

Read I Have A City In An Alternate World Chapter 2451 - 2451 Take revenge on the spot (1)

2451 Take revenge on the spot (1)

Although the battlefield was chaotic, the scene of the red-armored general being violently killed still attracted the attention of the cultivators.

Compared to ordinary corpse soldiers, the red-armored General's level was higher, and the reward for killing it was higher.

It wasn't too much to say that one of them was equivalent to a hundred.

While the cultivators of loucheng city were fighting the ordinary monsters, they always paid some attention to the high-level monsters like the red-armored general.

Everyone was monitoring each other. No one wanted others to take advantage of them, so they only attacked after clearing the monsters.

Otherwise, it would be too risky to deal with both big and small monsters.

Who would have thought that someone else would beat them to it before they could even make a move? as they looked at the general in red armor, who had turned into a pile of rotten meat, the depression in their hearts went without saying.

He looked in the direction of the dancing energy and saw Tang Zhen raising his gun and locking onto the next monster on the gatehouse not far away.

"So it was him!"

Seeing this, the leader of the bat cultivators felt very uncomfortable. He always felt that if their companions sacrificed themselves, then the benefits should go to him.

As for the benefits of the sacrifice of their companions to the other cultivators, the bat cultivators didn't need to consider it at all.

Perhaps it was because they were used to being domineering in the past, and now that they had the advantage in numbers, their performance was very high-profile and arrogant.

Even if he caused public anger, he didn't care.

In the eyes of the bat cultivator leader, Tang Zhen killing the Scarlet-armored general was equivalent to snatching his own benefits.

The leader of the bat cultivators sneered when he thought of how Tang Zhen was alone. His eyes immediately turned sharp.

As for the other cultivators, they only took a glance and ignored them. Instead, they continued to fight the corpse monsters.

Since they had chosen to fight for themselves, then how many monsters they killed would depend on their own abilities. It was very normal for Tang Zhen to fight for it. He had no obligation to leave the benefits to others.

However, at this moment, the crisp sound of a gunshot rang out again, causing the hearts of the cultivators to tremble.

He looked around and saw that another leader-level zombie had been killed, and it was lying limply on the ground.

Looking at the squirming pile of rotten meat, the cultivators of Lou Cheng's mouth twitched slightly. They secretly thought that if this continued, all the big monsters would be snatched away by Tang Zhen.

After the battle ended, Tang Zhen's level might not completely crush them, but he would definitely surpass them by a large margin.

we must stop him. Otherwise, all the benefits will be taken away by him!

The cold light in the eyes of the leader of the bat cultivators became more and more intense. He quietly made a hand gesture to his companion beside him, and the other party immediately understood his intention.

The ball was extremely fast and hit the gate in the blink of an eye.

“BOOM!”

A ball of violent flames exploded, completely enveloping the gatehouse and swallowing Tang Zhen into a sea of fire.

The battle had just begun, and the bat cultivator and his group couldn't hold back and attacked their competitors.

This sudden turn of events stunned the cultivators of Lou Cheng. They looked at the gatehouse that was engulfed by the flames and then at the bat cultivator and the others.

Their eyes flickered with a hint of danger and vigilance.

Faced with the cold gazes of the cultivators, the leader of the bat cultivators chuckled and continued to say in that unmatching rough voice, "I'm sorry, it was just a mistake. Please don't take offense."

He spoke casually as if he didn't know that there was a cultivator in the burning gatehouse.

"bah, you shameless and despicable fellow!"

Some cultivators cursed coldly. They weren't feeling indignant for Tang Zhen, but they were worried that they would be ambushed by the bat cultivator and the others.

He had to be careful at all times when he was with such unscrupulous people to avoid being plotted against.

The most important point was that what the bat cultivator and the others were doing was very dangerous. It was equivalent to breaking the last bottom line and opening the prologue to the battle between the cultivators in the building.

"Don't worry about them. Just be careful from now on. Let's quickly charge into the city Lord's mansion and kill the most powerful monster here!"

Besides, without that human cultivator, we'll have fewer competitors. If we let him use that weapon to kill, I'm afraid all these high-level monsters will be killed by him."

The black-robed cultivator who had been conversing with Tang Zhen earlier suddenly spoke in a calm tone. He and Tang Zhen had met by chance, so he naturally wouldn't feel any regret over his elimination.

At this moment, a familiar gunshot was heard from the burning gate.

The three bat cultivators who were entangled with the corpse monsters fell from the sky and landed among the corpse monsters on the ground.

Without waiting for their comrades to rescue them, the corpse soldiers 'Spears and knives fell and directly cut the three bat cultivators into eight pieces.

The three bat-like cultivators turned into white light and disappeared without a trace.

"Damn it!"

Seeing this, the leader of the bat cultivators immediately turned to look at the burning gatehouse. There was also a flame of anger burning in his eyes.

One did not need to guess to know that this was definitely a sudden revenge attack by Tang Zhen, who was lucky enough to not die.

Or it could be said that Tang Zhen was returning the favor. He didn't die from the bat cultivator's sneak attack and quickly retaliated.

The other cultivators in the building were also shocked by this scene. They didn't expect that Tang Zhen's revenge would come so quickly. Moreover, he didn't even try to hide it.

Just as they were looking at the burning gatehouse, a figure slowly walked out from inside. Although he was wrapped in flames, he was completely unscathed.

The most eye-catching thing was his eyes. Although he was in the flames, they were brighter than the flames and had a power that could steal people's souls.

"Bastard, do you want to die?"

When the leader of the bat cultivators saw this, he immediately spoke in a flustered and exasperated voice. He wished he could swallow Tang Zhen alive.

"I'm sorry, it's just a mistake. Please don't take offense!"

Tang Zhen's words were exactly the same as what the leader of the bat cultivators had said, but his tone was full of ridicule.

How could the cultivators of Loucheng not hear the purpose of Tang Zhen's words? he was mocking the fellow who had ambushed him.

A burst of laughter suddenly rang out in the city Lord's mansion.

"You're looking for death, Yingluo!"

The leader of the bat cultivators had a gloomy expression on his face. He gritted his teeth and said. It was obvious that he had the intention to kill.

"If you want to kill me, we'll have to see if you have the ability!"

As soon as Tang Zhen's voice fell, he suddenly raised the gun in his hand and aimed it at the bat cultivator and his group.

The first to attack was the stronger, the second to attack would suffer.

"Bang!"

The gun, which had been adjusted to shotgun mode, suddenly shot out a large number of alloy beads, aiming at his face.

This was not a traditional weapon powered by gunpowder. Instead, it was a special bullet powered by energy runes, and its power was far beyond imagination.

The bat cultivator and his group couldn't Dodge in time, and five cultivators were knocked over on the spot, screaming and falling to the ground.

This wasn't the end, because Tang Zhen fired four more shots, each one of them aimed at the bat cultivators.

The leader of the bat cultivators, in particular, was in a sorry state, and his body was hit by two metal pellets as thin as green beans.

The seemingly insignificant small pellets, under the effect of huge kinetic energy, broke through the well-made armor.

The wound was a penetrating one. Although he wouldn't die in his energy body, the rules determined that he was seriously injured.

If he was hit again, his "health bar" would be completely emptied, and he would definitely be eliminated.

After realizing this, the leader of the bat cultivators was shocked and quickly dodged.

Because there were many corpse soldiers, they successfully blocked many of the bullets, allowing the bat cultivator to avoid the end of complete annihilation.

If Tang Zhen's strength was a little stronger, he would be able to use his mental energy to control the pellets to track them. Then, these bat cultivators would all be killed with a headshot!

2452 Healing wounds (1)

"Let's attack together and kill him!"

The leader of the bat cultivators was in a sorry state. As he roared, he took out the bomb-like ball from his arms.

The ball was filled with a special monster's oil. After being professionally mixed, it would explode and burn when it came into contact with air.

This flame was comparable to an aluminite and could even melt steel.

the gatehouse that had caught fire earlier had already collapsed, but the fire was still not reduced. this showed how terrifying it was.

The bat cultivator leader's ball was a super-condensed type, and it had an even more powerful power.

It was originally used as a trump card to kill or block the enemy in times of crisis, but now he had taken it out in advance.

They had no choice but to take it out. If they allowed Tang Zhen to continue fighting, they would probably be completely annihilated today.

“Bastard, go to hell!”

The leader of the bat cultivators let out a low roar and smashed towards Zhen Tang’s position. After that, there was a loud bang and countless sparks flew in all directions.

As for the area that had been attacked, it had completely turned into a sea of fire, covering an area of more than a hundred square meters.

The surrounding corpse soldiers were affected, the flames burned their skin and flesh, and they turned into fireballs.

Tang Zhen, who was in the area of attack, had already disappeared. It was unknown whether he was Dead or Alive.

However, with the previous example, the bat cultivators didn’t dare to be careless. They threw a few more flame bombs nearby.

If his strength wasn’t sealed, it was likely that he wouldn’t be able to hurt Tang Zhen even if ten thousand of these flame bombs were thrown.

However, under the current circumstances, if Tang Zhen was hit by the explosion, there was an 80 to 90% chance that he would be eliminated.

As they attacked, the bat cultivators kept their eyes on the sea of fire to see if there were any teleportation lights rising.

however, after waiting for a long time, they did not see any teleportation light at all, or they were covered by the flames.

“Be on high alert! If this guy doesn’t die, immediately rush up and kill him!”

The leader of the bat cultivators had a gloomy expression. He stared at the burning flames and said in a cold tone.

He had already made up his mind. Even if he had to sacrifice a few of his companions, he must kill Tang Zhen.

Otherwise, with such a powerful enemy spying on them from the dark, it was like a bomb to them. They didn’t know when they would be ambushed and killed.

Although Tang Zhen was alone, the gun in his hand was extremely overbearing. It was simply a sharp weapon for long-range sneak attacks.

In fact, the cultivators in other buildings also had weapons similar to the firearms in Tang Zhen's hands. It was just that their functions were different.

Under such circumstances, it couldn't be said that Tang Zhen had an absolute advantage. Just like the flame bomb in the bat cultivator's hand, its power wasn't any weaker than a gun.

Everyone's strength was about the same, and the key was how to use it. It must be known that the cornerstone platform would never allow weapons that destroyed the balance to be brought into the competition.

Even if the cultivators of loucheng were to carry such weapons and equipment, they would be checked and blocked during the teleportation process. This was also the reason why many cultivators of loucheng did not have weapons.

It wasn't that they didn't have any, but that they had been confiscated. Hence, they could only use the weapons and equipment dropped by the monsters.

"This bunch of bastards, they really want to kill us all!"

Seeing the bat cultivator's actions, the other Lou Cheng cultivators secretly shook their heads. They felt that Tang Zhen would definitely die this time.

He was just one person, yet he had to face the attacks of a large group of enemies. He was already lucky to have dodged the attack just now, but good luck could not always accompany him.

As expected, after waiting for four to five minutes, Tang Zhen's figure still did not appear. He might have already been buried in the sea of fire.

Except for the bat cultivator and his group, the other cultivators of Lou Cheng didn't have time to pay attention to this matter. Facing the large number of fierce corpse monster soldiers, every cultivator of Lou Cheng was having a hard time.

Fortunately, as they continued to fight, their strength was slowly increasing, and the pressure they were under was also constantly decreasing.

However, there were also unlucky cultivators who were injured in the battle and had to retreat from the battlefield to recover.

Otherwise, if they were hit a few more times, they might be eliminated and completely lose the qualification to compete.

What the cultivators in Loucheng needed the most now was medicine that could quickly restore their physical strength and heal their injuries. Unfortunately, they had not found such items so far.

.....

What they didn't know was that after the corpse monster was killed, it had already dropped a similar item.

The reason they didn't know was that they hadn't killed any high-level monsters yet, so their levels hadn't reached the corresponding level.

A figure suddenly appeared next to the red-armored general that was violently killed by Tang Zhen. The figure was wearing the armor of the corpse monster army.

Cultivators of Loucheng city dressed like this were not rare in the battlefield. Because they lacked weapons and equipment, they could only put together a set of armor temporarily.

As for the smell of the corpse monster, it was nothing to the cultivators of Lou Cheng who had seen mountains of corpses and seas of blood.

Not to mention that on the chaotic battlefield, the cultivators couldn't even protect themselves in time, so why would they care about other things?

At this moment, the figure moved to the side of the corpse and reached out to rummage through the minced meat. Then, a red crystal appeared.

[blood essence, the blood essence of the corpse monster general. After consumption, it can make up for the lost blood and Qi.]

When he obtained the red crystal, the related information appeared in his mind, causing Tang Zhen to be slightly happy.

That's right, this figure was Tang Zhen!

When he fired the shot, he knew that the bat cultivator would definitely counterattack. That was why he dodged immediately when he was attacked.

There was a hidden concave area on the wall below the gatehouse. Tang Zhen was coincidentally hiding in it.

Because the combat suit was resistant to fire, he had dodged a bullet and was not eliminated.

Even so, he was still on the verge of being eliminated. If he was hit by another flame bomb, he would definitely be eliminated.

Just like the other injured cultivators of Loucheng City, how to repair his own injuries had become the first problem that Tang Zhen had to solve.

However, Tang Zhen did not panic.

This was because when he had killed the red-armored general and unlocked the seal to level up, a special prompt had appeared in his mind.

Not only could he see his own health bar, but he could also see his level up progress bar. He could even receive information about the items that dropped after killing monsters.

This familiar operating method caused Tang Zhen to feel a sense of familiarity. At the same time, it also provided him with an opportunity to reverse the disadvantage.

It turned out that after the red-armored general was killed, it dropped some coins and equipment fragments, as well as a condensed blood essence.

Coins and equipment fragments were not of much use, but this special blood essence was a special medicine that could heal physical injuries.

"It feels more and more like a game, but it's really interesting!"

Tang Zhen softly laughed. The drop of this special blood essence was like sending charcoal in the snow to him.

Otherwise, with his current state, he really wouldn't be able to continue moving. He might even be eliminated if he wasn't careful.

Without further ado, he had to obtain the blood essence as soon as possible, and then study how to deal with the bat cultivator and his group.

Tang Zhen found the remains of a few corpse soldiers and pulled off the broken armor to cover his original appearance.

After making it unrecognizable, he could take advantage of the chaos to approach the general's corpse. Even if he was noticed, no one could determine his identity.

What happened next was that Tang Zhen took advantage of the chaos to find the blood essence and swallowed it without the slightest hesitation.

In fact, according to the hint he had just received, blood essence should be the main material for refining a kind of potion, and the effect would be better after refining it.

However, Tang Zhen simply did not have the time to wait. He had to recover from the injuries on his body as soon as possible and snatch away the greatest benefits from the city Lord's mansion.

After he completed this step, he would deal with the bat cultivators and make them pay the price for their actions!

Tang Zhen would never be soft-hearted towards his enemies.

2453 The bat cultivator's team was wiped out

The speed of the blood essence repairing his body was extremely fast. It only took a few breaths of time for Tang Zhen to recover to his peak condition.

Of course, this was referring to his current level. If it was compared to his true strength, it was simply insignificant.

However, Tang Zhen's current strength was two ranks higher than the other cultivators. It was already enough to support his next action.

Tang Zhen gently moved his body and pressed his left arm to charge the gun on his arm.

The gun was attached to his arm, but it didn't affect his movement, and it was well hidden.

In the following time, he would find the bat cultivator to take revenge and teach this group of people a painful lesson.

This was the best opportunity. If he missed it, it would be very difficult to take revenge.

The bat cultivator didn't want to keep Tang Zhen alive as he was afraid of leaving a hidden danger for himself. Wasn't tang Zhen the same?

Tang Zhen picked up the red-armored General's saber and chopped the corpse soldiers that were rushing over. Then, he rushed toward the bat cultivator not far away.

There were 3000 corpse soldiers in the city Lord's mansion. They were supposed to be responsible for guarding the city Lord's mansion, but all of them died in an accident.

Then, due to some special reasons, he became a monster that heaven and earth could not take in and continued to guard the city Lord's mansion.

If they didn't encounter the cultivators of Lou Cheng, who knew what they would become as time passed?

However, it was only a matter of time before they were annihilated when they encountered the cultivators of Lou Cheng. After all, they could provide the energy to upgrade the cultivators of Lou Cheng.

After a round of killing, less than half of the corpse soldiers in the city Lord's mansion were cleared, and some cultivators in the building had leveled up.

They could see the health bar and the level up progress bar, and they could also pick up the loot that was useful to them according to the notification.

More than one blood essence dropped. The cultivators in loucheng city finally found an item to recover health, and they were extremely happy.

The high-level monsters at the officer level immediately became the main targets of the cultivators in the building, making the battle more intense.

In the process of the battle, cultivators from loucheng city also joined the battle. They had just arrived from outside the city.

It was obvious that during the previous teleportation process, a large number of cultivators had been teleported to the vicinity of the ghost city. When they discovered the ghost city, they all gathered together.

As the number of cultivators in Lou city increased, the competition became more and more intense. It would not take long for the corpse soldiers to be completely wiped out.

The cultivators of loucheng who were the first to rush into the city Lord's mansion couldn't help but feel anxious, afraid that the benefits would be taken away by others.

At this moment, no one was being modest. Whoever snatched it would get it. When they entered the inner mansion of the city Lord's mansion, the competition would become more and more brutal.

The bat cultivator was still in the lead. He was about to break through the defense of the corpse soldiers and enter the inner mansion of the city Lord's mansion.

They held their breath and were determined to take all the benefits for themselves.

These bat cultivators who were caught up in the fierce battle didn't notice that a cultivator of Lou Cheng was slowly 'pushed' to their side by the corpse monster.

By the time they realized something was wrong, the cultivator from Lou Cheng had already come to the leader's side. There was only a few meters between them.

The leader of the bat cultivators accidentally saw the strange cultivators beside him while he was fighting, and a hint of wariness flashed in his eyes.

“Stop! Who are you?”

Everyone maintained a safe distance, and only this Lou Cheng cultivator rashly approached. Although he looked like he was forced over by the corpse monster, the leader of the bat cultivators still asked.

If anything went wrong, they would attack.

Hearing this, the cultivator cut down a corpse soldier and turned his head around.

“Yingluo, of course I’m the one who wants your life!”

As he spoke, the cultivator suddenly raised his arm. Then, a flame suddenly flashed from his sleeve.

“Damn it!”

Seeing this scene, the head of the bat cultivators felt his scalp tingle, and a sense of fatal danger assaulted his heart.

“So it’s you!”

Hearing the familiar gunshot, the leader of the bat cultivators immediately knew who the person on the other side was. While he was shocked, he immediately tried to avoid the attack.

It was a pity that Tang Zhen’s attack was too sudden. The bat cultivator leader’s strength was sealed, and its reaction was much slower than he had imagined.

“BOOM!”

The dense alloy bullets landed on the body of the leader of the bat cultivators, and the huge kinetic energy tore his body to pieces. The flame bomb hidden in his arms was directly ignited.

A huge fireball suddenly appeared. It spread to an area of several hundred square meters, completely enveloping Tang Zhen and the nearby bat cultivators.

In addition to the pained screams, there was a series of explosions. The flame bombs on the other bat cultivators were also detonated one after another.

Other than two bat cultivators who were too far away and weren’t affected by the flames, the rest of the bat cultivators were all engulfed in the sea of fire.

Such a huge commotion naturally attracted the attention of a group of cultivators in Lou city, and they all looked over.

Before they could figure out what was going on, they saw more than a dozen figures rushing out of the sea of fire, letting out painful and unwilling roars.

One of the figures trembled and threw away all the burning equipment on his body, then revealed his original appearance.

The surrounding cultivators of Lou city were shocked when they saw this.

good Lord! It's that human cultivator!

They had seen Tang Zhen being devoured by the sea of fire with their own eyes. They had thought that he would die for sure. In the end, not only was he not eliminated, but he had also dealt a fatal blow to the enemy!

The leader of the bat cultivators was dead for sure. Even if the rest of his comrades didn't die, they would be seriously injured.

On a battlefield that was lacking in blood essence, it was only a matter of time before they were eliminated.

After realizing this, the cultivators sighed in their hearts. They knew that lone wolf was difficult to provoke, but they didn't expect Tang Zhen's counterattack to be so fierce.

With just one person's strength, he had crippled dozens of cultivators in Lou city. His ferocity was simply terrifying.

"That bat cultivator leader is an idiot. If he didn't take the initiative to provoke us, this wouldn't have happened.

Not only did he harm himself, but he also caused trouble for his companions. He's simply stupid to the extreme!"

The black-robed cultivator who had spoken to Tang Zhen earlier spoke with a slightly emotional tone. Tang Zhen's actions were equivalent to helping them to clear out a powerful competitor. Naturally, the black-robed cultivator was more than happy to do so.

However, at the same time, he also raised his guard against Tang Zhen. Such a fierce human cultivator would definitely become their strongest competitor.

Should I take this opportunity to kill this human cultivator?

This thought appeared in the black-clothed cultivator's mind, but he immediately rejected it. He even felt that it was ridiculous.

The bat cultivator was an example, and he still dared to have such a thought. He must be crazy.

If Tang Zhen didn't die and used the same method he used on the bat cultivator to deal with him, wouldn't it be too late to cry?

The black-clothed cultivator was confident in his own strength, but he wasn't conceited. He didn't think that he was more powerful than the bat cultivator and that he could definitely kill Tang Zhen.

Moreover, there were so many cultivators in Loucheng city. Each of them was his competitor, and they were also Tang Zhen's competitors.

They didn't even make a move, so why should he stand out and take the risk to attract hatred?

Just as this thought emerged in his mind, he heard a series of gunshots. The bat cultivators who had escaped from the sea of fire were beaten to the ground by Tang Zhen one after another.

The bat-like cultivators were wrapped in flames and let out howls of despair and unwillingness. In the end, they turned into white light and disappeared.

A few bat cultivators rushed over. They knew that they would definitely be eliminated, but they wanted to drag Tang Zhen along with them.

Tang Zhen's scalp turned numb when he saw the bat cultivators charging over with blazing flames and flame bombs in their hands. He quickly retreated and dodged.

Anyone would feel a headache when they encountered such a person who did not care about his life. Tang Zhen was the same.

When he was enveloped by the sea of fire, his health bar had already dropped by more than half. If he were to be blown up again, he would definitely be eliminated.

2454 Monsters in the inner residence (1)

"BOOM!"

Another loud explosion reverberated as a bat cultivator holding a flame bomb behind Tang Zhen was blown into pieces.

At the same time, a white light flashed and sent him away from this world.

The burning flames exploded and scattered like rain. Many corpse soldiers were set on fire, turning into fireballs that scattered everywhere.

The already chaotic battlefield became even more chaotic, with flames burning everywhere.

The cultivators of Lou Cheng cursed in their hearts, but they had no choice but to avoid the burning area as much as possible.

Tang Zhen made use of the chaotic battlefield to avoid the bat cultivator's pursuit. However, the danger still existed.

Because there were still a few bat cultivators that hadn't been killed, they identified Tang Zhen as their target and chased after him.

If he couldn't deal with it, it was very likely that Tang Zhen would be dragged down with him.

Tang Zhen immediately had an idea when he saw the black-robed cultivator and the rest not far away. He immediately ran towards their location.

"Bastard, don't come over! Stay away from us!"

Seeing Tang Zhen running in his direction, the leader of the black-clothed cultivators was shocked and quickly shouted to stop him.

these guys have gone crazy. They've been chasing me all this time. What can I do? "

When Tang Zhen heard the black-clothed cultivator's warning, he deliberately used a helpless tone. In reality, he was dragging the black-clothed cultivator's group into the water.

These guys weren't good people either. They couldn't wait for him and the bat cultivator to both suffer so that they could take advantage of the situation and reap all the benefits.

"Damn it, do you think I'm stupid?"

How could the black-clothed cultivator not know Tang Zhen's plan? however, he had no choice but to call his subordinates to block him.

Since the bat cultivator and the others were already crippled, the black-clothed cultivator didn't mind giving them a hand and completely eliminating them.

However, Tang Zhen was also one of the targets. They wished they could kill him together.

Seeing the dense poisonous stingers flying over, Tang Zhen quickly dodged, but the bat cultivator chasing behind him was hit.

The bat cultivators, who were already at the end of their rope, couldn't withstand such a fatal blow and were eliminated after exploding on the spot.

When he turned around, he saw the two bat-like cultivators turn around and run out of the city Lord's mansion.

Tang Zhen frowned slightly when he saw this. There was something wrong with the other party's actions. Could it be that there were other accomplices?

"Quickly, make them stay!"

Tang Zhen had just raised his gun and aimed when the leader of the black-robed cultivators beside him gave the order. Clearly, he had also realized this point.

If he didn't remove the roots of the grass, it would grow again in the spring wind. These two bat cultivators were a disaster if they were left alive.

Waves of poisonous stingers were shot at the two bat cultivators. Tang Zhen also took the opportunity to open fire, aiming at the back of the two.

One of the bat cultivators was hit, but the shot missed its target and didn't cause too much damage.

Just as Tang Zhen was about to continue his attack, the injured bat cultivator suddenly turned around with two flame bombs in his hand.

"Quickly run!"

He growled at his companions before looking coldly at Tang Zhen, the black-robed cultivator, and the rest. He then laughed out loud.

He slammed his hands together, and raging flames appeared out of thin air. The huge impact cleared the surrounding ground.

The only bat-like cultivator left escaped quickly under the cover of the flames and disappeared in an instant.

As for the bat cultivator who had detonated the flame bomb, he had already been eliminated during the explosion and disappeared into a white light.

Such a crazy and heroic act was indeed shocking. Even in a real life-and-death battle, the other party would definitely make such a choice.

However, the cultivators of loucheng could also do the same. Every cultivator of loucheng had the courage to sacrifice.

"Damn it, I have a feeling that we're in trouble this time, Yingluo."

The black-clothed cultivator glanced at Tang Zhen and said in a slightly unhappy tone. He secretly regretted that he didn't kill him.

Tang Zhen, however, immediately changed his direction and rushed towards the empty region that was burning with flames, heading straight for the city Lord's inner mansion.

"Bastard, hurry up and follow him. We can't let him take all the benefits!"

After seeing Tang Zhen's actions, the leader of the black-robed cultivators immediately shouted loudly and took the lead to chase after him.

He hated this human cultivator so much that he gritted his teeth, but the fear in his heart grew stronger and stronger.

His actions were decisive, and he would take revenge for the smallest grievance. He was definitely a terrifying lone wolf.

"Let's catch up too, otherwise we won't even get a sip of the soup!"

The other cultivators of the building did not want to fall behind. They rushed in from all directions and tore open the gap that was gradually closing.

Everyone's goal in entering the castellan's residence was naturally to enter the inner residence and kill the hidden high-level monsters.

As long as the cultivators of loucheng city got close to the city Lord's mansion, they could feel the aura of the energy, which proved that there was a powerful monster hidden inside.

It was just like how animals in the natural world would mark their territory and deliberately leave behind some scents to warn outsiders.

The cultivators in loucheng were very experienced. They could determine the strength of the monster by its aura and knew what kind of benefits they would get after killing it.

In the blink of an eye, the cultivators had already climbed over the wall.

The city Lord's mansion was guarded by a large number of corpse monster Lord soldiers, and the defense of the inner mansion was naturally even tighter, with high-level monsters almost everywhere.

As soon as the cultivators entered the inner mansion, they saw a group of huge corpse monsters in heavy armor blocking their way.

These zombie monsters were five meters tall and were definitely huge, especially when they were wearing heavy armor. They were almost no different from moving tanks.

There were also many things that were neither human nor ghost following nearby. They looked like wolves with hunched waists, and each one of them was extremely fierce.

After seeing Lou Cheng's cultivators, the monsters let out strange cries and swarmed up.

In addition to these two monsters, there were many other monsters in the inner mansion, such as maids with pale faces, servants who vomited blood while walking, and the family members of the city Lord.

They surrounded the cultivators of Lou Cheng and fought with each other. The battle was even more intense than before.

In the middle of the courtyard, there was a strange giant tree of meat. The tree was covered with purplish-red veins, which were attached to half-rotten bodies.

The roots and branches of the giant tree were actually deformed hands and feet. At this moment, they were constantly dancing as if they were being blown by a strong wind.

On the branches that looked like arms, there were strange, withered hands that were as thin as firewood. Each hand was holding a painful and ferocious head.

In the center of the strange tree, there was a head as big as a water tank. It was staring at the cultivators from Lou Cheng with its bloodshot eyes.

There were long tentacles growing on the top of the strange tree's head. They looked like an enlarged cow's tail and were covered in black, stinky hair.

The tentacles, which had been standing tall like javelins, drooped down immediately and swept at the cultivators of the loucheng building when they saw them approaching.

Seeing the Python-like tentacles, the cultivators in loucheng city immediately waved their weapons to block or cut them off.

At this time, they were surprised to find that the giant tree's tentacles were extremely flexible, and they couldn't hurt them at all.

On the contrary, the hair swept over and wrapped around some cultivators of Lou Cheng who were unable to Dodge in time, pulling them toward the tree.

A cultivator from Lou Cheng was the first to be pulled over. Before he could get rid of the hair, he was directly thrown into the mouth of the huge head.

"Crack!"

The sound of chewing was heard. The Lou Cheng cultivator was judged dead and teleported away in the monster's mouth.

When it realized that the food in its mouth had disappeared, the giant head was furious and sent another cultivator into its mouth.

"Hurry up and save it, burn it to death with fire!"

Seeing this, the trapped cultivator's companion quickly came to the rescue to prevent his companion from being swallowed by the giant tree head.

They threw out burning objects onto the strange tree's hair, trying to burn it.

However, an unknown substance spurted out of the long branches, making it impossible for the flame to ignite.

At the same time, a foul smell quickly spread. Fortunately, the cultivators in Lou Cheng did not need to breathe, or they would have died from the poison.

2455 Tang Zhen's warning _1

The giant strange tree's power was far beyond the imagination of the cultivators in Lou Cheng. They had to retreat quickly and maintain a safe distance.

In fact, they were a little too hasty in this matter. If they could clean up all the corpse soldiers outside before entering, there should not be any problems.

After all, by that time, the cultivators' levels would increase, and their combat strength would be more powerful.

However, because they were worried that they would not be able to get any benefits, they rushed into the inner residence when their combat power was clearly insufficient. This made it very difficult for them to fight.

Not everyone could easily deal with a monster of a higher level, and the danger level was multiplied.

As more and more cultivators were eliminated, the cultivators of Lou Cheng made a prompt decision and quickly retreated to the edge of the inner mansion.

They decided to take it slow and steady, not to be greedy and advance rashly, lest they lose their lives in vain.

After the upgrade, he would push forward and kill all the monsters in one go!

Although the cultivators of Lou Cheng took the initiative to retreat, the monsters did not give up and continued to chase closely behind.

The roofs and trees of the inner mansion were filled with the figures of Lou Cheng's cultivators, who were locked in a fierce battle with the corpse monsters.

The black-robed cultivator and his group were also forced to a room at the edge and worked together to resist the attacks of the corpse monster.

Because of their large numbers and the cover they could rely on, the pressure they faced was greatly reduced.

Furthermore, they even took the initiative to create opportunities for their companions, helping them complete their advancement, and then helping their own companions in turn.

However, it would take enough time for all his companions to level up, and it would not take long for the monster to destroy the house.

Unless they killed all the monsters or moved to a safe place temporarily, the situation would become more and more unfavorable.

The leader of the cultivators in black looked out of the window and saw that the strange tree that had swallowed several cultivators from Lou Cheng was still looking around.

Fortunately, the tree demon couldn't move. Otherwise, this terrifying monster alone would have annihilated their entire Army.

"Did you see that human cultivator? he clearly came in first, so why haven't I seen him?"

Hearing the leader's question, the other cultivators of Lou Cheng shook their heads at the same time. They really didn't see Tang Zhen.

could he have already been eliminated? for example, he was eaten by the strange tree?"

A cultivator from Lou Cheng said after thinking for a while.

The cultivator who spoke shook his head. He also had a feeling that Tang Zhen would not be eliminated so easily.

Good people don't live long, while scoundrels live for a thousand years. Those who were good at causing trouble were also good at saving their lives.

"If he's not dead, then where did he go?"

The leader of the black-clothed cultivators looked at the tree demon with a deep doubt and a strong sense of uneasiness.

The missing human cultivator was very strange. He might cause some trouble and then implicate them.

.....

in the quiet backyard of the city lord's mansion, a figure flashed and quickly entered a row of houses.

After a long time of not being cleaned, the house was full of dust and filled with a choking rancid smell.

Tang Zhen had just entered the house when he saw a few corpses hanging on the roof beam. At this moment, they were moving without any wind.

"Creak!"

The sound of wood rubbing against each other rang out. Immediately after, the corpse on the beam turned its head around, its purplish-black face facing Tang Zhen.

His neck was long, his tongue was long, and his eyes were so big that they were about to fall out. He looked like a hanged ghost.

The corpses were three women and one man. From their clothes, they should be the city Lord's family.

They kept waving their stiff arms as if they wanted to scratch Tang Zhen. However, they were trapped by the rope and couldn't easily get rid of it.

Tang Zhen shook his head. He waved his hand and a cold light swept out. A few hanged ghosts were beheaded at the same time with a sharp sword.

"Plop!"

The corpse fell to the ground, stirring up a cloud of dust.

A few energy light balls entered his body. Tang Zhen glanced at the upgrade progress bar and discovered that it would be upgraded again very soon.

After dealing with a few corpse monsters, Tang Zhen began to collect materials in the house, preparing to make a super bomb.

Among the resources he carried with him, there was a miniature detonation device, but its power was slightly lacking.

What Tang Zhen wanted to do was to create some additives to double the power of the bomb.

The mixing process was not laborious, but it required time to collect the materials and to inscribe a runic magic circle.

It would definitely be very difficult for Tang Zhen to do all these things. Only at this time could the benefits of a team be seen.

It was a pity that Tang Zhen was alone and was unable to contact any companions that he could trust. Moreover, if he were to form a team with others, the rewards would be equally shared with them.

What Tang Zhen wanted was to lead by a large margin and then suppress his competitors, fighting to become one of the people with the highest level.

It was not easy to achieve this.

After all, this competition was full of heaven's favorites, and the number of cultivators in Lou city was as many as the stars. If one wanted to stand out among the hundreds of millions of cultivators, they would have to put in a lot of effort.

Moreover, compared to the cultivators of other buildings, Tang Zhen's advantage wasn't obvious and he even had many shortcomings.

For example, detailed information about the ranking battle, the cultivator teams that cooperated with each other, and timely and effective information sharing.

Regardless of which side, if they weren't prepared, they could be left behind. A small gap could lead to a difference of thousands or tens of thousands in the ranking!

"It doesn't seem to be easy to get a good ranking, hehe."

Tang Zhen softly sighed and continued to bury his head in search of the materials he needed. During this period of time, he would also gather the gold and silver and bring them with him.

He had a feeling that these things might be useful, and there was no harm in bringing more.

While the battle outside was in full swing, Tang Zhen was scurrying around the inner residence, collecting the materials he needed.

During this period, they met Lou Cheng's cultivators, but nothing happened between them.

After searching for a while, Tang Zhen found the Armory of the city Lord's mansion and directly broke into it.

The materials he needed had all been gathered here, so he didn't need to waste any more time.

After blocking out the sounds of fighting outside, Tang Zhen gathered the required materials together and processed them with extremely skilled techniques.

Although the plane was different, the nature of the materials required did not change much, and it could be recognized with a little bit of distinction.

After the required materials were mixed, Tang Zhen poured the sticky semi-finished product into the large bucket. Then, he used the metal threads to create a runic array.

As for the source of the metal threads, it was naturally from the gold and silver utensils that he had previously collected. Tang Zhen had used his long sword to cut them off.

With Tang Zhen's attainments in the runic magic circle, it was not a strenuous matter to create a runic magic circle that was used to increase the power of the explosion.

It didn't take long for the runic magic circle to be completed. It looked simple and beautiful.

The bead that burst out from the corpse monster's body was embedded on the runic magic circle by Tang Zhen to provide the power to operate.

After checking again and confirming that there was no problem, Tang Zhen sealed the big barrel, covered it with a cloth, and carried it on his body.

The battle outside was still ongoing. Tang Zhen carried his super bomb and climbed to the roof of a house.

Seeing this, the Lou Cheng cultivators beside him immediately paid a bit of attention to him, trying to figure out what he was going to do.

"He's not dead, so what's next?"

The leader of the black-robed cultivators in the distance immediately had a bad premonition when he saw this. He stared at Tang Zhen without blinking.

Just as he was secretly guessing in his heart, he saw Tang Zhen's gaze sweep across the inner residence. After which, he shouted, I'm going to inform you now. It's best if you all evacuate within thirty breaths. Otherwise, I won't be responsible if you encounter any danger!

Although the battlefield was extremely chaotic, Tang Zhen's words were still heard by the cultivators. All of them were slightly stunned.

"Human cultivator, Who Do You Think You Are? why do you want me to leave?"

A cultivator from loucheng city with a strange appearance shouted loudly. His tone carried a trace of arrogance and disdain. It was obvious that he didn't put Tang Zhen in his eyes at all.

2456 Razed to the ground _1

"Don't act rashly. I want to see what this human cultivator is up to."

The leader of the black-robed cultivators said. He stopped his men from attacking Tang Zhen, but his eyes became very serious.

Hearing Tang Zhen's words, it didn't seem like he was joking and it was impossible for him to be joking.

It was more like a kind persuasion and not a Forced Order.

Although he wanted to ask,"what right do you have to make me back off?" he couldn't bring himself to say it.

Right now, his entire mind was thinking about one thing. Was what Tang Zhen wanted to do very dangerous and would implicate and harm them?

If that was the case, then they definitely couldn't force themselves and had to retreat in time.

Otherwise, even if they suffered losses, who would be able to compensate?

After realizing this, the leader of the black-clothed cultivators immediately became vigilant and stared at the item on Tang Zhen's body.

What exactly was that thing? could it be that Tang Zhen's order to evacuate everyone was related to this thing?

The other cultivators of Lou Cheng had different expressions. Some were cursing, some were frowning and deep in thought, and some had already slowly retreated.

The cultivators of loucheng who could participate in this competition were not fools. They absolutely did not believe that Tang Zhen was speaking nonsense.

If they didn't listen to his advice, they would suffer.

Similarly, there were also some people who were unwilling. They secretly locked onto Tang Zhen and prepared to directly kill him.

No matter what he wanted to do, as long as this matter posed a threat to him, then he was his enemy. He must be eliminated cleanly!

“Whoosh!”

A sharp arrow silently flew over and headed straight for Tang Zhen’s back. Its speed was as fast as lightning.

It was as though Tang Zhen had eyes on the back of his head. A cold glint flashed in his hand as he directly sent the sharp arrow flying.

Who would have thought that at this moment, more than a dozen sharp arrows would be shot at the same time, all from the hands of the cultivators in loucheng.

Tang Zhen frowned slightly. It was difficult to persuade a damnable ghost with good advice. Since he did not listen to his advice, he would send them on their way together!

“You’re all looking for death!”

Tang Zhen coldly snorted. At the same time as he continuously dodged the sharp arrows, he started to run across the roof.

“Hurry up and stop him!”

There were even more arrows flying towards him. There were even cultivators who abandoned the corpse monster and jumped onto the roof to block Tang Zhen.

The smile on the corner of Tang Zhen’s mouth became increasingly cold. In this short period of time, he had already suffered dozens of arrows. However, he still continued to advance.

Since he was stronger than the other cultivators in the city and had a strong defense, he didn’t suffer much damage even if he was shot by the arrow.

In this short period of time, he had already approached the courtyard where the tree demon was located and attracted the tree demon’s attention the moment he appeared.

The tree demon danced, its eyes flashing with greed.

From the tree demon’s expression, it could be confirmed that it was very excited about Tang Zhen’s arrival. The tentacles on its head danced wildly and went straight to Tang Zhen’s position.

With the length of the tentacles, they were completely capable of attacking Tang Zhen who was on the roof.

When the Lou Cheng cultivators behind him saw this, they immediately stopped in their tracks. To them, Tang Zhen's actions were simply courting death.

Whether it was advancing or retreating, there was no way out.

It just so happened that Tang Zhen had also stopped his footsteps at this moment. He turned his head to look at the people chasing behind him and revealed a deep smile.

"Swish!"

He quickly removed the cover, revealing the large barrel inside. The runes carved on the barrel glowed in the light.

After seeing the appearance of the big bucket, some Lou Cheng cultivators who knew runes and arrays immediately guessed what Tang Zhen was going to do.

"Damn it, this madman, he made a bomb!"

Not far away, the leader of the black-robed cultivators felt his heart beating wildly. As he cursed in a low voice, he turned to look at his subordinates.

retreat! Hurry up and retreat! Otherwise, we'll all die Here!

Seeing how anxious their leader was, the cultivators didn't dare to hesitate and immediately retreated out of the city Lord's mansion.

the other cultivators of Lou City also discovered the abnormality. they were all shocked and angry, but there was nothing they could do.

there were also some cultivators from Lou Cheng who had no idea what was going on. however, when they saw that someone was retreating, they immediately followed.

There were very few cultivators in Lou City who dared to stay.

Just as the cultivators in Lou Cheng were frightened and retreated, the runic magic circle on the barrel was activated, and the tentacles of the tree demon swept over at the same time.

Tang Zhen, however, threw an item with all his might. Immediately, billowing smoke rose and enveloped him and the large bucket.

The tentacle wrapped around the barrel and dragged it back rapidly, leaving a trail of light in the darkness.

The moment it approached the tree demon, the light on the barrel suddenly exploded, followed by a loud sound.

It was as if the sun had appeared. It was so bright that nothing could be seen clearly. At the same time, there was a terrifying shock wave.

Houses, trees, and monstrous cultivators were all torn to pieces by this irresistible and terrifying force.

The tree demon in the middle of the explosion suffered the most violent attack. After letting out a roar, it no longer moved.

When the light faded and everything returned to peace, the entire inner mansion of the city Lord's mansion had disappeared, leaving only ruins.

Only a bare tree stump remained where the tree demon had been, and its entire body had been charred.

Other than that, there were only the wreckage of the buildings and the raging flames. Many of the monsters that had originally occupied the area had already been reduced to broken wreckage.

The cultivators of Loucheng who were hiding outside the mayor's mansion were dumbfounded by the scene in front of them. Their expressions became extremely complicated.

Their goal in entering the city Lord's mansion was to kill high-level monsters and increase their own strength.

However, someone had taken all the greatest benefits in front of them, and they couldn't do anything to him.

The more the cultivators of Lou Cheng thought about it, the angrier they felt. They were so depressed that they almost vomited blood.

find that guy. I don't believe that he can fight us all by himself!

One of the cultivators said in a cold tone. At the same time, he called his companions to enter the scene of the explosion in an attempt to find Tang Zhen's traces.

that's right, we can't let this guy go. I have to take revenge for my dead companions!

The Lou Cheng cultivator who said this was depressed. In the explosion just now, his companion had also been affected.

Those cultivators had underestimated the power of the rune bomb and didn't retreat to a safe distance, so they were killed by the explosion just now.

One could imagine the depression in their hearts after they died without knowing why. As the Allies of these cultivators, they must be angry and determined to help take revenge.

As for the matter that Tang Zhen had warned them about earlier, there was basically no one who would mention it at this moment. What difference was there between that and smacking their own faces?

the human cultivator was at the center of the explosion and didn't retreat in time. Would he be eliminated by the explosion? ”

Some cultivators said. They felt that Tang Zhen had already been eliminated and it was impossible for him to still be alive.

The cultivators were slightly stunned and thought that it was possible.

The tree monster and the other cultivators were all killed. Could Tang Zhen, who was at the center of the explosion, survive?

“Hehe, don't worry. Even if you all die, he probably won't die, Chengcheng.”

The leader of the black-robed cultivators said to himself with a disdainful expression.

After personally witnessing Tang Zhen escape from death several times, the leader of the black-robed cultivators was even more certain that Tang Zhen would not be eliminated so easily.

2457 Where's Tang Zhen? _1

The fire was still burning, but the cultivators of Lou Cheng couldn't wait and ran straight to the inner mansion area where the smoke had yet to dissipate.

Although he had guessed that Tang Zhen was not dead, this entire area could be seen with a single glance. Where could he hide?

They would not give up until they found Tang Zhen.

Looking at the dead bodies of the monsters, the leader of the black-robed cultivators was heartbroken. If he killed these monsters, he would at least level up three times, right?

At this thought, the leader of the black-robed cultivators stopped in his tracks and his body trembled uncontrollably.

“Stop advancing!”

Hearing the leader’s order, the group of cultivators looked confused, not knowing what was going on.

“Don’t talk nonsense, hurry up and leave this place, the faster the better!”

After giving the order, the leader of the black-robed cultivators turned around and left. His actions were straightforward and decisive.

After leaving the city Lord’s mansion, the leader of the black-robed cultivators stopped in his tracks and looked thoughtfully at the burning city Lord’s mansion.

why do we have to retreat? isn’t it better to take advantage of the monsters ‘injuries and harvest them? ”

The subordinate couldn’t help but ask.

Hearing his subordinate’s question, the leader of the black-robed cultivators shook his head and said in an uncertain tone, ” I’m thinking about a question. How many monsters were killed just now? if all of them are counted on one person, how many levels can I increase? ”

The subordinate was stunned for a moment, then he thought of something and said in a surprised tone, ” “You’re saying that the human cultivator didn’t die, but instead profited from his misfortune and leveled up quickly?”

“That’s right!”

The leader of the black-clothed cultivators nodded and continued to speak in an indifferent tone, ” as for what you said about a blessing in disguise, that’s completely wrong. From the very beginning, the other party’s plan was to kill monsters to level up.

isn’t he afraid that his plan will fail and he’ll be blown up? ”

The subordinate didn’t seem to understand and asked in a puzzled tone.

“This in itself is a crazy plan, or a bet. Without enough courage, it can’t be carried out at all.

If he failed, he could only blame his bad luck. But if he succeeded, he could take the lead for a short period of time.

One step ahead, one step ahead.

In the competition between hundreds of millions of cultivators, it was very difficult to be one step ahead.

The human cultivator understood this, so he took the risk and destroyed the city Lord's mansion with rune bombs.

Actually, this wasn't entirely true. Just from the fact that he dared to challenge a group of bat cultivators and eliminated all of them, one could tell that he wasn't a simple person.

After that, he made rune bombs and bombarded the tree demon under the watchful eyes of the strong enemy. Every step he took was enough to prove his courage and strength.

That's why I'm worried that if he didn't die and instead leveled up, he would take revenge on the cultivator who attacked him just now."

After hearing the analysis of the leader of the black-robed cultivators, his subordinates nodded their heads repeatedly. If Tang Zhen really didn't die, then the possibility of him taking revenge was extremely high.

However, the crux of the problem was that Tang Zhen really did not die?

In fact, this was a question that many cultivators in Lou Cheng were concerned about. They naturally thought of the same thing as the leader of the black-clothed cultivators.

It was precisely because of this reason that they had to find Tang Zhen. If Tang Zhen was still alive, they would do their best to kill him!

After all, the enmity between both parties had already been formed. There was no possibility of resolving it. Even if they were willing, Tang Zhen would definitely not agree.

There were a total of fifty cultivators from loucheng city who participated in the search for Tang Zhen. They came from different teams.

They belonged to different battlefields and did not know each other. They even regarded each other as competitors.

However, at this moment, they chose to temporarily cooperate and tacitly search for the same enemy.

The remains of the building were searched but nothing was found. Although there were many corpses, they didn't look like Tang Zhen.

In fact, there was nothing special about these wreckages. They were basically human-shaped objects. After being burned by the flames, they had become pitch-black, and their original appearances could no longer be seen.

Besides, after Lou Cheng's cultivators were eliminated, they would not leave anything behind except for the items they obtained in this world.

I can't find him at all. Has he really been eliminated? "

The same question appeared in the minds of the people searching. Although this was the result they had hoped for, they still didn't dare to be certain.

"Continue searching, even if you have to dig three feet deep!"

They would definitely not give up if they did not obtain a definite answer. If Tang Zhen did not die, they would definitely not leave him any chance to turn things around.

The search area was getting smaller and smaller. Except for the tree demon's stump, all the other areas had been searched.

All the cultivators looked over at the same time, their eyes solemn.

"Blow it up!"

The tree stump was four meters in diameter and looked black. It was unknown what was hidden inside.

The other loucheng cultivators were also good at using bombs to attack their targets. They carried the bombs with them, just like the bat cultivator's flame bombs.

A few black objects flew out from the crowd and exploded near the tree stump. A fluorescent liquid burst out.

This liquid was deadly corrosive and, like a flame bomb, it kept making "crackling" sounds.

In the blink of an eye, the bare tree stump broke apart, and black, sticky liquid flowed out.

It was only then that everyone saw that the bottom of the tree stump was filled with bones and blood. It was obviously the food that the tree demon had swallowed.

As for the source of food, it was very likely that mortals who mistakenly entered the city would be captured by the corpse monsters and used as sacrifices.

In fact, the cultivators had already guessed that the tree demon was the city Lord of ghost city, the controller of all the corpse monsters.

After Tang Zhen killed the tree demon, the zombie monsters in ghost city were in complete chaos and were running around the city.

There were also some corpse monsters that rushed out of the city and ran into the wilderness, beginning to wander aimlessly.

If there were civilians nearby, it would undoubtedly be the beginning of a disaster.

After completely destroying the tree stump, some cultivators moved closer to observe, but they found nothing suspicious.

there's nothing here either. Could it be that the human cultivator has really been eliminated? ”

Although he was still not completely sure, after searching for a long time without any results, he seemed to have given the answer.

The cultivators looked at each other. Since they couldn't find Tang Zhen, then they would go their separate ways.

If they met again, perhaps they would have to wave their swords at each other. After all, they had always been competitors.

Just as they were about to retreat, the leader of the black-robed cultivators, who was watching from a distance, suddenly narrowed his eyes.

let me ask you a question, ” he said to his subordinates. do you also think that the human cultivator has been eliminated? ”

Without waiting for his subordinate's reply, he continued to speak, his tone filled with the excitement of seeing through everything.

“I remember when we first entered the city, we were almost confused by the illusion and thought that this was a normal city?”

The underling nodded. They came at night, just when the corpse monster transmogrified to harm people, and they were almost deceived by it.

“Normal zombie monsters don't have this ability. Then who cast the illusion to confuse the outsiders who entered the ghost city?”

&Nbsp; I think that it was the tree demon that was causing trouble. It could control all the zombies in the city and at the same time, it had the ability to create illusions to cover for them.

So my guess is that among the items dropped by the tree demon, there should be an item that can create illusions.”

The leader of the black-robed cultivators looked at the cultivators from Lou Cheng who were searching for Tang Zhen and revealed a cold smile.

if you observe carefully, you'll realize that there's an extra person in the team searching for human cultivators!

2458 The tree demon's illusionary realm (1)

Hearing their leader's words, the cultivators of Lou Cheng were stunned again. They found it unbelievable.

how is it possible for that human cultivator to sneak into the group searching for him? ”

They opened their eyes wide and looked at the cultivators in the building one by one, trying to see who had the problem and whether it was the human cultivator.

However, after looking at it for half a day, he still had no results.

In fact, from the beginning, they did not pay attention to the specific number of people, and they did not expect such a thing to happen.

Indeed, the most dangerous place was the safest. Who would have thought that it would be so unexpected?

Although he felt that the leader's words made sense, he couldn't determine where the extra cultivator was.

After searching for a while, the cultivators could only give up and turn to the leader of the black-robed cultivators.

“Then tell me, who is the human cultivator?”

The black-clad leader responded to his subordinate's question with an enigmatic smile, but he did not give an answer.

In fact, he had also been observing earlier. However, he similarly did not discover any traces of Tang Zhen. After all, the clues that he had were too few. It was impossible for him to find any clues in a short period of time.

Since he was unable to determine who Tang Zhen was, he was naturally unable to answer his subordinate's question. He could only maintain his unfathomable appearance in order to maintain his wise and intelligent image.

All the cultivators thought that the leader in black had a plan in mind and just didn't say anything, so they all showed admiration.

The leader was indeed the leader. He was stronger than them. If it wasn't for him, they would still be in the dark.

His curiosity about the human cultivator grew. Although he had come into contact with human cultivators in the past, this was the first time he had seen such a person.

"Then what should we do? should we go over and tell them about this?"

Another subordinate asked, looking eager to try.

"Tell what?"

"If they plan to escape, we'll be offending them if we reveal the secret," the leader of the black-robed cultivators sneered. "We'll make a powerful enemy for no reason."

Although he's alone, he's extremely difficult to deal with. The bat cultivator's example is right in front of you. Do you want to try it?"

The group of cultivators frowned as they pondered. They did feel a slight headache towards Tang Zhen's style.

If they had a choice, they would definitely not provoke such an enemy, as that would be equivalent to asking for trouble.

"If the other party intends to take revenge, then we can't go over," the leader continued, "we just need to be a quiet spectator."

Everyone was originally at peace with each other and did not treat you as a target of attack, but you took the initiative to send yourself to the door, which was equivalent to expressing your stand.

We'll be the first target of the enemy's attack to avoid exposing more information.

I've made myself clear enough, do you understand?"

After hearing their leader's explanation, the cultivators of Lou Cheng suddenly realized that it was true.

The fiercer they fought, the better. It would be best if they all died, and he could just be an honest spectator.

Other than the group of cultivators in black, there were also some cultivators from Lou Cheng who were acting as spectators. They all wanted to see if Tang Zhen was Dead or Alive.

There were also some cultivators who rushed into the group of monsters to continue hunting. Their priority was to level up and they were not interested in watching the fun.

Just as the black-robed cultivator and the rest were looking at the city Lord's mansion with a strange expression and continued to guess where Tang Zhen was, they suddenly heard a scream.

A cultivator of Lou city fell to the ground and was beheaded by a long sword from somewhere. He turned into white light and disappeared.

"Damn it, someone's ambushing us!"

The sudden turn of events stunned all the cultivators present. At first, they were at a loss, but then they realized that they had been ambushed.

"Could it be that human cultivator? but where is he?"

The common enemy of all the cultivators was the reckless human cultivators. The person who dared to attack was most likely Tang Zhen!

find him immediately and eliminate him. We can't let him be so violent!

The cultivators' scalps went numb as they felt that the situation was getting out of control.

Just as he was about to find the culprit, he saw the light and shadow in front of him fluctuate, as if everything was twisting and changing.

At the same time that their vision was affected, their hearing was also affected. All kinds of wails and screams kept ringing out, making them feel upset.

"What's going on? what's going on? who's behind this?"

The cultivators were all experienced. Although their surroundings were in a mess, they quickly calmed down.

They kept looking around and calmly analyzed the situation, trying to figure out what was going on.

At this moment, another scream was heard, followed by the angry roars of the cultivators from Lou Cheng.

The sound was intermittent, and it was impossible to determine the location because there was only chaotic light and shadow in front of him.

It turned out that they had unknowingly been separated by the thick smoke, and it was impossible to determine the location of their companions.

something's wrong. This is an illusion. We've been tricked!

The cultivators immediately realized that something was wrong and tried to get out of the illusion to avoid being attacked by the enemy.

However, the speed of the hidden enemy far exceeded their imagination. The battle and screams never stopped.

In a short time, many cultivators from Lou Cheng had been eliminated at an amazing speed.

All the cultivators knew that this was bad. The enemy was obviously using the illusion as a cover to break them one by one.

"Hurry up and find him, or we'll all die!"

"The other party is very cunning. We can't find him at all. It's better to break the illusionary formation as soon as possible."

do you think you're still alive before your strength was sealed? we can't break through this kind of illusion at all now, unless we advance a few more levels!

"Then what should we do? are we just going to wait for death?"

The cultivators on the floor were at their wits 'end and tried their best to find a solution to the problem. However, due to the limitations of their strength, they couldn't solve the dilemma in front of them.

The inner mansion area was in a mess. The cultivators of loucheng who were watching the battle from the outside were also confused.

All they could see was chaos, and there were constant screams, but they couldn't see clearly.

The most surprising thing was that the destroyed city Lord's inner mansion had reappeared in front of them, exuding a cold and gloomy aura.

“This should be the illusion created by the tree demon. It seems that the human cultivator is still alive and has gained a lot of benefits.”

The leader of the black-robed cultivators said in a sure-enough tone, but he was secretly relieved.

Fortunately, he had noticed the abnormality in time. Otherwise, if he had rushed forward rashly, he might have been attacked.

The other cultivators kept their mouths shut, but their eyes were fixed in the direction of the inner mansion, wanting to see what the result would be.

However, according to the current situation, the cultivators of the building were trapped in the illusion and the chances of escaping were very low.

However, at this moment, the illusion became unstable, as if it could dissipate at any time.

look! The illusory realm is about to collapse!

the illusory realm really has its limits. It won't last long. Otherwise, who would be his match? ”

The cultivators of Lou Cheng who were watching the battle were a little excited because as the illusion disappeared, the hidden truth would soon be revealed.

As expected, in just a few minutes, the illusory formation was torn apart, and a figure rushed out.

With an expression of having just survived a disaster, he immediately stood on the path outside the illusory formation, trying to help his companion break out of the illusory realm.

However, at this moment, a cold light flew out and cut the cultivator in Lou Cheng into two!

2459 Invincible (1)

“Si si si ...”

Seeing that someone had finally broken out of the illusory formation, the cultivators thought that things had taken a turn for the better, but they didn't expect that person to be killed as soon as he came out.

This feeling was like a Fishbone stuck in his throat.

In fact, they were more inclined to search for Tang Zhen's cultivators. They hoped that they could kill Tang Zhen and get rid of this terrifying fellow.

Tang Zhen, whose rank was higher than the cultivators, obviously gave them more pressure and had already become The Public Enemy of the cultivators.

Therefore, when the Lou Cheng cultivator was eliminated, the other cultivators sighed in unison and felt regretful.

In the eyes of the cultivators, the human cultivators seemed to want to kill them all. Otherwise, they wouldn't have been attacked as soon as the other party left the illusion array.

"This guy is too ruthless!"

Said one of the spectating cultivators with a hint of fear in his eyes. The cultivators around him felt the same way.

They had not expected that the competition in the city Lord's mansion would have so many unexpected changes.

The most amazing thing was that all the changes came from one person. He was arrogant and overbearing, and he didn't take the hundreds of cultivators in Loucheng seriously.

Although they were indignant in their hearts, there were still many cultivators who secretly praised Tang Zhen's actions.

He was brave and astute, not afraid of strong enemies. He was really a role model for the cultivators in Lou city!

The battle between Tang Zhen and the bat cultivator had already attracted the attention of a large group of cultivators in Lou Cheng. While they were shocked by Tang Zhen's courage, they were also laughing at Tang Zhen's overestimation of his ability.

No matter how strong he was, how could a single human cultivator be a match for a group of cultivators in a building when his cultivation was sealed?

Even if you were a creator, you still didn't have any advantage because everyone's starting point was similar.

However, Tang Zhen had used a wonderful performance to teach these cultivators a lesson, proving that their thinking was wrong.

Since everyone's starting point was the same, they needed to use their brains and be more daring.

Otherwise, it wouldn't take long for them to be crushed and eliminated, and they wouldn't be able to stand out ever again.

As expected, the development of the situation had completely exceeded their expectations.

Tang Zhen had killed almost all of the bat cultivators by himself. Only one cultivator had managed to escape.

During this period of time, Tang Zhen had escaped from death several times. Every time, everyone thought that he would definitely die. In the end, he would turn around and appear in front of them alive and kicking.

Such a strong life force was simply shocking. This also caused more and more cultivators to pay attention to him.

Regardless of whether he had good intentions or not, everyone was displeased, and the hostility in their hearts grew stronger and stronger.

This was because Tang Zhen's actions were equivalent to snatching the benefits of the cultivators. How could they swallow their anger?

Therefore, they took the initiative to attack and tried to kill Tang Zhen. In the end, a group of people did not kill him and watched as he razed the city Lord's inner mansion to the ground!

After seeing the scene after the explosion, the cultivators' hearts trembled, and then they gritted their teeth in hatred.

The purpose of gathering in the city Lord's mansion was to kill the tree demon that the city Lord had turned into, as well as all kinds of high-level monsters, in order to improve their own strength.

However, as the bomb went off, the entire inner mansion was razed to the ground, and all kinds of monsters were turned into ashes.

If Tang Zhen was still alive, he would take revenge after his strength increased. If he was unlucky and died, he would have wasted so many high-level monsters.

No matter what the result was, these cultivators in the tower City had already completely hated Tang Zhen. Therefore, they searched him at the same time in an attempt to kill him.

At the same time, some cultivators were puzzled. Why were the seemingly powerful tree demons so vulnerable?

In fact, this situation was very normal. The tree demon looked powerful, but if it was evaluated, it was at most a level 10 monster.

Most of the cultivators were at grade 1 or Grade 2, and only a few of them had advanced to Grade 3. How could they be a match for the grade 10 tree demon?

Things were different now. Ever since they entered this world, it meant that they had to start from scratch.

Without their strength sealed, any cultivator from Lou Cheng could easily raze the ghost city to the ground.

However, after their powers were sealed, even a low-level monster could kill them.

The strength of Lou Cheng's cultivators was sealed, but the power of their weapons was not reduced. Even if they made a nuclear bomb, it could still exert its original power.

That was why the tree demon was killed directly, because the power of the rune bomb was extremely powerful. It was like killing a chicken with a butcher's knife against a level 10 monster.

The worst case scenario had appeared. As expected, Tang Zhen didn't die and directly launched a revenge operation.

He used the cover of the tree demon's illusionary formation to trap more than fifty cultivators in place. With only one person and one sword, he launched an attack unpredictably.

The spectators were frightened and wondered how many cultivators had been eliminated in such a short time.

"We can't stay here for long!"

Similar thoughts appeared in the minds of the cultivators of loucheng who were watching the battle. They were afraid that they would also become Tang Zhen's hunting target.

It was not impossible for such a thing to happen. In order to ensure that he could obtain more benefits, he had to get rid of all the other competitors!

Some cultivators of loucheng city secretly rejoiced. Fortunately, killing cultivators of loucheng city would not level up. Otherwise, they would definitely become the target of Tang Zhen.

Just as the spectating cultivators were letting their imagination run wild, the illusory formation trembled violently again and then disappeared like foam boards.

The scene of the wolves running everywhere appeared in front of the cultivators again. However, there were only about 20 cultivators trapped in the illusory formation!

Seeing this, everyone gasped in shock, their faces filled with disbelief.

In a short time, Tang Zhen had killed more than thirty cultivators from Lou Cheng. This killing speed was simply terrifying.

These weren't 30 pigs, but battle-hardened cultivators of Loucheng. Even if their strength was sealed, they shouldn't have been killed so easily.

However, this was the truth. This might also explain one thing. Tang Zhen's level had already completely suppressed everyone.

Another point was that he was far weaker than he had imagined. He definitely couldn't compete with his previous mentality, or he would die a terrible death.

Compared to the relatively calm onlookers, the cultivators of Loucheng who had escaped from the illusory formation were shocked and angry. They quickly formed a circle and stared at the figure standing in the center.

Just now in the illusionary array, it was this figure that appeared and disappeared unpredictably, continuously eliminating their companions.

The cultivators gritted their teeth in hatred, but there was nothing they could do. In the illusory formation, they could not even protect themselves.

In a short period of time, they had suffered unimaginable torture and pressure because of an enemy.

Fortunately, the nightmare was finally over. They could finally face the culprit and seek justice from him.

The illusory formation has already dispersed. Let's see how arrogant you can be now!

The current Tang Zhen had once again become the focus of everyone's attention. Most of the gazes contained dense killing intent.

"Hahahahaha!"

A burst of laughter rang out. It was exceptionally clear and ear-piercing in the ruins.

The only person who dared to laugh out loud and look down on everyone was obviously Tang Zhen.

"Damn it, what are you laughing at?"

A cultivator from Lou Cheng said in an angry tone. His companion had been eliminated by Tang Zhen's sneak attack, and he was the only one left.

Although there were many cultivators in the same battle zone, it was not easy to contact and cooperate.

In this competition, cultivators of Lou Cheng would first fight for their individual ranking, followed by the overall ranking of the entire battle zone.

Unless it was necessary, few cultivators of Lou Cheng would choose to cooperate in the beginning.

He was all alone now and the road ahead would be even more difficult. Naturally, he hated Tang Zhen to the bone.

Tang Zhen raised his head and sized up the cultivator from Lou Cheng. A strange smile appeared on his face.

He raised his hand, and a gunshot rang out. With a shocked and unwilling expression, the Lou Cheng cultivator collapsed to the ground.

His eyes were filled with unwillingness, but his body had already begun to collapse. This was the prelude to the elimination teleportation.

you're asking me what I'm laughing at. I'll tell you. I've finally confirmed that none of you can leave this place today!

Tang Zhen said with a smile. His tone was extremely natural, and he didn't put the surrounding cultivators in his eyes at all.

2460 Can't afford to offend

kill him! If this human cultivator doesn't die, none of us can leave here alive!

Some of the cultivators in the city shouted. They didn't expect Tang Zhen to be so arrogant that he would dare to take the initiative to attack.

No matter what, he had to be killed!

There was no need for anyone to command them. The remaining twenty or so cultivators of loucheng city swarmed forward and killed their way through.

The glint of blades and the shadow of swords broke bones and tendons.

Both sides were determined to kill, and there was no hesitation when they attacked. White light rose almost every second.

As long as the battle did not stop, it meant that Tang Zhen had not died.

The cultivators surrounding Tang Zhen suddenly became terrified. They had only just realized that Tang Zhen had become so powerful.

He single-handedly fought more than 20 enemies and showed no signs of defeat. On the contrary, he killed the cultivators of Lou Cheng with one sword after another.

As a result, the cultivators in Loucheng who were originally going to kill Tang Zhen began to hesitate.

The competition had just begun, and there was still a long way to go. They didn't want to be eliminated just like that. It would be a great loss.

Especially when they saw that the spectators nearby all had cold faces that had nothing to do with them, they couldn't help but feel regret.

If I hadn't attacked just now, I might not have suffered such losses. Now that I'm in danger, who can help me?

The enemy's mood was restless, but Tang Zhen became more and more courageous as the battle progressed. Because of the increase in his level from killing the tree demon monsters, he was in a crushing position.

At this moment, he was filled with heroic spirit. The fierce enemies in front of him were destined to be the souls of the dead under his sword!

When he killed another enemy, the remaining cultivators of Loucheng couldn't hold on any longer and scattered.

The surrounding spectators shook their heads.

As the saying goes, the onlooker sees more clearly. In fact, they had already seen that these cultivators in the tower City could not kill Tang Zhen at all.

However, they still hoped that the cultivators surrounding Tang Zhen would be able to hold on for a while. What if they really killed Tang Zhen?

"Hahahahaha!"

Tang Zhen laughed out loud when he saw the cultivators of Loucheng fleeing in all directions. At the same time, he swept his sharp eyes across the surroundings in an extremely arrogant manner.

Seeing this, the surrounding spectators all avoided his gaze, not wanting to have any contact with this crazy human cultivator.

This intense battle where the few of them won against the many had completely proved Tang Zhen's strength. Currently, there was no one who dared to provoke him.

In fact, his health bar was already at its end. If he suffered another heavy blow, he would definitely be eliminated.

This was the price he had paid for killing nearly forty cultivators of Lou Cheng. While eliminating the enemy, he had also suffered varying degrees of counterattacks.

However, from the beginning to the end, Tang Zhen did not reveal any clues. Instead, he became more and more courageous as the battle progressed.

The cultivators of Loucheng city who were participating in the competition were experienced and cunning, so it was not easy to hide from them.

The slightest bit of negligence would reveal a flaw, and then they would be attacked crazily.

However, Tang Zhen could still be considered safe at this moment. He had sufficient time to recover his strength.

According to the prompt he had obtained after the previous explosion, Tang Zhen found a corpse in the ruins and found a blood essence on it.

Tang Zhen quietly swallowed it. As he looked at his slowly recovering health, Tang Zhen's nervous mood finally relaxed a little.

At this moment, he was truly safe. Even if another powerful enemy attacked, he could fight for a few hundred rounds.

It's a pity that the tree demon illusion can only be used once. Otherwise, it would definitely bring a great advantage on the battlefield!

Tang Zhen secretly sighed in his heart. When he was besieged by a group of cultivators, Tang Zhen had no choice but to use the two spoils of war he had obtained.

One was the blood essence of a tree demon monster, and the other was the heart Core of a tree demon. These things could create a tree demon illusion and could only be used once.

Although he felt that it was a bit of a pity, this thing had saved Tang Zhen's life and also helped him kill more than 30 strong enemies. It could be considered to be put to the best use.

If those people who had tried to kill Tang Zhen knew about the truth, they would probably be so depressed that they would vomit blood. This was because they had just missed the best opportunity to kill Tang Zhen.

At this moment, the inner mansion area had already become Tang Zhen's private territory. He was searching for spoils of war in the ruins, and during this period, no cultivators from the building city came close.

The spectators not far away had already given up on the city Lord's mansion and turned to run towards other areas.

The monsters in the city Lord's mansion had already left, so there was no point in staying any longer. It was better to find a new leveling spot as soon as possible.

Moreover, there was Tang Zhen here. He had killed dozens of cultivators in a row. He was like a god of death.

Unless there was something wrong with his brain, no one would dare to provoke him.

"Let's go. Remember to bring those native cultivators with you. I want to know more about this world!"

The leader of the black-robed cultivators, who was watching the battle silently from a distance, turned his head and spoke to his subordinates. His tone carried a trace of unwillingness.

The facts had already proven that Tang Zhen's level had indeed surpassed them. They were unable to obtain the benefits here.

Tang Zhen's rapid rise had brought him an enormous amount of pressure. Right now, his mind was filled with thoughts on how to increase his level.

If he didn't work hard, he would be left further and further behind. This was something he couldn't bear.

The native cultivators who had been knocked out by the black-clothed cultivator had opened their eyes, but they still couldn't move their bodies.

The black-clothed cultivator's poisonous stingers could loosen the target's muscles. If the amount of poison was increased, it could turn the prey into pus and blood in a short time.

These native cultivators should be secretly glad that the black-clothed cultivator wanted to keep them alive to interrogate them for information. Otherwise, they wouldn't have been able to survive until now.

At this moment, tears and snot were streaming down the native cultivators' faces, and there was even liquid flowing out from under their bodies, emitting an unpleasant and stinky smell.

Although they were ashamed and resentful, they found it difficult to even breathe. It was impossible to commit suicide.

The humiliation in his heart was getting heavier and heavier. At the same time, he was also very confused. Where did these cultivators come from and what methods did they use?

After receiving their leader's order, a group of cultivators walked forward and carried these native cultivators on their shoulders like they were dead dogs.

"Let's go!"

The leader of the black-clothed cultivators looked at Tang Zhen who was standing in the ruins again. He shook his head and turned around to leave.

But at this moment, a clear sound suddenly came from a roof not far away.

"Who is it?"

The leader in black snorted and ran to the source of the sound. Then, he heard a scream.

A figure was rudely thrown over and fell in front of the cultivators of Loucheng on the roof, groaning in pain.

It's a mortal. I don't know when he was hiding in a corner. This guy can survive in the monster's nest, so he should have some secrets.

The leader glanced at the figure on the ground. After confirming that it was just an ordinary person, he lost interest in exploring.

"Take him and leave together!"

Upon hearing the leader's order, some cultivators stepped forward and prepared to take him away.

The man was shocked and immediately got up from the ground, no longer caring about the pain.

"Your Excellency, it's me. Please save me!"

Seeing that he was surrounded by cultivators from the tower, the man shouted in the direction of the ruins of the inner mansion.

“What?”

Seeing this, the leader in black was slightly stunned. He also turned his head to look at the inner mansion.

He saw a figure appear behind him in an instant and stand before him.

“You can’t take this person away!”

Tang Zhen looked at the black clothed leader and spoke in a faint tone. However, it carried a trace of unquestionable tone.
