

NATIONAL TRANSFER: NECROMANCER! I AM A DISASTER

Chapter Fifteen Rampage, Unstoppable

The goblin patrol was slashed, screamed, and swung the mace harder to fight back.

So you hit me with a stick, and I cut you with a knife.

You hit me, you come and go, the fight is exhilarating.

The mace hit the skeleton warrior, except for making it shake a few times, it couldn't cause any real damage.

However, when the skeleton warrior's knife fell on the goblin patrol, it did real damage.

After five cuts, the goblin patrolman let out a scream and fell into a pool of blood.

[Kill level 10 goblin patrols, experience +300]

[Obtain Goblin's bones.]

There is an extra bone material in Lin Moyu's storage space.

Everyone will get a storage space after changing jobs, and as the level increases, the storage space will also become larger.

Various items, materials, equipment, and food can be stored inside, which is very convenient.

Lin Moyu tried whether he could put the skeleton warrior in it, but he couldn't.

After killing a goblin patrolman, Lin Moyu already knew the strength of a level 10 monster.

Generally speaking, there is not much difference between monsters of the same level.

With a thought, all 28 skeleton warriors were released.

Just like in the novice dungeon, these skeleton warriors quickly dispersed and began to look for enemies individually.

The density of monsters in the wild area was much higher than that of the novice dungeon, and Lin Moyu's experience began to rise rapidly again, faster than in the novice dungeon.

[Kill level 10 goblin patrols, experience +300]

[Obtain Goblin's bones.]

[Kill level 10 terrifying gray wolf, experience +280]

[Obtain wolf skin.]

The reminder started swiping the screen like a bullet screen, and Lin Moyu was a little dizzy watching it.

At this rate, it would take less than an hour at most to reach level 8.

"That's right."

Lin Moyu clenched his fist, feeling a little excited in his heart.

At this rate, it shouldn't be a problem to reach level 15 before the big exam.

As for the higher level, it's hard to say, it depends on the experience changes after level 10.

The skeleton warriors strode forward, which also attracted the attention of some professionals.

When they saw the skeleton warrior for the first time, they thought it was a monster.

After using the probe, it was discovered that this was a summoned object.

It's just that this summon is too strong, killing a level 10 monster is as easy as chopping melons and vegetables.

Some people already want to find the summoner through the skeleton warrior.

Fortunately, the skeleton warrior was far away, and Lin Moyu took back the skeleton warrior remotely, leaving the opponent without a trace.

Lin Moyu turned away from the wilderness and walked into the forest.

The terrain of the forest is complex, the vision is worse, and monsters are often attacked, which is more dangerous.

So most people don't like to go into the forest.

The skeleton warriors all scattered and wandered in the forest, and the complex terrain had no effect on them.

A topographic map gradually formed in Lin Moyu's mind, with every plant and tree clearly visible.

An hour later, the upgrade light appeared on Lin Moyu.

His level has reached level 8.

The skeleton warriors kept killing one monster after another without stopping.

Continuously bring experience and materials to Lin Moyu.

Nobody has ever been able to level up as easily as he has.

The mage's mental power will be exhausted.

Knights also get tired after a long fight.

Rest and recovery are required in any profession.

Skeleton warriors don't need it.

As long as they are alive and not broken up, they can go on forever.

"No wonder..."

Lin Moyu looked at the empty grove.

In just over an hour, the monsters inside had been emptied by him.

Lin Moyu had to leave the grove and go deeper.

Before he knew it, he was getting farther and farther away from Xihai City.

Going all the way to spawn monsters is no longer limited to level 10 monsters.

Level 11, 12 or even 13 level monsters can be killed casually.

At most, the skeleton warrior would cut a few more knives.

The physique of the skeleton warrior is there, you can't cut me down, but I can kill you.

It's that simple.

Level 8 characters brought a group of skeleton warriors with super high attributes, and where Lin Moyu went, not a single monster survived.

By the afternoon, Lin Moyu's experience had reached level 9 (99.0), just one step away from level 10.

At this time, the number of skeletons has reached 40, like a tired and terrifying army, rampaging in this area, no one can beat them.

"You can learn new skills at level 10, but unfortunately I don't have a skill scroll."

"It seems that we can only use innate skills to withstand it first. Fortunately, the innate skills are strong enough."

"Even if there are no new skills, it will not affect the upgrade."

Professionals can learn new skills every 10 levels.

There are three ways to learn skills, one is to teach from the instructor, the other is to learn through the skill book, and the third is to use the skill scroll to learn.

Hidden professions like Lin Moyu are basically taught without a mentor.

Moreover, he is still a unique profession, and there is no skill book for him to learn.

The only way is to learn through skill scrolls.

Skill scrolls can be bought in the exchange. The primary skill scrolls used by professionals below level 20 cost 100,000 gold coins each.

very expensive.

Using the skill scroll can randomly obtain the skills of this profession, but there is also a troublesome problem.

The skills learned by the skill scroll are random, and it is also possible to learn the skills that have already been learned.

If such an oolong incident occurs, the 100,000 gold coins will be in vain.

What's more, there will be more advanced intermediate skill scrolls and advanced skill scrolls in the future, and the price is even more astronomical.

But Lin Moyu wants to learn new skills in this profession, and this is the only way.

While Lin Moyu was thinking, the light of upgrade came on again.

Finally reached level 10.
