

NATIONAL TRANSFER: NECROMANCER! I AM A DISASTER

Chapter 7 Let's Compare And See Who Can Upgrade Faster

Several assistants shook their heads.

Most of those who become auxiliary nurses are girls.

When these little girls saw Lin Moyu's skeleton warriors, they were so frightened to death that they formed a fart team.

Lin Moyu said lightly, "Mr. Lu, I also want to take the Xiajing Academy."

The meaning is very clear, I don't want to form a team, I want to solo.

Lu Yun was slightly surprised, "Do you know how difficult it is to take the Xia Jing Academy?"

Lin Moyu nodded, "I'm confident."

Lu Yun understood Lin Moyu's determination, "I hope you can succeed."

If you want to be admitted to Xia Jing Academy, the first thing you need is the grade requirements.

At least level 12 or above, and the insurance point must be level 15.

Last year, Lin Xiahan was admitted to Xiajing Academy as a 16th grade student.

In just one week, it is not easy to upgrade to level 12.

As for level 15, it was even more difficult.

The highest level of monsters in the novice dungeon is level 8, and it is impossible to upgrade to level 12.

And the danger level in the wild is much higher than that of the novice dungeon. For novice professionals like them, going rashly is just to die.

In addition to grade requirements, there are some other conditions.

You will have to wait until the final exam to find out.

At Lu Yun's request, several main battle professions have chosen to support.

Or a team of two or three.

Gao Yang chose a prophet to assist.

The Prophet can give him some buff status, and he can also treat him properly, so he is a good nanny.

After the formalities were completed, the school distributed weapons and equipment to everyone.

Soldiers are assigned different weapons according to different occupations.

"I'm handsome!"

Gao Yang got an iron sword and a shield, where he acted like the boss of the sky and my second son.

Lin Moyu also got a staff.

【Staff】

【Spiritual Power +1】

Not even a little bit of bonus, sub-level weapons and equipment.

Yes and no are the same, we can only pretend.

Xia Xue has her own weapon and doesn't need the school's.

Her weapon is a Dharma book. Lin Moyu can feel that there is not weak energy flowing in the Dharma book. It should be a good weapon.

Before entering the instance, Xia Xue said to Lin Moyu, "Let's compare and see who can level up faster."

Lin Moyu was noncommittal, neither agreeing nor refusing.

Xia Xue snorted, raised her head and showed her slender and white neck, "If you don't answer, it will be considered as your agreement."

As she spoke, she turned and entered the copy.

The corner of Lin Moyu's mouth twitched slightly, "So competitive."

He said something silently, and then entered the copy.

The environment of the novice dungeon is a prairie with lush grass, more than half a meter high.

Many smaller monsters hide in the grass and are hard to find.

The density of monsters here is not high, which is quite safe, so it also leads to a problem, the time to find monsters is longer than the time to blame.

The purpose of the novice dungeon is to let novices get used to fighting and get used to it.

Lin Moyu released four skeleton warriors.

"Go and kill monsters."

With a thought, the four skeleton warriors ran out in four directions.

Click click click.

When running, with gusts of wind.

"The speed is so fast!"

With an attribute of up to 150 points of agility, the running speed of the skeleton warrior is very fast.

In the blink of an eye, he had already run tens of meters.

At this time, a skeleton warrior waved the broken sword in his hand.

[Successfully kill Da Er Mian, experience +10]

The big ear immunity, which was only level 1, was instantly killed by the skeleton warrior.

Lin Moyu looked at the experience.

Experience increased by 1%.

Each level 1 monster can increase the experience by 1%, and you can upgrade by killing 100 monsters.

[Successfully kill Da Er Mian, experience +10]

[Successfully kill Da Er Mian, experience +10]

Continuous reminders appeared, and the four skeleton warriors kept finding the big-eared rabbit and killed it.

In just a few minutes, Lin Moyu's experience has increased by 10%.

This efficiency is too high.

Lin Moyu originally planned to stay in the novice dungeon for two days, and leave after leveling up to level 8.

Now it seems that it didn't take as much as two days.

Lin Moyu released his skills and summoned a black iron-level skeleton warrior again.

Then the skeleton warrior joined the team looking for the monster.

Lin Moyu sat down and began to meditate.

Half an hour later, Lin Moyu ushered in his first upgrade.

Level up, attributes increase.

The summoning space has changed from 10 to 20, which is enough to hold 20 summons.

The skill level also increases accordingly.

"I don't know if there is any change in the attributes of the skeleton warrior at level 2."

According to the knowledge obtained by Lin Moyu, as the skill level increases, the attributes of the summoned objects should also increase.

Because of the upgrade, the mental power was completely restored.

Lin Moyu activated his skills and summoned a black iron skeleton warrior again.

This time Lin Moyu noticed a difference.

The mental power consumed by level 2 skills has increased, and the cost of summoning a skeleton warrior has increased from 10 points to 15 points.

Although the level 2 skeleton warrior is still at the black iron level, his body is obviously brightened by three points.

The gray faded a lot.

At the same time, the cracks on the body are also less.
