretic cult in Chu County?

His status was not low.

It was just that he was a little weak.

As for his stealth ability, it was useless to Chu Xuan.

He had brought poisonous smoke to wreak havoc again. Was this all the cult could do?

Chapter 12: Soul Seed Seal

"You killed a heretic who tried to destroy your secluded lifestyle. You've been rewarded with a soul seed seal!"

The system's voice rang out as Chu Xuan took out the soul seed seal.

The soul seed seal could plant a soul seal on the enemy's spiritual will or soul. Once a soul seal was planted, the enemy's life or death would be in Chu Xuan's hands. Furthermore, he could force the person to act according to his own spiritual will, and they would be unable to resist or disobey.

The most terrifying thing was that, even though the controlled person was clearly conscious and had a clear mind, he would be unable to go against his will.

If the controlled person was asked to kill the person he loved the most, he would still be unable to resist the order. However, the controlled person still maintained their mental clarity. This would definitely be the most terrifying torture for the controlled person.

The soul seed seal could be considered an extremely terrifying secret technique. That small seal was the foundation of the soul seed seal. It was not a treasure or divine weapon.

It was an evolution of a secret technique.

The system directly rewarded him with it, so Chu Xuan did not need to painstakingly cultivate it in order to create it.

Chu Xuan was overjoyed. With the soul seed seal, he could control the heretics who wanted to harm him, and he could also control the heretics to fight against each other.

Once the soul seed seal was planted, the controlled person's would still be conscious, and their mental clarity would still be present. However, they would not be able to betray or act against the will of the controller.

If Chu Xuan forcefully controlled their will to kill the other heretics, this would undoubtedly result in great chaos among the heretic cult.

After all, the heretics kept looking for him again and again. Chu Xuan's heart also felt pressured.

Lu Qiang's strength was not worth mentioning, but what if the heretic cult sent a void realm expert the next time?

He would definitely not be able to kill him silently. He would only be able to alert the experts of the Chu family. If that was the case, he would be exposed. How could he secretly become stronger then?

In a worst-case scenario, what if the evil imperial court sent experts over as well?

Therefore, he had to increase his strength as soon as possible.

If he did not enter the emperor realm, he would not feel safe.

Even if he was at the emperor realm, he would not be safe in this vast world where there were countless experts.

Of course, if he reached the emperor realm, he would at least be very safe in the Southern Region.

It was rumored that there were no emperor realm experts in the Southern Region!

Quietly, the evil cult's plan to disrupt and destroy the Chu family's territory disintegrated.

The Chu family knew nothing about it.

After destroying the cult's plot, Chu Xuan remained low-key. The main focus of the Chu family was on eliminating the cult.

The direct descendants of the Chu family seemed to have forgotten about his existence.

The battle with the cult became more and more intense. Even the servants who delivered his food had heard a lot of news.

Chu Xuan could only hope that the evil imperial court would not send over any experts to attack.

Just the power of the evil cult itself was not enough to shake the Chu family.

In the entire Southern Region, the Chu family was indeed nothing but, in the Qin Kingdom, they were one of the three great aristocratic families, and their strength was not weak either.

Chu Xuan had been staying in seclusion for four months now.

"You have stayed in seclusion for four months. You have been rewarded with a sword control technique."

The reward for four months of seclusion was a sword control technique, and the grade of the technique was the emperor-level.

Chu Xuan's strength had risen to the seventh level of the spirit realm, and his speed of cultivation was so fast that it would make the elites of the world cry, and make the saints weep!

The cat's strength had also increased a little, and it was now at the fifth level of the spirit realm.

As for the spirit devouring flower, after swallowing Lu Qiang, it also ate great spirit pills every day, so its growth was not slow either.

Although it still looked like a small tree, once its true form was revealed, it would be up to two to three hundred meters tall.

In a cave in Chu County, a few people exuding evil auras gathered. The person in the lead wore a black mask. He was skinny and had gray hair. He sat at the head of the group without saying a word.

“What happened to Lu Qiang? Why haven’t there been any movements?”

A man with a scar on his face asked.

“Was he discovered and killed by the Chu family?”

In the group, a woman with an enchanting figure and a colorful face frowned.

“Impossible, there were no signs of battle in the Chu family’s territory.”

Some people denied the possibility.

“Then what happened? Did Lu Qiang not make a move? Did he betray us?”

“Impossible. Who would accept a member of our cult? Betrayal won’t result in a good ending.”

“Perhaps Lu Qiang is waiting for an opportunity to release the poisonous smoke into the core area of the Chu family’s territory?”

The higher-ups of the cultists’ Chu County branch were discussing the possibilities animatedly.

“Leader, the Chu family has gone too far. We should report this to the imperial court and have them send experts over.”

“Do we have to trouble the imperial court over the mere matter of the Chu family? Aren’t we useless in that case? Why would the imperial court take us seriously?”

The masked man in the leader’s seat pressed his hands together and said, “The Chu family has indeed gone too far. Tell Lu Qiang to stop waiting for an opportunity and to act immediately.”

“Chu Qing, the heaven’s blessed of this generation of the Chu family, is in charge of this operation against our cult. That old ghost Chu Tianming wants to use our cult to train his juniors, but I don’t know what that old ghost will do if Chu Qing dies.”

“Spread the word and locate Chu Qing’s position. I will personally take his dog life!”

“Yes, Cult Leader!”

A group of cult experts left the cave one after another.

One of them began to think of a way to contact Lu Qiang.

He took out a bead and crushed it.

This was a signal. Once the bead was crushed, the bead on Lu Qiang's body would also be crushed. This meant that he would have to act immediately.

The bead was a one-way communication device. If the bead in Lu Qiang's hand was crushed, the original corresponding bead would not be crushed.

Therefore, he did not know that Lu Qiang had already turned into a cold corpse.

Three days later, the cult experts gathered again in the cave again.

At first, there was a period of silence.

"Lu Qiang may have died."

The Chu family was calm and peaceful. There were no movements at all.

During these three days, the Chu family somehow obtained information and attacked a hidden base of the cult.

Another void realm elder had died.

The cult had suffered heavy losses.

There were only so many void realm experts in the branch of the cult in the entire Chu County, yet two of them had already died.

To the cult in Chu County, it was as if their bones and tendons had been ripped from them.

Apart from Chu County, the imperial family of the Qin Kingdom had also attacked aggressively and killed a void realm elder of the cult.

The Zhao family and the He family did not show any weakness either and also killed a void realm elder.

The Great Zhou and Purple Moon kingdoms, which had obtained information from the Qin Kingdom, also launched an operation to wipe out the heretic cult and weed out the originally hidden heretic cult spies.

They lost three void realm elders.

All of this was because of the Chu family.

The hidden techniques and methods of the heretic cult were also discovered and revealed by the Chu family, destroying the heretic cult's many years of planning.

How despicable!

“Since the Chu family has discovered the hidden techniques and methods of our cult, it would naturally not be easy for Lu Qiang to sneak in. Let’s forget about the Chu family for the time being and force the He family to gather their experts back to defend.”

In the end, the cult decided to destroy the He family’s territory and force the He family to withdraw their experts back to their territory, making sure that the experts of the He Family could not come to the support of Chu County.

“When the imperial court arrives, we must destroy the Chu family first. How utterly despicable they’ve been!”

A cult expert said hatefully.

...

Chu Xuan heard a piece of news that shook the Qin Kingdom.

After the servant delivered the food each day, Chu Xuan would ask for news about the club.

He actually found out that, just a day ago, the He family’s territory had been infiltrated by the cult experts, who released poisonous smoke and fire.

One-third of the family’s territory had been destroyed, especially the medicinal herbs in one of the spirit fields, wherein almost all of the herbs had been destroyed. It could be said that they had suffered heavy losses.

Hundreds of servants had been killed or injured, and several spirit realm guards had died.

Chapter 13: Heaven’s Fate Saber Scripture, Extreme Dao Technique

The He family had already recalled their experts to their family’s territory, and were doing their best to eliminate the poisonous smoke and fire. However, even if they successfully did so, that portion of the territory would still be affected to a certain extent.

Once news of this matter was out, the Zhao clan also gathered their experts to defend their territory.

Even the royal family of the Qin Kingdom also recalled many experts to guard their important defensive locations.

The Chu family also recalled a portion of their experts, and the defenses around the family's territory were once again strengthened.

As the person who initiated this purge of the heretic cult, and the one who had also destroyed the cult's long-held plans, Chu Tianming knew very well that the Chu family must have already become a thorn in the flesh of the heretic cult.

What he was puzzled about was why the heretic cult had chosen to act upon the He family first?

After the He family suffered that blow, it would be several times more difficult for the cult to launch a surprise attack on the Chu family.

Were the cultists out of their minds?

Chu Xuan could not help but mourn for the He family. The cult had attacked the Chu family again and again, but were foiled by him time and time again, resulting in them switching their target to the He family.

However, the purge of the heretic cult would continue. The He family would not give up after suffering such a big loss.

Although the family had recalled some of the stronger experts to defend the territory, they sent out a seventh-level void realm expert to pursue and kill the experts of the heretic cult.

A seventh-level void realm expert was already considered to be a peak expert in the Qin Kingdom.

For a period of time in the future, there would be no more cultists trying to sneak into the territory.

Every day, Chu Xuan would hear news about the cult from the servants.

The forces of the cult in Chu County had lost at least 60% of their overall strength.

They had suffered an unprecedented major blow.

Chu Tianming was becoming more and more satisfied with Chu Qing, and it was almost certain that he would become the next patriarch of the Chu family.

Half a year!

Chu Xuan had been residing in the courtyard for half a year.

For half a year, he had not left the courtyard. Every day, he would either read a book, play with the cat, or sleep soundly. His days passed very comfortably.

Boring?

Such a word did not exist in his dictionary.

Whenever he thought about the dangers outside, and the fact that he could become stronger by staying indoors, he felt that there was no way he could think of such a wonderful thing as boring.

His cultivation had broken through to the void realm.

Chu Xuan transformed his spiritual will and spiritual power and spread them over a hundred-meter radius around the courtyard.

Within this area, not even the slightest movement could escape his notice.

Moreover, he could silently launch an attack on anyone who stepped into this area.

The hallmark of a void realm expert was the ability to merge one's spiritual will and spiritual power with the void, almost as if merging one's entire person into the void.

On the other hand, the hallmark of the unity realm was the merging of spiritual will and spiritual power into both the void and reality. After merging them into one, one would be considered to have reached the unity realm.

In half a year's time, he had cultivated from the mortal realm to the void realm at an unprecedented speed.

Now that he was at the void realm, Chu Xuan finally felt that he had some ability to protect himself in the Qin Kingdom.

With the various rewards he had obtained, he was not afraid of facing even a peak void realm expert.

What he cultivated was an emperor-level scripture!

"You have been in seclusion for half a year. Your reward is the Heaven's Fate Saber scripture. Keep up the good work and continue to explore the pleasures of seclusion."

The reward for his half a year period of seclusion had arrived.

The Heaven's Fate Saber scripture was an Extreme Dao technique.

In terms of grade, it surpassed the emperor-level scripture.

However, as it was an Extreme Dao technique, its grade was a little hard to define.

Extreme Dao techniques focused on cultivating one's Dao to the limits, or to the extreme so to speak.

The Extreme Dao was best represented by the word 'extreme'!

To cultivate an Extreme Dao technique was actually very demanding. It was not something that could be successfully cultivated simply because one was talented.

Chu Xuan was not a person who could cultivate an Extreme Dao technique. However, after he received the Heaven's Fate Saber scripture, he naturally comprehended it thanks to the help of the system.

However, he could not be considered a cultivator of the Extreme Dao technique.

The Heaven's Fate Saber scripture was the Extreme Dao that focused on cultivating the saber!

The Extreme Dao had no end, and was only limited by the person cultivating it!

This was a sentence from the Heaven's Fate Saber scripture. As such, this saber scripture did not have a specific rank.

Only those that possessed emperor-level talent could cultivate to the emperor realm, and that was using the emperor-level scripture!

Likewise, those who wanted to cultivate to the heaven realm required heaven-level scriptures!

The rank of the Heaven's Fate Saber scripture depended on the person who cultivated it!

If one wanted to cultivate the Heaven's Fate Saber scripture, one could not depend on one's talent.

There was only one sentence that described the requirement to cultivate this scripture, which was "Extreme affection would lead one to the Extreme Dao"!

The word "affection" here did not describe the affection between a man and a woman, nor the affection between family members, but rather one's affection for the saber.

Only those who were extremely fond of the saber could cultivate the Heaven's Fate Saber scripture and comprehend its profound meaning.

Chu Xuan was not extremely fond of the saber, so he was not actually suitable to cultivate the Heaven's Fate Saber scripture.

However, thanks to the system, he did not need extreme affection for the saber in order to be able to comprehend and cultivate the scripture.

After cultivating the Heaven's Fate Saber scripture, Chu Xuan was shocked by the might of this Extreme Dao technique.

He felt that, with his current strength of the first-level of the void realm, if he were to exert his full strength with a saber strike, he might even be able to kill a martial artist at the first-level of the unity realm.

This was a technique that would allow him to kill an enemy that was an entire major realm higher than his. It was truly terrifying!

Of course, that was only if he could successfully pull off the saber strike!

However, with this saber strike, it was not an exaggeration to say that he might be the number one expert of the Chu family now.

The cult had suffered a heavy setback in the Qin Kingdom and had not made any big moves recently.

Unless the evil imperial court made a move, the cult would not be able to stir up any waves for the time being.

Chu Xuan continued to stay in the courtyard. He had already broken through from the mortal realm to the void realm in half a year. He was waiting for the reward he would receive for a year's worth of seclusion.

Chu Xuan did not think it would be a big problem for him to break through from the mortal realm to the truth realm in a year's time.

On this day, Chu Xuan was lying on a chair. The cat was sitting on his lap. One of his hands was rubbing the cat's head, while the other hand was holding a book aloft.

Suddenly, a woman's voice was heard.

"Brother Seventh, you're really a bad guy. Get your hands off me!"

"We're not married yet, so stay away from me."

Chu Xuan had a strange expression on his face. Who was it?

Did they not know that he lived in this courtyard?

His spiritual will spread out. In a small forest not far from the courtyard, a man was pressing a woman against a tree trunk.

His hands were acting very disobediently.

Was that Old Seventh?

It was said that the Old Seventh of the current generation of the Chu family was going to be married to He Weiwei of the He family.

So, that delicate and pretty woman was He Weiwei of the He family?

“Weiwei, getting married is something that will happen sooner or later. Some things don’t have to wait till marriage.”

Old Seventh’s voice was gentle, as if he was deceiving an ignorant girl.

“Don’t you understand how I feel? I won’t disappoint you. Even if I wanted to, the Chu and He families wouldn’t let me. I don’t want my legs to be broken.”

“But, but, it’s not good to be doing such a thing in a small forest, right?”

“Don’t you think it’s more exciting to do this in a small forest?”

Chu Xuan’s face darkened when he heard that. Old Seventh had the potential to be a scumbag.

Could it be that he did not know that he lived inside the small courtyard?

He actually came here to fool around!

Among the younger generation, Old Seventh’s temper was quite bad. His relationship with Chu Xuan could not be said to be very good, but it was not bad either. It was considered a normal cousinly relationship.

“But what if someone sees us?”

He Weiwei’s face was flushed red as she said shyly.

That look of wanting to reject him but still welcoming him made Chu Xuan speechless.

Miss, you are full of expectations!

“Don’t worry, no one will see us. I’ve already made the necessary preparations.”

Old Seventh took out a roll of red silk. "Look, we'll use this red silk to wrap ourselves like a cocoon so that no one will see us. I've also given instructions so that no one is allowed to come near this place."

"It's still not good enough. I... I don't have any experience. I'm afraid."

Chu Xuan could not bear to watch any longer. Miss, how was there any fear in your eyes that were full of anticipation?

He was almost sure that these two people had done this more than once

Chapter 14: Stimulation

"I don't have any experience either. But it's precisely because I don't have any experience that it's so exciting."

The smile on Old Seventh's face gradually became lascivious.

He raised his hand and waved it. The red silk unfolded itself, ready to form a large cocoon that would wrap the two inside it to play some exciting games.

Chu Xuan could not stand it anymore.

He did not even have a maid, yet Old Seventh was actually trying to provoke him right under his nose. Was this not deliberately provoking him?

Thinking about how he was alone in the courtyard, without even a maid to serve, Chu Xuan sighed. After all, he was the young master of an aristocratic family.

This level of treatment was too poor.

With a delicate maid around, he would not have to lift a finger. At the very least, she would be pleasing to the eye.

Focusing his spiritual will, a thin tree branch floated up off the ground.

Pa!

It fiercely smacked Old Seventh's buttocks.

Given that Old Seventh's strength was only at the second level of the profound stage, how could he discover Chu Xuan's spiritual will?

“Ao!”

Old Seventh's hands were still acting dishonestly when his buttocks were suddenly attacked. He was so frightened that he trembled and cried out in pain.

“What's wrong?”

He Weiwei asked nervously.

“Someone hit me!”

Old Seventh gritted his teeth and said.

“There's no one around.”

He Wei Wei said in puzzlement.

Old Seventh rubbed his buttocks and spread his spiritual will out, but did not discover anyone.

Then, he thought of something and looked at He Weiwei with a strange smile. “Is that so? You're really bad. Let's see how your husband will deal with you!”

Baring his fangs and brandishing his claws, he threw He Weiwei to the ground.

Chu Xuan's face turned black as he raised the branch again.

Pa!

He gave Old Seventh a hard smack once again.

Old Seventh grunted. “Beating is a kiss, scolding is love. Weiwei, your husband will not back down.”

This bastard, could it be that he had some unspeakable tendencies?

Chu Xuan was speechless.

Smack smack smack!

He slapped Old Seventh several times consecutively, but that fellow cried out in pain as he continued to prepare to pull off He Weiwei's clothes.

He Weiwei's pretty face was flushed red, and she was extremely nervous.

She saw a stick smacking Old Seventh.

The Chu family's ancestors must have seen them.

I'm going to die! I'm going to die!

She was an innocent girl. Faced with such a situation, she would definitely resist.

Otherwise, would she not leave a bad impression on the Chu family's ancestors?

He Weiwei started to struggle.

"No, Brother Seventh, don't be like this. Let me go!"

"Scream, go ahead and scream. No one will hear you even if you scream until your throat is dry."

Old Seventh's blood was boiling. It was all too exciting.

Weiwei was indeed a good match for him. She was being too cooperative!

Chu Xuan was about to vomit blood.

For real! This b*stard Old Seventh must truly have some unspeakable tendencies.

Moreover, looking at his appearance, it should not be the first time the two of them had fooled around like this!

F*ck, they really were a perfect match for each other!

If he did not stop them, he would soon have to bear witness to the whole thing.

Chu Xuan used his spiritual will to pick up a thicker branch and poked Old Seventh's butt!

"Ao!"

Old Seventh jumped up a few meters, covered his butt, and stared at He Weiwei.

"Weiwei, you've gone too far. You actually poked me there. I was almost scared sh*tless!"

He Weiwei hurriedly tidied up her messy clothes. Her eyes were aggrieved, and she looked at him weakly.

"It wasn't me. It's... It's a senior from the Chu family!"

Old Seventh's expression froze. He gulped and said nervously, "Weiwei, was it really not you?"

"It wasn't me!"

He Weiwei lowered her head.

Old Seventh laughed dryly and looked around. "Which uncle is present? I was just joking with Weiwei."

It was too awkward!

"I... I'm going back."

He Weiwei blushed and hurriedly left.

Seeing no elders appear, Old Seventh smiled awkwardly and prepared to leave.

F*ck! It was too f*cking awkward to have been seen acting like that in front of an elder.

Fortunately, he was thick-skinned enough.

When he left the small forest, he saw a small courtyard in the distance.

He ran over and asked, "Thirteenth, are you there?"

When he pushed open the door, he saw Chu Xuan sitting on the reclining chair leisurely.

"Thirteenth, do you want to go back to the ancestral residence? I'll go and plead for you if that's the case."

"No need. I'm living quite well here."

"You're too much. Work harder. As long as you break through to the profound realm, grandfather won't be angry with you anymore."

As Old Seventh said this, he looked around the courtyard and asked in a slightly lowered voice, "Thirteenth, which uncle visited just now?"

He did not suspect Chu Xuan at all. In his eyes, Chu Xuan, who was supposedly at the mortal realm, would not even be able to sense any movements happening in the small forest.

"No idea."

Chu Xuan shook his head.

Old Seventh walked around the yard and sighed, "Thirteen, aren't you lonely?"

"It's difficult for you to stay in the courtyard all alone. Why don't I find two maids to accompany you?"

Chu Xuan was a little tempted when he heard his offer, but he immediately shook his head and refused.

"There's no need. I'm living free and unfettered by myself."

"Sigh, thirteenth, you just don't know how to have fun. Look at the surrounding environment. The trees are lush and verdant, and it can be quite interesting there late at night."

Old Seventh clicked his tongue.

"Old Seventh, you're very experienced?"

"A little, just a little. I don't have too much experience. I've just played around a few dozen times."

"Alone?"

Chu Xuan asked after holding back for a long time.

"How boring would it be to do so alone."

This was a f*cking Sea King!

He Weiwei could not be a Sea Queen, right? If she was, the two of them were a perfect match.

After chatting for a while, Chu Xuan asked about the cult.

The food delivery servant naturally would not know too much information. As a direct descendant, Old Seventh would naturally know more about the matter.

The heretic cult had suffered heavy setbacks and, after they went into hiding, their guerilla-style warfare caused quite a bit of damage to the Chu family.

This was especially true half a month ago, where a void realm Chu family elder had actually been surrounded and killed.

The reason why they had successfully surrounded and besieged that elder was because the heretic cult had paid a huge price to purchase the traces of that family elder's location from the Black Moon Tower, and had set up an ambush in advance.

Black Moon Tower was the most mysterious force in the Southern Region. As long as one could afford the price, they could buy any piece of intelligence, commission any mission, and buy any treasure from Black Moon Tower.

Even if the Chu family knew that the Black Moon Tower leaked the whereabouts of the family elder, causing him to be surrounded and killed by the cult's experts, they still did not dare to make a move against Black Moon Tower.

Black Moon Tower was too powerful and too mysterious.

Moreover, the Chu family would also obtain the resources they needed from Black Moon Tower from time to time.

To purchase the information regarding their Chu family elder, the cultists would have had to pay a huge price. Black Moon Tower had always been black-hearted, and their prices were equally as outrageous.

The Chu family had also wanted to purchase information on the cult, but their asking price was too high. It was not worth paying at all. Otherwise, they would have long exterminated the cult.

Black Moon Tower seemed to be deliberately raising the price to maintain the situation between the different parties in the conflict.

If one side was completely victorious, how could Black Moon Tower continue to obtain profits?

In fact, in some chaotic places, or in some battles, there were traces of Black Moon Tower adding fuel to the fire.

Everyone knew that Black Moon Tower was evil, but because it was too mysterious and powerful, it had spread its wings throughout the entire Southern Region. No one knew where their headquarters were.

No force or dynasty dared to try and destroy Black Moon Tower.

In history, a powerful dynasty had destroyed traces of Black Moon Tower within its own territory but, in less than half a month, that powerful dynasty had been wiped from the face of the continent.

In addition, Black Moon Tower was rebuilt soon after.

Chapter 15: Minor Five Elements Array Formation And Thousand Threads Spirit Net

Since the Chu family elder had been ambushed and killed, most of the direct descendants of the Chu family had returned to the ancestral residence.

This was to prevent the cult from paying to purchase more information from Black Moon Tower and assassinating the direct descendants of the Chu family.

At the same time, the royal family of the Qin Kingdom, along with the three great aristocratic families, were willing to pay a certain price to negotiate with Black Moon Tower to request that they not accept commissions from the cult in the near future.

The main clients of Black Moon Tower here were the royal family of the Qin Kingdom and the three great aristocratic families, so they agreed. However, frankly speaking, if the price paid by the heretic cult was great enough, Black Moon Tower would still accept the commission anyway.

The purge of the heretic cult was still ongoing.

Chu Xuan tactfully expressed his concern about the evil imperial court.

The news he received was that the Qin Kingdom had already entrusted Black Moon Tower with the task of paying attention to the movements of the evil imperial court. Once the evil Imperial court sent over an expert attack, they would immediately obtain the necessary information.

Since the Qin Kingdom had a plan to deal with it, Chu Xuan did not need to worry about the sudden attack of the evil imperial court.

The evil imperial court had many enemies. Once an expert was sent out, even if the Qin country could not defeat that expert, they could still request for help.

What Chu Xuan was more worried about was the fact that Black Moon Tower was a black-hearted organization. After taking the Qin Kingdom's money, they would most likely approach the evil imperial court to obtain even greater benefits.

Old Seventh returned to the ancestral residence.

Chu Xuan continued to leisurely stay in the courtyard.

Chu Tianming seemed to have forgotten about him.

Besides the servants that delivered the food everyday, no one else came.

By the seventh month, Chu Xuan's cultivation had risen to the third level of the void realm.

Every day, he ate a spiritual pill, and his cultivation speed soared.

The Heavenly Spirit Cat already had the strength of the ninth-level spirit realm expert.

Its speed was not the slightest bit slow. After all, it was a mystical beast of Heaven and Earth, and it did not lack spiritual pills to feed on, so its strength naturally progressed rapidly.

"You have been in seclusion for seven months. You've been rewarded with a minor five elements array formation and an array disk."

It was an array formation this time?

Chu Xuan was pleasantly surprised.

He knew that array formations were very rare in the Southern Region. Those who could set up array formations were all truth realm experts.

Not to mention that an array disk had to be refined by an emperor realm expert.

According to Chu Xuan's understanding, this situation was probably because the Southern Region was too backward.

After receiving the array formation and the array disk, Chu Xuan grasped the method to set up the minor five elements array formation as well as the method to refine the array disk.

He realized that he did not need to be at the truth realm either. He could also set up and refine the array disk with his current cultivation level.

Of course, the lower his cultivation level was, the weaker the array formation he set up would be, including the array disk he refined.

Therefore, the reason why the Southern Region lacked the Dao of array formations was because the region was too backward, or perhaps because the region had lost the inheritance of array formations?

On the array disk, there were five small flags representing the five elements of metal, wood, water, fire, and earth.

Chu Xuan set up the array formation to encompass the small courtyard.

Without activating the formation, the small courtyard still appeared ordinary. However, if the formation was activated, Chu Xuan was confident that even a unity realm cultivator could be trapped inside...

Or even killed.

Chu Xuan became more confident. As long as the person who came was not at or above the fourth level of the unity realm, he had nothing to fear.

In the entire Qin Kingdom, it seemed that only the royal family had a martial artist who was at the first level of the unity realm.

This was also the reason why the Qin royal family could suppress the three aristocratic families.

Given that the Qin Kingdom was considered weak in the Southern Region the fact that they were able to stand strong for such a long time also meant that the region where the Qin Kingdom was located was relatively barren and stable.

Most likely, the evil imperial court did not think much of the Qin Kingdom.

It had been seven months, and the end of the year was inching ever closer.

Chu Xuan was filled with anticipation.

The reward for staying in seclusion for a year would definitely surpass the emperor-level scripture he had received previously.

Above the emperor realm were the venerated realm, the heaven realm, and so on.

In the Southern Region, the emperor realm was already a fabled existence, and the realms above the emperor realm were the stuff of legends.

The cultivation method above the emperor-level scripture was the heaven-level scripture, which was a cultivation method that could be cultivated up to the heaven realm.

Not to mention the Southern Region, even throughout this vast world, heaven realm experts were definitely top-notch existences.

Chu Xuan estimated that the minimum reward for a year of seclusion would at least be at the level of a heaven-level scripture, right?

There were still a few days before the eighth month. Suddenly, a piece of news that shocked the entire Chu family arrived.

Chu Qing had encountered three elders of the heretic cult, including one of the vice sect leaders, and had been attacked.

Despite being under the protection of one of the Chu family's elders, he was still heavily injured.

A third-level void realm elder of the Chu family had fallen!

"These b*stards!" Chu Tianming was enraged.

Chu Xuan could hear Chu Tianming's enraged roar even from the small courtyard.

Chu Qing was someone he had specially groomed to succeed the role of family patriarch.

He had performed extremely well during the operation to eradicate the cult.

Once Chu Qing matured, not only would he be able to stabilize the position and status of the Chu family, he would even be able to bring the family to a higher level.

When Chu Qing had been surrounded and attacked, the first thing that came to everyone's mind was whether the information had been sold by Black Moon Tower.

When this happened, the people around Chu Qing were all investigated to see if there were any spies of Black Moon Tower present among them.

Since they could not do anything to the Black Moon Tower, they could at least kill a few spies?

Chu Tianming left the ancestral residence with a treasured artifact and personally attacked the cult.

He did not bring the family's treasured artifact out. After all, that was needed to guard the ancestral residence.

After Chu Tianming's departure, the Chu family strengthened their defenses yet again.

In fact, there were even void realm elders patrolling the area.

Chu Qing had been heavily injured and Chu Yun, who was also a heaven's blessed of the Chu family and doted on by Chu Tianming, might very well become the cult's next target.

Chu Xuan could not help but worry about Chu Yun.

Chu Tianming personally took action. At this moment, in the eyes of outsiders, the Chu family's territory was definitely in its most vulnerable state.

Chu Xuan even suspected that it had all been a trick by the cultists to lure the tiger away from the mountain.

However, Chu Tianming was not so stupid. Since he dared to leave the ancestral residence, it meant that the Chu family had an expert of the same level as him guarding it.

For the Chu family to be able to stand strong for such a long time, it had to have its own foundation. Chu Xuan, however, could not come into contact with such information.

Chu Xuan raised his vigilance. Since Chu Tianming had left the Chu family's territory, it was very likely that the experts from the cult would come again.

At night, Chu Xuan would activate the minor five elements array formation. There did not seem to be anything unusual in the courtyard, but once someone stepped in, they would be trapped inside.

With the minor five elements array formation, even if there was a battle, he could ensure that the noise and fluctuations from the fight would not spread out.

This would prevent the scenario of his strength being exposed due to the battle.

After Chu Tianming left, the servants would not naturally not know what was going on with the cult, so Chu Xuan was unaware of how the matter was progressing.

"You've been in seclusion for eight months. You've been rewarded with a thousand threads spirit net."

The reward for eight months of seclusion finally came. It was actually an emperor-level artifact. Even though it was a low-level emperor artifact, it was far from being comparable to a treasured artifact.

The thousand threads spirit net was not an offensive-type emperor artifact, nor was it a defensive-type. Instead, it was a binding and sealing-type emperor artifact.

With the emperor-level artifact in hand, Chu Xuan's confidence increased. Even if a seventh-level unity realm expert attacked, relying on the minor five elements array formation and the thousand threads spirit net was enough to make the other party suffer a serious setback.

Although the consumption of using an emperor artifact was extremely large, Chu Xuan had cultivated the emperor-level scripture, and his spiritual will had already surpassed

the void realm, and was comparable to a first or second-level unity realm martial artist. Activating the thousand threads spirit net once would not be a big problem for him.

As long as he managed to trap his enemy inside the thousand threads spirit net, unless the other party also had an emperor artifact, they would not be able to escape.

Given enough time to recover his spiritual power and will, killing the enemy would naturally not be a problem.

Another few days passed uneventfully.

On this night, two figures that were practically completely merged into the darkness silently entered the Chu family's territory.

A man and a woman had arrived, and their cultivations were both at the second-level of the void realm, and they were both elder-level experts of the cult.

The woman's figure was enchanting, and her face looked rather unusual.

Zhu Yan and Zhu Qiang had received orders to put on the illusion equipment they had spent a great price to obtain, and to conceal themselves in the Chu family's territory.

Soon, they arrived not far from Chu Xuan's small courtyard.

"Is the son of Chu Qiuluo living there?"

"Yes."

Zhu Yan looked at the small courtyard and suddenly had a perverted thought.
