

NATIONAL TRANSFER: NECROMANCER! I AM A DISASTER

Chapter 11 Kill All And Come Out

Lin Moyu saw clearly the owner of the branch, a big tree about three meters high.

Lin Moyu's fingertips glowed slightly, and the detection technique was released.

Detection is a skill that everyone knows, and it can obtain some basic information.

【Long Whip Tree】

【Level: 8】

[Introduction: Usually in a dormant state, it will attack passing life forms.]

Why didn't the skeleton warrior attack when it ran over just now.

Skeleton warriors are not living beings and have no breath of life.

So the skeleton warrior will not cause the whip tree to attack.

And when he came in, the Long Whip Tree attacked him.

The whip tree continued to attack Lin Moyu.

Although it will not cause any harm, Lin Moyu is not a fool, it is impossible to stand like this and let you hit him.

Quickly retreated tens of meters, out of the attack range of the long whip tree.

The long whip tree does not move, and it will not attack after Lin Moyu retreats.

The long branches are constantly dancing, as if in vigilance.

"It's really well-intentioned."

Lin Moyu understood the good intentions of the dungeon designer.

From low-level monsters that have been greatly weakened, to level 8 monsters with the same strength as the outside world.

They also selected level 8 monsters, choosing such a plant-based monster that can sneak attack but can't move.

The long whip tree has the characteristic of sneak attack, allowing novice professionals to experience the dangers of the wild early.

The long whip tree cannot move, and there is no such thing as chasing and killing professionals.

Once in danger, novice professionals can retreat calmly and get out of its attack range.

Moreover, the attack range of the long whip tree is exactly the same as that of several long-range occupations.

This also cuts off the possibility of remote career opportunism.

It is designed so that novices can play against real level 8 monsters in a safe situation.

The entire novice dungeon has the atmosphere of protecting novices and cultivating newcomers.

In the case of reducing casualties as much as possible, let the newcomers adapt to actual combat and grow.

The skeleton warrior ran back amidst bursts of toothache clicking.

A total of sixteen skeleton warriors guarded Lin Moyu like an army.

With a thought of Lin Moyu, a skeleton warrior rushed towards the whip tree.

To the non-living body like the skeleton warrior, the long whip tree didn't respond at all.

It wasn't until the skeleton warrior made the first move and slashed at the tree with a big knife in his hand that the whip tree began to fight back.

The huge branch was like a long whip whipped on the skeleton warrior, making a metal beating sound.

The whip tree's attack speed was very fast, the branches danced like crazy, and three or four attacks landed on the skeleton warrior every second.

But the attributes of the skeleton warrior are too high, as high as 550 physique, super thick blood volume and defense.

Some small cracks appeared in the attacked bones, but they quickly recovered.

"Huh? Didn't get killed in seconds!"

Lin Moyu was slightly surprised.

The monsters from level 1 to level 7 are all the result of a one-shot kill, but when it comes to level 8 monsters, the situation has changed.

The Skeleton Warrior failed to instantly kill the target for the first time.

"Is this the strength of wild monsters? See how many knives you can withstand."

One knife, two knife, three knife.

After four cuts, Long Whip Tree stopped all movements.

[Kill level 8 long whip tree, experience +160]

Seeing the reminder, the experience is much more than that of the level 7 brown bear.

Lin Moyu calculated that in terms of cost performance, it would be more cost-effective to kill level 7 monsters.

After all, it's 1 knife and 70 experience points.

The long whip tree at level 8 needs 4 knives and only 160 experience points.

It looks high, but in fact, the single-handedly cost-effective price has fallen.

However, we must also consider the problem of finding strange time.

If you spend all your time looking for monsters, it would be uneconomical to find low-level monsters.

Looking at the forest ahead, there are densely packed trees, most of which are level 8 long whip trees.

As long as you look carefully, long whip trees can still be distinguished from ordinary trees.

Here, don't look for blame.

There are hundreds of them just as far as the eyes can see.

In this way, the efficiency is greatly improved.

This is simply a treasure land for leveling for him.

Even Lin Moyu was a little excited at this time.

With a thought, the skeleton warriors immediately separated and rushed towards various forests.

The knives in their hands kept falling on the whip tree.

Four knives each, very straightforward.

Experience started to soar again.

Everyone else's upgrade speed is greatly reduced after level 5, but Lin Moyu is getting faster and faster.

It was originally expected to take more than an hour to complete the upgrade.

As a result, after only 50 minutes, Lin Moyu was promoted to level 6.

Outside the dungeon, the sky gradually darkened.

The time has come to 7 o'clock in the evening.

It has been a full 10 hours since I entered the copy at 9 o'clock in the morning.

Lu Yun, the principals, and Xia Dongyang still did not move.

They had already had tea for the day, and it was brought to them when they ate.

Several principals are like this every year, and they will always guard the students on the first day they enter the novice dungeon.

Although accidents are rare, there is no guarantee that there will be no accidents.

Because it is actual combat, injuries are unavoidable, but there have also been cases where students died in novice dungeons.

Xia Dongyang didn't leave either. Xia Xue was in the dungeon, so he, a father, was also worried.

He missed his daughter's class transfer ceremony, and he didn't want to miss her daughter's first instance.

The entrance of the dungeon suddenly emitted a brilliant light, and everyone looked up at the entrance of the dungeon at the same time.

"Someone came out."

"It's not time yet, so there must be an accident."

There are two entrances and exits in the dungeon, one is in the deepest part of the dungeon, you can see it through the forest guarded by level 8 monsters.

The other is where you enter the dungeon, and you can also exit the dungeon from here.

Lin Moyu stepped out of the light.

Lu Yun walked over quickly, "Mo Yu, why did you come out?"

Lin Moyu said softly, "If you kill them all, you will come out."

Kill them all and come out.

This made Lu Yun unable to understand for a while.

Lin Moyu spoke too calmly, without even a little expression on his face.

In the next second, Lu Yun saw Lin Moyu's level.

【Lin Moyu, Necromancer, Level 7】
