

NATIONAL TRANSFER: NECROMANCER! I AM A DISASTER

Chapter Thirteen Shenxia Empire Exchange

"Xiaoxue!"

Xia Dongyang's voice brought Xia Xue back to her soul.

"Dad, why are you here?" Xia Xue walked up to Xia Dongyang and called obediently.

At this moment, Xia Xue didn't look arrogant at all.

Xia Dongyang's eyes were doting, "Let's go, let's go back."

Xia Dongyang came by car, so he didn't need to go back with the imitation bus.

Xia Xue followed Xia Dongyang into the car, but she couldn't stop looking at Lin Moyu.

She really wanted to see through Lin Moyu, really wanted to know how this guy got to level 7.

Xia Dongyang noticed his daughter's eyes, "Are you competing with Lin Moyu?"

Xia Xue was like a deflated ball, "Yeah, I lost again, this guy is too hateful."

Xia Dongyang laughed haha, "Do you want dad to take care of it..."

"don't want!"

Before Xia Dongyang could finish speaking, Xia Xue had resolutely refused.

"My own business, I will solve it myself, and I will not lose to this idiot forever."

Xia Xue snorted, the fighting spirit in her eyes was burning.

Xia Dongyang smiled even more happily, "Okay, then dad doesn't care. But dad wants to tell you that Lin Moyu came out in 10 hours, and he came out after killing all the level 8 monsters in the novice dungeon of."

Xia Xue was startled again. . .

Killed all level 8 monsters. . .

She thought that she had just walked to the area of level 7 monsters, and she had never seen even level 8 monsters.

She felt that she could single out a level 7 monster at level 5, which was already very powerful.

Unexpectedly, Lin Moyu killed all the level 8 monsters and came out two hours earlier.

In other words, if there were more level 8 monsters, maybe this guy would be promoted to level 8 directly.

"Is there such a big gap between me and him?" Even if Xia Xue refused to admit defeat, she was a little frustrated now.

Xia Dongyang said, "Each profession has its own characteristics. Some professions are powerful when they are low-level, and some professions will only exert their strength later. It doesn't matter if you win or lose for a while. Compared with him, you have an advantage."

Xia Xue understood the meaning of Xia Dongyang's words.

Her advantage is her family status, enough money, and enough resources.

Whether it is props, equipment, or skills, there is no shortage.

And someone like Lin Moyu who has no money and no power will lack money, equipment, skills and props later on.

"Anyway, I won't admit defeat. Even if you lead now, I will surpass you in the future."

Xia Xue just slumped for two minutes, and once again ignited her fighting spirit.

Xia Dongyang is very satisfied, this is what his daughter should look like.

On the school bus, Gao Yang purposely sat with Xia Dongyang, "I'm already level 4, I'm so good. It's very fun to bring my sister to fight monsters together, it's much more interesting than you alone."

Lin Moyu looked at this bastard, and asked him where would he not be happy?

"I'll go, I didn't pay attention just now, you are already level 7, how did you practice?"

"Have you cleared all the monsters in the dungeon?"

"I worked so hard to reach level 4. How did you get to level 7? Are you a fairy?"

Gao Yang's voice was so loud that the entire bus could hear it.

Only then did everyone notice that Lin Moyu had really reached level 7.

When everyone is around level 3, and level 4 is considered awesome, Lin Moyu has already reached level 7.

All of a sudden the bus became lively.

Although many people are still afraid of Lin Moyu and the skeleton warriors he summons.

But it is also the normal psychology of many people to be close to the strong.

Someone wanted to talk to Lin Moyu and get in touch with classmates.

But Lin Moyu's silent appearance, coupled with the horror of the skeleton warrior, still made them hesitate.

"Quiet!"

Lu Yun gave a low drink, and the bus that had just started to make noise suddenly fell silent again.

Gao Yang rubbed his head, "I was too excited just now, Boss, can you take me to level up?"

Lin Moyu said, "If there is a chance, yes."

Gao Yang was overjoyed immediately, "Then it's settled."

Early the next morning, Gao Yang couldn't find Lin Moyu at the school gate.

"Mr. Lu, why isn't Lin Moyu here?"

Lu Yun said, "He went to the suburbs of Xihai City."

ah?

Only then did Gao Yang realize that he was played by Lin Moyu, no wonder he promised so happily yesterday.

He couldn't help but let out a scream, "Lin Moyu, you cheated on me."

"I would have set my heart to the bright moon, but the bright moon shines in the ditch. I can't finish with you. I want to fight you!"

Lin Moyu has already arrived in the south of Xihai City by car.

The tall city wall runs across here, separating the living area of the human race from the monster area.

Leaving the city wall will enter the wild monster area, where the weakest monsters are all level 10.

Compared with the monsters in the novice copy, the monsters here are much stronger.

Similarly, you can gain more experience by fighting monsters here, and you can also harvest various materials.

With a little luck, some monsters will even drop weapons and equipment.

These things can be used by themselves or sold for money.

There are many shops on both sides of the street at the entrance and exit of the city wall.

There are blacksmith shops, weapon shops, jewelry shops, armor shops, and more.

The most important of these is the Shenxia Empire Exchange.

The exchange is officially opened by the Shenxia Empire, and it spreads across large, medium and small cities across the country.

In the exchange, you can freely buy and sell equipment, materials and other items.

That is, you can sell things directly to the exchange, or you can consign them on the exchange.

In addition to buying and selling equipment, various tasks can be handed over in the exchange.

This is the first time for Lin Moyu to come to the exchange, and he has only seen it in books before.

In the Shenxia Empire Exchange, there are hundreds of stone pillars half the height of a person.

A magic crystal is inlaid above each stone pillar, and all functions of the exchange can be completed through this magic crystal.

The exchange is also known as the highest skill embodiment of god-level alchemy.

Lin Moyu found an empty seat and put his hand on the magic crystal.
