Chapter 1601: Dao Fruit 5th Transformation Tribulation, Primordial Dragon-Elephant Flame, Emperor Xi Xi at Age 7 Vows to Slay the Martial Saint

The spine twisted and writhed like a dragon, as if the clash of scales emitted a metallic clang!

However, all these transformations failed to draw Li Che's attention.

In front of him, the gold-plated light was as dense as golden smoke.

[Dao Fruit lv7, Five Transmutations, Dao Guide (Dragon Elephant Furnace) Ascension, Dao Tribulation (Primordial Dragon Elephant Flame)]

Boom——!!!

It was as if heavenly music shook!

The golden stream of light floating in front of him formed tips when intertwined.

Vaguely, a terrifying aura like a cataclysmic disaster locked Li Che's entire body, making him feel frozen.

Dao Tribulation?!

Li Che's eyes slightly contracted!

His mind seemed to explode at that moment!

Power of Disaster?!

In an instant, Li Che thought of this term. A Divine Tribulation Cultivator's strength stems from passing the Three Calamities and Nine Tribulations bestowed by the will of Heaven and Earth. Upon successful crossing, they can capture the Power of Disaster and condense it into a "Disaster Wheel"!

That is the source of the strength of a Divine Tribulation Cultivator!

Now, unexpectedly, the Dao Fruit Five Transmutations also came into contact with the power of the disaster.

Rumbling——

Li Che's physical body was still undergoing slight transformations, as if an extremely blazing flame was unknowingly leaping out. It seemed to annihilate everything and burn everything!

Li Che's entire body secreted exceedingly fine golden blood pearls, burned by the terrorizing blaze.

[Dao Tribulation (Primordial Dragon Elephant Flame): Guiding Dao to Birth Tribulation, Origin of Heaven and Earth, Primordial Fire Tribulation, Tribulation-controlling Martial Immortal]

Amidst the blaze, the true words of the Dao Tribulation slowly emerged before his eyes.

Li Che felt the blood within his body boiling, exhaling a hot steam that almost twisted the air, collapsing the void!

With a slight movement of the heart, in his eyes, there seemed to be extremely intense flames twisting and burning.

Primordial Fire Tribulation, Tribulation-controlling Martial Immortal?

Refine the Martial Immortal Golden Body with Primordial Fire Tribulation?

Is truly tempered gold afraid of fire?

In his mind, the description about Dao Tribulation slowly started to flow like water. Instantly, Li Che's eyes slowly revealed a solemn look.

"Dao Tribulation..."

"Primordial Dragon Elephant Flame... it's different than before; I need to overcome tribulation to master the power of the Dao Tribulation!"

Only by overcoming the tribulation can one be endowed with the power of the Dao Tribulation.

For a moment, Li Che's heart couldn't help but feel eager.

If he could directly overcome the Primordial Dragon Elephant Flame, it would be like mastering the power of the disaster, even facing Divine Tribulation, he would have new means.

Therefore, Li Che couldn't help but look forward to mastering the Primordial Dragon Elephant Flame.

With a slight movement of the heart.

Immediately, within his chest, the newly transformed lv7 Dragon Elephant Vajra emitted an extremely heavy thumping, like a massive stone hammering and lifting from the surface of a lake repeatedly!

Perhaps because of the Dao Fruit achieving lv7, completing five transmutations, it became heavier and more substantial compared to before!

Dao Tribulation!

Trigger, to transcend!

Buzz—!!!

With an exceedingly bright hum, Li Che suddenly looked up, and everything around him changed, seemingly being pulled into a mysterious space without a sound.

Broken, shattered, destroyed, there wasn't a hint of vitality on the ground, only exposed rocks, jagged and hideous, along with faint white smoke entwining wildly...

A scene depicting the heavens and earth after devastation!

Like a life star newly born, with its surface showing a terrifying sight bereft of all things.

Standing there, Li Che felt an immensely overwhelming heavenly might!

That overwhelming might...

Truly terrifying!

Incredibly explosive and dreadful, the entire heavens and earth were unbearably furious, as if just having undergone an extinction level event!

Boom——!!!

Suddenly.

Li Che looked up, and above his head, a streak of purple erupted.

The purple flame grew larger and larger, finally turning into an enormous demon elephant formed entirely of intertwined purple flames!

That demon elephant plummeted down rapidly from the sky!

The flaming trunk swung, twisting the void with its scorching burn, as Li Che's hair stood on end, his Five Fingers clenched into a fist, the Martial Immortal Golden Body operating with a bang, terrifying golden qi-blood erupted like a colossal bullet, sending a dreadful pillar of flame skyward, reaching three hundred feet into the heavens!

Subsequently, it fiercely collided with the purple flame demon elephant!

It was just a brief confrontation...

Li Che opened his eyes and sat down on the damp ground of Mo City.

Sizzle——

Mo Yu's rain splashed onto him, immediately vaporized by Li Che's burning red skin, turning into smoke, drifting softly upwards, shrouding the half-space in mist.

Sitting on the ground, Li Che's chest was heaving incessantly like a bellows.

Dao Tribulation...

It's impossible to withstand, simply impossible to withstand.

Li Che let out a long breath, just a face-off, didn't even manage to resist, and was directly obliterated.

Currently, his Martial Immortal Golden Body is extremely powerful, even capable of bearing the simultaneous explosion force of the Eight Extraordinary Meridians, yet couldn't stand against a single flame...

"In that Tribulation Crossing Space, it seems I wasn't allowed to trigger the Eight Extraordinary Meridians, only solely rely on my physical body... Martial arts could be deployed, but in the face of absolute power, I couldn't deploy them in time..."

Li Che began to chuckle bitterly.

Primordial Dragon Elephant Flame...

Quite formidable indeed.

But, very soon Li Che's mood turned fervent, albeit terrifying, if mastered by him, Li Che...

In the eyes of the enemy, the dread would be him, Li Che!

Calming his mind, Li Che's eyes reflected a slow-flowing luster.

Chapter 1602: Dao Fruit, Fivefold Transformation Tribulation, Primordial Dragon Elephant Flame—
Emperor Xi Xi at Age 7 Wants to Slay a Martial Saint

...

Li Che stood up, his eyes gleaming brightly: "The Martial Immortal Golden Body has been slightly improved, and besides, the range of the Victory Over Heaven Dao Domain has expanded to fifty feet, all brought about by the transformation of cultivation..."

"Winning with weakness against strength, where is the thrill of overwhelming the weak with strength..."

Li Che muttered to himself.

Cultivation is indeed the foundation.

If one can use strong cultivation to overpower the weak... who would want to risk their life by winning against the strong with weakness?

Five fingers clenched.

The Thunder Chess Piece burst into light within the palm.

Then, Li Che disappeared entirely.

Zhao Beidou transformed into a submissive soul captive, and now, within the Imperial Court's camp, Li Che has replaced three of their generals!

Xie Yushen, Grandmaster Huang Mei, and Zhao Beidou, all three generals, are Li Che's own people.

The power to break the Imperial Court's mountain and temple campaign seems to really not be far from converting it entirely to Li's name.

Divine Tribulation... there is still one more, Gu Qianchi of the Bashu Sword Pavilion!

Besides that, there's the immensely powerful Old Dragon God.

"Once I master the power of the Dao Tribulation, it should almost be time... then I can deal with the Old Dragon God. The realm of one disaster and two tribulations should not be underestimated, even if I'm prepared for betrayal from allies and the backstabbing of descendants, and the lethal poison, it should not be underestimated."

Li Che muttered to himself.

This Old Dragon God of the Dragon God Clan, a monster who has lived for three thousand years, naturally deserves the grandest treatment from Li Che.

However, currently, the lethal poison [Nine Revolutions Rising Dragon Pill] has not been successfully refined, Li Che is not in a hurry.

The poison has not been successfully refined, nor has the power of the Dao Tribulation been mastered...

Without a 95 percent certainty to act, it is a gamble with immense risk.

Li Che and risking poisoning are irreconcilable!

Buzz—

Li Che returned to the study within Qian Yuan Divine Sect.

The Heaven and Earth chessboard spanned across the sky.

Five fingers spread open, and the Three Pure Ones Divine Crystal obtained from Zhao Beidou's Qiankun small space landed in Li Che's hand.

But, just as Li Che was about to cultivate divinity.

The Heaven and Earth chessboard trembled slightly.

That heart, focused on the situation over there with the daughter, gave feedback.

Li Che clenched the Three Pure Ones Divine Crystal, eyes slowly opening and closing, golden light surging wildly.

He looked at the image reflected on the Heaven and Earth chessboard.

...

...

Lead clouds tumble, flying snow roars!

Snowflakes as large as a hand drift down gently from the clouds.

A thick layer is piled up on the ground.

A figure suddenly erupted from the snow, Xi Xi wearing a little bull calf mask, pushed the mask up atop her head, revealing a face flushed red from cold.

Xi Xi squinted, and a mix of fury and harshness flickered through her lively big eyes.

Behind her, the soft snow broke open, and the other three also emerged.

It was exactly Jin Taixui, Zhou Peng, and Yun E.

"Xi Xi... this won't work, the cultivation of us three is too weak, it will drag you down, that Martial Saint Gu Chuan can always follow the traces, surely because of us."

Yun E hugged her rabbit, looking at Xi Xi, her eyes revealing a sense of guilt.

Zhou Peng and Jin Taixui also fell silent.

They, unlike Xi Xi, do not have the means to conceal their breath such that a Martial Saint cannot detect it.

Xi Xi exhaled heat, snorted through her nose.

"Actually it's my fault, I was careless, when we came to Guangling Dao City, we should have planted Flying Thunder Chess Pieces along the way, this way, when escaping, we could easily get away."

Xi Xi felt guilty, her mind starting to reflect on herself.

If it were Master Niu Niu, he probably would have thought of this long ago, right?

"It's too late to say anything now..."

"A Martial Saint..."

Xi Xi squinted her eyes, a hint of killing intent surged in the depths of her eyes.

Not only because this Martial Saint Gu Chuan of the Heavenly Pill Divine Sect keeps chasing them, but when Gu Chuan identified Xi Xi's identity, he chased as if driven by an adrenaline high and wouldn't quit.

And Xi Xi wanted to kill Gu Chuan for an even more important reason.

That is, Gu Chuan is the mastermind behind protecting "Ascending Immortal Pavilion!"

Since Gu Chuan broke out from the Ascending Immortal Pavilion, it suggests that the vile deeds done there, using the essence blood of young girls to feed the Temple God and refine Immortal Ascension Pills, Gu Chuan should be aware.

Yet not only does he protect, he indulges!

Is this even a human?

Not even a human, then what's the concern in killing?

"Chase, he keeps chasing us, since we can't escape, then we'll counter-kill him!"

Xi Xi clenched her little fist, then put her hands on her hips, puffed out her little belly.

Flames danced in her eyes, Emperor Xi Xi... has never been someone to suffer losses!

Zhou Peng gasped, hurriedly stuffed three buns into his mouth to calm his nerves.

Emperor Xi Xi... actually wants to kill a Martial Saint?

This is a Martial Saint!

Although Xi Xi's cultivation is very good, even winning the Chulong title at the Flat Peach Victory Meeting!

But wanting to kill a Martial Saint seems still insufficient, right?

Yet Xi Xi didn't say anything, toe tapping the ground, her whole person erupted quickly through the snow.

Her plump little hands took out one Mystic Yellow Talisman Paper after another from the Qiankun Jade, as Xi Xi who inherited Fairy in the Painting, her talent with Divine Talismans was extremely good, and was verified by the Sect Master's Wife!

The Divine Talismans prepared by the Sect Master's Wife, Xi Xi can utilize them all.

Arrange Divine Talismans, conceal mechanisms...

Little kids also have big tempers!

Zhou Peng, Yun E, and Jin Taixui all watched in a daze.

Watching Xi Xi with her butt sticking out, arranging things in the snow...

For a moment, they truly felt a fearless spirit emanating from Xi Xi.

Chapter 1603: Dao Fruit, Transformation Tribulation, Primordial Dragon Elephant Flame; Emperor Xi Xi at Age 7 Wishes to Slay Martial Saint

Seven-year-old Xi Xi...

She really wants to kill the Martial Saint!

...

...

Qian Yuan Divine Sect.

Inside the study.

Li Che saw this scene through the Heaven and Earth chessboard, and couldn't help but slightly raise the corners of his lips.

He left many mechanisms for Xi Xi. Previously, at the Chulong Victory Conference, Xi Xi's methods to defeat Zhang Yunlong also relied on the power of mechanisms.

Moreover, now with the upgrade of the Chess Saint's Dao Fruit, the power of the mechanisms has also significantly increased.

Perhaps this little girl might really succeed?

Li Che was quite satisfied with Xi Xi's state. Faced with the pursuit of the Martial Saint, during the escape, she did not despair, nor did she burst into tears.

Instead, she chose to face it proactively and bravely.

As for whether she can kill this Martial Saint... it will depend on the little girl's means and planning.

Li Che was very satisfied.

Letting Xi Xi go out to train, isn't it to cultivate Xi Xi to make choices and judgments when facing the dangers of the martial world?

"Seven years old and she wants to kill a Martial Saint..."

"You little girl, you are indeed fiercer than your father."

Li Che laughed, clutching the Three Pure Ones Divine Crystal with his five fingers, starting to absorb the divinity of the divinity crystal while quietly watching Xi Xi's performance.

Little girl, what will you do?

...

...

Boom——!!!

The entire field of white snow suddenly exploded, a scorching aura rolling rapidly down from the sky.

The snow directly melted a large part, as Gu Chuan, the elder of Heavenly Pill Divine Sect, landed lightly on the snow, each step melting a large hole in the accumulated snow.

His sharp eyes swept constantly, the Heavenly Person Sensing was pushed to the extreme at this moment.

"Escape? Where could you escape to? I have already sensed your aura...little girl."

Gu Chuan's hands were behind his back, a look of everything being under control on his face.

Although Xi Xi had won the head of the Chulong Victory Conference, her cultivation was not considered high, in Gu Chuan's eyes, she was no different from a slightly bigger ant.

Landing in the snow.

The powerful Heavenly Person Sensing swept out.

Despite the faint aura, it was still caught by Gu Chuan's Heavenly Person Sensing; besides the little girl Xi Xi, there were three other kids.

Xi Xi actually wanted to take these three people and escape his pursuit?

It's undeniable, a seven-year-old little girl...her mind was simple and pure.

Even seeking death with such decisiveness.

Crack crack crack crack crack crack——

Five fingers clenched, joints rubbing, a teeth-chattering sound burst out at the moment of clenching the fist!

Boom——!

A heavy step was taken, the accumulated snow was blasted up by the impact of his qi-blood, exploding into powder!

"Got you now!"

A cold smile appeared on Gu Chuan's face, his body shaking, then leaning forward, the immense Martial Saint Yuan Gang broke and erupted.

Seemingly condensed into a substantial blood-red color, twisting the air, scorching and boiling!

Boom——!

A heavy foot stomped, the countless white snow piled on the ground exploded, and amidst the hazy sky and earth, it seemed like countless mist rose!

He suddenly turned his head, looking fifty zhang (Chinese feet) away.

There——

Xi Xi, with a small calf mask, eyes extremely bright and shining, two high ponytails tied with red strings, shooting straight into the sky!

In Gu Chuan's Heavenly Person Sensing, Xi Xi remained alone, while five hundred zhang away, the three little partners of Xi Xi were fleeing rapidly.

"Cover for teammates?"

"So young, yet has such sacrificial courage..."

"Really impressive."

"Don't worry, I only plan to capture you alive, can't bear to kill you. Offering you alive to the Grandmaster will give me greater benefits!"

Gu Chuan smiled.

However.

The smile quickly froze.

Because the eyes under Xi Xi's mask looked at him as if looking at a fool.

"Cover my back? I, Li Nuanxi, a seven-year-old Divine Physiognomy Grandmaster, using my life to cover?"

"You're dreaming... Xi Xi just wants to kill you."

In the next moment, Xi Xi, at some point, had a Mystic Yellow Divine Talisman in her hand.

The talisman instantly ignited.

Suddenly Xi Xi slapped it into the snow, the scattered snowflakes unable to extinguish this flame.

And this flame, burning on the ground, rapidly spreading in interwoven lines, a hundred talismans burning simultaneously!

Gu Chuan only felt the surrounding air became incredibly thick, as if he was trapped in a mire.

"Immortal Binding... Divine Talisman Array?"

"This is the specialty talisman of Xuanfu Divine Sect!"

Gu Chuan's eyes slightly squinted, not expecting this little girl to have such achievements in the way of divine talismans.

Even though he had heard that this little girl was cultivating divine talismans with Lv Taibai's wife, he hadn't expected her to master it so skillfully.

But...

That's all it is!

Gu Chuan's eyes suddenly burst with strong light, his five fingers spread open, embellishing them in mid-air, like five extremely sharp divine spears, wanting to tear the solidified air open!

However, this Divine Talisman Array seemed to originate from a Divine Talisman Half-Saint, having a considerable impact even on him, a Martial Saint!

The Martial Dao Will of a Martial Saint smashed down!

However, Xi Xi, clutching a Thunder Chess Piece with her five fingers.

Yet her whole person disappeared.

Again with this kind of strange Art of Teleportation...

Gu Chuan, under the pressure of the Immortal Binding Divine Talisman Array, swung a punch in vain, exhaling a breath.

However, before he finished exhaling.

He suddenly turned his head, looking at the ground of the Divine Talisman Array around him, only to see, attached to carved statues of a seated Guanyin on a Lotus Platform, were numerous talismans.

These statues inexplicably gave him a sense of dread.

Beyond that, his mind sensed something.

He abruptly looked up.

Only to find, this time, Xi Xi did not clutch the Thunder Chess Piece to teleport away.

But instead teleported to a hundred zhang high in the air.

Unleashing the mechanism's killer!

Fire God Wrath Jiao Thousand-Handed Guanyin Sitting Lotus Main Battle Tank!

Amidst the sound of clattering.

Thousand hands layered, encircling into a circle!

Like the cannon made by hands stretching out endlessly from the dead souls of Jiuyou...

Remotely targeting Gu Chuan, whose actions were restrained by the Immortal Binding Divine Talisman Array!

Under Xi Xi's small calf mask, her eyes were extremely brilliant, endlessly excited!

Four Great Avalanche Black and White Collapse Guanyin Lotus Bombs were inserted into the formation.

In addition, the proactive release of the Main Battle Tank Guanyin Lotus Bomb served as a detonator.

Emperor Xi Xi!

Release the Super Invincible Fireworks!

Today, slay the Martial Saint!

Chapter 1604: Emperor Xi Xi's Divine Talisman Mushroom Formation, Old Folks Shouldn't Interfere in Kids' Fights

As a Father, I Just Want to Watch You Achieve Immortality

The clanging sound echoed endlessly!

The Prison Lotus Wind Fire Golden Light Wheel spun furiously beneath Xi Xi's feet, roaring madly, hoisting Xi Xi's body up, suspended a hundred feet in the air.

Behind her, the Eight-Armed Three-Headed Prison Lotus Immortal Divine Form emerged, like a god with three heads and eight arms unfolded, with eyes glaring angrily, sorrowful, pained, mocking, intertwining various divinities like a torrent, entwining around Xi Xi's divine form.

The boiling Qi-Blood surged and the Gang Qi interwove, brushing against Xi Xi's bangs.

Her eyes were filled with excitement!

Can a seven-year-old kill a Martial Saint?

Although it was unlikely to defeat the opponent with sheer strength...

Yet, Xi Xi had spent immense effort.

The Divine Talisman given by the Sect Master's Wife, combined with the Netherworld Mechanism!

Divine Talisman Mechanism Technique!

Arrange the Mushroom Formation!

This was Xi Xi's trump card, her trump card to fight against a Martial Saint!

The scorching high temperatures evaporated the snowflakes, causing the falling snow to turn into drifting raindrops, which after vaporizing, became swirling mist, seemingly transforming into dragons, tigers, or divine birds!

In the midst of crackling sounds.

The Thousand-Handed Guanyin Sitting Lotus Main Battle Tank was conjured by Xi Xi at the height of a hundred feet.

Her Qi-Blood and divinity all poured madly into the main battle tank, its blood-colored patterns seemed to come alive, constantly intertwining, resembling the intricate lotus patterns.

Every time she launched fireworks, Xi Xi's heart was extremely excited!

And this time, she was even more excited than ever, with an additional special emotion.

That was anger!

She wanted nothing more than to use this grand fireworks to blast this hateful Heavenly Pill Divine Sect Martial Saint to pieces!

The sights and sounds in the Ascending Immortal Pavilion completely shattered Xi Xi's seven-year-old worldview; unexpectedly, humanity could be so horrifyingly evil!

Treating children as medicinal materials, continuously extracting their blood to feed the Temple God, then obtaining the Temple God's power to refine the Immortal Ascension Pill!

Is this something humans could do?

Xi Xi had once heard about what happened in Fei Lei City, at that time she was innocently sent out of Fei Lei City and did not experience the sacrificial offerings of the entire city.

But, many later told her how lucky she was to escape from the city targeted by Spirit Infant Sect under the Corpse God Cult.

The Spirit Infant Sect, a sect specializing in hunting children.

Countless children from various city-states in the Golden Light Prefecture had died for it.

Xi Xi understood; back then, she had her father protecting her, protecting the family, so she was spared from disaster.

And now, having witnessed the evil firsthand, after failing to save people, the helplessness deeply impacted Xi Xi's heart, making her realize how much effort and heart it must have taken for her father to shield the family and leave back then!

Recalling the despairing face of that little girl, Little Lian, Xi Xi just felt suffocated with frustration.

Very unhappy!

Since she's unhappy...

Then let the bombardment begin!

Fire God Thousand-Armed Guanyin Sitting Lotus Main Battle Tank!

Lifted by the Prison Lotus Wind Fire Golden Light Wheel in mid-air, like a blooming lotus hoisting the terrifying Thousand-Armed Guanyin!

Xi Xi lifted her head and closed her eyes.

Whoosh whoosh whoosh—

The earth became silent.

When she opened her eyes again!

Let the brilliant fireworks cleanse the sins and filth of this world!

As long as the fireworks are large enough, any sin and filth will be annihilated, with nowhere to hide!

Boom—!!!

Like a giant stone tossed into the peaceful lake, causing a terrifying stormy wave!

The extremely dazzling golden light.

Instantly plummeted from the high sky!

Bang—!!!

Glorious multitude, resembling simultaneously billions of rays, exploding, like a blazing sun severed from its connection to heaven and earth, falling to the human ground!

The world seemed silent at that moment, only that Guanyin emitting bright light seemed to transcend space, rushing at extreme speed towards Gu Chuan, sealed by the Immortal Binding Divine Talisman Array given by the Sect Master's Wife, on the ground!

Gu Chuan, although a Martial Saint, at this moment felt his blood run cold!

He hadn't been to the Divine Capital, hadn't seen Xi Xi's blasting of the Purple Mansion Divine Sect's Chulong, Zhang Yunlong, during the Chulong Victory Conference.

But at this moment, Gu Chuan suddenly understood why Xi Xi could become the Chulong leader!

The Guanyin Lotus Main Battle Tank's powerful thrusting force made Vast Sun a shooting star, with a trail, furiously bombing the ground!

The twisted Guanyin swelled and exploded, creating horrific blast shockwaves, like thunder suddenly striking from the flat ground!

The endless brilliant scorching light impacted, surging world-ending heat waves!

An exceedingly resplendent mushroom cloud rose from the earth, with countless waves whistling and roaring!

Gu Chuan, just realizing, suddenly lifted his head, dark hair flying, the powerful Martial Saint Yuan Gang wildly danced, the Martial Saint Human Pill in his dantian was jumping violently!

"Ah—!!!"

Gu Chuan let out a furious roar and howl!

The terrifying radiant firelight instantly engulfed him, the snow on the ground melted instantly within a fraction of a thousandth breath!

The surrounding air was immediately emptied, destructive forces began to pour back, burning, annihilating!

"I am a Martial Saint! Such power... wants to kill me?!"

Gu Chuan lifted his head, glaring eye to eye, suddenly spreading his arms.

He never thought...

A mere seven-year-old girl, with Divine Gang Great Grandmaster cultivation, facing a Martial Saint's pursuit, not running for life, but even dared to fight back, as if... trying to kill him?

Chapter 1605: Emperor Xi Xi's Divine Talisman Mushroom Formation—Let the Kids Fight, Old Folks Stay Out of It

Seven years old...

Want to kill the Martial Saint?!

Dreaming during day!

Gu Chuan was extremely angry, his clothes turned to flying ash in an instant, his eyes blazed like never before as he stood at the epicenter of the explosion. The terrifying shockwave, the dreadful divinity, the scorching heat wave, all crazily assaulted his physical body!

Like a scorching furnace, burning at high temperatures!

Boom——!!!

Gu Chuan's body moved, he sprinted in a direction; locked by the Immortal Binding Divine Talisman Array, his movements became exceedingly slow.

This was the handiwork of a Divine Talisman Half-Saint; such talismans are truly extraordinary.

But Li Nuanxi, this seven-year-old girl, could actually activate the Divine Talisman Half-Saint's talisman, proving her immense Divine Sense and significant Mastery of Divine Talismans!

He wanted a breakout!

Because under the terrifying explosion of the Guanyin Lotus Bullet, the Immortal Binding Divine Talisman Array had begun to lose effectiveness!

Now was the perfect time for his breakout!

However...

His eyes suddenly contracted.

Boom——!!!

The spreading mushroom firelight continued to scatter, while the four Guanyin Divine Sculptures attached with divine talismans crazily siphoned these flames, and then...

A sound resembling the Heavenly God's drum beating from the mountain peak exploded!

Subsequently, the four Guanyin Statues sitting lotus platforms, with kind and serene expressions, turned sinister, twisted, and expanded!

As if in an instant transformed into Netherworld ghosts clawing out from Hell Yellow Springs!

Boom boom boom boom——!

Four successive terrifying explosions, as if a massive amount of Thunder Bombs simultaneously detonated in a blink!

The ground of the dense forest suddenly collapsed in large patches, like a dragon overturning the earth, with terrifying shockwaves expanding in all directions!

Four bright mushroom clouds then ascended, sowed upon the human world!

Ten zhang, a hundred zhang, a thousand zhang!

The terrifying shockwaves almost instantly spread beyond a thousand zhang!

Using divine talismans along with Mechanical Techniques, they locked onto a Martial Saint, causing his movements to slow and completely detonated!

Endless light, shockwaves and surging airwaves, accompanying those four majestic towering mushroom clouds that erupted, pouring forth with divine power like boiling water!

Now, Li Che, due to the transformation and enhancement by the Chess Saint's Dao Fruit, had increased the power of Great Avalanche and Black and White Collapse correspondingly.

A mushroom cloud in the center, with four mushroom clouds guarding the four directions like sentinels!

Sealing off the four corners!

A tremendously powerful ring-shaped ripple and airwave, presenting a fivefold trend, rampaging and impacting, with five expanding light spheres on the earth, annihilating everything, seemingly slow destruction, yet the edges of the exploding light spheres pushed rubble!

Five mushroom explosion fires like formations embellishing the human world!

The Mushroom Formation of Emperor Xi Xi debuts in the martial world!

...

...

Huff huff huff—

Xi Xi gasping heavily, her face utterly pale.

Under her feet, the Prison Lotus Wind Fire Golden Light Wheel continuously pushed her body skywards, rising higher!

Ascended to two thousand zhangs high, to evade the scorching shockwaves.

Though Xi Xi's face was pale, her heart was exceptionally excited!

This belonged to Emperor Xi Xi's Mushroom Formation!

Heaven and earth trembling, wind and rain shattered!

Xi Xi continuously ascended, watching the five mushroom clouds blooming on the human earth, the cascading shockwaves spreading dreamlike ripples, making countless mud and snow fly up.

Rolling heat waves surged incessantly, evaporating the clouds clean!

The five mushroom clouds in Xi Xi's eyes were extremely beautiful.

Packed up the Guanyin Lotus Main Battle Tank, with feet on the Prison Lotus Wind Fire Golden Light Wheel, Xi Xi hands on hips, very pleased.

Such a masterpiece calls for a big cup of milk!

"Did they die?!"

"Under Emperor Xi Xi's Mushroom Formation...are they dead?"

"All filth and evil must vanish into ashes under Emperor Xi Xi's Mushroom Formation! Kneel down, great villain!"

Xi Xi puffed her little belly, let out a long breath.

A thousand zhangs from the mushroom formation explosion center.

Powerful shockwaves surging like tides swept through, half the accumulated snow melted, while the other half was whipped up by the strong wind, continually rolling like waves!

Tree after tree bent under the impact of the wind shockwave!

Jin Taixui, Yun E, and Zhou Peng sprinted out a thousand zhang distance, feeling the earth-shattering explosions behind them.

As they turned to look, the three stood dumbfounded in the wind and snow, letting the cold wind and snow almost destabilize their stance.

Five clouds blooming between heaven and earth, like golden mushrooms soaring from the ground, in their utmost beauty carrying world-ending destruction and annihilation...

"This...this was Xi Xi's doing?"

Zhou Peng opened his mouth, even forgetting to eat the bun that he had stuffed in his mouth while running.

Yun E, holding a rabbit, with the cloak fluttering, had beautiful eyes reflecting some incredulity and complexity.

The once innocent young girl, unknowingly...

Already possessed such world-ending power?

What will her limits be?

In the future, what terrifying heights will she stand at?

Yun E lightly sighed and turned around, kept running.

"Don't be dumbfounded, don't forget Xi Xi's instructions, run as far as possible!"

Yun E tightened her grip on the white Flying Thunder Chess Piece in her hand, saying solemnly.

Slender legs stepping in the snow, her body breaking through the wind and snow like a nimble rabbit, swiftly darting far away.

Chapter 1606: Emperor Xi Xi's Divine Talisman Mushroom Formation—Let the Kids Fight, We Old Folks Shouldn't Interfere

Jin Taixui turned silently, immediately following, while Zhou Peng exclaimed in surprise, stuffing two hot buns into his mouth to calm himself, and hurriedly ran after them.

...

...

Guangling Dao City.

On the city tower, the sound of space-breaking resounded, the terrifying aura intertwined and raged, some with clanking armor, some with exuberant presence.

They gazed at the distance where five magnificent golden mushroom clouds blossomed!

"What... is going on?"

"Seems like Half-Saint Gu Chuan is pursuing in that direction!"

"Could it be that Half-Saint Gu Chuan is in a battle? Should we go to support?"

As the words fell.

On the city tower, the Temple Control Bureau of Guangling Dao City, along with the strong ones from the Divine Guard Army, swiftly sped away.

Besides that.

Within the mountain gate of the Heavenly Pill Divine Sect.

Wisps of smoke swirled into the Cloud Dome, a huge pill furnace soared into the Cloud Dome, the furnace's belly astonishingly had a lid, opening like the door of a washing machine drum.

A supremely rosy and fat face poked out from that pill furnace, the fat seemed about to squeeze out, greasy oil trickled down along the rim of the furnace, those rosy fat eyes seemed to burst out with extremely dazzling brilliance.

"Is that... the direction the Human Medicine escaped to?"

"Gu Chuan went chasing, seems like... he encountered a tribulation."

"No wonder Human Medicine emits that extreme fragrance... as soon as I entered the city, I couldn't control myself."

"Unfortunately, I must finish refining a furnace of Human Pill first, it's eight hundred virgins!"

The figure inside the pill furnace chuckled softly.

Then, the lid closed, the entire pill furnace seemed to turn a fiery red-gold under the flames, like branding iron.

Subsequently, it howled away like a meteor, dragging a long tail of light, seemingly exploding the space into fragments instantly as it passed.

...

...

Qian Yuan Divine Sect.

Disciple City, Elder Court.

The Heaven and Earth chessboard rotated above the courtyard, isolating the aura inside the house.

Li Che gripped a Three Pure Ones Rank Divine Crystal, continuously siphoning its divinity, causing the Immaculate Heart Taoist Fruit, which hadn't matured further since he siphoned that Three Pure Ones Rank Divine Weapon Gathering Immortal Yellow Flag, to twitch in maturity again.

Though the maturity increase wasn't much, since the Immaculate Heart Taoist Fruit's maturity was already very high, even siphoning the Three Pure Ones Divine Crystal didn't bring as much improvement as imagined.

[Dao Fruit: Immaculate Heart (lv6,87%)]

Within the Inner Scene of the Energy Center, the Heaven and Earth Transformation Spirit True Ape Divine Embryo roared and bellowed, frantically siphoning the divinity of the Pure Heart, and having reached the second god transformation of the Heaven and Earth Spirit Bright True Ape, it greedily siphoned the divinity.

The cultivation of the Divine Embryo is a process of accumulation.

"Summoning Gods can quickly enhance Divine Cultivation..."

"My Divine Embryos can grow stronger by devouring Temple Gods summoned... but this method is a bit like draining the pond to catch the fish, it's not good."

Li Che's eyes flickered slightly.

The Mysterious Temple exists in the human world, bringing divinity permeating every corner of Heaven and Earth.

It ushered the human world into an era of Divine Cultivation, rapidly speeding up the pace of cultivation in the human world.

The original Martial Path was slow to cultivate, and Martial Saints could become top-notch masters of the world.

And now, with the addition of divinity, the Divine Martial Dao emerged, and Divine Martial Martial Gods are not unheard of.

Summoning a Temple God is fine, but summoning too many may not only impact the Divine Cultivation of the human world.

It might even provoke the wrath and disturbance of those terrifying beings in the Strange Que.

Like when we invited Lord Dog to take down the Golden Heavenly King Temple God, that furious blue hand that appeared, its terrifying aura made even Lord Dog restrain his aura, worried about exposure.

Therefore, although summoning gods is good for quickly enhancing Divine Embryo Cultivation, Li Che still prefers a more stable approach.

While refining the Divine Crystal, he remained constantly attentive to Xi Xi's situation.

Upon seeing Xi Xi using the Divine Talisman Array, paired with Guanyin Lotus Bullet, setting up an Emperor Mushroom Formation like a link.

Even Li Che couldn't help but show surprise.

"Emperor Xi Xi's Mushroom Formation? That's something... "

"Using a Divine Talisman as the lead, paired with the Guanyin Lotus Bullet's array points setup, the power of the five exploded Guanyin Lotus Bullets far exceeds the power of simultaneously exploding five bullets!"

"This power... can probably equal the combined explosion of seven Lotus Bullets! It utilizes the power of five bullets to the fullest!"

Even as Xi Xi's father, Li Che couldn't help but be amazed by his daughter's ingenious idea.

Divine Talisman Mechanism Array?

This little girl really learned something from studying with the Great Elder Fang Hanshu!

"This little girl... could she really kill a Martial Saint at seven years old?"

Li Che's expression turned vivid.

Based on Li Che's rich experience with battling Martial Saints, the explosion power of this Emperor Mushroom Formation is enough to seriously injure a Martial Saint at the First Level, with luck... even directly kill.

A wisp of Li Che's consciousness slightly condensed.

His daughter's historic moment.

As a father, he must witness it personally.

...

...

Whoosh whoosh whoosh whoosh whoosh——

Gales howled incessantly.

Xi Xi, stepping on the Prison Lotus Wind Fire Golden Light Wheel, heaved deep breaths, dreamily watching the five mushroom clouds below as they began to slowly collapse and disperse.

Behind her, the Eight-Armed Three-Faced Hell Lotus Unbreakable Divine Image manifested, after a year of relentless cultivation, the growth speed of the Divine Image was quite fast.

Chapter 1607: Emperor Xi Xi's Divine Talisman Mushroom Formation, Let Us Old Folks Stay Out of the Children's Fight

Because she is not lacking Divine Crystal, coupled with the nourishment of Flat Peach, Xi Xi has now reached the late God Phase Stage, and is preparing to condense her Primordial Spirit, aiming to break through to Elemental Appearance.

Once Elemental Appearance is achieved, Xi Xi is confident in breaking through to the Divine Origin Realm.

Xi Xi has set a small goal for herself, striving to complete the breakthrough to the Divine Origin Realm before turning eight.

Six years old at God Phase, eight years old at Divine Origin...very reasonable.

Rumble!

The raging winds that surged forth suddenly retreated, the great wind arose, whirling crazily.

Slowly, smoke and dust intertwined fiercely, as flames visibly dissipated.

Xi Xi spread her five fingers wide, and in the next moment, a Purple Flame Serpentine Spear appeared in her hand, gripped tightly by her.

Her eyes squinted, her body's qi-blood roared and surged, while her other hand grasped the God-beating Gold Brick.

BOOM—!!!

Suddenly, an outrageously furious roar echoed.

Incredibly powerful qi-blood swept out mightily, like a long blade cutting down, even splitting the waves in two!

"Huff huff huff huff—"

The heavy panting sound resembled muffled thunder.

Within the countless flames, the ground turned into utter ruins, with five giant deep pits collapsing, in the center of the pits.

The smell of scorch was rich and pungent.

A figure, entirely pitch-black, with blood and flesh burned until indistinct, like porcelain full of cracks.

Gu Chuan's form wavered, as he coughed up blood.

His eyes became extremely fierce...

He, a dignified Martial Saint, was actually beaten to such a state by a seven-year-old child, even if the child relied on mechanisms, it was absolutely unbearable!

Gu Chuan harbored lingering fear...

Five mushroom clouds soared, with the dreadful power of destruction, and the terrifying divinity impact within them, almost obliterating him.

If he had not completely detonated the Human Pill, continuously counteracting the terrifying divine erosion with Martial Saint Yuan Gang.

In addition, he swallowed the forbidden medicine of the Heavenly Pill Divine Sect without hesitation.

Causing his blood and flesh to change, his power to undergo transformation and surge...

Only then did he barely block it, if not...

He might be dead now, becoming a Martial Saint killed by a seven-year-old child, a laughingstock in the world!

"Little brat—!!!"

"You deserve to die!"

Gu Chuan roared, his hair burnt entirely, and after consuming the forbidden medicine, his entire body twisted and swelled bizarrely, his blood and flesh mutated and raised, he no longer looked human!

Resembling a terrifying monster!

Gu Chuan could feel the medicinal effect rapidly fading, he must deal with Xi Xi within a short time, otherwise...

Once the effect ends, he will fall into a period of unbearable weakness.

At that time...

He will die!

His knees bent, squatting down forcefully, instantly, countless smoke exploded and scattered, mushroom clouds filled the surrounding smoke and radiance, impacted by surging qi-blood!

Gu Chuan's whole body shot up, with a thick rolling violent aura, surged vigorously.

Two arms grew from his back, making him appear with four arms, wildly swinging, covered in fiercely raised, bizarre muscles.

The air constantly exploded!

In the sky thousands of feet high, Gu Chuan appeared at the speed of almost causing a sonic boom, darting rapidly upwards.

His sinister scarlet qi-blood boiled like a tide, as if stimulated boundlessly, each qi-blood seemed to have life force.

This is the side effect of consuming the forbidden medicine arduously refined by the Heavenly Pill Divine Sect, the qi-blood gaining vitality will erode the physical body, will destroy the blood and flesh...

Will fight for the dominance of the body with the person.

During the battle for control with the qi-blood consciousness, the main body's consciousness will gradually weaken.

However, the powerful strength gained is undeniable!

Every Martial Saint of the Heavenly Pill Divine Sect is equipped with such forbidden medicine by the sect.

Unless the opponent is too strong to allow time for consuming the medicine, once consumed, it means fighting desperately.

Gu Changqing died too swiftly and suddenly, he was killed in a sneak attack, so he didn't have time to consume the forbidden medicine...

Xi Xi's expression slightly changed, looking at Gu Chuan appearing before her.

On her forehead, fine sweat beads appeared.

The opponent's extremely scorching, surging, and frenzied qi-blood.

Made her pressure become significantly high.

Martial Saints...so hard to kill!

Even Emperor Xi Xi's Mushroom Formation bombarded like this, still couldn't kill him!

If it were Zhang Yuanlong at the Chulong Victory Conference, even if Zhang Yuanlong completely handed himself over to the Temple God, he would still die!

Sinister, twisted, crazed will, kept appearing on Gu Chuan's face.

He roared open-mouthed, the gigantic monster swollen to three meters, entirely black, with sinister blood-colored patterns interwoven on the body, each blood vessel swollen and thick!

Five fingers spread wide, five fingers like Divine Spears, fiercely reaching for Xi Xi's neck.

Intent on capturing Xi Xi!

However, Xi Xi stepped lightly, the Prison Lotus Wind Fire Golden Light Wheel spun at high speed, countless sparks splashed, dragging her whole body rushing afar and retreating swiftly.

The air collapsed instantly, countless air currents surged in.

Gu Chuan's boiling blood seemed ignited by frenzied flames.

"Die!"

With a leap, Gu Chuan continued to charge towards Xi Xi.

But, Xi Xi's hand appeared the Immortal Fire God Gatling, fiercely pulling the trigger.

Six metal tubes instantly spun rapidly, terrifying golden lights blasted out, bombarding Gu Chuan's body.

Xi Xi's big eyes were full of agility, ready to retreat?

Chapter 1608: Emperor Xi Xi's Divine Talisman Mushroom Formation, Let the Kids Fight—Old Folks Should Stay Out of It

As long as she grips it, the Thunder Chess Piece can take her away.

But...

Retreat?!

"Little girl... you want to kill me? Me!"

Gu Chuan's hoarse and crazed voice echoed.

As if he sensed that Xi Xi was about to use that strange Art of Teleportation to leave.

Gu Chuan's terrifying Qi-Blood constantly intertwined and spread, trying to block Xi Xi.

Not just because Gu Chuan sensed the terrifying Pill Furnace speeding towards the direction of the Divine Sect Mountain Gate.

That is...

The Grandmaster's aura!

The Grandmaster is here!

As long as he stalls this girl, it's equivalent to offering her to the Grandmaster.

Having swallowed Forbidden Medicine, Gu Chuan, this time... was too heavily injured, and the loss was too great. If he couldn't hand this excellent Human Medicine over to the Grandmaster, Gu Chuan would truly suffer the greatest loss.

So, he must keep this girl here!

"Aren't you trying to be a hero? Don't you want to save those girls in the Ascending Immortal Pavilion? Those girls... they're just Human Medicine, I've personally extracted their Essence Blood, sent it to the Temple God, and their blood-drained physical bodies will be ground into mush to feed the Demon Beasts!"

"They were too miserable, drained of blood, yet not dead, each skinny to the bone... with only their eyeballs moving, helplessly watching me, those helpless gazes were smashed one by one, cut into pieces by me, how refreshing!"

Gu Chuan's hoarse voice carried a sick madness.

Upon hearing this, Xi Xi's eyes widened unwillingly.

She thought of Little Lian in the Ascending Immortal Pavilion, whom she was about to save, and those girls imprisoned in the cages begging her for help...

Their tearful and pleading faces appeared one by one on Xi Xi's face.

On her seven-year-old heart, they carved deep scars!

However... Xi Xi couldn't save them!

Xi Xi's eyes suddenly turned red!

An unprecedented fury rose, boiling incessantly.

Looking at Gu Chuan in front of her, who was being bombarded by the six-barreled Immortal Artisan Gatling...

Xi Xi only felt the blood in her body boiling.

Guilt, helplessness, fury, various emotions surged in Xi Xi's heart.

Xi Xi's eyes were red.

"Xi Xi... can't save them!"

"Xi Xi wants to kill him!"

Xi Xi gritted her teeth, her chubby hand clutching the Thunder Chess Piece slowly loosening.

He's so despicable, Xi Xi thought... she wants to kill him!

The next moment.

A black Lotus Divine Pattern slowly emerged on the Brow Niwan Palace.

Then, one of Xi Xi's eyes turned a pitch-black ink color.

"Sister... Xi Xi wants to personally kill him!"

On Xi Xi's baby-fat face, her cheeks began to tremble continuously.

Her little belly also shook rapidly with a frequency indistinguishable to the naked eye.

Boom—!!!

A black flame lotus instantly bloomed behind Xi Xi.

Burning quietly with scorching darkness!

A "boom" of firelight flickered.

The Purple Flame Serpentine Fire Tip Spear instantly transformed its purple flames into black flames, and the entire spear turned pitch-black.

The flames on the Prison Lotus Wind Fire Golden Light Wheel also turned pitch-black.

At this moment, Xi Xi's furious emotions became incomparably calm.

In fact, it was as if all emotions had left her.

Was this... the power of that mysterious and mighty sister?

That sister was so righteous!

Silently lending her power!

Xi Xi, empowered!

At this moment...

Puppy Xi Xi briefly steps down.

Emperor Xi Xi makes a solemn entrance!

Whirr—!

The black Purple Flame Serpentine Fire Tip Spear swept fiercely, slicing through the air with a lasting crescent arc, Emperor Xi Xi's eyes coldly observed the mutated and twisted Gu Chuan.

As if looking at a lump of dead meat.

After taking the Forbidden Medicine, Gu Chuan's face, twisted and mutated, with a vicious smile, slowly froze.

Grandmaster?!

Grandmaster, hurry!

...

...

Fwoosh fwoosh fwoosh fwoosh—

As if containing inner flames constantly burning, the Pill Furnace turned crimson.

Like a meteor rapidly flying, the Pill Furnace.

At this moment, abruptly stopped in mid-air.

At the top of the Pill Furnace, the mouth of the furnace opened wide.

Revealing a greasy and fat face, seemingly forcefully stuffed into the Pill Furnace.

Two eyeballs rolled irregularly around.

The greed on the face slowly restrained, a hint of uncertain surprise appeared on the greasy fat face.

Finally locking onto the front.

There...

At an unknown time, a dense black mist rolled, like a chessboard with intertwined lines, silently appeared.

And on that chessboard, as the dense mist rolled and parted, a jet-black city emerged.

On the city gate's tower of the city entrance.

A black robe embroidered with a golden lotus flapped in the wind, sitting with its back to him.

"Kids fighting, do we old men really want to interfere?"

"Do you want to die?"

Chapter 1609: Emperor Xi Xi Kills and Runs—So Thrilling! The Children Live Happily in Fengdu

Crash, crash——

The ink-colored rain splashed down from the city walls, incessantly pouring, striking the black bricks. The raindrops, as large as peas, were like wolf brushes soaked in thick ink, flicking open, exploding into a dark mist.

The majestic, magnificent, mysterious city of ink lay sprawling and suspended, a chessboard with intersecting lines, carrying this towering city!

On the city's gate, the howling wind cascaded and spread, infusing with roaring gusts, nearly blinding the twisted greasy face hiding in the pill furnace.

On the city gate, it was inscribed Fengdu!

A figure in a black robe embroidered with a golden lotus sat with its back turned.

It seemed as if the entire world fell silent at this moment.

"When children fight, why should we old folks intervene?"

The voice, calm and unhurried, came from the black-robed figure, like an ancient monster that had lingered above the ancient city for millennia, inexplicably bringing a sense of oppression to the figure within the pill furnace.

This sense of oppression was incredible, considering that at his level of existence, only the Three Calamities and Nine Tribulations induced by the Heaven and Earth Will could oppress him!

Who was this person before him that could bring such a sense of pressure?

The greasy face hiding within the pill furnace slowly narrowed its eyes.

As expected...

How could such a delicious human medicine lack a protector?

Li Che slowly turned around from the city wall, wearing a cute bull mask. Back in Fei Lei City, he wore this Bull Demon Mask to protect his daughter.

Now, as his daughter embarked on her journey wearing a calf mask, naturally, he, as a father... would also wear the Bull Demon Mask.

The old bull demon protecting the little calf was only reasonable.

Li Che held the divinity crystal of the Three Pure Ranks in his hand, having been cultivating in his study, and divided a portion of his mind to focus on Xi Xi's situation.

When a martial artist of the first level targeted Xi Xi, Li Che naturally felt no need to intervene; his daughter needed to undergo training, and it required a training attitude.

Although he was always vigilant about his daughter's safety, the mere first-level martial artist, Xi Xi might actually be able to handle.

However, this monstrous presence hiding in the pill furnace, with a face full of viciousness, calling human medicine at every turn, was something Li Che could not ignore.

After all, such a presence was beyond what Xi Xi could currently handle.

Though not his true body, he was undeniably a genuine Divine Tribulation Great Cultivator.

Li Che also learned from Gu Changqing that the greasy presence hiding within the pill furnace was likely the Yang Xuan Grandmaster, one of the two grandmasters of Yin and Yang from the Heavenly Pill Divine Sect.

That Yin Xuan Grandmaster was skilled in poison, while this Yang Xuan Grandmaster was not as conspicuous.

But now, it seemed this Yang Xuan Grandmaster had some peculiarities as well.

Inside the pill furnace, the greasy human face slightly squinted its eyes.

"Indeed, what you say is quite right... It's true we old folks shouldn't meddle when kids fight, my mistake, hehehe."

The thick lips of the human face in the pill furnace pressed together, emitting a hehehe laughter.

Suddenly, a burst of fire exploded, as if a great fire was burning within the furnace, causing the pill furnace to erupt with burgeoning black smoke. Then, it transformed into a stream of light, rapidly fleeing back along the path it came, heading towards the direction of the Heavenly Pill Divine Sect's mountain gate.

Not a hint of desire to confront Li Che.

Li Che's face beneath the Bull Demon Mask was icy cold, and the corners of his lips curled up slightly.

"Human medicine?"

The calm voice reverberated.

Then, a terrifying killing intent surged like waves, as if it could cross the Grand Canal in Guangling Dao City's tide, a massive wave roaring and connecting with the heavens and earth, bearing the pressure of heaven and earth!

Viewing his daughter as human medicine?!

If Li Che hadn't appeared, would this Yang Xuan Grandmaster have bullied the weak, intending to capture his daughter for alchemy?

And inside Guangling Dao City's Ascending Immortal Pavilion...

Could it also be the handiwork of this Yang Xuan Grandmaster?

He heard from Gu Changqing that the Heavenly Pill Divine Sect established the Ascension Tower to refine a chronic poison pill, aiming to gather wealth and resources for the grandmasters' cultivation.

Thus, through Xi Xi's perspective, Li Che naturally also saw the tragic scene within the Ascending Immortal Pavilion.

Other Divine Sects suppressed the mysterious temples and temple gods.

But the Heavenly Pill Divine Sect... chose to embrace the Divine Sect and collude with temple gods, rather than suppress to gain the legacy...

This was the consequence of the Da Jing Dynasty letting the various Divine Sects govern the mysterious temples within their territories!

Now, with the Imperial Court drawing personnel from the Temple Control Bureau and the Qintian Observatory, all kinds of operations by the Divine Sects emerged.

Certainly, there were Divine Sects like Qian Yuan Divine Sect diligently suppressing mysterious temples for the surrounding populace.

Willing to relocate the array of strange temples around Qianyuan Taoist City to within the Divine Sect Mountain Gate, showcasing great courage and power.

But also Divine Sects like the Heavenly Pill Divine Sect, colluding with temple gods.

Buzz boom——

A muffled sound like thunder, suddenly made the air ripple with overflowing waves.

Beneath the Bull Demon Mask, the body suddenly grew robust and burly, hot qi-blood surged turbulently, like waves churning, on the exposed skin, intertwined with black and red hues as if forged

by molten iron, golden qi-blood misted, tinged the hair tips, the entire body seemed enveloped in a layer of golden smoke.

Chapter 1610: Emperor Xi Xi Kills and Runs—What a Thrill! The Children Live Happily in Fengdu

Boom—!

Li Che clenched his five fingers, the Heaven and Earth chessboard made its move, completing a star leap-like teleportation in an instant.

Appearing on the essential path of Yangxuan Grandmaster, blocking that Pill Furnace!

The Heaven and Earth chessboard extended across, the ink-colored city, profoundly deep, over the gate, inscribed with "Fengdu," the two characters flowed as if countless souls were roaring and howling!

It was like a city symbolizing death!

The Pill Furnace erupted with monstrous flames, that greasy face, eyes suddenly widened, let out a furious roar: "Pushing one's luck!"

"I have already given up on Human Medicine, what more do you want?!"

From within the Pill Furnace, Yangxuan Grandmaster roared continuously, seeming to fall into madness, a terrifying and chaotic will, repeatedly surged out, intertwining violently.

Under the Bull Demon Mask, Li Che's eyes were extremely cold.

"Kill you."

A faint and hoarse voice echoed back and forth.

The frenzied roar from the Pill Furnace seemed to get stuck in the throat in an instant.

Boom——!!!

The black gate of Mo City Fengdu, as if a bloody mouth suddenly opened, completely swallowed it inside.

...

...

Chichi——

Falling snow instantly twisted and burned into rain by black flames, splashing down.

Clang sounds echoed ceaselessly, the Prison Lotus Wind Fire Golden Light Wheel emitted black flames as if devouring all light.

Xi Xi's one eye was lively, the other became extremely dark, with pupils seeming to bloom with black lotus flowers.

The skyward braid trembled, the brow niwan's Prison Lotus Divine Pattern radiated brilliance, the Eight-Armed Three-Headed Prison Lotus Unbreakable Divine Form behind her seemed to undergo an earth-shattering change, five fingers spread wide, seemingly holding a Fire Tip Spear engulfed in black flames, synchronizing with Xi Xi's movements, drawing a half-moon arc, arrogantly gazing at Gu Chuan.

Gu Chuan had ingested a Forbidden Medicine, now looking neither like man nor ghost, he never expected to be pushed to such a situation by a seven-year-old child.

Yet at this moment, the oppressive sense emitted from Xi Xi was sending chills through Gu Chuan's heart.

The Forbidden Medicine he consumed borrowed from the Temple God's power...

But the Temple God power released from the elixir was, at this moment, dissipating away like melting snow.

A bad premonition suddenly spread in his heart.

Xi Xi felt unprecedented strength and grandeur!

So this is what real power feels like!

Xi Xi finally grows strong, and with power comes change!

Boom——!!!

Across Xi Xi's skin, patterns like Prison Lotuses spread and expanded, covering her entire body, continuously elevating her Qi-Blood triggering transformation.

With just a step forward, the Qi-Blood climbed drastically, within the small body, it held power enough to destroy heavens and earths, burn the void, and distort the realms!

And as Xi Xi stepped forth, her whole being vanished into thin air.

Airflow in mid-air seemed to explode into countless turbulent currents.

Gu Chuan roared angrily!

His heart sank to rock bottom; clearly, he might not wait for the Grandmaster anymore.

Because he could no longer feel the Grandmaster's presence...

At this moment, Gu Chuan wished he could curse the Grandmaster to death; had he known the Grandmaster wouldn't come, he would've let Xi Xi go, why provoke this little girl for no reason?

Who knew this seven-year-old girl would conceal such terrifying power?

Buzz——

The air vibrated, as if invisible power was being transmitted, an ink-colored spear shadow roared like a black dragon, coursing through his body, Gu Chuan's mutated Qi-Blood felt as though frozen, unable to release at all...

Then he felt a massive lotus-shaped gap appear on his body in an instant!

A spear burning with black flames pierced through his body, terrifying divinity raged madly, surging through all his veins, cutting off his Qi-Blood.

Undermining his organs which were already cracked from extreme load!

"You..."

Gu Chuan's eyes widened in terror, opened his mouth.

Bang——!

Xi Xi's chubby hand gripped the spear, and gave a fierce shake, as if black flames transformed into Dragon Elephants, trampling and lashing!

Myriad Transformations Dragon Elephant!

Either a spear, either a fist, either a blade, either a sword!

It was the Martial Arts Li Che had taught Xi Xi!

Nowadays, Xi Xi in Emperor Xi Xi state, seemed to comprehend and master deeper realms, the martial arts became increasingly profound!

Fiercely blazing black flames distorted the void, as if a black flame Jiao Long emerged from the abyss, the sea, the heavens!

Like Jiao Long-like beacon fires rampantly burned!

Gu Chuan the Martial Saint, immediately raised his head and let out a wailing scream...

Then, his entire body blew apart, shattering into countless fragments burning with black flames, like small meteors falling, crushed into pieces.

Emperor Xi Xi.

A seven-year-old achieving the feat of slaying a Martial Saint!

Xi Xi suspended behind eight arms three-headed Prison Lotus Unbreakable Divine Form, single-handedly holding the Black Flame Snake Spear Fire Point Spear.

One eye utterly cold, one eye jubilant.

Switching restlessly between Emperor Xi Xi and Xi Xi the Corgi.

"I'm so strong!"

"Emperor Xi Xi, really so powerful!"

Xi Xi took a deep breath, exclaiming in disbelief at her own power.

Nevertheless, Xi Xi stepped on the Prison Lotus Wind Fire Golden Light Wheel, turning herself into a black light and swiftly swooped down, seizing the Qiankun Jade that accompanied Gu Chuan's fragmented body in her hand.

This is Emperor Xi Xi's trophy!
