

NATIONAL TRANSFER: NECROMANCER! I AM A DISASTER

Chapter Eight Psychic Attacks That Ignore Defense

Level 2 Skeleton Warrior, all attributes have increased by 100 points compared with level 1.

directly changed from 150 to 250

Lin Moyu knew that the increase was not that exaggerated, the main reason was that his talent was too strong.

Otherwise, the level 2 skeleton is 25 points for each attribute, and if it is upgraded by 1 level, each attribute will increase by 10 points.

Four-dimensional balance, the total amount increased by 40 points, which is considered normal.

Although it is not weak, it is not so strong.

The key lies in talent, the uniqueness of God-level talent.

This talent and the Necromancer profession are a perfect match.

Lin Moyu continued to use skills to summon skeleton warriors, increasing the number of skeleton warriors to 7.

The 7 skeleton warriors are like 7 gold-medal thugs, scattered in the novice dungeon to continuously kill monsters.

Regardless of whether it is level 1, level 2, or even level 3, under their tattered swords, they are all instant kills, without exception.

The attribute is too strong, even without any skills, the skeleton warrior has a very strong attack power.

"The strength attribute of 250 points should not be much worse than that of a level 10 fighter."

A mere level 2 skeleton warrior has an attack power comparable to level 10, and can walk sideways in the novice dungeon.

Most importantly, there are still 7 of them.

No, 7 is just the beginning.

After Lin Moyu recovers his mental power, he will continue to summon.

[Kill a level 2 gray cat, experience +20]

[Kill a level 3 brown dog, experience +30]

[Kill the Level 4 Blue-Eyed Mouse King, experience +40]

Instant kills, all the way are instant kills, without any suspense.

Facing an attack power of at least level 10, these monsters are only level 3 or 4.

Die without suspense, without pain.

Lin Moyu followed the trajectory of the skeleton and walked forward slowly.

As the skeleton warriors ran farther and farther, a map gradually formed in Lin Moyu's mind, which was the shape of the secret realm.

"Hey, there is such a function?"

A map is automatically formed where the skeleton warrior walks.

In addition to killing monsters, the skeleton warrior has also become a fully automatic map plotter.

In just one hour, the experience is almost full again, and it will face an upgrade again.

He even gave up meditation, such a fast upgrade speed, what kind of meditation do you want.

Just wait for the mental power to automatically recover to full when you upgrade.

The skeleton warriors stabbed each other fiercely and mercilessly.

At this time Lin Moyu saw a monster that was not killed by the skeleton warrior.

Grade 2 gray haired cat.

Lying in the grass, he was missed by the skeleton warrior.

"What a lucky guy."

Lin Moyu thought in his heart, and a blue flame burned on the palm of his hand.

Soul Flame!

This is his only offensive ability right now.

The cyan flame appeared on the level 2 gray-haired cat instantly like a teleportation.

The level 2 gray-haired cat let out a scream, its body twitched twice, and fell to the ground to die.

Facing the 10-fold increase in attack skills, the gray-haired cat is only left to be killed in seconds.

[Kill a level 2 gray cat, experience +20]

The gray cat was dead, but outwardly it showed no signs of being burned by the flames.

Lin Moyu understood, just like the skill description said, the soul flame attacks the target's soul.

This skill is a spiritual attack.

I was shocked again in my heart. The attacks of the spiritual system have one thing in common, that is, they ignore defense.

No matter how strong your physical defense is or how high your elemental defense is, you can't resist spiritual attacks.

"The hidden profession is really powerful, and the only two skills are very powerful."

"Even if there is no talent bonus, a necromancer will not be weaker than any legendary class."

Lin Moyu has his own judgment, which may not be comprehensive or objective, but he believes that his judgment is inseparable.

A beam of light rushed out from his body.

upgraded.

All attributes have been increased by 10 points again, and mental power has been increased by 20 points.

Skeleton warrior skills have also been upgraded to level 3.

The four-dimensional attribute increased by 10 points again, and after the increase, it increased by 100 points.

Four-dimensional reached an astonishing 350 points.

Lin Moyu continued to use the skill of summoning skeletons, and summoned 3 skeleton warriors in a row, making the number of skeleton warriors in the instance reach 10.

10 skeleton warriors rampage through the dungeon like mopping up.

[Kill the Level 4 Blue-Eyed Mouse King, experience +40]

[Kill level 5 blue wolf, experience +50]

. . .

Level 5 monsters are also one-shot kills against skeleton warriors.

Lin Moyu doesn't need to do anything at all, he just needs to wait for the experience to be gained.

According to this speed, at most 2 hours, you can upgrade to another level.

As for others, it is not bad to be able to upgrade to level 3 on the first day, and it will only get slower and slower later on.

After all, Lu Yun's requirement for them is to upgrade to level 8 in a week.

Level 8 can be admitted to institutions of higher learning.

Unless you want to take the top 50 prestigious universities in the country, you need level 9 or even level 10.

Outside the dungeon, several principals started chatting and comparing each other again.

They gathered around a table, made tea, and chatted shamelessly.

"I don't know how many levels this group of kids can advance to on the first day."

"Who remembers what level the previous highest record was?"

"I remember it was level 5. Su Qianxing before and Lin Mohan last year were both level 5."

"Su Qianxing and Lin Mohan are both rare occupations. This year's Xia Xue is also a rare occupation. They should be similar."

"From their upgrade speed on the first day, you can basically judge the upgrade speed in the next few days."

"If girl Xia Xue doesn't advance to level 5 on the first day, it will be difficult for her to enter Xiajing Academy."

Lu Yun listened to a few of them talking, and thought in his heart, "I wonder how many levels Lin Moyu can advance to, hiding his profession, it shouldn't be bad."

After level 5, the upgrade speed will be greatly slowed down.

The first day they said was actually 12 hours.

After everyone enters the dungeon, the countdown starts, and they will automatically leave the dungeon after 12 hours.

It depends on how many levels you can upgrade within these 12 hours.

Suddenly, a huge breath rushed over.
