Chapter 167: Dao Fruit Transforms Again, Pure Heart - Soul Capturing

The divinity within the Eight Extremes Divine Crystal was extracted rapidly, like a deluge breaking through a dam, pouring wildly into the inner scene of the Niwan Palace within Li Che.

Li Che felt his entire body tremble slightly, as a swelling sensation emerged from the inner scene of his Niwan Palace, as if it could not withstand the high velocity of the surging divinity.

The inner scene of the Niwan Palace, situated at the brow point, is a mysterious place within the human body.

Even when cultivating divinity, one dares not be too reckless, for the inner scene is embedded in the mind, and any damage would greatly affect the brain.

But at this moment, Li Che...

Had little fear.

He reveled in the thrill of rapidly drawing and enhancing power; if the Pure Heart could absorb, he let it absorb.

If it couldn't absorb anymore, the Pure Heart Dao Fruit would automatically cease, that's how considerate it was.

Watching his maturity level continuously rise, Li Che's mind was clear, his eyes sparkled brightly.

He sat cross-legged, the Chess Saint Dao Fruit deploying the Heaven and Earth chessboard, hiding his divinity to prevent exposure.

He gathered his essence, qi, and spirit, focusing wholeheartedly on refining the Eight Extremes Divine Crystal!

The Immaculate Heart Dao Fruit throbbed wildly, drawing in crazily, and in no time, Li Che found the maturity level of the Immaculate Heart Dao Fruit had reached 50%!

More than half matured!

Too fast!

Too insane!

The rich, white divinity was being extracted crazily, merging into the Niwan inner scene, into that nurtured and growing river of Immaculate Heart Divinity.

The river was growing stronger, constantly wavering, and its level of robustness surged rapidly.

It even overtook the three divinity rivers of Angry Cry Town Ghost, Heart Shocking and Sturdy, and Xuansi Liu Sword which had already reached the Cultivation as Riverlike level!

Even the Three-eyed Fierce True Lord Divine Foundation seemed to tremble slightly under the assault of the burgeoning river of Pure Heart at this moment!

It was fortunate that the divinity of the Pure Heart always isolated the connection between various divine aspects, so even now as it was shaking and impacting, it did not cause a balance breakdown or a violent outbreak of divinity.

Li Che felt the various divine energies within his inner scene...

A thought flickered in his mind; it seemed he needed to hasten the creation of other Divine Origin Bases.

Feeling the increasingly majestic and profound Immaculate Heart Divinity, the white divinity extracted from the Eight Extremes Divine Crystal was purer than the divine energy extracted from the Ten Cities Divine Crystal.

The cleansing by the Pure Heart barely required much time, it could be purified quickly, retaining about eighty percent of the divinity!

The Immaculate Heart Divinity grew more majestic, and the river it formed almost turned into a surging great river, completely overwhelming the other divine rivers as if dominating the space within the inner scene.

Even the Three-Eyed Fierce True Lord Divine Foundation seemed to gradually lose its capital to contend against the river of Immaculate Heart Divinity.

The power of the rank seemed to fail at that moment!

Boom!

Suddenly, Li Che felt as if his mind was about to explode; the Niwan Inner Scenery Space burst forth with a dazzling and vast radiance in an instant!

Li Che's complexion changed slightly, could something have gone wrong?

Was the divinity from the Eight Extremes Divine Crystal too vast, causing an explosion in the inner scene?

If it were so, Li Che feared he would be in tears without the ability to cry.

Fortunately, his mind was still agile, and even... clearer than before.

Countless white divinity seemed to boil, blanketing all of Li Che's perception.

Yet, he could feel a powerful compressive force erupting within the space of the inner scene.

A sudden cold sensation made Li Che shiver.

This was somewhat incredible; with his current horizontally refined physique, let alone feeling cold, even if he were thrown into an ice hole, his vigorous and bubbling blood could boil the water if he wished!

But his current condition...

Was not right!

It was a coldness coming from the inner scene space, a coldness... at the level of the soul!

It was as if a fusion reaction was occurring inside, drawing in the surrounding heat and causing a dramatic drop in temperature.

When the white haze before his eyes vanished.

Li Che found the scene within the Niwan Palace revealed itself to him once again.

Three divine rivers winding, with the Three-Eyed Fierce True Lord Divine Foundation suspended among them, releasing divinity at will.

And beside this divine foundation appeared another, exuding a gentle white luster, fully-formed Divine Foundation.

The Divine Foundation was thick and looked like a milk tablet magnified many times, resembling a cylindrical millstone.

"This is..."

"A Divine Foundation?!"

Li Che was astonished, and then, his face took on a quizzical expression.

Creating a Divine Foundation... Is it that simple?

Natural and smooth as if sliding on ice!

The creation of the Pure Heart Divine Foundation happened even without him realizing it, completed unknowingly by drawing the divinity from the Eight Extremes Divine Crystal.

Li Che's second Divine Foundation just hovered there in the inner scene space.

There was none of the terrifying and oppressive Divine Foundation pressure of the Three-Eyed Fierce True Monarch Divine Foundation, none of the air that could affect one's emotions and make one uncontrollably angry.

The Pure Heart Divine Foundation... pure and white, it seemed to bring absolute tranquility to the soul.

"This..."

Li Che narrowed his eyes, what use was this Pure Heart Divine Foundation?

Apart from an increase in the content of Pure Heart Divinity, were there other functions?

Suddenly, Li Che thought of something and manipulated the Pure Heart Divine Foundation to approach the Three-Eyed Fierce True Lord Divine Foundation.

The moment it got close, a suction force erupted.

It was like two round magnets, colliding with a snap!

In an instant—

Li Che felt the Divine Foundation pressure of the Three-Eyed Fierce True Lord increase exponentially compared to before.
