Chapter 126: Eight-Armed Prison Lotus Furious Third Prince (3)

"This is..."

Suddenly, a golden hide booklet appeared in Li Che's hands.

"Great Scenery Temple Top-tier Prison Lotus Meridian Divine Pulse Technique"!

The smile at the corners of Li Che's lips couldn't be contained any longer.

"Mysterious Vein Method, Divine Vein Method... Now I've gathered them all!"

Putting away the booklet, Li Che's mind stirred, and once more a treasure was expelled from the Qiankun Space.

...

[Eight Extremes Lower Grade Divine Weapon: Mystic Thunder Jiao Wrath Bow]

[Craftsmanship: Hundred-year-old mysterious iron, forged a thousand times with the blood of the Mystic Thunder Jiao, mixed with Wrath Divinity, and further forged in fierce flames a thousand times, can channel "Wrath Divinity", a strong bow, the arrows strike like a thunder dragon!]

[In Charge: Wrathful Divine Method, Primary God-Base Realm and above]

...

"An Eight Extremes Divine Weapon? As expected of a city lord, the foundation is indeed profound, backed by the Imperial Court, it really is different," Li Che exclaimed admiringly.

His Liu Blood Shock Spear was only at the Nine Luminaries Superior Grade, yet Cao Guang actually treasured a divine weapon of the Eight Extremes Level!

"Then why didn't he use the divine weapon before?"

"Oh... He didn't have the chance to use it, he was killed too soon," he replied.

Li Che clenched the pitch-black Mystic Thunder Jiao Wrath Bow, and faint electric arcs seemed to flit across it, as if drawing on the divinity within the Inner Scene of the Energy Center.

"Archery... I've learned the 'Hundred Ghosts Wrathful Thunder Arrow', but it doesn't quite align with divinity, perhaps I need to find another archery technique," he mused.

Thinking to himself, Li Che put away the great bow.

He continued taking inventory, counting the Qiankun Jades of both Old Master Xu and Cao Qingyuan, though not finding much of note.

Cao Qingyuan, though a God-Base, didn't have much "pocket money", making him one of the poorest God-Bases Li Che had ever seen.

However, Li Che did find a pile of letters in his Qiankun Jade.

Glancing briefly at them, his expression grew more serious the more he read.

"Golden Light Prefecture... Qin Family? Gold Split Gate?"

"Cao Qingyuan actually had a mother living in Mansion City? And she's a lady from a Mansion City noble family?"

"Gold Split Gate? Apart from the Divine Sect Branch, are there other sect influences in Mansion City?"

Li Che's heart trembled slightly as he carefully examined the letters.

The letters were mostly from Cao Qingyuan's mother, with some written by Cao Qingyuan that he never sent.

Having read them once, he noticed that his words were filled with concern.

"Will I have trouble if Cao Qingyuan's mother comes looking for me since I killed him?"

"However, Cao Qingyuan was killed by the Bull Demon, it has nothing to do with me, Li Che..."

Li Che sighed, put away the letters, and continued the inventory.

Old Master Xu was wealthier in comparison, roughly on par with Old Deng of the Yang Family, though without any divine weapons.

He did have a few bottles of Python Blood Martial Pills, a total of over thirty pills, which was a considerable amount.

"Nine Luminaries Xuansi Flow Sword Divine Foundation Method," "Xuansi Sword Control Technique," "Thoughtful Willow Wood Body"...

Li Che's eyes shone brightly as he looked at the three tomes of techniques.

The much-anticipated "Thought Divinity" Divine Foundation Method had finally come into his possession.

After the Wrathful Divine Foundation and the Shocking Divine Foundation, he could now forge another type of divine base.

"Hm? Four Great Families of Flying Thunder, An Family and their clan fled, the [Hundred Turns of Worried Dreams] Divine Foundation Method ran off, but I don't have the Si Family's divine foundation method," he suddenly remembered.

It seems that to complete the Seven Emotions Divine Base, there's still a long way to go.

"No worries, cheer up; there are many large and small noble families in Mansion City," Li Che encouraged the Bull Demon.

After counting his gains, Li Che picked up a piece of wood and began to carve with a carving knife, allowing his mind, excited by his considerable haul, to settle.

...

...

The days that followed became much more stable.

Since he joined a caravan for the journey, Qian He, as the Escort Leader, was very responsible, and also had some reputation on the roads he dealt with, ensuring a safer journey than most wild routes.

The journey was monotonous and dull.

Li Che didn't mind, as he had too much to keep himself occupied.

After all, he had absorbed too many Divine Chess Pieces from this sweep, the divinities of both Cao Guang and Cao Qingyuan, both Wrath Divinity, with his [Three-eyed Fury True Lord Divine Foundation] at a high rank, he devoured them to solidify and grow.

Besides, Li Che was also studying the Mysterious Vein Method from the official sources of Great Scenery.

Once his blood and qi were nurtured to their peak, he would start to break through.

Every day, he practiced divinity in the carriage and trained in martial arts off the carriage, training with both Xi Xi and Zhang Ya to strengthen their physiques.

During this period, Zhang Ya's martial arts training had already achieved great success in Skin Refinement. Her talents in martial arts were not lacking, and Li Che estimated that she might reach Skin Refinement Completion and begin Sinew Transforming even before reaching Mansion City.

Xi Xi, the girl, seemed never to tire of it, always curious about new things every day.

Qian He, the Escort Leader, and many others in the caravan got along very well with Xi Xi, fond of this lively and adorable child.

"Golden Light Prefecture is located in Yun Province, which governs four prefectures; the Authentic Qian Yuan Divine Sect is stationed in Lingnan Circuit, and Golden Light Prefecture is governed by a Divine Sect branch," he explained.

"There are many powers in Golden Light Prefecture, but the most renowned are the five great Divine Minister families and the five major Prefecture City sects!"

The campfire flickered, sending flames soaring.

During a break from the march, everyone gathered around the fire to chat.

Qian He, a local of Mansion City, sipped his wine while recounting the situation in the city.

"May I ask, Escort Leader Qian, which are the five great families?" Old Chen toasted Qian He and asked.

Li Che, holding Xi Xi, listened intently.

"Qin, Shangguan, Hai, Gongyang, and Gongyang are the five great Divine Minister families of Golden Light Prefecture City, each with a Diviner Ancestor at the helm, whose ancestors held high and powerful positions in the Authentic Qian Yuan Divine Sect! They are not to be underestimated!"

"As for the five sects, they are also closely related to these five noblemen."
