

NATIONAL TRANSFER: NECROMANCER! I AM A DISASTER

Chapter Ten No One Can Upgrade Faster Than Me

【Level: 4 (99.00%)】

Lin Moyu looked at his stats and was about to upgrade again.

13 skeleton warriors are killing all around, and their experience is steadily increasing.

Compared with the previous level, this upgrade was faster, and it only took 50 minutes before and after.

"The number of skeleton warriors has increased, the density of monsters has increased, and the speed of killing monsters has not changed."

"This is why the upgrade rate has not decreased but increased."

Lin Moyu analyzed his current situation.

Now he has come to the depths of the novice dungeon, and there are level 6 and level 7 monsters everywhere.

Only the highest level 8 monsters did not appear.

The density of monsters increased here, which also caused him to gain experience faster.

Skeleton warriors are like tireless gold medal fighters, one by one, constantly harvesting the monster's life.

The only pity is that the monsters in the novice dungeon don't drop anything.

After all, this is a novice dungeon, a place for new professionals to adapt to actual combat, which is very different from the wild.

In the novice copy, almost all monsters are weakened as a whole.

The only monsters here are only level 8 monsters, which have not been weakened, maintaining the same strength as wild monsters.

When you reach level 8 and face level 8 monsters, you should already have considerable combat experience at that time.

The novice copy will also leave after level 8.

Therefore, level 8 monsters are just a bridge, allowing novice professionals to experience the strength of wild monsters in advance.

In this way, when you really go to the wild to fight monsters, you won't be in a hurry.

With the upgrade light beam appearing again, Lin Moyu finally reached level 5.

Attributes increase and skills improve.

The strength of the skeleton warrior also increased, and all attributes increased by 100 points again.

[Kill a level 7 brown bear, experience +70]

[Kill a level 7 brown bear, experience +70]

The skeleton warriors did not stop because of Lin Moyu's upgrade, they were still tirelessly looking for monsters, killing them in seconds with a knife in hand.

From the moment Lin Moyu entered the instance, the skeleton warriors never stopped.

"Hey, the upgrade has slowed down."

Lin Moyu found that after reaching level 5, the upgrade speed is greatly reduced.

Originally at level 4, killing a level 7 brown bear would gain about 0.2% experience.

Only need to kill 500 is enough to upgrade.

But after reaching level 5, killing a level 7 brown bear can only bring about a 0.1% increase in experience.

Then you have to kill 1000 to be able to upgrade.

The upgrade speed has been doubled.

"Based on this speed, it is very difficult for ordinary professionals to rise to level 12 in just one week."

"Even if we leave the copy and go to the outskirts of Xihai, there is not enough time."

"Xiajing Academy is really difficult to take the exam, and I don't know how my sister got promoted to level 16 last year."

Lin Moyu calculated in his mind that if he wants to take the Xiajing Academy, he must be at least level 12.

If you want to upgrade to level 12 within a week, then in the novice dungeon, you must upgrade to level 8 within 3 days at least.

After level 8, go to the outskirts of Xihai to hunt down more advanced monsters.

Only in this way is it possible to rise to level 12 within a week.

Thinking about it this way, Lin Mohan was able to advance to level 16 last year, which was really very, very fast.

Lin Moyu released his skills, exhausted his mental power again, and added 3 skeleton warriors.

A total of 16 skeleton warriors are constantly looking for and killing monsters.

For Lin Moyu, the time spent finding monsters is much higher than the time spent killing them.

Isn't it just killing more than 1,000 super monsters, and assigning them to 16 skeleton fighters is not much.

At most one hour more, he can be promoted to level 6.

Who made him fight more.

Lin Moyu kept moving forward, and the skeleton warrior opened the way for him, finding out all the monsters hidden in the grass one by one.

After walking for a while, the terrain of the dungeon finally changed.

The prairie came to an end, and a forest appeared in front of it.

Lin Moyu knew that this was the end of the novice dungeon.

The level 8 monsters in the dungeon are hidden in the woods.

"It took 6 hours and 42 minutes to enter the dungeon, less than 7 hours, and I am the only one who can reach the end of the dungeon."

It has only been 7 hours since the dungeon opened, and most people probably only reached level 3.

Even Xia Xue is at most level 4, or even less than level 4.

Lin Moyu believes that he can upgrade faster than anyone else.

He kept walking towards the woods, wanting to see how strong the level 8 monsters were not weakened.

Is it enough to fight your own skeleton warrior?

It's also good to prepare yourself for going to the wild tomorrow.

The Skeleton Warrior opened the way ahead and ran into the forest one step ahead of Lin Moyu.

There was a clicking sound in the forest, and the skeleton warriors ran fast in the forest looking for monsters.

"No fault?"

The skeleton warrior didn't find the monster.

Lin Moyu felt strange, and he followed in.

The moment he walked into the forest, a branch yanked over violently.

The branch fell on Lin Moyu like a long whip like lightning.

The speed was so fast that Lin Moyu had no time to react.

The branch, which seemed to be powerful, did not cause any harm to Lin Moyu.

Lin Moyu didn't even feel the slightest, as if there was an invisible shield outside his body, protecting himself.

Passive Skill: Damage Transfer.

Any damage he takes will be automatically transferred to his summons.

He will not take any damage until the summoned object dies.

It is really a divine skill, not much worse than a god-level talent.
