

A Father 1081

Chapter 1081: Country Girl Xi Xi, 6 Years Old, Aiming for Divine Minister, My Daughter Can Definitely Make It _3

"Ji Moli's Heavenly King avatar... has also fallen."

Yue Huanglong sighed.

"Lv Taibai... it seems he has touched that realm?"

A single breath had not yet been fully exhaled.

A look of horror quickly appeared in Yue Huanglong's eyes.

That realm...

No wonder Lv Taibai has such confidence.

Originally, Yue Huanglong had been sending people to watch Fang Hanshu, this Dajing Tenth-Rank Scholar, who, after becoming the Inner Sect Great Elder of the Qian Yuan Divine Sect, had always remained low-key.

But Yue Huanglong was well aware of Fang Hanshu's background.

Fang Hanshu, who cultivates the Vast Air, did not go to the Haoran Academy of Jiangnan Taoist Sect to study under the Confucian Saint; instead, he came to the Qian Yuan Divine Sect and joined the ranks of the Taibai Killing Star, notorious for his killings.

Yue Huanglong never underestimated Fang Hanshu.

Fang Hanshu... must still be at the Absolute Peak Level.

However, he had never seen Fang Hanshu take action before.

At least, during all the years he was assigned to Yuan Dao City to confront Lv Taibai, Fang Hanshu had been engrossed in academic pursuits within the Divine Sect Mountain Gate.

He had never seen him take action.

Only recently, when Yellow Sword Wine massacred the Su Family, did Fang Hanshu step in to suppress Su Leibao.

Yet even then, he had not made a move; merely his presence was enough to suppress the Qi Sea Martial Saint, Su Leibao.

"Originally, it was just Fang Hanshu; now... there's also the Underworld. The Underworld Yama is not weak, able to severely injure Huang Mei's past life with one move—a sneak attack, it seems—but still, it is extremely extraordinary and terrifying."

On Yue Huanglong's plump face was a look full of helplessness and irritation.

"It was hard enough to deal with just Lv Taibai, and adding Fang Hanshu makes it harder... and now there's the Underworld as well..."

"Thankfully, I was cautious enough this time; otherwise, I would have been slain as well."

"However... Lv Taibai, by slaying Huang Mei's reincarnation and Ji Moli's Heavenly King avatar this time, has thoroughly offended these two. Truly worthy of being the Taibai Killing Star... he really doesn't consider the consequences at all."

"You, Lv Taibai, may have touched that realm... but have the two monsters ranked higher than you on the Great God List and at Heavenly Gate Pass not touched it?"

Yue Huanglong sat on the chair, continuously drinking tea, his eyes flickering, engaged in an internal conflict, pondering, contemplating, and weighing the situation.

Yue Weizheng nearby was dripping with sweat, constantly brewing and pouring tea.

He, Yue Weizheng, almost had no father left.

He was naturally filled with fear.

After all, he had previously advised Yue Huanglong to make a move. If he acted, Yue Weizheng might have had to prematurely inherit the position of Dao Master...

After drinking about a hundred cups of tea.

Yue Huanglong's fat body slumped into the chair like a puddle of mud.

"Whew—"

"But thankfully, the Flat Peach Victory Meeting is about to begin, and Lv Taibai will lead the disciples of the Divine Sect on a trip to the Divine Capital. This finally gives me some breathing room."

This time... luckily.

He, Yue Huanglong, was decisive enough in his actions. Had he truly revealed his identity and acted, it would have been an uncontrollable situation.

Resolving the issue then would have been challenging.

...

...

Boom—!!!

Inside the small courtyard, a fierce wind suddenly swept by, and a vast Immortal Palace portal stood up repeatedly, only to be smashed by terrifying power into fragments!

It seemed as if a Divine Monkey, small in appearance, leaped within the Cloud Dome, its cloak-like flames spreading for miles, wielding a long stick, stirring up clouds and smashing the portal!

Time after time, the wind and clouds surged, with the airflow constantly changing like undulating curtains.

No one knew how long it took, but Li Che, leveraging the Tao Fruit Enlightenment Feedback of the [Dragon Elephant Vajra], continuously practiced the Divinity Transformation True Martial technique [Shattering Southern Heaven].

Finally, cracks appeared on the Southern Heavenly Immortal Sect's gate, as if countless Immortal Energy burst out of the ruptured portal, surging out!

Boom—!!!

The Heart-following Gold Iron Divine Rod changed myriad times in an instant, and all those myriad changes converged into one.

"Whew—"

"Huff—"

After a long while, the entire courtyard was left with nothing but intense heat, and the snowflakes that fell from the high sky due to the ceasing of battle anomalies evaporated into steam.

Li Che, with a robust and strong physique, his qi-blood winding like a Jiao Long, stood in the courtyard.

His jet-black, vigorous hair, like black lightning, continually lashed into the void.

The pupils in Li Che's opened eyes exuded dense, incense-like Golden Smoke, which began to grow increasingly thin...

Rumble—

Slightly moving his physique, an endless shadow of a stick flashed, and the Divinity Transformation True Martial-level stick technique was finally...

Mastered by Li Che!

In one breath, he directly crossed over entry-level, Minor Accomplishment, Major Accomplishment, and Master Realm, directly reaching the Transformation Realm!

Of course, it was because that once this martial art was mastered, it directly reached the Transformation Realm!

Moreover, aided by the 20% Tao Fruit Enlightenment Feedback, Li Che not only successfully mastered this Divinity Transformation True Martial but also attempted to lead the Divine Seed Swirl of this martial art toward the Sixth Acupoint of the human spine.

It seemed as though there was a sound of bones popping, a noise like the bones were under unbearable stress.

Unfortunately, even with the help of Enlightenment Feedback, Li Che's effort to shift the Divinity Transformation True Martial Divine Seed toward the Sixth Acupoint node didn't cover much distance.

It couldn't achieve a one-time success, but at the very least, he took an incredibly solid step and achieved the relocation.

This Divinity Transformation True Martial, which replaced the [Nine Heavens Mysterious Eagle Splitting Sky Fist], had a Divine Seed also harder to relocate than that of the Nine Heavens Mysterious Eagle Splitting Sky Fist.

However, once it reached the point of connecting to the Acupoint, it was just a matter of water grinding labor waiting for success.

But by now, Li Che had already activated five Qimen Nodes.

Chapter 1082: Country Girl Xi Xi, 6 Years Old, Aiming for Divine Minister, My Daughter Can Definitely Make It _4

The sixth Qimen node is extremely difficult to open...

This process of teleportation might take a long time and require enduring great pain.

But Li Che has no fear or hesitation. Since he chose the path of opening eight Qimen nodes, he intends to thoroughly develop the body's restrictions.

He will naturally strive to uncover the treasures of the body!

Bang! Bang! Bang!

Li Che stood tall, with qi and blood coiling around him like a Jiao Long.

Slightly closing his eyes, heavenly person sensing descended upon his body.

Encompassing everything of his body, more clearly than when using the primordial spirit to look within, as if observing the operation and changes of his flesh and blood from a third-person perspective.

It is precisely this heavenly person sensing that supports Li Che in opening the remaining Qimen nodes.

However, as heavenly person sensing moved like a serpent across his body, it ultimately locked onto the great bodily elixir within his dantian.

The great bodily elixir, appearing pure gold, as if the essence of the body was compressed to the extreme, contained and infused with explosive terrifying qi.

On the great bodily elixir, there was a crack that Li Che opened when he broke through to Martial Saint.

And now, beside that crack...

The second crack appeared with a sound like thunder rumbling through the clouds.

An extremely dense essence gushed out from that crack, transforming into surging Martial Saint Yuan Gang, filling the dantian!

"Open Human Pill, second crack!"

In the courtyard, Li Che's qi burst forth, a slight smile spreading across his lips.

The speed of progress pleased Li Che.

Indeed, the Martial Path requires battle...

And accumulating Dao Fruit's instant enlightenment feedback will greatly accelerate the improvement of his Martial Path.

After completing cultivation, the day had already brightened.

Lv Taibai successfully dealt with Ji Moli's heavenly king avatar, this was sensed through the Heaven and Earth chessboard.

Li Che originally intended to finish him off if possible.

However, Lv Taibai killed very cleanly...

Evidently one of those friends who kill frequently.

Li Che didn't participate, as he had already exhausted five Temple God Divinity Chess Pieces to deal with Huang Mei's past life.

Ji Moli transformed through his son Ji Lishou into a heavenly king avatar, and Li Che did not greedily intervene.

After all, he was soon to head to the Divine Capital.

For the Divine Capital, a place where the strongest gather, Li Che naturally needed to reserve some trump cards.

With five remaining Two Heart Great Saint Temple God Divinity Chess Pieces, they could still activate Yama Ascending Tower State once.

"It's not enough..."

Li Che sat under the eaves of the courtyard, the hot air not yet dissipated, melting the snow from the sky, forming streams continuously flowing down the eaves.

"Merely exploding five Qimen Divine Seeds can bring me to the ordinary level of Four-Open Martial Saint, which is a second-tier peak level..."

Li Che furrowed his brows, analyzing the current situation.

Currently, under the explosion of divine seeds and the amplification from Temple God Divinity Ascending, Li Che...

Could roughly categorize the subjective level of Four-Open Martial Saints, or Absolute Peak level.

Although a Four-Open Martial Saint, ascending the mountain path to the pinnacle beneath the heavenly gate, could be called Absolute Peak, there are still levels of strength within it.

Entering the Four-Open Martial Saint, at the level of barely glimpsing the heavenly gate, could be called second-tier peak.

Further up, those who attempt to push open the heavenly gate, like Yue Huanglong, are first-class peak, and figures like Huang Mei's past life and Ji Moli's heavenly king avatar can also be termed first-class peak.

If the bodies of Huang Mei and Ji Moli descended, they would be of the same level as Lv Taibai, the top-level peak standing before the heavenly gate!

This is Li Che's own experiential classification of levels.

Li Che used it to compare himself.

If he could explode five Qimen Divine Seeds with Temple God's Ascending, he might barely match a first-class peak.

"But the Two Heart Great Saint Temple God Divinity Chess Pieces are running out..."

"Need to obtain a different Temple God Divinity to supplement."

Li Che's eyes sparkled briefly, silently etching it in his heart.

Luckily...

Li Che had left his pieces in many strange temples.

For instance, the Tianpeng Mysterious Temple, the Miao Dao Xiansheng Three-Eyed True Monarch Strange Temple among the Four Royal Mysterious Temples...

And the Third Prince's Mysterious Temple in Golden Light Prefecture...

The risk of plucking Temple God Divinity Chess Pieces from the Four Royal Mysterious Temples would be higher though.

Of course, Li Che's cultivation was much higher than before, so he might yet be confident.

Besides the Four Royal Mysterious Temples, there were various Five Elders Strange Temples, Lv Xuan Sword Immortal and so on...

These strange temples might also give Li Che the opportunity to extract Temple God Divinity Chess Pieces.

At least, he could bid farewell properly before heading to the Divine Capital for the Flat Peach Victory Meeting.

Immersing his mind.

With sword fingers aligned, he tore through the air, and a piece of Qiankun Jade fell into Li Che's hand.

It was Master Huang Tuo's Qiankun Jade.

Li Che instinctively rubbed his hands together.

After all, he had witnessed Huang Tuo's generosity, ever since competing with him in divine sculpture skill, when those precious spiritual woods were laid out, dazzling Li Che's eyes.

Currently, Li Che not only required Four Imperial Divinity Crystals, but also had a tremendous need for spiritual wood.

He stimulated heavenly person sensing and forcibly tore apart the barrier of the Qiankun Jade.

This Qiankun Jade of Huang Tuo's... was the highest quality Qiankun Jade Li Che had ever seen, not only very spacious inside but also extremely hard, not easily damaged.

Chapter 1083: Countryside Girl Xi Xi, 6 Years Old, Challenges Divine Minister – My Daughter Will Surely Succeed _5

Li Che pondered for a moment, then directly used the Immaculate Heart Dao Fruit to siphon this Qiankun Jade.

With that, the Qiankun Space expanded once more. As his senses swept over, he began to inventory.

“Hiss—What is this?!”

Upon entering the Qiankun Space,

Li Che didn't even have time to count the Divine Crystals before his attention was captured by a piece of Spiritual Wood floating within, shrouded continuously by endless Buddha Light.

Inside the Spiritual Wood, there was a drop of blood, seemingly alive and possessing consciousness, like a tadpole, swimming within the wood like a fish in water.

The Star Plucking Pupil activated automatically.

Endless analysis, peering into illusion and returning to truth!

“Fourth-rank Lower Spirit Wood!”

“Buddha’s Heart Blood of the Millennium Pine!”

...

...

The heavy snow still fell unceasingly, and the whole Qianyuan Dao City gradually returned to calm.

Nevertheless, that day, the confrontation between Master Huang Tuo from Little Lingyin Temple and the Fifth Elder Li Che of Divine Carving Ridge, both Divine Sculpture Half-Saints, continued to create vast ripples, spreading across various levels of the Dao City.

As for the involvement of the Hunting King Killers from the Hunting God Pavilion, and the Underworld’s intervention... leading to the death of Master Huang Tuo from Little Lingyin Temple, this matter was suppressed and not widely spread.

The main concern was attracting the attention of the ruthless killing organizations, the Hunting God Pavilion, and the Underworld.

Many times, the death of life is like a breeze passing by; perhaps the storm is stronger, and people remember it deeply at the time, but slowly, when the winds calm, the traces of the deceased lives are gradually erased from the human world.

And the fall of strong figures like Huang Tuo and Wu Gang in Qianyuan Dao City caused less of a stir compared to the cleansing when the rumors and slanders about Huang Tuo were washed out by the thugs and hooligans.

The Dao Master Mansion directly organized a cleansing of thugs and hooligans in the Outer City and Inner City, eliminating those who smeared Li Che Half-Saint for participating in the Divine Sculpture competition while assisting Huang Tuo from Little Lingyin Temple. The Young Taoist Master Yue Weizheng, with the Divine Guard Army, personally led the operation and thoroughly purged them.

It could be said that rivers of blood flowed; for a time, the thuggish forces in Dao City underwent a complete turnover.

Li Che was aware of these matters only vaguely.

In the isolated courtyard of his independent workshop in Thunder Alley, Li Che had been in retreat for nearly ten days.

Beyond consolidating his Martial Saint cultivation, he completed the transformation of the essence energy that leaked from the second crack in the Human Pill he had just broken open into Martial Saint Yuan Gang.

Li Che's Martial Saint Yuan Gang was transformed from a Divine Seed Innate True Gang, with an exceptionally solid foundation!

The amount of his Martial Saint Yuan Gang was five times that of an ordinary One-Open Martial Saint!

Of course, besides consolidating his Martial Path cultivation, Li Che also began to cultivate madly with the Four Imperial Lower Divine Crystal obtained from Huang Tuo's Qiankun Jade, siphoning and accumulating Divine Cultivation.

Under the eaves of black tiles, a thick row of icicles formed.

Suddenly, an icicle swayed, unable to hold on, and fell from the eaves.

With a patter, it landed on Li Che's head.

However, it seemed to hit a piece of iron, as a clanging sound reverberated.

Li Che held a half-siphoned Four Imperial Lower Divine Crystal, slowly opening his eyes, causing the surrounding air to shimmer with invisible ripples.

“Such a pure divinity... Just the process of extracting divinity from the Divine Crystal is not easy.”

Li Che exhaled a breath.

He stood up, his muscles and bones crackling and popping.

His essence, qi, and spirit state reached an unprecedented level.

During these ten days, he stayed within the independent courtyard, though he was not entirely oblivious to the outside world.

He had the Heaven and Earth chessboard, with numerous well-placed Flying Thunder Chess Pieces ensuring he held a precise grasp over the safety of those close to him.

In these ten days, it was his Painting Immortal Avatar that moved about the outside world.

To maintain the realism of the Painting Immortal Avatar, Li Che infused almost a third of his divinity, qi, blood, etc.

This Painting Immortal Avatar was nearly indistinguishable from the real thing, akin to an indistinguishable double-identity.

Stretching lazily, Li Che began to receive the feedback information of the day.

Suddenly.

Li Che's eyes slightly narrowed.

"Xi Xi is preparing to break through to the Divine Phase Realm?"

In fact, it was this piece of news that made Li Che decide to end his cultivation retreat early.

Xi Xi's cultivation speed had already shocked the entire Qianyuan Divine Sect.

However, Lv Taibai was not too surprised.

After all, he debuted as a true prodigy Divine Child, having condensed his God Aspect at the age of six.

For Xi Xi, being Lv Taibai's disciple...

Keeping pace with her teacher isn't surprising, is it?!

However, Lv Taibai himself was taken in as a direct disciple by the former Sect Master of the Qianyuan Divine Sect at birth, nurtured in treasure medicine, honing his body and cultivating his divinity...

The resources he obtained were on an entirely different level from Xi Xi, a girl of humble rural origins.

But considering the constant feedback from the numerous Divine Weapons within Xi Xi's body, Lv Taibai was not too surprised.

“This young girl... intends to break through to the God Aspect, her Divine Aspect is the [Eight-Armed Three-Faced Hell Lotus Unbeatable Divine Aspect], which is a Divine Aspect born from the Three Pure Ones Divine Fetus Method!”

As someone who also practiced the Three Pure Ones Divine Form Method, resulting in the Heavenly and Earthly Spiritual Bright True Ape God Aspect, Li Che understood the inherent dangers well.

“Moreover, even just condensing the God Aspect... for the Three Pure Ones Divine Aspect, it will inevitably attract Tribulation Lightning. I wonder... can Xi Xi withstand it?”

In the courtyard, snow fell heavily as Li Che frowned.

Even though he had immense confidence in his daughter, Li Che couldn't help but feel a bit anxious at this moment.

He raised his hand.

Grasping his five fingers.

Instantly.

A Flying Thunder Divine Chess Piece was held tightly in his palm.

And his entire being seamlessly replaced the Painting Immortal Avatar that had been acting in his stead for ten days.

Whoosh—whoosh—

The mountain winds howled.

At the Daping on Taibai Peak,

after Li Che replaced his avatar and adjusted to the sights, he looked around.

The vast flight of snow whirled and spread, as big as hands, like goose feathers!

In the center of Daping.

The small figure of Xi Xi sat cross-legged in the snow.

A thick layer of snow covered her entire body, as if she would be completely shrouded and buried, turning her into a little snowman.

Before Taibai Hall.

One by one, figures stood.

Almost all the high-ranking members of the Qianyuan Divine Sect were present.

Lv Taibai, Sect Master's Wife Xuan Qisha, Great Elder Fang Hanshu, Second Elder Zhao Fangzhou...

Including Li Che, Zhang Ya, Old Chen, Nurse Momo, Li Qingshan, Jiao Shaoqiu, and others were all present.

Everyone was nervously staring at the vast Heaven and Earth and the snow-laden Daping on Taibai Peak.

Watching that...

the little girl who was gradually growing up was pushing through an extremely important threshold in her short life!

This threshold, no one could help her, the Divine Foundation filled, ingraining the Divine Aspect!

Xi Xi could only achieve this herself!

The fierce winds conveyed tension, as the fluttering and colliding snowflakes displayed anxiety.

Even Li Che couldn't help but clench his hand beneath the wide sleeve of his Golden Lotus Ink Shirt.

My daughter!

She can definitely do it!

Chapter 1084: Emperor Xi Xi Struck by Lightning at Age 6, Ominous Sign as Temple God Suddenly Appears [Requesting Monthly Ticket]

Whoosh whoosh whoosh—!

At the mountain peak, the fierce wind howled, innumerable snowflakes whirled, blurring the vision of most people present.

Li Che's black robe fluttered wildly, his hands behind his back, while his wife Zhang Ya was nervously clenching her fists, face pale, her whole body tense, emotions surging, unable to control her inner qi-blood.

For Zhang Ya, all she had was worry...

Worried about what if Xi Xi couldn't break through to the Divine Phase?

What if Xi Xi fails in the breakthrough?

Lv Taibai had told Zhang Ya that the Divine Foundation impacting the Divine Phase indeed carries some danger, and if the breakthrough fails, it might be countered by the divinity.

And Xi Xi's situation is even more complicated.

Because there are indeed quite a few Divine Weapons hidden within Xi Xi, although Lv Taibai hadn't explicitly told Zhang Ya exactly which Divine Weapons were hidden within Xi Xi.

But just by saying so, Zhang Ya actually already understood.

The Sect Master saying this...

It must be very dangerous!

"Husband... will Xi Xi succeed?"

Zhang Ya nervously grabbed Li Che's arm, looking up with several shades of worry on her face.

She looked towards Li Che, knowing that when Li Che switched places with his painting immortal avatar, when he personally held her cold hand, Zhang Ya knew her husband had returned.

The Painting Immortal Li Che directly told Zhang Ya he was just an avatar.

When the real husband returned, Zhang Ya's original nervousness dissipated somewhat.

As if as long as her husband was there, as long as Xi Xi's father was there, all problems would cease to be problems.

After all, her husband was the pillar of their small family!

The true head of the household.

Li Che's eyes flickered, his qi-blood flowing, warming his wife's cold palm: "Don't worry, you already know Xi Xi's talent, it's definitely solid."

"As for Xi Xi's Divine Weapons... they are all quite behaved."

Li Che smiled gently, putting an arm around his wife's fragrant shoulders, and said softly.

Zhang Ya, hearing this, exhaled a breath: "That's good... then I'm relieved, since husband uttered so, Xi Xi will certainly succeed!"

Zhang Ya smiled, her smile bright and beautiful.

Lv Taibai, with silver hair flying, stood at the entrance of Taibai Hall, his white clothes fluttering, beside him the Sect Master's Wife, Xuan Qisha, in the appearance of a little girl, looked enviously at Li Che and Zhang Ya.

Lv Taibai glanced at the lovey-dovey couple, also understanding in his heart, that the true Li Che should have returned.

Ever since knowing Li Che was the Divine Monkey, Lv Taibai knew Li Che mastered a top-level Clone Technique.

It was truly top-level, even Lv Taibai could not see through it.

He didn't believe it, even using Heaven and Earth Soul of god-level couldn't see through the authenticity of Li Che's Painting Immortal Avatar.

Perhaps only by grasping Dao Yun and achieving the Divine Tribulation Realm, opening a Small Cave Heaven, becoming the Master of Cave Heaven, might one discern the true from the false, see the rights and wrongs.

However, looking at the lovey-dovey couple, it was likely that the real Li Che had returned.

When did he return?

Lv Taibai was increasingly interested in the secret techniques of the Underworld.

However, Lv Taibai didn't pay too much attention, his gaze quickly shifted, falling onto the Daping.

Today, Xi Xi was the protagonist.

Initially, Lv Taibai wanted Xi Xi to retreat for a few more days, but unexpectedly, Xi Xi's rate of improvement was much faster than imagined, as if there were extra forces stimulating Xi Xi to grow stronger.

Lv Taibai was astonished in his heart, the growth rate of Xi Xi had already exceeded his expectations based on his predicted growth curve for Xi Xi.

Unfortunately, Xi Xi still hadn't broken through to the Great Master Realm, remaining stuck at the Master's Peak, unable to condense the Great Bodily Elixir.

Still, this wasn't strange; despite Xi Xi's martial arts talent not being low, after all, her age was too young, somewhat affecting the development of her physical body.

Regarding divinity, on the contrary, it wasn't much affected as long as you have talent, it's possible to achieve the Divine Phase at three years old.

Why do those Temple God reincarnations cultivate so quickly?

Because they don't cultivate the physical body much, they cultivate divinity, the physical body just needs to barely reach the level that can bear the divinity.

Thus, Temple God reincarnations have a very fast breakthrough speed.

However, if the physical body isn't strong enough and cannot grow in sync with the divinity, unless you're a Temple God reincarnation, normal divine cultivators will experience situations where the divinity is too strong for the physical body to bear.

Li Che, holding his wife Zhang Ya, stared at the center of the snow-flying Daping, where Xi Xi sat upright.

Unconsciously, Xi Xi had grown into a little girl, though her little tummy was still there, she had grown taller, much taller.

All this time, Li Che, although focused on cultivation in the small courtyard of the independent workshop, consolidating the Martial Saint Realm of two Human Pills, also gave Xi Xi specialized training of [Dream Master] Dao Fruit at night.

In the process of confronting opponents, Xi Xi would also receive feedback from the Dao Fruit.

So, Xi Xi had always been undergoing the baptism of Dao Fruit Power.

In order for Xi Xi to better break through to the Divine Phase Realm.

Li Che modified the specialized training of [Dream Master] Dao Fruit somewhat.

Originally, [Dream Master] Dao Fruit was bound to [Dragon Elephant Vajra], providing Xi Xi with specialized training "in the King of Fighters Arena."

While [Dream Master] Dao Fruit bound to [Immortal Artisan] Dao Fruit provided Xi Xi with specialized training "in the Divine Eagle Assessment."

Chapter 1085: Emperor Xi Xi Struck by Lightning at Age 6, Ominous Sign as Temple God Suddenly Appears [Requesting Monthly Tickets]_2

Li Che simulated three types of Divine Sculpture assessments in his dreams, and the rules were quite simple, as he directly adopted the assessment criteria of the Qintian Observatory.

In accordance with the assessments for Third-class Guest Official, Second-class Guest Official, and Divine Eagle Elder.

Of course, these three assessments were personally experienced by Li Che, so arranging them for his daughter, letting her walk through them in dreams, seemed quite beneficial.

About five days' [Dream Master: Divine Sculpture Assessment] cultivation, Xi Xi successfully grasped some Divine Sculpture skills, which was feedback given by the Immortal Craft Dao Fruit.

Divine Sculpture, aids Xi Xi in sculpting the divine image.

Of course...

Li Che could also assist Xi Xi in guiding and sketching the divine image, but if Xi Xi could accomplish it on her own, naturally, it would be best for Xi Xi to complete it herself.

Many cultivators indeed spend a price to seek help from the Divine Sculpture Master during breakthroughs to enhance their divine image.

However, such cultivators essentially cut off their path forward, with the future limit being the Divine Phase Realm.

Only these cultivators would choose to have the Divine Sculpture Master assist them in sculpting on their Divine Foundation.

And for those still harboring ambitions for the future, not willing to take shortcuts, they will choose to sculpt the divine image by themselves!

In fact, during the cultivation of the Divine Foundation Technique, the divine image prototype is often outlined within the Divine Foundation.

It's enough to sculpt and carve according to the outline.

[King of Fighters Arena] and [Divine Sculpture Assessment] provide significant benefits for Xi Xi, and it's also Li Che's method to share the abilities of his Dao Fruit with Xi Xi in another way.

Li Che also tried giving Zhang Ya and Li Qingshan the experience of [King of Fighters Arena], yet, after experiencing, they only received feedback on the qi-blood of defeated opponents, not Dao Fruit Energy feedback.

It's quite different with Xi Xi...

This point slightly surprised Li Che, but it was only a surprise, not feeling too baffled.

After all, Li Che obtained Dao Fruit largely due to his daughter, Xi Xi's birth.

It's a relationship bounded by father-daughter bonds.

Perhaps, it's precisely this relationship that allows Li Che to extend the amplification of Dao Fruit to Xi Xi via the [Dream Master] Dao Fruit as a bridge.

It's also how Li Che ensures Xi Xi's breakthrough towards the divine image and the Great Master Realm.

Dong dong dong—

Suddenly.

Everyone's eyes slightly narrowed, feeling an intense heat arising in the air!

"It has begun."

Sect Master's Wife, Xuan Qisha, clenched her tiny fist, her delicately adorned face showing a look of solemnity and anticipation.

Xi Xi is also considered half a disciple of hers, she naturally wishes to see her pupil grow strong!

Lv Taibai's silver hair fluttered, countless sword lights reflecting in his eyes, always prepared to assist Xi Xi in completing the divine image transformation, should the situation become truly perilous.

However, if so, it wouldn't be good news for Xi Xi.

The sound akin to a heavy heartbeat echoed in the ears of all present, even the snow on the Daping seemed to vibrate subtly due to a potent force!

Sitting cross-legged in the center of the Daping, Xi Xi suddenly had pitch-black flames erupting around her.

The flames were scorching hot, black as ink, as they burned, the ground's snow rapidly melted, cleaning up a vacant area.

Prison Lotus Fire!

Xi Xi cultivated the divine method known as [Eight-Armed Three-Faced Hell Lotus Undamaged] Divine Embryo Method, which extends only to the divine fetus, yet for Xi Xi at present, it's more than adequate.

This method belongs to the Three Pure Ranks, cultivating the "Prison Lotus Fire".

In fact, whether Li Che, or the Eleven Divine Sects, many cultivators of the Da Jing Dynasty have detected the unusual significance of "Prison Lotus" from the myriad mysterious temples they've encountered.

Many methods are adorned with Prison Lotus, even several temple gods are inseparable from Prison Lotus.

Similar to the Golden Light Prefecture's Eight-Armed Prison Lotus Furious Third Prince's Strange Temple, even the Four Imperial Levels Strange Temples are intertwined with the "Prison Lotus".

As with the Six-Eared Prison Lotus Divine Monkey Two-Minded Great Sage Strange Temple just absorbed by Li Che, it bears the name Prison Lotus as well.

Therefore, what exactly is the Prison Lotus, and what is its connection to these fallen gods?

It's indeed an imperative clue chased by many great strong gods for the truth.

"Prison Lotus..." Li Che narrowed his eyes in contemplation.

Then ceased pondering intensely, his gaze falling upon the Daping.

Xi Xi abruptly stood up, letting out a long roar, countless black flames igniting around her, flames spiraling and gathering, gradually forming into a black flame lotus!

Prison Lotus, in bloom!

Xi Xi wore the plush tiger head embroidered shoes tailored by Zhang Ya for her, with a stomp, an invisible wave of energy radiated in ring-like ripples centered on her body.

Snow within a ten-yard radius melted entirely, transforming into streams that boiled and evaporated into a misty vapor!

The clanging sound echoed, countless sparks rapidly danced upwards.

Subsequently, two Prison Lotus Wind Fire Golden Wheels spun swiftly amidst black flames, ascending within Prison Lotus Fire into the sky.

Xi Xi stood atop two Golden Light Wheels, fists clenched, her black hair violently flinging, rising upwards.

With her arms spread and her little belly trembling at a high frequency, in the next moment, like showcasing muscle, she fiercely clenched her fists, bent her arms downward.

The qi-blood within her body transformed into a dragon elephant, ascending to the sky!

This is the Myriad Transformations Dragon Elephant taught to her by Li Che!

This horizontal cultivation martial arts, even after Lv Taibai learned about it, he appreciated it greatly, not asking Xi Xi to cease cultivating, for Lv Taibai saw inclusiveness within this martial arts...

Chapter 1086: Emperor Xi Xi Struck by Lightning at Age 6, Ominous Sign as Temple God Suddenly Appears [Requesting Monthly Ticket]_3

The seemingly limitless growth potential!

This surprised Lv Taibai greatly; thus, he didn't change Xi Xi's horizontal cultivation martial arts, only taught her swordsmanship and guided her in divine cultivation.

On Xi Xi's chubby infant face, the flesh trembles, muscles and bones quiver, blood seems to be roaring!

"Hee hah!"

In mid-air, Xi Xi clenches her fist, thrusts it forward, instantly causing qi-blood to explode, resembling a majestic dragon elephant.

Compared to Li Che's terrifying dragon elephant merged form, akin to an ancient god demon.

Xi Xi's myriad transformations dragon elephant... it's like a fledgling dragon and a young elephant roaring together!

Its power is not weak either!

With qi-blood boiling, Xi Xi clenches into a fist, within her physical body, there seems to be a resonant sound echoing, it's the clang of divine weapons being stimulated.

Xi Xi steps on the golden light wheel, floating in mid-air, a massive black prison lotus, swirling around her, burning and melting large goose feather-like snowflakes!

Lifting her hand, she flicks out a finger, touching her forehead where the prison lotus divine pattern was manifest.

Suddenly, invisible waves of divine sense spread!

In the next moment.

It seemed as if there was an angry roar, a powerful explosion echoing.

Everyone felt as if a vague anomaly floated before their eyes.

Like witnessing a surging grand river, its waters bursting into towering ten-foot waves that crash down fiercely, an ancient mysterious temple appears within.

Inside the mysterious temple, a wrathful child tied with two sky-high buns, born with six arms, standing on black lotus flowers, with bright eyes, golden light flashing!

The wrathful child's eight arms each hold divine weapon sculptures, including the Fire Tip Spear, Qiankun Ring, Chaos Silk, Yin Yang Sword... various divine weapons!

Supremely elegant, its grandeur soaring to the skies!

Eight-Armed Prison Lotus Furious Third Prince!

Many were momentarily dazed, their expressions reflected complexity towards this uniquely special Four Royal Mysterious Temple.

After all, it was the only one, yet to be observed and occupied by top-tier powerhouses.

Primarily because it belonged under the Qian Yuan Divine Sect, but remained dormant, its divinity never awakening, the Great Supervising Minister estimated that it would be decades before the temple god awakens, yet during prior temple god resonance, signs of awakening were suspected.

Xi Xi's eyes also emitted a golden light, ignoring the anomaly that appeared behind her.

An uncountable number of prison lotus fires were summoned by her, transforming into a sharp treasure sword!

Blazing radiance surged uncontrollably!

A real sharp sword edge spewed out!

It was the Prison Lotus Yang Divine Sword!

Xi Xi grasped the Prison Lotus Yang Divine Sword, her eyes shining.

Emperor Xi Xi must succeed, must grow stronger!

She held the sword, stepping on the golden light wheel, her gaze sweeping over, seeing her father Li Che's face full of gratified smiles, and her mother Zhang Ya's face full of worried tension.

"Father and mother are watching Xi Xi!"

"Emperor Xi Xi is only allowed to succeed, not allowed to fail!"

"Emperor Xi Xi needs to save face!"

Divine sense surged, wrapping around the Prison Lotus Yang Divine Sword, Xi Xi fiercely swung the treasure sword towards a giant divine foundation resembling a millstone that floated out from the inner scene of her energy center, spinning continuously behind her.

The treasure sword struck upon it!

Ding—!

A crisp sound, prison lotus fires leapt!

Everyone's eyes focused.

Unexpectedly, Xi Xi's divine foundation was incredibly resilient!

Indeed worthy of the Three Pure Ranks divine foundation!

Li Che had anticipated this, when he rushed the Three Pure Ranks divine minister before, he felt the resilience of the divine foundation.

Xi Xi glared with anger, the prison lotus underfoot spiraled more vigorously, the sword in her hand perpetually chopping down.

Bang—!!!

Xi Xi gritted her teeth, showing no sign of retreat, continuously swinging the sword edge!

After several chops!

Numerous darting black flames intertwined like serpents!

Finally, bits of golden divine foundation fragments began to shed, crashing to the ground, seemingly extremely heavy, causing pits to form on Daping's surface!

Li Che's black hair fiercely danced, watching Xi Xi holding the Prison Lotus Yang Divine Sword chopping incessantly, his eyes flickering brightly.

In his chest, the [Immortal Artisan] Dao Fruit subtly throbbed.

Seemingly forming a unique connection with Xi Xi in some enigmatic way, aiding her as if attaining insights on carving.

The sword light in hand danced briskly, continuously shaving off divine foundation fragments!

In fact, carving a divine minister from the divine foundation is actually easier compared to regular carving, as the divine foundation inherently encompasses the outlines of the divine minister's pattern.

However, it still tests the completeness of the breakthrough realm individual's carving!

If any part is carved too crudely, later divine minister cultivation requires remedying and polishing that area, potentially incurring extra expending and wasting of cultivation time.

Ka-cha ka-cha—

Up above the heavenly dome, amidst leaden clouds clustered, a series after series of interwoven lightning and thunder emerged.

In front of Taibai Hall.

Everyone's faces involuntarily showed solemn and worried expressions.

Even Fang Hanshu, caressing his beautiful beard, holding the Holy Sage Book, couldn't help but worry.

Lv Taibai and Li Che also showed solemn expressions.

At six years old... facing lightning strikes...

This is indeed exceedingly rare.

In fact, breaking through to the divine minister at six is not unheard of within great divine sects, typically occurring once per 60 years, once per century among the divine child.

In the Divine Capital, among ancient families, those heirs cultivated with ample resources can be even more common.

But so young to invoke tribulation, facing lightning strikes...

Chapter 1087: Emperor Xi Xi Struck by Lightning at Age 6, Ominous Sign as Temple God Suddenly Appears [Requesting Monthly Ticket]_4

It's quite rare indeed.

After all, those prodigious divine children, even if they really condense their Divine Likeness at the age of six, mostly gather the Five Elders or Four Imperial Divine Likenesses.

In fact, at the realm of Divine Likeness, it's quite difficult to trigger a tribulation thunder.

However, a Three Pure Ones Rank God Image...

is an exception, where an extra tribulation thunder strikes, considered as respect for the Three Pure Ones Rank God Image.

...

...

Thunder Alley.

Deep in the alley, a dim orange light barely illuminates the area.

Like a broken street lamp in the corner of a quiet park at night, diligently dispelling the darkness, casting a faint glow.

Restaurant.

The big black dog lying at the entrance trembled with fat, suddenly stood up, paws hitting the ground, looking towards the direction of Taibai Peak.

It seemed anxious, continuously bouncing around, looking at the leisurely figure sitting on a chair, rolling a cigarette with tobacco paper.

"Alright, I know you're anxious, but don't be in a hurry just yet."

The owner said slowly.

Clenching the rolled cigarette, a couple of flicks, the match lit, igniting the cigarette.

Lips moved up and down, exhaling two clouds of gray smoke.

“Phew—”

“Why the rush?”

“Xi Xi just broke through to the Divine Likeness, nothing big will be triggered... no need to rush, don't rush.”

The owner pinched the cigarette and flicked the ashes, speaking nonchalantly.

The anxious big black dog blinked its pitch-black eyes, took a glance at the direction of Taibai Peak, yet couldn't calm down, pacing around in circles.

“Besides, why are you rushing, silly dog? Xi Xi's dad isn't even anxious... Why are you getting worked up?”

“She has a father now, and a father... will definitely do everything to protect his daughter, even... to death.”

The owner whispered while holding the cigarette.

The dog suddenly calmed down, its black eyes slightly wavering, showing a hint of wistfulness.

“Don't meddle too much... we're more of spectators, unless... ”

“We simply can’t bear watching anymore.”

The owner took a drag of the cigarette, squinting as he slowly exhaled, the smoke snaking through the air, shrouding his and the dog’s silhouettes in a misty haze.

The dog barked in displeasure, “Woof!”

The owner didn’t bother to acknowledge it, slowly puffing on the cigarette.

She just broke through from the Divine Foundation to the Divine Likeness...

Just...

Started.

...

...

Abnormalities on Taibai Peak.

After all, without Li Che’s Heaven and Earth chessboard concealing it.

So, most of the powerhouses in Qianyuan Dao City sensed it.

Although it wasn’t a massive tribulation thunder, it still attracted quite a few gazes.

In the Qintian Observatory, within the multi-eave pagoda of the treasure tower.

Supervisor Hong Shifu, playing five-in-a-row, squinted his eyes.

“Tsk—”

“This little girl... only six years old, aiming to break through to Divine Phase Realm?”

“What was I doing at six... Oh, I was playing with mud, doesn’t matter, I am a late bloomer, not on the same track as this girl.”

Supervisor Hong Shifu chuckled.

Then his eyes flickered.

“This little girl... it’s a pity she cannot join my Qintian Observatory, it seems Lv Taibai has high hopes for her, nurturing her so quickly, breaking through to the Divine Likeness at just six years old...”

“And the Divine Phase Rank isn’t low, yet this tribulation thunder... what is Lv Taibai thinking, letting a six-year-old endure thunder strikes? It’s really...”

“A girl enduring thunder strikes, let me calculate the auspice of this tribulation for you.”

Supervisor Hong Shifu stretched lazily.

Then swept his hand over the chessboard, causing the black and white chess pieces originally arranged to vanish.

Subsequently, a few chess pieces clicked onto the board.

After a few spins, they overlapped.

Supervisor Hong Shifu's previously relaxed face suddenly changed, pinching his fingers.

"How is this possible? With Lv Taibai's protection... how can the divination still be... ominous?"

"A great ominous sign?!"

...

...

Clang, clang, clang—

Xi Xi wielded the Prison Lotus Yang Divine Sword, continuously hacking at the Divine Foundation.

Amid the sounds of the fragments breaking and shattering.

Many couldn't help but let out soft gasps.

Six years old...

Breaking through from Divine Foundation to Divine Likeness, able to achieve this?

Even the carving of the Divine Foundation, sculpted so vividly!

Xi Xi's skill in carving the Divine Foundation left everyone present astounded, except for Li Che.

Even Lv Taibai and Sect Master's Wife Xuan Qisha showed expressions of shock.

Lv Taibai clearly knew Xi Xi, though she was the daughter of Li Che, the Divine Sculpture Half-Saint; she didn't seem to have much talent in the art of divine sculpting.

However, she did show promise in the Divine Talisman.

Yet Lv Taibai felt that his previous assessments might have been hasty.

Xi Xi's talent in carving turned out to be so high?

If it weren't for the lack of other Primordial Spirit fluctuations, Lv Taibai would have thought Li Che had aided Xi Xi in carving the Divine Foundation.

But when Lv Taibai looked at Li Che, Li Che merely shrugged, indicating it wasn't him, he hadn't intervened.

Boom—!!!

As the embryonic form was fully carved, a powerful divinity surged out.

After the Divine Foundation fragments fell off, the outlined form emerged.

Eight arms and three faces, stepping on the Prison Lotus!

The three faces were fierce, furious, and roaring...

On the eight arms, the rough outline of a Divine Weapon appeared.

Rumble—

Once the rough form appeared, the thunder in the heavenly dome exploded loudly!

Li Che didn't use the Heaven and Earth chessboard to shield Xi Xi from the Heaven.

Boom—!!!

The terrifying explosion resonated, the rough form fully emerged, standing on a Wind Fire Golden Wheel, supported by the Prison Lotus, with three distinct faces, vaguely resembling Xi Xi, the rough God Image, entwined with countless black Prison Lotus flames.

The terrifying pressure vaguely began to spread.

It was a sense of oppression from the tier level, as if a dreadful taboo from within the heavens and earth had awakened from its slumber.

The massive leaden clouds piled up heavily!

A bolt of lightning shattered countless flakes of white snow, stretching towards Xi Xi and the Eight-Armed Three-Faced Hell Lotus Unbeaten Divine Image carved by Xi Xi behind her!

Xi Xi raised her head, holding a gold brick in her hand.

"Come on! Emperor Xi Xi is not afraid of you!"

Xi Xi held the Prison Lotus Yang Divine Sword in one hand, swung the gold brick with the other, and stepped on the Wind Fire Golden Wheel, charging straight into the sky.

With overwhelming ferocity, she fiercely collided with the massive, gigantic Thunder Jiao Python, as thick as a barrel!

Bam—!!!

Xi Xi's eyes were bright, like two dark plums.

Her eyes were full of eagerness, soaring fighting spirit!

She clapped the gold brick in her hand fiercely against the thunder tribulation!

"Ah oh oh oh oh——!"

Bombarded by thunder, Xi Xi was suddenly struck so hard that she appeared as if scanned by an MRI, her bones almost visible.

However, when the thunder dissipated, Xi Xi had smoke rising from her head and was puffing out smoke from her mouth, tossing the gold brick in her hand.

"Thunder tribulation, nothing much really."

Xi Xi truly smiled merrily.

However, Xi Xi also understood that it was because her physical body now was much stronger than before.

In the dream arena of the King of Fighters, every time she defeated an opponent, she received an extremely comfortable feedback of power, giving Xi Xi a warm feeling like being returned to the womb.

After countless immersions over these days, Xi Xi felt she had grown even stronger!

After enduring the thunder tribulation, Xi Xi continued carving.

She began the final meticulous carving.

Of course, her carving was a bit rough, after all, she's not a Divine Sculpture Half-Saint like Li Che.

She's just a six-year-old child who hasn't really learned much about divine sculpture.

At this age, very few children are capable of carving a Divine Foundation.

After several rounds of carving, the divine image was fully formed.

Although the lines were rough and the appearance was not refined,

one could already discern the overall shape of the Eight-Armed Three-Faced Hell Lotus Unbeaten Divine Image.

It already had the semblance of a divine image.

Huff huff huff—

Xi Xi panted heavily, her Qi-blood boiling, standing on the Wind Fire Golden Wheel, suspended in mid-air, raising her head to look at the divine image she successfully carved, instantly revealing a brilliant smile, with dimples blossoming at her baby-fat lips.

Rumble rumble—

Winter thunder rolled, lightning flashed, but the thunder tribulation no longer fell.

The fierce wind whistled between heaven and earth.

The immense Eight-Armed Three-Faced Fury, menacing and roaring divine image, wrapped in countless black Prison Lotus Fires, floated above Xi Xi's head.

"It's done!"

In front of Taibai Hall.

Lv Taibai gently exhaled a breath.

Li Che also relaxed his mind, a smile appearing on his face.

The divine image carving was a success.

Next, it would be a matter of pulling this divine image back into the Inner Scene of the Energy Center.

As long as it was successfully pulled in, Xi Xi would officially break through to the Divine Form Realm at just six years old!

Xi Xi also understood this.

She put away many Divine Weapons, focused her mind, and her Qi-blood surged up like a dragon elephant.

She began pulling the Eight-Armed Three-Faced Divine Image towards her Brow Niwan Inner Scene!

However.

Xi Xi had just begun pulling.

Suddenly, she let out a cry of surprise.

Because...

The Prison Lotus Fire that originally floated beneath the divine image suddenly grew tremendously large.

Boom boom boom—!

The terrifying and scorching temperature surged and instantly burned across the entire Daping, completely melting the piled-up snow.

As if transforming into a massive hand formed by the spreading five fingers of the Prison Lotus Fire!

The giant hand supported Xi Xi and the Three Pure Ones Divine Form she had outlined!

The next moment...

The giant hand suddenly clenched tightly!

Like a blooming Prison Lotus, it contracted, enveloping Xi Xi and the divine image inside.

And as the Black Fire Lotus, formed by the Prison Lotus Fire, rotated, it was like a black hole, completely wrapping Xi Xi in an instant...

Upon the Taibai Peak.

Everyone realized this, their expressions changed, gasping, bewildered, and urgently shouting!

Lv Taibai, Fang Hanshu, and Li Che were the first to act.

Because...

At the moment the Prison Lotus Fire gathered, they saw a mysterious temple appearing behind Xi Xi and the divine image.

The portal of that mysterious temple opened, and a figure quickly dashed out, unknowingly appearing behind Xi Xi.

As if sensing Li Che's sight able to detect his appearance...

The figure raised his head and gave Li Che a sly smile.

Li Che's eyes narrowed slightly, his hair stood on end, and his scalp tingled!

Because this figure... wasn't unfamiliar to Li Che at all!

It was precisely the entity seen previously during the Temple God Resonance...

With an upturned braid, wearing a black bellyband.

Seducing Xi Xi...

Tearing bones in repayment to the father, cutting flesh in repayment to the mother...

The Eight-Armed Prison Lotus Furious Third Prince!

Chapter 1089: Prison Lotus Is Her True Father and Mother, How Could a Father Be Willing to Sacrifice His Life for His Child [Requesting Monthly Tickets]

Crackling, crackling!

Lightning flashed and thunder rumbled, intertwined like serpents!

Constantly surging above the Cloud Dome, roaring and howling, these thunderous powers no longer resemble the Heavenly Punishment summoned when Xi Xi carved the Three Pure Ones Rank God Image.

It's because of a terrifying existence that Heaven and Earth cannot tolerate, attempting to descend across realms, causing the wrath and madness of Heaven's will!

It's as if the entire world at this moment has become hostile towards Xi Xi!

At the instant the thunder appeared, like a giant net, it enveloped the sky, menacing and terrifying, covering everything between Heaven and Earth like a spider's web.

Sizzle, sizzle...

The high temperature continued to spread!

Dozens of miles of snowflakes in Heaven and Earth completely melted into snow water, turning into pouring raindrops, crashing onto the ground!

It seemed like an extremely terrifying aura was emerging from the gigantic hand formed by the Prison Lotus Flames.

Eight-Armed Prison Lotus Furious Third Prince?!

The gigantic hand appeared like a lotus gathered together, causing everyone's expression on Daping to change.

This unexpected event came truly too suddenly!

No one expected that after Xi Xi carved her Divine Foundation into a Divine Form, such a change would occur?

Besides Lv Taibai, Li Che, and Fang Hanshu, others hadn't seen the mysterious temple emerging behind Xi Xi, nor the Temple God Third Prince stepping out from it!

But merely the gigantic flaming hand transformed from the Prison Lotus Flames was enough to make them sense something was wrong.

Zhang Ya's face instantly showed an extremely panicked expression.

"Ah?! What's happening?"

"Husband... What's happening to Xi Xi? What's with the sudden flaming hand?"

Zhang Ya's face was full of panic.

"Wife, don't worry, Xi Xi will be fine. She is simply cultivating the Three Pure Ones Divine Form, which is a bit special. We'll go take a look; you don't need to worry too much. I won't let anything happen to Xi Xi."

Li Che calmed his wife Zhang Ya, gradually making the somewhat helpless Zhang Ya quiet and calm down.

A swirl of ink-colored mist surged, and Zhang Ya immediately understood her husband had already stepped in.

Only a duplicate was left behind.

Zhang Ya could no longer care about her husband's extraordinary duplication technique; her eyes were full of worry.

Whoosh whoosh whoosh—

The sound of breaking the sky almost exploded instantly.

“Impudent—!!!”

Lv Taibai stood with hands behind his back, silver hair wildly flying, tongue bursting in a thunderous shout like Spring Thunder.

Instantly, the void seemed to be sliced open by invisible Sword Qi.

On the other side, Fang Hanshu frowned, and behind him, vague streams of Vast Qi like white silk threads gathered together!

Fang Hanshu’s Confucian robe fluttered, also wanting to rise into the sky.

But Lv Taibai, his whole body like silver, pressed his hand on Fang Hanshu’s shoulder.

“Watch the Divine Sect.”

Lv Taibai’s words fell.

His entire body shot out, transforming into a silver Sword Light.

In the instant the giant Prison Lotus Flaming Hand completely closed, Lv Taibai dashed into it.

As a top-level Absolute Peak, his speed was truly too fast.

This speed, almost no one reacted, and Lv Taibai disappeared from sight.

And at this change, others finally responded.

Sect Master's Wife Xuan Qisha surrounded by Divine Talismans flying around.

Second Elder Zhao Fangzhou and Third Elder Ding Zi, these two powerhouses also soared into the sky.

But their speed could not compare to Lv Taibai. Before they approached, the giant flaming hand formed by the Prison Lotus Flames completely closed.

As if isolating itself from the outside world.

Zhao Fangzhou's hair and beard flew, his body swelling and enlarging, powerful Qi-Blood surging like a raging terrifying bear, roaring from the earth.

"Stop."

However, when Zhao Fangzhou was about to break the Prison Lotus Flames, he was stopped by Fang Hanshu.

"Don't act rashly."

Fang Hanshu's expression was serious, Confucian robe fluttering, vast Qi flowing like rivers around him.

Zhao Fangzhou acknowledged Fang Hanshu, having been beaten by this scholar before.

"Elder Fang... What's going on?"

Zhao Fangzhou gathered his Qi-Blood, frowning.

Everyone looked over.

Yun E, the disciple taken by Ding Zi, and Jin Taixui, who became Emperor Xi Xi's follower after losing a bet, as well as Zhou Peng and other Divine Children who came to witness the ceremony, all turned their heads to look.

Xi Xi was on good terms with them, so they naturally wanted to know what happened to Xi Xi.

Clearly, the carving had succeeded, only needing to pull the Divine Form into the Inner Scene of the Energy Center, yet a change occurred...

It's like...

Someone wants to pick peaches.

To seize the Divine Form painstakingly sculpted by Xi Xi!

This made their hearts tremble slightly, with some worry, some gloom.

Perhaps the change at the Divine Sect was sensed by many.

Within Qianyuan Taoist City.

One powerful aura after another erupted, a flow of light crossing the sky, arriving.

Hong Shifu carrying a chessboard, with hair and beard flying, hands forming Seal Formulas, face extremely serious, as if walking out of the brilliance.

"Chief Supervisor."

Fang Hanshu looked at Hong Shifu, eyes cold, without much emotional fluctuation, countless Vast Qi forming countless roaring white pythons around him.

“I just came to assess the situation, knowing the Young Sect Master intends to impact the Divine Form at six years old. Normally it should be smooth, but I performed a divination and found it to be a sign of great misfortune... thus I came to offer a reminder.”

Chapter 1090: Prison Lotus Is Her Father and Mother, Which Father Would Sacrifice His Life for His Child [Requesting Monthly Tickets]_2

“It seems we’re late.”

Hong Shifu sighed, his gaze falling on the Prison Lotus Fire, burning like a fist.

A strange glint flickered in his eyes.

“Prison Lotus...”

Nowadays, every cultivator is quite sensitive about the [Prison Lotus].

Fang Hanshu, upon hearing this, softened his gaze considerably.

“Thank you for your concern, Chief Supervisor, but... I don’t think it should be a big problem.”

The Chief Supervisor squinted his eyes and nodded: “With Taibai Sect Master taking action, indeed there shouldn’t be much of an issue, although this Prison Lotus Fire seems to have constructed and formed a small cave heaven hidden with Dao Yun... However, it may not necessarily be able to restrict an entity like the Sect Master.”

Hong Shifu said with a smile.

In his heart, he gained a new understanding of Lv Taibai's strength.

After all, in that battle a few days ago, even though Lv Taibai was wearing the Hunter King Mask, it was clear that he had openly revealed his identity.

In that battle, Lv Taibai first slew the past life of Huang Mei, then the Heavenly King Avatar of Ji Moli...

He was extremely formidable.

One must know, both Huang Mei and Ji Moli were ranked above Lv Taibai in the Great God List and at the Heavenly Gate Pass!

Thus, this was the confidence with which they dared to send their avatars and past lives here.

But the strength Lv Taibai displayed clearly... has already grown significantly compared to before.

He has even touched the "Dao Yun."

Boom——!!!

Just as Hong Shifu finished speaking.

Amidst the clouds in the distance at Taibai Peak, a powerful figure emerged.

Feng Zhiqi, wrapped in vigorous qi-blood and flowing clouds all over his body, was robust, wearing the robe of the Governor of the Temple Control Bureau which fluttered in the wind, his sharp gaze like a blade.

His eyes were fixed on that mass of Prison Lotus Fire, his brows furrowed.

Fang Hanshu glanced at him, then looked away, knowing that Feng Zhiqi would not make a move against the Qian Yuan Divine Sect.

Instead, it was on the other side...

The cloud stream was torn open.

A chubby figure, with an earnest smile, treading upon distant clouds, squinting his eyes, looked at that mass of Prison Lotus Fire.

This was precisely Dao Master Yue Huanglong of Qianyuan Taoist City!

When Yue Huanglong sensed the anomaly, he originally thought Lv Taibai was setting another trap for him, fishing again.

But he vaguely sensed the aura of Dao Yun...

In the end, he couldn't restrain himself and popped out his head to take a look.

In Fang Hanshu's eyes, white mist started to gradually flow, as he clenched his five fingers, a purple sandalwood ruler fell into his hand, seemingly with ancient characters flickering on it.

Yet Yue Huanglong, full with an earnest smile, cupped his fists: "Elder Fang, do not be angered, this official is merely concerned about the Young Taoist Master's condition, and came to see if there is anything this official can do to help... this official will be duty-bound to assist."

Fang Hanshu gave Yue Huanglong a deep look, but didn't choose to take action.

Given the current situation, it's not suitable for action.

The reason Lv Taibai left him there was to ensure the normal operation of the Qian Yuan Divine Sect, to calm people's minds, acting as a stabilizing force.

Fang Hanshu didn't say anything further, but it made Yue Huanglong's eyes flash with a sharp gleam.

It seems... something has indeed happened.

It seems it is not Lv Taibai fishing.

However, Yue Huanglong was very cautious, only observing from a distance, unlike Hong Shifu the Chief Supervisor, who boldly landed on Taibai Peak.

Looking at the enormous Prison Lotus Fire, Yue Huanglong took a deep breath.

Li Nuanxi... obtained the Child of God from the Third Prince's Mysterious Temple of the Golden Light Prefecture. Now it seems, whether it's fortune or misfortune is unclear, did not expect such an accident during the breakthrough to Divine Form.

"Seems to be the Temple God at work?"

"This girl sculpted out the Three Pure Ones Divine Form, could it be that the Temple God, the Eight-Armed Prison Lotus Furious Third Prince, wants to occupy this Divine Form? And then seize the girl's physical body, to achieve some kind of alternative rebirth?"

Yue Huanglong squinted, pondering deeply in his heart.

"Eight-Armed Prison Lotus Furious Third Prince's Sinister Temple..."

"This Mysterious Temple in Golden Light Prefecture indeed hides some significant secret."

“After all, it is a Four Imperial Rank Mysterious Temple... the most top-tier Mysterious Temple under the Three Pure Ones, it had fallen into slumber, extremely tyrannical, unable to enter the Mysterious Temple.”

“Now it seems, could the Temple God have awakened?”

For a moment, Yue Huanglong’s heart trembled, a hint of fervor flashed in his eyes.

The awakening of the Temple God...

indicates that this Four Royal Mysterious Temple may become the focus of many, perhaps it will begin to ‘open the temple’!

For the first step into a Mysterious Temple, there will be many good things, such as Four Imperial upper-level Divine Crystals, Divine Methods, Martial Arts Skill, Divine Weapons, and so on...

Even Dao Yun Divine Crystals and Temple God’s... relics!

This Mysterious Temple located in Golden Light Prefecture...

Perhaps, as the Dao Master of Qianyuan Taoist City, he, Yue Huanglong, may have a chance to compete for some benefits!

Like the two Four Royal Mysterious Temples in Qianyuan Taoist City...

The Nine-Toothed Demon Extermination Heavenly Peng Mysterious Temple, and the Miao Dao Xiansheng Three-Eyed True Monarch Strange Temple on Mei Mountain within the Divine Sect Mountain Gate, were both opened over a thousand years ago.

The Four Imperial Divine Crystals, Divine Methods, Dao Yun Divine Crystals therein, had long been taken by ancient powerful figures.

Leaving only the Mysterious Temple and the Temple God statue still existing, preserved to this day.

As for new Mysterious Temples like the Third Prince's Mysterious Temple, emerging five hundred years ago, not yet conquered and opened.

In fact, many Absolute Peak experts are eyeing it!

Although the unbroken Mysterious Temple presents extreme danger, it also offers tremendous opportunities.
