Chapter 194: Emperor Xi Xi Expands the Territory, Divine Sect Inaugurates on the Spring Equinox of February (3)

It was the Xuansi Liu Sword Divine Foundation and the Heart Shocking and Sturdy Divine Foundation!

"It's done, all done..."

"After casting the Divine Foundation with the Pure Heart Divinity, casting other Divinities for the Divine Foundation doesn't take too much effort, as the divine power of the Pure Heart Divine Foundation can basically smooth out the conflicts and repulsion forces brought by other Divine Foundations."

Li Che exhaled, a glimmer of light at his brow.

He had constructed four Wheels of the Seven Emotions Divine Foundation.

Anger, sorrow, thought, and shock!

Plus the all-curing Pure Heart Divine Foundation.

In Li Che's Niwan Inner Scenery now, there were five Wheels of Divine Foundations!

Boom—

The immense divinity, like surging tides, battered against the walls of the Inner Scenery Space, causing it to be continuously expanded!

Each of the Divine Foundations floating within released divine shocks, expanding the space to allow the Wheels of the Divine Foundation more room to accommodate!

Now Li Che's Niwan Inner Scenery Space was nearly ten times, or even more, that of what ordinary cultivators could expand with one Wheel of Divine Foundation.

This brought about Li Che's tremendous Divine Sense!

Extremely tremendous!

What was most important, Li Che could feel a unique change, his Divine Majesty... was exceptionally strong and terrifying!

Squinting, his gaze seemed to flicker with five-colored lights, his fingers opening and then pressing down fiercely.

Boom—

He unleashed enormous Divine Majesty, and the air in the entire courtyard seemed to have been instantaneously evacuated, forming an immense vacuum!

"Whew—"

"Now, disregarding the all-curing Pure Heart Divine Foundation, the Divine Majesty alone from the four Wheels of the Seven Emotions Divine Foundation would probably render Divine Base Realm cultivators immobile, and sweat would pour down the backs of those in the Post-Divine Foundation Realm."

"Roughly, it should be enough to contend with the Divine Majesty of an Illusory Phase Cultivator."

Li Che's eyes shimmered, as if light was fading in and out.

"This is only with four Wheels of the Divine Foundation. If I could construct a complete Seven Emotions Divine Foundation, maybe... within the Divine Base Realm, I could stand up against real Divine Symbol Cultivators!"

Li Che looked upwards, as the Niwan at his brow instantly retracted its divine light.

In an instant, the four Wheels of Divine Foundation returned to the Inner Scene of the Energy Center, the Immaculate Heart Taoist Fruit throbbed, and the divine aura quietly vanished without a trace.

"Joy, worry, and fear, these three Divinities have yet to be cast into the Divine Foundation."

"Now, I can get started on this."

Li Che still lacked Divine Foundation Techniques for the Worry Divine Nature and the Divinity of Fear, but it wasn't a big problem. With his current identity, he could just go to Li Qingshan to get them.

It was a bit difficult to obtain higher-ranked ones though.

Li Che also had to consider changing his Divine Foundation slowly. But after understanding more about changing Divine Foundations, he realized it was much easier than casting them, mainly just securing the Divine Foundation Techniques.

In the span of ten days, Li Che cultivated relentlessly, but of course, constructing three Wheels of Divine Foundation wasn't his only gain.

In Martial Arts, his breakthroughs were tremendous.

He took out an elixir shrouded in Death Qi and swallowed it.

Gulp!

The elixir landed in his stomach with a muffled sound the stomach walls, under the control of Divine Sense, started to move, the powerful force crushed the Pill Coating, and the vast medicinal properties surged out instantly.

Li Che stood up, his blood and energy erupting as if dragons and elephants were roaring together.

His self-created Jue Xue "Dragon Elephant True Force" was now at the level of Minor Accomplishment, his blood and energy thundered and roared, accompanied by the Power of the Dragon Elephant. Even without activating Ascending the Tower, Li Che could still unleash the powerful force of a dragon and an elephant, akin to the strength of a deity!

A step taken, countless streams of blood and energy interwove behind him, as if becoming a hawk-eagle with its wings spread, shooting straight up into the sky violently.

As he stepped through the air, countless afterimages of Li Che flashed wildly in the courtyard!

Finally, he landed lightly, his toes touching the blue bricks, raising a ring of expanding dust.

"Cloud Harrier Treading on Clouds, at the level of Transformation Realm!"

This Divine Martial Arts movement technique was finally cultivated by Li Che to the level of the Transformation Realm, creating the atmosphere of the Transformation Realm. It merged into the Divine Vein's blood and energy, causing yet another transformation in his Divine Vein!

Now, the Martial Arts that Li Che had mastered at the Transformation Realm were the White Tiger Chaotic Wind Fist, the Eight Consecutive Bone-Breaking Spears, and Cloud Harrier Treading on Clouds—three forms, realizing the Three Transformations of the Divine Vein!

He already possessed the credentials to challenge the Grandmaster Realm!

However, Li Che had ambition. After all, with the Dao Fruit like Dragon Elephant Vajra that enhanced the Martial Arts talent, he would not settle for the lowest level of Divine Vein to break through to Grandmaster.

He intended to complete the Divine Vein Nine Transformations, then strike towards the Grandmaster Realm!

With the Maitreya Gold Armor, Hundred Ghosts Thunderstorm Arrows, Python Dragon Cannon, Corpse God Death Smoke Finger, Furious Triple-Blade Knife, and Thousand-Armed Divine Sculpture, the remaining six Martial Arts that Li Che had, except for the Jue Xue level Thousand-Armed Divine Sculpture which still remained at the Major Accomplishment level, the rest had all reached the Master level.

Especially that Corpse God Death Smoke Finger, with a large amount of Ninth Rank Superior "Corpse God Thousand Ghosts Death Qi Condensing Martial Pill" support, coupled with Li Che's extraordinary Martial Path talent.

In just ten days, he cultivated it to the Master level!

Although the Death Qi Martial Pills were depleted, and reaching the level of Transformation Realm in a short time was somewhat difficult, for Li Che, this progress was already very gratifying.

After the Martial Pill was crushed, the surging Death Qi assaulted Li Che's skin, Li Che operated "Dragon Elephant True Force" to suppress the erosion of Death Qi, using it to temper his body, with extraordinary effects!

Even better than the usual Flood Dragon Blood Martial Pills!

"The Corpse God Cult, as the creators of 'Corpse Curse Technique,' truly have profound research on the physical body. This Death Qi elixir... for those who can suppress the Death Qi while practicing Martial Arts, it's simply superb!"

"Pity that all the Death Qi Condensing Martial Pills I got from the Corpse God Envoy and Liu Jinsong are now used up... I need to find a way to restock."

Li Che reined in his blood and energy, and the lingering afterimages left by Cloud Harrier Treading on Clouds slowly disappeared.

"Senior Qingshan... You promised great riches; why haven't you started taking action?"

"If you don't act soon..."

"I just might not be able to resist striking out on my own."
