Chapter 236: Opportunity Too Great, Daughter Can't Take It, Stool, Erhu, Chief Supervisor Makes an Entrance

The sound blast, like thunder, only rolled in after the Dragon Tooth Bodhi Bullet had pierced through Shangguan Zhengheng!

A terrifying and oppressive sensation had already pervaded the surroundings.

Four streams of Divine Majesty intertwined, mixing with the Temple God Divinity, forming a five-colored divine radiance!

Even Li Qingshan couldn't help but have his hair stand on end!

Too fast!

It gave an extremely intense sense of crisis!

With such speed, sound couldn't catch up. Once it locked on its target, the danger was absolute!

Boom—!

The Dragon Tooth Bodhi Bullet that had burst and penetrated into Shangguan Zhengheng's body exploded, turning into thousands of Bodhi Silks.

The Bodhi Silks excavated chunks of flesh, curling them into Flesh Beads!

They clattered as they fell from Shangguan Zhengheng's body.

Bodhi Blood Tears, falling like rain!

Even though Shangguan Zhengheng's head had been blown open by Li Qingshan wielding the Ram Horn Hammer, that Hidden Weapon, with its immense penetration power, still carved out all his flesh!

"So vicious, so poisonous!"

Li Qingshan took a deep breath.

"What a move for long-range assassination!"

"With the explosive power of this Hidden Weapon, even an ordinary Eight Extremes Divine Archer would be no more than this, right?"

"It could even rival those Seven Elements Divine Archer Colonels from the Prefecture City Divine Guard Army with their intense deterrence!"

Horse Face...

The friend of the Bull Demon!

Li Qingshan, clutching the still-bloodied Ram Horn Hammer, raised his eyes to the distant, standing figure on the boat.

That figure was shouldering a strangely shaped mechanism, neither bow nor crossbow, and it was precisely such a device that, from hundreds of yards away, like rolling thunder, shot and killed Shangguan Zhengheng who had cultivated the Cursed Copper Corpse. ㄖㄢNㄝBĒś

Although Shangguan Zhengheng's Cursed Copper Corpse was just barely initiated, its hardness couldn't compare to that of a Cursed Copper Corpse that had been cultivated over many years.

Yet, once one entered the ranks of the Cursed Copper Corpses, whether in defense, strength, or resilience, all would greatly increase.

Li Qingshan hammered away at Shangguan Zhengheng and, after so many strikes, was unable to kill him or break through the Cursed Copper Corpse's defense.

Yet that Horse Face from a distance had shot through Shangguan Zhengheng's Cursed Copper Corpse!

Although it didn't achieve a one-shot kill, once its defense was breached, the defense of the Cursed Copper Corpse was greatly weakened, and with one hammer blow, Li Qingshan could kill!

That was sufficient!

"This Hidden Weapon that burst forth seems to have merged the power of four Divine Foundations, mixed with some Temple God Divinity..."

"Horse Face actually cultivated four types of Divinity, all of them combined into Divine Foundations?!"

This was what most shocked Li Qingshan.

Harboring two types of Divinity, the repulsion between them was extremely terrifying, and it would suppress the other Divinity into the Inner Scenery.

If one were to take two types of Divinity into the Inner Scenery, it would only make the Divinity within the Inner Scenery confused and the Nurturing Nature extremely difficult.

Even a single Divinity forming the Divine Foundation was already extremely difficult, let alone two Wheels of Godly Foundation!

How was this achieved?

It was utterly inconceivable!

Above the firmament, the Divine Minister's pressure suddenly weakened as well. With Shangguan Zhengheng's death, the target protected by the power of the Divine Likeness of the Shangguan Family's Patriarch was lost, so it retreated automatically and returned to Patriarch Shangguan.

Lin Xiu, wearing a peacock mask, gracefully descended.

What barred him was, after all, only the Divine Likeness Wood Carving of Patriarch Shangguan, and he felt no pressure at all. In fact, he even had the capacity to observe the situation around him.

In truth, he was aware of the situation on Shangguan Qinghong's side and had planned to intervene and rescue.

But when Horse Face took action, Lin Xiu did not intervene.

And Horse Face's subsequent sequence of moves, even for him, a Divine Symbol Cultivator, was astonishing and shocking.

"This must be Mechanical Techniques... indeed an extremely terrible Penetration Power, and the killing is very strong and malicious. Once the body is shot through and the mechanism explodes, it will carve out all the flesh..."

"It resembles the 'Bodhi Blood Tears' from the Tang Family Mechanism Technique, but it is clearly improved."

Lin Xiu squinted, arriving beside Li Qingshan.

His gaze fell upon the grisly corpse of Shangguan Zhengheng, and his eyes suddenly hardened.

Lin Xiu pushed up the peacock mask that was about to slide down and nodded, "This Horse Face is extraordinary, practicing four types of Divine Foundations. Perhaps they have a unique Talent within their Inner Scenery... capable of carrying multiple types of Divinity."

"The Seven Treasures Divine Sect of the Dragon Abyss Path has a method for cultivating multiple types of Divinity together! But it's extremely difficult, time-consuming, and energy-intensive. Within the Authentic Divine Sect of the Seven Treasures, few disciples practice it."

"Although the combination of multiple Divinities can form an extremely terrifying burst, the problem is..."

"It's too hard to cultivate, and even harder to reach a high Realm! The further one goes, the difficulty only increases. For the Four Wheels of Godly Foundation, to break through to the Divine Minister... one must first condense the Four Honored Virtual Likenesses, and then simultaneously surpass the barrier between Void Aspect and Divine Minister to observe and solidify four Divinities!"

"If one fails, it will lead to the balance within the Inner Scenery being broken, followed by Divinity repulsion. If it's mild, Cultivation might regress slightly, but if it's severe... the Inner Scenery will collapse, and the Divine Sense will cease to exist!"

"And without becoming a Divine Minister, even if one cultivates many Divine Foundations, the increase in Combat Power is there, but facing the pressure of a high Rank... it will still be suppressed."

"Cultivating multiple types of Divinity is a thankless task."

After all, Lin Xiu was Shangguan Qinghong's teacher and equally learned and talented.

"The Seven Treasures Divine Sect of the Dragon Abyss Path?"

Li Qingshan was of course familiar with the name of the Seven Treasures Divine Sect.

Moreover, amongst the eleven Divine Sects of Great Vista, its ranking was even higher than the Qian Yuan Divine Sect.

It was rumored that the Sect Master of the Seven Treasures Divine Sect possessed a Hundred Treasures Cosmic Bag, containing over a thousand Divine Weapons of quality not at all low, with just the Four Royal Divine Weapons amounting to more than both hands could hold!

Indeed, a true paramount expert of Great Vista.

Of course, every Sect Master of a Divine Sect was a person at the absolute pinnacle of Divine Cultivation in Great Vista!

"This friend of the Bull Demon, Horse Face, could it be he comes from the Seven Treasures Divine Sect of the Dragon Abyss Path?"
