

NATIONAL TRANSFER: NECROMANCER! I AM A DISASTER

Chapter 9 Faster And Faster Upgrade Speed

Lu Yun waved to the person who came, "Patriarch Xia, come and sit down."

Xia Dongyang, the head of the Xia family in Xihai City, Xia Xue's father.

There was still room on the table, so Xia Dongyang sat down unceremoniously.

"Hello principals." He greeted them after sitting down.

Xia Dongyang has a resolute appearance, not angry but arrogant.

Lu Yun poured Xia Dongyang a cup of tea, "Patriarch Xia is here to see girl Xia Xue."

Xia Dongyang smiled, "In the past few years, Xiaoxue has been taken care of by Principal Lu."

Lu Yun waved his hand, "I didn't do anything, girl Xia Xue is very smart, and this job transfer was also very successful."

Xia Dongyang said, "I heard from my family. I just returned to Xihai City today. Unfortunately, I didn't catch up with Xiaoxue's job change."

Lu Yun knew that Xia Dongyang was very busy and didn't have much time at home.

"We were just discussing whether girl Xia Xue can reach level 5 at the end of today's 12-hour dungeon. She wants to be admitted to Xia Jing Academy, and the difficulty is not small."

Xia Dongyang said, "It shouldn't be a problem, even if it's a little bit close, it doesn't matter, I can go ask someone."

Lu Yun shook his head, "I suggest you don't do this. I know Xia Xue's character. If you do this, she will hate you."

Xia Dongyang sighed, how could he not know.

Xia Dongyang changed the subject, "I heard that you changed jobs yesterday, and your school has a hidden job. Congratulations. I don't know what kind of job it is?"

Lu Yun's face lit up, "The name of the profession is Necromancer. It's a profession I've never seen before. It can summon skeletons. I don't know if it's powerful or not."

Not all hidden occupations are powerful, and it is not uncommon for garbage hidden occupations to appear.

Can you summon skeletons? It sounds a little sinister.

Moreover, the name of Necromancer doesn't seem very nice.

Dealing with the spirits of the dead is bound to make people's imaginations run wild.

Lu Yun saw Xia Dongyang's thoughts, "Don't worry, the kid Moyu doesn't talk much, but he is a good kid. His sister was admitted to Xiajing Academy last year."

"If girl Xia Xue goes to Xia Jing Academy, maybe you can still ask Lin Mohan to take care of her."

With Lu Yun, Xia Dongyang felt relieved.

Having known each other for many years, he knows best what Lu Yun is like.

In the novice copy, Lin Moyu received a message from the skeleton warrior.

[The limit distance has been reached, and it is impossible to continue away.

】

At this time, the farthest skeleton warrior was already 500 meters away from Lin Moyu.

The skeleton warrior stood 500 meters away and stopped moving forward.

Lin Moyu also knew that the skeleton warrior must keep a distance of less than 500 meters from himself.

Seeing that several other skeleton warriors were about to reach this distance one after another, Lin Moyu could only order them to come back.

It's impossible to be the shopkeeper by throwing your hands away, so Lin Moyu can only choose a direction to go deep into the dungeon.

10 skeleton warriors fanned out in front of them, keeping a distance of about 100 meters from Lin Moyu.

Any monsters on the road will be instantly killed by the skeleton warriors.

In the fourth hour of entering the dungeon, Lin Moyu ushered in the third upgrade.

【Name: Lin Moyu】

[Occupation: Necromancer (unique)]

【Level: 4 (0.00%)】

【Power: 40】

【Agility: 40】

【Spirit: 80】

[Equipment: None]

[Summon Space: 10/40, Skeleton Warrior (Quantity: 10)]

[Talent: Comprehensive Amplification (Level 1, Uniqueness)]

[Passive Skill: Damage Transfer]

[Active skills: Soul Flame (Level 4), Summon Skeleton Warrior (Level 4)]

After upgrading, Lin Moyu continued to summon skeleton warriors.

At this time, the spiritual power consumed to summon a skeleton warrior has reached 25 points.

Level up by 3 consecutively in four hours.

With more and more skeleton warriors, the upgrade speed did not decrease much, but rather accelerated.

Lin Moyu took his skeleton army and officially stepped into the second half of the novice dungeon.

A large number of level 5 monsters and level 6 monsters began to appear.

But in front of the skeleton warrior with a strength attribute as high as 450, it was all a matter of one knife.

[Kill level 5 blue wolf, experience +50]

[Kill a level 6 black panther, experience +60]

For Lin Moyu, the efficiency of killing level 1 monsters is the same as killing level 6 monsters.

So the higher the level, the better, and the higher the monster density, the better.

Three more skeleton warriors were summoned, and a total of 13 skeleton warriors wreaked havoc on the novice dungeon.

The experience value is increasing rapidly, there are more skeleton warriors, and the upgrade speed does not decrease but increases.

"At this rate, it will take less than an hour to upgrade again."

"Twelve hours on the first day of the novice dungeon, can I directly upgrade to level 8?"

"It's twice as fast as I expected. After reaching level 8, you can go to the outskirts of Xihai City, where there are higher-level monsters."

Lin Moyu has already planned his upgrade route in his heart.

To go to the outskirts of Xihai City needs the approval of the school, otherwise the guards in the city will not let him out.

Level 8 is the minimum standard and cannot be lowered.

[Kill a level 7 brown bear, experience +70]

As Lin Moyu continued to go deeper, level 7 monsters began to appear, and it was also a one-hit kill.

The novice copy is created for novices.

The intensity of monsters is low, the overall environment is simple, and the security is much higher than that in the wild.

So even though Lin Moyu easily leveled up and spawned monsters, he still didn't take it lightly.

In his memory, Lin Mohan once came back from the outskirts of Xihai City, bloody and injured.

She told Lin Moyu very seriously that the lion fights the rabbit with all his strength, and he should not be taken lightly under any circumstances.

Lin Moyu kept this sentence firmly in his heart.

Now he does the same.
