

## **A Father 243**

Chapter 243: Father-Daughter United in Cheating, Purple Flame Serpent Spear Fire Tip Spear\_Part 4

At Xi Xi's side, where she was closing her eyes and caressing the Statue of the Deity, clusters of golden light began to hover and congeal, forming one after another.

However, as the white Divinity within Xi Xi's Inner Scene of the Energy Center gradually depleted, she started to struggle to attract the cascading Golden Divinity.

Unable to coalesce the golden light clusters any longer.

It seemed as though the opportunity was about to end.

However...

Hum

It was as if a silent and invisible fluctuation occurred in space.

Afterward, a figure with a tall and mountainous frame, with an inverse triangle of muscular back and bulging veins like an angry Jiao Long, appeared beside Xi Xi, clutching a white Chess Piece.

The wide-brimmed hat was lifted to reveal a figure wearing a Cute Bull Mask.

Li Che had no time to change his clothes and had immediately crushed the Thunder Chess Piece, teleporting over.

As soon as he laid eyes on it, he felt the terrifying, storm-like oppressive Temple God Divinity that seemed to sweep over and engulf everything!

Li Che's gaze fell upon the massive golden statue.

"Heavenly King..."

Looking at the benevolently smiling statue, Li Che couldn't help but mutter to himself.

However, the next moment, the originally smiling face of the statue suddenly changed to one of Fury and Fear, as if the very heavens and earth were exploding with roaring sounds, deafening and threatening to shatter one's Divine Sense!

Li Che was left speechless.

Wasn't this change of face a bit too quick?

It was all smiles when looking at Xi Xi.

But shifted to a face full of Fury and Fear upon seeing him, as if about to subdue a demon...

Was he, the Bull Demon, really such a demon?

Li Che removed his wide-brimmed hat, took off the mask, and dissipated the Blood Qi from his body, but the statue did not change its face back.

Li Che was at a loss for words and glanced at Xi Xi, frowning deeply as he immediately noticed Xi Xi's current state.

The Immaculate Heart Divinity he had arranged for Xi Xi had been exhausted at this moment!

With the depletion of the Pure Heart Divinity, the golden radiance ceased to fall.

"So Xi Xi wasn't unable to eat; there just wasn't enough to eat..."

Li Che muttered to himself.

If it had been in his future, then Xi Xi's chances might well have ended there.

Were actually gathering again.

Golden light clusters began to manifest one after another around Xi Xi, washing over and purifying Xi Xi's flesh, bones, and so on!

Li Che felt the Pure Heart Divinity draining from his body at a rapid pace—fortunately, he had forged the Pure Heart Divine Foundation, which had a total amount of Divinity much more than before.

Rumbling...

The golden light continuously cascaded down.

Golden orbs of light began to congeal around Xi Xi, more and more of them, and Li Che carefully counted: there were easily over a hundred.

He was left speechless. Was this much fortune all for Xi Xi?

However, the next moment, these golden light clusters started to merge into one another.

In the end...

They turned into a massive golden light cluster!

Meanwhile, Xi Xi's body began to tremble violently.

On her little face, tears had started streaming down, and finally, she opened her mouth and let out a loud wail.

It was unclear if she had seen something sad.

Li Che's brows furrowed slightly.

He too felt the Pure Heart Dao Fruit within him depleting a little too quickly.

Even with the forged Pure Heart Divine Foundation, it felt almost exhausted at this moment.

Li Che sighed. This was all the Pure Heart Divinity he had managed to accumulate.

That's all he, as a father, could do.

When the last wisp of Divinity from the Pure Heart Divine Foundation entered Xi Xi's body and brought the golden light to shine down,

The parental cheating could only go so far.

But Li Che was satisfied, having forcibly raised the opportunities available to Xi Xi by a large margin.

The harvest would certainly be extremely bountiful!

Boom!!!

When the myriad strands of golden light pouring down from the Statue of the Deity had all dissipated,

The fortune, merged from the hundred golden orbs and hovering around Xi Xi,

Started to slowly lose its luster.

A sudden scorching heat burst forth!

Then an incredibly intense heat surged!

Crazy streams of air shot out, roaring heatwaves as if a flaming serpentine monster was exhaling, the heat boiling over, creating furious winds!

Making Li Che's clothes cling tightly to his body.

His eyes narrowed.

He stared at the Golden Long Spear floating beside Xi Xi, its blade like blazing fire, its tassel flowing with purple flames.

The intense Divinity that hit him in the face caused Li Che's hair to stand on end.

His arm turned jade-colored in an instant.

Immortal Worker: Thousand Analyzing Hands activated!

Capturing the scorching and searing Divinity in the air, information was instantly relayed to his mind, weaving before his eyes.
