Chapter 621: Xi Xi Breaks Divine Foundation with Six Arms Two Faces, Miao Dao Xiansheng Three-Eyed True Lord Mysterious Temple

Now, Li Che was extremely sensitive to fluctuations in Qi. When Xi Xi bounced off the bed, she almost smashed through the roof.

This indicated that Xi Xi could not fully control her own strength.

Li Che grabbed the little girl's ankle, his powerful Divine Sense fiercely sweeping through her whole body, immediately sensing the boiling power within her continuously expanding.

Divinity, Qi-Blood, all on the verge of transformation!

Li Che held Xi Xi in his arms, her bright eyes sparkling and her little face flushed red, just like a child who sneaked a sip of wine, irresistibly adorable.

Li Che reached out to touch Xi Xi's forehead.

Hot as a branding iron, a result of Qi-Blood circulating in her body to its limits.

"About to breakthrough, huh..."

Li Che mused.

A four-year-old little girl, following this pace, is set to hit the Meridian Connection Realm and Divine Foundation.

The Meridian Connection is relatively straightforward. With Xi Xi's Grandmaster Physique forged by the refinement of three Mythical Weapons, the process should have little impact or issue.

The breakthrough of the Divine Foundation, however, still carries a certain degree of risk.

After all...

The Divine Method Xi Xi cultivates belongs to the Three Pure Ranks!

[Eight-Armed Three-Faced Hell Lotus Undamaged], encompasses Nurturing Nature, Divine Foundation, Divine Minister, Divine Primordial, and Divine Fetus!

This is the method obtained by Xi Xi's resonance with the Temple God!

A Three Pure Ranks Divine Method for cultivation all the way to the Divine Embryo Realm, which even makes Li Che envious.

"Daddy... is Xi Xi sick?"

Xi Xi wrapped her little hands around Li Che's neck and asked pitifully.

She felt that she must be ill.

Unable to control her strength, her body extremely hot, and Divinity constantly boiling. Her brow's Niwan Palace almost felt like bursting.

A bit uncomfortable.

"Daddy, Xi Xi is sick, wants to go find Big Doggy."

Xi Xi blinked her eyes.

Li Che rubbed her head.

"Today, you need to go to the main gate of the Authentic Divine Sect. Daddy promises you, we'll go to the restaurant to play with Big Doggy at least three times a month, okay?"

Li Che said gently.

After all, promising the boss is no different from promising his daughter.

The same affair, promised at both ends, he, Li Che, was truly a master of leveraging efficiency.

Upon hearing this, Xi Xi's eyes suddenly shone: "Really?"

"Let's pinky promise!"

Xi Xi extended her little pinky finger.

Li Che smiled and hooked his finger with hers.

"Pinky promise, hang yourself if you lie, not allowed to change for a hundred years, the one who changes is a dog!"

Xi Xi seriously recited the oath.

Li Che couldn't help but laugh aloud at his own wit.

On the bed, Zhang Ya's black hair was spread out, she glanced puzzledly at the father and daughter, her body feeling a bit disassembled and probably in need of some extra laziness in bed.

Indeed, a Great Grandmaster is fierce, she has to get stronger to withstand a Great Grandmaster's impact.

"Wife, sleep a bit more, we can take Xi Xi to the Authentic Divine Sect later."

"Xi Xi should be breaking through to the Meridian Connection Realm, and this little girl... her Divinity is about to cast the Divine Foundation."

Li Che said gently.

On the bed, Zhang Ya suddenly opened her eyes, with not a trace of drowsiness.

"Xi Xi is going to make a breakthrough?"

"That's a major event, we need to take her there quickly."

Zhang Ya got out of bed without resting any further, started to get ready.

After shouting for Li Qingshan, Nurse Momo, and Old Chen to have breakfast, Old Chen, upon arriving at Dao City, wandered off looking for a job.

To not trouble Li Che, Old Chen was very patient and serious in selecting a job.

After eating, Old Chen hastily left, soon a chariot arrived, the charioteer Old Chen under his conical hat, enduring the Spring Rain, pulled out a wine gourd and took a swig.

"Time to get on."

Old Chen grinned.

He had found a job as a charioteer. Even in Dao City, not just anybody could do this job; it required a foundation in martial arts.

Many charioteers were at least of Bone Tempering Cultivation, all having undergone Blood Exchange. For Old Chen, a Qi Meridian Martialist, finding a job as a charioteer was not too difficult.

A chariot drawn by Flood Dragon Horses, if not for a hint of Martial Cultivation, could not be subdued.

"From now on, if you all want to commute to the Divine Sect, you can call on me, Old Chen. Take care of my business," Old Chen said with a smile.

Besides, Old Chen also gave up Wood Carving because the competition among Wood Carvers in Dao City was too intense. Unless one could become a Woodcarving Master, otherwise... even if you become a store's Wood Carver, you might not earn as much as a charioteer.

Mainly, after decades of Wood Carving, Old Chen had reached his limit, it was hard to make a further breakthrough.

He was also bored of it, tired, and a change of job would add some flavor to life.

"Little Stinky Xi, wherever you want to go in the future, just ask your Grandpa Chen to take you!"

Old Chen lifted his chin proudly, as if saying, your Grandpa Chen has a carriage now!

Xi Xi's eyes gleamed impressively, partly due to her impending breakthrough, and partly because she really was excited.

"Don't think nonsense, it's dangerous outside. Wherever you want to go, tell your daddy," Li Che rubbed Xi Xi's head and said.

Xi Xi pouted slightly.

The group boarded the chariot, which was quite spacious inside.

They set off driving, the Flood Dragon Horse covered in fine scales, exhaling steam from its nostrils, moving forward at a slow pace.

After leaving Liuxiang Lane, they discovered that Uncle's family was also emerging from the alley by chariot.

Today is also the day Li Chengzhou will be joining the Outer Sect, Uncle's family obviously wouldn't miss it.

The two families lifted the carriage curtains to greet each other.

Xi Xi leaned over the carriage window, enthusiastically greeting.

"Where's the good-looking Chengzhou brother?"

Xi Xi still remembered the very handsome Chengzhou brother.

"Your Chengzhou brother is in the Divine Sect practicing with Master Nie."

Chapter 622: Xi Xi Breaks Divine Foundation with Six Arms Two Faces, Miao Dao Xiansheng Three-Eyed True Lord Mysterious Temple (2)

Cousin Liu Chunming said with a smile.

"Then, when Xi Xi goes to Divine Sect, she'll be able to see him. Xi Xi will protect him well and won't let anyone bully him within the sect!"

Xi Xi clenched her little fists, her chubby face full of the sense of responsibility that comes with being an older sister.

Amidst the laughter.

Spring Rain was slowly split by the carriage.

The hubs crushed the spring puddles, sending ripples dancing in the spring breeze.

...

...

The events that occurred in Dao City last night did not spread far.

The death of Su Huaili was known by few. Perhaps those who knew were only amazed that this little disciple of King Ping Luan had actually joined the Corpse God Cult—utterly ridiculous and laughable to the extreme.

People just added a few more jokes about King Ping Luan being backstabbed by his disciple.

As for Su Huaili, hardly anyone cared. Dead is dead. In these times, countless Martial Brother Cultivators die unnoticed every day.

Who could afford to care about each one?

You Liqing suppressed the news, not letting those with ulterior motives spread it, which made Su Huaili's death even more obscure.

However, the wanted posters from the West Camp Divine Guard Army for the evil beings from Earthly Hell were openly displayed.

Whether it was Bull Demon, Horse Face, or Divine Monkey, the rewards for their capture were extremely high.

Even the value for Black and White Impermanence was not low.

But just as Li Qingshan lamented angrily, he himself, the Earthly Hell's Cat Face, didn't even make it to the wanted list.

Three months in a row, ninety continuous gloomy days.

Fine spring rain often comes without reason, only stopping for a brief moment after nourishing the earth all night before it starts to spread like misty smoke again, nourishing the green fields.

The Flood Dragon Horse neighed, exhaling hot air from its nostrils, rhythmically lifting its hooves, shattering the puddles formed by the spring rain on the ground.

The carriage moved at great speed. The Mountain Gate of the Authentic Divine Sect was deep within the Inner City of Dao City, where the mountain ranges stretched out, resembling a dragon lying on the land.

Many luxurious carriages galloped on the official road, all driving along the main road paved with neatly arranged bluestones.

Very smooth, with no bumps or jolts as the carriages traveled.

Lifting the curtain, Li Che could already see the Mountain Gate of the Qian Yuan Divine Sect.

A colossal White Jade Arch stood towering above the earth, with hundred-meter high white columns standing erect as if they were breaking through from the soil beneath.

A gigantic signboard made of Spiritual Wood hung above the white columns!

"That is... Fourth-rank Spiritual Wood!"

Li Che's breath caught.

The Immortal Artisan's Dao Fruit within him throbbed wildly, trembling intensely as if it was exhilarated at the sight of that signboard.

The Star Plucking Pupil in his brow opened.

Endless Analysis, Peering into Illusion and Returning to Truth!

...

[Divine Weapon (Four Royal Low Grade): Divine Sect Mountain Gate Signboard]

[Craftsmanship: Made with Five Elders' Superior Grade Phoenix Blood Nan Silk Wood, inscribed by the Qian Yuan Divine Sect's founding Sect Master, inheriting the Dao Essence, Siphoning the Divinity from the Divine Child's purple qi for thousands of years, with a chance to evolve into Four Royal Mid-grade]

[Introduction: Divine Sect sign, imbued with a Treasure Soul, containing phoenix essence, capable of enhancing talents, absorbing purple qi]

...

Li Che's eyelids couldn't help but twitch slightly!

A signboard...

Actually, a Four Royal Divine Weapon!

Well done!

Indeed worthy of the Divine Sect!

Rich and powerful, with deep foundations, far beyond what someone like Li Che, a nouveau riche, could compare with.

Such a precious item, simply placed at the mountain gate, aren't they afraid it might be stolen?

Li Che couldn't help but take a deep breath.

But then again, who would dare to steal such a signboard at the Mountain Gate of the Qian Yuan Divine Sect?

As far as the eye could see, the sign bore the words "Qian Kun". Through Li Che's Star Plucking Pupil, it seemed as if there was a phoenix spreading its wings, with purple qi looming far and wide!

Staring at those two words "Qian Kun", Li Che felt a piercing pain in his gaze, as if there was a terrifying intent contained within.

"Qian Kun? Why isn't the Qian Yuan written on the signboard of the Qian Yuan Divine Sect's Mountain Gate?"

Li Che took a deep breath, feeling somewhat puzzled.

Looking further ahead, past the White Jade Arch and down a spacious road, there was an array of luxurious buildings with carved beams, painted rafter, and gold-plated copper tiles.

In front of the Mountain Gate.

The elder, Jiao Shaoqiu, stood with his hands clasped behind him in a simple robe. Next to him was the Great Grandmaster, Nie Yang.

Nie Yang held a treasure sword bound in ragged cloth, his face cold, and beside him was little Li Chengzhou, holding a short wooden sword, also walking with legs apart, imitating a stern demeanor.

As the old driver drove up, the Spring Rain fell obliquely.

"He's finally arrived," Jiao Shaoqiu's face revealed a kind smile.

The curtain was lifted.

Li Che, holding Xi Xi and helping Zhang Ya, stepped down from the carriage together; Li Qingshan and Nurse Momo also got off.

The air was exceptionally fresh, wafting with the scent of Divinity.

It made one's pores unfold involuntarily, and one's Essence, Qi, and Spirit seemed rejuvenated.

"Elder Jiao."

Li Che and his group approached Jiao Shaoqiu and greeted him.

Even Li Che's uncle's family was quite familiar with Jiao Shaoqiu.

"Inner Sect Xi Xi can't join for now, she has to wait until the Sect Master's examination is over... I am in charge of the Outer Sect, with Xi Xi under my watch, nothing will happen to her."

This was Jiao Shaoqiu's promise to Li Che.

Daring to make such a commitment, it showed that Jiao Shaoqiu was truly prepared.

"The Sect Master's Wife has just left seclusion, after a while, I will take Xi Xi to visit the Sect Master's Wife," Jiao Shaoqiu said as he stroked his beard.

As long as Xi Xi could establish a relationship with the Sect Master's Wife, even if she couldn't become the direct disciple of the Sect Master, she would still be able to stand her ground easily in the Inner Sect.

Li Che and Zhang Ya, upon hearing this, hurriedly thanked Jiao Shaoqiu.

What do parents desire, if not for their children to be treated well in an unfamiliar environment?

"Don't thank me. The temperament of the Sect Master's Wife is... a bit strange. I don't even know if Xi Xi can catch her eye," the elder said.

Chapter 623: Xi Xi Breaks Divine Foundation Six-Arms Two Faces, Miao Dao Xiansheng Three-Eyed True Monarch Strange Temple_3

Jiao Shaoqiu waved his hand.

"Outside vehicles are not allowed to enter the Divine Sect Mountain Gate, so, next, we have to transfer."

In the distance, two Flood Dragon Horse carriages approached, both charioteers were outer disciples dressed in the robes of the Qian Yuan Divine Sect Outer Sect.

"Dear, why are Sect disciples driving the carriages?"

Zhang Ya leaned into Li Che's ear and asked, puzzled.

"Hahaha, within the Sect, apart from the resources provided by the Sect every month, other resources have to be earned and competed for

"For example, Divinity Crystals, Elixirs, etc., the amount provided monthly is limited. If you want more resources, you can venture into the Mysterious Temples, ascend the Golden Pagodas

...

"This is considered a fair opportunity for competition. If you can't obtain resources, it only means that your strength is not enough, and you still need to practice."

"The Golden Pagoda can be ascended by both Inner and Outer Sect disciples, but the Mysterious Temples that Inner and Outer Sect disciples can venture into are quite different."

Jiao Shaoqiu had exceptional hearing, and Zhang Ya's quiet mutters could not escape his ears.

Therefore, Jiao Shaoqiu offered an explanation.

Upon hearing this, Li Che finally understood why Jiao Shaoqiu said that within the Qian Yuan Divine Sect, unauthorized individuals were prohibited from residing there.

One cannot reside there unless they are a Sect disciple or hold a position within the Sect.

That is because...

Li Che looked up, the mountain range stretched on and on.

Within the energy center, the Inner Scene of the Mud Pill slightly vibrated, the Divine Forms of the Fire-Eyed Mystical Awe Spirit Monkey, and the Hundred-Turned Worried Dream Gui Ling Rabbit Divine Image shook and opened their eyes.

Wherever his vision reached, he could see amidst the mountain range, strands after strands of Mysterious Fog soaring into the sky, rolling tumultuously, as if forming one twisted face after another!

Mysterious Temples...

They were all Mysterious Temples!!!

Within the mountain gate of the Divine Sect, the number of Mysterious Temples was surprisingly many!

Even within Li Che's inner space,

The True Ape God Image also slowly opened its eyes, with dreadful Golden Light accompanied by golden flames jumping out from its pupils.

Burning the void, bright and dazzling!

As if seeing a Mysterious Temple bursting forth with towering Mysterious Fog, the Mysterious Fog was torn apart, revealing a temple.

That was...

One of the Four Royal Mysterious Temples!

Li Che withdrew his gaze, his heart inevitably trembling.

How could there be so many Mysterious Temples?

Ten Cities, Nine Luminaries, Eight Extremes, Seven Elements... almost every rank of Mysterious Temple exists within the mountain gate of the Qian Yuan Divine Sect!

"These Mysterious Temples... are moved here by the Sect Master and the Elders from the outside world, suppressed by the power of the Sect, and at the same time, turned into a place for tempering the disciples' cultivation."

"Actually, the results are quite good

"It's not just our Qian Yuan Divine Sect that does this, the Divine Sects of the Da Jing Dynasty basically operate the same, but the larger the city, the more Mysterious Temples it spawns... Even the Sects can't suppress them all."

Jiao Shaoqiu seemed to notice that Li Che was sensing something and explained.

"You have been in the Qian Yuan Taoist City for some time now, and should have heard of its Mysterious Temples. Ten of the Six Divisions rank Mysterious Temples, and within that... four are suppressed within the mountain gate of the Sect."

"There are three of the Mysterious Temples of the Five Elders in Taoist City... one within the Sect, which you already know, shares the same origin with the one on Golden Light Peak, that of the Golden Heavenly King Tower Temple God."

"The Golden Pagoda, where Inner and Outer Sect disciples venture into, is located within the Mysterious Queue of the Golden Heavenly King Tower Mysterious Temple."

Jiao Shaoqiu introduced.

"Of course, the main Mysterious Temple suppressed by the Sect... is that Four Royal Mysterious Temple."

Jiao Shaoqiu raised his hand, the sleeves of his ancient long shirt fell, brushing against the Spring Rain, his withered fingers pointed distantly towards that mountain peak within the continuous mountain range.

The spring rain, with misty smokescreen-like effect, could not hide the sparkling brilliance at the top of that mountain.

Clusters of delicate plum trees bloomed with brilliant red.

There...

Was the location of the dreadful Mysterious Temple that Li Che had previously sensed.

"The Four Royals [Wonderous Way Manifest Saint Three-Eyed True Lord] Mysterious Temple!"

Jiao Shaoqiu said solemnly.

In his voice, there seemed to be a certain gravity.

"More threatening than the [Eight-Armed Prison Lotus Furious Third Prince] Mysterious Temple of Golden Light Mansion, as this Mysterious Temple is more active, with its Mysterious Gate regularly erupting, requiring the Sect Master and Divine Sect elders to often take action to suppress."

"The Chief Supervisor of the Qintian Observatory continuously monitors, and the Governor of the Temple Control Bureau is always ready to aid in suppression

"After all, a lively Four Royals Mysterious Temple is at stake; should the Mysterious Gate erupt, and Temple Guardian Cursed Corpses and supernatural demons escape from within the Mysterious Gate, it would be a catastrophe for the entire Taoist City."

Jiao Shaoqiu took a long breath.

Li Che frowned upon hearing this: "Elder Jiao, this Mysterious Temple... has it not been plundered?"

"Isn't it said that most Mysterious Temples suppressed by the Sects have been plundered?"

Li Che asked.

Jiao Shaoqiu glanced at Li Che and shook his head: "The first generation Sect Master of the Qian Yuan Divine Sect did not plunder this Three-Eyed True Monarch Strange Temple but instead coexisted in an almost cooperative manner to the present day."

"In fact, only those Four Royal Mysterious Temples that refuse to accept cooperation are plundered... and attacking a Four Royals Mysterious Temple is by no means an easy task. First, one must breach the Mysterious Gate, and within the Mysterious Gate... there might even occur a frightful event of a Divine Fetus Great God perishing."

"Therefore, most Sects coexist symbiotically with the Four Royal Mysterious Temples."

"Only Divine Capital, where the Grand Prospect Dynasty is powerful, will they gather the power of the Temple Control Bureau to fell the mountains and smash the temples."

"Sects seldom involve themselves in such thankless tasks."

"After all, the plundered Mysterious Temples still need people to guard and suppress."

Li Che suddenly understood.

His gaze returned from the plum-covered mountain.

Chapter 624: Xi Xi Breaks Divine Foundation Six-Arms Two Faces, Miao Dao Xiansheng Three-Eyed True Monarch Strange Temple_4

His mind, however, was pondering how to summon gods from the other Mysterious Temples.

The Mysterious Temple within the Divine Sect was definitely off-limits now...

To even slightly provoke that Divine Fetus Great God...

Li Che, as he is now, had no desire to test the Divine Fetus Great God's methods.

The group mounted the carriage, galloping through the pleasant spring breeze and Spring Rain.

"Elder Jiao, Xi Xi might be making a breakthrough to Divine Foundation... It's just right to bring her within the Divine Sect to break through."

As the carriage sped on, Li Che, cradling Xi Xi, spoke to Elder Jiao, sitting opposite him.

...

Elder Jiao was taken aback at these words, and a hint of surprise flashed across his withered face.

He looked at Xi Xi, his eyes flashing Golden Light, his Primordial Spirit bursting with radiance.

Indeed, he saw the restless Divinity in Xi Xi.

"Wow... so soon?!"

Elder Jiao was truly astonished.

What was most surprising was that Xi Xi, after converting to practice the Three Purities Divinity Method of the Three Pure Ranks, could still impact the Divine Foundation so swiftly!

"This is no small matter... just right, we've reached the Outer Sect, I will protect Xi Xi as she breaks through."

"A Che, you made the right choice."

"The commotion that will result from Xi Xi using the Three Purities Divinity Method to break through the Divine Foundation will definitely be significant. Once discovered by certain individuals, it could be very dangerous."

Elder Jiao sighed with relief, his gaze toward Li Che now carrying a hint of admiration.

The father of Xi Xi is truly prudent.

"The Corpse God Cult, the Hunting God Pavilion... they are both eyeing Xi Xi. Even though they have been lying low lately with little activity, clearly, their malicious intentions haven't died."

"Once Xi Xi breaks through the realm, given how swiftly she is breaking through... they likely won't be able to sit still," said Elder Jiao.

Li Che, hearing this, pretended to exhale with relief.

In reality, Li Che was confident in his ability to protect Xi Xi during her breakthrough, given that the Heaven and Earth chessboard could mask all sensing and probing.

Once covered by the Heaven and Earth chessboard, who would love it?

It was possible that neither the Corpse God Cult nor the Hunting God Pavilion would realize Xi Xi had broken through.

But Li Che nonetheless brought her to the Divine Sect. Breaking through in the Sect, using the Three Pure Laws for the breakthrough, would cause a significant disturbance and could also build Xi Xi's reputation, gaining some advantage in prestige for the later Sect Master Great God assessment.

This is called... seizing the initiative!

Elder Jiao stroked his beard, his smile brimming with delight. Clearly, he was overjoyed at the prospect of Xi Xi's imminent breakthrough.

"Just right, I'll call all those kids in the Sect here to witness the elegance of Xi Xi." Elder Jiao said with a smile.

"A Divine Foundation of the Three Pure Ranks is extremely rare and should firmly impress those overconfident youngsters!"

Enveloped in Li Che's embrace, Xi Xi's eyes suddenly lit up, struggling to rise, seemingly excited by the notion of a fight brewing.

"Grandpa Zhang, who is going to fight with Xi Xi?"

Xi Xi hopped into Elder Jiao's arms.

"Oh, you little girl, why are you so excited about fighting?" Elder Jiao laughed heartily, rubbing Xi Xi's head.

Xi Xi pouted: "Xi Xi hasn't fought in a long time."

She clenched her fists, her abundant Divinity immediately radiating outwards in a circular wave.

Elder Jiao's eyes sharpened...

Such powerful, blazing Divinity of Rank!

This girl's Divine Foundation...

How strong will it be!

Even Elder Jiao couldn't help but anticipate at this moment.

"Yang, go notify the Elders of the Inner and Outer Sects, call the Divine Child from the top ten of the Chulong List, take them to the vast plain outside the Golden Tower..."

"To witness, the Divine Child forging the Three Pure Ones Divine Foundation!"

Upon hearing this, Nie Yang, who was sitting on the carriage shaft, nodded immediately, stepped forward to the carriage of Daping's uncle, calling Old Chen out to take over the reins.

After Old Chen took over driving, Nie Yang's Sword Artifact buzzed with energy; sword light surged forth, his body's Qi-Blood swirling into one with the Sword Artifact, and he sped away in a streak of light.

Li Che withdrew his gaze, a flicker of eagerness in his eyes: "Master Nie... must be approaching Unity of Heaven and Man, right?"

Elder Jiao stroked his beard and smiled: "Nie Yang could have broken into the Innate Great Grandmaster Realm long ago, but... he's pursuing his own Divine Seed Sword Intent, and once he grasps that streak of Divine Seed Sword Intent... perhaps with a single thought, he can enter Innate, elevate with one sword stroke, and blossom with one sword to ascend to the Three Flowers Atop, vying for the title of Supreme Grandmaster."

"Nie Yang is ranked eighteenth on the Divine Sect Inner Gate True Inheritor List, but once he realizes that streak of Divine Seed Sword Intent... he may well join the True Inheritor List."

Li Che was dizzy from the explanation: "The twenty-eight true inheritors of the Inner Sect, doesn't that count as being on the True Inheritor List?"

Elder Jiao, cradling Xi Xi, gently patted her back with his withered palm, smoothing out the Divinity within her body, preparing her for the upcoming Divine Foundation forging.

"The Qian Yuan Divine Sect, the fact is that our founding ancestor initially chose the name not as Qian Yuan, but Qiankun Divine Sect. After the founder perished in the Strange Que, the name was changed to Qian Yuan."

"But within the Divine Sect, the essence of Qiankun is passed down. Qian Heaven for the list, Kun Earth for the roster; hence, being on the list is superior to being on the roster."

"In the Divine Sect, disciples are categorized into True Successors, Distinguished Ones, and Chulong, divided into three lists and three rosters."

"Chulong, like Xi Xi, are referred to as Divine Child under ten years of age, ranked in both list and roster."

"Yun E, Zhong Liuxiu, and Zhou Peng, despite joining the Divine Sect earlier than Xi Xi, only rank on the Chulong roster because they haven't forged their Divine Foundations. If they forge their Divine Foundations, with their Talent and one year of cultivation, joining the list would be easy."

"As for Xi Xi... perhaps forging the Divine Foundation will give her a chance to enter the Chulong List!"

Elder Jiao's turbid gaze carried a bit of expectation.

Li Che, hearing this, was also slightly thrilled. Compared to the Golden Light Sub-sect, the Qian Yuan Divine Sect indeed had much more order, after all, it is a Sect presiding over a Circuit.

The disciples of the Qian Yuan Divine Sect come from all around Lingnan Circuit and even beyond, with many skilled cultivators sending their offspring to join the Sect.

Chapter 625: Xi Xi Breaks Divine Foundation Six-Arms Two Faces, Miao Dao Xiansheng Three-Eyed True Monarch Strange Temple_5

“How do we determine whether one is included in the list or not?”

Li Che asked curiously.

Jiao Shaoqiu, hearing this, a smile curled up at the corner of his lips: “Do you still remember the plaque at the mountain gate?”

"It contains the [Qiankun Dao Yun] from our ancestors, divided into Qiantian Dao Yun and Earth Kun Dao Yun... Dao Yun, is the Divine Essence lingering from those who are Divine Tribulation Experts

"If Xi Xi reaches the standard to enter the Chulong List, she will automatically be included. The Chulong List has always had thirty slots, unchanged for three thousand years. If Xi Xi is listed, then a Divine Foundation Divine Child will leave the list."

"But all of this... is subject to change under the judgment of Qiankun Dao Yun."

"Of course, those who are removed from the list and disagree can initiate a [Qiankun Battle] within three days. If it's beyond three days, after the list is finalized, they can only challenge again after a year."

...

"Of course, the Qiankun Dao Yun left by our ancestor rarely makes a wrong judgment, and the basic challenges are scarcely successful

Jiao Shaoqiu said with a smile.

Xi Xi raised her head: "Is there a fight coming up?"

Jiao Shaoqiu rubbed Xi Xi's head.

"So you mean... there is still a precedent for success?" Li Che frowned.

That meant there was no absolute certainty for Xi Xi.

"Of course, naturally, some people, after being removed from the list and facing a trigger, suddenly Breakthrough Realm... Although rare, it has indeed happened over three thousand years," Jiao Shaoqiu nodded.

"Once included in the Heavenly Book, resources from Divine Sect will be biased towards them, increasing tenfold and they even get a chance for a Qiankun Dao Yun baptism once a year."

"So, whether it's the core true successors, Inner Sect elites, or Divine Child Chulongs... all want to be on the list."

Xi Xi listened dumbfounded, her cheeks blushing, continually nodding.

Although she didn't understand,

Xi Xi got the idea.

That is...

One must win the fight!

The hooves of the Flood Dragon Horse tapped on the bluestone slabs, galloping through wind and rain!

The sound of Spring Rain sharply hitting the carriage, was like the soft rolling sand between the hourglasses.

A procession of carriages winding into the mountain path, galloping for a moment, then entered a huge plain paved entirely with leveled bluestones.

This is the Golden Pagoda Daping of the Outer Sect, in the center of Daping stands a glittering gold pagoda.

That pagoda is not the real body of the Golden Celestial Tower but is made from Spiritual Wood carved by a Woodcarving Master of at least Five Elders Level, a one-to-one replica of the Heavenly King Pagoda.

This pagoda, located in the Outer Sect, also possesses some power of the Heavenly King Tower Temple God.

It serves as the entrance for the Outer Disciple to enter the Golden Celestial Tower.

The carriage came to a halt.

Everyone got out from the carriage, with clouds and mist mingling with the drizzling rain, making the pagoda shine brilliantly.

Li Che held Xi Xi as they stepped out from the carriage.

Xi Xi's complexion was flushed red, and her body was already slightly interwoven with Divinity streaking like lightning!

"Daddy, Xi Xi can't hold it back anymore!"

Xi Xi pursed her lips, her cheeks puffed up, her little face beet red, and her wispy hair in front of her forehead fluttering on its own!

The strong fluctuations of Divinity burst out waves of ripples, constantly spreading from her body, making the falling Spring Rain seem twisted and drifting.

"Let's begin."

Jiao Shaoqiu, his simple long robe fluttering in the wind, stroked his beard and smiled.

Hearing this, Li Che set Xi Xi down.

Xi Xi immediately exhaled a breath, her tiny feet stepping down.

Just a tiny figure, but like a bouncing ball, she instantly burst through the spring breeze and light rain!

Like a streak of scarlet lightning across the White Jade Square!

She landed in front of the replicated Golden Celestial Tower.

On Xi Xi's shoulders, the sleeping butterfly seemed to be startled awake, vigorously awakening, flapping its wings, and soaring up against the wind!

Countless particles of light scattered down from the butterfly.

The next moment.

Xi Xi stomped down hard.

Tilting her head back, her black hair wildly dancing.

Her tiny figure, roaring to the sky like a cub roaring in the valley!

Boom—!!!

A majestic wave of Divinity exploded from her body in concentric circles!

Then curling up with the wind!

Dark flames leapt out!

Like a black Prison Lotus burning and blooming!

The next instant.

Jiao Shaoqiu's beard-stroking paused.

Li Che's eyes also condensed.

But saw...

Within Xi Xi's tiny body, countless Divine forces soared up, seemingly condensing and interweaving into a Divine essence of Xi Xi herself.

And that Divinity of Xi Xi, unexpectedly sprouted two heads and six arms!

Six arms with Two Faces!

Indestructible Prison Lotus!

Chapter 626: The Universe Trembles as Xi Xi Joins the Ranks of Chulong, At the Perfect Age of 4, Pure as a Blank Sheet, Regardless of What People Say Boom!

Spring Rain was torn apart, and the turbulent and scorching Divinity bloomed like a black fire lotus between heaven and earth!

With each inhalation and exhalation, amidst the spreading darkness, the spring rain on the vast platform of the Golden Celestial Tower was swept away!

Hiss hiss hiss—

The scorching heat evaporated the falling spring rain droplets, then turned them into a thin mist, which under the caress of the spring breeze, wafted and spread throughout the platform!

And the mist whirled, forming a huge vortex-like appearance.

People only saw in the center of the mist, Divinity abruptly rising, condensing into Xi Xi's blurry figure, almost like a divine incarnation.

Six arms, two heads, one face with furious eyes, showing a slight blue complexion, with two small sharp teeth like that of a tiger.

...

The other face laughing, with a red complexion, similarly with blue face and fiery red hair.

As if standing in place, constantly revolving in a circular motion!

Six arms, some stretched straight, some bent, some clenched into fists, some forming sword fingers!

Postures varied, vibrant in expression!

The mist tumbled, driven by the steaming air currents, stirring and emitting waves of wind howls and explosive sounds!

A very oppressive Divine Hierarchy pressure rolled out expansively!

Boom—!!!

Air waves tumbled, countless raindrops splashed out creating circular ripples as they dispersed.

The parked carriages were shaken by the turbulent winds!

Inside the carriage.

Zhang Ya, with a pale face, grabbed Li Che's shoulders: "Darling... what's happening to Xi Xi?"

"Xi Xi will be alright, won't she? Why does she seem in so much pain?"

Worry was clearly visible in Zhang Ya's eyes.

Seeing her little daughter in such agony, she couldn't help but feel as if her heart was being carved out.

Li Che patted Zhang Ya's arm, signaling reassurance.

"Xi Xi is challenging the Divine Base Realm, her Divine Foundation is unlike ordinary people's Divine Foundations, achieved by breaking through with the Three Purities Divinity Method, not an easy task, but for Xi Xi, it's not much of an issue."

"It's just the beginning now."

Li Che said with a gentle voice, infused with a hint of Divine Sense Power, soothing Zhang Ya's nervous emotions.

Zhang Ya's emotions slowly relaxed, but her eyes still looked tense.

"Xi Xi's physical body is strong, this round of Divine Foundation... won't harm her."

Li Che laughed.

Beside him, Jiao Shaoqiu also displayed a look of astonishment.

"Divine Foundation not yet formed, small divine form arises by itself!"

"This 'Six-Armed Dual-Headed' small divine form, containing extremely powerful Divine Power, if Xi Xi can truly succeed in condensing the Divine Foundation, and bring all this Divinity under control, it will greatly benefit Xi Xi!"

"When Xi Xi later breaks through to the Three Pure Ones Divine Form Method and forges the 'Eight-Armed Three-Faced' Great Divine Form, it will play a significant supportive role!"

Jiao Shaoqiu spoke earnestly.

Indeed, he hadn't expected Xi Xi to be able to invoke a small divine form.

Cultivating the Three Purities Divinity Method, to bring forth a small divine form at the moment of forging the Divine Foundation.

This shows Xi Xi's profound mastery of the extremely difficult "Eight-Armed Three-Faced Hell Lotus Undamaged Divine Base Method!"

A deep comprehension!

Jiao Shaoqiu couldn't help but marvel, this is indeed the talent of a Divine Child with an extreme resonance with the Temple God.

It's precisely because the small divine form is hard to appear, that Jiao Shaoqiu couldn't be entirely sure that Xi Xi could withstand the power contained in this small divine form.

What he could do was only to release his Primordial Spirit, using the Primordial Spirit to reflect, observing Xi Xi's current state, and if something seemed awry, he could intervene in time to prevent Xi Xi from suffering too severe a backlash.

To forge a Divine Foundation is, after all, a major personal affair, it is the critical task for a Divine Cultivator in establishing the foundation of their Divine Cultivation.

Too much interference from outsiders would only affect the quality of the Divine Foundation.

That would be a ruinous blow to Xi Xi's future!

Boom boom boom—!!!

Suddenly, wave after wave of tremendous aura rose from afar, then spanned across the horizon.

Jiao Shaoqiu's golden-colored Primordial Spirit floated high in the sky, furiously scanning the area!

This aura, as it approached, automatically contained itself, preventing any disturbance or disturbance to Xi Xi's breakthrough.

Li Che's Brow Niwan(just above the brow) slightly stirred, the Heaven and Earth Chessboard likewise sprang up, subtly expanding.

Only to discover that the auras of these newcomers were all remarkably strong, actually all Divine Element True Persons, among whom several were not just First Shedding of the Primordial Spirit in cultivation but were Golden Body Cultivators with a Golden Body Transformation.

Undoubtedly, these newcomers were the Outer Sect Elders of the Qian Yuan Divine Sect that Jiao Shaoqiu had Nie Yang notify.

"Great Elder, hearing that a Divine Child is breaking through to Divine Foundation using Three Pure Laws, we

"Have come to observe."

Some rode on clouds, accompanied by children.

One after another, three after three...

The numbers continuously increased.

These people either rode on swords or arrived on rolling tree branches and twigs, and some rode on surging streams...

All using Divine Secret Techniques, showing their full hand.

And consistently, each of these people brought along children, who appeared quite young.

These children were the focal point of this observation event.

Jiao Shaoqiu nodded slightly.

"Since you all understand the rules of observation, there's no need for this old man to drone on."

As the Outer Sect Great Elder, although Jiao Shaoqiu was about to retire and due to injuries, had dropped to the level of Primordial Spirit Metamorphosis, yet his qualifications and status were there for all to see, no one dared to underestimate or behave recklessly.

Jiao Shaoqiu's Primordial Spirit opened and closed his eyes, light sweeping across.

He frowned slightly: "Only you came? Not a single Inner Sect Elder came, not even one Divine Child from the Chu Long List?"

Nie Yang returned, expressionless, the sword light swirling, alighting next to Jiao Shaoqiu's carriage, sword sheathed silently.

"They said, let's talk when Xi Xi enters the Chu Long List."

Nie Yang softly replied.

Chapter 627: The Universe Trembles as Xi Xi Enters the Spectrum, Chulong; Four Years Old, Pure as White Paper, What Will People Say?_2

Jiao Shaoqiu's withered visage, reminiscent of old wood, did not betray much regret: "Indeed, although the Three Pure Ones Divine Foundation Method is used to establish the Divine Foundation, it really doesn't hold much attractiveness for those divine children listed in the Chu Long List."

"Although Xi Xi powerfully overshadowed many divine children in the Temple God Resonance at Eight-Armed Prison Lotus Wrathful Third Prince's Sinister Temple in Golden Light Prefecture City, her reputation in Dao City is indeed not prominent."

"Enough... when Xi Xi becomes a threat to them, they will naturally become anxious."

Jiao Shaoqiu originally planned to let Xi Xi stimulate these divine children, striving to be more motivated in this assessment of direct disciples by the Sect Master, the Great God.

To secure the spot of the direct disciple of the Sect Master, the Great God, within the hands of disciples of Qian Yuan Divine Sect.

Jiao Shaoqiu no longer bothered with these people; even the divine children on the Outer Sect's Chulong List could stimulate quite a bit.

Yun E and Zhou Peng had arrived as well.

...

Zhou Peng followed at Wang Kuyu's side. Wang Kuyu, with a mild smile on his face, wore a Daoist robe and lightly swung his horsetail whisk.

Yun E followed a female cultivator, who wore a light yellow long skirt with a beautiful countenance. She too was an elder of the Outer Sect, and also an elder of the thousand-year-old Yun Family Clan within the Divine Sect.

Around the Daping area of Golden Celestial Tower, people gathered densely.

All eyes were on the tiny Xi Xi, witnessing the scene of her forging the Divine Foundation!

From Nurturing Nature to forging the Divine Foundation, it was not an easy task, terribly dangerous.

Because at this moment, divine cultivation had not yet birthed the Divine Sense, and consciousness was extremely susceptible to the influence of Divinity, and even after being confused, could fall into chaos.

Back in Fei Lei City, so many clan juniors were stuck at the step of striking to forge their Divine Foundation.

Many people even failed to succeed, becoming possessed by Divinity, completely mad, and then perished.

Eyes swept over, resting upon the formed six-armed, two-headed small divine form of Xi Xi!

Many divine children's expressions slightly altered.

Small divine form?!

No...

Is this breaking through the Divine Foundation?

If one fails to suppress this small divine form, this little lass, let alone forging the Divine Foundation, might even be controlled by the small divine form, right?!

In the end, become a slave to Divinity—if saved, a lifetime...also ruined!

This is also why many cultivators do not allow the younger generation to cultivate high-rank Divine Methods.

Without the power to control, if you cultivate beyond what you can bear and control, it's very likely to suffer backlash.

The Three Pure Ones Divine Foundation Method...is not absent within the Divine Sect Mountain Gate.

But those who can truly establish the Three Pure Ones Divine Foundation, there are only a few in the first ten of the Chu Long List.

For a moment, many divine children's looks became meaningful.

To attend as guests?

To attend a funeral, perhaps?!

Suddenly, many divine children caused a commotion.

Turning their heads, they saw several streaks of light falling at the edge of the Daping area of Golden Celestial Tower.

Among them, Innate Great Grandmaster Wei He, who led the Golden Light Prefecture City's train into Dao City, was accompanied by a child of about seven or eight years old.

"That's Zhong Yuhuo from the tenth spot of the Chu Long List! It seems he has already been taken in as a disciple by an Inner Sect Four Elder ahead of time!"

"And there is Zhuo Banxiang, ranked ninth on the Chu Long List! Taken in as a disciple by an Inner Sect Third Elder ahead of time!"

"That one...is it Chi Chengyan? Eighth on the Chu Long List?"

Suddenly...

Everyone's voice trembled.

"Is that the divine child from the number one noble family of Yuan Dao City, Su Family's Chulong List third-ranked Su Chuyang? How come he's here?"

Suddenly, many divine children exclaimed in surprise, looking towards the distance.

...

...

Li Che, of course, also noticed that these divine children brought as guests harbored some schadenfreude in their hearts.

It seems that upon noticing the formation of Xi Xi's small divine form, they didn't hold much hope for Xi Xi's breakthrough.

And amidst waves of exclamation, Li Che saw many divine children from the Inner Sect Chulong List.

To be on the Chulong List means one's cultivation has reached the Divine Foundation and has been recognized by the Qiankun Dao Yun plaque of the Divine Sect Mountain Gate.

"Third on the Chu Long List?"

Even Li Che was drawn by this title.

Turning his head to look, he saw a small figure standing in the distance atop the elegantly parked carriage.

A petite body, dressed in a white shirt, holding an oil-paper umbrella.

Li Che even felt a moment of daze...

"Su Huaili?"

Li Che's eyes suddenly tightened.

This child...is too similar to Su Huaili!

"A divine child from the noble Su Family of Qianyuan Dao City?"

Li Che collected his thoughts.

Su Huaili whom he had just killed was from the Su Family, although born from the concubine.

But Su Huaili and the Su Family always had a good relationship.

Li Che, before killing Su Huaili, had inquired about this information, and even prepared for this contingency.

But Su Huaili obviously trusted You Liqing's strength more, not expecting that You Liqing would fail to protect him.

"The power structure within Qian Yuan Dao City's noble families is 'one above three majors': the Su Family being a three thousand years family, while the Zhou Family, Zhong Family, and Yun Family, are all but thousand-year-old families."

Li Che slowly withdraws his gaze, no longer paying attention to the child that looked a lot like Su Huaili.

And as Li Che withdrew his gaze.

From inside the carriage, a faint voice was heard.

"Chuyang, come inside the carriage."

Upon hearing this, Su Chuyang paused and crawled back into the carriage.

Inside the carriage, an old man sat. Like Jiao Shaoqiu, he was dressed in a simple robe, extremely withered, but his presence was much more profound and formidable than Jiao Shaoqiu's.

"Just now...there was a killing intent."

"Although it wasn't directed at you, it involved you

The old man said softly.

"Just watch from inside the carriage... This little lass, coming from Golden Light Mansion City, overshadowing Ji Moli's son Ji Haihui, and also surpassing the one from Divine Capital, Tie Shancai, as well as that... down-and-out Young Prince, becoming the inheritor of the Third Prince Temple God."

Chapter 628: The Universe Trembles as Xi Xi Enters the Ranks of Chulong, At the Perfect Age of Four, Pure as a Blank Sheet, What Will People Say?_3 "She's breaking through to the Divine Foundation, which is quite a sight. You can watch."

"Your main goal is still to join the Sect Master as a disciple."

Upon hearing this, Su Chuyang respectfully clasped his fists and said, "Yes, Elder."

...

Xi Xi's little face was flushed red, her brow's Mud Pill bulging, and the black Prison Lotus Divine Pattern immediately emerged, as if seething black flames were exploding forth.

Around her, black Fire Lotuses took shape!

The mist around her roiled as Xi Xi looked up, fixing her gaze on the small divine form with six arms and two faces!

...

Xi Xi knew that in order to forge her Divine Foundation, she must suppress this small divine form, pressing it into her own Divine Foundation.

Only by doing so could she consider the forging of her Divine Foundation a success.

Otherwise, it was failure!

The forging of the Divine Foundation was a process of challenging oneself!

Xi Xi believed in herself. She could definitely do it!

Boom!

Xi Xi's arms, which were as tender as lotus roots, suddenly flexed, her fingers curling into fists, vaguely revealing the silhouettes of the Purple Flame Serpent Spear and Gold Brick on the surface of her arms!

"Come!"

"I'll hit you!"

Xi Xi's Qi-Blood roared out, one Qi Channel punctured, Qi Force flying around. The little girl stepped on the mist and charged forward.

She swung her fist at the small divine form with six arms and two faces!

Recklessly!

Boom!!!

With a punch thrown, the air itself seemed to emit a pitiful wail, and the scorching wind immediately rose up with Xi Xi's punch, swirling ceaselessly!

The small divine form, with a green face and fierce eyes, roared angrily. Amidst the powerful fluctuations of Divinity, a false spear made of Purple Flame Serpent Spear emerged, ruthlessly pointing down at Xi Xi!

In an instant, the spear's radiance came at her like a howling gale, as if the air around Xi Xi was sealed by the spear.

However, Xi Xi shouted and her fist smashed out with brute force!

Thud!

Without any finesse!

Fist clashed with spear, and the small divine form of Xi Xi, with its green face and fierce teeth, shook violently. The silhouette of the Purple Flame Serpent Spear exploded, then flipped over, and a Yin Divine Sword emerged, still shattered by Xi Xi's fist!

Xi Xi, wielding a Mythical Weapon in each hand, had tempered her physical body to the Grandmaster level, omnipotent and fearless!

Continuous pounding, and with the blessing of a true Divine Weapon, Xi Xi was unstoppable!

The small divine form launched a final resistance.

Each of the six arms revealed Divine Weapons condensed from Divinity, spinning towards Xi Xi.

Xi Xi then fiercely kicked out.

Accompanied by the buzz of the Wind Fire Golden Wheel spinning at high speed, sparks flew.

From Xi Xi's feet, the Prison Lotus Wind Fire Golden Light Wheel truly streaked forth.

In an instant, it rolled over the small divine form!

The small divine form exploded in an instant!

It turned into an abundant descent of Divinity, pressed into a black lotus platform-sized Divine Foundation!

On the surface of the Divine Foundation, even the pattern of the six-armed two-faced small divine form was engraved.

Black flames blazed up to the sky.

Xi Xi placed her arms akimbo, puffing out her little belly, turning excitedly to look at Li Che and Zhang Ya.

"Daddy, Mommy! Xi Xi has done it!"

Xi Xi, with her hands on her hips, behind her floated a Divine Foundation in the shape of a Prison Lotus platform, with rolling black flames.

Li Che's face immediately broke into a smile.

Indeed, just as he had anticipated.

Without much suspense, no finesse, almost a one-sided crush...

Xi Xi, harboring three Mythical Divine Weapons within her body, immensely strong, how could the small divine form suppress her?

Now Li Che was worried that if Xi Xi truly mastered the Divine Martial Technique of Eight-Armed Three-Faced, and there were only two Mythical Weapons on the eight arms, it wouldn't look too good.

As a father, he certainly has work to do; the Third Crown Prince's other Divine Armor Sets must be acquired somehow to complete Xi Xi's set!

"The Qiankun Vajra Ring is at the Dragon Abyss Path

"In my Heaven and Earth Chessboard, there is a Yin Divine Sword, but that sword contains too much of Ji Moli's Martial Dao Will. Once I have completely erased the Martial Saint's Will from it, I can give it to the girl."

Li Che unconsciously pondered in his heart, already worried about gathering a Divine Armor Set for his daughter.

Zhang Ya let out a long sigh of relief.

"She's done it! Xi Xi has succeeded!"

"Dear! Our Xi Xi has forged a Divine Foundation at the age of four!"

Zhang Ya then felt a bit incredulous, dizzy with disbelief.

Her daughter, was she really that amazing?!

Jiao Shaoqiu's Primordial Spirit, which had risen into the air shining with Golden Light, now also returned to his body, revealing a surprised smile.

He had thought that it might not be easy for Xi Xi to suppress the small divine form.

But as it turned out...

Xi Xi utterly crushed the small divine form, and the challenge of the Divine Foundation Technique of the Three Pure Ranks was useless to the girl.

"The second round of Prison Lotus Wind Fire Golden Light Wheel... this little girl can actually control it slightly!"

"No wonder it was so easy."

Jiao Shaoqiu also let out a long sigh.

This time, inviting people to witness the event, it seemed he had made no mistake.

This little girl... was simply too compatible with this Mythical Weapon.

Jiao Shaoqiu's eyes twinkled, and a thought arose in his heart.

"The Prison Lotus Wind Fire Golden Light Wheel is a pair... how could they be separated?"

"Since Xi Xi is so compatible with this Divine Weapon, I wonder if I could persuade those stubborn old fellows to give the Prison Lotus Wind Fire Golden Light Wheel to Xi Xi?"

Jiao Shaoqiu's thoughts grew bolder.

Perfectly timed, with so many witnesses this time, they could build momentum for Xi Xi. Once Xi Xi entered the Inner Sect, it might really be possible!

Of course, Jiao Shaoqiu knew how difficult this would be.

After all, among those old fellows, one of them had set his sights on the Prison Lotus Wind Fire Golden Light Wheel, wishing to fully master this Four Royal Divine Weapon and break through to a higher realm.

Chapter 629: The Universe Trembles as Xi Xi Enters the Ranks of Chulong, At the Perfect Age of Four, Pure as a Blank Sheet, What Will People Say?_4 “`

Rumbling

Just when everyone was astonished that Xi Xi had so effortlessly completed the Divine Foundation construction of the Three Pure Ones' Rank Method,

Suddenly, a series of booming sounds emanated from the entire Mountain Gate.

Everyone looked up towards the direction of the Mountain Gate's plaque.

Above the plaque, a tyrannically deep Dragon's Chant burst forth, shooting into the sky.

"Qiankun shakes, Chulong soars!"

"The Chulong List must have seen a major change!"

"Could it be... Could it be that this four-year-old girl, having just forged her Divine Foundation, has entered the Chulong List?"

Many children started to exclaim in astonishment.

...

Jiao Shaoqiu looked at the gradually disappearing spectacle, and even his withered face, as old as deadwood, revealed a brilliantly bright smile.

"Nie Yang, go to the Mountain Gate and copy the latest Chulong List."

Upon hearing this command, Nie Yang, after giving a salute with his fist, transformed into a sword light and hurriedly flitted away.

Meanwhile, some of the Outer Elders who were present at the ceremony were too restless to sit still and had already set off towards the Mountain Gate's plaque.

The Spring Rain drizzled down incessantly onto the ground.

The vast expanse of Golden Tower Daping came alive with excitement, many children brought to witness the forging of Xi Xi's Divine Foundation were now unable to contain themselves, chattering nonstop.

Xi Xi, having forged her Divine Foundation, was in great spirits.

Xi Xi grew stronger again, and with a bit more strength, next time Daddy spans her, she might be able to resist!

Li Che rubbed Xi Xi's head, picked her up, and his Immaculate Heart Divinity surged out, tidying up her Qi-Blood and the fluctuations of Divinity brought about by the recent forging of the Prison Lotus Divine Foundation.

In just a moment.

The distant Spring Rain seemed to be sliced open like a curtain.

Leading the group, Nie Yang, speedily soaring on his sword, returned, alighting upon it, his powerful Qi-Blood tumbling, so much so that the rainwater was mercilessly whipped into a frenzy.

"Elder Jiao, the Chulong List has indeed been updated."

Nie Yang passed the freshly copied Chulong List to Jiao Shaoqiu.

Jiao Shaoqiu eagerly took it.

Li Che swept it with his Divine Sense, his gaze falling upon it, clearly reading the list.

"Chulong List, first place, Lv Qingxuan, nine years old."

"Chulong List, second place, Yang Yi, nine years old."

"Chulong List, third place, Li Nuanxi, four years old."

...

Third in the Chulong List!

Xi Xi ranked third in the Chulong List?!

Even Li Che was slightly shocked, filled with a bit of surprise and joy!

Jiao Shaoqiu also revealed a few traces of disbelief in his murky eyes.

"Third?"

Although Jiao Shaoqiu had great confidence in Xi Xi's talent,

Still...

To suddenly leap to third place in the Chulong List, Jiao Shaoqiu was indeed caught a little off guard.

That ranking was indeed too high!

No wonder it caused the Qiankun Dao Yun to burst forth with the spectacle of a Chulong soaring to the heavens!

This meant that there was a Chulong emerging from the abyss, a sensation to behold.

Soaring to the sky!

Xi Xi directly parachuted to third place, pushing down Su Chuyang, who was originally in the top three.

And all the prodigies behind her would have to move down a spot.

The originally thirtieth-ranked Chulong,

Might even...

Directly fall out of the Chulong List!

Such a change... naturally tremendous!

"Hahaha, good, very good!"

Jiao Shaoqiu stroked his beard and laughed heartily, his mood quite elated.

He had indeed brought back an excellent seedling for the Divine Sect!

This trip to the Golden Light Prefecture has reaped a bountiful harvest!

Jiao Shaoqiu was now looking forward even more to whether Xi Xi could compete for the position of the Sect Master's Direct Disciple!

As the Great Elder of the Divine Sect Outer Sect, Jiao Shaoqiu had dedicated his whole life to the Sect.

He certainly did not wish for the Direct Disciple quota to fall into the hands of someone else.

...

...

In the distant carriage.

“

The spring waters, transformed into a curtain of rain, washed everything clean.

Inside the carriage, the curtains were slowly drawn down.

Su Chuyang sat in the soft carriage, his eyes staring in slight disbelief.

"I've become fourth

"I was actually... surpassed?"

Su Chuyang murmured.

The judgment of the Chulong List was based on the Qiankun Dao Yun left by ancestral masters within the sect's Divine Weapons.

It was almost never wrong, meaning that Su Chuyang's talent and combat power, when taken together, were indeed inferior to that little girl who had just formed her Divine Foundation.

"Just formed the Divine Foundation and she entered the Chulong List as the third... This little girl, is her talent really that exceptional?" Inside the carriage, the old man was also somewhat surprised.

The judgment based on Qiankun Dao Yun was absolutely reliable.

It meant that Li Nuanxi, in terms of combat power, had surpassed Su Chuyang, unless Su Chuyang resorted to external aids like Divine Talisman, Blood Explosion Pill, and God Strengthening Pill.

Otherwise, Su Chuyang would definitely lose to this four-year-old little girl.

Their Su Family's nine-year-old hidden dragon...

Was actually not a match for a little girl!

The old man took a deep breath, his eyes flickering slightly. Then he turned to look at Su Chuyang, who was hanging his head, his gaze lost.

"Elder... do I still have a chance?"

Su Chuyang raised his head, looking at the old man, and asked bitterly.

In his voice, there was a mix of confusion and lack of confidence.

He was not willing to accept this.

But what about that?

The judgment of the Qiankun Dao Yun... has rarely been wrong since ancient times.

"Chance? You probably don't have one... unless you can achieve a great breakthrough within three days, otherwise, if the Chulong List judges that you are weaker than this girl, then you are indeed weaker than her."

"Even if she has just condensed her Divine Foundation... but, that's the authority."

The old man said lightly.

"But just because you are not as good as her on the Chulong List, doesn't mean you won't be better than her in the future... The Yellow Sword Wine of those years was only at the bottom of the Chulong List, and now, isn't he also the second True Successor on the True Inheritor List?"

"There are those who come from behind and surpass the early achievers!"

Su Chuyang's trembling body steadied, and a flicker of fighting spirit ignited in his heart.

"But... for such a favored daughter of heaven, you shouldn't harbor thoughts of competing with her."

Holding a teacup, the elder sipped the fragrant steam of the early spring tender shoots green tea and said quietly.

Su Chuyang was startled, and the fighting spirit that had just arisen in his heart instantly shattered.

He looked up at the elder.

"Not to compare with her? Then what should I do? Please advise, elder."

Su Chuyang clasped his fists.

The old man stroked his beard with a smile.

He looked at Su Chuyang with meaning.

"Use emotion to trap her."

"Make her fall in love with you deeply, to marry into our Su Family in the future. With such talent, combined with you, the offspring that will be cultivated... will certainly be extraordinary."

Upon hearing this, Su Chuyang was a bit stunned.

"Elder... she's only four years old."

The elder looked out the window, his gaze deep.

"Four years old is just right, as pure as white paper. You can also put some emotion into it, start nurturing from a young age, like growing green plums, and without much effort, she will loyally continue the prime bloodline for our Su Family."

"Just like Yellow Sword Wine's green plum back then

"That brother of yours also put in quite an effort

"Moreover, for such a favored daughter of heaven, if you take her Guard Palace Sand in the future and combine it with the Su Family's Divine Secret Technique, its effectiveness will be no less than an elixir."

...

...

The spring rain drizzled down.

It hit the top of the carriage, making a crisp sound.

Li Che held Xi Xi, sitting upright inside the carriage, laughing and chatting with his excited wife, Zhang Ya. But if one looked closely...

One could detect a flash of icy coldness in his eyes.

And even a hint of unrestrained murderous intent.

The True Ape God Image in his Brow Niwan could hardly stop itself from pounding its chest and roaring!

"Four years old is just right, as pure as white paper?"

"An upright gentleman in advanced age, a sly old thief!"

"How preposterous is that?!"

Chapter 630: The Despair of Knowing Longevity but Unable to Obtain It, the Dao Fruit Nurtures All Five Zang Divine Gang

Su Family!

Li Che remembered the Su Family; towards this Number One Great Family of the Qianyuan Dao City, he had lost all fondness.

Originally, Li Che did not hold much affection towards the Su Family, especially since there was Su Huaili who colluded with the Corpse God Cult.

Now, the behavior and teachings of the Su Family elders to the juniors only deepened Li Che's disgust.

"Still planning to use the Su Family's secret technique to seize a young girl's Guard Palace Sand for cultivation?"

...

"Such a secret technique, such a Su Family, at a glance it's clear they are up to no good."

The carriage jolted, tearing through the spring rain, driving along the wide and paved mountain road within the Divine Sect.

Xi Xi had broken through the Divine Foundation, her Martial Cultivation had officially stepped into the Qi Channels, coupled with her Innate Divine Strength, she possessed boundless power, even if she faced a Xuanmai Warrior, she could kill with two or three punches.

Xi Xi nestled in Zhang Ya's embrace, proudly boasting about the domineering presence that belonged to Emperor Xi Xi.

Suppressing that six-armed, two-headed monster!

Li Che looked at Xi Xi's chubby little face, animated and beaming with excitement.

Hesitating whether to tell her...

That the monster was actually yourself?

In the future, when you perform the Divine Martial Technique, you would also turn into such a form.

Like the “Heavens and Earth Spirit Ape Law” which Li Che cultivated, it contained the Divine Martial Technique [Law of Heaven and Earth]. Indeed, once performed, one would become inhuman.

But...

It didn't matter much.

In daddy's heart, Xi Xi would always be the most adorable little one.

Jiao Shaoqiu sat inside the carriage, a gentle smile hanging on his lips, watching Xi Xi he truly found her endearing.

Vivacious, talented, bright as the sun... such a wonderful child.

If the descendants of the Sect were all like her, how could there be worry of no successors for the Sect?

"She is listed on the Chu Long List, ranking third. Although Xi Xi has just joined the Divine Sect, and for now is just considered as an Outer Disciple under my command, the resources she enjoys are no weaker than those of the Inner Sect."

"And every month, she can have an opportunity to comprehend the Qiankun Dao Yun, even a chance to gain inheritance from the Ancestor."

Jiao Shaoqiu sat in the carriage, smiling as he looked towards Li Che, and said.

"The Ancestor's inheritance?"

Upon hearing this, Li Che inhaled deeply. According to Jiao Shaoqiu, the so-called Ancestor of the Qian Yuan Divine Sect was a powerhouse of the Divine Tribulation Realm!

Looking at the entire world, they belonged to the rare few.

"The Ancestor indeed left his inheritance in that Sect's signboard; that was a Divine Tribulation Expert's willingness to linger in the human world, enduring eternally

Jiao Shaoqiu slightly closed his eyes and slowly started to narrate some legends about the Ancestor of the Qian Yuan Divine Sect.

"The Ancestor of the Qian Yuan Divine Sect was one of the top Martial Artists who first discovered the Mysterious Temple. According to the Sect's records, the Ancestor initially cultivated Pure Martial, with his astonishing Martial Talent he dominated the world, broke through the boundary of the Top Three Flowers Grandmaster, stepped into the Martial Saint Realm, wandering freely."

"After discovering the Mysterious Temple, in cooperation with the Martial Saint Experts of that time, after suppressing it, he obtained the inheritance of the Temple God. At that time...The Temple God Divine Method was a taboo, Divinity was considered a poison of heaven and earth, possessing terrible eroding power, it would erode one's will, the spirit, and the soul."

"However, some, who had reached their limit, old and decaying, Qi-Blood deteriorating, had no escape, chose to cultivate the Divine Method...extending their lives, living a new life. Therefore, Divine Cultivation could not be stopped. The Ancestor eventually also embarked on the path of Divine Cultivation, and even obtained the inheritance of the Temple God, cultivating at an extremely fast pace

"At that time, with the Mysterious Temple just born, Divinity in the world was extremely abundant. The Ancestor, with the body of a Martial Saint, converted to Divinity, nurtured the Divine Fetus, and in one fell swoop entered the Divine Tribulation Realm, receiving the purification of Heavenly Tribulation, each cleansing granting Dao Yun upon him, extending his life span

Jiao Shaoqiu's eyes sparkled, carrying a longing for that supreme realm.

The world born of calamities, purifying tribulations, transforming the soul, the physical body, gaining power that transcends the mortal realm, truly as if Immortal and Godlike...

It's really endlessly desirable.

Li Che held Xi Xi, and Zhang Ya also listened attentively.

"Such a powerful Qiankun Ancestor, why did he die then?"

Xi Xi in Li Che's arms, blinking her big eyes, asked curiously.

Jiao Shaoqiu glanced at Xi Xi, let out a sigh: "Extending life and seizing longevity defies the heavens, the world does not allow... the tribulations faced by Divine Tribulation Cultivators are terrifying, and moreover...according to the records, Divine Tribulation consists of Three Calamities and Nine Tribulations, after overcoming the Three Calamities, breaking through the Nine Tribulations can one transcend

"But how could that be so easy? The Ancestor fell during a tribulation. According to Sect records, when the Ancestor faced hopeless odds, he entered the Three Pure Bizarre Temples' Strange Que... The Sect's eternal flame extinguished, and from then on, he did not return."

Jiao Shaoqiu looked deeply sorrowful.

His withered hair fluttered as he turned to look out the carriage window at the drizzling spring rain.

"The Ancestor once said, the emergence of the Strange Temple, the birth of Divinity

"Let the short-lived Martial Artists see the hope for longevity."

"But it also made people understand the despair of knowing that longevity is unattainable."

Li Che's gaze slightly firmed.

Knowing longevity but unable to achieve...

Could he, Li Che, achieve longevity?

Within his chest, one Dao Fruit after another gently trembled, thumping rhythmically.

Perhaps it's possible.

He stroked Xi Xi's head in his embrace.

But to attain longevity alone is too dull.

He just wanted to take his wife and quietly watch his daughter attain longevity.

...

...

Located at the mid-slope of a stretch of mountains, there was actually a city built there.

Not small, and upon a rough glance from Li Che, it even surpassed Fei Lei City.

This was a region established within the Divine Sect's Mountain Gate by Inner and Outer Sect disciples, for interacting with the outer world, mutual trading, and brief enjoyment.

Those living in this city were all disciples of the Divine Sect.

Some who were older, Qi-Blood deteriorating, and with difficulty increasing their Divinity, unwilling to leave the Sect, would gather in this city, making this city become a bustling urban area.
