

NATIONAL TRANSFER: NECROMANCER! I AM A DISASTER

Chapter 4 Have You Taken A Fancy To Our Silent Language?

He is a level 52 professional with a high level of detection.

Lin Moyu is only level 1, and his summons are actually hostile to him.

Through the detection technique, Zhang Qian saw the attributes of the skeleton warrior.

The attributes are ordinary and nothing special.

After all, Lin Moyu is only at level 1 now, so it is hard to see the strength of his profession from this attribute.

Maybe this skeleton warrior will become more powerful after the level is higher.

Zhang Qian waved his hand, "Thank you, work hard, maybe there will be something in the future."

Lin Moyu saluted Zhang Qian again.

The skeleton warrior walked behind Lin Moyu, making a clicking sound, accompanied by gusts of cold wind, which added a bit of horror.

When he went back, many students unconsciously stayed away from him.

Skeletons are so scary.

Gao Yang came over.

"Can I touch it?"

Lin Moyu nodded, indicating yes.

Gao Yang boldly reached out and touched the skeleton warrior.

The touch of the steel plate seemed a little cold again.

The flame on the head has no heat, and the closer it is to the flame, the colder it is.

Gao Yang asked, "Is this skeleton powerful?"

Lin Moyu shook his head, "Should be better than you."

"Really? I don't believe it, it looks a little tattered."

At this time, Lu Yun called Gao Yang's name, and Gao Yang responded, "I'll go to change jobs first, and I'll talk about it later."

Lin Moyu looked at the skeleton warrior and thought silently, "Recycle."

A vortex appeared in front of him again, and the skeleton warrior disappeared after entering the vortex.

The attribute bar of its own summoning space also changes accordingly.

It was originally [Summoning Space: 0/10].

Now it becomes [Summon Space: 1/10, Skeleton Warrior (Quantity: 1)]

Lin Moyu carefully checked the introduction of the summoning space.

The summoning space is the place where the summoning objects are accommodated. Summoning objects that are not usually used can be placed in the summoning space and can be summoned at any time when needed.

Summoned objects called from the summoning space do not need to consume mental power.

In other words, you can usually summon skeleton warriors, and then put them in the summoning space, and call them out at any time when needed.

Currently, the summoning space has a capacity of 10 grids, which can accommodate 10 skeleton warriors.

If the summoned object is injured, it can also recover quickly in the summoning space.

As the level increases, the capacity of the summoning space will also increase.

Lin Moyu thought of the picture he saw when he changed jobs just now.

The picture he saw during the job change was completely different from what others saw.

He saw a dragon, a huge dragon.

The dragon soared in the air, screaming in pain from time to time.

In an instant, it fell back to the ground, rolling wildly.

Lin Moyu saw that the dragon was covered with skeleton warriors, at least thousands of them.

Skeleton warriors waved their sharp blades and kept falling on the dragon.

Each blow inflicts ghastly wounds.

No matter how the dragon struggled, it was useless.

There was nothing the dragon could do except scream.

In less than a minute, the giant dragon fell down with a mournful cry.

Lombok completely lost its luster.

This scene let Lin Moyu know how strong the skeleton warrior is.

As long as a certain amount is reached, even giant dragons can be slaughtered like pigs and dogs.

Lin Moyu believes that he can reach that level one day, killing dragons like dogs.

The job transfer circle erupted with brilliant light.

Gao Yang's transfer is over.

[Advanced occupation of the main battle class: Sword and Shield Knight]

He really became a knight as Gao Yang wished.

And it's not an ordinary knight, but a high-level profession, sword and shield knight.

Although both are knights, there is an essential difference between the two.

Otherwise, he is not qualified to be named as a senior.

Gao Yang ran back excitedly, "Well, let me just say that I can be a knight."

Lin Moyu showed a rare smile and gave Gao Yang a thumbs up at the same time.

Gao Yang laughed loudly and patted Lin Moyu's shoulder, "We will play dungeons together in the future, and I will stand in front of you."

"How to say that sentence, let me think about it."

He patted his head, "If you want to kill me, just step on your corpse."

Lin Moyu was a little speechless, he couldn't stand this guy, and finally said, "You said it wrong."

Gao Yang said in surprise, "You are finally willing to speak. I deliberately said the opposite, didn't you notice?"

Found a fart.

What is deliberately contradicting, that is, contradicting, well, I still refuse to admit it.

What a joke.

Lin Moyu gave Gao Yang a disdainful look.

All job transfers are finally over.

Lu Yun took them back to the big classroom.

This time, 106 students from No. 1 Middle School changed jobs, among which Lin Moyu was a hidden job.

12 are transferred to the main battle class, 18 are transferred to the auxiliary class, and the rest are life classes.

This ratio is considered good, and Lu Yun is also very satisfied.

"Students, the job transfer is over."

"No matter what profession you change to, you must work hard to upgrade and improve your skill proficiency."

"Starting tomorrow, our novice upgrade dungeon in Xihai City will be open to all students."

"Students can enter the dungeon for actual combat upgrades."

"Students with life-related occupations don't have to worry, the school has arranged a life skills hall for you, and there are teachers in it who will teach you to master various life skills."

"I hope that in the big exam a week later, all the students can get good grades and enter the higher education institution of their choice."

The information in the novice upgrade dungeon is basically clear to everyone.

The monsters inside are concentrated between level 1 and level 8.

And the number is not many, the difficulty is very low.

It is much safer than the wild in Xihai City.

Of course, you can also go directly to the wild without going to the novice to upgrade the copy.

As for life and death, that's up to you.

When school was over, Xia Xue stopped Lin Moyu.

Gao Yang said with a grin, "Miss Xia, why, have you taken a fancy to our silent language?"

Xia Xue frowned, "Go away."

"Deling!" Gao Yang rolled very simply.
