

NATIONAL TRANSFER: NECROMANCER! I AM A DISASTER

Chapter Fourteen Two Worlds Inside And Outside The City

The Shenxia Empire Exchange is only open to the citizens of the Shenxia Empire.

Lin Moyu has the permission to use the exchange, but the permission level is very low, only one level.

If you want to have greater authority, you can only increase your contribution.

But that's all for the future and has nothing to do with him for the time being.

He took a quick look at the items for sale on the exchange.

Weapons, armor, jewelry, materials, everything.

But everything is not cheap.

Lin Moyu only has about 100 gold coins, which is not even the cheapest black iron weapon.

As for the more expensive bronze and silver grades, just take a look, and it has nothing to do with him.

After Lin Moyu wrote down the value of some low-level materials, he began to check the task again.

The level of monsters in the suburbs of Xihai City is concentrated between level 10 and level 20, which belongs to the low-level area.

The number of related tasks is not too much, most of them are tasks of collecting materials.

[Unlimited recycling of green sprout grass, each recycling price is 50 gold coins.]

[Unlimited recycling of black wolf fur, each recycling price is 20 gold coins.]

[Unlimited recycling of animal bones, each recycling price is 30 gold coins.]

Alchemists, alchemists, blacksmiths and other life professions will need a lot of materials for skill training.

They will process the materials into useful items and sell them to obtain a certain income.

During skill training, lifestyle professionals can also increase their level.

In this way, a good cycle has been formed, and even life professionals have a good room for development.

"Well, this task...is a bit interesting."

[Strategy level 14 West Sea Mine dungeon, get the dungeon boss, the crystal nucleus of the Goblin King.]

[Note: Only dungeon bosses with difficulty above the nightmare level will drop.]

The reward given by the task is 100,000 gold coins.

To be able to get such a price, it is obvious that this task is difficult.

The Xihai Mine is located in the south of Xihai City, just over 50 kilometers away.

Lin Moyu didn't plan to go, the level 14 dungeon requires a minimum level of 10 to enter the dungeon, his current level is not enough.

The dungeon difficulty can be divided into Normal, Nightmare and Hell.

How difficult is the nightmare level, Lin Moyu doesn't know.

According to the description in the book, the difficulty of the nightmare level is at least several times higher than that of the normal level.

Without a strong team, it is basically impossible to attack.

As for the hell-level difficulty, it is not something ordinary professionals can go to.

After watching it for a while, Lin Moyu left the exchange and came to the gate of the city.

"Lin Moyu, level 7, necromancer?"

The city gate guards took the exit certificate given by Lin Mo and confirmed Lin Moyu's information.

Although very puzzled, how did the seventh grade school agree to the other party going out of the city.

You must know that the monsters outside the city start at least level 10.

In the case of a difference of 3 levels, it is very dangerous.

But going out of the city proved to be true, and the city gate guards quickly passed the verification.

"Your certificate of leaving the city has come into effect. Unless there are special circumstances, you can freely enter and leave the major cities of our Shenxia Empire."

"There are a lot of monsters outside, pay attention to safety, and be careful in everything."

"If you can't, run back quickly. It doesn't matter if you lose face or not, your life is important."

"Especially at night, some monsters will specially choose night to carry out sneak attacks."

The gate guard kindly told Lin Moyu.

Lin Moyu saluted him slightly, "Thank you, I will be careful."

Walking out of the city gate, a gust of cold wind blows head-on.

The sky suddenly darkened for a few minutes, and the air was filled with oppressive atmosphere.

Inside and outside the city are like two worlds.

"This city wall is not simple!"

A city wall divides two worlds.

Lin Moyu stepped forward and quickly disappeared into the wilderness.

The air became more and more oppressive, and seemed to smell of bloodthirsty.

From time to time, the roar of beasts could be heard in the distance.

Occasionally, people can be seen fighting monsters here.

Basically all occupations above level 10.

The city wall behind him has long disappeared, and his sight is shrouded in a thin layer of fog.

With a thought, a skeleton warrior walked out of the summoning space.

At this time, there were 28 skeleton warriors in the summoning space. After recovering his mental strength through meditation last night, Lin Moyu summoned 4 more skeleton warriors.

Lin Moyu looked at a monster twenty meters away, "Go, kill the monster in front."

The skeleton warrior ran over with a clicking sound.

At the same time Lin Moyu also threw a detection spell in the past.

【Goblin Patrol】

【Level: 10】

【Power: 120】

【Agility: 50】

【Spirit: 50】

[Physique: 120]

[Skill: None]

A level 10 goblin patrolman with a ferocious face, holding a mace.

This monster is mainly based on strength, and its agility and spirit are pitifully low.

The physique is not bad, which shows that the skin is rough and the flesh is thick.

But this kind of attribute is nothing compared to the skeleton warrior whose four-dimensional attribute reaches 750.

Here, the main monsters are the goblin hordes.

They occupy a very large area, all the way to the West Sea Mine, 50 kilometers away, belong to the goblin group.

The skeleton warrior rushed to the goblin in the blink of an eye.

The goblin noticed the skeleton warrior and launched an attack first, and the mace smashed towards him with a whistling sound.

The skeleton warrior was hit by the mace without dodging or evading, making a loud bang.

The goblin patrol was so powerful that even the skeleton warrior couldn't help shaking.

But that's all, the skeleton warrior has already raised the tattered sword in his hand and slashed at it.
