

NATIONAL TRANSFER: NECROMANCER! I AM A DISASTER

Chapter 18 Skeleton Warriors Can Also Be Used As Meat Shields

Lin Moyu has discovered the corner through the skeleton warrior.

In addition to the archers and mages I saw today, there is now another knight with a sword and shield on his back.

Three people surrounded them from different directions.

Ning Yiyi frowned, and her delicate face also wrinkled.

"It's endless, isn't it just an intermediate skill scroll, it's been chasing me for a few days, and I haven't given up yet."

Ning Yiyi stomped her feet vigorously, and said to Lin Moyu, "I'm leaving, I will play with you again when I have a chance."

Whoosh!

A sharp arrow shot from the darkness, Ning Yiyi reacted quickly and dodged sideways in an instant.

The sharp arrow exploded with a bang, turning into two beams of light and landing on Lin Moyu and Ning Yiyi respectively.

A huge mark suddenly appeared above the heads of Lin Moyu and Ning Yiyi, shining in the dark night, as if a bright headlight was on it.

"Oops, marked arrow!"

Ning Yiyi's face turned pale suddenly, she knew that something was wrong.

Lin Moyu thought about the description of the marked arrow.

This is an archer's skill that marks the target, making it stand out and making it impossible to go invisible.

Marked Arrows are very effective for Assassin classes, as they can limit the Assassin's stealth skills.

And when raiding dungeons, it can also be used to deal with some invisible monsters.

Marked by the archers, the stealth skills are limited, and it is very difficult to escape.

"You can't escape this time."

A sneer sounded, and the mage I met today came out of the forest.

On the other side, the archer is standing on the tree.

On the other side, the knights have also arrived.

The mage held the staff, his cold eyes swept over Lin Moyu and Ning Yiyi.

"I knew you were in the same group."

"A dirty mouse-like assassin paired with an evil and dark undead summoner is a good pair."

A faint light flashed in Ning Yiyi's hand, and a dagger glowing blue appeared in his hand, "He has nothing to do with this matter, I will give you the skill scroll, and we will go our separate ways."

The archer on the tree chuckled, "It would be no problem if it was a day ago, but now, we think it's safer to kill you."

The mage then said, "The dead are the safest, so that no one will know that we have intermediate skill scrolls, which saves a lot of trouble."

Ning Yiyi whispered, "I'll hold them back for a while, you run away by yourself."

Lin Moyu looked at her, "What about you?"

"I am a shadow assassin, night is my home field, and I naturally have a way to get out."

Lin Moyu knew that Ning Yiyi was just talking, if Ning Yiyi had really fought well, she wouldn't have escaped today.

Obviously the opponent is stronger.

As a shadow assassin, he might be able to get away before, but now that he is hit by the archer's marked arrow, his stealth skills will be invalidated, and it will be difficult to get out again.

The archer said in a deep voice, "The night is full of dreams, don't waste time, let's do it."

The mage raised his staff, "Not only you are going to die today, but this little guy is going to die too."

The staff burst out with brilliant light, and a huge ball of light rose into the sky, illuminating the surrounding area like daytime.

Illumination!

The mage's lighting technique can not only be used to illuminate, but also to dispel darkness and improve the mage's spell hit rate.

The most important thing is that the lighting technique can also restrain the assassin's stealth skills.

This also made Ning Yiyi even more uncomfortable.

"It's going to be desperate."

A light flashed in Ning Yiyi's hand, and a blue dagger appeared in her hand, and her whole body tensed up.

The big eyes narrowed slightly, their eyes became sharp, and they began to look for opportunities.

The archer stands on the tree and has fully drawn the bow, ready to shoot at any time.

The knight also took off his sword and shield, and assumed a charge skill pose.

The mage's staff is shining brightly.

The three of them surrounded each other, leaving no chance for Ning Yiyi to escape.

At this moment, Lin Moyu raised his finger slightly, and a skeleton warrior appeared in front of him.

"Cut, it's a waste of effort!"

The mage showed a trace of disdain, as well as deep disgust.

"Big Fireball!"

The mage gave a soft shout, and a huge fireball with a diameter of one meter appeared out of thin air, shooting at the two of them with raging flames.

The big fireball can only be mastered by a mage at level 20, and it is very powerful.

Once hit, not dead but also injured.

"Hide away!" Ning Yiyi's pretty face changed, and she immediately pulled Lin Moyu back.

While sending out the big fireball, the mage instantly released the spiritual entanglement.

Ning Yiyi was pulling Lin Moyu back when she suddenly felt a weight on her body and her speed slowed down.

An invisible thin thread of mental power was extending from the staff, wrapping around the feet of the two.

While Ning Yiyi was entangled by mental power, the archer also made a move.

There was a humming sound on the bowstring, and an arrow shot out.

Jianji turned into three in the middle.

Three in a row!

One of the archer's skills, one arrow turns three, which can cause 3 times the attack.

At this time, the knight also launched a charge, charging towards the two at an astonishing speed.

"It's over!"

Ning Yiyi's face was pale.

She suddenly pushed Lin Moyu away hard, pushing him out of attack range.

At this moment, two skeleton warriors appeared on Ning Yiyi's left and right sides.

The three skeleton warriors were like three shields, firmly protecting Ning Yiyi.

The mage's big fireball landed on the skeleton warrior, and exploded with a bang, bursting into flames.

The archer's three consecutive beads fell on the skeleton warrior, making a metal-like impact.

At this time, the knight also collided with the skeleton warrior. The skeleton warrior remained motionless, but the knight was sent flying.

In the flames, the skeleton warrior walked out slowly, his whole body glowing with bluish-white light, without any signs of injury.

"How can this be!"

The mage couldn't believe it when he saw this scene.

He had already checked with control technique, Lin Moyu was only a level 10 necromancer.

The level of the summoned object cannot exceed the necromancer itself, and it is only level 10.

With his level 21 strength, he couldn't kill the opponent in seconds?

The archers and knights were also stunned. What kind of summoned creature is this? It's so strong.

Accompanied by the grinding sound of teeth acid, skeleton warriors appeared around.

A total of 44 skeleton warriors surrounded the three of them.
